

## Here Is a Goat Story That Want "Get Your Goat"

W. L. EATON OF WAUKAZOO  
INTRODUCING THE GOAT  
TO THIS COMMUNITY

We have heard of a great many goats. We have met up with them in back alleys, our nostrils have been introduced to them and many of us have ridden them, and we feel that we have been properly introduced to all species and we no doubt feel that a goat is a real "goat-getter." But if your knowledge of goats goes only that far, you don't even know what a real goat is.

The history of the goat goes back as far as the history of man himself. The goat seems to have been one of the first animals to be domesticated. It was found associated with man in the earliest traces of human existence and its place in economic importance is unquestioned. The goat seems to have always been associated with civil-

ized nations. Goats were unknown to the North American Indian but were brought from Europe when the Pilgrims came, and practically the total supply of milk in the pioneer days came from the goat.

Even story writers wrote about goats. Every red-blooded American knows how interesting novelist De Foe pictures the goat in his Robinson Crusoe island and, believe us, according to the story, that boy "Friday" had his hands full milking the herd twice daily.

In European countries the goat holds a high place among the domestic animals but in the United States its value has never been fully realized until the present time and possibly that is the reason why goat's milk is taking such a hold upon the American people today.

W. L. Eaton of Waukazo is introducing the goat to Ottawa and Allegan counties and has a wonderful herd grazing on a 20-acre plot of pasture land on the south-east limits of the city. Although he has nearly a hundred there, some very valuable ones, there's not an odoriferous one among them. They are as sleek and clean and fine-looking as any domesticated animal possibly could be. They're not garbage eaters but graze on the fine grass and shrubbery that this pasture land affords.

Mr. Eaton states that a smelly goat is a neglected one, just the same as a cow, a horse, or a dog would be.

Statistics show that the average cost of keeping a herd of goats over a year is \$35 per goat, that is, providing all the feed must be purchased and that the returns from each goat was \$150 per goat, or \$115 profit from the milk supplied and what is more, the owner still has his goat. If a goat-raiser has pasture land of his own, the cost of feeding is cut down considerably more, but these figures are based on the purchase of the entire food supply.

Goat's milk is now being used largely for tubercular patients because of the richness of the milk. There's no difference in the taste between cow's or goat's milk, other than that the goat's milk is richer. Goat's milk does not carry the germ of tuberculosis as does much of the cow's milk because the goat is practically immune to that disease.

The city of San Francisco has contracted for a daily supply of goat's milk for the exclusive use of "run down" patients and especially those afflicted with tuberculosis.

Mr. Eaton, to whom goat raising is a hobby, has a small library giving a complete history of the goat, its value as a domesticated animal of the world over and its gradual climb against prejudice in America. A glance through that library would be a surprise for one could hardly realize that so much could be written about a goat, but when goat lovers will pay from \$1,000 to \$5,000 for a pair of well-bred goats to bring up the stock it is apparent that Mr. Eaton has not lost out even though there is a degenerated species in the back alleys purported to eat all the tin cans of an Irish neighborhood.

All the same, Mr. Eaton believes that Holland folks are from Missouri, and that is why he is going to bring his large herd to the fair at Holland and during the three days of the exhibition he is going to give Fair patrons all the information he possibly can on an animal that should and can hold a high place in every barnyard of the country.

The hen has just won its high place as an asset on the farm. Mr. Eaton predicts that before many years the blooded goat will be considered just as important and as essential as the hen or the cow. But of course, the most important thing to be considered is the bringing up of the stock, which is also true of the horse, the cow, the pig, or any other denizen of the barnyard.

## LAKE MICHIGAN WATER VERY COLD; EAST WIND CAUSE

Bathers have been having rather a chilly time of it at the "Oval" the past week. There are plenty of cars filled with folks in bathing suits, but few venture in. They tip-toe a little along the beach, but stop there. The reason for the cold water in spite of the hot weather is that the wind has been blowing from the east for nearly a week and all the warm surface water near the shore has blown out into mid-lake. A south west wind for a day would bring back the warm top water and bathers would again be in their element.

## Ottawa Deputy Entered Police Work in 1892

A. J. Klaver Has Served as Court  
Bailliff, Night Marshall, Truant  
Officer and Turnkey

A. J. Klaver, white haired and 72 years old, special deputy in the Ottawa county sheriff's office, is a police institution in Grand Haven. His work as a law enforcement officer dates back to 1882 when he entered the sheriff's office under the then sheriff, John Vaupell. During the interim he has served some 18 years as court bailliff, in addition to terms as night marshal, truant officer and turnkey.

He is further distinguished by the fact that he is the only native son of Grand Haven still living here who is a great-grandfather.

Mr. Klaver is a painter by trade but he has lain down the brush numerous times during 58 years of work to answer calls of public duty.

Between twenty and thirty years ago, he was a horse jockey making racing history for Grand Haven. He owned or drove at one time such horses as "Junk," "Sam Houston," "Judge Mack," "Lady Vaughn," "Minion," "Johnny Gray," "Jennie R. Klaver," "Grey Nellie," and "Bird," names which are familiar to the older residents of western Michigan.

"Turk" won a seven heat race in a sea of mud at Columbus, Ohio, making the mile in 2:27 1/2 minutes. The horse was then 18 years old.

Mr. Klaver was born on Franklin street here, Oct. 14, 1856. His mother came to Grand Haven in 1848 and his father in 1850. Mr. Klaver married Fidelia Hartel in 1879. She died seven years later. In 1896 he was married to Alvina Augusta Albrecht who died last June 4th.

The unbroken line of four generations is provided through the lineage of a daughter, Mrs. Jennie R. Streng. She has a son John Streng who in turn has two children, Leora Dorothy and Robert Louis. Mr. and Mrs. Streng live on U. S. 31 near the Ottawa-Muskegon county line.

## GOLF BALLS PROVE FATAL TO A TURTLE

When a large turtle crawled out of the pond at the Country Club golf course at Poplar Bluffs, Mo. recently and died for no good reason at all, caddies became puzzled and held a consultation over the body.

They decided to conduct a post mortem. When the turtle's stomach was opened the caddies found eight perfectly good golf balls. The turtle, according to the caddies, believed it had found some eggs.

The caddies decided Mr. Turtle's death was due to acute indigestion.

## VAN ZOEREN'S CELEBRATE

Dr. Wm. Van Zoeren has developed 20 acres of new growth timber into an ideal picnic ground near Indian creek in Zeeland township. The property was purchased from the government at \$1.25 an acre by Gerrit Van Zoeren and since has reverted to his grandson. The Van Zoerens held their annual reunion there Thursday and about 400 persons, representing four generations, participated.

## HOLLAND-ZEELAND CON- CRETE STRETCH WILL BE GRADED NEXT FALL

Two houses on Eighth St., east of the city limits, have been ordered moved by Sept. 1 as the first step in the proposed new 40-foot cement roadway between Holland and Zeeland. Grading operations will be started next fall and it is expected the new road will be completed within a year. The road will follow the old interurban road bed until near the old brickyard, and connect with M21 at Zeeland east limits.

## MANY ORCHARDS IN BAD SHAPE

Michigan peach orchards as well as the fruit crop are being thinned this year by leaf curl, growers in western Michigan report.

Many trees were defoliated by the curl fungus and may die before fall, orchardists fear. Other trees are in such a weakened physical condition that they probably will not survive another hard winter.

Partly formed peaches in these trees are dropping or have been badly stunted that they will be of little commercial value if they ever fully mature. Much of the decrease in the July condition of the peach crop, as reflected in the state crop report, was due to leaf curl injury.

Leaf curl is controllable by dormant sprays but the unfrozen condition of the soil in most orchards last spring and wet weather at spray time prevented many growers from protecting their crop. Other orchardists, who have observed no leaf curl for two years, carelessly neglected to spray, believing there was no infection in their plantings.

## Zeeland is Afflicted with Water Famine

SPRINKLING TIME IS RESTRICTED BUT RELIEF EXPECTED IN NEAR FUTURE

The very welcome rain of Wednesday morning has somewhat eased the Zeeland city water situation but the shortage of water for sprinkling purposes is very keenly felt again, and all eyes are longingly cast skyward with the desire for further relief.

The shortage is not caused by any shortage in the production but by the greater demand, and a reserve must be kept on hand for fire protection. When this has been pumped, it does not interfere with domestic use, but it would be depleted very quickly if permission were given to draw on this reserve at will, hence the low pressure at times. The second need for water that must be filled is for commercial use. Some of the business institutions are dependent upon the city supply for considerable water, and they cannot be denied their needs. These were established at Zeeland when the understanding that their supply would be forthcoming and while it is at all possible Zeeland is bound to stand by that agreement. The denying of sufficient water to these concerns would not only damage such an institution but it would throw many employees out of employment.

The public property committee, which has been given complete control of the city water department has decided to permit lawn sprinkling between the hours of six and eight o'clock in the evening only. Further restrictions demand that the East half of the city's water users sprinkle Monday, Wednesday, and Friday evenings, while the west half sprinkle on Tuesday, Thursday, and Saturday evenings only.

Every effort is being made to get the new pump installed on the new well they are now building, but there has been some delay in getting the machinery.

## PROMINENT FURNITURE MAN DIES

Martin J. "Jud" Sencer, 41, well known furniture salesman of the Robert W. Irwin company, died at his home in Grand Rapids Monday after a brief illness. Death was due to heart disease. At one time he represented the Charles P. Limbert Co. of Holland and also the Holland Furniture Co.

## FORMER HOLLAND MAN AIDS IN CAPTURING THUGS

Chief Pippel of Grand Haven and Lawrence DeWitt, former Holland man and driver of one of the city's fire trucks, Sunday night assisted in capturing two suspects wanted in connection with a gas station robbery in Grand Rapids that night. The arrest was made at the Greyhound bus station following a mysterious tip from Grand Rapids.

Aleck Bryant and Albert Meinke 25, were taken in custody without trouble, and the Grand Rapids officers later took them to Grand Rapids where it is said they have been wanted for the past six months.

Chief Pippel and DeWitt scanned the crowd coming in for the Chicago boat and made up their minds they were not there, when a suspicious fellow with a blue shirt leaning against a telephone pole was seen. He and his pal were a 32 caliber revolver but did not resist.

The arrest was made in connection with a robbery of the Standard oil station at Dale and Coit streets. Bryant, it is said, is an accomplice of a man named Kramer, who was taken by the Grand Rapids police. He said Bryant was hit in the shoulder by a bullet fired from Detective Van Koughnet's gun. Bryant gave no evidence of having been hurt, said the chief.

The trio have since confessed to a dozen robberies of oil stations and drug stores and Judge Vander of Grand Rapids sent them up for life in Marquette and Jackson prisons Wednesday.

## HENRY WINTER'S BOAT WINS IN SAUGATUCK RACES

Gust Biewer of Grand Rapids piloted a Hacker-Craft to victory in the motor boat speed race held at Saugatuck Tuesday. The boat is owned by Henry Winters, cashier of the Peoples State bank of Holland. Bobby Winters accompanied Mr. Biewer in the race.

T. Jones of Chicago, driving his Jay-Jay, a Chris-Craft, was second and a Dodge-Water craft, Owl III, came in third.

The first prize, a loving cup, was presented to Mr. Winters of Holland in the Big Pavilion following the race.

Mr. Biewer showed his prowess in motor speed events by capturing cups at Spring Lake and Black Lake as well as here.

## WHO EVER HEARD OF A MAD SHEEP?

Sheep that attacked others in the flock of the farm of Thomas Williams, former supervisor in Forest township near Flint, Mich., were infected with rabies, according to Deputy Sheriff Roland Harrow who killed two of the animals to prevent further spread of the disease. A mad dog bit several sheep on the farm a few weeks ago and the farm tenant shot the canine. Two ewes died immediately and later two more sheep became rabid.

Miss Edith Damsen is spending a week's vacation with friends in Kalamazoo.

### FIFTY YEARS AGO TODAY

Arrangements have been made by Capt. Frank Brower and George's band to give a moonlight excursion on Saturday evening, Aug. 2. This is a move in the right direction and we hope these nightly excursions will become popular. Capt. Brower's boat is well equipped for at least 300 passengers.

The demand for brick at the Veneklasen brick yard on the Zeeland road is way ahead of the supply. The company has received an order for one million bricks from the blast furnaces where bricks are being used for coal pits. The company is also selling a lot of brick used to build drinking water wells in this vicinity.

The sailing vessel Kate Howard is again floating her flag in Holland harbor after being beached for several months on Lake Michigan shores in a bad storm. Capt. Charles Storing is in charge. The beautiful lines of the ship were not much damaged and the craft was put in shape at the Anderson shipyards.

Two different camping parties have pitched tents on the shores of Black Lake and are elated over the fine fishing we have here. The camping party from Allegan headed by J. C. Holmes caught 100 black bass in one day near Point Superior. This could be made a fine summer resort if an effort were made to attract the public. Nature has done everything for us, we have a good harbor and we should be thinking now of a boat line to Chicago. It would take only a small amount of capital to start and make this one of the most popular summer outing places in the middle west.

Wednesday, the Sabbath School pupils and teachers of the Second Reformed Church, Grand Rapids, came to Holland by train and a vessel towed by tug carried the party down Black Lake to the mouth of the harbor for a real fine picnic in the dense woods.

## CURES OLD AGE BY INFUSION OF YOUTH'S BLOOD

ITALIAN DOCTOR RESTORES  
ONE PATIENT, 92, UNABLE  
TO WALK, TO STRENGTH

Another system of rejuvenation, rivaling that of Dr. Serge Verotini of Europe, has been discovered and successfully demonstrated by a Venetian doctor, Dr. Giocundo Protti.

Dr. Protti, who has been experimenting for several years does not claim to metamorphose elderly patients into new marriage prospects, but claims that old men treated by him have their energy and vitality restored, their blood pressure diminished, a more active memory and renewed muscular force.

His system is simple and does not require an operation. He merely transfuses blood taken from healthy youths into elderly veins. The result, according to Dr. Protti, is that the hormones and internal secretions in the youth's blood react against and stimulate the hormones in the elderly man's blood to renewed activity, thus causing general renewed physical force.

Dr. Protti's clinical records show a list of elderly men who have been cured of old age by this method.

One old man, 92 years old, who was unable to walk, has had his muscular strength restored through Dr. Protti's treatment. Dr. Protti states that his experiments showed that results are not the same when blood is transfused from old organisms. A treatment requires about 10 transfusions.

Brewer and his wife of Grand Rapids, who have many friends in Holland, were granted a temporary injunction restraining Dudley Washburn, Charles Niles and Henry Niles from removing fresh water clams from the northern half of the Grand river in front of the Brewer property at the junction of US-131 and West River road. ## BANKER SEES MISTAKES ON 'MIDGET' BILL

CALLS ATTENTION TO ERROR  
ON REVERSE SIDE OF NEW  
TWO-DOLLAR BILL

To Genen Ogilvie, manager of the University branch of the People's National bank of Charlottesville, Va., goes the distinction of being the first to discover an error in the recently issued new currency of the United States.

The error was found on the back of the new two-dollar note, which carries a picture of Thomas Jefferson on the front and a likeness of Monticello, his Virginia home, on the reverse.

Examination of the picture of Monticello reveals that it contains the image of two lions, one on each side of the veranda of the mansion. It is pointed out that these lions are in reality not on the grounds at Monticello. Nor were they there during the regime of Jefferson.

The figures were placed there by Mr. Levy after he had purchased the property many years ago. During his ownership, the lions were there, but when the Thomas Jefferson memorial foundation bought the estate, they were removed, and it is thought they were sold at auction along with other relics from the house. The present whereabouts of the figures is not known. The bills are worth \$2.00 just the same lion or no lion.

## Next Townhouse Built In Heart Of Holland Town

OLD SITE IS SOLD TO  
FEDERAL MANUFACTURING  
FEDERAL MFG. CO. FOR  
EXPANSION PURPOSE

The new Holland townhouse hall when it is built will be located within a quarter of a mile of the direct center of the township according to a survey made. Thus voters from any part of this large township will have no kick coming because no favoritism could possibly be shown since this location was selected.

Bids have already been opened by the township board and Branderhorst & Nyland has been awarded the contract for building the new hall. The structure will be of brick, one-story and basement, electrically lighted and heated by furnace and will cost approximately \$7,000. It will be located on the Waverly road about half a mile north of 8th street on what is known to everybody as the Driest Kleyn corner. Recently the old townhouse on East 8th street was sold to the Federal Manufacturing Co., since this large industry will need this extra land for expansion.

It is stated that the old townhouse is at least 60 years old and might fill a place in Henry Ford's museum.

## Zeeland Woman Has Back Broken In Truck Wreck

HUSBAND AND WIFE LEFT  
CENTRAL PARK, HOLLAND,  
FOR MONTANA; WRECK  
OCCURS ON WAY

Another misfortune has befallen a Zeeland family during the past week when Mrs. Ruth Strech figured in an automobile wreck and was very seriously, if not fatally, hurt.

Mrs. Strech before her marriage was Miss Ruth De Pree, a daughter of Mr. Titus De Pree of Zeeland. This misfortune is doubly sad because only a month ago her mother, Mrs. Fanny De Pree, passed away after a brief illness.

Mr. and Mrs. Strech were married about a year ago and had been living at Central Park, a short distance west from Holland, since their marriage. After much debating they decided to move to Montana to make their future home and about two weeks ago set out on the trip from Central Park to Montana by auto truck, packing a quantity of furniture, clothing and household utensils in the conveyance, to start housekeeping with when they arrived at their destination in the West.

All had gone well until they reached a point near Kallispell, Montana, where they struck a deep grade which they failed to negotiate. Whether the brake linings of the truck had become worn or some other trouble arose has not been learned but the report has it that the truck ran away. Mr. Strech not being able to stem its increasing speed. Seeing the danger, Mrs. Strech jumped from the machine just as it was about to upset. In the accident that followed she was caught in the wreck and pinned underneath.

She was finally rescued in an unconscious state and was taken to a hospital near where it was found that she had probably suffered a broken back besides several fractured ribs and severe bruises. At last reports she was still alive and slightly improved but her condition seemed to be rather discouraging.

## BANKERS ARE TO HOLD SHOOTING MATCH; HOLD ANNUAL MEETING AND ELECT THE OFFICERS

On Tuesday evening, July 23, the Ottawa County Bankers' Federation met at the Warm Friend Tavern in Holland for one of their regular get-together meetings. Wyand Wichers, the retiring president, presided. This meeting was held for the purpose of electing officers and the following persons were elected to serve during the ensuing year:

F. C. Boldt, cashier of the Peoples' Savings Bank of Grand Haven, president; Otto P. Kramer, cashier of the Holland City State Bank, vice-president; Millard Durham, cashier of the Coopersville State Bank, member-at-large; J. Lindemulder, assistant cashier of the Peoples' State Bank of Grand Haven, chairman of the vigilante committee; Henry Baron, assistant cashier of the Zeeland State Bank, secretary-treasurer.

After the election of officers a very interesting discussion was led by B. P. Sherwood, president of the Grand Haven State Bank, on the reorganization of the banking laws as enacted during the last session of the state legislation.

John Lindemulder, the newly elected chairman of the vigilante committee, gave a report on past activities of the Ottawa county vigilantes and also a brief outline of the proposed plans for the coming year.

A meeting of the Ottawa county bankers will be held on August 7 at which all the vigilantes of the county are invited as guests. At that time a competitive shooting match will be held in both rifle and pistol work, similar to the one held at Grand Haven last year.

Rev. J. Lanting of the Immanuel church will continue in his series of Bible lectures Sunday night, taking up the subject "The Fifth Dispensation—The Day of Grace." Rev. Lanting teaches from a large dispensational chart.

## ARCADE AT ARCADE PARK WILL BE SHEL- TER DURING STORM

The Holland City News takes credit for the change in the name of the new county park south of Lakewood Farm from "Tunnel" park to "Arcade." A tunnel denotes gloom and the name is anything but cheerful. Arcade more nearly hits the mark. The park is accessible from the main highway across the large oval extending to Lake Michigan which has parking accommodation for at least 600 cars. A 10-foot concrete walk has been cut through the hill. The walk will be banked on the sides and protected overhead by a covering, hence the name Arcade. The work will be completed in about two weeks.

The tunnel when completed will be about 60 feet long and 14 feet wide and will afford shelter to picnickers in case of a sudden storm. Road Commissioner Harrington will have the Lake Michigan side of the tunnel closed in the winter so the sand will not fill it.

## BANKS HELP COMMUNITY FAIR WITH MONEY PRIZES

The Holland Furnace Co. through A. H. Landwehr, has agreed to pay all the premiums in the educational department.

Secretary M. J. Vande Bunte will offer a special secretary's cup for the rabbit department. Three silver cups will be awarded in the poultry department. Several cups will be offered in the stake races and the pony show.

## GEORGE GETZ NOW HAS HIS ROAD

The Park township officials have filled their agreement with George Getz of Lakewood farm whereby Mr. Getz transfers a 200 foot road in exchange for the regular 66 foot highway, better known as the Alpena road. This road is now closed and the 200 foot highway 2,000 feet farther south, entering to Lake Michigan is now the property of Park township and open to the public. The matter is now in the court records and all legal requirements complied with.

## DEATH TAKES AWAY RE- MARKABLE CAT; WAS A REAL DUMB ANIMAL

Mr. and Mrs. W. H. Chaddock of Allegan are regretting the loss of their precious pet Angora cat, "Dexter" who died a few days ago of blood-poisoning from a wound.

The twelve-year-old cat has a number of traits of the dog, answering the call of a whistle and following Mrs. Chaddock for hours as she busied herself in her yard and gardens.

Dexter had one peculiarity, that of having no voice or almost none. He went through all facial contortions of meowing but little sound ever came forth.

A year or so ago he went with the niece of the family to Littlejohn lake. He failed to respond to their whistle when they started home and their efforts to find him were unsuccessful. For several days the lake at all hours of the day and even during the night, hoping "pussy" would answer their calls, but after inquiring at all the farmhouses in that vicinity they gave up the search. Nearly two weeks later the family was awakened late in the night by persistent noises at the back screen door and, making an investigation they discovered the cat waving his plummy tail, seemingly overjoyed to have found his way back to his friends, true to cat nature. The unusual part of the episode was that the cat had found his voice most decidedly, denouncing his joy at being home again by ear-splitting meows and other cat-calls.

## HOLLAND WILL BE PRIVILEGED TO INSPECT THE FISH PONDS

President Joe Rhea of the Holland Fish and Game club has called a special meeting of the club for the evening of July 31 to be held at the fish nursery pond at Holland on the Zeeland road. The directors have decided to call the ponds "Holland Conservation Park" embracing 10 acres in which the ponds are located. A large sign will be placed at the road side with the new name emblazoned there and all members and non-members as well as are privileged to inspect the park on July 31 to see what really has been accomplished. This new park will be an added show place for Holland visitors.

## CHAUTAUQUA'S INFLUENCE

A little more than half a century ago Lewis Miller, of Akron, O., and Bishop John H. Vincent established a system of popular education at the little town of Chautauqua, N. Y., on the shores of the lake of the same name. The project, beginning as a Sunday school institute under Methodist direction, soon became non-sectarian and was supplemented with summer school courses of graded study, as well as a plan for continuous home-reading. From this the "Chautauqua idea" has spread throughout the country until almost every small urban center in the United States has at one time or another, particularly in the summer months, been the scene of Chautauqua lecture courses. Holland has had its Lincoln and its Redpath and not only enjoyed many of the offerings but the community has benefited materially from these courses given at a very reasonable cost. Anytime this week at Chautauqua, N. Y., the one hundredth anniversary of Lewis Miller's birth is being observed with fitting ceremony.

While occasionally mediocre talent may have been presented to the public under the canvas of Chautauqua tents, the fact cannot be denied that in general the Chautauqua idea has widened the horizon for many people without other opportunity for self-culture. In their lighter aspects the courses offer to the inhabitants of towns and villages what theaters, lectures and concerts provide for those in the big cities. To persons of more serious purpose, the four-year study course has opened the way to a comprehensive education otherwise denied to many who have never had the chance to attend college.

The Chautauqua institution was a pioneer in the educational field. Its successful efforts to induce men and women to go to school during the summer months have been followed by the founding of many other summer schools, until it is no longer unusual for the ordinary vacation months to be devoted in some measure to the pursuit of knowledge.

## ROAD COMMISSIONERS, AFTER INSPECTION, MAKE ESTIMATE OF WORK FOR 1930

William M. Connelly of Spring Lake and Berend Kamps of Zeeland have inspected the county roads to make an estimate of the work to be provided in the budget for the board of supervisors in October.

It is estimated the budget will approximate around \$100,000. It is the aim of the road commission to hold the budget down as much as possible. Roads under the Coviact act will be gone over carefully before action is taken. The county's share under the act places a large burden on the taxpayers, and this is to be avoided as much as possible.

At present the county is paying out nearly \$60,000 for the retirement of Coviact act road bonds and interest on the unpaid bonds. The Coviact act bonds retired this year will be about \$6,000 less than last year. Three thousand dollars of this will be used for the county's share of the Tennessee Beach road and the county's share of the new Howard street road in Holland, about two and one-quarter miles long.

Each year it is necessary to raise \$50,000 for the sinking fund, which takes care of the retirement of the \$60,000 worth of road bonds that retire in 1932-33-34. A sum of \$25,000 additional is necessary each year to pay the interest on these bonds.

## Communication

Editor "Holland City News"

Dear Ben:

In last week's issue of your interesting paper, under caption of "Fifty Years Ago Today," I find an account of the inception of that famous ruction occurring two years later and led by some of the prominent and respected laymen in the Reformed Church in the Middle West. As a witness to that deplorable scene in 1881, I can testify that there was much "zeal without knowledge" displayed in the historic Colony Church, now called the "Pillar Church." I shall never forget the sublime scene when Dr. N. H. Steffens, later Professor of Didactic and Polemic Theology in the Western Theological seminary, rose to his feet in the southeast corner of the edifice sacred to the memory of the "Pilgrim Fathers of the West" and said, "Laten allen die getrouw willeen blijven aan de Gereformeerde Kerk in America met mij veramenen in dezen hoek." (Let all such as desire to remain loyal to the Reformed Church in America join me in this corner). As an evidence of the royal loyalty of Dr. Steffens let me state to his everlasting honor that this truly reverend gentleman served several years the "remnant" of thirty families, "saved" without asking for any remuneration. Today the true First Reformed Church of Holland (corner of 9th St. and Central Ave.) has a very large membership and the largest Sunday School in Ottawa county.

## Former Holland Man Tells of Fish Refuge Success

GIVES PRAISE TO PRESIDENT OF HOLLAND'S GAME CLUB

A. G. Baumgartel, Student of Fish Refuge Plans, Tells Results of Study of Plan in Michigan

By A. G. Baumgartel  
Result of the demonstration of the fish refuge plan by the department of conservation should convince even the most biased that, given the opportunity, the public will co-operate in an honest endeavor to protect our fish, and confirm the belief held by those who, having knowledge of its successful operation in other states, have brought the plan to public attention in Michigan.

Henry A. Schull, former state president of the Isaak Walton League, was in active charge of Michigan's demonstration and is to be congratulated on the success of his efforts.

A just measure of its success or failure, as of any other plan, is not the number of violations but rather what is accomplished. That its educational value has been great is generally admitted—the casual angler now understands more of fish life history. Then, too, thousands of anglers who would otherwise, as in seasons past, have taken fish from spawning beds simply because others did, desisted. Thus many adult bass in cold waters were given opportunity to spawn and many other thousands in warmer waters where spawning had ceased were spared to herd the fry. That is all economic gain—real constructive conservation.

By some, doubt is expressed as to the success of the plan because it is said that in some of the posted lakes there were violations. Do all people obey even the Ten Commandments; and, since they do not, does anyone suggest scrapping them? That the poster areas were commonly fished is not borne out by reports reaching me.

According to early newspaper accounts, Holland was the point at which the plan was to meet its hardest test. As to the result, liberty is taken of quoting from a letter written to me July 12 by that clear-thinking conservationist, Joseph C. Rhea of the Holland club: "The fish refuge plan worked out perfectly here in Holland. It has been of great educational value. Practically every fisherman in the vicinity is in favor of the plan and can see the tremendous advantages of allowing game fish to spawn unmolested. At the same time the plan is popular, because, if successful, it will ultimately mean earlier fishing in deep water."

"There has been a great deal of grumbling not only here, but throughout the state of Michigan, over the late opening of the season due to the fact that inland lakes are closed to all fishing until the bass season opens. Adequate refuges in inland lakes, with deeper water open to fishermen, will mean 100 per cent enthusiastic support."

An observer reporting to me that during the four days commencing June 30, he had not seen a single violation on Bostwick lake, the writer decided to set conditions for himself on this lake, one frequented by a goodly proportion of casual anglers—those who rent tackle and only fish occasionally and may be presumed to have little knowledge of fish habits. He was on the water practically all the time from 7 a. m. to 9 p. m. July 4.

During the morning only one boat was observed inside the refuge signs. Inquiry brought out the fact the occupants really did not understand what the signs meant, but, being fully enlightened, gladly moved.

**Look One Bass**  
In the afternoon a boat containing three young fellows with cane poles was seen leaving the shore, and two began casting, taking one bass. Asked if they did not see the signs, they said a cottager had told them the fish were being spawned. When the herding habit was explained, that taking the male fish would probably result in the destruction of from 1,200 to 1,500 fry, they agreed the refuge plan was a good one, and moved away.

Returning to the lake the following Saturday afternoon, only one boat was observed inside the signs during balance of the day. The occupant was not possessed of a cheerful disposition and did not take kindly to the suggestion that he was fishing in posted water and replied: "What of it—the fish are off the beds." He, too, was told of the herding habit and although he said nothing, moved away. A law with "teeth," such as will be effective next year, would convince of an individual. It would be a pleasure to bring him in.

The educational feature of the refuge demonstration would have been enhanced and some misunderstandings have been obviated had the signs borne a definite date of

## TROUT GOES 500 MILES IN 60 DAYS

A rainbow trout twenty-five inches in length when tagged by the conservation department at Foxe's bridge on the Little Manistee river April 24, 1929, had wandered a long way from home when Raymond McDonald, Kenosha, Wisconsin, last week reported its capture fourteen miles southeast of that city. From the point of tagging at Foxe's bridge to the mouth of the river the distance exceeds twenty miles, and by direct line across Lake Michigan to the Wisconsin location where the fish was captured the distance is about 120 miles. This trout traveled at least 140 miles in the sixty days between the time when it was tagged and the date of its capture; or, in the event that it followed the shore line, the distance would be nearer 500 miles.

removal of the ban against fishing in the areas.

Point has been made in this state of the desirability of uniform regulations with other neighboring states. Minnesota has made a complete success of the fish refuge plan, Wisconsin, under authority of the law creating the conservation department, set aside 121 refuges in 27 counties in 1929. B. O. Webster, superintendent of fisheries, under date of July 12, wrote me:

"Our experience thus far with reference to the public's reception to these refuges has been very favorable. After two arrests after the signs were posted there was no more fishing in any of the refuges."

Reference was made to the Michigan law enacted during the last session of the legislature. The act gives the director of conservation permissive authority to post spawning beds. It is therefore up to the sportsmen to make known their desires before another season rolls around."

In Wisconsin, Mr. Webster advised me June 20, "we made request throughout the state from our game wardens, O. K.'d by presidents of fish and game clubs and Isaak Walton League members to areas on lakes and streams that we were proper to close during the spawning season at least for fish refuges for spawning purposes."

Prof. G. H. Corsan, not only a scientist, but a practical conservationist in charge of the W. K. Kellogg bird sanctuary near Battle Creek, writing me April 10 in regard to an article from my pen appearing in "Outdoor America," said, "I greatly enjoyed 'The Fish Refuge Plan.' It is a splendid idea and one that has not been presented by anyone else. I think the plan should be adopted by all countries for those areas where fish are in the habit of spawning."

**REQUIRED HOLLAND PREACHER TO REALLY BIND WEDDING KNOT 25 YEARS AGO**

Friends of the Rev. and Mrs. Gertrude Hendelink, graduates of Hope College, will be interested in hearing of honors recently done them on the occasion of the 25th anniversary of their marriage, by members of the congregation of the First Reformed church of Rochester, N. Y.

"The Rev. and Mrs. Hendelink," says the Rochester Democrat and Chronicle, had a time of romance in their marriage against a background of the Orient. They had gone singly as missionaries to Japan. The American consul stationed at Nagasaki, traveled 150 miles to have the wedding as it had to have the official sanction. The bride and bridegroom, neither of whom had a relative in the Flowery Kingdom, were married in the home of a missionary in Kumamoto.

"In order to make the marriage perfectly legal, it had to be ratified in Washington. The officiating clergyman was the Rev. Albertus Pieters, D. D., now professor of Bible and Missions in Western Theological Seminary at Holland, Mich. Among those attending the wedding were Captain Oshima, now Gen. Oshima, head of the Japanese army. Mr. Hendelink had charge of missions of the Reformed church in the entire province of Kagoshima."

Mr. and Mrs. Hendelink have two daughters, Margaret, who has completed her college course and taught one year, and Antoinette, a student at Hope college.

## Manager Ripley says Bell Company Is Boosting Resorts

Attention is being directed to Michigan as a vacation land, in a series of advertisements of the Michigan Bell Telephone Company published in 250 newspapers and magazines of the state, according to C. E. Ripley, the company's manager in this area. The first advertisement of the series, carrying an illustration of Detroit's skyline, appears in today's issue of this paper.

A great part of Michigan's annual tourist business is derived from visitors from other states, hundreds of Michigan residents being inclined to spend their vacations elsewhere. The purpose of the Telephone Company's vacation series of advertisements is to acquaint Michigan people with the beauty spots of their own state, and to induce them to take advantage of the vacationing opportunities close to home. It is the belief of the officials of the Michigan Bell Company, Mr. Ripley says, that this state has recreational possibilities far beyond those of any other region readily accessible to Michigan residents with the average two weeks' holiday period.

Manager C. E. Ripley states that, to accommodate the increasing numbers of tourists in Michigan, the Telephone Company has augmented its forces and has installed additional facilities at many points, part of a continuing program of expansion.

## Special Story Given on Local Educators

CANT FIND CHILD WHO DOES NOT LIKE SCHOOLS, SAYS SUPT. E. E. FELL

Parents Have Different Attitude Toward Education That Influences Students

The Grand Rapids Herald recently devoted two columns of space to Holland schools, picturing Superintendent Fell and Miss Anna Dehn, who, they say, "teach young ideas." The special correspondent for the Herald, among other things, says as follows:

"If William Shakespeare had lived in 1929 those oft-quoted lines, 'Creeping like the snail, unwillingly to school,' would never have been penned. At least this is the belief of Supt. E. E. Fell of the Holland schools, who says there is no such thing today as a child who doesn't like school. Or at least, if there is one, he is the exception that proves the rule."

This, says Supt. Fell, who is just finishing his nineteenth year in Holland schools, is due to the changed attitude on the part of parents.

"Parents regard schools differently today than they have ever done before, and this, I believe, is due largely to the work of the P. T. A., he says. There is a changed spirit. The parents, through meeting the teachers in the associations, have learned the aims and the problems of the school and the teachers are getting the parents' viewpoint. There is less criticism of the school in the home, and the children are responding to the changed attitude."

**Better Trained Teachers**  
Then, too, we have better trained teachers. They not only understand child nature better than did the teachers of a few years ago, but they are able to present the work in a more appealing manner. The students are interested—not simply going to school because the law says they must, or because it will enable them to make their living more easily."

Supt. Fell's statements carry weight, as they are backed by many years packed with experience in the educational world—years in which he has studied and taught and observed, and during which he served as president of the Michigan Educational association in 1925-26. He has watched the startling change in educational aims and methods of the present century, and finds the schools have benefited.

It was from Caro that Supt. Fell came here, and already he had served six years as superintendent of schools; three in Caro and three previously in East Tawas. He had then taken his B. A. at Alma college, and since, by means of spending his summers in study, he has received his M. A. at Columbia university.

**A Great Change**  
There have been many changes in the Holland schools since the day 19 years ago when the new superintendent took charge. Not the least is the change in the size of the system. Then there were 53 teachers presiding over the work of 2,000 pupils. Most significant has been the growth in attendance in the upper grades. When Supt. Fell came here there were only 450 students in the high school. Today there are 1,500, the senior class alone numbering 150.

This increase in the number seeking high school education, Supt. Fell believes, may be traced almost entirely to the work of the Junior high school.

"It keeps the child interested in school through the changing period," he says.

The Holland school system, now numbers a senior and a junior high school and five elementary schools. There are the usual shops, domestic science room, gymnasium and athletic field.

Among the changes in the schools, in addition to the inauguration of the junior high, Supt. Fell mentions the first year he was here. Then one teacher was sufficient. Now four are needed to give instruction to all the girls who want this work. The manual training for boys has changed greatly, too. Then there was nothing but a woodworking shop in charge of a woman. Now there is a manual training shop with three teachers. Printing has been added recently to the other crafts which the boys take up. A commercial department, too, has been added.

The physical education department has grown greatly in the 19 years. Back to those early days there was no gymnasium and nothing like the interest there is today in basketball, football and other major sports.

**Students Gathering**  
One of the significant changes has been the introduction of student government. This was started several years ago and has been highly successful. The students elect their own mayor, "city clerk," commissioners, and affairs of the school are conducted on a strictly business basis.

Although head of one of the biggest of the city's plants, and by far its most important, Supt. Fell finds time for other things. He is a Rotarian, an elder in Hope Reformed church and chairman of the legislative committee of the M. E. A. Another teacher of whom Holland is proud is Miss Anna Dehn, who in June finished her thirty-fifth year as teacher in the schools, where she is now supervisor of penmanship.

Miss Dehn is a graduate of Holland high school with the class of 1893 and has taught ever since the first year in the country near Jamestown and ever since in Holland. By going to school in summers, she has kept abreast of her profession and obtained her required degrees. She has attended W. S. T. C., the Michigan Teachers' Normal school at Ypsilanti, Ferris Institute, Columbia, the Palmer School of Penmanship at Evanston, Ill., and spent a summer at Northwestern Teachers' college. She was principal of Washington school for several years.

This year Miss Dehn is taking a long anticipated vacation. With her father, Gus Dehn, she is visiting his old home in Sweden—his first visit there since he left it 63 years ago. They left on July 3 and will return the middle of September.

The Fair premium list is out. Now is the time to give it the "once over," to see what you might bring. The Community Fair will be Aug. 20-23.

## DEATH TAKES MUCH BELOVED HOLLAND WOMAN

Early Tuesday morning death took away a much beloved woman, Mrs. Albertus Wentzel, who a few days before had submitted to a dangerous operation at Holland hospital, heart failure being the direct cause of her demise. It was noticeable Monday afternoon that Mrs. Wentzel was not holding her own although previous to that the case appeared very favorable since the operation on Friday. At 2 o'clock Tuesday morning word was sent from the hospital to the family and they hurried to the mother's bedside and shortly the lady passed away. The funeral will be held this Friday afternoon at 1:30 from the home, 64 West 15th street, and at 2:00 o'clock from the Fourteenth Street Christian Reformed church, with Rev. H. Bouwman officiating. Burial will take place in Pilgrim Home cemetery. The funeral was in charge of Mr. Langeland of the Langeland mortuary of Holland.

Mrs. Wentzel was a devout member of the Fourteenth Street church, a member of the Aid society of the church, and has many friends, who mourn her loss. She is survived by a husband and five daughters: Mrs. John Pieper, Mrs. William Mulder, and the Misses Doris, Elizabeth and Margaret Wentzel, all of Holland, also five brothers and one sister, namely Anthony and Fred Schermer of Holland, Cornelius, Bastian and Dick Schermer of Vriesland, and Mrs. Johannes Wentzel of Hamilton.

Mrs. Wentzel was 59 years of age.

The members of the Ladies' Aid of the Fourteenth Street Christian Reformed church will meet Friday afternoon in a body in the basement of the church to attend the funeral of Mrs. Wentzel.

## OBTAIN PICTURE OF FIRST OTTAWA SHERIFF

Sheriff Cornelius Steketee has obtained a picture of former Sheriff Henry Pennoyer, which has been hung with the portraits of the other sheriffs of the county.

Henry Pennoyer, or "Big Foot" as he was commonly known those days, was the first sheriff of Ottawa county, and he was appointed to the office when Michigan became a state, in 1837. Mr. Pennoyer was a large man well over six feet in his stocking feet, and weighing over 225 pounds. The nickname "Big Foot" was given him due to the size of his feet. It is said that he had to have his shoes made to order, as he wore a 14 shoe.

The territory covered by Mr. Pennoyer in his capacity as sheriff, comprised all of Ottawa, Muskegon, Oceana, Mason, Manistee, Benzie and Traverse counties as they now are, and then known as Ottawa county.

## A FEW THINGS THE CHAMBER OF COMMERCE HAS DONE

During the past two months 364 resort inquiries were answered from the Chamber office; 5,388 wooden shoe booklets were distributed, individually and through the Tourist Information Bureaus in the United States and Canada. Such advertising cannot help but create good impressions for Holland. The Chamber welcomes into the family of local industries the Charles Karr Co., who have decided to locate their factory in Holland rather than go elsewhere.

Inside she placed a note which gave only her name and address. It was that of Lottie Boylan. When Mr. Allen came joyfully back with laurels on his brow he found Lottie Boylan. She was free-hearted, and thereby hangs the rest of the story.

## BATHING SUIT AGAINST LAW; CHILD SHEDS IT

The majesty and the modesty of the law must be upheld.

This has been learned by Mr. and Mrs. Samuel Lubor and their little daughter.

The child was frolicking about the Oak st. bathing beach, Chicago, in a bathing suit. She overstepped the beach and gambled on the lawn.

Un stepped Policeman Edward Smith.

"Gaiest the law," said he, "to be on the lawn in a bathing suit."

The child promptly removed the suit.

Then the hardened cop turned red.

Mr. and Mrs. Lubor and the youngest son thereafter stood before Judge Jacob Schulman. He lectured them severely, stating they should have more respect for the law or the lawn or something. Then he discharged them.

## Weasel, the Killer of Wild Life

LOVES THE TASTE OF BLOOD AND KILLS FOR SHEER FUN OF TAKING LIVES

A killer-for-joy describes the weasel. This "Thug of the Wild World" revels in the taste of blood and will attack animals regardless of size, with a fendish courage. Rabbits, squirrels, mice, and birds are marked for death if they are within his precinct.

The New York weasel is one of the larger weasels found in Michigan. During the summers its coat is brown, but changes to white in winter, the tip of the tail remaining black at all seasons. It is the white fur that is known commercially as ermine. The weasel makes its home under stumps or in abandoned rabbit holes.

In traveling it employs a series of leaps, the hind feet falling directly in the footprints of the first. This makes its tracks appear in the snow as a pair of footprints varying from several inches to several feet apart.

To follow a set of such tracks may lead to the point where a recent tragedy has been enacted in the snow. Or perhaps the trail leads to some farmer's chicken coop. In such cases it is not uncommon to find 30 or 40 slain fowls.

Except for its grace and utter fearlessness there is perhaps little to admire in this wanton destroyer of such game as pheasants, prairie-chickens and rabbits. Happily it has a fondness for rats and mice. With a tight chicken-house it will act as a modern Pied Piper for any rat-infested place. Although prolific weasels do not increase to any alarming extent and should not be killed because of their reputation. The toll on game and domestic fowl is more than paid for by the number of small harmful rodents it destroys.

## Anecdotes A Shortage

State Welfare Director John E. Harper said in Columbus the other day that in four years he had not found one prisoner in the state penitentiary who could repeat the Lord's Prayer or the Ten Commandments.

"Well," Director Harper went on, "evangelical upper classes are rather short on Biblical knowledge, aren't they?"

"A young millionaire and his wife were telling me the other day about their tour in Spain."

"The Prado was wonderful," the young man said.

"What did you like best in the Prado?" said I.

"A Correggio," he told me. A masterly oil painting of Adam and Eve in the Garden, with the apple and the serpent."

Then the young man's wife said with a superior air:

"Yes, that painting interested us especially because, you see, we knew the anecdote."

## Beneath His Notice

Rogers Hornsby told a baseball story at a banquet in New York. "A Sunday School teacher," he said, "asked one of her boy pupils: 'Willie, who defeated the Philistines?'"

"Willie had been gazing out of the window in a dream. He gave a start and answered:

"I dunno, teacher. I don't never foller none of them small league teams."

## WELCOME TO COMMON TOAD

The common toad should be welcomed as a guest on the farm, since it is an enemy of many injurious insects, including the plum and apple curculios, potato beetle, tent caterpillar, cankerworm, and gipsy and brown-tailed moth caterpillars. About 98 per cent of the toad's food is of animal origin, and more than 60 per cent consists of harmful insects, according to the U. S. Department of Agriculture.

The toad feeds during the evening and night, and in 24 hours consumes insect food equal to four times its stomach capacity.

## Nation Will Now Name Its Flower Soon

NATURE MAGAZINE SPONSORS CONTEST TO GIVE UNITED STATES AN OFFICIAL BLOSSOM

For many years, the bald eagle has been America's national bird, but America has never had a national flower. Ireland has the shamrock, Scotland the thistle and England the rose. America has often talked of choosing a national flower but nothing has been done. While the goldenrod is often mentioned as our national flower, it has never had any official recognition along this line.

The American Nature association has asked everyone in the United States to vote for a national flower. Thousands of votes have already been received. These votes are being counted as they are received and at the present time the wild rose holds first place; the goldenrod, second and the columbine third place.

If you want to cast a vote in this contest send your vote to National Flower Editor, Nature Magazine, 1214 Sixteenth st., N. W., Washington, D. C. You may vote for any flower.

### Supervisor Hyma Appears Before Road Com.

GRAND AVENUE PAVING IS  
DUE EARLY NEXT SEASON;  
HOLLAND ROUTES UP

Albert Hyma, supervisor from Holland Township, appeared before the board of county road commissioners today to interest the members in two roads in Holland Township which residents would like to pave under the Covert Act.

One road, the Pine Creek one, is one and three-quarters miles. The other, the Howard Avenue road, is two and one-half miles.

The board will take the matter under consideration but are scanning with great care petitions for roads to be built under this plan in which the county would take much participation. The commission is now burdened with \$131,000 a year for interest and bond retirement on roads throughout the county built on this plan.

The gravel roads which are being rebuilt over the county are becoming models for that kind of construction and are meeting with more and more approval from motorists. The engineers have laid 36-foot grades, which are considerably wider than gravel roads in other counties.

The board went over the Grand avenue project, which now that all legal entanglements have been removed, will be built sometime within a year. While a start could be made this fall, said Carl Bowen, engineer, it would tie up funds for several months longer than necessary as the road will not be used much until next year. It will, however, be started in the early spring, to be in readiness for the first resorters.

### THREE FIRES IN DAY KEPT CHIEF ON JUMP

Chief Anthony Pippel of Grand Haven, was a busy man Friday. He got home from the first fire late for his noon meal. He had just served himself when the second alarm came in. Returning from that he had barely resumed his belated meal when the third alarm completely discouraged him. The trio of alarms Friday brought a loss of several hundred dollars in the barn fire but none in the two grass blazes. They were the first fires of the month in this city since a \$5 one on July 5. However, the department went to Fruitport July 13 at the trolley barn blaze.

### ALL ZEELAND CHURCHES HELD PICNICS YESTERDAY IN DIFFERENT PLACES

The offer, however, does not hold if the wife of a dead soldier has married again.

### GRAND HAVEN AND MUSKEGON CONTINUE FERRY FIGHT

The city of Grand Haven will file a bill of exceptions to the findings of Ralph R. Molster, examiner for the Interstate Commerce Commission, who yesterday made a favorable report on the application of the Grand Trunk Railway to operate trains under lease over the Pennsylvania tracks from Muskegon to Marne, it was stated today. This bill will be prepared by Hugh E. Lillie, special attorney for the city council of Grand Haven, who was active in Grand Haven's fight at the hearing on the application held in Muskegon several months ago.

"I cannot tell what the nature of these exceptions will be until I receive a copy of Mr. Molster's report," Mr. Lillie said today. "All that I know about the report is what I have read in the newspapers."

Mr. Lillie said that he expected to receive the report in a few days. He was city attorney for Grand Haven and has been retained by the new administration to see the case through to its termination.

### HOLLAND IS RAPIDLY BECOMING A CONVENTION CITY

Holland is becoming recognized as an ideal convention city and assemblies held here in recent years have carried away impressions that have advertised this city as a place admirably equipped for this purpose.

Three state conventions already are booked within the next 12 months. These are the Women's Christian Temperance union next October, Christian Endeavor union and the Michigan League of Home Dairies in 1930. This organization is composed of a hundred members and Charles French and Donald French of the Holland Evening Sentinel are members and at the last met succeeded in securing the 1930 convention for this city. Those held recently include the Michigan Assn. of Postal Clerks, and Michigan Authors. The Reformed Church in America held its annual synod here in June for the second time in 4 years and the Christian Reformed Church in America held a four-week synod last year. The Chicago synod of the Reformed Church in America convened here last year for the fourth time in seven years. The annual conference at Pine Lodge also are attracting many visitors.

The Black lake resorts, Lakewood farm, county parks and Holland's varied attractions have paved the way in making this city one of the gateways for western Michigan and for bringing tourists here from every state in the Union.

### THE SPIRIT OF CHIEF POKAGON AMONG HOLLAND BOY SCOUTS

If Chief Simon Pokagon could have returned from the "happy hunting grounds" for an evening spent at Camp McCarthy, he surely would be aware that he, the Chief of all the Ottawas, had not been forgotten. The program in memory of the "Indian Brave" was in the hands of Scout Executive F. J. Geiger of Holland.

The Spirit of Pokagon ceremonies was in accordance to the ceremonies of the Ottawa Indian and was portrayed in the most impressive manner with a background of evergreen trees as a stage setting. Pokagon was the good spirit who aided in the work of promoting friendship among his people.

The council fire ceremonies were of a new type to the Ottawa-Allegan Council as the new Indian dance and headdress were used and found favor with the many visitors that were in circle with the Scouts. After the presentation of awards the Bear Dance of the Ute Indians was presented by the members of the Indian Lore Hobby club. In an Indian take-off and dance, another feature, at this point six dancers appear as bears and two as hunters. The Indian orchestra, in order to make things more realistic, is playing Indian music, when two hunters rush into the council circle pursued by the bears. The hunters are soon chased from the scene, ordinarily rather a serious affair, but this hasty exit brought laughter. After some fantastic stunts were performed by the bears the hunters returned and with the approach of the hunters, together with the Indian tribe, the "redmen" soon conquered the bears and in the grand finale the pipe of peace went the rounds.

### Grapes, Also Grains, Good This County

AGRICULTURAL OUTLOOK IS  
GOOD SAY STATE EXPERTS  
MAKING OTTAWA SURVEYS

The grape crop in this county and others of Michigan promises to be one of the best in years, according to N. L. Partridge, research assistant from the Michigan State College, who was in the local agricultural office Friday.

The grapes are all well set and the crop will be in fully 10 days ahead of last year. The early part of September will see the first of the blue grapes which are expected to be of deeper color, finer taste and more sugar content than usual. While some growers here lost a portion of the crop through spring frosts, on a whole it will be far ahead of other years and preparations are being made now for shipment by basket and crate.

The only menace right now is the grape berry moth which is the hardest insect to control of any that attacks such fruits. Spraying is the only solution and this should be done this fall to prevent injury of next year's crop.

The web is formed in the bloom and young berries and the moth also digs in the larger berries. The web is filled with tiny worms which retard the development of the bunch.

Prospects for an apple crop are not so good according to C. P. Milham, county agricultural agent. The decrease is attributed to the cold spring which retarded the set and damaged much of the buds by frosts which came late enough to get them.

The green fruit is dropping from the trees which Mr. Milham says is not unusual, and it is not this fact that will cause the short crop. However, the Schaeffer orchard in Conklin has been pointed out as one of the best bearing ones in Michigan.

Grains over the county, with the possible exception of corn, look fine. In fact Ottawa County has the best prospects for excellent crops of almost any county in the state, according to Don Hootman, state horticulturist, who recently made a survey here.

The grain crops are in fine condition, there is an abundance of hay, while wheat and oats promise a good return. Corn has been making progress in the past few weeks, although the recent cold nights are not an aid to rapid growing.

### ATTEMPT TO ROB GRAND HAVEN LUMBER OFFICE FAILS

The sheriff's officers were called to the office of the Baker Lumber Co., Grand Haven, Saturday morning to investigate an attempt to crack the safe there sometime during the night.

The combination was broken off but the thugs did not succeed in getting the door open. They had jammed the door to get in. No other evidences were seen and no attempt was made to go through the desks. Some finger prints were taken and what little evidence was left, was gathered to assist in locating the yeggs. This is the second time such an attempt has been made within the past two years. The first time the safe was opened and \$300 was taken. The robbers were never caught. The office is located near the Pere Marquette tracks on Penoyer avenue, apart from the residences there. It is dark and out of the way, which makes it a favorite place, evidently, for safe crackers.

### GRAND RAPIDS MEN ARE ARRESTED AT ZEELAND

Jack Smith, Negro, of Grand Rapids, was arrested at Zeeland Monday night by Chief of Police Ryecenga and Officer Bosman who said they found a quart of whiskey and ten bottles of beer in the car which figured in an accident.

Smith owned the car and waived examination. He was taken to the county jail at Grand Haven after having been bound over to the September term of court.

### Holland's Co. "D" Wins Trophy Again

THIS CITY IS PROUD OF ITS  
MILITARY UNIT WHO WIN  
COVETED PRIZE

Local pride runs high in Holland with the news that Company D, Holland's unit of the 128th Infantry, won the Badger trophy, Sunday, at Camp Grayling, a trophy captured for the second consecutive year.

The company is under the leadership of Capt. Henry A. Geerds and Lieutenants John Bremer and Oscar Johnson.

Word received here indicates that rivalry at Camp Grayling in the contest for the trophy, which also includes a \$500 cash prize, was at a high pitch. The matter of selection became far more difficult and the inspections much more stringent than last year. Six companies vied to the end for the coveted trophy.

All other units cheered the Holland company, and special recognition was given at the governor's table at the banquet Sunday.

A year ago, Holland citizens presented the company with a loving cup trophy after the return from camp, when the Badger trophy was first captured and a fine banquet was also tendered them at the Army, attended by men high in the military circles in this and other states.

Mayor Brooks, when he was advised of the victory won by Company D, Holland, for the second time, he immediately wired the following message to Camp Grayling: "Capt. Henry A. Geerds, Co. D, 128th Inf., Camp Grayling, Michigan."

"Again you have won for Holland. Holland is mighty proud of Company D, its splendid men who have made such an enviable record. The Badger trophy knows where it belongs—in Holland."

"Earnest C. Brooks, Mayor."

Many other telegrams were sent Capt. "Heinie" Geerds from Holland.

### SMALL AND LARGE MOUTHED BASS ARE "OSWEGO" AND "GREEN" BASS

Says Albert Stoll, Jr., in the Detroit News—Our two black basses, the large and small mouthed, apparently have more common or vernacular names than any of our other fishes. It is difficult to find any section of the country where they are called by the same names. Michigan fishermen come about as near calling them by their proper names as any other state group, but even with the large mouthed variety is often referred to as "mud bass" and "Oswego" bass, while the small mouthed is frequently termed the "green bass."

Investigation of these two species by G. Brown Goode and Theodore Gill, two of our foremost authorities on fish, reveals that the large mouthed bass is almost universally known as the "Oswego bass." This holds particularly true throughout northeastern United States. In the South it is called "jumper," "moss bass," "trout," "chub," "Welshman" and "marsh bass."

The small mouthed shares the same vernacular names in the South as the large mouthed, but in the North it is affectionately referred to as "bronze back" or "green bass."

In many sections where both species live little distinction is drawn between them. A black bass is a black bass regardless of the minute differences in them, and both are given such common names as "river bass," "spotted bass," "slough bass," "yellow bass" and "speckled hen."

This much is certain of our black basses; regardless of what they may be called there isn't one fisherman out of 10 who can tell the difference between the species once they land in the boat, and both will continue to furnish unlimited sport for those who like a fighting fish.

### SIX HUNDRED SCOUTS OF CHICAGO PASS THROUGH CITY

Ten carloads of Boy Scouts and their scout leaders passed through Holland Monday noon enroute to Whitehall the big boy scout camp of Michigan. The lads all came from Chicago and there were at least 600 of them. All were as happy as larks and will remain for two weeks, when another 600 will be sent. Rather a comical sight, when the boys arrived in Holland, each was sucking an all day sucker. Who could imagine 600 suckers from Chicago?

### MICHIGAN SOLDIERS AT ALLEGAN REUNION STILL SPRY AT 96

Allegan has just celebrated a reunion of the soldiers and sailors of the Civil War and it appears that many of the old boys who gathered are still spry. For instance "Uncle Billy" Kidwell of Adrian, 96-year-old Civil War veteran, danced the clog and played the old trap drum which he carried through from '61 to '65.

"Uncle Billy" marched with Gen. William Tecumseh Sherman from "Atlanta to the Sea."

Samuel Treat of Coldwater, nearly 90, was another of the drummers in the drum and bugle corps that paraded on Allegan's streets. David Hilliard of Allegan, 85, spry and happy, was also present at the reunion. Ten veterans marched in the remnant drum corps at Allegan on the big day. Fred Wade of Allegan gave the principal address and attorney Pearl Fouch presided.

Rev. J. C. Pelgrim and family of Frankfort, Ky., are spending the rest of the summer at Macatawa Park.

Mr. and Mrs. Putman and daughters Patsie and Anna of Chicago are spending their vacation here at the home of Mr. and Mrs. Stephen Putman.

#### THE STORY OF DANIEL

LESSON TEXT—Daniel 1:1-4, 13, 20: 217-24.  
DANIEL TEXT—They that we shall shine as the brightness of the firmament; and they that turn many to righteousness as the stars forever and ever.

PRIMARY TOPIC—A Boy Who Obeyed

JUNIOR TOPIC—A Boy Who Obeyed

INTERMEDIATE AND SENIOR TOPIC—Preparing for a Life Work

YOUNG PEOPLE AND ADULT TOPIC—Character and Career of Daniel

I. Daniel in Captivity (1:1-4). His captivity took place in the third year of Jehoiakim's reign by Nebuchadnezzar, King of Babylon. While a tender youth, he was torn from home ties and made a captive in a foreign land to be trained for service in the royal court.

II. Daniel in Training (1:5-20). In order to be of the largest service in the kingdom, it was necessary that he be taught to love the king and nation and to be detached from his own people and religion.

1. Daily portion of the king's meat and drink appointed (v. 5). The object of this was:

(1) To gain the good will of Daniel. Such recognition would encourage him to give himself to the king's service.

(2) To supply the proper food for his physical and intellectual growth.

2. His name changed (v. 7). He was named Belshazzar.

The object in this change was the obliteration of national and religious connections, and his identification with the Babylonian nation. Daniel means, God is my Judge. Belshazzar means, Bel's Prince.

3. Daniel's purpose of heart (v. 8). Though a captive in a foreign land, Daniel purposed in his heart that he would not defile himself with the king's meat and wine. He requested to be tested for ten days with the food which the law of his God allowed agreeing to abide by the results.

4. Daniel's reward (vv. 15-20). (1) Physical health (v. 15). The king's meat and wine would have been very palatable, but to have partaken would have meant the violation of his conscience.

(2) Mental growth (v. 17-20). He was found to be ten times wiser than the magicians and astrologers.

(3) Socially (v. 19). He was not only next to the king, but became president of the college of wise men and the prime minister of the empire, continuing through several dynasties (v. 21).

God revealed to him Nebuchadnezzar's dream and gave visions stretching across the centuries. The secret of Daniel's success was:

a. Conscientiousness.

b. Loyalty to God.

c. Decision of character.

d. Prayerfulness.

e. Patience.

f. Courtesy.

III. Daniel Interpreting Nebuchadnezzar's Dream (2:1-46). The dream revealed (vv. 14-35). Nebuchadnezzar had a dream which made a tremendous impression on his mind, but its content had been forgotten. He urgently demanded of the wise men that they make known the dream and its interpretation. Because of their failure to do so the king was furious and commanded all the wise men of Babylon to be slain. Daniel sought an interview with the king and obtained time. In answer to prayer, God gave to Daniel the content of the dream. He told the king that in his dream he had beheld a great image with a head of gold, breast and arms of silver, belly and thighs of brass, legs of iron, and feet of iron and part of clay. He beheld this image smitten by a stone and the stone became a great mountain.

2. The dream interpreted (vv. 36-46). (1) The head of gold represented the Chaldean monarchy, with Nebuchadnezzar as its head (v. 37, 38).

(2) The breast and arms of silver represented the Medo-Persian power (v. 39).

(3) The belly and thighs of brass represented the Grecian empire under Alexander the Great (v. 40).

(4) The legs of iron represented the Roman empire (v. 40-43).

(5) The stone cut out of the mountain (v. 44, 45). This is the Kingdom of Heaven so graphically set forth in the New Testament.

a. The stone is Christ (Isa. 28:16; Matt. 21:42-44).

b. When did the stone strike? Observe that the impact upon this man was upon his feet (v. 34).

c. The Kingdom of Heaven is brought into realization through a great catastrophe.

### FUNERAL PROCESSIONS GO ALTOGETHER TOO SLOW

Efforts are being made by state police to speed up funeral processions which travel on trunk line highways.

"The funeral procession is one of the worst menaces to traffic that we have," said Roy Shields of the state police.

Mr. Shields cited a case Sunday where a long procession left Holland and came to Grand Haven. The procession traveled between 15 and 20 miles an hour the entire distance and by the time it arrived in Grand Haven it had grown to several miles in length, through additions of other cars which were unable to pass.

The state trooper is trying to sound out public sentiment regarding this condition. He has asked hundreds of persons during the last few days this question, "Do you think that speeding up funeral processions would show lack of respect for the deceased?" Invariably where persons are informed of the conditions the answer is no.

## Vacation Time Is Now!

July and August are vacation months. Nobody is better aware of that than are Holland folks. Our trunk line roads carry veritable motorcades of vacationists to and through this city.

No doubt a vast majority of these visitors have saved a little each week during the year, looking forward to a few weeks of respite after a strenuous year.

### Have You Had Your Vacation?

If you haven't, possibly lack of funds is one of the reasons. You can obviate this by laying aside a little spare change each week until next July which together with the accumulated interest will enable you to take a "bang up" vacation without feeling the expense. And what is more, you will come home refreshed, ready and anxious to get back to your duties and start a small savings account for the next summer's vacation.
