WARDEN HEYNS OUSTED; OTHERS GO IN SHAKEUP

Van Buren County Sheriff
to Get Post at Ionia
Reformatory

Corrections Director and
Prison Industry Head
Are Removed

Dr. Garrett Heyns, who today was removed as warden of Ionia reformatory by the state corrections commission at a meeting at Jackson, told The News by telephone this afternoon that he had made no plans for the future.

Dr. Heyns was removed along with Hilmer Gellein, director of corrections, and James F. Murphy, manager of the state prisons industries, in a drastic administration shakeup.

"Although rumors have prevailed for some time, the whole thing has come up so suddenly that I have made no plans," he explained.

Warden Heyns, who had received no notification of his removal until The News phoned to ask about his plans, was named to the Ionia post two years ago July 15 by Frank Murphy when governor. On July 22, 1937, under a new law which required the state corrections commission instead of the governor to appoint wardens, Dr. Heyns was retained by action of the corrections commission.

Dr. Heyns, well known in this vicinity, was superintendent of Holland Christian schools here for nine years.

Sheriff Warren Dodge of Van Buren county will succeed Dr. Heyns. Edward Heckel of Detroit was given Gellein's position and William H. Burke of Owosso was named to succeed Murphy.

The commissions split 3 to 2 on all the appointments. Voting for them were John W. Miner, Jackson, chairman; Leslie P. Kefgen of Bay City and Paul Chase of Hillsdale. Roger Kennedy voted against them and Fred Johnson, who was not present, had advised Miner his vote would be negative on all the proposals.

Dodge is serving his seventh year as Van Buren county sheriff. He was a soldier along the Mexican border in 1916 under Heinrich Pickert, now police commissioner of Detroit, and Joseph Carney, now a state police captain. He was given a captain's rating in 1918 and was honorably discharged from the army in 1919.

Heckel has been in the sociological department of a Detroit motor company. His record includes 15 years military service as a commissioned officer of the national guard, and as a colonel in the 32nd division during the World war.

Burke at present is manager of a manufacturing company at Owosso. He was in the 126th infantry of the 32nd division during the war and formerly was associated with former Gov. Fred Green in the Ypsilanti Reed Furniture Company. His salary will be fixed later by the commission.

The meeting today was the commission's last under its present membership. Kefgen, whose term expires, was reappointed by Governor Dickinson for a term ending July 23, 1945, and Kennedy was replaced by George Burke of Ann Arbor. Burke's term also will expire July 23, 1945.

Kefgen, Chase and Johnson are Republicans and Burke and Minor Democrats.

Church Requests Heyns Be Retained as Warden

Lansing, July 20 — Petitions, bearing signatures of approximately 2,000 members of members of the Christian Reformed church, were filed Wednesday with Gov. Luren D. Dickinson, urging him to retain Garrett Heyns as warden of the state reformatory at Ionia.

The church faith interceded in response to rumors that Warden Heyns, former superintendent of Christian schools in Holland, was slated for removal. The petitions were presented by the Rev. Henry Beets, secretary of the Michigan Association of Christian Reformed churches, and the Rev. Herman Bel.

Two Local Men Judge Lowell Showboat Acts

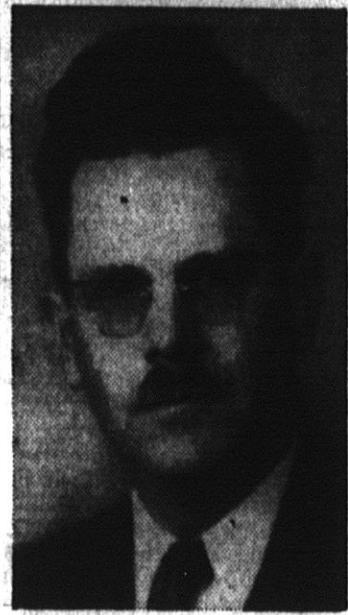

Roy Young and Leonard (Pee-nie) Dailey, both of Holland, went to Lowell Wednesday where, with the assistance of George Barnes of Grand Rapids, they served as judges of the amateur acts in selecting the best for the Lowell Showboat program to be given there Aug. 2, 3, 4, and 5.

Twenty-two acts were presented before the judges and an audience of approximately 4,500 persons.

Mr. Young and Mr. Dailey also have been awarded a contract to present their clown act as pre-entertainment to the showboat program.

The sea scouts received a cash prize of \$20. Second prize of \$15 was awarded to the Jackson Park Yacht club of Chicago and the Saugatuck Yacht club won the third prize of \$10.

Red Cross Acts on Appeal of Vander Velde for Rescue Rigging

To provide additional safety for swimmers in Lake Michigan and inland waters of Ottawa county, the Ottawa county American Red Cross chapter has launched a movement which the organization hopes will result in the placing of lifesaving ring buoys at major swimming points.

William C. Vandenberg, Red Cross chapter chairman, said today that details for a survey of county beaches have been turned over to Edward Damson of Montello park, chairman of the lifesaving division. Mr. Vandenberg said it is the plan to install the ring buoys state park, excluding the two state parks.

Mr. Damson reported that he was in Grand Haven Tuesday night and arranged for a survey in the north half of Ottawa county. He will conduct the survey for the southern half of the county. Mr. Damson also plans to investigate swimming conditions in Lake Macatawa at Central park, Virginia park and Macatawa park with an idea of placing the ring buoys at these places.

He said that after he receives a report from Grand Haven he will combine it with his findings and make recommendations to Mr. Vandenberg as to the number of ring buoys which will be needed. Mr. Damson said it is expected that at least 15 or 20 will be required.

It is not the plan to place the buoys at regular intervals along the shore between here and Grand Haven but only at places where there is considerable swimming.

The plan for the installation of the ring buoys along the lake shore results from an appeal made to the Red Cross chapter by Dr. O. Vander Velde, local physician. In a communication to Mr. Vandenberg, Dr. Vander Velde pointed out the deaths of two young women who were drowned in Lake Michigan July 14, 1938, north of (Continued on next page)

FIRE DESTROYS ZEELAND BARN

Livestock and Hay Listed
in Loss on Farm of
John Kuipers

Zeeland, July 20—Fire discovered about 4:30 a.m. Monday, completely destroyed a large barn and part of its contents on the farm of John Kuipers, located two miles north and one mile west of Zeeland, entailing a loss of approximately \$4,000.

Mr. Kuipers reported Tuesday that the loss was only partly covered by insurance. He said he had no idea what caused the fire. He reported he was awakened by the noise caused by the fire and at first thought it was an automobile in the farm yard.

Included in the loss were more than 50 tons of hay, two horses, two cows, two heifers, a bull and an automobile. Six cows saved themselves when they ran from the barn after Mr. Kuipers opened a door. The barn was 80 by 60 feet.

The Zeeland fire department was called, but the fire had gained too much headway to be checked.

ASKED TO VIEW PARKING METER SETUP FOR CITY

Meeting of Merchants for
Explanation of Plan Is
Board's Wish

Stephan Is Requested to
Call Session; Proposal
Given Officials

Deciding that Holland merchants should first be "sold on the idea" before any action is taken, the board of police and fire commissioners at its meeting Monday afternoon voted to request E. P. Stephan, secretary-manager of the Holland Chamber of Commerce, to arrange a meeting of retail merchants for the purpose of having the merits of parking meters explained to them.

Mr. Stephan said he planned to contact William Brouwer, president of the retail merchants' division of the Chamber of Commerce, regarding the proposed meeting.

J. N. Bolinger of Lansing, associated with the National Park-O-Meter Corp. of Chicago, appeared before the police and fire board Monday afternoon with a model of his company's parking meter to explain its working and the proposition which the company is offering the city. He said he would be glad to appear before a merchants' meeting.

During the discussions, Commissioner James Borr said the situation should first be explained to the merchants before any attempt is made to install the meters on streets in the downtown area. He said he felt that the Chamber of Commerce could arrange the meeting.

Mr. Bolinger said the parking meters in Grand Rapids, which his company has installed, has not only solved the parking problem there but also have provided additional revenue for the city. Although objections were raised at first, he said, Grand Rapids merchants and residents now favor the meters.

He explained that his company will install the meters in Holland for a trial period of 60 days, 90 days or six months at no cost to the city. If, at the end of the trial period, the meters are no longer desired they will be removed by the company and sidewalks will be repaired where they are broken to install the meter posts.

He said that 50 per cent of the receipts are collected by the company and 50 per cent goes to the city. The company charges no interest or carrying charge while the meters are being paid for, he explained.

Mr. Bolinger said that in seven months Grand Rapids netted \$33,000 from 750 meters and that the city is planning to purchase additional meters.

He suggested that meters be placed on two blocks of Eighth St. and possibly on two blocks along River Ave. It also was his suggestion, after it had been proposed to place meters along only one block in Holland, not to "undermine" the city during the trial period.

Mr. Bolinger said that with the parallel system of parking, the street is marked off into sections of 20 feet for each meter. With the average length of a car at 16 feet, he pointed out that four feet would remain, in addition to the space in adjoining parking spaces in driving or backing automobiles into or from the parking spaces.

TRIO SEVERELY HURT IN CRASH

Headon Collision Occurs
Between Cars Near
Allendale

Grand Haven, July 20 (Special)—Three persons were in critical condition today in two Grand Rapids hospitals as the result of a headon automobile collision Wednesday at 6:45 p.m. on M-50, about one mile east of Allendale.

Between automobiles driven by Oral De Vormer, 21, son of Opple De Vormer, of Grand Rapids, and Harold Zylstra, 24, route 1, Hudsonville.

De Vormer had deep lacerations on the forehead and fracture of the upper jaw and suffered considerably from shock. He was confined in Butterworth hospital.

Harold Zylstra had lacerations on the face and body, fractured jaw and possible skull fracture. His brother, George, 21, also had a possible skull fracture, deep cuts on the face and arms.

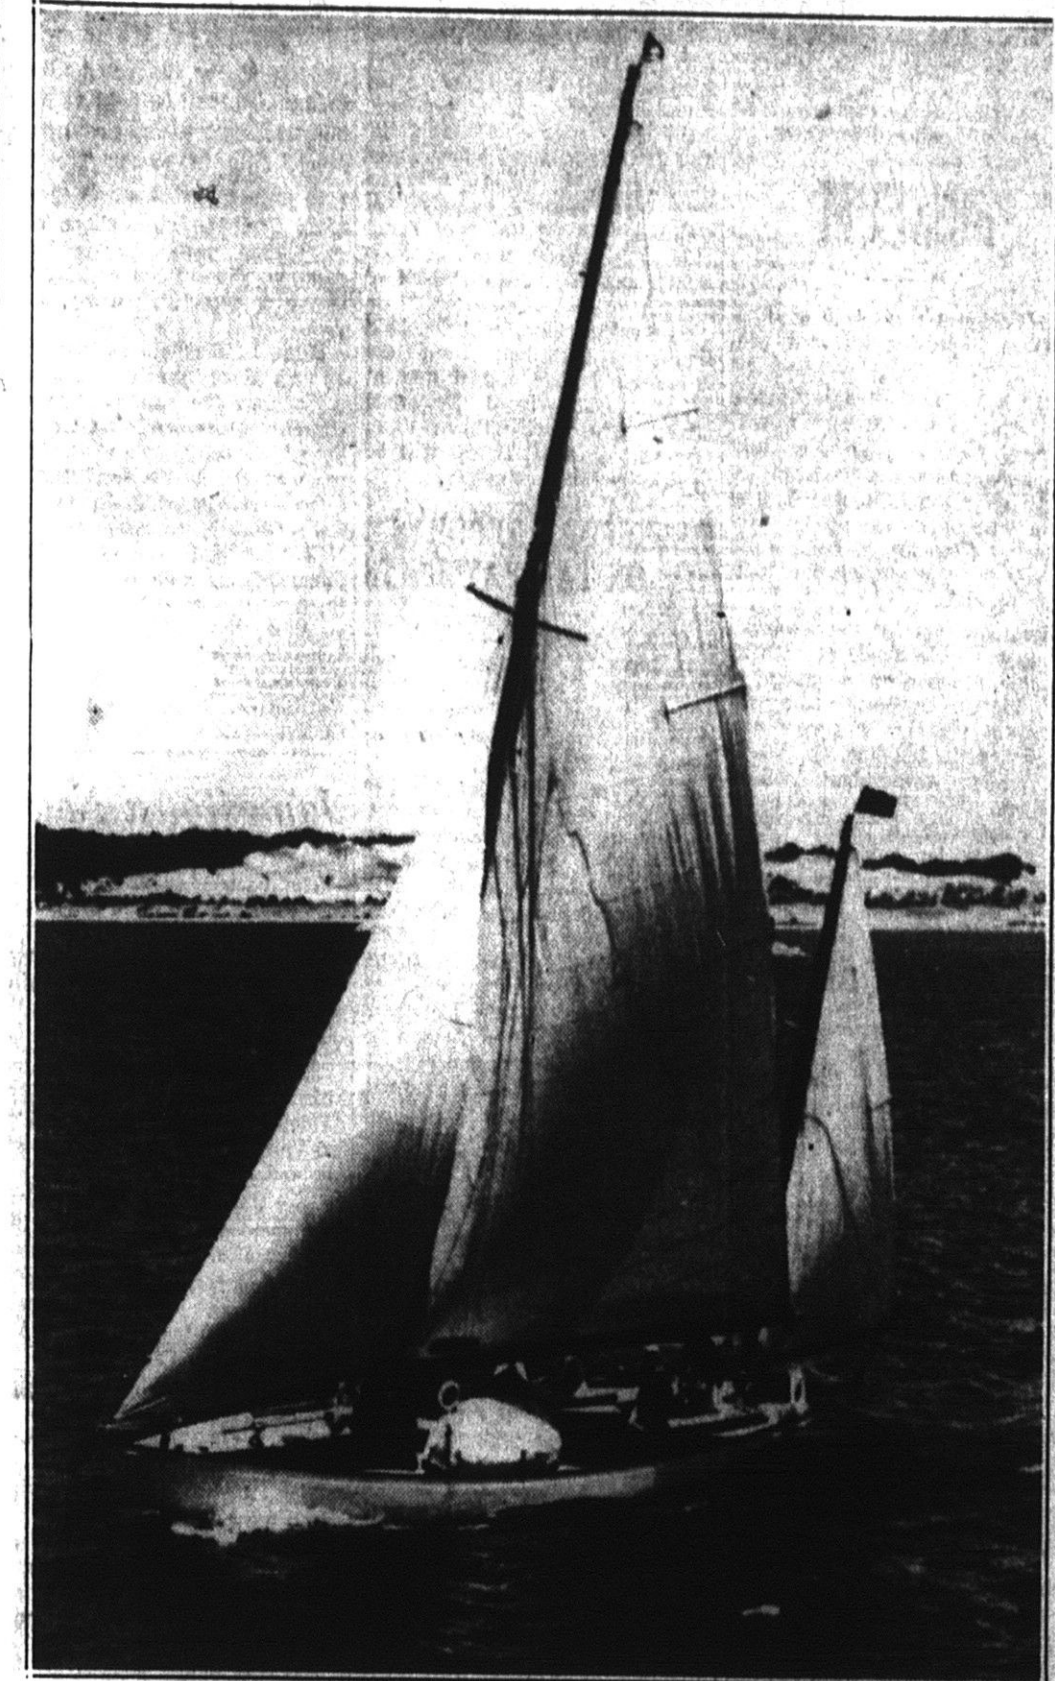

The Zylstra brothers were confined in St. Mary's hospital. Doctors offered no comment today regarding the saving of any of the three lives.

The accident occurred when De Vormer, who was driving in a westerly direction on M-50, sought to pass a third car and crashed headon into the Zylstra vehicle. State police said De Vormer was driving approximately 60 miles per hour when the crash occurred.

State Trooper James Kiomento with the assistance of Deputy Sheriff Hiram Robinson investigated the crash.

Young De Vormer until recently was a catcher with the Lima, O., baseball team in the Ohio State league. He formerly was a Creston high school catcher. His father is a former major league catcher.

Wind Fills Larikin's Canvas in Race

The "Larikin," yawl owned by Bill Lowry, Willis Diekema, Dr. H. P. Harms and Henry Maentz, is shown above, sailing into a windward tack during the race to White Lake Saturday. The above picture was taken from the bridge of the Coast Guard Cutter Col-

fax as the local sailing boat crossed its bow. Because of failure of wind at Holland early Saturday morning, even Holland boats were towed by the Colfax to a second start at Muskegon. The "Larikin" went to a point several miles north of Grand Haven on its own auxiliary,

and then set sail the rest of the way to the Muskegon harbor. The wind was brisk for the start at Muskegon, and as is seen in the above picture, the boats were forced to tack into the breeze. The "Larikin" reached White Lake almost 15 minutes before other local craft.

Works Board Allowed Year's Stay in City Hall

Common council, at its meeting Wednesday night, accepted the report of its civic improvements committee, recommending that the board of public works be granted "up to one year" to attempt to find new quarters for "themselves" which would be suitable and agreeable to themselves and also to our citizens.

At a meeting of council of June 7, the matter of the removal of the board of public works from its space in the city hall was brought up with an idea of utilizing this space for the local library. At that time, the matter was referred to the civic improvements committee of which Ald. William C. Vandenberg is chairman.

Vandenberg reported Wednesday night that the committee found the library board in need of additional space and that it unanimously agreed the problem would be solved if it were possible to combine the space now being occupied by the board of public works in the city hall with the present library facilities there.

The aldermen also reported that the matter was presented to the board of public works and that it requested "an indefinite time up to one year in which to make arrangements." He advised the aldermen that the board is requesting that, if the office is moved from the city hall, consideration be given to the advisability of moving the office of the city treasurer at the same time because the treasurer is collecting light and water bills for the board.

"In its investigation, your committee learned that there is some objection on the part of our citizens to the fact that water and light bills as well as city taxes are payable on the second floor necessitating a climb of several steps," Vandenberg added.

The committee also recommended to council that the matter of moving the office of the city treasurer to any new location which the board of public works might decide upon be given further consideration by the city clerk, city treasurer, city assessor, board of public works and civic improvements committee.

Reformed Mission Fest Highlighted by Features

Several interesting features highlighted the annual Colonial Mission fest of the Reformed churches of the Holland classis Wednesday afternoon and evening at Spring Grove in Jamestown.

At both the afternoon and evening sessions, missionaries, foreign and domestic, active and retired, were presented by Dr. W. J. Van Kersen, executive secretary for the western district of the board of foreign missions, who has his office in Holland.

Among the missionaries presented were Dr. and Mrs. Henry De Pree and Miss Ruth Broekema of China, Miss Mary Geegh of India, Miss Jennie Pieters of Japan (retired), Dr. and Mrs. A. Pieters of Japan (retired), Mrs. Henry Poppo of China, Miss Hanna Hoekje of Kentucky (retired), Miss Ida Tanis, Miss Marie Zwemer and Miss Anna Van Dyke, all of Kentucky, Mrs. Ben Du Mez and Mrs. Margaret Dubbink of Kentucky (retired), Mrs. Edith Walvoord of Japan (retired), Miss Jean Walvoord, nurse in China (retired), Dr. Harry Boot of China and the Rev. James Ottopoby of Winnebago, Neb. Dr. Boot had just arrived in

Holland from China for his furlough. Rev. Ottopoby, the first full-blooded Comanche Indian to be graduated from a college, is head of the Reformed mission in Winnebago. He is an ordained minister and is a graduate of Hope college.

About 1,000 persons were present at each session. The offering amounted to \$291 and it is expected to exceed \$230 when the proceeds of the canteen are determined.

A highlight of the recreational period from 4 to 6 p.m. was a softball game between the ministers and the laymen in charge of James Nykerk. The ministers won, 5 to 4. During the afternoon session, a special program for children was carried out under the direction of Mrs. Edith Walvoord. Addresses in the afternoon were given by Miss Broekema of China and by the Rev. H. J. Beltman, field secretary of the board of domestic missions. Speakers for the evening were Miss Mary Geegh of India and the Rev. Leonard Greenway of Grand Haven. George Schilling of Holland is president of the Mission syndicate which arranged the annual event.

Aided by a contribution of \$1,000, \$500 each from the board of education and the board of directors of the Netherlands Pioneer and Historical foundation, common council planned today to add \$500 of its own and make extensive repairs to the former hospital building at Central Ave. and 12th St. with an idea of utilizing it as a new home for The Netherlands museum.

Dr. Wynand Wichers, president of Hope college and president of the museum board of directors, appeared before council Wednesday night to announce the \$1,000 contributions and to urge council to add the \$500 for repairs to the building which, he said, is deteriorating in its present condition.

Council referred the request to its special museum committee with authority to spend the \$500 and draw up a lease whereby the museum could move into the city-owned property.

At the close of council meeting, museum officials met with the special committee and agreed upon the provisions of the lease.

Ald. William C. Vandenberg, a member of the committee, said council could not contribute to the museum but could expend the (Continued on next page)

LIST HOLLAND DOGS IN SHOW

Spring Lake Event Draws
Over Three Hundred
Canine Entries

A total of 370 entries, including 47 breeds of dogs, have been entered in the second annual outdoor dog show of the Western Michigan Kennel club to be held at the Spring Lake Country club Saturday, it was learned here today.

The show also will feature the appearance of 19 champions from the following breeds: Great Dane, Collie, English setter, Irish setter, wire fox terrier, Boston terrier, Schipperke, Chihuahua, Pomeranian, Toy Manchester terrier, Afghan, Beagle, Borzoi (Russian wolfhound), Cocker spaniel and Samoyed.

Among the Holland entries at the show are the following: Doble V. Pine Creek, a Doberman Pinscher owned by Gerrit J. Wierink, old Grand Haven road; Tally Galoway, an airleade owned by Miss Eleanor Jane Duffy, 65 West 12th St.; Baron V. Taran Walde, a Doberman Pinscher owned by Mrs. J. Thomas Mahan, 90 West 11th St.; Kerry Rags, a blue terrier owned by Vernon Hertz of Waukazoo.

A new feature of this year's dog show will be what is called obedience test trials. Many of the club members have never seen these trials.

William G. Gugerli of Auburn, Ind., is superintending this year's show. With the closing of the entry list last Saturday, Mr. Gugerli began work of cataloging all entries.

The obedience test trials include two classes—novice class A and novice class B. The only difference is that in class A only one dog may be shown by any one exhibitor and no professional handler or trainer or no kennel employee shall be allowed to compete as exhibitor or otherwise. In class B, dogs may be handled or exhibited by either an amateur or professional and exhibitors may enter more than one dog with each animal to have a separate handler. No dog may be entered in both class A and class B at any one trial.

The commands for the two classes are about the same. Then there is the obedience test (open class A) for dogs which have won the title of "C.D." (companion dog) in the novice classes and open class B. As in the novice class, professional handlers are barred in class A but allowed in class B.

In addition to the commands which are the same as in the novice classes, dogs must retrieve a dumbbell and execute the long and high jumps in the open class. Winners of the open class trials receive a rating of "C.D.X." (companion dog expert) and are qualified to enter in the obedience test utility class in which professional handlers are allowed. In this class, the dogs must have passed all tests in previous open classes with a satisfactory score. Dogs must speak on command, exercise scent discrimination, seek back for a lost article and stand without showing resentment while being examined by a judge.

MISSIONERS ON RETURN TELL OF JAP BLOCKADE

Kulansu Group Able to Get Limited Supplies, Boots Reveal

Gains of Church in China Field Pointed Out by Veteran Worker

Handicaps which Holland missionaries face in the Japanese blockade of Kulansu, Amoy, were revealed today as Dr. and Mrs. Harry P. Boot, local missionaries of the Reformed Church in America, rested here following completion of a trip from the international settlement in China which started June 6.

"We were blockaded two days before we left," they said. "There was a general bombing on all sides, but the Chinese are determined to fight it out to the bitter end. There is absolutely no cooperation between the Chinese and Japanese."

"One British ship was running the blockade as they left, they pointed out in describing the isolation of Kulansu, Tientsin and Shanghai settlements which paralyzed industries and shipping.

Water, food, fuel and other supplies were withheld from the various settlements. Only by special permission from the Japanese consuls-general were the missionaries able to get a few boatloads of supplies through.

Dr. and Mrs. Boot have spent 36 years in the Amoy area. Whether they will retire, as previously indicated, has not been determined. Dr. Boot was born in Fulton, Ill. Mrs. Boot in Cedar Grove, Wis.

Dr. Boot attended Hope College and Western Theological seminary. He was on his last furlough that Dr. Boot conferred upon him the degree of doctor of divinity. He went to China when the Empress Dowager and her regency were crumbling. After Dr. Boot had been there five years, the old Dowager died, too early to witness the complete ruin of her dynasty.

During his 36 years in China, Dr. Boot held various positions in the mission, outside his regular evangelistic work. At different times he was secretary, treasurer and president of the mission. He also was treasurer of both the South-Fukien church and the Theological seminary. During the absence of missionaries on furloughs he took over educational work. Between the installation of new pastors he served as moderator of several churches.

When asked as to the advance in churches and missionary work since he first went to China, Dr. Boot replied, "thirty-six years ago there were 3,000 members in full communion; today the figure stands at 12,000. Native pastors and the self-supporting churches have greatly increased in number. Strides ahead have been made by schools—both mission and governmental. Our own are simply jammed full now. (This is because the government schools have discontinued or moved into the interior.) Those schools that have moved are bringing religion, culture and education into the interior. Mission work is continuing and prospering in spite of war, even though Japan has no love for third party people. And there is so much camouflage as (Japan) trying to maintain peace and order—and the open door. It's all bosh. I don't believe it!"

Mrs. Boot was active in the Women's Bible school and general evangelistic work. She contacted women and children in the refugee camps, teaching them about God, and how to read. Her daughter, Harriet, is a nurse, also is Amoy, working in the baby clinics and refugee hospitals. Theodore, the eldest son, is a local merchant. Ethel spent three years teaching English in China, and is now taking her M. A. in English at the University of Nebraska where Raymond and Wilbur also studied. Raymond is just finishing his M. A. in history, and Wilbur is completing his sophomore year. Raymond is to continue his work for his Ph.D. at Drew Providence, R. I. Marion, after three years of domestic mission work in Kentucky, went to Buffalo, N. Y., as Mrs. Jo Esther. Beatrice, the youngest girl, is teaching fourth grade in a public school in Delmar, N. Y.

Grand Haven, July 20 (Special)—Miss Kathryn Boon, who with Raymond Boot, Wilbur Boot and Miss Ethel Boot, all of Holland, left about a month ago to greet the parents of the Boots, Dr. and Mrs. Harry P. Boot, upon their arrival in this country, arrived in Grand Haven Tuesday night after visiting many points of interest which included Yosemite valley, Yosemite National park, Boulder dam, Los Angeles, the exposition, Lincoln, Neb., where Raymond and Wilbur Boot attended college during the past year, Sioux Center, Ia., Fulton, Ill., and Cedar Grove, Wis.

On Tuesday, Dr. and Mrs. Boot celebrated their 29th wedding anniversary and the above party, together with two other daughters, Miss Beatrice of Delmar, N. Y., and Mrs. Joseph Esther of Buffalo, N. Y., who came to visit their parents who they had not seen for some time, were entertained at dinner at the home of their son, Ted Boot at Holland. Rev. Esther will arrive next week and they, together with Mrs. Esther's parents, will spend four weeks at a cottage at Tennessee beach, after which Dr. and Mrs. Boot will reside in the Mission home in Holland.

Son's Arrival Provides Three-Way Celebration

In the years to come, the date of July 18, will serve a three-way celebration for Mr. and Mrs. Jacob Van Hoff, 109 West 21st St. Mr. and Mrs. Van Hoff became the parents of a son, Roger Keith, who was born Tuesday night in Holland hospital.

The date also marked the birthday anniversary for Mrs. Van Hoff and their 13th wedding anniversary.

Mr. Van Hoff is a member of the Holland police department.

MUSEUM

(Continued from page one)

\$500 in improving its own property. The lease for the hospital building is for two years with a self-renewal clause. It provides that the lease can be canceled by either party on six-months notice. The lease will be drawn up by City Attorney Clarence A. Lokker for signing by city officials and museum officials.

Arrangements for the improvements are to be made as soon as possible. A committee composed of Ald. Martin Oudemool who will represent the city in supervising repairs to the building, Dr. Wickers, William Arendshorst, Willard Wickers, Ald. James A. Drinkwater and George Tinkhoff visited the hospital building today to determine the extent of the repairs.

Dr. Wickers said it is hoped that WPA assistance may be obtained with a result that upwards of \$2,000 will be spent in repairs. The museum has been forced to seek new headquarters because of the plans of the Michigan Trust Co., owners of the former Masonic Temple building, to tear down the building. At a recent council meeting, the Capitol City Wrecking Co. of Grand Rapids was given permission to close off part of 10th St. adjoining the building while the razing work is being done.

Supporting the appeal of Dr. Wickers, five letters were submitted to council urging that the proposal be supported. The letters were from the Woman's Literary club, Daughters of American Revolution, Holland Lions club, Holland Exchange club and American Association of University Women.

Dr. Wickers explained that the museum board sought to obtain a permanent home in order that the museum might be continued "along the lines that have been carried out since its inception."

Dr. Wickers announced that the board of education had voted its \$500 on condition that council and the museum board offered similar amounts.

He asserted that museums in Muskegon, Traverse City, Battle Creek, Grand Rapids, Kalamazoo, Port Huron, Saginaw and other Michigan cities are operated either by the city or board of education and in some instances by both groups.

"I can't understand why there is so little interest in Holland towards support of the museum while there is considerable interest elsewhere," said Dr. Wickers, adding that the Dutch people of other communities favor the gathering of historical documents and relics for preservation and look upon Holland as the logical location for their keeping.

He said the museum board has been given assurance from The Netherlands foreign affairs minister that a committee can travel to New York city at the close of the World's fair and select any exhibits it desires for the local museum, providing they are not private property.

He further stated that the federal government has expended approximately \$16,000 in Holland for museum work and that approximately seven adults and 23 young people are given steady employment. He said these workers come from needy families.

"Unless the building is fixed up and occupied, it will soon go to ruin. It will be more of an asset to the city occupied than empty," he stated.

"Unless local support is forthcoming, it will be necessary for the board to cease operation of the museum. Then in all probability it will be moved to Muskegon or Grand Rapids as both cities are seeking it, especially Grand Rapids with its new museum building."

Dr. Wickers pointed out that since the museum was established downtown approximately 37,000 persons have visited the museum and that July attendance has been about 100 persons a week. He emphasized that the exhibits should be preserved for the city's centennial anniversary a few years hence.

Drinkwater said the boiler and furnace in the old hospital building needed repairs.

Arendshorst said that it is the plan to spend about \$200 for fixing the furnace and boiler, \$300 for wiring and \$250 for new plumbing work.

OVAL EXTENSION IS DEFEATED AT G.H.

Grand Haven, July 20 — Common council Tuesday took no action on a plan to turn over the property on the Grand Haven beach to the state department of conservation with a result that backers of the movement to extend the state park oval on Lake Michigan south of Highland park pavilion lost another battle.

William Loutit, chairman of the conservation commission, had asked that the property be given to the state. The oval last year was expanded north of the river and this year was extended to the park property on the south.

Ald. Martin Boon opposed any action to turn the land over to the state as he claimed this question has been a touchy one between the council and Highland Park association, which is opposed to any further expansion of the oval to the south.

LAKE EVENT

(Continued from page one)

bor Saturday morning was attempted at 5:20 a.m., but was abandoned after an hour and a half, and the boats were towed to Muskegon by the coast guard cutter Colfax for the afternoon start.

The tow line broke three times on the trip to Muskegon.

The Larikih led the fleet all the way up the lake from Muskegon, arriving at 4:01.32, after elapsed time of 2:33.32.

The local yawl arrived 13 minutes ahead of the first of the 22-square meter boats, and a half hour ahead of Ed Landwehr's Mitzl, second boat in the handicap class.

Although the handicaps were not figured for the three Universal handicap boats, Lowry's boat was conceded the race without a check of corrected time, because of his lead into the harbor. The 22-square meter class was a scratch class, and no corrected times were taken.

The order of the finish in the handicap class was the Larikih first; Landwehr's Mitzl second, arriving at 4:31.10 after elapsed time of 3:03.10; and Henry Van Steenwyk's Slamet third. Van Steenwyk did not finish before 6 p.m., and his time was not taken.

In the class for 22 square meters, the race was close. Edgar Orr skipped his winning boat across the line just a second less than two minutes ahead of Bob Herrmann's "Pierette III", after the two had jockeyed for position all the way up the 12 mile course from Muskegon.

The order of the finish of the 22 square meter boats was: Edgar Orr, first, finished at 4:14.35, elapsed time, 2:46.35; Bob Herrmann, second, finished at 4:16.34, elapsed time, 2:48.34; Hollis Baker's Brita, third, finished at 4:29.34, elapsed time, 3:01.34; Chet Van Tongeren's Foo, fourth, finished at 4:38.15, elapsed time, 3:10.15; and Jack Dane, Little Bret, fifth, finished at 4:47.07, and elapsed time, 3:19.07.

Orr and Herrmann used similar tactics in the race to finish closely at White Lake. The two started on a long windward tack, then hugged more closely to the shore line the rest of the way up the lake. At the finish of the first long tack, the boats were separated, and going up the lake they exchanged leads at cross tacks, the boat on the windward tack taking the advantage over the craft on the leeward tack.

The Landwehr and Baker boats were close at the finish, the 22 square meter craft taking the lead into the harbor by just two minutes. The Van Tongeren boat kept up with the Baker boat up the entire course until the crew misjudged the course into the finish line, and lost ground on a long tack inshore.

At the start of the race, Landwehr's boat was handicapped by trouble with the mainmast. It refused to go all the way up at the start of the race, and time at the early end of the course was lost.

The boats were started by a gun off the Colfax, and as each boat crossed the finish line at White Lake, the starter fired a gun. Power yachts from Spring Lake and White Lake joined the Colfax in saluting the sailing yachts with horns.

Following the race, yachtmen joined at the White Lake Yacht club for a dance, and Commodore Homer Hartz of the White Lake Yacht club presented Mr. Orr and Mr. Lowry with trophies.

Most Holland boats left White Lake between 10 a.m. and noon,

and they were followed by the Colfax at noon. Boats owned by Edgar Landwehr, Henry Van Steenwyk and Jack Dane, accepted a tow from the Colfax in the light winds, and arrived at the home harbor just after 6 p.m.

Other boats sailed home, arriving about sundown.

Capt. C. M. Felderson was in command of the Colfax. Passengers on the cutter were Commodore Hartz, Jack deFraga, Joseph Sadony, Jr., Arthur Sadony, Neil Manny, all of the White Lake club; racing committee, Floyd S. Harrett, Grand Rapids, and Lester F. Harrett, Grand Rapids, both of the Macatawa Bay Yacht club; and Bob Wisniewski representative of the Holland Sentinel.

When calm here early Saturday prevented start of the race, officials decided to have the cutter tow the boats, hoping a breeze would arise by the time the boats reached Grand Haven. However, winds were too light when the group reached Grand Haven at 10:45 a.m. to insure arrival of the craft under their own power at White Lake by 6 p.m., so the boats were towed to Muskegon.

Although a blow to the yachtmen, the Saturday calm made lake conditions ideal for the water ski jaunt of Charles R. Sligh, Jr., power fleet captain of the Macatawa Bay Yacht club, from the bay here to White Lake.

Other than a wetting at the start, Mr. Sligh made the 50-mile trip from the local harbor entrance to the White Lake pier-heads without a single spill in only one hour and 39 minutes.

This is believed to be the longest trip ever made on water with a pair of water skis. Mr. Sligh, president of Holland Chamber of Commerce, left the local harbor entrance at 6:48 a.m. and reached White Lake at 8:27 a.m.

On the basis of this time, Mr. Sligh averaged almost 36 miles per hour. The speed boat which towed him to White Lake was piloted by George Copeland. Other occupants of the boat were Mort Roberts and Robert Walters.

Mr. Sligh left from the north breakwater. As the speed boat did not take off at a fast enough speed, Mr. Sligh dipped into the water up to his waist. He completed the trip in his wet clothing.

He did not cover the lower portion of his body with grease to protect it from the cold water. Mr. Sligh was attired in a pair of sailor pants and terry cloth shirt.

Members of the Macatawa Bay Yacht club together with the commodore of the White Lake Yacht club and several other White Lake club members gathered at the Macatawa clubhouse at 4 a.m. Saturday for an early breakfast.

The Colfax arrived in the local harbor at 10 p.m. Friday with the commodore of the White Lake club. The Colfax came here from Chicago.

Although empty, the gasoline truck weighed 16,000 pounds. The Wigger car did not overturn but was practically demolished on its wheels.

Gerald Wigger was the least seriously injured, having suffered bruises about the head and legs. Robert Wigger suffered lacerations and possible skull fracture. Lawrence Wigger suffered severe head injuries and lacerations on the arms and legs.

State police at Houghton lake post and the accident occurred on a curve, the Wigger car and the truck colliding in the middle of the highway and then leaving the road.

MEET TO PLAN CASTLE EVENT

Horse Show for Benefit of Holland Club Fund to Be in August

Plans for the 17th annual Holland-Castle Park horse show were laid in a meeting of the horse show committee for 1939 in the Castle hotel last Thursday night.

The annual event, benefitting the Orthopedic fund of the Holland Rotary club, will be held on the Castle campus Wednesday, Aug. 30.

Thursday night's meeting was called by Carter P. Brown, co-owner of the Castle. Mr. Brown was host to Charles Kirchen, Peggy Kirchen, James Nibbelink, William Eaton and Robert Wismeier of Holland; Betty Jean McLean, Carter Wilkie Brown, Duncan Forbes, Phil Frye and Mrs. Roy Nobel of Castle park; and Harold Sears of Grand Rapids. A buffet supper was served in the Old Timers' room before the meeting.

A discussion of suggestions for improvement of the show resulted in plans to hold children's classes the morning of Aug. 30, insuring the close of events by 6 p.m. The committee anticipated the finest of Castle shows for the 1939 season as possible entries from Holland, Grand Rapids, Lansing, Detroit, and Battle Creek were expected. Inquiries have been received from as far as Traverse City.

Emphasis will be laid on the locally owned horsemanship class in which ability of rider to mount and horsemanship are major factors. The class was opened in last year's show to stimulate interest among horsemen of Ottawa and Allegan counties.

Two other classes may be included this year. Possibilities of starting a Kent county class and a class for roadsters (cars) are being considered.

The show is strictly an amateur show. Amateur judges will be chosen.

Mayor Richard L. Cook has sent 100 letters to lodges, service clubs and other groups in western Michigan inviting them to participate in the picnic to be held at Grand Haven state park where a program of sports and races will be held. Two greased poles, a greased pig and a balloon ascension will entertain the crowds.

In the afternoon a parade will be the principal feature, with merchants and manufacturers entering floats. Oldtimers in old-fashioned vehicles will be featured along with four or five bands. Camp Fire Girls, Boy Scouts, Girl Scouts, Sea Scouts and drum and bugle corps will form other sections.

Camp Grayling, July 20 (Special)—Following an inspection of Company D's kitchen, medical inspectors gave it a rating of 86 per cent.

Each morning the floor of the mess hall is scrubbed with lye as are the tables. The garbage cans also are cleaned as any other utensils as they attract flies if dirty. Flies are strictly taboo in the mess halls and they are very few to be found in Company D's hall.

SCIENCE AND SUPERSTITION

Dr. R. A. Smith, state director of geological surveys, has been debunking the "doodlebug." Not the kind of "doodlebug" that walks around in pants, but the kind that is used in developing oil fields. Superstitious oil seekers still go around carrying a witch hazel branch and they still believe that the branch will indicate the presence of oil by bending down toward it. It seems incredible that such people still survive in our age of science, but so it is.

The whole idea is cockeyed poppycock, declares the state geological director. Of course it is, and of course the state director of geological surveys would think so. He has been devoting the best years of his life getting acquainted with geology as it actually is. If a witch hazel branch can do what is claimed for it, all persons who devote laborious years to the effort to learn of nature's secrets are supreme fools.

But Dr. Smith's debunking statement will probably have very little effect on the popularity of the "doodlebug." Those who believe in the witch hazel wand will continue to believe in it, in defiance of all the geologists in the world. Once in a great while oil will actually be found in a place where the hazel wand indicated it. No matter that in a hundred other instances the hazel wand indicated dry holes. Superstition can easily adjust itself to such discrepancies.

But before Dr. Smith and others like him become too scornful of the believers in the efficacy of the "doodlebug" they might well examine themselves for superstitions in other fields. For it is a strange thing that scientists are almost as superstitious as non-scientific people. Scientists are of course never superstitious in their own field—they have studied that too intensively to retain their superstitions. But in fields they know nothing about they are often quite as credulous as the rest of us.

If all people could be scientific in all fields superstition would die a natural death; for science and superstition are at opposite poles. But most of us of necessity remain ignorant in many fields, and it is for that reason that there is still plenty of chance for superstitious ideas. For we are superstitious only because we are ignorant of true causes and effects and fill up that vacuum with fancies that have no basis in fact.

The British idea is that a lot of things may be good Nazism, but they're not international cricket.

This is the time of the year when it seems about fifty-fifty whether men or insects will come out on top.

An optimist says that when all the nations are fully armed, they can all disarm. But will they?

A Life of Trust
2 Chronicles 14:2-12

By Henry Geerlings

Jeroboam was on the throne of the northern kingdom, while Rehoboam ruled in the south. We are naturally more interested in the southern kingdom for the reason that its capital was Jerusalem, where David and Solomon exercised authority and where the temple was situated, and where the priests of the divine order performed their ministry.

Rehoboam's reign lasted for a period of seventeen years. He did evil in the sight of the Lord, and there was little of a constructive character accomplished while he was on the throne. There was a show of faithfulness to the Lord at the beginning of his administration, but he soon lapsed into idolatry and heathen immoralities which characterized the close of his father's reign.

The most critical hour that Judah experienced under Rehoboam was when Shishak, king of Egypt, invaded the country with a powerful army. He was powerful, and had he not pacified the invader with a princely ransom, Jerusalem would have been destroyed and the land devastated. Shishak spoiled the temple of its vast treasures. It was only because Rehoboam humbled himself before God that he was spared severe punishment.

His successor on the throne was Abijah, who ruled only three years. He defeated Jeroboam to the north in battle, and followed in most ways the evil example of his father.

The third king of Judah after the Kingdom had become divided was Asa. We are told two things about him, the one being that the land had rest and peace for the first ten of the forty-one years of his reign. The other thing recorded concerning him is that he was good and right in the eyes of the Lord. We are not to understand that he did nothing wrong. He made some very serious mistakes. But the trend of his rule was in the direction of godliness. He left the kingdom stronger than he found it.

He was practical, far-sighted and constructive. He took his honor as fastening obligations upon him, a sensible course for any ruler, even in our advanced times. He realized a double obligation. He felt that he must establish and preserve the worship of God and he realized that he must meet emergency, even though there was no sign of one at the time, by being prepared for it. Emergency would come by way of an attack from an enemy. The custom of the time was for one ambitious people to make war of aggression against another. Asa knew that peace would not last forever. War would come sooner or later. Of course he had no confidence in victory in war unless by God's help. His army was too small and his military strength too meager to hope to withstand attack by the stronger neighbors. So he planned to tie his people to God by keeping them worshipping him. He planned to drive out hindrances to worship, and protect the people against counter attractions that supplant God. He would make what war preparations he could. If and when an enemy came he would have some force through which God could work. So we have the story of fortifications he constructed, men he called to be soldiers, and weapons that he made available for them. He showed his wisdom by looking ahead. His trust in God kept him dependent upon God, and at the same time urged him to do his best, for he was sure that God expected this of him.

We moderns are in need of a trust similar to that of Asa. Our own days are fraught with difficulties which demand unusual confidence and trust in God. Those who possessed only riches and wealth at the outset of our recent years of depression frequently lost these riches and had nothing to rest upon. Some possessed only faith in God, and little of this world's goods. There was no chance of their losing wealth and riches, since they had none. Through all the trying days, they still possessed the God whom they trusted.

It is false, however, to assume that possession of this world's goods and trust in God are impossible with the same person. People of this group could afford to lose their worldly wealth and still retain their confidence in God. Trying times are especially periods in which faith in God is the supreme value.

Says Clipper Test Is Success

A speed of 65 miles an hour by the Sea-Hydro Nassau Clipper is the claim made by Capt. M. L. Gilbert of the Gil-Boat Co. here, following recent tests of the craft at Brunswick, Ga.

Captain Gilbert, who explained that the ship skims over the water when under way, predicted that volplaning ships would be built which would cross from New York to London in 18 hours at a cost of \$25. He also predicted ships which, although not more than 200 feet long, would carry 1,000 passengers and 3,000 tons of cargo across Lake Michigan in slightly more than an hour.

The Nassau Clipper, Captain Gilbert said, is a somewhat smaller than the one envisioned in his predictions.

Built over a steel hull with light Dow-metal sides, decks, partitions, and top, the test ship, the Nassau Clipper, skimmed over the water at the astonishing speed of 65 miles an hour, Captain Gilbert said.

Captain Gilbert hopes to develop huge shipyards, already being arranged with associates, for turning out such vessels in a wide variety of sizes and for varied purposes.

The first sleek, streamlined craft has room for 500 day passengers and was designed to attain a speed of 80 miles an hour. Thus he claims his boat is "the fastest commercial ship in the world," though none of the motors were turning up to capacity when the 65-mile an hour test trip was made.

The experimental ship is 80 feet long, 22 feet wide, 19 feet deep, has two decks, and is powered with seven motors driving seven propellers, with combined horse power rated at 2,100. Its total weight is 25 tons, of which 10 tons is in motors and machinery, the rest in the hull.

As it stands, without passengers or pay load, it draws only one foot, 12 inches, of water except at the propellers, the deepest of which requires only three and a half feet, or 42 inches.

Construction of a second ship, 200 feet long and 75 feet high, to be designed for a speed of 80 to 100 miles an hour, already has been started, Captain Gilbert announced. A normal ship of this type and length would have more than twice the deck room of conventionally designed vessels, thus would be suited for carrying airplanes, requiring no runways for takeoff because of the carrier's speed he declared.

Though not definitely sold for any particular route, it is designed to carry passengers and fruit from Texas and Florida to New York. It would make the run from Miami to New York in one night with about 1,000 passengers and 3,000 tons of cargo at full capacity, he said.

BOAT COMPANY IS NOT LIABLE

Judge Raymond Rules on Case Which Involved Burlington

Grand Rapids, July 20—In an opinion handed down Friday, Federal Judge Fred M. Raymond ruled that the Gartland Steamship Co. of Delaware was not liable for the loss of cargo when the Burlington, one of the firm's steamers went aground during a storm as she sought to enter the channel from Lake Michigan into Lake Macatawa at Holland on Dec. 6, 1938.

A petition had been filed in federal court by the steamship company for limitation of liability.

The loss of the ship and part of the cargo, according to the opinion, was attributed to "dangers of the seas" and not to negligence on the part of the ship's master. Abnormal lowering of the water level was given as the cause of the loss and was described as a phenomenon known as sicche, caused by oscillation of water which results from variations of barometric pressure. A severe gale followed the grounding of the ship and caused its complete loss. Judge Raymond held that the suddenly precipitated water level was unknown to coast guards and the ship's master had no way of guarding against such a condition.

The cargo consisted of 2,217 gross tons of pig iron which were a partial loss. The cargo was being brought to Holland for delivery to the Holland Furnace Co. at the time the ship went aground, just north of the breakwater.

DUTCHMEN WIN OVER DAVIDS, 1-0 IN LAST FRAME

Holland Takes Pitcher's Battle in Ninth on Squeeze Play

Locals Will Meet Toledo Club Friday Night at Riverview

Bob Vanden Berg won his own game Wednesday night in the ninth inning of the 1-0 pitchers battle waged by the Holland Flying Dutchmen and the House of David team before the biggest crowd of the current season.

The former Hope college lad, in the ninth frame after pitching sterling ball in a scoreless contest, laid a bunt along the first base line to bring in Don Van Lente for the only run.

Friday night, Holland is scheduled to combat the Toledo Luckeys, a fast league team working out of Toledo, O. The club is rated with the best of the white teams in Ohio baseball.

Vanden Berg tried his squeeze play after Van Lente singled to right field to lead off in the final half of the ninth. Howie Keuken, playing his first game of the season with the Dutchmen, beat out a sacrifice at first, and the two runners advanced a base when Catcher Knuppell of the bewhiskered nine made a wild throw to second. Wenzel struck out, but Vanden Berg bunted.

The large attendance also was treated to a track exhibition of Helen Stephens, world's dash champion among women, "did her stuff" in the shot put, discus and darts.

She raced Lloyd Driscoll, husky Dutch outfielder over 50 yards, and the local ball player came out second best by three yards.

Keuken played his first game of the season with the Dutchmen, and is to be with the team for the rest of the season.

A newcomer to the squad played at center field, Allen Lockman of Boyne City, joined the team for summer games. Russ Wolrding, who was to be in center field last night, did not play, but will be with the club in the tilt with the Toledo team.

Last Saturday afternoon, Holland lost a 10-3 decision to the Grand Rapids Dutch Kraft nine on Valley Ave. field in Grand Rapids. Earlier this season, the Dutchmen beat the Grand Rapids team, 5-2.

Overmire pitched the win for Grand Rapids. He allowed Holland seven hits, and struck out 15 batters. He failed to give a walk.

Van Wieren hurled for Holland until the eighth frame when Bates' blow went for a homer. Teusink finished the game.

The Dutch Kraft team picked up 11 hits, Bates, Davis, Schotter and Overmire getting two each. DeWitt hit three singles in four times at bat for the Dutchmen.

COMMON COUNCIL

Holland, Mich., July 19, 1939

The Common Council met in regular session and was called to order by the Mayor.

Present: Mayor Geerlings, Ald. Prins, Kleis, Drinkwater, Kalkman, Oudemans, Vandenberg, Ketel, Menken, Raymond, Smith, and the Clerk.

Minutes read and approved. Devotions led by Mayor Geerlings.

Mayor Geerlings called on Dr. Wynand Wichers who was present together with other representatives from the Netherlands Pioneer Historical Foundation in regard to a proposition that they wish to make to the Common Council. Dr. Wichers stated that inasmuch as the Masonic Temple, where the museum articles are now being displayed, is to be razed, it will be necessary for them to find another place to house these numerous relics. Dr. Wichers stated that they have met with the Board of Education who have promised them \$500.00, contingent upon the Council appropriating a like amount. He further stated that the Foundation was also appropriating \$500.00, which would make a total of \$1500.00 in that could be used for remodeling the old hospital building so that it would be suitable to house these museum relics.

Dr. Wichers then went on to outline to the Council the value to the City of Holland of a museum. He reported that in making a survey throughout the State, they found where several cities in the States are contributing towards a museum. In some places the City stands the entire expense and in other cities the Board of Education stands the entire expense, and in still other places it is a joint proposition between the Board of Education and the City. Dr. Wichers stated that in Muskegon an amount of \$15,000.00 was appropriated last year jointly by the Board of Education and the City to maintain their museum.

He further called attention to the fact that the local Foundation has been promised by the Dutch Government any and all articles that are being exhibited at the New York World's Fair which are not privately owned. It was stated that at the close of the World's Fair the local Museum could secure those articles they desire.

Dr. Wichers stated that the Federal Government has appropriated approximately \$16,000.00 towards the support of the museum and furnishing employment for local people since this program has been in effect.

It was also called to the attention of the Council that the old hospital building is rapidly depreciating and it was felt that an amount of \$1500.00 could be put into the building at this time for the purpose of remodeling, it would be a big asset to the City of Holland. It was further stated that both the City of Grand Rapids and Muskegon are anxious to get the collection which is now exhibited locally in the Dutch Museum. He felt, however, that the logical place for a Dutch Museum was in the City of Holland rather than in Muskegon or Grand Rapids.

It was called to the attention of the Council the value of such an exhibit from a tourist's standpoint. Dr. Wichers stated that approximately 37,000 people have visited the local museum since it has been operated. At the close of Dr. Wichers' plea, Ald. Drinkwater called attention to the condition of the boiler and other heating equipment that is in need of repairs, and in this connection Mr. Wm. Arendshorst stated that in their estimate of the cost of putting his building in shape to house the museum, they received the following figures:

\$800.00 for carpenter work.
250.00 for boiler and heating plant repairs.
300.00 for wiring.
250.00 (approximately) for plumbing.

Ald. Raymond stated that in order to bring the matter before the house, he would move that this entire matter be referred to the Museum Commission with power to act. This was supported by Ald. Vandenberg, and was unanimously adopted.

Motion and Resolution

Mayor Geerlings stated that he had also received complaints and had already taken it up with the Police Department and that they have promised to see that this practice is stopped.

Ald. Ketel brought up the matter relative to the City finding some employment for former police officer Bontekoe.

Ald. Vandenberg reported that an incident was called to his attention recently that he felt should be recognized. However, the Company acted very promptly in cleaning this up so that there was no annoyance to anyone in the neighborhood. Ald. Vandenberg stated that he felt that the Medusa Cement Co. should be commended for their action in this matter.

Ald. Vandenberg further stated that he had received a communication from Harbor Master Mr. Vander Schel calling attention to the condition at the dock at Kollen Park. The estimated cost for putting this dock in shape was

\$100.00. It was stated, however, that no appropriation had been made for this purpose and therefore was at a loss to know what should be done.

The Mayor ordered the matter referred back to the Civic Improvement Committee with power to act.

Committee reported that in their opinion there is a real need for additional library space. It was also brought out that the Board of Public Works needs more space and in this connection, the Committee recommended that the Board of Public Works be given an indefinite time up to one year for finding a new downtown location that would be suitable.

It was also brought out in the report that one of the problems in connection with the new office for the Board of Public Works was to determine whether it would be convenient for the City Treasurer to move his office to a downtown location or whether he should remain in the City Hall where all City records are more readily available. It was suggested that this matter be given further consideration by the City Clerk, City Treasurer, City Assessor, Board of Public Works, and the Civic Improvement Committee. Report was adopted.

Shamrock Is Victor; Calm Mays Finish of Many in Lake Event

Saugatuck, July 20 (Special) — Due to lack of wind over Lake Michigan Saturday, six of the entries in the annual Chicago-to-Saugatuck yacht race were forced to finish under power and seven of the yachts failed to finish.

The Southern Cross was first in a class with a time of 19:47:8 and received one of the Barrett cups, offered by the Big Pavilion of Saugatuck, and the Ponjola trophy, given by James R. Lowe of Grand Rapids.

It was first expected that about 40 boats would participate in the race but several boats which planned to take part in the Chicago-Mackinac race this coming week-end decided to abandon the Saugatuck trip.

Sunday night the members of the Saugatuck Yacht club, together with the members of visiting clubs were invited to attend the annual lawn fete which is held each year by Mr. and Mrs. George Quick at their summer home, "Sunnyside." Mr. and Mrs. Quick came from Chicago several years ago and are enthusiastic lovers of boating and various sports. They were among the first members of the Jackson Park Yacht club.

Capt. William J. Moore, who has for many years been taking time and judging the finish of the race at Saugatuck, was established at his post on the south pier at 7 a.m. Saturday, after leaving Chicago at 1 a.m. with Mrs. Moore by auto. Karl Thorby of the local club kept him company in his vigil. Captain and Mrs. Moore expect to continue on a trip to the north channel for an extended vacation.

ROTARY WIVES GIVE PROGRAM

Visiting Rotary-Anns provided the program at the meeting of the Holland Rotary club in the Warm Friend Tavern last Thursday noon.

Mrs. Wallace Smiley, secretary-treasurer of the Oklahoma State Garden Club association and secretary of the Tulsa, Okla., garden club, with Mrs. Jack R. Johnson, also of Tulsa, showed pictures taken in Mexico on a trip a year ago last summer.

Husbands of Mrs. Smiley and Mrs. Johnson are Rotarians, who visit the Holland club while spending summer vacations at Saugatuck.

The colored films showing a garden pilgrimage into Mexico, were shown by Mrs. Johnson. Mrs. Smiley described the scenes as they were shown.

Mrs. Smiley said that in Mexico, because temperatures are moderate, flowers bloom all the year around.

The pictures were taken late in April, and Mrs. Smiley said that in spite of the long season, April is the height of the blooming season for flowers.

The women showed pictures of the garden home of Alvarado, once a captain under Cortes, and the Chapultepec Park castle home of the old-time Montezuma, which has been used in recent years as the home for Mexican presidents.

The three reels of color film shown here pictured the pyramids of Mexico, which are not at all, but which have a larger base than Egyptian pyramids. Pictures of Acapulco, a sea-level town at the coast, and Chelula, a city of 365 churches, were interesting.

Mrs. Smiley told of seeing snow in Mexico during their trip. Toluca had one of the nicest market places in Mexico, she said.

Pictures showed an amphitheater built in memory of Lindbergh's non-stop flight from New York to Mexico.

Colored pictures of the sunsets in Mexico were outstanding.

Even Tow Line of Cutter Breaks

Even towing is not always "clear sailing," sailors learned when the tow line broke three times while their boats were being pulled from Holland to Muskegon where winds enabled the boats to race on to White lake. Five of the eight boats in the first annual Macatawa to White lake race are shown above behind the cutter Colfax off the Holland breakwaters as they were being picked up Saturday after a calm prevented start of the race as scheduled.

De Prees to Leave Soon on Return Trip to China

Dr. and Mrs. Henry De Pree

Dr. and Mrs. Henry De Pree, missionaries of the Reformed Church of America, will leave Holland Aug. 3 for San Francisco where they will embark on the S. S. President Pierce for China on August 11 to continue their work and "follow the trek of the patriotic Chinese in their migration into the hinterland."

Just before Dr. De Pree's furlough, the South Fukien Theological seminary of which Dr. De Pree is president, completed a large building program at the cost of \$36,000 (Chinese currency). This institution was erected in Chang Chow, an inland city, just off the coast so it consequently serves as a target for Japanese bombs. By order of the Chinese government, all educational institutions had to retreat to unoccupied territory. This seminary was transferred to the mountain town of Ying Fu, inland about 90 miles. There is no complete bus service and the last 13 miles have to be made by the age-old mode of transportation — sedan chair. All the equipment was put on the backs of coolies and carried into the hinterland — professors and students trailing behind.

Dr. and Mrs. De Pree will follow them and meet many of the literati who were ousted by Japanese guns on the coast. This small town of Ying Fu, devoid of electricity and modern conveniences formerly was no more than a village, but now has blossomed out into a busy educational center. To quote Dr. De Pree, "War hasn't diminished the number of students in the seminary; rather it has increased the enrollment. The students believe with the government that they must prepare for big days of reconstruction that lie ahead."

Because China has plenty of man-power, the government has urged students to continue studies, for the country needs an educated minority even more than manpower.

Both Dr. and Mrs. De Pree were born in Zeeland. Second Reformed church of Zeeland and Second Reformed church of Kalamazoo are interested in their support. Dr. De Pree attended Hope college, graduating with the class of 1902. He held a pastorate before going to China as a missionary in 1907. During their 32 years of service, Dr. De Pree has had numerous positions among which are: President of the South Fukien synod of the Church of Christ in China, secretary and president of the mission, and more recently, president of the South Fukien Theological seminary. Twenty-one years ago, in collaboration with the Rev. H. A. Poppen and Dr. Clarence H. Holleman, Dr. De Pree opened up the inland city of Leng-na, in the "North River" district where a hospital, school and three residences were built. In 1930 Dr. De Pree received the degree of doctor of divinity conferred upon him by Hope college; eight years later he went to Princeton Theological seminary and secured his Th. M. degree.

Mrs. De Pree came to the United States three years ago to make a home for her children, Lois, Harold and David. This last year she spent with Dr. De Pree while he worked for his degree. Lois is at present, Mrs. Lloyd G. Chapman of Detroit; Harold is studying in Rush Medical school; David is finishing his course in Hope college.

Camp Grayling, July 20 (Special) — Company D, Holland's national guard unit, along with the remainder of the first battalion of the 126th Infantry, was given honors Saturday by being selected as the guard of honor for Gov. Luren D. Dickinson when he arrived in camp for the annual "governor's review."

This was the first time that the first battalion of the 126th Infantry has been so honored. A salute of 19 guns greeted the governor when he arrived at camp as commander-in-chief of the Michigan national guard.

Governor Dickinson and Brig. Gen. Henry A. Pickert occupied the reviewing stand. Motorization and mechanization were emphasized. There was not one horse in the parade.

Seventy-five millimeter guns of the 119th field artillery were pulled by trucks. All motorized transports companies of Michigan's portion of the 32nd division were in line.

Approximately 2,000 visitors, composed principally of relatives of the men attended the review and other attractions. The military ball completed the program. The first of two interregimental boxing contests also was held Saturday night.

Corp. John H. McCormick and privates First Class Henry Windmuller and Ralph Meeuwse and Private John Van Nul took part in the boxing tournament.

The first of three overnight combat problems occupied the troops Friday night. At 9 p.m. Company D left by truck and returned to camp about dawn. Troops observed strict rules of silence and covered all lights from possible aerial observation.

Sgt. Homer Lokker has been awarded the Steward medal in the battalion elimination. This is given annually to the enlisted man who shows the highest degree of military efficiency. It is presented by Mrs. Earl R. Steward in memory of her husband, the late

Gen. Earl R. Steward, commander of the 63rd brigade.

Two Holland men have won the award in past years. They are Frank Fazakerly and Gerald Bonnette, former sergeants in this organization.

This year's winner was decorated Saturday during the military review and held a place of honor on the reviewing stand.

Illustrated with four pictures, a story appears in the current issue of Pit and Quarry, a magazine published for producers and manufacturers of cement, crushed stone, gypsum, lime, sand, gravel and other non-metallic minerals, on the Holland storage plant of the Medusa Portland Cement Co.

The storage plant was built on the site of the former Goodrich dock at the foot of West Eighth St. and shipments of cement by lake freight began a few weeks ago. The article gives a description of the new plant in Holland.

The plant here, according to the article, is the third distributing plant to be operated by the Medusa company at Great Lakes ports, the others being located at Chicago and Milwaukee.

Conklin Youth Faces Charge of Homicide

Grand Rapids, July 20—Allen J. Schoenborn, 19, route 1, Conklin, facing a charge of negligent homicide in Kent circuit court, is at liberty under \$2,000 bond.

He was bound over to circuit court following a hearing Wednesday before Justice Harry L. Creston.

The charge results from an accident June 11 in which Edward Zimmer, 17, route 1, Conklin, a passenger in Schoenborn's car, was fatally injured in an accident.

'RESCUE' TO BE FETE FEATURE

Grand Haven, July 20—Among the thrilling spectacles at the third annual U. S. Coast Guard Water fete Aug. 3, 4 and 5 will be a breeches buoy rescue from the Oliver H. Perry, old three masted sailing schooner anchored off Grand Haven state park, to the beach.

It was 30 years ago that the Charlevoix coastguardsmen chalked up their record of a "perfect rescue," when in the early morning darkness they saved more than 500 persons from the floundering steam, Illinois without loss of a single life with the important device used over the world for saving life when seas prevent use of the life boats.

Of the crew which carried out this rescue only two are still actively associated with the service, Lieut. Commr. Ward W. Bennett of this city, who is now a member of the Chicago division staff and is in charge of stations on the east shore of Lake Michigan, and Boatswain David Furst, now in charge of the Michigan City station. Others of the crew who have since been retired are Boatswain Nels Palmer of Ludington; Boatswain Fred Marsh, retired from Sleeping Bear station; and William Kibbee of Charlevoix.

NEW LEAGUE FORMED BY CITY COMMISSION

The City Recreation commission launched a new softball league Tuesday night after being rained out Monday night.

Six teams are members of the league. Ver Beek Zoet Fuels, the Low Wood Crafts, the Dutch Novelty, the Van Tongeren Ten, the Martin Stores and the Beverage team, play July.

Three new 60-foot backstops have been erected this summer on local ball diamonds, and games may be seen every evening except Wednesday and Saturday at 6:30 p.m. at either the 22nd St. and Pine park, or the 22nd St. and Maple Ave diamond.

The Holland Furnace sponsors a four team league, which plays every Monday and Friday at the 22nd St. and Maple Ave. diamond, and the city recreation commission sponsors the six team league at the 22nd St. and Pine Ave. diamonds. Leon Moody, director of the city commission said.

Besides the Holland Furnace and city recreation softball leagues, a four-team church league uses a 16-inch ball on the 19th St. diamonds between College Ave. and Columbia Ave. every Monday and Thursday.

City B league teams play baseball at the 19th St. diamonds every Monday, Tuesday, Thursday and Friday until Sept. 1. Last night, the Virginia Park Jr. team defeated the Service Machine club, 17-6, in the B league.

CONTRACT IS GIVEN TO DETROIT FIRM

The General Conveyors Corp. of Detroit was awarded the contract for the furnishing of the coal handling equipment for the city's new power plant by common council at its meeting Wednesday night.

Bids for the contract were received a few weeks ago by council and referred to the board of public works for tabulation. The works board met in special session Wednesday and voted to recommend to council the awarding of the contract to this concern.

The company's bid was \$29,845. There were three other bidders. A resolution to be forwarded to PWA sets out that engineers fees amount to \$1,790.70 for a total of \$31,635.70. The government grant amounts to \$14,947.87 and the applicant's grant totals \$18,269.62 for a total of \$33,217.49, leaving \$1,581.79 available for contingencies.

Small Fire, But Many Answer Local Alarm

Although the fire was small and resulted in but small damage, the fire alarm, sounded at 10:30 p.m. Tuesday, attracted a large number of persons to River Ave. near Fifth St.

The fire resulted when some rubbish on the loading platform of the Louis Padnos warehouse, 120 River Ave., caught fire from undetermined origin.

Local police were forced to direct traffic because of the large number of cars drawn to the scene.

Have Long Name for Local Sailing Yacht

To local resorters who wonder how Irving and Edgar Orr got that "un-spellable" name for their 22 square meter boat in Macatawa bay, its just an old Swedish custom.

The boat is named "Fyravepplingen," meaning in Swedish, "four leaf clover." Because the Swedish believe in luck of the four leaf clover, and believe it's bad luck to change the name of a boat once it's been given, the name "Fyravepplingen" stayed with the Orr's Swedish 22 square meter boat when it was purchased and brought here.

Two costume dances at the Dance Dune at Castle park were colorful events of the early summer for cottagers and guests of the hotel at the popular summer spot here last week.

Good morals are nobler than good manners, but not so popular.

Lovely gifts were presented Miss Hendricks in a unique manner. An interesting feature of the party was a book made by the group for the bride-to-be.

Moerdykes Describe Work

Dr. William Moerdyk, of Amara, Mesopotamia, was guest preacher at the morning service of Second Reformed church last Sunday. He compared the attitude of the Arabs toward religion with the attitude of the people of Christ's time. The Mohammedans hope to obtain salvation through their own good deeds, the same as in Bible times. He described hospital work and the methods of treating patients.

During Dr. Moerdyk's furlough in this country the hospital at Amara has been in charge of Dr. Lewis Scudder.

Mrs. Moerdyk in her devotional talk in Sunday school spoke about returning to work in Arabia. She spoke of Dr. Zwerner and Dr. Cantine, who are called "Specialists in the Impossible." Their work brings about many problems, she said, and at times it seems impossible to surmount the obstacles but a look backward shows that with faith and determination much is accomplished for good.

Dr. and Mrs. Moerdyk and children, William, Jr., Betty, Margaret and Dorothy, were guests of relatives in Zeeland Sunday. Wilam, Jr., will remain in Kalamazoo for the coming year. Dr. and Mrs. Moerdyk and daughters plan to leave New York on the Ex-cambian steamer of the export line. They will sail Sept. 16, making stops in Mediterranean ports and landing in Beirut about the second week in October. From there they will travel across the desert and will again be stationed at Amara.

Dr. and Mrs. Wells Thoms and Mrs. Sharon Thoms, who have also completed their furlough in this country and have addressed local audiences on several occasions, will sail at the same time. They will be stationed at Muscat where Dr. Thoms will take the place of Dr. P. Harrison who has arrived on his furlough.

BOARD SELECTS DAVE O'CONNOR EXAMS OFFICER

Former Policeman Will
Give Examinations to
Motorists

Chief Antles Plans to Open
License Bureau Six
Days a Week

To provide employment for former Police Officer David O'Connor, the board of police and fire commissioners at its regular meeting Monday night in the office of City Clerk Oscar Peterson, accepted the recommendation of Police Chief Ira A. Antles and approved O'Connor's appointment as

David O'Connor

examiner for local applicants for driver's license.

Since O'Connor's removal a few months ago because of ill health, appeals had been made to the board and to common council to provide O'Connor with some kind of work but up to the present time there had been no job available for him.

Chief Antles said the examinations become "more technical" from time to time but he believed O'Connor could handle the job "if he applies himself."

Under present arrangements, applicants can take their examinations only on Thursday and Friday of each week. It was the suggestion of Chief Antles that with O'Connor's appointment the examinations could be offered six days each week. He suggested that the hours be from 8:30 a.m. until 5:30 or 6 p.m.

The police chief said he would like to divorce the examinations from the regular police work as the department is handicapped on Thursdays and Fridays when an officer is required to give the examinations.

He also reported that with licenses costing \$1.25, many persons wait until their present licenses expire before making application for new ones.

Chief Antles said he had conferred with a state official recently and was advised that it will not be necessary to reinstate O'Connor as a full-time officer to make him eligible to conduct the examinations but that he can be given a rating of special policeman.

The chief also said he was advised that refunds which the city receives from the state in conducting these examinations could be used to apply towards O'Connor's salary.

He also pointed out that the sheriff's department sends an officer here each Monday to conduct examinations for county applicants and he felt that some arrangements could be made with the sheriff and the board of supervisors whereby examinations could be made available for county applicants during the same days that city residents sought examinations.

"I'm willing to give O'Connor a chance at the job if the board also is willing," said Antles.

The board requested City Clerk Peterson to contact the sheriff's department and the board of supervisors relative to making arrangements for O'Connor to give examinations to county applicants.

Chief Antles said Police Officers Ernest Bear and Harvey Murray could assist O'Connor until he becomes acquainted with the work and that a state representative had promised to come here to render assistance.

Chief Antles also brought out that some of the stop-signs along the state highways in Holland are damaged beyond repair and that 17 new ones would be needed to replace them. He reported that members of the traffic and marking committee had recently viewed some new designs on stop-signs which are equipped with reflectors and cost about \$10 each.

After Clerk Peterson had reported that the state highway department has included \$60 in its budget for signs along trunklines in Holland, the board requested the clerk to write the department to learn whether more money could be made available.

Police Officer Isaac De Kraker who recently joined the force was present and was introduced to board members. His path of office also was filed with the board and he was placed on six months' probation. De Kraker said he appreciated the job and will fill it to the best of his ability.

Fire Chief Cornelius Blom, Jr., was instructed to send a bill to G. Matman in Fillmore township for the work of the fire department in responding to a recent alarm to extinguish a roof fire. Since the city has no agreement

with the Fillmore township board, guaranteeing payment for all alarms answered, Chief Blom asked what he should do about the bill.

The board also approved the sending of Police Officer James Spruit with expenses paid to Kalamazoo to attend the state conference of the Michigan Association of Weights and Measures Officials to be held Aug. 8, 9, 10 and 11. Clerk Peterson presented a letter from Marion Fowler, association secretary, urging Holland to send a representative to the conference.

After De Kraker had expressed belief that the department should be equipped with first aid kits, Chairman Andrew Hyma said he felt each motorcycle and police cruiser should have one, this requiring five. He pointed out that such kits are obtainable at a cost of \$5 each and referred the matter to the committee on equipment with a request that it report at the next meeting.

Justice of Peace Raymond L. Smith reported collection of officers' fees of \$14.10 and Gerrit W. Kooyers reported collection of 80 cents for June.

G.R. STOLEN AUTO LOCATED IN DITCH

An automobile, owned by William Johnson of Grand Rapids, which was stolen Friday afternoon from the Grand Rapids airport, was found abandoned in a ditch at the intersection of East 16th St. and the Waverly road, Friday night.

Bert Westenbroek of Holland notified Deputy Sheriff William Van Etta that the car was in the ditch. A call to Grand Rapids police revealed that the car had been stolen. Johnson came here Saturday to claim his car.

Two boys were seen to have left the car after it ran into the ditch and then went to M-21 where they hitchhiked to Grand Rapids. The car was run into the ditch about 8 p.m., Friday, Officer Van Etta said.

Van Etta said that Delbert Goodhart, West 21st St., picked up the two youths and took them to Grand Rapids but he did not know at the time that they had stolen a car. They told Goodhart where they lived in Grand Rapids but the Fulton St. address revealed no one by that name.

A description of the two youths has been given to the Kent county sheriff by Officer Van Etta.
