GULF GAS AND MOTOR OILS

Opposite Holland Theatre

HE TRAVELED 900 MILES... AND LEARNED HOW TO SAVE MONEY!

MAKES "2-TRIP" TEST—Mr. J. P. Cochrane, Waban, Mass.—Chevrolet owner. Read how Gulf-lube made a surprising difference in his oil costs.

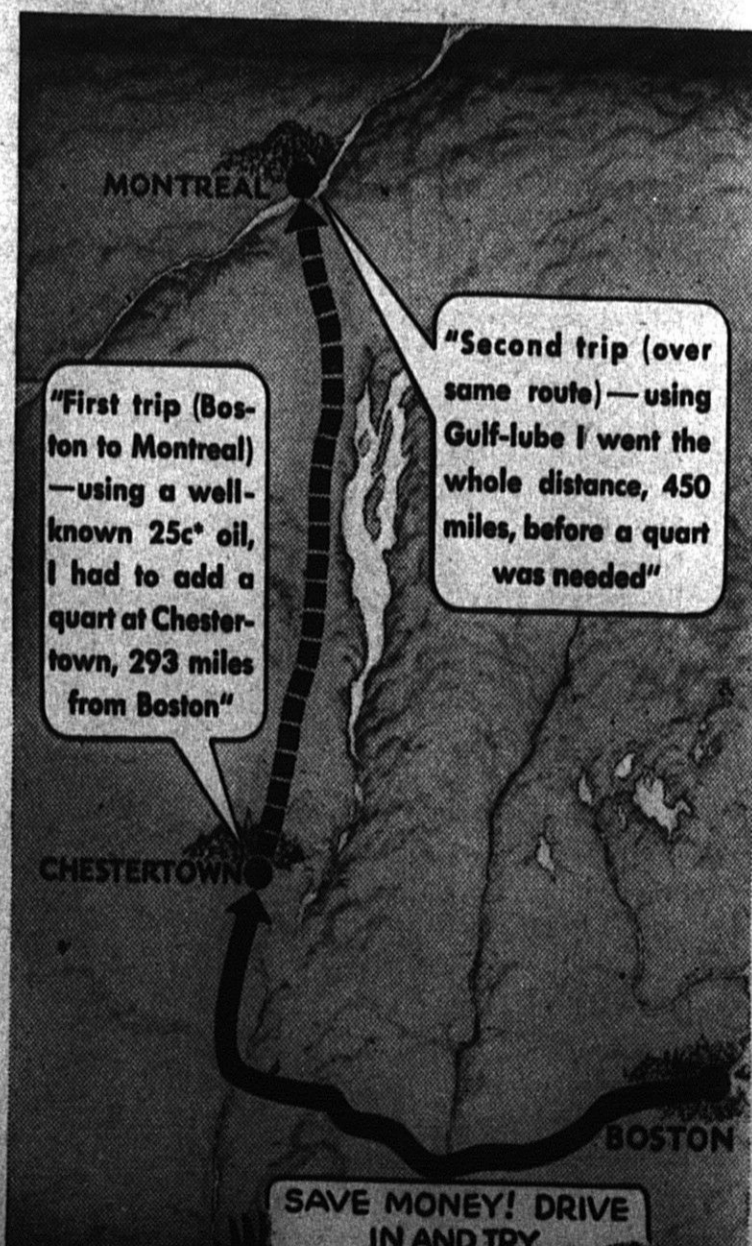

"I USED TO THINK that all 25c motor oils were about alike," says Mr. J. P. Cochrane, of Waban, Mass. "But I've changed my thinking!"

"Recently, I drove my car from Boston to Montreal—using a well-known 25c oil. And at Chestertown, N. Y., I had to add a quart—293 miles from Boston.

"Later I had occasion to cover the same route—and this time I used Gulf-lube. It took me the entire distance between Montreal and Boston (450 miles)—157 miles farther than the oil I had previously used—before a quart was consumed."

SAVE MONEY! Switch to Gulf-lube—the oil that went 28 1/2% more miles per quart than 3 other famous 25c oils in AAA tests. At all Gulf stations. *Plus tax.

AGITATING BEELINE ROAD

Ottawa county has taken up again the matter of paving the Beeline road between that city and Allegan. Petitions to the state highway commissioner asking for consummation of the work are in circulation in both counties and Holland people in particular are renewing active. Whether they have any assurance of possible action by the commission does not as yet appear.—Allegan Gazette.

VIRGINIA PARK HOME IS DAMAGED BY FIRE

Fire damaged the home of Dick Tyink at Virginia Park to the extent of between \$400 and \$500 last night, the local fire department reported today. The Holland fire department was credited with preventing destruction of the building. The blaze, which started in the rear of the house, is believed to have been due to defective wiring. Mr. Tyink was not at home and neighbors assisted by his son, who discovered the fire, succeeded in removing the furniture. The home is owned by the Holland Depositors' corporation.

Young Democrats

The young Democrats of Holland and vicinity will join with the metropolitan young Democrats of Grand Rapids in staging a beach party and wiener-roast next Saturday afternoon and evening. The affair will be held at the "House in the Woods," which is located four miles north of the Getz farm. Tickets will cost 35 cents and are on sale at Russell Haight's East End drug store.

JAIL BIRDS PAINT—

TAXPAYERS PAY The assembly room of the Allegan board of supervisors was badly in need of renovating and redecorating. Marshall Sinclair, the court house janitor, has taken the matter in hand and a crew of four inmates from the jail is carefully repairing the walls and washing the room repainted. Since the county feels itself unable to hire this work done and the room would otherwise remain in its present unsightly condition this seems an excellent way to remedy the situation.—Allegan Gazette. The News would suggest a better way. Undoubtedly there are many men in Allegan county out of jail who are paying taxes to harbor those who are in jail. They might want to do some painting or decorating and thus pay their delinquent taxes.

ZEELAND MAN RELEASED AFTER STRIKING EDITOR

Nicholas Danhof of Zeeland, who was serving 60 days in the county jail, was released Saturday on order of Gov. William Comstock, because of ill health. He was serving on an assault and battery charge and had been in jail for 36 days. Officers here appealed to the governor as the defendant was very ill and it was believed that there was sufficient cause for him to be removed from the jail, with his sentence commuted.

Danhof, who by the way, has a good war record, was inclined to get into trouble often. The last difficulty was with A. Van Koeveling of the Zeeland Record, where he attempted to clean up on the "man of the pen," but in this case the editor's fist was mightier than the pen. After the tables were turned on Danhof's arrest followed and he was sent to jail largely because of other difficulties he had previously been in jail. Even the Zeeland common council intervened in his behalf on a previous matter, but withdrew their support when the last assault and battery charge came up.

COOL HEAD AVERTS TRAGEDY

The other day a little girl in swimming at Goshorn lake, between Castle Park and Saugatuck, got into deep water and her father, seeing her danger, went in after her. They were soon in difficulty. Others in the party going to their aid found that they were beyond their depth and it looked as if the whole party of five would drown. Earle Hill, Jr., happening by at the moment, saw the trouble they were in and instead of going for help or getting confused, threw some inner tubes which had been used in swimming, and the more clear headed of the group rescued the others with the aid of the tubes.

CHOP THROUGH PANEL OF DOOR AT SCHOOL

The Blakeney school at Allendale was entered by vandals who chopped out a panel of the door and then smashed the lock but otherwise did little damage. Sunday night, the sheriff's office here learned today. Papers were scattered around in the room but no furniture was damaged.

Prof. C. J. Dregman, Dr. J. B. Nykerk, and Sherman Price of Holland motored to Allegan and called on Edward Ried of the Allegan Gazette. Mr. Ried is now 84 years old and has been a newspaper man for more than 60 years.

Local Girl Leaves On Trip to Central America

Miss B. Fellows, the daughter of Mr. and Mrs. Levi J. Fellows, who formerly lived near this city, is sailing on July 26th for Central America. Miss Fellows is in charge of the export advertising department of Standard Brands, Inc., manufacturers of Fleischmann's yeast, Royal baking powder and Chase & Sanborn's coffee. She will visit several of the district offices of her firm, calling at Kingston, Jamaica, Cristobal and Panama City, Port Limon and San Jose, Costa Rica and Havana, Cuba.

Miss Fellows will make an extended stay in Cuba, motoring the entire length of the island on the recently constructed national highway and calling at various company offices en route. While in Havana she will be a guest at the Hotel Nacional. This is the hotel made famous in the recent revolution when officers of the Cuban national army barricaded themselves in it for days and surrendered only after a prolonged and bloody battle in which large numbers were killed and wounded.

Miss Fellows is a graduate of Hope College Preparatory of this city, class of 1911. She has held several important advertising positions, having been on the copywriting staff of the J. C. Penney Company, the publicity director for the Royal and Eagle Indemnity companies, both of New York City. She was also advertising manager of the Cuban branch of the General Electric Company. She has traveled extensively in Latin America.

The Fellows family is well known in Holland and Ottawa county; in fact years ago the home of the Fellows family near West Olive was known and designated officially as Fellows Station. Both brother Gene and Levi were enthusiastic hunters, going north for deer each year for at least two score years.

PARISH FISH HATCHERY DRAWS MANY TOURISTS

Parish fish hatchery, located on US-131, north of Big Rapids, was the first institution of its kind established in Michigan. It was built in 1881. Located on a much-traveled highway, it has thousands of visitors each year. Holland fish ponds although not so prominent are also visited more and more by inquisitive tourists.

Martin and Van Eenenaam Want To Be Senators

BRING LIST SEEKING STATE SENATOR BERTH TO FIVE CANDIDATES

(Muskegon Chronicle)

Petitions for the renomination of Senator Gordon F. Van Eenenaam, of Muskegon, to the 23rd district seat in the state senate were taken out in Grand Haven simultaneously with the announcement from Fruitport that former Senator Vincent A. Martin would enter the race for the office.

Entry of these two candidates brings the number to five, although it appears one of the quintet, R. Glen Dunn, of Muskegon, may not let his name go on the ballot. The

Gordon Van Eenenaam

other candidates are Henry Wierengo, Muskegon attorney and John Dolfin Jr., of Muskegon, law student. Mr. Dolfin is running on the Democratic ticket.

The VanEenenaam petitions were taken out at the county clerk's office in Grand Haven by Lawrence Dornbos of Grand Haven and Randal Bosch, son of mayor Nicodemus Bosch of Holland.

Senator VanEenenaam has represented the Muskegon-Ottawa district for the past six years. He was born in and attended school in Zeeland. Since graduating from the law school of the University of Michigan he has made his home in Muskegon.

Mr. Dornbos's name has been mentioned often this year as a probable candidate to succeed Senator VanEenenaam, but he announced his definite withdrawal today.

Mr. Martin served the 23rd district in the state senate more than

Vincent Martin

10 years ago. During more recent years, Mr. Martin has been active in road work. He served in the state highway department for a time and more recently has worked to get the Airline highway through Fruitport. The new road, which promises to revive the business life of Fruitport, was dedicated recently.

Gordon VanEenenaam was a student at Hope College at one time, a graduate from Zeeland schools and also from the Law Department at Michigan.

AMOS 'N' ANDY ARE REPLACED BY FRANK BUCK

Frank "Bring 'Em Back Alive" Buck, world-famed wild animal hunter and adventurer, will come to the air Monday at 6:45 over WJR to dramatize for the radio audience a narrative of adventures in the jungle based on the actual experiences of Buck himself during his 33-year career of "bringing them back alive."

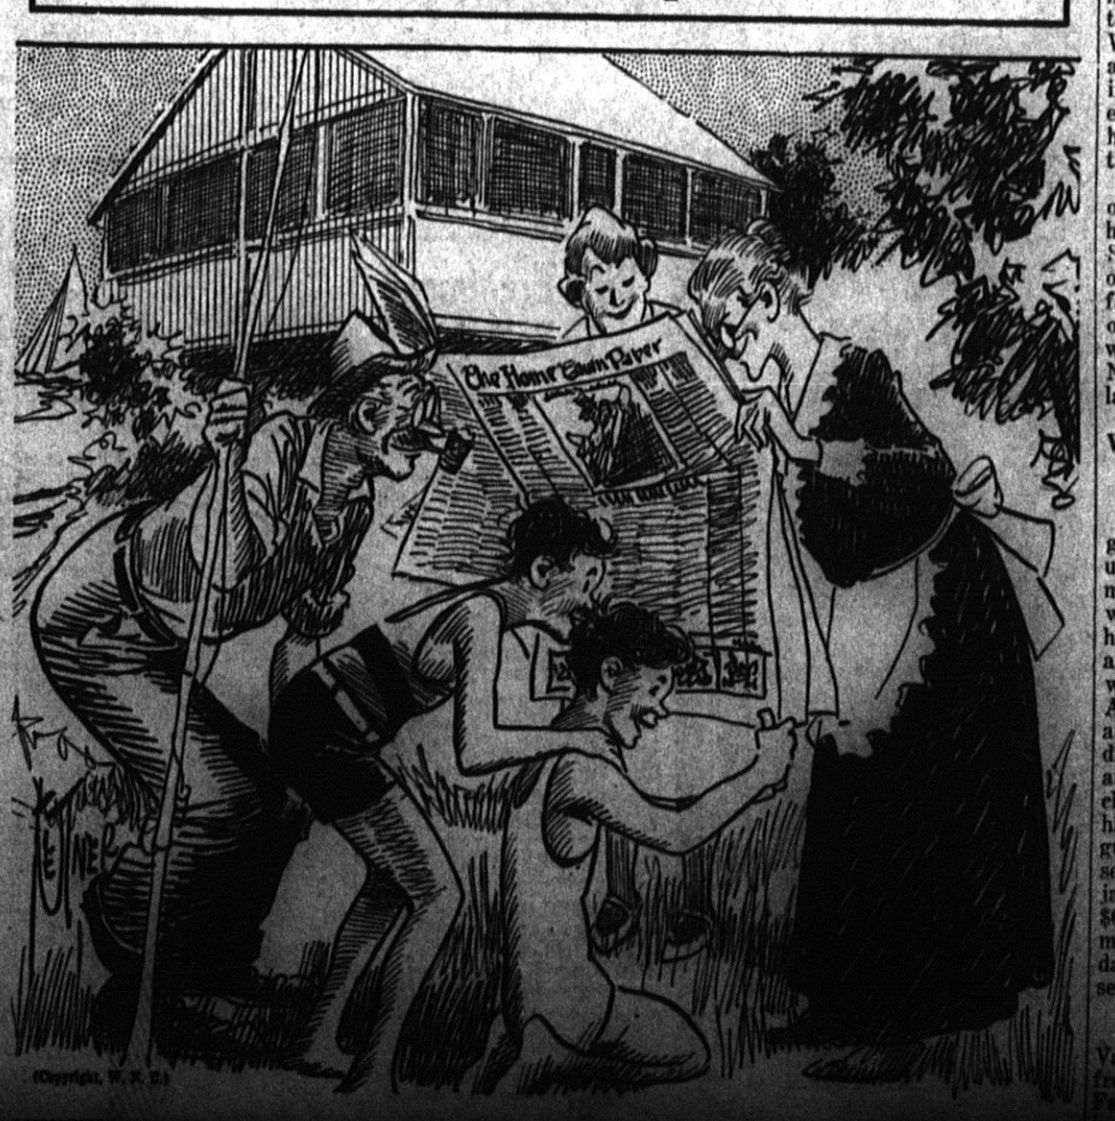

During the absence, on vacation, of Amos 'n' Andy, Buck will be heard daily, except Saturday and Sunday, in the periods regularly occupied by the celebrated black-face characters. Upon the return of Correll and Gosden, Sept. 17, he will continue to be heard over the NBC network facilities at a period later to be assigned.

WASN'T SO DUMB; NETHER WAS SHERIFF

Ernest Glass, 19, Hopkins, Allegan county, thought he had hit upon a novel idea to make some money: he fixed a sign saying he was deaf, dumb and blind and that he was trying to raise money for a needed operation. Everything worked finely until the sheriff of Allegan county wasn't so dumb, and whose eyesight wasn't impaired discovered him in Watson township and brought him in on a vagrancy charge. The young man recovered his speech sufficiently to plead guilty and he was sentenced to serve fifteen days in the county jail and to pay a fine of \$5 plus \$6.05 costs, or in default of payment to serve an additional fifteen days in jail. In the "cooler" he seems to have a very glib tongue.

But for the timely aid of Bert Bouman of 101 East 16th St., two young ladies of North Holland, namely Effie Overbeek and Mae Vanden Bosch, might have drowned in Port Sheldon bay. Both of the young ladies had gone out some distance, and were in about 40 feet of water when they cried for help. THE MILKY WAY

By Jean Allen

Nothing is immune to change these days, and now the scientists are changing the "Milky Way." But they are not astronomers and "The Milky Way" is not the one you see at night, but the path to strong bones and teeth. After years of tireless effort, science has developed a practical way to bring to you, in evaporated milk, that sunshine Vitamin D. So rarely found in foods, it is, nevertheless, very essential to the bone development of growing children and to the well-being of adults. Milk should be in every daily diet. And Vitamin D milk, especially, for young and growing member of the family, and for those whose "sunshine opportunities" may be limited.

MILK AS A DRINK

The delicious caramel-candy flavor of evaporated milk with Vitamin D, appeals to many children who do not like the flavor of raw milk. That sweet taste of safety is your assurance that the milk has been sterilized by heat and is therefore absolutely safe. In serving as a drink, dilute it half-and-half with water. Add some vanilla, nutmeg or cinnamon, if you like, and perhaps a bit of cracked ice. It is delicious. Try it served hot with a pinch of salt and some crackers.

PINEAPPLE CREAM

2 cups chilled pineapple juice 2 tablespoons sugar
4 tablespoons lemon juice 1 1/2 cups chilled evaporated milk
1 cup water with Vitamin D
Combine fruit juices, water and sugar and add to milk. Shake vigorously and serve with chilled ice. Yield: 6 servings.

STURDY YOUNGSTERS

It is the dream of every mother that her child will have a strong, healthy body, firm, even teeth and a general foundation of good health that is so necessary to face responsibilities of later years. Today scientists are giving help to mothers. Every tall can of evaporated milk gives the food value of approximately one quart of bottled milk, and now it is obtainable with Vitamin D added. Use it in making frozen egg nog.

FROZEN EGG NOG

1 cup evaporated milk with Vitamin D 1/2 cup water
1/2 teaspoon granulated gelatin 1 cup evaporated milk with Vitamin D
2 teaspoons cold water 2 well-beaten egg yolks
1/2 teaspoon cornstarch 2 stiffly beaten egg whites
1/4 cup sugar 4 tablespoons vanilla or cooking nutmeg wine
1/2 teaspoon salt
Scald milk in top of double boiler. Soak gelatin in water for five minutes and add to milk. Stir until dissolved. Pour into bowl and chill until icy cold before whipping. Mix cornstarch, sugar and salt in top of double boiler. Stir in water and milk, which have been previously mixed. Cook 20 minutes, stirring frequently. Remove from fire and stir in egg yolks. Return to fire and cook two minutes longer. Cool. Whip cold milk and gelatin mixture. Then fold in egg whites, add vanilla or cooking wine. Freeze in mechanical refrigerator tray, or in mold, packed with a mixture of one part salt to three parts ice. Sprinkle top with nutmeg. Yield eight servings.

THE DANGER SIGNAL

The body cannot store Vitamin D for long. It requires a new supply constantly, because smoke and dust in the city atmosphere obstruct the rays of the sun. We find ourselves getting that "tired feeling," and we wonder why. By eating foods containing Vitamin D, we are able to build body resistance to the onslaught of diseases. Use evaporated milk with Vitamin D in your cooking.

BAKED LUNCHEON OMELET

3 tablespoons butter Vitamin D
4 tablespoons flour 1/2 cup cold water
1 1/2 teaspoon salt 1/2 cup left-over meat, finely minced
Pepper and paprika 6 eggs separated
1/2 cup evaporated milk with Vitamin D
Make a white sauce of the first six ingredients. When sauce is thick and smooth, add the chopped meat. Cool and add egg yolks beaten until thick and light. Cut and fold in stiffly beaten egg whites. Bake in a greased baking dish in a moderate oven of 325° F., until top is firm and delicately browned. Fold over and turn on a large serving platter which has been heated. Serve at once.

MEAT LOAF WITH MEXICAN SAUCE

1 pound fresh pork 2 tablespoons melted fat
1 pound veal 1/2 cup water
2 pounds beef 1 tablespoon salt
1 cup bread crumbs 1/2 teaspoon pepper
1/2 cup evaporated milk with Vitamin D 3 eggs, slightly beaten
1 small onion, peeled and finely chopped
Chop meat finely, mix and add remaining ingredients in order given. Shape in loaf, put in pan with the fat. Roast 1 1/2 hours in hot oven of 400° F., basting every 10 minutes, at first with 1/2 cup hot water and after that is done, with fat in pan. Remove to platter and pour Mexican sauce around loaf. Garnish with parsley.

MEXICAN SAUCE

3 tablespoons butter 3 tablespoons flour
1 large onion 1/2 cup rich meat stock
2 medium green peppers 1 1/2 cups tomatoes
1 or 2 cloves, garlic, if desired Salt
Mince onion, pepper and garlic and dry in the butter. Add salt, and flour and stir carefully until smooth. Add stock and tomatoes and cook until a thick consistency. Strain if desired. Keep in the refrigerator to have ready when wanted. This all-purpose sauce may be served with almost any meat. Must Have Some Hens

The hencoops of H. M. Atwater and Steve Hamlin, Ganges, were robbed of 100 chickens each Monday night. Mrs. J. J. Stream also reported that a settler had been removed from their premises. Ganges Correspondent.—Undoubtedly, the writer meant 100 chickens from both Atwater and Hamlin. If they appear "each Monday night" laying for them next Monday would be good advice.

FURNACE COILS

Left over from an era that has passed

Kerosene lamps, wood-burning cook stoves and corrugated washboards are the crude implements of an age that has passed. And still there are homes where the hot water supply comes from a rusty furnace coil! Sometimes the faucet brings water SCALDING hot, other times, merely lukewarm, yet, this crude pipe continually squanders 400 lbs. out of every ton of fuel that goes through the furnace door. Why not junk the old coil?

You can have instant hot water, always at the proper temperature, day or night at the turn of the tap. A thrifty Self-action Gas Water Heater will provide a never failing supply for bathing, shaving, the dishes and the laundry. And the cost is surprisingly low! Stop in and we'll demonstrate.

SPEND AN ECONOMICAL VACATION IN MICHIGAN

There is no disposition in Michigan to "soak the tourist". Here you will find vacation costs moderate and accommodations to fit every pocketbook. Inexpensive tourist homes... moderately priced hotels... free camps... many points of historic interest and a variety of sports that cost but little to enjoy... all contribute to the pleasure and economy of a vacation in Michigan.

Michigan's tourist and resort business brings large sums of money to the state each year. It provides employment for thousands, and greater prosperity for all of us. We can increase that business further by telling out-of-state friends about Michigan's vacation advantages and by spending our own vacations here.

And, no matter which part of Michigan you visit this summer, banish worry by telephoning home and office frequently. Call ahead for reservations, or to tell friends you are coming. Long Dist. calls will add but little to the cost and much to the enjoyment of your vacation.

Paul De Kruij Joins In Ottawa Crusade

Ottawa county hunger fighters will be at the feet of the master hunger fighter this summer. Paul De Kruij, noted author of "Microbe Hunters" and "Hunger Fighters," pledged co-operation with local health units in a study of the problem of malnutrition among welfare subjects in an address before public health organizations of Holland, Grand Haven and Ottawa county. "Our problem is not a lack of plenty, but of a better philosophy of how to use what we have," Mr. De Kruij said. He said he was opposed to the theory that ill health among children is inherited and made a plea for treatment by environment.

The famous author, who is reporting here this summer, stated he had told his publishers that he would write no more books on how to prolong life into useless old age that might be attended by want and hunger. "I will devote my future to bettering conditions," he asserted.

There is no problem of malnutrition among the children of Holland, Dr. William Weststrate, health officer, stated in response to a query by Mr. De Kruij as to local conditions. "Although 10 per cent of the local school children are underweight, I have only found one child undernourished," Dr. Weststrate declared.
