**Knickerbocker  
Matter Is Again  
Before Council****"CITY FATHERS" TO TAKE  
PART IN ALL CIVIC CLUB  
ACTIVITIES; COMMIT-  
TEES APPOINTED****Police Ordered to Take Charge of  
Everyone in Kollen Park After  
Midnight**

Echoes were again heard at last Wednesday's council meeting of several matters which have been discussed by council at various previous meetings.

Ald. Arthur Drinkwater, reporting on behalf of the public building and property committee, presented to council the matter of the old hospital building at Twelfth St. and Central Ave., occupied by the Knickerbocker society of Holland College. Mr. Drinkwater stated that he and Ald. Frank Smith had visited the city-owned property, had found "the windows open, the surroundings bad, and the building locked."

Although eleven months rent was due on the house, rent has been paid to the city for only three months. Thus, the building committee figured, the society owes about \$320 in rent.

Ald. Smith supplementing Drinkwater's report, stated that the building had been a fire hazard by its late occupants, since grass had been raked on piles between the hospital building and the annex. Moreover, it is alleged, the back door of the building was open when the visit was made and there was a deposit of straw and sawdust on the floor. Should some child play about the building with matches, it would make a wonderful fire trap, Smith stated.

When Ald. Drinkwater reported that the society was charging \$21 per month rent to a family residing in the annex, and had charged a certain party \$10 for placing Christmas trees on the corner of the city-owned property, the wrath of the city's governing body was roused and they passed a resolution that the society should "pay up or get out." Ald. Drinkwater originated the motion, which, upon Ald. Vogelzang's second, was passed unanimously. Before action is taken, college authorities and members of the renting society will be notified of the condition of affairs, council promised.

Among resolutions presented before council by Ald. Edward Brouwer of the civic improvement committee and accepted by that body, was one to have the Mayor appoint one council member, and a member of each of the following organizations: Chamber of Commerce, Rotary club, Exchange club, Lions club, and Holland Fish and Game club, "to confer with coast guards, state park authorities, the Ottawa County Board of Supervisors, and the City of Holland, and make recommendations for greater safety for those engaged in swimming and other water sports about the city."

Other accepted resolutions were by the playground committee, the first of which failed to recommend new playground equipment at the new East End Tennis Courts. The second resolution, passed by council, initiates the closing of Kollen Park "from 12 o'clock midnight until daybreak each day of the week, including Sunday." The police department will take charge of all persons and vehicles found in the park after closing hours. Closing of the park resulted from the finding of empty beer and hard liquor containers and "other illicit devices" on the park playgrounds.

Council approved the signing by City Clerk Oscar Peterson and Mayor Henry Geerlings of an agreement, approved by Attorney Mahan and City Attorney Elbert Parsons, between the city and the Lyons Construction Co. of Whitehall in regard to the digging of the channel and the purchase of part of the "island" being created north of the city. Motion for acceptance was initiated by Ald. Stefens, supported by Ald. Ketel.

Upon motion by Ald. Brouwer, supported by Ald. Prins, a letter was authorized to be sent by council to the government authorities, informing them in regard to the city's stand on the matter of financial support in the carrying on of condemnation proceedings for the proposed new coast guard station site.

Council pledged its whole-hearted support to the local "Sales Mean Jobs" crusade, and upon motion of Ald. Kleis, supported by Ald. Vogelzang, voted to purchase advertising materials for the campaign, to be placed in the city hall, at a cost not to exceed \$15.

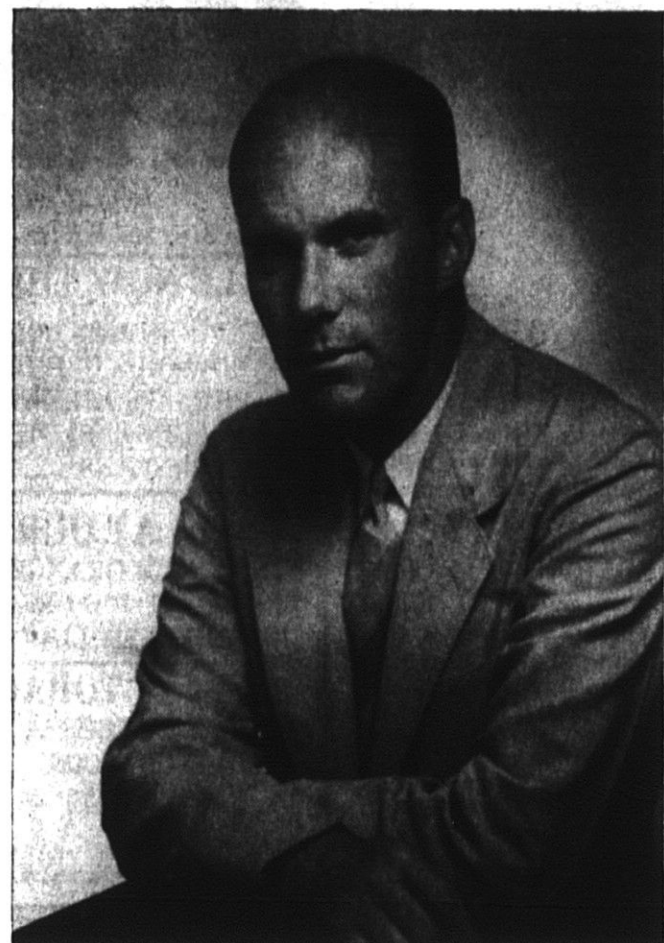

When Ald. Brouwer reported on behalf of the playground commission, Ald. Prins once more asked the question whether the annual appropriation bill provided \$1,800 for supervision and maintenance of city playgrounds or for new equipment also. Following a lengthy discussion, he was informed by City Clerk Peterson that, except for baseballs and a few minor items, the sum goes for maintenance and hiring of playground supervisors.

**DOGS KILL CHICKENS**

Saturday morning two dogs broke into chicken wrens of Frank Kooyers on East 32nd street and killed 20 pullets before they were driven off. Had the dogs not been noticed all the pullets would have been destroyed.

Application for a building permit has been made with City Clerk Oscar Peterson by Mrs. Mary Yntema, who seeks to improve the building at 10 West Eighth St., formerly occupied by Ollies, Inc., now to be occupied by Post Jewelry Co.

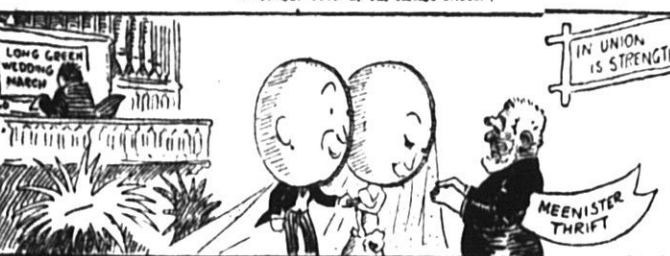

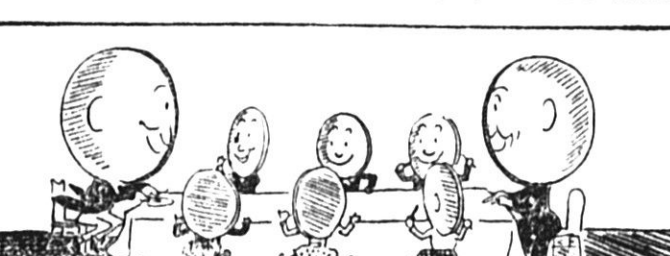

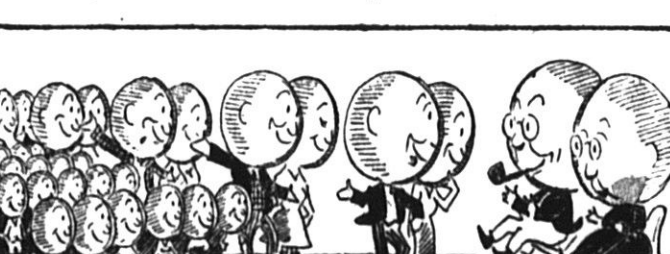

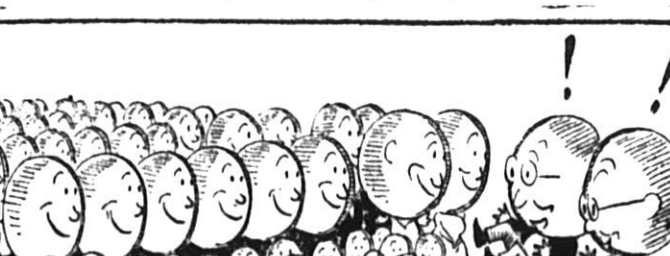

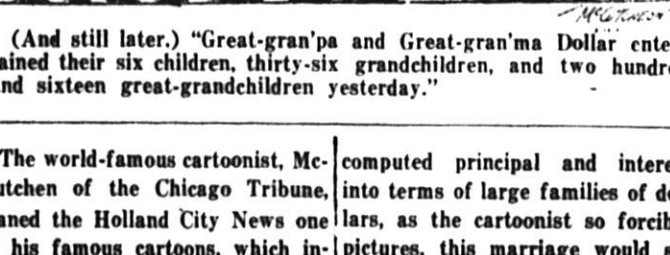

Dorothy Barber and Bobby Spychoven, both of Grand Rapids, bicycled to Holland early this week to visit their grandmother, Mrs. Jennie Spychoven, East 18th St.

Mr. Charles Sligh, who was deservedly honored by the furniture fraternity recently—knows furniture from the "ground up." Mr. Sligh received his early training in the furniture business in his father's own factory at Grand Rapids. He worked through the plant at various jobs like any ordinary workman. He and O. W. Lowry established their plant here in Holland in 1933 and have been a signal success since the beginning. Mr. Sligh is a master-salesman and was so recognized when he was elected president of the Furniture Salesmen's Club in Grand Rapids. He served in that capacity for three years and made it an important activity in connection with the furniture markets of that city.

This was nearly 20 years ago. The News is still in possession of that cartoon, and now since this "Campaign For Jobs" is getting into full swing throughout the nation, we were wondering if this cartoon, which we reprint here, could not be put just the other way around.

The picture shows Mr. and Mrs. Dollar united by Minister Thrift, and through the avenue of saving, with interest and compound interest, Mr. Dollar's family grows to sizeable proportions to the third and fourth generations. With apologies to Mr. McCutchen, we are changing this picture about-face, and would suggest that some of these accumulated savings, wherever possible, be utilized in the "Buy Now" campaign, for "buying now" is a thrifty gesture, for it is self-evident that every purchase made means the making of more jobs for those who have no jobs.

We assure you that if Mr. Dollar leads Miss Job to the altar and Minister Thrift "ties the knot," that the same multiplication table, which

The private sprinkling wagon has proved a grand failure and we might mention that some merchants have become so disgusted with the way dust was kept down(?) that they withdrew from the list to have the sprinkling done. For instance, John Van Landegend, hardware dealer and former mayor, Andrew Steketee, dry goods and groceries, and Jan Bosman, merchant and tailor, have jointly put down a drive well and force pump in front of their places of business and have coupled a hundred feet of hose to the pump to keep the dust down in front of those stores, which are side by side. Employees of the different stores take turns at the pump handle and the hose. Note—The News recently gave a history of Holland's experience with the private and city-owned sprinkling wagon.

The steamer Van Raalte, a Holland-land, was guaranteed \$75 per day by the railroad company for running excursions between Petoskey and Mackinac Island. Note—The Van Raalte was bought by Holland capital. The name was changed to "A. C. Van Raalte" after the founder.

Peter Brown purchased the saloon of August Lundblad, who left a few weeks ago for the United States, Sweden, where he will spend the rest of his days. Lundblad was a short, heavy man, with sideburns and conducted a very orderly place. Peter Brown, better known as "Dikke Pete" (fat Pete), also conducted a similar place, considered so by both "wets and dries" alike. No one in his cups, even a friend, could get a drink at Pete's place. He was a man of few words and the actors. This band gave a parade on Holland's principal streets and played at night on the balcony at the Opera house. The Fennville talent did well and the few who attended appreciated their efforts greatly. A full orchestra, selected from the band members, furnished very creditable music. Fennville has every reason to feel proud of both its band and dramatic club. The entire performance was interrupted from the first act until the drop of the curtain on the last act. Come again, Fennville, and we may get you a better crowd. Note—Holland was noted in the early days for patronizing the free part of the shows. They would go down town in force to see the parade, then listen to the band until the performance began, and then go home, well satisfied. This city was nationally known to be a poor show town—circus folks had us listed that way. All that has changed since the advent of the "movies."

The Fennville Dramatic club staged a very fine production, "Driven to the Wall," at Lyceum Opera house on East Main (now Eighth) St. for the benefit of their band. The troupe of home talent folks drove to town in rigs accompanied by a 14-man band, besides the actors. This band gave a parade on Holland's principal streets and played at night on the balcony at the Opera house. The Fennville talent did well and the few who attended appreciated their efforts greatly. A full orchestra, selected from the band members, furnished very creditable music. Fennville has every reason to feel proud of both its band and dramatic club. Holland has started its summer normal, from July 10 until Aug. 17. The teachers' school will be under the supervision of the faculty of Hope college and Prof. P. A. Latta of Allegan, Prof. J. W. Humphrey, principal of Wayland school, and Prof. A. W. Taylor of Coopersville. Teachers who desire to attend should apply. The Hope College building and classrooms have been made available. Note—The Normal was conducted for a few years and the first year had an enrollment of 75 teachers from different parts of Michigan. Later, the summer school became even more popular. Establishment of teachers colleges under state supervision put an end to these normal schools.

The marriage of Mr. John P. Oggel of the Standard Roller Mill, Holland, and Miss Lillie Bright of Grand Rapids, took place on July 5th in the "Valley City." The marriage was performed by the Rev. E. C. Oggel. Among those who attended from Holland were Mayor C. J. De Roo, manager of the Standard Mill, and Mr. and Mrs. Rokus A. Kanter. Note—Mr. Oggel, who passed away about two years ago, was a traveling man for 50 years. Mrs. Oggel still lives at the old home on East 12th St. Mrs. Bright Oggel was the first lady telephone operator in Holland, when the switchboard had about 50 phone connections. Grand Rapids was called the "Valley city" in the early days, undoubtedly because it lies in a valley. This name was discarded long ago and it is now called "furniture city"—surely more appropriate.

The deaths the past week were Mrs. Leonard Tuttle, aged 23. Rev. Henry J. Veldman of First Reformed church conducted the rites. Miss Marian Brower, age 6, daughter of Mr. and Mrs. Ben Brower; the funeral was conducted by Rev. E. J. Blekkink. Mrs. Sadie Bradford, age 30, 10 West 6th St. Rites were said by Rev. W. W. Taylor. Rev. E. W. Stapelkamp of Holland died after a lingering illness. He was a graduate of Hope college and a prominent divine of the Reformed church. He was married to Miss Dena Otte.

Sadie Brooks, owned by Casper Belt, local barber, won fourth place at the Pontiac races in the 2:18 trot. Johnny Boone, the young jockey from Holland, was the man behind the Holland horse. Note—Casper Belt is still a barber, conducting the Warm Friend Barber shop. He quit horse racing some time ago. John Boone, it will be remembered, was made famous driving the celebrated and nationally known McKinley of the Boone stable here.

A bull terrier wandered in and made the rounds of Hope church pews Sunday, but it is said the proceeds for the canine's stomach were about as fruitful and as bare as Old Mother Hubbard's cupboard. Youngsters were gleeful, however, the ladies were rather agitated and gathered their skirts more closely about them. The janitor at last ejected the dog from church.

Note—Harry Doesburg passed away about a year ago and left a stamp and coin collection worth several thousand dollars willed to his brother, Frank Doesburg, a government "G" man—the first letter carrier at the Holland post office. Mr. Van Landegend, son of a former mayor, is still in the plumbing business.

The Cuban flag, done in colored sugar, in the window of Geo. Tucker's store at Fennville, was executed by L. D. Purdy, said the Fennville Herald of July 16, 1898. Note—We were at war with Spain then, freeing Cuba.

The vacancy in the law office of Attorney John C. Post, occasioned by the marriage of Miss Grace A. Walker will be filled by young Dan Ten Cate, also able in this work. Miss Walker, a popular young lady, was married to Wm. C. Culver of Detroit at the home of Mr. and Mrs. Fred C. Hall of Holland. Dr. W. H. Van Antwerp of this city performed the ceremony. This Dan Ten Cate is now a prominent attorney in this city, with the firm of Diekmann, Cross and Ten Cate.

The entire stretch of wooden walks on River St. from Seventh to Eighth St. has been replaced with cement, and do we look satisfied? J. Ward, contractor, did the work.

The steamer "Soo City" had a passenger list from Chicago of 150 for the resorts here.

Poundmaster Deur put a check on the increasing practice of allowing horses to graze at large at night on city streets. He made a raid the other night and secured eight equines and the owners paid dearly for the city's fresh roadside and park pasture.

**Federal Judge  
Raymond Signs  
Important Order****HOLLAND'S COAST GUARD  
STATION OF \$114,000 WILL  
BECOME A FACT**

Just before the Holland City News goes to press we have been advised through Director of the Chamber of Commerce, William M. Connelly, that Judge Fred Raymond has signed the order vesting the title of the site of the Coast Guard Station in the government under a Federal law, which made this possible. That means that the building of a Coast Guard Station is to become a fact. Mr. Connelly was so informed by Congressman Carl Mages, who has been very active on this project since he returned from Washington. Assistant District Attorney Vincent Martines has also put in some very hard work in behalf of this project. About all there is left to do is to have an appraisal board place a valuation on the property, after which the site naturally will become government property.

The site is owned by the Depositors' Corporation of the old First State Bank, in charge of Atty. Cornelius Vander Meulen, and a price has been set on the site which was acquired by the city of Holland.

Mr. Connelly has been untiring in his efforts from this end to bring this matter to a head. He has left nothing undone, and the close co-operation by him, as well as the city of Holland in this matter, in a large measure facilitated the quick action received in Grand Rapids by officials there. The building of this beautiful Coast Guard station will be an asset to Ottawa Beach.

A "life saving station," as it was called in the early days, was the pivotal place of interest at Macatawa. Anything of a nautical nature, such as sea-faring men, boats, etc., housed in a fine home, cannot help but be an asset to any resort.

The Holland City News gives a half column report on Orrie Brusse, son of Mayor Henry Brusse, who enlisted for service in Canada when the war began. In 1915 Brusse had a horse shot from under him and a shell shattered his leg, and he was laid up for a half year. In 1917 he returned to the front in France, and the shelling was so terrific that he suffered "shell shock." He was also hurt by falling timbers in a "dug out," destroyed when a shell blew off the top.

Andrew Klomparsens, the swift representative of the Holland Fur shop, was going after prospects so fast that he had conspired to put a crimp in his speed. Usual fine. Note—We have nothing to add YET!

Klaas Prins, who was employed at the Du Mez store for the past 16 years, has now taken a position with the P. S. Bots Co. store. Mr. Prins has worked his way up at the Du Mez emporium and was graduated to window trimmer. Note—Good old Klaas is still at Bots', 20 years later, and believe us, he is still some window trimmer.

Peter Lievensse drove to Lansing and brought home a new Reo, for which he is the agent.

July 4th excursion on Lake Michigan to South Haven, round trip \$1.00, children between 5 and 12, 50c. Land visible the entire way. Band and orchestra music on board. South Haven is to have its biggest Independence Day celebration. The palatial steel steamer, "City of Holland," of the Goodrich Line is at your service. Note—Those were the good old days when steamboats still plied between Holland and Chicago, and excursions on Lake Michigan were in the season's program. The automobile is a convenience and a pleasure, however, it put an end to many old time pleasures, mass steamboating being one of them. The small and fast family pleasure craft is coming into general use, however.

Clyde Geerlings is attending summer school at Michigan and has accepted a position to teach mathematics in the high school at Lawrenceville, N. Y., next fall. Note—Mr. Geerlings held fine positions in New York for nine years. Today he is back in his home town on the faculty of Holland High.

Miss Margaret Van Vyven of Holland, daughter of Mr. and Mrs. John Van Vyven, received her life certificate at Western State Teachers' college at Kalamazoo. Note—Miss Van Vyven is today on the faculty in Holland's public schools.

Born to Mr. and Mrs. Henry Weller, Virginia Park, at Holland hospital, a daughter, Alida Adrienne, Saturday.

The Willard G. Leenhouts Post, American Legion, is adopting the slogan, "A Flag in Every Home by Independence Day," and a curb flag in front of every place of business. Note—Whether they succeeded in getting a flag in every home, we do not remember, however, a large percentage did buy flags and practically every business place was provided with flag and pole and sockets were bored in the curbs. No doubt many of the old flags have been replaced several times in the past 10 years. At the time, the soldiers did a good job.

Building applications were approved by council subject to the approval of City Engineer Jacob Zuidema and Fire Chief Cornelius Blom, Jr.

The aldermen of the sixth ward, together with the city engineer and the fire chief, were appointed by Mayor Geerlings as members of a committee to inspect the amount of set-back from Maple Ave. required by the new church building to be erected on the northwest corner of Maple Ave. and 20th St. by the Protestant Reformed church. The building permit, as filed with Clerk Peterson, stipulates 4 feet of set-back. Since the city ordinance does not contain a specific statement as to the amount required, the council committee will have to approve the matter.

A communication from Judge Fred T. Miles, stating that it was not in his power to select a judge to preside at a trial, in answer to a communication sent him recently by common council, asking for a judge who is not a resident of Ottawa or Muskegon counties to preside over court in the case of the Nu-Way Service Stations, Inc., was ordered filed by council.

**COUNCIL NOTES**

With all council members present, Mayor Geerlings opened with prayer.

Council approved, upon motion by Ald. Edward Brouwer, seconded by Ald. Frank Smith, a permit sought by Mrs. Joe Koiker to run an eating house on River Ave. Approval was also given by the city's governing body to Herman Bontekamp, who sought renewal of a permit to lay sidewalks.

Ald. Ben Stefens, on behalf of the ways and means committee reported expenditures exceeding receipts for the current term of \$27,487.49.

Ald. Peter Huyser, reporting as head of council's street committee, in a motion supported by Ald. Henry Prins, received council's approval on taking preliminary steps in improving West 16th St. at Montello Park, preparatory to tarring the street next spring. City Engineer Jacob Zuidema was called upon for his opinion in the matter, and he stated that his sentiments concurred with those of council and the county road commissioner, with whom he had consulted in regard to widening the street as a PWA project.

The August 17 meeting of council was set as the date of the hearing in regard to the closing of an unused alley between 20th and 21st Sts., and limited by Columbia and College Aves., in accordance with the request of property owners living along the alley. Motion for the hearing was made by Ald. Huyser and seconded by Ald. Menken.

**MORE THAN 30,000 COME TO  
OVAL**

Professor Robert Evans, formerly in the printing department of the public schools, is now at the Oval, checking up the number of arrivals. He states that there is an average of more than 30,000 a week visiting the Oval, or at least 11,000 a day. Mr. Evans is Senior Clerk of the Department of Interior, a Federal project, and there are ten men working in that capacity of counting cars, on different shifts. He states that the hours are from 9:00 in the morning until 9:00 at night. No tab is kept on the arrivals before 9:00 in the morning, or after 9:00 in the evening, which surely must be a sizeable number, since the late bathers do not arrive much before 9:00.

Mr. Evans states that thus far cars from every state in the union have put in appearance except Nevada, New Mexico, Arkansas, Alabama, and Vermont. Cars from Canada have come from as far north as Saskatchewan. Mr. Evans did not say whether there was a car from Medicine Hat, where the weather is made. The only county in Michigan not represented at the Oval is Gogewic, which is the furthest removed. Ottawa County cars are the best represented by Kent County a close second.

Mr. Evans states that the 10 assistants are necessary since there are three shifts, sometimes four men to a shift and when it is not so busy two. He said it takes four men at times, one to count the number of people occupying the car, second to take down the license number, and third to take down where the car comes from, with the fourth one supervising the job. In Michigan, the letters on the license bring difficulties since there are so many counties starting with the same letter. For instance, Ottawa starts with "O," and there is Oakland, Oceana, Otsego, etc. Other counties also have first-name letters alike. This must all be classified and credited to the right county.

Mr. Evans stated that it is within his province to make recommendations, and he has recommended better electrical connections, better sanitation, and a sidewalk to the breakwater. He states that at present there are nearly 100 tents and the trailers average all the way from 10 to 75 a day. He states that the largest number of bathers counted in at one time was well over 1,000.

It is evident that the Holland Oval at Ottawa Beach is a real worthwhile project, benefiting a great many people. It is only deplorable that the "big circle" is not just again as big.

John R. Dethmers, Ottawa county prosecuting attorney will be the principal speaker at a Toy-Ford Governor Club meeting to be held in the court house at Grand Haven at 8 p. m., Monday.

Next Monday afternoon, July 25, the Exchange Club will have another one of its outings at Port Sheldon, which will be recreational. There will be baseball games, horse-shoe pitching, and various picnic sports. Bert Gebben, "Mayor of Port Sheldon," will be there to smile a welcome. Members are requested to come at 3:00 o'clock or as nearly afterward as possible, according to Albert E. Lampen, the secretary.

**Holland Sees  
Creation Of New  
Sailing Craft****CAMPBELL BOAT COMPANY,  
VIRGINIA PARK, BUILDS ONE  
FOR SERVICE AND FOR  
YACHTING****This 42-foot Boat, a Holland Product, is Attracting Attention  
Of Yachtsmen**

From out of the fog comes a modern "Flying Dutchman," the "Batavia," to be so christened early in August. The owner is C. J. Peterson, Chicago yachtsman. The designer, Philip Rhodes, is one of America's foremost nautical engineers. The commission to produce the boat was awarded to C. M. Burbuck Co., with offices in Grand Rapids and Chicago. The Campbell Boat Co. of Holland was given the contract to build it. Today a large crew is working overtime to insure its completion within the specified time.

Following the modern tendency in racing cruisers, it incorporates less than the conventional displacement. The design embodied in this boat was conceived by Henry B. Babson of Chicago, a prominent yachtsman on the Great Lakes, owner of the cruising yawl "Maruffa." Mr. Babson is a public-spirited promoter in the field of nautical sports. He saw the need of a class of small racing boats for the waters of the Great Lakes, and brought a dozen 28-footers from Sweden of the "Tumalaren" class. These speedy Scandinavian boats met instant favor. They pointed the way to a larger class, incorporating both racing and cruising ability. After conference with Philip Rhodes, the latter prepared and submitted plans which won against all others. An order was placed for two boats, the first one for Mr. Peterson, to be followed immediately by the second for Mr. Babson.

These boats carry 600 square feet of sail, the cutter or sloop rig consisting of a single mast with a Marconi mainmast and a jib or stay-sail. Auxiliary power is a Gray 4-22 motor with reduction gear.

The class is styled racing cruisers. The hull, with its small displacement is readily driven by a moderate sail plan, yet there is sufficient canvas to afford satisfactory navigation in the light winds prevailing here. The racing factor is not stressed to the exclusion of comfort and safety for cruising on the Great Lakes, thus providing a dual purpose boat to meet a hitherto unfilled gap in the category of pleasure crafts.

Other interesting features in the specifications are, adequate auxiliary power, tanks, galley, toilets, lockers, berths for five, cabin with six-foot head room, length over-all 42 feet 10 inches, water line 29 feet 4 inches, beam 9 feet, draft 2 feet 2 inches, lead in keel 6,700 pounds.

The hull is designed with mathematical precision to withstand any punishment to be encountered on the Great Lakes. These boats can be raced in either class or in cruising divisions provided in the racing regulations for Lake Michigan.

Mr. Peterson, in discussing this new design with William M. Connelly, Manager of the Chamber of Commerce, stated that "he was of the opinion that it would be a sensation in yachting circles and that the Campbell Boat Co. has the talent and ability required to produce a new type of boat," and added that "he was especially well pleased with the execution of this order."

Mr. Burbuck is quite certain that a large sale for these racers is likely to follow. W. M. Connelly and John Arendshorst, who assisted the Campbell Boat Co. in locating in Holland, are anticipating a rapid expansion of this new enterprise. Kenneth Campbell is the proprietor, and Edward Brown, boss boat builder.

**HOW MANY WORKING HOURS  
IN A SHIRT? HOW MANY IN  
A HOUSE? COME TO "KOFFIE  
KLETTZ" AND FIND OUT**

National advertising and merchandising figure will augment the "Sales Mean Jobs" program at mass "Koffie Klettz." Charles R. Sligh, Chairman, announces that he has just received a telegram from Detroit, advising that A. R. Bos-sow, prominent authority on merchandising, will augment the guest list of speakers on this occasion.

W. M. Connelly, who is directing the publicity on the Sales Crusade, states that he has had several requests as to who may attend the breakfast at the Armory. Mr. Connelly advised that every man, woman and child in Holland, interested in putting America back to work, is welcome to attend the Koffie Klettz breakfast at the Armory. Tickets are available at the Chamber of Commerce, Model Drug Store, Houting & Ten Cate, and Seery's Shoe Store, or at the door of the Armory. The price is 25c.

Charles R. Sligh is recognized as a master-salesman. He advises that everyone engaged in any branch of sales work will receive a one-hour schooling in pep and enthusiasm of inestimable benefit.

A list of fifty items, on file at Crusade headquarters, showing the number of work hours involved, covers a wide range, from an \$8,000 dwelling, involving 5,653 hours, to a \$1.25 shirt, requiring 2 work hours. The complete list will be published during the progress of the campaign.

## Accidental Miracle

At least two people in Ontario must believe that miracles still happen, as well as accidents. Their car stalled on a grade crossing. A train came along at 80 miles an hour and cut off the front quarter of the car as cleanly as if a giant knife had done it. They were left seated in the other three-quarters, without a scratch, although suffering from shock. There's a man and his wife who have something to write home about. Unfortunately, for most people who drive onto grade crossings, when trains are approaching, there's nothing to write home about except funeral arrangements.

## Don't Fool with Lake Michigan!

(Muskegon Chronicle)

Again the big lake, our pride and our greatest summer asset, has struck in one of its grim moods. Five lives is the toll paid along a few miles of Western Michigan shore line in the immediate vicinity of Muskegon. Seven boys had narrow escapes at our own harbor—three lost their lives at Holland. Maybe if the kind of big blows that pile up breakers along the West Michigan shore came oftener, we would be more keenly on our guard. The trouble is that there are long breaks, sometimes of a year or two, between blows that are really dangerous. And we forget and become careless.

Usually, as in the case of Wednesday, most of the victims are from inland and are unaware of the danger. The rolling breakers on the beach have a great fascination. They do not comprehend their extreme danger. They are great fun to play in—until they get their clutching grip on a victim. Then it is too late. Lake Michigan in an angry mood is nothing to fool with. The lengthening list of its victims is evidence of that. When waves pile up on the shore, vast quantities of water are thrown there by the impetus of those waves. Water always seeks its level, and this water promptly flows back into the lake, while yet other water on the surface is being hurled shoreward in the opposite direction. That is the simple explanation of the twisting, gripping thing we nickname the "undertow." It is no mysterious force, but it is grimly potential of death for any but the most powerful swimmer who falls within its grasp. It ought to be a part of the swimming education of every youth along the shores of Lake Michigan, and of everybody within reaching distance of those shores, to know the perils of the lake in a blow and to keep within the safety zone. There ought to be placards at every bathing beach, warning the uninitiated of the danger, and rules forbidding anybody to go beyond wholly safe limits when the breakers are coming in. It is hard to convince bathers of this peril. But at least these precautions would save us responsibility when catastrophe strikes.

## The Lending-Spending Money

There can be no possible excuse for using any of the \$375,000,000 provided under the new lending-spending bill for projects which compete in any way with private industry.

The purpose of the appropriation is to stimulate business and employment. And it is certainly reasonable to presume that the money should be used for projects which will give business orders—and which will not take orders and customers away from it.

There is no lack of projects which are properly a concern of government, which create a vast demand for labor and materials, and which compete in no way with private enterprise. The country needs more and safer roads, for instance. It needs grade crossing elimination. In some cases it probably needs river and harbor improvement. It needs stream purification in many areas. It can doubtless use more public buildings.

All such projects as these give a very large part of each dollar spent to labor, both on the job and in the plants supplying necessary materials. These are the kind of projects for which the lending-spending money should be used exclusively. One of the beneficial projects would have been the St. Lawrence-Great Lakes waterway, started on paper 15 years ago. That project alone if plans were feasible would have and will now put to work thousands of unskilled workmen, as well as skilled, and the project would have been a benefit not only to us but to posterity, and that still holds good.

## POLICE COURT TRIALS IN COUNCIL ROOM; REGULAR COURT ROOM IN USE

The board of police and fire commissioners met Monday at 5 p. m. in regular session, in the office of City Clerk Oscar Peterson. Although the meeting was adjourned within 15 minutes after it was called, several important matters were discussed. Upon request by Clerk Peterson, the board requested the council to pass a motion at its next meeting, as required by the state highway department, if a survey in regard to a graduated speed limit system is to be used here.

The committee on vehicles was empowered to act in two matters reported on by Police Chief Frank Van Ry. The one matter concerned the purchase of a fire extinguisher for the police cruiser, to aid firemen in combatting small fires, and the other matter concerned the purchase of new tires for the police cars.

Chief Van Ry in answer to a question by Chairman John Donnelly as to why council chambers were used to conduct justice court trials rather than the court room at police headquarters, informed the board that the room at headquarters is being used three days a week for testing applicants for drivers' licenses, who number about 40 each day.

Reports of collections by Justice John Gallen showed officers' fees totaling \$220.50 collected, while Justice Raymond L. Smith reported his collections at \$11.20 for the month.

## Hosiery Mill At Zeeland Is Under Way

NEIGHBORS ALSO START  
STREET PAVING  
ACTIVITIES

What is known as the LaReine Hosiery Mill at Zeeland is practically completed. The building was put up in double-quick time, the length of the building being 240 feet, which surely is quite a long structure. The building will soon be turned over by the Zeeland Industrial Committee to the hosiery company officially.

A great deal of the machinery and other equipment has been and is being installed. Sixteen men are busily engaged in getting the 12 long knitting machines in order, and it is understood that this is only the beginning and that eventually more machines will be put into operation. Plumbers and heat-ers are also busy finishing up on that work, and the heating system has all been placed and connected up with 8 floor-draft radiators. The boiler and oil burners are almost ready for operation.

Mr. Dick Ruml, local manager, and Mr. George Albach of Chicago, also connected with the firm, are very much pleased with the way the new industrial plant in Zeeland has been progressing. Within a very short time a great deal of extra Zeeland labor will find gainful employment in this new enterprise.

Zeeland folk are complaining bitterly about the dust on the gravel streets, the same as they have done in Holland on dirt roads; and the "city fathers" promised that before the week is out the surface will receive a liberal coating of chloride. The chloride will be put on wet by sprinkling from a sprinkling tank, and the treatment will render the streets dustless.

Zeeland has also been promised that these streets will be coated with asphalt in liquid form, also put on by sprinkling wagons, which will seal the surface and serve as a binder for the application of a permanent surfacing material.

The streets that are to be surfaced with asphalt paving materials include Lincoln street from Church to Wall streets, Maple street from Main street to south city limits, Wall street from Central Ave. to Lincoln street, Centennial street from Main to Lincoln streets, Church street from Main to Washington streets, Cherry street from Church to Centennial streets, Central Ave. from Park street to east city limits, Lawrence street from State to Pine streets, Elm street from Pere Marquette tracks to McKinley street from Elm street to west city limits.

Other streets are now being prepared for paving at some later time, curb and gutter construction going as rapidly as conditions will permit. This will include Cherry street, Division street, Park street, Lincoln street from Wall street to east city limits, Wall street south of Lincoln street to the south city limits, Rich street, Centennial street from Main street to Pere Marquette tracks, Ottawa street, and Michigan street.

The seventh birthday anniversary of Kenneth Helder, 25 East 21st St., was appropriately observed Monday when a party was given at the Helder home. Present were Billy Helder of Waukazoo; and Bud Borr, Gerald Steur, Paul Steur, Kenneth and Julius Helder, Junior Reidsma, Junior Wiegink, and Ray Meiste.

## NEW BAKERY SAYS "THANK YOU"

The little "kiddies" with their toy balloons and the adults receiving handsome gifts, were indeed pleased with the souvenirs given to them during the opening.

## ZEELAND WOMAN INJURED IN AUTO WRECK

While on a trip to Indiana, Mrs. John M. De Jonge, and two children, Marinus and Anna Mae, were injured in an automobile collision on Monday afternoon that might have resulted much more seriously. As it was, they escaped with some severe bruises and sprains from which they are still recovering.

The car, which was the property of the son, who was also the driver, was badly damaged so that the party had to return home by the following day. Their destination was Indianapolis and intermediate points where it was their purpose to arrange for selling poultry and produce and to purchase other goods.

They made several appointments and had reached a point near the Indiana state boundary line, while driving on a four-lane highway, a local resident attempted to cross the highway at an intersection at the time of their passing which resulted in the collision.

The De Jonge car was traveling at about 45 miles per hour and was struck on the left rear wheel, being thrown out of balance and rolling over twice, into the roadside, before coming to a stop.

Mrs. De Jonge received a badly sprained neck, which was at first feared to have been a broken vertebrae. She was taken to Niles where her injuries were treated and it was found that no bones were broken. The following morning she had sufficiently recovered to return to her home.

## ZEELAND WOMAN BREAKS HIP

While about her duties at her home three miles east of Zeeland, Mrs. Johannes Bakker suffered a fractured hip as a result of a fall Thursday. She was brought to the Huizenga Memorial hospital where her injury was reduced and she is now being cared for.

M. F. Weersing and C. F. Males of Grand Rapids, both employees of the Michigan State Employment office at River Ave. and 10th St., were slightly injured yesterday morning when their car, driven by Males, swerved into a ditch east of Zeeland to avoid striking another vehicle.

the board of directors that control the conservation program relative to soil erosion in Western Ottawa County, including Park, Port Sheldon, Olive, Grand Haven, Port Sheldon, Spring Lake, and Crocker Townships.

Mr. Hering has an enviable record as a supervisor. During his seven years he missed only one roll call, when he was unavoidably absent because of the funeral of a relative. He has voted on every question during that time.

The Primaries will be held on Tuesday, September 13.

## Council Notes

(Continued from Page One)

ported on the cost of erecting a rest room at Prospect Park, a project which has been under consideration by council for some time. Total cost of the building and pipe is to total about \$2,847. Since no money for the project is available at the present time, council recommended to continue the matter until next Tulip Time. Improvement of the rest room at Centennial Park, a "sore spot to the public eye," was also considered.

Upon motion by Ald. Cornelius Kalkman, seconded by Ald. John Vogelvang, Kalkman's report as chairman of the public lighting committee was accepted and installation of a street light on West 14th St., in the middle of the block, between Van Raalte and Harrison Aves., was approved.

Prolonged applause greeted the report of Ald. Menken of the music committee that the band stand at Kollen Park had been placed and painted in the position ordered by council at its last regular meeting.

Following approval by the park board committee and William M. Connelly of the Tulip Time committee, upon motion of Ald. Stef. Kalkman, supported by Ald. Henry Kalkman, the low bid for new tulip bulbs for next year, sent in by the Nels Nurseries at \$2,350 was accepted by council.

In response to a request of the board of police and fire commissioners, asking common council to request the state highway department to give an estimate in regard to advisable speeds to be introduced if a graduated speeding law is to be put into use in Holland, council voted to conduct the survey here. Ald. Huyser's comment on the matter was: "We are bleeding now on account of speed; if our speed is increased, we will bleed more."

Sorrow was expressed by council members that they had not known before the evening's meeting that Ald. Huyser had become 70 years old Tuesday. Mayor Geerlings assured the veteran council member that, had they known it before, a bouquet would surely have been provided.

Requests of the contractor who is constructing the new \$38,000 building at River Ave. and 8th St. that no parking be allowed on the east side of River Ave. and the south side of 8th St., while building is in progress; and that he be allowed to block the sidewalk about the building, were granted. The building in question is the old Vander Veen building, built 60 years ago.

Upon motion by Ald. Huyser, council unanimously voted to elect "Jake" Bultman to the appeal board, to take the place of Joe Geerds, who resigned recently to take up a position with the board of public works. Mr. Bultman will make a very able member of that board.

City Inspector Ben Wiersma was assigned by council to investigate dumping of rubbish at 5th St. and Central Ave., and the dumping of an oil tank on East 20th St.

## Local Guards To Take Part In Water Fete

Bleachers for 2,000 To Be Erected  
So All Features Can Be Seen  
At Grand Haven, Aug. 3-4

Holland's coast guard crew will be among other coast guard crews to participate in the second annual Coast Guard Water Fete, to be held August 3rd and 4th at Grand Haven. The fete will mark the 148th anniversary of the founding of the service.

The object of the fete, which will be broadcast over a national hook-up, is to demonstrate the routine of the coast guard in its effort to save life and property and maintain order on the nation's waterways.

Thrilling capsize drills will be held. A breeches buoy rescue will be effected across Grand River, at a point where the river reaches a width of 200 feet. Speed boat races and boat pulling contests will be featured during the two-day performance.

A big coast guard banquet and a civic picnic are being planned. A balloon ascension will be held on the beach and, if the wind is right, the balloonist may come down in Lake Michigan, from which he will be "rescued" by guardsmen.

Karl Detzer, nationally-known writer of coast guard stories, will serve as announcer over the radio hook-up. Interspersed in his talk will be bits of valuable historical data and facts on the coast guard service.

Bleachers for 2,000 people will be erected on the north end of the Grand Haven State park, within 50 feet of the pier. From the bleachers all the exhibitions and water events may be seen by spectators. A large number of people from Holland are expected to attend the affair, as was the case last year. Seats will be free, and ample room will be provided for hundreds of cars to park nearby. Races and exhibitions will start at 4 p.m. each day of the fete.

To be used in the drills will be the new type of unsinkable coast guard boat, which holds 40 persons, and which cost \$15,000 apiece.

The guardsmen themselves will make a picturesque sight, dressed in oilskins, boots and "bonnets," just as they are dressed when called to take duty for rescue work. Additional events planned for the fete are diving contests, canoe tilting, surf-board riding, water stunts, clown effects, and a real rescue from an overturned canoe. Old-fashioned races will be provided. A greased pig contest will be held, and baseball games and events for the children, with fine prizes for the winners, have been promised.

Added to the regular program this year will be the dedication of the extension of Grand Haven State park by state officials. Climaxing the two-day event will be a Venetian night parade of a hundred or more boats, lighted and decorated for the mile trip down Grand River into Lake Michigan. Besides other visiting celebrities, the center figure at all the ceremonies will be Admiral R. R. Waesche, commandant of the service, from Washington, D. C.

When he fell from a city-owned sprinkler, driven by Jack Witteveen, 31 East 18th St., Donald Kimber, 6, son of Bert Kimber, 255 West 21st St., was taken to Holland hospital where he was treated for a fractured right leg. Young Kimber slipped from the truck on which he had "stowed away."

Dr. and Mrs. S. C. Nettinga and son, Paul, West 11th St., have returned from Rochester, Minn., where Dr. Nettinga, who is greatly improved, recently submitted to an operation at Mayo Brothers hospital.

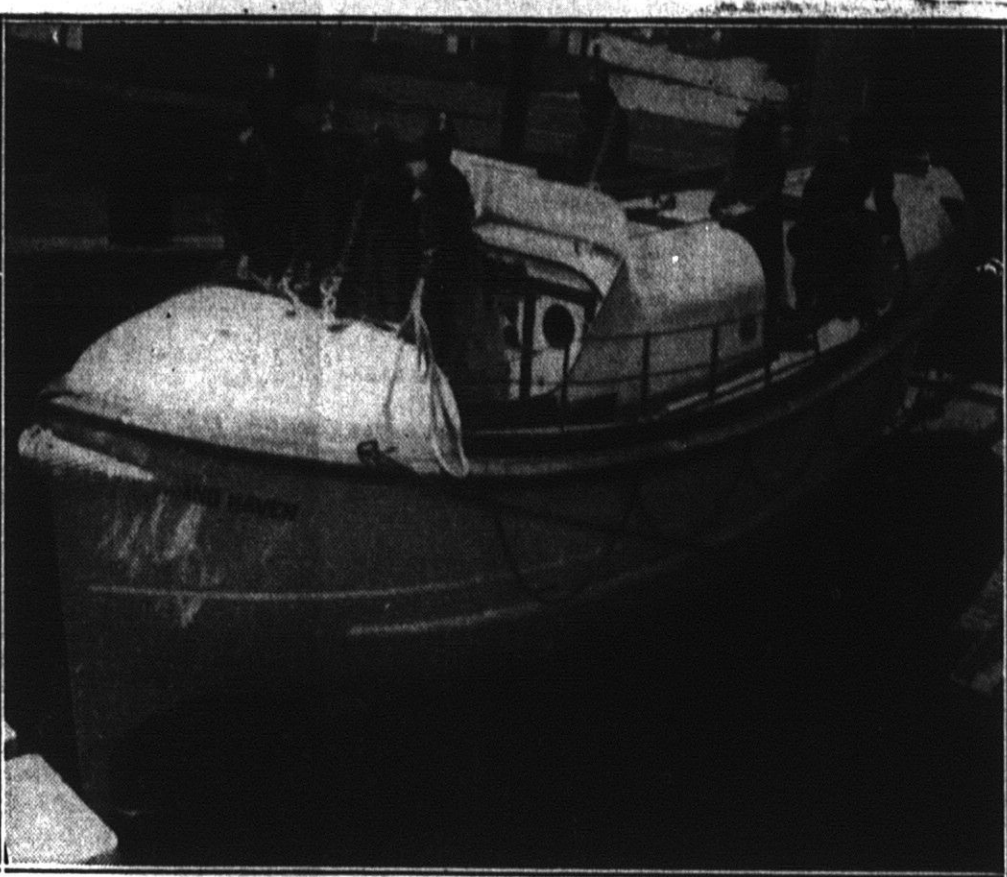

Mrs. W. P. Ward of Bay City is the guest of Mr. and Mrs. Ben Roos, 112 East 20th St. and of Mrs. Martha Gilmore, 31 West 17th St. Mrs. Roos is a niece and Mrs. Gilmore is a sister of Mrs. Ward, who was formerly a Holland citizen.

## A Ship in Distress!

And in a matter of a few seconds U. S. Coast Guardsmen don their oilskins, boots, and "bonnets" and launch their power surfboat, no matter what the weather. Demonstrations showing how the guardsmen perform will be given at the U. S. Coast Guard Water Fete to be held at Grand Haven, Mich., on Aug. 3 and 4.

## MISSIONARY FROM CHINA ADDRESSES LIONS; SAYS JAPS ARE STILL DESTROYERS

The Rev. H. P. De Pree, veteran missionary to China, addressed members of the Holland Lions club at their meeting at the Holland Country club last Tuesday evening. Regardless of the present condition of affairs between Japan and China, Rev. De Pree stated that he believed China will not suffer defeat ultimately at the hands of the Japanese.

China has progressed remarkably, despite Japanese attempts to check that progress, the speaker asserted, and cited as an instance to prove his point that it is only in the last two years that the Chinese have used automobiles for transportation. The union of Chinese has been directly the result of the Japanese invasion, according to Rev. De Pree, who is in Holland with his family on a 16-months' furlough.

While the Japanese will commit suicide to escape adversity, the speaker pointed out, China has grown in spite of adversity and bloodshed, and a spirit of optimism and hope is prevalent in the latter country at the present time.

## PICKEREL IN ALLEGAN COUNTY TRIES BASS--BUT DIES

One large pickerel's hunger brought his death recently when he attempted to swallow a 19-inch large mouth black bass weighing four pounds. While the pickerel was 43 inches long and weighed about 25 pounds, he was unable to force the 4-pound black bass down his throat and consequently died. The pickerel was found at Barber lake near Hopkins in Allegan county by Art White and when opened it was found that he also had swallowed three bluegills and one small pike, the latter being about eight inches long.

Conservation Officer Harry Plotts of Saugatuck made measurements of the fish, which was turned over to him by White.

## BIG FISH IS COMING BACK

Commercial fishermen here are wondering if sturgeon are coming back. The speculation is due to the fact that three sturgeon were caught in nets at the Newaygo dam in the Muskegon river in less than a week. The largest weighed 100 pounds.

In the early days, the Muskegon river proved a favorite fishing ground for sturgeon. They came out of Lake Michigan into Muskegon lake and then went up the river to spawn. Commercial fishermen captured many sturgeon in their nets also, but in recent years the big fish had about disappeared. The fact that three were captured in nets 20 miles up the river in less than a week causes fishermen to believe they are becoming more plentiful.

All three sturgeon were taken alive and were removed to the State fish hatchery at Paris.

## GARDENER RAKES IN 40-POUND FISH

Ed R. Edson does his fishing with a garden rake. At least, he made the prize catch of the season, when he pulled a 40-pound catfish to shore in Spring Lake with a garden rake.

Mr. Edson and several others were visiting relatives on Spring Lake, when they observed the big fish in about eight inches of water close to shore. Mr. Edson ran into a garage and obtained a rake and then the battle started. The fish fought and Mr. Edson used the rake to advantage. Finally, he was able to get the fish to shore.

"It's head was so large you could have placed a football in its mouth," said Phil H. Johnson, a cousin of Mr. Edson, who witnessed the battle.

P. J. Trimpe, 130 West 27th St., has filed an application for a building permit with City Clerk Oscar Peterson in which he seeks to re-shingle part of his home, at an estimated cost of \$50.

## ATTEND THE "KOFFIE KLEUTZ" AT ARMORY MONDAY MORNING

The National Salesman's Crusade is a nation-wide movement to restore workers to gainful employment.

The method is to put on a spirited campaign of selling effort with the hope that those able to buy will respond to the humanitarian appeal of the slogan "Sales Mean Jobs."

The following announcement that will be made from many pulpits throughout the city, states in a few words the purpose of the movement:

"A nation-wide drive to speed up business recovery is now under way. It is known as the National Salesman's Crusade. The slogan is 'Sales Mean Jobs.'"

On the theory that America still has a large potential purchasing power, despite the low ebb of factory payrolls, the originators of this crusade are of the opinion that a strong, sustained and united sales effort throughout the nation will speed up the wheels of industry and restore men and women to jobs.

Holland has enlisted in this campaign and everyone interested is invited to procure a ticket and attend the mass "koffie klutz" at the Armory next Monday morning at 7:30.

## Prominent Insurance Man Feted After 20 Years of Faithful Work

John Wierama, who has just completed his 20th year of service with the Prudential Life Insurance Co., was feted at a dinner party held in his honor at the Holland Country club, Saturday evening.

Among those honoring Mr. Wierama at the affair were agents of the Holland area, Grand Rapids and Zeeland, and assistant superintendents, district clerks and their wives. A total of 33 guests met to pay tribute to Mr. Wierama's many years of service with the firm. Bob Walters' orchestra provided dinner music in the attractively decorated room. Speeches were given, among others, by the honor guest, who is assistant superintendent. He was formally introduced by Supt. H. J. Van Wolven of Grand Rapids. Games were played at the affair, prizes going to winners. Mr. Wierama was presented with a gold medal by the concern he represents, which bore appropriate lettering, recounting Mr. Wierama's record. He was also presented with a beautiful bouquet of flowers by Murvel Houting, local agent under Mr. Wierama.

## Now We Have a Turtle Census Taken

How much damage turtles are doing to the fish life in lakes in the southern part of the state is a question which both lay fishermen and fish researchers and culturists would like answered. As a result, a turtle census has been under way this season on a number of lakes. During the first part of the census, examination was made of lakes in Washtenaw, Oakland, Van Buren and Allegan counties, with particular attention paid to evidence of turtle raids on fish nests.

Their curiosity aroused by the acutely swollen state of a black snake which they found in the middle of a pheasant nest, Ray and Rex Archer, R.F.D. 3, Coldwater, decided to take it home. On cutting the snake open, five newly hatched pheasant chicks were found, the Archers reported to Conservation Officer C. G. Cole. The snake measured about 26 inches in length.

## Good Fishing Generally Throughout Michigan

Fishermen who have failed to get satisfying strings may doubt it but reports received by the department of conservation indicate that the 1938 summer pan-fish season has been good to date in virtually all parts of the state.

Judging from the number caught in Lake Macatawa and the many fish stories printed, fishing here must be exceptional. Perch fishing on the pier has also been the best ever.

Of course, there have been days when the fishing was poor, and there are lakes which have not yielded as good a harvest as expected. Likewise, there have been anglers who have used the wrong kind of bait, or whose luck hasn't equalled those of other anglers around them.

Nevertheless, the reports from both the upper and lower peninsulas have included good catches of bass, bluegills and perch, such as the string of 25 bluegills caught in Brophy lake, Livingston county, which weighed 21 pounds, and 19 of the same species taken out of Lake Mitchell, Wexford county, which weighed almost 20 pounds. A number of large catches of bass also have been reported.

## Last Bodies Of Surf Drownings Are Recovered

FUNERAL OF MISS RIKSEN ON  
MONDAY; MISS SCHUTT LAST  
SATURDAY

The bodies of Miss Catherine Schutt, 18, daughter of Mrs. Dick L. Schutt of Beaverdam, and Miss Ruth Riksen, 19, daughter of Mr. and Mrs. Bert Riksen of West 32nd St., Holland, who were drowned Wednesday afternoon off Tennessee Beach when a sudden undertow struck the lake where the girls were bathing, were recovered late last week.

Miss Schutt's body was found about 7:50 a. m., Thursday, about 100 feet off shore, a short distance north of the scene of the dual drowning. Miss Riksen's body was recovered Saturday night off Williams' beach, about three-fourths of a mile north of Tennessee Beach.

Holland coast guards, deputy sheriffs, local police officers, Bob Vande Water, local airplane pilot, and interested civilians and cottagers searched desperately for the bodies until they were found. Following investigation of the bodies, Coroner Gilbert Vande Water returned a verdict of accidental death by drowning.

Members of the Riksen family had patrolled the beach almost constantly for the three days that the body was missing. Miss Schutt's body was discovered by Matthias H. Pellegrom, 360 Pine Ave., manager of the service and supply department of the Holland Furnace Co., and Leonard Kardux of rural route No. 4. The body of Miss Riksen was found by C. M. Day and M. Brosby, both of St. Louis, Mo. Funeral services for Miss Schutt were held at 1:30 p. m., Saturday from the home and at 2 p. m. from Beaverdam Christian Reformed church, the Rev. J. Geels in charge. Burial took place in Beaverdam cemetery. Baron funeral home at Zeeland was in charge of funeral arrangements. Surviving are the mother, and three sisters, Elizabeth, Hermine, and Alice. The father of the deceased preceded her in death two years ago last January.

Nibbelink-Notier funeral home here was in charge of funeral arrangements for Miss Riksen. Private funeral services were held on Monday at 1:30 p. m. from the Riksen home, followed by formal services at 2 p. m. from Third Reformed church, the Rev. William Van't Hof officiating. Interment was in Fairlawn cemetery. Besides the parents, a sister, Harriet, and three brothers, Bernard and Adrian, at home, and Raymond of Holland, survive.

### RESERVE EIGHT ROOMS FOR NEXT TULIP SCRUB FEST

Mrs. Peter Reiss, Sheboygan, Wis., late last week sent a letter to W. H. Lillard, manager of the Warm Friend Tavern, asking him to reserve eight front rooms on the second and third floors of the hotel for her party, which will visit in Holland during next Tulip Time. Unable to see the street scrubbing program this year because of adverse weather conditions, Mrs. Reiss reserved the rooms early so she would not be "left out in the cold" again.

Landford Lillard informed Mrs. Reiss that the rooms would be duly reserved for her party.

### THREE-POUND LEAF LETTUCE PLANT IS GROWN

Three pounds of leaf lettuce from one root. That's the record established this spring by John Sommers, of Allegan county, who grew the plant in his plot on Depot hill. Saturday morning he took the plant out of the ground, measured its 60-inch circumference and put it on the scale to establish a new mark for himself. Mr. Sommers, who grows the lettuce for amusement, beat his previous record, established in 1937. Last year, his prize specimen measured 54 inches in circumference, six inches less around the plant. Asked if he was going to eat it, the grower replied, "No, I'm afraid it's too tough. I grow lots of other lettuce, though, which I share with my neighbors."

White mice have nothing on white moles, and leaf lettuce raised in Allegan is really leaf lettuce, according to Dr. George Hare, albino mole discoverer and John Sommer, champion lettuce producer. Sommer claims the championship for leaf lettuce raising. Hare is the champion mole catcher, but prefers the white brand. Three of them have been taken on his property, and according to statistics white moles are an oddity.

### RESTORE LICENSE SO MAN CAN EARN FAMILY'S LIVING

Floyd Woodward, 42 years old of Dearborn, had his chauffeur's license restored by Judge Greenwood C. Fuller of Kent county, presiding in place of Judge Miles, after a hearing in Ottawa county circuit court. Mr. Woodward, driver of a truck and trailer, was involved in an accident on US16 near Coopersville, Nov. 4, when the trailer, left parked without proper lights, was struck by an automobile, killing a young woman teacher from near Coopersville, instantly. Mr. Woodward was convicted of negligent homicide in Ottawa county circuit court and his license revoked March 21. He was also fined \$200. In court Woodward told Judge Fuller he needed his license to earn a living for his family.

### TWO HUTCHINS LAKE BOYS SET SEASON FISHING RECORD

If at first you don't succeed, try, try again.

That's a maxim Robert Paine and Jimmy Dickinson, youthful Fennville fishermen, had heard often. Saturday, they put that maxim into practice.

Luckily, they put it into practice on a 38-inch, 12½-pound pickerel. After losing him once, they threw out the line again, and he came back for more. This time, he broke their pole in two, but the boys held onto the line and succeeded in getting him into the boat.

For their efforts, they hold the season's record at Hutchins lake, and probably will continue to hold it for the rest of the season.

## THE SUNDAY SCHOOL LESSON

July 17, 1938.  
Gideon—Judges 7:4-7, 15-23.

Henry Geerlings

Human nature appears often in Scripture in an unfavorable light, but it seems to be shown up at its worst in the book of Judges. After settlement in Palestine the people became absorbed with material concerns and almost wholly abandoned the worship of Jehovah. They came to think of Him largely as a deliverer to whom to flee when they were in trouble. When they had no immediate personal needs to be met He was out of their thought. He was little more than a convenience to them. They conceived of religion as an emergency measure. The book is a series of spiritual declines and backslidings, and a series of pleadings for divine help, resulting in deliverance from foreign oppressors.

Against the dark background of this book is to be seen in a mirror the abundant mercy of God. It almost shakes what we behold on Calvary when Peter asked Christ if he should forgive an offending brother seven times, he was told seventy times seven. And in that reply he was reading into man's ears the ruling law of heaven. God went on forgiving and forgiving, delivering and delivering these worldly, suborn and apostate people. The only thing that saved them was the staying quality of grace.

Three reasons are assigned for the reduction of Gideon's army from thirty-two thousand to three hundred. The first is that if these men had gone against the Midianites and gained the victory, they might have taken the glory to themselves. That is a common failing of Christians. The second is that these men, or most of them, were fearful in the face of battle. And fear, in the last analysis, denotes the absence of a winning faith in God. Those who would have felt like fleeing when confronting danger would have discouraged their comrades and emboldened their enemies. The third reason for the reduction of manpower is to be found in the fact that 9,700 of these men were indifferent. They were wanting in alertness. The way they drank water showed that they did not have in them the stuff of which good soldiers are made. It would be a splendid thing to study the modern church in the light of these three situations.

Numbers do not count for everything. A large church is not necessarily strong, and a small church is not necessarily weak. We are obsessed with the feeling in all of our work that success depends upon the size of the crowd. If we saw the situation as it actually is we might weep in the presence of a multitude and rejoice before a smaller group. It takes more than human statistics to determine the measure of religion in any community. To run up a thermometer we may hang up in the church is no sure sign that we have deepened the spirituality. And this disposition to parade numbers and make a show does not appear to comport with the character of the work we are in. The story of Gideon is a rebuke of the practice of receiving people into the church regardless of their inner fitness. We do not want to fall behind the record of last year and so we count heads rather than hearts. We are supposed to be doing more than taking in gate receipts.

Any given church is as strong as its active members make it. Nominal members are a liability rather than an asset. And nominal membership is not to be construed to those who have small gifts and little opportunity for service. It applies to those of any station who neglect the privileges of the church. And it is to be remembered that these persons are not necessarily to be cut off, but rather won to vital membership and positive activity. They are a field as well as a potential force.

We are being tested when we least suspect it. The manner of a man's slaking his thirst may seem hardly to warrant his being sent home rather than being allowed to fight for his country. But small acts reveal at times more than words or even spectacular deeds. Not one of these men knew the test was being applied to him. No man knows at what moment his inner life is revealed by a deed to which ordinarily little value would be attached. Perhaps we cannot always be at our best, but a high level should be striven after.

**PUBLISHES BLUE TAG SALES FOR MORE THAN 40 YEARS**

Today Dr. Mez Bros. are launching their 81st Semi-annual Blue Tag Sale, which indicates that this old Holland firm is today stepping over the 40-year mark, the period in which these sales have never failed to appear at least twice a year. Sales were inaugurated by the late father of both Andrew and Theodore Du Mez, present managers of the store, and founded by the Du Mez brothers.

Of course, four decades ago the sales were not quite so pretentious as today, but nevertheless, the Blue Tag played a very important part in the firm's merchandising at special prices during these semi-annual bargain weeks. The sale inaugurated today carries with it a large announcement in this issue as well as a double broadcast in the way of circulars, setting forth a wide range of articles, of wearing apparel and household necessities, as well as children's wear. The 81st anniversary of the Blue Tag Sale at Du Mez's is an outstanding event to the management and to the buying public as well.

## SUNDAY DINNER

## Suggestions

By CORA ANTHONY  
Director, A&P Kitchen

FRUITS are the market news of the week. It would be an unusual person who could not find the fruit he likes best to eat in market at a price he was willing and able to pay. There are new apples if it's apple sauce or a green apple pie you want, bananas for cereal, peaches for cobbler or ice cream, berries for cobbler or cake, grapes to eat out of hand, citrus fruits for juice, melons for coolness, plums for compotes and all the medley for innumerable delights.

Vegetables too, are plentiful and inexpensive. Meats are no higher than last week. Fish and poultry are reasonable. Top grade eggs are higher but there are plenty of good eggs at reasonable prices.

Here are three seasonal dinner menus.
