Owing to an unfortunate circumstance Clement A. Foster of Rockford, who was selected to go from this district to Annapolis, will not be able to go. The farmer, upon deciding to market his surplus wheat, which he had carried over from last season, proceeded to his granary, where he found that the hen had taken possession. He decided not to disturb the hen, but to wait until the young chickens were hatched. In the meantime the price of wheat advanced until the farmer discovered he had gained \$100 by allowing the hen to 'set it out.'"

Chief Engineer Louis B. Wilson of the Detroit Construction company, which will build the Grand Rapids Holland & Lake Michigan Rapid railway, is in Grand Rapids under orders from his company to make all estimates and plans for the building of the track from Grand Rapids to Holland. It is a part of his business to determine what materials will be necessary and to report so that the orders may be placed in advance. Rev. J. Van Houte, pastor of the First Reformed church, has accepted the call extended by the consistory of the Fourth Reformed church of Grand Rapids and will leave Holland in September to take up his work in the new field. His announcement to this effect made last Sunday morning to a large congregation was received with deep regret, for a strong bond of love and sympathy exists between pastor and people and all regret to see him leave Holland, even though they realize he feels it his duty to accept a call to another city. Rev. Van Houte was ordained to the ministry in the Netherlands in 1893. He was called to his first charge in this country 16 years ago. This was in Cleveland, Ohio, where he stayed two years. From there he went to South Holland Ill., where he stayed until 1899 when he came to this city. He is one of the most able Holland preachers in the country and thanks to his untiring efforts and practical management his church and congregation in this city has met with great spiritual success. He is one of Holland's prominent and respected men and his absence from the city will be a loss to the community.

The latest monster phonograph is the one at Brighton, Eng., that shouts so loudly every word can be heard at a distance of ten miles away. You can whisper a sentence into the machine's small funnel-shaped mouthpiece and it will repeat it in tones that are more deafening than the shrieks of a liner's steam siren. Yet every word is perfectly articulated, and a shorthand writer ten miles away can take down the message as easily as if you were dictating to him in a small room.

The steamer Crouse is again making daily trips to Chicago from the Gan- ges piers and will continue during the peach season.

For the fiscal year ended June 30, 1899, the total cost of the life saving service, according to the report recently issued was \$1,533,075. During that year the service saved property valued at \$6,391,185, or more than four times the amount invested in main- taining the service. In other words, the service paid for itself and had nearly \$5,000,000 to spare. It is not likely that any other institution of the government can make such a showing. During the year named there were 722 disasters. The total value of vessels and cargoes involved was \$8,243,175. The lives of 4,574 per- sons were imperiled, but only 63 were lost. This is a larger number, with a single exception, than in any year during the last two decades, the increase being due to a single tempest on the At'antic coast, during which 54 persons perished in one district, embracing the coast of Massachusetts. The record for the lake stations for the year is particularly good. Disas- trous tempests occurred on these waters during October and November of 1898, involving 28 vesels and 163 persons, of whom not one perished. During the entire season which re- corded 263 disasters on the lakes, to craft of all descriptions, only three persons were lost. The twelfth dis- trict, in which the Holland station is situated, has a good record for the year. This district employed 212 surf- men, whose total pay for the year amounted to \$102,216.35. For the year named these men saved property valued at \$1,075,170 and rescued 645 persons from death. Only one per- son was lost in this district during the year. The number of disasters was 115, imperilling property valued at \$1,397,553. In nine of these disas- ters the loss of vessels was total. The surfmen took care of 98 rescued per- sons at the stations, giving a total of 115 days' succor. These persons were fed, given medical attendance, where needed, and where they had lost clothing they were supplied from the stores furnished by the Women's Na- tional Relief association.

The residents of this community are experiencing great sorrow at present, occasioned by the announcement that our beloved pastor, Rev. A. Keizer has received a call from the Oak- dale Park Christian Reformed church, near Grand Rapids. So far as the people of Graafschap are concerned they cannot possibly do without Rev. Keizer. Since he has been here the congregation has increased in num- bers and the church has grown in in- fluence until the success attained marks the pastor as a man of unusual ability. He is an able speaker, a good organizer and a practical man. He is close to the people and has always kept their material and spiritual ad- vancement in mind and worked for their best interests. Then is it any wonder that the people say they can- not afford to see him go. It is their fervent wish that he will see his way clear to stay with his congregation in Graafschap and continue the good work.

## TEST THE KIDNEYS

And if They are Diseased Use the  
World's Greatest Kidney Cure

### DR. A. W. CHASE'S KIDNEY-LIVER PILLS.

It's a simple matter to test the kidneys. You need not consult a doctor. By asking yourself three questions you can determine whether or not your kidneys are deranged.

First: "Have you backache or weak, lame back?"

Second: "Do you have difficulty in urinating or a too frequent desire to urinate?"

Third: "Are there deposits like brick dust in the urine after it has stood for twenty-four hours?"

In its early stages kidney disease is readily cured by a few boxes of Dr. Chase's Kidney-Liver Pills, a preparation which has made Dr. Chase famous throughout the world for his wonderful cures of diseases of the kidneys.

Mr. Isaiah Manigold, painter, Watertown, N. Y., writes: "I have had a very bad case of kidney affection for some time, and doctored in vain until Dr. A. W. Chase's Kidney-Liver Pills were brought to my notice, and they have completely cured me. I cannot say enough in praise of their wonderful merits."

If you have kidney disease, you can take Dr. Chase's Kidney-Liver Pills with perfect confidence that what has proved an absolute cure in so many thousands of cases will not fail you.

So long as the cells of the kidneys are not completely wasted away, as in the last stages of Bright's disease, Dr. Chase's Kidney-Liver Pills will give them new vigor and strength, and make them strong, healthy and active. One pill a dose; 25c a box; at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

## WANT TO KILL MCKINLEY.

Individual Members of an Anarchist  
Order in New Jersey Advocate  
His Assassination.

THREATS WERE UTTERED AT A MEETING

The Slayer of King Humbert Glorified  
—Young Girl Who Leads the Group  
Declares Other Rulers Are Fated  
—The Wife of Bressi Is Stunned by  
Her Husband's Deed.

Paterson, N. J., Aug. 1.—The life of President McKinley has been threatened by the anarchists of this city who created the plot to assassinate King Humbert. The threats have not been made by the anarchists as an organization, but individuals have declared that they would advocate the death of President McKinley as they would that of other rulers.

Led by a Girl.

The threats were uttered at a meeting of anarchists called by the group to which King Humbert's assassin belongs. Under the leadership of Ernesta Crevella, a pretty girl of 21 years, the meeting endorsed the assassination of King Humbert.

Miss Crevella was the dominating figure of the occasion. She made a fiery speech, breathing threats against the czar of Russia, the new king of Italy and other rulers and referring to Bressi as a martyr. Miss Crevella is a remarkable girl. She has been in the United States only five years, but speaks English perfectly. She is a weaver in a Paterson silk mill and one of the editors of El Questione Sociale, the anarchist paper of Paterson. The group to which she and Bressi belong is known as "The Society for the Direction of Existence."

Calls Bressi a Martyr.

In an interview Miss Crevella said: "We are members of the group of anarchists to which Bressi belonged. He is a martyr. He has done what we would have him do. Let Nicholas of Russia tremble, and let the new king of Italy prepare for death. They are both inhuman. They are inhuman because they are monarchs. They would not consent to take the places on thrones were they not inhuman. It is a republic that we want, and it is a republic that the anarchists in every country will have."

Looking for Accomplices.

There is a firm belief among the 5,000 odd Italians in Paterson that the Italian consul in New York has instituted a search on his own account in order to discover whether or not the assassin of King Humbert had accomplices in that town. The police of the town and the prosecutor of pleas say that they have heard nothing of any such investigation, but several Italians asserted that it was being made. A detective who has been attached to the staff of the Italian consul for many years and who has conducted investigations into many of the Italian murders in New York was seen and recognized in Paterson. He refused to say, however, what his mission was.

Mrs. Bressi Talks.

New York, Aug. 1.—The wife of Gaetano Bressi, the assassin of King Humbert, is stunned by the notoriety into which she is brought by her husband's crime. She was found at her home with her little girl, 18 months old. She says she will leave West Hoboken at once, to go anywhere, so that she may escape the publicity which has been brought upon her. She is much dejected and is far from sharing the exultation of her husband's anarchist associates. She is an American woman and comes from Chicago. Her maiden name was Sophie Neil. Her parents are dead, but she has brothers and sisters still living in Chicago.

Dixon Defeated.

New York, Aug. 1.—The one-time invincible George Dixon succumbed to Tommy Sullivan, of Brooklyn, at Coney Island Tuesday night, in their battle at 122 pounds. The end came as the men shaped for the seventh round when "Tom" O'Rourke, Dixon's chief second, admitted defeat for his man and claiming that his left arm was disabled refused to permit him to continue, which left no other alternative for the referee than to declare Sullivan the victor. Upon examination Dixon's left arm was found to be broken in two places.

The Deadly Cigarette.

Springfield, Ill., July 30.—Ten persons were injured, two fatally, by the premature discharge of the evening gun at the national guard encampment at Camp Lincoln. The explosion was caused by some one throwing a lighted cigarette into some powder which had fallen to the ground, owing to a bag of powder being broken.

Mail Privileges Extended.

Washington, July 27.—The post office department has notified all postmasters that in the future parcels-post packages in covers closed by means of sewing or pasting are admissible to the mails between the countries with which there are parcels-post arrangements.

Killed at a Crossing.

Fond du Lac, Wis., Aug. 1.—A. B. Taylor, who has been connected with important business interests in this city for 55 years, was instantly killed by a Northwestern passenger engine. Mr. Taylor was driving across the track when his carriage was struck by the engine.

Largest Ever Known.

Chicago, Aug. 1.—Reports show lake shipments of grain in July the largest for that month ever known and the customs collections for July break the record.

## NOTED WRITER GONE.

John Clark Ridpath, the Eminent  
American Historian, Dies in a  
New York Hospital.

New York, Aug. 1.—John Clark Ridpath, the historian, died in the Presbyterian hospital at 5:30 o'clock Tuesday evening from a complication of diseases. He had been a patient in the hospital since April 26.

John Clark Ridpath, LL.D., was born in Putnam county, Ind., in April, 1841. He was graduated from Asbury (now De Pauw) university in 1863, taking first honors. After serving as principal of an academy at Thornstown, Ind., and as superintendent of public schools at Lawrenceburg, he was called in 1869 to the chair of English literature at De Pauw. He was transferred later to the chair of history and political philosophy. In 1875 he published his first book, an "Academic History of the United States." In 1876 he published his "Popular History of the United States," and afterwards "The Life and Work of Garfield." His "Cyclopedia of Universal History" was published in 1885. In 1885 he resigned his professorship in De Pauw, and the vice presidency of the university, in order that he might devote his whole time to writing. In 1893 he published his "Life and Work of James G. Blaine," and in 1894, his "Great Races of Mankind." He was engaged for ten years in preparing the material, and four years in writing this work. In 1898 he published his "Life and Times of Gladstone," and a supplement to the "History of All Nations." He was for a time editor of the Arena Magazine, of Boston. In 1896 he ran for congress on the democratic ticket in his home district in Indiana and was defeated by a small majority. In recent years he has been engaged in the preparation of a complete and elaborate history of the United States.

Fire in Chicago and Many Per-  
sons Are Injured.

Chicago, July 26.—Four women, caught in an explosion and fire in a collar factory on the upper floors of the Henning & Speed building, lost their lives either by burning or leaping from the windows. There was no fire escape on the structure, and the one elevator was shut down for repairs, and thus it came about that there was no avenue of escape for inmates of the building except by the wooden stairways. Thirty-seven persons were injured, more or less seriously. The dead are: Mrs. Anna McLaughlin, Grace Peterson and Isabella and May Kohler, sisters.

Christ, employees at the glue factory, went into a tank to wash it out and were suffocated with the gas which accumulated during the time the works were idle. ## Does the Baby Thrive

If not, something must be  
wrong with its food. If the  
mother's milk doesn't nour-  
ish it, she needs SCOTT'S  
EMULSION. It supplies the  
elements of fat required for  
the baby. If baby is not  
nourished by its artificial  
food, then it requires

Scott's Emulsion

Half a teaspoonful three  
or four times a day in its  
bottle will have the desired  
effect. It seems to have a  
magical effect upon babies  
and children. A fifty-cent  
bottle will prove the truth  
of our statements.

Should be taken in summer as  
well as winter.

Holland to the Front.

The proposition to establish a sewer system in Holland was carried at the special election last Monday by a majority of 134. Nine hundred and ten votes were polled, 522 being in favor of the system, 378 against it and 10 blanks. One ward, the fourth, went in opposition to the proposition, by a vote of 113 against it, 101 for it and 5 blanks. The other wards went for the proposition by majorities ranging from 6 to 12.

The successful termination of Monday's election marks the end of a hard struggle for this improvement by some of the leading citizens of Holland. It began in 1897, when a proposition to raise bonds to the amount of \$7,000 was defeated by a vote of 843 to 461. Though staggered by this decisive defeat the friends and adherents of the system did not despair but kept faithfully at work. Efforts were made to get the matter through the council but failures were the result.

This year however the progressive citizens realized that the time was ripe for another effort. The council took up the question February 6 and the matter of having a sewer system was referred to the committee on sewers, drains and water courses. This committee reported March 6, recommending that a special committee be appointed to make arrangements. The board of public works was added to this committee and upon the board devolved the labor of preparing plans. Luckily the board is composed of some of the most progressive and public spirited men of Holland. They were equal to the occasion and so well were all details and arrangements attended to that when the plans were submitted to the people at a mass meeting the work of the board was unanimously indorsed. The next step was the calling of the election and thanks to the careful work of the board and other public officials, aided by the council and leading citizens, the proposition was carried by a good majority.

This is good news and means a great deal for the city. It means that another step has been taken in the development of Holland and that it now leads its sister cities in general improvement.

By establishing the Holland Sugar company and building a \$250,000 factory last year it was shown that this city was alive and ready to take advantage of every opportunity for industrial development. By planning for the constructing of an additional building on Hope college campus it is shown that the educational development is kept in mind. By arranging for the erection a new church on the site of Hope church it is shown that the spiritual development is given great attention and by voting in favor of this great improvement it is shown that care is given to the healthful and cleanly condition of the city.

It all goes to prove that Holland is not a one sided, but a many sided city. Surely a place like this is bound

to prosper. If manufacturing institutions from other cities wish to avoid a lingering death where they are and take part in this prosperity, now is the time to come and get in on the ground floor. Before long if they wish to come, we will have to put them on the roof gardens.

Farmers Picnic, August 22.

The Farmers Picnic, which will be given Wednesday, August 22, will be worth coming miles to witness. The merchants and business men have responded liberally to the requests of the financial committee and as a result enough money has been subscribed to make it the most successful picnic ever held in Holland.

There will be music, amusements and sports in abundance and not a moment will be dull. Besides the regular program of races, athletic contests, and exhibitions there will be several novel and special features introduced. In the evening instead of fireworks as on former occasions, the streets will be brilliantly illuminated and a carnival of sport will take place.

Come one and all. Bring your friends, and the citizens of Holland will see that you have a good time.

Statement of Expenses.

The following statement of moneys collected for the purpose of defraying the expenses of the State Horticultural Association, which held its meeting in this city on December 6-7, 1899, has been presented for publication by the committee:

Total collected	\$64.50
Drayage	30
H. & L. M. By	6.75
Hotel Bills	21.50
Rent Y. M. C. A.	12.00
Bill Printing	1.75
Total	\$42.50

Balance on Hand.....\$22.20

The balance on hand has been given to those having the Farmers Picnic fund in charge and will be used by them. After the picnic the finance committee will make a complete report of the disposition of all funds placed at their disposal. This is a good plan and will be a good example of avoiding disagreeable criticism that has followed other public celebrations because no report was made.

The item which has been going the rounds of the state press and which appeared in last week's News, to the effect that August 7 is the last day upon which naturalization papers granted this year will enable the new citizen to vote for president in November, is wrong, according to the construction placed on the law by Peter Brusse, secretary of the Ottawa County republican committee, and Charles K. Hoyt, county clerk. Mr. Brusse says that under the present law a 5 year residence in the United States after declaring intention entitles a person to vote even on the day he takes out final papers. Mr. Hoyt, in his explanation says, "Article VII of the constitution reads as follows: 'In all elections, every male inhabitant of this State, being a Citizen of the United States \* \* \* shall be an elector and entitled to vote; but no one shall be an elector or entitled to vote at any election unless he shall be above the age of 21 years and has resided in this State six months and in the Township or Ward in which he offers to vote twenty days next preceeding such election.' A person is a citizen as soon as he receives his full papers and entitled to vote if the election should be held the next day, providing he has resided in the State six months and in the town or ward in which he offers his vote 20 days prior to the election. The requirements of a naturalized citizen are no different from those of a citizen by birth, who can vote when he becomes 21 years of age providing his residence is sufficient, and the first oath laid down by the election laws of Michigan is in accordance with the above provision of the constitution and the naturalization laws, and no question about the time when a person becomes a citizen is considered. Therefore I believe a person can vote for president in November if he should obtain his citizenship papers the day before election, which has been the practice in this State since the amendment to the constitution in 1894."

Congressman William Alden Smith, who has for the past 12 years been general attorney in charge of the legal department of the Chicago & West Michigan and the Detroit, Grand Rapids & Western railroads, and since their consolidation into the Pere Marquette Railroad company, has tendered his resignation to the company and asked for its prompt acceptance. At the time of the congressional convention on the first of May Mr. Smith intimated his intention to retire from public office and it was then freely talked that he would be the general counsel of the new Pere Marquette Railroad company with headquarters in Detroit. The strongly expressed unwillingness on the part of his constituents in this district to lose Congressman Smith's services at the national capital influenced him very largely in not giv-

ing up his public work, even at a business sacrifice. Mr. Smith then resolved to accept the nomination which was tendered him unanimously for a fourth term, and his resignation of the position of general attorney of the railroad company was foregone. His own private interests and his public work made it necessary for him to take this course, as the removal of the offices of the companies from Grand Rapids to Detroit made it necessary for the general attorney to live in Detroit.

TALL WOMEN COMPLAIN.

Manufacturers of Skirts Discriminate Against Them as Being Abnormalities.

There is much complaint among tall women this year that the manufacturers of the linen, crash and pique skirts which are sold ready made in all the stores as seasonable articles of apparel have taken no heed to the fact that many women are "divinely tall." All the skirts are suitable for women of average or small stature; there is nothing for the queenly form that towers several inches above mediocrity. If a woman wears a 44-inch skirt the manufacturers seem to imagine that she cannot have less than a 28-inch waist and arrange matters accordingly, to the bewilderment of the tall woman, who is often slim than stout and whose waist is about 22 inches round.

The tall woman, says the Chicago Chronicle, is not considered as much by the makers of clothes as she should be, anyhow, she thinks. The maid whose skirt measure is over 40 inches, and there are many such, has great difficulty in being fitted in the shops; indeed, after she has looked over some dozens of garments and found not one long enough for her she begins to regard herself as a giantess who ought to be in a museum and not roaming at large, worrying perplexed saleswomen to death.

According to a critical manufacturer, it appears that no well-regulated woman should exceed five feet three in height; those who are so lost to self-respect and consideration for others as to do so must be placed among the abnormalities, and, worse still, hire a tailor to make even their cheapest gowns.

JAPAN HAS A ROYAL WEDDING

The Brilliant Nuptials of Prince Harunomiya and Princess Sada Kujo.

A Japanese wedding is always a ceremonious function, and that of the crown prince of the empire, Yoshihito Harunomiya to Princess Sada Kujo was one of the most brilliant ever witnessed at the capital. The prince, says a foreign paper, was not the first born of the family, but by the death of an elder brother became heir to the throne. He was born August 31, 1879. His bride is but 15 years old, is the prince's cousin, and comes from one of the oldest families in the empire. Her genealogical tree dates back to A. D. 650, but her young husband's family records are 1,300 years older.

The marriage took place at the royal palace and was celebrated in the old Japanese style. No ring was given and no promises were made by the pair as to fidelity, obedience, etc. The main feature of the ceremony proper consisted of drinking a number of cups of Japanese wine or sake together in certain ways. The bride was served first during the marriage ceremony, but never again. After the marriage the husband is always served first. At the beginning of the ceremonies the bride was dressed in white, but this was changed later for a dress which she received from the bridegroom's parents. The young husband also changed his garb when the ceremony was performed and put on new garments which were the gift of the bride's parents.

ADDITIONAL LOCALS

One more day of the semi-annual clearing sale at A. I. Kramer's. Don't fail to attend.

The balance of colored dimities will be closed out for 3 and 7 cts. a yard, at John Vandersluis.

Sarg Idram, the world renowned palmist, physiognomist and phrenologist will be at Hotel Macatawa today, tomorrow and Sunday.

Balloon ascensions and parachute drops will be given at Macatawa Park next Tuesday, Thursday, Saturday and Sunday. One of the most daring aeronauts in the business has been engaged and thrilling exhibitions are assured.

The time is short. Just three more weeks to take advantage of the bargains in wall paper at Jas. A. Brouwer's furniture store, 212-214 River street. You'll be sorry if you don't call and get prices. Getting prices means that you will purchase. Why? Simply because the goods are offered for such low prices. And the goods are right. They are the latest in patterns and color and are fit to adorn any persons house. Remember that sweeping reductions are the order of the day and plan to take advantage of them.

Lots of base ball talk in the air. A nine from the West Michigan factory is after the scalps of the regular nine and if arrangements can be made the game will be played tomorrow afternoon. It is said that the West Michigan boys are willing to bet \$25 or \$50 that they can win the game. If that

is the case they can find plenty of takers and an exciting contest will be the result. Another game spoken of is one between the business men on the north and west sides of Eighth and River streets against the south and east sides of those streets. If the latter game is played a small admission fee will be charged and the proceeds will be given to the Holland base ball club.

The Macatawa Park Assembly for the year of 1900 will begin Sunday afternoon August 5 at 3 p. m. and end Sunday afternoon August 12. During the week sessions will be held every forenoon and evening. CHRONIC DISEASES  
that have been treated year after year in vain, and finally given up as hopeless, now being cured by  
DR. F. McCOMBER

This Famous Specialist has had extraordinary experience in the treatment of Chronic Diseases, covering a period of 28 years. His careful and accurate diagnosis of obstinate and obscure chronic maladies, and the prescription and application of treatments certain to cure, place him at the head of the front rank in his profession. His long years of experience enable him to cure diseases of men and women heretofore considered incurable. Consultation free.

CATARRH AND ITS COMPLICATIONS

You say "Something is the matter with me, I feel so bad. I have doctored and taken patent medicines until I am almost discouraged, and yet no doctor seems to find the cause of my trouble. I have different ideas as to my true condition." This is what I heard every day, and the reason is want of correct diagnosis and proper treatment. For convenience of the afflicted Dr. McComber has enumerated a few symptoms under different headings to enable those in need of treatment to determine exactly what their disease is. It is not expected that every case will have all of the symptoms given below, but every afflicted person will quickly recognize those most prominent in his or her case:

- Diseases of Head and Throat**  
Are either a form of Catarrh or diseases resulting from it. The Catarrh usually starts from a cold and, if not cured, soon becomes chronic and invades the mucous membrane, tissue and bone, until untold mischief is done.  
You spit up slime.  
Your nose is stopped up.  
Your breath is offensive.  
You ache all over.  
Dull pain across the eyes.  
Sometimes stare at night.  
Voice is not clear.  
Have tickling in the throat.  
And sneeze frequently.  
Discharge from the nose, which is watery, and has a smell.  
Pain across the forehead.  
Nose is tender and sore.  
Crusts and scabs form in nose.  
There is a dropping in throat.  
Occasionally sneezing fits.  
You may have or already had Hemorrhage.
- Diseases of Bronchial Tubes**  
Catarrh, by its spreading, creeping, and reaching for more soil for its poisonous germs, very naturally and easily invades the air passages of the lungs. The example of prostration has been before you all your life. It should not be necessary to say: "Don't put off too long—go now!" and consult the only specialist that never makes a failure of curing Catarrh in all its varied and worst forms. See if any of the following symptoms fit your case:  
You have a tickling in throat and windpipe caused by irritation, creating cough.  
You cough usually worse night and morning.  
You first raised your night matter.  
Now you raise yellow phlegm.  
Sometimes streaked with blood.  
Occasionally cheesy lumps.  
You may have or already had Hemorrhage.
- Catarrh of Stomach**  
Dyspepsia and other stomach diseases are frequently, but not suspected or even surmised to be, a result of catarrh, but the constant dropping and swallowing of noxious mucus from the posterior nares does, with mathematical certainty, poison and infect the mucous membrane of the stomach, deplete and impair its functions. The same as it does the delicate membranous tissue of the Eustachian tubes that leads to destruction of the delicate structures of the ears. Dr. McComber removes the cause with ease, and with his new improved and wonderful treatment, gives tone and strength, vitality and increased power of digestion. All
- Catarrh of Liver and Kidneys**  
Many of the same symptoms are present in catarrh of the liver and kidneys as are enumerated in catarrh of the stomach, and, in most cases, they require very similar treatment:  
Bowel irregular; constipated.  
You are nervous and irritable.  
Specially catarrh of the kidneys. Feet cold; have hot flushes.  
Pain in back and around loins.  
Sometimes a throbbing in stomach; a feeling of lassitude.  
Faintness and dizziness.  
Skin sallow and pale, or dry.  
Sometimes has a waxy look.  
Your legs feel heavy and your feet get "puffy."  
Hands perspire and feel swollen and joints ache and pain.  
Eyes dull and listless.  
Dark rings around them.  
Urine cloudy and has sediment.  
Soreness in neck of bladder and you have  
Frequent desire to urinate.  
These two maladies baffle the skill of the best physicians, especially catarrh of the kidneys. Were it not for his great experience, backed up by the most successful treatment of the present age, Dr. McComber would not be able to accomplish such wonderful cures as he does. No matter how severe the case, he invites all to investigate and consult him.

CHRONIC DISEASES

It is by the use of the greatest treatment, medical discoveries and inventions, the most perfect methods and effective measures and healing agents ever employed, combined with great skill acquired from an enormous experience, that enables Dr. McComber, the famous specialist, to perform such wonderful cures—that would be utterly impossible to effect by ordinary methods.  
His treatment cures, no knife, no pain, no suffering, and gives up by others as hopeless cases owe their enjoyment of life today to him, and never tire in their praises of his wonderful treatments. They give new life, increase strength, vigor, vitality, healing energy and tone to the entire system, and especially to the organs for which treatments are prescribed.  
**WOMEN** who have sought in vain for years for relief from inflammations, ulcers, falling or displacements of the womb, pain in loins and back, between the shoulders and back of neck, painful menstruation, discharges, itching, burning, smarting, and other symptoms peculiar to sex, get quick relief and cure with the utmost certainty. Consultation always free.  
**NERVOUS DEBILITY** and all its attending ailments, both of young and middle-aged. If you are suffering from the awful effects of neglected or improper treatment, increasing weakness of body and brain, dizziness, falling memory, loss of energy and confidence, pains and other distressing symptoms, undisturb you for study, business, or enjoyment of life, and feel discouraged and despondent at times, you should lose no time in consulting Dr. McComber, one who has cured thousands who have suffered as you do, and now thank him for complete restoration to health and happiness once more.  
**GOOD LOOKING FACES** are made homely by unsightly moles, hairs, birth-marks, red spots, moth patches, pimples, sores, blackheads and other excrescences. Ladies who value their complexions and personal appearance should consult Dr. McComber. He removes blemishes of every nature from any part of the body. No knife, no pain, no suffering, and gives up by others as hopeless cases owe their enjoyment of life today to him, and never tire in their praises of his wonderful treatments. They give new life, increase strength, vigor, vitality, healing energy and tone to the entire system, and especially to the organs for which treatments are prescribed.  
**CROSS EYES** straightened and made perfect in a few moments without pain or the use of chloroform by Dr. McComber's new method. No failures.  
**BLINDNESS PREVENTED.** Incontinent catarrhs removed by a harmless method of absorption, and weak, watery, sore eyes readily cured.

Black Lake claimed its victim last week and this week Lake Michigan claims its victim. Raymond Wheeler the nine year old son of Mr. and Mrs. Edward Wheeler, 184 Grandville Ave., Grand Rapids, was drowned in Lake Michigan on the south side of the South pier last Sunday afternoon. The exact time of the accident is not known. The boy who was staying with his mother in the second cottage south of the pier, left home about 2 o'clock to go bathing with some young companions. The other boys returned to their cottages after their swim, but young Wheeler stayed on the beach catching minnows. He was with three young men who were catching minnows for the manager of the Ottawa Beach boat livery until about 4 o'clock. He was seen for the last time about 5 o'clock by two ladies who saw him lying on the projection on the south side of the pier trying to catch minnows. His mother became alarmed on account of his long absence and reported the matter at the lifesaving station. Members of the crew were sent to look for the missing boy. Five minutes to six the body

was discovered in five feet of water near the point where the two ladies had seen him. Capt. Weckler dove down and brought the body to the surface. Then the life saving crew began the work of resuscitation by artificial respiration. Dr. Betts and Baker were summoned and declared that life was extinct, but the attempt at resuscitation was not abandoned by the life savers until they had vainly tried for an hour and a half to restore life. It is likely that the body was in the water nearly an hour before it was recovered. P. H. O'Brien, of O'Brien Brothers, undertaking establishment was present and took charge of the remains, which were taken to Grand Rapids on the night train.

## ADVANCING ON PEKING.

Forces of the Allies Start from Tientsin to Relief of Foreign Ministers There.

## SEYMOUR IS HONORED AT SHANGHAI.

Asked to Take Command of Defense There—Russia Had Pressed American Use of Hospital Ship—Li Obtained Protection for Foreigners.

London, Aug. 1.—"The allies began the advance from Tientsin this morning," announces an agency bulletin, dated at Shanghai at 11:10 a. m. Wednesday. It is assumed that the Americans, British and Japanese are taking part in this forward movement, whether other nationalities are or not. An advance base will probably be established 20 or 30 miles nearer Peking, and supplies will be assembled preparatory to a direct stroke at the capital. Of the 60,000 allies debarked at Peking, 10,000 are available for an advance beyond Tientsin. The Chinese forces, according to the vague gatherings of the allies' intelligence officers, up to July 27, were disposed in a great arc 30 miles long and distant 10 or 15 miles. The numbers and exact location of the several divisions are utterly unknown. The Pei-Ho river is blockaded by sunken stone-laden junks for 20 miles beyond Tientsin, and further up, according to Chinese spies for the allies, a dam has been constructed for the purpose of flooding the low-lying expanse of country.

Where First Fight Will Occur. The first engagement of the relief expedition will probably be at Pei-Tang, where the viceroy of Yulu personally commands.

The following information was brought to Tientsin Wednesday, July 25, by a Chinese missionary student who was sent to the British legation at Peking. He was unable to deliver the message entrusted to him, and left Peking July 18. He saw a few troops between Peking and Yangtsun. No works had been constructed. Food in Peking was scarce, and the city would be unable to endure a siege.

Amid the scraps of information brought by another courier who left Peking July 14 was the fact that Gen. Ma, a notable Boxer chief, had been killed by the legation.

To Ask Seymour to Take Command. Shanghai telegrams of this date say the foreign consuls met Tuesday and decided to invite Admiral Seymour (British) to take command of the Shanghai defenses. The United States consul general, J. Goodnow, and the French consul-general, M. de Bezaure, on behalf of the consuls visited Admiral Seymour, and he promised to draw up plans and submit them to a council of officers. The Shanghai municipal council objects to the consular action.

The British Second Infantry brigade has been ordered to debark at Hong-Kong to form a flying column to serve anywhere in China.

Two more transports with Indian troops on board were due to arrive on Wednesday.

The customs officers at Canton have seized a Chinese junk which had 2,000 rifles and much ammunition aboard.

Another Letter from MacDonald. It is reported that another letter from the British minister at Peking, Sir Claude MacDonald, dated Peking, Wednesday, July 25, has reached Taku. The Chinese government has renewed the suggestion that the minister leave the capital, but the minister declined.

The Belgian government has received news that the allies have already marched eight miles in the direction of Peking.

The Preparations for Advance. Tientsin, July 26, via Chefoo, July 30 and Shanghai, Aug. 1.—The American commander received orders from Washington to-day not to delay the advance on Peking. He was also informed that heavy reinforcements are en route.

Great activity is noticeable at Japanese headquarters. Transport preparations are being hurried. It is extremely unlikely that either the Japanese or the British intend to be left behind the Americans, though the British preparations are a long way from completeness. The Japanese organization, on the other hand, excites the admiration of all.

The total strength of the allies here is 17,000. Reinforcements are arriving daily.

Russia Has Her Hands Full. St. Petersburg, Aug. 1.—Official dispatches from the far east continue to show that Russian military commanders there have all they can do to cope with the armed Chinese in the territory adjacent to Port Arthur. Russian detachments are seeking to disarm native soldiers who are in the neutral zone contrary to treaty stipulations.

Fighting has occurred in various parts of the Liao-Tung peninsula. One detachment was twice attacked by imperial troops, clad as civilians and with their military badges concealed by their cartridge boxes.

Another detachment lost 10 killed and 30 wounded. A third force was treacherously attacked and lost 20 killed, six wounded and four missing.

Japan Offers Hospital Ship. Washington, Aug. 1.—The following cablegram was received Wednesday morning at the navy department:

"Taku, July 29.—Solace with sick and wounded proceeded Nagasaki, Yokohama, Guam, Honolulu and Mare Island, five marines and navy officers, five army of fliers, nine navy men, 29 marines, 500th Infantry. All men will remain

aboard Solace unless otherwise recommended by army medical authorities at Nagasaki or Surgeon Anderson, at Yokohama. Army hospital ship Relief proceeding at Nagasaki for Taku. Japanese hospital ship alternating here at our disposal if needed. Lieut. Leonard's condition more favorable; recovery hopeful. Biddle's command ordered Tientsin. (Signed) "REMEY."

Maj. Biddle's command consists of 225 marines who sailed from San Francisco on the Grant with Gen. Chaffee and the Sixth Cavalry. The cable from Admiral Remy shows that he has sent home on the hospital ship Solace those who were wounded at the battle of Tientsin and those who were sick among the American force. His statement that the Japanese hospital ship will be at our disposal for conveying sick and wounded to Nagasaki is welcome intelligence and may relieve the situation materially in case of hard fighting in Peking.

## Li Ordered Foreigners Protected.

Washington, Aug. 1.—The Chinese minister called at the state department early Wednesday and presented to Secretary Hay some of the latest correspondence that has passed between Li Hung Chang and the imperial Chinese government. The minister's dispatches state that on July 19 Li Hung Chang and several of the most influential viceroys memorialized the emperor to extend protection to all foreigners in Peking and elsewhere in China. The reply to this memorial was delayed for some time and the viceroys presented another petition asking that the ministers should either be given safe escort from Peking or that free communication should be opened between them and their governments. The reply to this last memorial has not been received, but after its dispatch by the viceroys Li Hung Chang received an answer to the first memorial in which the emperor, by imperial edict, ordered all loyal Chinese to protect foreigners in the empire.

Following is a copy of the dispatch from Li Hung Chang presented to Secretary Hay. It was received by Minister Wu at midnight from the Chinese minister in London:

"Just received a telegram from Pao-Ting-Fu, of the sixth moon, 23d day (July 19) that the privy council had that day received an Imperial edict as follows:

"We have received the memorial of Li Hung Chang and others imploring us to save and protect the ministers of the various nations. Now the ministers are all safe and well, and Li Hung Chang is directed to wire to Yang Yu and others so that they may inform the respective secretaries for foreign affairs accordingly. Respect this."

"This telegram has been delayed in its transmission. The other day I and other viceroys sent a joint memorial, requesting that the different ministers be escorted out of Peking, or that they first be enabled to freely communicate by letter or wire with their respective governments. When an Imperial answer is received, I will again wire. Communicate this to Minister Yang at St. Petersburg, Minister Yu at Paris and Minister Wu at Washington for them to inform secretaries for foreign affairs."

## Business Houses Swept by Fire.

Fort Wayne, Ind., Aug. 1.—A large part of the business section of Convo, O., 20 miles east of here, was destroyed by fire Wednesday morning. The loss will be from \$80,000 to \$100,000. The burned buildings include the post office, the town hall, the Columbian hotel, six store buildings and a number of residences. The fire started in a blacksmith shop and spread with great rapidity. The Van Wert fire department responded to an appeal for aid.

## Fate of Jester in Jury's Hands.

St. Louis, Aug. 1.—A special to the Post-Dispatch from New London, Mo., says: The fate of Alexander Jester, who for the past few weeks has been on trial for the alleged murder of Gilbert W. Gates, is now in the hands of 12 citizens of Ralls county. The case was given to the jury at noon Wednesday, 29 years after the supposed murder occurred. The verdict is awaited with great interest, and the predictions as to what it will be are numerous.

## To Use the Press.

Paris, Aug. 1.—The international peace and arbitration conference adopted a proposition for the establishment, in connection with the peace bureau at Berne, of an international press service to be known as the Peace agency, whose duty will be the duty publication of a bulletin, showing the advancement in the interests of peace. It will be furnished free to all the papers of Europe. Funds will be raised by subscription to carry out the plan.

as such has been issued. Mr. Draper's resignation does not take effect for about six weeks so that the new ambassador will not assume his office until fall, taking advantage of the intervening time to make a flying visit from Paris to the United States.

It is said at the state department that Andrew White, United States ambassador to Germany, who sailed for home Tuesday, is returning on a leave of absence which was granted at his own request by the state department some weeks ago.

To Take Short European Tour. Paris, Aug. 1.—Ex-Gov. Roger Wolcott, of Massachusetts, with his family, who have been here a few days, will leave Thursday for a short European trip.

## POLITICAL ITEMS.

News of Interest from Various Points in the Country—Bryan and Income Tax.

Lincoln, Neb., Aug. 1.—W. J. Bryan said Wednesday morning that he would not discuss the income tax in his notification speech but would deal with the subject in his letter of acceptance. He regards the reaffirmation of the Chicago platform as an endorsement of the income tax principle.

New York, Aug. 1.—It was announced at democratic state headquarters Wednesday that a letter had been received from Mr. Bryan, saying he expected to be in New York early in September, but did not expect to make speeches here.

Louisville, Ky., Aug. 1.—The state convention of the people's party of Kentucky was called to order at ten o'clock. The platform opposes the Goebel election law and demands direct legislation, these two planks composing its main features. A. H. Cardin, of Crittenden county, was nominated for governor.

Toledo, O., Aug. 1.—The second day's session of the Ohio Democratic Clubs opened with a meeting addressed by several local speakers. Resolutions were adopted along the lines of the Kansas City platform, but no specific mention of free silver was made although demanded by some of the members.

Concord, N. H., Aug. 1.—The state democratic convention met here Wednesday and unanimously nominated Dr. Frederick E. Potter, of Portsmouth, for governor. Presidential electors were nominated and a new state committee chosen, after which the convention adjourned.

Boston, Aug. 1.—Former Speaker of the House Thomas B. Reed, who was in this city, refused to say whether or not it was his intention to make a speech in Maine or elsewhere during the campaign.

Canton, O., Aug. 1.—Gov. Nash and Chairman Dick headed a delegation of state officials, judges of the supreme court, members of the state central and executive committees, candidates and Ohio congressmen, to the number of nearly 100, who arrived from Columbus on a special train shortly before 11 o'clock Wednesday. The visit was entirely informal and social. The president and Secretary Cortelyou left for Washington at 1:35 in a special car attached to the regular train.

Frisbee, of Des Moines, after which came the address of W. L. Roach, of Muscatine, the temporary chairman of the convention.

J. H. Trewin, of Allamakee county, was chosen by the committee on permanent organization for permanent chairman. After considerable struggle the convention recessed until two o'clock. Resolutions adopted are simple in character and start out with an endorsement of the administration, both state and national.

New York, Aug. 1.—Senator Redford Proctor, of Vermont, called on Senator Hanna at the republican national headquarters and had a long conference with him. Senator Proctor goes from here to Boston and during the campaign will make several speeches.

## A Measure Of Merit.

HOLLAND CITIZENS SHOULD WEIGH  
WELL THIS EVIDENCE.

Proof of merit lies in the evidence.  
Convincing evidence in Holland.  
Is not the testimony of strangers.  
But the endorsement of Holland  
people.

That's the kind of proof given here.  
The statement of a Holland citizen.  
John Kloosterman, two miles  
of Zeeland, says: "For ten or twelve  
years I looked in vain for some medi-  
cine to free me from distressing kid-  
ney complaint. I suffered at inter-  
vals during that period with aching  
pains through the loins, twinges up  
and down the muscles of my back, ir-  
regular and unnatural condition of  
the kidney secretions and frequent  
attacks of dizziness. My son, John  
Kloosterman, a tailor 133 East Eighth  
street Holland, noticed Doan's Kid-  
ney Pills advertised in the Holland  
papers and highly recommended it by  
people who had used them. Think-  
ing they might help me he procured  
a supply at J. O. Duesburg's drug store  
and sent them out to me. I noticed  
shortly after I commenced the treat-  
ment that it was doing me good and  
as I continued my condition im-  
proved. In my estimation Doan's  
Kidney Pills are by far the best  
remedy on the market."

## KING OF ITALY MURDERED

Shot Down by an Assassin in Monza  
While in His Carriage and  
Dies Immediately.

## THE MURDERER FIRES THREE BULLETS.

One of Them Entered the Heart of  
the Monarch—Regicide is Arrested  
and with Difficulty Saved from the  
Fury of the Populace—Brief Sketch  
of Humbert's Reign.

Monza, Italy, July 30.—King Hum-  
bert has been assassinated. He was  
shot here Sunday evening by a man  
named Angelo Bressi, and died in a few  
minutes.

The king had been attending a dis-  
tribution of prizes in connection with  
a gymnastic competition. He had just  
entered his carriage with his aid de  
camp, amid the cheers of the crowd,  
when he was struck by three revolver  
shots fired in quick succession. One  
pierced the heart of his majesty, who  
fell back and expired in a few minutes.

The assassin was immediately ar-  
rested, and with some difficulty saved

KING HUMBERT OF ITALY.

from the fury of the populace. He gave  
his name as Angelo Bressi, describing  
himself as of Prato, in Tuscany.

## HUMBERT'S REIGN.

A Brief Sketch of the Life of the  
Murdered Ruler.

King Humbert's full name was Umberto  
Renier Charles Emmanuel Jean Marie Fer-  
dinand Eugene. He was born at Turin on  
March 14, 1849. He was the son of Victor  
Emmanuel II., who died on January 9,  
1878, and of Queen Adelaide, who was be-  
fore her marriage Archduchess of Austria.  
He succeeded to the throne upon the death  
of his father. He was married to Princess  
Helene of Montenegro in Rome on April  
22, 1868.

## Knit His People Together.

King Humbert's reign has been marked  
more for his ability to keep his people knit  
together than for any extraordinary activ-  
ity he has shown in the affairs of the na-  
tions of Europe. Most of the historians of  
modern affairs contend that Italy's stabil-  
ity since 1861, when Victor Emanuel was  
first saluted king, has been due to the  
sagacity of her ministers rather than to  
the greatness of either Humbert or his  
father. But it is memorable that even  
when Humbert ascended the throne the  
army and navy of his country were as  
nothing, his people were impoverished, roads  
were unbuilt and the nation had a poor  
standing among the people of the earth.

## Triple Alliance His Greatest Work.

The most notable achievements of King  
Humbert's reign have been the consumma-  
tion of the triple alliance between Ger-  
many, Austro-Hungary and Italy, and the  
securing of Turkish adhesion to the com-  
pact as a precautionary measure against  
the possible encroachments of Russia and  
other powers. Beyond this he seems to  
have been content to care mostly for the  
internal and material advancement of his  
people, as though they were at most and  
at least his neighbors, companions and  
friends. Of late years he has followed  
more closely in the humane and generous  
practices of his amiable wife—visiting hos-  
pitals, mingling with the poor and giving  
his personal care to charities that are not  
included in the written duties of the state  
departments.

## Italy's New King and Queen.

Vittorio Emanuele Ferdinando Maria  
Gennaro, who succeeds his father to the  
throne of Italy, was the only son of King  
Humbert. He was born November 11, 1890,  
and has the reputation of being a liberal,

KING VICTOR EMMANUEL III.

scholarly and soldierly man. He is a gen-  
eral in the Italian army, and a patron of  
art and literature. He is a chevalier of  
the Order of the Golden Fleece and a  
Knight of the Garter.

His wife, Italy's new queen, was Prin-  
cess Helena, one of the seven daughters of  
Prince Nicolas, the ruler of the little prin-  
cipality of Montenegro. She was born in  
the royal palace in Cetinje in 1873. With  
her sisters, she inherited the superb dark  
beauty of her mother, the daughter of a  
Montenegrin nobleman. She has been most  
carefully reared by tutors and governesses  
and is not only admirable in all the arts and  
graces of European courts, but is well  
versed in the play of politics and in every  
way qualified to succeed even so lovely a  
queen as Margherita of Italy. The nup-  
tials of Prince Vittorio and Princess Helena  
were celebrated in Rome October 24, 1896,  
with all the pomp and circumstance usual  
on such occasions.

## Italy in Mourning.

Rome, July 31.—All Italy is in  
mourning over King Humbert's assas-  
sination and rulers and people of other  
nations join in condolence. All the  
military and naval forces throughout  
the country will to-day take the oath  
of fidelity to the new king. All the de-  
puties of the extreme left now in Rome  
have adopted resolutions expressing  
abhorrence of the assassination.

## The Assassin.

Milan, July 31.—Bressi, the assassin  
of King Humbert, was interviewed here  
in his prison and when asked why he  
killed the monarch answered: "I freely

declare that I killed Humbert because  
he had too much earthly power." The  
assassin's name is given both as An-  
gelo and Gateno Bressi. He is a weaver  
and came to Italy from America only  
a few days ago. He is tall, young and  
swarthy, and admits that he came from  
Paterson, N. J., where he has a wife and  
child.

## Sends Telegram of Sympathy.

Washington, July 31.—The following  
message of condolence upon the death  
of King Humbert has been sent from  
this country to Italy:

"Department of State, Washington,  
July 30.—His Majesty, Vittorio Emanuele,

HELENE, QUEEN OF ITALY.

Roma: In my name and on behalf of the  
American people, I offer your majesty  
and the Italian nation sincere con-  
dolences in this hour of deep bereave-  
ment. (Signed) "WILLIAM MCKINLEY."

The following message has been sent  
to Baron Fava, the Italian ambassador  
to this country:

"Department of State, Washington, July  
30.—His excellency, Italian Ambassador,  
the Octagon, Seabright, N. J.—The tidings  
of the king's assassination has profoundly  
shocked public sentiment. The president  
has telegraphed to his majesty, Vittorio  
Emanuele, offering in his name and on  
behalf of the American people sincere con-  
dolences in this hour of deep bereave-  
ment. Permit me to add the assurances of my per-  
sonal sympathy. (Signed) "JOHN HAY."

## Young Queen Fainted.

London, Aug. 1.—A special dispatch  
from Rome says that King Victor Em-  
manuel III. arrived at Brindisi Tues-  
day, unexpectedly. The dispatch adds  
that the young queen fainted when  
she was informed of the assassination  
of King Humbert. The king and  
queen started for Monza immediately  
after reaching Brindisi.

## Manifesto Issued.

Rome, Aug. 1.—In the absence of  
the new king, the ministry has issued  
in his name a manifesto to the nation,  
as follows:

"King Victor Emmanuel III., in ascend-  
ing the throne, has to perform the painful  
duty of announcing to the country the  
awful calamity which has violently cut short  
the valuable life of King Humbert.  
"The nation, wounded in its sincere af-  
fection for the august dead, and in a sin-  
cere feeling of devotion and adhesion to  
the dynasty, while execrating the cruel  
crime will be plunged into profound grief  
for the venerated memory of a good, brave  
and magnanimous king, the pride of his  
people and the worthy perpetrator of the  
traditions of the house of Savoy, by rally-  
ing with unshakable loyalty around his  
august successor. Italians will prove by  
their deeds that their institutions do not  
die."

Does Your Head Ache?

Are your nerves weak? Can't you sleep well? Pain in your back? Lack energy? Appetite poor? Digestion bad? Boils or pimples? These are sure signs of poisoning.

From what poisons? From poisons that are always found in constipated bowels.

If the contents of the bowels are not removed from the body each day, as nature intended, these poisonous substances are sure to be absorbed into the blood, always causing suffering and frequently causing severe disease.

There is a common sense cure.

**AYER'S PILLS**

They daily insure an easy and natural movement of the bowels. You will find that the use of Ayer's Sarsaparilla with the pills will hasten recovery. It cleanses the blood from all impurities and is a great tonic to the nerves.

Holland City News.

MULDER BROS. & WHELAN

Holland, Mich

Holland Twenty-Seven Years Ago.

From Our Files of 1873.]

AUGUST 3.—Hemlock bark makes it lively for vesselmen at our docks. Mayor Harrington is vigorously freighting four vessels with that article.

Miss Clara Penneyer, a former teacher in our Union School, has organized a class for private instruction in the session room of the M. E. church. She is a good teacher and should be well patronized during vacation.

N. T. McGeorge informs us that he has rented the store building formerly occupied by Labadie & Son, into which he will move his stock of groceries early next week. It will be known hereafter as the Star Grocery & Provision Store.

Ex Mayor Cappon will commence building a new residence next week, on the lots east of J. Coatsworth's, and from what we hear, it is to be large and commodious; of the latest style of architecture, and will cost from \$8,000 to \$10,000. Such enterprise speaks well for the place and we hope to see more of the same sort.

The inside staging in the Episcopal church has been taken down, the plastering and painting finished, the building cleared of rubbish, preparatory to seating it. The windows are to be of stained glass, and are now being manufactured in Chicago. It will soon be completed and ready for use. The Second Reformed Church is also assuming shape, and is expected to be ready for occupancy the coming fall.

THE SCHOOL QUESTION.—The organization of the new School Board is at last perfected, and we learn that the first meeting of the new board was held on Monday evening last. We do not hear that any business was transacted further than to make an effort to procure a settlement with school district No. 1 through their legal representatives without success. We understand that it is the intention of the board of Education for this city to make every reasonable effort to settle the difficulty between the conflicting parties amicably, and if unsuccessful they will proceed to hire teachers, and in all respects to place the Union School upon a basis which will insure its continued success.

In Battle Array—Holland vs. Zeeland.

There was a base ball game in Zeeland Tuesday afternoon. There was something else. It was a free-for-all fight and attracted more attention than the game.

The base ball game was the first between Holland and Zeeland this year. Neither side had players from outside the respective places, consequently it was a real test of merit, and Holland won. The game was a loosely played affair, neither side being covered with glory. But they can do better. Both sides have good base ball timber and a series of games between them would keep the fans on the nervous edge.

Holland led in the early part of the game, but later Zeeland got down to business and led for a few innings. Holland tied the score in the seventh

inning. It read 12 to 12. Then the visitors took a mighty brace, got their eye on the ball, hit everything in sight, stole all the bases and captured the home plate. Then—the fight began. It was a grand jubilee mix up and victory perched alternately on the banners of the contending hosts. Finally Zeeland realized that this was a queer way of showing hospitality, Holland saw no more worlds to conquer, and the dove of peace hovered over the gory field. Then—they resumed the ball game amid breathless excitement. Anon the smoke of battle cleared away. Experts were hired to count the score. They are still counting; but careful estimates show that Holland won by a score of 19 to 12. Think of it. Do you wonder that the feelings of the spectators reached the fighting point.

The batteries were Ver Schure and Schouten for Holland, and Slabbe-korn and De Pree for Zeeland. Umpires, Hartwick and Jappinga. Attendance—fair. Atmospheric condition—dangerous. Citizens of Zeeland—excited and disappointed. Citizens of Holland—exultant and happy. Time of game—Two hours or more. Time of light—started Tuesday afternoon, ended—

This is the way some of the people from Zeeland tell how the fight started: "An inoffensive spectator from that village was gazing at the ball sailing through the ethereal azure, when a mean, bad man from Holland, with murder in his heart, hit the childlike denizen from the village to the east with a full sized brick, presumably manufactured in Zeeland. Angered at the thought that a Zeeland brick should be put to such base use, said personification of innocence and peace from Zeeland undertook to gently chastise the man who hurled the inoffensive brick with such reckless abandon. Then the rowdies from Holland (just as though there are rowdies here) jumped gleefully upon divers parts of the gentleman from Zeeland and battered his smiling visage real hard. Angered at this assault upon one of their legalists by the Holland "boxers", the indignant people of that peaceful community sallied forth and the battle raged with great fierceness."

This is the way the people from Holland tell about it: "A dear little boy of Angelic disposition was indulging in a game of 'josh' with a fierce looking spectator from Zeeland. Some one threw some chewing gum playfully against the classic features of the two-hundred pounder from Zeeland. Angered, more by the 'joshing' than the gum, the gentleman, who can easily be distinguished from the rest of the people because his name is Smith, sprang for his tormentor with clenched fist. One of the Holland ball players took hold of Smith to stop the fight. Smith turned upon the peacemaker, other people from Zeeland joined in the scrap, 'the man with the hoe' came from the cornfield and with this implement, honored in song, story and poetry, dealt crushing blows upon "Peter the Great", of Holland, and several others. The first man struck with the hoe is a good football player and he gave a fine exhibition of centre rushes, flying wedges, and line bucking, interspersed with short arm books, right swings and pivot blows. When he and the "several others" finished, the people who were kind enough to stop their blows with various parts of their body, were glad enough to declare a truce and submit the matter to arbitration."

No matter how or why the "scrap" started, it was a deplorable affair and might have ended more disastrously if cool headed people from Holland and Zeeland had not joined in an effort to preserve order. Manager De Pree, of the Zeeland nine, did his best to quell the disturbance and to the credit of the Zeeland base ball players it can be said that not one of them took part in the "scrap". In fact, as a whole, both clubs tried to preserve order and the trouble is no reflection on their gentlemanly qualities. It should not mar the good feelings existing between the members of both nines and should not interfere with arrangements made for future games.

Holland vs. Allegan—Good Sport.

The unexpected happened Wednesday. The base ball players were surprised by a visit from the Allegan nine. Correspondence had passed between the two places regarding the arrangements for a game, but nothing definite was done. The Allegan boys misunderstood the letters received by them and thought arrangements were completed for a game to take place Wednesday forenoon. They came here and found that such was not the understanding. No arrangements had been made and they were not expected in the city.

The first intimation the fans had of their presence was when they congregated at Hotel Hotel and protested vigorously against everything in general and the men who misarranged the game in particular. The Holland boys were in a quandary. They had no grounds to play on, the club was not ready, even the bases and the

home plate were missing. Aided by the fans they were equal to the emergency. Dr. Kollen, president of Hope college, was called up by 'phone and upon hearing an explanation of the situation he told the boys they could use the college campus. The boys were elated to hear this and they are that the great kindness of Dr. Kollen will not be forgotten.

Messengers were sent after the different players, men were sent for the bases and home plate and inside of an hour all was ready for a game of base ball. Not only did they get ready for the game but the high school band was hustled out and a parade given to let the business men know that they could expect good sport.

Though no one in the city had, at nine o'clock any intimation that a game was to be played, so well directed were the efforts of those interested that at ten o'clock all was ready and the umpire said, "play ball." And they did play. It was the best game ever seen in Holland. Owing to the fact that the Allegan players had to leave for Saugatuck and the park on the 11:50 car but five innings were played. It was a clean game and very few errors were made. Not a kick or a protest was heard, though a large crowd "rooted" vigorously. Holland won by a score of 2 to 1; but they had to struggle hard for victory every minute of the game as the Allegan aggregation are a strong lot.

The fans of Holland were greatly pleased with the Allegan boys and will be glad to learn that a game will be played in Allegan soon and that a return game will probably be played here. Allegan lined up as follows: Hale, Baltwin, Fairfield, McKinnon, Ellinger, Renwick, Ed. Austin, Hodges and Fred Austin. The Holland players were Vaudie and Ben Van den Berg, Andrew Ver Schure, O'Marra, R. B. De Pree, E. I. Kremers, John Schouten, John Thole, Henry Steketee. Umpire, Jappinga.

Our God Hath Led Us On.

By David Fletcher Hunton.

Upon New England's rugged shore,  
Three hundred years ago;  
God sowed the seeds of liberty,  
And He has made them grow:  
From Plymouth Rock to Concord Plains,  
And on to Lexington;  
From Yorktown down to New Orleans,  
Our God hath led us on!

From Mexico unto Luzon,  
He hath our courage fanned;  
And crowned our flag with victories,  
On lake, and sea and land,  
He helped us bring the Spaniard down  
From his once proud career;  
And we have gained what he has lost,  
Upon this mundane sphere.

Glory has come into our arms,  
And crowned our flag anew;  
We have enlarged our fair domain,  
And to the world been true,  
God taught the fathers to expand,  
And stretch their boundry lines;  
We'll do the same as they have done—  
We'll keep the Philippines!

Our dead are sleeping 'neath the sands  
Of beautiful Luzon;  
And o'er their grave, no foreign flag  
Shall ever greet the dawn:  
"Old Glory," with her stars and stripes,  
Shall girdle half the earth;  
Till all can see, and understand  
What liberty is worth!

We'll not decline our destiny:  
America must grow!  
And we'll "Make way for Liberty,"  
For God hath willed it so!  
We'll not give up our vested rights—  
We'll reap where we have sown;  
We've paid for all those islands fair,  
And mean to keep our own.

Through Dewey's splendid victory,  
God hath achieved an end;  
And thus has made it possible,  
Our mission to extend:  
Down: Down with skittish doubts and fears,  
And warnings of despair;  
We have the courage and the vim,  
For greatness to prepare!

We will uphold the rights of man,  
And fight against the wrong;  
We'll guard the banner of the free,  
And make our union strong;  
We'll not surrender, nor retreat  
From where our flag has gone!  
We will fulfill our destiny,  
While God still leads us on!

Testimonial.

While we lived in Holland I took a treatment with Dr. F. McOmber of which I can not speak too highly. During the last eight years I was so weak that I was hardly able to do my work. As soon as I commenced with Dr. F. McOmber my strength returned, and next to God I thank him for what I am today. He has also cured our boy of catarrh of which others thought he could not be cured. This testimony is not asked for.

An Explanation.

Owing to the fact that a considerable number of people here and elsewhere consider me as the agent through whom the Ninth street Christian Reformed church has secured the contract for their new pipe organ, I deem it prudent, for the sake of the musical profession at large to state to the public that, instead of approving, I positively and emphatically disapprove of organs of such inferior tone and quality. This is a bona fide statement made in the interest of no company or manufacturers, as I am under no obligations to any one.
