—DENTIST—

Call on—

Dr. A. Lambert,

Cor. 8th and River Sts., above Holland
City State Bank.

Will Kellogg has a number of good
horses in training at the track on the
fair grounds.

Albert Kamferbeek had his thumb
of his right hand badly crushed be-
tween two boats on Wednesday.

The question of having a gas plant
in Holland is still being agitated
quite freely. In these days of ad-
vanced electrical ideas it is a question
whether gas is needed or not.

There were prayers and fervent ones
too in most all of the Holland church-
es last Sunday for rain. The farmers
crops are being effected very seriously
and about a three days rain will be ap-
preciated.

One of the boys who pulls the wil-
low for the life saving crew (Mr. Skin-
ner) has a Pelican mounted which will
be raffled off this week. It is a rare
specimen and valuable enough to add
to most any collection.

Michigan printers will be benefited
by the postoffice ruling that all un-
called for letters will be held thirty
days unless specified instructions to
the contrary are printed on the en-
velope.

One of the pleasing entertainers at
Ottawa Beach this season is Mrs.
Sherwood Hall of Grand Rapids. The
members of the executive committee
of the Ladies Literary club were her
guests one afternoon this week.

Allegan county people are making
great preparations for their coming
harvest festival, which will be held at
Allegan, August 7, under the auspices
of the county agricultural society,
and promises to be the largest gather-
ing ever assembled in that village.

St. Clair surpassed the horsemen at
Detroit on Monday by running a two
thousand dollar purse in three
straight heats the time of each heat
being 2:04. St. Clair is an Ottawa
County horse and has been showing
some good speed on the Michigan
tracks this season.

Among those who are spending the
heated term at Ottawa Beach can be
mentioned Mrs. G. M. Luce nee Miss
Saddle Howard. She is the guest of
Mrs. Charles A. Luce at her cottage.
Mrs. Luce is here looking after her
real estate interests in the estate of
the late Manly D. Howard, and Mr.
Luce who is now in Texas will be here
about the middle of August.

C. F. Pritchard of Decatur, Mich.,
a man of practical experience as a
plano repairer and tuner, intends mov-
ing from Decatur to Holland where he
has engaged rooms over Meyer's Music
store on River street. In consequence
of this change in location Mr. Prit-
chard will have to defer his July work
here until August.

In this issue will be found an ad
from our Dry Goods merchant John
Vandersluis sent in from New Mexico
where he and Mr. A. Visscher are at
present sight seeing. John still has
an eye to business and calls attention
to his new stock of Dry Goods. You
can save money by giving him a call.
Misses Lena De Pree and Mary Kar-
sen have charge of his business during
his absence.

Tuesday was the date of the weekly
shoot of the Blue Rock Gun club at
the fair grounds. The score at twenty-
five single birds stood: Wm. Thom-
as 18, P. Dulyea 14, C. Harmon 17, A.
Cady 13, Geo. Bender 16, Chambers 14,
A. G. Baumgartel 16, C. Davis 16. At
ten single birds Cady scored 7, Bender
8, Baumgartel 8, and darkness over-
took the shooters before the tie could
be settled up.

The Detroit Tribune of a recent date
has quite a write up about Holland
and its substantial business firms. In
speaking of the City Hotel, it says: It
has long been recognized as the only
first-class house of Holland, and has
always been in high favor, especially
with the commercial trade, and the
genial host, W. R. Billings, is making
it the best conducted and appointed
hotel in Michigan.

A dispatch to the Grand Rapids
Herald says: The shipment of peaches
from Saugatuck on Monday was a
record breaker. The total amount
going by boat to the Chicago and Mil-
waukee market being 23,000 baskets.
This is all the more phenomenal
when it is taken into consideration
that when the first shipment of
peaches for the season was made on
the 14th inst. Never before in the
history of the peach business here have
the shipments of July aggregated so
much as one-half of to-night's ship-
ment. The cause of this is the exces-
sive hot and dry weather, which has
caused the early peaches to ripen in a
bunch. The fruit is small, but in
other respects is excellent. It is
feared the shipments for the rest of
the week will exceed the capacity of
the boats.

There was just about rain enough
Wednesday morning to wet the side-
walks and settle the dust.

Owing to the light crops of hay
quite a number are cutting grass on
the marsh north of town. The hay is
better than none at all.

The outlook is favorable for a new
hotel in Holland, and it will probably
be built between now and the first of
April. The location is about settled
upon.

We see by a recent copy of the Oil
Refiner published at Florence, Colo-
rado, that W. H. Rogers formerly edi-
tor of the News is there looking after
the interests of the Sioux City News-
paper Union.

Cornelius Van Loo of Zeeland has
been appointed to represent the 28th
Michigan Infantry at the dedication
of Michigan monuments on the battle-
fields of Lookout Mountain, Mission-
ary Ridge and Chicamauga.

Mr. A. W. Cosgrove is superinten-
ding the laying of the new water
mains and driving the test wells for
the water works. He only a short
time ago fulfilled a contract for some
extensive work at Pentwater.

George N. Williams and wife re-
turned from Reed City and other
Northern Michigan points on Satur-
day. The News learns that he will
engage in the hotel business there and
is figuring on the lease for a well estab-
lished and popular house.

The trolley car scheme is still being
discussed and if the franchise to city
streets can be obtained the prospects
are favorable for a line down the south
side of the bay next season. Such a
project would be beneficial to Holland
merchants as it would bring lots of
trade from the resorts.

The steamer City of Chicago which
was to have brought a large excursion
from Chicago and St. Joseph last Mon-
day but was prevented from coming
on account of the high wind that pre-
vailed is now booked to come next
Monday if the weather is favorable.

The body of Mrs. Pierce was ex-
humed the other day at Berlin in
order to give her two daughters a
chance to see her face. They were
not in the county at the time when
the murder was committed. The the-
ory now seems to be that Mary Pierce
had about as much to do with the
crime as young Cheesbro.

The board of public works are ex-
tending mains connecting with 25 or
30 new drive wells now being put
down. On account of continued
drouth, water is greatly needed for
domestic use. The pump house and
electric light building are also being
enlarged and in a few days will re-
ceive additional pumps and machinery
and more dynamos.

John Labezo, the young man who
was adjudged insane and was to be
sent to the asylum at Kalamazoo, last
week, died Sunday morning at the age
of 19 years. He was a muscular and
active young man and many of his
friends and acquaintances are rather
mystified at his sudden demise. The
funeral which took place on Tuesday
was largely attended by friends of the
family and those with whom he was
employed in the tannery.

The sidewheeler City of Chicago of
the Graham & Morton line did not
come to this port on Monday as ad-
vertised. There was a choppy sea and a
strong wind from the northwest dur-
ing the greater part of the day which
prevented the boat from making the
trip. The News is informed that a
large crowd left Chicago with the ex-
pectation of coming here for a days
outing.

In connection with the recent
elopement of S. B. Castle from Muske-
gon, the Allegan Democrat says: He
is very intelligent and was rapidly ad-
vancing in railway circles. He was
backed by the general superintendent
of the C. & W. M. railway, and his pro-
motion over the older men in the ser-
vice caused jealousy among them.
Friends here can not account for his
foolish and unwarrantable action.
Mrs. Castle and son visited Mr. Castle
at Muskegon occasionally and were
there about two weeks ago. They re-
ported him well and happy then, and
that Mrs. Castle did not suspect her
husband of infidelity was very appar-
ent from her manner. No word of re-
proach was ever heard against her
character here, nor his before. He
had a lucrative position, receiving \$120
per month, and his prospects for be-
coming a railroad man of influence and
importance were bright. How he
could throw all these behind and leave
a loving wife and affectionate son for
the life he must hereafter lead are
things his friends can not explain.

rule they return home well supplied
with peaches and other fruit.

There was an exciting game of ball
on Wednesday between the Grand Ha-

score standing 7 to 0.

The Furniture City Electric Co. of
Grand Rapids, this past week has put
electric light's into John De Graat's
cottage, H. W. Perry's "Eagle Nest,"
and Idema's "Sunset View."

The steamer Soo City carried a large
crowd of excursionists from Holland
and the resorts to Hackley Park and
Muskegon on Thursday. The day was
in every respect a favorable one and
the 600 or more who participated
seemed to enjoy themselves.

Some apprehension was felt this
week in regard to the schooner Wan-
der which left Chicago last week with
a cargo of wheat for the Walsh-De
Roo Milling Co. Vesselsmen seem to
think that she has only encountered
head winds as there have been no
gales or high seas to delay her.

A commercial man who travels
from New York to San Francisco and
from Jacksonville, Florida, to Winni-
peg, Manitoba, said the other day,
that he did not know of a more wide
awake, or progressive town for its size
than Holland. "There isn't another
city like it in Michigan and I have no
hesitancy in saying so."

Mrs. Mary A. Osborne lost consid-
erable property last week on account of
forest fires. She had a 40 acre tract
of hay land burned over, a patch of
rye destroyed and some fences burned
also the runway of a saw mill. It was
only through the active efforts of the
family that the house and other out-
buildings were saved. The loss as a
whole will amount close to \$500.

In a communication received from
John Vandersluis dated Eddy, New
Mexico, he writes that he and Prose,
cutting Attorney Arend Visscher are
having a good time. They have been
in two wash-outs and in one instance
had to go over a ten mile piece of
track, that was two feet under water.
They next go to Colorado and take in
the grand scenic features of that
state.

In the Far West.

A HOLLAND BOY RELATES HIS EXPERIENCES.

Friends and relatives of Mr. White Doesburg may be interested in hearing from him indirectly.

The following is an extract from a letter from him bearing date July 3rd, 1895, and gives some account of his whereabouts, and life in the west, where he is practising law. Mr. Doesburg was born and raised in Holland City, and his father was editor of the News for a number of years.

"A few days since, I was handed a bundle of accumulated correspondence by my postmaster, the largest by far of any, I have received at one time. It was a curious combination of business and social letters, cards, circulars and papers. The anxiety of some of my friends and correspondents, over the fact of my silence is as amusing as it is flattering. While their imagination have been running loosely toward Indian massacres, and the sacrifice of young and innocent(?) blood in the wilds of western America. I was enjoying a most novel and delightful journey of eleven hundred miles, in a prairie schooner so-called. How the name "prairie schooner" originated is unknown to the writer, but there can be no doubt, that it is most appropriate and significant. Any person who has lived upon the great deep or the lakes, or along the shores of either, must acknowledge the striking similarity of the canvass covered wagon moving slowly over the green rolling prairies, to the appearance of the real schooner, and like the real ones too, these afford all the necessities of life, food and shelter, transportation, danger and a variety of scenery.

Prior to the advent of railroads, in the far west, the "prairie schooners" afforded the general, if not all, means of transportation over land and the sight of these is not uncommon to-day to persons familiar with life in the west. By the term "west" I wish to designate that greater area of the United States, west of the Mississippi River seemingly unknown to the distinguished gentlemen from New York who bore the dangers of these wild inhabitants, of the region demanding silver legislation as far as Detroit, and returned home laden with information and counsel concerning the "decline of silver sentiment in the west."

With a strong team of horses, a faithful dog "Carlo," and a large canvass covered wagon laden with blankets, wearing apparel, food, cooking utensils, arms, ammunition and many other articles such as might be required upon a two months journey into "a country where nobody lives and dogs bark at strangers," three jolly companions, of which the writer had the good fortune to be one, started in the early spring from the rushing waters of the Arkansas, in Freemont county, Col. We round our way leisurely in a southwestern direction over hills and mountain ranges, fertile valleys, barren deserts, through rugged canons and charms, over rivers and streams, of all sizes, through "booming" mining camps and deserted villages, Indian "Pueblos" and Mexican "Plazas," yesterday we were upon the mountains in regions of eternal snow; to-day we are in a luxuriant valley of perpetual summer. We met no serious accidents, no climatic obstacles, save a severe snow storm at the summit of a pass over the Sangre de Cristo range in Hurlfano county, Col. at an altitude of ninety five hundred feet above the sea level, which delayed us for a few days. To recount the many scenes of mountain grandeur, the magnificent valleys stretching away beyond our right, the mode of life, of a semi-civilized people, and curious experiences with the Indians and Mexicans, the sport of the hunt and fish, the camp life and a thousand other incidents such a journey is naturally heir to, is not my purpose to attempt, is a subject for books and magazine articles and not a letter, and must be left to a more observing eye, retentive memory and able pen. My knowledge of the Mexican dialect meager as it is, caused me to be appointed interpreter for the party, and the advantage of that duty was not as one-sided as might be supposed as an instance of this I might sight the occurrence at Espanola, a small town, on the Rio Grande near Santa Fe in New Mexico. Here we met a most charming "Senorita" with whom one of the party proceeded to fall in love. But I guess you do not care about that, and I would rather leave it out. Our last camp was made in southwestern Arizona on the desert along the banks of the great muddy Colorado which forms the boundary line, between the last named territory and the state of California. Business matters necessitated my return to Colorado.

OUR NEIGHBORS.

Osborn & Ogden have finished another job of sawing near the Aussecker house, and are set and ready for sawing on the Woodruff lot.

Harvey Nichols of Alamo is visiting relatives and friends here.

Mrs. Osborn had her saw mill burn up one day last week. Her son took the engine out a day or so before to use for threshing, and at the time the fire was a short distance away, and it must have been through carelessness that the saw and belt was left to burn.

Mrs. Chapman of Kalamazoo visited relatives and friends here the last two weeks. She returned home on Saturday.

Mrs. Scott has moved back on her farm, from Grand Haven.

Mrs. Eliza Lawrence died and was buried two weeks ago. She left a family of three small children, and a husband, besides a host of relatives and friends to mourn her loss. Mr. Wilder preached the funeral sermon, and she was buried near the M. E. church.

Geo. Davis and family have moved back from Chicago.

West Olive.

This place came very near being wiped out by fire Monday morning. Fires have been seen around for some time in every direction but were far enough away so that no danger was apprehended until Sunday eve when it began to close in from the north, and before morning it was within a hundred rods of the village running in the dry June grass before quite a brisk wind, but by the heroic efforts of the village people it was checked. Several hundred acres of old slushing north of here has burnt over; but thus far aside from some timber and fences no great damage has been done, but there have been some badly scared people just the same.

Threshing is progressing nicely and grain is turning out fairly well, many fields yielding better than was expected.

Corn and potatoes are suffering for rain and pasture there is none.

Poor people are cutting marsh grass and wild rice along the river to keep their stock alive.

Fay Norton has been at Glenn Harbor for a week with friends.

Mr. and Mrs. J. F. Joscelyn of Robinson were over Sunday calling on friends here.

Jozetta Gokey is spending a few days at Pentwater visiting friends.

S. Mountford gets out a little on crutches but is abed most of the time.

Old Mrs. Brown is quite feeble though is some better than a week ago.

Those young people who go down the river to the lake Sunday after noons and get lost in scare valley bayou, had better come home a little earlier, or else take a pilot along next time.

Grand Haven.

The sloop Lucy B., on her way from St. Joseph to Trenton, N. J. is in port. She was built in St. Joe and going to the seaboard.

As at present organized the ball team bearing the Grand Haven uniform is said to be the best they ever had. They are rounding to in team work.

A prominent wheelman of this city estimates that Grand Haven and Spring Lake have at present at least 100 bicycles.

Grand River is two and one half feet lower at this point than last year.

Dan J. Murray the Lamont postoffice robber has been released from the county jail, having served his time in default of \$100 fine.

The city band, after an existence of a number of years is about to disband and the members will sell their instruments. This action is forced upon the band by the lack of patronage and the small interest shown.

Sheriff Keppel has filed with the secretary of state his annual report. The report shows that the number of prisoners in jail on July 1 was 6. Whole number confined the past year 197, of which only two were females. There were sixteen in for high crimes.

They are so progressive at Grand Haven that they actually have a woman cyclist who wears bloomers.

Ed Cummings rode to Macatawa Park along the beach on his wheel Tuesday making the trip in an hour and 45 minutes. The beach was fine for cycling. At Pigeon Creek there was very little water but Pigeon river contained several feet.

Allegan County.

The Allegan township public library has been enlarged by the addition of 135 new volumes, which are now ready for use by patrons. Messrs. Barnes and Perry, the school inspectors, went to Grand Rapids and made the selection and purchase. The average cost per volume was sixty-eight cents.

Dr. W. H. Gunn, who was for a time a resident of Allegan, and was sent to state prison from Montcalm county for felonious assault on a young girl, tried to commit suicide in his cell. With a small pen knife he severed an artery in his left shoulder and cut his throat.

So far as we know every peach grower is taking out his yellow trees as fast as the disease develops. It has been proved beyond question that it is the only safe course to pursue. In orchards where yellow trees were allowed to stand over from last year the disease is showing up this year more than ever. On the other hand, in orchards where the infected trees were unscrupulously removed last year, providing no adjacent orchard was neglected, the contagion is no worse and in many not so bad as last year.—Commercial.

There have been over a thousand calves shipped by boat from Saugatuck to Chicago so far this season.

Zeeland.

The storm of last Tuesday night was probably the worst that has been experienced in this vicinity in many years. Although no great amount of damage was done here, a number of our citizens were frightened, and the patrol on our streets was larger than usual. No one seemed to care to go to bed with the expectation of a fire alarm arousing them.—Enterprise.

Mr. John Everhard is rapidly recovering from the unfortunate accident on the Fourth whereby his collar bone was broken. He is able to get around but it will be some time yet before he will be able to do any work.

A number of Zeeland wheelmen went to Macatawa Park on their wheels last Sunday.

An old settler's re-union will be held in Zeeland Aug. 22. The program of this interesting event will soon be issued.

FATAL WINDSTORM.

Destruction Wrought at St. Clair, Mich., by a Cyclone.

ST. CLAIR, Mich., July 22.—A fatal wind storm, accompanied by a heavy rainfall, burst upon this city soon after 1 o'clock Friday afternoon. For several weeks prayers had been offered in this vicinity for rain. The storm was cyclonic in fury, and before it had spent itself a child had been killed, two men injured and much property destroyed. The city hall was partly demolished, hundreds of trees were blown down, roofs were taken off buildings by the dozen, two large craft were blown aground in the river and general confusion reigned.

The 11-month-old child of Elmer E. Black was killed instantly by the overturning by the wind of the Black home. There were four other children in the house at the time but they escaped without a scratch. The children were alone in the house.

The horse of Joseph Dam was blown into the river and in attempting to rescue it Mr. Dam sustained injuries that are serious. A horse of Julius Belknap was also blown into the river, together with a shed which the wind took a fancy to set down in Pine river. Joseph Goulait, a workman at Belknap's brickyard was injured by a flying brick. A large chimney at Sheldon's brick yard was blown to the ground. The tower and chimneys of the city hall were blown down and part of the roof was blown into the next yard. The roof was torn off the Hotel Cadillac. A liberty pole now stands upside down through the roof of one of the largest store buildings in the city.

HEAVY SHIPMENT OF PEACHES.

Twenty-Three Thousand Baskets Leave a Single Michigan Port.

SAUGATUCK, July 23.—The shipment of peaches from this place Monday night is a record breaker, the total amount going by boat to the Chicago and Milwaukee markets being 23,000 baskets. This is more phenomenal when it is taken into consideration that the first shipment of peaches for the season occurred July 14. Never before in the history of the peach business here have the shipments of July aggregated as much as one-half of Monday night's shipment. The cause for this is that the excessive hot and dry weather has caused the early peaches to ripen in a bunch. The fruit is small, but in other respects excellent. It is feared the shipments for the balance of the week will exceed the capacity of the boats.

FOUND GUILTY.

A STRANGE OFFER.

MARQUETTE, Mich., July 24.—The demonstration of striking iron miners Monday was greater than ever. A written proposition was submitted to the strikers by the owners of the Winthrop mine offering to surrender lease of mine and pay an additional \$4,000 as bonus if the strikers will take the mine and work it themselves. This strange proposal was intended to convince the strikers that even at the present low wages the mine is losing money and owners would be glad to get it off their hands. YOUNG SPIRITS.

a vigorous body and robust strength follow good health. But all fall when the vital powers are weakened. Nervous debility and loss of manly power result from bad habits, contracted by the young through ignorance of their ruinous consequences. Low spirits, melancholia, impaired memory, morose or irritable temper, fear of impending calamity and a thousand and one derangements of body and mind, result from such pernicious practices. All these are permanently cured by improved methods of treatment without the patient leaving home. A medical treatise written in plain but chaste language, treating of the nature, symptoms and curability of such diseases, sent securely sealed in a plain envelope, on receipt of this notice, with ten cents in stamps, for postage. LOOKING BACKWARD.

Look after the Back: A Fall, a Strain, a Constant Sitting or Stooping Position Brings Backache—Do You Know This Means the Kidneys are Affected!

How few people realize when their back begins to ache that it is a warning provided by nature to tell you that the kidneys are not working properly. You have a severe fall, you strain yourself lifting or perhaps you are compelled to maintain a sitting or stooping position for long intervals at a time, your back begins to ache, then your head, you become listless, tired and weary, but do you understand the real cause? We think not, else you would not use plasters and liniment on the back, which only relieve but do not reach the cause. If you would rid yourself of the pain and cure the root of the trouble, at the same time save many years of suffering and perhaps life itself, you will take a kidney remedy that has been tried and proven that it will cure.

Mr. John Robison of 661 Russell Street, Detroit, says: "As a result of exposure during the war I have suffered ever since with rheumatism and kidney trouble. Pains would start in my hip and go around to my back. Highly colored urine denoted kidney disorder. The pain in my back was often so bad I had to give up work until the severity of the attack passed away. I have used many liniments and other things, but received very little relief. Some time ago I started using Doan's Kidney Pills and they have worked a wonderful change in me. My back is all right now and I owe it all to the almost magical influence of Doan's Kidney Pills."

Mr. Robison was a member of the Fifty-first Illinois Regiment, which served through the war with honor and distinction. Doan's Kidney Pills are for sale by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

They Met by Chance.

Maiden Aunt—I hope you did not make any chance acquaintances on the train, Maud?

Miss Maud Brisk—I am sorry to say, auntie, that I sat for a little time in the lap of an Episcopal bishop, and watched a United States senator stand on his head in the lunch basket of a total stranger.

Aunt—Horrors, child! What can you mean?

Maud—It was not premeditated, I assure you, auntie, but when our train collided with another we were so upset by the shock that we were hardly responsible for what we did.—Truth.

Our American Aristocracy.

Jones—Mrs. Vanastorbilk is always talking about blood in connection with that French count who is going to marry her daughter. Is he really of a good family?

Smith—O, yes, splendid family. Jones—I didn't know. She talks so much about blood that I thought perhaps he was a butcher, or his father kept a slaughter house.—Texas Siftings.

Had Her Reasons.

Mrs. Update—I'd like to have a new dress, John.

Mr. Update—Why, you said only yesterday that you didn't need any more dresses this season.

Mrs. Update—I know, but I have just heard that that hateful Mrs. Stuckup would return to town next week.—Philadelphia Record.

The Classes and the Masses.

Doctor—Your ladyship desires me, to prescribe something for you, and yet your coachman informs me that you are in the habit of concocting all kinds of domestic remedies infallible for every sort of complaint!

Countess—Ahl! those are only for the lower orders!—Sprenger's Anzeiger.

Her Way.

"You do not love me?"

"No."

"You hate me?"

"Yes."

"And you will not marry me?"

"Oh, that is an entirely different matter; I'll think it over and let you know to-morrow night."—Brooklyn Eagle.

A New Bond of Sympathy.

Freddy—Mamma, when are you going to let me wear long pants?

Mrs. Bloomer—I don't know, Freddy.

Freddy (ruefully)—Well, I guess you'll know how I feel, and want to wear long pants, too, when you've worn kneepants as long as I have.—Judge.

A Question of Time.

Dimpleton—I was playing poker with my father-in-law last night, and I won all he had.

Dashaway—Was he mad?

Dimpleton—Oh, no; he said I would have gotten it, anyway.—Philadelphia Press.

Her Money's Worth.

Mother—I gave you a penny to be good yesterday, and to-day you are just trying to show how bad you can be.

Willie—Yes, but I am just trying to show you to-day that you got the worth of your money yesterday.—Pearson's Weekly.

It's Astonishing

how Dr. Pierce's Favorite Prescription acts upon nervous women. It's a marvelous remedy for nervous and general debility, Chorea, or St. Vitus's Dance, Insomnia, or Inability to sleep, spasms, convulsions, or "fits," and every like disorder.

Even in cases of insomnia resulting from function derangements, the persistent use of the "Prescription" will, by restoring the natural functions, generally effect a cure.

For women suffering from any chronic "female complaint" or weakness; for women who are run-down or overworked; at the change from girlhood to womanhood; and, later at the critical "change of life"—it is a medicine that safely and certainly built up, strengthens, regulates, and cures.

LAWRENCE KRAMER.

For earach, put a couple of drop of Thomas' Electric Oil on a bit of cotton and place it in the ear. The pain will stop in a few moments. Simple enough, isn't it?

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for anyone that it fails to cure. Send for list of testimonials.
