### The Same Old Story.

Every year those who gauge summer resort conditions have three tales to tell. Early in the spring they say that "indications point to the biggest season of resort history." Then in the latter part of July they begin to squirm over the prediction that the "season will be a losing one, because the crowds are so small, smaller than last year, smaller than we ever had."

The first and second tales have been told. The third tale is the best. They are telling it now. It is a tale of crowded hotels, filled cottages, big crowds, plenty and prosperity. The high water mark is here. The crest of the wave is here. It keeps everyone busy at the park and at Holland, for the wants of the summer visitors are as numerous as the sands upon the shore of Lake Michigan. It all means that the present season is one of the good ones and that Holland and the resorts will be benefited accordingly. All of which is a cause for congratulation. As long as this same old story can be told, "we will be content."

### Come to the Holland Fair Bee.

Remember there are no special invitations to the improvement "bee" to be held at the Holland fair ground next Wednesday, August 21. We want the aid and the co-operation of all citizens and hope that you will show your interest in this public enterprise by coming to the "bee."

An addition will be built to the grandstand, the exhibition halls will be put in shape and the grounds will be raked and cleaned.

Never mind bringing your lunch, as the fair association will provide refreshments.

Farmers, business men, working men, all men in fact are urged to come to the bee with hammer, saw, rake, carpenter kit, shovel or broom.

(Signed) BOARD OF DIRECTORS.

### Again Looks Like Opera House.

Again has the talk of an opera house for Holland been revived. The revival is due this time to A. L. Burk, proprietor of Hotel Holland, and if his plans materialize Holland will have a playhouse before long.

Mr. Burk has long felt the necessity of having additional room in the hotel. He has also realized the need for an opera house in Holland, and now sees a way to secure both improvements at once. His idea is to build an addition on the north side of the hotel and have the top floors made into rooms for the use of guests and have the ground floor modeled into an opera house. Plans for the rooms and the opera house have been drawn and these plans are now in the hands of local contractors who are estimating the cost.

It is figured that the opera house will have a capacity of 1,000.

Mr. Burk thinks that the proper way to go about the securing of the improvements is to form a stock company. The rental for the hotel and the revenue from the opera house would assure a dividend of at least 6 per cent, and already stock to the extent of \$20,000 has been subscribed by men who have confidence in the enterprise.

### CITY AND VICINITY.

Miss Cora Jäkel has taken a position in Du Mez Bros. store.

Wm. Deur, dealer in flour, feed, etc., has moved into his new store on West Sixteenth street.

Hon. G. J. Diekema will be one of the speakers at the Soldiers and Sailors' reunion at White Cloud, Sept. 10-15.

Rev. M. E. Broekstra of Englewood preached in the First Reformed church last Sunday.

Company I, Twenty-fifth Michigan Infantry, will hold its annual reunion at Macatawa next Thursday.

Workmen are laying cement sidewalk on the east side of Central avenue south of Eighteenth street.

Contractor is building a house for Oscar Brightwell on West Eighteenth street. It is being built of solid cement.

Gene Rogers' pet stock flock is six ducks, which were stolen from the coop at West Fourteenth street last Monday night.

Miss Georgiana Lugers, cashier at Lokker & Rutgers store, is on a vacation trip through the Straits of Mackinaw, Chicago and Milwaukee.

Deputy Sheriff Hans Dykhuis arrested Earl Gibbs, a young man about 20 years old, last Monday night at Hub Harrington's pool room. He is wanted on a larceny charge in Traverse City, and Sheriff Johnson of that place came here after him.

E. B. Standart was elected president of the Michigan Retail Hardware Dealers' association at the annual convention held in Detroit last week. The convention next year will be held in Detroit.

A Labor Day celebration will be given at Macatawa Park under the auspices of the union labor men of this city. Speeches will be made by some of the foremost labor leaders and a program of sports will be given.

Ben Van Raalte, Sr., A. J. Ward, C. Blom, Sr., Louis De Kraker, Hon. and Mrs. D. B. K. Van Raalte and Mr. and Mrs. P. H. McBride, of this city, and Dr. Bos of Filmore are attending the G. A. R. reunion in Minneapolis.

Rev. A. T. Broek of New York conducted services in the First Reformed church last Sunday evening.

The infant daughter of Mr. and Mrs. A. H. Lardall died last Sunday afternoon. The funeral was held Monday afternoon.

Considerable progress is being made by John C. Dunton in the development of his property on the north side. The eight houses contracted for early in the year are nearly completed, and plans are under way for several more. Mr. Dunton will build a beautiful summer home there next summer.

Peter Du Shane was arrested by Deputy Game Warden Hansen last Friday on the charge of violating the fish law. He pleaded guilty in Justice Van Duren's court and paid a fine of \$25 and costs. When arrested he had eight under-sized trout in his possession. Mr. Hansen had been watching for Du Shane for some time, as it was rumored that he was in the habit of selling under-sized trout that he purchased in Grand Haven to parties living on the north side.

The following rural routes have been ordered established in Ottawa county October 16: Allendale, route 1, population, 640; houses, 128. Berlin, route 3, population, 450; houses, 90. Conklyn, route 4, population, 500; houses, 100. Coopersville, routes 4 and 5, population, 975; houses, 105. Grand Haven, routes 3 and 4, population, 545; houses, 100. Holland, routes 11 and 12, population, 1,100; houses, 222. Hudsonville, route 6, population, 490; houses, 98. Jenison, route 2, population, 240; houses, 48. Robinson, route 1, population, 330; houses, 66. Spring Lake, route 2, population, 750; houses, 150. West Olive, routes 1 and 2, population, 750; houses, 153. Zeeland routes 5 and 6, population, 905; houses, 193.

According to a recent decision of the supreme court children are not compelled to go to school after they reach the age of fifteen years. The law provides that parents, etc., "having control and charge of any child or children between and including the ages of seven and fifteen years, shall be required to send such child or children to the public schools." The supreme court in its decision says: "The statute is not ambiguous in designating the age limit between the ages of seven and fifteen years. The word including has no force to extend that limit beyond the time specifically designated. A child over fifteen years of age is not between the ages of seven and fifteen years, and is therefore not within the provisions of the act."

Rev. J. H. Karsten conducted services in the Gano, Ill., Reformed church last Sunday.

The brick walls of Nick Kamaraad's new building on Central avenue are up and the roof is being put on.

Nelson & Lewis, the Chicago contractors who recently purchased E. P. Simpson's farm in Laketown, expect to spend about \$10,000 in improvements.

Boone Brothers' string of trotters and pacers are in Pekin, Ill. From there they will go to Galesburg and will then come back to Michigan for the meetings in Pontiac and Detroit.

Daniel Bertsch caught three lads raising havoc in his orchard on the south side of Macatawa Bay and took a novel method of recovering for the damage done. He made arrangements with their parents to have the three boys work on his place a week. This will prove a good lesson to the youngsters.

The Ninth Street Christian Reformed church will picnic at Prospect Park next Wednesday. Van Lente's choir will furnish music, and addresses will be made by Dr. E. Winter, R. Schaddalee and J. W. Bosman.

The eight-year-old son of R. Leerman, Monday, while walking over the joists left open for the ceiling of the new building in the course of construction for G. W. Deur, slipped through between the joists and if it was not for the fact that he was rescued by D. A. Klomprens might have been fatally injured. As it is his injuries are not serious.

Officer Koeman arrested James Allen, formerly of Chicago, now employed at the Bush & Lane Piano factory, last Saturday on the charge of adultery preferred by George Wyers, it being alleged that Allen continued illicit relations with Wyers' wife during May and June. Allen's examination will take place August 18. He is out on a \$500 signed by Walter Lane.

At Monday night's meeting of the common council bids were received on the contract for furnishing a new 300 horse power boiler for the main water station. The bids were referred to a committee consisting of Messrs. Van Putten, Habermann and De Young. The bid of T. Keppel's sons on pipe for the new sewers was accepted. The superintendent of public works was instructed to purchase 10 arc lamps to be placed as designated by the common council.

A man giving his name as J. P. Parker was taken in custody by Sheriff Brittain of Van Buren county, who found him at work at one of the local factories Saturday. It is alleged that Parker came here a couple of weeks ago with a woman purporting to be his wife and that a charge of adultery is pending against both of them. The woman also has been taken in charge and both of them are now in charge of the Van Buren county authorities.

Rowdism interfered with the pleasure of those who attended the band concert at Centennial Park last Friday night. Two boys engaged in a boisterous scuffle which developed into a slugging bee. Their aggressiveness was soon curbed by Marshal Kamferbeek. Special Officer Kooyers is kept busy occasionally with over-zealous lads who load up with enthusiasm and vent it in boisterousness, but he keeps good order. No one was to blame for the incident Friday night but the participants, and common sense should teach them to keep away from crowds if they do not intend to behave.

The office of Dr. J. G. Huizenga, in the Widdicombe building at Grand Rapids, was entered sometime Thursday night by burglars who took away between \$60 and \$70 worth of spectacles and other optical goods. The Huizenga office has windows opening into the corridor and these were left wide open. The burglars had but to step into the office, help themselves to the choice stock and step out. Dr. Huizenga formerly lived in this city.

Rev. Dr. J. Tallmadge Bergen and family will leave for Dubuque, Ia., the first week in September, where he will become the pastor of Westminster Presbyterian church. Dr. Bergen has been pastor of Hope church for a number of years and since 1895 occupied the chair of biblical instruction at Hope college and was professor of elocution at the Western Theological seminary.

A thorough canvass of the business district in the interest of the recently organized merchants' association has just been completed and practically every business and professional man has been enrolled as a member. Upwards of 75 merchants have paid the \$1 initiation fee and the number will reach 100 before the next meeting which will be held August 22.

The horse and rig stolen from the barn of John Verhoeks on Fourth street in Grand Haven one night last week was found Monday by A. Annis, a farmer living near Port Sheldon. The horse was in the bushes hidden from the road and the animal was nearly starved, evidently having been there for several days. Mr. Verhoeks came here for the rig Tuesday.

Rev. Jas. F. Zweimer preached in the First Reformed church at Englewood, Ill., last Sunday.

The directors of the Ottawa County Building & Loan association have re-elected the following officers: President, G. J. Diekema; vice president, R. H. Habermann; treasurer, C. Ver Schure; secretary, Mrs. L. M. Thurber.

Wm. Van der Veen of New Era, treasurer of Grant township, has bought of E. R. Fredericks a house and twelve lots and will move to this city. The sale was made through the John Weersing agency.

George E. Clark, manager of the Wolverine Boat Works, is confined to his room on account of injuries received Sunday when the carriage that he was driving collided by a buggy driven by Peter Bareman.

Miss Anna Cooling, aged 70, died Sunday at Ventura. She is survived by two sisters who lived with her, the trio having come here from Chicago last spring. Deceased was born in Ireland March 10, 1836. The funeral was held this morning at 8 o'clock at St. Andrew's cathedral, Grand Rapids.

The steamer Mamie S. had a perilous trip last week. "Dutch" Mollengraaf fell overboard and if it was not for the quickness and the well directed efforts of his friend, John Bouwman, he would have gone to a watery grave. Bouwman caught him the third time he came to the surface. The sailors on the little steamer were David Blom, Billy Witt, Tommy Sullivan and Bert Cochran.

The cave of the winds at Jenison Park proved to be a veritable house of trouble last Friday. In the cave were three Grand Rapids newboys who came down on the newboys' excursion and one Holland boy. The three tried to hold up the one for his money and would have succeeded had he not made an outcry that attracted Deputy Sheriff Irvine to the rescue. The holdup trio were summarily ejected from the grounds.

Mrs. Alex Arnold, living on the north side of the bay, fell down a flight of stairs a distance of 12 feet last Sunday evening and was seriously injured. Dr. H. Kremers is attending her. The accident happened at the home of Mrs. Walter Mattison, Virginia Park, a daughter of Mrs. Arnold. The Mattisons occupy rooms over the store and Mrs. Arnold fell down the stairs leading from these rooms to the store. She was badly bruised but no bones were broken.

Andrew Judson Kolyn has received word that he has been elected a professor in the department of mathematics and natural sciences in the Northwestern classical academy at Orange City, Ia. Mr. Kolyn is a son of the Rev. Matthew Kolyn of Grand Rapids and a graduate of the Grand Rapids High school and of Hope college. He formerly lived at Orange City. Since college vacation he has been employed as bookkeeper in the Holland City News office.

During last Thursday evening's heavy storm the wind blew down 25 feet of the smoke stack at the water works. Lightning struck the freight elevator of the Beach Milling company, entering the roof and passing along the side, but did not set the building on fire.

The Rev. Matthew Kolyn of the Second Reformed church of Grand Rapids has left for his vacation. The pulpit will be supplied as follows: August 12, the Rev. Dr. Henry E. Dosker of Louisville, Ky.; August 19, the Rev. Dr. E. Winter, a former pastor of the church; August 26, Prof. J. E. Kulzenga of Hope college.

## CORRESPONDENCE

### Zeeland.

The job of janitor of the Zeeland public school is open and for the school year of ten months there is \$350 in it. Peter Rookus, who held the job for the past several years, has resigned to accept a place in the new Colonial factory. Parties desiring to make application for the position can obtain further information from members of the board of school trustees.

Mr. and Mrs. J. W. Goozen celebrated their golden wedding last Tuesday. Besides their children and grandchildren many old friends called and congratulated them.

### Saugatuck.

Mr. and Mrs. Richard Baker have each received a draft for \$250 from the National Protective Legion. They are so well satisfied that they are both going to stay with the company.

The Misses Adelaide Wade, Harriett Hoffman and Clara Alexander spent Wednesday with Miss Walsh in Holland.

Bird Brothers Boat company are figuring on a number of new boats to build next winter. Besides the work they expect to do for others they intend to build a number of small yachts for sale and rent.

### New Holland.

Ralph J. Ten Have, who has been running a threshing machine for a number of years in this vicinity, left last Friday for Emmos county, North Dakota, where he will be engaged as engineer for the season.

J. S. Brower attended the board of school inspectors meeting in Holland last Friday.

Mr. and Mrs. James Taylor and children of Chicago are visiting relatives here.

Mr. and Mrs. Abraham Slaghuis and son Kash of Muskegon, who spent a few days at the home of their uncle, J. Elfers, left Friday morning with their horse and buggy for Grand Haven, where they spent the night at the home of their mother, Mrs. A. Slaghuis, leaving for Muskegon Saturday.

Arend G. Brower left Thursday for Chamberlain, S. Dakota, to look after the estate of his brother Peter, deceased. He will also visit in Ia.

### ABLE TO FOOL THE SENSES

Psychological Investigators Get Some Curious Results in Yale Experiments.

Curiously interesting results have been obtained by experiments on hallucinations of the senses at the Yale psychological laboratory. A person placed in a quiet room was asked to note the intensity of a tone which would be sounded every time a telegraph receiver clicked. At first the tone was actually produced, but afterward, unknown to the person experimented on, the tone was omitted, while the clicking was regularly continued. Still the subject of the experiment believed that he heard the tone as before with every click of the instrument.

Another experiment consisted in dropping a light pith ball on the hand of a person so placed that he could not see what was done. Each fall of the ball was timed to correspond with the sound regularly emitted by a metronome. After a while the ball was no longer dropped, but the subject of the experiment continued to feel, or imagine that he felt, the touch of the ball at every sound from the metronome.

In a third experiment a blue bead was placed in the center of a white ring and a person was requested to approach the ring and note, by means of a tape measure at his side, the distance at which the bead first became visible to him. Later the bead was secretly removed, but still on arriving at the previously determined distance the person believed that he saw the bead.

### HER PRAYER FOR MAMMA.

Special Clause in Tot's Supplication Prompted by Fear of De-railment.

A Wallbrook mother a few days ago before starting on a trip to Atlantic City told her two little daughters, whom circumstances forced her to leave at home, of the speed with which the great engines would hurry her train to the resort by the ocean and of miles and miles of glistening rails over which she would travel before reaching her destination, relates the Baltimore Herald.

That afternoon, after kissing the children good-by she asked them to remember her in their evening devotion, to which request the youngsters tearfully acquiesced. When the usual bedtime came around, the servant, after preparing them for their cribs, told them to kneel down and say their prayers. The younger of the tots was much longer in her devotions than her elder sister, and insisted on making a separate appeal for each member of the household. Toward the end of her prayer her nurse was much surprised to hear the child say: "And, Dear Lord, above all else, don't let them run off the track."

### Grand Haven.

The contract for building the new boiler and engine house for the Eagle Tanning company at their plant in this city has been awarded to C. M. Blakeslee. Mr. Blakeslee's price was in the neighborhood of \$4,000, and he will do merely the building of the masonry and cement work. He was the only local bidder, but he had competitors from Grand Rapids, Muskegon, Chicago and Milwaukee. His force will begin work immediately, and it is supposed to be finished in about forty days. The company will purchase all of the material to be used in the construction, and it will be ready for the builder as he wants it. N. Robbins of this city will furnish 250 barrels of cement for the work.

### INDIANS WANT TO LEARN.

Those of Alaska Call for Schools to Make Them Like White Man.

The craving of the Alaskan Indians for education is almost pitiable, says the Southern Workman. Ask them what they need, and the answer is the same:

"Schools for the children, so that they may become smart like the white man."

They are very affectionate people to their children; every benefit is for the child. The older people fully realize the fact that they represent the past. They have always been producers, and their faith in themselves is half of the struggle that lies before them. To this end they should be provided with day schools in all of the villages of a hundred or more adults.

In some sections where the families are distributed over a large area of country and in the case of the children of parents unable to provide for their support, and again where orphans may be enslaved by distant relatives, boarding schools or homes are equally necessary.

### A Hard Struggle.

Many a Holland Citizen Finds the Struggle Hard.

With a back constantly aching, with distressing urinary disorders. Daily existence is but a struggle. No need to keep it up. Doan's Kidney Pills will cure you. Holland people endorse this claim:

John Pilon, farmer near Ebenezer says: "I had more or less trouble for years from my kidneys and whenever I worked hard or caught a cold it always affected me and caused a heavy aching pain through the small of my back. It was very painful to stoop or lift anything and at times the aching was so persistent I could scarcely get about to do my work. I used different medicines and wore plasters but they did me no good. As I had seen Doan's Kidney Pills highly recommended for such troubles, I went to J. O. Doesburg's drug store in Holland and got a box. I used them but a short time when I felt better and continuing the treatment I was soon cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo, New York, sole agents for the United States. Remember the name Doan's and take no other.

### COLD IS A MINOR FACTOR

In Pneumonia the Huddling Together of People Is More Important.

Augustus Wadsworth declares that experience has shown cold to be a minor predisposing factor in the development of pneumonia. The huddling together of people in close quarters is of far more importance, says Medical Record.

The treatment of pneumonia in its present stage may be said to be either very easy or impossible. A careful prophylaxis against disturbances of the digestive tract is of the greatest importance. Many ways of attaining the same results present themselves and the choice in great measure rests with personal experience. The hope of definite results lies in the production of an efficient and specific antiseptic.

It is known that poisonous substances are elaborated by the pneumococcus, but so far the production of an antitoxin corresponding to that used in diphtheria has not been obtained. Pneumonia, however, is the bacteremic disease and as yet in none of this type have satisfactory results been secured in relation to antitoxin. The hope of success nevertheless is gradually growing brighter.

### Submerged Roman Cities.

Late explorations of the Italian coast near Pompeii have changed the opinion of antiquarians, says the New York Tribune. The submerged Roman ruins along the coast used to be regarded as foundation walls thrown out for sea baths, but it was made clear that they are the remains of noble mansions, and that they point to the time when the land on which they stood was far above the level of the sea. The shore is, in fact, strewn with the wreck of buried cities. Coast roads have vanished, ancient quarries have been flooded and the breakwaters of the harbors of classical story covered fathoms deep with water. A great submarine sea wall, with concrete piers 17 feet high, still protects the fragments. But neither the fragments nor the great sea wall have been visible in the light of day for 2,000 years.

### Thrown Out.

"And you say you lost your position by the great earthquake in San Francisco?" inquired the kind lady. "Yes, mum," replied Frayed Franklyn. "What was your position?" "I wuz asleep in a barn at de time, mum."—Milwaukee Sentinel.

### TORTURE RELICS ON SALE

Such Instruments as Drunkard's Cloak, Iron Boot and Foot Squeezer Offered.

Several torture relics were put up for auction at Stevens' Covent Garden, the other day, but they did not excite much competition. There were no eager calls, even for a hangman's rope. A paltry 7s. was all that was given for one which had been used by the renowned Berry, says the London Daily News.

An iron screw, or foot squeezer, was bought for £1, and the same figure was paid for a set of double stocks, and also for what is termed a "drunkard's cloak."

The last named is one of those instruments of old which was intended to put the delinquent to shame. It is shaped like a huge pall and the drunkard who was to be disgraced was fastened into it with only his head visible through a narrow aperture at the top. The cloak gave the wearer the minimum of room, the hands being practically pinned to the sides, and walking was only possible in a kind of shuffling movement.

Other articles sold were an ancient whipping post with shackles from Oxford, two sets of shackles which were used in old Newgate prison, ancient branding irons and an iron "boot," into which the victim's naked foot was placed and boiling oil poured in, all of which sold at 12 shillings each. An ancient chair from the castle of Norenburg, in which people were secured for torture, fetched 18 shillings, and an iron torture collar with spikes, 21 shillings.

### DIFFERENCE IN METHODS.

Americans Get Right to Work on a Project, Germans Call for Bismarck.

The conversation in the smoking room of the sleeping car had drifted around to the characteristics of the races, relates the Saturday Evening Post.

"I like your people," said a German, who had been listening. "I have been in this country for 30 years, acting as an immigration agent for my people and assisting them to settle here when they come to this country."

"Now, take a party of Americans when a new territory is opened or some public land thrown open for settlement. They ride or drive in, get their land, select a place for the village, stake out the streets and then somebody gets up on a stump calls a meeting and nominates John Jones for mayor. In ten minutes they have a municipality and everything is going along all right."

"If a party of Germans was in the same place, what would they do? When it came time to organize their village they would stand around for three hours and then somebody would ask: 'Where is Bismarck?'"

**CANNED CHICKEN SELLER FINED**

Retailer Held Responsible for Having Tinned Product in His Possession.

Brighton, Eng., Aug. 14.—A case involving the responsibility of retailers of canned foods was heard here Monday in which a merchant was charged with exposing for sale 38 tins of chicken unfit for human consumption.

In defense it was contended that it was absolutely impossible for the dealer to know the condition of the food when there was nothing externally to indicate that the contents of the cans were unsound.

Nevertheless the merchant was fined, the magistrates holding him amenable to the law, as he was in possession of the goods.

**JOSEPH RAMSEY, JR., FORMER**  
**WABASH PRESIDENT, CONFIRMS**  
**BIG ENTERPRISE.**

**PROJECT WILL COST**  
**ABOUT \$150,000,000**

New Road to Be Equipped with Electric Locomotives—Will Be Shortest Line by 108 Miles—Story Doubted in Chicago.

Pittsburg, Pa., Aug. 14.—Papers of consolidation of three railroads in different parts of Pennsylvania will be filed at Harrisburg this week, and will constitute the formal announcement of a project of prominent foreign bankers, associated with Joseph Ramsey, Jr., former president of the Wabash railroad, to build a low-grade double-track railroad from New York to Chicago by way of Pittsburg, which will cost about \$150,000,000.

Complete surveys have been made, and it is expected that work preliminary to actual grading and construction next spring will begin this fall. It is expected that the road will require three years to construct. It is contemplated to operate with electric locomotives from the beginning.

**Short Chicago-New York Line.**  
It will be known as the New York, Pittsburg and Chicago Air Line, and will be 65 miles shorter from Pittsburg to New York than is the Pennsylvania, and 198 miles shorter than the shortest line between New York and Chicago.

The new air line will traverse the important bituminous coal fields of central Pennsylvania, now controlled by the Pennsylvania railroad, and also will pierce the anthracite region throughout its length. It not only will be the shortest line through Pennsylvania, but it will cross the summit of the Allegheny mountains 400 feet lower than does the Pennsylvania, and will have easy curves and remarkably low grades for a mountain line.

Statements Confirmed by Ramsey.  
Mr. Ramsey confirms these statements in a telegram from New York. The cost of the line between Pittsburg and New York, Mr. Ramsey says, is estimated to be between \$75,000,000 and \$100,000,000, all of which has been pledged, the bulk of it by foreign capitalists.

The merger papers to be filed this week will provide for the consolidation of the Indiana, Clearfield & Eastern, the Allentown, Tamaqua & Ashtaband, and the Brush Creek & Crows Run railroads.

**Story Doubted in Chicago.**  
Chicago, Aug. 14.—Practical railroad men are inclined to question the correctness of the Pittsburg telegram, especially that part of it which credits Mr. Ramsey with confirming the report. They hardly can believe that he would vouch for a scheme which appears to them to be so wild and visionary. Much less do they believe that any set of capitalists could be formed to hazard their money in an enterprise which, were it undertaken, must result, they declare, in failure.

The time may come, railway men say, when electric roads will be successfully operated between New York and Chicago, but that day is still so far off and so much has still to be accomplished in the development of electrical transportation methods that the men who would attempt anything of the kind would have their motives questioned.

**Testing Electric Power.**  
For several years the managers of several big railroad systems have been devoting considerable attention to the application of electricity as a motive power in the operation of their side lines and stubs for suburban or interurban traffic, and of their big terminals in large cities, but the measure of success attained has not been great enough to warrant a hope that the general use of electricity for long distance and heavy freight traffic is within sight.

The assertion that a route for Mr. Ramsey's new through line has been secured is ridiculed here as nonsense, as is also the statement that construction work will be begun early next spring. The whole scheme is regarded as visionary.

**Opens War on Bucketshops.**  
Topeka, Kan., Aug. 14.—A crusade against bucketshops is to be inaugurated by Attorney General Coleman under the state anti-bucketshop law enacted seven years ago. "We shall try to drive the bucketshops out of the state," said F. S. Jackson, assistant attorney general. "They can be closed under the nuisance clause of the statute. We can fine and imprison the owners of buildings in which bucketshops are allowed to operate."

**Engine Hits Fast Train.**  
Fort Scott, Kan., Aug. 14.—A St. Louis & San Francisco freight engine ran into a Missouri, Kansas & Texas fast passenger train, No. 6, north bound, at the crossing near this city early Tuesday, overturning a chair car and one sleeper. Seven persons were more or less seriously hurt. A number of others were thrown from their seats or berths but escaped serious injury.

**UNABLE TO FINISH TUNNEL**  
**OUTFIT OF CONTRACTOR IS**  
**CONFISCATED.**

Irrigation Project in Northern Wyoming Brought to Standstill by Inability to Get Labor and Cash.

Washington, Aug. 11.—Acting under authority of the secretary of the interior, the director of the geological survey Friday ordered the confiscation of the whole of the contractor's outfit for work on the Corbett tunnel on the irrigation project in northern Wyoming. It was ascertained by the secretary that the contractor not only abandoned the work but was about to remove all his appliances from the premises.

This contract was awarded to Charles Speer, cashier of the Billings State bank. He, in turn, made arrangements for carrying on the work under the Western Construction company.

The difficulties of securing labor and the high cost of material resulted in such delays to the work that it apparently became impossible to finance the operations, and Aug. 3 the company was unable to pay the 400 or more men then employed.

The bids on Corbett tunnel were opened Sept. 6, 1905, and awarded to Charles Speer on an estimated basis of \$594,325. The next lowest bid was made by J. G. White & Co., of New York, at \$595,750.

The government officers also took possession of the work and outfit of Prendegast & Clarkson on the Shoshone dam, one of the largest structures in the west, on the ground that the firm had not been able to secure necessary men and financial backing to carry them through the work. The bids for this work were opened Sept. 5, 1905, and award made on an estimated basis of \$515,750. The next lowest bid was that of J. G. White & Co., of New York, at \$558,855.

**DOWIE FLAYS FEDERAL JURIST**

First Apostle Accuses Judge Landis of Uttering Falsehood.

Chicago, Aug. 13.—At a meeting at Shiloh house in Zion City, attended by 150 persons, John Alexander Dowie, the deposed apostle of the Christian Catholic Church of Zion, took occasion to denounce Judge Landis for the manner in which he had settled up Zion affairs, and, in an excited harangue, accused the jurist of telling a falsehood.

"I do not know why Judge Landis made the decision he did," said Dowie. "He says that I and all that have taken the restoration vow are guilty of treason to the United States. That is a rank falsehood, and I want him to know that I say so."

When Dowie classed the jurist's declaration as a falsehood the audience of faithful followers cheered and clapped their hands. Several times during the meeting, when Judge Landis' name was mentioned, there were hisses and groans.

**WITNESS A WONDERFUL MIRAGE**

Canadian Shore of Lake Erie, Sixty Miles Distant, Seen at Cleveland.

Cleveland, O., Aug. 13.—Residents of the Heights in the eastern part of the city Sunday witnessed the most remarkable mirage of which there is any record in this part of the country. Wonderfully clear and distinct, the Canadian shore of Lake Erie, 60 miles distant, was spread out before them in the sky.

The phenomenon lasted for over an hour and attracted the notice of thousands of people before it faded.

The inverted atmospheric picture was so clear that the city of Rondeau could be plainly seen, the church spires and principal business houses standing out in bold relief. Tall trees and a river emptying into the lake could also be seen.

**BANK TELLER KILLS HIMSELF**

Employee of Stensland Ends Life Under Taunts of Depositors.

Chicago, Aug. 11.—Frank Kowalski, paying teller of the wrecked Milwaukee avenue bank, committed suicide by shooting himself through the head Friday night.

Since the bank failed, Monday, Kowalski had been stopped on the street many times and accused by depositors of having known their money was in peril. He had been in the service of the bank 13 years, handled all of its business among the Poles, and, until the crash came, was as highly regarded by them as were Paul O. Stensland and Henry W. Hering.

**Tin Mills Resume.**  
Sharon, Pa., Aug. 14.—Ten of the 20 tin mills of the South Sharon plant of the American Sheet and Tin company resumed operations Monday after a long idleness. About 600 men are affected. The remaining ten mills, it is said, will start next Monday.

**Ex-Judge Dies of Brain Trouble.**  
Los Angeles, Cal., Aug. 14.—W. F. Whiteman, former judge of the Supreme court of Arizona, and later adjutant general of the territory, is dead at Terminal Island of softening of the brain. He was a native of Ohio and 60 years old.

Sioux City, Ia., Aug. 13.—Fire in the business district of Faulkton, S. D., caused a loss of \$33,000. The principal losers are Kelly & Murray, merchandisers. Their loss is \$17,000 with insurance of \$12,000.

**LONG PRISON TERM**  
**FOR LEADER OF MOB**

**FORMER CONVICT GETS FIFTEEN-**  
**YEAR SENTENCE FOR HELP-**  
**ING LYNCH NEGROES.**

First Time in History of North Carolina That Jury Has Convicted Man for Avenging Crime by Taking Law Into His Own Hands.

Salisbury, N. C., Aug. 11.—What is said to be the first instance of the conviction of a lyncher in the history of the state was furnished here Friday night when George Hall, a white ex-convict of Montgomery county, North Carolina, who was one of the party that Monday night lynched three negroes in jail here for the murder of the Lyster family, was found guilty of conspiracy in connection with that crime and was sentenced to 15 years in the penitentiary.

**Verdict of Colity.**  
Hall's trial ended Friday evening at seven o'clock. The jury was out but 35 minutes and returned then with a verdict of guilty, after several witnesses had been heard. Judge B. F. Long sentenced Hall to the maximum term provided by law—15 years at hard labor in the penitentiary. The evidence against Hall was overwhelming. He was remanded to jail. His counsel has appealed on the ground that Gov. Glenn was in Atlantic City when the special term at which Hall was tried as ordered and that being out of the state's bounds he had no jurisdiction.

**Change Charge From Murder.**  
The state sprung a surprise in the trial when the offense against the prisoner was changed from murder to conspiracy. When the court was called to order at 10:30 o'clock Friday morning, former Congressman T. J. Klutts announced his client would contend that the court was unlawful. It was argued that the governor could not sign a commission for such a court unless he was in the state and it was claimed that he was at Atlantic City, N. J.

**Saw Hall Leading Mob.**  
The objection of the defendant was overruled and the trial proceeded. The first witness was David W. Julian, a deputy sheriff, who testified that he saw Hall leading a mob of about 30 men, some of whom the witness knew. The officer had in custody a man he had arrested at the jail. Hall, said the witness, carried a hammer and threatened to brain him if he did not liberate the prisoner. Mr. Klutts objected to this testimony in its entirety.

Other testimony was offered in the afternoon and the case speedily given to the jury.

Hall had been a cotton mill operative.

**INDICTMENTS FOR STANDARD OIL**

Violation of Commerce Law Charged by Jamestown Grand Jury.

Jamestown, N. Y., Aug. 11.—The federal grand jury for the western district of New York Friday returned indictments against the Standard Oil company, of New York; the Pennsylvania Railroad company, and the Vacuum Oil company, of Rochester, for violations of the interstate commerce law.

There are 24 counts in each indictment of the Standard Oil company and of the Pennsylvania Railroad company, and a smaller number against the Vacuum Oil company.

The evidence presented to the grand jury in the oil cases having indicated that shipments of oil were made from Rochester to Rutland, Vt., over the New York Central railroad, Boston & Maine, and Rutland railroad lines, United States Attorney Brown asked that he be given time in which to prepare for an investigation into the connections of these three great roads with the shipments of the Standard Oil company's products to the alleged discriminative rates alleged to have been given by the Pennsylvania railroad.

**LINCOLN'S WELCOME TO BRYAN**

Speech by Gov. Mickey, Fireworks and Bunting to Mark Homecoming.

Lincoln, Neb., Aug. 14.—Details for the homecoming of William J. Bryan were arranged Monday so far as possible at a meeting of the different committees. The welcome home will be on Wednesday, September 5.

Mr. Bryan, according to the present itinerary, will not arrive until late in the afternoon of that day, and there will be no elaborate parade as was intended.

The exercises will take place at the state capitol grounds and will be in the open. Gov. Mickey will deliver the address of welcome, to which Mr. Bryan will respond. There will be other speeches, but present plans do not contemplate any speakers outside the state.

The reception will occur in the evening in the capitol building, followed by night fireworks.

The business and residence parts of the city will be elaborately decorated and a great crowd is expected from this and other states.

**Killed While Resisting Arrest.**  
Princeton, Mo., Aug. 13.—"Buck" McHargue, a notorious character, was killed by the son of Policeman Abe Trent after McHargue had shot the officer five times while resisting arrest. Policeman Trent is in serious condition.

**Blaze at Faulkton, S. D.**  
Sioux City, Ia., Aug. 13.—Fire in the business district of Faulkton, S. D., caused a loss of \$33,000. The principal losers are Kelly & Murray, merchandisers. Their loss is \$17,000 with insurance of \$12,000.

#### Hollanders Are Artists.

The Limbert company of this city is famous throughout the continent for its specialty, the arts and crafts furniture. About 75 men are at work in the local plant. Most of these are Hollanders who have been with the company for years. Great difficulty is experienced in securing men who possess the artistic temperament and mechanical skill and are able to make it show in their work.

"Very few American-born young men are good cabinet makers," says Mr. Limbert. "They have no chance in the large factories to learn the trade. They haven't the proper environment. The influence of temperament and environment upon all that is artistic has a value that cannot be overestimated. In literature, Jack London gets his temperament in the Yukon, Kipling in India, and Marion Crawford in Italy. In art, the French transition period would have been nothing were it not that the artistic David and the brothers Adam of England spent years in the vicinity of Pompeii and Herculaneum to get the Italian temperament which found perpetuity as the empire style."

"And to get the Dutch arts and crafts temperament and handicraft we built our factory in Holland, the largest settlement of Holland Dutch in the United States. Here we find the clever craftsmen, strict in their labor and loyal to the traditions which made Flanders, 500 years ago, the master artisan of the old world, to which Spain, and the English from Elizabeth to Queen Anne, paid royal tribute."

"We realize that to do an Italian sunset you must work in Italy. You cannot get the inspiration from the Brooklyn bridge. And to do Dutch arts and crafts right, you must be stimulated by the Dutch temperament, which we find in Holland."

In response to an inquiry as to whether Mr. Limbert would make his residence in Holland, he stated:

"In my judgment Holland is a very delightful residence town. They have the advantages of the Lake Michigan breeze, pure water, and beautiful shade trees. It is a delightful, quaint, reposeful village that would attract a farmer like myself, and I hope at some future date to make my home there."

#### Edward T. Bertsch will Engage in the Ice Business.

Edward T. Bertsch, formerly superintendent of the Michigan Leather company at Mill Creek, has come into possession of the O. E. Byrns property and the Prins ice house property on the south shore of Macatawa Bay, just west of the H. J. Heinz Pickle company plant, the purchase being made from Mr. Byrns and the Messrs. Prins Tuesday, and will engage in the ice business next season. He will move his family into the house on the Byrns place September 1.

The Byrns property consists of five acres on the south side of the highway leading to Macatawa and one and three-quarters acres on the north side fronting on Macatawa Bay. The house, barn and other farm buildings are on the piece on the north side, and on this five acres are also fruit trees, a grape arbor and small fruits. It is very desirable property.

The ice house on the Prins property will be enlarged this winter. With this property goes the ice dealer's outfit, consisting of wagons, equipment, etc. Both sales were made through the Lagers & Miles agency.

Mr. and Mrs. Byrns have not made their plans for the future, but it is likely that they will go to California.

#### Cottagers Association Pass Resolutions.

At a meeting of the Macatawa Park Cottagers' association, held last Saturday evening, the following resolution was adopted:

"Resolved, That the action of the special committee consisting of Messrs. Baum, Raymond, Finley, Perry and Wolcott, ex-officio, in securing an option on the property and stock of the Macatawa Park company, which stock is now deposited with G. J. Diekema, an attorney at law, in Holland, Mich., subject to be delivered by him to Basil P. Finley, trustee, upon payment of \$36,000, be and the same is hereby approved; and be it further

"Resolved, That said committee be authorized and empowered to take any and all steps necessary to complete the purchase of the property and stock of the Macatawa Park company in accordance with the terms of the option now held by the said Basil P. Finley, trustee, and to organize and perfect a corporation according to law and to offer to all the owners of the lots in Macatawa Park an opportunity to subscribe for the stock of the said corporation in such amounts as said owners of said lots desire, and if there be an over-subscription of said stock by said owners of lots in Macatawa Park, that said stock be apportioned among such subscribers by said committee in proportion to their respective subscriptions and that said committee be instructed to use its best endeavors to safeguard the voting power of said stock that it will be voted in the interest of the general upbuilding and improvement of Macatawa Park and for the promotion of the best interests of all owners of lots within said park and not in the interest of one or more persons or for private gain."

Messrs. Radley, Perry, Miller and Harwood and Dr. Coombs were appointed a committee to call on the cottagers and consult them regarding the subscription of stock. It was also instructed that any cottager desiring to subscribe for stock could make his desires known to Secretary A. Van Duren.

#### Win in Circuit Court.

The medical profession won a victory in the Circuit Court last Friday when the jury brought in a verdict in favor of the plaintiff in the case of Dr. John W. Vander Berg against Conrad E. Slag. The case was a rather complicated one and was appealed from justice court. Dr. Vander Berg, with Drs. Kremer, Sr., Mabbs and Ed Kremer sued Conrad Slag for \$125 for an operation, consisting of a resection of the elbow joint, upon the defendant. The defendant claims that he has not had the proper use of his arm since the operation and objected to paying \$125.

The case has been running several days and jury got the case late yesterday afternoon. It required about an hour for them to bring in a verdict of \$125 in favor of the doctors.

The matter has attracted a great deal of interest among members of the medical profession and many of them claim that if the subject of the operation has been able to plow and do farm work after a resection of the elbow joint, he is extremely lucky. Many witnesses were introduced on both sides and Diekema & Kollen represented the plaintiff while C. O. Smedley defended.

#### Superintendent Bishop Submits Report.

The report of Superintendent W. T. Bishop read before the board of education last Monday night contained much interesting information regarding the condition of the public schools. It showed that the last school census showed 2,898 pupils, that the average enrollment was 1,898, and the average daily attendance was 1,504. Excerpts of the report follows:

"In recent years an effort has been made to enrich the school curriculum. New subjects have been introduced and the public has drawn a very natural inference that reading, writing and arithmetic have been set aside. The difference between the best program of today and the best program of fifteen or twenty years ago is more apparent than real. The introduction of kindergarten occupations, of sense training and even manual training, means a return (if we ever departed from it) to the more practical in the study of arithmetic. Nature study, drawing, music and physical culture are made to freshen the mind for a new attack upon reading, geography, and, once more, the dreaded arithmetic. Written language work is called upon for a liberal contribution to writing and spelling. Literature and history make great demands upon the child's ability to read."

"Manual training in its simpler forms is a natural outgrowth of the school occupations I have described. It is most wisely introduced from the side of this natural development. No expensive equipment, no special teacher would seem to be demanded at the present time to give our primary children the larger benefits of this work."

"In the special ungraded room manual training with bench and tools should be introduced. Five benches would supply the need. Aside from the cost of these five benches and the tools required, the whole expense for manual training material over and above that which is already used would probably not exceed \$50 for a year. The special teacher of drawing employed for the coming year has had all necessary preparation to supervise this work."

"The Holland High school has been recognized during the past year by the North Central Association of Colleges and Secondary Schools. It has been placed upon the association's list with about fifty other high schools of the state. This action admits our graduates without examination to any college or university of the North Central states."

"The greatest forward movement of the past year has been the erection of a new modern school building in the fifth ward upon what is known as the Maple Grove site. Four rooms of this building will be occupied during the coming year. Children will be brought as far as possible to relieve the other schools."

"The new building makes ample provision for the growth in population of this particular section of the city. It is a modern structure located upon a most attractive site. In point of architectural beauty it is an ornament to the city; in school room appointment it is well arranged. The time will soon come when the school population of the fifth ward will be sufficient to fill all the rooms."

Many of those who attended the Farmers Picnic celebration at Jensen Park called at Jas. A. Brouwer's furniture store. Some were old customers who called to get some new articles of furniture, and others were new customers who were attracted by the reports of the fair dealing of this house. All were impressed by the fine line of carpets, tables, couches, writing desks, curtains, bed room suits, and articles that go to make up a cozy furnished home, and there is no doubt that they will make Brouwer's their trading place in the future. The bargains and the cash or credit system pleases every time. Give Brouwer's furniture store a trial.

#### Marriage Licenses.

Frank Bolhuis, 36 Holland; Josie Steffens, 23, Holland.

Cornelius Nandermeer of Grand Rapids and Harrietta Kronmeyer of Filmore.

Albert Kronmeyer of Hamilton and Marguerite Droog, Gr. Rapids.

#### Fire This Morning.

The residence just around the corner of Eleventh street off River, occupied by Joe Fibiano and family, was burned nearly to the ground this morning at 4 o'clock. The occupants were awakened by the severe heat and assisted by neighbors saved some of the furniture. The firemen did good work in keeping the flames from spreading to the adjoining wooden buildings. The house is owned by Mrs. Wm. Harkema. This is the second Harkema residence to be visited by fire within the last few months.

#### Old Settlers Picnic at Jamestown.

The annual picnic given in honor of the old settlers of Jamestown was held upon the Spring Grove picnic grounds this year. It was well attended. Mr. and Mrs. James Cronkright, the first couple to be married in Jamestown, and his sister were present. Mr. Cronkright aided his father in building the first house in Jamestown. Both of them were formerly residents of this city. Twenty old settlers were present besides others who were interested.

In the afternoon remarks were made by J. C. Crowfoot, H. Sneeden, J. Yntema and others. There were many fine selections of music led by H. Freeman.

#### Common Council.

At last night's meeting of the common council the clerk reported relative to balance due W. W. Hatch & Sons on contract for River street paving.

The job was accepted and warrant ordered issued to W. W. Hatch & Sons for \$7155.97.

The clerk reported that the city attorney had filed in his office contract with the G. R. H. & C. Ry. Co., for use of part of Land street.

The committee on licenses reported recommending that no special auctioneer's license be granted. Adopted.

The committee on streets and crosswalks reported recommending the granting of permit to the Cappon & Bertsch Leather Co., to place scale on Maple street provided weighing beam be inside the building and provided they pay the license required by the ordinance. Adopted.

Said committee recommended that the clerk notify the P. M. Ry. Co. to place safety stop and bumper on spur in 5th street near the Sunlight Milling & Cereal plant. Adopted.

The clerk was instructed to advertise for sealed proposals for the job of grading and graveling of Columbia ave., 22nd street and East street, bids to be in Wednesday, Sept. 5, at 7:30 o'clock p. m.

The following were fixed as places for primary election to be held Sept. 4, 1906.—First ward, Engine house No. 2, Second ward, Engine house No. 1, Third ward, City Council rooms, 20 west 8th street, Fourth ward, residence of D. Hensen, 309 Maple street, Fifth ward, John Kooyers residence 554 State street.

The committee on public buildings and property were instructed to procure bids for painting part of engine house No. 2.

The clerk was instructed to notify the property owners in block 37 that a meeting will be held Monday, August 20, at 7:30 p. m., at the Council rooms to consider the question of alley through said block.

Miss Dina Weststrate of the News is spending her vacation at Grand Rapids.

Miss Jennie Geertmans from Fellows Station and Harry Bontekoe will be married this evening at their future home on West 15th street.

Buy your shoe soles, gas mantles, globes, paring knives, fruit jar fillers and hundreds of other things which you need in your home at the 5 and 10 cents store 56 East 8th Street. Higher priced goods on our second floor.

#### Left-Handed Compliment.

"That was a left-handed compliment," said Upton Sinclair, the noted author of "The Jungle," apropos of a remark made by a butcher. "It reminds me," Mr. Sinclair went on, "of a compliment that was once paid to a physician."

"This physician had married a widow. He said one night to his wife, with a complacent sigh:

"Well, I've pulled old Jones through, after all. And a critical case it was, let me tell you."

"Yes, dear," said the lady; "but, then, you know, you are such an excellent doctor. Ah, if I had only known you four years earlier! I am certain my poor dear John would have been saved."

#### Innovation in England.

Patrice—I see the vicar of Thames Ditton, England, makes the announcement that he will reserve special seats for those in boating costume in the parish church on Sunday mornings in the southwest gallery.

Patrick—Hope he won't forget to provide for those in bathing costume who happen in, and that he will put 'em where their costumes won't get wet.

#### COSTLINESS OF INDIA INK.

Best Quality of the Product Is Kept in China—Process of Its Manufacture.

"This India ink," said the clever Chinese art student, "has no more right to be called Indian than your American redskins have to that name. For India ink all comes from China, and India never produced a stick of it."

"Anhui, my own province, is the one where India ink is made. The best of the ink is kept at home, for the use of the royal scribes and the official literati. It is only the lower grade that is exported. This lower grade sells at wholesale in Anhui for \$1,500 a ton."

"The very best grade India ink, the kind rich with gold, is worth \$75,000 a ton."

"The constituents of India ink are colza oil, pork fat, lampblack, glue, musk, gold leaf and the oil of a poisonous tree, the heng, which grows only in the Yangtze valley."

"After the admixture of the oils, the lampblack, the fat and the glue, the resultant paste is beaten for many hours with steel hammers upon wooden anvils, and during that long beating certain quantities of musk and of gold leaf are added, the musk to give the ink a perfume, the gold to give it luster."

Afterward the ink is dried for three weeks in molds. The stocks are then decorated, the most artistic scribes gilding them with very beautiful Chinese characters.

"There is no ink worthy to be mentioned in the same breath with ours—an ink redolent of musk and bright with gold."

#### DRINKS FOR THE SUMMER.

Good Reason Why Drinks Containing Carbonic Acid Gas Are So Popular.

The London Lancet, discussing "effervescent beverages," agrees regarding their extensive use among all classes.

"Probably," it says, "there are two reasons for it. First of all, carbonic acid gas gives piquancy to a beverage, a briskness to it and an acid taste," and, second, "there are reasons for believing that the effervescent properties of a liquid promote digestion in two ways; first, by the carbonic acid acting as a stimulant to the movements of the stomach, and, second, by assisting in the disintegration of the contents of the stomach."

On the other hand, however, it may be undesirable to distend the stomach with so much gas, as it may lead to the embarrassment of action of a weak heart and may even poison the blood by the direct absorption of the gas by the stomach. In such cases, therefore, such beverages should be avoided. It is the question, then, of mere immoderation in use that causes real trouble.

#### Unnecessary Fear of Lightning.

There is something so intangible about the bolt from the clouds that the reasoning faculties of certain people seem to be suspended during thunder storms. They shrink from the mysterious power even though it may be shown that more people die from the bite of the common house cat than from lightning. Such has been the case in the past. Another reason for the common fear of lightning is our unfamiliarity with it. If thunder storms happened every day of the year we should probably lose our fears. Tuberculosis kills more men than war and we do not spend the millions for fighting it that we do in preparing coast defenses and erecting great navies. People do not like to go to war because they may get killed, but they run risks just as great in insanitary conditions at home to which they give no thought.

#### "Good English."

In discussing editorially the art of writing good English, the New York Evening Post asserts, what we may easily believe, that the fault of most manuscript submitted to its editors is not erratic punctuation, grammatical blunders or improprieties. These are superficial vices. "The articles are clogged with words, all of them correct, half of them superfluous," which recalls a passage in Boswell's "Johnson." "I took down Thomson," said Johnson, "and read aloud a large portion of him and then asked: 'Is not this fine?' Shiels having expressed the highest admiration, 'Well, sir,' said I, 'I have omitted every other line.'"

#### Fixing the Stars.

What is considered the most sensible and most symmetrical arrangement for the stars in the union of the flag comes to the bureau of equipment of the navy from a woman in New York. The addition of the state of Oklahoma makes necessary a rearrangement of the stars, and instead of 45 there will be 46.

The New York woman suggests that there be a row of seven stars at the top and another of seven at the bottom of the union, with four rows of eight each intervening.

#### Too Good to Lose.

"Yes," she said, "I've been going to cooking school for nearly six months now, and, really, you'd be surprised if I were to tell you all I've learned. I could, for instance, go into the kitchen and get up a good wholesome meal without using a bit of meat of any kind, and—"

"Darling!" he wildly cried, "will you be mine?"

#### HER JOY WAS SHORTLIVED

Delightful Dream of Bliss Rudely Interrupted by the Morning Alarm Clock.

"Oh, thank you!" exclaims the delighted wife, as her husband hands her a large bunch of money and tells her to go right down town and buy everything she likes.

"Don't mention it," replies the husband. "I want you to have everything your heart desires in the way of dresses and bonnets this summer. I realize that I have not been as generous as I should have been, and I hope I may be able to make up for it now. Here, take this double handful of gold \$20-pieces, too. Look out there! You're dropping them."

"But the double handful of gold twenties fell to the floor and went jingling here and there and the husband laughed merrily until—

B-r-r-r-r-r-r!

It was the alarm clock, and she heard the voice of her husband saying:

"I'll be late to work again to-day. Say, lend me half a dollar, won't you? I haven't got carfare and lunch money this morning."

It is such distressing occurrences as this that make women wish they had married the squint-eyed, freckled boy who afterwards left home and became a plutocrat.

#### WHY HE WAS DISAPPOINTED

Five Nickel Cigars Thought by Statesman to Be Low Price for Vote.

"Didn't your son Jim run for the legislature last fall?" was asked of the old farmer by the village merchant after his butter had been weighed and his eggs counted out.

"Yes, and he was elected, too," was the answer.

"And how have things gone with him at the capitol?"

"Mighty poor."

"Hasn't he caught on?"

"Somehow he hasn't, and he's a disappointed man. He was home for over Sunday, and he said he almost wished he hadn't run for the place."

"What did he say seemed to be the matter?" continued the merchant as he measured off five yards of calico wanted not to fade.

"Why, the only feller that come to Jim and asked him to vote agin the railroad bill up in the house talked for three long hours, and then only left five nickel cigars behind him when he went away. Jim was lookin' for at least five dollars in cash, and he was so disgusted about it that he went and introduced a bill that no one should fish for suckers in the waters of this state in the months of July and August."

#### He "Drugged" the Prisoner.

Dr. Horatio Perkins, the medical expert, described at a medical banquet the vicissitudes and excitements in the life of a young ambulance surgeon.

"An ambulance surgeon of my acquaintance," he said, "had a curious experience the other night. He was summoned to a police station to examine an unconscious prisoner. The prisoner, very muddy and disheveled, lay on the floor of the cellroom. The physician bent over and examined him and then, rising, said in a loud, stern voice:

"This man's condition is not due to drink. He has been drugged."

"A policeman turned pale and said in a timid, hesitating voice:

"I'm afraid yer right, sir. I drugged him all the way from Carney's saloon, a matter of a hundred yards or more."

#### St. Alban and His Teacher.

By some strange irony St. Alban, the martyred but possibly mythical Roman soldier, whose festival falls on June 22, has quite overshadowed his probably historic instructor, St. Amphibalus, whose anniversary comes on the following day. About Amphibalus we know that he was a native of Caerleon, which the Golden Legend expresses by dubbing him "a prince's son of Wales in grete araye." He was buried at Redbourne, but "translated" to St. Alban's abbey, where his cup was preserved, "which they of the common sort call St. Affabells Bolle." In former times children were frequently christened with his name, and Affabell Partridge was goldsmith to Queen Elizabeth.

#### Ahead of the Times.

"I'm living in the wrong age," grumbled the little old man who was sitting outside of the post office whittling a peach stone.

"How's that?" queried the horseshoe salesman.

"Why, be gum, I should have been living in an age when thar wan't nothing but automobiles and airships."

"Why so? Horses ever give you any trouble?"

"Trouble? Wall, I reckon they have. While I went to the circus the old woman ran away with a hoss doctor. If there hadn't been any hoss doctors wouldn't have been any hoss doctors and I would have had the old woman yet. No, sir, young man, I was born too early."

#### Consolation.

A minister, who has since attained prominence in New York, says a writer in the Sun, was in his earlier years called from a village church. One of the sisters expressed grief at his going. "They will get a better preacher to take my place," he consoled her. "No, that's just the trouble," she said. "Every preacher, lately, is worse than the last."

## STEEL DOES NOT GET TIRED

That Is, If It Is Properly Made, Says One Who Has Investi- gated.

An interesting problem often dis- cussed is whether iron or steel becomes changed in its properties by what is termed fatigue. Most probably, accord- ing to R. A. Hadfield, it does not, if the material is, in the first or original state, properly prepared, says London Engineering.

Failures, so called, of this kind are generally owing to the steel possess- ing either internal flaws, which are often only detected by an examination of its micro structure, or that it has not been in the proper condition when sent out to the user. So-called myster- ious failures are generally due to improper heat treatment and are quite apparent when adequately investigated. A recent writer states that, after long experience, he has found steel does not change by fatigue—that is, under ordinary working loads; "once right, always right," is his explanation.

This investigator took a large num- ber of specimens that had been many years in use, some having given satis- factory, some unsatisfactory, results, and he detected no difference or break- down in the mechanical qualities. Probably this conclusion is correct.

At Watertown arsenal the official testing department of the American government, interesting tests have been made upon iron which had been submitted to severe mechanical treat- ment 23 years ago—that is, it had been stressed close up to the elastic limit and then laid on one side. No change in quality could be detected. The char- acteristics of the earlier overstrained condition produced by the loads ap- plied so long before still remained.

## DISCOVERY OF GOLD FIELD

Apparently Worthless Rock Turned Out to Be a Valuable Find.

Five years ago a desert rancher named Jim Butler was prospecting in southwestern Nevada, packing his outfit along on the backs of six burros, trudging among the mountains 150 miles from a railroad in a country which an experienced miner would have laughed at, says Outing.

It had none of the signs of gold bearing rock, and in his "plumb ignorance" Butler plodded along "40 miles from water and one mile from h—l," trust- ing to gold seeker's luck, and not at all confident of making a strike big enough to keep him in tobacco money.

One night he camped on Tonopah spring and found some rock that looked good to him. He broke off a few chunks, loaded them on a burro and took them home in the course of time. In the town of Belmont, near his ranch, his rock was greeted with light-hearted incredulity, and he was about to throw it away when a young lawyer named Oddie picked up his ears, and with the rashness of youth offered to have the samples assayed.

Butler went back to his ranch in Moritor valley and betook himself to the more important business of har- vesting his hay crop. He had forgot- ten all about his rock when Oddie sent him word that the stone assayed several hundred dollars a ton in gold and silver.

## Language Most Spoken.

The most spoken language is Chi- nese, but as there are so many dialects in the language, and as these differ so greatly in the confines of Mongolia and Tibet from those around Peking, it is scarcely correct to say that the 382, 000,000 Celestials all speak one lan- guage. Putting, therefore, Chinese aside the most spoken languages in the world are as follows, in millions: English, 120; German, 70.

## Health as a Business Asset.

The average man is not accustomed to regard his health as his very best asset, yet that is precisely what it is. The man who will accord due regard to his health, from a strictly business standpoint, will go farther, last longer and accomplish more in the end than one who makes health an after- consideration. Success which is at- tained at the expense of health is worth absolutely nothing to the man who attains it. There is no pleasure either in the process or in the final result.—St. Louis Republic.

## MEASURING DEPTH OF AIR

Atmospheric Envelope of Earth De- termined by Interesting Scien- tific Observation.

One hundred and 31 miles is the height of the atmosphere as measured by Prof. T. J. J. S4, who determines the thickness of the air envelope by noting the difference between the time of sunset and the complete disappear- ance of blue from the sky. The mo- ment at which the blue changes into black can be observed quite easily with approximate certainty by the naked eye when the air is clear; and by trigonometry may be ascertained the distance below the horizon of the sun at the moment of change. By this means may be calculated the height of the smallest illuminated particles of oxygen and nitrogen which give to the sky its blueness of tint by the reflec- tion of the smallest wave lengths of the sun's light. The instant of change from blue to black is possibly a little different of exact observation, but the method is not more doubtful than that based in the observation of shooting stars. The shooting star method gives a result not greatly differing from the vanishing blue method. The former gives the height of the atmosphere at 100 miles.

## How to Keep Perfect Teeth.

It is easy when you know how to keep the teeth perfect. Just brush them up and down after every meal, using plenty of good tooth powder. Don't scrub them sideways, that sim- ply cleans the surface and hurts the gums but does not dislodge the food between the teeth, which, decomposing, causes decay, the origin of all tooth troubles.

In addition to personally cleansing the teeth let us ex- amine them at least twice each year.

This service is free.

If there are any cavities we will fill them carefully and economically.

We have all the latest im- provements in dentistry to help us do good work that will be lasting and pleasing.

We treat all patients as we would like to be treated if our positions were reversed, you the dentist and we the patient. By so doing we make a friend of every patient.

We want you to feel that you are in competent hands. That you will not be needlessly hurt by careless, hurry-up workers—that you will not be paying for something that will not give you good service.

We never ask for testimo- nials, but we receive many. The following is a sample:

## OFFER REWARD FOR BANKER

### SEARCH FOR STENSLAND IS STIMULATED.

#### Fight Begun to Oust Receiver Fetzner— Movement to Save Cooperative Store.

Chicago, Aug. 14.—The search for Paul O. Stensland, the missing banker, was stimulated Tuesday when word of the Chicago Clearing House association's offer of \$5,000 reward for his capture reached the police. An organized man hunt also was started near Madison and Baraboo, Wis., and surrounding towns.

Judge Gibbons' appointment of a new receiver Monday was the first blow in a fight to oust Receiver Fetzner. It is asserted the latter has no right of jurisdiction over the bank's assets because he was appointed under the banking law of 1872 instead of that of 1888. On settlement of this technical question the bank receivership has been hung up. A long struggle, with appeal after appeal, is held in prospect.

Bank Examiner C. C. Jones made his official report on the wrecked bank to the state auditor Tuesday. He declared the document will not be made public in Chicago and that for protection of the credit of debtors of the bank he will recommend its suppression in Springfield. Mr. Jones may decide, he says, to give extracts from the report.

Another warrant against Cashier Henry W. Hering, charging him with forging a note for \$10,000 in the name of Marius S. Kirkeby, has been issued by Judge Kersten. The warrant was signed by Kirkeby.

Stensland's thefts are believed to have been increased by \$9,000 through the discovery Monday of a genuine note for that amount in his house. The collateral given to secure the note, supposed to be attached to that paper was missing. It is believed Stensland sold it and kept the money.

A movement to save the Milwaukee Avenue Cooperative store from a receivership was put on foot by Receiver Fetzner. Experts in his employ who have gone over the books of the "Co-Op" store reported that the store owes the bank \$91,000 and to merchandise creditors \$20,000, making a total liability for the store of \$111,000. They further reported that the stock and fixtures of the store are worth \$175,000, or \$64,000 more than the store's indebtedness.

The funeral of Frank J. Kowalski, the teller who killed himself Friday, was held Tuesday without disturbance. A demonstration in his favor was made.

#### CZAR GOES TO GUARDS' CAMP.

##### Emperor and Family Will Spend Week at Krasnoye-Selo.

St. Petersburg, Aug. 14.—Despite the attempt on the life of the Grand Duke Nicholas at Krasnoye-Selo, the emperor, accompanied by his entire family, and the major part of the court, has gone to Krasnoye-Selo to spend a week at the guards' camp. Six additional guard regiments have gone to the camp from St. Petersburg, and the most rigid precautions have been taken to protect the emperor during his stay. The railroad station at St. Petersburg is heavily guarded, and no civilians are allowed to leave there for Krasnoye-Selo except after being fully identified. A guard review is scheduled for Aug. 19, after which the imperial family will go to Tsarskoye-Selo, instead of returning to Peterhof, although some of the papers report that it is the intention to go immediately by sea to Livadia, in the Crimea, and spend the autumn there.

The authorities attach great importance to the capture of revolutionists at Moscow and in that vicinity during the last few days. They believe they have broken up the headquarters of the military fighting organization and arrested the leaders. In addition to seizing their clandestine printing establishment and a large supply of bombs and explosives, including Shimose powder, the authorities obtained elaborate plans which were to be used in the event of an uprising.

Ambassador Meyer left St. Petersburg for Krasnoye-Selo Tuesday to take the cure. He expects to be absent a month unless the situation here necessitates his earlier return. During his absence Secretary Eddy will be charge d'affaires.

#### Oklahoma Editors Organize.

Tulsa, I. T., Aug. 14.—Fifty Republican editors of eastern Oklahoma have organized the Third District Congressional Press association, the first body of its kind in the new state to come into existence. J. R. Brady, of Tulsa, was elected a delegate to the National Congressional Press convention which meets at New York next month. A resolution demanding the removal of all restrictions on Indian lands was adopted.

#### Apple-growers Meet.

St. Louis, Aug. 14.—The fourth annual convention of the American Apple-growers' association met here Tuesday with about 200 delegates present. President H. M. Dunlap, of Savoy, Ill., presided. The convention will be in session two days hearing papers and discussing apple-raising and marketing and will elect new officers.

#### Great Theft of Jewels.

London, Aug. 14.—Jewelry valued at \$35,000 was stolen Tuesday from a case belonging to several Viennese merchants at the Earl's Court exhibition. The robbery was committed in daylight.

## ONLY WANTED A FEW THINGS

### Man Was After Good Photograph of Unprepossessing Wife If It Was Possible.

"I have come to get my wife photographed," said the determined-looking man as he entered the studio, followed by a meek-looking woman. "You can make people look all right, sir, can't you?"

"Certainly, sir," replied the photographer, confidently; "that is part of my business, you know."

"Well, Maria here fell out of the window last year and injured her nose. You can straighten it out, I suppose?"

"Certainly."

"And can you push in Maria's ears, so that she won't look so much like a rabbit?"

"Oh, I think so."

"And what about the squint in her left eye?"

"Oh, I can touch it out in the negative."

"And the freckles?"

"They won't appear in the picture at all."

"And will the hair be red?"

"Oh, no."

"Well, you can go ahead. Sit down there, Maria, and try to look pleasant."

## NO NEED TO BE SEASICK.

### German Invention, It Is Stated, Will Do Away with This Distressing Malady.

Getting jarred is, in plain language, the latest cure for seasickness. The method is described in the Technical World, which asserts that success has attended the trials of the new device.

The apparatus, which is of German invention, is very simple. It is merely a comfortable chair, the seat of which is set rapidly vibrating up and down by the force of an electrometer connected to the electric lighting wires of the steamer.

Those wishing to prevent an attack of seasickness sit down on the vibrating chair. They have about the same sensation as in riding in an automobile. The vibratory motion makes the rolling and pitching of the ship less felt, the slow downward motion of the vessel being counteracted by the numerous short vibratory shocks occurring in an upward direction.

#### Diplomatic.

"Mr. Gidsmore," began the young man, "when you proposed to your wife—or to the estimable lady who is now Mrs. Gidsmore—did she tell you to ask her father?"

"She did, my boy," affably replied Mr. Gidsmore.

"And did you try to shirk the job?"

"Well, come to think of it, I did. I—I believe I tried to get her to do the asking, 'pon my soul. Ha, ha!"

"And when you did ask him—of course you had to speak to him finally—"

"Of course I did. Of course."

"And when you did ask him did your knees shake, and was your tongue dry, and did you have stage fright generally?"

"I was scared to death."

"Well, that's the way I feel. I told Gladys I knew I could find some mutual bond of sympathy between us when I came to tell you that she has promised to marry me."—Life.

#### Serious Affair.

Clara—O, mother, we had such fun at the party! Young Smith proposed that he and I should go through a mock-marriage ceremony—just in fun, you know; and it was too funny for anything. Afterward, some of the older people who heard of it said we were really married; but we're not, are we?

Doting Mother—Of course not. Besides young Smith couldn't support a wife if he had one.

"O, it wasn't that Smith. It was the other Smith from Gold City, the one who owns a bonanza mine, you know."

"Eh? That Smith! My dear, a marriage like that before witnesses is binding."—N. Y. Weekly.

#### Bit of Biography.

It would be impossible to tell within the limits of a short sketch how John G. Shookafeller got his money. Furthermore, it wouldn't be polite. Enough that he got so much that he founded a university in a western town and has since indulged largely in the dissipation of feeding the institution.

Almost at the same time John G. Shookafeller became recognized as a "menace to the republic," became bald, and took to golf. Exposure followed upon the first, a wig upon the second, and a strain on religious training upon the third.—N. Y. American.

#### Value of Appearances.

It was a case of drunkenness and the prisoner was an army veteran, and when he stood before the bar of justice it was very evident that he felt his position keenly. Just before he was arraigned a young woman, his wife, stepped up to the detention pen hesitatingly and took out of her handbag a freshly laundered collar and necktie which she furtively handed the man. The change wrought in his appearance by the new neckwear was phenomenal. He was placed upon probation, and it is safe to say that he will never be brought into court again.—Boston Traveler.

**CARE FOR MOUNTAIN SHEEP**

**Colorado Game Laws Have This Animal Under Their Special Protection.**

State Game and Fish Commissioner Jim Woodard declares that the mountain sheep of Colorado is in the same class as the sacred bull of India. It must not be touched, says Woodard. If the animal is seen browsing upon the mountainside the gun of the hunter must not be pointed in its direction. The animal, therefore, may be called the "sacred sheep of Colorado." There are not many of them left, but under the protection of the law they are increasing every year. There is a band of them on the hills between Florence and Victor, and Mr. Woodard has a photograph of a bunch grazing on a hillside a short distance from Florence.

But for the passage of a law which heavily fines those who kill this animal, the species would have been extinct long ago.

A letter received in Mr. Woodard's office recently tells of the arrest and conviction of one Fred Klantzsky for killing a mountain sheep. Klantzsky was fined \$300 and costs in the county court at Canon City. The costs amounted to \$140, and if the accused man does not settle he will have a long term to serve in the county jail.—Denver Republican.

**LESSON HE EASILY LEARNED**

At Least on One Occasion George Convinced Wife That He Could Say "No."

"I dined at the Carlton with the Howard Goulds in London," a globe trotter said. "Afterwards we took our coffee on the raised platform of the foyer, where the orchestra plays and where you get an excellent view of the smart London world. Mrs. Gould entertained us with the story of her last balloon trip. She had stayed up much longer and gone much farther than had been intended.

"The trip," she said, ruefully, "was a little too successful."

"Oh," said I, "can anything be too successful?"

"A temperance sermon was once too successful," Mrs. Gould said.

"Then she told us how a woman preached one morning a temperance sermon to her husband, who was suffering from the effects of the night before. 'The great trouble with you, George,' the woman said, 'is that you cannot say "No." Learn to say "No," George, and you will have fewer headaches. Can you let me have a little money this morning?"

"No," said George, with apparent ease."

**The Guardian at the Gate.**

"How do you like the position of official watchdog?" a man asked of the grizzled veteran who sits at the door leading to the office of the Cook county board of review.

This man's business it is to examine credentials so that no person who deems himself undertaxed shall be admitted.

"Call me not that," said the guardian. "I am St. Peter at the gate."

The other sought to have his taxes reduced, and as he was entering the office he said: "So then this is heaven, where the heavy laden are relieved of their burdens. That's not bad." After a long wait his turn came. His tax assessment had been "confirmed," the "ruinously high valuation" stood.

"All the heavy laden are not relieved," said the doorman. "St. Peter turns some away bound for another place."

The victim smiled wanly as he passed out.

**Reading Made Easy.**

In a study of the physiological aspect of reading the curious fact has been brought out that the characteristic features of letters are found for the most part in the upper halves, so that as the reader's attention is here directed he is often able to read a line with the lower half of the letters covered. It has, accordingly, occurred to some French scientists that some considerable improvements could be made in typography, working along these lines, and that increased legibility and rapidity of reading would result. Some of these suggestions have received a practical application in some European advertising signs, where legibility is a prime essential, and the results have been most satisfactory.—Harper's Weekly.

**Vital Difference.**

Arthur Stringer, the author of "The Wire Tappers," has retired for the summer to his Lake Erie fruit farm at Cedar Springs, Ontario. Like most amateur farmers, Mr. Stringer does not find his fruit raising a source of any great revenue. He explained this not long ago by pointing out the difference between the so-called gentleman farmer and the everyday farmer. "For it's very simple," said the author over a dish of his Eumelan black grapes. "The first sells what he can't eat, and the other eats what he can't sell."

**Opportunity.**

Stranger—Is there an opening in this town for a young man who don't use tobacco or liquor, of irreproachable ancestry and some capital, who is willing to work and—

Postmaster—That is—thar's jest about two dozen widders here that's simply dying ter throw their hooks inter some sech puddin ez that!

**DRAFT NEW INSURANCE LAWS**

**OUTLINE OF REPORT TO AMERICAN BAR ASSOCIATION.**

Federal Supervision of Interstate Risk Business Advocated by Committee of Lawyers.

Omaha, Neb., Aug. 14.—The report of the committee on insurance law of the American Bar association to be submitted to the convention of the association, which meets at St. Paul August 29-31, was made public Monday by Ralph W. Breckonridge, of Omaha, chairman of the committee. The report goes into the subject very exhaustively and the conclusion is summed up in the following recommendations:

1. That the insurance committee be directed to draft and report to the next annual meeting of the association a bill that shall safeguard the interests of the life companies and their policyholders, but which shall require deferred dividends on life policies to be biennially apportioned, credited and notified to the holders of such policies.
2. The repeal of the so-called reciprocal or retaliatory tax laws.
3. The repeal of the valued policy laws.
4. The creation in each state of the office of fire marshal.
5. Stricter incorporation laws in the several states, with particular reference to the capital stock and stockholders' obligations in insurance companies.
6. The enactment of a federal statute forbidding the use of the mails to persons, associations, copartnerships or corporations conducting any kind of insurance business in the United States who are not licensed to transact such business by the states, where such persons, associations, copartnerships or corporations are domiciled, or under whose laws any such corporations are created.
7. The enactment of a federal statute providing for the supervision of interstate transactions in insurance.

**ROAD GRANTS EQUAL OIL RATES**

Independent Dealers to Pay Same Fees as Charged Big Company.

Cleveland, O., Aug. 14.—United States District Attorney Sullivan left for Chicago Monday night to resume his work in connection with the grand jury investigation of the Standard Oil company.

He was in consultation, before he started, with C. D. Chamberlin, secretary, and F. W. Boltz, traffic manager of the National Petroleum association in regard to some evidence which is to be brought out at the hearing. Mr. Boltz has been subpoenaed to appear as a witness before the grand jury.

Mr. Sullivan stated that he had been informed that as one result of work of the government the Lake Shore & Michigan Southern railroad had given notice to independent oil dealers that hereafter their mileage fees on tank cars would be computed on the same basis as the Standard Oil company.

It has been alleged in recent hearings before the interstate commerce commission here that the railroad company had discriminated against the independent oil companies in this regard to the extent of many thousands of dollars.

**COOLIES TO BUILD THE CANAL**

Contracts for 2,500 Laborers to Be Made as Experiment.

Washington, Aug. 11.—Chinese labor will be given a thorough test on the Panama canal. Contracts calling for 2,500 Chinamen for canal work have been prepared and advertisements will be issued by the Isthmian canal commission in a few days asking for proposals from labor agents.

If the initial 2,500 Chinamen prove a success, it is likely that many more will be taken to the isthmus to do the work, which is too hard for the Jamaicans now employed there in large numbers.

**MANIAC INJURES SEVEN MEN**

Madman Shoots and Stabs Train Employees and Others at Sparta, Wis.

Sparta, Wis., Aug. 14.—Seven men were seriously injured, two probably fatally, in a shooting and a stabbing affray Monday on a Chicago, Milwaukee & St. Paul train here. Louis Feltz, who said he lived at Milwaukee, apparently becoming demented after leaving a parlor car, where he had been the object of comment on account of his unkempt appearance, drew a knife and attacked the conductor. A struggle followed during which the men were injured.

Feltz boarded the train at La Crosse to go to Milwaukee. When he attacked Conductor Cunningham, Brakeman Johnson went to the aid of Cunningham. Feltz was pressing these men so hard that Brakeman Christianson went to their assistance. As the train stopped at Sparta, Feltz jumped from the car. An encounter with the marshal of the village followed, and Feltz was arrested.

**ADVOCATES DEATH FOR ANARCHISTS**

**SOLITARY IMPRISONMENT WITH LIBERAL PRIVATE APPLICATION OF LASH.**

Secretary Bonaparte Says There is No Cure for the Evil, but He Would Inflict Drastic Punishment on Slayers of Officials.

Cumberland, Md., Aug. 13.—The anarchist, of all enemies of society, least deserves mercy or humane consideration. At his full development he is hopelessly beyond redemption, an irreconcilable foe of law and order. There is no cure for his disease; the eradication of his breed is impossible. Yet he cannot be allowed to thrive with safety to the community. What is to be done with him?

This, in brief, is the view Charles J. Bonaparte, secretary of the navy, holds of the anarchist. And this is what he would do with him:

**Death for Anarchists.**

Let death, unequivocally imposed by law and inflexibly executed, be the punishment of every anarchist who seeks directly or indirectly to take life. Let the most rigorous imprisonment, solitary, comfortable, and pitiless, with liberal private application of the lash, be the punishment of every anarchist guilty of offenses which cannot be punished with death.

Secretary Bonaparte does not advocate this treatment as a cure or panacea for anarchism. He does not believe such a thing possible, nor the eradication of the evil by any remedial legislation a thing to be hoped for in this generation or the next. He believes the source of anarchism too deeply interwoven in the basic scheme of modern civilization to be uprooted bodily.

**Should Be Treated as Reptiles.**

What he does believe, and advocate, is that in this country pseudo-humanitarian claptrap should be disregarded and anarchists treated as reptiles whose extermination must be the aim of the entire community as a vital factor in its own preservation.

Imprisonment in the case of an anarchist is a farce, the secretary believes. He can't be reformed nor even improved, being invariably worse when he comes out than when he went in.

Secretary Bonaparte's conclusions on anarchism and its remedy are the result of deep study, prompted by the revelatory horror and fear inspired by the assassination of President McKinley. He made them public in the form of a speech delivered before the Chautauqua society here Sunday.

**Speech of Gov. Mickey, Fireworks and Bunting to Mark Homecoming.**

Lincoln, Neb., Aug. 14.—Details for the homecoming of William J. Bryan were arranged Monday so far as possible at a meeting of the different committees. The welcome home will be on Wednesday, September 5.

Mr. Bryan, according to the present itinerary, will not arrive until late in the afternoon of that day, and there will be no elaborate parade, as was intended.

The exercises will take place at the state capitol grounds and will be open. Gov. Mickey will deliver the address of welcome to which Mr. Bryan will respond. There will be other speeches, but present plans do not contemplate any speakers outside the state.

The reception will occur in the evening in the capitol building, followed by night fireworks.

The business and residence parts of the city will be elaborately decorated and a great crowd is expected from this and other states.

Four Persons Give Up Lives in Vain Endeavor to Rescue Others.

Davenport, Wash., Aug. 13.—Five persons prominent in social life of Davenport, who had been enjoying an outing on the banks of the Spokane river about 12 miles northeast of here, were drowned Sunday.

The dead: Miss Winnie Jones, A. L. Bergett, Mrs. A. L. Gergett, Roy Howard, A. L. Inman.

Four of the drowned heroically sacrificed their lives in an attempt to save others. One after another they plunged into the river, only to be seized by the whirlpool or the under current.

**FORTIETH ANNUAL MEETING OF BOYS IN BLUE BEGINS AT MINNEAPOLIS.**

Old Soldiers Fill City with Martial Airs—Capt. Coney, R. B. Brown and C. G. Burton in Lead for Office of Commander.

Minneapolis, Minn., Aug. 14.—Veterans of the civil war and other visitors by the thousands, brass bands and drum corps by the hundreds and fluttering flags in number beyond computation have been pouring through the streets of Minneapolis since dawn Monday. The air is filled with the crash of brass bands, the cheering of crowds, the roll of drums, and rent in twain by the shrieking of the life fingered with varying degrees of skill, but always with the utmost fervor.

**Side Features of Reunion.**

Monday was the first day of the fortieth annual encampment of the Grand Army of the Republic, which is to continue throughout the week, and despite the fact that the soldiers are so rapidly lessening in numbers, it promises to be one of the most successful ever held. Aside from the encampment itself, there will be annual meetings of the many affiliated societies, such as the Woman's Relief Corps, Ladies of the Grand Army, Daughters of Veterans, and an almost infinite number of military organizations. The social events, planned for the entertainment of the old soldiers and their wives, are many and elaborate.

The first reunion of the day was that of the First Minnesota volunteers, which, its survivors say, was the first body of men to offer its services for the war. The veterans met at the soldiers' home near Minnehaha falls, and there were present about one-half as many men as the regiment lost in ten minutes at Gettysburg. The Fifteenth Wisconsin also met during the day, and the first sessions of the Women's Relief corps was held in Wesley church.

**Reception to Commander.**

Monday night the chief social events were a reception in honor of the Daughters of the American Revolution at the home of Mrs. H. H. Kimball, and a similar event tendered by the St. Paul posts of the Grand Army to Commander Tanner, at the state capitol. A great patriotic concert was given in the Auditorium.

The political aspect has been mild thus far, as none of the candidates for the honor of being the next commander of the organization has arrived. The contest is expected to grow warm during the next 24 hours, however. The leading candidates are Capt. P. H. Coney, of Topeka, Kan.; R. B. Brown, of Zanesville, O., and Charles G. Burton, of Missouri. There is no contest for any of the lesser offices.

#### Additional Local.

The Christian Endeavor Society of the Third Reformed church will picnic at Waukazoo tomorrow.

Mrs. Anje Van Dyke, mother of Jacob Van Dyke of this city, died Saturday at her home in Grand Haven at the age of 69 years. The surviving children are Jacob of Holland, Mrs. Jennie Kraai, who lives in the southern part of the county; Peter, Mrs. Samuel Stuvelling, Martin, Charles and Louise of Grand Haven. The funeral was held Tuesday.

Tubergen & Zanting, the Sixteenth street repair shop men, have the distinction of possessing the only automobile tire vulcanizer in the city. It is a perfect machine and does the work speedily and well. With the vulcanizer are four moulds used respectively for 2 inch, 3 inch, 3 1/2 inch and 4 inch tires. Possessing as they do the only vulcanizer of this kind it is not strange that they are rushed with work, for the automobile owners soon spread the news when they hear of anything beneficial to the machines. Besides having the outfit to do the work Messrs. Tubergen and Zanting are skilled workmen and turn the work out promptly.

The body of Charles Shipper, the former Grand Haven millionaire lumberman, who was accidentally killed while boarding a train in Chicago, was brought to Grand Haven Monday evening for burial. The funeral was held Tuesday morning at the old Shipper homestead, and the services were conducted by a Presbyterian minister from Chicago. Pallbearers were selected from Mr. Shipper's former associates and the following carried the body to its last resting place: Nathaniel Robbins, Fred Hutt, Charles Boyden, James P. Armstrong, William H. Loutit and Stephen R. Monroe.

Capt. Geo. W. Pardee and Capt. Eckliff, steamboat inspectors of the Grand Haven district tied up a score of pleasure launches at St. Joseph for non-compliance with the law requiring that every craft carrying passengers have on board life preservers, one for every passenger and a licensed man to run the boat. The Graham & Morton Transportation company was also ordered to place ring buoys with ropes attached on the dock for use in emergency cases.

The new steel bridges erected by Zeeland township are completed and on last Saturday the township board was called out to inspect the work. The four erected in a southeasterly direction from town and also the one on the new road between sections 9 and 10 were found to be satisfactory, but the bridge near Vriesland station, between sections 3 and 10, was not approved by the board. The last mentioned bridge is out of line and the bridge company holding the contract will raise it to a level with the road grade and otherwise bring it to right before the board accepts the job.

Mr. and Mrs. L. Houtman and three small children were transported to their native country, the Netherlands, last week Monday, at the county's expense. He was a poor man and came to America about two and a half years ago with the hope of bettering his condition. His destination was Holland, Mich., where he was employed in a furniture factory until about a year since when a good opportunity was offered him to return to his old trade, that of cobbler, in Zeeland and he established his shop in the shoe store of Elzinga & Co. During his stay in America, however, his health gradually became impaired and for several weeks past he has been unable to look after his repair work. The climate did not seem to agree with him and he has now returned home, as his wife calls it, with the hope of regaining his health.

The Normal Training Class for Ottawa county will begin work in Grand Haven on September 10 and continue nine months with the usual vacations. Miss Louise Kilbourn of Kalkaska, known to be one of the best normal teachers in the state, has been engaged to devote her whole term to this class, and her work, supplemented by some of the best talent in the Grand Haven city schools, including instruction in music and drawing, promises a rare opportunity for those who receive admission to the class. In order to be admitted to the class the applicant must be 17 years of age and possess one of the following academic qualifications: A graduate from the tenth grade of a high school; a teacher with two years experience; a teacher's examination record sufficiently high for a second grade certificate. On completing the nine months course, the graduate will receive a three years teacher's certificate, renewable without limit and good in any county, in the state when endorsed by the county board of examiners.

Pere Marquette excursion to Elk Rapids, Sept. 4. Ask agent.

Emil R. Frederick of this city has been granted a patent on a lawn rake.

The ladies of the German church will give an ice cream social at 100 W. 10th street this evening. Everybody cordially invited.

A large company from the Methodist Sunday School are picnicking at Saugatuck today. They went by interurban.

Rev. A. T. Luther left by boat on Wednesday for a visit to Woodstock, Illinois. The preaching service at Ventura for next Sunday will be postponed until August 26.

Mrs. T. Dykhuizen, who recently sold her farm on Fairview road, removed to Holland last week, where she expects to make her future home.—Zeeland Record.

W. H. Sutphen, 222 West Twelfth street, has a fine collection of garden luckleberries which he expects to exhibit at the Holland Fair. They are as large as good sized blackberries and resemble large black cherries.

The ladies of A. C. Van Raalte Relief Corps, will give a social in G. A. R. Post room tomorrow evening. A program consisting of music and speaking will be rendered. Ice cream and cake will be served. The public is cordially invited.

Rev. Geo. W. Gray will preach at the First Methodist church next Sunday morning. Dr. Gray is superintendent of the "Forward Movement," with headquarters at Saugatuck. He will bring with him 40 children and their teachers from the Home of the Deaf and Dumb. The young people will also take part in the service.

Although nearing completion, the new school house at West Drenthe will not be finished in time for the opening of the fall term. The building, when completed, will be a fine structure of concrete building blocks, handsome and modern in appearance. Will C. Huyser of Beaverdam has been engaged as teacher for the ensuing year.

In order to give the barbers, as well as the merchants, a few evenings off each week to pass in the family or social circles, they have fallen in line and L. W. Thurston and C. Pieper & Sons have made an agreement to close their shops on Monday and Thursday evenings at six o'clock. This is a move in the right direction. Patrons should bear in mind that barbers are entitled to a little rest and that the shops are closed on the nights above named.—Zeeland Record.

At a meeting of the physicians of Ottawa county and adjoining portions of Allegan county held in this city Tuesday afternoon it was decided that a uniform schedule of prices be adopted and that all charges be made according to this schedule. All physicians will charge the same price for the amount of work done and distances traveled and the schedule of prices will be published.

George Wyers, who caused the arrest of James Allen on the charge of illicit relations with his wife, was himself placed under the ban of the law last Tuesday night on the charge of assault and battery preferred by his wife. Marshal Kamferbeek arrested him and when arraigned in Justice Van Duren's court he pleaded guilty and was fined \$25 and costs. It appears that Wyers came home Tuesday evening partially intoxicated and urged on by the pangs of jealousy indulged in a stormy altercation with his wife, which finally led to blows.

Joseph Patriarch and Mrs. Grace Fauble were arrested here last Saturday night on a charge of adultery. Patriarch is a large Italian or Frenchman who came here from Allegan to act as cook for Frank Auer in the restaurant in the rear of the Stanley saloon. When Auer disappeared, Patriarch continued the business. Saturday noon Mrs. Fauble arrived here and was seen around the restaurant. Her husband works in the paper mill at Allegan and he asked Sheriff Whitbeck to find her. The sheriff and his deputies soon located their party and late that night they found Patriarch and the woman in the former's room at the Fennville House, where he had taken her by an outside stairs, unknown to the hotel management. The evidence taken at the time, warranted the charge of adultery, which was made by the husband, who came from Allegan and swore to the complaint before Justice L. S. Dickinson. Neither of the guilty parties expressed any concern over their arrest, when confronted by the wronged husband. Mrs. Fauble is the mother of one child.—Fennville Herald.

Ray Knophuizen Dies From Injuries Received In Factory.

Ray Knophuizen, aged 35 years, foreman of the machine room of the Holland Furniture factory, died at 8:30 o'clock last night from injuries received at 2:30 o'clock yesterday afternoon.

As near as can be ascertained, he was putting the belting on the pulley near one of the hangers, and was either struck by the broken belt or the hanger and thrown to the floor. His head was badly cut and he was unconscious when picked up. He lingered until 8 o'clock last night, when he passed away.

He was a young man of good habits and good character, and his death proved a great shock to his many friends.

He is survived by his wife and one son. Arrangements for the funeral have not been completed.

Death of Harry Mokma.

The death of Harry Mokma occurred last Tuesday afternoon after an illness of several weeks at the age of 29 years. He was the only son of G. W. Mokma, cashier of the First State Bank, and was at the home of his parents on a visit when he was stricken with typhoid fever. Two days ago he suffered a relapse from which he did not rally.

Most of Harry's life was spent in this vicinity. He came here from Graafschap with his parents when his father took a position in the bank and lived here until a few years ago when he moved to Milwaukee, where he was employed as engineer of a tannery.

He is survived by his wife, three children, his parents and four sisters.

The funeral services will be held Friday afternoon, Rev. Haan officiating.

Farmers Picnic Pleases.

The Farmers Picnic and Band Tournament celebration at Jenison son Park yesterday was a scintillating success. There were more people than ever, they had more fun than ever, and they look forward more than ever to next years celebration. Here are some of the leading doings:

The White Flyer, City of South Haven, brought 500 people here on an excursion and took 500 from here on the Lake Michigan excursion. Messrs. Dunkley and Cochrane, who were here, were so pleased that they have decided to run excursions here next Wednesday and Labor Day. Capt. Mitchell, Holland's old time favorite, was in command.

The special vaudeville acts were good.

The Holland Citizens Band won first prize in Division A. in the band tournament capturing the \$50 prize.

The Allegan band won second prize, \$35.

The Crisp band won first prize in Division B, \$35.

The Burnips Corners band won second in this division, \$25.

The tournament was good.

The coffee was good.

The balloon went up.

Jack Busbee was busy.

Peter T. McCarthy was pleased.

Charles A. Floyd was happy.

#### PERFUME MADE IN GERMANY

Growth of Industry Makes That Country Rival of France and England.

Vice Consul Fuller writes from Hanover that the German perfume industry is now one of the most important and successful in the world, rivaling that of France or England. He describes it in the following letter:

Some of the biggest factories are in Leipzig, but Berlin, Carlsruhe and Hamburg are important centers of the trade. There has been a vast increase in the last few years in the diversity of essential oils produced from plants and 40 varieties of those plants are employed in the German factories, which use as well such products of foreign lands as nutmeg, cinnamon, camphor, balsams, pepper, musk and ambergris.

The production of the essential oil is expensive, ranging from about \$227 a pound downward, according to the scarcity of the oil in the plant. With fresh flowers the distillation takes place as near the place of picking as possible, as the fresher the products the better. The stills contain about 3,300 pounds of flowers and the necessary amount of water. Great care is taken as to the amount of heat supplied and to its regularity, the process being thoroughly controlled, an excellent product resulting.
