The death of H. L. Van der Meer occurred last Saturday at his home, 205 West Ninth street, at the age of 38 years after a long illness. He is survived by a wife and two children. The funeral was held from the residence Monday afternoon, Rev. A. Keizer officiating.

August 6 the employees of the Leonard Refrigerator company of Grand Rapids will board six special cars, which will be placed at their disposal by the Grand Rapids, Holland & Chicago Interurban Railway company, and journey to Jenison Park for a general jollification. Races, sports and a picnic will be features.

The report of Prosecuting Attorney P. H. McBride for the six months ending June 30 shows a total of 358 prosecutions, and convictions were secured in 335 cases. Six were acquitted, two dismissed on payment of costs, three nolle prossed; eight discharged on examination and four cases were settled.

A local farmer picked a fair crop of strawberries from one of his fields; a little later he cut quite a fair crop of hay from the same ground and now has the same field growing a crop of millet. California doesn't claim to do better than raise three crops a year from the same land, so why run away from Michigan?—Fennville Herald.

Mrs. Elmer E. Rice and family moved Wednesday to Holland where Mrs. Rice will open dressmaking parlors. She will soon go to Chicago to learn a special system of dress-making, and during her absence her daughter, Miss Florence, and son Brayton will be guests of friends at Macatawa Park.—Allegan Gazette.

William Ryan, one of the Chicago boys enjoying an outing at Forward Movement park, Saugatuck, was arrested by Marshal Kamferbeek as he stepped off an interurban car in this city this week. He had in his possession several fishing rods, two watches and four boxes of 10 cent cigars, said to be the property of D. L. Barber, at whose home he was staying. He was turned over to the Saugatuck authorities.

W. H. Warner, jr., has a pen of Barred Plymouth Rock hens of which he is justly proud. Between Jan. 1 and July 1 the thirteen birds laid 1,312 eggs, and three of them each raised a hatching of chickens. In speaking of the matter the American Poultry Journal said: "The record that you have made with your birds is certainly a great one, and you could well afford to send them to Australia."

The annual stockholders' meeting of the Walsh-DeRoo Milling & Cereal company will be held next Monday afternoon, August 1, at 1:30 o'clock, for the purpose of electing a board of directors, submitting the annual reports and for the transaction of such other business as may properly come before it.

In the bitter war now being fought between the Graham & Morton steamer line and the Pere Marquette railroad over passenger rates between Chicago and Michigan points, the steamboat line will shortly carry the fight directly into the enemy's country by the construction of an electric road from St. Joseph, its Michigan lake port, to Paw Paw lake and Kalamazoo, connecting with another interurban line with Grand Rapids, says a Chicago despatch. In their competition for Michigan business the relations between the lake and rail lines have become so strained that the Pere Marquette now refuses to handle tickets sold by the steamboat company or make connections with the steamers at St. Joseph. In retaliation the Graham & Morton line is now promoting an electric line which will connect with its steamers and compete directly with the Pere Marquette. The necessary capital for the undertaking is now being secured, and it is believed the road will be in operation by next season. At Holland the steamboat line has made traffic arrangements with the Grand Rapids & Holland interurban line.

# RUSSIA COMMITS OUTRAGEOUS ACT

**VOLUNTEER FLEET SEIZES NEUTRAL STEAMER KNIGHT COMMANDER AND SINKS HER.**

Great Britain Thoroughly Aroused and Will Seek Reparation—Fleet Is Ordered to Stop Practice of Seizing Ships.

Yokohama, July 26.—Capt. Brown of the steamship Teian, which brought the crew of the British steamer Knight Commander into port Monday, says that the Knight Commander met three Russian warships at 7:30 on Saturday morning off the province of Izu. The Russian officers who boarded the Knight Commander took her captain back with them and ordered the crew of the Knight Commander to come on board one of the Russian warships within ten minutes. The Russians then sank the Knight Commander.

The sinking of the Knight Commander without a trial is considered here to be an act of savagery and as affording grounds for apprehension as to the treatment by the Russians of other neutral vessels.

Considered an Outrage.

London, July 27.—The British government is taking energetic action in the case of the sinking of the British steamer Knight Commander by the Vladivostok squadron. All information received by the government tends to establish in the official mind a belief that an outrage has been committed for which no cause exists in international law. Those aware of the feelings of the ministry said that all the members of the cabinet are in accord regarding the principle of the inviolability of innocent neutral shipping as well as upon the principle that a neutral ship cannot be destroyed even if carrying contraband of war. The demands which will be made upon the Russian government will include compensation to the owners of the ship and to the owners of the goods on board the Knight Commander, an apology for the action of the Russian cruisers and an agreement that instructions be given which will prevent a repetition of such action. British ship owners are up in arms over the dangers which shipping is now running, and are bombarding the government with representations looking to the thorough protection of their interests.

American Ship Taken.  
Portland, Ore., July 26.—The steamer Arabia, reported captured by the Russian Vladivostok squadron, is believed to be the Oregon Railway & Navigation company's steamer Arabia, which sailed from this port for the Orient about a month ago with a cargo of flour.

More Vessels Seized.

Liverpool, July 27.—The owners of the British steamer Calchas, bound from Puget Sound to Japan, have received a telegram from Hong-Kong reporting that the Calchas has been seized by the Vladivostok squadron.

Suez, July 27.—The Peninsular and Oriental Steamship company's steamer Formosa has just arrived here flying the Russian naval flag and with a prize crew on board. She was captured in the Red sea by one of the vessels of the Russian volunteer fleet.

Scandia Released.

Berlin, July 25.—A dispatch from St. Petersburg says that Russia, in response to Germany's protest, sent a dispatch to Port Said ordering the immediate release of the Hamburg-American line steamer Scandia, which had arrived there and was awaiting instructions.

Port Said, July 25.—The Hamburg-American line steamer Scandia has been released.

Must Stop Practice.

St. Petersburg, July 25.—Orders have been sent to the volunteer fleet steamers St. Petersburg and Smolensk to refrain from interference with foreign shipping.

Ordered Home.

St. Petersburg, July 26.—The press is informed that the Russian volunteer fleet steamers Smolensk and St. Petersburg have already been ordered home, and that instructions for them to return have been cabled.

Great Britain's bill for damages against Russia for demurrage and other indemnities connected with the arrest, detention and shelling of British ships in the Red sea will probably be very heavy. Already it is roughly estimated at \$5,000,000.

Waives Right to Search.

St. Petersburg, July 25.—Grand Duke Alexis presided at the council which Count Lamsdorff, the foreign secretary, and Vice Admiral Avellan, chief of the admiralty department, and other high naval officers attended. The result of the conference removes all doubts concerning the present attitude of Russia with regard to the volunteer fleet. The validity of the view expressed in the British note regarding the irregularity of the position of the vessels was so far admitted that the council agreed to waive the right of search. After a long discussion in which Count Lamsdorff took a leading part it was decided that the present status of the volunteer fleet was not sufficiently well defined according to international law to render further searches and seizures advisable and that therefore Russia, in the interests of friendly relations with the powers, should withdraw the authority given the volunteer fleet in this respect.

Attitude of the Porte.

Paris, July 27.—A dispatch to the Temps from Constantinople says Turkey's neutrality is being compromised by the Smolensk and St. Petersburg incidents, the ports is deliberating on what guarantees it will ask from Russia on the occasion of the next passage of the Dardanelles by ships of the volunteer fleet.

## BEFORE AND AFTER.

This Was the Attitude of Germany and England Toward Russia a Few Months Ago.

But Now That Japan Has Demonstrated a Thing or Two It Is Different.

## BUTCHERS' TRUCE WAS SHORT LIVED

**PACKERS AND STRIKERS REACH AN AGREEMENT TO SUBMIT TO ARBITRATION.**

Men Start to Resume Work, But Declare Discrimination Is Made in Reinstating Them and Strike Is Again Ordered.

Chicago, July 23.—The stock yards strike is on again. On the charge that the packers were discriminating against certain persons in the reemployment process the union officials Friday ordered their men to quit work, and the situation at the yards is as bad as ever. The strike was renewed in other packing centers also.

President Donnelly, after conferring with other leaders, gave the order for the strike and then sent this telegram to union officials in other packing centers of the country: "Packers already have violated agreement by discrimination. Order men out."

When the word that another strike was ordered reached the workmen who had gone to the different departments to begin their labor, they finished the work immediately in hand and then marched in bodies out of the yards, taking their tools with them.

Sympathetic Strike On.

Chicago, July 26.—A strike of the allied trades was called Monday in the packing houses and the union leaders say that more than 7,000 men quit work. The packers place the number at no more than 2,000. Teamsters, engineers, plumbers and common laborers did not strike, but the teamsters applied for permission to quit. A committee appointed by the Teamsters' Joint Council conferred with the packers, but made no headway toward a peace agreement.

The three points in the ultimatum of the labor representatives follow: All strikers to be reinstated within ten days; workers in the killing, cutting and casing departments to be taken back within 48 hours after the resumption of work; strike of the allied trades on the nonacceptance of those terms by the employers.

In reply the packers unanimously reaffirm their previous stand. They prepared a letter, in which they declared they had an agreement with the butchers and were ready to put it in force at any time. Therefore they were in no position to negotiate for a new contract. At the same meeting at which the packers voted to make no new concessions to the strikers they decided to attempt to open all their plants here and elsewhere.

Prospects of Peace Gone.

Chicago, July 27.—The packers have abandoned all thoughts of a settlement of the strike and have declared war to the death. Preparations are being made on a huge scale to defeat the unions in the struggle, and the wealth of the great stock yards concerns will be drawn on generously.

Teamsters employed in the Chicago packing plants were given permission to strike and the walkout began almost immediately. A strike of the teamsters is also to be called in St. Louis, Kansas City and Boston. Union engineers, whose services would be of great importance in event of fire, voted not to strike. The total number of strikers is estimated at about 30,000, of whom more than 7,000 are members of the mechanical trades. The packers made rapid progress in filling the places of the Chicago strikers, it being estimated that 1,500 nonunion men were rushed into the yards during the day and night. The number of disturbances increased, three serious affrays being reported. One of the wounded men is likely to die.

Members of the allied trades have gone on sympathetic strike in Omaha, Sioux City and St. Joseph. In Kansas City 100 of the striking butchers returned to work.

## NAMED FOR GOVERNOR.

Joseph W. Folk Is Selected as Standard-Bearer of Missouri Democrats.

Jefferson City, Mo., July 22.—After an all night session, marked by intervals of disorder and commotion that could not be quelled by the gavel, the democratic state convention unanimously nominated Joseph W. Folk, circuit attorney of St. Louis, for governor and adopted a platform which promises vigorous, unrelenting crusade against corruption and boodles in Missouri in the event of democratic supremacy at the polls.

Joseph Wingate Folk, was born in Brownsville, Tenn., October 28, 1869. His father is Judge Henry B. Folk, of Brownsville, and his mother is a descendant of the Estes family of Virginia. Mr. Folk is a graduate of Vanderbilt university of Nashville, Tenn., where he finished his literary and legal education. He practiced law in Brownsville for two years and then went to St. Louis in 1892. Soon he became identified with the younger element of the democratic party and first became prominent in political circles when he was made a charter member of the Jefferson club, the leading democratic organization. He served in the capacity of president of the organization in 1898. Mr. Folk became generally known to the citizens of St. Louis through the prominent part he took in the settlement of the great street car strike of 1900. As circuit attorney of St. Louis Mr. Folk successfully prosecuted a number of bribe takers in both branches of the municipal assembly.

## FATAL COLLISION.

Train Demolishes Electric Car in Indianapolis—Two Killed and Twelve Injured.

Indianapolis, Ind., July 26.—Two persons were killed and 12 injured in a collision between south bound Big Four passenger train No. 18 and a west bound Prospect-Blake electric car at Washington and Missouri streets at 6:05 o'clock Monday night. The dead are: Samuel Romans, 50 years old, white, crushed beyond recognition; Mrs. William J. Harris, colored, 40 years old, badly mangled about head and body. The cause of the accident is not clear. Conflicting stories are told by passengers and witnesses, several of whom say that the motorman applied the air brakes, which failed to respond. Others claim that the conductor of the electric car failed to proceed ahead of the car for the purpose of seeing that the track was clear.

## A SAD AFFAIR.

Two City Officials of Warsaw, Ind., Are Asphyxiated in a Well.

Warsaw, Ind., July 26.—City Marshal William H. Funk and City Engineer J. V. Goodman were killed Monday by sewer gas in a liftwell. Funk descended into the well to inspect the walls. He was soon asphyxiated, crying for help as he became unconscious. Goodman went after Funk, but no sooner reached the bottom of the well than he, too, succumbed to the gas. Rescue was attempted by Deputy Sheriff Moon, who descended with a rope about him. Moon was pulled from the liftwell half conscious. The bodies were then recovered by use of pike-poles.

To Notify Parker.

Esopus, N. Y., July 25.—Judge Parker has fixed August 10 as the date for the ceremonies notifying him of his nomination by the democratic national convention as a candidate for the presidency.

Soon to Be Launched.

Washington, July 27.—The battleship Louisiana, now building at Newport News, will be launched August 27 and the cruiser Milwaukee September 10.

Heavy Loss by Fire.

St. Petersburg, July 27.—Fire Tuesday destroyed the largest electric cable wire factory in St. Petersburg, with the loss of about \$1,250,000.

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in the use of Lydia E. Pinkham's Vegetable Compound.

Judging from the letters she is receiving from so many young girls, Mrs. Pinkham believes that our girls are often pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries.

Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality; often it is never recovered. Miss Pratt says,—

"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months."

"I recommend it to all young women who suffer from female weakness."—MISS ALMA PRATT, Holly, Mich. — \$5000 forfeit if original of above letter proving genuineness cannot be produced.

## It Is a Mistaken Idea

To give too much time to the selection of a Piano; this time could better be spent in selecting a dealer. It should not be hard to size him up by the very appearance of things; for instance, if he be disposed to depreciate his competitor, its pretty strong evidence he hasn't much to offer for himself. One may well have reason to be suspicious of a dealer who promises very much more than is promised by other dealers in a like business. Select the dealer right and the good piano follows. ## RUSSIANS DRIVEN FROM NEWCHWANG

### APPROACH OF THE JAPANESE FORCES CAUSE MEN TO EVACUATE THE CITY.

### Heavy Engagement Occurs in the Vicinity—The Battle Lasts Fourteen Hours—Loss of City a Serious Blow to the Russians.

Washington, July 26.—Minister Conger, at Peking, has cabled the state department that he has been informed that the Russians Monday evacuated Newchwang.

#### Japs Occupy Newchwang.

Paris, July 27.—The Yinkow correspondent of the Matin says that 50 Japanese cavalrymen entered Newchwang at five o'clock in the morning and hauled down the Russian commercial flag which had been substituted for the military standard on the residence of the governor. The Japanese standard was hoisted, the Chinese flag flying from the neighboring buildings and the custom houses. The consular authorities had taken precautions to insure the safety of the European residents, who were armed. The Russians who refused to follow the retreat have been cut off. The Japanese cavalrymen, the correspondent says, were supplied with the most modern accoutrements, and each man was furnished with a compass and field glass. Competent authorities had thought that a Japanese attack was out of the question, owing to the large Russian reinforcements arriving during the last two weeks. The dispatch in conclusion says that Japanese troops are still flying into Newchwang.

#### Serious Blow to Russia.

Paris, July 27.—The Japanese occupation of Newchwang is regarded here as a serious blow to Russia, which thereby is prevented from closely watching the doings of the Chinese army commanded by Gen. Ma. The French have not forgotten their experience against the black flags during the Tonkin war, throughout which peace was nominally maintained with China, and the belief is current that the Japanese now will readily obtain unofficial aid from the Chinese soldiers by promises of good pay and hints of the possibilities of plunder. Russia could only make representations at Peking, where the reply doubtless would be that the troops had been ordered to observe strict neutrality and that any Chinamen fighting for Japan were merely brigands.

#### Battle Lasted Fourteen Hours.

London, July 26.—Cabling under date of July 24, the Daily Mail's Newchwang correspondent describes a 14-hours' desperate battle with heavy losses on both sides, and which resulted in the Russian position at Tatchekiao being rendered untenable, by reason of which they will be compelled to retreat toward Hancheng. "The battle began at six o'clock in the morning," the correspondent says, "the Russians resuming the attack on the Japanese position on the heights east of Tatchekiao. After a few hours the Japanese left flank from Taping mountain captured the village of Tanghuiduen, compelling the Russians to retreat to Tienhualuen, six miles from their base. The Russians, now reinforced, maintained the position until five o'clock in the afternoon, when the Japanese right flank made a sudden appearance on the hills south of Tatchekiao and by a tremendous fire forced the Russians to retreat. The Japanese firing line extended 15 miles. After two more hours of an incessant storm of shot and shell they swept the last hill and the plain clear of Russians."

#### Russians Fall Back.

St. Petersburg, July 27.—Dispatches received by the war office announce that the Russians have retreated to Hancheng. They decided to withdraw from Tatchekiao Sunday evening. Gen. Zarubaleff, commanding the Fourth army corps, who is Gen. Stakelberg's senior, resolved to take this step in consequence of the reports of scouts that the Japanese were turning the left flank.

#### Indicates Severe Fighting.

St. Petersburg, July 27.—Gen. Kuropatkin's telegram recording the withdrawal of the southern army from Tatchekiao to Hancheng fails to give details of the continuous rear guard action preceding the retreat, but the war office thinks the losses were several hundred, which would indicate pretty severe fighting.

#### Kuropatkin's Danger.

Although military men do not seem to be alarmed, the southern army from Tatchekiao tends to concentrate Kuropatkin's forces, thus giving him a smaller front to defend, considerable nervousness is manifested here by those not in the secrets of Russia's commander-in-chief, especially as Gen. Kuropatkin himself points out the danger threatening his line of communications to the north owing to the development of the Japanese advance from Saimatzse toward Mukden. If this column be pushed home and the Japanese cordon should at the same time be tightened from the south and east Gen. Kuropatkin's danger would be easily conceivable and consequently there is already talk of his preparing to meet this danger by withdrawing to Mukden and there awaiting further reinforcements.

#### Fixed the Date.

Bedford, Pa., July 26.—Henry G. Davis, democratic nominee for vice president, has notified Hon. John Sharp Williams, temporary chairman of the St. Louis convention, that his notification meeting will be held at White Sulphur Springs, W. Va., on the 17th of August.

## CROP CONDITIONS.

Corn Makes Good Growth and Is in Excellent Condition—Harvesting Continues.

Washington, July 27.—The weekly crop report of the weather bureau, issued Tuesday, is as follows: While rather cool for best results in the lake region and portions of the central valleys, with lack of sunshine and too much rain in the middle Atlantic and central gulf states, the weather conditions of the week ending July 25, as a whole, were favorable. With the exception of portions of the central Missouri valley, excellent weather for harvesting and threshing prevailed in the central valleys, where harvesting is nearly finished and threshing has made rapid progress. Some complaints of rust in spring wheat are received from portions of Iowa and South Dakota, but generally the crop has advanced favorably, although poor and weedy on lowlands in northern Minnesota. Corn has made excellent growth and is in most promising condition generally throughout the corn belt. Oat harvest has continued under favorable conditions and is nearing completion in the lower Missouri and Mississippi valleys. In the more northerly sections the maturing crop is very promising. Nearly all reports indicate an abundant crop of hay, which for the most part is being secured in excellent condition.

## TAGCART IS CHAIRMAN.

Indiana Man Elected Head of the Democratic National Committee.

New York, July 27.—Thomas Taggart, of Indiana, was unanimously elected chairman of the democratic national committee Tuesday. The meeting had not been in session long before this action was taken. All efforts to induce Senator Gorman to take the place failed. Urey Woodson, of Kentucky, was elected secretary of the committee. A motion was made for the selection of two vice chairmen, one to have charge of the eastern headquarters and the other a western headquarters. A motion finally prevailed to leave the whole matter to the executive committee, with power to increase the number of the executive committee and to select special committees for different sections of the country. This will allow the formation of a special campaign committee or finance committee in New York or any other organization that the executive committee may consider necessary.

## FORMALLY NOTIFIED.

Prohibition Candidates Are Told of Their Nomination, and Both Accept Honor.

Indianapolis, Ind., July 23.—Dr. Silas C. Swallow, of Harrisburg, Pa., and George W. Carroll, of Texas, prohibition candidates for president and vice president of the United States, were formally notified of their nominations Friday. A. F. Wolfenbarger, of Lincoln, Neb., chairman of the recent national convention, which met here in the same hall that witnessed the notification exercises, delivered the notification address to Dr. Swallow, and Homer L. Castle, of Pittsburg, notified Mr. Carroll. Responses of acceptance were made by both candidates, and National Chairman Stewart delivered the closing speech. The occasion brought many prominent prohibitionists of the country here.

#### Forest Fires Reported.

Helena, Mont., July 25.—The Flathead forest reservation is the scene of a fierce forest fire, supposed to have started from sparks from a Great Northern engine. It soon spread from dead and fallen timber to standing trees. Railroad employees and forest rangers in large numbers are endeavoring to check its progress. A large area has burned over. Three other fires are reported raging in the vicinity of Kallispel on state and railroad lands, many hundreds of acres having been burned over.

#### "The Wages of Sin."

Grand Rapids, Mich., July 26.—Henry Mohr, of Muskegon, who was charged with embezzling \$2,000 from the Muskegon Dry Goods company, for which concern he had been for several years confidential secretary, was found dead in the Clarendon hotel here Monday. He had taken morphine soon after registering Sunday night under an assumed name. The suicide's identity was revealed by a letter to his mother beginning: "The wages of sin is death."

#### Bishop Consecrated.

Green Bay, Wis., July 26.—Bishop J. J. Fox, a native of Green Bay, was consecrated bishop of Green Bay diocese of the Catholic church at St. Francis Xavier Catholic cathedral in this city Monday.

## Shall Democrats Who Before Spurned Now Defend

During the two political campaigns that Wm. J. Bryan was in the calcium light of the democratic stage, there were two words that would cause all true blue democrats, (and by true blue is meant those who fought and voted for Bryan) to turn purple with rage, and grow frenzied in denunciation. These two words were "Gold Democrat." The true blues had some respect for a Republican, but absolutely none for a Gold democrat. They looked upon a Gold Democrat as an ingrate, a traitor, a concocter of treasonable schemes for the annihilation of the free and unlimited Kansas City platform. They would rather sleep with a republican than walk on the same side of the street with a yellow metalist of democratic persuasion. And bitter indeed is the dose administered to them by the Hill-Sheehan-Cleveland combination, for they must now turn rightaboutface and applaud what they once denounced, cherish what they once spurned, adopt as their own that which they discredited when it was a republican possession.

But the worst of it all is that every word of sarcasm, bitterness and denunciation that trueblue democrats applied to Gold democrats in the two previous campaigns they must now apply to themselves. For they are all Gold Democrats. They have been forced by the machination of smooth Hill-Sheehans to become what they hate, to champion principles that are foreign to their nature.

But is it possible? no it is not possible that all democrats will thus efface their individual opinions and change into denouncers of themselves. They will do as one of the most enthusiastic Holland democrats said he was going to do—become a Roosevelt democrat and vote the republican ticket.

## Post Boy Struck Sunken Pier and Sank

The steamer Post Boy, Capt. Austin Harrington in command, struck a sunken pier, which tore a hole in her starboard bow, while steaming up Kalamazoo River to Saugatuck last Saturday afternoon at 3:30 o'clock and sank shortly afterward.

About 60 excursionists from the resorts were aboard but they knew not the seriousness of the accident until they were landed at the Saugatuck dock. The steamer struck the obstruction when opposite the Shriner House and soon after, Capt. Harrington, noticing that it was settling rapidly, crowded the steamer with all the speed possible in the winding river and soon reached the regular landing place, where he unloaded his passengers, and casting off the lines started for the ways of Britain's shipyard. The emergency pump was not sufficient, however, to keep the steamer free of water and the captain ran her into the ways where she sank, the stern, which was at the deepest point, being in about 15 feet of water.

Capt. Harrington displayed rare presence of mind and his good judgment and coolness prevented a panic. Many of the passengers did not know of the condition of the steamer until after they disembarked at the dock and were told by the captain that they would not be able to return on the boat that night.

That part of Kalamazoo river reaching from the Saugatuck harbor to the village is a very hard proposition for pilots, as it winds among shallows, sunken snags and other obstructions; but Capt. Harrington knows every twist and turn of it and has never before met with a serious accident. That he did so this time is simply hard luck, as the obstruction he struck was part of an old pier that had drifted with the current into a spot heretofore deemed navigable. It is very lucky that the Post Boy has good sound timbers or the hole would have been larger and the boat would have sunk before it reached the dock, making it necessary to unload the passengers, many of whom were women and children, on the marshy banks of the river.

A diver was put to work immediately and by Monday the boat was nearly raised, when the chain broke and allowed the boat to sink again. A heavier chain was secured, and a stronger pump was put to work Wednesday and it is expected the steamer will be ready for business Sunday. In the meantime the ferry steamer J. A. Parks of Grand Haven has been secured to take the place of the Post Boy on the resort ferry and excursion line.

## Change in Interurban.

Tuesday afternoon the Grand Rapids, Holland & Lake Michigan road passed out of existence and was succeeded by the company which will hereafter be known as the Grand Rapids, Holland & Chicago Railway company. The passing was signified by the filing with County Register of Deeds Frank Cook of Grand Rapids the deed of the new company. According to the deed filed the Grand Rapids, Holland & Chicago Railway company entered into the contract with the old company on July 21, 1904, and by its terms agrees to guarantee and assume the payment on an outstanding issue of bonds amounting to \$1,500,000. The new company also further agrees, for a consideration, to deliver to the authorized agent of the old company \$779,687.50 of the preferred stock, and also \$468,750 of the common stock of the company. In the formation of the new company the directorate has been enlarged, two additional directors having been elected to the board. Otherwise the board remains as formerly. Also \$200,000 additional capital has been placed in the company, the new directors representing that portion of the capital stock. The new company begins operations free from any extensive debts, and with a brilliant future.

Strathern Hendrie when asked whether there would be any changes in the management said: "Not at present, I may take the presidency instead of the general management, although I should prefer to be treasurer. In any event we shall continue to have the active co-operation and help of Mr. Hanchett, whose added responsibilities in assuming the general management of the city company and his other business matters caused him to ask to be relieved as much as possible from further active work. You may say also that Mr. Beach of Holland, one of the directors, will be asked to take a more active and more responsible position, as he has shown himself thoroughly capable."

## City of Benton Harbor will be Lengthened.

The new steamer City of Benton Harbor of the Graham & Morton line will be taken back to the Craig ship yard at Toledo at the close of the passenger season, and during the winter be cut in two and lengthened about fifty feet. The change will greatly increase the steamer's carrying capacity, and will add very largely to the number of state rooms, and will make the City of Benton Harbor by far the largest side-wheeler on Lake Michigan.

The contract with the Craig ship building company calls for a guaranteed speed of twenty-two miles an hour. Thus far the steamer has fallen considerably below that mark. The engines, which have a capacity of 3,500 horse power, have not been able to develop over 2,000, on account of the big wheels sitting too low in the water. The easiest way to get them up is to increase the buoyancy of the steamer by giving her greater length.

The work will be done by cutting the rivets in the midship section, and then moving one part some fifty feet distant, while the boat is in drydock. Frames and plates will take their place in joining the two parts. With this additional length it is believed certain the steamer can make her guaranteed speed and cross Lake Michigan in three hours.

## Sewer Contracts And Water Works Extension Contracts Awarded.

At a meeting of the common council held last Friday night the city clerk reported that the board of public works, at a meeting held July 22, 1904, had awarded the following contracts, subject to the approval of the common council. Sixteen a street sewer between Central ave. and Maple st. to Remers and Zwearing at \$1693.00; Sixteenth street sewer between Maple st. and Harrison ave. to Hendrick Oosting at \$2263.75; Fourteenth st. sewer between Central ave., and Maple st., to J. B. Van Oort & Sons at \$994.12; laying water mains to H. Oosting at \$948.00; hydrants, and specials to Bourbon Copper and Brass works, at \$530.70, 4" and 6" pipe to Lynchburg Foundry Co. at \$23.60 and \$22.60 respectively, special castings 2½¢ per lb.; with the recommendation that the bonds of H. Oosting for laying pipe be fixed at \$500, that the time within which to complete the 16th st., sewer East of Maple st., be fixed at 60 days, and with the further recommendation that payment for laying pipe be made in cash upon certificate of inspector or engineer in charge.

The action of the board was approved and recommendations ordered carried out, all voting aye.

## Socialists Name County Ticket

At the socialist convention held in De Grondwet hall last Wednesday evening O. F. Hansen was chairman and Arie VanDoesburg was secretary. The following county ticket was nominated: Judge of Probate—M. R. Merritt, Olive Center. Sheriff—Bert Dock, Holland. Clerk—Arie Van Doesburg, Holland. Treasurer—D. J. Cable, Grand Haven. Register of Deeds—J. C. Clark, Coopersville.

Circuit Court Commissioners—Gillis Boyenga and George Loveland, Holland.

Coroners—Dr. Chappel, Berlin, and Dr. Kuiper, Conklin.

Surveyor—Lambert Van den Berg, Holland. Representatives—First district, Joseph Warnock, Holland; second district F. Martin, Berlin.

The office of prosecutor was left vacant and the county committee was given power to fill the place. Vernon King was endorsed for state senator.

## Naval Training Board Here

Members of the board appointed by President Roosevelt to select a site for the naval training station to be established somewhere on the chain of lakes arrived in harbor yesterday on the U. S. revenue cutter Tuscarora to inspect Holland's advantages and this afternoon Mayor Geerlings and a committee of twenty-five leading citizens will accompany the board on an inspection trip to Waukazoo and other points on Macatawa Bay. The mayor and citizens will meet at Macatawa at 1 o'clock and will go from there to Waukazoo.

## Burton Will Come On Special

Congressman Theodore E. Burton, chairman of the rivers and harbors committee of the national house of representatives, will arrive in this city from Grand Haven on a special train between 6 and 7 o'clock this evening for the purpose of inspecting Holland harbor. He will be accompanied by Congressman William Alden Smith and Hon. G. J. Diekema, who are with him to day on a tour of inspection up Grand River with members of the Grand Rapids board of trade, and will be entertained at dinner at Ottawa Beach hotel at 8 o'clock by the committee of citizens of Holland who are this afternoon inspecting Macatawa Bay with the board appointed by President Roosevelt to select a site for the new naval training station. Mr. Burton will leave for Chicago on the steamer Puritan to-night.

Constipation, headache, backache, feel mean no appetite, all run down, Hollister's Rocky Mountain Tea will make you well and keep you well. Money back, if it fails. 35 cents Tea or tablet form. Haan Brothers.

## Democratic Caucuses.

Fourth ward—J. G. Van Putten, Alle Toppen, Jno. C. Dyke, Henry Brusse, Herman Damson, Percy Ray, Henry Van Ry, Peter Remers, Anton Seif, jr.

Fifth ward—A. Michmershuizen, Wm. Westhoek, Ed. Evenhuis, Peter Siersma, Antony Van Ry.

## Democratic County Convention

Chairman Al. Toppen of Holland called the Democratic county convention to order Wednesday. David R. Waters of Spring Lake was made temporary chairman of the convention and M. G. Manting of the Holland Times was named for temporary secretary. Only about 35 delegates were in attendance upon the convention.

At 11 o'clock the committees reported. The report of the committee on permanent organization and order of business left the naming of a county ticket to the county committee it being the sense of the committee that the selection of this ticket should be left over until after the Republicans have had their convention. There was some discussion on this proposition but the report of the committee was adopted by a large majority.

Delegates to the state convention were elected as follows: Peter J. Danhof, at large; Wm. H. Louit, Al. Toppen, Dr. Vanden Berg, D. R. Waters, Walter Philips, Ransom Doud, Jacob Nienhuis, Geo. M. Hubbard, Edgar A. Hambleton, and W. W. Dickerson.

During the discussion over the naming of delegates, Al. Toppen, chairman of the Democratic county committee, arose to state that the financial end of the party in this county was being kept up by the Democrats of Holland City, that it was the Democrats of the county metropolis who furnished all the necessary money for campaign purposes and that letters to the county Democrats and those from other parts of the county brought but little in the way of money. Mr. Toppen argued that Holland, under the circumstances was deserving of more than she was getting at the hands of the convention.

Delegates to the other conventions were selected as follows: Congressional—John Meeuwse, Cornelious Struik, Jacob Van Putten, John F. Wilde, Dr. H. Kremers, Jno. Higgins, Jacob Vander Veen, Charles Goode-nor, Thomas Watson, E. Harvey Stiles, George Christman, Theodore Van Zoeren, Fred Jonker, Edward Burns, M. G. Manting, Henry Miller, August Hoerich.

Senatorial—Wm. H. Louit, Willis Buck, Frank Fox, Marvin Taylor, Wm. O. Van Eyck, Geo. Brown, John Stegeman, Otis Lowing, Wybe Nienhuis, Wm. Walsh, Wm. R. Peck C. W. Harrison, Henry Boyink, John Scanlon, Bert Michmerhuizen, Charles Pansley, Fred D. Vos.—Grand Haven Tribune.

## General Items

One of Cass county's country schoolmarmas, who is taking a summer course at Ypsilanti, exhibits the following written by a Calvin mother as one of her most prized souvenirs which helped to brighten dull days:

Dear Madim: Georgy said he didn't pass in georgraphy. What was the matter? I tole you to bete learnin' intur him fur he wouldn't git it no other way. Next yere pleze bete him plum full of georgraphy so he will no where he is livin' at. Yours, Mrs. Gregg.—Dowagiac Daily News.

Iver Anderson, a worthy young man hailing from North Muskegon, was so impressed with the possibilities of a horse which he saw running away at Holton the other day that he followed the animal several miles, pulled it from the wreckage of harness and buggy and purchased it for the race track.

The Sunday school of the First Baptist church of Norfolk, Va., went to Elizabeth City, N. C., the Gretna Green for that part of Virginia, on an excursion. The discovery was made that while the boat was tied up at the wharf at Elizabeth City, seven pairs of lovers were married. The trip home was made by the 800 excursionists without the sweet story leaking out among them.

CORNELIUS ANDRE

**I**N PRESENTING the name of Cornelius Andre to the voters of Ottawa County, the people of Georgetown present a man who is in every way qualified for the important office to which he aspires. He was born January 20, 1860 on the farm which he now owns and successfully operates. He speaks both English and Holland Languages fluently. That he possesses the courage and determination so necessary for an officer has been demonstrated many times during his four years experience as a deputy sheriff. The criminal records of Ottawa county show the active part he has taken in many of the cases, notably the Jackman murdercase; Mr. Andres work in connection with that case is still fresh in the minds of the people of this county and it is only necessary to state that it is as much due to his untiring efforts as any other one man that Tibbets was held for trial and finally convicted of the crime he afterwards confessed having committed. A lifelong republican, Mr. Andre has always been an active worker for his party's success, and if nominated and elected sheriff, he will give the people of Ottawa county, a clean, efficient and economical administration of the duties of that office. ## The Story of a Wise Fool

By HOMER FISK

(Copyright, 1904, by Daily Story Pub. Co.)

BOHEMIA was in full session at Maffoli's. Everybody knows, of course, where Maffoli's is—Maffoli's, right around the corner in the little alley, where all the middle sort of actors and artists and musicians and that sort, go at unholy hours to restore tired nerves and fill empty stomachs, with the sparkling wit and the good viands set forth—the latter by Maffoli at a most scandalously reasonable price.

Well, this was well past the hour of midnight and the choice spirits present were just beginning to cut loose and enjoy themselves. Three tables had been dragged into the middle of the room and placed end to end. About this improvised banquet board were seated a score or more of the devotees of innermost Bohemia. The feast was over and the mugs of beer and clouds of cigarette smoke told that the "session" was on. Never were better stories told, never were songs better sung, never did laughter ring merrier.

There was but one solemn countenance at the board—and it was a veritable death's head at the feast. It was Benton, Russell Benton, who did juveniles so cleverly at the Bijou. And usually he was the gayest and most fun-loving of all Bohemia. Now he sat in his chair moody and sullen, drinking his beer savagely and responding not at all to the sallies of wit. Even the raillery of Tony Neiman, the original and slangy sporting editor of the Universe, whose brains, it was generally conceded, accorded with his 300 pounds and the dry wit of Archy Neville, the tall, thin, bearded artist, failed to arouse him. Finally, Mamie de Vere, the dashing little soubrette from the Academy, took the matter in hand. Perching on a chair and swinging her beer mug in her hand, she screamed:

"Look at Russ sitting there like a professional mourner at a funeral. I move, most potent, grave and reverend seignors, that he tell a good story, sing a good song or be fined the drinks."

"Hear, hear!" shouted the company. Benton looked up and smiled grimly. "Oh, go on," he growled. "It's all a fake anyhow. Booze and laugh and laugh and booze and then sleep it off and do it all over again to-morrow. I'm sick of the game. There's nothing in it."

"Why don't you quit it?" shouted little Veleni, the leader of the orchestra at the Grand, in his high treble.

"By heavens, I wish I could," returned Benton savagely. "I'll tell all you lobsomers something. I wish I was back in the country, rambling about at the business end of a plow, dodging stumps and rocks—and that's no joke, either. Here we are—all of us thinkin' we're the wisest people on earth, makin' fools of ourselves before a lot of idiots for so much per and spending what we get giving ourselves paresis in this old tenth-rate joint. And when the season's over we haven't enough coin to get through the summer in a fourth floor, hall bedroom, without hawking next season's salary. Quit it! I'd quit it so quick it'd make your head swim if I hadn't cut my bridges behind me."

While he spoke a girl had entered the place, glanced about in a half frightened manner and shrunk into an obscure seat at a corner table. She was fresh-faced and her attire bespoke the country. She seemed utterly out of place in Maffoli's. At the sound of Benton's voice she glanced toward him quickly and a startled look came into her eyes. The party in the middle of the room were so engrossed in Benton's strange words that they did not notice her at all.

"Oh, cut it," cried the de Vere from her perch on the chair. "No preaching at Maffoli's, hey boys? A song, a story or a drink and 'do it now!'"

"Wait a minute," spoke up George Preston Brooks, the long-haired poet in frayed trousers and the new and astounding Prince Albert. "Forsooth I have an idea. Russ evidently has a pastoral tale on his mind or conscience. I move he tell it. A little touch of the serious won't harm us at all."

"Good, good!" cried the crowd.

"By heavens, I will," said Benton, pushing the beer mug from him and rising.

The girl in the corner had ordered coffee and a sandwich, which she left untouched, being absorbed apparently in the scene before her.

"There was, once upon a time, a thick-headed young fool who lived up in the country," began Benton grimly. "His father had a good farm and the young fool grew up where there was air to breathe and good stuff to eat and a soft bed to sleep on. He worked out in the open, ate like a hired man, slept like a baby and got up in the morning with a clear head and feeling like a fighting cock. Over yonder on the next farm, but two, was a buxom, brown-eyed lass with cheeks like peaches and lips as red as roses. She milked the cows and churned the butter and washed the dishes and laughed and sang all day long. The fool used to go over to the other farm evenings to see the girl, and after awhile he took her to singing school or to meetin'.

Once he took her to the county fair. He got to sayin' foolish things to her and she used to blush and look at the ground. Once he kissed her. That night after he went home he swore to himself he would marry her. You see he didn't know then that he was a fool. The symptoms came on later. One time his father sent him to the city and he went to a show and the glare of the footlights dazzled him so that he

conceived the idiotic notion that an actor was the greatest man in the world and that an actor's life was one long dream of bliss. He went back home and began to read about actors and plays. Then some other idiot in the neighborhood got the amateur theatrical craze and the fool took part, and a lot of well-meaning, but addle-headed people told him that he did well and was cut out for an actor.

"Well, the fool got stage-struck and decided that the farm and fresh air and the good living and the good old father and mother and all the honest friends he had were not good enough for him and that he must go to the city and carve out a career. His mother was heartbroken and his father righteously angry at his decision. But of course the fool knew better than they. All fools know better than their mothers and fathers—especially cub-fools. So he went bravely away to the city, and by the sheer force of the physical vitality the country air and good living and decent hours had given him, he wormed himself into the perches and for ten years has been living in ill-smelling hotels and stuffy back rooms and eating everything from free lunch welters to the sort of rot this dago concocts in his rotten kitchen.

"The fool's father was a strong man and just, and when he died a few years ago he left his property to the fool's brother, who was a wise man and stayed with a good thing, and knew enough to come in when it rained. This proves that the fool's father knew his business. So now the fool is elected to eke out his miserable existence in company with other fools of both sexes in stuffy lodgings and on liverwurst and beer and other abominations, while his brother peacefully smokes his pipe in comfort and happiness and watches his boys and girls grow to manhood and womanhood in the green fields which will be their heritage—unless they inherit their uncle and become fools."

"And the girl," suggested the poet.

"O, yes; the girl," replied Benton. "That is the most pitiful of all. You see the girl really loved the fool and her love blinded her to his folly and she thought it was all right for him to go to the city and demonstrate the depths of his idiocy. And the fool loved the girl, too, in a fool way and when he left he took her in his arms and kissed her and swore eternal fidelity and promised her a future part in his future triumphs. A few letters passed and then the fool graduated from the supe class into a speaking part, met up against this sort of a bunch and the paint and the rouge and the pads and the abandon and the wit and all the rest of it, as exemplified in our charm-

"I HAVE WAITED ALL THESE YEARS. I HAVE COME FOR YOU."

ing de Vere, appeared to the fool as the real thing and he thought the little girl in the country too plain and simple—and he forgot to write for a long time. When he came out of his trance the shoe was on the other foot and he realized that he was not worthy to tie her shoe and that his life was not fit even to suggest to her. And so the fool is alone and will continue to paint his mug nightly, when the managers are good enough to let him, and make faces at the gaping crowds and to nurse the shynocks until some day when you, my dear friends, will have the proud privilege to chip in for a cheap coffin and a cheap preacher and a cheap grave somewhere."

Benton sat down and plunged his face into the beer mug. Archie Neville said "dam" and the de Vere leaped again into the chair to try and dispel the atmosphere, when a sudden interruption occurred. The girl sitting in the corner had moved quietly to Benton's elbow. She laid her hand on his arm.

"Russell," she said softly, "You said you would come for me and I said I would wait. I have waited all these years and you have not come. So I have come for you. Father is dead and the farm is mine—ours. Come home. Oh, it has been so hard to find you."

Benton rose as one dazed and looked at the girl. Then without a glance at the party he put his arm about her and together they walked out of Maffoli's.

"Well, wouldn't that make you articulate!" exclaimed Tony Neiman, in a low voice to Brooks. But the poet was busy making notes.

## FACTS ARE STUBBORN

If Holland People are not Convinced by Local Testimony, They Differ from Other People.

Facts are stubborn; Some may be disputed, None can be disproved. A fact is always hedged about with proof; Has to stand the test of investigation or it drifts to the realm of doubt. Investigate closely the following, the closer the scrutiny the more convincing the results. A Holland citizen speaks here; Speaks from experience and conviction: John Lockhart, of 28th street, near Central Avenue, says: "I had a constant aching in my loins and kidneys so that at times I could hardly keep around. I could not rest comfortably in any position and after a restless night would get up feeling as tired as when I went to bed. The kidney secretions became irregular, frequent and unnatural. I used different remedies but did not receive any benefit. Seeing Doan's Kidney Pills advertised I procured a box at J. O. Doesburg's drug store and tried them. They did me so much good that I got another box and then another. They cured me."

### WEEDS IN ALFALFA.

**Dodder Very Destructive—The Most Effective Way to Combat It.**  
The best grades of alfalfa seed contain comparatively few weed seeds. The low grades, however, which are mostly screenings, often carry large numbers of weed seeds, as is the case with a sample which contained 6.8 per cent of weed seeds, or nearly 32,500 per pound, of which 5,400 were dodder. Dodder is the weed most destructive to the alfalfa plant. It is a parasite, having no leaves, and appears as a tangled mass of fine yellow stems winding about and clinging to other plants. The seed germinates in the ground and sends up a slender stem that winds

DODDER PLANT ON ALFALFA STEM.

around the alfalfa plant to which it attaches itself. The dodder root soon dies, while the stems continue to grow and thrive on the juices of the alfalfa until it has matured seed or the alfalfa has been killed.

Dodder occurs over most of the area where alfalfa is grown, except in the extreme northern states.

When once established, it is very destructive and difficult to get rid of. The only effective way to combat it is to mow the infested area and burn the cutting. There are two species, which are about equally common and destructive to alfalfa and red clover. The seeds of these are of nearly the same size and are not easily distinguished. The larger dodder seeds approach the smaller alfalfa seeds in size and therefore are difficult to clean out thoroughly. In buying alfalfa seed it is essential to know that it is free from dodder seed.

### THE FARM FLOCK.

**The Day of Unlimited Ranges Passing Away—Profit in Small Flocks.**

Regarding the sheep industry in the United States W. J. Battison in an annual review of the subject for the National Association of Wool Manufacturers says the conditions indicate that the future prosperity of the American sheep industry lies in a gradual but radical change in the manner in which it is conducted. The day of extremely large flocks on unlimited ranges is beginning to pass away. The sheep will have to be kept in smaller flocks and those adapted to closer confinement substituted for breeds which are dependent on a wide range for profitable existence.

Surprise has often been expressed that farmers in the eastern and middle states do not pay more attention to sheep. The cause appears to be in a great measure the same as that which prevents the growing of carpet wools in this country. Other branches of agriculture require less care and exertion or yield better returns for capital invested and time and labor expended.

Notwithstanding the disadvantages, there is still a good profit to be made from sheep, and a tendency is noted in New York state toward an increase in the number of small flocks on farms in heretofore exclusive dairy sections, the sheep being kept partially for the purpose of destroying weeds in the pasture.

The estimated value of the wool crop of 1908, based on the value of the scoured pound at the seaboard, is 124,804,205 pounds, having a total value of \$58,775,873, the value per pound for fleeces being 48.8 cents and for pulled wool 48.4 cents. The total value of the wool crop is 8.14 per cent less than that of the previous year, the decrease being due to a reduction in the total quantity of wool produced.

On the other hand, the value of fleeces wool, it is stated, has increased 7.86 per cent and that of pulled wool 9.32 per cent. In 1908 the average weight of fleeces was 6.25 pounds as compared with 6.50 pounds in 1902 and the average shrinkage 60.8 per cent as compared with 60 per cent.

### Squash Bugs.

The process of collecting squash bugs by hand must apparently be the main reliance of the gardener against this pest for many years to come. It has long been known that if small boards, such as old shingles, are laid loosely upon the ground beside the squash vines a large proportion of the bugs will congregate under these at night, so that they are easily collected the next morning. This is well worth practicing in connection with hand picking from the vines.

## HERB FLOWERS

### HARDY RHODODENDRONS.

Collected and Shipped From Their Natural Habitat—The Hybrids. While the hybrid rhododendrons must produce the varied coloring that is sought for from this class of plants there has been a revolution of feeling as to the use of these plants within the last few years, due to the extensive production and successful cultivation of collected plants of Rhododendron maximum. The collecting and shipping of this plant, together with that

RHODODENDRON HYBRID MINNIE.

of Kalmia latifolia, have become an industry of considerable importance where these plants grow naturally.

Rhododendron maximum will stand shade with less injury than any other species, though, on the other hand, it will thrive in sunny exposed situations where few other plants will succeed.

Plants are collected in sizes varying from two feet to twelve feet in height and as great in diameter, and the result is that, whereas a few years ago it was necessary to wait an indefinite period for the hybrid rhododendrons to reach a satisfactory height, it is now possible to produce an immediate effect with Rhododendron maximum and supplement the plantations with the more expensive hybrid varieties in much lessened quantities and for the purpose of adding to the earliness and length of bloom and for coloring effect.

Rhododendron maximum ranges in its native growth from Nova Scotia to Georgia, there being one or two isolated groups of the plants reported in Nova Scotia, and we understand that one or two have been found in Maine.

In southern Rhode Island occurs a considerable tract, and they are shipped in considerable quantities from this source.

The range in color of Rhododendron maximum is from pure white to dark rose.

American Gardening, the source of the foregoing, gives a list by W. Butterbach of New Jersey of what have proved the twelve best hardy hybrid varieties with him, including the one illustrated: Boule de Neige, white; Mme. Masson, white with yellow streaks; Michael Waterer, scarlet; Minnie, pink and orange spotted; Sir Charles Napier, rose; Vauban, mauve and yellow blotches, a fine flower; Stella, lilac; Sir Robert Peel, crimson; Joseph Whitworth, purple; Blatteum, a beautiful, large crimson of fine form; Limbatum, bluish; Quadrooma, rose.

### Leaf Spot of the Currant.

The fungi causing leaf spot of currant and gooseberry are common and destructive to the foliage. Affected leaves at first show small brownish spots during June or July, and by August the foliage begins to drop. It is not unusual to see bushes entirely defoliated by this disease long before frost. Thus the plants are prevented from making a complete growth or of properly perfecting the fruit buds. The spores of these diseases are produced on the dead portions of the diseased leaves, on which the fungi also hibernates.

It has been found possible to reduce the attacks of these fungi to a great extent by the use of fungicides, applied at intervals of two or three weeks during the growing season, the first application to be made early in June. Even two or three applications will materially reduce this trouble. The spray used early in the season, while the fruit is on, should be one of the clear mixtures, so as to avoid staining the berries. After harvest Bordeaux mixture may be substituted.

### Skin Protection When Spraying.

Vaseline is now strongly recommended for the protection of the skin when spraying. Applied thoroughly upon the hands and face, well rubbed over the eyes so that the eyelids and eyebrows are covered, it will throw off the lime, salt and sulphur spray like water off a duck's back. The operator should, however, wear gloves.

### Horticultural Notes.

A ginseng plantation near the southeast corner of the Horticultural building is one of the up to date features of the world's fair.

Extremely attractive are the planting of ornamental trees, fine evergreens and roses and the arrangement of miniature lakes and grottoes around the French building at St. Louis.

The new rose, General MacArthur, is introduced as an easily managed kind likely to attract popular favor. For it is claimed the "true Christmas color," brighter than either Meteor or Liberty.

W. F. Massey of North Carolina claims to have eradicated the Bermuda Lily disease from his experimental fields.

## VARICOCELE & STRICTURE

No other disease is so prevalent among men as Varicocele. As it interferes with the nutrition of the sexual organs it produces weakness, loss of semen through the urine, decay of the organs, pains in the loins, aching in the back, nervousness, despondency, bashfulness, palpitation of the heart, constipation, and a combination of these results in complete LOSS OF MANHOOD. Thousands of young and middle-aged men are troubled with STRICTURE. If you have reason to believe you are afflicted with it, don't neglect it. It will ruin you. Don't let doctors experiment on you by cutting, stretching or testing it. Our NEW METHOD TREATMENT dissolves the stricture tissue, hence it disappears and can never return. We cure Varicocele and Stricture without operation or loss of time. The treatment may be taken at home privately. Send for our Free Illustrated Book on VARICOCELE and STRICTURE. WE GUARANTEE TO CURE OR NO PAY.

## Kidneys & Bladder

All sexual complaints affect these organs, hence the kidneys are a great source of disease. Have you aching or weakness over the small of the back, tendency to urinate frequently, deposit in urine, coldness of hands or feet, a drowsy feeling in the morning. Don't neglect your kidneys. Our NEW METHOD TREATMENT is guaranteed to cure any disease of these organs or no pay.

ROOSEVELT TOLD OF NOMINATION

OFFICIAL NOTIFICATION TAKES PLACE AT HIS HOME AT SAGAMORE HILL.

CANNON TELLS HIM OF CONVENTION'S ACTION

President in Reply Reviews Issues of the Campaign—Approves Platform Adopted by Chicago Convention—Points to Record of the Past.

Oyster Bay, L. I., July 27.—President Roosevelt was notified formally Wednesday of his nomination for the presidency by the national republican convention. The ceremony took place at his country home at Sagamore Hill, three miles from this village. In accordance with the wish of the president the ceremony was made as simple as possible. The formal notification of the action of the convention was made, on behalf of a committee representing every state and territory in the United States, by Joseph G. Cannon, speaker of the house of representatives.

The day opened with ideal weather and arrangements for the ceremony were completed at an early hour. The wide veranda of the house at Sagamore Hill, extending almost entirely around the house, was decorated with American flags hung from pillar to pillar. In addition many houses in the neighborhood of the Roosevelt home and in Oyster Bay were draped with the national colors. Across the main street of the village there hung a large Roosevelt and Fairbanks banner.

Guests Are Limited.

The special train bearing the members of the notification committee and the invited guests left Long Island City at 10:32 a. m. and arrived here at 11:35 o'clock. Only three of the members of the committee were absent. They were James N. Coombes, of Florida; Senator Chauncey M. Depew, of New York, who is in Europe, and Senator Clarence D. Clark, of Wyoming. Included among the invited guests were men prominent in all walks of life. Among them were personal and political friends of the president in New York state, life-long friends and neighbors on Long Island, including the pastors of the Oyster Bay churches and the officials of the national and New York state republican organizations. Those present numbered about 125. It was necessary to limit the number on account of the isolation of Sagamore Hill and the lack of facilities for the accommodation of a larger assemblage. On arrival at Sagamore Hill the committeemen were received by President Roosevelt, Mrs. Roosevelt and National Chairman George B. Cortelyou. All of the house guests of the president were gathered on the veranda, and as the occupants of each carriage alighted they were welcomed by the president and each was presented to Mrs. Roosevelt.

After the conclusion of the informal reception, the ceremony of notification began. The members of the family, the house guests and the distinguished visitors were assembled on the veranda.

Speech of Cannon.

When Speaker Cannon rose to deliver his speech of notification, he was greeted with applause.

Mr. Cannon opened his address by telling of the prosperity under republican rule during recent years. He said the democrats were opposed to protection and dwelt on Parker's long silence and his famous telegram to the St. Louis convention. Mr. Cannon declared that the office of president of the United States is the greatest on earth and many competent in the republican party are ambitious to hold it, yet the republican convention met at Chicago June last and unanimously, with one accord, nominated Mr. Roosevelt as the candidate of the party for president. Continuing, he said: "In pursuance of the usual custom the convention appointed a committee, of which it honored me with the chairmanship, to wait upon you and inform you of its action, which duty, speaking for the committee, I now cheerfully perform with the hope and the confident expectation that a majority of the people of the republic will in November next approve of the action by choosing electors who will assure your election to the presidency as your own successor."

At the close of Mr. Cannon's address, the president advanced to the veranda railing, and, standing under a great festoon of American flags, delivered his address in response to the notification. As he faced the assemblage he was warmly applauded.

Reply of the President.

In accepting the nomination the president said that he heartily approved the declaration of principles which the republican national convention had adopted. He declared that from the time he had succeeded to the presidency it has been his purpose to carry out the principles and policies of McKinley for the honor and best interests of the country, and he would continue to do so if reelected. He said the record of the party during the past could be taken as an earnest of what they would continue to do, and said: "In dealing with the great organizations known as trusts, we do not have to explain why the laws were not enforced, but to point out that they actually have been enforced and that legislation has been enacted to increase the effectiveness of their enforcement. We do not have to propose to 'turn the rascals out,' for we have shown in every deed that whenever by diligent investigation a public official can be found who has betrayed his trust

he will be punished to the full extent of the law without regard to whether he was appointed under a republican or a democratic administration."

Says Gold Standard Is Settled.

He declared that the national honor and interest have been upheld abroad and the finances of the nation have been placed upon a sound gold basis. "So long as the republican party is in power," he continued, "the gold standard is settled, not as a matter of temporary political expediency, not because of shifting conditions in the production of gold in certain mining centers, but in accordance with what we regard as the fundamental principles of national morality and wisdom."

The Tariff Question.

Concerning the tariff, he said: "We have enacted a tariff law under which during the past few years the country has attained a height of material well-being never before reached. Wages are higher than ever before. That whenever the need arises there should be a readjustment of the tariff schedules is undoubted; but such changes can with safety be made only by those whose devotion to the principles of a protective tariff is beyond question; for otherwise the changes would amount not to readjustment, but to repeal. The readjustment when made must maintain and not destroy the protective principle."

The Panama Canal.

"Ever since this continent was discovered," he said, "the need of an isthmian canal to connect the Pacific and the Atlantic has been recognized; and ever since the birth of our nation such a canal has been planned. At last the dream has become a reality. The isthmian canal is now being built by the government of the United States. We conducted the negotiations for its construction with the most and most scrupulous honor, and in a spirit of the largest generosity toward those through whose territory it was to run. Every sinister effort which could be devised by the spirit of faction or the spirit of self-interest was made in order to defeat the treaty with Panama, and thereby prevent the consummation of this work. The construction of the canal is now an assured fact; but most certainly it is unwise to intrust the carrying out of so momentous a policy to those who have endeavored to defeat the whole undertaking."

Stand on Past Record.

He declared the nation's honor had been upheld among foreign countries, and in conclusion said: "The principles which we uphold should appeal to our countrymen, in all portions of our country. Above all they should give us strength with the men and women who are the spiritual heirs of those who upheld the hands of Abraham Lincoln; for we are striving to do our work in the spirit with which Lincoln approached his. During the seven years that have just passed there is no duty, domestic or foreign, which we have shirked; no necessary risk which we have feared to undertake, or which we have not performed with reasonable efficiency. We have never pleaded impotence. We have never sought refuge in criticism and complaint instead of action. We face the future with our past and our present as guarantors of our promises; and we are content to stand or to fall by the record which we have made and are making."

Both the president and Speaker Cannon spoke standing on a chair placed at an angle of the veranda, so that all could hear. The guests stood during the speeches.

At the conclusion of the address, President Roosevelt held an informal reception and received the congratulations of the committeemen on his speech.

Among the invited guests were Chairman George B. Cortelyou, Gov. B. B. Odell, Senator John Kean, of New Jersey; former Secretary Elihu Root, Cornelius N. Bliss and former Gov. Frank S. Black. Senator Platt, of New York, who had been invited, was not present.

Card of Thanks.

By this letter I wish to show my appreciation to A. W. Van Bijsterveld the Holland Wonder Doctor. For 20 years I have been suffering from a severe case of rheumatism, so that I could not work. I have tried Doctors without number but found no relief. At last I went to A. W. Van Bijsterveld the Holland doctor who treated me with wonderful success. At present I have no pain, and am working daily. I recommend Dr. Van Bijsterveld to all who suffer.

FRANK De HAAN, Nunica, Mich.

he will be punished to the full extent of the law without regard to whether he was appointed under a republican or a democratic administration."

Says Gold Standard Is Settled.

He declared that the national honor and interest have been upheld abroad and the finances of the nation have been placed upon a sound gold basis. "So long as the republican party is in power," he continued, "the gold standard is settled, not as a matter of temporary political expediency, not because of shifting conditions in the production of gold in certain mining centers, but in accordance with what we regard as the fundamental principles of national morality and wisdom."

The Tariff Question.

Concerning the tariff, he said: "We have enacted a tariff law under which during the past few years the country has attained a height of material well-being never before reached. Wages are higher than ever before. That whenever the need arises there should be a readjustment of the tariff schedules is undoubted; but such changes can with safety be made only by those whose devotion to the principles of a protective tariff is beyond question; for otherwise the changes would amount not to readjustment, but to repeal. The readjustment when made must maintain and not destroy the protective principle."

The Panama Canal.

"Ever since this continent was discovered," he said, "the need of an isthmian canal to connect the Pacific and the Atlantic has been recognized; and ever since the birth of our nation such a canal has been planned. At last the dream has become a reality. The isthmian canal is now being built by the government of the United States. We conducted the negotiations for its construction with the most and most scrupulous honor, and in a spirit of the largest generosity toward those through whose territory it was to run. Every sinister effort which could be devised by the spirit of faction or the spirit of self-interest was made in order to defeat the treaty with Panama, and thereby prevent the consummation of this work. The construction of the canal is now an assured fact; but most certainly it is unwise to intrust the carrying out of so momentous a policy to those who have endeavored to defeat the whole undertaking."

Stand on Past Record.

He declared the nation's honor had been upheld among foreign countries, and in conclusion said: "The principles which we uphold should appeal to our countrymen, in all portions of our country. Above all they should give us strength with the men and women who are the spiritual heirs of those who upheld the hands of Abraham Lincoln; for we are striving to do our work in the spirit with which Lincoln approached his. During the seven years that have just passed there is no duty, domestic or foreign, which we have shirked; no necessary risk which we have feared to undertake, or which we have not performed with reasonable efficiency. We have never pleaded impotence. We have never sought refuge in criticism and complaint instead of action. We face the future with our past and our present as guarantors of our promises; and we are content to stand or to fall by the record which we have made and are making."

Both the president and Speaker Cannon spoke standing on a chair placed at an angle of the veranda, so that all could hear. The guests stood during the speeches.

At the conclusion of the address, President Roosevelt held an informal reception and received the congratulations of the committeemen on his speech.

Among the invited guests were Chairman George B. Cortelyou, Gov. B. B. Odell, Senator John Kean, of New Jersey; former Secretary Elihu Root, Cornelius N. Bliss and former Gov. Frank S. Black. Senator Platt, of New York, who had been invited, was not present.

MILITARY RULE OFF.

Gov. Peabody, of Colorado, Places Cripple Creek District in Charge of Civil Authorities.

Denver, July 27.—Gov. Peabody has issued a proclamation calling off military rule in Teller county and placing the Cripple Creek district in charge of the civil authorities. Military rule was proclaimed in Teller county on June 8 in consequence of disorderly acts following the explosion at Independence of June 6 by which many non-union miners were killed and injured. Previous to that there had been a large force of soldiers on duty for many months in the Cripple Creek district, but before the explosion occurred these had all been withdrawn. No troops are now under arms anywhere in Colorado and good order prevails in all the mining camps. The military expense of the state during the past 18 months due to strikes are said to aggregate about \$1,000,000.

Five Killed by Lightning.

Hazleton, Pa., July 27.—Five persons were killed here late Tuesday night during a severe electrical storm. At Onelda three foreign-speaking miners and a boy were instantly killed by a bolt of lightning while sitting at a table. All four were terribly burned and the clothing almost completely torn from their bodies. At Quake Valley lightning struck the home of Miley Hinkle, instantly killing Mrs. Hinkle and seriously injuring her daughter.

Nominated by Acclamation.

Oklahoma City, Okla., July 27.—F. Frank Mathews, of Greer county, was nominated for congress by acclamation Wednesday by the territorial democratic convention. The nomination was made on the twentieth ballot, after an all-night session.

An up state editor has been compelled to pack his things in a handkerchief and leave town between two days. A temperance speaker lectured in the schoolhouse on "Rum" and the editor very innocently stated that the good man was "full of his subject."—Buckeye and Wolverine Editor.

Chris De Jonghe, of Zeeland has purchased the right for the manufacture of the Miricle peessed stone in Zeeland and Holland. This stone is composed of concrete and the blocks are manufactured in either flat, bevel chipped or rock face. Mr. De Jonghe owns the only machine of its kind in Michigan for the manufacture of this stone.

Tuesday was the tenth birthday anniversary of Miss Geneva Van Putten and in honor of the event about thirty of her friends were entertained at the home of her parents Mr. and Mrs. M. Van Putten, 24 East Fourteenth street. A delightful afternoon was passed. Miss Van Putten received a number of pretty presents.

Officers were re-elected as follows at the annual meeting of the Virginia Park Golf club held at Virginia Park hotel last Monday evening: President G. A. Kanters; Vice president, John Bosman; Secretary and treasurer, E. B. Standart; Stewards, P. T. McCarthy, Al Anderson and J. Burns. The club now has 172 members and is in a flourishing condition.

At the closing exercises of the Christian school, held last Monday evening, six young people were graduated in the presence of a large audience. The program was very interesting, especially the singing by the school children. Prof. VandenBosch of Grand Rapids gave an able and eloquent address in English, and Rev. A. Keizer gave an instructive and interesting address in Dutch. The patrons of the school are very well pleased with the years school work and an increased attendance is expected at the close of the six weeks vacation.

Saugatuck did itself proud at its celebration this week in honor of the soldiers and sailors who met there for their annual reunion. Wednesday was the big day, speeches by Hon. G. J. Diekema and Congressman William Alden Smith being the leading features. A balloon ascension was attempted Tuesday but the aeronaut got tangled in the wires and the balloon made the journey in the clouds alone. The balloonist was quite badly injured. Wednesday the fates were more kind to the aerial voyager and a good ascension was made. Prof. Goldman of Grand Rapids, who has been exceptionally successful in engineering balloon ascensions at Jenison Park this summer, was in charge of the ascension arrangements. Holland was well represented at the reunion Wednesday by the members of the Van Raalte post, G. A. R.

The Yacht Vencador of the Columbia Yacht club of Chicago was the first boat to reach Holland harbor in the cruising race from Chicago. This is the second time this yacht has won the race. It arrived at 3:41 Sunday afternoon. It left Chicago at 5 o'clock Saturday afternoon. The Vencador gets the handsome trophy cup offered by C. M. Camburn for yachts 31 feet and over. The second boat in was the yacht Neva of the Vencador's class. It reached the piers at 5:34. LaRita, the third boat in, arrived at 6:27. It won the Graham & Morton cut glass bowl offered for yachts under thirty one feet. LaRita is owned by George R. Peer. Nahma, owned by Prof. Francis Campbell and others was the first boat in of the schooner and yawls, Class R. and took the cut glass wine set offered by E. B. Standart of this city.

The annual meeting and picnic of the Old Settlers Association of Zeeland and vicinity will be held next Wednesday, at Zeeland. Addressess will be made by A. G. Van Hees, the president, B. J. Veneklasen, Rev. G. D. De Jonge J. W. Garveling.

Suit has been commenced in the Circuit Court by the Royal Circle, a fraternal organization, against Martha Hayes and Fred Nash, enjoining the latter named parties from proceeding against the order for the collection of a \$500 death claim. Martha Hayes was a member of the Holland Circle of the order and carried life insurance therein to the amount of \$500, with her mother the beneficiary. She was not married at the time. Later she wedded Fred Nash. They moved to Weld Co., Colorado. Mrs. Nash died last winter and an effort was made to have the insurance paid the husband. The fraternal order admits the death and believe that they are liable, but the suit is brought to name who shall be the beneficiary.

Frank Makley disappeared some time ago from the home of S. C. McClinic, South River street, where he roomed, and with him disappeared a gold watch belonging to Miss Pearl McClinic and valued at \$16. Tuesday he was arrested by officers in St. Joseph and was brought here by Marshal Kamferbeek. Today he was tried in Justice Devries' court before a jury consisting of Peter Boot, H. Van Tongeren, John De Kooyer, Leonard Visser, jr., Henry Cronkright, and B. D. Keppel, was found guilty of larceny and sentenced to pay a fine of \$50 and costs amounting to \$28.75, or to serve 90 days in the Detroit House of Correction. It is likely he will serve time. When he gets out he will be tried on the charge of obtaining \$15 from Albert Hidding on false pretenses. There are also two charges against him in the Grand Rapids courts and one in Montreal.

In the opinion of those who have witnessed Venetian Evening celebrations since they were started at Macatawa, the one last night was the best. It was a carnival of light, thousands of Japanese lanterns mingling with the electric lights making a complete circuit from Jenison Park around the bend past Macatawa and Ottawa Beach and ending at the Ottawa Beach freight dock. The brilliant color effect was intensified by the illuminations on the yachts, which were trimmed lavishly with Japanese lanterns and signal lights. One of the best features was the scene on Baldhead, where lanterns were arranged to represent a full rigged ship. At a signal from this ship the grand display of fireworks was begun and from all points rockets and red fire were shown. It is safe to say that not one of the thousands of people who saw the celebration was disappointed. No estimate can be placed on the number of people at the resorts last night. For two days the G. R. H. & Chicago Interurban had been bringing the people there in crowds and it took until 4 o'clock this morning to get them away.

Grand Haven Tribune—Farmers in the city this week from the south river townships of Blendon, Allendale and Robinson say that parties have been through that section within the past ten days getting options and also doing surveying. They state that the work is preliminary to the building of an electric road on that side of the river from Grand Rapids to Grand Haven. While the farmers who have visited this city do not know who is behind the project, there is a well defined rumor that the Grand Rapids, Holland & Chicago Railway Co. which recently passed into the hands of new stock holders, is doing this work. It is reported that this new organization is heartily in favor of building a route to Grand Haven through the south side township, that they consider the district a fine field for railroad operations, being untraversed by a railroad, and in fact is miles distant from a railroad of any kind. The new road will be entirely distinct from the Holland road, but the cars will probably run into Grand Rapids over the tracks of the latter road from Jenison.

## Teacher's Examination

An examination of teachers will be held in the City of Grand Haven, beginning at 8:30 o'clock a. m., Thursday, August 11th 1904. All grades of certificates can be granted at this examination.

The examination in reading will be based on Shakespeare's Julius Caesar, and in theory and art, on White's Art of Teaching. C. E. Kelly, Co. Comm'r of Schools.

## WHAT PIKE FEED UPON.

Tipperary Fisherman Declares That They Are Especially Fond of Flatirons.

There is a professional fisherman of my acquaintance in Tipperary who kills many pike during the winter months, for which he finds ready sale in town, says a writer in the Country Gentleman. He told me of one customer of his who was in the habit of so beating him down in price that he felt justified in resorting to somewhat questionable means to increase the weight of his fish. In the manner of the winner of the stakes in the celebrated "Jumping Frog" sporting event, he would introduce some weighty substance into their interior, stones, bits of iron railing, etc.

Once he went so far as to stuff two old handless flatirons he had picked from a refuse heap down the gullet of one before taking it to his customer, who, having weighed it carefully, and after much haggling, paid him a fraction less a pound for it than he might have perhaps obtained elsewhere. Meeting him next day, he was instantly aware that there was trouble in the wind by the opening remark: "What do pike feed on, Paddy?" "Och, and indeed, your honor, but there's mighty little that comes amiss to thin lads," he answered; "frogs and fish, sticks and shingles they like well, but they would give their two eyes for flatirons."

## MANY FREAKS OF ICEBERG

Fishermen of Newfoundland Possess Curious Faculty of Smelling Them.

The fishermen of Newfoundland possess the curious faculty of being able, as they say, to "smell" icebergs, and thereby escape many encounters with them, relates P. T. McGrath, in McClure's. Really, however, the fact is that the approach of a berg is heralded by a sudden and decided cooling of the atmosphere, which these experienced mariners soon perceive, and are warned by. But oftentimes a vessel will run into a nest of them, and may have to be towed to safety by her boats. A frequent cause of disaster is that, the submerged section of a berg being caught in the grip of a current, the mass moves steadily against wind and sea and crashes into the craft before she can escape.

The same circumstances cause the remarkable sight sometimes witnessed, of flocks driven one way by the wind, while bergs cut a wide swath through them in another direction, impelled by the currents. The lee of a berg is often a favorite shelter from storm, and Arctic steamers, northern whalers and Newfoundland sealers frequently adopt the novel expedient of anchoring to bergs which experience shows them to be surely balanced.

## MANY ARRESTS IN CHICAGO

Nearly 50,000 Persons Gathered In by Police During the Last Fiscal Year.

If every citizen of the United States is an American, and it is generally accepted that he is entitled to that classification—then there are a great many wicked Americans in the country.

Nearly 50,000 were arrested in Chicago last year. They all claimed to be Americans, and declared that they could give proof of native birth or papers of adoption. These self-styled Americans head the lists in the matter of arrests, without counting the negroes, who were represented in the police records by 6,485 of their brethren.

The "peaceable" Germans were next in line, which will be something of a surprise on the North side. There were 5,295 who acknowledged the viceroyalty, but who failed to keep the peace in this country. And then came the Irish, with 3,116 arrests to their credit—or discredit. The Italians had only 1,714 countrymen in the toils, being beaten by the Poles, who were represented by 3,903. The Bohemians had 992. The Swiss made the best record—because there are fewer of them, and, considering their number, the "heathen" Chinese are the best citizens. But 104 of them were arrested in Chicago during the last fiscal year.

## JAPS AND RUSSIANS DIFFER.

Followers of the Mikado Haunt Ship, But Czar's Men Lack Interest in Them.

Some Japanese naval officers were sent to England to watch the building of a Japanese ship there and bring her home. A Russian ship, according to Leslie's Magazine, had just been completed there. Russian officers had been stationed at the yard for months to study the construction of their ship. They were big, splendid, careless chaps and the time they devoted to the dock yard depended on their other engagements. They took some experts with them to show them the ropes when their ship sailed away.

Then came Kamimura and his fellow officers. For months they haunted the dock yard where their ship was on the ways. There came invitations aplenty, but these Japanese officers sent regrets. When the work was finished on their ship they took possession and no foreigner has been aboard of her since, except by invitation.

## A Center of Culture.

The drummer and the postmaster were talking together in the village store. The Chicago News records the dialogue between them.

"So this is getting to be quite a musical center, eh?" asked the drummer. "Yes, sir!" replied the postmaster. "Mrs. Wiggs has bought a phonograph. She Crawfoot has learned to play the mouth organ with his nose and I'm selling 'Jewharpe' like hot cakes."

Judge Cavalry, of the Harrison street police station, Chicago, who with his wife were guests at Waukazoo hotel last week, said that enough cannot be said in praise of the Macatawa Bay resorts, and that this would not be his last visit here. Charles Stahl, storekeeper at the Bridewell prison, was also a guest and expressed similar opinions. All of which goes to show that the resorts are appreciated by two Chicago gentlemen of good judgment.

Every summer the printers and cigarmakers go after each other for the amateur base ball championship and this summer is no exception. They met Saturday afternoon on the local grounds in a greuling seven-inning game and it was a peach—that is according to the estimation of the printers, for they won by a score of 10 to 9. It looked squally for the printers in the first inning as the cigarmakers rapped Batema's curves pretty lively and made seven runs. But that was about all there was to it as Batema settled down to business and the cigarmakers scored but two more. Miles was touched up lively by the printers who piled up their ten runs in hurricane style. Battery for printers, Wiersma and Batema; for cigarmakers, Miles and Nordhouse.

## Can you Work and are You a Friend of the Fair.

Can you work, will you work and are you a friend of the Holland Fair? If you can work and will work and feel friendly to this public enterprise, you are cordially invited to report at the fair grounds, next Thursday August 4, with hammer, or saw, scythe or rake, or any other implement or tool that can be used to put the buildings or the grounds in condition. The board of directors is going to hold an improvement bee for the purpose of engaging some of the buildings and getting everything in shape for the big fair next fall, and all public spirited citizens are invited to take part in the bee. Come to the grounds and bring a friend with you if you can next Thursday. The directors will be at the grounds at 8 o'clock a. m. to welcome you. Come then if possible, if not come a little later. Pork and beans and other luxuries will be served at dinner time under the direction of A. B. Bosman, president of the association. Respectfully inviting citizens of Holland and vicinity to come to the bee we remain

## NEW DEPARTURE!

One Month Free!

Dr. A. B. Spinney, of Detroit, also proprietor of Reed City Sanitarium, is coming to your town, where he will remain for one day only, to give the sick an opportunity to consult him that cannot see him at his Sanitarium. The Doctor has so much faith in the experience he has had in treating chronic diseases that he will give one month's treatment and medicine free. Also Free Surgical Operations to all those that are too poor to pay.

All that he asks in return is that every patient will state to their friends the results obtained by his treatment. All forms of chronic diseases and deformities successfully treated. No man in this state has had such extended experience in the treatment of CASARI, EYE, EAR, THROAT AND LUNG DISEASES as the Doctor. He graduated 7 years ago from Cleveland, Ohio; was 15 years in general practice; after that lectured as Professor of Anatomy and Physiology in Detroit Homeopathic Medical College for 3 years; was 3 years Superintendent of Alma and Ypsilanti Sanitariums. This experience, combined with many years' study in the best hospitals in the country, and examining and treating thousands of chronic cases, has prepared him to cure when the general practitioner fails. Have you been sick for years? Are you discouraged? Call and see us; we will tell you whether we can cure you or not. If we cannot cure you, we will tell you what relief we can give you.

Remember, one month will be absolutely free—medicine, surgical operations and the benefit of all our skill—to all who are too poor to pay. Our methods of treatment embrace all that is known by all the schools, with the aid of electricity, that most wonderful of all agents in Paralysis, Loss of Power, Rheumatism, and all diseases of the nervous system. Go early, so my office is always crowded.

N. B.—Cancers, Tumors, Blood and Skin Diseases cured by a new system. Pills cured in from 5 to 10 days without the knife. Female and private diseases of all forms treated successfully. Many patients that cannot be treated at home can be cured at our Sanitarium, which is in charge of the best of medical skill, under the Doctor's direction. Terms for board and treatment the lowest of any sanitarium or hospital in the United States.

Remember, we give a written guarantee to cure every case of FLEAS and MITE. Also, we have a lying-in hospital department in our Sanitarium. Send for Journal.

## Dr. Spinney will be at Holland, Hotel Holland, Monday, Aug. 1, from 1 to 9 p. m.

## Holland and Zeeland Again.

After a long cessation in the exchange of sporting courtesies, Holland and Zeeland renewed the athletic relationship on the Jenison Park diamond last Saturday afternoon when the All Stars, representing Holland, defeated the Zeeland team in a rather one-sided game by a score of 9 to 1.

Jake Van Putten, of Chicago, who was in the city to visit his parents, Mr. and Mrs. Jacob Van Putten, was in the box for Holland and pitched a splendid game, showing that his good left arm had lost none of its strength and cunning, but that it had gained in both instead. He had the Zeelanders at his mercy and at no stage of the game did they have a look-in. Raffenaud, the abbreviated phenom of the local sod treads, won the batting honors of the game, getting four hits in four times at bat. "Legs" VandenBerg caught a star game. He is developing rapidly and bids fair to outshine any other catcher ever graduated from the base ball ranks of this city. Fielding honors were lugged off by John VandenBerg who played short in spectacular style. The Zeelanders played a good, steady game, but failure to connect with Van Putten's benders dimmed their chances.

Neil Ball is batting around the 308 mark on the Cedar Rapids team of Three-I league and is leading all of the second basemen on fielding average. One day this week he saved the game with a home run.

Frank Smith, who last year pitched for the Holland base ball club, has resumed work for the Holland Gas Company, after several months in Washington, Ind., where he worked in Bascom Parker's gas plant.
