Water Usage Hits New Peak

Holland hit a new peak in water usage Monday, dispensing 12,723,000 gallons of treated water to Holland and Zeeland users.

Only once before did usage approach the 12-million mark and that was in August, 1964, when total usage was just short of 12,000,000 gallons.

Water demands Tuesday were served without difficulty although pumps at the water station near Tunnel Park worked at peak capacity for 15½ hours of the 24. Just over 2,000,000 gallons went to Zeeland.

Adequate water storage aids peak demands. Holland has a 5,000,000 gallon storage at Waverly and 16th St., a 500,000 gallon tank at Washington Ave. and 28th St., a 250,000 gallon standpipe at Sixth St. and a one-million gallon ground tank nearby. Listed in good condition today at Blodgett Memorial Hospital in Grand Rapids were the three sisters, Eleanor, 71, Marie, 70, and Esther Koller, 73, all of 1511 Rosalind Rd. S.E. The three suffered first and second degree burns of the hands, arms and legs, and were transferred to Blodgett from Holland Hospital where they were treated following the blast.

Owner and operator of the boat, John W. Schepers, 28, of 233 College Ave., S.E., suffered burns on the left hand, and his father, William J. Schepers, 64, of 2506 Hall St., S.E., received minor injuries. Both were released after treatment at Holland Hospital.

Schepers told Coast Guardsmen and sheriff's deputies the explosion occurred in the engine room of the boat. The cause of the blast was not determined. The five persons were taken off the burning cruiser by two civilian boats. Warren L. Wolters of 1371 Linwood Ave. said he had just left his home in Waukazoo and saw smoke coming from the Schepers boat, the Jami II.

Wolters was alone in his boat and raced over to the burning craft. He said he pulled along the starboard side of the Jami II when the younger Schepers asked for help. Wolters said he took Schepers and two of the elderly women into his boat.

A second boat, whose operator was not identified, pulled up to the stern of Schepers' boat and took Schepers' father and the third elderly woman aboard.

Schepers told officers he had tried to put out the fire with a fire extinguisher, and, failing in that, radioed the Coast Guard and sheriff's deputies.

Coast Guardsmen extinguished the blaze, which caused an estimated \$3,500 damage to Schepers' boat, and towed the damaged craft to the Coast Guard mooring.

PESTICIDES AND MORE CONTROLS

The latest is a plea to the
Senate by one of its subcommit-
tees for tighter controls over
the manufacture and use of pes-
ticides.

Whenever this subject is dis-
cussed there must be a stipula-
tion that these chemicals are
of unique value in modern agri-
culture—that without them pro-
duction of food at present lev-
els would be impossible. The
difficulty is that the pesticides
also threaten extreme immed-
iate and long-range dangers. Con-
trol is essential.

On the basis of a two-year
study by its subcommittee, Sen-
ator Ribicoff notes weaknesses
in regulation; inadequate in-
structive labeling, methods of
application, excessive use, and
so on. Congress would be wise
to impose more stringent curbs
to deal with these and other
problems of pesticide use.

We live in an ever changing
world. With all of the modern
conveniences. We would think
that our scientific know how
would bring forth a product that
would exterminate the many
worms and bugs but at the
same time would not harm the
birds and bees. The end product
then would be safer for every-
one.

Remember the Lord's Day
Exodus 20:8-11; Luke 6:6-11;
John 5:16-18

By C. P. Dame

This lesson offers a fine
opportunity to have a good
discussion about keeping Sun-
day in a God-approved way.
And after the discussion we
should use the day in a better
way.

I. God established the week-
ly rest day. There are three di-
vine institutions, the home, the
church and the sabbath day.
God rested after the work of
creation. Keeping the sabbath
is imbedded in creation. Before
God gave the decalogue to
Israel, that nation knew about
the weekly rest day.

God included in the decalogue
the law about observing the
sabbath. It is the longest law
of the ten. It begins with the
word, "Remember" not with
the words, "thou shalt not."
God wanted the day to be dif-
ferent from all the other days
—six were meant for work, one
for worship and rest. There is
a connection between worship
and work. The better we wor-
ship, the better we work.
Psychiatrists tell some of their
patients to go to work and to
worship God and live.

The law enjoins rest for men,
women and animals. Working
without any days for rest is
hurtful. Today many stores are
open on Sundays "for the con-
venience of people" not for
their own profits! Church mem-
bers sometimes patronize these
stores and encourage them to
desecrate the Lord's day.

Profiteers and pleasure seek-
ers show no regard for the
holy day. The keeping of the
day fosters rest, joyfulness,
family life, Christian faith and
stability to a community.

Desecrating the holy day is
costly. There are more family
quarrels, accidents, arrests,
and there is more drinking
and carousing going on during
the Sabbath than on any other
day of the week. And why?
Because the day is misspent.
The godly way of using the
Lord's day leads to refresh-
ment of body and soul.

II. God established the sab-
bath day for man's good. The
lesson tells how Jesus was in
conflict with the religious lead-
ers of his day. One passage
tells how Jesus on the sabbath
day healed a man with a
withered hand and thus made
it possible for him to go back
to work again. The other pas-
sage tells how Jesus healed a
man who had been ill for 38
years. Jesus told the man to
rise up and take up his pal-
let which he did.

The Jews criticized Jesus for
healing the man on the sabbath
and the man for carrying his
pallet. Jesus said to his crit-
ics, "My Father worketh hith-
erto and I work." These
words angered the Jews more
than ever seeing that Jesus
said that God was his Father
and He made himself equal
with God.

In some instances the Sun-
day was observed too strictly
by some people. Rarely today.
The holy day is desecrated
more and more. Why go along
with this godless trend? Every
Christian should do what is
best for the whole man, for
the whole family, for the
church, country and modern
civilization.

Budget Over \$1 Million In Allegan

ALLEGAN — For the first time in the history of the Allegan Public Schools an operating budget exceeding 1 million dollars has been approved by the Board of Education.

A tentative budget of \$1,006,604 was approved following this week's required public hearing which was attended by a solitary citizen.

Superintendent L. E. White stated the budget could legally be adjusted following the hearing and that he anticipated some minor revisions might be made. Anticipated revenue for the year ending July 20, 1967, added up to \$1,016,091 with a projected deficit of \$58,204.33 bringing this figure down to \$957,886.67.

Allegan schools began the year 1965-66 with a deficit of \$30,957.30. Receipts were \$930,753.51 and expenditures totaled \$946,496.78.

Property tax collections should bring in \$59,362.88 in additional revenue for the coming year. Other estimated sources of local revenue such as tuition and transportation fees have been set at lower figures than the actual amounts collected in 1965-66.

State School Aid — including special education and transportation funds — will bring in an additional \$52,879 for 1966-67, it was estimated. Redistributed Federal funds are also expected to rise by almost \$2,000 over last year. Other state sources such as driver education and school land grants show a sharp decline. Under the National Defense Act, Allegan should receive \$1,240 more than in 1965.

Plus signs appear beside most of the last column of budget figures showing the difference between 1965-66 actual expenditures and those estimated for next year.

Salary raises all down the line account for the difference, although White said in spite of these increases Allegan would still be behind many neighboring schools in salary schedules.

School maintenance costs were whittled down to \$5,467 for the upcoming year, but fixed charges such as property and workman's insurance took a decided jump.

Enrollment in Allegan's public schools will reach 2,140 in September, very close to last year's figure. Six hundred students are registered for the high school; 500 for the junior high and 1,040 for kindergarten through sixth grade.

There were a record 16 teacher vacancies to be filled this summer, Supt. White said, with three left to be filled. Still needed are a Community Schools Director, an elementary teaching principal for the North Ward School and an English instructor-coach for the Junior High School.

Allegan's re-organized Board of Education has named William Nahikian as president; Dr. Russell Baker, treasurer, and Mrs. Michael Wilcox, secretary. Other board members are William Johnson, Frederick McDonald, Mrs. Eugene Clegg and Dr. Harry Schneider.

Rotarians Hear Tebeau Discuss Viet Nam War

In an address on the Vietnam conflict at the Thursday noon luncheon meeting of the Holland Rotary Club at the Hotel Warm Friend, Wesley B. Tebeau asked the question "Are some Americans earning blood money in Viet Nam while others are making the supreme sacrifice for our country?"

Tebeau, Ninth District candidate for Congress, in his report following his fact-finding trip to Saigon in May, said "I challenge the U.S. Intelligence and State Department to answer these questions: Are American owned ships flying the flags of other nations, actively engaged in trade with the government of North Viet Nam? Are American businessmen selling supplies in the North while our nation's sons are dying on search and destroy missions in the South?"

He asked if the economic interests of the nation were more important than the lives of American soldiers. Tebeau, chairman of the Michigan Tourist Council, also spoke briefly on Holland's part in tourism.

Swiss Much Like Americans According to Ambassador

By Sharon Howard

Since I wrote to you a week ago I have been busy meeting Swiss people, seeing the countryside and visiting many interesting places. I have also been eating very delicious Swiss meals. One of my favorite Swiss recipes is bircher-muesli, a mixture of uncooked oatmeal, cream, sugar and a variety of fresh fruits cut in small pieces. We also eat lots of cheese and chocolate which is all very good.

This past week our group of American experimenters visited several places. Our Swiss brothers and sisters accompanied us on some of the trips. One of our tours took us to the Lindt-Sprunli Chocolate Company in Kilchburg. We saw the entire chocolate candy-making process from raw cacao beans to the packaging of the finished product. We soon learned that the making of chocolate is a very scientific and precise process.

One afternoon our group went to Zurich to see the University of Zurich. It is the largest university in Switzerland and has no student housing facilities. After seeing the university, we went to the Kyburg Castle in the small village of Kyburg. It was built in the 13th century and has now been completely restored. We toured the whole castle, including the prisons and torture chamber. Yesterday I tried my new hiking boots on Zugerberg, which is a low mountain overlooking Zug and Cham. The

Gala Venetian Festival Tops Saugatuck Summer

SAUGATUCK — The seventh annual Venetian Festival is scheduled for the last Saturday of the month, July 30 with all facilities in the Village geared to entertaining the tourists who come for the gala event.

Opening event will be the flyover of National Guard jet planes at 12:45 p.m. and a parade of antique cars during the noon hour.

During the afternoon, guests will have an opportunity to see clothesline art exhibits, safety demonstrations by the Allegan County Sheriffs Department and the Coast Guard.

It will be open house aboard one of the trawlers of the Southern Michigan Fishermen's Co-op. Antique cars of the Kalamazoo Antique Auto Restorers will be available for public inspection.

Parachute jumping at 7:30 p.m. and a concert in Cook Park at 7:45 p.m. by the Saugatuck-Douglas Community Band will be evening features.

Highlight of the Venetian Festival is the parade at 9 p.m. of decorated boats as they come up the Kalamazoo River and circle the yacht basin several times in front of the judges' stand.

The grand finale is the fire-

works at 10 p.m. which attract a large crowd on the river banks. This is all family entertainment and there is no admission charge. The Venetian Festival is sponsored by the Saugatuck and Village Yacht Clubs and the Village of Saugatuck.

Saugatuck puts on a special welcome for families during this festival. The shops along the main streets are festively decorated. The array of antique shops attract a wide variety of visitors.

Several attractions especially interest the children, the S. D. Cannonball tour train, the ducks on the pond at Peterson's Mill, the around-the-corner ice cream shop, the chain ferry which operates across the river to the Oval entrance, the Ferry Store at the other side and Anchor and Cook Parks which feature games and picnic tables. The Island Queen is always decorated for the Venetian parade, but takes sightseers earlier in the day.

This is Saugatuck's way of saying it is a fine family area for vacationers and only a few times during the year becomes a trifle too hot to handle.

Interlochen Proving Ground For Talented Young Students

INTERLOCHEN — Interlochen, musical mecca for talented young students, also is the proving ground for a government-sponsored experiment in music education.

Working under a \$221,000 grant from the Department of Health, Education and Welfare, it is carrying on in the National Music Camp this summer with a program known as the Interlochen Honors Musician Project begun at the Interlochen Arts Academy last fall.

The project, an innovation of the late Dr. Joseph E. Maddy, founder and president of the Interlochen organizations, was designed to provide more extensive musical background and training for pre-college students planning a music education career.

Within the 40-week period of study, project members are learning to play all orchestra instruments through class instruction. Time is also devoted to theory and composition, conducting, departmental and library organization, and the study and evaluation of teaching methods and materials.

The IAA pattern of rapid learning is continuing this summer at the music camp for 24 of the 42 Project enrollees. They are reviewing each of the instruments and evaluating methods and materials. Their role in the project will conclude with demonstrations and performances at the International Society for Music Education conference which will be hosted by Interlochen Aug. 18-26.

Dr. Thor Johnson, director of the Arts Academy, is also the project director. Walde Anderson is coordinator, assisted by Miss Rosemary Malocsky, violinist and Byron Hanson, pianist.

Attending the special project is Douglas Burma, son of Mr. and Mrs. Clarence Burma of Holland. Burma attended the 1965 camp and also the arts academy since then.

Also attending the National Music Camp this summer is Christine McIlwain, 13, daughter of Mr. and Mrs. Paul McIlwain, 50 East 37th St., who is specializing in viola. Also at Interlochen for the summer is Miss Marilyn Swank of Holland, a junior at Western Michigan University, who is a counselor and swimming instructor.

Holland Begins Housing Survey

Holland will begin a new program to evaluate the extent of depreciation of housing in the city, according to S. M. Stephenson, director of environmental health.

Dale Wyngarden, 25, of 69 West Ninth St., has been hired by the city as housing consultant.

Dale Wyngarden

to carry out the program. The new position will be under the Department of Environmental Health.

Stephenson said depreciation in some areas of the city has necessitated "a more conventional approach to urban conservation in Holland."

The new approach will involve a survey of all residential housing in the city to see if the structures meet the minimum stand-

ards set in the city's housing code.

The survey will include checking of the interior and exterior conditions of houses. They will be evaluated to see if there are any structural defects, and to see if they meet space and occupancy requirements and heating, wiring and plumbing requirements.

Stephenson said the program will point up the individual's responsibility in keeping his home up to the minimum standards.

The purpose behind the new approach is to aid neighborhoods in preventing depreciation of houses, and to help the property owner to protect his investment, Stephenson said.

Property owners will be advised on the best way to rejuvenate and rehabilitate their homes. Area projects can also be set up to work against decay.

The program will help stem trends toward depreciation of housing, and help prevent the need for urban renewal programs in the future, he said.

The city has had a housing program for six years. However, the size of the department's staff and the approach of dealing with housing problems only on referral has made the old way a hit and miss program, Stephenson said.

The city council authorized the new approach and the hiring of a housing consultant to meet the increasing trend of depreciation, he said. The new approach for Holland has been used in many cities throughout the country for urban conservation.

BAND CONCERT — Shown is Henry P. Vander Linde conducting the Holland American Legion Band at its weekly Tuesday evening concert in the band shell at Kollen Park. The program for the concert this evening includes "God of Our Fathers," Warren - Lavalie; "Aurora Overture," Paul Yoder; "The Impassario Overture," W. Mozart; "Maytime Selection," S. Ramberg; "In Gay Seville," F. Buchtel; "Hello Dolly," J. Herman;

The survey is expected to start about Sept. 1 after general training and orientation for Wyngarden, Stephenson said.

Wyngarden was born in Petoskey and raised in Chicago Heights, Ill. He attended Hope College, and served two years in the U.S. Army. He is mar-

ried to the former Donna Engelsman of Holland.

The city is also interviewing applicants for the post of zoning administrator and building inspector, Stephenson said. This job was recently vacated by the retirement of Gordon Streur.

"Seven Lonely Days," Sherman Brown; "Tres Jolie," Waldteufel. The marches include "El Capitan," J. P. Sousa; "Wien Bleibt Wien," J. Schrammel; "On the Mall," E. Goldman; "Stars and Stripes Forever," J. P. Sousa; "Washington Grays," J. Groulla. The concerts, open to the public will run through August 16.

Ottawa sheriff's deputies said the boy rode his bike in front of the car.

Connecticut is sometimes referred to as the "Nutmeg State."

Ottawa County sheriff's deputies are investigating two breaks which occurred during the weekend.

Edward Bredeweg of 15637 Riley St. reported to deputies Sunday that more than \$140 in checks, currency and coins and a transistor radio was taken in a break-in at his home between 8:45 a.m. and 10:45 a.m. Sunday. The money was taken from two wallets and a dish filled with coins.

The home was entered by taking a screen off a rear window, opening the window and crawling in.

Extinguish Four Blazes

Holland firemen put out four fires on Saturday and Sunday.

A blaze of unknown origin did about \$150 damage to the front porch of a home owned by Mrs. Hulda Bequette at 577 Michigan Ave. about 1:50 p.m. Sunday. The blaze started underneath the wooden porch. Firemen had it extinguished in about half an hour.

A faulty connection on a gas stove started a blaze which burned a corner of a 14-foot house trailer owned by Otto Weisner of 655 Lugers Rd.

The fire which started about 6:43 p.m. Saturday also caused smoke damage to the interior of the trailer. No estimate of the damages was available.

Firemen also extinguished a blaze which burned part of a two-car garage at the Robert Vanden Brink residence, 290 East Eighth St. at 7:05 p.m. Saturday.

The fire of unknown origin burned part of a side wall and the inner wall of the building. Firemen estimated the damage at \$200.

Firemen extinguished a small fire at the Bay Casting Co., 338 West 12th St. Some oil was ignited when molten metal spilled from a melting pot at 10:23 p.m. Saturday. There was no damage reported.

Holland police charged Adan F. Cavazos, 22, of 376 East Fifth St. with driving under the influence of intoxicants and leaving the scene of an accident after the pickup truck he was driving collided with a car driven by Daniel E. Thornell, 19, of Grand Haven at Eighth St. and River Ave. Friday night.

A FEW WORDS OF EXPLANATION

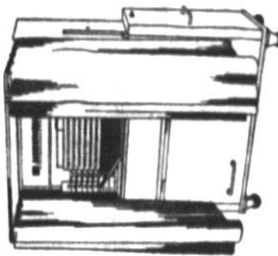

As no votes are registered until the curtain lever is moved by you to open the curtain you can make as many changes as you wish while the curtain lever is at the right side.

The machine is so arranged that you cannot turn down any more Pointers than the proper amount for each office, therefore you need have no fear of spoiling your ballot by voting for too many candidates.

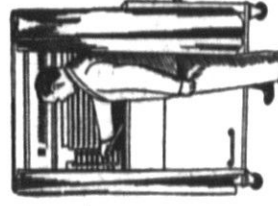

In the case of an office to which more than one candidate is to be elected, you can turn down any number of Pointers that you are allowed to vote for, even though one is directly under the other.

Each candidate's Pointer is located just above the name, so be sure to turn down the Pointer over the name of the candidate you wish to vote for and leave it down.

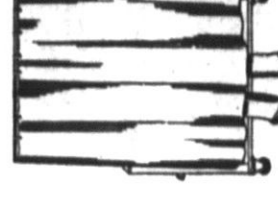

There is no danger of anyone knowing how you vote as the movement of the curtain lever returns the Pointers to their unvoted position before the curtain begins to open, so be sure to leave the Pointers down.

Blaze Cuts Telephone Service Here

A garage fire which damaged a main telephone cable near 17th St. and River Ave. disrupted telephone service on the southwest side of Holland and west of the city limits Friday.

The more than 3,000 customers in Edgewater exchange were isolated from service outside the exchange from about 3 p.m. until midnight.

About 400 customers on the southwest side of the city were without telephone service from 3 p.m. until 3 a.m. today, according to Carl Marcus, manager of the Holland office of Michigan Bell Telephone Co.

Telephone service was cut off throughout the city for a few minutes by short circuits caused by the damage to the cable. The service was restored in most areas in a few minutes by adjustments at the main office of the telephone company.

Cable crews worked from shortly after the fire was out until this morning to repair the 30-foot section of cable damaged in the blaze.

The fire of undetermined origin gutted a wooden garage owned by Joseph Gutierrez at 51 West 17th St. The flames also burned shingles on a garage across the alley from the Gutierrez property. The other garage at 52 West 16th St. is owned by Don Plasman.

Holland firemen put out the fire. Their job was hindered as the fire also cut off the department's radio system.

Fire Damages Buff Machine

A fire did more than \$100 damage to a buffing machine at Scott's Inc., 611 Ottawa Ave., at 5:09 p.m. Friday.

The blaze started when the lubricating mechanism on the machine clogged up. The buffing wheel overheated, and lint around the wheel caught fire.

Holland firemen extinguished the blaze.

Firemen also put out a small fire in a gasoline tank truck at the US-31 bypass and M-40 at 2:41 p.m. The brakes on the tractor of the Texaco tanker locked, and started rubber housing above the brakes on fire.

There was only minor damage to the truck.

Firemen extinguished a small grass fire in some brush and grass near Seventh St. and Pine Ave. about 1:30 p.m., and put out a small blaze in the wiring of a junk car parked behind H and B service station, 125 West Eighth St., about 4 p.m.

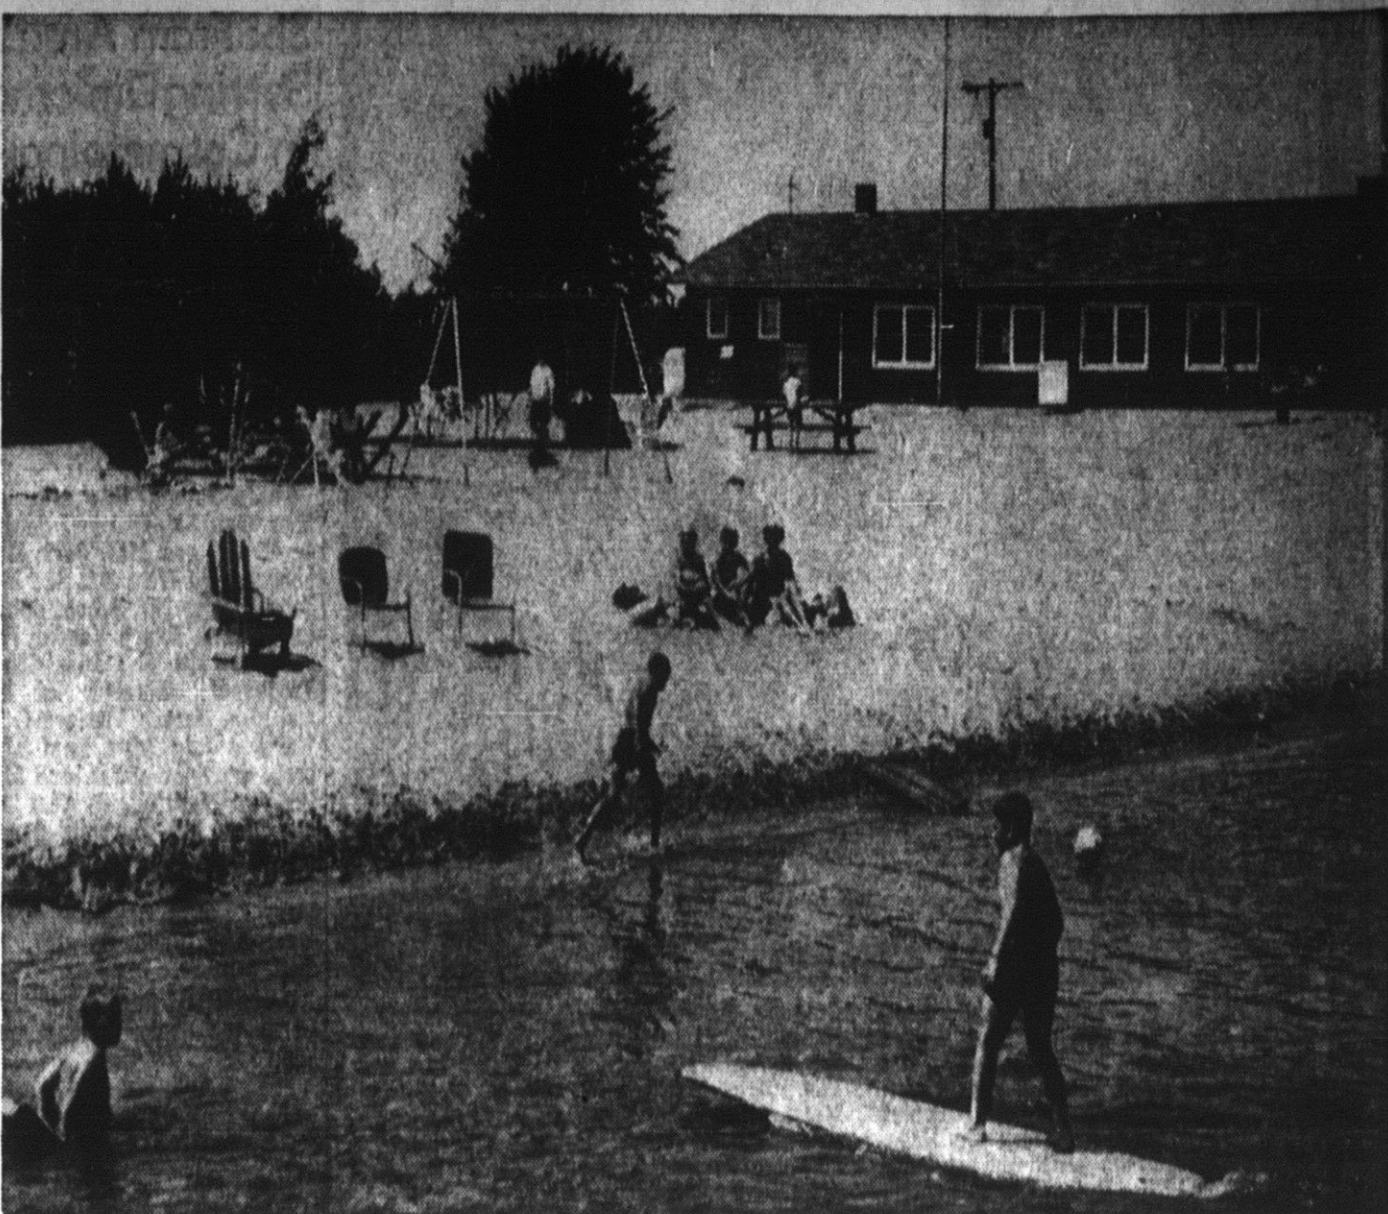

Fire Sweeps 40-Acre Area

GRAND HAVEN — About 40 acres of trees and brush on the brush on the north side of Rich St. just west of 120th Ave. in Robinson township were burned Thursday.

The blaze started along a newly cleared right of way for Wolverine Electric Co. which has tree trimmers working in the area. Earl Ralya who lives in the area noticed smoke about 6:45 p.m. and the fire was out of control by the time he arrived.

Sheriff's officers responded, but found the blaze spreading fast and endangering a stand of young pine trees. The Conservation department of Muskegon dispatched a water truck and caterpillar. State police who have a key to the conservation building on M-45 at 96th Ave. managed to get a water truck from the building.

Thirty acres already were burned when help arrived and another 10 acres were burned before a fire break could be cut around the area.

RECREATION PARK — The spring-fed pond for swimming, the picnic area, the lodge area for indoor recreation and kiddie rides at White Birch Recreation Park form the perfect setting for fine family fun. The park, located about six miles north of Holland

on Barry St. just west of 152nd Ave., is in its fourth year as a public recreation area. Open Monday through Sunday from 9 a.m. until 10 p.m., it is owned and operated by the Raymond Ryzenga family.

ENLIST IN BUDDY PROGRAM — Robert A. Pyle (left) and Bendell W. Lamer (right) enlisted in the Army Buddy Program on July 12 and are at Fort Knox, Ky., undergoing basic training. Both are 1965 graduates of Zeeland High School. Pyle received letters on the varsity baseball and football teams. He will receive motor mechanic training on conclusion of basic training. Lamer, route 1, 104th Ave., Zeeland.

Hope College Eligible For Aid Under Bill 780

With the signing of Senate Bill 780, Hope College is among some 30 educational institutions in Michigan eligible for tuition grants on a non-competitive basis to Michigan students attending private colleges.

Approximately 8,000 scholarships will be available to Michigan students this fall, and students seeking such aid must apply before the Aug. 15 deadline.

The grants are available to students attending Michigan colleges who have been constant residents of Michigan since August, 1963.

The bill provides up to \$259 a semester or \$500 a year, depending on family income. This refers to taxable income (deductions, exemptions and federal tax subtracted) and the entire \$500 a year is available if the taxable income is less than \$2,000. As other examples the \$5,000-\$6,000 bracket would bring \$300 and the \$9,000-\$10,000 bracket \$100.

Applicants must be enrolled as an entering freshman for the 1966-67 year at a private Michigan college and must be persons of good moral character to be eligible for grants.

Since grants are given on a non-competitive basis, many students who could not attend private colleges for various reasons may now find themselves eligible.

Tuition grant forms are available from W. J. Hilmert, director of financial aid at Hope College.

The new measure has appropriated \$5.5 million for the 8,000 anticipated applicants. Although late in becoming effective, it is effective immediately.

The Michigan State Scholarship program, also designed to help students attend the college of their choice, is on a competitive basis, and already has granted 5,000 scholarships ranging from \$80 to \$800. Some 22,000 applications had been received by the state.

In signing the bill, Gov. Romney said, "This legislation will provide financial encouragement to thousands of Michigan students who wish to attend private college, and will greatly reduce the high tuition barrier which has discouraged increasing numbers of students from choosing private higher education."

The governor pointed out that since 1961 the percentage of students attending private colleges in Michigan has declined from 24 per cent to 18 per cent. He said rising costs at private schools have been borne primarily by the student whose tuition is now two to four times higher than that of his counterpart in public institutes.

Colleges and universities to qualify under the program must

White Birch Park Offers Family Fun

White Birch Recreation Park is now in its fourth year as a focal point in the Holland area for both tourist and resident.

Operated by the Raymond Ryzenga family, the park offers a variety of activities including swimming, diving, playground equipment, kiddie rides, horse-shoes, shuffleboard, indoor recreation, picnicking and of course, sunbathing.

Located about six miles north of Holland on Barry St. just west of 152nd Ave., the 10-acre park features a spring-fed pond equipped with diving board. The deeper section of the pool offers excellent swimming and diving while a shallower, wading area is provided for small children and non-swimmers. The swimming area is surrounded by sandy beach and lights are added in the evening for continued enjoyment.

Playground equipment is provided for the younger set and a few kiddie rides are available at no additional cost. The park is opened to the public Monday through Sunday from 9 a.m. until 10 p.m. at a small fee, and offers an excellent picnicking area with tables and grills available.

Beverages and confections can be obtained in the lodge which also houses rest rooms, changing area, a large fireplace, juke box and dancing area, pinball machines, pool table and shuffle board with no added charge for use of the equipment. After Labor Day the lodge is available for private parties.

There is a "no pets" ruling for health and safety of visitors and swimming "buddies" are encouraged.

Mr. and Mrs. Roger Brinks,

CARRIER'S FRIEND—The tasks of a Sentinel newsboy are many and varied but often very satisfying as Barry Van Slooten, son of Mr. and Mrs. Harold Van Slooten, 313 Roosevelt, can testify. Here Barry, 13, gives an issue of The Sentinel to Niki, a black poodle owned by Mr. and Mrs. Reuben De Weerd of 37½ Marquette Ave. Niki then dutifully presents the paper to

his master as he has done everyday for the last seven months. Last Saturday Niki was missing and since De Weerd recently underwent surgery on his leg, he was unable to look for the pet. So the couple decided to call Barry who also owns a poodle. After an hour's search, Barry returned with Niki in leash. (Sentinel photo)

QUEEN OF THE LAKES—Tied up at a dock at Jesiek Brothers Ship Yard is the 116-foot "Lauvonnia" out of Marion, Ind., largest motor yacht in commission on the Great Lakes this year. Owned by Bell Fiber Products Corp. of Marion, Ind., the "Lauvonnia" will be in Holland for approximately four weeks. The luxury

yacht was built in Amsterdam in 1961 for Julius Fleischmann of Fleischmann yeast fame and has cruised all the seas of the world. This year marks the boat's first Great Lakes cruise. Bell Fiber Products Corp. purchased the craft in 1965, and is planning to bring the boat to Holland for about five weeks each summer. (Sentinel photo)

We've had many calls during the past month on two conditions existing in maple trees. The first is the splitting of bark on tree trunks, usually on the south or southwest side of the tree. This condition is caused by one of two things. The warming of sap in the tree on a bright, sunny day in winter months, followed by severe freezing causing the wood to expand and crack or, by having snow or rain enter the bark in the crotch of the tree and then freezing.

We would suggest cutting away any dead bark — back to live bark — to eliminate hiding places for insects or beetles and then painting the area with grafting paint, or if this is not available, using household paint. The area will callous over and no severe damage will result. There may be some dying of branches on the side where the damage has occurred and these branches should be pruned out.

The second condition is due to "verticillium wilt." This appears in the form of a branch or branches dying. The leaves first wilt and then die but usually are retained on the branch. Affected areas should be pruned out and the tree fertilized with a good nitrogen fertilizer.

Other calls have come in regarding lawn conditions. Some areas in lawns are dying and this is usually due to the disease, "brown patch." This disease thrives in hot, humid weather.

In many lawns it is accentuated because of a weed grass known as "bent grass." This grass can be identified because it lives up to its name. The inner nodes of this grass are very short and because of this the grass has a bent appearance. If a lawn has this type of grass we suggest all of it be eliminated by spraying with Silvex, and re-seeding the area in mid August. If "brown patch" is present in bluegrass, we suggest using a fungicide containing mercury and following manufacturers directions as to use.

Many homeowners have noticed large circles, or parts of circles, in their lawns, and have wondered what may be happening to the grass. This condition indicates the presence of a fungus growth beneath the soil surface, which may or may not kill out the grass. Sometimes tool tools will appear in the rings in periods of wet, humid weather, and a darker green circular ring in the lawn is characteristic of the disease. In advanced stages the grass at the outer circumference of the ring wilts, withers, dries, and dies.

Fairy ring is a disease caused by several varieties of fungi, but most commonly by the Fairy-Ring Mushroom. This fungus starts from a seed (spore) or from a part of the root system (mycelium) and grows outward in all directions from this point. It ramifies throughout the topsoil. As it progresses, it releases nitrogen, which stimulates the grass to a darker green color. If the mycelium in the soil becomes too thickly intertwined, then water and nutrients are excluded from the grass roots. Some toxins may also be produced.

Control measures depend upon the severity of the disease. A darker ring can be camouflaged by fertilizing the entire lawn at regular intervals with a high-nitrogen fertilizer. Application of fungicides has not proven an effective means for controlling fairy ring.

The English have developed a simple method which holds promise of subduing this disease. Treatment starts with aeration of the lawn, which is most effective if soil cores are removed ½ to 1 inch in diameter and 3 to 6 inches deep, spaced 3-5 inches apart throughout the area where the mycelium is present or control is desired.

These soil cores may be left on the soil surface, for they break up and sift down into the turf unless there is too thick a thatch layer.

The next step is to apply

DUTCH TEACHERS — This group of Dutch educators spent two days in Holland studying local education systems and visiting points of interest in the area. They spent Monday visiting local schools and Windmill Island and Netherlands Museum. In front row, (left to right) are Alida C.M. Meuse, Letje Van Der Veen, Jeltje Bijma, Helen Rijsbrouh, Ina Priem, Jojo M. Van Der Lee, Fredericka C. Musse, Collette Joly and Francois Joly. In second row are

Joke Wijn, W. Baalberger, Mrs. Grace Antoon of Netherlands Information, Corry Goor, Alice Musse, Friedrich Wiesinger and Bert Uebels. In third row are Msgr. J. A. Moleski of St. Francis de Sales Church, Rev. Charles Steenstra of Faith Christian Reformed Church, Fred Edlin who is tour leader, Rev. Chester Postma of Beechwood Reformed Church and Mark Vander Ark of the Christian Schools. The group will leave Wednesday. (Sentinel photo)

Jerry Kleynenberg, who was the nurse. We also want to thank all the counselors who have helped considerably. The success of the camp program depended on the staff which handled all the various phases of it and provided an entertaining program for the 4-H Club members.

The area is watered thoroughly, so that water penetrates to at least 12 inches. This watering is repeated every second day for one month. This wet treatment is said to result in the disappearance of the fungus mycelium in the soil. Normal fertilization and watering, if any, can then be resumed.

60 Students Are Taking Part In Vienna Summer School

There are 60 students participating in the 11th session of the Hope College Vienna Summer School which formally opened July 11 with a convocation address by Dr. John Hollenbach, former vice president of the college and new chairman of the English department.

Dr. Paul G. Fried, director of the summer school during its 11 years, presided during the convocation. The school is operated in Vienna in conjunction with the Institute of European Studies. It was the first summer program established by an American college in Vienna, founded in 1956 by Dr. Fried.

The 60 students attending the Vienna Summer School were greeted by Paul F. Koutney, founder of the Institute of European Studies and director of its European Extension program, and Dr. Anton Groesel, head of the section for foreign student affairs in the Ministry of Education.

A recent appointee to the U.S. embassy in Vienna, Jerry G. Prehm, welcomed the students on behalf of the U. S. government. Mr. Prehm is a former resident of Grand Rapids, a graduate of Ottawa Hills High School in Grand Rapids, and the University of Michigan.

The academic session in Vienna is the second part of Hope's three-part summer program. The students sailed from New York June 7 on the Spanish liner, Cabo San Vicente, and arrived in Southampton, England, June 15. The group flew from London to Berlin for five days of briefings and orientation to European life.

After the exposure to the conflict between East and West in West Berlin, the group divided with 28 students going West into France, Switzerland and Italy and 27 students participated in the tour behind the Iron Curtain which covered Poland, Czechoslovakia and Hungary. The Eastern tour was an innovation of this year's Vienna Summer School program.

In past years, there has usually been one study tour which traveled into northern Europe and the other which covered southern Europe. The two groups met in Ljubljana, Yugoslavia, July 6 and arrived safely in Vienna on July 7.

The study tours include visits to various centers of artistic, political, religious and social interest. The Western tour was led by Hope College art professor Stanley Harrington and his wife, who have been traveling

on the European continent for the past year. The Eastern tour was directed by Stuart Wilson, instructor in English at Hope, and his wife.

Those participating in the eastern tour are Mary L. De Haan, daughter of Mr. and Mrs. William De Haan of 791 Central Ave.; Patrick B. Donnelly, son of Mr. and Mrs. Bernard Donnelly of 1306 Waukazoo Dr.; and Gretchen Vander Werf, daughter of Dr. and Mrs. Calvin A. Vander Werf, 92 East 10th St.

Those from Holland included in the western tour are Thomas Arendshorst, son of Dr. and Mrs. W. Arendshorst of 379 West 31st St.; Pat Helder, daughter of Mr. and Mrs. Raymond Helder of 359 College Ave.; Louise Hohmann, daughter of Mr. and Mrs. Louis J. Hohmann of 147 West 12th St.; Vernon Plagenhoef, son of Mr. and Mrs. Nelson Plagenhoef of 317 East 13th St.; Nany Ver Hulst, daughter of Mrs. Donald Ver Hulst of 1055 Lincoln Ave.

Faculty from Hope who are attending include Dr. Paul Fried, Mr. and Mrs. Stanley Harrington and Mr. and Mrs. Stuart Wilson.

The second part of the summer program is the six-week session of the summer school in Vienna. Students take courses in German, art, music, history or literature. Instruction is usually in English and classes are taught by European professors. Weekends are spent taking excursions to nearby cities of interest. During the mid term break, three groups will depart for Venice, Salzburg and Budapest.

At the conclusion of the summer school, the 60 students will leave Vienna for three weeks of independent travel. Most of the group will gather again for the flight from Paris to New York on Sept. 10, the remainder either staying in Europe to study or leaving on earlier flights.
