HOLLAND CITY STATE BANK

MR. HARRINGTON WAS FIRST DEPOSITOR IN LOCAL BANK

ALSO RECEIVED LARGE SUM OF CONSCIENCE MONEY FROM A BURGLAR

E. J. Harrington, former mayor of Holland, and pioneer in this city, whose funeral took place this afternoon, had some unique happenings in his life time.

Some 35 years ago burglars broke into his general store, broke open the safe, besides stealing a great deal of merchandise amounting to upward of \$400.00.

About two years ago the old gentleman received an anonymous letter from the burglar containing the amount of money stolen and stating that long ago he had departed from his evil life, had been converted, and had worked hard to get the required amount in order that Mr. Harrington might be reimbursed with interest.

Mr. Harrington was also the first depositor, to put his money in the Holland City State Bank of this city.

It can also be said that for 65 years he has lived in the same house at 89 East 9th street from which place the funeral was held this afternoon.

The dwelling has remained unchanged, and stands today just as the carpenters left it three score years ago.

HOLLAND BOY IS LIGHTKEEPER IN LONESOME SPOT

HAS BEEN VISITING RELATIVES IN THIS VICINITY

George Meengs at one time light keeper at Holland harbor and son of the old captain who tended Holland's lights for 37 years until ten years ago, is now stationed on one of the Minutou islands.

He and his wife live alone in the light house and the nearest neighbor is a half mile away. The island upon which Mr. Meengs is stationed is 7,000 acres and the entire island has a population of 100 inhabitants composed of fishermen and farmers.

In the winter mail does not reach him much oftener than once in six weeks from the main land. In the summer time the mail comes twice a week. One peculiar feature too is the fact that there is no doctor on the island, and if one is needed, he must be gotten from the main land.

There is a coast guard station at that point nearly a half mile away from the light.

Mr. Meengs is far from civilization and the only glimpse he gets of real life is from the forty or fifty big steamers that pass this point daily, but never stop.

These are ships making Lake Superior to Duluth, and other points, and also vessels going through the Straits to Buffalo, N. Y. and to other lake ports.

Mr. Meengs is first assistant keeper at this station, and gets a day off every third day. He states that he hardly knows what to do with his spare time up there.

If he was still stationed at Holland or further south the off day would be a welcome event, but he is placed in the position of the man in the popular song, "All dressed up and no place to go."

Mr. Meengs also stated that he made the trip from the Minutou in the old Graham and Morton Steamer "Puritan," commandeered from this harbor by the government during the war. He states she is still a staunch old boat, good for several years more.

Mrs. Meengs is a Muskegon girl, and it was apparent on her visit here that she longed to come away from her lonely surroundings to "God's Country" as she expressed it.

She said, "I think Holland is one of the most beautiful cities I ever was in, for it certainly looks fine to me after coming from way up north."

Mr. Meengs was formerly in the carpet weaving business in Holland, but has been in the service nearly 13 years.

ALLEGAN FARMERS SELL WHEAT DIRECT TO BUYERS

The Allegan county farm bureau put into operation this week its first step in co-operative marketing when a carload of wheat was loaded by its members and consigned direct to the final purchaser. While the plan is more or less of an experiment here, farmers are enthusiastic over the merits of the direct-to-consumer plan.

HOLLAND TO HAVE A NEW ICE PLANT

A QUARTER MILLION DOLLARS WAS SUBSCRIBED WITHIN A FEW HOURS

Have Purchased the Entire Plant of the Holland Gelatin Company

Holland is to have a new ice and storage plant and it is to be one of the largest of its kind in Western Michigan.

Within a few hours \$250,000 was subscribed and many Holland men have taken stock in the new concern.

The new plant is incorporated under the name of the Holland Pure Ice and Storage Co. and every piece of ice made at this plant will be made from distilled water which makes a chemically pure product.

The new plant will have a capacity of turning out 100 tons of ice daily and the company already has contracts made to supply many customers in Holland and its resorts, Zeeland, Saugatuck, Hamilton, Spring Lake and Grand Haven.

Yesterday the order for the machinery was given and the contract to remodel the buildings was also let.

The Holland Pure Ice and Storage Co. expects to deliver ice to its customers in Holland and elsewhere by Sept. 1, starting out with four large trucks.

Not alone will this company make ice but it will also go into the cold storage business. Besides having room for the ice plant the company still has available nearly two million cubic feet of storage space. Large blocks of this amount have been rented by business men of Holland and vicinity who in the past have been storing their wares in Grand Rapids cold storage houses.

A number of prominent men have identified themselves with this concern and see a great future in pure artificial ice and a cold storage plant in this vicinity.

Although the organization has not been entirely perfected it has been made known that Henry Kraker of the Kraker Plumbing Co. has been named president and C. A. Bigge of the Northwestern Life Insurance Co. has been selected as secretary and treasurer.

ALL SOLDIERS' BONUS BLANKS ARE HERE

CAN BE FILLED OUT AT THE PEOPLES STATE BANK

Bonus blanks for soldiers, sailors and marines have all arrived, and the soldiers are requested to call at the Peoples State Bank with their honorable discharge papers and his certificate of service, and all will be soon fixed up.

If any in this class do not have their war service certificates which they must have to get the bonus, they are requested to write immediately to the Bureau of Navigation, Navy department, Washington, D. C. and the officials there will send their certificates immediately.

Some weeks ago Holland ran out of bonus blanks, and more soldiers came to have them filled out, than there were blanks. At that time they left their discharge papers in the care of the bank.

These soldiers some twenty in number are requested to come to the Peoples State Bank in order to have their discharge papers returned to them, and also for the purpose of signing the filled out bonus blanks that are also ready for them.

SHALL WE BELIEVE THESE FISHERMEN? WE SHALL

John VanAppledorn, William Eby, and Tony Van Dort returned a few days ago from a fishing trip near Pine Creek Bay. They were casting for black bass, and one of the Isaac Watons pulled up a 5 1/2 pound black bass. Four more large bass were caught and the mess was slipped on a store cord and left dangling in the water. When the fishermen in the boat reached the Holland landing, only the short end of the string was left, but the beautiful bass were gone, including the 5 1/2 pounder.

Shall we believe them? "We'll tell the world," we shall.

TONIGHT ANOTHER POPULAR BAND CONCERT IN PARK

Last week thousands attended the first Legion Band concert in Centennial Park. Tonight at 8:00 the second concert will be staged.

An entirely new program has been arranged for and some special features will be given. One of these will be a saxophone quartet.

Bandmaster Van Vyven intended to give some "peppy" music tonight at 8 o'clock and all Holland and vicinity is invited.

ACCEPTS PLACE AT HOPE HIGH SCHOOL

MARTIN DE WOLF APPOINTED PRINCIPAL IN SCHOOL IN INDIA

Word has been received from Rochester, N. Y., that Mr. Martin De Wolf of Rochester, and a graduate of the 1921 class of Hope College, has been appointed and has accepted position of principal of the Hope High school at Madanapelle, India. The salary of the principal is paid by the students of Hope College.

During his college days, Mr. De Wolf was active in the missionary activities at Hope, and also was a member of the Student Volunteer Band.

COURT ROOM TO BE VISITORS HEADQUARTERS

COUNCIL GRANTS PERMISSION TO MASON TO USE THE BUILDINGS ON AUG. 6

The court room of the city will be the headquarters for the entertainment of visitors to the city on August 6th when the cornerstone of the new Masonic Temple will be laid. The officials of Unity Lodge Wednesday evening asked the council for this right and it was readily granted.

The council made no objections to the request. The laying of the cornerstone will be one of the biggest days Holland has had in years, so far as number of visitors is concerned and the council by granting the request did its share in making the thousands of visitors welcome to the city on that day.

HOLLAND MAN GETS HAND SMASHED IN LARGE PRESS

JOHN H. MEYER WAS SERIOUSLY INJURED AT UPPER LEATHER TANNERY

J. H. Meyer was seriously injured at the North Side Tannery yesterday. Meyer was running the large 400 ton pressure hydraulic leather press. He was straightening out a side that was ruffled but did not pull his hand out soon enough. There was only one result, the man's hand was crushed to a pulp. He was rushed to the Holland Hospital where Dr. Wm. Tappan amputated the member. The man is doing as well as can be expected under the circumstances.

The Lyric Glee club held its first annual picnic at Tennessee Beach with a full membership present, including wives and sweethearts. All report a wonderful time. A baseball game between the Ten Hour specials and the Ter Beek pinch hitters resulted in a score of 1 to 0. The pinickers are still in doubt as to which team got the zero mark. Lunch was served in Dick Boter's cottage, kindly loaned for the occasion, and the balance of the evening was "one sweet song."

GRAND HAVEN NOW HAS REASON TO CROW

The Grandville-Jenison baseball team after winning 19 straight games suffered its first defeat of the season at Grand Haven 6 to 5 in 10 innings of the most aggressive play ever seen at the county seat in years. A single by Morgan sent Robinson across the plate with the winning run in the tenth inning. The visitors scored twice in the ninth and tied the score, a daring steal of home by Maxfield featuring. A home run by Vander Molen of the visitors and the fielding of Right Fielder Jack Martin of Grand Haven, a former catcher were other features.

Grand-Jen. 0 0 0 1 0 2 0 0 2 0-5
Gr. Haven. 0 0 0 0 2 0 1 2 0 1-6
Batteries—Vander Bunt and Vander Molen; Mullis and Robinson.

Holland must play this team again if one can be arranged. The Independents were defeated twice by the Grandville-Jenison team altho it has won over the Grand Haven team, the victors in yesterday's game.

WILL MAKE KOLLEN BATHING BEACH SAFE

COUNCIL ASKS PARK BOARD TO TAKE THE NECESSARY STEPS

Life Guard Is Appointed For This Place By the Red Cross

The bathing beach in the George E. Kollen Memorial Park is to be safeguarded and this is to be done without delay. That was the decision reached Wednesday evening by the common council when it was decided to have piling placed in the lake some distance from shore to indicate where the dropoff begins. A rope or cable will also be provided which the bathers may use and which will serve as an added safeguard.

When the matter was called to the council's attention, the aldermen requested the park board to have the piling placed and to take the other necessary steps to make this a safe bathing beach for the people of Holland. The board was requested to have the necessary work done immediately so that the beach may still be of use during the present summer. There has been no drownings at this point so far this summer, but the beach is dangerous when not protected, and the council by its action was trying to get ahead of trouble and to prevent drownings there.

The Red Cross is also doing its share to make this bathing beach safe for the people of Holland. Mr. Francis Deto has been appointed by the Red Cross as a life guard at this point. Mr. Deto is a former member of the Macatawa Life Saving crew and fully capable to handle this work. Work will also be started making this a more desirable bathing beach so far as removing obstructions is concerned, and in a few days the Red Cross will bring a swimming official to this beach to give lessons in resuscitation.

Negotiations are also on for the use of an old building as a bathhouse and if these negotiations fail, two tents will be erected on the grounds.

ASKS USE OF SIDETRACK TO WATERWORKS

BERT MICHMERSHUIZEN PETITIONS COUNCIL FOR RIGHT TO UNLOAD COAL

Bert Michmershuizen submitted a formal petition to the council Wednesday evening asking permission to use the sidetrack that leads to the water works for purposes of receiving and unloading coal. The sidetrack is adjacent to the new coal yard on the Michmershuizen property north of sixth street and east of College avenue. A city ordinance forbids the placing of trains or cars on this sidetrack, except for loading or unloading by the city or its boards or officers only.

In his petition Mr. Michmershuizen points out that there is no residence or business place of any individual that could be inconvenienced by the unloading of cars there. For that reason he asked the council to take the necessary steps to have the ordinance so modified that the request could be granted. The matter was referred to the ordinance committee.

TO RE-ADVERTISE EAST NINTH STREET JOB

The council will have to go thru the motions again in the matter of the paving of East Ninth street. The original project for this paving included putting pavement on Garretson avenue, the little street that connects East Ninth street with E. 8th street where Ninth street ends. Three of the property owners on this avenue objected and hence it will be necessary to readvertise the whole job.

There are 25 more jobs open for ex-service men fitted for outdoor work. Please apply at Peoples State Bank as soon as possible.

Marshall Irving of the Peoples State Bank has steady work for five service men, beginning tomorrow. Those wishing employment, please enquire at the above named bank.

Why Add To Her Burdens?

Men who pride themselves on accumulating an estate sufficient to safeguard their family, often appoint their wives executor as proof of confidence.

But this is adding needless burdens to women whose obligations to the home and children will be heavy, with the father gone. Instead of worrying loved ones with money matters for which they are inexperienced, why not arrange your matters so that income will be forthcoming regularly to maintain them in comfort?

Many do this very thing by appointing the Grand Rapids Trust Company executor, knowing that our experience adequately fits us for careful, economical, satisfactory management of estates.

"Safeguarding Your Family" is a helpful booklet gladly sent on request.

WILL TAKE NINE MONTHS TO COMPLETE

The excavations for the new Masonic Temple are practically completed and the actual work of building the foundations is about to begin. It is estimated that it will take about nine months to complete the temple, after the laying of the cornerstone on August 6th.

The new temple will have an auditorium with a seating capacity of 900, which will be available for use by any organization in the city. There will be a large gymnasium with a good sized swimming pool, which will also be a community affair. In fact, the building will be made a community building, in all its departments with the exception of the lodge rooms which will be exclusively used by the Masonic lodge and allied orders. A boy scout room, for use of the local scouts, will also be a feature of the new building.

The auditorium, it is expected, will become a favorite place for conventions and for public meetings of various kinds. Its seating capacity will be such that it will be able to accommodate most of the conventions that come to this city, and it is expected that it will also become a favorite place in which to hold mass meetings.

The gymnasium, as being planned, will be made available for city teams, such as the Y team and other organizations of that kind. The building will be a community house in every thing but in name, it is announced.

Grand Rapids is to send down its entire Knights Templar drill team, accompanied by its own band. The five or six other lodges in that city will also send large delegations. The local lodge has already made arrangements to feed over 1,000 visitors and arrangements for many more will be made.

HAVE COTTAGERS ANY PROPERTY RIGHTS LEFT?

Since the Geo. Getz article has appeared in the local press complaints have been coming in from every quarter along the Lake Michigan shore where folks own property. A prominent business man stated that he had purchased a lot at Tennessee Beach and is building a cottage there. Nightly the private road is filled with autos, the yard around his cottage is filled and he was compelled to park his own machine outside of the park property.

The private road was created by each property owner donating 15 ft. of their lot making a 30 ft. road so that the cottages that are being built are easier of access. But folks who do not own a foot of ground and have never contributed a penny to maintain the beach take possession and "raise Ned," when they are advised that they are usurping privileges that are not theirs.

A few nights ago closets were broken open by strangers and other property damage was done.

One property owner at Buchanan beach states that trees on his property have been stripped of limbs in order that beach party participants might have fuel for marshmallow roasts. Another stated that a swimming raft was taken from his beach by bathers and that it has now disappeared.

Coddling Moth Busy; Apple Growers Told To Spray the Trees

The earlier the season, the earlier the bug.

The Graham experiment station of the M. A. C. on the Bridge street road reports its specimens of coddling moths, caged there, is developing earlier than usual. Apple growers are advised to begin spraying the trees as near July 20, as possible and also to spray for the lesser apple worm.

It is suggested that growers use the arsenical poison with a lime sulphur solution and thus guard against scab affecting the trees, which is possible if cool and cloudy weather arrives.

ELECTRIC FLAT IRON CAUSES FIRES IN GRAND HAVEN

Chief of Police Pippel of Grand Haven warns users of electric flat irons to be careful about leaving them turned on when not in use. Several fires have been started recently by persons who carelessly left the irons turned on and then went away and forgot them. The chief suggested that the irons be disconnected at the plugs to be sure of preventing serious difficulties.

SAUGATUCK AND GRAND HAVEN HAVE WHAT HOLLAND LACKS

With all the fine water fronts more perhaps than most any town can boast of Holland has no bathing beach for the public that it can call its own. The people must depend upon the good grace of others and use private property for recreation.

Grand Haven has 700 feet of bathing beach maintained by the state. Bath houses have been provided in order that all folks may put on their bathing togs under proper conditions. Allegan county also has a state park for the public and this is what the Saugatuck Commercial has to say about it:

"A visit to the Allegan County Park particularly on Saturday afternoon or Sunday will amply vindicate the wisdom of the board of supervisors in providing this recreation ground. With all the difficulties presented by newness and lack of roads through the grounds, the people flock to this beautiful spot. A bath house has been constructed, and tables and benches have been placed in the wooded hills for the use of picnic parties. A rustic walk to the beach has been built and a well sunk which provides water so sparkling and cold that it seems to be iced. The beach at this point is of gravel of excellent quality and a road is to be cut to the edge to facilitate hauling this for use on county roads. The park is located a short distance south of Pier Cove, and comprises the ground known as the Link grove. It is the intention to have a base ball diamond, tennis court, etc., in the cleared level portion, with a driveway skirting them the timber to be left as it is in the hills. When the promised good road to the eastern part of the county is built it is certain the present park of eleven acres will fall short of providing sufficient space and steps are to be taken to secure additional property."

The gymnasium, as being planned, will be made available for city teams, such as the Y team and other organizations of that kind. The building will be a community house in every thing but in name, it is announced.

Grand Rapids is to send down its entire Knights Templar drill team, accompanied by its own band. The five or six other lodges in that city will also send large delegations. The local lodge has already made arrangements to feed over 1,000 visitors and arrangements for many more will be made.

PHENIX CO. ENLARGES ZEELAND CONCERN

During the past week the Phenix Cheese Co. moved its cheese department to Zeeland. Formerly this department had been established at Sidney, N. Y., but it was deemed advantageous to the company to establish it in Zeeland and consequently Zeeland is to benefit to that extent.

This department is devoted to putting up all varieties of cheese that are sold in tins and supplies all the Phenix requirements for the entire country. One of these brands, which is extensively known throughout the States, is known as Sandwich Loaf and is put up in five-pound boxes and the operations are covered by patents.

The new department will require from ten to fifteen additional hands the entire year. The capacity of this added department will be about two carloads per week.

ONE BUSINESS DEAL ESTATE DEAL IN GRAND HAVEN

One of the most important business corners in Grand Haven has changed hands. A deal has been closed by which Poel Brothers proprietors of the Grand Haven Vulcanizing company, become owners of a property at the corner of Washington and Seventh streets, formerly owned by the Kammeraad estate.

The property comprises the grocery store building occupied by F. J. Bertschy, the building occupied by Charles Van Norman's Oyster House and the building now occupied by the Poel Brothers with their business, the Grand Haven Vulcanizing Co. The new owners stated this morning that they had no definite plans for altering the property, and that as far as they knew no changes in tenants was likely at once.

The purchasers, however, plan sometime in the future to erect a modern building which will cover the entire frontage along Washington and 7th streets included in their purchase. They are not ready to make further announcement of their plans at this time however.

WAR DEPARTMENT TO ISSUE STANDARD BELT

With the War Department's order restoring the F. M. Browne belt for all commissioned officers, prices of this article of equipment, which had been a drug on the market, immediately began to soar skywards, and all sorts of nondescript belts began to make their appearance.

Major General H. L. Rogers, the quartermaster general of the army has decided to issue a standard belt at a moderate price, and has ordered that several patterns be made up with a view to ultimately adopting one of them for the use of officers.

It is the intention to devise a belt which will combine both service and dress features, and to this end the clothing and Equipment Branch have sent Louis Heuer, leather and equipment expert of the quartermaster general's office to Jeffersonville, Ind., to superintend the manufacture of several different types, one of which will be adopted as standard for all.

JENISON MAN TO LECTURE AT BIBLE CHAUTAUQUA

Rev. Jasper S. Hughes of Jenison Park has been selected by the National Committee of the Disciples at their meeting at St. Louis, Mo., to deliver a series of lectures on the Book of Revelation at the Silver Lake Chautauqua to be held near Whitehall in August.

Rev. Hughes, during many years of intensive study of the Book of Revelation in seclusion at Jenison Park has won the attention of leading scholars. He is now at work on the publication of a book which will reveal the fruits of his many years of labor upon the mysteries of the Apocalypse.

OTTAWA FIFTH IN U. S. IN THE POULTRY BUSINESS

About sixty enthusiastic poultry men met last Friday evening in the court room of the city hall to listen to two able speakers on the poultry subject. L. E. Heasley of Jenison Park spoke on chicken pox among poultry. This, the speaker brought out, was a most dreaded and contagious of any disease among poultry, as rats and mice, cats and sparrows can carry it from one house to another. To prevent the disease, chickens are actually being vaccinated, as it means hundreds of dollars to the commercial poultry men who have perhaps from 3,000 to 5,000 birds and sometime may have one-fourth of them stamped out by this disease.

The next speaker on the program was prof. E. C. Foreman of the Extension Department of the M. A. C. He advocated that a man should be put to work by the state to inspect the various farm flocks that supply the eggs for the hatcheries so that the hatcheries would have less chance to defraud the public when false "ads" are printed in papers and magazines, and the hens would have real laying records instead of paper records. Much work is still to be done here in this country, but today, according to statistics, Ottawa county is 5th in the chick and poultry business in the United States and this includes Holland also, as the post-office records will show.

The speaker highly commended the Holland Poultry Association for the good work done this year by giving lectures at various school houses in the rural districts and for the work mapped out, as the association will cull nearly 10,000 birds before Oct. 15. He also commended Mr. Zimmerman for the work done so earnestly and faithfully this season.

An announcement was made that the poultrymen men of Western Michigan will hold a picnic at Tennesse Beach on Wednesday July 27, and a good program of sports has been prepared. All are welcome.

DETROIT PUBLICATION FEATURES OTTAWA MEN

The current issue of the Michigan Investor, a financial magazine published in Detroit, contains a cut of G. J. Diekema of Holland and B. P. Sherwood of Grand Haven. The cuts appear in connection with the special edition describing the recent bankers' convention in Detroit. Mr. Sherwood was second vice president of the state association, and Mr. Diekema, former president of the association, delivered an address in response to the address of welcome made by Mayor Couzens of Detroit. Mr. Diekema's address is printed in full in the magazine.

All In a Day's Work

His gun held ready, his eyes glancing about eagerly, a man in hunter's garb moved silently through a North Michigan swamp. Suddenly the beat of flapping wings sounded. Quickly raising gun to shoulder, he fired. "A miss!" he growled disappointedly as the duck rose high into the air and disappeared from view. But—had the duck hunter missed?

Called from his bed that night (it was raining) one of the repair men went out to investigate the trouble. Following the toll lead, he drove more than a score of miles in the darkness and rain and tramped additional miles through a swamp. Using a flashlight, he finally found the source of the trouble—an insulator that had been shot off.

...

In a telephone booth in a hotel 30 miles distant, that same evening, a brisk, alert-looking business man put in a call for Detroit. Ordinarily, ten minutes would suffice for the connection. The business man waited. Finally, with the explanation that the delay was due to poor transmission, the operator announced that Detroit was on the line. The operator then immediately notified the Repair Department of line trouble.

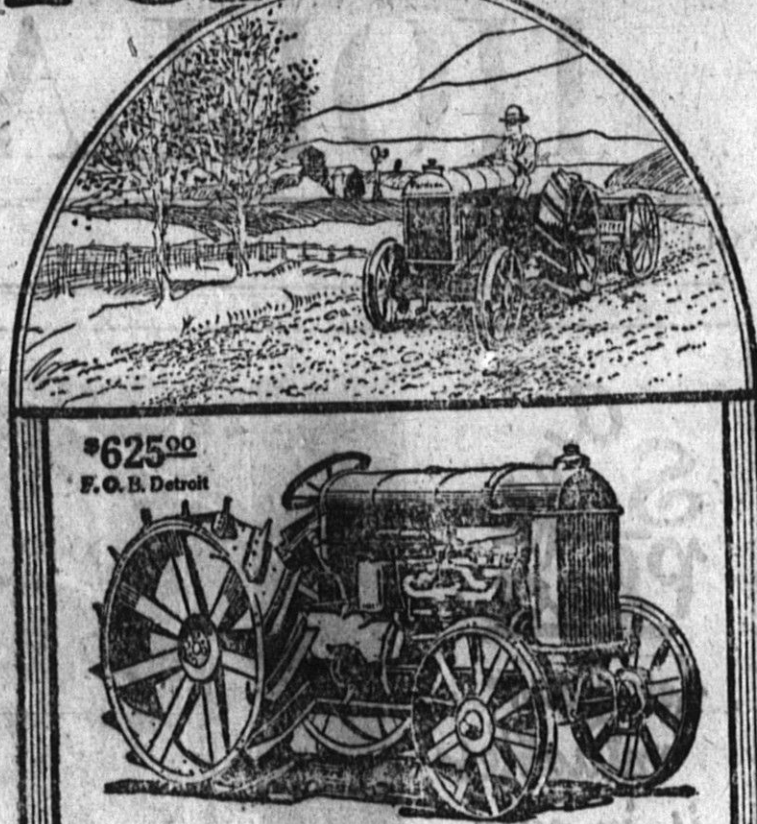

Interruptions in telephone service, we repeat, may be due to a thousand and one causes. The foregoing is a statement of an actual incident. A thousand similar stories could be written. The point is just this: Through all such difficulties, night and day, regardless of weather conditions, the people of the Telephone Company are doing their duty to the public by being constantly on the job to keep service up to its high standard.

HARRY FIK PLEADS GUILTY BUT SENTENCE IS DEFERRED

Judge Oren S. Cross came to Gr. Haven last week to hold a special session of the Ottawa circuit court for the purpose of disposing of some chancery matters and divorce cases. During his visit he took time to wind up several criminal cases and start a number of others on their way through the machinery of the court. Before adjournment he called for arraignment of persons facing charges who had not yet been in circuit court. Six persons who had been held to circuit court were arraigned by Prosecuting Attorney Miles, and Judge Cross to pass sentence upon three who had entered pleas of guilty during the afternoon session. Those not sentenced by the court will be disposed of later by the court. Preparations are now being made for the August term of circuit court.

The following appeared for arraignment: Benjamin Mitchell, who was charged with larceny entered a voluntary plea of guilty. Harry Fik, former salesman for the Holland Furnace Co. entered a voluntary plea of guilty to embezzlement. Richard Stykstra, pleaded guilty to larceny. Barney J. Gilroy entered a plea of guilty to a charge of burglary. J. Harvey entered a voluntary plea of violation of the liquor law. Maynard E. Dyckes pleaded guilty to violation of the liquor law.

Benj. Mitchell, charged with the theft of a bicycle at Holland was given a ten day jail sentence with a default provision of 90 days more and assessed costs.

James Harvey was placed on probation for two years with Ben Peterson as his first friend. His fine was assessed at \$100 with \$4.60 costs, payable \$10 monthly, with provision that he abstain from liquor. Barney J. Gilroy, who pleaded guilty to burglary was sentenced to a term of from one to five years at Jackson with the recommendation of one year. Gilroy was held by the Grand Haven police charged with breaking and entering a cottage south of Highland Park. He was found at a camp on the beach by the officers. His confession exonerated a boy companion who was found with him.

Harry Fik mentioned in this article is the man who stole in the neighborhood of \$1800 from the Holland Furnace Co. This it is said was his second offense. The first time the company was kind enough to straighten the matter out for him. The officials would have done likewise this time but the man did not seem to care what became of him.

HOLLAND FINANCIAL CONDITION IS REFLECTED IN ITS BANKS

In today's issue the statements of the three Holland banks appear and the condition of our banking institutions show that no town of Holland's size have banks that are as safe and sound as ours.

Just think of a city of 13,000 inhabitants having three banks with assets amounting to nearly six millions of dollars, or to be exact, assets of the First State Bank are \$2,426,228.79; Holland City State Bank are \$1,962,915.91; Peoples State Bank \$1,402,491.50, or a grand total of \$5,791,636.20 in assets.

The trust that Holland folks place in these banks is reflected in its savings deposits. The First State Bank carries a total of \$1,630,116.68; Holland City State, \$1,160,846.40 and the Peoples State Bank, \$840,151.35, or a total in the three banks of \$3,631,114.43.

The savings accounts are held by thousands of small depositors and their "nest eggs" are as safe as they would be if these were placed in the Bank of England, reputed to be the strongest bank in the world.

Holland is far from being broke of that you may be sure.

BODY OF LOCAL HERO ARRIVES IN NEW YORK

Word has been received in Holland that the body of Corporal Henry Walters has arrived in New York City and will arrive in Holland in a few days. Corp. Walters was one of the first soldiers from this community to give his life for his country in the World War. He is the son of John Walters, 238 West 18th street, and he was killed on July 15, 1918, Chateau-Thierry, France.

Corp. Walters has slept in a French grave until now, but with thousands of other heroes of the World War, his body has been transferred to America and will be placed in the home cemetery. He will be buried here with military honors.

TELLING CAR IS SMASHED IN AN ACCIDENT

Mr. and Mrs. J. E. Telling and daughter Barbara were injured in an automobile accident and Mr. Telling's big Cadillac car was badly smashed Thursday at Waverly Crossing between Porter and Michigan City, Ind., when a Paige, driven by Dr. A. B. Oren of Chesterton, Ind., coming out of a crossroads struck the Telling car amidships.

So hard was the blow that the Paige gave the Telling Cadillac that the latter was thrown about 35 feet to the side into a ditch where it turned over. The Paige also was quite badly smashed. It was coming on at a rate of about 35 miles an hour and the Telling car was going at a normal rate of speed. The Tellings had not noticed the little side road out of which the Oren car was coming and the first intimation they had of disaster was when the big Paige struck.

Little Barbara Telling was quite badly bruised about the body and Mrs. Telling received a number of bruises. Mr. Telling himself received some injuries, but all were able to walk in spite of the terrible experience.

HOT SPELL GIVES PRIEST NO REST IN TORRID SUMMER

There's no rest for a weary pastor at Spring Lake in the summer time, according to the confession of Rev. Daniel J. Hyland, pastor of St. Mary's church at Spring Lake in this county. While most churches find their congregations decreasing in size during the hot weather, the reverse is true at Spring Lake.

The little church building that has faced the storms of cold winters and stood up through the heat of torrid summers for many years is barely large enough to comfortably seat a hundred faithful church people. During the winter, fall and spring months it is too large for the 15 families which constitute the little flock of the parish. But when hot summer takes possession of the cities of Michigan and the inhabitants flee to the coolness of the Spring Lake shores for comfort the little church has its busiest season.

Every Sunday morning, nearly 500 people crowd into the little house of worship at the two masses, and while it nearly sinks under the weight, a number collect about the entrance.

Caring for the entire number of people who attend mass is too great a job for one man, so a missionary Father is always stationed at Grand Haven to assist Father Hyland during the summer months. Highland Park resorters help swell the ranks of St. Patrick's church at Gr. Haven each Sunday to add to the work of the pastor. Other charges under the care of Father Hyland are Denison, Marne, Pigeon Creek and Robinson. The outer missions are visited once each week by the pastor during the entire year.

It is the ardent hope of the pastor that the little wooden building that serves for a church at Spring Lake may some day be replaced by a stone structure which will adequately care for the resorters who attend there in the summer, and still have a small chapel in connection to make church going in the winter comfortable for the little flock of the village.

OPENS AN OFFICE IN HOLLAND

The associated interests of the T. H. Welch Co. and I. M. Armstrong of Detroit have opened permanent offices in the Vischer Block. The establishment of a branch office in Holland is in line with a broad policy of expansion and follows that of a like procedure in Flint, Saginaw, Port Huron and other Michigan cities.

At present concentration is being centered on the sale of lots in the immediate vicinity of the Henry Ford factories, General Motors factories, Pennsylvania Railroad Terminal, and many other industrial all adjacent to the proposed opening to the waterways from the Atlantic ocean to the Great Lakes. Recently a number of Holland business men visited Detroit to see first hand the enormous developments of industry surrounding the companies' properties.

Mr. Armstrong is heading the local office. He brings with him from Detroit a corps of sales assistants and in addition has employed locally Mr. Russel Rutgers, Mr. Andrew Postma, and Mr. Leonard Lam. The latter has been affiliated with Mr. Armstrong in many of his projects for the past ten months.

T. W. Spink, Lansing, was arrested by Speed Cop Peterson for going 28 miles on River avenue. He was fined \$8.70 by Justice Van Schelven.

HUNDREDS USE NEW BAKER AND BOONE BEACH

The announcement in this paper recently by Baker & Boone that the public was welcome on their property along Lake Michigan between the Alpena Road and Ottawa Beach has been followed by an enthusiastic response on the part of the public. Picnic parties and private parties have been making good use of the bathing beach there, and both Mr. Baker and Mr. Boone have been kept busy answering the telephone when people request permission to use the beach. The owners of the property made but one stipulation, namely that those who wished to use the beach for picnic purposes should ask permission so that the owners would know who was using the place.

Hundreds of persons have been using the beach the past few days. Sunday fully a hundred and fifty people were at that spot enjoying the cool breezes of the lake as well as the bathing.

Baker & Boone Monday also extended the invitation to the people of Park and Holland townships to use the beach. Picnic parties from these townships will be as welcome as those from the city, provided the same conditions are observed.

An attempt will be made to have a short stretch of road, about an eighth of a mile long, improved so that it will be easier for auto parties to reach the new pleasure spot. It is now quite possible to get through, but the road is rather sandy and it is hoped that this drawback may be removed soon.

"As long as we own the place," said Mr. John Boone, "the people are welcome to the use of it. An increasing number of people in Holland are daily taking advantage of this offer."

LOCALS DEFEAT THE POPE AND HEYBOER TEAM

In a highly interesting but see-sawing overtime contest the locals defeated the Pope & Heyboers of Gr. Rapids Saturday afternoon 11 to 10. It was the first overtime game of the year and was a thriller throughout. The visitors scored one run in each of the first two innings and the locals came right up and evened the count by scoring two runs in the second on two errors and Ingham's double. Again in the fifth each side scored two runs still making the count even. The locals forged ahead in the sixth when three runs were pushed across on a couple of errors and a double by Hick Hoover and Shaw.

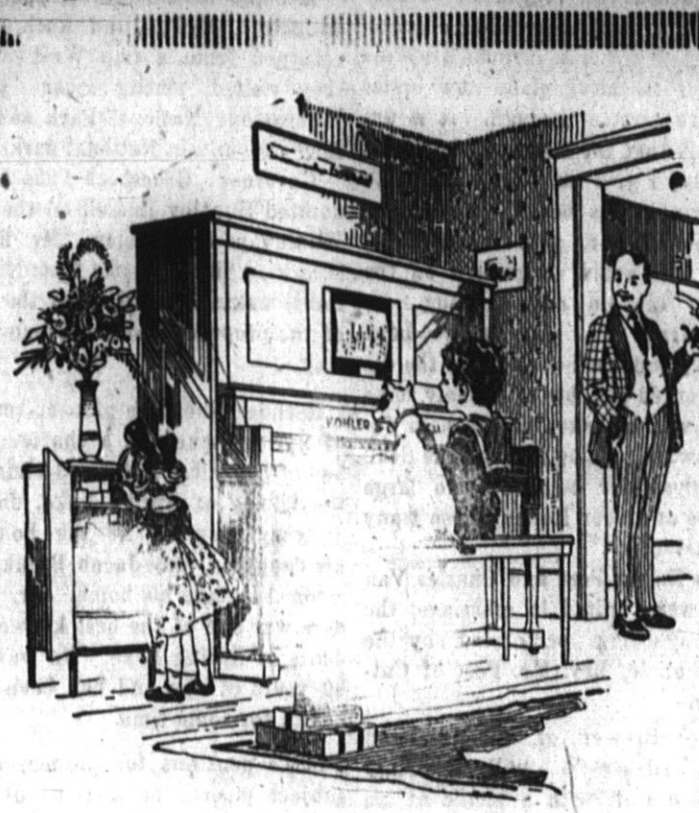

The seventh almost proved the downfall of the locals when the visitors scored five runs. The first man up was safe on an error and Steggerda loaded the bases by walking the next two. Hoover at this point took up the pitching but before the side as retired five runs were chalked up on an a dead ball, a base on balls and two hits. The visitors were held safe throughout the remainder of the game securing only one hit and no runs off of Hoover.

The locals however were up against it. Three runs had to be scored to tie the count. One of these was produced by Japinga and Woldring. In the eighth the score was tied on successive hits by Steggerda, Hoover, Woldring and Japinga, much to the delight of the fans.

The time for rejoicing however came in the tenth. Spriggs led off with a double to deep center. Woldring sacrificed Spriggs to third. Japinga who had hit safely twice before appeared on the scene just now and with his lousy war club hit the first ball pitched down the right field foul line scoring Spriggs with the winning run. The crowd went wild and the cheering could be heard for block away. Some dyed-in-the-wool fan felt so happy that he passed the hat for donations. The silver pieces just poured into his coffer and Japinga claims he has some extra spending money for the next week. No doubt Dickie will not have to dig any ditches this week.

Ocker pitching for the visitors was touched up for 17 bingles, while Steggerda and Hoover allowed 12 blows. The visitors presented the best lineup appearing on the diamond this year. Ocker just a few weeks ago was pitching for Grand Rapids and Muskegon in the Central League. Impers and Champion both catchers played with Muskegon early in the season. The rest of the team was the cream of Grand Rapids semi-pros.

Mr. and Mrs. Fred Meyer and three children, Leo, Delia and Lester, are leaving for Oklahoma City, to make their home there.

Why you
should buy a
Player Piano
instead of a
Straight Piano

The Player Piano can be played by hand just like a straight piano

There are two ways of securing a musical education thru the Player Piano. One is by hand playing, the other is by play-composition. The latter which only the most talented musicians have mastered.

The Straight Piano is a selfish piano—"It is Mary's piano." The Player Piano is everybody's piano. Hearing another play well is enjoyable. The pleasure of producing music perfectly cannot be described. It must be experienced.

The Player Piano will help your child in the study of music, if you get one.

A law passed by the 1921 session of the legislature gives the state highway department jurisdiction over the trees and shrubs within the highway limits. This law makes it an offense to cut or injure shade or ornamental trees or shrubs and it is, according to Mr. Boehler to be strictly enforced. He believes they will have little difficulty along this line, however as in most localities the local officials are eager to retain whatever beauty is existent along the nearby highways. Mr. Boehler asserts that a tremendous sentiment for tree planting and beautification along the trunk line highway routes is apparent over the state.

Dr. W. Westrate reports the following births: Mr. and Mrs. Nicholas Dykema, 48 E. 18th street, a boy; Mr. and Mrs. Dick Ten Cate, E. 18th street, a boy; Mr. and Mrs. Bernard Maatman, 401 Central Ave., a girl; Mr. and Mrs. Herman Karel, a girl; Mr. and Mrs. Herman Diepenhorst, Holland R. 8, a girl; Mr. and Mrs. Peter Sloothook, 297 W. 23rd St., a girl.

Passengers for Chicago on the G. and M. line can now secure their berths or stateroom reservations at the Michigan railway office in Saugatuck, instead of having to take their chances on getting accommodations after reaching Holland as has been the case heretofore. J. A. Johnson the general agent of the steamboat line, was here Thursday perfecting the arrangements.—Saugatuck Commercial-Record.

Mr. and Mrs. S. L. Henkle, 117 E. 10th street, have returned after a motor trip of five weeks. They visited friends and relatives in Illinois, Indiana and Ohio and traveled as far east as West Virginia. Mr. Henkle states that the roads all the way were about like they are from Holland to Grand Rapids and in many instances much better. The total mileage made was nearly 1800.

Walter Baker, traveling passenger agent for the Michigan R'y Co., is making his annual summer appearance in the city, lining up the several churches and factories for their annual picnics.

Mrs. W. R. Cox and daughter Emily and son William Roe, Jr., of Cincinnati, are visiting at the home of Mrs. Cox's mother Mrs. G. J. Van Duren.

Saugatuck will very soon be able to have a municipal bathing beach, aside from the one furnished by the state, if tentative plans now under way are carried through. It is understood that the Forward Movement is ready to give the village a title to 500 feet of its beach, providing a road is built to give access to it which will avoid congestion on the present Lincoln road leading to Camp Gray. The plan has not been officially proposed as yet, nor the details worked out, but it is likely some action will be taken in the near future toward putting through the deal. This gives our neighbor two large beaches and poor Holland hasn't any to boast of.

Miss Emma Post and Charles Van Zyl were united in marriage, the ceremony being performed by the bride's uncle, Rev. Mr. Post of Cutlerville.

Joseph Brewer of the American Public Utilities Co. will entertain the office staff with a picnic at his summer home at Macatawa park today. Former members of the staff have been invited. Mr. Brewer is also the man who owns the Holland Gas works.

Rev. and Mrs. H. J. Bray and son Billy arrived at Macatawa Park Friday evening. They drove thru in their car from Bloomington, Ill., where Mr. Bray has his charge. They will spend some time with Dr. and Mrs. P. Moerdyke at their summer cottage on the lake.

The martins are again nesting in the cornice at the extreme east end of the Post building over B. Steketee's dry goods store. This species of bird has made its "love nest" there for the past 30 years and for that reason the broken cornice has never been mended.

Miss Delia Ossewarde, daughter of Mr. and Mrs. Wm. Ossewarde of Zeeland has gone on a six weeks' trip through Yellowstone National Park, Seattle, Portland and Van Couver, from where she will sail for Alaska, returning later through the Canadian Rockies. The young lady is well known in this city.

Thos. Van Eenenaam, the veteran hotel keeper of this city, has decided to quit the hotel business and has rented the place to Mr. and Mrs. Geo. Schwander of Allegan, who took possession Thursday. Mr. and Mrs. Schwander are practical hotel people and will make a success of the business.—Zeeland Record.

Gerrit Veurink, one of the salesforce of the Winstrom Electric Co. has been in Canton, O., for the past two weeks where he has been studying at Hoover school of instruction. This factory makes the Hoover Carpet cleaner and the instructions received stand Mr. Veurink in good stead in explaining the merits of the machine to prospective buyers.

The Saugatuck schools have received a bequest of the late Mrs. Calvin Whitney of that place. The money must be used to grade and sod the ground and to build presentable cement walks from the main school building to the structure where the primary school work is done. The village board has also placed large lights in the grounds in order that these may be properly illuminated at night.

Dr. Ruby Helen Paine, medical missionary to Sierra Leone, West Africa, he is now home on furlough will speak at a public meeting under the auspices of the missionary society of the Western Methodist church on Tuesday evening. A curiosity which developed in the Wyngarden Hatchery in Zeeland was a chick having four legs and four wings. That the chick will have a hard road in life, if it lives is evidenced by the fact that the two pairs of feet were aimed in opposite directions, and it is probable that when the chick intends going in one direction its feet will carry it in another.

Four generations living under one roof is the unique record of a family in Fillmore township a few miles south of Holland. The newest in the fourth generation is a girl born on Wednesday to Mr. and Mrs. Henry Grootenhuis. The three other generations comprise Mrs. W. David G. Philipp's well known novel, "Old Wives for New," in preturized form will be shown at the Colonial today. It is a fine picture full of action, enacted by an all-star cast including Elliot Dexter, Sylvia Ashton, Wanda Hawley, Florence Vior, Theodore Roberts and Helen Jerome Eddy. Another of the amuses in "Torchy" comedies and Pathe News will be added attractions.

The band concert given by the American Legion Band at Centennial Park was no doubt the best ever given in this city. Band Master Van Vyven has again demonstrated that he has his thirty men well trained. The largest crowd that ever filled Centennial Park was there Thursday night and every available parking space was taken. Herbert Steinaway played a trombone solo "Oh, dry those tears," by Teresaderieto, very pleasingly and was given liberal applause.

Mr. and Mrs. Tom Tilma and family of Wichita, Kas., are visiting friends and relatives in Holland. Mr. Tilma, a former Holland man, left this city eleven years ago for Kansas. He is the publisher of a labor paper in Wichita.

The annual business meeting of the Ottawa County Building & Loan association will be held at its offices over the First State Bank on Tuesday evening, July 19, at 7:30 o'clock. The annual reports will be made and directors will be elected to take the place of R. H. Haberman, I. Marsilje, H. Damsen and E. E. Fell, whose terms of office expire, and such other business will be transacted as may come before the meeting.

With the promise of full exhibits in every department, coupled with numerous free attractions and \$2000 in prizes offered by local merchants, the Holland fair this year promises to outstrip all previous exhibitions in the history of the association. The dates are Sept. 13-16. Secretary J. Arendshorst has booked several vaudeville attractions. A children's health exhibit will be staged by Miss Eva K. Schurr, new county home demonstration agent. The new \$6000 grandstand is nearing completion. The big structure will have a seating capacity of about 2,000 and will be equipped with bandstand and drinking fountains. Underneath will be located a dining hall with ample provision for nine concession stands.

Walter Morris connected with Jake Kuite's Economy Market was called to the farm of John Boone near Harlem and was given the job of catching a crazy cow that was running at large and acted very much the same as a mad bull. It took some hours for Walter to land the animal but not (according to Walter's story) until one man had one of his fingers pinched off by the rope he was holding with which Jake's butcher "hog-tied" Mr. Bossy. Walter made short work of the insane beast after that. Asked what he was going to do with the meat he said "we are going to turn it into 'ild dogs' and feed them to a 'dippy picnic'."

The Ford truck of H. Havenhorst of Zeeland collided with one of Joe White's Dodge taxi's on the corner of Pine avenue and Eighth street near the Interurban freight house. The truck was not damaged but the taxi had a wheel and a fender taken off and an axle bent besides being otherwise marred up. Mr. Sweeney who was driving the bus was uninjured.

"THE WATCH DOG OF THE TREASURY."

This expression has often been used in various ways and not infrequently in political propaganda.

Peter Prins, the local grocer, is often called the "watch dog" by his colleagues and others for the reason that he closely scrutinizes every expenditure made by the Common Council before he votes. That is one way of using this expression.

The "real watch dog" however is "Heinie" Geerds, the City Treasurer.

In the County John Den Herder might bear this sobriquet for the reason that he is the custodian of County funds.

These men are "watch dogs" of public moneys and are placed there by the people for that purpose.

The First State Bank however is the biggest "watch dog" of them all. Not alone does it protect City and County money, but it watches diligently and safeguards all funds placed in its care.

It protects deposits amounting to nearly three millions of dollars, placed there by thousands of trusting depositors.

No matter how large or small these amounts may be, they are guaranteed the same safety, and the depositor is accorded the same courtesy at this banking institution.

In The Thirty Years That The FIRST STATE BANK

has been in existence, not a penny was ever lost to a depositor. That is a record to be proud of.

The FIRST STATE BANK is a "watch dog" in other ways. It offers ample protection for your Liberty, other bonds and your private papers thru their large and adequate safety deposit vaults. Your valuables are at all times safe from fire and theft, and this insurance can be had for the sum of \$3.00 per year. A very necessary protection it seems. Call on us for details.

E. J. HARRINGTON

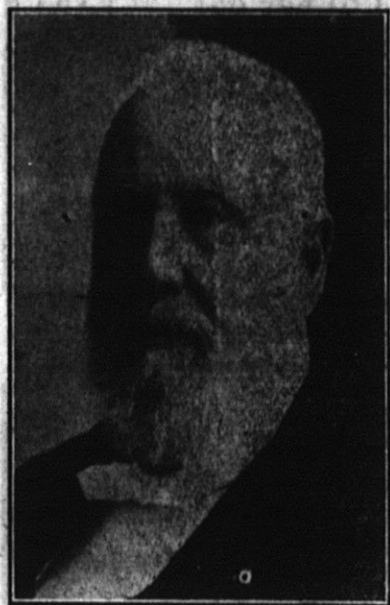

PASSES AT NEARLY

89 YEARS

Another one of Holland's respected citizens has passed away. E. J. Harrington, who would have been 89 years of age, on Saturday, July 30, succumbed to old age and the grim reaper stepped in at 8:10 Monday evening and cut down an old pioneer, who had spent a very active, eventful and in dutious life.

Mr. Harrington with others bore the hardships of pioneer days and during those periods of trial was a potent factor in aiding to build up Holland and its resorts.

While a young man he took up the vocation of teaching and for a few years taught in one of the Fillmore

E. J. Harrington

district schools. This naturally was in the days of the little red school house with its blue beech as the instrument of discipline. He soon felt that this was not his field of endeavor and he struck out into mercantile business. In the early day he owned a two masted schooner called the Elmira. This sailing vessel did a thriving business from this port trading in bark, lumber and staves. Mr. Harrington years ago built a dock at the head of the bay at the foot of Fourth street upon which he erected a large warehouse. A large saw mill was also built at that point but both of these were burned years ago, in fact at that time, Mr. Harrington experienced a period of hard luck as besides the burning of his warehouse and mill, his schooner Elmira went down in a storm off Pier Cove near Saugatuck and the captain always claimed that the money he had secured for the cargo at Chicago was in the cabin when the ship floundered and was never recovered. Parts of the old Harrington docks built 65 years ago are still visible at the slip on 4th street.

For years Mr. Harrington conducted a general store in the old Harrington block on Eighth street, near College. The town pump with a large white stone under the drip was also located there, and will be well remembered. Besides the city watering trough was also located there. Besides being active in business Mr. Harrington took a decided interest in politics and especially in municipal affairs. He was three times elected mayor on the Republican ticket. He first served in that capacity in the years of 1872-74 and later the republicans were again casting about for a winning candidate and chose Mr. Harrington for a third time as the standard bearer and on that occasion he served for one term namely 1892-1893. Mr. Harrington served as alderman of his ward for several years and because of his being the mayor of Holland he also was an ex-officio member of the Board of Education which was one of the stipulations provided for in the city's charter of those days.

In 1897 he also acted as city attorney to fill the vacancy caused by a pastor whose name was J. M. Smith. The minister took a charge elsewhere causing the vacancy. Mr. Harrington although not an attorney was a sharp bargainer for the city and had a fair knowledge of law. He was however succeeded by Attorney Benj. Vasper in the spring of '68. He also served as justice of the peace in the early days.

In later years Mr. Harrington has taken a decided interest in Holland's resorts. He owned a large tract of land near what was called Harrington's landing directly east of Virginia Park and this property he platted into resort lots. There was a ready sale for these choice locations and a veritable resort city has sprung up around the old Harrington cottage, the first building to be erected at that point on Black lake.

The funeral of Mr. Harrington took place on Thursday afternoon at 2 o'clock from the old homestead at 89 East 9th street, Rev. G. B. Flemming, pastor of M.

Grace Episcopal church, officiating interment took place in the family lot at Pilgrim Home cemetery. The surviving children are Mrs. A. J. Ward of Grand Haven, Mrs. Eda Ward and Hembert Harrington of Holland.

PALL BEARERS ARE CHOSEN FOR HARRINGTON FUNERAL SERVICES

All arrangements for the funeral of the Hon. E. J. Harrington, Holland's former mayor have been made. The active pall bearers consist of old friends and neighbors. The active pall bearers were Messrs. A. B. Bosman, R. N. De Merrell, B. D. Keppel, Frank White, W. A. Cobb and A. D. Goodrich.

A very unique arrangement was the fact that the present Mayor and Common council were selected as the honorary pall bearers.

One matter in the death of Mr. Harrington might be mentioned here, namely that George F. Harrington, living south of Holland, preceded his brother in death some eight weeks ago at the age of 85 years. The brothers who are still living are Millard of Jackson and Wilbert of Fillmore.

Miss Hannah Hoekje is at Bay View attending the Bay View Interdenominational School of Missions as the representative of the Woman's Board of Domestic Missions of the Reformed church. Miss Hoekje is scheduled for three addresses at the conference and she is to be the leader in two Bible hours.

Miss Hoekje wrote to Mrs. C. V. R. Gilmore Wednesday that she is very pleasantly located at the Chautauqua Cottage with the dean of the Girls' Work of the Conference.

EXCITING RACES HELD AT VIRGINIA PARK

Saturday two races were held at Virginia Park. The first was a "bang and go back" affair. From a standing start the contestants started at the Virginia Park dock at a gun signal. Upon arriving about three-fourths of the way to Jenison dock, a gun was fired, upon which signal all turned to port and raced back to Virginia, upon arriving nearly to this dock a gun signal was given again to turn; this performance was kept up, and on the third trip back the boats were allowed to come across the line.

The contestants figured in this race as follows: John Harding 1st; John Vanderschel 2nd; Frank Harding 3rd; Edward Herpolsheimer 4th; John Du Mez 5th; Mr. Westvere 6th.

The second was an ordinary race starting at Virginia Park to Ottawa Beach hotel, to Jesiek Boat livery, and return to Virginia, in which Jno. Knell was first; Jno Harding 2nd; J. Du Mez 3rd, Caroline B. Herpolsheimer 4th, Edward Herpolsheimer 5th and John Vanderschel 6th.

The next race will be started at Central Park on August 4th. This date coming on Thursday will give merchants of Holland and vicinity a chance to see and participate. Everybody is welcome. The final race will be on Labor day starting at Ottawa beach. On this date the prizes will be given out, a large Silver trophy given by the Evinrude Motor Co. and at least eighteen other prizes given by the merchants of Holland and resorts.

MORE COUNTY FARM AGENTS BEING HIRED

That farmers now are little for the flag waving type of agitator who once inspired to guide them is pointed out by R. J. Baldwin, director of extension at M. A. C. Instead they are demanding specialists, trained both in technical agriculture and in modern business methods. Salaries today average between \$2,800 and \$3,000 a year, including the \$1,200 contributed from the funds of the college. The highest paid agent now is said to receive a yearly salary of \$4,500, though Clark L. Brody, up to the time of his appointment as secretary of the Michigan State Farm Bureau, was receiving \$5,000 as agent of St. Clair county.

Increase in the number of agricultural agents is looked upon as another evidence of the spirit of co-operation among farmers. In most cases where agents are employed the board of supervisors of the county appropriates the necessary funds. The college is then asked to suggest candidates and these are sent to the county to appear before a special committee. Whatever man is mutually acceptable to everyone concerned is appointed.

PASSES AWAY AFTER LINGERING ILLNESS

After an illness of many months that took an acute form the past few weeks, Mrs. H. J. Bouwkamp, aged 55 years passed away Tuesday at Holland Hospital. Mrs. Bouwkamp had been taken to the hospital for a contemplated operation but her condition was found more serious than had been expected and the operation was not consummated. She was born in the Netherlands but had made her home in this city for many years.

The deceased is survived by a husband and two daughters, Mrs. W. Selles and Mrs. H. Oelen, both of Holland. The funeral will be held Friday at 1:30 from the home, 41 E. 12th street and at two o'clock from the Central Avenue Christian Reformed church, Rev. Mr. Einink officiating. Friends are requested to omit flowers.

OTTAWA COUNTY IS COOLER

ER THAN ELSEWHERE

U. S. Weather Reports brought the comforting fact to light that Ottawa county was cooler than most of the lake region. Across the lake at Chicago the mercury was hitting the mark above the hot weather zone at 94 degrees. At Grand Rapids on this side the temperature went up to 96 degrees and at Detroit the mercury hit 94. At Duluth which has a cool reputation, registered 82 degrees.

Since Tuesday the temperature has gone down gradually after the timely rain and this morning at 7 o'clock the thermometer registered as low as 66 degrees.

GRAND HAVEN TO GET ICE SUPPLY FROM FLINT

The threatened ice famine at Grand Haven has been avoided as the city, co-operating with the Verplanke Co., has arranged to get ice from Flint. The men will begin their regular ice routes on Wednesday. The open winter made it impossible for the company to harvest enough ice for the summer supply.

BIG CROWD TAKES IN THE WOLFE SHOW

IS STAGED FOR THE WEEK AT SEVENTEENTH STREET AND HARRISON AVENUE

Seldom has as big a show as the T. A. Wolfe's Superior Shows been seen in Holland and seldom as deep an interest been taken in any outdoor amusement organization or event before as is now being taken in the kermess-karnival now being offered by the Wolfe organization at the show grounds at Seventeenth street and Harrison avenue this week until Saturday night. Every night the big lot is black with humanity and each afternoon sees a goodly crowd on the gaudy midway while during the noon hour, the folks from the nearby factories take advantage of the occasion to take a whirl on the flying Jenny or to soar through the air on the Ferris wheel or seaplanes. It is probably because the show is different from the average outdoor amusement shows which have been seen here in the past for the Wolfe's shows offer real entertainment with a program of shows that are as clean and as wholesome as they are meritorious. Those who have visited Coney Island, New York City, or White City, or, in fact any of the big national amusement resorts will be reminded of these mammoth fun institutions an those of Holland extract and who have witnessed the monster kermesses at Groningen or at Haarlem and Amsterdam will be carried back on memories wings to the scenes of their childhood and the happy hours of abandon spent on the pleasure trail at the big European fairs for the show at 17th street and Harrison avenue, is nothing if not reminiscent of these gorgeous festivals for here, there are shows, there is music and there is real fun. Minature circusses, trained animal shows and circus side shows are only a few of the attractions, for the midway is dotted with tents from each end to the other and at each different tent is some different attraction.

The above is the T. A. Wolfe troupe of genuine native Hawaiians who are making a big hit at the kermess-karnival which is attracting big crowds to the 17th street and Harrison avenue show grounds this week. All of the members of the company are finished musicians, singers and dancers and all have appeared on the big vaudeville and chautauqua circuits all over the United States and Canada. They are one of the prominent features of the T. A. Wolfe's Superior Shows and they were brot to this country by Gene Nadreau, a well known New York impresario. They appear at every performance at the Hawaiian theater at the karnival which will be here until Saturday night.

FATHER AND SON EACH LOSE TWO FINGERS

Ten days ago James Van Dyke of the North Side had the misfortune of having two fingers injured at the North Side tannery so that they had to be amputated, and Tuesday Mr. Van Dyke's son, Harold Van Dyke, had a similar accident which necessitated amputation of two of his fingers. The elder Mr. Van Dyke has since left the hospital but the younger man is still confined there as a result of his accident.

James Van Dyke lost the first fingers of his left hand and Harold Van Dyke lost the two middle fingers of his right hand.

ZWEMER'S COAL OFFICE; ENTERED; TYPEWRITER TAKEN

The report has gone out that the home of William Van Asselt was entered and \$60 in money taken is incorrect. Burglars did enter the restaurant but not the home of Mr. Van Asselt and took \$14 in money and \$22 in one and two cent stamps. The cafe is located at 234 E. 8th-st. and is also a sub-station to the local postoffice in order that east enders may be accommodated with stamps and postal cards without being compelled to go to the local federal building.

The burglars entered the restaurant through a rest room window removing the screen.

Burglars also entered the coal office of Henry P. Zwemer and Son on East 8th street taking 33 cents out of the till and lugging away a typewriter worth \$15. No clues to the robberies have been found by the police up to this time.

GRAVEL IS PUT DOWN ON BAD STRETCH

"The worst stretch of road in Michigan," as it was often called by motorists has been repaired and Holland will no longer have to be ashamed of its entrance from the south on West Michigan Pike. A generous supply of screened gravel was hauled on to the W. Sixteenth stretch and in a very short time now it will be in good shape.

The road was partly under the jurisdiction of the city and partly of the township. At the last meeting of the council it was announced that money had been appropriated by both the city and township for the repair of the road, but as the days went by without action many people became impatient and suggested that it was again a false alarm. But the gravel is now down and the kicks can now stop.

ATTENTION, DOG OWNERS

The law provides that on or after the 15th of June every unlicensed dog is declared a public nuisance, and the county treasurer shall immediately list all such unlicensed dogs and deliver copies to the sheriff and prosecuting attorney of Ottawa county. On receiving from the county treasurer the name of any owner of any unlicensed dog, the prosecuting attorney shall at once commence the necessary proceedings against the owner of said dog as required by law. It shall also be the duty of the sheriff to locate and kill or cause to be killed all dogs not having a license. This list has been given to the sheriff and all those wishing to keep their dogs can do so by paying for license at the county treasury immediately. If this is not done the sheriff will kill all dogs not having their 1921, license and their owners will be prosecuted for violating the 1919 dog law.

NEW RESORT IS COMING TO THE FRONT

One of the newest resorts in the vicinity of Holland that is rapidly coming to the front is Oaklawn Park. This park is situated on the north side directly across the bay from Montello Park, and is reached by way of the little road that leads to the dye works and to the Landwehr summer home. This park was platted several years ago and for many years it contained by a single house. But during the past two years a number of homes have been built there and new ones are being added right along.

Oaklawn is well named because of the many oak trees that cover the space. It has for years been a favorite fishing resort for local fishermen, and it is now and has been for a long time a favorite place for swimming purposes. Improvements are constantly being made and before long it is expected that it will be a fine private resort.

Oaklawn is one of the last places along the north shore to become settled by a summer population. Time was not so many years ago when there were large areas along that shore which were practically wild. But the places have rapidly been taken up by persons who like to have quiet and peace during their summer rest, and the time will not be far distant when the north side of the bay will be populated about as thickly as the south side now is.

The north side of the course differs quite radically from the south, in that it is more heavily wooded. What trees there are along the south side are chiefly fruit trees and other trees that have been planted there, while along the north side the forests that cover the shore of the lake are virgin. But this fact has its charm for many people because it makes for greater quiet.

DIES WHEN OVERCOME BY THE HEAT

Overcome by the heat F. A. Ensing a retired farmer of Hudsonville, died Friday afternoon at the age of 68 years. He leaves a wife, to daughters, three sons and two sisters, Mrs. D. von Sytama of Zeeland and Mrs. H. R. Stroeve of Montello Park.

Funeral services will be held on Tuesday afternoon at 1:30 at the home and 2:30 at the Sutphen church.

Zeeland and Saugatuck have come down to sprinkling hours; so why should we care?

CULL POULTRY NOW; OTTAWA COUNTY AGENT WILL ASSIST

Because only a few poultrymen and farmers will be able to attend the poultry demonstrations with E. C. Foreman, county agent Milham will arrange demonstrations in sections not reached before. The spell of hot weather is showing up the slacker hens and they can be sorted out easily. The county agent is competent to cull chickens and his services are free to everyone who will request them. A postcard will bring the agent to your house.

FISHERMAN'S WIFE GETS SOME VERY HEAVY DAMAGES

Mrs. Arrie Foppen of Grand Haven who was left a widow when her husband was lost overboard from a fishing tug off that port has been awarded compensation by the Michigan Industrial Accident Board, which disposes of claims under the state workmen's compensation act. The decision of the Industrial Accident board has been awaited with no small degree of interest because of the important bearing which it may have on accidents of similar nature which may occur along the shore.

The ruling practically establishes a precedent for such cases. When the application for payment of compensation to the widow in this case was made the question was raised as to whether the matter came within the range of the state compensation law, or must be handled under marine jurisdiction. Because the drowning occurred several miles out from port, the problem proved a question, which everyone concerned was anxious to have settled.

On March 12 of this year Arrie Foppen, a well known fisherman, went out into Lake Michigan in the line of every day duty on board the fishing tug Alice, in command of Capt. Peter Fase, one of her owners. Several miles outside of the harbor Arrie Foppen was missed by the crew of the tug. There was considerable swell running and some distance astern an empty fish box was seen floating. The tug turned and searched the lake within a radius of several miles, without finding any trace of the missing member of the crew.

While no one on board the tug actually saw Arrie Foppen go overboard, it was the belief of those on board that he had fallen into the water when the fish box went overboard. No trace of his body has ever been found.

The owners of the tug Alice carried compensation insurance in the Travelers' Insurance Co. and application was made for compensation for the widow under the state workmen's law. The question went to the state industrial accident board and now announcement was made that compensation had been awarded to the widow in the amount of \$14 per week for a period of 300 weeks.

NEIGHBORS STAGE A PLEASANT SURPRISE

On Thursday evening sixty-eight neighbors including children, gathered on the lawn of Mr. and Mrs. Bert Dekker, 268 W. 10th street. This gathering was planned as a surprise on Mr. and Mrs. A. Fairbanks and it proved to be a successful surprise. Mr. and Mrs. Dekker showed that they were ready for the occasion by having some well prepared games in which every member of the party joined with real enthusiasm. This with a liberal supply of ice cream and cake made a very successful evening. Before returning home Mr. Fairbanks was called upon for a speech, to which he responded by thanking his neighbors for giving them the pleasant surprise. The neighbors gave him a vote of thanks for the splendid trip he had twice given them to the beach at Lake Michigan.

NORTH SIDE BOOSTERS TO BUY BATHING SITE

The Boosters Club of the North Side held a meeting Friday night and Prosecuting Attorney F. T. Miles was the principal speaker, talking on the subject "The Simple Things of Life." Mr. P. Goshorn and his assistant were also present. These men are government soil inspectors and are camping in a woods north of the bay. They are inspecting land north of Holland making a survey and will later send out bulletins telling what this soil is best adapted for. Mr. Goshorn told the Boosters Club about these things and many facts were very interesting.

TWO HORSES BURNED IN FRUITPORT FIRE

Fire of unknown origin destroyed the barn on the farm of George Loosemore in Fruitport at about 9 o'clock last Saturday night. Two good horses in the barn were burned to death. Fruitport people were organized into a bucket brigade and by hard work saved the home from going up in flames. Mr. Loosemore's loss is partially covered by insurance. The Loosemore home east of the village of Fruitport about a half a mile is one of the prettiest farm homes in that section and the Loosemore's are well known old residents there.

HOLLAND FAIR TO PAY FOR TUBERCULIN TESTS OF COWS

There is only one fit cow these days and that is a tuberculin tested one. The laws are very strict of late relative to milk. No milk may be sold from cows having tuberculosis and many cows have been killed in order that public health may be safeguarded.

John Arendhorst, secretary of the Holland fair is taking a step in the right direction. At a recent meeting of the directors of the Fair Association it was decided not alone to pay much higher premiums for cattle exhibits but to also pay to each farmer one dollar a head for each cow exhibited that has been properly tested for tuberculosis, regardless of whether the cow is entitled to a premium or not.

The Ottawa county farm agent, Mr. Milham is cooperating with the Holland Fair Ass'n in this matter and will do all in his power to foster this cause. Even now a country wide testing of cattle to eradicate tuberculosis is going on and was endorsed by the executive committee of the Ottawa County Farm Bureau at the regular meeting held at the court house recently. The government has been studying the relation of tuberculosis in cattle to that in humans for 20 years and has learned that 78% of the gland and bone tuberculosis in humans is due to infections from cow's milk. So also is a large proportion of tuberculosis of the lungs.

Direct benefit of tuberculin testing would come both to the producers and consumers. To the producers because if the herd is tested and found clean the herd is worth more and if a reactor is found it can be killed and eliminate the danger to others being infected. To the consumer because of the protection to growing children from tubercular infection. Children are very susceptible to infection. Clean milk is the best health food for children.

Eradication of tuberculosis in cattle herds is cheap health insurance. Other counties in Michigan are engaged in stamping out the scourge and Ottawa county is considering the matter. No time should be lost in putting the test across and the Holland Fair Ass'n is pointing out the way. Secretary Arendhorst states that the state charges \$15.00 for the testing of a herd of cows.

GRAND RAPIDS COUPLE ASK \$50,000 BALM FOR "EGGING" OF WIFE

Roy J. Bennett and Nina D. Bennett of 956 Adams st., SE., Grand Rapids have begun suit in circuit court against Henry Flesser, John Brown, Jacob Hildebrand, Elizabeth Goodman, John Hildebrand, Margaret Hildebrand and J. A. Lippert, individually and collectively for \$50,000 damages for alleged assault upon Nina Bennett.

The declaration alleged that on June 3, when Mr. and Mrs. Bennett were visiting in Burnips Corners, the defendants broke into their room, seized Mrs. Bennett, stood her up against the wall and threw eggs at her and otherwise maltreated her.

The woman mentioned fled to Jamestown during the night and took an interurban for Grand Rapids and it is said has not been in Byron Center since.

HOTEL IN KALAMAZOO CHANGES HANDS AGAIN

The Richman hotel at Kalamazoo, one of the three largest in that city and known to every Michigan traveling man, has again changed hands. B. E. Shutt, who acquired it a year ago having just disposed of it to R. L. Pfeiffer and Walter Barnes, hotel men of San Antonio, Tex.

Mr. Rickman, the man who built this beautiful hotel was also the contractor who built and furnished the city hall for Holland for less than \$60,000. It is said that between the two contracts, the contractor went

CHIEF VAN RY DISCOVERS BIG BREW- ERY IN TOWN

Saturday night at 10:30 o'clock Chief Van Ry and Officer Steketee armed with search warrant went to the home of Wm. Garbrecht, 140 Fairbanks avenue on the supposition that liquor was being brewed in the neighborhood. Neighbors had made complaint that many men were visiting the place more than seemed necessary as ordinary visitors. It is said that they came at all times of the day and night.

Chief Van Ry immediately attributed the unusually large amount of company to other reasons than a visit to the Garbrecht home for fraternal purposes.

He therefore got out the warrant under the new federal law and demanded admission. The search led to the cellar which is a large and deep one and there the officers found a veritable brewery with 540 pints of beer and thirty gallons of brew ready to bottle, 20 pounds of malt, 3 pounds of patent brew, six packages of Ideal hops, 300 metal caps and several large jars, pots and kettles. The chief and Mr. Steketee also found an air tight closet with several shelves. Each shelf had a consignment of bottles filled telling when the beer was made and thus assuring the time when it would be aged enough and would be ready to drink. Some of the beer dated back from the latter part of May.

The officers loaded the liquor and paraphernalia upon a large truck and carted it to the city hall, where it is on exhibition in the anti-room at the police headquarters. If anyone is in doubt as to whether the stuff is fermented or not, a whiff from the chief's office will set his mind at rest.

While transporting the liquor the corks began to pop from some of the many bottles because of the shakeup these received. The popping was still going on in police headquarters and while Officer Steketee was taking one from the truck the bottle exploded and cut the officer's hand severely.

Garbrecht had little to say when Van Ry "quizzed" him. He said however, that he was following the ruling made by Attorney General Palmer, serving under Wilson's administration and that he was making the beer for his own use.

POTATO CROP IN THIS VICINITY IS A FAILURE

Farmers in the vicinity of Holland report that the early potato crop in this section of Michigan is practically a total failure and that the prospects for the late potato crop are not very good either. Normally the early potato crop is harvested about the 4th of July, but this year there were no early potatoes to be had here on that date. Even now, two weeks after the fourth, it is practically impossible to buy a new home grown potato, and those that are to be had are extremely small and of poor quality.

According to local farmers, the seed potatoes were literally cooked in the ground. The weather was so hot that the soil acted on the potatoes the same as hot water. Although the plants came up the seed potatoes did not have enough vitality to make them grow.

This is still more true of late potatoes planted in June. These potatoes came up above ground, grew a few inches high and then stopped growing. There are farmers in this vicinity who have ploughed under large fields of potatoes because not a single potato was to be expected from the crop, the seed having rotted away. There was not enough vitality in this crop to make the plants even blossom.

Now that reasonably cool weather has returned, some expert potato growers, announced that there is still time to secure a late crop, provided the potatoes are planted immediately. With favorable fall weather, a good crop may be expected. But it is expected that not many farmers will try it out, and the potato crop is almost certain to be short this year.

Dr. M. J. Cook expects to attend the State Dental convention to be held in Muskegon next week. Dr. and Mrs. J. J. Mersen of New York are stopping at their cottage at Waukazoo.

FRIENDSHIP, A DOG, A FURNACE.

Singleness of purpose is what led to the design of the Holland Furnace that makes it as dependable as a watch-dog. Ol' Home-Boy is symbolic of the spirit behind the Holland Furnace Company. He is on the job for his master ALL the time.

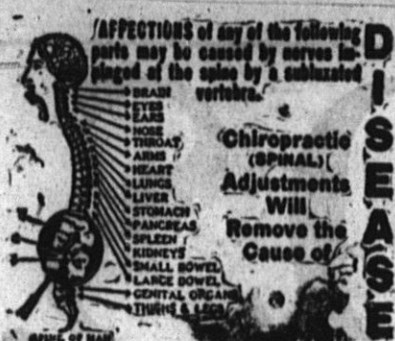

The public -- your friends and YOU -- are the master of the Holland Furnace Company. YOU are the one we are striving to please. And we are happy, because we know we can do it. Just think, we've done it one hundred and seventy-five thousand times.

We all want our friends to like us, and to like our homes. We've got to be clear-headed, and full of ginger. And of course, our homes must be cheerful. We don't want to work hard to keep ourselves and our homes this way. We don't have to.

Holland Furnaces Make Warm Friends and there is no heating and ventilating system that is easier to operate.

Piles Sufferer Finds a Correction

Health Talk No. 21

By JOHN DE JONGE, D. C.

Piles or hemorrhoids are a form of rectal tumor due primarily to lack of tone in the muscles affected, and secondarily to straining. The straining may be from costiveness, or from muscular exertion. Some forms of piles are quickly responsive, but the fibrous or connective tissue piles are slow. Chiropractic spinal adjustments will remove the primary cause of piles, which is lack of tone in the parts affected. Pressure on spinal nerves in the lumbar region causes this lack of tone and when pressure is removed the piles gradually disappear.

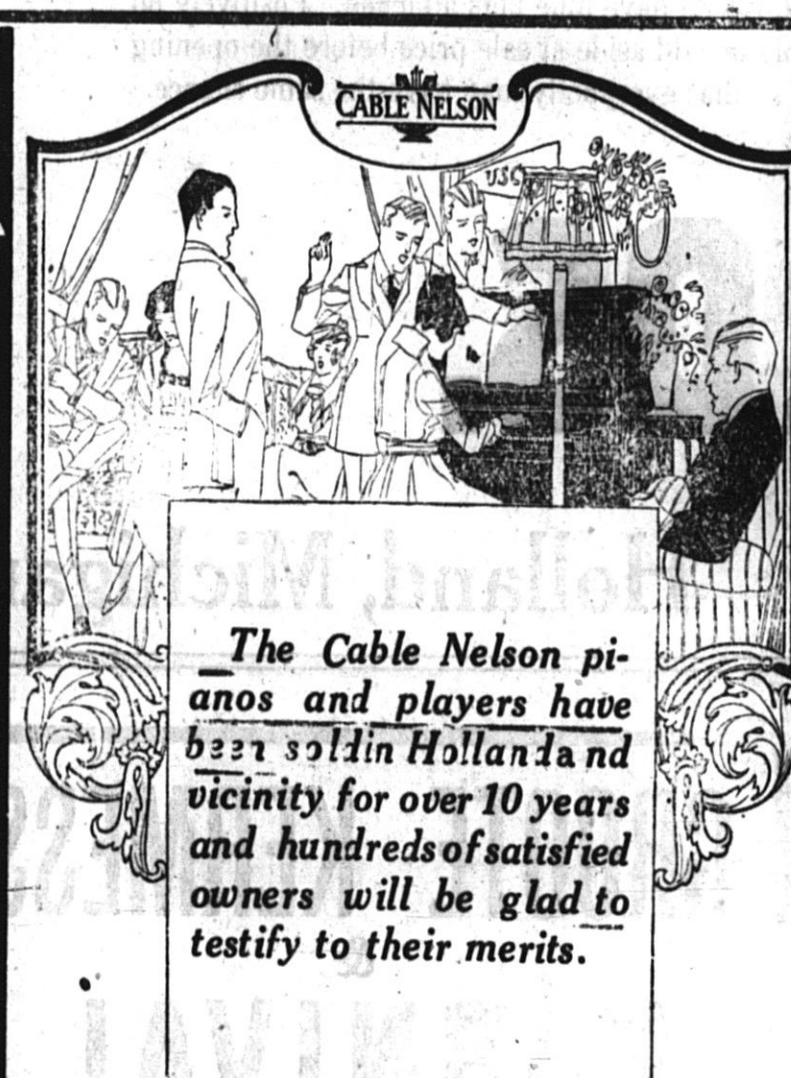

Suffered 20 Years Before Health Came

"I suffered twenty years from chronic stomach trouble and piles. I tried all kinds of drugs, patent medicines and several doctors without results. In June 1919 I started Chiropractic. I was relieved of my stomach trouble and the piles showed a gradual improvement until well. I have done more work in the past few months than in any similar period in six years."—J. S. Lumbley, Chiropractic Research Bureau Statement No 1266L.

HENRY OONK IS

WINNER OF THE BICYCLE RACE

Again this year the weather man furnished ideal weather for the Shoe factory picnic and shortly after 8 o'clock the shoemakers with their families and friends began to stream into Jenison Park. The bicycle road race was the opening event; and a few minutes before nine the ten riders were lined up on the corner of River avenue and 16th street by Supt. Whelan and promptly at 9 o'clock Leonard De Vries fired the shot which started them off. It proved to be a pretty race with a half dozen riders practically together for the first mile. When near Motello Park Van Ingen rode in between Oonk and Schippers who were leading. Their handle bars struck and the three were thrown off their wheels, but all were fortunately uninjured as nothing more serious than a few bruises resulted from the collision. The three were up and on their heels in a minute but not before Verhoef had gone by and taken the lead. Oonk and Schippers however gradually overcame Verhoef's lead and both passed him when within a quarter of a mile of the finish. Oonk taking first, Schipper 2nd and Verhoef, 3rd.

About a half hour after the finish of the bicycle race the sports program was resumed and the couple of thousand people who were present were highly entertained by the various contests and by the American Legion band which furnished music during the day. Comments were heard on all sides relative to the excellent playing of this band.

After all had enjoyed their dinner the program was resumed, and the real event of the day for the little kiddies as the fish pond. After this was over several youngsters were proud possessors of beautiful Kewpie dolls with real hair and small boys were anxious to try out their new bathing suits that they had fished out of this wonderful pond.

The ball game between the cutting room and the Yannigans proved to be a real game and in the ninth inning Yakes saved his team from being tied when he ran into the crowd in right field and nailed Munson's long drive for the last out.

All in all it was the most successful picnic ever enjoyed by the employees and friends of the Holland Shoe Co. The complete program of events follows:

HOME BUILDING

ESSAY WINNING 3RD PRIZE IN CONTEST

Below will be found the essay winning the third prize in the \$25.00 cash prize contest given by the Bolhuis Lumber and Manufacturing Co.

Attracting Our Quest (Miss Katherine Keppel)

Some long forgotten French writer has, probably in a state of morbid pessimism, told us that "after all, perhaps happiness can be found only in the railroad station." Of the owners of the joyous beaming faces found there fifty per cent are going Home. And as for the remaining fifty some clever person has commented to the effect that the only real reason people wanted to go visiting was so that could experience the joy of returning Home.

Home! What does it mean to you? A crowded tenement, or a flat infested with noisy talking-machines and player pianos on either side? Maybe it is a big house, that puts on airs of propriety, but presto! the tranquility is ruined, for in steps the landlord or worse still his monthly bill. Or is it a quiet sanctuary of your own, penetrated with that indefinable spirit of peace and love? It is on the countenance of the man blessed with a haven such as this that blooms the happy "station smile." For just as the cooing doves instinctively seek a quiet nook in which to build their nest, so man's natural instincts incline toward—a place to call his own.

Knowing this to be our natural impulse, it is with a start that we awake to the realization that one million, five hundred thousand families in our very own country are virtually without shelter, whose greatest expectations are far from ever owning a home. And it behooves us, as Americans, to shield these homeless thousands and find protection for them. Suddenly enlivened to this need the press everywhere has been discussing the situation. Many have been the suggestions, and if only to find a dwelling place for these unfortunate was necessary, the task would now be already accomplished. But "there are too many substitutes for homes already, poor makeshifts that are shelters only and not sanctuaries. The primal instinct of the herd drives us together into cramped cities, and removes from us our normal outlets of garden and the outdoors, of children and dogs, and country roads and neighborliness." Herein lies the whole keynote to the shortage. Everyone is rushing pellmell to the city seeking happiness in artificial pleasures, costly and unsatisfying. While in the country, where children are free to develop health and understanding, many a little cottage is crumbling into useless ruin. And yet here is the place where our quest for joy would end and the only place where we can understand the real sentiment of "Home Sweet Home."

Then it rests upon our shoulders to make man realize the advisability of building outside the city. The taxes of the rural dweller are on the average 50 per cent less than those of the urban resident. And as for property that also is decidedly cheaper. Thus from the financial standpoint, why pay rent? This money put into a home of your own is a permanent investment in economy, comfort, and satisfaction. "That's all very well," you may say, "for the man of leisure; but what about the factory man? He is the person who is most in need of a home."

A hundred and twelve such a vast amount of employees were needed in the Goodyear Tire Co.

that the city of Akron, O., could not accommodate the entire number.

The corporation was puzzled as to the solution of the problem which the situation offered. Finally, someone fell upon a brilliant idea and the factory determined to try it out. A hundred acres of land were purchased outside of the city limits. On this site were erected one hundred and eleven little cottages, each containing five or six rooms, a bath, cellar, and attic. The remaining unused land was converted into delightful gardens, playgrounds and parks. The cottages were then sold to the employees at a minimum cost. The experiment was a marked success, and since that time the corporation has bought much more land and built many more cottages.

Why would not this enterprise promoted by other manufacturing plants be successful anywhere. It answers the question of furnishing a home for the factory man. It is much cheaper for the employee, as a corporation is able to build much more economically than is the individual. And, as for the employer—the Goodyear Tire Company has discovered that the people living in Goodyear Heights are far more contented and efficient in their work, after owning a home in an attractive environment.

A home, as James Whitcomb Riley expresses it, with—

"Jes' the whole sky overhead, And the whole air underneath—Sorto' so's a man kin breathe Like a ort,"

blessed with gardens, sunshine, and children; that is the kind of a sequestered spot which human beings yearn for. If the employees, employee and man of leisure alike, would only look into this matter their quest for happiness would be found much easier; and as for remedying the home-shortage well—"Cela va sans dire."

NEW RESORT IS COMING TO THE FRONT

One of the newest resorts in the vicinity of Holland that is rapidly coming to the front is Oaklawn Park. This park is situated on the north side directly across the bay from Montello Park, and is reached by way of the little road that leads to the dye works and to the Landwehr summer home. This park was platted several years ago and for many years it contained by a single house. But during the past two years a number of homes have been built there and new ones are being added right along.

Oaklawn is well named because of the many oak trees that cover the space. It has for years been a favorite fishing resort for local fishermen, and it is now and has been for a long time a favorite place for swimming purposes. Improvements are constantly being made and before long it is expected that it will be a fine private resort.

Oaklawn is one of the last places along the north shore to become settled by a summer population. Time was not so many years ago when there were large areas along that shore which were practically wild. But the places have rapidly been taken up by persons who like to have quiet and peace during their summer rest, and the time will not be far distant when the north side of the bay will be populated about as thickly as the south side now is.

The north side of the course differs quite radically from the south, in that it is more heavily wooded. What trees there are along the south side are chiefly fruit trees and other trees that have been planted there, while along the north side the forests that cover the shore of the lake are virgin. But this fact has its charm for many people because it makes for greater quiet.

DIES WHEN OVERCOME BY THE HEAT

Overcome by the heat F. A. Ensing, a retired farmer of Hudsonville, died Friday afternoon at the age of 68 years. He leaves a wife, to daughters, three sons and two sisters, Mrs. D. von Sytama of Zeeland and Mrs. H. R. Stroeve of Montello Park.

Funeral services will be held on Tuesday afternoon at 1:30 at the home and 2:30 at the Sutphen church.

Zeeland and Saugatuck have come down to sprinkling hours; so why should we care?

CULL POULTRY NOW; OTTAWA COUNTY AGENT WILL ASSIST

Because only a few poultrymen and farmers will be able to attend the poultry demonstrations with E. C. Freeman, county agent Milham will arrange demonstrations in sections not reached before. The spell of hot weather is showing up the slacker hens and they can be sorted out easily. The county agent is competent to cull chickens and his services are free to everyone who will request them. A postcard will bring the agent to your house.

FISHERMAN'S WIFE GETS SOME VERY HEAVY DAMAGES

Mrs. Arrie Foppen of Grand Haven who was left a widow when her husband was lost overboard from a fishing tug off that port has been awarded compensation by the Michigan Industrial Accident Board, which disposes of claims under the state workmen's compensation act. The decision of the Industrial Accident board has been awaited with no small degree of interest because of the important bearing which it may have on accidents of similar nature which may occur along the shore.

The ruling practically establishes a precedent for such cases. When the application for payment of compensation to the widow in this case was made the question was raised as to whether the matter came within the range of the state compensation law, or must be handled under marine jurisdiction. Because the drowning occurred several miles out from port, the problem proved a question, which everyone concerned was anxious to have settled.

On March 12 of this year Arrie Foppen, a well known fisherman, went out into Lake Michigan in the line of every day duty on board the fishing tug Alice, in command of Capt. Peter Fase, one of her owners. Several miles outside of the harbor Arrie Foppen was missed by the crew of the tug. There was considerable swell running and some distance astern an empty fish box was seen floating. The tug turned and searched the lake within a radius of several miles, without finding any trace of the missing member of the crew.

While no one on board the tug actually saw Arrie Foppen go overboard, it was the belief of those on board that he had fallen into the water when the fish box went overboard. No trace of his body has ever been found.

The owners of the tug Alice carried compensation insurance in the Travelers' Insurance Co. and application was made for compensation for the widow under the state workmen's law. The question went to the state industrial accident board and now announcement was made that compensation had been awarded to the widow in the amount of \$14 per week for a period of 300 weeks.

NEIGHBORS STAGE A PLEASANT SURPRISE

On Thursday evening sixty-eight neighbors including children, gathered on the lawn of Mr. and Mrs. Bert Dekker, 268 W. 10th street. This gathering was planned as a surprise on Mr. and Mrs. A. Fairbanks and it proved to be a successful surprise. Mr. and Mrs. Dekker showed that they were ready for the occasion by having some well prepared games in which every member of the party joined with real enthusiasm. This with a liberal supply of ice cream and cake made a very successful evening. Before returning home Mr. Fairbanks was called upon for a speech, to which he responded by thanking his neighbors for giving them the pleasant surprise. The neighbors then gave him a vote of thanks for the splendid trip he had twice given them to the beach at Lake Michigan.

NORTH SIDE BOOSTERS TO BUY BATHING SITE

The Boosters Club of the North Side held a meeting Friday night and Prosecuting Attorney F. T. Miles was the principal speaker, talking on the subject "The Simple Things of Life." Mr. P. Goshorn and his assistant were also present. These men are government soil inspectors and are camping in a woods north of the bay. They are inspecting land north of Holland making a survey and will later send out bulletins telling what this soil is best adapted for. Mr. Goshorn told the Boosters Club about these things and many facts were very interesting.

TWO HORSES BURNED IN FRUITPORT FIRE

Fire of unknown origin destroyed the barn on the farm of George Loosemore in Fruitport at about 9 o'clock last Saturday night. Two good horses in the barn were burned to death. Fruitport people were organized into a bucket brigade and by hard work saved the home from going up in flames. Mr. Loosemore's loss is partially covered by insurance. The Loosemore home east of the village of Fruitport about a half a mile is one of the prettiest farm homes in that section and the Loosemore's are well known old residents there.

HOLLAND FAIR TO PAY FOR TUBERCULIN TESTS OF COWS

There is only one fit cow these days and that is a tuberculin tested one. The laws are very strict of late relative to milk. No milk may be sold from cows having tuberculosis and many cows have been killed in order that public health may be safeguarded.

John Arendhorst, secretary of the Holland fair is taking a step in the right direction. At a recent meeting of the directors of the Fair Association it was decided not alone to pay much higher premiums for cattle exhibits but to also pay to each farmer one dollar a head for each cow exhibited that has been properly tested for tuberculosis, regardless of whether the cow is entitled to a premium or not.

The Ottawa county farm agent, Mr. Milham is cooperating with the Holland Fair Ass'n in this matter and will do all in his power to foster this cause. Even now a country wide testing of cattle to eradicate tuberculosis is going on and was endorsed by the executive committee of the Ottawa County Farm Bureau at the regular meeting held at the court house recently. The government has been studying the relation of tuberculosis in cattle to that in humans for 20 years and has learned that 78% of the gland and bone tuberculosis in humans is due to infections from cow's milk. So also is a large proportion of tuberculosis or the lungs.

Direct benefit of tuberculin testing would come both to the producers and consumers. To the producers because if the herd is tested and found clean the herd is worth more and if a reactor is found it can be killed and eliminate the danger to others being infected. To the consumer because of the protection to growing children from tubercular infection. Children are very susceptible to infection. Clean milk is the best health food for children.

Eradication of tuberculosis in cattle herds is a cheap health insurance. Other counties in Michigan are engaged in stamping out the scourge and Ottawa county is considering the matter. No time should be lost in putting the test across and the Holland Fair Ass'n is pointing out the way. Secretary Arendhorst states that the state charges \$15.00 for the testing of a herd of cows.

GRAND RAPIDS COUPLE ASK \$50,000 BAIL FOR "EGGING" OF WIFE

Roy J. Bennett and Nina D. Bennett of 556 Adams st., SE., Grand Rapids have begun suit in circuit court against Henry Flesser, John Brown, Jacob Hildebrand, Elizabeth Goodman, John Hildebrand, Margaret Hildebrand and J. A. Lippert, individually and collectively for \$50,000 damages for alleged assault upon Nina Bennett.

The declaration alleged that on June 3, when Mr. and Mrs. Bennett were visiting in Burnips Corners, the defendants broke into their room, seized Mrs. Bennett, stood her up against the wall and threw eggs at her and otherwise maltreated her.

The woman mentioned fled to Jamestown during the night and took an interurban for Grand Rapids and it is said has not been in Byron Center since.

HOTEL IN KALAMAZOO CHANGES HANDS AGAIN

The Richman hotel at Kalamazoo, one of the three largest in that city and known to every Michigan traveling man, has again changed hands, B. E. Shutt, who acquired it a year ago having just disposed of it to R. L. Pfeiffer and Walter Barnes, hotel men of San Antonio, Tex.

Mr. Rickman, the man who built this beautiful hotel was also the contractor who built and furnished the city hall for Holland for less than \$60,000. It is said that between the two contracts, the contractor went

CHIEF VAN RY DISCOVERS BIG BREW- ERY IN TOWN

Saturday night at 10:30 o'clock Chief Van Ry and Officer Steketee armed with search warrant went to the home of Wm. Garbrecht, 140 Fairbanks avenue on the supposition that liquor was being brewed in the neighborhood. Neighbors had made complaint that many men were visiting the place more than seemed necessary as ordinary visitors. It is said that they came at all times of the day and night.

Chief Van Ry immediately attributed the unusually large amount of company to other reasons than a visit to the Garbrecht home for fraternal purposes.

He therefore got out the warrant under the new federal law and demanded admission. The search led to the cellar which is a large and deep one and there the officers found a veritable brewery with 540 pints of beer and thirty gallons of brew ready to bottle, 20 pounds of malt, 3 pounds of patent brew, six packages of Ideal hops, 300 metal caps and several large jars, pots and kettles. The chief and Mr. Steketee also found an air tight closet with several shelves. Each shelf had a consignment of bottles filled telling when the beer was made and thus assuring the time when it would be aged enough and would be ready to drink. Some of the beer dated back from the latter part of May.

The officers loaded the liquor and paraphernalia upon a large truck and carted it to the city hall, where it is on exhibition in the anti-room at the police headquarters. If anyone is in doubt as to whether the stuff is fermented or not, a whiff from the chief's office will set his mind at rest.

While transporting the liquor the corks began to pop from some of the many bottles because of the shakeup these received. The popping was still going on in police headquarters and while Officer Steketee was taking one from the truck the bottle exploded and cut the officer's hand severely.

Garbrecht had little to say when Van Ry "quizzed" him. He said however, that he was following the ruling made by Attorney General Palmer, serving under Wilson's administration and that he was making the beer for his own use.

POTATO CROP IN THIS VICINITY IS A FAILURE

Farmers in the vicinity of Holland report that the early potato crop in this section of Michigan is practically a total failure and that the prospects for the late potato crop are not very good either. Normally the early potato crop is harvested about the 4th of July, but this year there were no early potatoes to be had here on that date. Even now, two weeks after the fourth, it is practically impossible to buy a new home grown potato, and those that are to be had are extremely small and of poor quality.

According to local farmers, the seed potatoes were literally cooked in the ground. The weather was so hot that the soil acted on the potatoes the same as hot water. Although the plants came up the seed potatoes did not have enough vitality to make them grow.

This is still more true of late potatoes planted in June. These potatoes came up above ground, grew a few inches high and then stopped growing. There are farmers in this vicinity who have ploughed under large fields of potatoes because not a single potato was to be expected from the crop, the seed having rotted away. There was not enough vitality in this crop to make the plants even blossom.

Now that a reasonably cool weather has returned, some expert potato growers announce that there is still time to secure a late crop, provided the potatoes are planted immediately. With favorable fall weather, a good crop may be expected. But it is expected that not many farmers will try it out, and the potato crop is almost certain to be short this year.

Dr. M. J. Cook expects to attend the State Dental convention to be held in Muskegon next week.

Dr. and Mrs. J. J. Mersen of New York are stopping at their cottage at Waukazoo.

Piles Sufferer Finds a Correction

Health Talk No. 21

By JOHN DE JONGE, D. C.

Piles or hemorrhoids are a form of rectal tumor due primarily to lack of tone in the muscles affected, and secondarily to straining. The straining may be from costiveness, or from muscular exertion. Some forms of piles are quickly responsive, but the fibrous or connective tissue piles are slow. Chiropractic spinal adjustments will remove the primary cause of piles, which is lack of tone in the parts affected. Pressure on spinal nerves in the lumbar region causes this lack of tone and when pressure is removed the piles gradually disappear.

Suffered 20 Years Before Health Came

"I suffered twenty years from chronic stomach trouble and piles. I tried all kinds of drugs, patent medicines and several doctors without results. In June 1919 I started Chiropractic. I was relieved of my stomach trouble and the piles showed a gradual improvement until well. I have done more work in the past few months than in any similar period in six years."—J. S. Lumbley, Chiropractic Research Bureau Statement No 1266L.

HENRY OONK IS WINNER OF THE BICYCLE RACE

Again this year the weather man furnished ideal weather for the Shoe factory picnic and shortly after 8 o'clock the shoemakers with their families and friends began to stream into Jenison Park. The bicycle road race was the opening event; and a few minutes before nine the ten riders were lined up on the corner of River avenue and 16th street by Supt. Whelan and promptly at 9 o'clock Leonard De Vries fired the shot which started them off. It proved to be a pretty race with a half dozen riders practically together for the first mile. When near Motello Park Van Ingen rode in between Oonk and Schippers who were leading. Their handle bars struck and the three were thrown off their wheels, but all were fortunately uninjured as nothing more serious than a few bruises resulted from the collision. The three were up and on their heels in a minute but not before Verhoef had gone by and taken the lead. Oonk and Schippers however gradually overcame Verhoef's lead and both passed him when within a quarter of a mile of the finish. Oonk taking first, Schipper 2nd and Verhoef, 3rd.

About a half hour after the finish of the bicycle race the sports program was resumed and the couple of thousand people who were present were highly entertained by the various contests and by the American Legion band which furnished music during the day. Comments were heard on all sides relative to the excellent playing of this band.

After all had enjoyed their dinner the program was resumed, and the real event of the day for the little kiddies as the fish pond. After this was over several youngsters were proud possessors of beautiful Kewpie dolls with real hair and small boys were anxious to try out their new bathing suits that they had fished out of this wonderful pond.

The ball game between the cutting room and the Yannisangs proved to be a real game and in the ninth inning Yakes saved his team from being tied when he ran into the crowd in right field and nailed Munson's long drive for the last out.

All in all it was the most successful picnic ever enjoyed by the employees and friends of the Holland Shoe Co. The complete program of events follows:

HOME BUILDING ESSAY WINNING 3RD PRIZE IN CONTEST

Below will be found the essay winning the third prize in the \$25.00 cash prize contest given by the Bohns Lumber and Manufacturing Co. Attracting Our Quest (Miss Katherine Keppel)

Some long forgotten French writer has, probably in a state of morbid pessimism, told us that "after all, perhaps happiness can be found only in the railroad station." Of the owners of the joyous beaming faces found there fifty per cent are going Home. And as for the remaining fifty some clever person has commented to the effect that the only real reason people wanted to go visiting was so that could experience the joy of returning Home.

Home! What does it mean to you? A crowded tenement, or a flat infested with noisy talking-machines and player pianos on either side? Maybe it is a big house, that puts on airs of propriety, but presto! the tranquility is ruined, for in steps the landlord or worse still his monthly Bill. Or is it a quiet sanctuary of your own, penetrated with that indefinable spirit of peace and love? It is on the countenance of the man blessed with a haven such as this that blooms the happy "station smile." For just as the cooing doves instinctively seek a quiet nook in which to build their nest, so man's natural instincts incline toward—a place to call his own.

Knowing this to be our natural impulse, it is with a start that we awake to the realization that one million, five hundred thousand families in our very own country are virtually without shelter, whose greatest expectations are far from ever owning a home. And it behooves us, as Americans, to shield these homeless thousands and find protection for them. Suddenly enlivened to this need the press everywhere has been discussing the situation. Many have been the suggestions, and if only to find a dwelling place for these unfortunates was necessary, the task would now be already accomplished. But "there are too many substitutes for homes already, poor makeshifts that are shelters only and not sanctuaries. The primal instinct of the herd drives us together into cramped cities, and removes from us our normal outlets of garden and the outdoors, of children and dogs, and country roads and neighborliness." Herein lies the whole keynote to the shortage. Everyone is rushing pellmell to the city seeking happiness in artificial pleasures, costly and unsatisfying. While in the country, where children are free to develop health and understanding, many a little cottage is crumbling into useless ruin. And yet here is the place where our quest for joy would end and the only place where we can understand the real sentiment of "Home Sweet Home."

Then it rests upon our shoulders to make man realize the advisability of building outside the city. The taxes of the rural dweller are on the average 50 per cent less than those of the urban resident. And as for property that also is decidedly cheaper. Thus from the financial standpoint, why pay rent? This money put into a home of your own is a permanent investment in economy, comfort, and satisfaction. "That's all very well," you may say, "for the man of leisure; but what about the factory man? He is the person who is most in need of a home."

Such a vast amount of employees were needed in the Goodyear Tire Co.

that the city of Akron, O., could not accommodate the entire number.

The corporation was puzzled as to the solution of the problem which the situation offered. Finally, someone fell upon a brilliant idea and the factory determined to try it out. A hundred acres of land were purchased outside of the city limits. On this site were erected one hundred and eleven little cottages, each containing five or six rooms, a bath, cellar, and attic. The remaining unused land was converted into delightful gardens, playgrounds and parks. The cottages were then sold to the employees at a minimum cost. The experiment was a marked success, and since that time the corporation has bought much more land and built many more cottages.

Why would not this enterprise promoted by other manufacturing plants be successful anywhere. It answers the question of furnishing a home for the factory man. It is much cheaper for the employee, as a corporation is able to build much more economically than is the individual. And, as for the employer—the Goodyear Tire Company has discovered that the people living in Goodyear Heights are far more contented and efficient in their work, after owning a home in an attractive environment.

A home, as James Whitcomb Riley expresses it, with—

"Jes' the whole sky overhead,
And the whole air underneath—
Sorto' so's a man kin breathe
Like a ort,"

blessed with gardens, sunshine, and children; that is the kind of a sequestered spot which human beings yearn for. If the employers, employee and man of leisure alike, would only look into this matter their quest for happiness would be found much easier; and as for remedying the home-shortage well—"Cela va sans dire."

STATE OF MICHIGAN—The Probate Court for the County of Ottawa.

At a session of said court held at the Court House in the City of Grand Haven this 11th day of July, 1921.

Present: Hon. James J. Danhof, Probate Judge.

Whereas there has been this day filed in said Court a petition of the Board of County Road Commissioners for the County of Ottawa, praying for the appointment of three commissioners to determine the necessity of changing and straightening the West Michigan Pike, located, being Michigan State Trunk Line, No. 11, as it runs through the city of Holland and township of Holland in said county; the necessity of taking certain private property therefor; and to appraise the damages to be paid as compensation for such taking of a parcel of land hereinafter described for road purposes.

It appearing further from such petition that it is thought necessary by the petitioner to take the private property of one Lucy Bertsch situated in the township of Holland and described as follows: to-wit:

"The North Sixty-six (66) feet of the South one hundred ninety-eight (198) feet of the following described property: Beginning at the Northeast corner of the East half (1/2) of the Northwest fractional quarter (1/4) Section thirty-one (31), Town Five (5) North, Range Fifteen (15) West, thence south seven (7) chains, thirty-five (35) links, thence east parallel with the North Section line Six (6) chains, thirty-five links, thence North Seven (7) chains, thirty-five (35) links, thence West Six (6) chains, eighty-eight (88) links to place of beginning, containing sixty-three hundredths (0.63) acres more or less."

And it further appearing that said petitioner has been unable to agree with the owners of such parcel of land for the purchase of the same and it further appearing that said Lucy Bertsch is a resident of said county.

It is therefore ordered that this order shall be published once each week for three successive weeks in the Holland City News, a newspaper published and circulated in said county as near as any to the land in question and a copy of this order together with a copy of said petition shall be served on the said Lucy Bertsch at least ten days prior to the 15th day of August, 1921 at 10 o'clock in the forenoon at the Probate Office in the City of Grand Haven in said county being the time and place for hearing said petition.

The Holland fair secretary, Mr. John Arendahorst says that the state of Michigan charges \$15 to give the tuberculin test to a herd of 25 cows. He advises that farmers with small herds less than 25 club together and in that way get the low rate the state gives. The Holland fair gives \$1 for every tuberculin tested cow put on exhibition, no matter whether the animal gets a premium or not.
