Dr. H. Knoohulzen has discontinued  
his practice in Muskegon and will  
locate in Holland.  
The civil controversy of James  
Huntley vs Haw was on the docket  
this week at Grand Haven. The mat-  
ter has not yet been settled and will  
probably go to the higher courts.  
Mr. M. L. Dunham was in Holland  
this week in consultation with George  
Kollen on the Smith-Slagh case,  
which will be called in the circuit  
court next week.  
The members of the Grand Rapids  
Yacht club had a good day's outing at  
Point Superior Saturday. Fifty or  
more members participated and from  
all accounts they had a good time.  
A couple of the school marms who  
are in attendance at the Summer Nor-  
mal deputized themselves as assistant  
marshals last week. They pulled up  
planks in the side walks and placed  
them in the middle of the street.  
Of the 282 people mentioned as con-  
tracting parties in marriage licenses  
issued in Ottawa county this year,  
thus far, 77 came from Holland and 24  
from Grand Haven, Zeeland claims 19,  
Jamestown 13, and Spring Lake and  
Coopersville 7.

According to the latest reports the  
state is going to locate a blackbass  
hatchery at Grandville. Macatawa  
Bay is the proper location for a hatch-  
ery of this kind and Messrs. Bower  
and Davis ought to look over the  
ground before they locate perman-  
ently.

Prof. J. B. Nykerk returned from  
his western trip last Friday evening  
and from all accounts he must have  
had a very enjoyable time. He first  
took in Denver and the National Ed-  
ucational Convention, then went via  
the D. & R. G. Railway to Salt Lake  
City through the grandest stretch of  
mountain scenery in this or any other  
country. He sojourned among the  
Mormons several days and came home  
via Ogden and the Union Pacific.

The mean temperature of August  
for the past 24 years was 67 degrees.  
The warmest month was that of 1881  
with an average of 71 and the coldest  
that of 1885, with an average of 61.  
The highest temperature ever record-  
ed was 92 deg. on Aug. 29, 1881 and  
the lowest 42 on Aug. 23, 1890. Ave-  
rage precipitation for the month is  
2.68 inches and the highest recorded  
was eight inches in 1890. Prevailing  
winds have been from the northwest.

The G. A. R. boys are figuring on  
sending a delegation to the National  
encampment at Louisville, Kentucky,  
next month. Among those who are  
figuring on going are John Kramer,  
Captain De Boe, Cornelius Blom, Sr.,  
James Purdy, and Ben Van Raalte.  
They will join the Grand Rapids con-  
tingent at Grand Rapids and go by  
special train. The Michigan boys, es-  
pecially those belonging to the 25th  
regiment, are liable to be royally en-  
tertained.

John Klein has been sick for some  
time and is still confined to his home  
and bed.  
C. Blom, Jr. carries the union label  
on his bread these days. He seems to  
be confident that it is a bread win-  
ner.  
Many of the resorters come to Hol-  
land daily to do their trading and  
home merchants are putting forth  
their best efforts to satisfy them.  
Henry Bloeker, boiler inspector,  
was in town on Monday inspecting the  
yacht Albatross. We learn that the  
name of the boat will be changed to  
The Wells.  
A dispatch to the Detroit Journal  
says that Mrs. Alex. Campbell, of  
Montague, gave birth to five daugh-  
ters on Sunday. Her husband is a  
taylor and in his 84th year.  
The school board will not erect the  
building or remove the heating plant  
as proposed by the special committee.  
The funds are not at command with-  
out calling a special election.  
H. Boone has a promising colt bred  
by Maggie B. through Geo. St. Clair.  
The latter has made some of the best  
records in the state this year and so  
far as can be learned the purses and  
pool winnings will sum up close to  
\$10,000.  
Dr. Geo. Baker is now located in his  
office over Van der Veen's hardware  
store. The doctor is a graduate of the  
Chicago Homeopathic College of medi-  
cine and has had ten years experience  
in the practice and comes here highly  
recommended.  
The regular examination for teach-  
ers in the public schools of Ottawa  
county will be held in Grand Haven  
Thursday and Friday August 15 and  
16, beginning at 8:00 a. m.  
CORA M. GOODENOW,  
Comm'r of Schools.

A sail boat with a portion of the  
crew of the schooner Mary Ludwig on  
board capsized in the harbor on Satur-  
day. Both the life saving crew and the  
Harvey Watson went to the res-  
cue. Burt Harrington who at the  
time was in charge of the Watson is  
entitled to the credit of picking the  
men out of the drink.  
George Means a resident of Chester,  
Ottawa county, was arraigned before  
Justice Kollen this week by Sheriff  
Keppel. The charge against him was  
the embezzlement of \$340, from the  
firm of Perkins Bros. for which he  
was acting as agent. Means could not  
furnish bail and was committed for a  
hearing before Judge Padgham next  
week.  
The \$18,000 bonds issued by the city  
for the electric light plant and water  
works extensions were sent to Chic-  
ago this week via the American Ex-  
press Co. The First State Bank re-  
ceived the returns in proper shape  
and the bonds according to the Chic-  
ago Tribune are quoted on the market  
as first-class securities.

The value of advertising can be  
demonstrated by the fact, that last  
week Mr. F. C. Hall lost his cat "Cal-  
eb," and inserted a business local to  
that effect in the News. Thirty five  
minutes after the News reached its  
readers through the postoffice "the  
cat came back." Attached to a rib-  
bon on its neck was the advertisement  
clipped from the News.

There was a very exciting scene on  
the steamer Music Saturday evening  
about 8:30 o'clock. A well dressed  
lady who was accompanied by her  
husband and daughter, the latter  
about six years of age made two very  
desperate efforts to jump overboard.  
The husband in both instances suc-  
ceeded in keeping her on the boat,  
but not without tearing off a portion  
of her clothes. The parties came  
over on the City of Holland's day  
light run and departed on the evening  
train for Grand Rapids before their  
names could be obtained.

We clip the following from the Troy  
N. Y. Daily Times of July 25th in re-  
gard to two of Holland's well known  
residents who are summering at the  
east: The chapel of the North Re-  
formed church of West Troy, was the  
scene of a thoroughly enjoyable event  
last evening upon the occasion of a re-  
ception tendered by the members of  
the church and congregation to Rev.  
Dr. and Mrs. J. W. Beardslee of Hol-  
land, Mich. Rev. Dr. Beardslee was  
formerly pastor of the church, and a  
large number of his old friends were  
present to extend their greeting. The  
chapel was tastefully decorated with  
flags and flowers and presented an at-  
tractive appearance. From 8 until 10  
o'clock the room was well filled. Dur-  
ing the evening refreshments were  
served. The committee in charge of  
the event comprised Mrs. Margaret  
Sabin, Mrs. James Jones, Mrs. Rogers  
and Miss Kate Thompson.

Several hundred participated in the  
picnic of the M. E. Church Sunday  
School at Macatawa Park on Thurs-  
day.  
The steamer Lizzie Walsh is booked  
for an excursion to South Haven on  
next Tuesday, August 6th. The boat  
will leave Holland at 8:00, the resorts  
at 9:00 and the price will be 50c.  
The night boats find it a hard mat-  
ter these evenings to map out their  
courses and make their landings.  
Lights ought to be displayed on the  
spiles recently planted by the govern-  
ment.  
Rev. Peter Moerdyke and family are  
at Harrington's Landing. He had the  
misfortune on Thursday morning of  
losing a portion of his baggage in the  
bay. He succeeded however in re-  
covering it.  
Henry De Groot a young man about  
20 years of age died on Tuesday morn-  
ing of consumption. The funeral ser-  
vices which took place on Thursday  
afternoon were conducted by Rev. K.  
Van Goor.  
Paul A. Steketee cautions his cus-  
tomers against coming to his place of  
business looking at his new line of  
lamps. Shades will be made to order  
to suit all those who need stand parlor  
piano or hall lamps.  
The returns of supervisors from the  
several townships in Allegan county  
give the total number of births and  
deaths for the year 1894 as follows:  
Six hundred and sixty-nine births, 399  
deaths; births over deaths 372.

The Old First Church, corner of 9th  
street and College Avenue, presents a  
very attractive appearance in its new  
coat of white. Painter Ralph De  
Maat had the contract and gave good  
satisfaction. Work is still in progress  
in the interior and will be completed  
within a few weeks.  
Through a letter received from John  
Cook of Grand Haven the News  
learns that the town has a base ball  
team. Holland has no ball club as  
yet. If the city had it would be dif-  
ferent. As an item of news the News  
published the fact that the Grand  
Haven nine were closed out by the  
Hart experts.  
Hugh Meyer walked into Ed Van  
Drezer's restaurant the other evening.  
He specified his order and included  
liver and bacon, beef steak, raspberry  
and lemon, etc., etc. When the call  
came for change Mr. Meyer could not  
produce, and the result was a distur-  
bance. Meyer was arraigned before  
Justice Kollen and paid a fine of seven  
dollars.  
In a recent pamphlet issued by the  
state, it is shown that: There were  
668,593 tons of hay sold during the  
year ending June 1, 1894, which is val-  
ued at \$5,247,555, an average of \$7.85  
per ton, and there were 53,738 tons of  
straw sold, valued at \$141,935, an av-  
erage of \$2.64 per ton. The entire hay  
crop of the state, 2,955,857 tons, at the  
same value per ton as that sold, \$7.85  
was worth \$23,203,477. The hay sold  
was 22.62 per cent of the entire crop.  
The hay left on farms was 2,287,264  
tons worth \$17,955,922.

The Graham & Morton liner the  
City of Chicago made another play  
toward reaching the Holland harbor.  
It was supposed that the boat could  
not come in and a tug was sent out to  
convey passengers. Those who are  
well informed know that the City of  
Chicago draws less water than the  
Soo City and might have made an at-  
tempt to pass through the piers.  
When you come down to it Holland  
has a better channel than a good many  
other ports on the east shore on which  
many thousands have been expended.

The Pecos Valley (New Mexico)  
News has this to say: Among the val-  
ley visitors this week was Arend Vis-  
scher, prosecuting attorney at Holland  
Ottawa county, Michigan, an Ameri-  
can of Holland extraction. Mr. Vis-  
scher, accompanied by John Vander-  
sluis, came to the Pecos country to  
prospect on behalf of the people of his  
district, who, because of crowding,  
are looking for new territory in which  
they and their sons may spread out.  
Mr. Visscher said: "We have 50,000  
people of Holland extraction in our  
part of Michigan. They are mostly  
farmers, who have become American-  
ized fully, most of them having been  
born here. They have even better  
farms and improvements than are  
found in Illinois. Each farmer has  
an orchard, and they succeed in all  
branches of industry. The Hollanders,  
you know, are from a country of dykes  
and ditches, and they ask nothing bet-  
ter than to wade in and reclaim  
swamp lands of Michigan; so if they  
come here, they will soon become fa-  
miliar with your irrigating system."

John Klein has been sick for some

and bed.

farmers, who have become American-

### Michigan's New Park.

OLD MACINAC MORE FAMOUS THAN EITHER THE YELLOWSTONE OR YOSEMITE.

Now that Michigan has Mackinac Island as a state park controlled by a board of commissioners of which Hon. Thomas M. Ferry of Ottawa county is president, the following published in last weeks issue of Harper's Weekly will be read with considerable interest:

By a paragraph in the sundry civil appropriation bill, which lately became a law, Congress has provided that the old fort and the national park on the island of Mackinac shall be turned over to the state of Michigan for a state park. At a time when the government is making national parks of all the great battle grounds of the civil war, it has relinquished to a state one of the most historic spots on this continent—a place intimately associated with the history of the Northwest under the French and the English, and memorable by reason of its capture by the British in the war of 1812, and of the repulses of the Americans when they twice attempted to recover it during that struggle with Great Britain.

Probably, however, the result will be for the benefit of the thousands of pleasure seekers who visit Mackinac each year; because the state will doubtless improve the natural advantages of the place, which the government had well nigh neglected.

In the seventeenth and eighteenth centuries the territory lying between the Strait of Mackinac and the St. Marys river were known as Michilimackinac. Thither, in the June of 1684, Jean Nicolet, a young Norman, made his way, penetrating as far as Green bay, whose waters he was the first man to navigate. Standing on the long veranda of the Grand hotel, one looks across the stretch of water at the right to see the cliffs of the modern St. Ignace, where, on March 16, 1649, the Iroquois broke the power of their Huron foes, putting the Jesuits Brebeuf and Lallemand to the most horrible tortures, and retreating across the ice to their southern homes their pathway lighted by the burning cabins of the Hurons, and their ears cheered by the cries of their victims fastened to stakes in the midst of the flames. Visitors to Quebec may still see in the Hotel de Ville the skull of Brebeuf, reposing under a silver bust of that martyr; and those who are curious to learn with what ingenuity an Indian could torture his victim will find in the Canadian Archives for 1884 a minute account of this particular piece of fiendish barbarism, written on the spot.

It was from St. Ignace that Joliet and Father Marquette started out, in May, 1673, on their successful errand to discover the Mississippi; and four years later Marquette's body was brought back there for burial. Just two centuries from the time his faithful Indians deposited his remains under the floor of his little chapel, Father Jucker discovered the long-lost spot of their interment, and marked the place with a monument, to which summer visitors now make pilgrimages. Into the clear waters of the harbor of St. Ignace, La Salle, in 1679, dropped the anchors of the Griffon, the first vessel to navigate the upper lakes.

At St. Ignace, too, Cadillac on the one hand fought the missionaries, who were so much opposed to the supplies of rum given to the Indians that they procured from the Sorbonne in Paris a decree against the sale of brandy at Michilimackinac, and, on the other hand, dealt effectively, with the Iroquois by making feasts for the Hurons at which entertainments he served Iroquois broth, and regaled his guests by tortures so inhuman as to give points to the savages themselves. When Cadillac founded Detroit, in 1701, he lured the Indians to his new establishment, and shortly afterwards the French mission and fort were removed to the south side of the strait.

In 1760, Canada having passed into the possession of the English, the post near the present Mackinaw City was garrisoned by the British; and here, in 1763, occurred the famous surprise and massacre which formed one of the many tragic events in the conspiracy of Pontiac. The story of the exciting escape of Alexander Henry forms one of the most brilliant chapters in Parkman's work. In 1781 the English left the mainland to plant their fort on the turtle-shaped island of Mackinac, the home of the fairies, and the spot about which Indian legends had gathered from time immemorial. Over the solid ice the troops hauled the barracks and other government buildings and when the strait opened in the spring the traders followed, rafting their shanties. Two of the log block-houses and some of the stone quarters built at this time are among the buildings which the government is now about to transfer to the state of Michigan.

Mackinac was one of the Northwestern posts that the British refused to surrender to the United States after the revolution, for the sufficient reason, as it now appears, that these posts commanded the fur trade which

Great Britain was so anxious to keep for her own people. By virtue of Jay's treaty, however, this government came into possession of all these posts and at the outbreak of the war of 1812 Mackinac island was the headquarters of the American Fur Company, John Jacob Astor's enterprise. On withdrawing from Mackinac the British had established themselves on St. Joseph island, which commanded the entrance to St. Mary's river. It so happened that Astor, in his zeal to protect his stores of furs, had obtained from Gilbert Gallatin, the Secretary of the Treasury, orders for the collectors at the various posts to receive and care for furs brought to them by traders. Astor's expresses quickly spread through Canada the news of the declaration of war, anticipating the information sent to our commandants by the slower advice of the War Department. Hence it happened that on July 17, 1812, a British force of regulars and Indians dropped down on Mackinac island and captured the garrison before they knew that war had been declared.

In the center of the island the British built Fort George, among whose ruined parapets is now an observatory whence the visitor looks out over one of the greatest waterways on the globe to St. Ignace, four miles to the right, and to Mackinaw City, eight miles to the left. In August, 1814, a force under the gallant young Croghan, the hero of Fort Sandusky, after destroying the British establishment at St. Joseph, attempted to recapture Mackinac. The attack was well planned, but from behind every tree an Indian poured into the ranks of the regulars so destructive a fire that after the loss of four officers, the troops could not be rallied, and retreat alone was possible. Subsequently an attempt to blockade the island was equally unsuccessful, and Mackinac was not recovered until July 18, 1815, when the British surrendered the post at the conclusion of peace.

The romance side of the fur-trader's life at Mackinac has been told by Washington Irving in Astoria, and in the first chapters of Constance, Fenimore Woolson's romance Anne. Miss Woolson spent both summers and winters at Mackinac, and her little volume called Lake Country Sketches is steeped in the witchery and charm of the solitudes of that wild and romantic country. No other writer has so loved the great lakes and had the power to communicate to others so much of the charm they have had for her.

Besides a resident population of about two thousand, the island has a regular summer population that is housed in some forty cottages and villas, while the half-dozen hotels and the many boarding houses accommodate their thousands. The reservation is thickly wooded, and drives and bridle-paths make a labyrinth of the forest, while those wonderful freaks of nature known as Arch Rock and Sugar Loaf present alluring backgrounds for the visitor who longs to be linked, if only in photograph, with the sublime.

Now that the government has bestowed on Michigan so great a gift, the state will hardly hesitate to put the park into the hands of a capable commission, and to provide for the proper care of the historical places and natural features of the enchanting and enchanted spot.

May Pierce the girl who is locked in the county jail for alleged complicity in the murder of her mother at Berlin was visited Sunday by two married sisters, who spent the greater part of the day with her.

Circuit court convenes Monday. There are seven criminal cases, eleven issue of fact, jury cases; seven non-jury cases; three law and impudence and thirteen chancery cases.

The Tribune says: A party of about sixty young farmers from Lowell and vicinity passed through here last night on their way to Groton, South Dakota, to work in the harvest fields. Many had been there before and claim it to be the grandest country in the world at harvest time.

It is doubtful if there is any town of its size in Michigan, that can boast of so many little gardens as can Grand Haven. Many of their citizens have their own little potato and vegetable patches.

According to the state census Ottawa co. contains 139,372 chickens, 2,288 turkeys, 359 geese and 841 ducks. Eggs were sold last year to the value of \$89,325.

#### Allegan County.

The Fennville Herald says: Once more the peach harvest has arrived and on account of the long continued dry weather, the early peaches have been coming in with a rush. The Amsden or Alexander variety is never very good, but this year they are so small and the shipments are so large that the Chicago market has been about demoralized.

Frank Ives, the champion billiard player, from Plainwell, will sail for India next October, visiting Lucknow, Calcutta, Bombay and other cities. He will be the guest of the rajah of Copatella, whom he met in Paris during his first visit there, and who took a great fancy to him.

Rev. J. A. Barns has received a call from the Westminster Presbyterian church at Big Rapids, and it is very probable he will accept it.

The Allegan Journal is authorized for the statement that John Germain the county drain commissioner, has redeemed 39,000 acres of swamp and overflowed lands and made good tillable land of these tracts, thereby improving the health and wealth of Allegan county. He has turned swamps into good tillable land and made the wilderness to blossom like a rose.

It is understood that the Standard Oil Co. has the Allegan oil field in its grasp. Recently some of the younger businessmen decided to organize another company and make another attempt to get oil in flowing quantities. They found that several of the old wells had been supplied with caps and riveted up tight.

The Douglas Record reported last week that a South Haven man had picked twenty-six and one-half crates of cherries from one tree, and that as far as heard from, he was entitled to the champion belt. But right in Saugatuck Mrs. Wm. Turnbull picked from a tree in her yard, twenty-eight crates, besides a considerable amount for her own table use.

## BELIEVED EACH OTHER DEAD.

Husband and Wife Reunited in Lansing After Twenty-Two Years.

LANSING, July 29.—Charles L. Doeblor and wife have been reunited here after a separation of over twenty-two years, during which time each believed the other was dead. In the early '70s, when the Doeblers were living in Detroit, the husband, a veteran of the rebellion, went west to take up some government land. Not long after an acquaintance wrote Mrs. Doeblor that in a fight with Indians her husband had been killed. From that time Doeblor was mourned as dead. About six years ago Mrs. Doeblor removed to this city, and a short time ago made application for a pension. The proof of Doeblor's death being unsatisfactory, the pension department started an investigation, which resulted in locating him in the soldiers' home at Dayton, O. A Detroit man heard that Mrs. Doeblor was dead, and meeting Doeblor in Colorado, so informed him. Doeblor always thereafter believed his wife was dead.

As Waterman is 48 years of age, this is practically a life sentence.

The shell had cracked, and a tiny shoot had made for daylight at the end of the nose.

SATURDAY, JULY 20.

### A Grocer's Picnic.

The Retail Grocers' Association has decided to hold its ninth annual picnic at Ottawa Beach on Thursday, Aug. 8, after receiving invitations to picnic at Reed's Lake, Grand Haven and Muskegon. Like the anniversary of two years ago, it will be an all-day affair, every grocer in the city being invited to close his doors for the day and join in the festivities of the occasion. An invitation has been received by John Kruisenga extending an invitation to join in the days festivities and in order to make matters interesting there will be a ball game between two nines composed of Grand Rapids and Holland grocers. The challenge for the game came through E. A. Stowe of the Tradesman and there is every prospect that there will be an exciting game.

The following merchants have signed a petition to close their places of business on that day and join with the Grand Rapids merchants in days outing: Wm. Bottsford, John Kruisenga, P. J. Zalsman, G. G. Smeenge, P. A. Kleis, Wm. Swift, Wm. G. Van Dyke, G. Van Putten, D. De Vries, M. Notter, R. Van Zwaluwenberg, Wm. Secord, C. L. Streng & Son, Boot & Kramer. Several of the grocery men declined to enter into the combination and will keep their places of business open. There will be three trains run from Grand Rapids on that date and it is estimated that there will be several thousand people at the resorts as friends and guests of the grocers.

### The Holland Harbor.

Col. Lydecker was in consultation here to-day (Friday) with C. J. De Roo, W. H. Beach and others, in connection with work proposed on the Holland harbor. He gave the gentlemen to understand that the pile sheeting would be done during the next two months. The Colonel came in on Thursday morning on the steamer General Hancock and left about noon for Saugatuck where he will inspect the work now being done on the harbor.

Her orders are to first make a double cut through the outside bar, and after its completion she will probably be put to work on the clam shell bottoms. It is expected that the work that has been laid out for her can be accomplished by the first of next month if reasonable weather prevails.

Colonel Lydecker passed through here on Friday afternoon on his way to Detroit having left the steamer Hancock at Saugatuck. He seems to think that the Holland harbor is on the pick up and can look for an appropriation of \$50,000 or more.

### Amateur Sports.

On Thursday afternoon there was an exciting game of ball between the carvers and band sawyers of the West Michigan factory. The game was a split one, Mr. A. Huntley, Jr., the umpire selected, had his hands full to watch it. Only four innings were played and the score was as follows:

#### CARVERS:

C. Van Duren P. 1; C. Bourtois 2nd B. 1; J. Hadden 1st B. 2; Stonebreaker C. 1; A. Van der Hill S. S. 1; F. Roy 3rd B. 1; E. String R. F. 1; J. Van der Hill C. F. 0; C. Bouman L. F. 1.

#### BAND SAWYERS.

P. Bouman C. 2; J. Wierda 3rd B. 0; F. Durst 2nd B. 2; B. Smith P. 0; J. Durst C. F. 0; W. Trimble 1st B. 1; F. Trimble S. S. 1; B. Den Uyl L. F. 1; A. De Waard R. F. 1.

#### Total:

Band Sawyers— 1-0-2-5-8.  
Carvers— 5-1-0-3-9.

In the fourth inning a dispute came up and the nines walked off the field. Mr. Huntley's decision was in favor of the carvers nine to nothing.

The south end Starlights played another game of ball with the Zeeland nine on Thursday afternoon and the game was an exciting one. They had good players on both sides and the score stood 16 to 13 at the finish in favor of the Holland club. The game played at Zeeland last week was in favor of the Zeeland. As it stands now it is horse and horse, and another game is on deck for next week.

### A New Hotel.

As stated in the News last week, there is a prospect that a new hotel will be erected in Holland between now and spring. Capitalists have concluded to invest their money and the enterprise is well under way. The location is on Eighth street, nearly opposite the News office and a Chicago architect is now at work on the plans.

It is understood that Mrs. Mary Ryder will have control of the house, and that it will be run in connection with the Hotel Macatawa. Two well-known house contractors, Messrs. Ward & Russel are interested and the house will probably be open and ready for business by May 1st.

### Holland vs. Zeeland.

There was quite a spirited contest at Macatawa Park Thursday morning between the Holland and Zeeland gun clubs. There were six representative shooters from each club and the outcome of the first event at 25 singles was as follows:

Zeeland: A. Kampe, 18; H. Harsten; 19; F. Hieftje, 21; A. Smits, 22; P. Smits, 23; H. Van Ebek, 19.

Holland: C. J. De Roo, 18; D. Blom, 7; G. Bender, 19; W. Thomas, 12; P. Dulyea, 15; C. Harmon, 12.

There was also a shoot at 20 single birds for a purse of \$10 and the score resulted: W. Thomas, 10; H. Karsten, 15; D. Blom, 9; C. Harmon, 10; A. Eding, 12; P. Dulyea, 8; A. Kampe, 14; H. Van Eyck, 13; P. Smits, 16; J. Kampe, 17; J. Skinner, 13; F. Johnson, 4; S. Arleth, 6; C. J. De Roo, 13; G. Bender, 10; Dr. Baert, 9; A. G. Baumgartel, 15; F. Hieftje, 16; E. Van den Berg, 10; J. Krans, 12; A. Smits, 15.

There was the best of feeling among the shooters and the prizes were distributed as follows:

1st., \$4.00, to J. Kampe. 2nd., \$3.00, divided between P. Smits and F. Hieftje. 3rd., \$2.00, divided by A. G. Baumgartel, A. Smits, and H. Karsten. 4th., \$1.00, to A. Kampe.

### Protect the Game.

Through the efforts of the Rod and Gun Club the fish in Macatawa Bay have been protected. There is no other point along the east shore of Lake Michigan when better catches have been made than during the past two summers. As many as twenty-five or thirty boats are in use every day or night and if they all counted up their gatherings they would average up more than 25 to 30 a boat. The open seasons for game in Michigan are as follows: Deer, Nov. 1 to 25, inclusive. A license is required. The fee to non-resident sportsmen is \$25. To residents 50c. Woodcock, Aug. 15 to Dec. 15. Quail, Partridge and Wild Turkey Nov. 1 to Dec. 15. The sale of Quail, Woodcock and Partridge is absolutely forbidden at any time. Geese, Ducks and Snipe (including plover, "ring-necks" etc. Sept. 1 to Jan. 1, except that jack-snipe, red-head, blue-bill, canvasback, wedge-tail, and pintail ducks and wild geese may be shot from Sept. 1 to May 1 next following. Clay pigeons may be shot at any time. The Holland Rod and Gun Club will pay a reward of \$5.00 for information leading to the arrest and conviction of anyone violating any of the game or fish laws in this vicinity.

Captain Cornelius Gardner made an impression at the gathering of the Pan-American congress in Toronto, Canada, last week. He advocated Mayor Pingree's potato patch plan to the fullest extent and argued from the standpoint that it was a practical and philanthropic movement for the benefit of the poor and unemployed. He estimates in his remarks that the venture netted the cultivators \$14,000 at a cost to the committee of \$6,300. The Free Press says: The experiment in Detroit has demonstrated the following facts: Being that the largest item in cultivation of vegetables is labor, furnished by the people themselves, that much good may, by this plan, be accomplished with small expense to charitable people or the taxpayers. The wholesale robbery and trespassing predicted, even upon the land unfenced, is not the fact. That it is best to get tracts of as many acres in a piece as possible, and if the same be poor land, to, during the winter, collect in central localities the sweepings of the streets, to be put upon the land in the spring, or carry it upon the land to be cultivated from time to time, as collected, in order to enrich the soil of those poor lands. That the poor are glad to get land for cultivation, even where it lies three or four

miles from their homes. That many poor and unemployed persons in the cities are glad to avail themselves of an opportunity to raise potatoes and other vegetables for their own subsistence, provided the land be furnished, and they are assured that the results of their labor will accrue to them. That, especially to day laborers with large families, the opportunity to cultivate a small piece of land is a god-send, as it enables them, together with what they can earn, to get along without other assistance, and that to the class who are constant recipients of charity and are practically continuously so supported, the cultivating of the soil and obtaining food other than by gift is a valuable lesson, which tends to wean them from pauperism and restore instincts of self-dependence and manhood.

### CHESS AN INTELLECTUAL VICE

Opinion of Blackburne, the English Champion—Men Ruined by the Game.

Mr. Blackburne, the English chess champion, regards the game as a dangerous intellectual vice, which is spreading to rather an alarming extent. Discussing the matter he said: "I know a lot of people who hold the view that chess is an excellent means of training the mind in logic and shrewd calculation, provision and caution. But I don't find these qualities reflected in the lives of chess players. They are just as fallible and foolish as other folk who don't know a rook from a pawn. But even if it were a form of mental discipline, which I doubt, I should still object to it on the ground of its fatal fascination. Chess is a kind of mental alcohol. It inebriates the man who plays it constantly. He lives in a chess atmosphere, and his dreams are of gambits and the end of games. I have known many an able man ruined by chess. The game has charmed him, and, as a consequence, he has given up everything to the charmer. No, unless a man has supreme self-control, it is better that he should not learn to play chess. I have never allowed my children to learn, for I have seen too much of its evil results. Draughts is a better game if you must have a game."

### Boy's Composition on Sailors.

The following is declared to be the work of a pupil in an English elementary school: "Seamen are what we call sailors, and captains, and training ship boys. The sailors you see in the streets are nice little fat men, with red and brown faces. They wear boys' coats and hats, and their trousers are too tight for them up above and too wide for them down below. It makes them feel very riled. Sailors don't wear collars, because their necks are so thick; and they always have their boots blacked for fear the captain might see them around a corner. They don't carry their best close in boxes, but they tie them up in big red and blue handkerchiefs, just like Christmas puddens. Sailors are very fond of their mothers and sisters, and you nearly always see them taking them out to walk. The reason why sailors like to get drunk is because it makes them roll about like as if they were on the ocean."

### SWALLOWED HIS BATON.

French Drum Major Who Introduced a New Act.

A decidedly unique variation of a drum major's usual performance when on review occurs in one of the French regiments of the line—or, rather, did occur—for the colonel of that regiment has now put down his foot and issued a positive fiat that his subordinate shall henceforward confine himself to orthodox tricks.

The musical leader in question, says the New York World, had at one period of his life been a mountebank, and evidently a good one, for, after practicing in secret a number of times, he astonished the regiment, drawn up in review one day, by suddenly throwing his stick high in air, catching it in his mouth upon its descent, and swallowing fully half of it. Having accomplished this gastronomic diversion, he stood for a moment while the spectators gazed in awed amazement, and then disgorged the half of the baton which he had swallowed and continued his march down the line.

He repeated this trick a good many times and the regiment was very proud of him, but it brought it such an unfavorable reputation that the colonel finally had to stop him. Now his performance is thoroughly conventional.

## OUR NEIGHBORS.

### Port Sheldon.

We had the pleasure of having the first good rain storm yesterday, Monday, since last April and it will do a great deal of good, and it just came in time to save the corn and late potatoes, which makes a smiling face on the farmers and they are in hopes of getting a crop of corn to help them out, as through the dry weather there has been a bad yield of rye, wheat and oats. But what little there was turned out well in thrashing.

All the campers returned to their homes on Saturday. They were well pleased while they were here and reported that they had pretty good luck in fishing.

Mr. Goodin has started up his mill again and is cutting staves for the fish kit factory at Grand Haven.

The Van Sloten boys have been around here thrashing, and wherever they have been working they have given good satisfaction for the clean manner in which they do their work.

Mr. Tunis Quick and his wife's sister from Chicago, came over in the City of Holland last Saturday. They report a terrible rough passage.—Mrs. Quick gave birth to a fine bouncing baby girl last week, both are doing well.

Our old friend Samuel Mountford is around again but has to take a pair of crutches to walk with, but he hopes to be able to throw them away before long, and take a new lease on his life. Mrs. Brown, his wife's mother who also has been down very sick is reported getting better.

Mrs. De Witt Steinberg who has been given up is on her feet again and able to walk across the room again. Dr. Van den Berg of North Holland has been attending her.

Yesterday's rain has put our forest fires and we are able once again to breathe the pure air and not be nearly choked and blinded with smoke, which spread over a large tract of land and no matter how the wind blew we got the smoke.

### Pike's Peak Legend.

SOME ONE HAS CONNECTED ITS GENESIS WITH EARLY MYTHOLOGY.

While the geological and mineralogical history of Pike's Peak is interesting, the real story of the place comes from the Indian legends. To Ernest Whitney, of Colorado Springs, belongs the credit of discovering these legends and in a certain measure preserving them. Mr. Whitney went to Colorado many years ago and became greatly interested in the Indian traditions. He devoted years to his study of them, and has visited nearly every tribe in the country on its reservation in search of information. His hardest work was to separate the old Indian legend from the interpolations which where the result of intercourse with the whites. His work was conscientiously done, and although many interesting features are omitted as being apocryphal, the legends as given today are the identical legends which were told in the tribes 250 years ago.

Mr. Whitney is convinced that centuries ago there was a close connection between the mountain tribes of Indians and the Aztecs, but says he had no conclusive proof. The Indian legends, especially the account of the flood, which is a factor in the legends of all savage races, will prove of interest to the bible scholar who will compare it with his book of Genesis.

The legend of the formation of Pike's Peak, as given by Mr. Whitney, follows: "At the beginning of all things the Lesser Spirits possessed the earth and dwelt near the banks of the Great River. They had created a race of men to be their servants, but these men were far superior to the present inhabitants of the earth and made endless trouble for their creators. Therefore the Lesser Spirits resolved to destroy mankind and the earth itself; so it burst its banks and overwhelmed everything. They themselves took each a large portion of the best earth that they might create a new world, and a quantity of maize, which had been their particular food, and returned to heaven. Arriving at the gate of heaven, which is at the end of the plains, where the sky and mountains meet, they were told that they could not bring such burdens of earth into heaven. Accordingly they dropped them all then and there. These falling masses made a great heap on the top of the world which extended far above the waters, and this is the origin of Pike's Peak, which is thus shown to be directly under the gate of heaven. (It was formerly twice as high as now, but lost its summit, as is told in another legend.) "The rock masses upon it and all about show that they have been dropped from the sky. The variety and extent of the mineral wealth in the region prove that the earth's choicest materials are deposited there. And still as the constellations move across the heavens and vanish above the mountain summits we may see the spirits rise from the Great river and pass to the gate of heaven. The falling stars are their falling burdens or the dropping grains of maize."

### An Interesting Letter to the Veterans.

John Kramer, of the 25th Mich. has received the following which explains itself:

Knoxville, Tenn., July 21, '95.

My Dear Sir: "I am, as you thought, the son of Wm. Rule, adjutant of the

6th Tenn. Infy. which was commanded by Gen. Cooper and afterwards by Col. Maynard. The Col. Cooper you refer to is the eldest son of Gen. Cooper, and is county clerk of this county and one of its best citizens. Gen. Cooper is now a resident of Kansas and has signified his intention of being here at the encampment, the success of which is now assured. Gov. McKinley, of Ohio, and other distinguished men will be here, and I am told, the number of visitors will not be less than 20,000.

I have heard so much of the 25th Mich. that I feel a most lively interest in all pertaining to it. The 6th and 3rd Tenn. will see to it that any who may be here will be lovingly looked after.

My father bids me to remember him most kindly to you and through you to all of his and your comrades.

Regarding one of your questions I have to say that the "bloody chasm" is long since filled in this section and ex-Federals and ex-Confederates are best of friends, united in business, in social and public life. The association of ex-Confederates are enthusiastically co-operating to make the encampment a great success.

Very sincerely,

JAS. F. RULE.

## THE ONWARD MARCH.

of Consumption is stopped short by Dr. Pierce's Golden Medical Discovery. If you haven't waited beyond reason, there's complete recovery and cure.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 95 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience. Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

4:00—Rev. Everett D. Gates, "Christian Endeavor and the Young People."

4:30—W. H. Strong, Detroit, "State Work."

### FRIDAY EVENING.

At Hope Church, or Third Church, Holland.

7:30—Singing, Choir.

Devotional Exercises, conducted by Rev. H. G. Birchby, pastor of Hope Church.

Solo.

Sermon—Rev. P. V. Jenness, "Consecration."

Benediction—Rev. John Lamar.

### Read Between the Lines.

As will be seen by this notice published in the Grand Rapids Herald this (Friday) morning there is a proposition moving in regard to a new silver organ. The paper says:

"Charles R. Sligh and Frank W. Ball have purchased the Weekly Times, published by John G. Lee; the West Michigan Independent, published by John Greenway at Holland, and the People, and will consolidate the three into a weekly free-silver organ, with a view to publishing it as a daily afternoon paper next spring if the conditions are considered favorable. Mr. Ball for several years was owner and publisher of the Democrat in this city, while Mr. Sligh is widely known as a furniture manufacturer."

Mr. Sligh was seen by a reporter for The Herald last evening and when asked regarding the truthfulness of the announcement, replied: "I am in no way connected with such a movement and while I would like to see a free silver organ established here in Grand Rapids, and would give it my hearty support I would put no money in it and would not become connected with it in any way."

John B. Greenway, one of the owners of the West Michigan Independent and the People, said last evening that while Mr. Ball had expressed a desire to consolidate the weekly papers advocating silver in order to make the work more effective, there have been no steps taken further than to submit a proposition to Mr. Ball and ex-Congressman Richardson in writing, to which no reply has yet been received.

## A GREAT EXPENSE

To Carry on an Almost Helpless Fight.  
—At Last the Fight is Over.

(From the Battle Creek Moon.)

Our representative called at 26 Battle Creek Avenue, the residence of S. I. Robbins, and in an interview with him brought out the following facts: Mr. Robbins tells of his wife's experience in a manner that carries conviction with his words. He says, "I am sorry my wife is not at home this P. M., but no one knows better than I how she has suffered during past years. For twenty years she has been afflicted with the various forms of kidney complaint and an enlargement of the liver. She was often confined to her bed for more than two weeks at a time suffering untold agony. She has doctored constantly, and I have paid out in doctors' bills for her alone as much as \$800.00, and then her relief was only such that she would be able to be around for a spell. Some time ago she felt the symptoms of another attack coming on, such as a pain in the back and the kidneys and back. I hardly know what induced me to get a box of Doan's Kidney Pills, instead of sending for the family physician; however, I got some and she commenced their use. It was a surprise to us both to see their action; the attack was warded off, and she continued taking them with marked improvement each day of their use. She is better now than she has been in years, the pain in the back and others in the kidneys have entirely gone. Hardly a day goes by that we do not mention the great good Doan's Kidney Pills have done her. I was always opposed to patent medicines, but confess that my wife's experience with Doan's Kidney Pills has done much to change my opinions. If it were not for those pills she would not have been able to be out this afternoon."

## MORE MINERS STRIKE.

Men Working in the Champion, Near Negaunee, Called Out.

**NEGAUNEE, July 26.**—The men employed at the Champion mine, 19 miles west of here, quit work Thursday morning. A delegation of strikers from Negaunee and Ishpeming visited the mine and urged the men to join them. There are a little less than 300 men employed at the Champion. It is said their average pay has not been as good as men working in the miners here. Superintendent Fitch asserts that the mine will be closed indefinitely. Capt. Hoar appealed to the strikers to permit him to resume work at the Star West mine on the Cascade range, which he is operating on contract. He offered to grant the men all the demands they asked, but they said all the mines in the county would have to remain closed until a general advance was granted.

**CHAMPION, Mich., July 30.**—Orders have been received from the eastern offices to close down the Champion mine, the 250 employees being on a strike. The Champion mine produces hard ore.

**MARQUETTE, Mich., July 30.**—As was announced Saturday night the call of the local mine managers for all strikers to be at their places Monday morning to learn what concessions would be made by the companies was entirely ignored by the strikers, not one reporting as requested. The demonstration Monday was larger than ever. One man was thrown out of the procession with considerable violence on suspicion of being a spy. A double line of guards was stationed around the park where the meeting was held. At mine offices pay-rolls are being made up in full, and the managers say it is their intention to pay all wages due and then shut down the mines.

## FOREST FIRES.

They Are Working Much Ruin in the Vicinity of Gladstone.

**GLADSTONE, July 31.**—The situation here regarding forest fires remains the same. The swamps to the west and northwest of the city below the bluff and in the Goodmon addition, as well as the marsh lands on both sides of the Soo railway, are burning furiously. The buildings on the Hammer property, owned by W. D. Washburn, Jr., of Minneapolis, were destroyed Tuesday afternoon. Every precaution is being taken to prevent the fire getting into the business and residence portions of the city. The wind still remains in the north and is blowing a gale and the smoke in the streets is almost blinding. The city fire department has been on duty all day. Heavy fires are reported between Sault Ste. Marie and Trout Lake.

## BURIED UNDER A STRAWSTACK.

Michigan Farmer Without Food or Water for a Week—He Will Die.

**ADRIAN, July 31.**—Humphrey Tabor, Jr., a young farmer living 2 miles west of here, has been mourned for dead the last week. He was the owner of a large farm and possessed of considerable property. On July 23 he disappeared from home and was last seen going in the direction of his barn. Nothing was heard of him until Tuesday, when one of his hired men heard moans in the hay loft, and digging away in the hay, found Tabor nearly dead for want of food and drink. When resuscitated he said that in attempting to remove the hay the mow had tumbled over on him, and he had no idea how long he had been there. The doctors say he will probably die.

## MYSTERY OF FOUR SKELETONS.

It is thought there has been a big crime committed, but no one knows how the bones came there. They have probably been there for years. They were only 2 feet under ground and were all in a heap.

The Grand Haven Evening Tribune of Wednesday says that several years ago a peculiar individual, named Trowbridge, leader of a strange sect near Holland was sent to Jackson for a term of years from this county. Trowbridge was a second Prince Michael in appearance and like that criminal, the leader of a strange religious sect. He wore his hair long, and while in jail prayed and yelled in loud tones. Trowbridge has been out of prison for some months now and is preaching near his old haunts once more. His wife died during his imprisonment.

The Alcazar Opera Company materialized on Thursday and presented the Mykado at the opera house. There were some good voices in the main parts but the chorus was very light. The steamer Music brought up about seventy five from the resorts. They were all jolly, good natured people and came to Holland for pleasure. On the way up from the steamer there was considerable noise and the city marshal had to call them down. He did so in a pleasant way and from all accounts there was no lack of harmony. The company remains Friday and Saturday and will give "Pinnafare" and "Patience."

At a meeting held in Douglas on Wednesday evening of which Fred Wade was chairman and H. H. Hutchins secretary, the Saugatuck and Gangers Telephone Co. was organized and a board of directors consisting of Dr. E. E. Brunson, H. Bird Jr., Fred Wade, H. H. Hutchins and Chas. E. Bird was elected. Forty or fifty miles of lines will be constructed and it is the expectation of the company to eventually connect with the Holland exchange. The News learns that Mr. Judd Watson has secured the contract for stretching the wire and will also put in the phones. Twenty five have already been ordered. Many of the poles are already planted on the line and the company expects to have the exchanges at Saugatuck, Douglas and Gangers in operation in a few weeks.

The Saugatuck Commercial says that the government surveyors have staked the banks of the river off in sections of 100 feet up as far as the middle of Kalamazoo lake. At each section a taut line is stretched across the river and soundings taken at intervals of ten feet. This is for the purpose of making a chart of the river which will show the exact depth of the water in every portion of it. A personal letter reaches the News this week from Amsterdam, written by G. Van Schelven and dated July 20th. He says, it has simply been impossible for him to sit down and secure time and opportunity for a long letter. He is traveling about and communicates the information that visits and excursions are coming in uninterrupted succession. His father now 90 years of age he says is as spry mentally and physically as a man at 60 except his eye sight. "If we would let him I believe he would tire me out walking. He still preaches twice every Sunday whenever occasion requires it." The paper he says reaches him regularly and furnishes all the needed information about home matters.

There seems to be no question now but that the Chicora wreck has been located. Lamps, sacks of flour and other valuable packages have been picked up between Saugatuck and Pier Cove. Jimmy Reed the Bay City diver who made a proposition to resurrect the steamer Elbe for \$200,000, has been prospecting along the shore this week, and the News scribe learns that Reed and the Graham & Morton Co. have been figuring on starting out a new rescuing crew early next week. When the tugs L. S. Payn and Frank Edwards dragged the east shore for the wreck there were only two places where the drags struck wreckage and that was four miles south of this harbor and at Pier Cove. Mr. Reed we understand will make a contract to raise the Chicora for less than \$3,000. The friends of the lost crew and passengers are anxious to see the Chicora produced.

Last week we told of the process of galvanizing and its indispensable preservative qualities. Next week we will give you the experience of two representative business firms of Illinois, one of whom has sold 400 and the other 500 Automotors. The week following we will quote a price on the best pumps made (cast, wind mill and irrigating) lower than was ever before dreamed of; and the week following that we shall tell you of steel galvanized tanks, with covers, at the unheard of price of 2 1/2 cents per gallon. This is cheaper than wood. They do not shrink, leak, rot, rust or give cause to worry.

The Automotor Company treats the public generously. While state legislatures are passing laws to secure repairs for farm machinery at reasonable prices, IT IS A FACT THAT THE AUTOMOTOR COMPANY HAS POSTED THE YEAR LONG RESOLUTION TO RAISE ITS PRICES ON REPAIRS BECAUSE OF ITS CUSTOMERS HAVE BEEN CHOOSING INDIVIDUAL PARTS TO MAKE UP COMPLETE MACHINES, INSTEAD OF THAT WAY THEY COULD GET A MACHINE CHEAPER THAN BY ORDERING IT ASSEMBLED. People are not compelled to buy parts to be repaired, they are compelled to buy repairs. The Automotor Company does so. It has a full line of parts and repairs, and it is a fact that the Automotor Company has raised its prices to prevent this. The Automotor Company always has a full line of parts and repairs, and it is a fact that the Automotor Company has raised its prices to prevent this.
