The laying of sidewalks and re-novating them is again in progress under the supervision of City Engineer, Jacob Zuidema, and staff. The workmen are now on East 8th St. and rapid progress is being made. There was a scarcity of WPA labor, which gave the city a late start. Those not working on the sidewalks were transferred to Holland sewer projects, but later in the season will again do sidewalk laying.

Ray W. Stoy went fishing with his sister, Miss Kati Stoy and brought in a ten-pound muskellunge, caught in Macatawa Bay. The head of the fish will be mounted and will be taken back to Lafayette, Ind., the home of Mr. Stoy.

Police Board Makes Revision In New Rules

CHIEF BLOM COMPILES NEW DUTIES AS THIS RELATES TO FIREMEN

Holland's board of police and fire commissioners accepted unanimously the report of Fire Chief Cornelius Blom Jr., on rules and regulations governing firemen and truck drivers. Only one change was made in the original wording. The change dealt with the duties of truck drivers as fire inspectors while off duty. Aldermen thought the original ruling required that each driver had to put in an eight-hour day each week while off duty.

Fire Chief Blom explained that this ruling required eight hours per week, which can be put in at any time during that week. He said it was not likely that the full eight hours would be demanded each week. The city, according to Mr. Blom's plan, will be divided into districts and each driver will be assigned to inspect a certain district at intervals of a month. Residences would be exempt from inspection.

The new ruling was changed to read: "Members working under the double platoon must devote such time per week from his off time for inspection work or such other duties as the fire chief may direct."

Before the meeting concluded, sleeping regulations at fire houses were discussed and Commissioner Donnelly asked if the local fire department had as yet been paid the required \$350 for services rendered in fighting the recent fire at the Hamilton Farm Bureau. Mr. Blom responded that an early settlement seems likely, but that objections might be raised to paying for 100 feet of hose damaged while fighting the fire.

Among the proposed rules relating the firemen, with the revision as suggested, as drawn up by Fire Chief Blom are as follows:—

Members working under the double platoon system will not be permitted to engage in other employment other than the fire department. They must reside within the city limits and provide communication with the fire department when off duty, as all members are subject to call at all times.

No member while on duty will be permitted to leave the station (except to answer an alarm) for any cause whatever, without permission or direction from the fire chief.

Members working under the double platoon must devote such time per week from his off time for inspection work or such other duties as the fire chief may direct.

Members must report for duty on time under penalty of reprimand, suspension, or dismissal from the service. Platoons must be manned before the opposite shift is relieved from duty. (Men on duty must remain on duty until relieved by man working on opposite shift or by some member of the platoon.)

Only one-third of the off-shift will be allowed to leave the range of the curfew whistle. This by mutual arrangement. The two-thirds of the off-time will respond to fire alarms by reporting to the No. 1 engine house to man the pumper not in service and shall remain at this post (unless called by alarm) until the return of the company from alarm of fire.

No member will be permitted to wear the division uniform while off duty, excepting going to and from work. At all times when away from quarters, coats of all members wearing the uniform of the fire department must be fully buttoned.

Members on inspection duty will wear the full uniform of the fire department. Change in shifts will be at 7 a. m.

Members will be permitted to change days on opposite shifts when absolutely necessary, but this practice must not be permitted to become a common occurrence.

Only members of the off-shift will be allowed to relieve the members of the shift on duty, no other substitute will be allowed.

If for any reason, through absence, any member fails to serve his full time on his working shift, he cannot claim full compensation on his off-shift, but to simplify matters, there will be deducted from his salary an equal amount of the time from his off-shift as he lost on his working shift.

Sleeping in stations is strictly forbidden during the day. This applies to chairs, benches, etc. Members sleeping in quarters must arise not later than 6 a. m.

No smoking will be permitted on any apparatus, (at any time) or in dormitories of the station.

Religious, political, profane or vulgar language will not be permitted about any station, premises, or at fires at any time.

A vacation of (not fixed) days will be permitted each year to members working under the double platoon who have been employed in the service prior to April 20. Vacation period beginning May 1, provided that each member entitled to, and taking vacation shall serve each additional time alternately or individually. No other members of the company. No member will be permitted to take his vacation until he has served at least six months.

GAS is Economical for BAKING

TODAY, Modern Gas Range Ovens—Because of recent improvements in burner design, bring even greater economy than ever before.

NEW TYPE OVEN BURNERS
Use as few as 70 ports (holes through which gas passes) compared to the 125 or more used previously.

New economies result, for, once the oven reaches the desired temperature it is only necessary to maintain a minimum flame on little more than half as many ports as before.

Speed, however, has not been lost sight of. These same burners can attain an oven temperature of 500 degrees in 12 to 15 minutes.

The passover is a venerable institution in the history of religion. Its origin is to be found in the story of Israel's emancipation from Egyptian bondage. It came to be on the last night of Israel's stay in the land of their slavery. Pharaoh's heart became harder and harder. He relented and relented and went back to his old state of mind—only he each time became more stubborn in his determination to keep Israel in bondage. The situation was becoming desperate. Extreme measures had to be used to conquer this hardened ruler and to give him to understand that there was a greater power than his. There was a last plague to be visited upon him and his people. There was not a home to be spared in Egypt save those for which a salvation had been prepared. The first born of the families and beasts was to be smitten by the death angel, save in those homes upon whose lintels and two side posts of the doors the blood of a lamb had been sprinkled. This latter was a plan for saving God's people as over against those who owned them. The smiting of the first born was to bring the answer for which Moses had been so long struggling. Consequently the Israelites were to get ready for a rapid flight from Egypt on the morning after the night of death and sorrow. The angel of death passed the marked houses of Israel. The common understanding of the term "passover" in connection with the Hebrew Exodus from Egypt, is that it was on the Lord's part, a passing by those homes where the doorways were blood-stained with-

out entering them. Yet this meaning is not justified by the term itself, nor by the significance of the primitive rites. Jehovah did not merely spare His people when He visited judgment upon the Egyptians. He covenanted anew with them by passing over, or crossing over the blood-stained threshold into their homes, while his messenger of death went into the houses of the Lord's enemies and claimed the first born as belonging to Jehovah. In the passover rite as observed by modern Jews, at a certain stage of the feast, the outer door is opened, and an extra cup and chair are arranged at the table, in the hope that God's messenger will cross the threshold, and enter the house as a welcome guest.

At any rate this passover feast marks a great salvation and its continual observance by the Hebrews keeps such a wonderful deliverance fresh in their minds. It was meant to be a constant stimulant of gratitude and a perpetual reminder that God was their great deliverer. We can forget God and His goodness about as easily as we forget anything else. We become self-sufficient and we live in a world of our own making—until we get into trouble again and find that we must have help beyond our own powers and resources. Then we run back to God like frightened children run to their mothers when danger is nigh. So we need constant reminders. We must have the great facts and forces and influences upon which we depend for the best life ever kept before us. We ever need freshened and stirred memories. We ever need the helps that will make truths live before us again.

The people who claim that they can get along without these reminders, whatever form they may be in, are superficial enough to be silly. However, they seem to recognize the value of some reminders in other fields than that of religion and character-building. They will admit the educational value of an annual celebration of the Fourth of July. They can even see some worth in celebrating their own birthdays, but they seem to be blind as to the value of religion's memorials.

Jesus' feast of His broken body and shed blood has taken the place of the passover. He Himself became the Lamb and it is upon Him that we Christians feed. While we recognize that in the Lord's Supper there is a great deal more value than memory value, we must see and emphasize this. This Lord's Supper of our Christian faith certainly has great value in reminding us of the sacrificial death of our Lord and of our great deliverance from sin and death through

His offering of Himself. In a very vivid way this sacrifice calls us from the hardness and selfishness of the world to the tenderness of the divine heart and a love that passes human measure. It helps us to get out of our own selfish living into a sacrificial way of life. It rebukes us for being so self-centered and so concerned about what we can get and so little interested in what we can give of ourselves for the benefit of the world.

No one can think long in the presence of the Lord's Supper and not live over again the scene on Calvary and be reminded that his own sin is connected with the sin that nailed Jesus to the cross. To think of the crucified Christ brings us

shame for our guilt, but to think of our living Lord gives us assurance of forgiveness.

Council Goes "Thumbs Down" On New Rules

(Continued from Page One)

years. He pointed out that at Kollen Park there were only seven swings left out of fourteen, which had originally been there, and that the children who play at Kollen Park have practically no facilities with which to amuse themselves. He stated also that even with this curtailed equipment the children were further annoyed by automobiles going around the loop, leaving a cloud of dust. He also stated that children's picnics could not be held at Kollen Park because of these adverse conditions.

Years ago the swings and playground equipment at the different schools were available, and there was a regular schedule when children could be at the schools under the supervision of an attendant, but that was discontinued some time ago and this equipment has been put away until school starts again.

George Damson brought out that the children of Holland have been neglected altogether too long, that there never has been enough money to give them real worthwhile recreation. It has always been a very scrimping proposition.

Ald. Damson pointed out that all the playground committee had to work with was \$1,000 in cash, equally divided from the school board and from the city. He said if \$5,000 was available, the playground committee could do some real worthwhile things for our own children. Even what we have donated by the Lions' Club, but the common council has taken no steps to keep up the equipment that was donated, broken or stolen. A life preserver is also needed at Kollen Park. Now there is none available.

Ald. Brouwer stated the city had built walls around Kollen Park, but no steps to go to the beach for the little ones, and if they wanted to go down they had to slide down on their "tummies" to reach the water's edge. He suggested that a committee be appointed and money appropriated to give the children a better break.

Ald. Prins asked that the school equipment be put into play and that would relieve the situation immensely, together with the \$500 appropriation. Ald. Huyser felt that the \$500 would not go far, but he was in favor of a program well worked out, which would take time, but we should work on it immediately and have it ready for next year.

Mr. Freestone, who gave a very sensible talk, concluded the discussion by declaring that Holland did not have a park suitable, or equipment adequate, for playgrounds or picnics. He stated that Prospect Park was the most favorable place of this kind because of the insects, but he said Holland had plenty of park space which could be put into proper shape if the necessary funds were available, and it appears that a start has been made with the \$500, with the equipment of the school and with suitable plans "in the burning" for next year. Supply our kiddies need our every attention and places to play, for playing in the streets these days is absolutely hazardous.

Members of the common council ways and means committee met in regular session last Monday afternoon in the city hall, and were informed by Police Chief Frank Van Ry that state regulations did not allow overhead traffic lights to hang lower than 14 feet. This dictum resulted from discussion at the last meeting of the council when the suggestion was made that the light at 14th Street and River Ave. be lowered. Since, according to the state law the light cannot be lowered, Chairman Cornelius Huijsenga rendered a plea that limbs of nearby trees be cut away so that the light could be seen better. The police department was also requested to place warning signs along River Ave., announcing that a traffic light was present.

One-hour parking along Eighth Street and River Ave. was also successfully obtained, the chairman reported. Commissioner John Donnell suggested the matter of signs along Eighth Street similar to ones now in use at Muskegon, requesting vehicles to come to a complete stop before turning right off the highway or street which they are occupying at the time. No action was taken on this proposal.

The matter of traffic regulation at River Ave. and 17th Street on Sunday nights was discussed. Commissioner Fred Kamferbeek suggested placing an officer at this point, but the matter was taken up for further investigation.

In regard to the protests of common council in connection with the large number of police officers handling traffic on Eighth Street on Saturday nights, Commissioner Donnell stated: "I think it is money well spent and that it is worth 60 cents to save one life." Members of the board agreed that officers were needed at these corners for such work.

Claims for fire and police departments were approved and certified for payment to common council. Report of Justice of the Peace Raymond L. Smith showed collections of \$14.40 for June. Nelson Plagenhoef, on recommendation of Fire Chief Blom, was employed by the board for night duty at fire station No. 2. A bill of \$4.00, presented by Dr. Arthur J. Brower for treatment of John Diesing, injured when struck by Fred Zalsman on June 28, was rejected by the board. Mr. Zalsman had rejected the bill, maintaining that he was not responsible for payment of damages, having paid for damages to the boy's bicycle, which was involved in the accident.

More than 600 were in attendance at the annual picnic of the Sunday school of Third Reformed church held Tuesday afternoon and evening at Tunnel Park. The supper was in charge of a committee of which Mrs. Arthur White was chairman. Prize winners in the sports and contests arranged by Peter Hiemenz included Elaine Pommerening, Robert Van Heuvelen, Dolores Heyboer, Warren Pommerening, Myra Kleis, Eunice Potter, Billy Faasen, Ray Bosch, Harold Allen, Ernest Meeuwse, Mrs. Mildred Barnes, Mrs. Anna Dryer and Mrs. Robert Knowles. The contests were followed by a baseball game in which the married men defeated the single men.

MAN ESCAPES ALLEGAN JAIL SUNDAY

Louis Rembe, described by sheriff's officers as considering himself extremely hard-boiled, gave evidence of this trait Sunday night when he dug his way out of the Allegan county jail, where he was serving a 60-day term for driving while drunk.

Some time during his stay in the jail he obtained a bar with which he worked on the wall in his cell on the second floor. He escaped through a hole in the wall which evidently was just large enough to let his body through.

According to reports from Plainwell, Rembe stopped to see his wife at her home in Plainwell after his escape, and stated that he intended to steal a car and go to Chicago. He is described as being 20 years old, five feet, seven and one-half inches in height, weighing 140 pounds and having medium complexion, brown hair and blue eyes. He was wearing blue overalls and a gray coat.

Kalamazoo officers have a warrant charging the fugitive with the theft of an automobile in Kalamazoo. They intended to take him into custody as soon as his sentence was finished in Allegan county jail.

Court records show that Rembe was placed on probation in Kalamazoo in 1935 for unlawful use of an automobile and that after he violated his probation and was sentenced from one to five years at Ionia reformatory.

Mrs. Charles H. McBride, 280 College ave., and her daughter, Mrs. Virginia Crawford, of Detroit, who is spending the summer at Ottawa Beach, spent Friday in Grand Rapids.

Hold no Brief For Vicious "Snap" Turtle

SAYS THE SNAPPING TURTLE PREY ON FISH AND WILDFOWL

Holland's marshes, Black river, and many inlets and marsh covered approaches to shores in Lake Michigan have not a few snapping turtles and these will be found aplenty in the big swamps north and east of Holland. Michigan bogs are alive with them, it is stated. These "snappers" have their uses since they make very delicious soups. However, there is another angle that must be considered. The "snapper" is said to eat many fish and game birds, as is shown by the following article:

By Mack B. Stielau
Secretary Detroit Chapter
Isaac Walton League

The common snapping turtle, found in lakes, rivers, ponds and marshes from Southern Canada to the Gulf of Mexico, has long since been branded as a savage plunderer of waterfowl and fish. Sinister in appearance, vicious and equipped by nature with deadly mandibles, this reptile exacts a heavy toll. He stalks young ducklings under water, and so swift is the thrust of his head that escape is impossible, and his victim immediately drowns and is quickly torn to pieces by his keen mandibles and mighty front legs, fitted with large coarse claws.

He subverts largely on fish which he captures by lunging out with his snake-like neck while partially imbedded in mud. After observing his slow movements on land, it is difficult to conceive how this aquatic killer can catch enough prey to sustain him. But the rapidity with which he is able to project his head is second only to the dexterity of the rattlesnake in a similar movement, and so he waxes fat.

Water Feeder
The snapping turtle feeds entirely under water and it appears that he is unable to swallow unless the head is submerged. In captivity he will starve, even though surrounded with the choicest morsels, if the water in his aquarium or receptacle is not deep enough to completely cover him.

In the early summer the female leaves the water to look for a place to deposit her eggs. She selects a damp spot, often at considerable distance, that is well exposed to the sun and scrapes away a hollow, into which she crawls. She then moves about until the loose soil falls upon her back. Thus concealed, she quietly deposits her round, white and tough-shelled eggs to the number of about two dozen. Having completed her laying she displays marvelous bit of ingenuity in covering her eggs by carefully tilting her back at a sharp angle so that the earth slowly slides off to cover them. There are no parental worries because after her laying chore is over she nonchalantly returns to the water.

Few Enemies
Due to its power of adaptation to environmental conditions, the "snapper" thrives everywhere, and since only sporadic efforts are made to decimate his numbers he remains a serious problem. In some quarters, however, the urgent necessity for turtle control is recognized; notably in the State of New York, where the conservation department in 1936 inaugurated a vigorous campaign, centering its activities on Long Island for that season. The department enlisted the help of every fish and game club in that area, pointing out the loss of many ducklings each breeding season, as well as the inroads on fish life, and advising the placing of traps in ponds and sluggish streams where turtles usually find their prey. To encourage cooperation, employees of the conservation department designed a simple and inexpensive trap and furnished sketches free upon application.

BIG FREIGHTER UNLOADS COAL AT TERMINALS DOCK

The T. W. Robinson, 600-foot lake freighter docked at the Grand Haven Terminals Co. dock a few days ago and discharged 7,300 tons of coal for that company.

The boat is one of the largest ever to come into that port and had no difficulty in docking in the south channel which last year was dredged to 16 feet when the island was filled in. The boat came from Muskegon where she discharged 1,700 tons before coming in the later port where the balance of the 9,000 ton load was unloaded. The ship has an unloading boom of 200 feet and afforded interest to all those who saw the big ship discharge her large cargo.

Surviving are one sister, Mrs. William Rosbach of Grand Rapids, and several nieces and nephews. Mrs. Rosbach was a member of Fourteenth Street Christian Reformed church.

ALLEGAN COUNTY TAKES CARE OF 581 WITH JOBS

Five hundred eighty-one jobs are credited to NRS in Allegan county since January 1, according to reports from state officials, who in their report point out that of this total 431 were in private employment. This figure does not necessarily mean that 431 permanent jobs were found, but it does mean that private employment, through the first six months used 431 workers for jobs that may have lasted from one day to several weeks. Some workers were repeat also.

The report does show that the number of jobs was seven times as great as they were for the same period a year ago. One hundred fifty of the total were found jobs on work relief and a decrease in this department also is reported.

School Board Organizes For Coming Year

FRED BEEUWKES RE-ELECTED PRESIDENT OF BOARD OF EDUCATION

The present officers of the board of education were re-elected at a meeting of the school board held Monday night, at the Holland high school.

The re-elected officers are Fred Beeuwkes, president; Mrs. Martha D. Kollen, vice-president; and Mayor Henry Geerlings, secretary. The newly elected members of the board, who assumed their posts of duties at Monday night's meeting are Prof. A. E. Lappen, C. J. De Koster and William Arendshorst.

Oaths of offices for the three new members were filed.

In expressing his appreciation for being re-elected, President Beeuwkes said that committee appointments would be made at the next board meeting but he requested Trustee Arendshorst to serve with the committee on buildings.

The main item of business was the matter of appropriating \$100 to defray the expenses in carrying on the work of the Dutch museum in Holland. After discussions, the board voted to allow the appropriation and it was accepted unanimously.

The bid of C. W. Waldron of the Twin City Caulking and Waterproofing Co. of St. Joseph to caulk all windows and make repairs to school buildings was referred to the committee on buildings with power to act. Mr. Waldron's bid was \$160 for Washington school, \$300 for senior high school and \$25 for the west side of junior high school.

A motion that all bonds of the board be changed from the general fund to the sinking fund was adopted. All regular bills and claims were allowed for payment. The board voted to divide the purchase of coal for the school buildings among the firms of Gebben and Van Der Berg, Ver Beek and Zoet, and Ralph Zoet.

The appropriation of \$400 for the museum brought considerable discussion. Mr. William Arendshorst pointed out that the museum was now in the Peoples State Bank but that "Uncle Sam" had made a reduction in the number of employees and their salaries, and that put a handicap in keeping the thing going with ready funds. It is very much desired by the Board of Trustees of the Netherlands Pioneer and Historical Foundation to complete the museum project and that \$250 would fill the gap which the difference in salaries and expenses up to January 1st would make by that time it is hoped that other ways and means for financing the project will be devised. He hoped that through a membership drive an annual amount of between \$2,000 and \$5,000 could be depended upon to keep this museum going.

President Fred Beeuwkes wanted to know if school funds could be legally used to help a proposal of this kind. If not, he was not in favor of allowing the money to be appropriated. Prof. Albert Lappen, of Hope College, wanted to know why the Board of Education should be approached for museum money. Mayor Henry Geerlings replied that the full board should not fall on the common council, since the museum was not only a civic project but an educational one and it was time that the Board of Education took an interest in the historic things brought about by our founders.

Mr. Arendshorst, the newly elected member, also brought out the great need in Holland for a new library building to alleviate the congestion in the City Hall, but if this project was brought into being, a place for a museum and possibly an auditorium might be correlated in one project. A centralized site might be selected, possibly the old Knickerbocker property on Central Ave. and 12th St. This is the old Dr. Kremers homestead donated by them for a hospital many years ago. The property belongs to the City of Holland.

COLLECTING LIQUID RUBBER ON FIRESTONE PLANTATIONS IN LIBERIA

An ever-increasing supply of rubber comes from these plantations. Savings made by controlling raw materials and by more efficient manufacturing and distribution make extra values possible at no extra cost.

BECAUSE in Firestone Standard Tires—

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. By this process every cord in every ply is saturated with liquid rubber. This counteracts internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Ald. Vogelzang presented petition signed by people who use 24th St. from Mich. to Ottawa Aves., especially by the employees of the Dunn Mfg. Co., requesting that the street be treated with calcium chloride to lay the dust.

Referred to Street Committee.

Ald. Kleis presented comm. signed by W. P. Sharp offering to purchase from the City the former Klein property at 270 Lincoln Ave., at a price of \$658.00.

Referred to Ways and Means Committee.

Reports of Standing Committees Street Committee reported that the job of paving Van Raalte Ave. has been completed and that together with the City Engineer they had made an inspection of the street and found that the job has been done in a first-class manner, and were, therefore, recommending to the Council that the work be accepted and the contractor be paid the balance due him in full.

Adopted, all voting Aye.

Street Committee further reported relative to the proposed re-routing of trucks in the City of Holland so that they would not go past Holland Hospital.

Committee further reported that the City Atty. had received a letter from the State Highway Department stating that the matter of re-routing trucks in the City is under the jurisdiction of the Common Council and the only thing necessary is to designate routes that trucks should take and erect proper signs directing them along the route. It was the recommendation of the Committee that the matter be referred back to them for further study and report at the next meeting.

It was so ordered.

Claims and Accounts Committee reported having examined claims in the sum of \$19,337.79.

Allowed.

License Committee to whom had been referred the application and bond of Wm. Vander Velden for license to collect junk, reported recommending that same be granted.

Committee on Public Building reported having received an estimate of the cost of erecting the garages for the firemen at the 2 engine houses. The estimated cost for constructing a garage at the No. 2 Engine House was \$1800.00, and at No. 1—\$2000.00.

It was moved by Ald. Kalkman, 2nd by Prins,

That the garages be constructed. The question was then brought up whether an appropriation had been made for this work, and it was learned that nothing had been put in the Appropriation Bill for such an expense. Ald. Prins contended, however, that this money could be taken out of the General Fund to build these garages. After considerable discussion on the matter, the motion to build the garages was lost by Ayes and Nays as follows:—

Ayes: Alds. Prins, Kleis, Drinkwater, Kalkman and Vogelzang—5. Nays: Alds. Brouwer, Steffens, Damson, Huyser, Bultman and Smith—6.

Committee on Public Lighting reported having received a proposal from the City Sign Co. to erect a new Wooden Shoe Neon Sign on Wash. Ave. near 32nd St. identical to the signs now hanging at the other entrances to the City on the following basis:—

The City of Holland to pay the City Sign Co. \$16.50 per month for a period of 5 years. The sign to be lit 5 hours each night. At the end of the 5-year period, the sign is to become the property of the City of Holland. The proposal further provided that the necessary poles and cables for hanging the sign be erected by the B. P. W. at City expense.

On motion of Ald. Kleis, 2nd by Vogelzang,

Proposal accepted and the City Atty. instructed to draw up a contract similar to the one now in effect covering the other signs.

Adopted unanimously.

Reports of Special Committees Ald. Damson reported for information of the Council that the new lighting system at Riverview Park has just been completed. Mr. Damson further reported that on Friday evening of this week, the Playground Commission proposes to put on a night baseball game between the Flying Dutchmen and the Zeeland Team. Mr. Damson invited the Council members to attend this game as guests of the Playground Commission. The regular price to be charged being \$1.00, this being done to help defray the expense of erecting this Lighting System.

Report adopted and invitation to attend the game accepted.

Ald. Kalkman brought up the matter relative to the matter of a

drinking fountain at the Tennis Courts on 21st Street. He was informed, however, that this matter is now being taken care of by the Playground Commission.

Ald. Kleis recommended that the City Engineer and Street Department make an inspection of the City and replace those street signs that are broken and missing.

Adopted.

Clerk presented a copy of the Rules and Regulations governing the fire truck drivers. These rules were presented to the Police and Fire Board at its last regular meeting and ordered referred to the Council for its information. The rules set forth in detail the duties and other requirements governing the conduct of the fire truck drivers. There was some objection on the part of certain Aldermen relative to the requirement that the drivers are to do a certain amount of inspection work when off duty; also the requirement that they are not permitted to leave the city without permission. After some discussion on the matter, it was moved by Ald. Prins, 2nd by Kleis.

Referred to the Ways and Means Committee with the recommendation that they meet with the Police and Fire Board at its next regular meeting to consider these objections.

Motions and Resolutions Ald. Bultman brought up the matter relative to the traffic light at the intersection of River Ave. and 14th St. He contended that this light is set so high that motorists frequently pass right along without noticing it. It was Mr. Bultman's suggestion that the Police Board erect signs a short distance before reaching this light, calling attention to the fact that there is a light at the intersection.

After some discussion on the matter, it was moved by Ald. Prins, 2nd by Kalkman,

That this matter be referred to the Police Board with the suggestion that the light be lowered and, if necessary, also erect proper signs calling attention to the fact that there is a light at this intersection.

Adopted.
