Referred for Action

Eleven property owners in the vicinity petitioned Common Council Wednesday night to do something about Arthur I. Hazzard keeping goats, sometimes cows and calves on his property at 28th St. and Van Raalte Ave.

The city fathers referred the matter to the Safety commission, city inspector and city attorney for action.

According to the petition read at the regular council meeting, odors caused by the animals, and manure piles that attract flies create general nuisances.

City Attorney Orien S. Cross said the city ordinance forbids keeping goats within 125 feet of a residence.

Regular reports were read at the meeting, including the building inspector's that stated 57 applications for building permits during July for a value of \$79,894.

The fire inspector's report showed 92 stores inspected during July and 15 warnings issued.

The health inspector said three contagious diseases were reported to him during the month of July. They were one each of measles, chicken pox and whooping cough.

Council approved the Carley Amusement Co. request to renew its permit to operate the Holland, Center and Park theaters for another year. Applications to sell soft drinks were okayed for Mannes Super station at 581 State St.; and Ben H. Lievense at 215 Central Ave. Council also stamped its approval on Lievense's request to operate a bowling alley at the Central Ave. site.

Council voted to vest power to regulate operation of boats at Kollen park dock with the Park and Cemetery board.

The Park and Cemetery board announced that a lighting specialist from General Electric Co. would be in Holland Aug. 16 to give recommendations pertaining to lighting at Kollen park. The Public Lighting committee of council and the mayor were asked to be present at the discussion.

Council okayed payment of \$10,151.04 to Grand Rapids Asphalt Paving Co. to cover cost of putting the two-inch wearing surface on West Eighth St., from River to Washington Aves.

Two delinquent light and power bills were reported by the Board of Public Works. The amounts will be charged against the delinquents on the fall tax bills, according to council action.

Claims and accounts totaled \$19,694.27. Other claims were: hospital, \$7,479.64; library, \$529.21; park and cemetery, \$3,818; BPW, \$24,907.51; hospital building fund, \$26,759.79.

City Clerk Clarence Grevenog reported current school taxes had been collected totaling \$32,533.78, also delinquent taxes collected for schools in the second quarter amounted to \$285.32, further that delinquent water main assessments is the amount of \$12 had been collected. Council authorized payment of the sums to the Board of Education and BPW.

State Parks Report Record July Crowds

Holland and Grand Haven state parks today reported that the month of July during the heat wave cracked records for attendance.

Holland state park reported 364,450 visitors for the month alone and Grand Haven listed a total of 1,750,000 visitors for the year so far. The Holland state park unofficial estimate listed more than a million visitors for the summer to date.

Holland enjoyed continued cool temperatures today, following a month which brought the hottest weather and the most rainfall in any July over a period of several years.

July had the highest maximum, highest minimum, highest average, the most rainfall and the most thunderstorms in corresponding months the last five years.

According to Charles Stekete, who compiles weather data while Chief Observer Jay Folkert is attending summer school, Holland's maximum was 96 degrees with an average temperature of 75.3 degrees which is 3.6 degrees above normal.

Rainfall which accompanied five thunderstorms totaled 7.92 inches which is 5.57 inches above normal. There were three thunderstorms in 1948, two in 1947 and none in 1946 or 1945.

During the month, there were nine days in which the mercury hit 90 or above. In the previous years the days ran four and less.

The 7.92 record rainfall compares with 3.62 in 1948, 2.41 in 1947, .66 in 1946 and 2.36 in 1945. Minimum temperature was 51 and average was 75.3. Average minimum was 64 and average maximum 86.6.

Predictions called for continued cool weather Tuesday. Temperatures dropped dramatically during the week-end as a cold front from Canada swept the heat-tortured area from the Rocky mountains to the Atlantic. At New York City, the mercury climbed to a high of only 83 Sunday after hitting above 90 most of the week.

In the wake of the cold front, the mercury fell to unseasonable lows in some spots. LaCrosse, Wis., had a low Sunday of 50 degrees. Several tornadoes struck about Sunday Sunday near Beres Ford and Garretson, S.D. They caused considerable damage to farms but no injuries.

Accident Victim Reported 'Good'

Clara Grua, 26, of Grand Rapids, was reported in a "good" condition today by Holland hospital authorities. She received a fractured skull and other injuries Saturday night in an accident on Townline Rd., one mile south of Graafschap.

She was riding in a car driven by Frank Versluis, also of Grand Rapids. The other auto involved was driven by Mrs. Ray Kuiper of 987 South Shore Dr.

The impact of the collision threw both cars into deep ditches alongside the road. According to Allegan deputies who investigated, the Kuiper car landed in a 10-foot ditch.

Kuiper, who was riding in the car, and his wife, kicked out a window of their overturned car to escape. There was water in the ditch. The other car landed in about two-feet of water.

Kuiper received a fractured rib in the mishap. Both he and his wife went to the nearby house of a relative.

Versluis received cuts and bruises.

The Kuipers were returning to Holland and the other car was headed west on a side road after getting lost en route to a Lake Michigan beach.

Both cars were damaged beyond repair.

Tug Salvages Sunken Barge

Harrington's dock was visited by a stranger to Holland waters today. The tug "Tramp" of Charlevoix pulled into the dock with a half-submerged sand barge in tow.

Michael Prus of Sault Ste. Marie, skipper of the tug, said the barge was reported to him by the Milwaukee corps of engineers station. He also said that the barge was found bottom up, just north of the channel on Lake Michigan.

Prus and his crew of three spent the day righting the barge which was a navigation hazard in lake waters. Friday they will take it to St. Joseph where another sunken vessel will be picked up.

Then, after salvage operations have been completed on the second, both craft will be towed to St. Ignace.

Texan Bound Over In Car Theft Case

Antonio Lopez, 30, of Texas, charged by the sheriff's department with unlawfully driving away a car, was bound over to Circuit Court following an examination before Municipal Judge Cornelius vander Meulen Tuesday afternoon.

Lopez was charged with driving away a car belonging to Borelco garage July 2. Unable to furnish \$1,000 bond, he will be confined in Ottawa county jail until his appearance Friday at 10 a.m.

Lopez, who claims he does not speak or understand English, was accompanied by Jesus Saldana, who was sworn in to act as interpreter. Lopez did not take the stand in his own defense. All testimony was interpreted in Spanish for Lopez' benefit.

Prosecutor Wendell Miles called two witnesses, Elmer Nienhuis, a partner of Borelco garage, and Deputy Clayton Forry who went after Lopez at St. Joseph where the latter had been picked up by deputies. The car was recovered July 29 in Berrien county.

Although Lopez insisted he could not understand English, Forry testified Lopez told him on the return trip to Holland that he had gone to St. Joseph to look for his mother.

Police Report Three Mishaps

Three accidents were reported by local police during the week-end. Officers also report a busy week-end with traffic assuming almost Tulip Time proportions many times on the main highways through Holland.

Harry McFall, 3, of 198 East Ninth St., wasn't injured when he was struck by a car at the intersection of Lincoln Ave. and Eighth St. Saturday evening. The car was driven by James R. Baker of route 1, Diamond Lake.

Witnesses were Gilbert Vandewater, Harry Knapp and J. Van Grondell who told police Baker did a good job of trying to avoid hitting the boy. They said the car was almost stopped when it struck the boy.

A car and a semi-tractor were involved in another mishap Saturday at 5:45 p.m. at the intersection of River Ave. and 12th St. The car was driven by John Lemmen of 525 West 22nd St. and was traveling west on 12th. The semi, going south on River, was driven by Ollie Wierenga.

Lemmen told police the fluid had gone out of his brakes and he couldn't stop. He was given a summons for failing to yield the right of way to traffic.

Car driven by Catherine Michmershuizen of route 3, and Francis J. Green of 194 West 18th St., collided at the intersection of Sixth St. and College Ave. Saturday afternoon. No one was injured.

Local Girl Drowns Near Muskegon

A family outing of Mr. and Mrs. George Vanderwall and their six children of 208 1/4 West 14th St., ended in tragedy Wednesday afternoon.

Little Maxine K. Vanderwall, their six-year-old daughter, was drowned when she stepped off the end of a rowboat into 20 feet of water at West lake, 20 miles northwest of Muskegon.

The tragic accident occurred at 4:30 p.m. and she was pronounced dead at 10:30 p.m. after heroic and exhaustive efforts to revive her at the beach, and at Hackley hospital, Muskegon, failed.

The family had gone to West lake to visit a cottage of the Rev. and Mrs. Jacob Boerman of Pekin, Ill. They arrived about 3:15 p.m.

Mrs. Vanderwall, Mrs. Boerman and Gerard, Billy and Maxine Vanderwall rowed across the lake in a boat. They went into shore and Gerard stepped out the front end onto the sandy beach.

"We could see bottom all around the boat," Mrs. Vanderwall said. However, Maxine stepped off the back end and into 20 feet of water. The lake has a sharp drop-off.

Mrs. Vanderwall immediately got out of the boat and tried to reach her daughter. She the joined hands with Mrs. Boerman but their reach was short.

"I could see her but just couldn't reach her daughter," she then joined hands with Mrs. Boerman but their reach was short.

"I began to feel that I was losing my footing on the drop-off and went for aid."

The two women got into a boat with an unidentified man to go around the area and try and locate the girl.

Mr. Vanderwall was summoned to the scene by two women, one identified as a Mrs. Larson, who rowed across the lake in another boat.

"We found the spot about where she had gone down and Boy Scouts from nearby Camp Douglas began diving," Vanderwall said. "The first youth to dive down saw Maxine on the bottom but couldn't go down that deep. Another youth, Dick Korch, of Oak Park, Ill., immediately went down and brought the body to the surface, about 15 minutes later."

Four Boy Scouts began artificial respiration in shifts on the beach.

"They did a wonderful job," Vanderwall said.

They worked for about three hours. Dr. J. N. McNair, summoned from Muskegon and a nurse from the camp administered heart stimulants. The girl's pulse was beating.

After three hours, she was taken to the Muskegon hospital. One of the Boy Scouts went along to administer artificial respiration en route. Dr. McNair of Muskegon accompanied the ambulance.

Her pulse still was beating at the hospital. A pullmotor was congested and couldn't be used.

"Every means was used to revive the girl, including efforts by Dr. S. W. Hartwell and a bronchocopy by Dr. A. W. Mulligan at the hospital."

However, she was pronounced dead at about 10:30 p.m. Death was listed as "accidental drowning."

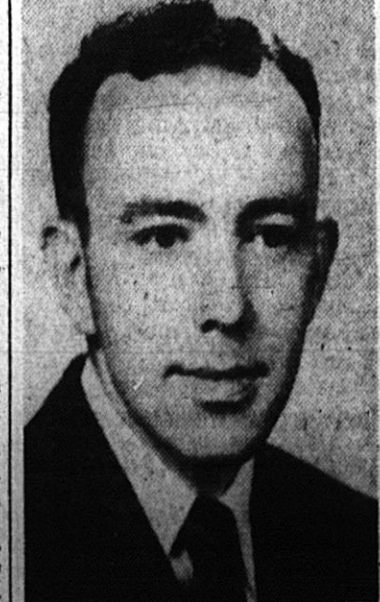

The body was returned to the Dykstra funeral home late Wednesday night.

Maxine is survived by her parents; two sister, Marilyn and Norma; three brothers, Gerald, Walter and Billy; grandparents, Mr. and Mrs. William E. Tannis and Mr. and Mrs. Walter Vanderwall, all of Hudsonville.

The dead girl was born Sept. 25, 1942 at Hudsonville.

Funeral services will be held Saturday at 1:30 p.m. at the Dykstra funeral chapel and at 2 p.m. at Sixteenth Street Christian Reformed church. The Rev. A. W. Hoogstrate will officiate and burial will be at Pilgrim Home cemetery.

The body will be taken from the funeral home to the residence Friday when friends may call from 3 to 5 and 7 to 9 p.m.

The Rev. Richard L. Ford is the new minister at Allegan Congregational church, coming from Chicago where he completed his residence work at the university toward his Ph. D. degree. Formerly of Detroit, he attended Albion college and Chicago Theological seminary. Mrs. Ford is a native of Bronson. They have two children, Catherine, 4, and David, 1.

Holland City Has First Polio Case

The first diagnosed case of polio in Holland city this year was reported by the Ottawa county health department.

Victim is 10-year-old Patricia Hower, daughter of Mrs. Letitia Hower, local school teacher living at 186 West 5th St. Ill almost a week, she was taken to Butterworth hospital in Grand Rapids where the illness was diagnosed today as polio.

Her condition was said to be serious. Paralysis involves the left leg, left arm and swallowing, according to the health department.

United Press today reported two Western Michigan cases at Blodgett hospital, Grand Rapids. The patients are Linda Daniels, two-year-old daughter of Mr. and Mrs. Roland Daniels of Muskegon, and James Buschman, three-year-old son of Mr. and Mrs. Melvin Buschman of South Haven. Both were admitted Wednesday.

A total of 2,116 persons were charged as parking violators and 2,728 such warnings were made. Males arrested totaled 1,042 and women, 64.

The department turned over to the city treasurer \$5,796 in ordinance fines, \$895 in overtime parking and pound fees, \$11,620 in officer and deputy fees, \$1,692.60 in refund operator's licenses, \$378.50 in trunkline maintenance and \$568.46 in bicycle licenses.

The chief said one of the headaches of the department is the magazine salesman. "They all seem to know our Holland people are generous. If these high pressure salesmen tell them a story about needing 50 more points for the contest, they invariably take another subscription. These salesmen become regular pests and there isn't much we can do except make it as inconvenient for them as possible."

We suggest passing an ordinance that all solicitors be fingerprinted at the police station and their records checked before permission is granted to canvass the city."

The chief said parking meters have worked out remarkably well so far, particularly since the overtime parking fine was reduced from \$1 to 50 cents.

Tax Collections Reported to Date

Summer tax collections in Holland are lagging behind last year's intake to date, according to City Treasurer Henry J. Beckfort.

Beckfort reported today that \$193,763.69 of the assessed \$466,580.49 has been collected. However, he said the amount paid represents an estimated 55 per cent of the bills sent out.

Last year at this time, \$207,165.34 of the assessed \$441,508.01 had been paid.

Tax bills must be paid before Aug. 15 to avoid penalty. After that date, two per cent is added to the bill up to Sept. 10. After that date the extra fee is six per cent.

Cars Damaged in Two Crashes Near Grand Haven

Grand Haven, Aug. 4 (Special)—Mrs. Ida Carskadon, route 1, Grand Haven, was charged by state police with making an improper left turn following an accident at 2:15 p.m. Friday on River road in Grand Haven township when her car was struck by one driven by Joseph Dennison, 35, of Grand Haven.

The impact caused the Dennison car to go off on the east shoulder of the road and strike a power pole causing considerable damage to Dennison's late model. He received bruises on both knees and was treated at his home.

Mary Ann Cooley, route 1, Fruitport, was given medical care for a bump on the head received when a car, driven by her husband, Chancey W. Cooley, 52, in which she was a passenger, was struck Friday by a car driven by Edward Dense, 31, Spring Lake, near Bowen bridge. Dense was given a ticket by state police for failing to have his car under control.

No Fishing Again

What's fishing? That's what anglers at the breakwaters are asking again today. Perch aren't biting. However, the crop in water temperature may bring the fish in, fishermen say.

Drunk Arrests On Decrease in Holland City

Annual Police Report
Reveals High Accident
Totals But No Deaths

A decrease in arrests for drunkenness featured the annual report ending March 30, 1949, of the Holland police department which was compiled recently.

During the year, there were 118 such arrests, compared with 176 in 1947, 125 in 1946, 98 in 1945, 93 in 1944, 72 in 1943 and 115 in 1942. There were 2 drunk driving cases, compared with 32 in 1947, 21 in 1946, 13 in 1945, 14 in 1944, 11 in 1943 and 23 in 1942. Police Chief Jacob Van Hoff pointed out Holland was unusually fortunate in that no fatal accidents occurred inside the city the entire year. A total of 87 persons were injured in 200 accidents, some quite seriously. "So you see, if it hadn't been for a kind Providence giving us a helping hand, that headline, 'HOLLAND, MICHIGAN, REPORTS NO FATAL ACCIDENTS FOR 1948' might easily have read differently," the chief commented.

The 1948 accident total of 200 was high for several years. It compares with 190 in 1947, 146 in 1946, 157 in 1945, 44 in 1944, 138 in 1943, 160 in 1942 and 258 in 1941. No persons were killed in 1948, two in 1947, three in 1946, two in 1945, one in 1944, two in 1943, four in 1942 and three in 1941.

Van Hoff characterized Holland as a city of home-loving, law-abiding citizens in which crime is almost unknown. Throughout the year, 1,106 arrests were made including 382 for speeding, 432 for improper driving, 118 for other motor laws, 69 drunk, 26 drunk driving, 33 for disorderly, nine for larceny, five for burglary, two for vagrancy, two for assaults, 10 for liquor law, 1 for sex offenses, one for auto theft, two for forgery and one for embezzlement.

A total of 2,116 persons were charged as parking violators and 2,728 such

Flying Dutchmen Show No Mercy To South Haven Club

Local Nine Post Nearly Two Dozen Markers For Win

If Holland's Flying Dutchmen ever had an easy time, they had one Thursday night with the South Haven Independents at Riverview park.

After 81 innings of play the game was called with the Dutchmen on the long end of a 20-3 count.

Mike Skaalen was on the mound for the locals. And while his mates collected 22 hits, eight of them for extra bases, he held South Haven to nine safeties.

Both teams went down quickly in the first inning. But in the second, Benny Batema's boys unleashed a seven-hit attack that was good for a like number of runs.

From then on it was velvet—so far as the Dutchmen were concerned.

Harry De Neff came to bat to open the second and singled to right. Gene Schrottenboer advanced him to second with another single and Ron Appledorn got credit for the first RBI with the third one-base blow.

Jerry Witteveen's double in series with singles by Ron Fortney, Leon Wenzel and Lou Borgman produced the final inning tallies.

But, apparently, the Dutchmen weren't satisfied with seven runs. Six more were added in the third frame.

Appledorn clouted a savage triple to deep center, driving home Schrottenboer who had singled to open the inning. The center fielder scored himself a moment later on a wild pitch.

Three more runs were tallied in the fourth, with Fortney and Frank Wlodarczyk leading the way with triples. And the Dutchmen posted a pair of runs in the fifth and a like number in the sixth to conclude their run producing.

South Haven bunched three hits in the fourth to score two markers. In the sixth inning it counted one more. But at no time did a threat appear to the Dutchmen's lead.

Every man in the starting lineup for the locals collected at least one hit. Wlodarczyk and Schrottenboer headed the batters with four for six. In addition Witteveen had three for five and Fortney three for six.

Canadian Craft Threatens U.S.

Detroit, July 29 (UP)—Lone Harmsworth challenger Miss Canada IV, pride of the dominion, ruled as a strong favorite to whip America's carefully picked three boat team in the first heat of the international motor boat classic today.

America's hopes for continuing its 28-year Harmsworth reign rested on Detroit Jack Schaefer's much improved Such Crust I, Dependable Skip-a-Long, owned by Stanley Dollar of San Francisco, and Horace Dodge's My Sweetie. The vanguard of more than 50,000 boating enthusiasts began lining the banks of the turbid Detroit river at dawn seeking "50-yard line" vantage points for the battle over the six-lap, 42-mile grind.

United States skippers have good reason to fear Miss Canada's determined bid to snap America's victory string and take the coveted Harmsworth trophy home.

Hailed as the fastest foreign craft ever to invade this country, the Canadian speedster is reported to have passed the 125-mile-per-hour mark with plenty to spare in a "secret" trial.

America's "big three" haven't come within 10 miles of such a speed.

Child Burned as Lighter Explodes

Fennville, Aug. 4 (Special)—Joan Hutchins, eight-year-old daughter of Mr. and Mrs. Lawrence Hutchins, was in favorable condition today following a cigarette lighter explosion in the Hutchins home Thursday afternoon.

The child received first and second degree burns on the face, shoulder, hands and on one leg. Most of her hair was burned.

She had taken her father's lighter into the basement, filled it with gasoline and then lit it. The resulting explosion showered her with gas and she ran upstairs with clothing afire to her mother. Mrs. Hutchins put out the fire with a bath towel, and then ran to the basement to put sand on the blaze there before hurrying her daughter to a physician.

The child was taken to Allegan Health Center today for further examinations and to determine seriousness of the burns.

How the child obtained the gasoline was a mystery to the parents because the father had tightened the gas can top with a pliers so that it would offer no danger to children.

Volleyballs From Ambush

POLICEMEN must have their fun sometimes. This is the tale of a nail.

In passing around some soft drinks one hot day a week or two ago, one officer declined. He said the stuff was so potent it would dissolve a nail in two days. It happened that way when he was in the Army, he said.

Always ready for a new experiment, one officer put a nail inside a full bottle, capped it and put it into a cupboard. Then everybody forgot about it.

A week later, one officer recalled it, reopened the bottle and found the nail intact. Another officer, in a playful mood, thought it would be fun to substitute a rusty nail. So they searched for the rustiest nail on the premises.

The next day, after a convenient suggestion, the forgotten bottle was reopened. Some of the boys were quite aghast at the condition of the nail.

This shot from ambush is probably the first they know of the trick.

Hollanders have been happy there have been no sprinkling restrictions this year. But here's the rub. With no restrictions, some lawn-conscious gentlemen-farmers have been sprinkling quite a lot. Net results: Kicks on the water bills!

We're told that two (and possibly three) field mice provided considerable entertainment by appearing at morning worship in a local church Sunday. At least, they got religion before departing this earth.

People growing up in Holland take local names for granted and never even recognize queer twists. Hence, the one sounded strange to a new Scout leader: "Sink—what a name for a Sea Scout!"

People of Holland are getting more and more television conscious. A few of them saw young Kent Rowder, 308 West 28th St., sing a cowboy song over a Milwaukee station July 21.

The world is full of poor spellers, and some of the essays that come into the news room bear the stigma of this affliction.

These words of wisdom set the stage for the worst pun of the week:

"Said one society reporter, 'What do you suppose a desert lunch is?'"

Another said, "Do you suppose it's sand-wiches?"

We got a laugh out of this story that's making the rounds. It's about a handsome eligible bachelor who one day cut out smoking. The next day he cut out drinking and the next day he cut out women. The fourth day he cut out paper dolls.

We hope Ike De Kraker is doing better with his ears now.

Some time ago he and another officer, Chuck Martin, experimented with the firemen's face masks for possible use in underwater search. In the operations, Ike got an ear full of water. A week later, he was still trying to get it out.

And speaking of swimming, that long distance marathon to Ottawa beach that didn't materialize really wasn't anything, Chuck Martin says. He said in his younger days he used to swim across the lake several times just for exercise. And his boyhood buddy, Harold McIntyre, used to swim from Kollen park regularly to the breakwaters in order to swim at the state park. Swimmers today aren't getting soft, we hope.

The Sentinel salutes Harold J. Karsten for patience.

The long-suffering president of the American Legion band really catches it everytime The Sentinel makes a mistake, and the Karsten telephone all but jumps off the wall with frantic calls from band members.

Once there was a postponement, another time it was the wrong day and another item listed the wrong time.

Main thing to remember is that weekly concerts at Kollen park start at 7:45 p.m. Tuesday. (We hope no mistake occurs here.)

For the fellows operating small businesses, the Chamber of Commerce calls attention to a new state amendment whereby the Workmen's Compensation Act will apply to all employers who regularly employ four or more persons. This becomes effective Sept. 23. This is not to be confused with changes in Unemployment Compensation in which primary benefits are increased but maximum benefit period remains the same (20 weeks).

Sometimes abbreviations are particularly effective. Note one in a local department store advertising handkerchiefs. It reads "HDKFS" and to us it looked just like a sneeze.

Rep. Jerry Ford writes he had several visitors in Washington from his home district last week when temperatures were soaring. From Grand Rapids came R. O. Loveless and daughter-in-law, Edward Haraburg and family, Robert Barrie, John Van Schoten and Frank Clark.

The Van Tongeren ducklings are back, and the whole neighborhood at Lakeside (near Jensen park) is happy. The Van Tongeren raised 12 ducks from a day old to seven weeks. They became neighborhood pets and youngsters particularly liked to feed them by hand. Last week all 12 were missing and Mrs. Van Tongeren waited five days before running an ad. But before the ad could appear, she received word that the ducks were found. They had wandered down the lakeshore a few miles to Central park.

What Did Allegan City Hall Cost?

Allegan, Aug. 4 (Special)—City Manager Philip Beauvais was challenging visitors to his office Wednesday to guess how much the city hall cost the village back in 1882. No one was coming close.

Sorting out the city's old papers for filing, Beauvais had come across the contract for building the structure signed on March 14, 1888. The price was \$6,450. The building is appraised today for \$35,400 insurable value.

Rial W. Talbot and Alphonso F. Howe, contractors agreed to complete the building by September of that year, using "the best materials, substantial and thorough workmanship."

Signing for the city was John Eppink, village president. S. D. Ford, S. S. Dryden, J. G. Ellinger, H. C. Weeks, John M. Heath and Frank H. Green, trustees.

An attached agreement provided that the east wall could be used jointly by M. H. Porter who operated a photograph gallery on the site now occupied by the theatre.

SLUGGARDS ON RELIEF

Our good neighbor Kent County
recently took an action that has
more than local interest: it de-
serves the applause of other sec-
tions. The Kent County Welfare
committee ruled that those who
refused to work should be left
to starve.

The ruling was not worded so
bluntly, but it might have been
wholesome if it had been. The
Kent welfare director in-
formed his board that several em-
ployables had refused to accept
jobs his office had found for
them and that they had also re-
fused to work on any of the county
work relief projects. The chair-
man of the committee thereupon
delivered himself of the following
wholesome bit of brutal warning:

"If a man isn't interested in sup-
porting his family then we should
have no interest in him."

That is a fairly polite way of
stating the case. But it represents
a bit of homespun wisdom that
a few persons in public life have
the courage to apply. From the very
highest levels in the government
to the smallest local unit, the
theory has been for years that
no one must be allowed to go hun-
gry. We have become so humane
that we insist on providing even
the sluggards with not only bread
and potatoes but with deserts as
well and with pocket money for
amusement. The political power of
many of the leaders in public life
is built on this theory. The theory
is that everybody—literally
everybody—has a right to the
comforts of life. To provide the
drones with said comforts the
government takes the money
away from the thrifty and the in-
dustrious.

The humanitarian ideal of not
letting anyone go without reason-
able comforts would be a worthy
one if all men were even reason-
ably industrious. There can hard-
ly be anybody who is not willing
and glad to share a reasonable
degree with the unfortunate and
those who are handicapped. But
the idlers and the sluggards, en-
couraged by government itself,
have long since learned to take it
for granted that they must be
taken care of and must be sup-
ported in the comforts to which
they have become accustomed.

The Kent County welfare de-
partment has now put into words
what millions of people have been
thinking. By all means help all
who need help. But if people re-
fuse to work, well—let them
starve. That sounds brutal but it
is wholesome doctrine.

Songs of Thanksgiving

Scripture: Psalm 92: 1-5; 103: 1-11

By C. P. Dame

Once a year towards the close
of November our nation sets aside
a day for the giving of thanks to
God for His many blessings. Not all

people give thanks on that day,
some eat more and drink more,
and forget to give thanks. Many
people grumble a lot; but words of
gratitude seldom escape from their
lips. We get enough in this country
but we do not show gratitude
enough. Perhaps the study of this
lesson might make us somewhat
more thankful for the many good
things we constantly receive. We
Americans have more than any
other people, we ought to be more
thankful than all others—but are
we?

1. It is a good thing to give
thanks unto the Lord. How would
it sound if a ne one should say,
"It is not a good thing to give
thanks unto the Lord?" Who
would be able to defend a state-
ment like that? Psalm 92 was used
by the Jews in the Temple liturgy
on the Sabbath Day. We should
give thanks every day but espe-
cially on the Sabbath Day. It is
tragic that on the Sabbath Day in
these times most everything is
done by multitudes of people save
giving thanks.

The Psalmist says that it is a
good thing to give thanks unto the
Lord. Why is it a good thing? We
should not give thanks alone, we
should do it with others in song
and with music. Gratitude is con-
tagious. The goodness and the
faithfulness of God ought to in-
cite His people to praise Him. It is
well-known that they who give
gratitude to God are a glad people.
The works of God may baffle them
at times but they also make them
wonder. And it is very good to
wonder at God and His works.

II. The blessings of God are
readily forgotten. Psalm 103 re-
minds us of the fact that we can
never pay the debt we owe to our
good and merciful God. The Psalm-
ist calls upon his soul and all that
is within him to bless His holy
name. We all ought to say to our-
selves "and forget not all His
benefits"—for we all do that. We
too often meditate upon our
achievements and forget God's
blessings.

Let me mention some of the
blessings of God which are found
in this Psalm. The first is the most
important of all—He forgives all
our sins. We know the worth of for-
giveness more than the Psalmist
for we know the story of the cross.
He heals all our diseases. He buys
us back from sin's slavery and
crowns us with loving kindness
and tender mercies. It is He who
gives us the desirable things of
life and it is He who keeps us
young. He ever helps the oppressed
and the down-trodden and finds
freedom for them.

God has revealed Himself to
Moses. We who have the New Testa-
ment can speak of the greater
revelation which He made in
Christ. We often lose patience but
God does not lose patience with
His people but gives them another
chance. We can count on God to
do us good—He will not deal with
us after our sins; nor reward us
according to our iniquities. Those
who fear Him will learn most of
His great mercy.

God is deserving of our grate-
tude. We can express our gratitude
in various ways. It might help all
of us if we would consider what
gratitude really is and what it is
not. And in addition, let us seri-
ously consider why we Americans
should be grateful to God and why
we who are Christians living in this
blessed land should be very grate-
ful to God for the temporal and
spiritual blessings of life. Remember
too, that those who realize the
worth of the spiritual blessings
are most apt to appreciate all the
other blessings of life. Let us
daily thank God through Jesus
Christ for all the blessings which
we get and do not deserve.

1. The ungrateful people miss
much in life.

2. We all owe God far more than
we realize.

3. The habit of thanking God at
mealtime is commendable.

4. Many people are impolite to
God.

5. It is fine to substitute grate-
tude for grumbling.

6. When you know yourself as a
sinner and know you have been
pardoned through Christ you have
much to thank God for.

Resort Swimmer Prepares For National Meet

Among entrants in the National Open AAU swimming meet at Los Angeles in mid-August will be a Holland area summer resident.

Don Hill, 17-year-old Cincinnati high school senior, who spends his summers at Castle Park, has been training for the event at Harold Vander Ploeg's Lake Shore cabins on Lake Macatawa.

Each morning, weather permitting, Don, his mother Mrs. Douglas Hill and older brother, Doug, 20, take a two-hour, two-mile workout. Don does the swimming, out to a buoy a quarter-mile distant, while Doug and Mrs. Hill handle an accompanying boat.

The strapping six-foot plus youth was unable to swim in Lake Michigan because of rough water. However, Vander Ploeg offered the use of his waterfront as a training center. Vander Ploeg, incidentally, said a motor had to be attached to the boat in order to keep up with the swimmer.

Don, who holds the Cincinnati high school record for the 100-yard free style, will swim on an 800-meter relay team in the Los Angeles meet. The team, which is made up of six men, is sponsored by a Cincinnati firm.

One of the youngest competitors, Don is entered in a meet whose entry list reads like a swimming hall of fame. Taking part in the swim will be many athletes who were in last summer's Olympic games in London.

Probably the stiffest opponent Don will face will be Wally Ris

Coast Guard Considers Quitting Harbor Light

The Coast Guard is considering a plan to discontinue the "White river light" located on the south bank at the entrance to White lake and river harbor, north of Muskegon.

A hearing to hear any objections to the plan is scheduled Aug. 20 at 10 a.m. in the Whitehall public hall.

Persons wanting to object and unable to attend the hearing, should submit written objections to the Commanding Officer of the Muskegon lifeboat station, United States Coast Guard, Muskegon, before Aug. 20.

of the University of Iowa. Ris is the No. 1 free-stylist in America and champion of that event in the Big 10.

Other swimmers in the Open will be Allen Stack, captain of the Yale university squad and national 150-yard backstroke champ, Joe Verdier, La Salle college captain and world breast stroke title holder and Keith Carter of Purdue who is champion of the 200-yard breast stroke in the Big 10.

Don is skeptical about his chances against swimmers of national and international prominence. But according to his mother and Vander Ploeg, the Walnut Hills High school lad will provide rough competition for anyone he faces.

The same might be said for brother Doug, who gets his exercise just keeping up with the boat.

Ben L. Van Lente State Farm Agent

The State Farm Insurance company is one of the largest automobile insurers in the country. Recently, an auto insurance rate reduction was announced by the State Farm Auto Mutual Insurance department, the second such reduction since war days when gas was rationed.

Ben L. Van Lente has been the local State Farm representative for 22 years. His office is located at 177 College Ave. Van Lente handles every type of insurance, including accident, health, family hospitalization, life and automobile. He also is representative for the Illinois Mutual Casualty Co., of Peoria, Ill., which offers a special disease policy, including polio, covering up to \$5,000.

State Farm offers you a flexible all-in-one policy which includes 20-pay-life, straight life and endowment, all in one contract. If you start the policy on a 20-pay basis, you'll have it fully paid in 20 years or less. If you then need greatest protection at least cost, switch your policy to straight life. Or, for a comfortable retirement income, you can change your all-in-one policy to an endowment basis. The policy covers infants for \$1,000 the second year. It is available to both men and women up to 65 years of age.

Van Lente also handles a 20 percent discount fire insurance policy.

Soap Box Race Has 2 Sections

Soap Box race contestants today were pounding the last few nails into their crates and prepping them up for the annual classic Aug. 10.

Meanwhile, the sponsoring Optimist club announced there will be two divisions in the race this year. The split was voted to allow slower cars to stay in a class by themselves.

And two sets of prizes have been secured for the respective winners and runners-up.

First prize in both divisions is a bicycle. Second place in class A gets a radio while the runner-up in class B gets a pen and pencil set. Third in class A will receive a \$3 cash award and the class B third-place winner gets a pair of tennis shoes. Fourth place in each class gets a flashlight.

Each contestant will receive a pen, according to Bob Topp, assistant to Ray Moel, general chairman. Bernard Donnelly, president of the Optimist club, also is assisting the Soap Box committee. The 20-foot high starting ramp is being re-conditioned for this year's race, according to Topp. The wood ramp was built two years ago.

Two cars go down the ramp in each heat of the race. All contestants are clocked for speed as they hit the bottom of the Columbia Ave. hill.

Speed is the big thing in this year's race with design, look and structure secondary," Topp said.

Six entries have signed up to use the Optimist plan of having a merchant finance construction of racers. Under the plan, a merchant pays \$5 toward construction of a car.

The limit any youth under 15 years of age can spend on a car is \$5.

Passageways totaling more than 100 miles have been explored in Kentucky's Mammoth cave.

Farm Bureau Warns on Septic Tank Racketeers

The Allegan county farm bureau is warning all its members to be on the lookout for "septic tank cleaning" racketeers. These men charge whatever they think they can get the unsuspecting to pay.

Their procedure is much the same wherever they work. They inspect the tank with no charge and report a thick scum on top. They fail to report that it is "scum" which actually makes the tank work properly and that it would be the amount of sediment in the bottom which really indicates whether the tank needs cleaning or not.

Properly constructed tanks do not need cleaning except perhaps in 10 to 30 years.

Education System Given Permission To Erect Building

Board of Appeals Okays Two Construction Jobs; Double Garage Denied

The Board of Education was granted permission to erect a brick-faced building on 24th St., on approximately the third lot west of Maple Ave. Non-conforming use of the class A residential area was granted after a public hearing Tuesday night before the Board of Appeals in the council chamber.

The 24.6 by 60 foot structure will be used to house one school bus, store athletic equipment and provide toilet facilities. According to blueprints, the building will have overhead doors at both ends.

Clifford Steketee of 190 West 24th St., appeared at the hearing and said, "I am opposed to the building because of one reason, I feel the Board of Education should build up its property first. I don't believe their unsightly property on 24th St. is any asset to our property."

Nelson Molenaar of 172 West 24th St., registered an objection on behalf of property owners in the area on grounds that the building would be too large in comparison with other buildings in the area. He specifically objected to parking a bus in the building.

Molenaar presented a petition signed by 12 property owners within 300 feet of the proposed building.

C. C. Crawford, superintendent of the public schools; E. V. Hartman, member of the Board of Education; and John Van Dyke, contractor, spoke on behalf of the construction.

Hartman pointed out that the bus parking is a temporary affair and that eventually the schools hope to install a shower room in building. They cited the need for such a storage building and toilet facilities.

After a brief meeting following the hearing, the Board of Appeals overrode the objections and granted permission to build.

Mrs. Gertrude Arens of 26 East 21st St., was given permission to build a side entrance on her home to permit a second family to occupy the second floor. Her house is in a class A residential area.

One written objection to the construction was from Mrs. Henry De Jongh of 20 East 14th St., who owns a house adjacent to the Arens' property.

A bid by Albert and Elmer Speet to erect a double garage on 26th St., was denied by the Board of Appeals "under present circumstances."

The proposed garage, on property at the northwest corner of 26th St. and Michigan Ave., would be used to park a Hill Crest Creamery truck and private car.

Frederick S. Burd, superintendent of Holland hospital, filed a written objection on behalf of the hospital board. Burd said the present Speet garage is somewhat on hospital property and the driveway is almost exclusively on hospital grounds.

Willis A. Diekema, chairman of the board, presided. Other members were Neal Wiersema, Arnold Hertel and Harold Haverkamp.

Hearing Brings Holland Closer To 'More Gas'

By Esther Van Wagoner Tufty
Washington, Aug. 4 — Holland came closer to "more gas" Tuesday afternoon when the Federal Power commission authorized the Michigan-Wisconsin Pipeline Co. to increase to 56.5 billion feet yearly the capacity of the natural gas pipeline now being built from Oklahoma fields to Michigan.

The new line will serve the Michigan Gas and Electric Co. and the National Utilities Co. of Michigan.

As to the originally anticipated lower rates, the FPC set a later hearing to settle the rates that Michigan-Wisconsin may charge.

It also will take up at the same hearing the matter of which company shall operate the Michigan storage field, (now owned by the Michigan Consolidated Gas Co. The Michigan-Wisconsin proposes to lease it).

The Michigan-Wisconsin decision was only a third of the additional capacity requested.

Holland is one of 11 cities seeking service, which includes Niles, Zeeland, Buchanan, Dowagiac, Benton Harbor, South Haven, Grand Haven, Otsego, Plainwell and Allegan.

Seedings in Corn After Cultivation Wise Procedure

Farmers Giving Their Land Break, Beet Sugar Association Believes

Saginaw—Those farmers who in the past week or two seeded their corn to legumes after the last cultivation, or who plan to seed to rye after Sept. 15, are giving their land a break, says the Farmers and Manufacturers Beet Sugar association.

Farmers will do well to never miss out on cover crops to hold the soil in place over-winter, and on plowdown crops to boost soil fertility, reminds the association. More and more of them are adopting the practice.

Where seedings after the last cultivation are practiced, a mixture of sweet clover and common domestic ryegrass provides effective erosion control next winter and a splendid green-manure crop next spring, declares the association. Sweet clover makes possible the fixation of liberal quantities of atmospheric nitrogen. Ryegrass improves ground cover and reduces winter heaving of the sweet clover.

When corn is seeded to grasses, ample legume fertilizer should have been drilled in just before corn planting time, and weeds kept down in the growing corn. A mixture of 10 pounds per acre each of the ryegrass and sweet clover broadcast when the corn is knee high, and dragged in and leveled off with a weeder or spike-tooth cultivator, should make good growth before snow flies. Next spring it should be plowed under, preferably before it is a foot high.

Successful seedings of alfalfa and smooth brome grass also have been made in corn for subsequent hay and pasture. If alfalfa seed is scarce, or if farmers are gaining their first experience with seedings in corn, the less expensive sweet clover-ryegrass mixture might better be used.

Planting corn fields with rye is a good fall procedure where farmers missed out on seedings, the association says. Broadcasting the seed is the usual method, but some up-to-the-minute farmers already are thinking in terms of airplane seeding for large acreages, the association reports.

For further information on seedings in corn, the association recommends that farmers consult their county agricultural agent.

Rotary Speaker Gives Television Principles

Dr. R. H. Nichols, Jr., of Murray Hill, N.J., formerly of Holland, spoke to Rotarians Thursday noon at Castle Park. His subject was "Television." Dr. Nichols is an industrial physicist with the Bell Telephone Co. at Murray Hill.

Dr. Nichols showed a film illustrating simply the basic principles of television. He explained that the principle is much the same as radio, combining the camera for pictures and microphone for sound. Transmission of the camera image is by light waves, four thousand images per second, he said. New improvements now before the Federal Communications commission for approval include color, new channels and a phone system, he said.

Dr. Nichols also explained his work in the telephone laboratories.

Coast Guard Answers Call to Douglas Beach

An unidentified person reported hearing cries for help after midnight Friday night at Douglas beach on Lake Michigan, south of Saugatuck. Holland Coast Guardsmen and state police made a thorough investigation of the area but couldn't find anything, they said.

The local Coast Guard was called twice Thursday night during the storm to pull cruisers off the Waukegon point sandbar. They blamed weather, among other factors, for forcing the boats off the marked channel.

One was a 28-foot cruiser with Mr. and Mrs. H. H. Dahlhousen of Hastings, aboard. The other boat was owned by Peter D. Cook of 214 Central Ave., Zeeland, with four persons aboard, according to Coast Guardsmen.

OMIT DISH DRYING

Hot weather housekeeping rules from Ruth Whitehouse, Michigan State college home economist, suggest you simplify your dishwashing by omitting the drying job. Just wash them, stack them in the sink, rinse with very hot water, cover with a towel and you're all set for the next meal. If you like, you may set the table for the next meal directly from your stack and never put the dishes away at all.

State Ranks High in 4-H Projects, Membership

With more than 88 per cent of Michigan's 53,830 4-H club members carrying projects through to completion in 1948 the state ranked highest of any in the north central section of the United States. In the nation, only two states ranked higher, and both of these, Maryland and Rhode Island, have less than 5,000 4-H club members enrolled.

A. G. Kettunen of Michigan State college, state leader for the 4-H club program, cites local leaders of the 5,261 clubs for this record of achievement. "Michigan has 2,000 more 4-H clubs than any other state in the nation and that means more leaders," Kettunen remarked. "We owe a great deal to these men and women who give of their time to help the rural youth of our state in this fine program."

Although a few states have more 4-H club members than Michigan, the state has by far the largest number of clubs.

Legion to Assist In Making Claims

The American Legion will assist all local veterans in applying for their National Service Life Insurance dividends.

This was announced today by Alden J. Stoner, commander of the Holland Memorial Post No. 188 of the American Legion of Holland.

"Legion posts will have the necessary applications which veterans will have to make to the VA to get their NSLI dividends," Commander Stoner said.

"Every veteran who held his NSLI policy for 90 days or more will have a refund coming to him. The VA expects to pay out approximately \$2,800,000.00 in those refunds. Payments per veteran are expected to average about \$175 according to the VA."

"Applications should be filed as quickly as possible because it will take weeks and months for a veteran to get his refund check."

As soon as the forms are available notice will be given of a central distribution point where veterans may call for and receive forms.

Carry Your Own Bags; Kids Cause Trouble

Capt. O. V. Dailey of the C and O police today sought co-operation of Holland parents in telling their children not to serve as red caps at the Holland depot.

The request came after the railroad company received several complaints on missing bags here. In each case, the bags had been turned over to youngsters.

The new system may be tough on travelers who don't like to carry their own luggage and tough on youngsters who like to earn a few pennies, but the arrangement will eliminate certain problems and possibly avoid trouble.

Costly Loss Comes From Milk Fever

Well-fed cows usually suffer least from diseases—but in the case of milk fever, it's different. Glen Reed, extension veterinarian at Michigan State college, says this disease most often strikes the best milkers and best fed cows in the herd.

Another bad feature of milk fever is that most cows who get the disease have it between the third and seventh calving—the best period of the cow's life.

Milk fever is accompanied by a too low content of calcium in the blood, however the actual cause is unknown. It usually shows up within two days of calving. As the cow starts producing heavily, she draws a lot of calcium from the blood.

A cow coming down with milk fever will stop eating and become listless and slow moving. She gets weak and has trouble standing. A coma sometimes follows. Death will follow in a few hours or a few days unless the cow is treated.

A calcium salt, injected into the veins, will usually cause the cow to get well in a hurry. Sometimes several treatments will be needed, Reed states. Some cases are different and require additional salts such as magnesium or cobalt. Another method of treating is to pump air into the udder, but unless great care is taken, this can damage the udder and introduce infection causing mastitis.

Veterinarians should be called to treat milk fever cases.

Add Variety to Simple Recipes

If your cooking problem is finding recipes for two people or just thinking of new ways of fixing simple basic foods, these suggestions from Pearl Jackson will give you menus some added zip.

Miss Jackson, who has worked with planning menus for the women's dormitories at Michigan State college for some time, first suggests some possibilities for a simple vanilla pudding recipe.

With a double recipe you can make four different desserts. A pineapple pie to serve guests, too, can be made by using two and one-half cups of the pudding with one cup drained crushed pineapple. Use one-half cup to make a Boston cream pie on another day.

For a third dessert, mix three tablespoons cream or milk with three-fourths cup of the pudding and add either sliced bananas or orange sections. Top with plain or toasted coconut. Use one-fourth cup of cream filling blended with two tablespoons cream to make a sauce for a dessert of gelatin cubes or whipped gelatin.

A recipe for plain yellow cake offers a basis for a variety of cup cakes. A recipe which yields two layers will make 18 to 20 cup cakes or one layer and eight cup cakes. For chocolate cakes use one-half cup butter plus one-half square melted chocolate and 1/16 teaspoon soda.

For other variations add two tablespoons chopped and drained maraschino cherries to six tablespoons batter or add two tablespoons chopped nuts to six tablespoons of the batter.

Or try pouring one-half cup of the batter in custard cups with one tablespoon crushed pineapple, one teaspoon brown sugar and one-half teaspoon butter in the bottom of the cups.

Chamber Reports Tourist Influx

The Holland Chamber of Commerce Saturday reported that the number of tourists to Holland this year is "considerably greater" than last year when one of the best tourist records in many years was posted.

The chamber office says miniature Tulip Time crowds have visited the office seeking tourist information and lodgings. Many persons quizzed office workers extensively about the tulip festival and places of interest to visit in the area.

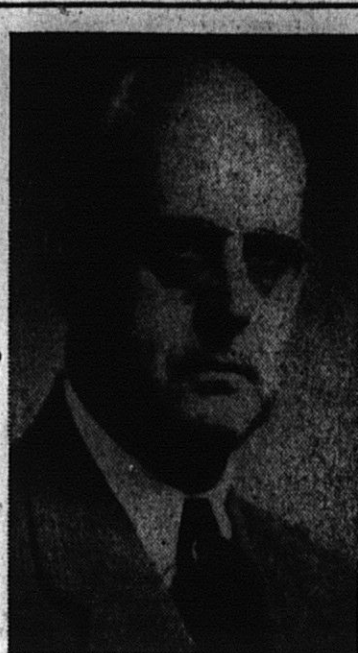

Although resort and cabin courts in the area have "heavy" listings, all co-operate to house the visitors, according to Chamber personnel.

The chamber tourist council and independent operators are combining their efforts to boost Holland as a tourist resort, chamber officials said.

Besides the tourist lures of the area, many Naval reserve ships make Holland the destination of their annual cruises. Three have already visited the area and others are booked.

Bleaching is necessary only in rare cases such as removing stains which ordinary washing does not affect. Never bleach colors. New GOP Looms After 3-Day Chicago Session

Bruce M. Raymond, co-chairman of the Republican committee of Ottawa county, said today that plans are under way for adopting a positive program on the national level, following a three-day session of Republican representatives in Chicago this week.

About 35 state were represented at the session, called by Fred A. Virkus, secretary of an organization called Small Business conference, after an overwhelming response to a questionnaire on GOP policies and campaign tactics he circulated some months ago.

The questionnaire was sent to all delegates and alternates of the Philadelphia convention who are not office holders, and a selected group was invited to the three-day conference at Palmer House.

Main trend of the discussion was to turn the party to the people and adopt a positive program, leaving out the me-too attitude. A permanent organization will be formed, the name to be selected.

Virkus, who prepared the questionnaire, said response ran 92 per cent, a record on returns for any questionnaire.

Ebels Hits, Hurls Main Auto to Win

Don't try to tell Holland Furnace in the City Softball league that pitchers can't hit—they won't believe you.

Because Friday night the Furnace club came up against Main Auto and a fellow named Jason Ebels. Ebels not only held the Heaters to three hits but also banged out two consecutive home runs that helped his team win, 10-0.

The Auto men didn't score until the fourth inning. With one out, both Van Lawgevelde and John Bos walked and advanced a base on a pass ball. Hank Prince followed with one of his three extra-base hits to score both mates.

Then in the fifth, Junior Maatman walked, took second on an error and scored when Howie Glupker singled to right.

Prince led off in the next frame with a triple. He was driven home by the first of Ebels four-baggers along with Ted Vanden Berg.

Finally, in the last inning Vanden Berg drove a double to left, scoring Prince from third. Ebels then lofted another pitch out of the park, winding up run-making activities for the game.

In addition to the Auto pitcher, Prince was big man at the plate. He had a perfect day at the plate, four for four.

North Shore Cubs Better Hamilton In Pitchers Duel

Meyer's North Shore Cubs squeezed past Hamilton 1-0 Friday night to record its fourth straight win, against no defeats in Wooden Shoe league second-round play.

Meanwhile, Kaiser-Frazer had to settle for a tie in its game against Fillmore Creamery at River-view park.

Carl Reimink for North Shore, and Cy Johnson for Hamilton, battled it out on the mound in that game at the North Shore diamond. Reimink allowed three hits while Johnson gave up five.

The redi hero of the game was Catcher H. Waterway of North Shore who singled with Fred Witteveen on third in the last of the fourth for the only tally of the ball game. Witteveen had led off the frame with a single. He went to third on Morris Witteveen's single and scored on Waterway's timely bunt.

Both fingers put on dazzling shows of control pitching.
