By Rev. W. G. Davis

This exquisitely beautiful and charmingly picturesque city is on the borders of Lake Michigan, one of the largest and most important in the United States. It is two hundred and fifty miles long and some ninety miles wide.

We were met at the station by our old and valued friend, Rev. Dr. Thomas W. Davidson, whose ministry in Lynn Memorial, and later in Donegall Square, Belfast, in the earlier years of his remarkable career is still remembered with the keenest interest and with the profoundest gratification by loving friends and faithful admirers. As we entered his elegant and spacious car, and as we passed through the parks and avenues of the city, being saluted every few yards of the way, we found ourselves exclaiming that we were anything but a duke down; but this we did feel, that had we been the very highest in the land, we could not have been more cordially received or better treated.

Dr. Davidson has ascended the ladder of fame with marvelous and unparalleled rapidity. He has reached an altitude in the ministry and a position in the Church which he adorns by his unique and consecrated personality, and enriches by a well-stored and evenly-balanced mind that few of his old comrades have reached and certainly never surpassed. We had only to walk down the street with him to get a spectacular demonstration of the depth and extent of the affection in which he is held by all sections of the community. And what is more and even better, he is trusted implicitly by all ranks of society; and is frequently consulted by those seeking guidance upon some difficult situation.

He stands in the very front rank among the divines of the State. A more perfect blend we could not conceive of mental acumen and childlike simplicity than that which we find in our friend. This hour he is surrounded by a score of professors and hundreds of students; an hour later he finds himself in the midst of dear little children in his school; he is consulted by the one, he is worshipped by the other. No matter where you find him he is always the same—the center of attraction, smiling, winsomely, speaking hopefully, and guiding unerringly all who are seeking help, comfort, and peace.

Only a man of wide and accurate scholarship, and blessed with a sane mind, and endowed with exceptional gifts and graces, could hold with any degree of pleasure so important a pastorate as that of Hope College. Our friend has the largest library of any minister we have ever known, and what is most delightful about it is many of the students take full advantage of it. And never have we been entertained in a larger manner; it would hold well nigh a whole church as well as the minister. The lines of the Doctor and his genial and devoted wife have fallen in pleasant places. Mrs. Davidson is in the deepest and best sense an ideal hostess, a kind and considerate friend, and the very incarnation of everything that will make a minister's wife popular with the ladies of the church and with the wives of elders and deacons.

To have some idea of the campus upon which the college stands, together with the chapel, the theological hall, and all the other halls and buildings connected with the foundation, it covers something over sixteen acres. Taking students and professors together, the number reaches well over six hundred. We were asked to take the devotional part of an organ recital on Sunday afternoon in the college chapel by the professor of music, Dr. J. B. Nykerk, and a greater or richer display by his brilliant students we could not have desired. On Monday morning we were invited to address the students and professors in the same palatial building by the learned president of the college, Dr. Edward D. Dimment, who is a man of great personal magnetism and culture, an orator of a commanding order, and a leader of great ability.

The college chapel is a building that seats some two thousand, with stained glass windows of the choicest designs, and with an organ that

PROMINENT IRISH DIVINE
TELLS US MORE ABOUT OURSELVES THAN WE KNOW

Rev. W. C. Davis Gives Two Columns in One of Leading Papers on "Emerald Isle"

Holland, Hope College, Lakewood Farm, Waukazo, as well as some of our prominent home folks came in for much favorable comment in an article written by Rev. W. G. Davis in the Coleraine Chronicle, one of the leading provincial newspapers printed in North Ireland.

Dr. Davis is a prominent minister of the Gospel in Ireland and has just sailed back after spending a few months in America, three weeks of which he spent in Holland, the guest of Dr. and Mrs. T. W. Davidson, friends from childhood in Ireland.

He occupied the pulpit of Hope and other Holland churches several times while a guest here, spoke before the students of our public schools and at Hope, visited our civic clubs and went on several sight seeing trips, visiting the showplaces here.

Anyway what Dr. Davis writes about Holland is indeed intensely interesting and it appears that the Irish "Dominie" is more observant than we ourselves are, and would make a wonderful newspaper reporter. He chronicles his trip to Holland and vicinity in a most pleasing manner and in relating the incidents and his observations the doctor sometimes passes from the sublime to the ridiculous.

The article printed in the Coleraine Chronicle under the caption "Coleraine Clergyman's visit to America," follows:

Holland Furnace Co. Plant Today

The above is a bird's-eye view of

the Holland Furnace company plant of today. The Holland City News is indebted to Emerson-Frank, Inc., of Holland, for this reproduction.

Comparing this picture with the one found elsewhere on this page, it is evident that the Holland Furnace company has grown tremendously within the last quarter of a century. Then this was the only plant owned by the company. Today the Holland Furnace company has another plant at Cedar Rapids,

Iowa, and also one at Bethlehem, Pa.

The last two named plants are each about a third smaller than the Holland plant.

It may not be known to many that the entire "Warm Friend" family at home and abroad totals 5,000 men and women employees, comprising the artisans in the shops, the installers, the branch managers and the large force of accountants necessary to handle this great enterprise. Altogether the company has 550 branch offices and installing plants in the United

States and Canada. The Holland plant when running full time employs altogether well over 400.

The officials of the Holland Furnace company are: President, A. H. Landwehr; vice-president and general manager, Charles H. Landwehr; vice-president, John P. Kolbe; vice-president, Edgar H. Landwehr; secretary, E. H. Sukers; and treasurer, Arthur W. Wrieden.

Holland's Motor Car Parade Great Success

THERE WERE 250 CARS IN LINE COVERING SIX CITY BLOCKS

Holland City News Gives Checkup on Order of Parade

Holland's first annual automobile parade was a decided success, and viewed by thousands of Holland's citizens, resorters and folks from the countryside.

On Friday evening, August 1, Holland showed off her motor transportation facilities in a most graphic manner, in a parade of individual, dealers, commercial, and comical automobiles that received praise and comment on all sides. In all there were about 250 cars, covering six city blocks, including two bands, a detachment of old model cars, which were a circus in themselves, and a number of city department floats. The local Chamber of Commerce with its automobile dealer members were the prime movers in this event and deserve all the credit for the huge success which it proved to be. The streets were lined with thousands of spectators, a large number of them being summer visitors, for whom this event was partly staged. The judges had a difficult time checking the deserving entries as all automobiles entered were entitled to honorable mention. In order to make sure they were right in their decisions the judges viewed the parade for a second time. The awards were as follows:

Individual car division:

Best decorated car—John Van Bragt—Car No. 18.

Best 1929 polished car—E. P. McLean—Car No. 13.

Best 1930 polished car—John Eaton—Car No. 14.

Best looking old model car—Walter Veersma—Car No. 38.

Comical car division:

1st Prize—Yonker & Bronkhorst—Car No. 30.

2nd Prize—Lee Koopman—Car No. 32.

3rd Prize—Henry Muller—Car No. 34.

Tin car division:

1st Prize—John Diekema—Car No. 22.

2nd Prize—Stanley Boben—Car No. 20.

3rd Prize—Sam Cries—Car No. 24.

In the novelty entries Chester Van Tongeren won the special prize. This entry consisted of a large sized toy car propelled by a guide, Donald Lokker, who was in Dutch attire. Little Misses Dona Van Tongeren and Dona Lokker dressed as Dutch maids rode in the novelty car. The careful driver prize was awarded to John F. Sundin of the Yellow Cab company.

The parade lineup as checked up by the News was about like this: Police on motorcycles with American Legion band heads parade.

Chester Van Tongeren's unique Dutch feature.

Holleman-DeWeerd Auto company with a Ford make of car.

The Chevrolet Motor Sales and Service with their array of different makes as put on by Mr. McCleery.

Henry P. Zwemer and Son with their Willys-Knight, Whippet, etc.

Venhuizen Auto company with its wide range of Studebaker and Dodge cars. This feature was supervised by Heinie and Tom Venhuizen and their aides.

The Auburn with its new departure of front axle drive.

The Chrysler Service with the latest in that make of cars. Rather a unique feature in this division was the radio announcements telling of the merits of the Chrysler.

Ter Haar Auto Co. with the Buick line was also present.

Jess Rickour of the Peoples Garage had a full line of Packards and Flying Clouds in the parade.

The Yellow Cab with its fine new equipment was very conspicuous.

Following the Holland High School band was the old lady who lived in a shoe. She surely had her trials, but the kiddies in the large wooden shoe perched on an automobile top were happy in their new environment. They were dressed in Friesian costumes. It was a float entered by the Holland Park association while the city water department entered a Dutch windmill that may stand Roy Champion in good stead augmenting the city pumping supply during this dry season.

Several old models of cars apparently out of the ark were on display. One was dated 1906.

Dutch Boy Bread of the Federal Bakery was in line with several trucks.

The Model Laundry also displayed seven of its delivery trucks while the West Michigan Laundry had six in line.

Tuurling Sign company, Central Hardware, Lincoln Battery shop, Holland Auto parts, and the Bump Shop were also represented. The Steketee Tire shop had a well dressed up automobile advertising their wares.

The different makes of trucks were in the next division as represented by the many firms mentioned above.

Then came the used cars or "tin can" division. It surely was comprised of a labyrinth of tin cans of ancient vintage and of a wide range of makes. In many instances the firms making them had long ago passed out of the business world. Still their product went "chugging" along in the parade.

Holland's first annual auto show was an unqualified success and we would suggest to Charles Gross of the Chamber of Commerce.

NOTES FROM THE ALLEGAN COUNTY AGRICULTURAL AGENTS' OFFICE

On August 12 and 13 an extension specialist from the Home Economics Extension Department, Michigan State College, will be in Allegan county to organize new groups that wish to take this work for the coming year.

This work is carried on during the winter months under the local leader plan. A specialist from the college will meet once a month with the group leaders from the various clubs, the leaders in turn give the lessons to their club members.

Allegan county had twelve groups taking the work last year, some of which have dropped out, owing to the fact that they have had all the projects listed.

Each county is allowed sixteen groups. Any community interested in this work should get in touch with county agent A. D. Morley and make arrangements to have the specialist visit their group on August 12 or 13 to explain the work.

NOTES FROM THE OTTAWA COUNTY AGRICULTURAL AGENTS' OFFICE

By A. D. Morley

The Soils laboratory truck which will visit Allegan county August 20 and 25 will be primarily a soil testing truck according to A. D. Morley, county agricultural agent. Tests for both lime and fertilizer will be made and specific recommendations for each sample will be given. There will be no set speech, but each person will be given individual attention. In addition to the testing of the soils there will be several charts and posters showing results obtained by using lime and fertilizer on various farms in various parts of the state. Soil samples to be tested should be dry and should be taken from different parts of the field and from the different kinds of soil in a field. These samples should be kept separate and labeled so that you will remember where they come from. Both surface soil samples and sub-soil samples should be taken. Samples of manure will be tested for lime content as well as testing soil. Be sure to come and bring your samples to the soils doctors.

The American Legion will hold their annual picnic Friday, August 15, at Tunnel Park.

Mr. and Mrs. John Reitman and Jack and Dick Reitman are on a motoring trip to Denver, Colo.

Winners in the parade may receive their prizes by calling at the Chamber of Commerce office.

Rev. and Mrs. De Pree were both born and reared in Zealand and are well known in Holland and Ottawa county. In 1925 Mrs. De Pree came the third missionary of the Zealand Second Reformed Church, and consequently her work in Kulangsu has been of a special interest to members of that church.

Three children are returning to this country with them. These are Lois, a daughter, who has graduated from Shanghai boarding school; and two sons, Harold and David. Another daughter, Carol, has been attending an educational institution in New Jersey the past six years.

The family party left Shanghai on June 3 and was just being received from them, giving some late news regarding their trip to the United States. They encountered rather stormy weather en route and arrived at Hong Kong a day late.

In spite of running through an Indian monsoon, the French steamer on which they left that port made the Gulf of Aden on scheduled time. Mrs. De Pree, in describing the monsoon, stated that it struck them first head-on and they pitched; then a strong gust struck them a broadside and they rolled; to cap the climax it veered and caught them at an angle and the ship did a corkscrew.

The missionary family expected to reach Suez four days after the letter was written, leaving the ship there to travel overland to Jerusalem, Smyrna, and Constantinople. Athens, Naples and Rome were also in their line of travel, and it is hoped that they kept strictly to schedule and had passed the earthquake zone by the night of July 22.

From Italy they were to leave for Interlaken, Switzerland; then to Paris and The Netherlands and London, from where they sail for New York and home. They expect to arrive here the latter part of August and plan to make their home in the Mission House in Holland.—Zeeland Record.

Road Board's Work Shown In Fair Exhibit

OTTAWA COUNTY'S FINE ROAD SYSTEM TO BE SHOWN ON GREAT MAP

The Ottawa County Road Commission will be represented at the Holland Fair this month with an educational exhibit. Considerable preparation is being made by the commission staff for the display, which will cover about every phase of road building, and give the people of this county and other fair visitors a very clear idea as to what is involved in the building of roads.

One of the chief features of the exhibit will be a county map, five feet square, which will show all of the improved roads in the county and indicate the type of material used. The map will be colored and lined in such a manner as to bring out every detail, which will help in the explanation of it.

Ottawa County has long been noted for the number and quality of its improved highways and the great map will indicate quite definitely the amount of road work which has been accomplished here. Maps of each township have been made first and these have been fitted together on a background to make a complete map.

Besides the map there will be cross sections showing methods and material used in modern road building. This alone should prove interesting and will convince those who see it that roads are no longer built merely by getting a bunch of men and teams together for a day and dumping gravel on the high-ways. Gravel roads are built in a scientific way these days, and good construction is essential because of the motor travel over them.

Other features in the show will be exhibits of road marking, direction and warning signs, and reflectors, such as are now used on curves, crossings and corners. Instruments used in testing materials and building every step of a highway will also be on display.

SAUGATUCK RESORTER FALLS AND BREAKS HIP

Mrs. Ada Trotter fell and fractured her hip as she was coming from the river to her cottage at Saugatuck. She was taken to the hospital where she is thought to be in a precarious condition. She has been a summer guest here for many years.

ENTERS HOUSE AND DIDN'T KNOW IT

A strange acting stranger was discovered trying to enter Gary Raak's home, Grand Haven, by cutting a screen door Friday afternoon. Neighbors drove him away and notified the sheriff's office. The man was later picked up and taken to jail, where it was discovered that his behavior was due to post-Volstead intoxicants. He was still too dazed to give the officers his name Saturday.

FARM FIRES

To decrease the huge loss from farm fires, which destroy about 3,500 lives and \$100,000,000 worth of property annually, the U. S. Bureau of Chemistry and Soils is studying causes and methods of prevention. The principal causes of farm fires, says the bureau, are spontaneous ignition of hay, grain, feeds, and other products, lightning, defective chimneys and heating apparatus, sparks on combustible roofs, careless handling of matches, and gasoline or kerosene, and faulty wiring or improper use of electrical appliances.

In many instances the firms making them had long ago passed out of the business world. Still their product went "chugging" along in the parade. Holland's first annual auto show was an unqualified success and we would suggest to Charles Gross of the Chamber of Commerce.

This year's race program will, as usual, be of the highest type. We are again members of the Wolverine circuit which includes Ionia, Detroit, Saginaw and Allegan. Horses that race at larger fairs can demand larger purses. The public is entitled to the best that money can buy as long as they will give us the patronage that has been given us the past few years. It is therefore up to you to see these races as often as possible.

One of the most interesting features at the Holland Fair is to be the Calf Club for young boys and girls, and there are many entries this year. This exhibition is of unusual interest, not only among youngsters, but among the older folks who want to see what their children can do in live stock raising.

Dog Show

Under the direction of George Caball we will put on a kennel show which will be sanctioned by the American Kennel Club of New York City. We at all times have the interest of the child at heart as well as the older person, and therefore believe that we have something to satisfy both.

These Are Only a Few of the Special Holland Fair Attractions

THE Community Fair is not to be made up entirely of special attractions. The Directors have not lost sight of the fact that this is an Agricultural Association and special attention has been given to these departments namely: Cattle, Horses, Sheep, Swine, and don't forget Poultry and Pet Stock. The exhibits in these departments will be larger than ever before. Other features will be Home Demonstration, County School exhibits, Farm Club exhibition, Flower collection Horticulture, Beekeepers apiary, and an endless lot of exhibits that lack of space forbids us to mention.

The time has now come for him to pass from the authority of Eli to that of the Lord. The first message entrusted to him was a most terrible one. He hesitated to tell it to Eli, but being pressed, he manifested true courage. It must have been a bitter experience to Eli to see Samuel recognized and himself passed by. This fearful visitation of judgment upon Eli's house was due to the sins of his sons. Eli was held responsible for not restraining them. And all Israel from Dan even to Beer-sheba knew that Samuel was established to be a prophet to the Lord." SUNDAY SCHOOL LESSON

(© 1928, Western Newspaper Union.)

Lesson for August 10

HANNAH, A GODLY MOTHER

LESSON TEXT—1 Samuel 1:1-8, 24-28; 2:19.

GOLDEN TEXT—My father, hear the instruction of thy father, and forsake not the law of thy mother.

PRIMARY TOPIC—Hannah's Prayer Answered.

INTERMEDIATE AND SENIOR TOPIC—How Can We Honor Our Parents?

YOUNG PEOPLE AND ADULT TOPIC—The Value of a Godly Home.

I. Hannah's Sore Trial (1:1-8). Elkanah had two wives in violation of God's law. God's primal thought for man was one wife. Therefore, for Adam he made Eve. Hannah's sore trial grew out of jealousy which naturally springs up between two women, wives of one man. The violation of this law of God concerning marriage has always been attended with trouble.

II. Hannah's Prayer (1:9-18). She had the good sense to take her troubles to the Lord. These believers should do, even though the troubles result from sin.

1. Her bitterness of soul (v. 10). Though Elkanah loved her and sought to lighten her burden, he was unable to bring to her the needed solace.

2. Her vow (v. 11). Hannah prayed, asking God for a son. The name Samuel means "asked of God." In connection with her asking this gift from God, she vowed to give the child back to God. Much can be expected of children born into the world under such circumstances.

3. Hannah misjudged by Eli the priest (vv. 12-16). The priest observing the motion of her lips and not hearing the sound of her voice concluded that she was intoxicated and demanded that she put away wine. She defended herself against this interference.

4. Blessed by Eli (vv. 17, 18). Following her explanation he pronounced a blessing upon her, joining in the prayer "that God would grant her petition."

III. Hannah Gives Samuel to the Lord (vv. 24-28). For a time she cared for Samuel in the home. Always the best nurse for a child is its mother. According to her vow, at an early age she took Samuel to the sanctuary and gave him over to the charge of Eli, the priest, to minister therein. We thus see in his tender years Samuel's ministering before the Lord.

IV. Samuel's Ministry (ch. 3). 1. His call (vv. 1-10). On the occasion.

From his birth Samuel was dedicated to the service of the Lord. While going about his regular duties the Lord spoke unto him. In Samuel we have a striking pattern of child religion. In the Scriptures we have set forth two types of experience: First, the one who experiences God's saving grace after having lived in sin; second, the one brought up in the nurture and admonition of the Lord from infancy. (2) His obedience. When the divine voice was discerned Samuel rendered immediate obedience. He expressed his willingness before he knew what was required. He did not inquire what was wanted and then let his obedience depend upon the agreeableness of the command. (3) Samuel's prophetic message (vv. 11-18).

The time has now come for him to pass from the authority of Eli to that of the Lord. The first message entrusted to him was a most terrible one. He hesitated to tell it to Eli, but being pressed, he manifested true courage. It must have been a bitter experience to Eli to see Samuel recognized and himself passed by. This fearful visitation of judgment upon Eli's house was due to the sins of his sons. Eli was held responsible for not restraining them. He seems to have been a good man but lax in the discipline of his children. Parental laxity is most cruel. To tolerate evil when one has the power to restrain it is to become party to it. V. Samuel Established in the Prophetic Office (3:19-21).

"And Samuel grew, and the Lord was with him, and did let none of his words fall to the ground. And all Israel from Dan even to Beer-sheba knew that Samuel was established to be a prophet to the Lord." Little did Hannah know that the boy who had been given in answer to her prayer would one day become the spiritual head of the nation. Truly, he that honors God shall be honored by God.

Roger Babson, Noted Statistician, Writing on Investments Says:

..... "I learned to invest in stocks controlled by men of high character, and select companies which are a dominant factor in their respective industries.

..... Therefore, a primary need in studying a company is to ascertain the character of the men who own and control it.

..... It is also important to give careful consideration to the age of the management. The men should not be so old as to lack energy and virility; nor should they be so young as to lack experience and judgment."

What applies in selecting an investment applies equally well in the selection of your bank.

This bank, nearly 60 years old, has always endeavored to make **SERVICE a FIRST CONSIDERATION.** It is managed by Directors of seasoned judgment and experience, yet not so old as to lack energy, ambition, and a desire to serve properly the people of this community.

When making your deposit think first of the bank with the clock on the corner.

TWENTY-FIVE BOY SCOUTS FROM HOLLAND NOW AT SPRING LAKE

At least twenty-five Boy Scouts and Cub Scouts from Holland are now in Camp Robert McLean near Spring Lake, where they are having a week of camp life.

While at the camp the Scouts have the opportunity to pass their tests on practically every subject. The Bayou, which is kept clear and cool by springs and the Grand River, provides excellent facilities for swimming and water activities.

Scouts also will be given opportunity to work in handicraft for a complete outdoor shop will be set up where they can do leathercraft and woodwork.

In addition there will be archery, treasure hunts, baseball, track meets, special trips on the river, and hundreds of other outdoor activities that are participated in by the Scouts.

The camp is under the charge of

Peter Norg, camp director, and William Vande Water, assistant camp director. Dr. A. C. Glennie will look after the health of the Scouts. Scout leaders for the first period will be Ike De Kraker and Julius Waganar. The camp bugler is Gerben Walters, whose reveille at 6:40 o'clock in the morning will start the Scout's day and whose taps at 9:30 p.m. will bring it to a close.

Eleven "Cub" Scouts will attend camp this season from Holland. The Cub movement is new in Scouting activities and this first camping period is the only one provided for them. Those who are attending the Cub camp for boys between the ages of 9 and 12 are Henry Brusse, Edward DePree, Howard Vande Vusse, Heath Goodwin, Jack Lokker, Frank Lokker, Roy C. White, Emerson Strong, William M. Tappan, Jr., Harold Hewitt and Vance Mapes.

Several couples surprised Henry Geerts on his birthday Saturday evening. Bridge was part of the evening's entertainment and prizes were won by Mr. and Mrs. J. Geerts and Mr. and Mrs. Vaude Van Den Berg. Mr. Geerts was the recipient of a thoughtful token from the sixteen guests present. Refreshments featured the party.

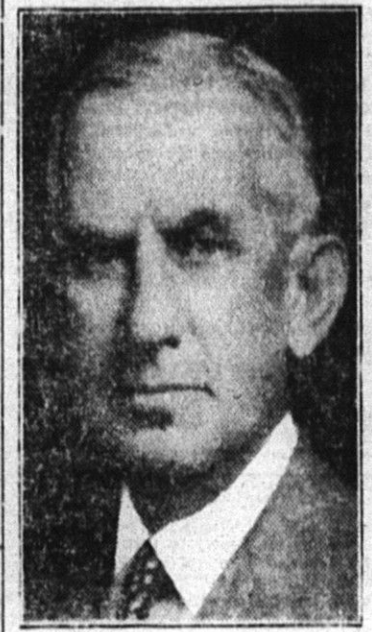

The ninth birthday of Miss Violet Eberhardt proved a joyous one, it being the occasion for a party given at her home on East 15th street. Refreshments were served at tables decorated in green and a program of games was very much enjoyed by the friends present, with Vivian Warren, Mabel Japinga and Marjorie Borgman winning the prizes. Guests at the party were Mabel Japinga, Marjorie Borgman, Adele Swenson and Mildred Herman, Vivian Warren and Jean Warren.

HOLLAND GETS NEW DIAL SYSTEM SUNDAY MORNING

President Foraker of Bell Telephone Company Opens Communication with The Hague

Holland has its new dial system and to say that the subscribers are pleased is putting it lightly. The nerve-wrecking service of the last few years is a thing of the past and the new \$750,000 exchange and the service that it brought comes like a benediction, at least in that avenue of trade which brought complications for many years because of an antiquated and a worn out automatic service. Anyway Holland was well represented at the "cutover" program at midnight Saturday, at least 200

President Foraker

being present, including Mayor Brooks, Senator Vandenberg, President Foraker of the Bell Telephone company, and Manager Gene Ripley of the local exchange.

The great feature of the evening was the transmission from the new exchange to Minister Diekema at The Hague, Netherlands.

This Holland to Holland transatlantic telephone call, made at 12:10 Sunday morning, marked the placing in service of the new \$750,000 dial telephone system and new Bell Telephone building in this city. It was the first transatlantic telephone call ever made from Holland.

The call was made by Burch Foraker, president of the Michigan Bell Telephone company, to Gerrit J. Diekema, formerly a director of the company and now U. S. minister to Holland. Mr. Diekema

Those who had charge of the operations in the new office were C. E. Ripley, general manager of the local plant; G. K. Hewitt, plant chief; Mrs. C. K. Foote, chief operator; E. F. LeJeune, power maintenance, toll and switchboard manager; T. Malawetz, chief switchman; G. W. Collins, district plant superintendent and Herman Miller, assistant plant superintendent.

GRAAFSCHAP CHURCH CELEBRATING TONIGHT

The Christian Reformed church in Graafschap, one of the pioneer churches in this section, is featuring the dedication of its new organ with a special recital this Thursday evening, the program being in charge of Prof. William Rolf. The pastor, Rev. J. O. Bouwman, delivered a special sermon Sunday evening in connection with the dedication.

The Graafschap church, located about three miles southwest of Holland, was organized by the pioneers of this colony in 1847 and has developed into one of the strongest religious bodies in the vicinity of Graafschap. The roster lists 212 families, 532 members and 1,040 souls.

Prof. and Mrs. John Winter of Virginia, formerly of Holland, are the guests of friends.

Miss Eleanor Bliss of Albion has been spending the week as the guest of Miss Winona Petersen.

Prof. S. Berkhof of Grand Rapids conducted the services at Prospect Park church Sunday.

Mrs. Lottie Smith and son Raymond Gale Smith of Syracuse have been at the home of their aunt and uncle Mr. and Mrs. Elmer S. Gale. With them came Mrs. Lulu Kittel of Syracuse, N. Y.

Mrs. C. Nienhuis, who was operated on at the Holland hospital, is reported improving.

Rev. M. E. Flipse of the Classical Mission at Los Angeles, California, conducted the services at the Fourth Reformed church Sunday.

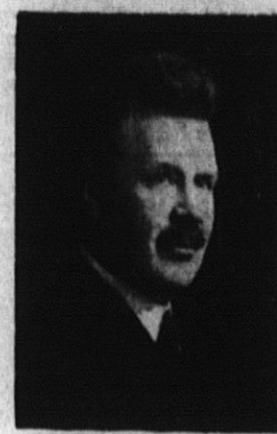

Misses Alice Rysenga, Henrietta Haverdink, Bertha Coster, Eleanor Hieffje and Annabelle Arnold have been enjoying camping at Ottawa Beach for a week.

Mrs. Henry Van Norden, who submitted to an operation at the Holland hospital last Monday is reported to be doing as well as can be expected.

Mrs. Rena Van Ark and Benjamin Baldus of Holland returned from a week-end auto trip to Chicago. Miss Alice Van Ark, who will again take up residence in Holland after an absence of a number of years during which she lived in Portland, Oregon, came back with them from Chicago.

William Buitendorp of Muskegon recent graduate of Western Theological seminary, has assumed the pastorate of the Reformed church at Middleburg, N. Y. Louis H. Benes, classmate of Buitendorp, assisted in the ordination ceremony.

Manager Ripley

Minister Diekema

A new dial system was made simultaneously with the placing in service of a new telephone system and office at Macatawa Park. The two systems are interconnected by local circuits. The operation took only a moment, following more than a year of building and installation of plant and equipment, and several weeks of testing to insure the perfection of the apparatus.

A minute before the "cutover" local Manager Ripley, who had the whole matter in charge said briefly: "Fellow citizens of Holland and employees of the telephone company. I know you are proud of your new telephone building. The service, which we are going to give you over the dial system will be the very best that we know how to give. At 12 p.m. sharp, I am going to ask Mayor Brooks to push a button which will give the signal for the new dial system to be cut into service."

At a signal given by local Manager Ripley, the cutover from the old system to the new was made by Mayor Ernest C. Brooks, who pressed an especially mounted electric button, which was suitably engraved and presented to him as a memento of the occasion. The transatlantic call to The Hague was the first call made through the new equipment.

Following the cutover, guests, who included many from Detroit, Grand Rapids and other southern and western Michigan points, made an inspection of the new plant and service.

Construction of the Holland dial central office building began early in the summer of 1929, and during the fall work was started on the Macatawa Park auxiliary office.

Both buildings were completed and ready for the equipment installation in February. The two buildings, with sites, equipment, new outside plant and subscribers' instrument changes, represent a total investment of approximately \$750,000, the Macatawa Park plant costing \$70,000.

Those who had charge of the operations in the new office were C. E. Ripley, general manager of the local plant; G. K. Hewitt, plant chief; Mrs. C. K. Foote, chief operator; E. F. LeJeune, power maintenance, toll and switchboard manager; T. Malawetz, chief switchman; G. W. Collins, district plant superintendent and Herman Miller, assistant plant superintendent.

The Holland Zeeland Road Is Going Slow

WEST ZEELAND FOLKS ARE COMPLAINING OF TOO MUCH DUST

It appears that the Zeeland Holland super-highway is going slow although the grade has practically been completed. While the re-location of M-21 is a very necessary project it is better to go slow and go sure in order that the road bed may be well settled before the wide ribbon of concrete is laid. Holland has gotten along with the old winding concrete for so long that a few months more will make little difference. It is indeed pleasing to know that the road will become a fact before next resort season opens and then Holland will have two highways to our next door neighbor.

Anyway it is probable that the paving of this highway will be delayed until 1931, and there are some very good reasons for it. In this short distance of some five miles there are at least two extensive fills that will require one fall, winter and spring, with plenty of moisture, to settle into a safe and sound roadbed. At the old brickyard creek the culvert has been completed and the ravine is rapidly being filled, while at the Black River crossing, two miles west of the brickyard, work on the large concrete bridge is progressing nicely as well as the filling. However, at this point the new fill will not be solid enough to make the laying of concrete practical, at least not for a time.

According to the Zeeland Record, the unfinished road with only the sandy grade is causing the kicking up of a great deal of dust much to the annoyance of the west limits Zeelanders. The Record says:

"Folks out beyond the west city limits, in the vicinity of the new state highway, are wishing that the matter of its relocation had never been considered or else that the state highway department would step on the accelerator and complete its construction work as was contemplated in the first place."

"The trouble is that many drivers of cars and trucks have imagined the strip between Colonial avenue and the old brickyard to be open to traffic, although there has been no information of the kind gone out, and they are using it as a speedway in an effort to see how much dust they can raise, to the discomfort of the entire neighborhood, making the gritting of teeth an easy matter, both mentally and physically. There is grit everywhere."
