25,000 Soldiers Eat 80,000 Pies—Bread, "Oh My!"

HOLLAND SHOULD BE ALIVE TO SOME OF THIS BUSINESS, IT WOULD SEEM

We wonder if Holland realized at what gigantic scale Uncle Sam is making preparations for troops at our very door for the encampment during two weeks in August. Thousands of them will be between here and New Richmond, near Fennville, and west to Lake Michigan and at Dunningville, not more than a half hour's drive from this city.

If you have no conception of what is to take place, these articles of food in ton lots would give some idea of how large a "war picnic" the government is preparing for to take care of the National Guards from the several states in this vicinity.

Headquarters have been located at the Holland army for the last three months where government army officers have been stationed and are preparing for these tremendous peace time maneuvers. But coming back to eat—men on the drill grounds and playing war must eat, for it is serious and strenuous work. This list can give our readers some idea as to the ration our boys from Holland and Grand Haven will get, together with the other thousands.

It will take 11 tons of fresh killed beef to feed the soldiers that will be stationed near Allegan, it is revealed from a copy of bids advertised by the government for food for the soldiers. It will take 18 tons of beef to provide for soldiers posted near Fennville and 22 1/2 tons for the army at Dunningville. Beef will be only one of the many articles in the diet of the soldiers during their stay in Allegan, the requisition revealed.

Chicken will be a delicacy apparently and the army at Allegan will have to struggle along on only 1 1/4 tons. They will get 3 1/2 tons at New Richmond and Fennville and almost as much at Dunningville.

Hungry soldiers in Allegan will have to get by with only 17,260 pies. At New Richmond and Fennville they will receive 27,450 and the Dunningville camp will have 33,792.

If you have 690 gallons of ice cream for sale you might offer it to the government for that is the amount they estimate they will need in Allegan. Don't bother about the Fennville business, however, unless you have at least 1,089 gallons, or if you would like to supply Dunningville, you will have to have 1,862 gallons on hand.

It will take 101 tons of hay to feed the cavalry in Allegan and the horses in Fennville will find 71 1/2 tons waiting for them.

Here is a table of the army menu:

	Fennville	Dunningville
Bacon, lbs.	3,579	6,187
Beef, lbs.	22,964	45,198
Chicken, lbs.	2,432	4,158
Butter, lbs.	7,443	13,245
Cheese, lbs.	5,286	9,245
Eggs, doz.	17,773	32,212
Potatoes, lbs.	17,260	33,792
Rice, lbs.	38,576	69,501

The above items were picked from the list of forty-seven articles of food and illustrate the importance of this matter and should result in a great increase in business in this city and county.

The government (war department) is also seeking bids on the following:

Hay—Allegan, 101 3/8 tons; Fennville, 71 1/2 tons.

Straw—Allegan, 38 1/2 tons; Fennville, 79 1/2 tons; Dunningville, 73 1/2 tons.

Oats—Allegan, 4,522 bushels; Fennville, 1,195 bushels.

Salt (block)—Allegan, 900 lbs.; Fennville, 660 lbs.

Twenty-Two Thousand Men in Allegan County Camps

Maj. Henry Geerds, of the first battalion of the National Guards, and Col. Pearson, chief of staff with nine other staff officers inspected the area about Saugatuck, New Richmond and East Saugatuck, which will be occupied by the 32nd division during the maneuvers of the 2nd army Aug. 6 to 13, and selected definite camps for each regiment. Conferences were also held with representatives of the 2nd army procurement and with those of the sixth army corps. The present strength of the 32nd division, which includes National Guards of Michigan and Wisconsin, is about 7,000 men, while that of the two divisions and regular army troops which will take part in the maneuvers will total 22,000 men. Maj. Geerds said, Capt. John Bremer, of company D, has received word that a meeting of all National Guards officers of the state will be held at Camp Grayling July 18 and 19 for the distribution of orders and the discussion of the training period and the movements to and from the training area. In addition to Capt. Bremer, Maj. Henry A. Geerds, First Lt. Martin Japenga and Second Lt. Richard Smeege of this city will probably attend. All the men of company D have had three inoculations and more than half of the company have been vaccinated, Capt. Bremer said.

ZEELAND YOUTH UNCONSCIOUS AFTER HEAT AT TACK: CONDITION IS CRITICAL

Russell Berghorst, 22, was in the Zeeland hospital Wednesday in a critical condition after collapsing Tuesday from the heat.

Mr. Berghorst was unconscious and running a temperature of 110 degrees when admitted to the hospital late Tuesday. He had not regained consciousness Wednesday morning.

The youth was found on the floor of a shack on the farm of his father, Dick Berghorst of R. F. D. No. 4, after the youth failed to return to the Berghorst farm home Tuesday afternoon. He had been working in a field nearby the shack in which he was found.

STEAL 120 CHICKENS AT GANGES

Thieves entered the chicken coops of John Westvelt and Alva Hoover of Ganges, Allegan county, Wednesday night and stole 75 chickens from one coop and 45 from the other. Sheriff Miller is working on the case trying to locate the thieves.

COUNCIL NOTES

Mayor Geerlings himself opened the meeting with prayer.

J. J. Vander Wege was granted a soft drink license at his service station on the corner of Columbia and 8th St.

Property owners on W. 21st St., between Harrison and Cleveland Avenues, the south side of the street, asked that they be allowed to construct a sidewalk. The sidewalk committee has this in charge.

City Clerk Oscar Peterson presented a plat of the Ray Nies subdivision for the approval of the common council which was given subject to revision of the size of lots 23, 24, 25 so as to provide for a minimum of 5,000 square feet, thus complying with the zoning ordinance.

Trinity Reformed Church last evening supplemented the request from other churches in the city, asking that the sale of liquor on Sunday be prohibited. The matter has already been passed on and will come up to the vote of the people at the fall primaries, Sept. 15.

The Christian Labor Association asked to be given the privilege to use a vacant room in the city hall for their meetings. This was left to the committee on buildings and property and undoubtedly they will have the same problem to contend with as other aldermen have, for if one organization asks for rooms, a score of others will make the same request. That thing has been going on ever since the city hall was built 25 years ago and this is especially true when a campaign is in the offing.

Alva Arnold, River Ave., was granted a license to sell soft drinks and operate a restaurant.

The Rooks Transfer Co. has come before the council repeatedly. They have garages on W. 15th St., and the neighbors complain about the noises late at night. The matter has come up again and the ordinance committee was given power to act upon this.

B. L. Post made a request that the city, through the P. W. A., lay a lateral sewer on W. 22nd St. west of Washington Ave. in order that he can connect up with the sanitary sewer from his property. Bert Arndson and John Baker on 60th St. also want to connect with the main sewer. These matters were brought up by Alderman Vogelzang and the matter was left to the sewer committee.

Alderman Vogelzang also brought in a petition signed by several property owners on Van Raalte Ave., south of 17th St. They stated that the sprinkler did very little good in these hot days, that there was a great deal of truck travel and the dust was so thick that folk along that street covered their windows so as not to be overcome with the dust, but by so doing were overcome with the heat. They asked that the street be given a coat of chloride which will settle the dust for the entire season with one application. It seems that would be a splendid idea.

The common council unanimously approved the purchase of a parcel of land adjoining the 5th St. power house property now owned by Mr. A. Michershuizen. The price is \$3,000. This adjoining city property and is much desired by the Board of Public Works for expansion. Who knows but that we will get that big warehouse after all. Sometime ago an attempt was made to purchase the Kleyn property which constitutes nearly a block and is located just across from the standpipe.

John Bremer of Co. D, National Guards, spoke before the common council asking for a refund on a light and power bill. It appears that the local organization sponsored the recent carnival just across the river and one of the stipulations was that the guards pay for the light. Ordinarily a carnival company pays tourist rates which are considerably higher. The bill, it appears, is \$175 for the week so Bremer felt that the rate to the local organization should be a commercial rate. The matter was left to the Board of Public Works committee to take further action.

Painter M. De Boer asked for permission to refinish the front doors of the city hall in order that he may pay his light and water bills. The aldermen did not say whether the doors needed finishing, leaving that to the committee on buildings and property.

The committee on streets and cross walks was given the task to find out the condition of our street signs in order that people may be well directed.

REVOKES LICENSE OF RIVER AVE. BEER PARLOR

Catherine Sernas, conducting a beer parlor at 205 River Ave., was convicted by the Michigan State Liquor Control Commission of violation of the liquor law and paid \$45 fine was given attention by the common council.

The council is asking the state liquor commission to revoke the license of the woman in question and undoubtedly the state department will listen to the demand of the "citizens."

Coast Guards Here Should Have Faster Boats

GRAND HAVEN MAKING APPEAL BROUGHT BY TWO DROWNINGS—LIVES THAT MIGHT HAVE BEEN SAVED

Grand Haven thru its Western Michigan Harbor Association of which your editor is the Holland member, thru its secretary, Wm. L. Stribley, makes an appeal that the coast guard station there be equipped with better and faster boats. "It might be well," the secretary says, "to make a similar application for the Holland Coast Guard Station." He advises to write Capt. LeRoy Reinberg of the Chicago division and send a copy of the appeal to your Congressman. Do this immediately as Michigan harbors like to get action this summer for the protection of the thousands of out-of-town guests that come into the State as well as for their own citizens, Mr. Stribley states.

The Grand Haven appeal to the U. S. Coast Guard is below and is self-explanatory:

July 11, 1936
Capt. LeRoy Reinberg
Commander, U. S. Coast Guard
Room 802, New Post Office Bldg.
Chicago, Illinois.

Dear Sir:

We would like to bring to your attention the drowning of an eighteen-year old youth about three weeks ago off the Grand Haven harbor. The local Coast Guard station demonstrated one of the quickest rescuing actions that we have ever witnessed, but unfortunately the speed of the boat was so slow that they were 600 feet from the boy when he went down. Had the boat had the speed of 35 or 40 miles per hour, this youth would still be alive.

A similar incident happened only a few days ago off the Muskegon harbor and two lives were lost because of the insufficient speed of the present life saving equipment. There is no question that the crew of the life saving station is well trained with these excellent qualities, they are at a tremendous handicap because of inadequate equipment to do rescue work of this type. Our beaches are patrolled by life guards who have small equipment to do rescue work a few hundred feet from the shore, but most of these catastrophes happen further out [which brings it into the realm of the Coast Guard activities].

We, therefore, earnestly request that you recommend to the Coast Guard headquarters that a picket boat be based at the Grand Haven Coast Guard station. This vessel should have the speed of not less than 40 miles per hour in order to adequately fulfill any emergency calls for the purpose intended.

We of Grand Haven are very proud of our Coast Guard station and of the Coast Guard Cutter base and this is the reason primarily we are making this request so that the wonderful record of these two units may be maintained by having the proper equipment to carry on their work.

A copy of this letter is being forwarded to the Honorable Carl E. Mapes, Congressman of this District so that he may be informed of our action and assist us in every way possible. Trusting that we may have immediate action as we are in the height of our tourist season when thousands of people are enjoying our wonderful bathing in Lake Michigan. It might interest you to know that for the last three years the State Park record shows an attendance of each summer of over 1,700,000 people.

Yours very truly,
SIGNED: George L. Olsen, Chairman.

The Western Michigan Harbors Association is formed by the following lake port cities:

St. Joseph, Benton Harbor, South Haven, Saugatuck, Holland, Grand Haven, Muskegon, Whitehall, Montague, Pentwater, Ludington, Manistee, North Manitow, and Leelanau.

We call the attention of our Director of the Chamber of Commerce, Wm. M. Connolly to this condition. The chamber is the clearing house for such matters and undoubtedly "Bill" has already made contacts for the local station by this time.

DR. HERMAN HARMS ESTABLISHES OFFICES IN THIS CITY

Dr. Herman Paul Harms of Chicago has established offices on the second floor of the Vander Veen building, occupying the five front offices which have been redecorated and finished for this purpose. The offices are located above the Yonker Drug Store.

Dr. Harms is a graduate from Hope College in 1928, a student from Archer, Iowa. He studied two years at the University of Chicago Medical school and taught Pharmacology at the University of Texas Medical School located in Galveston. He went back to the University of Chicago and finished in 1933, graduating with honors.

For three years he remained in the Department of Surgery, under an eminent surgeon, Dr. Phemister. Dr. Harms will specialize in general surgery besides taking up the regular duties of a physician.

Dr. Harms, about two years ago, married the daughter of Mr. and Mrs. Albert Kleis of this city. They are temporarily staying at the home of the former alderman until they get settled and find a place of residence.

The new local physician opens his office today, Friday, at 20 W. 8th St., Holland.

News Items Taken From the Files of Holland City News Fifty, Twenty-five and Fifteen Years Ago Today

FIFTY YEARS AGO TODAY

George H. Souter and Dave Bertch have each recently received a nice lot of young "German carp" and have planted them in ponds on the shore of Black Lake previously prepared for their reception. The result of their experiment will be watched with interest. The fish are said to grow to tremendous proportions quickly. Note: We are wondering if these first German carp are not the great, great, great "grandpappies" and "mammies" of the present herds. At one time we despised the carp but today "Jew fish" has proved to be a blessing in disguise. The evidences is the large battery of fish ponds east of the city belonging to the Holland Fish Game Club, bought with carp fishing money. The result has been the planting of at least a million bluegills and bass in the waters of Macatawa bay—and is fishing good? Mr. Souter was a leading citizen on the north side. He was well up in horticulture, was a nursery dealer and for many years was supervisor of Holland township. Dave Bertch was the head of the north side tannery when it was still owned by the Cappon-Bertch Leather Co. He later moved to California.

The Council of Hope College has asked King William III of the Netherlands to furnish the college library with a complete collection of Dutch literature. A petition endorsed by Michigan's Governor Alger, general in the Civil War, and the superintendent of public instruction of Michigan; president of the college, Dr. Charles Scott, D.D., and Mayor of Holland, Patrick H. McBride. The petition will be sealed with both the Michigan state seal and the Holland seal and will be handed to King William by Rev. Peter Moordyk of Grand Rapids, a graduate from Hope college, who will soon visit the Netherlands. Note: Graves Library contains some rare Dutch volumes. However, whether Mr. Moordyk's visit brought the collection expected is not made clear in the News files later on. Dr. Charles Scott is the father of Mr. Ed Scott, living north and east of the Grand Haven bridge.

The men who were to expose spiritualism at Lyceum Opera House fled town and left an account due at the News office. Prof. Eddy of Boston is the name under which "both sailed." We advise other cities to give the "fakes" a wide berth. Note: Whoever these "smooth" "fakes" were, they undoubtedly know more about the spirit world today than they did 50 years ago. A hot summer, this!

There will be an ice cream and strawberry social in the church yard of the M. E. church. All are welcome. Note: These were features years ago. The lawn "dolled up with" Chinese lanterns and home-made ice cream. It was good—made dishes for children 5c and adults larger ones, 10c. In those days I was in the nickel class and the church was a half block away.

Considerable lumber was picked up along the beaches of Lake Michigan south and north of Holland harbor. Those fortunate enough to have a boat handy picked up at least 3,000 feet. We are at loss to know how the lumber got there since there have been no storms recently, undoubtedly from an abandoned "water logged" sailing vessel from a foreign port. Note: In those days it was more difficult to locate ships in distress since there was no wireless, radio, airplanes, etc., to make search or investigation. Generally "bowsprits" were counted at the end of the sailing season to see if all the "wind-jammers" were still afloat.

A large class is prepared and are to be confirmed at the St. Francis de Sales Catholic church Sunday. Bishop Richter and Rev. Schrems will both be in charge of the services and confirmation. The services are very impressive. Note: The church was then located at the extreme west limits of the city.

Albert Janssen, rural postman on Route 2, Zeeland, was found in his buggy unconscious. Farmers in the neighborhood noticed his condition and phoned Cory Dykvelt at the Phoenix Cheese Co., who took him to Zeeland. It was several hours before Janssen was revived. The intense heat is considered to have affected the government employee.

Adam Forepaugh and Sells Bros. combined circus with 750 wild animals and 1,000 new circus wonders and 600 horses, 3 herds of camels and one large herd of elephants, the largest tents ever erected—will be in Holland July 17. A mammoth parade in the morning at 11 o'clock with six bands.

Passengers on a crowded resort interurban were thrown in a panic when a bullet crashed through a window, miraculously passing through the mass of seated and standing passengers without injury to any, lodging in the woodwork on the opposite side of the way to Macatawa Park and was out of Grand Rapids about 15 minutes when this unusual thing occurred.

More than 1,000 passengers were carried by the Steamer Puritan from Chicago Sunday morning and Holland and the park were filled with strangers all day.

TWENTY-FIVE YEARS AGO TODAY

But for the timely arrival of "Vaude" Vandenberg at his summer home at Oaklawn Park on Black Lake, a sad tragedy would have occurred. Mrs. Vandenberg and her sister, Mrs. Grace Buhl, of Chicago, were bathing in the bay at that point and both ladies were learning to swim. In their eagerness to learn some of the strokes more quickly Mrs. Vandenberg ventured in water a little deeper. The result was that she stepped off into water too deep. Her sister, seeing that something was wrong, gave the alarm and endeavored to aid her drowning sister. She became completely exhausted in her frantic effort to help. "Vaude" Vandenberg, upon learning in the morning, had left word that he would not be home for lunch but whether it was a premonition or what, something prompted him to go home. He had taken his little son in his arms and walked to the shore with him when he saw immediately that there was something amiss. He rushed into Black Lake where Mrs. Vandenberg's head above water whenever it appeared. As his wife was going down for the third time Mr. Vandenberg succeeded in grabbing her and took her to shore. No one was in sight only the exhausted sister and "Vaude" knowing that restored respiration was necessary he rolled his wife over a log on the shore and after ten minutes of frantic work there were signs of life. The work was continued for some time longer when Mrs. Vandenberg was revived altogether and little the worse because of her terrible experience. When "Vaude" was questioned by this newspaper he had little to comment. He did say "whatever impelled me to go home for lunch is more than I can say. I didn't intend to go home for I was as busy as ever at noon. But I simply jumped into the machine and went, and no doubt I got there just in time."

Mrs. W. Curtis Snow, who with her children and her father has been motoring through the west, returned to Holland today.

Gerrit Zaalmink, pioneer of 1874, died Sunday of a second paralytic stroke. He was 74 years old. Mr. Zaalmink was one of the Van Raalte settlers party when but a young boy. Note: Mr. Zaalmink was in reality the promoter of Central Park. He set this spot out to trees and platted the ground and besides his home he built a number of cottages there. At one time there was a small dock there called Plasman's dock. It was a great place to fish from.

Bert Tinholt and A. A. Paris, rural caretakers of Holland, have secured permission from Uncle Sam allowing them to use motor cars to deliver their mail. Farmers in both routes were rather surprised to see their mailmen arrive sooner and with an "iron horse." Soon the automobile, we expect, will be put in more general commercial use instead of for pleasure only.

Tom N. Robinson, a recent graduate of the law department of the University of Michigan, is the latest accession to Holland's legal fraternity. Mr. Robinson is better known as the Michigan State Fair Wanderer in 1907 when he walked from Holland to Detroit for a \$100 cash prize. It was a good beginning for his college course at Michigan. He had graduated with honor. He hung out his shingle in this city, occupying one of the rooms in the Holland City News office.

FIFTEEN YEARS AGO TODAY

Mrs. Charles Dykstra, wife of Alderman Dykstra, local druggist, dies. The Common Council passes resolution of sympathy and sends flowers. Mayor Stephan asked the aldermen to attend the services in a body. Note: Since that time the former alderman has also passed away.

Attempt Made To Bar Hoffman As A Justice

HOFFMAN SAYS HE HAS NOT LOST HIS RESIDENCE BUT IS SIMPLY LIVING OUT IN THE COUNTRY FOR THE SUMMER SEASON

Cornelius De Keyser, former Justice of the Peace, believes that Nick Hoffman, reelected Justice at the election last spring, is not eligible to serve any longer and in a communication to the mayor and common council gives his reasons as follows:

Gentlemen: I desire to call your attention to the office of the Justice of the Peace now being filled, I believe illegally, by Nicholas Hoffman, Jr., he having leased his home in the city and moved to Park Township, thereby losing his residence in the city and thus becoming a resident of Park Township, thereby creating, under the law, a vacancy in said office since he is now not a voter in the city of Holland, and which the said Nicholas Hoffman, Jr. should be informed of before his city is drawn into a damage suit for false imprisonment or something else illegal in connection with the office held by the said Nicholas Hoffman, Jr.

Cornelius De Keyser, 57 W. 10th St., Holland, Mich.

In an interview with Mr. Hoffman, he stated, "I simply leased my furnished home during the summer time to tenants who were there before. I live in Park Township only for the summer and will be back when school opens. I am doing no different than has been done by members of the school board and other city officials and hundreds of citizens who go to their summer homes. I have always voted here and my vote has never been questioned nor have the votes of any other resort dwellers."

"I think the thing is a little far fetched. Anytime the ways and means committee wants me to appear I shall be only too glad to do so."

Undoubtedly the ways and means committee will have decided the question long before the next council meeting which will be three weeks from this past Wednesday. Four times a year the calendar provides for three week sessions instead of the two week sessions.

Undoubtedly Attorney Elbert Parsons will go into the law on that matter and get the correct version.

HOLLAND GIRLS COMING HOME FROM EUROPE

The editor received the following card from his niece, Miss Ruth M. Geerlings, daughter of Mayor and Mrs. Henry Geerlings:

Dear Uncle Ben:

Here we are in London—and having a grand time. We've seen a good bit of the city, but of course there is so much to see. We are going out to the Shakespeare country and Oxford tomorrow and leaving for the Netherlands Friday.

The picture postal card shows "The Old Curiosity Shop" No. 14, Portmouth Street immortalized by Charles Dickens.

The party is composed of Miss Elizabeth Arendshorst, daughter of Mr. and Mrs. William Arendshorst, 118 East 9th Street, Miss Ruth Geerlings, daughter of Mayor and Mrs. Henry Geerlings, 90 West 14th St. and Miss Margaret Boter, daughter of Mr. and Mrs. Dick Boter, Park Road.

The Holland party five weeks ago joined the Campus Tours Inc., Chicago, composing a party of twenty-five. They made the crossing from New York on the liner Britannic, of the Cunard line. The group expects to return August 6. The countries visited are Holland, England, Germany, Belgium, Switzerland and France. The Holland party expects to return on the Queen Mary, the largest ship afloat.

France just now must have been an interesting country to be in, torn as it is with strife and strikes and with a near revolution on their hands.

ONLY 10 VOTES CAST FOR SCHOOL BOARD MEMBER

Carl T. Brower, formerly of Holland now of Spring Lake was re-elected to the school board of that town. Slight interest was shown only 10 votes being cast.

ZEELAND "CHICK" QUEEN TO SEEK CONVENTION FOR GRAND RAPIDS

Grand Rapids' bid for the International Baby Chick show of 1937 will be presented to the poultrymen's organization, meeting at Kansas City next week, by Miss Jenna V. Laug of Coopersville, Michigan's chick queen. She will represent Gov. Fitzgerald, Michigan poultrymen and the Grand Rapids convention bureau. George Caball of Zeeland is scheduled to address the convention.

Mrs. Arthur W. Wrieden, Miss Katharine Wrieden and Arthur Wrieden, of Syracuse, N. Y., formerly of Holland are occupying their home on Lake Macatawa for a few weeks.

CARS STRIKE COW, MULES, AND HOUSE

A cow belonging to Lester Scott, Nunica, was struck by a car driven by Donald A. McIntyre, Bay City on US-16, Sunday. The cow's leg was broken. The state police investigated and a settlement was made by the driver with the owner.

Elbert Kaweski, Grand Rapids, was arrested by the state police for reckless driving after the driver had crashed into the home of Andrew Peterson in Nunica. With Kaweski was Albert Jajloski who was charged with being disorderly.

The Kaweski car rammed into one of the pillars of the porch and damaged the house and car considerably. The family was at home at the time and the noise shocked the occupants.

A car driven by R. S. Breckenridge, 747 Academy St., Kalamazoo struck and killed two mules which had broken out of pasture, about 4 miles out of Allegan.

Kalkman Wants City To Buy Tannery Block

INSPECTOR WIERSMA'S CLEANING UP CURBS BRINGS PLENTY OF ARGUMENT

Alderman Kalkman we believe, had a fine suggestion when he asked the city council to purchase the old tannery block between Maple and Pine Avenues on 8th and 9th Streets. The entire site can be purchased for \$3,000 less than the assessed valuation, according to Alderman Kalkman.

This old tannery site has been an eyesore for a good many years. At one time it was a busy hive of industry. In the days of the Cappon-Bertch Leather Co., it was the industrial mainstay of Holland. When the tannery was slack it was reflected in other business in this city.

To the older residents this vacant space, dotted with the ruins of a prosperous enterprise of the past, leaves a pang of regret. We sincerely believe that through the city of Holland, aided by civic sources, an endeavor should be made to acquire that property at the most reasonable figure possible. It can be put to a dozen or more uses. In the first place it could be carried along through revenue of parking space since Holland is over congested for the lack of such a spot.

It could be fitted for a playground, a Y.M.C.A. building, manufacturing plants of high order, electrically run, etc. It is a real asset to own a plot of ground so well laid out and centrally located as this tannery property. The carrying charges would be small and at the same time if an emergency arose, Holland would have this resource.

The matter, however, was tabled by the common council but a concerted effort on the part of some of our civic organizations who through their membership have been talking to conserve this property for the city could revive the matter easily and the proposal could be bro't to the council for reconsideration.

It is well, however, to take plenty of time to consider the uses such property can be put to and to find ways and means whereby the property could be acquired. Undoubtedly the matter would have to come to a vote of the people at some coming election, should the city lend a hand.

Another matter that to the News seems rather overdone is the order having all the merchandise removed from curbs.

Inspector Wiersma was with him in his province the instance when he cleaned up the curb but struck a snag when he approached the large windmill in the curb on River Ave. at "Chet" Van Tongeren's Novelty Shop. There he met the fate of "Don Quixote" and brought his troubles to the common council. Many of the aldermen were very much displeased but the innocent little windmills and other gimeracks ornamenting the lawns in front of service stations, we feel should not be cleaned away.

They are a happy sight for the children and a pleasure to the traveling public who leave their money in the city to buy just such things.

Even Mayor Geerlings took exceptions, saying that he thought it a poor ordinance. These fine ornaments are a pleasure to see and there is no logical reason for removing them, Mr. Geerlings stated. Mr. So happy about the matter but if one should be prosecuted for violation, all should.

Alderman Frank Smith voiced that sentiment and city attorney Parsons who has no objection to windmills, states that the ordinance forbids placing merchandise on curbs and on sidewalks and if one is prosecuted, all should be. If this cannot be done in one case none of the others should be prosecuted.

Your editor voiced his sentiment that Mr. Van Tongeren's windmill was an asset to the city and immediately attracted the attention of all tourists just as all dutch things do. Our growing Tulip Time is an example of this.

Mr. Van Tongeren placed that windmill there to attract business and business means more men and women employed in his factory. It is a foregone conclusion that that toy industry has grown rapidly indeed and is an asset to the city. As to the pleasing little toys, to be compelled to clean those out of a curb maintained and kept green at the expense of the property holder, to the News seems far fetched. They are almost as pleasing as the Tulips bordering the curbs and last longer and what is

School Vote Shamefully Small Monday

ONLY 424 CAST OUT OF A POSSIBLE 6000 REGISTERED VOTER

Good government is not promoted by the stay-at-home voter. However, Holland citizens showed a tendency to stay at home in no uncertain way when but 424 voters out of a registration of more than 6000 took the trouble to go to the city hall to cast their vote.

This apathy might prove serious at some time although this year it appears that the voters felt that any of the five names of men mentioned would be satisfactory members of the Board of Education. That is true. The men retired thru the election were very able men who had the interest of our schools at heart and the newly elected members are of the same type, at least one having served on the board before and the other having served as an alderman repeatedly. Any and all of the five men whose names appeared upon the ballot would have and will serve the city in a creditable manner and this largely is accountable for the lack of interest we believe.

The polls opened at 2 o'clock in the evening. The election inspectors were C. J. De Koster, George Steggers, W. M. Lawrence, Jacob Van Dyke and John Wabeke.

HEAT CAUSES EXPANSION TO STOP OPERATION OF BOTH GRAND HAVEN BRIDGES

The terrific heat of the past week yesterday caused the swing bridge and the bascule bridge over Grand river to expand to such a degree that both bridges were not able to close and the traffic was held up Sunday for a total of nearly two hours.

The swing bridge expanded four inches on either end and until the wooden timbers were cut that much the tenders were unable to close the bridge. Traffic was held up 33 minutes from 3:47 p. m. until 4:20 p. m. with 251 cars going south and 257 cars going north strung out on either side.

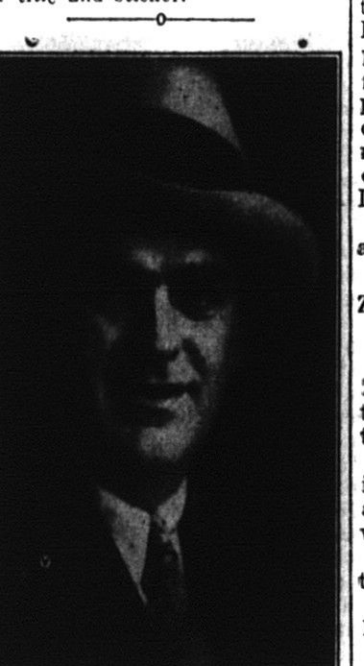

The bascule bridge, known as the Ferrysburg bridge, was out of commission from 8:00 to 9:15 p. m. when the counter balance, or the large cement block, stuck on the north wall in the pit 22 feet below the water, caused by the expansion of the bridge.

For some time the difficulty could not be located and electricians were employed to find if there was any disturbance in the motors or wiring. By the time they had completed the survey the bridge had cooled off and the tender, Gerrit Dykema, had no difficulty in lowering it.

This is the first time the bridges have ever expanded to such an extent that they were not able to close, although the wall in the pit at the bascule bridge has been chipped away to allow for the expansion in the past.

HAMILTON

The local Independents suffered their first real set-back of the season during the past week, losing both games. In the first part of the week hte boys motored to Zeeland and were defeated by a 11 to 8 score. However, the locals were leading the Zeelanders until the seventh inning 4 to 3 when Wentzel, ace hurler, was compelled to retire on account of illness and third baseman Kronmeyer was forced to take up the pitching duty because of the absence of the other regular pitchers. The Cook Oils then scored 7 runs to win the game. Wentzel held the opponents to 4 hits for six innings. On Thursday evening the defeat was administered by the Burnips aggregation on the local diamond in a close and exciting game, resulting in a 5 to 4 score. Both teams scored twice in the first frame.

Burnips then took the lead in the second counting twice, while Hamilton scored once. Both teams then were held scoreless until the last inning, when again each team sent a lone score across the plate. The experience was something new for local fans in as much as the boys have been victorious so regularly. The team has won a very large percentage of the games and is playing strong teams. There is also a splendid spirit among the boys and the fans are giving them the right kind of support. All the boys are putting in a hard day and play the game to give a good, clean entertainment to the folks.

Everybody come out next Monday at 8 o'clock sharp.

An old fashioned runaway took place in this village last Saturday afternoon. A team belong to

Geo. Koolker, hitched to a hay rack got away when one of the horses became unbridled at the Brink Lumber yard. They ran across the tracks and tried to pass between the Gas Pump and the Farm Bureau garage. The rack smashed the large plate window of the garage before the men were able to stop them. The event proved to be a big attraction and when it was found that no one was hurt, the crowd had gathered, seemed to get great enjoyment from the "good old past."

Funeral services were held for Ben Kuite 47 last Saturday afternoon at 1:30 o'clock at the home and at 2 o'clock at the First Reformed church. Rev. J. A. Roggen officiated. KROGER STORES

LIKE OLD STEAM BOAT DAYS

The S. S. Missouri, for Muskegon and Grand Haven, Sunday had a record crowd aboard as she left this port for a four hour cruise into Lake Michigan. There were 725 passengers with 242 boarding at Grand Haven and the remainder getting on at Muskegon. The capacity of the ship is 800 so that the crowd was nearly a capacity one. The ride into the lake was the one cool place and reports were that the breeze out in the lake had real cooling effects.

The deacons of the Sixth Reformed church consistory and their wives and families held a beach party and wienner roast Friday evening at Tunnel park. Those

attending were Mr. and Mrs. Burt Kortering and family, Mr. and Mrs. Peter Van Langevelde and two sons, Mr. and Mrs. Bert Crammer, Mr. and Mrs. John Van Voorst and children, Mr. and Mrs. Bert Scholten and Mr. and Mrs. Jake Essenburg.

At a meeting of the Erutha Rebekah lodge, on Friday evening, it was decided to hold no more meetings during the summer. Mrs. Imogene Wolfert, noble grand, presided. The next meeting will be held, September 11.

Mr. and Mrs. John Wierda and son, Derk, of Valley Stream, N.Y. are spending their vacation at the Carl Shaw cottage at Maple Beach.

House Cars at Beach Are to be Electrified

PARKING AT HOLLAND OVAL FOR CAMPERS TO BE HELD TO TIME LIMIT

Those who have been able to get to the Ottawa Beach oval will be surprised at the number of house cars parked for camping. Where there were four or five two years ago there are 50 today; in fact the trailers are steadily gaining in number each year. However, the increase has been especially marked this summer.

It will be rather interesting to know that because of this rapid increase conservation authorities will hold these campers to a week and two weeks limit. What is more, a house car at Ottawa Beach will be able to connect up with electric current when Michigan's plans are perfected.

Electricity and all the conveniences it provides is following the wayfarer and his "covered wagon" of today in Michigan.

So numerous have been the requests of trailer-coach users for electricity in the state parks during the past two years, that parks authorities have decided to install electrical servicing equipment in 20 of the state parks having the heaviest attendances.

A nominal fee will be charged for electric lighting and power service, depending upon the number of outlets in the coach to be served. Coaches having only lights and radio equipment, for instance, will be assessed 25 cents for three days or maximum charge of 60 cents a week. Coaches having more outlets than those merely for radio and lighting, will be charged a maximum rate of 75 cents a week.

"These fees will be assessed merely to cover the cost of installing the special electrical equipment for servicing the coaches at the various state parks," said Walter J. Kingscott. "It is not the intention of the Department of Conservation to make a profit from this service. As a matter of fact, it is not likely that any profit could be made at such rates as will be charged."

Installation of the electrical equipment necessary to service the modern "covered wagons" will be made as swiftly as possible this summer. Because of their large annual attendances and special camping accommodations, the following parks have been selected for electrical service:

Dodge No. 8 State park near Utica, St. Clair state park, Bloomer No. 1 near Middle Straits lake, Dodge No. 5 near Commerce, Grand Haven state park, Holland Ottawa Beach oval, Petoskey, Burt Lake, East Tawas, Harrisville, Interlochen, Mitchell, Orchard Beach, Traverse City, Walter J. Hayes.

Because of the increasing number of tourist campers in Michigan's state parks, rigid enforcement of the one-week and two-week camping limitations will be necessary this summer, according to an announcement by Walter J. Kingscott, superintendent of state parks and the Ottawa Beach oval is included.

"In the state parks south of Bay City and Grand Haven, and including the parks of those names, the permits for camping will allow no more than seven days at one site," Kingscott said. "North of Bay City and Grand Haven camping permits will allow no longer than two-week occupations of one site."

"After the maximum periods have expired the camper will be directed to move to another state park. This plan is intended to discourage monopoly of the best camping sites and prevent excessive wear on the grounds."

JUDGE TUCKER IS A CANDIDATE

(Allegan Gazette)

Judge Irving J. Tucker has announced that he will be a candidate for renomination as judge of probate. He is serving a first term and as he had given complete satisfac-

tion to his litigants and the public he is not likely to encounter any opposition. Affairs of the probate court never were more carefully and methodically administered than they have been by Judge Tucker. He will be renominated unanimously.

CHIEF IS CHILLY HERE AFTER LANSING VISIT

Chief Lawrence DeWitt formerly of Holland now of the police department at Grand Haven was in Lansing to attend a meeting of the police chief's association.

"Was it hot in Lansing, Chief?" "Oh boy, when I got to Grand Haven last night I wanted to put on an overcoat," he replied.

Committees on safety and traffic were selected who will attend the state police convention to be held in Grand Rapids, Aug. 4-6.

Holland Float in Grand Rapids Furniture Parade

"Neighbor Holland sent a windmill float in yellow and white, with charming young ladies in Dutch costume to smile at the crowds," says the Grand Rapids Herald. The Dutch windmill was surrounded by a number of dutch maidens, typically garbed. These

young ladies were Miss Dorothy Van Otterloo, close to the mill; Miss Jeanne Wilson, on the further side of the float; Miss Marjorie Klomparsen, sitting right over Holland and Lois Vrieling at the end of the float between the two coffee cup ears. Holland, thanks

to Hollis Baker of the Baker Furniture Co. and Charles R. Sligh of the Sligh Furniture Co., both Holland institutions, entered a fine windmill float. This received the liberal applause of the sidelines, and as the Grand Rapids papers state, was one of the outstanding highlights in this civic spectacle.

THE WESTERN THEOLOGICAL SEMINARY

The Western Theological Seminary is one of Holland's educational assets. Tho a private institution it is nevertheless one of the units of education among the other fine schools of the city.

Its history goes back to 1866, when the first class graduated from Hope College. Seven members of that class requested the privilege of studying theology in Holland. This request was granted and the first class began its work in the fall of that year. However, at this time the Seminary was a department of Hope College. This continued for eleven years when because of financial difficulties, the study of theology in connection with the College was discontinued for seven years. It was renewed in 1884 but now as an independent institution. Under its present form of management therefore it has continued for fifty years. Thru all these years it has contributed to the cultural, educational and religious life of Holland. It exists solely for the training of men for gospel ministry and for the moral and spiritual leadership of the churches. During all these years it has sent hundreds of men into the religious and educational work of the churches, many of whom are now occupying positions of influence and power in their chosen field in various countries of the world.

Among these we may mention J. J. Banninga and C. Wieringa in India, both leaders in educational work in that country; H. P. Boot in China; H. V. E. Stegeman in Japan; J. E. Kuizenga in Princeton; J. W. Beardslee Jr. and M. J. Hoffman in New Brunswick. Others are occupying leading pulpits in this country east and west and in various denominations.

It has also been a material asset to Holland. Annually it brings from forty to fifty thousand dollars into the city thru its own budget, and thru what the students and their friends bring in.

It was with these facts in mind that the Board of Trustees of the Seminary comes to the business men of Holland for some help. For a number of years, the institution has carried an indebtedness of \$22,000 on one of its dormitories. This would have been met long ago but because of the economic situation thru which we have passed and other unforeseen circumstances this was impossible. Last winter, however, a friend of the institution, the Rev. George N. Makely of Chambersburg, Pa., offered to pay the last two thousand dollars provided the institution would raise the balance by December 1 of this year.

Mr. Makely became interested in the Western Seminary some years ago when he heard a couple of its young graduates in New York State preach. As a result of that he has already given the Seminary \$5,000 as money for prizes in various branches of theology. Now he makes this offer in regard to the debt.

In order to take advantage of this generous offer, the Board of Trustees at its annual meeting in May, decided among other things to make an appeal to the business men of Holland, as a matter of local pride, to help realize this objective. The business men of Holland have always responded enthusiastically to all worthy objects. Here is an institution which for more than fifty years has contributed to the educational and religious reputation of Holland. The Board realizes that business conditions are not yet wholly normal, but also believes that much can be done if all will help.

A number of business and professional men of the city have graciously consented to help in carrying out this undertaking and we can only bespeak a cordial reception for them. Anything that anyone may be disposed to give will be deeply appreciated.

Yours, In Behalf of the Western Seminary.

BOARD OF TRUSTEES.

S. C. Nettinga, The Pres. of the Seminary.

INDIAN ON WARPATH ATTEMPTS TO SCALP FELLOW REDSKIN

James Foster, 19, is a sadder and wiser Indian today. In the Allegan county jail for the next 25 days he will meditate on the injustice of the white man's laws that forbids the poor Indian from going on the warpath. James, who lives near Bradley, according to Sheriff Fred Miller, drank too much "firewater" last Saturday night and wound up trying to scalp Selkirk Sprague, another Indian. Sprague called for help and Sheriff Fred Miller, representing the white man's law and order, brought peace to the Redskins by putting Foster in jail. He pleaded guilty to assault and battery when arraigned before Justice H. H. Cook, Allegan, and was fined \$8 and costs or a jail term.

Swimming Instruction Schedule of Ed. Damson

Central Park swimmers were the first to receive lessons under the instruction of Ed. Damson, who has charge of Red Cross swimming classes in this section of Ottawa county. They met July 9 and 16. The schedule for all groups for the whole summer is as follows. Thursday—Central Park, July 9, 16, 23, 30, Aug. 6, 13 and 20.

Friday—Port Sheldon on Pigeon lake, July 10, 17, 24, 31, Aug. 7, 14 and 21.

Saturday—Final tests for any persons wishing to receive junior and senior life saving emblems, July 11, 18, 25, Aug. 1, 8 and 15. The place will be arranged by the pupil and the examiner.

Monday—Zeeland at Ottawa Beach 75 yards north of breakwater, July 13, 20, 27, Aug. 3, 10 and 17.

Tuesday—Holland at Ottawa Beach 75 yards north of breakwater, July 14, 21, 28, Aug. 4, 11 and 18.

Wednesday—Macatawa Park 50 yards south of breakwater, July 8, 15, 22, Aug. 5, 12, and 19.

The time will be the same for all classes: 10-11 a. m., sinkers and beginners; 11-12 noon, swimmers and life saving; 2-3 p. m., swimmers and life saving; and 3:30-5 p. m., sinkers and beginners.

Persons may join any or all classes except those given to Zeeland on Mondays. Those unable to meet at the hours set may make special arrangements with the instructor.

Transportation will have to be furnished by the swimmers themselves, Mr. Damson said. Plans to secure bus transportation could not be worked out this summer.

"The American Red Cross is absolutely free and would like to have all persons interested take advantage of the lessons," Mr. Damson said. "Holland stands to profit through this work not only in the elimination of many water accidents, but also by building up the children physically."

Mr. and Mrs. Claude Perry of 404 College Ave. are the parents of twins born at the Holland hospital, Monday night. They are a boy and a girl and are the first twins to be born at the hospital this year.

Funeral services for Mrs. Mary Bos, 34, of 124 E. Seventh St. were held on Monday at the home and the Central Avenue church. The Rev. L. Veltkamp officiated and burial was in Fairlawn cemetery.

The death of Mrs. Bos followed an automobile accident in which five others were injured at the intersection of the Byron Center and North Dor roads late in the afternoon on Friday. Those injured were James Bos, her husband, whose left arm was lacerated; Mrs. Mary Gebbens of Hamilton, driver of the car in which Mr. and Mrs. Bos were riding, who sustained a fractured rib and ankle; Anna Jane Gebbens, 5, and Kenneth, 3, children of Mrs. Gebbens, who received superficial cuts and bruises; and Hudson Smith of Burnips, driven of the other car, who received head lacerations. Mrs. Bos died soon after the accident in the office of Dr. H. J. Van Duine, Byron Center. Surviving are her husband; her father, Frank Sinke; three brothers, James Sinke, Ft. Wayne, Ind., Frank, Jr., also of Ft. Wayne, and Peter of Holland; and a sister, Mrs. John Gebben of Holland.

Examination was demanded by Hudson Smith of Burnips at a hearing before Justice Loucks, Monday morning in Grand Rapids. A warrant charging negligent homicide had been served on Smith in connection with the fatal auto crash near Byron Center Friday afternoon, which claimed the life of Mrs. Mary Bos of 124 East 7th street, and injured five others. Smith's examination was set for today in Justice Loucks' office in the city hall. His bail was set at \$2,000. Smith is said to have been going north on Wilson avenue when he collided with a car driven by Mrs. Mary Gebbens of Hamilton, going west on the Kent county 462. Services were held for Mrs. Bos Monday afternoon and burial was in Fairlawn cemetery. Mrs. Bos was expecting a child within a month and her death was a contribution to shock because of her condition and not to the injuries received in the accident, according to Coroner H. C. Wolfe of Kent county.

Mr. and Mrs. Maurice Hayward of Huntington Park, Calif., have returned to their home after spending a few days with their uncle and aunt, Mr. and Mrs. H. Galbraith, East 24th street.

Mrs. A. D. Goodrich, who spent a week in Holland hospital, has returned to her home.

Michigan Plans to Propagate Muskellunge

LAKE MACATAWA IS INCLUDED IN THE LIST OF LAKES SELECTED

Why isn't the gamey but voracious muskellunge propagated and planted by the state of Michigan in waters suited to that fish?

The question has been asked by so many persons that state fisheries men think some consideration of the matter is warranted. Muskellunge have never been propagated and planted by the state although some experimental work was done with the species in earlier years. However, the muskie is propagated by at least two other states, Wisconsin and New York, and the Province of Ontario and those states plant the fry in certain of their inland waters.

Unquestionably the muskellunge has a strong appeal to vacationists who like to fish and therefore may constitute a tourist attraction. In addition ice fishermen in Michigan frequently spear large specimens during the winter months, several of near record size having been reported taken during the past winter. Muskies occur in many inland lakes of Michigan.

The question of propagating muskellunge for stocking inland waters seems to be one of advisability, says Fred A. Westernman, chief of fisheries operations.

Predator of Small Fish

"It seems to be quite well known that the muskellunge is a voracious predator and will prey heavily on the smaller fish life of any waters it occupies," Mr. Westernman said. "The lake bluegill fishing is dominantly blugill fishing or bass fishing introduction of the muskie, of course, would not be advisable since it seems almost certain that the muskie, if it survived planting and multiplied, would tend to reduce or limit the population of such game fishes."

"The next question is have we lakes in Michigan that could be made dominantly muskellunge waters and would it be desirable to stock such lakes with muskies to the exclusion of any other fish? Local sentiment largely would influence the policy on that question."

"We muskies to be propagated in Michigan we could not depend on brood stock at the hatcheries, as we do in the case of brook and brown trout. The muskie's food capacity and voracity would require an abundance of live food and it doubtless would not be economical or advisable to maintain a sufficient brood stock of muskies at any of our hatcheries to supply spawn. We would have to live-trap muskies in some of our inland lakes in the spring months and then strip the big fellows of their spawn. Wisconsin has obtained its muskellunge eggs in this manner and the success is never too certain."

Not Wanted By Some

"We are not altogether convinced that muskie propagation would be a successful and justifiable project in Michigan. At some of our lakes local residents have protested the presence of muskies because of the probable inroads it makes on other fish life. However, in lakes where the muskie already is firmly established and likely to be or to become the dominant fishing attraction, continued stocking might seem warranted."

All possible information is to be obtained on the matter of propagating muskies to learn whether muskies propagation in Michigan could be practical and economical.

Michigan already has a number of lakes in which muskellunge can be caught and where propagation will continue. Some of these lakes and the counties in which they are located are as follows:

Alcona County—Bellaire, Clam, Elk and Torch lakes.

Barry County—Gun and Thornapple lakes.

Benzie County—Big Platte lake.

Cheboygan County—Black, Burt and Mullet lakes; Indian river.

Chippewa County—Duck lake and Munusong Bay.

Gogebic County—LacVieux Desert.

Grand Traverse County—Elk lake.

Kalamazoo County—Torch lake.

Leelanau County—Lake Leelanau.

Luce County—Muscelonge lake.

Mackinac County—Brevort lake.

Macomb County—Lake St. Clair.

Mason County—Hamlin and Pere Marquette lakes.

Muskegon County—Bear lake.

Ocean County—Pentwater lake.

Ottawa County—Black (now Lake Macatawa), and Spring lakes.

St. Clair County—Lake St. Clair.

When several of the workmen of the Holland Shoe Co., left for service back in the war days, employees of the cutting room organized "The Yellow Dogs." Farewell parties and gifts were presented and later there were welcome home parties. Friday afternoon and evening, the organization held its annual picnic at Frederick's Beach. E. R. Burt, John Veltman, Neal Ego and Gerrit De Vries, veteran employees of the local company, treated the group of 22 men in celebration of their recently received bonus checks. The sports program included a ball game, was centered by Gerrit Wierda, John Veltman and Louis Brondyk. Prizes were awarded to Louis Marcus, Russel Munster, Art Wierman, John De Witt, Wilbur Brondyk, John Kruid, Al Van Dyke and John Terpsma. After supper, swimming was enjoyed and the group had an informal social time on the beach, talking over old times. Gerrit Wierda was general chairman; Al Van Dyke, grounds; E. R. Burt, lemonade; and Gerrit De Vries, William Markvliet and Neal Ego, refreshments.

Traveling Around America

THEY CHOOSE THEIR OWN NAMES

THESE little natives never learn to read nor to write—for they belong to a race which has developed no form of writing, or word signs. Yet they do have what many modern youngsters would consider a rare privilege—that of selecting their own names. They belong to an amazingly primitive race dwelling on the San Blas archipelago which is only 74 miles from Colon at the Atlantic end of the Panama Canal—a half hour's flight by safe modern airplane. The islands have recently been discovered by tourists and are now included in the itinerary of special Panama cruises leaving New York weekly on ships sailing to the Spanish Americas and California, and to South America's West Coast.

The San Blas parents never name their children—permitting them to choose their own names when they grow older. Many of them neglect to take any name at all. Others are forced into sudden selections—with most fantastic results. The impetus is often provided—now that the Indians come into more frequent contact with civilization—by shipping papers which must be signed in connection with the sale of coconuts, or the purchase of goods in Colon. It is then that the nameless ones—generally with the aid of a sympathetic onlooker—must produce a name. Historical figures provide the most fertile field with the result that the number of Theodore Roosevelts and Woodrow Wilsons on the island is amazing.

FOR SAFETY'S SAKE INSIST ON CONCRETE for all streets

MANY accidents on the streets are caused by pavements that are bumpy, raveled, slippery when wet, difficult to clean, obscure at night. These accidents can be prevented by paving with concrete which:

1. Reduces skidding in all weather
2. Has high visibility at night
3. Keeps a true and even surface, free from bumps
4. Drains and dries quickly; no pockets of standing water or mud
5. Encourages traffic to use the full street width—passing is easier

Concrete costs less to build than any other pavement of equal load carrying capacity—costs far less to maintain—cuts motoring costs.

Don't be satisfied with less than clean, safe, enduring concrete on your streets.

Whereas, it is the sense of the Common Council of the City of Holland that fairness to such licensees requiring that the restrictions under which they will be called upon to operate will be made known to them at the time of making their said applications, payment of their application and license fees, and making whatever investment, if any, is made by the business to be conducted under such license, and

Whereas licenses for the sale of beer for consumption on the premises have been approved and issued for three consecutive years without public protest or suggestion against the sale of intoxicants on Sunday until the coming in of the recent petitions against the same, and

Whereas it is the sense of this Council that the question involved is one that should be acted on and determined by this Body in accordance with the desire of a majority of the qualified Electors of this City, and

Whereas, the wishes of a majority of such electors is not at present known to this Council, and can be determined by a "Straw Vote" so called, Now, Therefore,

BE IT RESOLVED, That no action be taken to prohibit the sale of intoxicants, now authorized by law, on the first day of the week called Sunday, which will prevent such sale under any legal license now outstanding, and

Be it further Resolved, that a so called "Straw Vote", be held at the regular Primary Election to be held in the City of Holland on the 15th day of Sept., 1936, at which time there shall be submitted to the qualified electors of the City of Holland, on a ballot to be prepared and provided under the direction of this Council, the following questions:

"Shall the sale of intoxicating liquor for consumption on the premises, on the first day of the week called Sunday, be prohibited within the corporate limits of the City of Holland?"

And, Be it further resolved, that such action be taken by the Common Council, upon the determination of the above question as said question, as a majority vote on said question at such "Straw Vote" election shall indicate as having been approved, such action to be effective as to all licenses to sell liquor for consumption on the premises, issued after the expiration of licenses issued during the current license year.

Social Service in the Early Church — Acts 4:32-35; 6:1-4. Henry Geerlings

There was a marked fellow feeling in the early church. They had a deep sense of the other's need. They recognized the fact that they were interdependent. One could not get along without the other. Christianity retired in them the dominance of self and brought to the fore thought for others. So it came to pass that this spirit of brotherliness directed their attitude toward their property. They did not consider it as personal. They did not look upon it as their own. They shared all they had with one another. We call this an example of communism. It was a kind of communism, but yet it was different from the communism we know today. We might call this a Christian communism, though that might be hard to define. At any rate, it had a fine Christian motivation. Love for the brethren was back of it. The method of giving it expression may not be the best and wisest. In this case it did not last long. It was not successful. There are dangerous elements in such a plan of meeting the needs of a community or a group or people. It is liable to take away the individual initiative of some people and cause them to slip into a state of too much dependence. In any group there are always these with a slacker tendency. They are perfectly satisfied to follow the line of least resistance, the easiest way out. But while we do not wish for modern society communistic practices, even of the sort of these early Christians, we do covet the spirit of these early communists. We could wish that we moderns might have such a beautiful sense of oneness, a stirring sense of mutual obligation in bearing the burdens of life and a real and joyful willingness to serve one another in the daily tasks and needs of life. Even we who call ourselves Christians are often cold toward the needs of our fellowmen. Our streams of human kindness freeze over.

Our lesson calls our attention to another form of social service in the early church. It had to do with the widows of the Grecian Jews. The complaint was that their widows were being neglected in the daily distribution of food to the poor. The apostles took account of this complaint. It is exceedingly interesting to note what they did. They recognized the fact that they were too busy to give this pressing need attention. Preachers cannot do everything that is to be done in a parish. So they advised the selection of seven good and reliable religious men to be elected as deacons. This was done and upon the hearts and minds of these good men was placed the responsibility of caring for the widows. Out of this practice of the early church have come our deacons of today. They are not always the best and the most pious men of the church. The business idea bulks so large in our modern thinking as to the fitness of a man to be deacon that we sometimes lose sight of the spiritual fitness of the candidate. We are so obsessed with the notion of putting business methods in the church that we are in danger of making a business house out of the church rather than a glowing center of spiritual power and radiation. Of course we must apply business principles to our modern church. We must have money with which to run it, but we must have prayer and faith and love and deep spirituality and a vision of the everlasting infinitely more than we must have money. If we only knew it, we would have a great deal more money for the church if the church had more praying and believing and loving and seeing deacons. The church needs more money now than it ever needed before in its history, but the church will go on begging for what is its due until its members cultivate a passion for the kingdom and a love for their fellowmen. All the business methods in the world will never make the church go without the devotion and faith and love and spiritual mindedness of her membership.

We have another instance of real social service in our lesson. The Macedonian Christians responded to a need when they heard of it, though the need was in another section of the church. To help meet that need meant giving help to Christians who were Jews by race and formerly were Jewish in religion. But they reacted to the divine grace which they had received, with unselfish generosity, even beyond what they were able to do. We would say they gave till it hurt. Their example was so exceptional that Paul used it to encourage other Christians to avoid the shame of falling down on their obligation to respond to the appeal for help. Unquestion-

ably we have today as notable examples of unselfish giving as an expression of concern for Christian social service. There are churches and individuals whose giving is as praiseworthy as was that of the Macedonians.

SUNDAY DINNER Suggestions

By ANN PAGE

BUTTER is four cents a pound higher than ten days ago and ten cents higher than last year at this time. Eggs, however, are cheaper than last year though their price has begun its seasonal climb.

Heat and drought will no doubt affect other food supplies and prices but at the moment fresh fruits and vegetables are plentiful and reasonably priced.

Beef is somewhat lower, choice quality lamb remains high though there is plenty of cheap undergrade lamb available and other meats are steady. Small fowl, broiling and frying chickens are plentiful and inexpensive and it is excellent served cold.

Potatoes are again reasonable. Here are three menus planned for different budget levels.

Low Cost Dinner
Cold Cuts Potato Salad
Pickled Beets
Bread and Butter
Tomato Cream with Berries
Tea or Coffee Milk

Medium Cost Dinner
Cold Fried Chicken Vegetable Salad
Stewed Tomatoes
Bread and Butter
Peach Sherbet
Tea or Coffee Milk

Very Special Dinner
Meat Cakes
Celery Carrot Sticks
Fried Chicken Parsley Potatoes
Green Beans
Rice and Butter

WHEN IT'S 80° IN THE SHADE

IS IT OVER 90° IN YOUR KITCHEN?

Wiling with perspiration and fatigue in a super-heated kitchen is a most uncomfortable way of "making the old range do." But is it really necessary? No — say nearly four hundred Holland families who have switched to electric cooking. The economies of an Electric Range are so numerous that it simply "doesn't pay" to do without this modern, wife-saving convenience.

SWITCH TO ELECTRIC COOKING And You'll Have a COOL KITCHEN

With an Electric Range your kitchen stays as cool as any other room in the home. It stays clean and fresh, too. It not only banishes kitchen heat, kitchen headaches, and kitchen fatigue — but it gives you more leisure to enjoy Summer. There is no flame to over-heat the kitchen, to give off soot, nor to foul the kitchen air. And with the cleanest fuel on earth you can cook the most wonderful meals — easier, tastier, and cheaper. Why put off this matter any longer? Now is the ideal time to get your new Electric Range.

NO WASTED HEAT

All the heat of an Electric Range is used for cooking — none of it is wasted. It's an economy to enjoy a Cool Kitchen.
