Dethmers Named On First Ballot in GOP State Meeting

Grand Rapids, Mich. August 3—Michigan Republicans, optimistic over November election hopes and harmonious to a degree unknown in years, concluded their state convention Tuesday when they nominated John D. Morrison, Marquette, as candidate for auditor general.

Morrison, virtually a political unknown below the straight, won the nomination on the first ballot against three opponents. He received 965 1/8 votes, well over the

John R. Dethmers

majority of 635 required as delegates headed plans to place an upper peninsula man on the GOP ticket.

Defeated candidates and their first ballot votes included: Gerald E. Mallory, Blissford, 1417-8; Charles A. Sparks, Pontiac, 131; and Lyle B. Austin, Lansing, 113. John R. Dethmers, Holland, state party chairman, was nominated without opposition as candidate for attorney general to succeed Herbert J. Rushton, Escanaba, who is retiring from politics. Secretary of State Herman H. Dignan, Owosso, and treasurer D. Hale Brake, Stanton, won unanimous renomination.

The day's only scrap which excited the 1,268 delegates developed over the auditor general post, but ended amicably. Morrison's path was cleared when Rep. Victor A. Knox, Sault Ste. Marie, bowed out, uniting upper peninsula delegations on the Marquette public accountant.

The Wayne delegation, which barely had time to cast its one ballot before members had to leave to catch a train, gave Morrison 284 of its 325 votes.

School Children Urged to Join in Milkweed Drive

Washington, Aug. 3—Michigan school-age children are expected to lead the nation in a milkweed picking campaign, aimed at collecting some 1 1/2 million pounds, a war food administration spokesman prophesied. This weed, long considered a "nuisance plant" before the war, is the all-important substitute of imported kapok.

Picking time for this cottony floss, found in abandoned fields, pastures and along roadsides in Michigan, won't be before mid-September, but the call to organize now has been sounded by Harry A. Gunning, milkweed expert of the department of agriculture.

For each air-dried sack of this only seaworthy substitute for bouyant kapok, they will receive 20 cents, and for each bag of uncured pods, 15 cents.

Bags for collection as well as paychecks will come from district school superintendents. They will turn over all full sacks to the War Hemp Industries in Petoskey, an agency of the war food administration, which processes the dry floss for use in "Mae West" jackets. The milkweed processing division of this non-profit Michigan corporation is the only one of its kind in the country.

The armed forces desperately need this critical material. When Japan seized Java, our entire source of kapok was cut off.

Holland children will pick milkweed under the direction of Miss Lida Rogers' high school biology classes.

Cite Progress On Removal of Odor Nuisance

James Ver Houwe

The civic improvement committee Wednesday night "reported progress" on eliminating odor and smoke nuisances emanating from various local industrial firms. The committee consisting of Ald. Herman Mool, Don Slighter and Henry Te Roller together with City Attorney Vernon D. Ten Cate toured the four concerns July 25.

At the Doughnut Corp. the committee found that a tile had been put in place and boxes installed for direct diversion of waste water going directly into the 12th St. storm sewer. The pipe line was leaking badly in several places. Subsequent reports to the committee by the city attorney revealed that this situation has been substantially remedied although not completely, the report read.

The report continued by stating that the level of the pond responsible for the odors had already dropped one foot and that the company has not been able to get the sodium nitrate, although they have priorities for it. The suppliers of the nitrate and the state of Michigan have not been able to obtain it. The city attorney also reported that the investigation at adjoining property holders reveals that the odor is substantially reduced and some neighbors report not having noticed it at all.

Regarding the smoke nuisance at the Swift Ice Cream Co., the committee discussed complaints with the manager who was very cooperative and promised that employees would blow the flues more often to obtain better combustion.

Investigation at the Northern Wood Products Co., formerly the Strom King Co., revealed that the dust arrester was in operation and that a slight dust was coming from it. The superintendent reported that engineers were in the process of reconstructing the system. He felt that any nuisance from this source would be entirely eliminated. There was no apparent nuisance on the day of the call, the report read.

At the Holland Gas Co., the committee watched the operation of the plant, especially with reference to the discharge of fumes through exhaust pipes. There was no perceptible gas odor in the vicinity, but the explosion reported in that of excess gas causing a heavy smoke that settled over adjoining property. Coal smoke nuisance was not apparent at the time of the call, the committee reported.

Three Local Men Are Wounded

3/Sgt. Bernard Rowan

Pfc. Ivan E. Schaap

Mr. and Mrs. William Schaap, route 5, received a telegram from the war department Sunday morning stating that their son, Pfc. Ivan E. Schaap, 19, was seriously wounded in action in France July 7. The wire gave no details but promised further information when available.

A letter received by the parents Saturday morning from their son, the first word in four weeks, revealed that he was in a hospital in England. The letter could give no details but was written in the soldier's own handwriting. Previous letters had stated he had been in Cherbourg.

Pfc. Schaap was inducted into the army Oct. 15, 1943, and received his basic training in Camp Fannin, Tex., before going overseas where he was assigned to an infantry division. He was born July 26, 1925, and before entering the service was employed at Mannes' service station.

Miss Jean Rowan, 133 East Ninth St., has received word that her brother, S/Sgt. Bernard Rowan, 23, was wounded in action in France and has been transferred to an English hospital, where he will remain for some time. The original wire, sent to his father, Joseph Rowan of Detroit, promised further details as they were learned.

Sgt. Rowan was born in Hol-

land Oct. 13, 1920, and was drafted in May, 1941. He had been stationed at Camp Walters, Tex., Camp Joseph T. Robinson, Ark., in several California camps where he was on guard duty for 18 months, and at Camp Rucker, Ala., where he was an army technician in a supply room, before leaving for overseas.

He is a graduate of Holland High school and before entering the service was employed by the Bay View Furniture Co. He has another brother, Pvt. Robert D. Rowan, also in the army.

Mr. and Mrs. Richard Sjaarda of 186 West 20th St. received a letter from their son, Pfc. Melvin Sjaarda, informing them he had been wounded in action in France July 16. The letter, written by Pfc. Sjaarda on July 21, stated he had received shrapnel wounds in the shoulder. The parents have received no official war department telegram.

Pfc. Sjaarda, who served in North Africa and Sicily prior to going to England and then to France, had been fighting for three weeks with an infantry unit around Cherbourg. Following a rest period he again went into battle and was wounded. He entered service Nov. 16, 1942 and has been overseas 15 months. Before entering army service he was employed by the Chris-Craft corp.

Collect Over 17 Tons of Paper

Henry Geerlings, who heads the paper salvage division of the Holland office of civilian defense, has announced that a total of 17 1/4 tons of waste paper was collected in Friday's drive throughout the city. He considered this a good showing for the city. Last January about 20 tons were collected.

At the rate of \$8 a ton, the sale of Friday's collection will bring \$138. Of this amount, \$100 will go into the local OCD treasury and the remainder will be turned over to the engineering department which furnished trucks and drivers for the pickup, Geerlings said.

Sgt. Yund entered the army in December, 1941. He was stationed at Fort Dix, N.J., Camp Wolters, Tex., Fort Jackson, S.C., and Camp Gordon Johnston, Fla., before going overseas in January. While in training he was awarded expert marksmanship, rifle, bayonet and machine gun medals.

Sgt. Yund is the son of W. E. Yund of Benton Harbor. His wife, the former Marian Severance, resides at 329 West 19th St.

Foresee August Shortage Of Truck and Bus Tires

The probable truck tire crisis appears now to be arriving in August, according to Jacob Zweedyk, Grand Rapids district OPA director. The imminent shortage, in bus and truck tires of size 8.25 and over, may force off the road trucks which are unable to obtain tires under the small August allotment.

In view of the fact that there will be available on an average of less than eight tires per ration board in this district, extremely high standards of essentiality must be applied and a district tire board will be set up to handle the difficult job of allotting the few available tires.

Castle Park Horse Show Attracts Many Exhibitors

A large crowd of exhibitors and spectators was present at the fifth annual Castle Park Junior Horse Show, which was held Saturday at Maplebrook Farm, Castle park. This show was put on entirely by the children of Castle Park under the supervision of Carter P. Brown and Margaret McLean, and was a combination of games and horsemanship classes.

Although the majority of the entries were from Castle park, many riders from Holland and vicinity were present. Among them were Howard Plaggemars, David and Ted Bosch, Marney Whinery, Mary Ver Meulen, Jim and John Butth, George Pelgrim, Jim, Paul and Roger Van Wyk, Tom and Henry Maentz, Harlow and Warren De Jongh, Angeline Chandler, Arlene Vander Heuvel, Sarah Jo and Karel Mari Kleinhekel, Lois Koopman, David Eusden, and Connie Boersma.

The morning classes opened with the leadline class for youngsters under 7, which was won by Howard Plaggemars on Fantasia, with Albert Askerberg on Peanut second, and Jimmy Benedict on Gypsy third. The cracker eating race was won by Marney Whinery on Queen, and the horsemanship class for children 7 and 8 years old was won by Julie Hammi, on Peanut, with second place going to Marney Whinery on Queen and third to Bobby Kales on Gypsy.

Jane Kales won the bending race on Chief and also rode off with the blue ribbon on Laughlin on the horsemanship class for children 9 and 10 years old, in which Eleanor Feicht on Happy was second, Mary Ver Meulen on Chief third, and Cynthia Laing on Foxiana fourth.

The first division of the novice class for children under 12, an innovation this year, was won by Virginia Rich on Foxiana, with George Pelgrim on Gypsy third, John Bonbright on Gypsy third, Cecilia Bonbright on Happy fourth, and Sarah Jo Kleinhekel on Booter fifth. The second division of this class was won by Jim Thornton on Gypsy, with Paul Van Wyk on Rocky second, Charles Fauvre on Foxiana third, and Jim Van Wyk on Skippy fourth.

The morning classes closed with an exciting game of Musical Chairs, which was finally won by Warren De Jongh on Dynamite, with second place awarded to Paul Van Wyk on Rocky, third to Angeline Chandler on Betty Lee, and fourth to Arlene Vander Heuvel on Chief.

The first class of the afternoon was junior jumping. A different course was selected for each rider by the judge, increasing in difficulty with the amount of experience of each rider. Connie Boersma on Peanut was the winner of this class, with Ellen Parsons of East Lansing second on Black Sally, Judy Butler on Laughlin third, and Arlene Vander Heuvel on Dwight fourth. Miss Boersma's excellent performance was especially outstanding in view of the fact that she had only been jumping a strange mount.

The water carrying race was won by Judy Frost on Gypsy, and the horsemanship class for children 11 and 12 years old went to Judy Butler on Laughlin, with Henry Maentz on Peanut second, John Bath on Gypsy third,

and Betty Werner on Flicka fourth.

A novice class for riders over 12 was won by Patricia Brennan of East Lansing on Happy, with Karel Mari Kleinhekel on Peanut second, Warren De Jongh on Dewey third, and David Eusden on Booter fourth. Arlene Vander Heuvel on Chief won the obstacle race, and the horsemanship class for children 13 through 17 was won by Ellen Parsons on Black Sally, with second place going to Connie Boersma on Fantasia, third to Arlene Vander Heuvel on Dwight, and fourth to Sally Frost on Gypsy.

The climax of the show came with the championship class, in which previous winners competed for the Carter P. Brown perpetual trophy. The riders were asked to change mounts and perform figure eights and other maneuvers as directed by the judge. Interest ran high in the audience as the two leading riders seemed tied for the highest honor, and the final decision of the judge made Miss Connie Boersma champion of the show, with Miss Ellen Parsons, last year's winner of this trophy, reserve champion. Miss Boersma was riding Fantasia and Miss Parsons was up on Black Sally, and both handled their mounts with the skill and ease of veteran riders.

John Wallace of the Bloomfield Hills Hunt club of Detroit judged the show, and the junior committee in charge consisted of Judy Butler, Mary Ver Meulen, Lucille Van Domelen, Gretchen Askerberg, John Robertson, Bob Stekete, and David Carr.

THE FRIENDS HE HAS MADE

The New Deal spellbinders are
making eloquent speeches exist-
ing over the "enemies the presi-
dent has made." They shout that
they love him for it, that it is the
measure of his true greatness.

Very well. The enemies a public
man makes are not a too unreli-
able measure of his political stature.
But logic demands that the New
Deal also subscribe to the
obverse of this principle. If a man
is to be praised for the vicious en-
emies he has made, he should in
all fairness be held to blame for
such vicious friends he has made.
By that test the president is in a
vulnerable position.

The most democratic bosses
in America today have attached
themselves to the New Deal party
and are loud in their fulsome
praise of the president. Although
Mr. Roosevelt has not created
those bosses, he has accepted their
aid and he is on terms of personal
friendship with them. If the New
Deal spokesmen had not insisted
so much on praising the president
for the enemies he has made it
might seem ungenerous to insist
on the significance of the pres-
ence of the big political bosses in
the party. But the eulogists of the
president invite this comment on
bossism in the Democratic ranks.

Seldom in the history of Amer-
ican politics has there been a
more undemocratic boss in a posi-
tion of major power than Boss
Hague of Jersey City. Hagueism
has been smelting up the Ameri-
can atmosphere for a decade, so
that Abraham Lincoln or Grover
Cleveland or Woodrow Wilson
would have put clothespins on
their noses if anyone of them had
come within ten miles of it. Hague
is a Rooseveltian buddy.

Boss Flynn of New York city
is somewhat less notorious than
Hague but there is not too much
choice between them. But Flynn
and all his boss-driven cohorts
are one hundred percent for the
president. In view of the New
Deal emphasis on the president's
enemies, what about this all-out
boss friend of the president?

Coming nearer to our own sec-
tion, there is Boss Kelly of Chi-
cago. Politically speaking Kelly
holds Chicago in the hollow of his
hand. There would be no point in
suggesting that there is anything
technically illegal in his opera-
tions; political bosses do not work
that way. But the smell of boss
control pervades Chicago like a
mist. Mayor Kelly becomes al-
most fearful in his eulogies on
Roosevelt, so that what he says
about the president is almost fun-
ny to men of reasonable mental
honesty.

Praise the president, if you wish,
for the enemies he has made, but
in doing so do not forget the boss-
es who are his buddies. One prin-
ciple involves the other.

THE CHURCH INVITES YOU

Seventy-five per cent of all Sun-
day school children, it is claimed,
drop out before they make a pro-
fession of their faith, and hun-
dreds who are promoted from the
Sunday school into church mem-
bership lose interest and eventu-
ally fall away. This wholesale scut-
tling is tragedy.

To correct this situation some-
thing must be done to create
church loyalty. Well may the gen-
eral public learn the lesson now
being taught as to the loyalty to
our country. The call of our coun-
try needs to be matched by a call
of God; joining the ranks of sol-
diers and sailors needs to be
matched by the joining of the
ranks of church-going people. The
"forward march" of the military
commanders needs to be matched
by the "forward march" of the
captain of our salvation. Why not
accept the invitation and go to
church next Sunday?

Power Through Self-Discipline
Jeremiah 35: 5-10
By Henry Geerlings

One of the most difficult condi-
tions Jeremiah had to face was the
fact that the people were disobe-
dient to God. They did not care
for his laws and they were neg-
lecting his worship. His messages
were treated with indifference. He
was not able to persuade the peo-
ple to turn from their wickedness
and give Jehovah a chance to re-
new his love of blessings to them.
Judah deserved to be severely re-
buked. There had been a cease-
less round of favors bestowed upon
them by Jehovah. They were the
last people who should think of
tolerating disloyalty. But even
the predictions of complete over-
throw and captivity, as a punish-
ment if they persisted in their
sins, did not suffice to check their
evil ways. The strange object les-
son on loyalty which our lesson de-
scribes deserves careful study.

Strangely enough, Jehovah sug-
gested that the Rechabites be test-
ed in the matter of drinking wine.
The place appointed was a room
just off the temple court, where
they would be in sight of the peo-
ple. Into this public place the Re-
chabites were brought and Jeremi-
ah set before them large bowls
of wine and cups. He ordered
them to drink the wine. This tem-
tation was such an odd thing for
the prophet to give them. He had
gone up and down the land de-
nouncing drunkenness and plead-
ing with the people to be temper-
ate. Besides why should this man
of God make such a demand. Did
he not know the previous history
of these people? Did he want
them to become an open disgrace
before the people? Was he plot-
ting against them, trying to bring
them into some criminal act that
would give grounds for their de-
struction? But what could be wrong
about it since the order was from
the prophet of Jehovah and was
given right by the temple? Be-
sides, the Rechabites needed the
protection of Judah, and what if
they did break their own tradi-
tional laws against drinking wine
if they might win favor with the
people and the prophet of Jehovah.
They were placed in an awkward
position. If they refused, it would
be at the risk of displeasing Jeremi-
ah. It was not an easy thing
for them to decide.

The Rechabites were under the
charge by their ancient ancestor
never to drink wine. That wise
man had foreseen the certain dan-
gers in drunkenness and had given
his people a solemn covenant in
which they were bound to refuse
wine. To further safeguard them
against falling into the evil habit,
he had ordered that they should al-
ways live in tents. He feared that
city life would expose them to
temptations to drink wine and that
they might yield. It seemed like
a hard rule he laid down for them,
but they had always lived up to it.

So their reply to Jeremiah was
an absolute refusal. They would
not touch the wine. They ex-
plained the solemn pledge under
which they were living. They
would not be disloyal to Jonadab,
who made the law, as to break it.
We may well be assured that
God knew these sturdy men would
not drink the wine. Jeremiah was
sure they would stand the test. The
purpose was not to get them to
drink the wine but to use their re-
fusal to go back to their ancestor,
be disrespectful to his wish and
order, as a basis for a strong ap-
peal of the people to cease their
disloyalty and lack of respect for
Jehovah. Certainly God had done
enough for them to justify him in
expecting as much respect and loy-
alty as these descendants of Rechab
had manifested for their ancestor.

Holland In 1913

After September first the price
of milk in Holland will be seven
cents a quart instead of six
cents, according to a story ap-
pearing in the Thursday, Aug.
21, issue of the Holland Daily
Sentinel published in 1913. The
reason given by the milk dealers
for the increase are the long con-
tinued drought, the shortage in
milk and the increased expense
of conducting dairies that will
comply with all the sanitary
regulations. The weather has
been such that milk has become
very scarce, and it is becoming
increasingly difficult, the milk
dealers declare, to get enough
milk to meet the demand.

Mr. and Mrs. G. Molenaar were
pleasantly surprised at the home

Putten, West 17th St., the occa-
sion being their 25th wedding an-
niversary. Those present were W.

Appledorn, Sr., Mr. and Mrs. E.
S. Holkeboer, J. Molenaar, Mr.

sies Cora Molenaar, M. Vander

As it is required that elemen-
tary agriculture shall be taught
in the grades of the public
schools, the teachers, especially in
the rural districts, must have in-
struction in this interesting and
practical field of knowledge. Ac-
cordingly, attention will be given
in the Preparatory school of Hope
college to meeting this require-
ment. One of the three courses
in the Preparatory school is the
normal-science. This is planned
especially for those young people
who wish to fit themselves for
teaching, either in the country
districts or in the grades of vil-
lage or city schools. The branches
of physics, chemistry and natural
science, belonging to this course
will be so taught that those go-
ing out to teach will find them-
selves qualified to give instruction
in elementary agriculture.

Du Saar's Photo, Gift Shop Is Sold

After 30 years of service to Holland, the Du Saar Photo and Gift shop has been sold to Albert Schaafsma.

The business started on River Ave. in 1914 in the Art Gumsier shop before moving to the present location, the 11 Peasink building in 1921, buying out Paul Coster. The shop moved across the street while the present store, now owned by Walter Walsh was being built.

Photo finishing was a hobby of Mr. Du Saar and the gift stock was the hobby of Mrs. Du Saar. They worked together for nearly 20 years. Ten years ago Mr. Du Saar died and Mrs. Du Saar took over the business. Since that time, she has operated alone with the aid of efficient clerks and photo finishers.

It is with deep regret that owing to her health, Mrs. Du Saar is compelled to sell. She will miss greatly her many friends and acquaintances that drop in daily, she says.

Since March, Mrs. Du Saar has been operating the Mar-Do millinery shop at 13 West 8th St. The shop carries exclusive millinery and accessories. Alterations on garments are also made. The shop carries La France hosiery.

De Kraker Awaits Assignment After 51 Flight Missions

Navigator, Graduate Of Hope, Has DFC, Air Medal, Purple Heart

Lt. Donald De Kraker

Miami Beach, Fla., Aug. 3 — "Our crew flew the 'Pistol Packin' Mama' 39 missions without ever falling to reach and bomb the target—on her 40th raid another crew took her out and was shot down!"

First Lt. Donald De Kraker, 26, son of Mr. and Mrs. Peter De Kraker, 231 West 17th St., Holland, Mich., told this story at army air forces redistribution station No. 2 in Miami Beach where he is now awaiting reassignment to duty within the continental United States.

One of the B-24 Liberator navigator's toughest missions was a raid on Marseilles in May, two missions before he was scheduled for return to the United States.

"Over the target we had two engines knocked out," he recalled. "We tried to dive out of the formation, but the whole group dove with us. We couldn't tell them our predicament, for our radio was out. When I look back on it, it seems funny, but it wasn't when it was happening."

"The rest of the bombers finally left us to be protected by fighter cover, and we started to throw out everything moveable to lighten the plane."

"Our base was in Italy, but we headed for Corsica, where our pilot made a downwind landing on a small fighter field. We stopped just short of an embankment."

Lt. De Kraker was wounded by flak on a raid to bomb an aircraft factory at Styker, Austria. He flew 51 missions and was awarded the Distinguished Flying Cross, the Air Medal with five oak leaf clusters, and the Purple Heart.

He was graduated from Holland high school in 1936, and in 1940 he received his A. B. degree from Hope college, Holland. Before entering the army in June, 1941, he was employed as a chemist at Chemical Specialties Inc., Zeeland, Mich.

At AAF redistribution station No. 2, where Lt. De Kraker is being processed, AAF returns from theaters of operation are examined by specially selected medical and classification officers whose findings are used in recommending new assignments. Theme of the AAF redistribution program is designation of each man to duty for which he is best fitted. At a redistribution station, returnees live under conditions that encourage natural response to processing, the greater part of their two-week stay being devoted to rest and recreation.

Lt. De Kraker spent a week with his family in Holland before going to Miami Beach. He is a brother of Police Officer Isaac De Kraker.

CHEMICALLY GROWS

Tomatoes are grown chemically by the Stanton Co. in the Youngsma greenhouse at Lakewood. The pictures show how nutritious solution is fed through silica sand to the roots of four plants in a box measuring 41 feet long.

Although F. W. Stanton, president of the company, visited several establishments in various parts of the country which use the solution, he designed his own quantity system for feeding the plants. All moving parts are eliminated.

Because the solution contains a balanced diet, the plants are exceptionally sturdy and luxuriant in their growth and production, but their root systems are not so large as on garden grown tomato plants, due to the fact that almost no effort is required in finding their food and moisture. Many comment that the fruit tastes sweeter than garden grown tomatoes.

Plants started from seed Feb. 24 are now over seven feet tall as shown in lower picture and have been producing ripe tomatoes since early in June. Two or three plants seeded in Sept. 1, 1943, were moved to the present location from a green house on State Street in Holland in March of this year. These are now over 16 feet tall and have been producing continuously since January 1.

Full production is expected to be attained by November and carried through to the first of August of next year.

The upper picture of the feeding of the plants is one of several taken by the horticultural department of Michigan State college when three members visited the greenhouse in June. Due to the frequent use of gas for pest extermination the green house is not open for inspection.

COMMON COUNCIL

Holland, Mich., July 19, 1944 The Common Council met in regular session and was called to order by the Mayor.

Present: Mayor Schepers, Ald. Te Roller, Steffens, Bontekoe, Slagh, DePree, Mool, Streur, Damson, Slighter, Meengs, Dalman, City Atty. Ten Cate, City Eng. Zuidema, and the Clerk.

Devotions led by Alderman Mool.

Minutes read and approved. Petitions and Accounts Clerk presented Oath of office of Jacob R. Bultman as member of Park and Cemetery Board to

fill the unexpired term of C. M. Selby, who resigned on account of leaving the city.

Accepted and filed. Clerk presented report of inspection of the boiler at Holland hospital by the Hartford Steam Boiler Inspection Insurance Co. It was reported that 3 tubes were found in a leaky condition and the remainder, with the exception of 6 tubes that were replaced in 1942, were rather thin and no longer considered reliable. It is recommended that all old tubes be replaced. Clerk reported having contacted the Hospital on this matter and was informed these old tubes have already been replaced.

Accepted and filed. A delegation was present from the east end of the City who live in the vicinity of the Mich. Gas and Electric Co. Plant.

Mayor Schepers called for a spokesman to present their case, and Mr. Neal De Waard stated that this was not the first time that they have appeared before the Council to protest against the nuisance caused by smoke and fumes from the Gas plant.

Mr. De Waard mentioned the fact that there may be other sources that cause some nuisance; however, they were all convinced that the principal offender is the Gas Co. Mr. De Waard stated that personally he has put forth considerable effort during the past years to keep the Lake clean from pollution and he was just as anxious to see the City kept clean. Mr. De Waard further stated that he realized that this is something on which it might be impossible to get perfection; however, he felt, and the other residents in the vicinity felt, that a considerable improvement could be made over the present situation. He mentioned the fact that in some of the larger cities they have practically overcome the smoke nuisance and it was his opinion that with proper firing and proper equipment and attention a great deal of this nuisance could be eliminated.

Mr. Marine Brandt, who was present also spoke stating that as janitor of the Sixth Reformed Church, he was obliged last Sunday to close the windows because of the smell and smoke caused by the Gas plant. Mr. Earl Goon, local manager for the Gas Co., who was present, stated that he had been of the opinion that conditions were not as bad as represented. Mr. Goon stated that about a year ago they had a combustion engineer here to study the situation and as a result had put in a new type of grate as recommended. Mr. Goon further stated they are using a good grade of coal which is fired by an "Iron Fireman Stoker." Mr. Goon further stated that he would be very happy to work with any committee or group of men who might be in a position to help them further overcome some of this smoke nuisance which is being complained about this evening.

Both Alderman De Pree and Slagh stated that they have been called by citizens in this vicinity from time to time. Mr. De Pree stated that he had been in the vicinity many times unknown to any of the residents there, but during the times that he has been there, he never saw the chimney belching smoke.

Mr. Slagh, however, stated that he has seen times when there was a considerable amount of smoke belching from this chimney. Alderman Slagh further stated that he was of the opinion that a large amount of this nuisance is caused by the carelessness of the employees in the manner in which they fire the boilers.

In this connection, Alderman Te Roller reported that he also has had complaints recently in regard to the nuisance caused by the

Storm King Co. on 6th St. Mr. Te Roller stated that not only smoke from this plant was causing a nuisance, but also particles of shellac and dust from the blower which were going into the air.

Alderman Steffens also reported that the West end of the City from the Doughnut Corporation that has been causing a considerable amount of odor during the past year and this has not as yet been eliminated.

After some further discussion between those present and Mr. Goon and the Alderman, it was moved by Alderman Slagh, 2nd by De Pree, that all these nuisances be referred to the Civic Improvement Committee together with the City Attorney and Alderman Slagh and De Pree.

Before leaving, Mr. De Waard, on behalf of the delegation present, stated that they feel they do definitely have a grievance and would like to see some concerted action taken to eliminate as much as possible of this nuisance.

During the discussion it was reported to Mr. Goon that from certain locations in that neighborhood there is a definite gas smell which they feel is caused from broken mains.

Mr. Goon stated that he was very appreciative of the assistance that their Company has received from the different city employees and other citizens who have reported to them gas odors which they felt came from broken mains and in all these cases they have remedied the situation promptly.

Reports of Standing Committees Committee on Ways and Means reported for information of the Council that they have recently had a meeting with a Mr. Cole who represents an appraising firm. This is in regard to an appraisal of all residential properties that was referred to the Committee sometime ago.

Committee further stated that they were receiving a definite quotation from Mr. Cole and also had written to the Clemenshaw Co., another appraisal firm, for a quotation on making an appraisal of all our residential properties.

Claims and Accounts Committee reported having examined claims in the sum of \$13,719.71, and recommended payment thereof.

Allowed. Sewer Committee reported for information of the Council that a joint meeting had been held between the representatives of Ottawa and Allegan Counties and the City Engineer and City Attorney and other committee members in regard to the construction of a drain in the southeast end of the City which concerns both Ottawa and Allegan Counties as well as the City of Holland.

The Committee then called upon the City Attorney to explain the law in regard to the construction of open drains. Mr. Ten Cate reported that there now is a law on the Statute books which permits the dumping of raw sewage into the open drains. However, this law has been changed but does not become effective until 1945, which prevents such practice.

It was further reported that another hearing will be held later on after some definite plans have been adopted and at that time the City will be represented to look after its interests.

Mr. Ten Cate further stated that the City's interests is in seeing that no raw sewage is emptied in any open drains which would in any way affect the City of Holland.

Reports of Special Committees

The Postwar Planning Committee reported that they have had several meetings and have now come to an agreement with Louis C. Kingscott and Associates, Inc.

of Kalamazoo, Mich., as Architect for the proposed municipal recreation building. It was explained briefly that the Agreement which is being proposed is quite similar to that approved by the Council sometime ago with another architect, but was not consummated.

This Agreement provides that the City does not obligate itself beyond \$1200.00 for preliminary plans and sketches. It does provide, however, for the employment of an architect on a 6 per cent basis if the citizens of Holland vote to bond for such a building, such vote to be held before July 1, 1945.

It was moved by Alderman Mool, 2nd by Streur, that the City enter into such a contract with Louis C. Kingscott and Associates, Inc., and that the Mayor and Clerk be authorized to sign the Agreement on behalf of the City.

Adopted all voting Aye. The Postwar Planning Committee presented another resolution which provides for making an application to the Michigan Planning Commission for funds in the amount of \$9000.00 to finance the drawing up of plans and specifications for such a recreation building. Under a recent statute adopted by the State Legislature such Planning Commission is authorized by law to pay up to 50 per cent of preparing plans for such a post-war structure.

Adopted. Communications from Boards and City Officers

The claims approved by the following Boards were ordered certified to the Council for payment: Hospital Board - - - \$3769.60 Library Board - - - 250.05 Park and Cemetery Board - - - 2247.46
