Hamilton Folks Object To Phone Situation There

CLAIM THERE HAS BEEN A
RAISE OF RATES ALTHOUGH
MANAGER SAYS NOT

There appears to be a little ruction in Hamilton, our near neighbor in Allegan county, over phone rates and the discharge of some of the "Hello" girls. Just to what extent the disagreement has gone is difficult to ascertain.

The News was informed that there was a raise in telephone rates. However this paper called up Dr. O. M. Vaughn, the manager of the company at South Haven, who stated that there had been no raise in rates, only on certain classes of phones among them the desk phone and that raise had affected but very few subscribers. It appears that the company is about to put in the metallic system with double wires, replacing the ground single wire system installed by independent companies several years ago.

The metallic system is better and less noisy.

There also seems to be objection to the coming operating staff. Hamiltonians claiming that one man and some of the ladies, who live in Hamilton, were substituted by outsiders. The telephone force consisted of Mr. and Mrs. Jake Meier, Miss Elsie Dargemond, Miss Beatrice Lugten, Miss Fisher, Miss Wentzel. Inquiry indicated that the old force is still operating at Hamilton and up to this time at least no changes have been made.

Formerly the local company was a co-operative concern owned and operated by Hamilton folks. It was sold to the Tri-County Telephone Company with headquarters at South Haven.

The management at South Haven seemed to know little of the telephone trouble at Hamilton. However, they intended to take matter up immediately in order to see where the difficulty lies. Without doubt if Hamilton's grievance is just the company and the subscribers may be able to get together and iron matters out amicably. Undoubtedly a better service brought about by better equipment will necessitate a great outlay to the company. Whether this will effect future rates is not made clear.

A later phone call to Hamilton verifies the fact that no rates have been raised up to this time. The rumor goes that there is to be a raise some time in the future.

Mr. Vaughn also stated that by August first Hamilton is to have a 24 hour telephone service instead of the shorter hour service now in vogue.

HOLLAND BANKS SHOW SUBSTANTIAL STATEMENTS

On the first page of section 3 of this issue of the Holland City News will be found the quarterly statements of the three Holland banks, namely the Holland City State Bank, the Peoples State Bank and the First State Bank. These banks show a substantial financial situation which is very gratifying indeed.

It is well to peruse these statements at your leisure and feel elated that the city can boast of three strong banks.

GRAND HAVEN FAMILIES COMPLETE A ROUND ROBIN MOVING BEE

Four Grand Haven families moved yesterday, one into the house vacated by the other and so on until the moving was complete. Ray Johnson moved from his new home, 1034 Columbus to his former home, 1181 Seventh street. Mr. and Mrs. Herman Ryngaert who have been living in the house now taken by Mr. Johnson, moved to 306 1/2 North Seventh street, where Mr. and Mrs. Albert Boyink have been living. Mr. and Mrs. Boyink have moved to 602 Jackson Street in the house formerly occupied by Mr. and Mrs. Adrian Gravel and Mr. and Mrs. Gravel moved into the house on Columbus street vacated by the Johnsons.

ATTORNEY REJECTS ATTORNEY'S BILL. "HOW COME?"

A bill for \$200 presented by the Grand Haven board of public works for services from an attorney was rejected. C. E. Misner, city attorney, stated that it was not clearly outlined in the charter whether the departments of the city had the right to hire an outside attorney. He advised the council to reject the bill and if necessary let the matter go to court to determine the authority of the departments. To prevent possible exorbitant bills in the future of the kind, he advised that should the court sustain the department's right in the matter, a charter amendment would be the method of limiting departments in such action.

HAMILTON FIRM WOULD STOP HOLLAND MEN FROM MAKING CELERY MACHINE

Judge Glenn B. Warner of Paw Paw heard the chancery injunction case brought by the Hamilton Manufacturing Co. against Louis Pol, Henry Pol and others in the Allegan circuit court Wednesday.

The Pol's are alleged to have sold the patents and rights to manufacture a celery transplanting machine to the Hamilton Manufacturing Co., and then opened a factory at Holland to manufacture a similar machine, the company being known as the Holland Celery Planting Co.

Judge Warner will file his decision later. The Holland men have put in a denial and no doubt the facts will come out in the judge's decision later.

MORE HOLLAND SCOUTS GO TO SPRING LAKE CAMP

The following scouts are planning to be in camp the fourth period: Holland-Albert Kleis, Jr., Hugh De Pree; Zeeland-Junior Van Dyke, Donald Koelman, Deon Dekker.

TWO STRANGE ACCIDENTS BUT NOT SERIOUS

While assisting in slaughtering a cow on the farm of Nelson Wynyard at Vriesland, Kenneth De Jonge of Vriesland received a kick in the face, severely injuring his nose. It required several stitches to close the wound. The cow was killed however.

Young George, son of Mr. and Mrs. George Telgenhof, Zeeland, fell from a tree while picking cherries at the home of Charley Telgenhof of North State St., fracturing his arm. The cherries were picked, but they didn't "let George do it."

COME TO HOLLAND TO FISH— MORE FREEDOM

Allegan Gazette—More fish were being taken from little Spectacle lake the first of the year but nature has "turned the tables" and anglers are catching more in big Spectacle, mostly bass. Much has been said about cleaning the logs and weeds from the creek joining the two lakes so both lakes could be used without transferring the boat overland. Many fishermen are getting tired of spending their time on the inland lakes so they try their luck in Black Lake at Holland. There are no restrictions to fishing there or in Lake Michigan.

AN OLD FASHIONED MIN- ISTREL SHOW TO BE STAGED AT HOTEL MACATAWA

Who says that the days of black-faced comedians and minstrel men and women are a thing of the past? Folks are just as much into the beaten path and again feast their eyes on the stage play of yesterday. The older folks will never forget Lew Dockstater or "Honey-boy" Evans, the peers of minstrel men.

Anyway the management and guests at Hotel Macatawa are staging a minstrel show next week on Tuesday evening, July 23, at 8:15 o'clock. An improvised stage will be arranged in the large ballroom of the hotel and a suitable minstrel program is being rehearsed by the cast. The circle will be mixed, both ladies and gentlemen participating.

The interlocutor is to be Wilma Engel. The end men are Fred Kelly, Raymond Friedman, Mary Martindale and Mary Ellen McDermott.

You will notice that two of the "men" are ladies, but believe us, they can keep pace with the minstrel boys at any stage.

One of the vocalists is to be Dorothy Scheu, an artist of unusual ability. She is to be accompanied by Camilla Stout, an able pianist.

The entire show is to be under the direction of Judge Sidney Hartman of St. Louis. It will be impossible to mention the names of the cast in the entire circle, however, many have been in theatricals before and are able artists in song and tap dancing. Many special features are being arranged for to make up the "olio" program.

Believe us next Tuesday is to be a gala day at Macatawa when Alexander's Rag Time Band" will invade this popular resort.

Mr. Swan Miller, Mr. C. R. Crakes and Miss Miller are giving their full co-operation.

SECOND FIRE IN ZEELAND STORE FROM UNKNOWN CAUSE

On Wednesday afternoon, for the second time this year, fire was discovered at J. Van Hoven & Sons store on East Main St., Zeeland, the blaze starting from an unknown cause. At about four o'clock the alarm sounded for the fourth ward and the fire department made a quick run, preventing any great damage by flames, but there was plenty of smoke, and at this time it cannot be determined what the actual damage was.

The store was locked for the afternoon, the Van Hovens and employees having gone to the Sunday school picnic at Allegan County park.

The fire was discovered when neighbors saw smoke issuing from the roof, under which the fire had started in the attic.

COAST GUARDS TOW IN TWO BOATS FROM LAKE

Two boats were towed in from Lake Michigan by the Grand Haven Coast Guard crew over the weekend. On Saturday, Howard Baxter, with his speed boat "Surace", encountered engine trouble about three miles north of the harbor. Sunday the crew was called to tow in a large schooner, "Vision", owned by W. Carlsen of Chicago, which was aground two miles north of the harbor with five passengers aboard, said Capt. William Preston.

BETTY VANDENBERG PARTY HOSTESS AT LAKEWOOD FARMS

Grand Rapids Herald—Miss Betty Vandenberg, daughter of Senator Vandenberg, entertained with a Sunday afternoon swimming party and supper at the summer home of her parents at Lakewood Farms.

Her guests were Marie Smith, Mignon Mosher, Virginia Shellman, Charlotte Irwin, Betty Uhl, Bill Irwin, Colby Ryan Joseph Banks, James Getz and Daniel Litscher.

EAGLE OTTAWA PLANT TO START PRODUCTION OF SHOE LEATHER

"We are going to keep our plant going this fall with every employee possible on the payroll," William Hatton, president of the Eagle Ottawa Leather company, Grand Haven's largest industrial institution, said today. Mr. Hatton said that within two weeks the plant would be on production of shoe leather again. The upholstery leather market is quiet, he said.

"We just got a large order from Italy for shoe leather and our Italian business is growing all the time. In fact it was not for our foreign business, the situation here would be pretty quiet," Mr. Hatton said.

Only 25 Fish a Day So Don't Be Mistaken

THAT APPLIES TO FISHING IN
INLAND LAKES, LETTING
HOLLAND OUT

Perch fishermen have taken one look at the new fishing laws and let out a whoop of joy, thinking that they can take perch of any size in the inland lakes of the State and in any number. They are just 50 per cent right. The size limit on perch has been removed. A fish-minded Legislature did that, for it believed that there were many lakes in the State where perch seldom reached the size of seven inches but were large enough to furnish food for the table if they could be legally caught. They held up Houghton lake as an example, claiming that a six-inch perch in that lake was a pretty big fish. As the matter now stands fishermen can catch perch from the minnow stage up to as large as they run without fear of the law.

But you can't take more than 25 in any one day. The creel limit has not been removed. Fishermen are held to 25 calico bass, Warmouth bass, rock bass, crappies, bluegills, sunfish and perch in the aggregate or 25 only of a single species. If you catch bluegills you can only take 23 perch and so on down the line.

There are a few lakes in Western Michigan, directly connected with the Great Lakes, where the perch limit is 50. These are Black Lake, at Holland, Ottawa County; Muskegon and White Lakes in Muskegon County; Pentwater and Stony Lakes in Oceana County; Pere Marquette Lake in Mason County; Manistee, Arcadia and Portage Lakes in Manistee County and Charlevoix Lake in Charlevoix County.

As to Lake St. Clair, and the St. Clair and Detroit Rivers a fisherman can take as many perch as he can catch of any size so long as they are not sold. The no limit, no length rule applies there. But then Holland doesn't fare so bad compared to other lakes.

ALL VOTERS REGISTER NEXT YEAR

The Department of State is making plans a year in advance for the general reregistration of all voters before the presidential election in 1932. Under the changes in the election laws adopted by the 1931 legislature, the Department of State has greatly added powers in regard to elections.

Already the department, in conjunction with the election commission, have approved forms for the next reregistration, which is mandatory on all counties of over 5,000, and these forms will be available for local election officials within a short time.

Bag of Wheat Opens Doors of Theaters, Pays the Dentist

Not all of the bumper wheat crop of the southwest will reach market through the regular channels.

With wheat down as low as 25 cents a bushel, farmers are finding numerous means of consumption heretofore unknown.

In the Texas Panhandle a report from Kansas City says theaters are admitting farmers and their families for a specified amount of wheat; dentists exchange dental work for it; mills accept it in exchange for flour and almost every newspaper in the section is paying above market price for the wheat for subscriptions.

So far, however, grocers, clothing merchants, machinery dealers and others who do any considerable amount of business with farmers have not adopted the plan, but at least two dealers exchange automobiles with wheat accepted at 50 cents a bushel.

Many farmers are feeding their wheat to poultry, dairy cows and hogs.

Outlying districts of the north plains have announced that some farmers will burn wheat for fuel this winter rather than haul in coal.

At Dodge City, Kan., Richard W. Evans, Ford county probate judge, has offered to marry couples for 10 bushels of wheat. The regular fee is \$5.

CLEANING OUT MISS LIBERTY

The statue of Liberty in New York harbor is being renovated. The face is to be uplifted, a new pair of gleaming electric lights placed on her head to radiate light on the waters, to welcome the ships bearing peoples from many lands, and beacon the seafaring men in their approach to the port. At the age of forty-five her Uncle Sam is ready to spend \$30,000 to remove the ravages of time and give her all that specialists of beauty are able to bestow.

THE PUBLIC ACTS TO BE AVAILABLE

Municipal, township and county officials and attorneys will be able to obtain copies of the Public Acts of 1931 about September 1 from the Department of State. Laws passed by the last legislature and not given immediate effect, do not become effective until September 1. The volume of Public Acts of 1931 is to be similar in size and binding to the Compiled Laws of 1929 and is being printed in the same form as the Compiled Laws. Where some act passed by the 1931 legislature, repeals or amends a former act, the new volume will show in bold face "catch lines" not only the section of the Compiled Laws that is changed but also the page on which the amended act can be found.

Recent guests of Mrs. Edward Herringa at Buchanan beach have been Mrs. Andrew Klompers, Mrs. Alex Van Zanten, Mrs. Peter A. Lievense and Mrs. Maurice Kuite, all of Holland.

News Items Taken From the Files of Holland City News Fifty, Twenty-five and Fifteen Years Ago Today

FIFTY YEARS AGO TODAY

Mayor Steketee of Grand Rapids and D. J. Dornink also of that place, are camping at "the mouth." Note—Mr. Steketee was well known as a "patent medicine man" and Dornink was a "book seller." Mr. Dornink built the first cottage at Macatawa Park. It was located in the grove on Grove Walk and today serves as the kitchen of a more pretentious summer house.

The job of graveling Fish street has been left to James Ryder and A. McDonald and will be a beautiful thoroughfare when completed. Note—Fish street is now Columbia ave. Mr. Ryder was the husband of the late Mrs. M. A. Ryder, noted hotelwoman. Mr. Ryder at one time conducted the Phoenix hotel, a wood structure on Eighth st near the depot.

John Steketee and son, of Grand Rapids, landed 3 large pickerel and 40 fine black bass in Black Lake this week near "Point Superior."

The schooner Jose of this port was run into in Chicago river between Wells and Lake street bridges by the steam barge Lyons. The Jose lost her bowsprit and jib boom, some stanchions; burst her plank shear and carried away her headgear. On Wednesday a squall struck the same Holland vessel, carrying away her foremast. Note—The poor Jose was always considered a floating wreck in vessel days.

TWENTY-FIVE YEARS AGO TODAY

David Vander Schel plunged off the Graham & Morton dock into water 16 feet deep last Sunday rescuing the four-year old daughter of Mrs. Bessie Blackman. The little girl walked off the dock while she with her mother and others were awaiting the arrival of the afternoon steamer. The lass had gone under once before Mr. Vander Schel grasped the child. The young man was vigorously applauded for his brave and timely act by a large crowd who saw the rescue.

Rev. Henry Veltman of Milwaukee received a call from the First Reformed church. Note—He became pastor of this local church later and is now in Muskegon.

Miss Lila Thurber of Holland has taken a position as instructor in the Ferris Institute at Big Rapids. She is the daughter of Mrs. L. M. Thurber, head of the Ottawa County Building and Loan association.

NEWLYWEDS COME TO HOLLAND TO OPEN STUDIO

Battle Creek Moon—Before a yellow and white archway of summer flowers and ferns, Miss Helen Louise Sisson, daughter of Mrs. Everett Shepard, 718 Maple street, became the bride of Herman Wiegink, son of Mr. and Mrs. Henry Wiegink, 27 Sanderson street. The ceremony was performed at 3:30 this afternoon by the Rev. Ira Congo, of Fenton, on the lawn of the Wiegink summer cottage, Pleasant Ridge, at Shore Acres, Fine lake, near Battle Creek.

The bride wore a pale yellow silk suit. One bridesmaid, Miss Ruth Pettit, of Owosso, wore pale pink, and the other bridesmaid, Miss Neva Shepard, was gowned in orchid. The bride's mother wore blue chiffon, and Mrs. Wiegink was in blue chiffon. The groom's attendants were Richard Wiegink, his brother, as best man, and Elmo Sisson.

The bride was graduated from the local high school and from Kalamazoo Normal. Since her graduation she has taught music in Owosso. Mr. Wiegink was graduated from the Battle Creek high school in 1925, and has since taught violin in the public schools. Immediately after the ceremony they will leave for Holland, Mich., where they will make their home, and open a piano and violin studio, there.

LOCAL BOYS PREPARE TO GO ON BEAVER ISLAND SCOUT TRIP

More scouts are wanted for the Beaver Island trip which is expected to start on Aug. 10th and which will last until Aug. 19th. Those definitely making reservations are as follows:

A quiet wedding took place yesterday afternoon at the home of Mrs. Granda F. Pieters in Kalamazoo when her daughter, Miss Helen, Kramme the bride of Mr. Frank D. Kleinhekel, son of the late Prof. H. J. Kleinhekel of Holland. The groom is connected with the American Humidifier Co. They will make their home in Holland.

LICENSES ENTAIL MUCH CLERICAL WORK

Few persons realize the amount of clerical detail, necessitated by the automobile drivers' registration law. Because of the increased power given state and county officials to revoke licenses, it is necessary for Department of State employees to make three separate checks on each application to see if the applicant is eligible to receive a license. Then the approval of the Commissioner of the Department of Public Safety must be placed on each application.

MISS BLAKE, NEW YORK, GUEST OF MISS PANTLAND, AT OTTAWA BEACH

Miss Sally Blake of New York city is a guest of her cousin, Miss Frederica Pantland, daughter of Mrs. Frederick Z. Pantland of Grand Rapids. The girls are spending a short time at Ottawa beach and were guests at a dinner last evening when Miss Jessie Lockwood, daughter of Mr. and Mrs. C. L. Lockwood Jr., was hostess at the Lockwood summer home. In the evening the group danced at Castle park.

SAUGATUCK, MICH. IS BRIGHT SPOT THIS SEASON

Detroit Times—Near the mouth of the Kalamazoo river in Allegan County, Mich., one finds the quaint, well-kept and hospitable village of Saugatuck, famed in song, story and early romance of the Indian days. Here it was that in the early 1800s, James Fenimore Cooper roamed the woods and sand dunes and wrote his celebrated story, "Last of the Mohicans."

Last summer Saugatuck celebrated its centennial, with thousands of visitors, homecomers and tourists helping to make it a memorable event.

Saugatuck today is a modern, up-to-the-minute summer resort, having many attractions of wide appeal for summer tourists. Her natural beauties include the hills, woods and valleys carpeted with wild flowers, and there is good fishing in lake or river, boating, canoeing and swimming either at the beaches or the big pool where meets are held during the summer.

Dancing at the big pavilion, called "the brightest spot in western Michigan," will be more attractive than ever this season, for Art Kassel and his "Kassels in the Air" orchestra, Chicago radio favorites, have been engaged for the entire season. The latest talking movies will also be shown at the big pavilion.

In July the Chicago yacht clubs will hold regattas on Lake Kalamazoo, and everywhere one turns there is a new attraction.

Mrs. Jack Riemersma, who submitted to an operation Saturday at the University of Michigan hospital in Ann Arbor, was in an improved condition today, according to word received here.

To Beautify New Zealand- Holland Road

ZEELAND GARDEN CLUB ORGANIZED WITH TEN CHARTER MEMBERS

The Zeeland Garden Club, an organization designed to promote a greater interest in gardening was formed last Wednesday at the home of Miss Edna Brandt, 128 East Central Ave., Zeeland. This club was organized with the help of the Kent Garden Club, a veteran organization in this field. Its purpose, as the members have expressed it, is to promote a better interest in gardening among the members themselves, all of whom must be "digging" gardeners, and to make civic improvements by planting trees and adding floral touches to the city where they will be most needed and appreciated. The plans for this year's program call for an improvement of the highway between Zeeland and Holland and several of the members are already engaged actively in outlining this work.

In this work it will be well for Holland to also co-operate and do its share. Just what form the beautifying of the new highway will take has not been made clear. At the first meeting of the Zeeland club organized with the help of Mrs. Parke H. McMullen, president of the Kent Club and Mrs. J. Gibb Currie of the civics committee, Miss Edna Brandt was unanimously elected president; Mrs. H. Moeke was chosen as vice president; Mrs. Jack Boonstra, recording secretary; and Mrs. H. Van Eenennaam, treasurer. Mrs. Angus De Kruit was made program chairman and Mrs. G. Van Lopik, social committee chairman. Others present at the meeting were Mrs. G. E. Kamps, Mrs. Darrin O'Brien, Mrs. W. Ossewaarde and Miss D. Ossewaarde.

The next meeting of the Club will be held July 31st at the home of Mrs. Jack Boonstra at which meeting a speaker from the Kent Garden Club is expected.

Since Holland started its Tulip Festival it appears that everywhere folks have become more garden and flower minded.

MRS KOLLEN ENTERTAINS

A group of Grand Rapids women motored to Holland, Monday, as luncheon guests of Mrs. George E. Kollen. The group is comprised of former members of a society of elocution and includes Mrs. Ida M. Bailey, Mrs. John S. Emery, Mrs. George Schroeder, Mrs. Fred Morley, Mrs. Myrtle Koon Cherrymann and Mrs. Gladys Edwards.

This Is Season For Many Church Mission Fests

FIVE CHRISTIAN REFORMED
CHURCHES COMBINE IN ONE
LARGE GATHERING—ONE
IS ALSO STAGED IN
HOLLAND

The Christian Reformed Churches of Allendale, Beaverdam, Borculo, North Blendon and Rusk will hold their mission festival on Wednesday, August the fifth, at Hughes Grove near Hudsonville. They expect to have an afternoon and evening program beginning at 1:30 and 7:30 o'clock, respectively, fast time.

Two of the afternoon speeches will be given in the Holland language. The evening program will be all English, and an interesting feature of it is Dr. R. Pousma's slides on the work among the Indians. The committee in charge has engaged the following good speakers: Rev. Smit of China, Rev. Pousma of Rehoboth, New Mexico; Rev. J. Kolkman of Oakland, Rev. Mulder, home missionary of Grand Rapids; Mr. Huisjen of the Chicago Jewish Mission and Miss Angie Haan of our Grand Rapids city mission. Miss Haan will entertain the children during the afternoon. Borculo's band has promised to play for the fest and the committee has also engaged excellent vocal talent for the occasion.

The slogan adopted by the committee is "Come and enjoy Christian fellowship and a day of feasting with us."

The day following there is to be a fest in Holland. The committee appointed to arrange for a Mission Festival of the Christian Reformed Churches of this city and vicinity has completed its plans and announced the date as August 6. The session will open at 1:45 p. m. at Prospect Park. Speakers for the afternoon will be Rev. B. J. Danhof of Drenthe, Mich., Rev. J. Bolt, missionary to the Indians at Crown Point, New Mexico, and Rev. A. Smit, missionary to China. Miss Renzina Stob, worker among the Indians at Rehoboth, New Mexico, will speak at the Children's Hour. The evening session is to open at seven o'clock at which time, following music by an orchestra and a song service, Rev. William Goudberg, missionary to the Indians at Tohatchi, New Mexico, Rev. Dr. William Masselink of Grand Rapids and Dr. Richard Pousma of Rehoboth, New Mexico, will speak. Rev. A. Smit will also show some slides on China during the evening meeting.

The grove will be equipped with amplifiers to carry the speeches and music to all parts of the woods and accommodations have been made in case of rain.

Officers are investigating the theft of 23 hens from the farm of Isie May Hewitt on M-40 three and one-half miles south of Allegan.

Miss Nell E. Van Haisma entertained her friend, Miss Grace MacDonald of Tobermory, Scotland, at her home at Vriesland on last Thursday and Friday. Miss MacDonald is spending about six weeks in the United States visiting with relatives and friends.

ZEELAND IS HALF CLOSED, HALF OPEN ON HALF HOLIDAY

Zeeland merchants have for many years inaugurated a half holiday once a week during the summer months. A few weeks ago the closing day was announced supposedly for all the merchants. The upshot was a strong division—half wanted to remain open, the other half closed. Now signs appear in the Zeeland store show windows. Some read, "We are open," others "We are closed," and the end is not yet. Holland merchants voted to remain open some months ago.

HOLLAND MAN RECEIVES PATENT RIGHTS

Patents were awarded today to Grand Rapids, Muskegon and Holland inventors.

Harold S. Covell, Holland, invented a furnace register and filed his application July 7, 1930. He was allowed eight claims to new ideas. The patent has been assigned to Hart & Cooley Manufacturing Co.

SELF-SERVE GROCERY LOOTED OF TOBACCO VALUED AT \$816.50

Burglars who entered the Self-Serve Cash and Carry grocery warehouse at 22-24 Ottawa Ave., N.W., Grand Rapids, owned by the Standard Grocery Co. of Holland, over the week-end secured 11 cases of cigars and 40 boxes of cigars with a total value of \$816.50, it was reported to police yesterday.

Detectives Thomas D. Blinston and John Stegenga, who investigated, said entrance was effected through a window approximately 12 feet above the floor. Automobile tire tracks indicated the loot was loaded into a car at the rear of the warehouse.

The thieves pushed out a section of wallboard to gain access to the merchandise, and then carted it up a flight of stairs and through an unoccupied building to the north, a distance of more than 100 feet from where the loot was stored. The burglars broke open a door to gain entrance to the adjoining building. Renn Muller, Holland representative of the Standard Grocery Co., states that the company is fully insured with burglar insurance.

ZEELAND MAN, MOVER OF MAIN STREET, DOES MORE BUSINESS

Louis Rupp has moved his lunch stand from West Main Street at Zeeland to a new location, one block north, in order to take advantage of the traffic on the new M-21 passing through that city. After moving the stand, he has more than doubled its capacity and made a neat, attractive lunch room out of it, where he will give service from sun-up till the owl winks, daily and he is already doing more business than on the "main drag."

GERRIT RUTGERS AT MAIL CARRIERS' CONVENTION

Gerrit Rutgers, local rural mail carrier, delegate to the state carriers' convention at Port Huron, writes the News that they have been having a great time and that the delegates are still loud in their praises of Holland when the convention was held here.

Headquarters for the carriers are at Hotel Harrington and Mr. Rutgers states that 500 carriers have been congregating this week.

The Port Huron Times Herald devotes an entire column to the event and it appears that the Michigan Rural Carriers are being royally entertained.

The sessions of the auxiliaries are also being held here and Mrs. De Boer of Holland is prominent at these sessions. Banquets and theatre parties also fit into the program.

Mrs. Louise G. Rutgers and Mrs. Anna S. De Boer have gone to Port Huron to attend the twenty-ninth convention of the Rural Letter Carriers' association. Mrs. Rutgers is a delegate to the convention and Mrs. De Boer gave her original readings at a banquet and also at Tuesday evening's entertainment.

G. Veurik, secretary of the executive board and Gerrit Rutgers, delegate, are also at Port Huron for the convention.

PRODUCTION OF SHOES AHEAD OF LAST YEAR

Expansion in shoe production continued during the month of June, according to a preliminary estimate appearing in a New York trade exchange bulletin, which placed last month's production at 27,000,000 pairs, compared with 25,900,000 in June 1930 an increase of approximately 13 per cent. Production of shoes for the first six months of 1931 totaled 158,750,000 pairs, against 158,475,000 during the corresponding period last year, showing an increase of 1.2 per cent.

POWER COMPANY'S TAX SUIT ENTERTAINED BY JUDGE MILES

The circuit court suit brought by Consumers Power Co. against the city of Allegan in regard to raising the valuation of the power company's property \$25,000 in that city, was on call Monday. A special jury was drawn and the case will be heard before Judge Fred T. Miles and jury Monday. A similar raise was made against the power company's holdings in 1930. Members of the state tax commission, it is stated, will be here next Monday to give their judgment as to the actual value of the property. There has been considerable trouble for two years between the company and city about Allegan building a new power and light dam very much against the wishes of the Consumers Power Co., who at present are lighting Allegan and vicinity. When the dam is completed Allegan will furnish light and power in competition with the Consumers Power Co.

THE ART OF
"CANNING"

Canning a thousand quarts of food in her own kitchen, as a woman in northern Michigan has done this summer, would have been regarded as "quite a stin" at any time; but a generation or so ago the feat would have had far less news value than it has today. The art of home canning has been relegated so far from urban centers in this country that city folks and townspeople are likely to forget that it still survives out where the berries grow and vegetables are raised.

All of which results from the rise of a tremendous commercial canning industry in the United States, with a highly developed system of distribution that carries its products into the remotest hamlet, where, they are available even to those farm wives who are not disposed to "put up" their own stuff.

Canning used to be a major seasonal occupation in most homes on the farms and in the towns and villages of this country. The process was one to which every member of the family was willing to lend a helping hand, with an eye to the good things that would come with winter, when most varieties of fruits would be snowed under.

A good deal has been written about the demoralizing effect of the can-opener on the American home. Some of it probably is true enough. When the housewife can run down to a store and buy tinned food she need not do her own canning. She is able to play bridge, or she can go outside the home, if she is industriously inclined, and obtain employment that will enable her to contribute to its upkeep and cost.

The part the can-opener has played in the emancipation of housekeepers from manual labor can hardly be overestimated; but that it has robbed them of something worth while would probably be averred by the mistress of those thousand jars of home-canned foods up near Norway, Mich.

ESTATE VALUED AT \$15,000
DIVIDED FOR CHARITY

The will of the late James Alston, who died recently at his home in Spring Lake, was delivered to the Grand Haven State Bank by Charles E. Mienner, Mr. Alston's attorney, as the bank was named as executor.

Several Grand Haven and Spring Lake organizations are beneficiaries, the will having been made on Jan. 15, 1930. The inventory of the estate is expected to total between \$15,000 and \$20,000, said Mr. Mienner.

According to the terms, one fourth of the estate will go to the hospital, Grand Haven, one fourth to the Presbyterian church of Spring Lake, one fourth to Mrs. Neva Cuthbert of Hollywood, Calif., a second cousin, one eighth to the American Red Cross, Grand Haven chapter, and one eighth to the local Salvation Army.

Charles H. Mc Bride of this city will be the principal speaker at the annual convention of the Michigan Municipal league to be held at Port Huron on September 9 and 10.

HUCKLEBERRIES

Because of the time of dry weather the huckleberries are few and small. The low-bush berries are ripe but the high-bush have about another week to begin ripening. The shower which fell last Monday morning will probably help the high-bush berries somewhat but came too late to benefit low-bush. No forest fire has swept through north woods this year so some large patches of berries can be found. The quality is equally good despite the fact that the berries are small.

HOW BUMBLE BEES HELP RED CLOVER

As the bumble bees are busy darting from one clover head to another in search of nectar they are no doubt entirely unaware of the service they are rendering to the plants by carrying bits of pollen on their hairy legs from one plant to another. It is said that if it were not for the bumble bees the red clover would die out entirely for want of fertilization.

MAN CAUGHT IN SAUGATUCK
NOT A \$35,000.00
EMBEZZLER

The state papers were filled with a story last week telling of the arrest of a Philip W. Youngs, aged 37 of Akron, Ohio, who was charged with absconding with \$35,000.00 from an Akron bank, and that the man had come to Saugatuck with a pretty Ohio woman who in turn had stolen an automobile in order to make the trip possible. The pair were registered under the name of Mr. and Mrs. Philip Lovelace. The Holland City News wrote the Akron newspapers for verification of the story and both publications in that city stated the embezzlement charge was for \$500 instead of \$35,000.00 and that detectives were preparing to bring him back to Akron to face American Surety Co. charges.

Sheriff Guy Teed of Allegan county and Deputy Harry Jackson of Saugatuck arrested the couple at Saugatuck and held them in the Allegan county jail until Ohio authorities called for them. It is said that Young is married.

The Akron papers say: "Young has been missing for more than a week, bank officials and friends report. He has been a member of the bank staff for 20 years, starting as a clerk and advancing to one of the junior executive posts. He was well known among Akron bowlers, having held the national doubles bowling title with Chick Aston in 1927."

The car in question was a Hudson and it was the Ohio license plate that gave the first clue to the missing parties and the missing car.

Marvin Huizenga, a scout from Troop 3 of Grand Haven, and a son of Mr. and Mrs. Richard Huizenga of that city, will be awarded a gold medal for aiding a man injured in an automobile accident on US16 this spring. The donors of medal suggest a public presentation. Dr. C. A. Bowler of the Presbyterian church of that city, read the letter announcing the award from his pulpit yesterday morning.

DRIED APPLES LEGAL

TENDER IN ALLEGAN

Allegan merchants many years ago were advertising for dried apples and peaches, offering three cents per pound for the former and twelve cents for the latter. These dried fruits came pretty near being legal tender for payment of debts. Most of the dried apples would not today be deemed sanitary. They were threatened upon strings after being cut in quarters, sometimes dried in the sun but often hung over the kitchen stove where they made excellent roasts for flies. Much later they were dried in factory furnaces. Then the canning of fruits finished the dried apple era.—Allegan Gazette.

More Automobile Than
Ever Before for Money

Spring is here, time of joy and freedom after the cold gray months. Of course, your heart can be free wherever you are, but to be really free, to get out and meet nature in her quickening Spring mood, you must have the ability to go where you please when you please, quickly, comfortably and inexpensively. That means an automobile.

The Spring Automobile Showing, now in progress throughout the nation give you opportunity to learn at first hand just how luxuriously and cheaply you can travel in a 1931 motor car of your own. Some time within the next few weeks of the exhibition, be sure to visit the dealers' showrooms and look at the remarkable values the automotive industry sets before you as its contribution to national prosperity and individual enjoyment.

Never before have you been offered so much in the way of mechanical excellence and personal comfort for so little money. The 1931 automobile models represent the settled policy of the motor car industry to stabilize business by improving quality and reducing price. Both these objectives have been achieved. To the benefit of your pleasure and pocketbook. If you have no automobile you must not fail to see the 1931 cars. Learn how cheaply and easily you can set your family and yourself free from the stodgy limitations of a stationary life, how you can have miles upon miles of open country for your playground instead of your own little sun porch or back yard.

If you have a car, you certainly will want to see these fine new ones. You will buy a new one some time. Perhaps, after seeing the 1931 models and learning their prices, you will decide you ought to have one now. Why be satisfied with an old or inferior car when, for so little money, you can have the best?

The Confederate Hundefly was a true diving craft. On February 17, 1864, she blew up the United States steamship Hoosatic. The Hundefly went down with her victim. This was the first success of a submarine's action with a warship and the only one until the World war.

RESIDENT DIES AT HOME
OF SON IN INDIANA

John Buchanan, aged 82, formerly of Holland, died Tuesday morning at the home of his son, Samuel Buchanan, at Valparaiso, Indiana. Mr. Buchanan formerly lived at 532 Central Avenue and managed a confectionery store on the corner of River avenue and Eleventh St. He was a Civil War veteran, a private in Company I of the 28th regiment of Michigan. He was also a member of the local G. A. R. Post.

The deceased is survived by his son, Samuel Buchanan of Valparaiso, Indiana. Interment took place Thursday morning at 11 o'clock in Pilgrim Home Cemetery. Rev. H. D. Ter Keurst, pastor of Trinity Reformed church, had charge of the prayer service which was held at the grave.

OTTAWA APPLE TREE
GROWS CHERRIES

C. O. Guild, Nunica, Ottawa county, has a greening apple tree with several clusters of wild black cherries growing on it. In some way the branch must have become fastened to the tree as the owner does not know of any grafting having been done. He invites all those interested to view the tree.

SUSPECTED OF STEALING
BERRIES AT AMAN PARK

Grand Haven Tribune—E. C. Colley of Allegan was brought into the county jail by the Sheriff and Deputy Spangler for the alleged larceny of huckleberries from Aman Park, located near Grand Rapids. He is expected to be arraigned today on a simple larceny charge.

John Anderson of South Tallmadge was also arrested by these officers for alleged use of automobile plates other than his own.

AREA BOY SCOUTS HEAR
GRAND RAPIDS MINISTER

"Youth and Age" was the topic that was considered by Dr. G. Goris of Neeland Avenue Christian Reformed church of Grand Rapids, on Sunday at Camp MIT-CHI-GA-MI, the Ottawa-Allegan boy scout camp near Ferrysburg. The services were conducted on the shores of Spring Lake and attended by all the boys of the camp and several visitors.

In the consideration of the topic Dr. Goris likened the spirit and actions of youth to the cares and the thoughtfulness of the fathers and mothers. He also told of the great ambitions of men, which were hampered and torn to pieces by a small act of God.

Jacob Braak of Spring Lake was in charge of the services and A. Warnar of Grand Haven was in charge of the music. The services next week will be conducted at the camp at 3 P. M.

Dr. Goris as a former pastor of the second Christian Reformed church of Grand Haven.

Miss Emilie Nienhuis of Crisp spent Saturday and Sunday with Miss Edythe Boeve of Fillmore. Both girls attend Kalamazoo Teachers' college.

PORT SHELTON

The Jolly Ten Club of Zeeland enjoyed a pot-luck supper at John Fris' cottage at Zwemer's Beach, near Port Sheldon Wednesday evening. A fine time was spent by those present, among whom were Mr. and Mrs. John Fris and children, Mr. and Mrs. Milan Huyser, Mr. and Mrs. James Westerbeek, Jacob Meeboer and Mr. and Mrs. Wm. Hieffje.

SAUGATUCK, DOUGLAS, FENNVILLE
AND VICINITY

Daily vesper services will be held on Camp Gray beach at Saugatuck conducted by Rev. William Chalmers of Philadelphia, general secretary of the Presbyterian board of Christian education, during the Presbyterian summer conference period, July 18 to 25. Mr. Covert has planned for his discussions a series of parables built around the natural features of Camp Gray. He was one of the organizers of the camp and this marks his first visit here in ten years.

Dr. and Mrs. R. J. Walker of Saugatuck have returned from a visit with Dr. and Mrs. Arnold Barr of Port Washington, Wis. Dr. Charles Ten Houten had charge of his practice during his absence.

Mrs. Frank Mathews and daughter, Mrs. Huns Stufault, Mrs. H. H. Adkins, Mrs. Harry Mort and Mrs. A. M. Bostater all of Pullman, made a business trip to Holland Friday.

Last week Thursday Mrs. C. F. Peck, accompanied her daughter Ella and son Charles, Miss Virginia Cass, and Miss Rachel Anderson of Allegan on a motor trip to Ottawa state park, Baldhead, and Lake-wood farm. At the latter place they viewed the menagerie of Geo. F. Getz and surrounding gardens. These are beautiful.

Deputy Hitchcock took three prisoners to Jackson this week. They were Harry Fales and Fay McCloud of Allegan and Frank Gura of Saugatuck. The former two had pleaded guilty to stealing thirty-five bushels of wheat from a Martin, Allegan county, farmer and are to serve from one to five years each. Last October Gura was convicted of violation of the liquor law but was released on bond when he proposed to appeal; but as this was not done Judge Miles sentenced him to jail one to four years and fined him \$225 including costs.

At the annual school meeting of District No. 3 at Douglas, last Monday evening, Henry Jager was re-elected to succeed himself as trustee for two years. The district also voted to pay \$65 tuition for the high school pupils. The financial report showed a balance on hand of \$1,494.30 to begin the new year.

Mr. and Mrs. Roscoe Wightman

and children of Galena, Ill., were visiting their parents, Mr. and Mrs. C. B. Wightman of Ganges, and Mrs. Wightman's parents in Holland.

Mr. and Mrs. Carl Wicks of Grand Rapids, Mr. and Mrs. Frank Wicks of Saugatuck, Mr. and Mrs. Will Wicks and Mrs. F. C. Wicks of Douglas and Mrs. Bertha Atwater and Clarence Davis of Ganges attended the funeral of Herman Wick near Fennville Monday.

Do you enjoy "music with your meals," a cooling dip in the pure water of old Lake Michigan, a social chat with neighbors and friends from far and near, pitching horseshoes, swapping yarns and proving how durned hard up you are? Well, here's your chance, for on Sunday, July 26, the various silver cornet bands of Allegan county and vicinity will join forces at the Allegan county park to do a mighty fine job of wind jamming. So pack the family into the old Ford, with a good basket of eatables, leaving the "backs and necks" at home for the dog, and join the big crowd. The party is sponsored by the bands of Casco, Chicago, Fennville, Saugatuck and the big county band and there will be enough soothing and inspiring sounds to give all an earful. The bands will play at 1:30 o'clock Sunday, July 26, at the Allegan County Park.

Officers installed by Fennville lodge of Odd Fellows last Tuesday night were: N. G. Matthew Helbach; V. G. James Smeed; Warden, Francis Atwood; Conductor, Lawrence Atwood; Treasurer, E. C. Foster; Fin. Sec., C. Lucas; Dist. Deputy, Grand Master, Geo. Menold; Clarence Lange is the retiring noble grand.

Several petty thefts by some industrious burglar at Fennville on Tuesday night were reported to Marshall McCann. Two rear tires were taken from the Spelman store truck; a hose from the Farm Bureau, and a couple of gasoline tanks drained from cars at the Ford garage, also tires from the Chevrolet and Ford garages.

Miss Daisy Corwin of Zeeland, daughter of Mrs. William Bryan of Ganges, left Saturday for Los Angeles to visit her brother, Harold Corwin, and family.

Walter Studley of Ganges has purchased the farm formerly owned by Gerod Pratt at Pier Cove.

The Fennville baseball team lost to the Holland East Enders Saturday at the city park diamond by the score of 6 to 2. Henshaw was not here to pitch and Fossick and Martin did Fennville's hurling, with Sonny Morse behind the plate.

George Plummer, a native of Douglas, having lived there more than 70 years, died at his home after a brief illness. He was the son of pioneer settlers of Douglas, on the outskirts of which he had owned one of the finest fruit farms in this section. Mr. Plummer had held many offices in village, school and church and was an active member in Masonic circles. The widow and one daughter, Irma, survive.

Two persons were overcome by the heat at Fennville Friday, with the highest temperature reported at 96. Robert Jorgens, 60, was removed from the canning factory when he suffered a heat stroke. Mrs. William Strickfaden had to be taken home from a Rebekah lodge installation Friday evening when she was overcome. Both were reported recovering Saturday.

The Saugatuck fire department was called to Gibson Friday to put out a fire in the home of S. Wade on the Erickson farm. The roof had caught fire from the chimney.

LEOPARD FROG IS BEAUTIFUL

The leopard frog, which one comes upon frequently at this time of year, making long, low leaps through the grasses of meadows and fields at considerable distances from any lake or pond, is one of the most beautiful of all our common frogs. Light and dark shades of gray, green or brown predominate in the colorings of the upper part of his body. The irregular darker spots are frequently ringed in lighter colors. The underparts of the leopard frog are white or a yellowish hue.

PLAYGROUND SEASON IS LARGER THIS YEAR

Grand Rapids Herald—City Manager Welsh has instructed Earl R. Knutson, recreation director, to estimate the financial needs to keep playgrounds open a week later than first was planned. The cost will be about \$1,500. Playgrounds and pools will be kept open for several days past Labor day because the board of education has decided not to open schools until Sept. 8. That will mean an 11-week playground season instead of 10 weeks this season.

Little Harm From Moss

As a general rule Spanish moss will grow on trees without proving a hindrance in any way. There are cases on record when it would seem that Spanish moss has contributed to the death of a particular tree, but other factors also were present.

TRAFFIC SIGNALS TO GUIDE FISH

The United States Bureau of Fisheries has installed traffic signals to guide inexperienced young salmon down Pacific Coast streams to the ocean. Enticing byways, usually irrigation ditches and shallow creeks which have a habit of drying up are being marked with traffic signs that even a fish can read. They are signals electrically charged and are in the form of nets stretched across the entrance way to the dangerous sidetracks. Once a salmon puts his nose against one of those charged meshes he is off that section of the river for life.

HAS TWO BICYCLES. AIR RIFLES AND \$91 LEFT OF HER \$3,000

For 10 years Mrs. Rose Amato, Chicago, hoarded the money she earned from her grocery store until she had accumulated \$3,000, which she concealed in three rolls of bills behind some tomato cans on a top shelf.

Monday she had left from these years of saving \$91 in cash, two bicycles, two air rifles and one swimming suit.

The explanation was given, police said, by her 13-year-old son, Johnny, who found the three rolls of bills, and then went among his friends to see that an end was put to the business depression in the Maxwell St. district, Chicago. Laden with \$10, \$20 and \$50 bills, Johnny and his associates flocked to the stores. He began talking to the police a short time after he had given his mother the bicycle, air rifles and swimming suit. From two of his companions the \$91 was recovered.

Mrs. Amato put the \$91 back behind the tomato cans.

GRAVEL WALL WELL TO SUPPLY NEEDS OF GRAND HAVEN MAINS

Engineers of the Harmon-Ness Co., who are in charge of the construction of gravel wall wells on the Lake Michigan beach at Grand Haven for the local water supply, believe that the first well put down will deliver the required amount of 1,000 gallons a minute. The well points have been in for several days and the gravel wall put down and agitated.

A small electrically driven pump was bringing up 400 gallons a minute yesterday and employees of the company thought that when a larger pump, being brought here today, was hooked on 1,000 gallons or more a minute will be secured. The company has undertaken to supply Grand Haven mains with 2,500,000 gallons daily.

The water from the one beach well now in, is cold and clear but the test in regard to its purity has not been reported on yet from the state chemist at Lansing. The sample was sent there some days ago. The well derrick will probably be moved in a day or two and a new drilling started if the first well proves as successful as is indicated when the larger pump is put on. Engineers thought that about four wells would supply the demand here.

Word to post the pump at the Lake Michigan beach here against further use by the public as the later samples showed one-tenth of one per cent B. coli, was received on Saturday morning by Nicholas F. Yonkman, city councilman who is to become city manager next month. Mr. Yonkman immediately ordered the well capped and the pumping mechanism removed. The well in question is located within a few feet of the gravel wall test well driven as the experimental drilling for the city water supply.

Mr. Yonkman said that there was no cause for alarm as the water from the new wells would be treated if necessary and even this might not be needed after the wells had been pumped for a time. He called attention to the tests in 1913 when the Kelly wells were sunk at the beach. The first report showed B. coli present but later reports from the University of Michigan and the Michigan State College, commented upon the high quality of the water from this source. Mr. Yonkman sent samples away today requesting tests from the five different laboratories.

Ship of Famous Pirate

"Adventure" was the name of the ship commanded by Captain Kidd. This famous pirate sailed from Plymouth, England, in April, 1699, in the galley Adventure, carrying 30 guns and a crew of 80. He put in first at New York and later went to Madagascar. He was eventually put to death for his piratical exploits.

FORMER ZEELAND LADS LEASE STATION OF VANDEN BERG BROS.

Zeeland Record—Jack and Dick De Witt, two former Zeeland lads, have leased the new Dixie Oil Station of Van Den Berg Bros., located at the intersection of State Road M-21 and Franklin St. Their father, Dick De Witt, formerly was the owner of Riverview Dairy which he sold and removed to Saugatuck. Jack has accumulated over three years of experience in conducting service stations as during that time he put in a shift a day at Van Den Berg's East End Station in Holland, and from this he has financed his three-years' education at Hope College, where he will finish as a senior next year. The boys are picking an encouraging number of patrons among their friends and business acquaintances.

DINGENIS BRANDT DIES AT HOME OF DAUGHTER

Dingenis Brandt, aged 95, died Thursday morning at the home of his daughter, Mrs. Henry Terpstra, three and one-half miles south of Zeeland.

Mr. Brandt came here from The Netherlands in 1875 and was a resident of Holland for 35 years.

He is survived by one daughter, Mrs. H. Terpstra, and four sons, Leonard and Marinus Brandt of Holland, Edward Brandt of East Holland and Cornelius Brandt, Covert. He also leaves 18 grand children, 18 great-grandchildren and three great-great-grandchildren.

Funeral services will be held on Saturday afternoon at 1:15 o'clock from the home of Mrs. Terpstra, near Zeeland, and at 2 o'clock from the Central Avenue Christian Reformed church of Holland. Interment will be in Holland Township cemetery.

Friends are asked to omit flowers.

Mrs. Wynand Wichers entertained about thirty guests Wednesday with a 1 o'clock luncheon at her summer home at Buchanan beach.

Llewellyn Michmershuizen of this city, who is employed by a construction company of Syracuse, N. Y., was in the St. Joseph Hospital there last week suffering from a badly infected arm.

New Drug Store Is Formally Opened Today

PECK'S DRUG FIRM WELL KNOWN SINCE 1864

A new drug firm to Holland but nevertheless an old established business is giving a formal opening today, Friday, and Saturday in the newly remodeled Mc Bride building on the corner of River Avenue and Eighth street. The store is an outgrowth of the well known Peck's Drug Stores of Grand Rapids, established by the Peck family in 1864.

The new store will go under the name of Peck's taking the place of the old Haan Bros. Drug Store, that has occupied this building for years. Charles H. McBride has had the building remodeled on all floors and the ground floor especially came in for a great deal of rebuilding. The entrance to the store is now at the corner instead of in the center of the building, giving one large show window in which to display goods. The last word in lighting arrangements have been installed and one of the finest soda fountains in Western Michigan, costing upward of \$8,000, is now in operation. The unique feature in this fountain equipment is that the ice cream is freshly made while you wait and naturally lightning speed is necessary to bring this about.

The Peck's Drug Stores have 25 different emporiums in Michigan and Ohio, three of them being in the "Buck-Eye" state and the balance in the "Wolverine" state. The leading cities in which Peck's Drug Stores are found are Grand Rapids, Grand Haven, Muskegon, Benton Harbor, Kalamazoo, Three Rivers, Ann Arbor, Flint, Port Huron, Bay City, etc.

Harry Sanford, president and general manager of the organization, has given the remodeling of the Holland store his personal supervision. Mr. Sanford spends considerable time at the Holland store each season and is well known here.

Howard McKinnon, an official of the firm with headquarters at Grand Rapids, has also spent much time in Holland.

Louis Lawrence, for many years proprietor of different drug stores in Holland, is in the city for the opening today and Saturday. Mr. Lawrence is a very successful manager of a Peck's drug store in Flint, Michigan.

Jake Haan, who conducted the old store at this stand, will remain as the pharmacist as will John Orerway, who was also in the employ of the Haan Bros. Drug store for many years. Others who will assist at the opening are Russell Brown, Sidney Kline, Otto Norton, Ernest Boswell and Willie Sloan, the maker of ice cream at lightning speed.

The Peck Company has its distributing point at Grand Rapids, having acquired the Dutch Master Cigar Co. warehouse on Ottawa St., having a capacity of 60,000 square feet.

In a quarter page announcement elsewhere in this issue the Peck Company tells of the free gifts that are to go to the public during the opening days.

Harry Sanford, general manager, will personally supervise the opening.

FOREST GROVE FARMER GETS BIG GRAIN YIELD

Ten days ago John Van Dam of Forest Grove cut one and one-half acres of wheat on the land he owns near Mud Lake and it required nine pounds of binder twine to bind it up. The wheat was of the American Banner variety. When seeding the pieces last fall he sowed one hundred seventy-five pounds of fertilizer with the grain to which Mr. Van Dam attributes the heavy yield. The grain was all standing up firmly.

MISSIONARY WILL NOT GO BACK TO CHINA

Dr. and Mrs. Edward J. Strick and three children arrived a few days ago from China for an extended visit with relatives in this vicinity. Dr. Strick has been engaged in medical work in Amoy, China, for the past twenty years - first as a medical missionary and later in a practice of his own. They will not return to China but expect to make their future home in California.

CONTRACTS ARE LET FOR REFRIGERATING PLANT AT FENNVILLE

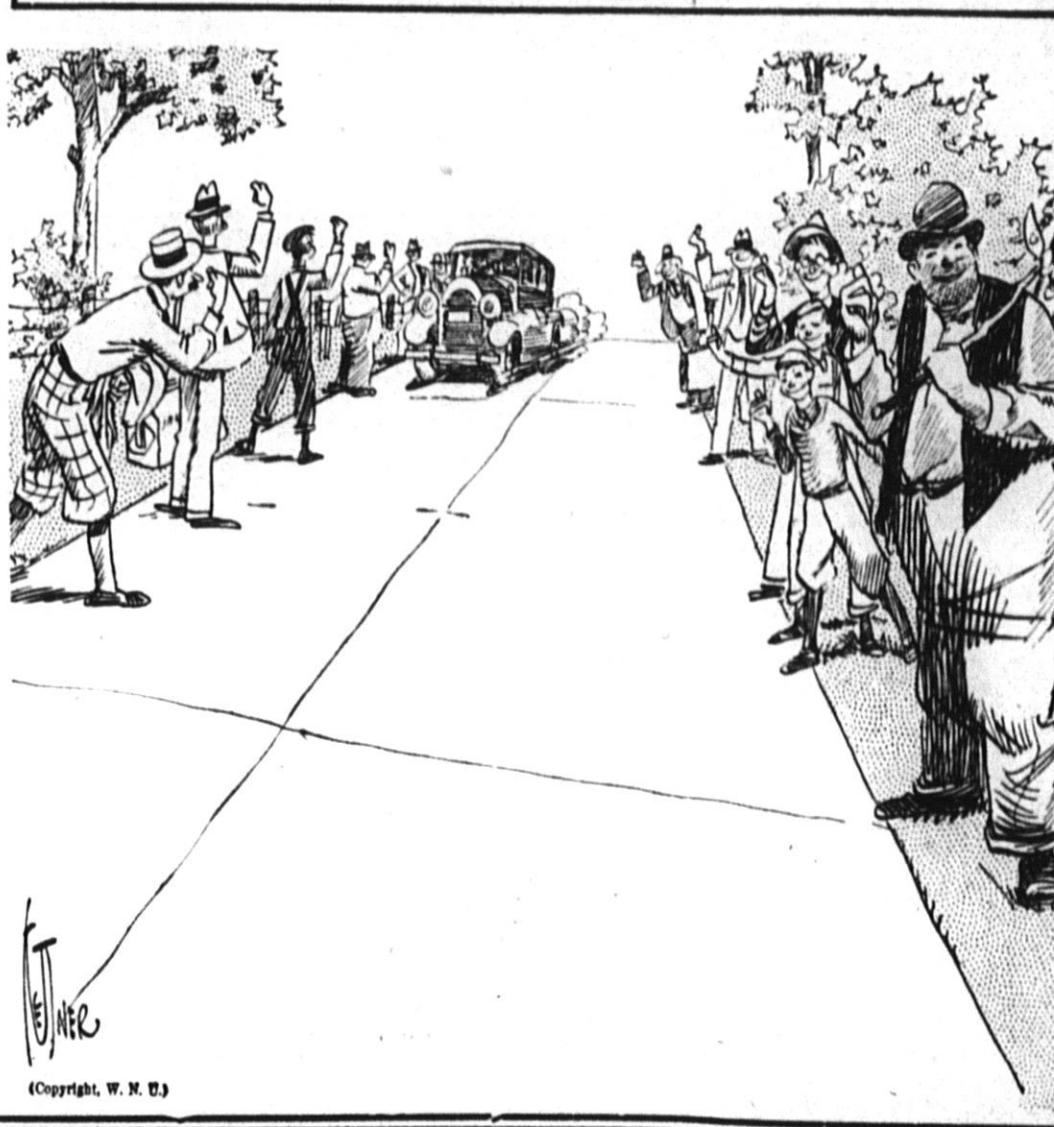

With the completion of plans for the installation of cold storage machinery in the present common storage building the Fennville Fruit Exchange, contracts were let for the materials and labor connected with this project. The proposed refrigerating scheme will give the Exchange a cold-storage capacity of 40,000 bushels of fruit, with pre-cooling rooms for earlier fruits, and equip it with the most modern of storage facilities.

The machinery used is all automatic, working on the same principle employed in small home refrigerators, with special humidity controls to keep the air in the cooled rooms containing the proper amount of moisture for the best storage conditions.

Contracts for the installation of the cork insulation and the refrigerating machinery were awarded to the Mundet Cork Corporation, one of the largest insulating firms in the country, and to the York Ice Machinery Corporation, also a well-known concern. Work on this project will commence immediately, with probable date of completion September first.

Allen Jacob Heeringa, a member of the Fourteenth Street Christian Reformed church, Holland, who has been training for missionary work in the Moody Bible Institute, Chicago, will be graduated from the Missionary Course on August 6. He has had additional medical instruction. Graduates of all courses number 113 for this term.

HOLLAND SOLDIER IS SIGNAL- LY HONORED AT CAMP

Although Company D won the Badger trophy for three consecutive years and can now claim it as a permanent prize, more honors have come to the National Guards.

This year Sergeant Gerald H. Bonnette was signally honored for being the best soldier at Camp Grayling in the National Guards after all contestants had been eliminated.

The medal is awarded each year to the best all-around soldier at the camp. Sergeant Bonnette was given the highest rating in competition with 5,000 men.

Factors which influenced the selection of the Holland man were general qualifications, appearance, knowledge of military etiquette, knowledge of weapons employed in his branch of service and past record.

The Stewart medal is the highest individual award that can be bestowed upon a soldier at the camp. The selection is an indication of the high grade of men in Company D and brings honor to Captain Henry A. Geerds. First Lieutenant Martin Jippinga and Second Lieut. Richard Smecne.

Sunday afternoon at 2 o'clock Sergeant Bonnette saw the entire camp comprising infantry, cavalry, field artillery, heavy artillery, medical detachments and auxiliary regiment, including the aviation unit, pass in review for Governor Brucker. At the side of the governor, Sergeant Bonnette reviewed more than 5,000 in the troops of the camp.

This is the second time Company D has been honored by having the best soldier at the camp. Lieutenant Franklin Fazakerly of Company G, 126 infantry, formerly a sergeant with Company D, was a winner of the Stewart award.

It was Gov. Brucker who made the presentation of the medal to the local man with due military ceremonies.

HOW BULLFROGS SPEND THE DAY

During these long warm summer evenings the hollow "jug-a-rum" of the bullfrog rises above the chorus of all the other creatures in the vicinity of the marshy lakes and weedy ponds where he makes his home. His daytime hours are spent feeding on bugs, snails and other delicacies, sleeping, or basking in the sunshine on some half-hidden log.

GRAND HAVEN LEATHER USED ON 100 PER CENT OF FURNITURE IN SHOW

Grand Haven Tribune - At the beautiful collection of home furnishings which was arranged for the decorators' conference in Grand Rapids last week, 100 per cent of the upholstery leather used in the display was made by Eagle-Ottawa Leather Co. of this city, said Mr. Hatton when speaking of the show.

The exhibit is being continued this week at the Klingman building and many local people have viewed the unusual collection of household furnishings which is said to be an artistic arrangement. Leather for use in dens, dining room chairs, lounge chairs, foot stools and office furniture is being strongly urged by the decorators and the exhibits were particularly beautiful.

Manufacture of automobile leather is low at the plant right now as this is the beginning of the dull season in car making. Shoe leather is to be pushed again in two weeks and the cut sole department has been increasing the force for the past several months.

A large order for shoe leather has just been received from Italy. The export business in this department is growing constantly said William Hatton, president of the company.

Sigourney Russell of Ottawa Beach entertained with a house party. Miss Hilda Pantlind, Miss Mary Lockwood and Charles Armstrong were his guests. They attended the dance at Saugatuck late Saturday evening.

Boyd Pantlind, Jr., who is attending the summer session at the University of Michigan, Ann Arbor, will motor to Ottawa Beach with his cousin, Miss Sally Blake of New York.

Traffic Law Violation at the Top Again

211 CONVICTIONS REPORTED BY PROSECUTOR DETHMERS SINCE FIRST OF YEAR

The report of Ottawa County Prosecutor John R. Dethmers, for the half year from Jan. 1, 1931, to June 30, 1931, shows 234 prosecutions conducted in the county with 211 convictions four acquitted, 13 dismissed on payment of costs and number dismissed on examination, six. This includes not only the circuit court but all justice court cases in the county as well. As usual in this report, the motor vehicle law violations led with 118 prosecutions, 112 convictions, one acquittal, three

dismissed on payment of costs and two dismissed after examination. The liquor law violations did not loom up as large as usual there being seven arrests, six convictions and one acquittal. Disorderly persons which included drunks, numbered 33 and all were convicted. Of the major crimes, breaking and entering led, to the hard times Mr. Dethmers believes. There were 15 arrested, 13 convicted and one case dismissed paying costs and examination. There were 13 prosecutions for assault and nine convictions. Three arson cases resulted in three convictions. There were ten larceny prosecutions and nine convictions. The conservation law prosecutions numbered 11 and all were convicted. Other crimes included abduction, passing checks without sufficient funds, firearms, forgery, fortune telling, fraud, larceny, non-support, offenses against public health, rape, school law, utilities law, weight and measures and highway law, on the list also.

THE LOVE LIFE OF A GARDEN SPIDER

The garden spider goes about his love-making in a very cautious manner, and well he may, for if the lady to whom he makes his advances does not welcome his attentions she is quite likely to kill him and feast upon his body. Even after she has accepted him as her mate she may grow tired of him and kill him anyway.

Marine Man Saw Ship Crushed by Ice Floes

GRAND HAVEN SAILOR WHO DIED WENT FROM BOATING TO POULTRY RAISING

Joseph Clark Deremo, veteran marine man of yesterday who later became a most successful poultry raiser died at Grand Haven. Clark Deremo, as he was best known to his associates, was at one time one of the well known marine men in the east shore and operated his own tug, "The Theresa D." in the fishing business for a number of years.

He was born in Crockery township, Ottawa county, on Dec. 12, 1853, but at an early age moved to Grand Haven. He started out as a young man on the lumber tugs belonging to the Ferrys and Kirbys, and later became an engineer. One of the thrilling experiences of this seaman was in 1885, the year the steamer "Michigan" went down off this shore, crushed by the heavy ice field in which she was caught. Mr. Deremo was on the tug "Arctic" as an engineer with the late Capt. Charles Lyman, one of the best known marine men of Ottawa county at that time as the captain. For days the little boat was held fast in the ice and some of the crew were obliged to walk ashore, entailing harrowing experiences and suffering as they dragged over the many miles of rough ice.

Mr. Deremo delighted to tell of the experience when as the ice grew thicker the little boat in which he sailed was forced atop of the ice as if on a giant snowball, completely out of the water. Ice had to be chopped and a hose run down several feet to get water for the boilers.

When the "Michigan" finally had to be abandoned, part of the crew were taken aboard the "Arctic" which was released after many days, when a chance in the wind broke up one of the heaviest ice floes ever recorded on this shore. With the recession of the flow the Michigan sank a short distance south of Grand Haven harbor.

About 12 years ago Deremo disposed of his fishing interests and seeking some form of employment he began to raise chickens. It soon became a business of considerable proportion and from a few hens in a little coop it developed into an enterprise of about 700 or 800 chickens and a two story chicken house, which was equipped with the best for producing eggs.

For years Deremo eggs have been the sign for quality eggs, and many crates were shipped to Chicago where they were served each day at some of the finest hotels in that city. The success of his business lay in study and hard work he often said.

NEAR DROWNING ACCOMPANIED WITH UNUSUAL EVENTS

Evert Buurma, 12-year-old son of Mr. and Mrs. H. Buurma of Chicago, who have a cottage north of Lakewood, was nearly drowned last Thursday afternoon in Lake Michigan near Tennessee beach.

The boy was swimming in the lake a short distance north of Lakewood farm and attempted to reach the second sand bar from the shore when he went down. Several people in the lake noticed the boy's plight and shouted for assistance.

Miss Lois De Pree, aged 18, Hope College student and daughter of Mr. and Mrs. Henry DePree of this city, missionaries here on a furlough, and John Anderson, aged 15, of Canton, Ohio, who is visiting at the cottage of Mr. and Mrs. Kenneth De Pree, swam to rescue the boy. Mrs. N. W. Borders of Kansas City, entered the water and also gave assistance.

Miss DePree dived into the water and reached the boy on the bottom of the lake. Standing submerged in eight feet of water she pushed the unconscious youth to the surface with one hand. Anderson, assisted by Mrs. Borders, pushed the boy through an inflated automobile inner tube. The Buurma boy had gone down for the last time and was under water more than ten minutes. They then succeeded in getting the boy into a boat and rushed him to land, where Herbert Dwight took charge of the situation and revived the youth by resuscitation methods.

Dwight is a 12-year-old Boy Scout and lives in Cincinnati, Ohio. He was visiting his grandmother, Mrs. D. T. Vail, at Waukegan. Dr. William Westrate was called to the scene and arrived in time to complete the work started by the scout.

PROMINENT RESORT WOMAN DIES

Mrs. Fred Frödin, well known at the resorts and Holland, died at the local hospital at the age of 74 years. For many years she, with her late husband conducted the Beach House at Virginia Park, but of late years she made her home in Chicago and spent part of her summers at Virginia Park.

Funeral services were held Tuesday morning from the Nibelink-Notter Funeral Home. The body was taken on the noon train to Chicago where funeral services were held from the Nelson Funeral home Wednesday afternoon.

The Holland services were in charge of Rev. J. Van Dyke of Central Park and Rev. James M. Martin, pastor of Third Reformed church. Mrs. Frödin is survived by six children, Mrs. N. Mortensen and Mrs. J. Pederson of Chicago; Frank Frödin, Miss Ella Frödin, Mrs. Fred Bruner of Holland, and Mrs. Russell Van Ry of Hartford, Conn.

The Ottawa Beach and Castle Park boys are competing in a series of tennis matches. The first of the series was played off Thursday afternoon with the Ottawa team winning 8 matches to 3. The Ottawa players include Colby Ryan, Raymond Johnson, Edward Wells, George Warty, Tom Tholts, Chester Idema and Robert Gamble.

PATENT GRANTED TO GRAND HAVEN COMPANY

The Challenge Machinery company of Grand Haven has been assigned United States letters patents on a chase locking device known to the printing trade as the Challenge Quick Lockup. The patents were granted to J. Edgar Lee and Phillip Beatty in February. Mr. Lee is president of the local company and Mr. Beatty is in the company's employ. The quick lockup is said to be important in making

daily telephone directory printing possible in the larger cities. Directories are kept up daily and must be delivered to the offices early in the morning so that operators may be aware of removals or additions of names. The chase was developed here for the Detroit office but its use soon spread elsewhere.

Dr. J. B. Nykerk, dean of Hope college, is in Ann Arbor in the interest of Hope college.

OTTAWA WAR VETERAN ILL DROWNS IN RIVER

Emil Teska, 37, drowned in the Grand river near his home in High Banks, east of Grand Haven, Saturday morning. He was seized with an epileptic attack and fell into 2 feet of water. He had been fishing.

Teska, who was a World War veteran, came to Michigan a year ago from Berwyn, Ill. He is survived by his widow and two children.

AUTO CRASH RESULTS IN ARREST OF DRIVER

A slight accident occurred Friday night on US-31 two and a half miles south of Grand Haven when a car driven by Joseph Bulcher of Chicago, 70 years old, hit another car driven by Herman Bathary of Agnew on a curve. State police stated that Bulcher got over too far on the left hand side of the highway and later arrested the driver on that charge. Both cars were considerably damaged but no one was injured.

Find More Army Worms on Farms In This County

Olive, Zeeland and Blenden Townships are Added Battlegrounds—Ants Too, are Infesting City and Rural Districts—Remedy Given

Army worms have been reported from Jamestown, Zeeland, Olive, Blenden and Allendale townships. Many more farmers have army worms than have reported them, says Agricultural Agent Milham. These insects hide during the day and feed at night. They will be found on the ground in out fields until the leaves are well stripped from the oats and some oats clipped from the heads. After oars are stripped of leaves the worms march out and attack corn, potatoes, onions, celery, beets, cabbage and other crops.

Farmers are advised not to cut oars in which they are working until oars are ripe because the worms will work in green bundles and cause damage. Plowing two or three furrows around infested areas, turning furrows toward the insects prevents them from climbing out. Worms falling into the furrows are killed by the hot sun on a clear day.

In case poison is used the following formula is advised: 1 bushel or 20 pounds of bran, 1 pound of white arsenic (not arsenate of lead) mixed dry. Two quarts of molasses, two quarts of water and one ounce of banana oil or amylocetate mixed on the bran. Four oranges may be used to replace banana oil. They should be run through a food chopper. The poison bait should be broadcast, one pound per acre, in the evening in fields that are infested.

Mr. Milham has distributed over 200 pounds of white arsenic in the last two weeks. The poison being distributed is material left over from the army worm outbreak at Harlem several years ago.

A sudan grass meeting will be held at the A. Coy farm at Beaverdam at 7:30 P. M. Monday, July 27. Mr. Coy planted the seed the second week in June and at the present time the grass is over four feet tall, is growing rapidly and should yield two tons of hay per acre. Mr. Coy is planning to cut this hay with a grain binder next week. The Sudan Grass will then start up again and make a second hay crop or may be used for fall pasture. Agricultural Agent Milham states that farmers who need emergency hay or pasture crops should attend this meeting, see the crop growing and learn more about the crop so they can use it another year.

Ants have become a serious pest in many city and country homes this summer destroying food and making themselves obnoxious. A good remedy for ants is a syrup which acts as a slow poison. The ants taking the poison back to the nests, feeding the young and slowly exterminating the entire colony.

A formula recommended by the Agricultural Agent is made from one pound of sugar dissolved in one quart of water to which is added 125 grains of arsenate of soda. Boil the solution, strain and cool. A lit-

HIRE PLANE TO DIE: JUMPS INTO THE CEMETERY

On the twenty-fifth anniversary of his birth, George Wallace of Jamestown, N. Y., grower of dahlias, leaped from an airplane in which he had hired a pilot to take him for a flight. His body struck the center of Lakeview cemetery. Wallace's father said he had no idea why his son desired to die.

tle honey added makes the bait more attractive. Place the syrup on bread or a sponge on a heavy paper at night when ants are feeding at a point when they come into the room. Care should be taken to remove the poison before children reach it in the morning.

Ants in lawns may be killed by injecting from one-half to two ounces of carbon disulphide in each ant hill. An oil can may be used for this purpose. Close the hole after injecting the solution and cover area with a wet blanket or by running a sprinkler. Carbon disulphide is inflammable and explosive and should be kept away from fire. Termites or white ants work in house timbers. They may be killed by injecting kerosene or spraying and soaking with kerosene. Carbon disulphide may be used but this solution is very unpleasant smelling.

Poultrymen are advised to look out for lice and mites on poultry and in poultry houses. The poultry industry is coming back rapidly now and farmers should take advantage of the situation, says agricultural agent Milham. Catch a few birds and examine them for lice. If present use black leaf forty or nicotine sulphate on the perches an hour before birds go to roost. Spread with an oil can or a paint brush so that a quarter inch stripe is on top of perches. Apply a second dose one week later.

Mites are found in cracks and joints, on perches and around nests. They are usually red or gray in color. Painting perches in the morning with carbolineum and wiping surplus off at night and cleaning and painting nests at night and wiping surplus off and rebreeding in the morning will protect until next spring. Mites lice cut production, worry birds and cause earlier moulting than normal. Feeding a wet mash at noon that birds can clean up in 15 minutes will help maintain production and retard moulting.

SPRAY SERVICE

The spray for the second generation of codling moth should be completed on standard variety varieties of apples, in your county by the 27th of July. It is now too late to use arsenicals on summer and early fall varieties.

In the case the fruit is to be marketed without washing with chemicals, a thorough drenching spray, using two pounds of arsenate of lead in 100 gallons of water, with or without dilute lime sulphur, should be applied and this should be the final arsenical spray of the season. If, on the other hand, the fruit is to go through a masher, 3 pounds of arsenate of lead may be used in 100 gallons of water, with or without dilute lime sulphur, and this spray may be followed by two or more similar cover sprays at intervals of two weeks.

INDIA and Its Peoples

By Capt. L. R. Cloud, Robinson

One Cannot Generalize About India

NINE people out of ten still talk of the people of India, when they mean the peoples of that continent. When over a period of time one has been brought into contact with the business-like pars of Bombay, the indolent and easy-going Burman, the cultured Brahmin of southern India, the primitive Kohl or Bhil of the jungles of central India, the emotional inhabitants of the towns of Bengal, the cheerful hill men of the eastern Himalayas, the great landowners of the United Provinces and the Punjab, the proud aristocracy of Rajputana, the Wild Afridi of the Northwest frontier and the picturesque people of Baluchistan, one realizes it is impossible to generalize about India.

One does not generalize about Europe, and in some respects Europe is far more homogeneous than India. Nevertheless there are certain rough generalizations which may be made. Thus it may be said that India is essentially an agricultural country, 72 per cent of her people, or approximately 219,000,000, being dependent in one form or another upon agriculture for their livelihood. The population as a whole lives in small towns and villages. There are on the whole of this huge continent less than 750 towns with a population of 10,000, and only 30 towns with a population of 100,000 and upwards.

Again, take the case of climate. In a general way India is a hot country; and the fact that there are parts of India where cold weather is experienced during certain seasons, and other parts where winter of almost arctic severity prevails, does not disprove the general contention. If India were not a hot country, it is unlikely that her people would consume about 2,000,000 miles of cotton cloth every year, as in point of fact they do.

It may also be asserted that as a general rule the outstanding characteristics of Mohammedan architecture are its simple grandeur of outline, its purity and its stateliness, while Hindu architecture is characterized by an amazing detail of ornamentation and elaborate intricacy of design.

Lastly, it is undoubtedly the case, excepting in these regions which are dominated by Mohammedanism, that the Hindu doctrine of transmigration exercises an almost universal sway.

These are generalizations which are unquestionably true. But having made them as a protest against a too rigid interpretation of the statement that one cannot generalize about India, let me add that I subscribe to it on the whole. Travel teaches one to recognize the amazing diversity of this continent; and, indeed, it is to this very diversity, which presents such rich studies in contrast, that is attributable no small part of its singular charm. BEATS UP ON MAN, WALKS INTO COURT

Grand Haven Tribune—Incensed over remarks that a man had made concerning himself and his fiancée, a local man took keen delight, he said, in giving the so-called gossip a good beating. He then walked into the office of Justice C. E. Burr's court today and offered to pay the damages, saying it would be the sweetest bill he ever paid. Justice Burr informed him no complaints had been made and therefore he could not accept any money. "Undoubtedly you will have plenty of opportunity to pay damages, as according to your story you assaulted the man on his own property," explained Justice Burr.

COUNTRY CHURCH OR VILLAGE CHOIRS TO BE IN STATE SINGING CONTEST

The committee in charge of the choir singing contest which is to be held at Michigan State College, on Farmers' Day, July 31, apparently had faith in the power of suggestion as the required number to be rendered by each choir is "A Joyous Christmas Song," by Geveart.

Whether the choice was made to suggest that better times are coming or that cooler breeze will sometime soothe fevered brows, the selection should prove popular with the audience which will hear the winning choir during the afternoon program. The choir will obtain cheer from the \$100 check that will be given by the R. E. Olds Community Fund as first prize in the contest.

Any choir from a country church or from a village in Michigan having a population of 2,000 or less is eligible to enter the contest. Two selections must be given by each choir. One of these is optional and the other must be the song by Geveart. Four prizes will be given.

Entries for the contest can be sent to the director of short courses at Michigan State College.

EXTRA TEACHER HIRED FOR GRAND HAVEN HIGH

To provide for the increased enrollment of the Grand Haven high school this fall, an extra teacher was hired by the board of education there last night.

Miss Bertha B. Hunter of Kalamazoo was employed to teach Latin and English. More than 6,900 students will be enrolled in the school next fall.

Miss Luella Pelton, a former teacher, was hired to succeed Miss Ruth Dumke, who was married this summer. It is a rule of the board not to hire married teachers.

Rev. and Mrs. William Ooms left Monday for Nova Scotia, Canada, where Rev. Ooms will serve as pastor of a Presbyterian church there. Mrs. Ooms was formerly Miss Bertha Olgers of this city.

Alumni Letter From Germany Describes Duels

TALK ABOUT PRIZE FIGHTING! IT'S TAME COMPARED TO THIS GERMAN COLLEGE BLOOD SWORD JABBER

Talk about rough college sports and the flow of blood, the American Colleges have nothing on Germans according to a letter written by Dr. Wilhelms J. Potts to his brother Everett, now attending Hope College.

Dr. Potts, of the class of 1918, is now taking a post graduate course in surgery in one of the big colleges in Germany. He graduated from the Rush Medical in 1925, and before going to Germany, practiced in Oak Park, Ill., and is well known at Hope College and in Holland, and therefore the following letter on College sword fighting will not only be interesting to Hope College students but to News readers as well. Here is the letter printed in the Hope Anchor, written by Dr. Potts to his brother studying at the local college:

Dear Everett: Thank you for the Anchors. It is always a pleasure to get the school paper and learn what is going on at the old stamping ground. I want to tell you about the most interesting thing I have seen in Germany—Ranier fighting, or "Schlager fechten" between the university fraternities. You have often read, as I have, about the sabre cuts in the cheeks of the German students, but to see them being made is a sight one never forgets.

First, let me explain about the fraternities, or corps, as they are called here. They are formed of groups of students very much as at home with secret signs of recognition, their own houses, etc. The main feature of their union, however, is rapier fighting. Approximately fifty per cent of the boys belong to these and all of them must fight at least three times during the first two years at school or lose their membership.

Formerly, the fights or "Meurs" were more or less open to recognized friends, but recently, because of the opposition that has arisen against them spectators have been barred. Thro the diplomatic purchase of some of the beverage for which Munich is famous, I obtained an invitation to see a Mensur. We had to go out of Frankfurt to a suburb because of a law that makes rapier fighting within the city limits illegal.

At seven o'clock Friday morning,

Herr Hockenbriech and I went to Oberad to the matches between his Corps—Germania and Frisia. We came to a large room, not a fraternity house, but a deserted hall where preparations were already under way. One Corps was grouped in each end of the long hall and, except for the necessary formal arrangement for the fights, no word was spoken or sign of recognition passed between the men of different groups. Each man wore the insignia of his corps—a brightly colored cap and girdle. It took about fifteen minutes to get the two boys padded and ready for the first engagement. First a heavy padded leather jacket covering shoulders and chest was strapped on. Then a long, soft, padded, leather band was wrapped around the neck well up to the chin to protect the jugulars. The right arm from shoulder to hand was protected in a similar way. A pair of heavy, open, steel goggles projecting about one inch from the face to protect the eyes were strapped on and buckled behind the head. The straps passed across the upper half of the ears to keep them from being snipped off. The men are ready and except for the eyes and the upper half of the ears, the entire head is exposed.

The rapiers are brought out. The shivers played tag up and down my spine when I saw them. These are swords with narrow, tapering, steel blades three feet long, sharpened at the ends on both sides for about ten inches. Around the handle is a large round, steel guard about six inches in diameter. It is used to ward off the blows. The contestants, one from each corps, are given their rapiers and stationed facing each other about three feet apart. The umpire stands off a bit with a score card. The surgeon, usually one of the assistants from the surgical department, and an old corps man, stands by. It is his duty to stop the fight if one of the boys is too badly cut or loses too much blood to continue the match, and to sew up all wounds after the fight is over.

Each man has a second from his own corps who stands at his own man's side. These men are protected with steel wire helmets and padding, and it is their duty to start and stop the fight at regular intervals. They each have a long dull rapier with which they hold high those of the contestants until the signal is given to start, and with which they can stop the fight instantly by thrusting it in the way of the fighter's weapon.

The fight is on, the men all stand around in a circle. The fighters are as tense as fiddle strings. The seconds hold the rapiers up and simultaneously shout, "Hoch!" Clash, Clash! Clash, Clash! four times the boys strike at each other's heads. The second jump in and with their own weapons stop the blades of the contestants lest in their eagerness one should deliver an extra blow to an opponent who has lowered his weapon. The surgeon steps up to see whether any great damage has been done. If not the battle goes on.

You ask, what prevents these fellows from cutting each other's heads off.—The guards on the handle of the rapier. The blows must be delivered from above downward. There may be no whacking at one another's face from the side, but just the downward stroke. Consequently the blows fall upon the guard and injuries are received only from rebounds of the blade.

A Mensur consists of forty "Partei," a partie being a series of four strokes. How would you like to have someone take one hundred and sixty cracks at your head? The fight goes on. Again and again the boys step up into position; the command, "Hoch," is given and each time four clanging blows descend. After the eighth "Partei" I saw something red running down one lad's cheek. After the fortieth "Partei" had been fought a few of the red streaks had reached his shoes. The surgeon took him to his end of the room and sewed up, without anesthetic, of course, two cuts in the cheek and one in the scalp. The victor got only a scratch on the forehead.

During the forenoon there were seven matches. The little fellow in the third match had a branch of the temporal artery cut and had to give up the fight. He wouldn't have quit, however, if the surgeon hadn't interfered. The winners are given by the umpire on the basis of technique of fighting and self-defense. Between engagements the boys sit around and drink some beer and discuss the fine points of "Schlager fechten" no attention is paid to the wounded comrades. They just sit up on a straight backed chair and get sewed up and bandaged up. After that they watch the rest of the performances

with keen pleasure. You say, as anyone who hasn't grown up in this student atmosphere says, "what barbarism!" They don't feel that way about it at all. They love it and claim that it is a less dangerous sport than boxing or football as it is played in America.

To me the most interesting feature is the psychology of it all. There is this rule which absolutely may not be broken—the contestants may not move their heads to avoid a blow. If one does, the match is lost at once, and if it happens again in a later match the member is dismissed from the corps. In other words this is what "Schlager fechten" amounts to—fight like a man and take your punishment without wincing. That feature must have a tremendous influence on these young fellows from 18 to 20 years old. I saw one boy sit up on his chair for one half hour without batting an eye while the surgeon sewed up a number of cuts. These fellows really enjoy the sport and are proud of their scars. It is not uncommon for a man to fight as many as ten "mensurs." The volunteer assistant in my surgical ward has fought fifteen times and has a face that looks like the map of the Balkan state after the Versailles treaty.

Pay THREE MILLION, THREE HUNDRED TEN THOUS. ND. NINE HUNDRED SEVENTY ONE AND 99/100 \$3,310,971.09 TO THE ORDER OF		VOUCHER NO. 6 12
State Treasurer Lansing, Michigan		

Primary school fund benefits from largest tax payment ever made by Telephone Company. State, federal and local taxes of Michigan Bell total \$5.51 for each telephone in service during last year.

Three million, three hundred ten thousand, nine hundred seventy-one dollars and nine cents was the amount written on the face of a check handed to O. B. Fuller, state auditor general, at Lansing, Tuesday, June 30, by a representative of the Michigan Bell Telephone Company. The check was tendered in payment of the Telephone Company's state tax bill for 1930. Only one other check, representing the joint tax paid by the New York Central railroad and the Michigan Central railroad, was larger.

The Michigan Bell Company's tax payments this year to state, federal and municipal governments, represent \$5.51 for each of the average of 681,976 telephones in service during 1930, or the net earnings from approximately two of every five telephones. According to Walter I. Mizner, treasurer of the Michigan Bell Company, who signed the check, the Telephone Company pays more than 23 per cent of the total amount that will be paid the state of Michigan this year by utility companies. Under the state law telephones and telegraph companies, railroads, railway car loaning companies, and express companies pay taxes to the state in lieu of local taxes. This money is placed in the primary school fund and later disbursed among school districts in proportion to the number of children of school age residing in the district at the time the annual school census is taken. It is estimated the primary school fund for 1931 will receive from utility taxation approximately \$14,100,000.

GRAND HAVEN PIANO FACTORY STARTS IN LARGE ORDER OF RADIOS

The radio department of the Story and Clark piano company at Grand Haven, will be revived in a week to supply radio chassis to three concerns for which the local company has received several large orders to be completed by Sept. 1, said W. H. Huth, radio engineer, who has been in the city for the past three days.

The "Angelus" line, formerly manufactured in Los Angeles and one of the most prominent radios on the west coast and the "Revere" line, formerly made in Ohio, and the "Federal Orthophonic," nationally known line, will be manufactured in the local plant beginning about Aug. 1.

These are all moderately priced sets and are expected, said John De Groot at the Story and Clark office, to be made in large quantities. The higher priced Story and Clark line will be produced later with improved economic conditions.

HAMILTON TRANSPANTER

Positive Steering Device. No Driver Needed. Power Marker Avoids Side Draft. Transplants Expensive Labor Bills into Profits.

The Only Transplanter with a Patented Steering Device

STEERING DEVICE: The Hamilton Transplanter has a Patented Steering Device. We use a guide wheel. It is self-evident that a guide wheel will positively follow a mark or small furrow. This prevents deflection in the row.

TRANSMISSION: We use a high grade roller chain drive in combination with an enclosed worm gear operating in a bath of oil. This is an unparalleled drive for power machinery.

MARKER: We use a Power Marker. This eliminates any possible side draft on the tractor and assures straight rows.

PLANTING WHEEL: We are originators of the durable plant pocket made of a small chain in combination with a round spring which allows a two-way tension. This provides a delicate grip which is non-injurious to tender or frail plants. The plant pockets are rust-proof and seasonal and frequent replacements are not necessary.

SEFETY: Our worm and gear are entirely enclosed. This provides the greatest safety to operators.

Used and reconditioned machines at attractive prices.

ANY TIRE manufacturer or dealer who tells you a "breaker strip" is a "ply"—or that tire performance depends on weight—deceives you.

BEWARE THE MAN WHO TELLS You THIS is A PLY

It is NOT A PLY, it is a breaker strip! The National Better Business Bureau defines a "ply" as follows—

"A ply is one of a number of layers of rubberized cotton fabric, either cord or square woven, extending from bead to bead, and forming the body of the tire."

Four or six plies form the carcass or the body of the tire. If the fabric does NOT extend entirely around the tire from BEAD TO BEAD, IT IS NOT A PLY. The illustration points out the difference between a ply and a breaker strip. It also points out the "beads."

Certain manufacturers and dealers, jealous of Ward's commanding position in the tire industry, have made misleading statements about Ward's tires. They have published and displayed misleading charts—they have shown sections of obsolete tires—they compare their "second line" tires with our "first line" tires—and now in advertising and selling talks, "breaker strips" are being called "plys." These misleading statements, however, are cleverly worded and the breaker strip is called "a ply under the tread." No twisting of words, however, can turn a BREAKER STRIP into a PLY. Every tire manufacturer and dealer knows it, AND WE BELIEVE THE CUSTOMER, TOO, IS ENTITLED TO KNOW THE FACTS.

BEWARE THE MAN WHO SAYS WEIGHT DENOTES SUPERIORITY

Many readers are familiar with the recent Firestone ads which compare Firestone tires with unidentified mail order tires. Weight has been given prominence as one of the items of comparison. Montgomery Ward & Co. maintains that weight is NOT AN INDICATION OF TIRE QUALITY.

We recently purchased five Firestone Oldfield tires and five Firestone High Speed tires—the High Speed tire is more expensive than the Oldfield. These tires were carefully weighed by Dr. Ellery H. Harvey, and the results are shown in the statement at the right.

In the first place, note that there is a variation of five ounces between the heaviest and the lightest Oldfield, and that there is a six-ounce variation between the heaviest and the lightest Firestone High Speed. MOST IMPORTANT OF ALL NOTE THAT THE AVERAGE WEIGHT OF THE OLDFIELD IS ONE POUND FIVE OUNCES HEAVIER THAN THE AVERAGE WEIGHT OF THE HIGH SPEED TIRES. If

weight denotes superiority, why is the cheaper Firestone tire heavier than the more expensive Firestone tire? Surely this should convince any unbiased person how ridiculous it is to consider weight an indication of tire quality. Again we say, WE BELIEVE THE CUSTOMER IS ENTITLED TO KNOW THE FACTS.

On June 20, 1931, I weighed five Firestone Oldfield tires on a tested Howe scale. Immediately after on the same scale I weighed five Firestone four ply High Speed tires. All ten tires were size 4.50-21. They weighed as follows:

Firestone Oldfield	Firestone 4-Ply High Speed
17 lbs. 11 oz.	16 lbs. 2 oz.
17 lbs. 8 oz.	16 lbs. 5 oz.
17 lbs. 9 oz.	16 lbs. 1 oz.
17 lbs. 6 oz.	16 lbs. 7 oz.
17 lbs. 7 oz.	16 lbs. 3 oz.
87 lbs. 9 oz.	81 lbs. 2 oz.
Avg. wt. per tire 17 lbs. 8 oz.	16 lbs. 3 oz.

Variation between lightest and heaviest tire 5 oz. 6 oz.

Here Is THE TRUTH About Ward's Riversides and Trail Blazers!

The RIVERSIDE is our first quality tire. It is made by one of the largest tire companies in the world. It is built to one of the most stringent sets of specifications in the tire industry. It has been sold by Ward's for 19 years. Millions are in use today. Riversides are backed by a guarantee without limit as to time or mileage. Other famous nationally advertised tires that are equal to Riversides are much higher priced than Riversides.

The table at the right gives you the sizes for size price comparison. Having studied the price comparison with other makes, the only question for you to ask is: "Are Riverside tires really as good as these other tires with which they are compared?" Well, Montgomery Ward & Co. is one of the largest and oldest merchandise institutions in the world. It is the originator of the "Satisfaction Guaranteed or Your Money Back" guarantee. It depends for its business not only on tires but also on some 40,000 other items of merchandise which it sells to you. Certainly it is reasonable to believe that Ward's is maintaining the truth in making these statements.

FREE MOUNTING SERVICE AT EVERY WARD STORE

The TRAIL BLAZER is our second quality tire. It is equal to any of the "second line" tires offered by well known tire companies. As you no doubt know, close to 90% of all newspaper advertising of the big tire companies is devoted to their "second line" tires, and it is these tires with which Trail Blazers compare. However, Trail Blazers SELL FOR LESS than other second line tires.

This combination of quality with lowest price which is offered by Ward's seems to have made some of our competitors very envious, so they are making and publishing misleading and incorrect statements about mail order tires. But they do not compare their first quality tires with our Riversides and their second quality tires with our Trail Blazers. They know to do so would immediately indicate how much lower Ward's tires are priced. So they have cunningly priced their "second line" tires at exactly our Riverside prices, and they print comparison tables which are intended to make people believe that their prices are the same as ours. Well, they are not. The chart at the left is a true comparison, quality for quality, and price for price.

SAUGATUCK EXHIBITS
INCLUDE THE WORKS OF
PROMINENT ARTISTS

The second exhibit of the Saugatuck Art association, which opened last Saturday, includes sketches by John Norton, one of the most distinguished mural painters of America, and a number of studies by Norton's collaborator, Tom Lea.

Norton, who was awarded the gold medal of the New York Architectural league for his work in Chicago, the most notable of which is the Chicago Board of Trade, reveals in these small sketches a virility and imagination which are characteristic of genius. The most commanding figure is the "Ceres," of which the enlarged reproduction is in the Chicago Board of Trade. It is a figure of grace and commanding dignity, epic in quality and beautiful in coloration.

Lea's work shows great versatility, clean-cut technique, brilliant coloration and something of the human figure which characterizes his mentor.

Hostesses were Mesdames Mary Fuller, Robert Fonger, Scott Jordan, C. W. Thomas, Frank J. Knight, Fred Wade, A. T. McDonalds and Fred Walz.

At intervals the guests were entertained by Mrs. Grace Sawdon, soprano, and Edith Reider Barron, pianist, with numbers from Wagner, Schubert, Schumann and Kreisler.

The exhibit will continue until July 28.

Also on exhibit are some of the distinguished works of Carl Hoerman, who has always given generously of his time and services for the civic betterment and beautification of Saugatuck. Hoerman has received notable recognition for his work in the California and Arizona deserts, and the Grand Canyon of Colorado. A well known art critic recently said of him: "His canyon pictures are the best that I have ever seen."

Black Bass Increasing

The conservation departments of the various states of the Middle West have taken more interest in the propagation of black bass the past seven years than ever before. Difficulty has been experienced in raising bass fry in the past, and only recently have they discovered really successful methods of propagating black bass.

Indiana owns several excellent black bass hatcheries which are being operated successfully. There is no game fish that will give more abundant and satisfactory returns, and none in which the labor and expense attending its introduction is so slight.

REP. McEACHRON ADDRESSES
CORONERS CONVENTION
SESSION

Seventy-five members of the Michigan Association of Coroners were registered at the state convention held at the Warm Friend Tavern.

Dr. E. B. Minor of Traverse City, and Albert Falk of Port Huron, extended invitation to the association to convene next summer in their respective cities. Twenty new members were admitted into the association. The luncheon was opened at 1 o'clock Thursday afternoon at the tavern with Dr. J. F. Carrow of Cadillac, president of the association, presiding. Mayor E. C. Brooks, welcomed the visitors and Dick Boter, president of the chamber of commerce, and C. Vander Meulen of the First State Bank, of Holland also were speakers.

The concluding event of the convention was a visit to the Lakewood Farm. Officers of the association are: Dr. Carrow, president; Howard Groesbeck of Mount Clemens, vice president; R. W. Gorsline of Lansing, secretary and treasurer; Gilbert Vandewater of Holland, A. M. Bradley of Midland and L. W. Kelswiski of Benton Harbor were in charge of the program.

WHAT A STATE!

Michigan is a great state! Great in extent and in scenic beauty. Great in its natural resources and its industries. Great in its history, its traditions, and the character and spirit of its citizens.

Consider its mines and forests; its fertile fields and its productive orchards and vineyards; think of its beautiful lakes and streams; its diversified industries and its splendid educational institutions.

Michigan is a good place in which to live! Here Nature is kind. We are not visited with flood, drought or other disasters to any degree. Nowhere else can people work more profitably nor under better conditions than in Michigan.

And no state has more to offer to the tourist, whether from outside or within the state, than has Michigan. Our Company, through the advertising columns of the Michigan press, has steadily called attention to the advantages of Michigan as a vacation land.

We hold that it is in the interest of every concern and every individual in Michigan, first, to contemplate and appreciate the privileges and advantages of working and playing in Michigan and, second, to call the attention of others both in and out of the state, to those facts, continuously and by every proper means that will contribute to the pleasure and profit of every individual, every business and every community.

Michigan is a great state to live in and a great state to visit!—The Michigan Bell Monthly.

The annual Woldring family reunion was held Friday at Jamestown woods. The afternoon was spent in playing games and contests. A baseball game between the married men and the single men ended in a victory for the single men and they were awarded the prize of two water melons. A program was given including a play by six girls, a reading by John S. Schemm and short speeches by C. Woldring, Lake Woldring and R. Schemm. Election of officers was held at which time the following were chosen: William Woldring, president; Mrs. H. Woldring, secretary and treasurer; and John C. Woldring, head of the sport committee for the reunion next July. A picnic supper was served in the evening. One hundred and thirty members were present from Cadillac, Grand Rapids, Holland, Byron Center, Zeeland and Grandville.

FISH CULTURE HARD
PROBLEM

Game fish culture presents its problems. If a few million fish eggs could be incubated and the immature fry turned loose to shift for themselves, with any assurance that they eventually would become legal sized fish, the problem would be of easy solution. But it doesn't work out that way.

The outstanding need of successful fish propagation is suitable water where rearing ponds can be constructed and the small fish fed until they reach the advanced fingerling stage. Such waters, with proper temperatures, unpolluted and conducive to rapid fish growth, are by no means plentiful, and conservation authorities are constantly investigating sites for this purpose. Rearing pond expansion is the one factor certain to keep our lakes and streams stocked with catchable fish.

FORBID PICKING OF WILD
FLOWERS IN STATE PARKS

One of the functions of Michigan's state parks is the preservation of wooded areas and places of scenic beauty in their natural state. This necessitates the preservation of wild flowers as well as the preservation of forest growths and wild life, according to the Parks Division of the Department of Conservation.

The state parks rules forbid the picking of wild flowers in any park area. A penalty is provided for any violation.

Obviously, the Division said, it is impossible for the few park employees to watch all park visitors and campers continuously, especially when there are thousands within the park limits.

Every year several people are fined for picking the wild flowers in the parks.

HISTORIC GRAND HAVEN AND OTTAWA COUNTY

WHAT

Grand Rapids Herald Says:

GRAND HAVEN'S HISTORY
Leo C. Lillie's "Historic Grand Haven and Ottawa County" is just off the presses. It is an extensive volume which will call for more complete review; but first casual scrutiny invites commendation. Mr. Lillie has given Grand Haven something of which it should be proud. He has taken the rich romance and tradition of the lower Grand river valley and woven it into an interesting and comprehensive story of western Michigan's history.

Providing a background for his story, the author first surveys the whole story of the discovery and settlement of North America from the era of the Norsemen down through the British and French excursions into the Lake regions. From this beginning, Mr. Lillie plunges with a confident pen and understanding knowledge into the local history of his own community. Its beginning as the headquarters for the 20 trading posts of the American Fur company, its growth through the early pioneering years when Rev. William M. Ferry of French ancestry and the Scotchman, Robert Stuart, were leaders, and its prosperity as a lumber town, lake port and industrial center follow.

From the pioneering period of the first Ferry down to the present is a period of nearly 100 years. Saw mills and shingle mills followed the trading posts. Sailing schooners succeeded the Indian canoes. And then, finally, the lumber industries gave way to the present sound prosperity of Grand Haven with steamships pushing the last of the schooners into oblivion.

Mr. Lillie has omitted no detail of romance or value. He has labored with care and has produced a well-written book that has an interest not only for Grand Haven, but for all western Michigan. Grand Rapids may note with regret that it has nothing in its libraries comparable to the Lillie Book.

WHAT

Dr. George N. Fuller, Secretary Michigan Historical Commission Says:

DEAR MR. LILLIE:
I have read your volume "Historic Grand Haven and Ottawa County" and find it most interesting and well executed. You have brought together a vast amount of knowledge not otherwise accessible in so compact a form, and you have given commendable attention to careful selection of illustrations. This volume ought to be in every public library of the state and in every home in Ottawa County that can afford to have it.

Very respectfully yours,
G. N. FULLER,
Secretary, Michigan Historical Commission.

Grand Rapids Press Says:

GRAND HAVEN'S BAXTER

Happy the town with a historian—and three happy the town with a good one. Grand Haven and Ottawa County owe to Leo C. Lillie, we suspect, a great deal more than the pleasure of reading the story of their development from little trading posts to thriving communities. His new book, "Historic Grand Haven and Ottawa County," is a text, a reference book and an inspiration.

It will lead young "Ottawas" of the future to devote themselves spontaneously and gladly to a study of Northwest territory, Michigan, western Michigan and local history. It opens up a fascinating discovery to them—namely, that the romance of Spanish, French and British exploration, religious and commercial advance, and military conquest of their own home region is as vivid as any romance of the old world, full of heroic figures against a background of forest, savagery, danger and dormant riches.

What Albert Baxter did for Grand Rapids—leaving a chronicle to which local folk turn for reference and instruction today—Leo C. Lillie has accomplished for Grand

NEWS ONE DOLLAR A YEAR

MOHAIR IS CLOTH OF KINGS, PRINCES

Temple of King Solomon Hung With Veils Made From Hair of Goats.

IMAGINE your surprise if you walked into a shop today and asked for a purple dress, hat or tie and were told that it was a color exclusively reserved for the President and his Cabinet! Or wanted to purchase a chair and found that only members in the society Blue Book were entitled to such luxuries. That would have been the case years back, when purple was a color for kings only, and only the nobility were accorded the privilege of chairs.

In the same way, mohair, a material made from the fleece of the angora goat, was once the privilege of royalty and quite unknown to the commoner. Back in 1061 B. C., King Solomon made use of this luxurious material for his robes and ordered the veils of the famous Temple to be hung "with cloth from the hair of the goat." And for centuries to come, mohair was used only in the palaces of the rich and mighty, for draperies, hangings and fine upholstery. Today in 1931, A. D., mohair velvet or

velmo is no less cherished but within the reach of every private citizen. The business man commutes to his office in a railway coach whose seats are upholstered in the familiar red or green mohair velvet. At night, he throws himself into an easy chair or day-bed, upholstered with this luxurious pile fabric. He takes his family driving in a car lined in the same material and throws a lap-rug of luxurious mohair velvet over their knees, taking his right to the best as a matter of course, in true American fashion.

The mohair of long ago, however, prized as it was by kings and potentates, was not the rich, pile fabric that is available today. Science has perfected the means of taking out most of the kemp from the fleece and weaving the silky hair into fabrics whose luster and beauty vie with its durability and comfort. Because of the unique physical structure of the individual fibers, mohair takes a perfect, non-fading dye. As mohair is woven on a cotton warp which takes a different shade of dye and must be dyed separately, most effective two-tone color combinations are obtained. Mohair velvet is also made in a variety of hand-blocked patterns, with a cut-pile or in an interesting loop-and-pile weave that makes for endless variety of patterns and effects.

While the chief application of mohair is for furniture, automobile and railway coach upholstery, it is also used for clothing, draperies, theatre curtains, miniature golf courses, stuffed animals, trimmings and a variety of other uses.

Grand Haven Wants to Build a New City Hall

OLD ONE IS ON COURT HOUSE SQUARE ON 99-YEAR LEASE PLAN

The matter of a new lease grant, for the purpose of erecting a city hall at Grand Haven has been under discussion recently between a committee from the board of supervisors, appointed at the last session and a group of Grand Haven city officers. The committee consists of Roy Lowing, chairman; Philip Rosback, Peter Damstra, John Hoeke and Charles Goodenow. The Grand Haven officers are Mayor Peter C. E. Misner, city attorney, and W. E. Baumgardner, city manager.

The records of the old grant were looked up, showing the first application for a lease was on Jan. 14, 1876, when the southeast corner of the Court House square was requested was changed and the northeast corner asked for. This grant was made for 99 years and the present city hall was built 54 years ago. This 99-year lease now has still 45 years to run.

PHILIP'S MISSIONARY LABORS

LESSON TEXT—Acts 8:5-40. GOLDEN TEXT—Therefore they that were scattered abroad went everywhere preaching the word. PRIMARY TOPIC—Philip Tells a Stranger About Jesus. JUNIOR TOPIC—Philip An Early Missionary. INTERMEDIATE AND SENIOR TOPIC—Pioneering for Jesus. YOUNG PEOPLE AND ADULT TOPIC—The Gospel Breaks Over the Frontier.

1. Philip Preaching in Samaria (vv. 5-8). In taking the gospel to the Samaritans we see the broadening of the scope of Christianity. Philip was one of the seven so-called deacons. He went to Samaria and preached Christ showing that God's purpose included these despised people, Christ is the true message of the evangelist. Not Christ as an ethical teacher or as an example, but Christ as the Savior from sin through the offering of himself on the cross as a substitutionary ransom.

2. Philip Preaching to the Ethiopian (Act. 8:26-39). Following the preaching to the Samaritans, the gospel was preached to the Ethiopian who in all probability was a Gentile. In his conversation we see the gospel in its outreach to the ends of the earth.

1. Philip meeting the Ethiopian (vv. 26-30). a. Leaving work by divine direction (v. 26). The Lord called Philip away from a great work in Samaria and specifically directed him to the man to go near and join himself to the chariot. The tactful question put to the treasurer gained him a seat by his side. The mission which at first seemed so unpromising was now clear. The way of faith leads in the clear light.

b. An officer of state seeking the way of salvation (vv. 27, 28). The Ethiopian had been to Jerusalem to worship. Despite his high official position he was not ashamed of the worship of God. The journey from that far-off country required much hardship and expense, but to the one whose soul yearns after God this is all joy. Following after God should not be considered beneath the dignity of a statesman.

c. A providential meeting in the desert (vv. 29, 30). The coming together of these two men was clearly the pre-determined way of God. 2. Philip preaching to the Ethiopian (vv. 30-35). a. The Ethiopian's employment on the way (v. 30). He was reading the Word of God. The particular portion was the fifty-third chapter of Isaiah. A most excellent way to spend one's time while traveling is to read God's Word. It is through God's Word that the individual is shown the way of life.

b. The need of an interpreter (v. 31). The Ethiopian was reading one of the clearest testimonies to the Messiah in the Old Testament, yet he was unable to understand it. The Ethiopian, a great statesman, needed an interpreter of the Scriptures. The gospel needs to be experienced before one can be a witness to his saving power. The human mind in its natural state is blind to spiritual things, making the work of an evangelist indispensable. Preaching the Word of God will always be necessary. God has designed that through the preaching of the Word man shall be saved. Valuable, indeed, as the Bible is in the hands of men, the touch and influence of the believing man who has experienced the work of God in his own heart is needed.

c. Philip's message (vv. 32-35). began at the scripture which the Ethiopian was reading and preached unto him Jesus. This shows us that the person presented in the fifty-third chapter of Isaiah as suffering in the stead of others was Jesus Christ, also that the central theme of the preacher's message should be Christ crucified. He did not preach Jesus as a great teacher, but as a Savior who had suffered and died in the stead of sinners. The vicarious atonement is a note which is at the very heart of the message of every evangelist.

3. Philip baptized the Ethiopian (vv. 36-38). As a result of Philip's preaching, the eunuch proposed baptism. When Christ is truly received men will desire to confess him in baptism. Where this desire is lacking the gospel in its fullness is evidently not preached. The Ethiopian might have offered many excuses as to why he should neglect this important ordinance, but like every man who is honest before God, he was willing at any cost to render obedience. It is faith in Jesus Christ that saves, but those who have faith desire to seal it in baptism.

4. The Ethiopian rejoicing (v. 39). Having been baptized, he went on his way rejoicing. Confession of Christ and obedience to his Word always brings joy.
