THE HOLLAND INTERURBAN RAISES ITS RATES

RATES TO MACATAWA ONE WAY ARE HIGHER THAN ROUND TRIP

New State Law Allows Electric Roads To Charge 2½ Cents a Mile

The Holland Interurban or in other words, the Michigan Railway is making preparations to advance its rates to 2½¢ a mile, beginning Aug. 14.

All during the war while the government raised its rates on the railroads to 3 cents a mile, and doubled up on freight rates it compelled all interurbans to charge only two cents a mile by ruling that interurbans did not come under federal control.

This being the case the regulations of interurban fares were governed by a state law allowing this kind of a road to charge only two cents per mile.

This rate would also apply to steam roads in the state, but Uncle Sam being more powerful than the State and owning the steamroads, dictated its own rates.

Along with the advances of wages, material and other things on the steam road, these also advanced on electric roads in the same proportion.

Uncle Sam made the necessary raises in freight and passenger rates to meet the increased running expenses of the roads, while the interurbans not having that power were compelled to struggle along on the two cent per mile rate and the old freight rate.

The legislature at Lansing however considered this unfair, and at its last session passed a law allowing the interurbans 2½¢ instead of two cents which is one half cent less than what the government charges on its roads.

The changes in rates on August 14 will be to conform with that law.

One peculiar part of this revision of rates is its charges to Macatawa Park.

Under the franchise the interurban is in duty bound to give a fifteen cent rate for a round trip ticket, to and from that resort.

Under the state law the road is privileged to charge 16 cents for one way.

When the schedule comes out it will be found that the rates will be charged just that way, namely 16c one way, 15 cents round trip.

This will bring no unnecessary hardships on Holland people or those living at the resort either as all absolutely have to buy a round trip ticket in order to come back home again.

The interurban officials have also provided the old rate for suburban residents out of Grand Rapids.

Many have purchased homes in the Grand Rapids suburbs because it was easily accessible by the interurban, and because of the reasonable rates of fare to and from their homes.

It is said that no charge will be made in these rates no doubt will be pleasing to the suburban residents.

The new schedule to go into effect in August is found below:

Holland to	O. W.	R. T.	Tax
Saugatuck	.41	.82	.07
Macatawa	.16	.15	
Zeeland	.15	.30

WATCH OUT GRANDVILLE!

According to several complaints received by the Michigan Tourist & Resort association from foreign and local tourists, Grandville is conducting a campaign against speeders and using little discrimination.

Such action, if continued, will result in Grandville being eliminated from the tourist routes, and the business being diverted toward Grand Haven," said George P. Sweet of the association.—G. R. News.

This would hit the Holland resorts badly should tourists be so short-sighted as to follow Mr. Sweet's advice. There are two ways out how, ever, go around Grandville or obey the law.

We doubt very much that tourists will change their plans and avoid a nice concrete road through a pretty little village three blocks long, because they are asked to slow down their motors to 20 miles an hour in going over those three blocks.

HIST, YE HOUSEWIFE, DO YOU FIND IT SO?

Just how hard this home shortage stuff is on housekeepers was told by Mrs. E. G. Kleener of Kalamazoo.

Mrs. Kleener says that every time she took down the front room curtains to clean 'em in rushed a score or more of homeseekers, who, seeing the uncurtained windows took it for granted that the house was for rent or for sale. The Kleener piano was moved once, and Mrs. Kleener says she had numerous offers for her home, it being understood that the moving van meant "for rent."

ALLEGAN TOO HAS GAS COMPANY GAS RATE CASE

GAS CO. ASKED THAT STATE COMMISSION FIX NEW RATE

Allegan Citizens Seem To Be In Favor of the New Rate

Allegan also has its gas case in fact the company sent a communication to the Common Council in which they ask them to join in having the new state utilities commission fix a rate that is fair to both. What the Allegan Gazette has to say about the matter follows:

"Last Monday evening a communication was received by the city council from the Allegan County Gas company asking that a resolution be adopted by which the city would join with the company in appearing before the public utilities commission for the purpose of having that body make a thorough investigation of the gas situation in this city. Plainwell and Otsego have each received similar requests so in response to an invitation from G. A. Abbott, city manager, a joint meeting of the three councils was held in Otsego last Tuesday evening to discuss the matter. Obviously the object of the company is to secure an increase in its rates. It is claimed the poor service rendered by the company is due to its not having funds with which to make necessary improvement and that the cost of operation has increased to such an extent that the company is losing money, all of which is no doubt true. The passage of the resolution would carry to the commission a virtual sanction of the council to raise the rates, and none of the aldermen wish to assume this responsibility. It was therefore decided at the Otsego meeting for none of the boards to adopt the resolution, but to hold the gas company to its franchise, which is the same in the three towns. If this situation continues it means eventually the gas company will become bankrupt and will have to suspend. Laying aside the technicalities of the law, and looking only at the justice involved, the rates should be made adequate to insure good service which the company should be made to give."

MORE COLORED BOYS TO PLAY HOLLAND INDEPENDENTS

SATURDAY WILL BE A BLINGER OF A GAME AT WATERWORKS PARK

A regular game of baseball is going to be staged at Water Works Park Saturday, when a second colored aggregation will cross bats with the Holland Independents.

The Jesse Elsters Colored Athletics are coming to Holland, advertised as the strongest negro baseball team in the state.

Go to Water Works Park Saturday at 3:15 to see a real base ball game.

OLD LADY WINS THE POTATO PEELING CONTEST

CENTRAL AVENUE CHURCH PICKNICS FIVE HUNDRED WEDNESDAY

Bender's beach was filled with members of the Central avenue church and Sunday school who were holding their annual picnic. At least 500 took ferry boats from Bender's dock in the morning and made a happy day of it at this popular resort.

The outing was in the form of an old fashioned basket picnic, each family furnishing its own eatables.

Before dinner a short song service was held and prayers were said. The usual sporting contests were pulled off. One unique contest was held by a score of old ladies, who were given a certain number of potatoes to pare.

Mrs. Bouwman was the most handy with the paring knife and won the prize.

A tug of war between the teachers and the Sunday school boys was won by the boys, who are wearing a broad smile today knowing that for once they got the best of their teachers.

Another contest that created a great deal of laughter, was a shoe pulling match, several boys and girls taking off their shoes and having them thoroughly mixed in a large box, were told to find their shoes in the heap, and the one who had his or her shoes properly laced first won the prize. There was quite a mixup in this contest, because in many cases, like the coons, all shoes looked alike to them.

This contest was won by Mrs. Schrottenboer.

The blind folding contest was won by Miss Gertrude Ten Brink, while Mr. Olert won the barrel rolling contest.

Bert Olert was master of ceremonies at the picnic.

PUBLIC AUCTION

CAPT. ZWEMER IS BADLY HURT ON RIVER AT GRAND HAVEN

CAPTAIN'S LEFT LEG CAUGHT BETWEEN TUG AND SCOW AND SEVERELY CRUSHED

Taken To Hospital; Extent of Injuries Were Not Definitely Determined Wednesday

Capt. Everitt Zwemer of Grand Haven, son of John Zwemer, River Avenue, this city, was severely injured on the river at shortly after-noon Wednesday, when his left leg was caught between the tug which he was sailing and the gravel scow, being brought down the river. The details of the accident were not available and only meagre information could be secured.

It was feared, however, that the injuries sustained might prove serious, and the tug was brought to a mooring at the Eagle-Ottawa Tanning Co's docks as soon as possible.

The tannery truck was secured and the injured man was brot down town with all possible haste to the Elizabeth Hatten Memorial hospital. Medical attention was secured at once, and treatment was administered with out delay. The extent of his injuries could not be obtained.

Capt. Zwemer retained consciousness all the time altho weak from the loss of blood from his injuries. He sent a message to his family not to be alarmed and that he would send them word as soon as the extent of his injury could be learned. At the last reports he was as comfortable as possible considering the ordeal through which he had passed.

Captain Zwemer is a well known marine man, having for a number of years sailed some of the big freighters on the Great Lakes. His last command was the steamer Manchester. He gave up that berth, however, to enter the gravel business, and is now interested in a company engaged in getting out and transporting gravel from the up-river beds. During the present summer he has been sailing his own tug most of the time, engaged in towing the big gravel scows down the river. It was while engaged in this work that he was injured on the craft yesterday. James Cantwell is engineer of the tug and immediately upon discovering the captain's plight, he directed all efforts in making a landing at the tannery.—G. H. Tribune

Henry P. Zwemer the coal dealer who is a brother to the injured man stated this morning that Mr. Zwemer had his leg crushed between the tug and a scow on the river that his leg was broken in two places.

BIG SUIT STARTED IN ALLEGAN COUNTY

INVOLVES \$14,000.00 IN MATERIAL USED ON WEST MICHIGAN PIKE

Five Different Law Firms Are Employed In Fighting the Case

In 1915 the Allen Construction Company of Chicago secured the building of a stretch of five miles of road on West Michigan Pike south of Douglas, Allegan county. The firm went bankrupt on the job and owed for material to the amount of \$14,000. The township officials were up against a bad deal and could do nothing better than to finish the road themselves, which they did. The material entering into the job was the stone purchased from the Producers Stone Company who were secured thru the Chicago Bonding Co. Payment for the stone was apparently not forthcoming and the Producers Stone Co. brought suit against the Allen Construction Co. and the Chicago Bonding Co. jointly for the amount due.

The suit has taken up the greater part of the week before Judge Cross in Allegan and in fact five different law firms are fighting the case, the local firm of Diekema, Kollen and TenCate being one of them. Scores of witnesses were sworn and expert road construction men and engineers were brought into the suit to give testimony.

The Chancery case comes to a close Wednesday and Judge Cross will render his decision later.

BOTER OPENS NEW SHOE STORE SATURAY

The P. S. Boter Co. will hold a grand opening in their new shoe department Saturday. The new building has been completed and the double store is so arranged that the one to the west will be utilized for clothing and the one to the east will be an exclusive shoe store, signs over the doors indicating the departments.

A new P. S. Boter Co. sign has been placed in the center of the two buildings and over each door smaller signs have been placed one indicating the shoe department and the other clothing.

It is the shoe department where the grand opening is to take place Saturday and to which all citizens of Holland and vicinity are invited.

JOHNSTON CHARGED WITH STEALING SOME LIQUOR

SAYS HE DIDN'T STEAL LIQUOR BUT WILL PLEAD GUILTY

Coopersville Man Says Prosecutor Can Have His Choice

If Harry Johnston of Coopersville, charged with stealing alcohol from the Nelson drug store in his home village, persists in his claim of defense, the affair may involve three persons instead of one. Johnston was arrested yesterday by Under Sheriff De Witt, and claims the fiery liquid was given him by the clerk. If he makes the story stick not only the clerk who gave the stuff away but the proprietor of the store, who is responsible for his acts may become involved according to the officers. Johnston will have his hearing Friday at Grand Haven.

Prosecutor Miles told this paper that Johnston had told him that he would plead guilty to being drunk or of stealing the liquor, the prosecutor could have his choice.

Said Johnston, "What is the use of getting the druggist in bad? I didn't steal it I bought it at the drug store and bought liquor there several times before, but I just as soon be the goat and stand the entire blame."

But Prosecutor Miles would not let him "stand for it," for he is now looking into the record of the Coopersville druggist.

COLDBATH HELD ON HEARING OF HABEAS CORPUS

FOUGHT EXTRADITION BEFORE LEAVING CHICAGO SOME TIME AGO

Moving Picture Contest Man Charged With Embezzlement Must Remain in Jail to Await Trial

Judge Orien S. Cross of the Ottawa Circuit Court has filed his findings in the case of J. H. Coldbath who is held for trial in the circuit court on the charge of embezzlement.

Coldbath some time ago, thru his attorneys, made an attempt for release thru habeas corpus proceedings which were heard by Judge Cross at an adjourned session of the circuit court. At the close of the hearing the court took the matter under advisement for a later decision.

In his decision filed with the county clerk today, Judge Cross finds that the prisoner, J. H. Coldbath, was legally imprisoned, and is remanded by order of the court into the custody of Sheriff Dornbos. This means that Coldbath must go on trial, possibly at the coming session of the court in August.

J. H. Coldbath came to Grand Haven to put on a popularity contest in connection with a moving picture theater. He made all preliminary arrangements, and is alleged to have received money from the candidates in the contest, which they had secured from the sale of tickets, which was part of the contest plans. Then, suddenly he left town. It is alleged, that he took the major portion of the funds he had collected with him.

Immediately the local authorities got a line on the fugitive contest manager, learning that he had driven to Holland in an automobile. At that point he boarded the Graham & Morton steamer for Chicago. Officers at Benton Harbor failed to intercept him, but he was arrested by the Chicago police as he landed from the boat in that city. He was held at the Cook county jail and the local officers notified that he would not return without extradition.

Undersheriff Lawrence De Witt went to Illinois armed with requisition papers signed by Governor Sleeper of Michigan. At Springfield Governor Lowden of Illinois honored the writ and the undersheriff went to Chicago for his man. Coldbath had retained attorneys who secured a release under a bond and who began habeas corpus proceedings. It was not without considerable trouble that the local officer secured his man and brought him back to Michigan after stating the case in a Chicago court.

Coldbath has been in the county jail since his return from Chicago, having been unable to secure the bail bond required in the local courts. He will now have to go to trial in circuit court, and it is understood he is preparing to put up a defense.

VICTIM OF SEAS AT MUSKEGON IS FOUND ON THE BEACH

The body of James Skinner was recovered from Lake Michigan yesterday by the U. S. coast patrols. Skinner was caught in an undertow while bathing in Lake Michigan Saturday at Lake Michigan park and drowned before the eyes of hundreds of bathers on the beach. Until the body was recovered identification could not be completed. Skinner was 29 years of age. His body was found halfway between the park pavilion and the coast guard station.

Hon. G. J. Diekema was in Grand Rapids on business yesterday.

MUSKEGON ICE MEN
BACK COAL WORKERS
WHILE CITY SIZZLES

Muskegon, July 30.—This city was practically iceless as the result of a sympathetic strike among the ice and coal men here. There is no ice to be secured in Muskegon except at the hospitals. Although the ice men who recently asked for higher wages received them, when the coal men put in their petition for increased pay it was refused. The ice men have shown no indications that they will return to work until the coal men are taken care of, but the ranks are being filled up from other sources and it is believed that the situation will be relieved soon.

ELMER EASTMAN
IS ARRESTED ON
SERIOUS CHARGE

That a mere child whose name is withheld for the present, was assaulted a few days ago by Elmer Eastman, is a charge placed against him and he was arrested at the Shoe factory picnic where he was playing the base drum in the Holland band. He was immediately taken to Grand Haven for trial. Eastman waived examination in Holland and will not doubt be tried at the August term of court. He was taken to Grand Haven immediately it is said, because the feeling of the father and friends of the girl is intense over the matter.

The story given by the little girl and her parents to Chief Van Ry and to Miss Nellie Churchford is as follows:

The mother of the little 10-year-old girl was away on a week's visit and the girl's duties during that time, were to take care of the meals and make the beds for the roomers. The father had already gone to work at the Aniline factory and at 6:30 o'clock in the morning the little miss went upstairs incident to making up the beds, one of which was occupied by Elmer Eastman.

The story continues that when the girl entered the Eastman room Eastman committed the assault. The details of the case will come out in the court proceedings when the trial takes place.

Eastman was taken before Justice Van Schelven and a \$1200 bail was imposed, which Eastman could not furnish. He is now in the county jail and will remain there until he meets the judge.

WEST STATE PICKLE
FARMERS FACE RICH
HARVEST THIS YEAR

Western Michigan farmers who have planted cucumbers will reap a rich harvest this year, according to reports made at the annual meeting of the managers of the H. J. Heinz salting stations which was held all day Thursday at the Association of Commerce in Grand Rapids.

Approximately 50 managers from this section of the state gathered Thursday to discuss plans for the pickling season which in many places has already begun, and immediately upon adjournment of the meeting left for their respective homes to begin operations.

Albert E. Atwood, district manager of the Heinz company, formerly local manager of the Holland plant, was in charge of the meeting, which was largely spent in discussion of business matters and for instruction of managers.

"First of the pickling cucumbers are already coming in," said Mr. Atwood, "and the men who have not already opened their stations will do so at once."

Speaking of the prospects for the crop in western Michigan, Mr. Atwood said that indications now point to one of the largest crops in years, and that prices are way up.

"We have salting stations all over the district," he said, "and we are paying war-time prices for everything that comes into the stations."

The Heinz factory in Grand Rapids was discontinued some time ago and Mr. Atwood stated there is every little likelihood of its being opened this year despite the prospects for an exceptionally prosperous season. But the stations at Holland, Zeeland, West Olive, Hudsonville and many other places in Western Michigan will be in full swing soon.

ED VAUPELL SELLS
HARNESS SHOP TO
GERRIT SPRIETSMAN

Ed Vaupell who for the past 25 years conducted a harness shop on West Eighth street has sold the building and business to Gerrit Sprietsma. The consideration is said being \$17,000.

Mr. Sprietsma will sell out the stock of trunks, traveling bags and harness and will then put in an up-to-date hardware stock. Mr. Sprietsma was formerly one of the proprietors of the Van Dyke & Sprietsma hardware firm, but retiring from the firm he entered the same business in Hamilton. A year ago he burned out at that place and has been casting around for a suitable location in this city since he moved to Holland. Ed Vaupell has been in the harness business for the past forty years as was his father before him. Only when he was elected sheriff of Ottawa county did he for a time forsake the business.

Mr. and Mrs. C. J. Dregman of Decatur, Ind., motored to this city and are the guests of friends. Mr. Dregman was formerly connected with the Holland Business College, but is now with the Holland-St. Louis Sugar Co. at Decatur.

THE BIGGEST
THING YET
FOR HOLLAND

Holland has a right to congratulate itself today because within the last six months an industrial awakening has taken place such as has not been seen here in a decade. In fact it is doubtful if ever such a spirit of optimism has prevailed as is dominant in this city today. This paper has sprung many surprises and has passed the optimism bottle repeatedly and there are still more surprise packages to be opened at a future date. But today we give you the banner surprise of all relating, as it does, to a new deal contemplated by one of Holland's business institutions that will place it far and away in the forefront.

The plans as these are going to be worked out will make the De Pree Chemical Co. one of the largest if not the most gigantic business enterprise in this city and will assure it to Holland as a permanent commercial institution.

The story may look like a pipe dream to some of the Holland pessimists but the dream will be a reality within the next five or six years, and a part of the reality starts immediately and a very substantial part will be realized by January 1920.

To begin from the beginning, the De Pree Chemical Co. has been making such rapid strides in the business world and there has been such great demands for their respective lines of goods, that it has been necessary, as we all know, to build building upon building on the present site and addition upon addition to the present plant. One large building is now nearly complete and the firm finds that still more room is needed.

The firm tried to acquire more land in the immediate neighborhood but did not succeed for reasons best known to themselves.

Con De Pree, manager of the company, was at his wits' ends trying to devise some way to meet the exigency. Outside cities had gotten wind of affairs as they stood and offered the company flattering inducements to move. But Mr. De Pree, Mr. Diekema and a few others of the larger stockholders would not hear of such a thing. Their hearts are with Holland and no inducements of any kind from elsewhere could or would make them decide against this city.

Their casting about for more room brought the idea of buying and utilizing the ten acre strip of land on the lake front known as the C. L. King property. This is the site formerly occupied by the C. L. King Basket factory and is bounded on the south by Twelfth street and on the east by Van Raalte avenue and on the north and west by Black lake. It also includes a point of land extending into the bay known by the old swimmers for years as "Steep Point."

A deal has just been closed whereby the De Pree Chemical Co. become owners of this land which is the first step toward a mercantile development that will be tremendous and far reaching in its scope.

The second step will come next spring when the general offices of this company, now in Chicago, will be moved to Holland and a suitable building will be required to house this department.

The plan is to build the new plant in units until finally all the units will be evolutionized into one large chemical plant erected on the beautiful site selected for that purpose. The first building that is to be built will be a central heating plant. This structure will be built commensurate to all future needs. Directly following the completion of this plant beautiful general offices will be erected and these two structures or units will be followed by other units, for printing, laboratory work, bottling, boxing, in fact all departments that will complete the most modern, up to the minute chemical plant in the United States.

Conditions under which employees work at the De Pree Chemical Co. have always been ideal, but the plans that the company has mapped out are wonderful. The grounds surrounding the plant are to be converted into a veritable park. A swimming pool will be constructed on the point extending into Black lake and a beautiful green will extend down the slope to the water's edge.

Suitable and convenient places will be made to park autos and convenient standards for wheels will be built to care for the bicycles of the many employees and where these will be out of the scorching sun or under shelter when it rains.

Separate lounging rooms for the ladies and gentlemen and a gymnasium for all the employees, are also part of the building plans, with

reading rooms and a library not being forgotten.

The reconstruction period of the DePree Chemical Co. will cover a space of between five and six years, but all the time the erecting of buildings and beautifying of grounds will be going on until finally the so-called industrial dream will be realized.

Our readers must also bear in mind that the entire plant will be constructed in such proportions that the rapidly growing business can be easily handled for years to come, and considering that the present plant that had its inception only a dozen years ago in a small room over the John Vaupell Drug store (at that time the Con De Pree Drug store) and has since developed into the large business institution on Central avenue where the firm is already cramped for room, we can realize that the new building plans are going to be stupendous.

The moving of the general offices from Chicago next spring will also mean an added pay roll for Holland of \$60,000 annually and besides it will bring to this city a class of men that will help make Holland a greater Holland. Men of broad vision, not fault-finders, but hustlers. It will bring men like Jim De Pree, Willis Diekema and former Principal Gilbert, Niel Vander Meulen and scores of other citizens of that calibre, to this city, who will cast their lot with us and will think in terms of Holland instead of Chicago. With this new life added to the live ones we already have here, the prospect for Holland's future development is an assured fact.

BABY CREEPS OVER
RAILROAD TRACK
TO MEET "DAD"

An unusually sad accident happened at Pullman, south of Holland when Earl, the 20 months' old son of Mr. and Mrs. Wilsie Osman crawled across the P. M. railway to go to its father, who was working west of the railroad, was run down by a freight train. The father noticed the child coming just in time to get to it and push it partially clear, but the little fellow's arm was caught and crushed so that Drs. Chadwick and Goodrich amputated it just above the elbow.

It was indeed a miracle that both the child as well as the father were not killed, as the engine grazed parent and child as he caught the child and pushed it aside. While there is yet fears that accident may prove fatal, we are pleased to say the doctors have hopes that they may save the little one's life as it is much better now.

Miss Cornelia Nettinga of Holland was the guest (this week of Miss Dorothy Mulder at Spring Lake. Miss Marie Zwemer of Holland also spent Sunday with the Misses Mulder also of Spring Lake.—G. H. Tribune.

The light of an airplane was seen over the city Thursday night, and its exhaust was plainly heard by scores of citizens. The plane circled about the city two or three times, then went west toward Lake Michigan.

EBENEZER WILL
HONOR THEIR
SERVICE MEN

Nearly half of the soldiers of Ebenezer, a community about two miles east of Holland, succeeded in reaching France and nearly a fourth of the representatives of that community were wounded in action. But in spite of that, not a single one from the community lost his life in the war, either in action or through disease, altho one had a hole shot clear through him and another was seriously gassed.

To show their gratitude for these facts and to welcome the soldiers back home, the church of Ebenezer will hold a welcome home meeting on Thursday night of this week at 7:30 o'clock. All the soldiers represented on the service flag of that church have now returned home and all are expected to be present to take part in the celebration.

There were nine boys from Ebenezer in the service. Four of these saw service abroad while five remained in military camps in this country where most of them were about ready for the crossing when the armistice put an end to the world war.

The four men who went abroad were: Arthur Schaap, Henry C. Boeve, John Brinkman and Edward Mulder. Of these Arthur Schaap was wounded in action, being shot thru the breast, and Henry Boeve was gassed.

The five boys who remained in camp were Clarence Dykhuis, Adrian Veele, James Bor, Herman Brummel and Henry Pas.

At the meeting Thursday evening,

Rev. John A. Roggen, of Monroe, South Dakota, will be one of the speakers. The pastor of the church Rev. Strabbing, will also be on the program. Talks will be given by the boys and refreshments will be served. The service men will demobilize the service flag that has been hanging in the church during the war.

HOLLAND SHOE COMPANY PICNIC HUGE SUCCESS

Thursday, July 24th, was a day long to be remembered by the employees of the Holland Shoe Co. who journeyed to Jensen Park, with their families and sweethearts, for their annual picnic. As usual the weather man again furnished just the right kind of weather for an event of this nature, and the entire program was pulled off exactly as scheduled.

Duganio and his band furnished the music which was appreciated by all and there was not a dull moment from the time that the umpire called play ball at 9 a. m. until the last strains of Home Sweet Home were played by the orchestra at 10:15 p. m. It would be difficult to feature any particular event as they were all good and hotly contested; but it is certain that the little kiddies thoroughly enjoyed the fish pond, where 150 prize fish were hooked up.

We must not forget the refreshments, ice cream, lemonade, coffee, peanuts and Crackerjack were furnished in abundance so that neither young nor old should want for any of these delicacies. Below is the program of sports and prize winners:

Indoor Baseball Games, 5 Innings

PRICE OF MILK WAS RAISED IN HOLLAND

Again Holland must face a raise in the price of milk. This time the reason is said to be the constant dry weather.

Beginning Monday morning your quart bottle of milk left on the back porch costs you twelve cents instead of ten.

This makes one wish for the old days when milk was selling in Holland at five cents the quart, half of which was cream. But these are only memories of long ago, for Monday you will have to pay 12 cents per quart for milk, and if you want a pint of real, honest to goodness cream it will cost you double that amount. The milk dealers in Holland have gotten together and have sent out the edict that the raise is imperative and they must have the money.

They say that the farmers have raised the price of milk to them and they must get it out of the consumer. They state that the constant dry weather has killed all the pasture land in this vicinity, and the cattle are being fed in the fields with expensive fodder because these cannot find sufficient food in the sun-burnt pastures.

What Holland would like to know is, "Will milk go back to its former price when the pastures become green again, or will the raise remain until another dry spell comes, necessitating a further raise?"

CLARENCE ZWEMER GETS MARRIED AT GRAND RAPIDS

Clarence Zwemer is home with a new bride. Clarence went to Grand Rapids, got out a license and has gone and done it. He married a fine young lady by the name of Theresa Kudrelski, who lives in Grand Rapids.

Rev. Wishart performed the ceremonies at Hotel Browning Monday in the presence of a few relatives and friends. Clarence, who was formerly a pharmacist at the Model Drug store will leave for Fort Worth Texas and after receiving his discharge will represent the Kelley Shirt Co. of Grand Rapids at that place. They will make their future home in Texas.

J. A. VANDER VEEN SELLS HIS HARD WARE STORE

J. A. Vander Veen, has again sold his hardware store at the corner of River avenue and Eighth street, to Arend Siersma, the former proprietor and Dick Van Tatenhoven, a former salesman of the Holland Furnace Co.

The hardware store will be known as the "Corner Hardware" in the future, the new firm contemplating making many new improvements, and will carry a full line of hardware and builders' supplies, carried in the stores of that kind generally.

Arend Siersma was for a time connected as salesman, with the John Nies hardware store, and later purchased an interest in the Vander Veen store. Mr. Van Tatenhoven, who has been salesman for the Holland Furnace Co. at Kalamazoo and Ottawa Ill., prior to that time was for five years with the J. A. Vander Veen hardware, and consequently has a thorough knowledge of the business. The firm started business Saturday morning.

FIREMEN BANQUET RETURNING SOLDIERS

It is seldom that doves of peace and polar bears make a happy combination, but these two held sway at the firemen's banquet Thursday night at Engine House No. 2.

Big stucco polar bears and a big dove of peace, flags and bunting constituted the decorations of the banquet hall.

The occasion was the home-coming of Jack Knoll, a polar bear, and James Cook who has just returned from France.

The police board was present and each in turn made a speech appropriate to the occasion.

Chief Blom and Chief Van Ry both gave impromptu talks and several of the fire laddies chimed in with their well-wishes.

Jack Knoll of Engine House No. 2, told of his experiences in the frozen Russia wastes, and the trials that the Holland boys went thru, fighting the Bolsheviks around Archangel.

James Cook gave a good description of fighting in France.

A spread with Mrs. Burns as the caterer was complete in every detail. Everything from soup to nuts was on the bill-of-fare, even olives and bevo not being forgotten.

Bert Vanden Water was toastmaster at the banquet.

Father Wyckoff was in Muskegon on business Friday.

NEW COMPANY IS ORGANIZED IN HOLLAND

A new manufacturing company has come out of the war to Holland. The company has already begun manufacturing its product, and as time goes on, the members of the firm hope to develop their product and extend its use.

The name of the new company is "The Had-Leen Company." Operations have been begun on a small scale in the rooms over the Woolworth store by Mayo Hadden and Dr. A. Leenhouts, the first syllables of the names of these two men forming the hyphenated name of the firm.

The Had-Leen Company will manufacture the "Had-Leen Dichloramine-T Vaporizer." It is an amber, all-glass vaporizer, which is looked upon by many who have examined and used it as a new step in the treatment of respiratory diseases.

And this is how the war has something to do with the new company.

During the war an antiseptic of exceptionally high germicidal power was developed which is known as "Dichloramine-T." But it was hard to apply this by ordinary methods. Hence its value was limited. What the members of the new firm have done is to design a vaporizer that will make the germicidal power of the new antiseptic available for a large number of respiratory diseases that hitherto could not be reached by it for the simple reason that the antiseptic could not be brought to the seat of the infection.

Because of its non-irritating nature, Dichloramine-T vapor offers an effective treatment for infections of the upper respiratory tract, nasal passages, sinuses, pharynx, and larynx. A certain proportion of these cases must of necessity be treated surgically, but by far the larger percentage belong to the class that needs such treatment as will most quickly and effectively stop the infection.

The remedies used, heretofore, have affected a benefit only in so far as they were used in the form of a cleansing douche. Their antiseptic value was practically nil. Dichloramine-T vapor is a remedy that has a definite and positive germicidal action, depending on the chlorine element which is slowly but persistently liberated when in contact with moist tissues.

As a curative measure, when properly applied its effects have been quite uniformly satisfactory and as a prophylactic, results have been brilliant.

A vapor treatment is far superior to a spray. In the nostrils, the spray only strikes the vestibule and anterior turbinates, while for the throat, the spray rarely reaches farther than the roof of the mouth, by reason of the raising of the tongue. The vapor on the other hand, is inhaled and reaches the deeper recesses where the infection is the most prevalent. This is true for the nose, pharynx, and larynx. Even the trachea and bronchi are amenable to vapor treatment.

Dichloramine-T in an oily solution is a fairly stable product, but cannot be exposed to daylight, nor come into contact with metal or organic substances. For that reason the purpose of the Had-Leen Company has been to perfect an amber all glass vaporizer that will meet the physical requirements of the product, and at the same time be convenient, efficient and economical.

PLUMBERS HOLD BANQUET FOR RETURNED SOLDIERS

The Holland plumbers Monday evening welcomed two of their members back to the homeland after they had spent many months abroad in the service of their country. The welcome was in the shape of a rabbit dinner held at Hoffman's Cafeteria and the men who were honored by the plumbers were Jack Knoll of the Yonker Heating & Plumbing Co. a recently returned Polar Bear, and John Steketee, son of former Alderman Dick Steketee, recently returned from France.

The rabbits for the dinner were furnished by George Van Landegend. The banquet was a most enjoyable one. The two returned soldiers told of their experiences in the army and all those present showed they were glad to have the boys back with them.

Muskegon was awarded the 1920 convention of the Michigan branch of the National Association of Stationary Engineers at the closing session of the state gathering held at Grand Rapids Friday.

You speeders look out for Grandville. Friday \$20 in fines were exacted from motorists for going too fast through that little burg. No Holland folks this time.

SEEDS SENT TO RUSSIA ARE DOING WELL

Just now a farmer in northern Russia is raising a good many crops on his farm near Archangel, the seed for which was sent him by J. & H. DeJongh. Leonard De Pree, former employee of the De Jongh company, has just returned to his home in this city, and he reported today to his former employers that the seeds they had sent were growing splendidly and that, if conditions were favorable, the harvest from them would be a good one.

Last winter when De Pree was in Russia he got into touch with a Russian farmer, whose brother had been in America and had become acquainted with American ways of farming. The Russian farmer as a result had formed the ambition of growing a number of things that are common in America but that are practically unknown in Russia. He did not know how to go about securing the seeds however.

Mr. De Pree immediately got into touch with the local merchants and they sent a consignment of seeds, including all the different kinds that the Russian farmer wanted to try out on his farm. Under Mr. De Pree's direction the seeds were put into the ground this spring and when he left Russia on the 27th of June the crops were doing well.

"There is no reason why they should not raise many of the things there that are common here but have never heard of in that section," said Mr. De Pree today. "They did not have a hard frost there last year until late in November, and I believe they could even raise corn in that region, altho the people there don't know what corn is. I expect that the crops from the seeds sent to this farmer will be successful, at least I can't see why they should not be. The soil is very fertile and there should be a good thing in farming there."

De Pree arrived in Archangel last September, and he landed in New York on July 17, so that he has seen the worst part of the Russian winter, but he believes that that winter is not fatal to successful agriculture.

PATTERN ROOM IS DESTROYED BY FLAMES

Holland had a ten thousand dollar fire Saturday noon, when the pattern room of the Western Machine Tool Works burned down, destroying a large amount of valuable patterns from which the machines turned out by that factory are made. While it is difficult to estimate the exact value of the loss because of the fact that prices in pattern making have changed greatly during the past year or two, it is estimated that the building and patterns could not possibly be replaced for less than \$10,000.

The origin of the fire is unknown. During the noon hour Joseph Warner, the artist who lives near the factory, saw a small blaze and he hurried over to employees of the place working in another department. When these men arrived at the fire, the blaze had already spread so far that it was impossible to put it out by ordinary means. An alarm was immediately turned in but before the fire department could arrive on the scene the fire had spread so far that it was possible to do very little.

The building was separate from the main building of the factory and it was a complete loss. It was of steel and wood construction and the steel structure collapsed when the wood had been eaten out by the fire. All that was left of the building, which was 36x30 feet in size was a mass of ruins. The building was erected six years ago. It was used almost exclusively for the storing of patterns and was almost filled with them at the time of the fire. Fortunately some of the firm's patterns are scattered about in foundries where castings are being made, otherwise the output of the firm might have been seriously interfered with.

The building will be rebuilt and the firm immediately took steps to have the patterns replaced from blue prints.

FAREWELL MEETING HELD IN CARNEGIE GYMNASIUM HALL

Although a number of Holland's pastors took part in the union services held in Carnegie Hall Sunday evening, the main speaker of the evening was Dr. S. M. Zwemer of Cairo, Egypt, who delivered an address on "The Most Baffling Missionary Problem." Between 1100 and 1200 people gathered in the building to attend the service, most of the churches in Holland being represented. The collection amounted to \$139.48. The expenses of the meet-

Besides Dr. Zwemer, those who took part in the meeting were Rev. Reugh, returned missionary, Dr. E. J. Blekkink and Rev. P. P. Cheff. The Harmony Chorus sang two selections.

Dr. Zwemer declared that the Mohammedan problem was the most baffling missionary problem and made an appeal for a campaign for meeting that problem that would be more adequate than anything that has so far been attempted.

CARPENTERS AND CONTRACTORS HAVE A PICNIC

At least two hundred carpenters and contractors went for an outing at Tennessee Beach Thursday. Decorated automobiles and auto trucks, laden with passengers and well-filled baskets left for the woods and bathing beach early in order to make the most of the day. Cigars, lemonade and oranges were an additional treat and were passed liberally all during the day.

There were many sport contests that had prizes attached, and many of the picnickers are today boasting and showing their winnings to their friends.

Several merchants donated liberally and the carpenters and contractors wish to thank these people for their liberal donations.

Delicate Mechanism

Despite its scope Swift & Company is a business of infinite details, requiring infinite attention.

Experienced men must know livestock buying with a knowledge of weight, price, the amount and quality of meat the live animals will yield.

Each manufacturing operation must be done with expert skill and scientific precision. A highly perishable product must be handled with speed and care to avoid loss.

Chemists, engineers, accountants, and other specialists are required to take care of our intricate problems.

Alert wisdom and judgment must be used in getting stocks of goods into the open channels of demand through our four hundred branch houses. Branch house organizations must show activity and energy to sell at the market in the face of acute competition from other large packers, and hundreds of small ones.

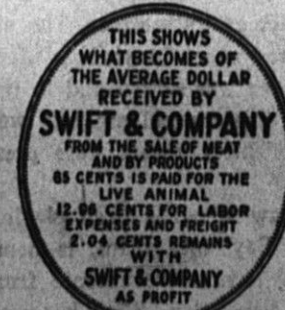

All these requirements of intelligence, loyalty, devotion to the task, are met in the personnel of Swift & Company. Yet the profit is only a fraction of a cent per pound with costs at minimum.

How can the workings of this delicate human mechanism be improved upon?

Do you believe that Government direction would add to our efficiency or improve the service rendered the producer and consumer?

Let us send you a Swift "Dollar". It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.

All around Holland rain fell. In Grand Haven and West Olive there was a downpour of two hours. South and east of Holland an abundance of rain fell, but Holland only got a little "side swipe" by a rain cloud or two and the weather man let it go at that.

Sunday fire broke out in the Groeters home on 1st street, west of River avenue. A young man had been smoking a cigarette in bed and the bed clothing caught fire. Damage \$75 with no insurance. Both companies responded quickly.

Holland had some illustrious visitors at the base ball game Saturday. Former Senator Wm. Alden Smith, U. of M. Regent Ben Hanchett, Capt. Wm. Alden Smith, Jr., George Getz and Hon. G. J. Diekema were all in the bleachers "hollering their heads off" for the Holland team.

Mrs. Gertrude Swierenga, aged 76 died Sunday at her home at 496 Harrison avenue. The deceased is survived by nine children. The funeral was held Wednesday afternoon at 2 o'clock from the home, Rev. J. P. Battema, officiating.

Former Mayor Edward Jerome Harrington celebrated his 87th birthday anniversary with a family reunion here Wednesday. Three of his ten children are living and Mrs. Harrington died several years ago. Mr. Harrington came here with Dr. A. C. Van Raalte in 1847.

The first cucumbers were received this week at the salting works in this city. They are as yet few and rather inferior because of the long drought. The crop is certain to be a very small one, the heat and dryness having damaged or stunted the vines.—Allegan Gazette.

S. A. Morrison, a former old settler of Douglas, states in an old file copy of Saugatuck Commercial of '71, that when he settled in Saugatuck in 1837 the Indians had several peach orchards, and that he now has one of their trees which is over 40 years old, and it has never failed annually to bear. Mr. Morrison and the peach tree have long since died but the fact that Indians were the first peach raisers in the Peach Belt may be of interest to our readers.

Mrs. John L. Day and Mrs. Parry of New Richmond made a trip to Holland by boat up Kalamazoo river thence to Saugatuck, taking the interurban to Holland, returning by Pere Marquette in the evening. A sort of tri-angle as it were, all in one day.

Reports of food rotting on railroad sidings at present prices is proof again that when it comes to taking care of themselves the squirrels can show up the human race.—Detroit Free Press. But the squirrels have no government ownership of the trees or nuts which may be a possible reason.

The Yonker Plumbing & Heating company of Holland, has the plumbing contract on the Paul J. Steketee cottage under construction at Black Lake. A large septic tank is being installed to overcome high water troubles from the lake. Architects Benjamin & Weemsoff made the plans and are supervising the work.

Ralph Miles of Kalamazoo became so engrossed in fishing on Swan lake in Allegan county Saturday that he forgot to count, and along came Deputy Game Warden Agan and found him with 53 bluegills. Miles did not deny the charge when arrested and was arraigned before Justice Brady of Allegan, in consequence of which he parted with \$9.35, the amount of the fine and costs.

Evlyn Dekker, ten year old daughter of Henry Dekker, mail carrier, nearly lost her life as a result of mosquito bites. The little girl had scratched mosquito bites on her legs and as a result blood poisoning set in. Both legs of the child became swollen up to her hips and twice the physician attending her announced that she would die, her fever running from 103 to 105. Finally however a turn came for the better and the little girl is now out of danger.

It seemed that all the circuses in the country had moved out this year, not a sign of one up to this time. But Grand Rapids is to have the Sells-Floto Show on August 9. Increase in the city license fee has kept several circuses out of Grand Rapids, including the big combined Barnum-Bailey and Ringling shows which played in Michigan but cut Grand Rapids from their list. The Sells-Floto shows will not enter Grand Rapids proper, using the vacant land adjoining Ramona Athletic field at Reed's lake for a show ground. Nothing has been booked in Holland for the past three years.

THINKS S. A. T. C. MEN MAY WEAR SERVICE BUTTONS

Only about 35 ex-service men have so far called at the recruiting station over the Model Drug store to receive blanks for service buttons. Since there are several hundred men in and around Holland eligible to receive either bronze or silver buttons, the number that have applied is as yet small compared with the total.

Corp. Downs has sent in the applications for those that have applied and he will soon be able to announce the receipt of the buttons to the local boys. But all others who have not yet applied are encouraged to do so. Corp. Downs will also take care of applications from the soldiers of Zeeland and the country surrounding that city.

There has been some question as to whether or not the S. A. T. C. boys would be eligible to wear the buttons. Corp. Downs, while not definitely ruling in the matter, declared that it was his opinion that the boys in that division would receive them. He said his orders were to send up applications for all enlisted men who have been honorably discharged. The S. A. T. C. boys, in his opinion, are enlisted men. During their period of service they were subject to call at any time in the same day as the boys in the military camp.

Corp. Downs has accepted the applications for buttons of one or two S. A. T. C. boys and has sent them up to headquarters. He will continue to accept applications from all others who apply. In a few days when the buttons arrive he will know definitely about the status of the S. A. T. C. men. In the meantime it is expected that many other of the local college men will apply.

Interest in the recruiting station is growing daily. A considerable number of young men have called at the office of Corp. Downs and have made inquiries about opportunities in the service.

Here is one Holland boy who proved his mettle in the test of steel and fire on the battlefields of France.

Corp. Henry G. Griffin, an employee of the De Pree Chemical Co. has been awarded the Croix de Guerre for leaving his trench to aid wounded lying on open terrain and exposed to machine gun and artillery fire.

WILL SERVE

CHURCH IN ENGLEWOOD

After eight years and three months in Holland as pastor of the 9th St. Christian Reformed church Rev. E. J. Tuuk will leave about the latter part of August to become the pastor of the Second Christian Reformed church of Englewood, Chicago.

Rev. Tuuk made the announcement of his acceptance of the call extended to him by the Englewood congregation to the people of the local church on Sunday. The Englewood church is a congregation of about 90 families.

During Rev. Tuuk's stay in Holland the Ninth Street Christian Reformed church has passed through many changes. When he came to Holland eight years ago two Dutch services were held every Sunday and a third Dutch service was held every other Sunday evening. Moreover all the catechetical classes, Sunday School classes, young peoples' meetings, and so on were conducted in the Dutch language. Today all these auxiliary meetings are conducted in English, and all the church services with the exception of the afternoon service, are in English.

This change has been brought about by slow development. During Mr. Tuuk's second year here he succeeded in having the evening services on every other Sunday changed to English. The following year an English evening service every Sunday was introduced. Later English was introduced at the morning service every other Sunday, and then every Sunday, so that now Dutch remains the language at only one service.

Mr. Tuuk came to Holland from Oostburg, Wis., which was his first charge after his entry into the ministry. When he leaves here the latter part of August he will have served the local church for eight years and three months.

The departure of Mr. Tuuk will make vacancies in the first churches of both the Christian Reformed and the Reformed denominations.

THIS SUMMER

IS SEASON OF CONVENTIONS

Perhaps never before in the history of Holland have there been so many conventions in and about the city as this summer. The convention season opened this spring long before the regular resort season opened, when the automotive engineers came to Ottawa Beach to spend a week there, and the convention season will not close until after the regular season has ended, when the Michigan State Library Association will hold its convention at Macatawa Park.

Preparations are now in progress for the meeting of the Library Association. It will be on a much smaller scale than the convention of the engineers, so far as numbers are concerned, but the convention will be a very desirable one. Although the convention is at Macatawa, the Holland City Library will look upon it as a part of its function to play host to the visitors in some measure and steps are being taken to make arrangements so that visitors will be made to feel welcome to Holland and the resorts.

This is the first time in the history of this city that the Michigan Library association has honored this section with its annual convention. Detroit and Grand Rapids have been hosts to the association before this, and so have many of the other larger cities of the state. Holland hopes to make things so pleasant for the members this year that they will want to come again in the years to come.

Although Holland has no library building of its own, the city hall will probably be placed at the disposal of the convention when the meetings take place in September, in case the association wishes to make use of it for any reason.

Miss Ruth Stratton of near Richland, Michigan, is spending a few weeks with her grandparents, Mr. and Mrs. D. M. Shaw and other friends.

TWO DAY CONFERENCE OPENED WEDNESDAY IN HOLLAND

The Regional Conference of the Home Service Department of the Red Cross opened its two days' session in the Red Cross rooms in the City hall yesterday. The Conference will continue tomorrow, closing with a public meeting Thursday evening in the Woman's Literary Club rooms.

Altho the meetings of yesterday and today are in the Red Cross rooms of the city hall, this does not mean that the public is not invited. All the meetings are open to all people.

In fact those in charge of the conference are urging the general public of Holland to attend the gatherings. All meetings are free and the conference is in no way for the purpose of collecting funds. The sole purpose is to disseminate information about the Home Service work, and the more people attend the sessions the better that information will spread and the more Holland as a community will gain by the service.

The sessions in the city hall today will be from 10 to 12 in the forenoon and from 2 to 5 in the afternoon. The evening meeting, at which Dr. Gallin of Chicago and Mr. G. J. Diekema of Holland will give addresses and at which the Red Cross pageant, "The Spirit of the Red Cross" will be given, will begin at 8 o'clock. There will be no charge of admission and the public is cordially invited to attend.

Ottawa county is now maintaining two Home Service secretaries, one in Holland and one in Grand Haven, and for that reason the conference is of vital importance to the people of this community. As yet much of the work of the Home Service department is connected with returned soldiers, but as time goes on it will merge largely into social service work, for which there will always be a wide field.

UNITED DOCTORS' SPECIALIST

Brings the Knowledge of their Organization and Experience in Their Successful Treatment of

THOUSANDS OF CASES.

Offers Services Free of Charge

The United Doctors is an organization of reputable, licensed physicians. They are all specialists in the treatment of certain diseases. They treat without surgical operations diseases of all internal organs, stomach, intestines, constipation, piles, liver, spleen, heart, nerves, skin, rheumatism, sciatica, goitre, tapeworm, leg ulcers and all long standing, deep-seated diseases. Many years experience. The complete record of thousands of cases successfully treated prove that their methods are right. They were among the first to earn the name,

"BLOODLESS SURGEONS"

Each staff member has at his command the knowledge and resources of the organization. Many people suffer from diseases that can be alleviated just because they cannot afford to go to high priced specialists and hospitals at a long distance from their home. No community has a sufficient number suffering from these diseases to support special hospitals for their treatment and cure. The United Doctors have solved the problem. Their highly trained Specialists go to each community and will advise a proper course of treatment for the sufferers and instruct them how to take care of themselves at home. No matter what you have been told or the experience you have had with other physicians, consult him on this visit. It costs nothing. If your case is incurable he will give you advice as may stay and relieve the disease. Married ladies must come with their husbands and minors with their parents or guardians.

CLOTHING MER- CHANTS MOVE TO NEW LOCATION

Vander Linde & Visser moved the stock of their clothing store Monday evening from 4 West 8th St. to their new location at 50 E. 8th St. The new location, formerly occupied by the Belt Barber shop, has been newly decorated, and in a few days the clothing men will have the place in shape for business.

The Belt barber shop has been removed to the basement of Hotel Holland. The store vacated Monday night by Vander Linde & Visser will be made part of the Hoffman Cafeteria. It will be redecorated and arranged for a modern, well-equipped cafeteria. The eating house will then have an entrance at both Central avenue and Eighth street.

SHOWS WHAT HOLLAND WOULD BE UP AGAINST

Thank goodness Holland is going to have a new turbine in a short time in order to show what Holland might be up against, should our present generator go out of commission for some reason or other, we print below a clipping from the Allegan Gazette showing how Allegan is faring on the proposition. Their generator has been out of use and in the repair shop for at least a month. Allegan could fall back on the Consumers' Power Co. but Holland not having power of this sort near, must depend upon its own resources and would be left without power to run a large share of its factories.

Says the Allegan Gazette: The armature belonging to the water-works and light genator reached Allegan last Tuesday after having been repairs and as soon as a representative of the manufacturers get here the machine will be put into operation. There continues a great deal of just complaint from the residents of the hill districts who have not been able to get sufficient water at times for drinking purposes. Since the accident to the city's machinery the power for the new pumps has been taken from the Consumers lines through a small transformer which was not of sufficient capacity

to carry current to both motors, so it has been necessary to keep one pump inactive. With the city's machinery in operation it does not seem there should be any good excuse for not furnishing all the water ordinarily needed.

FREIGHT WRECK AT E. SAUGATUCK BLOCKS TRAFFIC

A very serious freight wreck but one in which no lives were lost and in which no one was injured took place Tuesday evening on the main line of the Pere Marquette near East Saugatuck. Twelve freight cars went off the track and were piled one on another in a confused mass. The exact cause of the wreck seems to be in doubt, but when one freight car left the rails, eleven others followed and the track was so hopelessly cluttered with cars and their cargoes that it took until Wednesday afternoon to completely clear the way for passenger trains.

The cars were loaded with various cargoes of freight, some of them with coal, some with flour and there were even some automobiles in the smashup. The coal, flour and other material was mixed in a hopeless pile and the work of unscrambling the different kinds of freight and getting them out of the way was a hard job.

The chief inconvenience was to the traveling public. No passenger train went through Holland to Chicago or from Chicago to Holland since Tuesday night by the direct route, and train schedules were of course completely knocked out. After a while arrangements were made to have the trains change over to the G. R. & I. at Grand Junction, so that traffic to and from Grand Rapids was maintained, altho with an impaired schedule. Wednesday afternoon the track was cleared and tonight the regular passenger schedule is in running order again.

There was no mail to the city from the south Wednesday morning and local business houses were quick to feel the result of the wreck on this account.

A RIP-ROARING TIME AT THE HOPE CHURCH PICNIC

A regular bang-up picnic was pulled off at Tennessee Beach, when Hope Church congregation had their outing on Tuesday.

More than 600 attended this annual event and from the time of their arrival at the Beach, until going home time there was something doing every minute.

At 9 o'clock there were enough automobiles at the church to accommodate the picnickers and at 9:30 these had all been transferred to the shores of Lake Michigan for the day.

Nothing was left undone as far as the eats were concerned. There was plenty for all and to spare, not including a few extra frills, doled out to the little ones of the Sunday School.

A unique feature of the picnic were one minute extemporaneous talks by whoever C. M. McLean, superintendent of the Sunday School, might call on.

The men selected were much in the same boat as old Shylock in the "Merchant of Venice," when he demanded his pound of flesh.

The speakers were given just a minute in which to talk. They could speak no more or no less than a minute. A deviation from this rule meant a fine and a stop watch was both judge and jury.

G. J. Diekema was the first man called. Everybody knew he would be fined, because he never could get out of his system what he wants to say in a minute; therefore he was immediately fined by the stern judge to make a Dutch speech. This speech was worse than the first consuming some 15 minutes, and was executed in such a pure flow of Dutch that even August Heuer, John Telling and Charles McBride could understand it.

Prof. J. B. Nykerk was next called on for a one minute talk. The professor who had just received his sugar dividend, and had also been wired that his paper stock went up a few points, was so exuberant that he also went over the time limit. Well, J. B. had to stand on one foot like a stork, pull off one shoe, put it on again and do likewise with the other shoe, and that all on a high platform, too. The professor we assure you has not yet adopted the stockless fad.

Dominie Cheff thought he was going to steal a march on the stop watch, not knowing that less than minute talks also meant a fine. His speech was shorter than the benediction, but his face fell several points when he was commanded to climb a large tree near by, and in its branches sing a song like an oriole. We do not know exactly what the song was, but we surmise that the air ran something like, "Mr. Johnson turn me loose," with variations.

A. H. Landwehr is also one of these hurry-up guys, in fact that is what made him the biggest installer of furnaces in the world. However he could not beat the stop watch and his stunt was to stand on a wheelbarrow, to be propelled by a legal light, Clarence Lokker, who was directed to steer the thing down a steep hill. "It's a shame, a measly shame," the way A. H. went over the front end of that wheelbarrow. For a broad jumper, Landwehr has them all beaten. It is said the record was 35 feet at the foot, and 41 feet at the head. It was a hair-raising event.

The sports in charge of William J. Olive, chairman, A. L. Cappon, C. A. Lokker, and E. C. Brooks were pulled off as scheduled. Following is the program of sports:

50 yd. dash, boys under 10—Don Leenhouts, first; John Winter second.

50 yd. dash, girls under 10—Dorothy Hofsteen, first; Helen Imhoff, second.

50 yd. dash, boys under 15—Randall Bosch, first; Willard Cobb, second.

50 yd. dash, ladies, free-for-all—Kathryn Vander Veen, first; Col-umbe Bosch, second.

Ball throw, for ladies—Thelma Landwehr, first; Louise Brusse, second.

Running Broad Jump, free-for-all—A. Heuer.

50 yd. dash, free-for-all—Ministers—Muste, first; Oggel, second.

Tug-of-War, East Side vs. West Side—won by West Side.

Wheelbarrow race for boys—W. Cobb, first; J. De Pree, second; F. Whelan and N. Amos.

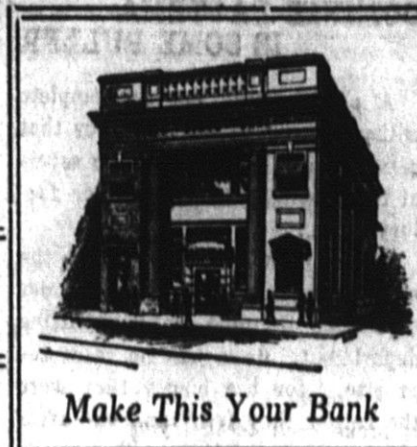

Relay Race, ladies to select their partners—Thelma Landwehr, first; Amy De Pree, second.

Needle Threading, Contest (husband and wife)—Mr. and Mrs. H. Meyer, first; Mr. and Mrs. J. Van Zanten, second.

Ball game, married men vs. single men—Married men 2; Single men, 3.

The great oriental play "Katchoo-Koo" is going to be presented at Macatawa auditorium Thursday night of this week beginning at 8:30 P. M.

will not restore you to health. You know very well that this is so, for you have tried them for years past and yet the much desired HEALTH seems to be as elusive as a "Will o' the Wisp."

Throw away your Pills, Potions, Plasters and Powders

and consult a competent CHIROPRACTOR. He will give you a Spinal Analysis and will tell you what is the CAUSE of your trouble. Having located this, he will adjust it, and HEALTH will be the result.

So-called Dis-ease is invariably caused by the pressure on the nerves preventing the vital force from flowing thru the nerves to the various organs. The pressure is caused by a displacement of the small bones of the spine. A competent Chiropractor with his bare hands adjusts the displaced bones to their normal position; the pressure on the nerves is relieved, the vital force flows freely to the various organs, and HEALTH is the result.

THIRTY YEARS AGO

A very exciting jury trial was had before Judge Fairbanks, on Monday. After two lawyers, a jury, the justice and a large number of witnesses had spent a day on the case, the jury brought in a verdict for \$6 cents, for the plaintiff. It was, "Great cry and little wool."

Mr. Henry Te Roller left Holland, this week for Chicago, where he will make his permanent residence. Mr. Te Roller has been the means of adding very much to the appearance of our city during the past few years. Nearly all the handsome modern residences in Holland have been erected during his stay here, and he has been the designer and architect of the majority of them. Charles E. Hoyt has been appointed postmaster at Hudsonville to succeed John N. Walte.

TWENTY-FIVE YEARS AGO

Born to Rev. and Mrs. Chapman, East 8th street, Friday, July 25, 1863, a son, Isaac Park, 18 years old, who fell from his bicycle at Highland Park, Grand Haven, two weeks ago sustaining concussion of the brain, died Monday morning. The cause of his death was cerebral hemorrhage.

A very pretty wedding took place at 145 West Fulton street, Grand Rapids, Saturday afternoon, when Cornelius Kramer, formerly of Holland, and Lottie M. Smith of Grand Rapids, were united in marriage.

TEN YEARS AGO

Herman Raterink, aged 25 years, died at his home, 170 E. 10th street, Saturday evening after a lingering illness of tuberculosis. Funeral services were held from the Ninth Street Christian Reformed church.

Miss Roka Ratering and Peter Kleyn of Port Sheldon were united in marriage last Thursday evening at the home of the bride's mother, Mrs. Elizabeth Ratering, 170 East 10th street, Rev. Keizer officiating.

A quiet marriage occurred Wednesday afternoon at 8 o'clock at the home of Mr. and Mrs. H. Dekker, 228 W. 11th street, when their daughter Wilhelmina was united in marriage to Rev. Wm. Gumsier. Rev. A. R. Merrill performed the ceremony.

WANT \$500.00 TO GIVE TO SCOUTS SUMMER CAMP

At a meeting held in the office of Dr. A. Leenhouts to which several business men were invited and five responded, it was decided to heed the request of our Boy Scouts and give them a summer camp either at Waukazoo or on Lake Michigan, near Lakewood farm.

The outing will be of two weeks' duration, and the cost to create this camp for some 300 odd scouts will cost in the neighborhood of \$500.

These scouts, our sons, have done wonderfully efficient work all thru the war period, have never been found wanting during any public demonstration, were praised by delegates coming to Holland at different conventions assembled, and taking it all around these little men deserve what small pleasures we can give them.

We have no Y. M. C. A., our churches have no community halls, in fact Holland is poor in recreation for its youth.

An ideal camping place of which Holland has several can be safeguarded with wholesome surroundings and supervised by clean men, and will be just the thing for the boys in the summer time.

We owe this to our children, and in fact these are just the ones we are plugging for every day.

Now come across, you fellows with a young heart, and plunk down your ten dollars for a summer camp for the deserving boy scouts.

Those who contributed at the meeting were A. H. Landwehr, Dr. A. Leenhouts, John A. Kelly, Jake Lokker, and Thos. N. Robinson.

The treasurer of the Boy Scout fund is Henry Winter of the Peoples State Bank. All those wishing to contribute can do so by sending in a ten dollar bill to Henry as soon as possible.

The names of the givers will be published from time to time as the subscriptions come in.

The boy scout loveth the cheerful givers.

GRAND HAVEN SUMMER RESORT HAS

Physicians have diagnosed the illness of children in a Little Rock, Ark. family at Highland Park, as infantile paralysis. The family occupy a summer cottage and their place of residence has been placarded for the disease by the health department of the city. Every effort has been made by the department to forestall any danger of spread of the contagion. Little fear has been expressed by the health officers of an epidemic as the cases have been completely isolated. All precautions are being taken, and there is no occasion for a panic. Cases of the kind have appeared in the resort before and they have always been handled successfully without any serious trouble.—Grand Haven Tribune.

The "huckleberry" pickers near Gann lake are as thick as fleas on a dog, we are told by people who have been there. Sunday they went on foot, in buggies and by autos until the marsh was black with people.—Allegan News. And still we folks in Holland must pay 40 cents a quart for them. Why can this be?

DOMINIE BATTEMA IS SOME PULLER

A picnic would not be complete without a tug of war, and for that reason Oscar Peterson put on several tugs during Thursday's Shoe factory picnic.

Of the individual pulls among the employees, no one can pull harder than John Beltman, of the cutting department. John was no respecter of size, "for the bigger they were the harder they fell," and one after another were pulled up with a round turn by Mr. Beltman before they barely got started. But John had not counted on Boss Whelan.

After he had pulled up about nine or ten of the husky shoe men, Whelan wanted to try a hand. For a long time honors were even, but finally John had to come to his feet, and Whelan won the contest.

Whelan has considerably the best of it on weight which helped his cause along to some degree. But the superintendent of the Shoe factory did not hold his honors long. The innocent looking Dominie Battema, besides being able to draw a large audience, to his church on Maple avenue, has pulling powers in another direction.

He signified his willingness to also get into an individual pull with Superintendent Whelan. There was a howl of surprise and pleasure from the 1,000 who gathered around. A large space was cleared, and the eminent divine and the able shoe man could try conclusions unhampered.

The tug was fierce and furious while it lasted, but the tenacious Irishman at last had to give way to the stubborn fighting Dutchman.

They shook hands, with Whelan saying, "The best man wins, and a hip, hip, hurrah! was given for the dominie.

CHURCH PICNIC AT JENISON PARK ATTRACTS MANY

Fully 1,000 people attended the Third Reformed church picnic at Jenison Park on Friday and it was the most successful social event in the history of the church. The entire program was carried out without a hitch and everyone enjoyed a splendid outing. The trip was made over the Michigan railway, the cars leaving at 9:30 o'clock.

A free dinner was served at 12 o'clock to nearly 800 people and the army of waiters and waitresses rendered excellent service. It is estimated that close to 2,500 glasses of lemonade were dispensed during the day. Late in the afternoon a lunch was served. The eats were excellent.

The list of sports created considerable amusement. One event, a lemon race, was especially attractive owing to the fact that it was a running race exclusively for ministers. Ex-Mayor E. P. Stephan, however, was anxious to enter the race, but he could not stand the pace set by the preachers. When the race was about half finished, Mr. Stephan took a tumble, and his chances for winning the race were lost. The prizes awarded were two lemons to the winner and one lemon to the dominie who finished second. Rev. S. C. Nettinga and Rev. S. M. Zwemer finished respectively first and second.

Another running race for a distance of 200 feet was won by Ex-Mayor John Vandersluijs. John still knows how to run but he could hardly stop when he crossed the line owing to his great burst of speed. The prize in this event was 50 cents.

MAKE 1400 MILE

TRIP IN SMALL GAS LAUNCH

Six Chicago men pointed the nose of a fourteen foot gasoline launch, "The Gem," into Macatawa Bay Friday morning and laid over here after a 1,400 mile journey in the little craft to Georgian Bay, northwest of Lake Huron in Canada. The vessel is the property of Capt. H. D. Moreland, who is well known in Holland and whose wife was formerly Miss Rena B. Waltman of this city, daughter of Capt. Thomas Waltman. Capt. Moreland piloted the little craft through all the difficult passages that had to be passed to reach Georgian bay. The other members of the party were James Lovett, F. Keen, M. Waters, John Harrison and Peter Wisebrood.

The party left Chicago on June 28. They went by way of Green Bay, Manistique, Mackinaw, Detour Passage, Harbor Island, Little Current, Fraser bay, McGregor bay, Bay Finn, and Kilarney.

Capt. Moreland Friday while visiting with Chief of Police Van Ry, an old friend, reported not only a very pleasant trip but a trip that was almost without accident. Only once did the boat strike ground jutting up near the surface. It was at a spot where the government chart showed deep water and the captain was not looking for ground. No harm was done to the little vessel however. The party had all the fish they wanted on the entire trip and could have caught many more, if it had been necessary, Mr. Moreland declared.

Mr. Moreland is a Chicago contractor who took advantage of a strike to take this time off for a trip up the lakes. He is an enthusiastic marine man. Some years ago he himself designed a beautiful yacht, "Avis," which the government commandeered two years ago for war service.

HOLLAND'S DEFEAT SATURDAY WAS INEXCUSABLE

One of the most interesting games of baseball yet played in Holland, was staged last Saturday at Water Works Athletic Park.

The attendance too was extraordinary, eight hundred fans occupying the bleachers and several hundred chairs that had been quickly substituted to accommodate the coming crowd were filled.

This attendance did not include 300 or more deadheads who peeked thru the fence and whose admission fee would aid materially in supporting a team that merits every nicker that can possibly be given them.

The Holland team did not play up to its usual class Saturday. This is especially true in the first inning when our boys played very ragged ball, letting in four runs, some of them being not deserved.

After the first inning however, the Holland boys braced up, whitewashing the Cuban stars in the second inning and tying the score with four runs.

The Holland players were right on their toes from that minute on with the exception of Shaw, who in the 5th inning muffed a small pop-up that landed square in his mit, letting in an extra run in favor of the Cuban stars, again tying the score.

In the sixth inning Holland again scored giving them the lead of one run.

In the seventh inning a swift liner went thru Pitcher Steggerda's hands and rolled to Shaw. Shaw failed to make connections to first in time, and in that inning the boys from Havana scored twice, giving them a lead of one run.

In the 7th inning Shaw was benched, and Jappinga was substituted. Where Holland might have won the game notwithstanding the ragged playing in the first by the Holland team was in the last half of the 8th when Ashley tried to play the Cobb stunt by sneaking to second, but was easily caught between bases, by "Crab-legs" on second, and Pedroso on first.

This stunt was played with but one man out, and two on bases. Still Holland had an edge on the game in the 9th, for after the Cuban Wonders had scored three in the last inning Holland duplicated this score through a batfist and might have tied the score with 2 more runs had not Beintema "spilled the beans" by attempting a steal to the number 2 sack, where he found "Crablegs" waiting for him with the ball.

It is said that Shaw's errors were partly excusable because he had been "cropped" in one of his north-

ern games and for that reason was really not fit to go into the game in the first place.

Steggerda, all considered, pitched a very good game, and Ingham did fine work on third. "Babe" Woldring, the old "vet" was there with the big stick and was largely instrumental in piling up the scores for Holland, and for that reason received the \$5 offered by George Getz.

Pedroso, the Cuban's first baseman is a wonderful player, featuring in three two base hits and never erring on the first sack. Second baseman

"Crab-legs" Jimiense is the whole side show.

How this ball player can side-wheel around the bases is still a conundrum to the Holland fans.

This see-saw game finally resulted in 11 for the Cuban Stars and 9 for Holland.

Following is the score:—

BUSH & LANE

PICNIC WAS A
GREAT SUCCESS

Already early Saturday morning scores of Bush & Lane picnickers were seen on the streets wearing the pink and blue badges, and by the time six special cars were about to leave Holland, River avenue and 8th street, near the Tower clock, was jammed with people, waiting to take the interurbans to Jenison Park, where the day's outing was to take place.

The Holland band gave a concert on the street, calling the picnickers together and at 10 o'clock nearly a thousand happy ones had been transferred from Holland to Jenison Park.

An unusual program of sports that had some very expensive prizes attached for the winners, was the big feature of the day.

Everything in the line of good things to eat had been prepared by the company, and the keys of Jenison Park were given the employees of the Bush & Lane Piano Co. Saturday.

After dinner was served G. J. Steggers in behalf of the men stated that this was a period of cooperation. That the days of jealousy were over if a workman or an employer is to succeed. Said Mr. Steggers, "Don't be jealous of your fellow-employee, because he happens to receive a little more pay than you. Make yourself worthy and your pay will be equalized with that of your neighbor. Excel and try to make yourself worth more. Look yourself over, and find out where you are lacking in efficiency, and correct yourself by making your inefficiency efficient."

W. H. Beach, manager of the firm, responded, declaring that the firm was always willing to co-operate with its employees and that efficiency is always recognized by the Bush & Lane Company.

He made known to the employees a plan that will insure each and every one of them in amounts ranging from \$500 to \$1,000. Any employee who has faithfully stuck by the firm for three months will find himself insured from now on for \$500.

Length of service will add to that amount until \$1,000 is reached. Thus if sickness or death overtakes him, his family is sure of a little nest egg that cost him nothing aside from faithful service rendered. Mr. Beach's outlined plans brought a round of applause.

Rev. Bowerman also gave a few words of advice which was well received by the audience.

A unique incident in the sporting contest was the fact that a blind man won the broad jump, jumping eight feet, nine inches. His name is Ben-sen, a blind piano tuner.

The running broad jump was won by Sylvester Pauls, a high school graduate who did the stunt by going 18 feet, four inches.

Eric Erickson won the hop-skip and jump contest going 29 feet, one inch.

The balance of the contests and the winners follow below:

OTTAWA FARM AGENT TO JOIN IN DRIVE AT FAIRS

KENT SUPERVISORS GRILLED FOR LACK OF INTEREST IN WORK

The Kent county board of supervisors was rapped by county agricultural agents and farm bureau members at an all-day meeting in the Grand Rapids Association of Commerce Wednesday for its lack of interest in the work of the farm bureau and county agent in that county. The board was severely criticized because of its apparent unwillingness to provide sufficient funds to carry on the work in Kent county as it is being done in other sections of the state.

Agents and bureau members from the majority of Western Michigan counties attended. Two women were present for the first time in the history of the organization, and were given a voice in the discussion.

A united drive for new members in every county, establishment of a "farm bureau day" at the West Michigan State fair, to be held in September, and renewed efforts to acquaint and familiarize farmers with the work of the bureau and the county agents, were the principal points which came up for discussion.

County agents reported that many drives for new members will be instituted in August. Farmers' picnics will be held in every county during the month. Count Agent Hagerman reported that Ottawa county will go after every farmer who is not a member of the bureau at the county fair. The tag system will probably be used to denote farmers who have joined.

"We will either tag or buttonhole every farmer," said Mr. Hagerman, "and it is certain that we will tag every one until he has been buttonholed."

Other county agents reported similar activity toward gaining new members, but suggested different plans of campaign.

It is proposed to increase the total membership from 10,040, to 65,000.

HUDSONVILLE PREACHER IS A REAL BASEBALL FAN

Rev. W. A. Sheppard, pastor of the Hudsonville Congregational church, is an enthusiastic promoter of sport among the young people of his congregation. He has organized a team of boys about ten years old and has financed the new club. The boys are now provided with new uniforms and other equipment necessary for a team of that size. Recently the Congregational Sunday school picnicked at John Ball park and the team played the Fairview Tigers, a team of Grand Rapids youngsters.

HIS PANTALOONS TORN, BUT WHERE?

BRINGS SUIT AGAINST BENTON HARBOR STREET RAILWAY COMPANY

Antonio Rosinia, of Benton Harbor, has some nice trousers—that is they were nice until he tore them. Now there's a heavy legal question pending here as to where. Not as to the juxtaposition of Antonio's anatomy to the rent, certainly not, but as to location of the trousers, and Antonio, when they were torn.

Antonio took a street car ride. He also attended a picnic out near the House of David. Afterwards he filed a claim against the street car company for \$15 for the trousers—and embarrassment. He said he tore them boarding a car, a circumstance chagrining, oh very.

But the street car company says he didn't. It contends, and asseverates that it has four witnesses to prove it, that Antonio tore them at the picnic while climbing a barbed wire fence. It says he "wilfully, maliciously and fraudulently" is trying to get some of the corporation's hard-earned nickels.

Antonio has told a justice of the peace that the company is very much mistaken, and that he will fight. It isn't so much the trousers as the humiliation of the thing he maintains.

LETTER MAY BE WORTH \$15,000.00

A letter written two years before the death of Mrs. Ann L. Snyder of St. Joe, Mich., may enrich a nephew, Henry Martin, of Chicago by the sum of \$15,000. Trustees of the estate are considering the claim of the boy based upon a letter just found, which is claimed to have been written by the deceased giving the nephew this sum in case of her death. An uncle of the deceased was the recipient of the letter, written two years prior to the death of the woman who died nearly a year ago.

NEW BIG SUPER CIRCUS COM- ING TO THIS VICINITY

The Sells-Floto Circus, the newest big tent show, will exhibit in Ramona Park, Grand Rapids, one day Saturday, August 9. This will be good news to those who thoroughly enjoy a modern up-to-date circus, with all the thrills that go to make up a big three-ring arenic exhibition. The announcement is made that special arrangements have been made on all lines of travel to handle the crowds that will undoubtedly take advantage of the opportunity to visit the show, and wherever possible special excursion rates have been provided.

The Sells-Floto circus is a big institution, and there is a great deal of local curiosity to see it. It is a Western show, and has its home in Denver. Until this year the show had never been seen in the East and throughout the Middle West, but in the far west it has a standing and popularity that has never been surpassed by any other circus. Its Eastern tour was a succession of triumphs, and the newspapers have universally credited it with being the most novel and interesting exhibition of the kind ever seen east of the Mississippi river.

Some idea of the magnitude of the show may be gained from the fact that the performances are given in three rings and on three circular stages, on a broad esplanade completely encircling the rings, and in immense air spaces which at times, it is declared are fairly alive with clever and daring aerialists. There is a beautiful spectacle, three herds of trained elephants and other cleverly trained and educated animals and forty clowns to inject merriment into the exhibition. A free street parade takes place prior to the opening of the show. The two performances take place at 2 and 8 o'clock. Doors are opened one hour earlier, to afford an opportunity to visit the menagerie.

CHICAGO MAN LOSES LIFE IN LAKE MICHIGAN

Lake Michigan claimed its first victim of the season Tuesday when Frank McCabe of Chicago lost his life while in bathing. McCabe, accompanied by a girl friend, Miss Edith Peterson of Omaha, walked along a sand bar about half a mile north of the north breakwater. The bar was about 75 feet from shore and the bathers were not aware of the fact that a deep hole had been washed into the sand between the bar and the shore. Thinking the water was of uniform depth, the two started to wade ashore when suddenly they stepped into the deep hole. McCabe could not swim at all and he went down immediately, not coming up again, so far as is known. Miss Peterson could swim just enough to keep afloat. She managed to keep herself above water and allowed the surf to wash her ashore. She quickly called for help and the life saving crew came to the rescue immediately, but they had a great deal of difficulty locating the body

because the water was roily and it was not possible to see the body from the surface although it lay in only eight feet of water. The members of the crew had to dive for the victim and they recovered him about half an hour after he went down. Every attempt was made to resuscitate him but all efforts proved fruitless.

McCabe was 28 years old. His home was in Chicago and he was spending his vacation resorting at Ottawa Beach. He was a single man, and a telegram was immediately sent to his mother in Chicago who arrived Wednesday morning to take charge of the body of her son.

The coast guard members were of the opinion that the victim of the drowning was not seized with cramps but that death was due entirely to a fact that he could not swim a stroke. The two bathers were so near the shore that a stroke or two would have taken them both out of danger.
