Two signals will be sounded during the test. The first is an alert signal, used for local disasters, with three to five minutes of steady tone; and the second is the attack warning signal, used in the case of an actual attack on the country, with three to five minutes of wavering tone.

The intermittent tests are held in order to test equipment and acquaint the public with warning procedures.

## Council Tables Wall Question

Following a lengthy discussion, councilmen moved Wednesday night at the regular meeting of City Council in City Hall to table for later consideration a letter from Robert and Anita De Nooyer concerning the removal of a railroad-tie retaining wall built on city property. The question had been tabled at an earlier meeting in order that possible adverse effects of erosion due to removal of the wall could be studied.

Speaking in favor of removal of at least a portion of the structure were Fred Wise, 663 Lugers Rd., and Russ Homkes of the Holland Fish and Game Club. Both stated that with present conditions there is inadequate area in the public access to facilitate maneuvering of cars, boats and trailers. A motion to remove 24 feet of the ties was defeated by voice vote.

Council approved a proposal to rezone approximately 22.6 acres of land north of 16th St. and extending 985 feet north, bounded on the east by the west line of Hope Ave. and on the west by a line about 315 feet east of Waverly Rd. from A-O residential to A-3 residential.

A gift of \$250 from the Fraternal Order of Police to the Police Department was accepted with thanks.

An oath of office was filed for Dr. S. W. Kuiper to the Hospital Board, and Calvin Hulst was named to the Zoning Board of Appeals.

Council received a communication from Deputy City Attorney William Coupe announcing his resignation effective July 31 so that he can establish a private practice. Council accepted the resignation and wished Coupe well.

Among petitions received was a letter addressed to the Planning Commission from neighbors in the area of the proposed extension of Grandridge Ct., expressing their approval. Harison Gregg, owner of the land involved in the proposed extension and cul de sac across BPW property, expressed appreciation to those neighbors who approved his plan and stated that some arrangements would also be made in an attempt to satisfy area property owners who don't agree with the plan.

A Board of Public Works report requesting full use of city water for processing, fire protection and drinking for Chemtron Corp., was tabled until the Aug. 4 meeting. Jerry Cunningham, vice president of the pigments division at Chemtron, said the firm needs city water for the successful implementation of new processes being planned. He said the company would not use more than 300,000

**TOP HONORS** — Airmen First Class Gregg A. Hiller, son of Mr. and Mrs. Arthur E. Hiller, 2061 Rosewood St., is a member of the Luke Air Force Base, Arizona, organization that has earned top honors for having the best munitions safety record in the Tactical Air Command (TAC). Airmen Hiller is a munitions maintenance specialist with the 58th Tactical Fighter Training Wing. The Unit has received the command's Explosive Safety Award for outstanding performance during the past year. Airmen Hiller, a 1968 graduate of Hudsonville High School, attended Grand Valley State College in Allendale.

gallons of water per day and that the new processes could not be realized without the water.

The request petitioned council to furnish the water at a cost of 200 per cent of the city rate.

Councilmen pointed out that in previous requests of this nature, Council had set forth a policy whereby the petitioner was made an "honorary citizen" of the city and, with acceptance of city water, was required to pay municipal taxes.

Councilmen remarked that the 200 per cent price is expensive, but that paying the taxes would be prohibitive and that the firm would have to consider the new proposal. Mayor Lamb advised Chemtron to contact Holland township on the matter because, while the city is willing to sell water to the township, it does not want to infringe on township affairs and powers.

Council approved a request from Moor Shoes, 11 East Eighth St., to construct a canopy, not to exceed 36 inches, into the right of way and well above the height of pedestrian traffic. The firm plans to replace its overhanging sign with one flush with the building.

A request from merchants on Eighth St., between College and Columbia Aves., for increased parking facilities was referred to the city manager.

A request from C. T. Vermurken, 1351 Bay View Ave., for permission to receive sanitary sewer service by installation of a capped Y-sewer pipe on the stub leading from the left station located on Shoshone Walk in the We-Gue-Nau-Bing Lagoona area was approved. Vermurken also asked that he be allowed to pay for the service over a 10-year period and was told that as long as he is not in the special assessment area such an arrangement would require a contract.

Council approved an agreement with HAZAH with future revisions possible so that the group could meet a closing date and keep its program in operation.

Council scheduled a special hearing Aug. 20 at 7 p.m. in Council Chambers to discuss discontinuance of the city parking lot east of the Police Department on Eighth St. City Manager William Bopf pointed out that with plans for the construction of the new police facility on Eighth St., Ottawa county will construct its new District Court building immediately east of the city structure and it will be necessary to discontinue parking in the lot.

According to Bopf, the parking lot was developed under special assessment procedures and he recommended that the assessable portion of the lot be returned to the property owners involved in view that it will be discontinued and subsequently sold to the county. The special assessment roll will be revised at the hearing.

In another recommendation, Bopf suggested that the Allegan County Road Commission be authorized to pave the city's portion of Myrtle Ave., from the south city limits north to the existing blacktop portion near 32nd St., under the supervision of City Engineer Harold Derks. Council approved the recommendation.

A recommendation that 10 per cent of the monies allocated to the Major Street Fund be transferred to local streets for their construction and maintenance was approved by council and the question of use of boat docking facilities at Kollen Park was tabled until the next regular meeting.

Council accepted as information a tabulation of the ballots collected at the parking meeting July 14 and indicated that the next several weeks will be directed toward attempting to develop a system and that fur-

## TOLERATING INCONVENIENCE

The remodeling of Douglas  
Avenue has been a matter of  
considerable inconvenience for  
commuters from the northwest  
of town, to people getting to  
the lake to spend a few leisure  
hours, and businesses along the  
route. It upsets the schedules  
of commuters, interferes with  
the pleasure of vacationers and  
cuts down customers in busi-  
ness places whose peak weeks  
occur during the summer.

All of these people have good  
reasons why the job should be  
done at some other time or in  
a different manner. From their  
individual points of view any  
procedure other than the one  
employed would seem prefera-  
ble.

The fact of the matter is,  
however, that doing the job in  
the summer when weather con-  
ditions are best for the kind of  
work being done really makes  
it possible for the work to be  
completed in less time and with  
better results. Early in the year  
or late in the year, for that  
matter, the incessant rains and  
the cold temperatures are like-  
ly to interfere with the pro-  
gress of the job, extend it over  
a longer period and make it an  
inferior piece of work.

Ordinary people have their  
reasons for feeling as they do,  
but the engineers in charge have  
reasons which are perhaps sound-  
er than those of folk who  
consider only their own con-  
venience. And so, perhaps, we  
inconvenienced people should  
accept the judgment of the road  
contractors, put up gracefully  
with the inconvenience and just  
accept the fact that there are  
perfectly good reasons why we  
can't have this thing done just  
according to our own prefer-  
ences. Usually, if we look at  
the other side of a problem,  
we will see that there is some  
good logic there, too.

We would suggest that longer  
hours six days a week could  
help expedite the work. The  
work on the highway between  
Zeeland and Jenison could also  
stand the same operation.

## Grand Haven Girl Escapes Drowning

GRAND HAVEN — Peggy  
Ray, 15, daughter of Mr. and  
Mrs. Leva Ray of Grand Haven,  
was admitted overnight at  
North Ottawa Community Hospi-  
tal Tuesday for observation  
following her near-drowning at  
2:45 p.m.

According to Michigan State  
Police, Peggy was swimming in  
Pottawatomie Bayou just  
east of Camp Pottawatomie on  
Mercury Dr., south of Grand  
Haven, with her brother, David,  
and John Parsons, also of  
Grand Haven, when she be-  
came exhausted and drifted  
away from the boys.

Two unidentified men helped  
the youths pull Peggy from the  
water when they noticed her  
floating face down, and Phil  
Schulze of Spring Lake, direc-  
tor of Camp Pottawatomie, ad-  
ministered mouth-to-mouth re-  
suscitation. She was taken by  
ambulance to the hospital.

According to the witnesses,  
Peggy was blue and was not  
breathing when she was taken  
from the water.

## Sunday School Lesson

Sunday, July 25  
Why the Family?  
Genesis 1:26-31; 2:18-25  
By C. P. Dame

The family is being attacked  
today. It is said that one out of  
four marriages end in divorce  
and, in addition, some couples  
stay together fighting and quar-  
reling and evidently get used to  
it. Today the truth that God  
created man and established  
marriage deserves to be taught  
strongly.

I, God created man, hence  
man is made in the image of  
God. The next three lessons deal  
with the home.

After God had created the  
universe He said, "Let us make  
man" (Gen. 1:26). Man did not  
evolve, God created him, gave  
him a mind so that he could  
think the thoughts of God, gave  
him reasoning powers and hence  
he can distinguish between right  
and wrong, and gave him do-  
minion over all creation. Wide  
is the gap between man and the  
rest of creation.

"Male and female created He  
them." God created two kinds  
of people, both are sexual. Sex  
is of God and the Bible honestly  
and frankly teaches about sex.  
God blessed the couple and said,  
"Be fruitful and multiply and  
replenish the earth. A family  
is meant to reproduce.

God ordered man to use his  
powers to control creation, but  
more and more man is using  
the powers of nature for his  
own advantage. Unfortunately,  
the powers can be used to build  
and to destroy.

God also made ample provision  
for man's sustenance. "Be-  
hold, I have given you every  
herb bearing seed.... it shall  
be for meat." The provision  
for meat and animal food  
came later. "And God saw  
everything that He had made,  
and behold it was very good." There was not a flaw in the  
creation.

II. God established marriage.  
God first created Adam. He  
gave "names to all cattle, and  
to every beast of the field; but  
for Adam there was not found  
an helpmeet for him," and so  
God took a rib from Adam and  
from it He made a woman and  
brought her to the man to be  
his companion — not his slave  
nor his sovereign, but one equal  
to him, different and comple-  
mentary, completing what was  
lacking in him.

God planted in men and wom-  
en sex urges which are meant  
to be satisfied within the mar-  
riage relationship. The words  
"they shall be one flesh" refer  
to a sexual union of two peo-  
ple, a man and a woman, who-  
ly committed to each other. Sex  
must be an expression of a lov-  
ing relationship. Neither the  
man nor the woman should de-  
fracture the other of a sexual  
union — always within the mar-  
riage relationship.

Trial marriage, marriage by  
contract for several years, pre-  
marital sex, adulterous affairs,  
fornication, the new morality  
are all forbidden by God and  
often lead to frustration and  
unhappiness. In this permissive  
age let all realize that God or-  
dained marriage and gave rules  
for its success.

## Dutch Visitors See First Klompen Dancers Here

A group of 17 students from the Agricultural College, Leeuwarden, Netherlands touring the U.S.A., visited Holland early this week. Their three-month study tour was arranged by the Association for World Travel Exchange New York, and in Holland in conjunction with the Netherlands Information Service, William Wichers, director.

The students arrived at the YMCA and Dr. Elton Bruins of Hope College gave them a brief historical sketch on the founding of Holland and other towns notably Zeeland, Vriesland, Overisel, and Drenthe by the late Dr. Van Raalte and Dutch immigrants.

Dr. J. J. De Valois, retired agricultural missionary to India, and the Dutch Information

Service had arranged for a dozen volunteer host families in the Holland, Hamilton and Zeeland area and with Richard Machiele, director of the Michigan State University Extension Service arranged a tour of agricultural interest. This included the De Bruyn produce plant, Byron Center and a number of poultry, turkey, celery, blueberry and Christmas tree farms for all of which Ottawa County is noted.

They toured the Hamilton Farm Bureau Cooperative, the 3,000 daily bird turkey processing plant in Borculo and the "Big Dutchman" in Zeeland whose branch plants in the Netherlands, were known by some of the men.

## Grounds Are Readied For County Fair

Workmen have been busy during the past weeks painting, repairing and cleaning all the buildings at the Ottawa County fairgrounds on Ottawa Beach Rd. in preparation for the fair's opening Monday. Final touches are being completed so that tents, rides and equipment can begin to move in.

The entrance roadway has been paved and the grandstand, stage and buildings have been painted white with red trim.

The racetrack has been resurveyed for exact measurement and perfect arc on the turns and a new inner hub rail has been installed. Over 2,000 yards of clay were added to the track and a layer of torpedo sand was applied after grading. The track now rates as one of the finest county fair tracks in the country and officials expect track records to be set this year.

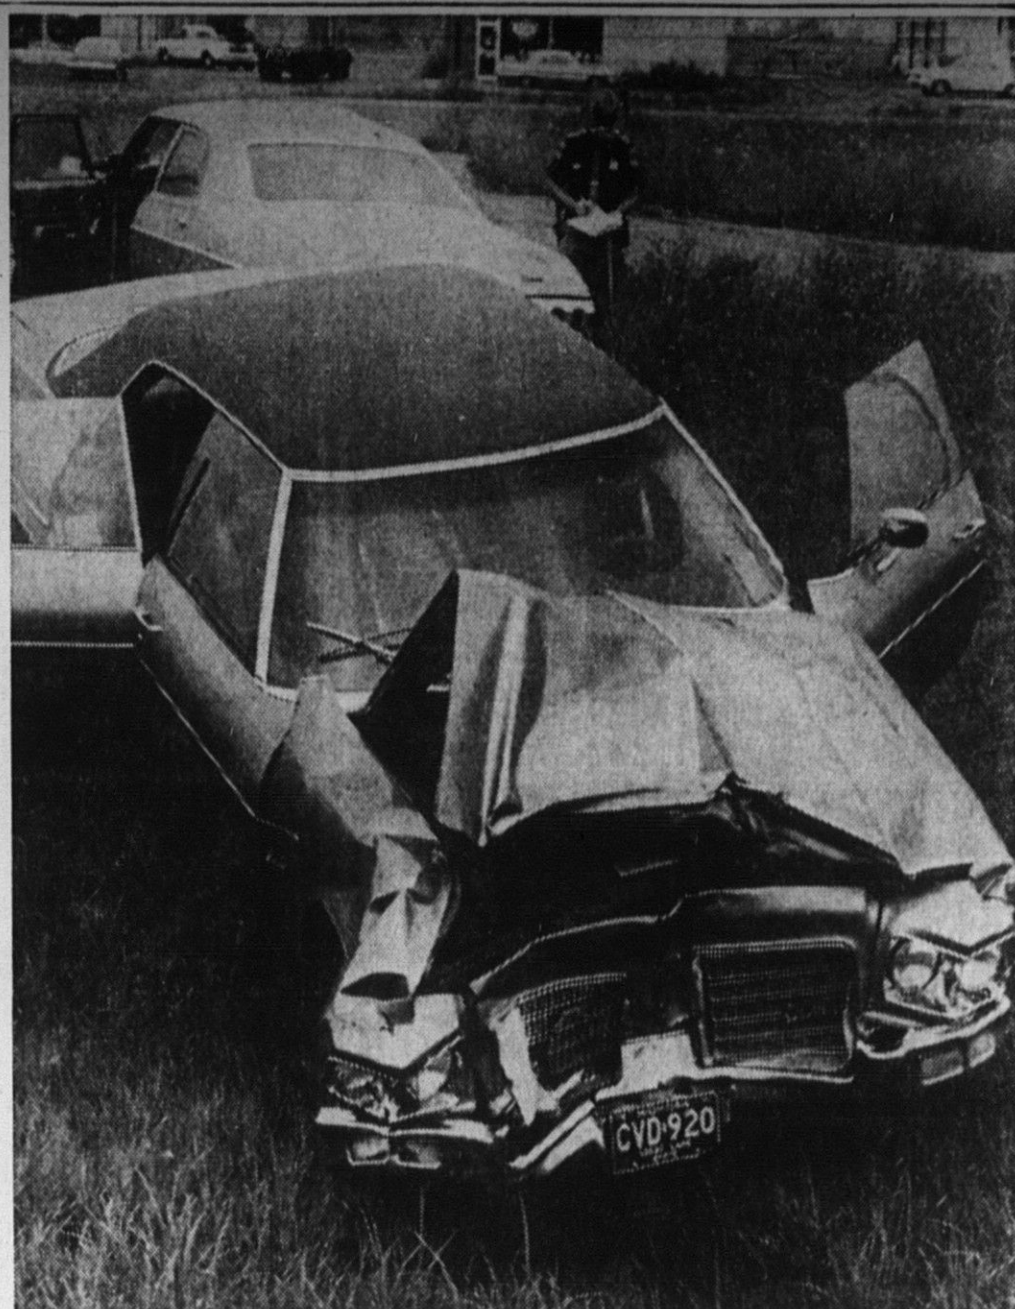

Cliff Stekete, fair manager, reports that all available commercial space has been said and that livestock entries will tax capacity.

Two departments which still have exhibit space are crops and vegetables under the supervision of Abel Kuysers and home economics under Mrs. Julius Cook. Mrs. Cook, who also heads the creative hobbies division and the booth and club exhibits, says there is room in both.

The fine arts department is headed by Mrs. Donald Ladewig and Mrs. Leonard Dick is in charge of the horticulture department flower show.

Cash awards and ribbons are awarded in all divisions at the fair and winners are eligible to enter their work at the Michigan State Fair.
