Virginia Park Wants Old Road Main Highway

WANTS TOURISTS TO BE LED
THROUGH THE DISTRICTS
WHERE RESORTS ARE

The Virginia Park Community club has come out unanimously, asking that the new proposed road from Holland to Saugatuck be made a super-highway in order that the tourist public may see what we have to offer as a "summer playground" instead of leading them away from this, "our scenic highway." They feel that the new old highway is the "show window" advertising our resorts and by presenting these vistas to few the urge to remain will be created. Anyway the resolution presented and passed by the Virginia Park Community club is self-explanatory and follows:

To the Editor of the Holland City News:

At a meeting of the Virginia Park Community club, held in the clubhouse on Monday, Aug. 8, 1932, the following resolution which we humbly requested be given space in your paper was adopted:

"Resolved, that we, as a community organization, enter a protest against the relocation of US-31 between Holland and Saugatuck."

"Realizing that the Ottawa county road commission at the present time is exercising their influence, which we feel is fully justified, to move US-31 from Grand Haven and Holland closer to the lake in order that the tourists may have a scenic highway and also that the state highway department has spent more than a million dollars in constructing US-31 between Benton Harbor and South Haven as near to Lake Michigan as possible, we believe that to operate the route in its present location is in keeping with the general tendency of highway construction. Therefore, we cannot understand why certain officials in the city of Holland want US-31 constructed inland in Allegan county."

"Furthermore, we cannot see why Ottawa county should dictate to Allegan county where their roads should be constructed, in view of the fact that 90 per cent of the property owners along the present route have consented to the necessary land along the route to the state to make it a 100-foot highway."

"It has been contended that this will bring more roads into Holland, but we do not believe that more roads should be brought into Holland at the expense of the surrounding community interest."

"In view of the fact that our members are residents of both Allegan and Ottawa counties, and that a committee from Saugatuck has requested us to co-operate with them in maintaining the present location of US-31, we have appointed a committee consisting of Herbert E. Harrington, Edward Munson and Justin Kronmeyer to work in conjunction with committees from Macatawa Park, Castle Park, Saugatuck, Laketown Township and Park Township to take this matter up with the state highway department and to do everything in their power to maintain the present location of US-31."

Yours very truly,

THE VIRGINIA PARK COMMUNITY CLUB.

ONE MORE "BOY IN BLUE" ANSWERS TAPS

The much beloved John Wise, one of three of the last G. A. R. veterans of the civil war, passed away at the home of his daughter, Mrs. Clara Elferink, on River avenue from a heart attack. His death was entirely unexpected since he had taken a walk downtown as was his custom on Saturdays.

He was born March 9, 1846, in Berks county in eastern Pennsylvania. In 1869 he married Miss Lucy Saxton in Toledo and in 1884 the couple came to Holland, where Mr. Wise has resided ever since. He retired about four years ago, prior to which time he had been employed as stationary engineer for 35 years at the Ottawa Furniture company.

Mr. Wise served as a private in the civil war for two years and three months, following his enlistment in Pennsylvania. He was wounded twice, in the battle of Antietam and the battle of Cold Harbor. Mr. Wise was one of the three surviving civil war veterans of Holland, the other two being John Douma and Gerrit Doeborg. About three years ago Mr. Wise was made an honorary member of the United Spanish war veterans. He has resided with his daughter for the past ten years.

Surviving besides Mrs. Elferink are two sons, Guy Wise of Grand Haven and Leo Wise of Grand Rapids; nine grandchildren and two great-grandchildren.

Funeral services were held on Tuesday afternoon at 2 o'clock at the home of Mrs. Elferink. Rev. J. O. Randall, pastor of the First Methodist Episcopal church, officiated. Burial took place in Holland township cemetery.

Funeral services were also held for George Mooney, Frank Harbin, Benjamin Hamme, Henry Van Lente, Tien Vanden Water and Frank Kolmar, all members of the United Spanish War Veterans.

Many women of the Women's Relief Corps and women of other military auxiliaries also attended.

Henry Doseman, East Holland paid a fine of \$1.00 and costs of \$6.35 for parking on the highway. He was arraigned before Justice Paul Behm—Grand Haven Tribune.

A meeting of the Women's Democratic club, newly organized in Grand Haven, met in the library auditorium this Thursday afternoon where Ernest Brooks, Democratic nominee candidate for congress from Holland and Mrs. Etta M. Ferrell, Democratic chairman of Muskegon, addressed the meeting.

PORT SHELTON ROAD CENTENNIAL NOTES

All the candidates of all the parties of Ottawa county were in evidence at the road centennial. All were "loaded"—with cards.

Do not fail to read the speeches of Lillie, Miles and Connelly. They are not really speeches but "jam full" of history, ghosts, hidden treasures, Indians and a bushel of funny events as given by Bill Connelly. You will not be bored because of the length of this article.

The Holland American Legion band, under the direction of Eugene Heister, gave a delightful program on Pigeon lake, and to say the Port Sheldon resort association members are much pleased is putting it mildly.

There were not less than 2,000 at the afternoon celebration, and Bert Gebben says 3,000 in the evening.

Ben Mulder and staff scoutmaster of troop No. 6, First Reformed church, were in charge of most of the sports, and his "namesake" says Ben did well.

Holland Scouts who directed traffic together with deputies from the sheriff's department, handled the situation admirably despite the many one-way roads.

The Holland City News presented the resort association with 500 postal cards, with the Ottawa House pictured in this issue, also giving a short history on the card and the occasion for issuing it. This cut has been in the possession of The News for a half century.

Thousands viewed the curios in the Community hall. There were hand-made bear traps, hand-made shingles, leg implements for "lumber jacks," candle lanterns, ox yokes and ox shafts, located on first street at Port Sheldon and hundreds of other valuable keepsakes.

The Holland merchants giving prizes for sports events were A. Steketee & Sons, De Pree Hardware Co., J. C. Penney Co., Montgomery Ward, P. S. Borer & Co., Lecker & Rutgers, J. S. Rutgers Co., Corner Hardware, Superior Cigar, Holland City News, Banner Bakery and Just It Bakery donated pies.

A large picture was shown in the Community hall of John Any, father of Abe Any, who came to Port Sheldon 54 years ago with his family. Abe still lives there and was the secretary of this celebration.

The executive committee who aided in making this celebration a success, is as follows: Austin Harrington, general chairman; Abe Any of Port Sheldon, secretary; and the members are Leo Lillie of Grand Haven, Bert Gebben and Ben Mulder of The News of Holland; Judge Harry Jewel, John Vander Stell, William Bruner, Fred Hulbert, Dr. P. T. Grant, Rudolph Kotzsch, all of Grand Rapids; and Herman Hugenholz of East Grand Rapids. Mr. Hugenholz is president of the Port Sheldon Beach association.

At the Port Sheldon celebration Wednesday Eleanor Griffen McNett, who by the way is head of the Red Cross in northern Ottawa county, came in for considerable praise by the speakers. She also had a few words to give a review from the old ledger of the Ottawa House of 1838. Her father came to that part of Ottawa county in 1837, and this old lady, who spoke, remembers many of the old scenes at Pigeon lake.

Historian Leo Lillie spoke in glowing terms of Mrs. McNett and he stated that all soldiers in Ottawa county owed her a debt of gratitude for being so untiring in getting soldiers relief information and results on pensions and other intricate matters having to do with soldiers.

He called her the most beloved woman in Grand Haven.

Mrs. McNett, while she spoke, carried the old ledger of 100 years on her arm and it surely is a historic relic.

ROOSEVELT CLUB MEETS

Mr. Ed Michmerhuizen, secretary of the Roosevelt-for-President club, stated that Mayor Allen Stebbins of Iowa who is the Democratic nominee for lieutenant-governor, will accompany Congressman M. J. Hart of Saginaw here Friday night's meeting at the Women's Literary club building. The meeting will start at 8 o'clock. Both gentlemen will address the meeting. Ex-Mayor Ernest C. Brooks will also appear on the program. Ladies and gentlemen are invited.

YOUNG COUPLE WED

WEDNESDAY EVENING

Mr. Benjamin Altema of Holland and Miss Janet Lamer of Borculo were united in marriage at the home of the bride's parents in Borculo on Wednesday evening at 8 o'clock.

The ceremony was performed by Rev. A. De Vries of Borculo, in the presence of immediate relatives, the double ring ceremony being used. The bride wore a beautiful pink crepe dress and carried a lovely bouquet of flowers. Her bridesmaid, Miss Frances Bartels of Holland, wore a blue crepe dress, also carrying a bouquet of lovely flowers. The groom was attended by his brother, Gilbert Altema. Following the ceremony a lap supper was served to the guests.

Mr. Altema is the son of Egbert Altema of Holland and is the proprietor of the Washington Square barber shop in this city. Mrs. Altema is a daughter of Mr. and Mrs. John Lamer of Borculo and was employed as telephone operator at the Borculo exchange for the past four years. They will be at home to their relatives and friends at 16 East Eighteenth street, Holland.

Port Sheldon Smacks of Hidden Treasure

OLD HOTEL BRINGS OUT
MANY LEGENDS AND
SOME "WINE, WOMEN AND SONG"

At Least 3,000 Came to Pigeon Lake to Celebrate the Century Mark of the Birth of the First Highway.

Wednesday, Aug. 10, was most beautiful for a celebration and picnic in the open on a placid lake surrounded with natural beauty. This was the day when the Port Sheldon folks invited the rest of Ottawacounty to help commemorate the completion of the first passable corduroy road, called the "Red Line," from Holland to Grand Haven via Port Sheldon.

It goes without saying that the road was built through a wilderness of trees, over swamps and bogs, and wound its way over hill tops and through valleys. It was the first forward march of white civilization through these parts where the Red Man still smoked his pipe of peace under the flap of his tepee.

The celebration brought out a great deal of history, much of it legendary and not a little Indian lore. However, there were evidences enough in the curio museum in the community hall to show that there once was a Port Sheldon, a hotel, a harbor such as it was, and a village of small summer homes, a saw mill and those things which civilization brings, and it is rather interesting to know that this resort bubble had materialized and burst shortly before Dr. Van Raalte settled Holland.

We prefer, however, to leave this historic detail to Attorney Lillie, Judge Fred T. Miles and William Connelly, the three speakers whom Chairman Austin Harrington of Holland presented to an audience of 5,000.

Mr. Connelly, who was brought up at Port Sheldon, told of the stories and legends and hidden treasures that were told him by the older folks in the neighborhood.

Mr. Lillie dwelt more upon historic facts taken from records as portrayed in a history recently given by him.

Mr. Connelly compared the old road of 100 years ago with the new highway of today and pictured that in the near future a ribbon of concrete, taking in Port Sheldon as part of a scenic road, would become a fact.

Mr. Lillie stated that he could only hit the high spots in Port Sheldon's history since this history had been in the making for a thousand years. As in his "Historic Grand Haven and Ottawa County," he associated the main events in American history and the forward march westward as the cause of the development not only of Port Sheldon, but many other settlements where venturesome folks went out into the wilds to lay the foundation of cities.

He pointed out that in 1838 there was a mania to locate cities and villages. Men fancied they could see "millions" in wilderness locations. It seemed crazy but men today even have that fancy. During the Port Sheldon boom there were thousands of towns so-called on paper, thoroughly advertised, beautifully pictured in order to draw in the money. The Florida boom was by no means the first real estate bubble to burst. Mr. Lillie contended.

He pictured the "wild cat scheme" of Port Sheldon of 1838 as published in The News repeatedly, when the Ottawa House was built by New York and Philadelphia capitalists under the name of the Port Sheldon company. This was in the fall of 1838.

"Mr. Lillie said in part as follows: 'They came in with a vessel loaded with provisions and stores. Their houses were ready to set up. They brought about 40 men, consisting of directors, superintendents, surveyors, engineers, etc., with every equipment for laying out the place on a large scale, and everything necessary for their comfort and enjoyment during the winter. They laid out a city, surveyed the harbor and improved the entrance. The harbor and plat were made into an artistic drawing. There were 138 lots, front lots and 2,662 other village lots. There were 142 blocks, in most cases 24 lots each. Seven lots were reserved for churches, one for a fish market, two for other markets, four for a railroad depot, four for a city hall, and one for a school house. Good roads were made to Grandville and Grand Haven at an expense of nearly \$10,000. A light-house was built and maintained at the expense of the company for two years. They had a beautiful yacht, the 'Meme' (Indian name for 'pigeon'). They kept an hotel and paraded in full regalia. A hotel, 60x120 feet, was built at a cost of \$40,000, and maintained in splendid style. The prospectus of the hotel contained a picture of the hotel, published in today's issue of the Holland City News.'

"So you can readily appreciate that this was no mean adventure and that it was one of Eldorado dreams of the West. All these extensive expenditures made in a wilderness, with an undevoted country around them, and with a city, in name only, from which to draw patronage. It would almost seem that same men would not dare to hope for the success of such an enterprise."

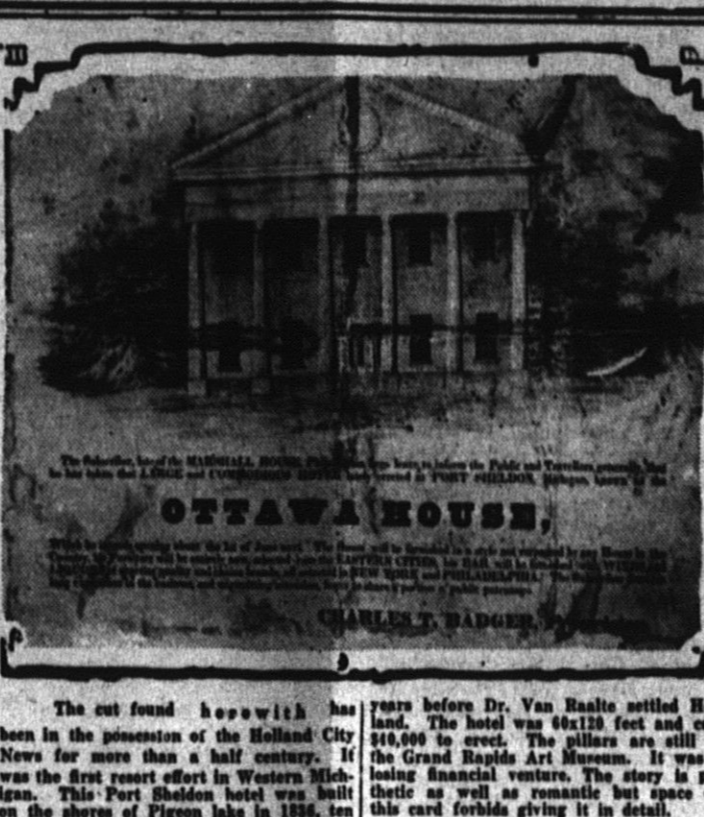

"And then, after the building of this paradise of luxury in the heart of this wilderness, came the financial rottenness of 1838-1837, which visited the entire nation, and it fell with particular severity upon this and other frontier communities. These were days of deep distress for them, just as the past few years have brought deep distress upon the multitudes of today. We are now able to more readily appreciate and realize the significance and effect of a financial depression upon this spectacle."

The matron has been appointed for the Hope college girls dormitory. She is Miss Townsend of Arlington, N. Y., and comes highly recommended. Mrs. C. V. R. Gilmore was elected dean of the dormitory. The girls of Hope will next fall have a beautiful home in Voorhees Hall.

Prospect Park Church has extended a call to Rev. G. P. De Jong of East Paris.

Miss Nellie Churchford of the City Mission has received a diploma from the Schofield Bible Correspondence School of New York City, one of the largest Bible institutes of this character in the world. Miss Churchford completed a two-year course in seven months. The course

The cut found here with has been in the possession of the Holland City News for more than a half century. It was the first resort effort in Western Michigan. This Port Sheldon hotel was built on the shores of Pigeon lake in 1838, ten years before Dr. Van Raalte settled Holland. The hotel was 120 feet and cost \$40,000 to erect. The pillars are still in the Grand Rapids Art Museum. It was a losing financial venture. The story is poetic as well as romantic but space on this card forbids giving it in detail.

left Abram Pike sole occupant and absolute monarch of the realm that was to be. It was too great an expense to keep the narrow inlet to the lake navigable, and after several years he sold the hotel and a few lots for less than the cost of the paint and glass used in the construction of the building, and today the old columns of the hotel are now a part of the construction of the Art Museum in Grand Rapids.

So you, people at Port Sheldon have a background rich in historical romance and color behind your beautiful summer home setting. You could with little effort capitalize your heritage to your own advantage. Broadcast your attractions, you have plenty of them."

Judge Fred T. Miles gave altogether a different picture of Port Sheldon. This was Fred's birthplace more than a half century after the Port Sheldon bubble had burst. Although Port Sheldon was a thing of the past the stories and legends of earlier revelry, hidden treasures and even of murder were oft repeated and have been for a century and, as Mr. Miles says, no doubt time has distorted many of these happenings and legends have been built around Port Sheldon's early events, the truth of which he will not fully subscribe to.

Anyway he repeats these stories as were told to him by the older folks when he was still a "barefoot boy" living on Pigeon lake.

Mr. Miles said in part as follows: "No person now living had his hopes and happiness centered in the rise or progress of Port Sheldon as a commercial center. The 'boom,' although startlingly rapid and on a scale of gorgeous magnificence, lasted for the short period of about two years."

The Democrats will probably

Now look out for the cows—the ordinance at last was passed by the council after two years of debate and kicking from cow owners. It will prohibit cows from roaming the streets of Holland at will. Cattle belonging to local residents have been running down picket fences, entering gardens where gates were left open and altogether have been a nuisance. Note: Yes, and your editor remembers herds of them in Centennial Park when heart fences and the present No. 3 engine house is located there. It was originally the city hall and engine house combined. The hotel house was burned more than fifty years ago and was conducted by Mr. Zalsman, father of Peter and Fred Zalsman of this city. The fire apparatus in this engine house at first was a two-wheel horse cart drawn by man power. Later the horse drawn trucks were installed and the flies and stable odor drove the "city fathers" to other quarters. Now the building is occupied by the most up-to-date motor drive fire equipment. The building also contained the city library in charge of Mrs. George Sipp, wife of the city clerk. Both have long since passed on.

The News contains several cases of arrest for liquor violations instituted by Prosecutor Fred Miles. A drug store proprietor at Jenson Park was pulled and a Berlin lookkeeper was hauled into court for Sunday liquor violation. The Holland police made 14 arrests for "drunk" during July.

Three were drowned at Saugatuck in a single day, James Purvis, 55; Miss Anna Smith, 19; and Frank Ryner, 27, all of Chicago. The drowning of Mr. Purvis took place in Kalamazoo river in the morning and two were taken out by a heavy undertow into Lake Michigan in the afternoon. It was the most tragic day in the history of Saugatuck. Holland coast guards recovered the bodies. John Dykstra, local undertaker, shipped all three bodies to Chicago.

Miss Jennie Witteveen of Ottawa Beach was withed to Anthony Peabody. They will make their home in Chicago.

Mrs. Marinus Brandt died at the age of 82 years. Rev. Einink officiated at the funeral.

Miss Minnie Derks was wed to John Helder at the home of the bride, West 10th street, Rev. Hoekema officiating. They are now on a wedding trip to Seattle, Wash.

Newspaper Blaze Nearly Brings Repeater

FIRE AT DE GRONDWET
IS A REMINDER

On Monday afternoon both fire departments quickly responded to a fire discovered in the alley way to the side of De Grondwet building. Some youngsters had been smoking cigarettes in the alley, setting fire to a substructure to the building. The damage was \$60.

This fire reminds your editor of the burning of De Grondwet building 47 years ago. The newspaper, conducted by my father, was on the second floor and basement. The store building was a warehouse for furniture and because of some slight furniture labor defect at the time, it was evident that the building had been set afire.

Any coincidence in connection with this fire was the fact that a farmer by the name of Moloch, living southeast of the city, had come to town with his wheat at 4 o'clock in the morning to be taken to the Standard Roller Mills on North River avenue, and he discovered the blaze which destroyed the plant completely.

When Editor Ver Wey wrote the heading for the next Grondwet, which by the way was printed in the Holland City News office for a few weeks in small form, he placed as his caption over the fire article, "De Grondwet verterde," which translated means "Moloch the God of Fire, Destroyed De Grondwet."

It was the hardest and longest fought fire ever to occur in this city and the blaze was not subdued until 5 o'clock in the evening, continuing to burn for thirteen hours.

HOLLAND FURNITURE MAN
HEADS BOARD OF EDUCATION

At Monday night's meeting of the board of education, Fred Beeuwkes, local furniture man, was re-elected president of the board.

Secretary Henry Geerlings proposed that more recreation be available for the youth of this city and it was suggested that the gymnasiums of both Junior High and Senior High remain open on Saturday evenings. The matter will be referred to the playground commission for a plan of recreation.

The bad condition of water at Kollen park was also discussed but very little could be done and the new swimming pool at Marsij's creek on Lincoln avenue was urged further.

A general fixing up of the interior of the buildings, boiler rooms and repairing of roofs of school buildings has either been done or is being done, according to report.

Other officers re-elected at the meeting were James Brouwer, vice president, and Henry Geerlings, secretary, who is beginning his twenty-sixth term in that office.

All of the school board committees were reappointed. Members of the teachers' committee are Henry Geerlings, William Arendshorst and Mrs. Martha D. Kollen. Gerrit Vander Hill, James Brouwer and C. De Koster will serve on the school committee. James Brouwer and Gerrit Vander Hill on the claims and accounts committee and Fred Beeuwkes, James Brouwer and Henry Geerlings on the ways and means committee.

The visiting schedule is September and February, Fred Beeuwkes and Mrs. Martha D. Kollen; October and March, William Arendshorst and William Zonnebelt; November and April, Henry Geerlings and May, C. De Koster and Gerrit Vander Hill, and January and June, James Brouwer.

Following the meeting the board inspected the memorial to Miss Mabel Anthony, teacher of English and speech at the high school from 1911 to 1931, dedicated by the class of 1932. The memorial includes five cathedral paintings representing English France, Germany, Italy and the United States. It is considered the finest single class memorial ever left by a class of Holland High school.

Mrs. Marinus De Fouw, Sr., Mr. and Mrs. John Hamillink and Mr. and Mrs. Marinus De Fouw, Jr. were guests at the Herman De Fouw cottage at Cadeau Beach.

Dr. and Mrs. Gerrit Kemme of Zeeland are preparing to move to Drenthe, where the doctor will open an office and start to practice. The village of Drenthe has been without a doctor for twelve years, since Dr. J. A. Brouwer moved to Holland.

Mrs. Henry Geerlings, who underwent a serious operation at Grand Rapids, is slowly recovering.

She has been residing at the Warm Friend Tavern where she has made her home each summer for three years, and where she was found dead. Her husband had been connected with Hope college from 1885 to 1912.

Prominent in social circles here, a member of Hope church, and a former member of the Holland Women's Literary society, Mrs. Sutphen was executive secretary of the Old Fields School for Girls at Glenwood, Md. She is survived by her two sons, Walton of Dayton, O., and J. Ralph, editor of a Hackensack, N. J., newspaper.

Funeral services were held from the home of Prof. and Mrs. C. J. Dregman at 3 o'clock Thursday, Wednesday afternoon. Rev. John W. Beardsley, professor at New Brunswick Theological seminary and Dr. John E. Kuizenga of Princeton university officiating. Burial took place in Pilgrim Home cemetery, where Mr. Sutphen also is buried. For many years the Sutphen family lived on College avenue across from Voorhees hall.

Soon Time for Peaches

Say "Georgia" to the average citizen and he'll answer, "Peaches!" Similarly Idaho means potatoes; California means oranges; Iowa means tall corn. But Michigan usually has the association with motors in the mind of the outlander, which is perhaps quite natural enough.

Only we think "Michigan" ought also to bring to mind the thought of the fruit crop which hangs in abundance on its trees from early summer until late autumn, especially when we are assured that the peach crop down in the southwestern part of this state is to be the best in 15 years. Michigan has every right to go into the markets of the Nation in competition with the fruit growers of every other part of the Country. Strawberries, cherries, blueberries, peaches and apples grow in Michigan. Good ones, too.

Throughout the state various festivals have been arranged to make the rest of the Nation conscious of these gifts of Ceres. But the growers themselves must continue to improve marketing conditions and increase long distance shipping until the Country will be as well aware as we are of Michigan cherries, Michigan apples, Michigan peaches, along with the Michigan motors.

CHIP SHOT OFTEN A STROKE SAVER

IF ONE is going to be a successful golfer, one of the most important things to learn is the short approach known as the chip shot. This is a stroke saver and the best players would just as soon chip a ball to the hole as to putt it where the distance is great.

When chipping to the pin it is necessary to get an accurate line as quite often a well hit approach drops into the cup, thereby, saving one stroke, and maybe two. Play the chip shot as you would a putt with the weight of the body on the left leg. Keep the head down and permit the club to swing through picking up the ball.

Holland Diving Stunts Draw Much Interest

MANY SEA SCOUTS FROM HERE PARTICIPATE IN SPRING LAKE SPORTS REGATTA

One hundred and ten Sea Scouts from Chicago, Grand Rapids, Muskegon, Saugatuck, Holland and Grand Haven took part in the biggest Sea Scout rally ever attempted in western Michigan Friday, Saturday and Sunday on Spring Lake, held in connection with the Western Michigan Yachting association regatta.

Contests in canoe tilting and cutter racing, life saving and diving demonstrations, a formal retreat were the high spots in the three-day program. In the formal retreat, the Scouts taking part fired the retreat gun, and had an honorary color guard made up of the three Scouts who presented the nearest appearance at inspection.

In cutter racing Saugatuck ship No. 28 won the race Saturday over the nine-tenth mile course, making the distance in eight minutes, 20 seconds. Grand Haven's ship came in second and Holland was third.

On Sunday Grand Haven won the cutter race, bettering Saugatuck's mark over the same course, doing the jaunt in eight minutes flat. Muskegon came in second. According to an age-old custom the winning crew threw their coxswain into the lake and the members of the losing crews were thrown into the lake by their coxswain.

Sunday in canoe tilting Muskegon won first place and Saturday Saugatuck took the honors. These events caused much amusement for the spectators. Holland's diving exhibition drew much interest; in fact it was a leading feature. A Scout was lowered beneath the surface of the water with a five-gallon oil can over his head and was given air by using an ordinary tire pump. The Scout remained under water repairing a boat for at least 15 minutes. Coxswain J. McKinney of Grand Haven gave a life-saving demonstration Sunday.

The following are the ships, the officers and the number in the crews:

Grand Rapids, Camp Showandaes band, skipper, George Miller; mates, Herbert Ross, Wilfred Wilson and Claude Hildebrand; coxswain, Stanley Houser; 27 men in crew.

Chicago, council from Camp Owasippippi near Whitehall, skipper, G. V. Shipman; mate, L. F. Coleman; 19 in crew.

Saugatuck, skipper, N. J. Wood; mate, G. H. Wright; coxswain, B. Edgecomb; 11 men in crew.

Muskegon, skipper, Robert Stribley; assistant commissioner, Louis Rosie; 8 men in crew.

Holland, skipper, Hendrick Noble; mates, Knoll and Boshka; coxswain, Notter; 12 men in crew.

Grand Haven, skipper, Lawrence Huizenga; mates George Barnard and E. Reenders; coxswain, McKinney; 12 men.

Henry Fase and Jay Fisher, members of the American Legion committee in charge of sponsoring the local ship No. 41, acted as commanders-in-chief during the three-day encampment. The Scouts received good co-operation from Edward Bauman of Spring Lake and the DeVries sisters and James Johnston, whose property was used as a camping area.

Those from Holland were Sea Scouts Eitel Eberhardt, Buster Brooks, Jack McClay, Herbert Brinks, Leo De Feyter, Howard Helder, Victor Notter, Darwin Van Oosterhout, Ralph Snyder, Harold Westrate and Bob Lokker. Skipper Henry Nobel and Mates Herman Knoll, Edward Danson and Marine Boshka.

Notter, Westrate, Boshka and Danson and Carl Benson of Allegan took the Scout sailboat to Spring Lake last evening. The remainder of the group left this morning in the Scout launch.

The Scouts will serve as guards for the regatta, besides having their own encampment and program. The events will close Sunday.

Divided Treasure

In Roman law, "treasure-trove," called "thesaurus" and defined as an ancient deposit of money found accidentally, was divided, half going to the finder and half to the owner of the land upon which it was found.

Sails in Use

There are still some 350 sailing vessels, aggregating 280,000 tons, engaged in transporting the foreign trade of the United States, most of which are American vessels.

Care of Canaries

Canaries should be given a little bird garden of green. A bit of bird or mustard seed, scattered in a pot or can will sprout in a few days and grow into little plants. Daily, if possible, remove the bottom of the cage and set it over the pot of green. Other things birds love are nasturtium blossoms, cuttle bone and cayenne pepper pods.

DREDGE WORKING STEAMERS ARRIVING

Dredging operations have been resumed for a turning basin and channel in Black Lake, the United States government tug Kewanee having replaced the sanderker General Meade, which started the work several weeks ago. Deposits taken from the bottom of the lake are loaded upon a scow and dumped into the lake further down at a point opposite Virginia Park out of the channel.

The channel and basin will be made 20 feet deep, the basin 400 feet wide and the channel 200 feet wide to accommodate large lake vessels entering Holland harbor. The freighter Sumatra, 400 feet long and drawing 16 feet of water will arrive in a few days at Holland from Detroit with a consignment of 1,000 tons of coke. A large gravel barge is due any hour.

New Way To Present Missionary Matters In A More Interesting Manner

A new project was instituted this year at Pine Lodge, in the form of a Mission-Study Bible Conference, which was held from July 27 to August 4. The entire program was under the able leadership of Miss Eliza P. Cobb of New York City, Secretary of the Women's Board of Foreign Missions.

The classes were designed to help leaders of Mission Societies in presenting Missionary material in interesting ways. The four divisions of Missions were taken up in connection with a very valuable little book Roadbuilders by Miss Sue Weddell. Methods of presenting the need and value of educational, medical, evangelistic and industrial work, as well as problems arising out of them, were discussed. The end of each class period was given over to the discussion of various problems arising in the various societies represented.

Sixty women availed themselves of the opportunity of attending these meetings. Twenty Ministers' wives, representing sixteen churches were present, as well as Missionaries from all of our foreign fields and one home field. Among the Missionaries who attended the conference were Mrs. A. Pieters and Mrs. Edith Walvoord, formerly of Japan; Miss Nellie Zwemer, formerly of China; Mrs. Veenschoten, China; Mrs. G. Van Peursen, Arabia; Mrs. C. A. De Bruin, India, and Miss Marie Zwemer, Annville, Kentucky.

As a result of the unanimous approval of the group, plans are being made for a more extensive conference next year. The Missionaries present expressed their appreciation to the women at home for being so vitally interested in the work and assured them that the influence of such a conference could not help but be felt in a very real way on the mission fields. There is no doubt that the conference has given new impetus and fresh encouragement to the societies represented, and that in turn the various fields themselves will be greatly benefited.

HALF DOZEN DIVORCED MEN ARE USING VEGETABLES TO MEET ALIMONY PAYMENTS

If you can't meet your alimony payments in cash, try it with vegetables.

It may be a far cry from the romantic days when the young man visited to his girl friend's home with a bouquet of roses but today, with an alimony order in the back ground, it is possible to see this same person carrying celery, potatoes and tomatoes to his former wife's home in lieu of cash.

Charles W. Wilks of Muskegon, friend of the court, says a half dozen men are meeting their alimony payments today with vegetables. "Yes, sir, I've entered the ranks of the produce dealer in trying to bring about adjustments during this abnormal period," Mr. Wilks commented. "In connection with the duties of this office, I've been a real estate dealer for years but handling produce is a new role."

In these cases, Mr. Wilks says the husband possibly has a truck garden or maybe a small city garden and when he demonstrates his inability to raise the cash, Mr. Wilks tries to prevail on the man's former mate to accept fruit and vegetables or anything which will help her and the children to get along.

HOLLAND MAN SAYS HIS INVENTION WILL VASTLY CHANGE AUTO INDUSTRY

Henry Weise, German-born inventor and for the last five months a resident of Holland, has applied for a patent on a new type of engine which he claims will revolutionize the motor industry.

Although details and principle of the engine were not made known, it was explained today that the motor was distinctive in its light weight, noiselessness, inexpensiveness, and in that it uses no gasoline. Nor does it need a radiator for cooling system, and it creates no carbon.

Mr. Weise explained that the motor was not to be confused with the so-called air or air-compression engines. "It is," said the inventor, "radically different in design from both the gasoline and air engines." The engine, which can be used economically for all power purposes, will be of special interest to the airplane industry because of its light weight, it was said. Weise is also working on a new type of airplane.

George Welsh Makes Plea For State Loyalty

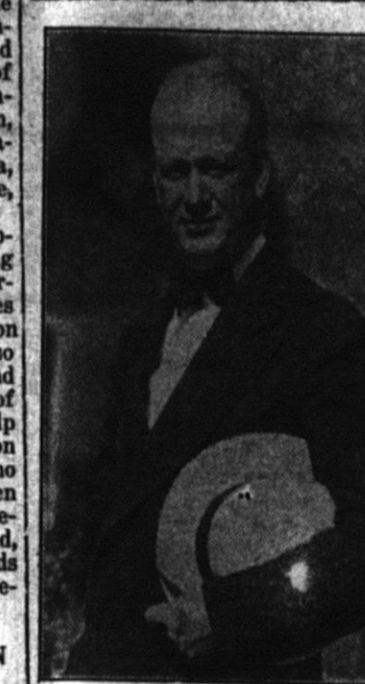

GOVERNORSHIP CANDIDATE WANTS RESIDENTS TO USE MORE MICH. PRODUCTS

By W. A. Markland

(Staff Correspondent of The Detroit News)

Sturgis, Mich.—A plea for patriotism that would find expression in increased purchase of Michigan products to the end of reviving agriculture and industry in the state was made to the people of Sturgis this evening by George W. Welsh, who pledged that this will be one of the policies of his administration if he is elected governor. He seeks the Republican nomination.

"I have taken the trouble to get the figures on sugar production and consumption and I find that if all the factories in Michigan were running at full capacity they could supply only half the sugar consumed in Michigan," Welsh declared. "If

those factories were operating at capacity, the sugar industry in Michigan that would be growing sugar beets, the thousands of persons that would find employment in the plants and on those farms. It is not hard for you to remember when we used to import train loads of Mexicans to do that work.

"I stopped this week in one of the state's big paper mills at Watervliet, where large quantities of mimeograph paper are made. Do you think they sell a sheet of it to the State of Michigan? They do not! Don't you think it would mean something to the farmers of this state if all the fruit and other food products used in State institutions came from Michigan farms? There are coal mines in Saginaw County, the home of the present Governor. Those mines might be operating full time if the State was their good customer."

Welsh has been telling his audiences that it is entirely possible to wipe out the general property tax for State purposes, repeal the corporation tax, and continue to give every necessary service without creating any new form of revenue. Today he said that later in the campaign he will explain just how this can be done.

BILL POSTING RULE IS TO BE ENFORCED IN STATE

Posting bills of any type, advertisements including those for candidates for any election is strictly prohibited by the state on the rights of way on all trunk line roads. Recently it was brought to the attention of the local road commission that this law was being infringed upon.

It is the custom for a county crew to make a clean up of all rubbish and signs of any kind every so often on the state highways, and all posters of any kind which have been fastened upon this right-of-way will be removed.

Further infringement of the law is punishable by a fine not exceeding \$25 or 30 days in jail. While the road commission does not wish to take any action of the kind, they will certainly strip the highway of any signs which are not in accordance with the law.

Thousands of Noxious Fish Taken From The Lakes of Michigan

Thousands of pounds of noxious fish are now being removed from Michigan's inland lakes by conservation officers with the assistance of interested sportsmen. Most of these fish are being removed by the use of spears, permitted when a party is supervised by a regular officer of the Department of Conservation.

In Lake Chemung, Clarence Durrence, conservation officer with a party of residents removed 47 large dogfish and 17 quarts of small dogfish during three evenings.

Gun Lake in Barry County was freed from 5,183 pounds of carp and dogfish and 146 garpike through spearing parties led by Conservation Officer George Sumner of Hastings. One hundred and seven carp were taken from Sand Lake in Antrim County in one evening and Conservation Officer E. H. Wolff of Grand Rapids took 75 dogfish from Blue Lake, Kent County, in a single evening's work.

The Conservation Department is encouraging its officers to organize similar spearing parties insofar as their other duties will permit, as one means of ridding inland lakes of fish that prove disastrous to the game species.

The Gulf Gas nine had the Pure Oils trailing at the end of the fourth inning, but when the Oils woke up to the fact that their name was at stake, they settled down and nosed out the Gulfs, 9 and 7.

The Boosters came back to the winning after dropping a game to the Pure Oils by defeating the Dutch Boys, 7 to 3.

The Phillips, playing steady ball, went down before the Pure Oil spurs, 10 and 4.

For the first three innings the Dutch Boys appeared to be going to give the Mossers a run for their money, but at the end of the fracas the Dutchmen were sadly trailing, 10 and 3.

The Boosters hogged all of the runs in the tilt against the Gulf Gas club and left them four hits, while the Independents collected 22 hits to win 15 to 0.

Among the speakers was Mrs. Bacon of Grand Rapids, who said: "We have a perfect right to be proud of prohibition, even if it is not perfect." Dr. Collins H. Johnson spoke on "Alcohol a Non-essential in Modern Medical Practice." He said that alcohol is rarely used by doctors as it lowers resistance to infection and sickness.

A demonstration, "Canada Under Government Control," was presented by a Muskegon union and illustrated how government cannot control but that liquor controls Canada. Other speakers were Mrs. Kaja Lindland, ninth district president; Mrs. Nellie Sletten, Muskegon county president; Hon. Fred T. Miles; Senator Straight, Grand Rapids, former state legislator; Miss Gertrude M. Wick, a school leader of Holland; Mrs. J. Vischer of Holland, who gave a talk on "Temperance Instructors in the Sunday Schools."

Lightship To Leave Lakes After Service Of Twenty Years

The lightship Milwaukee, which has guarded the entrance to Milwaukee harbor ever since it was established as an aid to navigation in December, 1912, is to be removed permanently. This was admitted by Capt. Charles H. Hubbard, superintendent of the twelfth lightships in Lake Michigan and Green Bay.

The proposed removal of the ship will be discussed by the Milwaukee-Rivers and Harbors association, according to William F. Arden, vice president of the Milwaukee-Western Fuel Co., and a member of the association.

The Milwaukee, after nearly 20 years of service, will be sent to Boston, with the ship now guarding North Manitou shoals. There the two boats will await assignment to the Atlantic coast. The North Manitou shoals station will not be abandoned, but the older vessel there is to be replaced by the Lightship 103, a more modern ship that has been used as a relieving vessel in Lake Michigan waters.

"The lightship is to be removed," said Capt. Hubbard, "but not until we can complete apparatus to synchro radio beacon and the air diaphane fog horn. I have assured marine men that the lightship will not be removed until this work is completed. All realize the necessity for the removal and have promised their co-operation."

Fennville Herald:—Many persons have wondered what the next step to be taken by the state in the improvement of US-31 south of Douglas was going to be.

Grover C. Dillman, state highway director, informed George Leland, of Fennville, chairman of the senate committee on highways, that the work of improving US-31 between Douglas and the junction with M-89 and that a hard surface pavement would be built during the current year.

This will make a splendid piece of road out of what hitherto has been one of the worst and most dangerous roads hereabouts, owing to its narrowness and high crown, several fatal accidents having occurred on the road just north of 89 in the past couple of years.

A large share of the credit for obtaining this improvement is due to Senator Leland, who called the attention of the highway department to the bad condition of the road last winter, with the result that the shoulders have been widened, and a deep ravine eliminated. The building of a hard surfaced road to Douglas to take the place of the old narrow tar road will be appreciated by drivers, as this road is very much used, summer travel from Chicago being particularly heavy.

SALT LAKE TRUE TO NAME SAYS FENNIVILLE FOLKS

Mr. and Mrs. Vern Keuter of Fennville who are making a trip through the west write many interesting details of their trip through the Dakotas, Black Hills, Yellowstone Park, etc. In the latter place they saw the bears of the valley clean out the garbage cans and there are plenty of them and harming. They write the following interesting paragraph on Salt Lake, Utah:

"Of course, we had to take a swim in Salt Lake. The water is so strong with salt one can float without any effort. Delia was floating along as nice as could be until she wanted to stand up—that was difficult. She couldn't get her feet down without help. We left Salt Lake for Denver and are camping tonight in a little inland town in Utah, 75 miles from the railroad. They have a beautiful tourist camp in the courthouse yard, electric plates to cook on, nice shade, green grass, everything for 60c. We have traveled nearly 3000 miles and have had just one flat tire."

Mr. and Mrs. Ben Mulder, Miss Lucile Mulder of Holland, and Mrs. Roy Beardslee of South Bend, moved to Muskegon over the week-end, the guests of Mr. and Mrs. John Van Landegend.

Marvin Schaap took his Sunday school class of Trinity Reformed church camping last week at Midland park, Gull Lake. The boys had an enjoyable time swimming, rowing, fishing and hiking. Eight members attended besides Mr. Schaap.

August and Dog Days Not Good Fishing

NATURE IS AN INTERESTING STUDY WHEN IT GIVES RECADE ORDER

The following is from the pen of Jack Van Covering of the Detroit Free Press:—August is the month which has a reputation for poor fishing.

When the dog days arrive, fishing is said to be in the doldrums. This popular belief is, however, more a matter of fancy than of fact, and those oldtimers who know their angling lore have learned to fish deep during August. They are the ones who come home with prize catches, while others are blaming the weather.

If August makes successful fishing more difficult for you, it offers many other things of interest. The floodtide of the year's growth is past, and while you may still be thinking of summer vacations, Nature already is sounding the season's retreat. She is making sure that the multitude of lives, which are in her care, will be safe during the winter, which is slowly but surely advancing as the days begin to shorten.

Nature Never Fails. Hay and grain fields have turned from green to yellow, while many are already harvested. The birds have become strangely silent, while only the insects all the night air with their music. You will hear the big cicada and he winds up repeatedly, high above you in the trees, while in the fields and meadows, a whole insect orchestra scrapes and fiddles incessantly, even on the hottest, brightest afternoons.

When you are out in the fields, notice the blooming seeds—Nature taking care that next year will see its due growth of weeds and flowers. Note that the white blossoms of the wild carrot, called Queen Anne's lace, is replacing the white of the daisy, that golden rod will soon replace the wild mustard, and that the wild sunflowers now dot our fields. Toward the end of the month, goldenrod will color our roadsides, and the asters will begin to blossom.

Brooks Dry Up in August. Many brooks dry up in August. This fact determines the kind of insects liable to be found in the brooks at other times of the year. If you want to see the habits of the species that require a full year of life in the water, of course, survive such a critical period. Tadpoles of bullfrogs and green frogs would not be found in a brook which dries up during August. If an enterprising real estate man tells you that a brook runs through some property the while to collect some of the forms of life in it, and determine if any of them require a full year to complete the life cycle in the water.

If you want to see one of the strange things in Nature in August, get acquainted with the habits of the parasitic wasps. Their parents died a long time before the present generation was hatched from the egg, yet these untaught wasps know exactly what to do to make a meal. If you have never watched a wasp attack a large spider strong enough to kill two wasps, you have a thrill in store for you. The wasp knows enough to insert the poison, which will paralyze but not kill the spider all without previous instruction. This is only a sample of the surprising things which Nature can show us if we will only watch.

DETROIT FREE PRESS TELLS OF HOLLAND FURNACE

Detroit Free Press:—Holland Furnace Co., during the past week, commemorated the twenty-sixth anniversary of its establishment. During its lifetime the company has experienced a growth from a factory building 50 by 200 feet to two large plants, one alone covering an area of more than 10 acres, and an increase from 12 workmen in 1906 to a payroll of 5,000 employees.

It was on Aug. 1, 1906, that John P. Kolla, of Akron, O., and A. H. Landwehr, of Ashland, O., decided to locate in Holland and there try to realize the plans and ambitions that had for several months been a matter of consideration. The organization was formed with 12 stockholders and 12 employees, and before the end of the year several furnaces had been manufactured and installed. By the end of the third year an average of eight furnaces were made daily.

Today the organization has a ten-acre factory and a 300,000 executive building in Holland, and a plant in Bethlehem, Pa. In addition to furnaces, the output of the new air conditioning unit is creating an industry with a demand throughout the year.

Mr. Kolla, one of the founders, was born in France and came to America as a youth. He is vice president and general superintendent. A. H. Landwehr, the other founder, is chairman of the board of directors. C. H. Landwehr is president and general manager; E. G. Landwehr is vice president and sales manager, and Arthur Wrieden is treasurer and advertising manager.

MESSAGES FROM THE MAYOR

August 3, 1932.

To the Honorable, the Common Council of the City of Holland, Gentlemen:

I desire to call to your attention a matter of real importance to the citizens of Holland and of the surrounding territory to the south.

After considerable debate and thorough consideration, the common council of the City of Holland at a special meeting held on the 23d day of March, 1932, approved the plans and specifications of the state highway department for the relocation of a portion of trunk line US-31, running south from the City of Holland about four and one-half miles through Fillmore township and connected up with the present so-called Saugatuck road. Mr. Willman of the state highway department was present at that meeting representing the state.

This approval had been sought by the state highway department as early as Aug. 1, 1931. I need not go into details of what transpired between these dates for that is a matter very well known to most of you. For some unknown reason these plans as approved by the council were recently tentatively changed by the state highway department. Suffice it to say that some influences have been brought to bear to defeat the wishes of the vast majority of the people interested in this project and an attempt made to cause the state department to abandon the new project.

A committee from Holland, consisting of Austin Harrington, a member of the Ottawa county road commission, the city engineer, city attorney, and your mayor held an interview with Gov. Wilbur M. Brucker and Grover C. Dillman, state superintendent of highways, at Lansing on Tuesday, July 26, 1932, for the purpose of protecting the interests of the City of Holland and having the original plans carried through. Arrangements were then made for this same committee to appear before the administrative board at their next regular meeting to have a hearing on the subject.

On Friday evening, July 29, at the request of the officers of Fillmore township this same committee appeared before a large gathering of property owners and persons of Fillmore township interested in this project. This meeting was attended by many enthusiastic parties and was a convincing demonstration that the people of Fillmore township wanted this improvement. So enthusiastic were the property owners along the north and south road that they agreed to donate such portions of their property as might be necessary to construct the new portion of the highway to a width of 100 feet. A resolution was passed at this meeting, and the offer to donate was incorporated therein, which is now on file with the state highway department.

On Tuesday, Aug. 2, this same committee from Holland accompanied by a large representation from Fillmore township appeared before the administrative board and received a very courteous hearing by the board. The results of these efforts will only be known when the matter is finally disposed of by the state department.

In the meantime I believe this council should protest vigorously against any changes in the original plans and endeavor by every legitimate means to cause the state to keep faith with the City of Holland on the original proposition.

Trunk line US-31 is a very congested highway. It is used by all tourists as the only through route and is constantly used by citizens of Holland for pleasure drives along the lake to our resort section. Trucking along this route has become more and more extensive. The roadway is winding and with its many curves presents a dangerous road to motorists during heavy traffic. Eventually this road would have to be widened to accommodate the traffic which would cause the loss of many beautiful and ornamental shade trees along the highway, and destroy the natural beauty of the road, seriously affecting the desirability of the many permanent residents along the shores of Black lake.

The proposed new route would save through motorists considerable time and many accidents. It would take its course through a beautiful farming territory and add extensively to the interests of the citizens of Holland. If the greatest benefit to the greatest number of people is to be considered, then this new route must be obtained.

I should like to have this council pass a resolution tonight officially recognizing and approving the actions on the part of this committee, and to go on record in unmistakable terms as favoring the relocation of this portion of US-31, and to appoint this committee or some other committee as a permanent committee to follow up the efforts already made to secure the final adoption of the plans to relocate that portion of trunk line US-31 under discussion.

Respectfully submitted,
NICODEMUS BOSCH, Mayor.

man, Veltman, Van Lente, total \$5,000. Mayor Bosch ruled that the action of the appeal board was sustained.

Clerk recommended that loan for \$10,000 at the First State bank be paid. Approved and loan ordered paid.

Clerk presented communication from the board of public works submitting a report of tests of gas furnished by the Michigan Gas and Electric company during the month of July, 1932. The average for the month was 528 B. T. U., the minimum was 506, and the maximum 564. City engineer reported that the average should be 530 and this was within a fraction of 1 per cent of that figure. Reported accepted and filed.

Clerk presented communication from the board of public works recommending the purchase of the necessary pipe and fittings for laying a 12-inch water main in Twenty-second street between Washington and Van Raalte avenues at a cost of \$987.22. Said pipe to be purchased from the Alabama Pipe company. Approved.

Clerk presented report from the board of public works showing the amount of delinquent light, power and water bills as follows: light, \$3,774.13; power, \$1,005.75; water, \$2,167.85; total, \$6,947.73.

Report accepted and the amounts were ordered to be assessed against the several persons and properties so delinquent.

Motions and Resolutions.

Alderman Huyser reported that the P. M. Railway company is exceeding the speed limit with their trains when entering the city from the south and was bringing this to the attention of the council as he feared there would be accidents on the Twenty-fourth street crossing, since the view here is obstructed. Referred to the police board with instructions to have the ordinance enforced.

Adjournd.

OSCAR PETERSON, City Clerk.

On motion of Alderman Prins, seconded by Van Lente, the recommendations of the mayor were approved and the committee composed of Mayor Bosch, City Attorney Lokker, City Engineer Zuidema and Mr. Austin Harrington be heartily commended for their activities in the matter, and be appointed as a permanent committee to bring this matter to a final conclusion.

It was further ordered that a full copy of the mayor's message, together with the resolution approving of the relocation be forwarded to Governor Brucker, Secretary of State Frank D. Fitzgerald, Attorney General Honorable Paul W. Voorhies and State Highway Commissioner Grover C. Dillman. Adopted by ayes and nays as follows.

All present voting aye; nays, none.

Communications from Boards and City Officers.

The claims approved by the hospital board in the sum of \$3,412.55; park and cemetery board, \$966.38; police and fire board, \$2,976.90; board of public works, \$10,731.73, were ordered certified to the council for payment. (Said claims on file in clerk's office for public inspection.) Allowed.

Board of public works reported the collection of \$16,803.55; city treasurer, \$3,927.45. Adopted.

Clerk reported bonds and interest coupons due and presented for payment in the amount of \$42,546.66. Adopted and warrant ordered issued.

Clerk presented communication from the appeal board recommending that the petition signed by 12 property owners requesting a re-districting of River avenue between Twelfth and Seventeenth streets be denied.

Board further reported recommending that a public hearing is not in order at this time.

On motion of Alderman Kleis, seconded by Hyma, action of the appeal board was approved.

An amendment was offered by Alderman Jonkman, seconded by Haying, that it be the wish of this council that the district in question be changed to a commercial district.

Attorney Ten Cate addressed the council on behalf of the 12 petitioners who requested a change from "residential" to "commercial." After discussing the matter for some time some of the aldermen expressed their views on the matter. The city attorney ruled that the motion of Mr. Kleis for approval on the action of the appeal board was the only legal motion to be acted upon since the council could not change the district without first giving notice and setting a date for a public hearing on the matter. The mayor then put the motion of Mr. Kleis for sustaining the action of the appeal board. Alderman Jonkman called for a record vote which resulted as follows:

Ayes—Kleis, Prins, Brieve, Hyma, Van Zoeren, Steffens, total 6. Nays—Haying, Huyser, Jonk-

BUT FIRST HE SAVED

Q You have often heard the remark when a young man advances in life "What a lucky guy he is. He now occupies the president's chair in a real going concern."

Q If you follow that young man's career you will find that luck had nothing to do with it. Undoubtedly he was first taught the lesson of thrift and attained the badge of confidence when his associates found he had a savings account to his credit. He just used "common horse sense" and with his accumulated savings was prepared to seize an opportunity—starting his own business.

Q Benjamin Franklin once said "Save and Have." And the discoverer of electricity never went far wrong.

Mrs. Marshall also was selected from this section to sing at the last World's Fair in Chicago. All people planning on making the 4-H club excursion to Chicago

on Aug. 25 can obtain a receipt by leaving the money in the office of A. D. Morley, county agricultural agent, at Allegan. Tickets will be issued at Kalamazoo before the train leaves. The cost from Kalamazoo and return will be \$5.25. Owing to the fact that Mr. Morley is often called out of the office in the morning, it would be best to call there in the afternoon to make arrangements for the trip as Mr. Muri Moreland is in every afternoon.

The West Michigan Jersey Parish show will be held in conjunction with the Iowa fair Aug. 15 to 19. Allegan county Jersey men are selecting their entries for all the classes. Blood tests have been taken and final selections will be made this week. Allegan county has long been known to produce Jerseys of high production and the parish shows are stressing this quality more every year.
