At the meeting of the board of education Monday evening two teachers that had been engaged for the ensuing school year, the Misses Jeanette Luther and Chella R. Dodge, handed in their resignations, which were accepted. The placing of fire extinguishers in the schools and of laying cement walks in front of the Central school was referred to the committee on buildings and grounds, with power to act.

State supt. of public instruction Hammond in his annual report criticizes the basis upon which the primary school moneys are disbursed by the state. He says it should be upon the basis of pupils who actually attend school, instead of the number of persons between the ages of five and twenty. As it is now he claims that cities and large villages have an advantage over the rural districts.

The citizens of Holland will read in another column notice and program of the song-recital to be given in the Hotel Macatawa salon on Tuesday evening, Aug. 16, by Milton B. Griffith, tenor of St. Louis, assisted by other fine artists. The last car will not leave Macatawa Park until the close of the performance.

Rev. H. Van der Werp, pastor of the first Reformed church at Fremont, was in the city this week, the guest of Mr. and Mrs. I. Verwey. He has lately contributed a series of historical articles in the United Presbyterian, setting forth the origin and development of the denomination with which he is identified, dating back to the Reformation and the Separation from the State Church in the Netherlands. It is being considered to publish these articles in pamphlet form. But whether or not this will be done depends largely upon the degree of interest manifested.

What might have been a serious accident occurred Monday on Twelfth street and First ave. While the Bell telephone men were stringing wire it in some manner dropped on the trolley and came in contact with the wires of the Ottawa Telephone Co., burning out the phones of Dr. Gillespie, J. Pessink and Geo. P. Hummer. Mrs. Hummer received quite a severe shock in attempting to use the phone. The damage to phones and switchboard, and accidents to persons, since the advent of the trolley, may become of more common occurrence, unless the handling of wire be done with care and by competent workmen.

The funeral of the late Supt. N. Robbins at St. Joseph was largely attended. Among those present from abroad were the keepers of twenty-one lighthouses in this district. The procession to the cemetery was over half a mile long. Capt. Geo. W. Moore, ass't inspector, has been appointed temporarily to fill the vacancy until a successor is appointed. The regular appointment will be made by a competitive examination of the various keepers, under the rules of the department. The appointment is of a permanent nature, with an annual salary of \$1,800. The duties of the office involve not only the responsibility for good and efficient service, but also that of disbursing officer. The district is large and covers the stations on Lake Michigan, commencing at Beaver Island, Charlevoix and Manistee and thence along the east and west shores to Sturgeon Bay, including 28 harbors, to which three more will shortly be added.

The first distribution of books of the Public Library, since the recent addition and the re-arrangement under the new catalogue by the librarian Miss Jennie Kanters, took place on Wednesday. The friends of Chief Simon Pokagon will be delighted to hear that his property, recently destroyed by fire at Lee, Allegan county, has been replaced by a new home secured by the kind subscription of his many admirers. It is reported from the camp of the 32nd Mich. Infy., that Herman Woltman, Company F, will be tried before a court-martial on the charge of attempting to kill a negro servant of Company G, Third Ohio, at Camp De Soto. The negro afterward picked Woltman out of a crowd of soldiers and said he was one of his assailants. Woltman stoutly denied this, but was placed under arrest. Captain Newbury will defend Woltman.

Lieut. Col. J. J. Vos, of the 32nd Mich. Infy., is evidently carrying on two campaigns—one with his regiment at the front, and another with the woman he left behind him. Soon after the regiment marched from Grand Rapids Mrs. Vos commenced legal proceedings to obtain a degree of separate maintenance from her husband. Cruelty was charged in the bill, and mention was made of another woman. These proceedings are still pending, but meanwhile Mrs. Vos has gone a step farther and commenced suit against Miss Rose Van der Sluis, charging alienation of her husband's affections and claiming damages to the amount \$10,000. Miss Van der Sluis will be defended by G. J. Diekema of this city.

J. J. Larmour, post office inspector, was here the other day and paid postmaster De Keyzer an official call. He found everything in first-class order, as usual. Kuyper of Amsterdam, to visit the Holland localities in Michigan, in connection with his lecture course at Princeton college, have learned from that gentleman that his acceptance thereof will depend largely upon the state of his health and the time at his command.

"The circus was in town Wednesday," and while it was not as large an aggregation as some, still it must be said that La Pearl's show is a good one. It is an orderly, well-behaving body of men. Everything connected with the exhibitions is decorous. The ring performances are of a high order and some features of it decidedly meritorious. And best of all is their music.

The monthly crop report from the secretary of state tells us that the average yield of wheat per acre, as estimated by correspondents, is for the state 17.76 bushels; southern counties, 18.16 bushels; central counties, 17.93 bushels, and northern counties, 15.57 bushels. Oats are estimated to yield 29 bushels per acre, or about two bushels less than a full average for this state. A number report oats light in weight on account of dry weather at the time the crop was maturing. Potatoes promise about three-fourths and beans eight-tenths of an average crop. The hay crop is estimated at about nine-tenths of an average for the state.

The two great wars in American history, conducted by the two most illustrious Americans are also examples of this, both Washington and Lincoln being unsuccessful in fixing their several bounds of influence or confining their development. In this President McKinley has striking examples for his failure to keep the scope of this war within the channels in which it was started—to free Cuba. It has gone beyond him, and it is quite likely that it will have a power as much greater as its purpose as had the revolutionaries of the

The pain that sometimes strikes a man at the most inopportune moment is due to indigestion. It may come in the midst of a dinner and make the feast a mockery. It is a reminder that he may not eat what he chooses, nor when he chooses. He is a slave to the weakness of his stomach. A man's health and strength depend upon what he gets out of his food. This depends on his digestion. Remove the obstruction by taking Dr. Pierce's Pleasant Pellets. They are a positive cure for constipation and its attendant ills—headaches, sour stomach, flatulence, dizziness, biliousness and "heartburn." The "Pellets" are very gentle in their action. They simply assist nature. They give no violent wrench to the system. They cause no pain, nor griping. ## CLOSE TO THE MOON.

It Is Brought Within Easy Reach of the World by a Recent Invention.

Herr Johann Mayer, an Austrian lieutenant, has just discovered a method by which the moon can be brought within pistol-shot of the world, figuratively speaking. Nothing among the many marvels of modern invention is more astonishing than this same discovery. By his invention Herr Mayer says the moon can be brought within a distance of 100 yards, in fact, and explored most thoroughly. Prof. Gates' combined microscope-telescope was brought to be a marvelous contrivance, but this latest addition puts it quite in the shade. In his success Herr Mayer has made a wide departure from customary methods. In fact the monster telescopes do not figure in his calculations whatever. Without going into a long-drawn-out or technical explanation of the apparatus he has constructed, it is a novel affair, in that an enormous parabolic mirror 50 yards in diameter that revolves upon a fixed axis is the main scheme of the apparatus. This concave mirror which is of the ordinary "silvered" glass has a small convex parabolic mirror suspended at its focus; and this small mirror focuses the rays received from the larger one, and throws them on the lens of an immensely powerful microscope. Thus a clear and brilliantly-lighted picture of the moon or star under examination is brought immediately under the microscope, which has a magnifying power of many million diameters. Herr Mayer explains that it will thus be possible, almost, to see the time by the watch of the "man in the moon," or to see the bridges (if any) over the canals of Mars.

OF GRAND RAPIDS.

Is making several of her superb Water Color Portraits to replace some of those cheap colored ghost pictures (made by cheap refuse colors that soon fade out and wither up the features till the subject looks like an old Egyptian mummy), put up by those migrating cheap John's in their "dead give away schemes," with an eye opener on the end of the scheme. In the past we have put up a large number of her healthy looking portraits in the place of sickly and even dead looking pictures, to the great delight of the customers who say: "There, that is worth a hundred of those sick pictures." Good work and straight business methods will win every time.

The friends and old acquaintances of Hoyt G. Post, of Grand Rapids, felt quite alarmed when they learned of the bicycle accident, with which he met last week, and which for a time left him with little or no hope for his recovery. Fortunately, according to the last report, the crisis has passed and unless new developments arise his recovery is quite probable. Owing to his age however, which is 71 years, the process will naturally be slow. Mr. Post is a brother of Charles F. and the late Henry D. Post, and for a while, in the early settlement of Holland, was a resident of the village. In the early 50's he was elected county register of deeds, when he moved to Grand Haven and later on to Grand Rapids.

The crowds at Macatawa Park continue and if anything are on the increase. The number of Chicago tourists that spend Sunday at the Holland resorts has never been greater than it is this year.

The Ottawa Telephone Company has been receiving a new supply of phones, one of which was placed in Paul Steketee's grocery store. The company is evidently retaining its hold upon the good will of the public.

The cottagers at Macatawa Park, especially those that have made that resort their summer home now for several years, speak in commendable terms of our merchants and the prices at which goods are being sold in Holland.

The regular meeting of the Grand River Valley Medical Society, held in this city on Tuesday, was the annual one, and brought out a full attendance. The leading features of the occasion were the addresses of the retiring president Dr. D. M. Greene, and papers by Dr. E. T. Tappy of Detroit and Dr. H. Kreners of this city. The following officers were elected: President, Dr. A. H. Fortuin, of Overisel; vice president, Dr. J. W. Van den Berg, of New Holland; secretary, Dr. B. B. Godfrey, city; treasurer, Dr. A. Knothulzen, city. A few clinical cases were presented and at the close of the meeting the members indulged in an excursion to the park.

Barney Riksen has the contract for the improvement of the Drenthe road. The job involves the digging of a new channel for Black river 42 rods in length, 36 feet wide at the bottom and at a depth of from 6 to 10 feet. The earth from the excavation will be largely used in filling in the highway for a length of 60 rods, west of the new bridge, which is also to be built. The contract price for the above work, exclusive of the bridge, is \$1,157. The expense of the bridge will be borne one-half by one of the landowners, F. Van Slooten, who is largely benefited by the improvement. The last job in connection with this important improvement will be the construction of a bridge across Van Raalte creek, so-called, west of the main bridge. This job will be let by highway commissioner John Van Appeldoorn, on the premises, on Friday, August 19, at 2:00 p. m.

The Amazonian and Butterfly drills, presented with "The Pixies," will be executed with such precision as to win the most hearty applause.

The toboggan slide on Picnic Day will be on one of the business streets of the city, and the greased pig catch will be in Centennial Park. During the catch all will be excluded from the park except the contestants. The sidewalks are for the spectators.

At a meeting of the newly elected board of directors of the Ottawa County Building and Loan Association held Monday evening, the following officers were elected for the ensuing year: President, J. W. Bosman; vice president, R. H. Habermann; secretary, C. A. Stevenson; treasurer, C. Verschure; attorney, G. J. Diekema.

Geo. Ford and Wm. Van Anrooy served as special policemen on Wednesday. Constables De Feyter and G. Blom were also on duty. Notwithstanding the large crowds in the city there was no disorderly conduct during the day. Later in the evening there was a disturbance on the show grounds, in which it is claimed that the right parties got a deserved licking.

### A HORSE THAT SNORES.

Kansas City Has a Nag That Is a Curiosity in the Animal Kingdom.

Snoring men are as plentiful as whisky in Kentucky. However, while this evil is predominant with the human race, yet it is indeed seldom that a member of the animal kingdom becomes afflicted with the snoring habit. There is just one case of the kind known to exist in Kansas City, Kan., and while there is no question about the existence of this one case, the afflicted animal contracted the habit from man, says the Kansas City Journal.

Prince, the oldest horse in the Kansas City (Kan.) fire department, has the snoring habit, and he's got it bad. All of the "laddies" at fire headquarters have good records as snorers, but Prince can allow them all a bad cold and then beat them out, pulled up. Snoring Prince, or the prince snorer, is the horse driven by Assistant Chief William McConnell. He generally minces away at his food until after 12 o'clock each night, providing there are no alarms. At about this hour he lies down in his stall, and in a few minutes his eyes close, and soon thereafter the snoring begins. The noise produced by the sleeping horse is similar to that of a snoring man. Before it became known that Prince actually snored several of the firemen, who take turns about watching at night, were accused of going to sleep on duty. The only foundation for the accusation was the snoring. In order to prove their innocence it became necessary for them to peach on Prince.

has turned the tables on high price baking powders. # PEACE IS CERTAIN

Spain Accepts the Terms as Laid Down by United States.

Protocol Embodying the Proposed Terms of the Negotiations Agreed Upon.

To Be Signed After a Few Formalities Remaining Are Disposed Of.

Secretary of State Day Makes a Statement on Progress of Peace Negotiations.

French Ambassador, Secretary Day and President McKinley Have Frequent Conferences.

Washington, Aug. 10. — Secretary Day at one o'clock Wednesday made the following statement to the press: "We have agreed upon a protocol, embodying the proposed terms for the negotiation of a treaty of peace, including the evacuation of Cuba and Puerto Rico, and it is expected that protocol will be executed."

It can be stated that the terms are precisely those laid down by the president in his original note about a week ago.

It is believed that nothing but a few formalities remain to be disposed of to secure the signature of the protocol.

The statement by Secretary Day showed that events had led up by logical steps to the agreement reached some time after noon on the terms of the protocol. The conference between the president and French ambassador at the white house Tuesday evening, it was practically admitted, was not conclusive in all respects, but there was a manifestation of steadfast confidence in administration circles that seemed to presage an early agreement upon the basis of a peace. Foundation for this belief was afforded when Ambassador Cambon called at the state department during the forenoon and it became known that the ambassador was prepared to give a response to further inquiries that had been necessarily put in relation to the Spanish position. Although no definite statement could be obtained from anyone acquainted with the details of the situation, it was surmised that the ambassador, having presented certain Spanish requests in connection with the acceptance of the four bases of peace laid down by the president, had been authorized to modify or withdraw such of these additional representations as should prove unacceptable to the United States. At any rate, when the ambassador appeared at the state department at 11 o'clock, and, with his secretary, M. Thiebaut, was ushered into the diplomatic room, there was a general belief among the officials of the state department that the prospect had brightened materially over night and that a cessation of hostilities at least was in sight.

**Conferences Continue.**  
The ambassador was in close conference with Secretary Day for 15 minutes, and then the secretary, leaving the ambassador behind the closed doors of the diplomatic room, repaired to the white house for consultation with the president. This gave rise to the conjecture that the ambassador had submitted additional points to those presented Tuesday night, upon which the president's decision was essential. On the other hand, with the knowledge that a further conference between the president and the ambassador was unnecessary, the indications pointed more clearly to the simple adjustment of minor details, as the occasion for the secretary's visit to the white house. For instance, it may have been necessary for him to secure credentials from the president in order to secure the authority to sign for the United States any protocol or memorandum that will serve as a basis for the cessation of hostilities and the beginning of the work of the peace commission.

**Not Concerned About Cortes.**  
As far as can be gathered, our government is not particularly concerned at the insistence of the Spanish government upon the reference of the peace agreement in its present stage to the cortes. Our government, in dealing with another, recognizes only the executive branch, and holds that wholly responsible for all of its acts or promises, and it is probable that our government would not concern itself as to what further internal steps would be necessary to satisfy the sticklers for constitutional observances in Spain. If it should appear later that the cortes should undertake to undo the work so far accomplished between the two governments, of course the government of Spain would be held responsible for the result. But as it is presumable that all United States military forces by all would be in possession of all that to Rico and Manila, it is like "Capable that internal common is Chris need give us any further also, I think."

terms offered by the United States. In this connection it has developed that just before the Spanish answer was delivered late Tuesday President McKinley announced that an extra session of the senate would be held doubtless in November.

**Extra Session of Congress.**  
With the peace situation at a stage where a complete agreement is regarded as likely at any moment, discussion has again started as to the convoking of an extra session of congress, but President McKinley within the past 24 hours has said positively that he has no intention of calling the house together, though, of course, the senate will have to meet in extra session to ratify the treaty of peace, unless unforeseen and most improbable delays should occur. The president added that the preliminary details incident to a treaty of peace would take so much time that the senate would not have to meet until some time in November.

Train Runs Into a Landslide and the Twenty Passengers on Board Are All Injured.

Middlesboro, Ky., Aug. 10.—While a north-bound train was coming from Norton, Va., it struck a landslide near Pennington Gap, and three coaches attached rolled down an embankment 60 feet. About 20 passengers were aboard, all of whom were more or less injured. Superintendent J. W. Logsdon, of Cumberland Valley division of the Louisville & Nashville railroad, had a rib broken and was otherwise badly bruised. Charles P. Perin, manager of Watts' steel and iron syndicate, was badly bruised about the head, and W. W. Tinsley, of Knox county, and little son were considerably bruised. Mr. Tinsley's wounds may prove fatal. Several women were also hurt.

**Seizure of Whisky.**  
Seattle, Wash., Aug. 10.—The first seizure of whisky under a recent executive order of President McKinley has been made. A dozen cases of whisky, which were on the steamer dock, billed for Alaska, were seized. Under the terms of President McKinley's order, the seizure can be made either in a warehouse or on a dock.

**Ordered to Guatemala.**  
San Francisco, Aug. 10.—The United States man-of-war Albatross, formerly the flagship of Admiral Miller, has been ordered to San Jose de Guatemala, and sailed for that port Wednesday. Several months have elapsed since an American warship has been stationed in Guatemalan waters. The Albatross will remain south until the troubles there subside.

**Hooley Is Ill.**  
London, Aug. 10.—On the resumption Wednesday of the examination into the affairs of Ernest T. Hooley, the bankrupt company promoter, the registrar announced that Mr. Hooley was ill, and that his examination must be adjourned. It was decided, however, to allow those who have been charged with receiving bribes to make sworn statements.

**Will Put in Bids.**  
San Francisco, Aug. 10.—Henry T. Scott, president of the Union Iron works, will leave at once for Washington, prepared to bid on all classes of vessels about to be built by the government. These include two harbor defense vessels, two battleships, five torpedo boat destroyers and four torpedo boats.

**Dropped Dead.**  
Savannah, Ga., Aug. 10.—John H. Lane, storekeeper of the United States transport Minnewaska, dropped dead on his boat here. The troopship was waiting to carry the Third regiment of Immunes to Santiago. Lane was 55 years of age and the father of Capt. Lane, of the Ninth police precinct, New York.

**Cattle Infected with Texas Fever.**  
Los Angeles, Cal., Aug. 10.—The authorities have discovered a herd of cattle on the Los Feliz ranch, just north of the city, that are infected with the dread Texas fever. Many have died. The cattle have been quarantined, and efforts will be made to check the progress of the disease at once.

**Uncle of President's Wife Injured.**  
Canton, O., Aug. 10.—Joseph Saxton, an uncle of the wife of President McKinley, was struck by a street car and seriously injured. He is well advanced in years and suffered from defective hearing. His injuries are not necessarily fatal.

**Report Not True.**

# VICTORY IN PUERTO RICO

Town of Coamo Taken with Loss to Our Side of Only Six Men Wounded.

THE SPANISH LOSSES WERE HEAVY.

One Hundred and Eighty Prisoners Are Taken — A Troop of Cavalry Escapes — Capture of Town and Garrison Was Neatly-Planned and Splendidly Executed.

Coamo, Puerto Rico, Aug. 9, via St. Thomas, D. W. I.—Gen. Wilson took the town of Coamo this morning, with a loss of only six men wounded, all members of the Sixteenth Pennsylvania regiment.

The American casualties were as follows: Corporal Barnes, of company E, mortally wounded. Sergeant Wishart, slightly wounded. Private Frank Whitlock, struck in the groin.

Private Clyde Frank, struck in the leg. Jolly Lubold, shot in the arm. Herbert Lubold, shot in the arm. Spanish losses are large.

The Spaniards are known to have lost their commander Maj. Yelleucas, Capt. Ecante, Capt. Lopez and nine privates, all killed, and 35 were wounded.

The Americans took 180 prisoners, practically the whole force of Spaniards, except the cavalry.

The capture of the town and garrison was neatly planned and splendidly executed.

recuted. The Sixteenth Pennsylvania volunteers moved to a point off the north of the town last night and, by forced marches of eight miles across the mountains, arrived at the rear of the town about seven o'clock this morning, just in time to cut off the enemy's retreat.

At daylight the Third Wisconsin and troop C, New York, moved by the right flank, and the artillery, supported by the Second Wisconsin, advanced in the center. The Fourth cavalry took up a position from which it could gallop to the field and sweep through the valley into the town.

**With Shell and Shrapnel.**  
At seven o'clock fire was opened upon the blockhouse, which was hammered with shell and shrapnel. The Spaniards replied with a few shots from their Mausers and then fled. The blockhouse was soon ablaze and the artillery fire in front ceased at 7:45 a. m.

Almost immediately volley firing was heard in the rear of the town. The Spaniards in seeking to escape ran straight into the arms of Col. Huling's regiment, posted on the hills commanding the road. The enemy sought protection in trenches, but they could not withstand the deadly fire. With their commander and two captains killed, they were compelled to surrender.

**Fifty Cavalrymen Escape.**  
A troop of 50 Spanish cavalrymen escaped through the mountains, the American cavalry being unable to pursue them.

The Spaniards had destroyed the stone bridge across the river Coamo, leading into the town, but it was evident that they were not prepared to make a strong resistance, as no artillery was posted there.

The natives received the Americans with delight. Gen. Wilson, immediately after taking the town, pushed the Wisconsin troops a mile beyond, where they will camp for the night.

**MILITARY CAMP FOR KENTUCKY.**

**Soldier Boys to Be Moved from Chickamauga to Blue Grass Region.**

Washington, Aug. 10.—The war department has decided to establish an army camp in the blue grass region of Kentucky, and an order to this effect will soon be issued. It is probable that troops now at Chickamauga will be marched to the new camp, the exact location of which cannot now be stated.

The war department has under consideration the establishment of army camps at Lexington, Ky.; Knoxville,

Tenn., and Tryon, N. C. Army officers have been detailed and are now examining into the suitability of each of these places, and if their reports are satisfactory the camps will be established and orders issued directing various commands now at Chickamauga to move to the new camps.

**WILL BRING AWAY TROOPS.**

**St. Paul and St. Louis Arrive at Santiago from Puerto Rico.**

Guantanamo Bay, Aug. 9, 12 a. m., via Playa del Este (delayed in transmission).—The St. Paul has arrived here from Puerto Rico and proceeds to Santiago de Cuba in order to embark troops.

The St. Louis sailed for Santiago Tuesday morning.

Both the St. Paul and the St. Louis will embark the troops outside the harbor entrance, being too long to enter the harbor proper.

Capt. Clark, formerly of the battleship Oregon, is going north on the St. Paul, owing to bad health.

Capt. A. S. Barker, formerly of the Newark, commands the Oregon, and Capt. C. E. Goodrich, formerly of the St. Louis, commands the Newark. The latter, with the Detroit, Suwanee and Scorpion, accompany the Resolute to the Isle of Pines. Capt. Goodrich is in charge of the expedition.

Chief Engineer C. J. MacConnell, the fleet engineer of the flagship New York, goes north in a day or so on sick leave. He has been suffering from rheumatism almost since the war began, but has stuck to his duty. The doctors, however, now positively order him home.

THE EVIDENCE OF OUR SENSES—WHAT HOLLAND PEOPLE SAY IS PRETTY GOOD PROOF FOR HOLLAND.

When we see it ourselves. When our own ears hear it. When our neighbors tell it. Our friends endorse it. No better evidence can be had. It's not what people say in Maine. Or distant mutterings from California. No deceiving echoes here. Holland people talk of Holland people. Public opinion published for the public good. There is no proof like home proof. Home testimony at the back of every box of Doan's Kidney Pills. Can you believe your neighbors? Read this statement made by a citizen:

Mrs. M. Shonaker, of 256 west 15th street, says: "During the past five or six years I was troubled a great deal with my kidneys. Latterly it was much more severe and I suffered from constant, heavy aching pains across the small of my back so that I could not rest comfortably at night in any position and during the day I felt tired and languid. The kidneys secretions became badly affected, irregular, too frequently, scanty and were attended by a good deal of pain besides depositing a heavy sediment. I suffered also from headache and spells of dizziness so that I either had to sit down or hold onto something to keep from falling. I used a great many different remedies but without obtaining any benefit. Friends advised me to use Doan's Kidney Pills and I got a box from J. O. Doesburg's drug store and used them. They helped me from the very start. They are by far the best remedy I ever tried and I have no hesitation in recommending them to anyone."

The Terms of Peace Offered by the United States Accepted by the Spanish Government.

QUEEN REGENT GRANTS HER ASSENT.

Spain's Answer Declares That the Proposals Are Agreed to Because They Are Imposed by Force—A Commission to Be Appointed—The Reply Reaches Washington.

Madrid, Aug. 8.—The cabinet council terminated after having completely confirmed the reply of the United States, which, it is said, accepts the American conditions. The reply will be telegraphed to Senor Leon y Castillo, the Spanish ambassador to France, so that M. Cambon, the French ambassador at Washington, will receive it to-day. The government is fully convinced that the note will be satisfactory to the Washington government and that a suspension of hostilities will be its immediate consequences.

**Headache bad? Get Dr. Miles' Pain Pills.**

What nobler, better ambition can a young couple have than to live loving, helpful lives, and then, in a green old age, look back over a life that has been mutually self-sacrificing, useful and successful? The one great stumbling-block that stands between most married couples and this ideal married career is ill-health. If both husband and wife would take proper care of their health, there would be more hale, hearty and happy old people in the world. If, when a man suffers from the little ills of life, he will resort to Dr. Pierce's Golden Medical Discovery, the chances are that he will avoid the big and fatal illnesses. This great medicine gives a man a healthy hunger, facilitates the flow of digestive juices, invigorates the liver, purifies and enriches the blood and builds firm, muscular, healthy flesh tissue.

**President Gets It.**

Washington, Aug. 10.—More than 24 hours after it had begun to reach Washington the Spanish note in answer to the president's peace conditions was presented at the white house by the French ambassador. What the nature of the answer was can only be conjectured at this stage, the secretary of state at the conclusion of the conference making the formal statement that nothing whatever could be said on the subject. The conference lasted an hour and 25 minutes. This prolonged discussion was believed to indicate that the Spanish answer was not satisfactory in all respects, though in just what points it fell short of meeting the expectations of the president it is impossible to say.

**A Pioneer's Danger.**

THE FEARFUL STRUGGLE OF AN EARLY SETTLER.

How One of the Early Farmers in Michigan Overcame a Serious Difficulty—His Life of Hardships.

From the Observer, Flushing, Mich.

Frank Long who lives near Lennon, Mich., is one of the pioneer farmers of Venice township, Shiawassee county, and by his industry and thrift in which many hardships were endured, he now has one of the best farms in that section.

He tells an interesting story of when his life was in danger during his pioneer days. He says:

"About November 1, 1891, on starting to get up from the dinner table, I was taken with a pain in my back, and found myself unable to move. The pain increased and spread over my entire body. I was obliged to take to my bed. The physician who was immediately summoned pronounced my case muscular rheumatism accompanied by lumbago. He gave me remedies and injected morphine into my arm to ease the pain.

"My disease, however, gradually became worse until I thought that death would be a welcome release from my sufferings. I could not sleep but would lie awake all night and rub my leg.

"This continued for about four months. Besides my regular physician I also consulted another doctor but he gave me no encouragement and said his medicine could do me no good.

"I was finally induced through reading some accounts in the newspapers regarding the wonderful cures wrought by Dr. Williams' Pink Pills for Pale People, to try them which I did as a last resort.

"I took the pills according to directions and soon began to notice an improvement in my condition. Before the first box was used I could get about the house, though with great difficulty, but after using five boxes I was entirely cured.

"Since that time I have felt no return of the rheumatic pains. I am confident that Dr. Williams' Pink Pills for Pale People saved my life and I try to induce my friends who are sick to try the same remedy.

"I will gladly answer any question concerning my sickness and wonderful cure, provided those who write enclose stamp for reply.

"Sworn to before me at Venice, Mich., this 15th day of April, 1898.  
 G. E. KOLLEN, Justice of the Peace.

The cure of the severest cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred all over the land, and its power in ordinary cases is proportionately greater. These marvelous vegetable pills go directly to the seat of the trouble and exert a powerful influence in purifying and enriching the blood by eliminating poisonous elements and renewing health-giving forces.

Many diseases long supposed by the medical profession to be incurable, have succumbed to the potent influence of these pills. This universal remedy is prescribed by physicians, recommended by druggists, and everywhere used by a grateful public.
