The Detroit Weekly

TRIBUNE

FOR 1873.

ENLARGED AND IMPROVED.

The DETROIT WEEKLY TRIBUNE, one of the oldest and most firmly established Re-
publican newspapers of the country, has been
enlarged by the addition of one column to
each of its pages, and is now a Fifty-six Col-
umn newspaper, and one of the Largest Week-
lies published in the North West.

This marked increase in its size, and there-
fore, in the amount and variety of its contents,
is not accompanied with any increase in its
subscription price; which remains at the old
figures of \$2.00 for single subscriptions, or
\$1.50 for subscriptions in clubs of twenty or
more, or five papers for \$9.00, or ten for \$16.00.

Will M. Carleton,

the famous "farm ballad" Poet is a regu-
lar contributor to its columns, and during
1873 will furnish a New series of
"Farm Ballads," written especially for
The Tribune. This fact will be learned
with pleasure by the thousands who
have read with such rare delight his
"Betsey and I are Out," "Out of the Old
House Nancy" etc.

The Detroit weekly Tribune is also a care-
fully edited Journal, which publishes in com-
pact form all the news of the day, Foreign and
Domestic; which is especially attractive to all
matters pertaining to Michigan interests; which
gives full and accurate Commercial Reports;
and which presents to its readers a large range
of choice literary and miscellaneous selections
from its Agricultural department is under the
charge of an experienced and practical editor,
and furnishes an increasingly popular medium
for the interchange of opinions and facts
among its subscribers.

The present circulation of The Weekly Tri-
bune exceeds that of the combined weekly
editions of all the other Detroit political jour-
nals, and will undoubtedly be greatly increased
during the coming year.

It is published on the new four-cylinder
rotary press of The Tribune establishment,
which is the only one of the kind in Michigan.

The Mackinac Park.

From the History of Sheboygan and Mackinac
Counties.

The land proposed to be converted
into the park comprises over one
thousand acres lying in the center and
on the north side of the Island, and is
covered with a thick growth of small
pines and evergreens, and we venture
to state that a more suitable place can-
not be found in the North-west; Na-
ture has made the spot one of great
interest to every American citizen; its
early history and Indian traditions,
together with the fact that the Island is
the most healthy place during the hot
summer months of any in the whole
Union. It is, therefore, to be hoped
that, at the next session of Congress,
a bill will be passed giving to the peo-
ple that which they ask for, "a Nation-
al Park at Mackinac."

MACKINAC AS A SUMMER RESORT.

The three great reservoirs of clear
and cold water—Lakes Huron, Michi-
gan and Superior, with the Island of
Mackinac in their hydrographical cen-
ter—offer a delightful hot-weather
asylum to all invalids who need an es-
cape from crowded cities, paludal ex-
halations, sultry climates, and officious
medication. The voyage from Buffalo,
Cleveland, Sandusky or Detroit, on the
East or from Chicago or Milwaukee, on
Lake Michigan, may afford, should the
water be agitated, all the benefits of
sea-sickness, without its tedious prolon-
gation. On reaching Mackinac an
agreeable change of climate is at once
experienced, and the bodily feeling is
heightened by the emotions which the
evidence and consciousness of having
retreated upon an island raise in the
mind of one who has not before enjoy-
ed the novelty of insular life. To his
faded sensibilities all around him is
fresh and refreshing; a feeling of se-
curity comes over him, and when from
the rocky battlements of

FORT MACKINAC,

he looks down upon the surrounding
waters, they seem a moat of defense
against the host of annoyances from
which he had sought a refuge. Thus
the curative state of mind begins to act
on his body from the moment of his
landing, and if he be a person of intel-
ligence and taste, this salutary mental
excitement will not soon die away; for
the historic associations, not less than
the scenery of this island, are well fit-
ted to maintain it.

From the summit of the island the
eye rests upon a number of spots con-
secrated to a military history. But
the natural scenery is still better fitted
to make the invalid forget his ailments.
Several agreeable and exciting boat
voyages may be made to the neighbor-
ing coasts, from each of which a new
aspect may be had, and the island
itself, although but nine miles in cir-
cuit, affords opportunities for a great
variety of rambling on foot. In these
excursions he may ascend to the
apex of the island, once the
site of a fort. From this summit, ele-
vated far above all that surrounds it,
the panorama is such as would justify
the epithet to Mackinac—Queen of the
Isles. To the west are the indented
shores of the upper Peninsula of Michi-
gan; to the south those of the lower,
presenting in the interior a distant and
smoky line of elevated table-land; up
the Straits green islands may be seen
peeping above the waters; directly in
front of the harbor Round Island
forms a beautiful foreground, while
the larger Bois Blanc, with its light-
house, stretches off to the east; and to
the north are other islands at varying
distances, which complete the Archi-
pelago.

THE BIRD'S EYE VIEW.

When the observer directs his eye
upon the waters more than upon the
land, and the day is fair, with moder-
ate wind, he finds the surface as vari-
able in its tints as if clothed in a robe of
changeable silk. Green and blue are
the governing hues, but they flow into
each other with such facility and fre-
quency that while still contemplating
a particular spot, it seems, as if by
magic, transformed into another; but
these mid-day beauties vanish before
those of the setting sun, when the
boundless horizon of lake and land
seems girt around with a fiery zone of

clouds and the brilliant drapery of the
skies paints itself upon the surface of
the waters. Brief as they are beauti-
ful, these evening glories, like spirits
of the air, quickly pass away, and the
gray mantle of night warns the behol-
der to depart for the village, while he
may yet make his way along a narrow
and rocky path, beset with tufts of
prickly juniper. Having refreshed
himself for an hour, he may stroll out
upon the beach, and listen to the ser-
enade of the waters. Wave after wave
will break at his feet over white peb-
bles, and return as limpid as it came.
Up the straits he will see the evening
star dancing on the ruffled surface, and
the loose sails of the lagging schooner
flapping in the fitful land breeze, while
the milky way—Death's path of the
red man—will dimly appear in the wa-
ters before him.

GENERAL IMPROVEMENTS.

A company is about being formed,
in which Mr. Bryan, proprietor of the
Bryan Hall, Chicago, Mr. Eames, a
banker, and Mr. Williams, all of Chi-
cago, are interested to build a grand
hotel at Mackinac. The proposed hotel
will be one of the largest in the
State, and will have ample room for
the accommodation of one thousand
guests.

There are also other parties who
have similar objects in view, and we
may expect to see within the next five
years to come, at least \$1,000,000 ex-
pended on the Island, in hotel improve-
ments. These, together with the Na-
tional Park, and the natural beauties
of the place, and from the fact that
Mackinac is the most healthy, cool and
desirable place of resort to be found we
predict that the Island, in the future,
will be crowded during the hot sum-
mer months by pleasure seekers and
travelers from every part of the world.

Capt H. Van Allen, the proprietor of
the Island House, has been making
general repairs and refurbishing his ho-
tel. The location is a handsome one
and we are sure he will receive his
share of the public patronage this sea-
son.

The Mission House has been gener-
ally repaired and refurbished. Mr. E.
A. Franks, the proprietor, will build
this season a large addition, and is de-
termined to make the Mission House
second to none on the Island.

The McLeod House, James Cabel
proprietor, has also been refitted, and
generally improved. The house is
centrally located, and will no doubt do
its share of business.

Nebrasciana.

"The American Colony of Irenopolis."

This is a colony chiefly from Wis-
consin, led by Rev. W. Cochrane, of
Baraboo. The name, "IRENOPOLIS,"
which is Greek for "City of Peace,"
was chosen because one main object of
the colonists is to live in mutual peace.
The fourth article in their constitution
reads thus:

"The members of this colony hereby
pledge their word and honor that they
will use all their influence, moral and
legal, including their votes, to exclude
the sale of intoxicating drinks from the
colony; endeavor by doing to others as
we would they should do to us, ever
to promote the peace and highest pros-
perity of the colony, regarding the
rights and interests of others as well as
our own, especially in sickness, and
thereby render ourselves worthy, not
only of the name 'American,' but also
of the name, 'Irenopolis, the City of
Peace.'"

The site of this colony was fixed at
Beaver Crossing, Seward county, Neb.,
about the first of June, 1873. Six fam-
ilies, coming all the way from Wiscon-
sin in their "prairie schooners," are on
the ground, and have already com-
menced improvements with a vigor
indicating their purpose to claim the
twenty per cent deduction offered by
the Burlington and Missouri River rail
road to all purchasers in 1873, who
within two years, bring half their land
under cultivation. By securing this
reduction, they will nigh pay for their
"breaking." The colonists have al-
ready purchased 1,280 acres, and it is
confidently believed that double the

present number of families will soon
report themselves. The entire free-
dom of this colony from all smell of
ecclesiasticism will make it a favorite
with all who are more ready to plant
themselves on the broad principles of
temperance and morality than they are
to tie themselves to a particular creed.
The old citizens of Beaver welcomed
them with open arms, and have made
generous contributions in land toward
the establishment of a first class school.
The only saloon in town closed his
doors the first Sabbath the colonists
spent there, and will no more be open-
ed on the Lord's day. Baraboo has
long been a credit to Wisconsin, may
Nebraska have as good reason to re-
joice in Irenopolis.

Women in the Treasury.

No one who has lived in Washington
but knows that a majority of the fe-
male clerks come from the best fami-
lies of the country. It was in the
Treasury that Gov. Fairchild, of Wis-
consin found his

THE STATE FAIR.

We desire to impress upon our readers' attention this week, the importance of placing on exhibition such fruit and vegetables as are raised in this vicinity, to compete with those of our neighbors around us. We have visited many Farms, and we can say that at none of them have we ever seen better specimens of fruit or vegetables, than we have seen in the orchards and on the farms in this vicinity. This year we are to have a profitable yield of fruit, and many varieties of it will be better than for some years past, and we hope that an effort will be made by our horticulturists to exhibit specimens of it at the State Fair. It is the only way to successfully advertise our advantages and we would encourage every man who has a fine sample of fruit, or wheat, corn, potatoes, onions, beets, turnips, or anything else in the vegetable line, to preserve it, and take it, or send it to the State Fair, showing to the people of Michigan that the products of our vicinity are in no way inferior to those of other portions of the State. Nearly every locality around us take a local pride in securing the best articles raised and preserving them for exhibition, and why will not our farmers and horticulturists do the same?

Gentlemen, step to the front! We have held back seats long enough; our products are worthy of being seen, and let us have the co-operation of every man, woman and child in this work, that we may be fairly represented at the next Michigan State Fair, and, to get the best of all varieties we propose a preliminary Fair, to be held in this city a few days previous to the State Fair, when a committee will be chosen to select such articles as may be thought best, and forward them to the State Fair. We hope that our city press will agitate the matter, and that the products of one of the finest agricultural portions of the State may be fairly represented at the coming Fair at Grand Rapids next month. Shall we do it?

BLAST FURNACE MEETING.

Pursuant to public notice, a meeting of the citizens of Holland City was held at Bakker & Van Raalte's Hall, Monday evening, August 11th. The meeting was called to order by N. Kenyon, Esq., and H. D. Post was duly elected Secretary.

The President stated that the meeting was called for the purpose of reporting the progress of the movement to secure a blast furnace here, and reported, That it is necessary to raise here fifty-five thousand dollars in subscriptions to the capital stock, to secure it, and that this amount of subscriptions will secure it. An informal discussion was then held, and several subscriptions were made to the capital stock of the proposed company.

Mr. Wakker stated that a heavy firm of machinists in Grand Rapids offer to furnish the engine, boiler, and other work in their line, at the lowest cash prices and take \$5,000 in stock. Mr. McBride reported that the Eureka Brick Company of Zeeland, offer to furnish one million brick forthwith, at very low figures, and will also make a large subscription to the capital stock.

On motion, duly seconded, and carried by unanimous vote, it was

Resolved, That "the Holland Iron Company" must be organized, and the stock secured as proposed, to the amount of \$55,000.

On motion, duly seconded and carried, it was

Resolved, That the subscription lists be returned to the ward committees, and that they be requested to complete the canvass of the city forthwith.

On motion, adjourned to meet at this place Thursday evening.

N. KENYON, Pres't.
H. D. POST, Sec'y.

The Albany statesman, who presides over the "outside" department of the Lake Shore Commercial, a "brilliant and lively (?) Independent, Democratic paper, with 'patent bowels,' gotten up in Chicago, is bidding for notoriety, by repeatedly telling his readers that "the Democratic party is dead," which fact was known "out West" long before he left "the busy haunts of men" at Albany. He, however, takes pleasure in weakly repeating it, not seeming to appreciate the fact that the last general election demonstrated it more emphatically than his mere assertions.

But while this fact is quite generally known out here, he omits to inform his numerous (?) readers, that the more tenacious copperhead numbers of the defunct organization are still alive and kicking, struggling hard, with just enough vitality left to oppose the dear people, whose spokesman he claims to be, in the peaceable enjoyment of the rights of a government controlled by the majority; as, witness the Commercial. The dapper little statesman, over in Saugatuck, considers that we are too obtuse to see the point. We confess we do see the point, from which he must conclude that his ear marks are very prominent, else the editor of the News could never have comprehended them. He "never supposed that it was necessary to be a partisan of any kind, or to take an active part in politics, in order to publish a local newspaper." All of which we subscribe to, especially if it should be independently Democratic, and modeled like the Commercial. The keen perception of this Saugatuck peer, is, without doubt, of great value, in his own estimation; and did we think it worth as much as he does, we should follow his course relative to the management of our affairs; but as we may honestly differ, we shall continue to rely upon our own judgement, relating to our business, and upon the evidence we find in the Commercial of his Independent Democracy.

Opinion of Hon. J. W. Champlin on the Public School Question of Holland City.

Although it may be considered presumptuous to examine, and much more so to attack the positions assumed by so eminent a counsellor, the grave, and perhaps dangerous advice he gives, in its relation to important local interests, will, we trust, be held to justify us in making an examination of this published opinion, by such light, and with such means as we can command.

The main point in his argument is, that the act last passed by our Legislature amending the charter of the city of Holland, embraces more than one object, one of which objects is not expressed in the title, and therefore that portion of the act is unconstitutional and void.

To establish this position, he finds it necessary to assume.

That our common School system exists independent of local municipal corporations, and is consequently entirely separate from them.

That our original charter contained no provisions relative to schools in the city of Holland.

And that the subject of the Public Schools, or school Districts is not embraced in the general title.

"A bill to amend an act entitled. An act to revise the charter of the city of Holland," being amendatory of an act entitled "An act to incorporate the city of Holland."

He alludes to article XIII, of our constitution as supporting his proposition of the independence of our system of education.

Let us examine article XIII, and see how far it does warrant the assertion, as regards our common schools. Article XIII simply says, "that the Legislature shall provide for and establish a system of primary schools" &c., and that a school shall be maintained in each school district under a certain penalty which is set forth. These are the only allusions to Primary Schools in article XIII of the constitution.

What support do they give to the assertion that "the system exists independent of local municipal corporations as is clearly illustrated by the former charter of the city of Holland?"

We venture to assert, that our primary school system does not exist independent of, but subject to municipal control, and that school districts are, in fact an agency or branch of, and subject to, the municipality in which they exist.

No school district exists under the general school laws until it has been created by certain officers of its local municipality, and every school district is dependent upon the municipal officers of its locality for the support of its schools, either by taxation, or by their lawful action to secure its share of the school fund. And the School Inspectors who are officers of the municipality and not of the school district, have in many other respects, control and supervision of the districts.

It is also confidently asserted, that: "Neither the act of incorporation of 1867 nor the amended act of 1871 contained any provisions relative to schools in the city of Holland. And while they provided for the election of a School Inspector, they did not define his duties; but left it to the general law, or, to speak more accurately, was entirely silent as to what his duties should be."

Now the charter of 1867, expressly provides, Sec 4, that "the officers of

said city shall be * * * one recorder, who shall be ex officio School Inspector, * * * two School Inspectors.

Sec. 20, Authorizes and requires the Common Council to perform the same duties in and for said city, as are by law imposed upon township boards.

* * * in reference to schools, school taxes, &c., and the * * * School Inspectors and all other officers of said city, who are required to perform the duties of township officers of this State shall take the oath, give the bond, perform like duties * * * and be subject to the same liabilities as is provided for the corresponding township officers except as is otherwise provided in this act, or as may be provided by the Common Council.

Thus we see that the charter does contain vitally important provisions relative to Schools, does define the duties of School Inspectors, and is not "silent as to their duties," and does distinctly, by the last clause, give the Common Council complete control over the whole subject of the public schools of the city. And sections 1 and 17 of the amended charter of 1871, contain substantially the same provisions except that the last clause of section 30 of the law of 1867 is stricken out.

Under these provisions of our old charter, School Inspectors have, with some important exceptions, performed the duties devolved upon them by our charter; our city government have supported our public schools by taxation, and our city recorder and city clerk have performed the duties enjoined upon them by the charter, to secure the primary school money, ever since the organization of our city. Thus had our public "system of education" depended for its very existence, upon a local municipal corporation, of which it has been asserted to be independent.

We see that the propositions, that our public system of education is independent of local municipal corporations, and that the original act of incorporation of the city of Holland contains no provisions relating to schools, cannot be maintained.

Now, the original and amended charter of the city of Holland having so distinctly provided for the regulation and government of the Public Schools of Holland city, brings that subject clearly within the scope of "An act to amend an act" etc., etc., as set forth in the title of our present charter, and the attempt to bring it within the prohibitory clause of Article IV., Section 20 of the Constitution fails. For any subjects clearly and distinctly set forth and acted upon in the original act, are certainly within the scope of an Act entitled an Act amendatory of the original Act, without specifically naming each item.

Mr. Champlin quotes from "Cooley's Constitutional Limitations," that part of chapter 6, "of the enactment of laws," concerning "the title of a statute," referring to "the evils designed to be remedied," by the Constitutional provision on which he bases his assumption, that Title 23, of the charter of the city of Holland is void.

But just there he stops, and does not enlighten his clients by giving them Judge Cooley's further remarks as to "2. The particularity required in stating the object."

There, they would have read, as his leading proposition, that, "The general purpose of these provisions is accomplished when a law has but one general object which is fairly indicated by its title."

In view of the showing of the intimate connection with, and control of our school system and school officers by our municipal government, by virtue of our original and previously amended charter, does not the general object expressed in the title of the act in question fairly include Title 23?

Judge Cooley further declares that, "To require every end and means necessary or convenient for the accomplishment of the general object to be provided for by a separate act relating to that alone, would not only be unreasonable, but would actually render legislation impossible."

After citing a case in point, which we have not room to give, he lays down this conclusion: "The generality of a title is therefore, no objection to it, so long as it is not made a cover to legislation incongruous in itself, and which by no fair intention can be considered as having a necessary or proper connection."

Justice Graves, of our Supreme Court, in a recent decision on this question of Constitutional law, says: "If we were to hold that no act can have any operation further than the title actually expresses, we should outrun the Constitution, unsettle much of the legislation of the past twenty years, and

throw an obstacle in the path of future legislation, which no human wisdom could overcome."

Judge Cooley says, "The Legislature must determine for itself how broad and comprehensive shall be the object of a statute, and how much particularity shall be employed in the title in defining it."

What has been the uniform practice of our Legislature in entitling acts conferring charters for the incorporation of cities? The pages of our session laws show that the short and simple title is universal, making no reference whatever to schools, courts, and other subjects.

"An Act to incorporate the city of Saginaw City," (S. L. 1857, p. 447), has been held by the Supreme Court to have detached and set off all that part of a former school district of the township of Saginaw, lying within the limits of the newly incorporated city.

It does not seem to have occurred to the learned Judges that they were thus making the act in question have more than one object, and the second object not expressed in the title. Had our worthy counselor appeared before them he would probably have remarked, that,

"An Act to incorporate the city of Saginaw City, embraces more than one object. One object was to incorporate the city of Saginaw, which it has done; another, and distinct object, was to divide School District No. 1, of the township of Saginaw, depriving a portion of a school-house and school facilities,—taking away property for which they had been taxed to pay, and transferring it to the new corporation. This object is not expressed in the title, and is, therefore, unconstitutional and void." But, alas! there seems to have been no Champlin for the rescue, and the decision of the Supreme Court remains unquestioned in the books.

"An Act to revise the charter of the city of Port Huron," (S. L. of 1859, p. 581), contains a section on education very similar to that in our present charter, in every respect, and yet it does not seem to have occurred to the people of Port Huron, that, as Mr. C. would say, in creating a corporation such as a School District, or such as the "Board of Education of the city of Port Huron," it is manifest at a glance, that it is for an entirely different object than the creation of a municipal corporation."

And this heinous act goes further, and enables this new corporate monster, born of unconstitutional legislation, to swallow up all the school districts of the city of Port Huron, taking away their property and transferring it to this new corporation.

And our last Legislature have not only passed the alleged unconstitutional act to revise the charter of the city of Holland, but have been so regardless of the requirements of the Constitution in this respect, as to provide in "An Act for the incorporation of cities," for the creation of bodies corporate, by the name and style of "The Public Schools of the city of—," without any mention whatever in the title of this second object.

As a fitting pendant to this extraordinary opinion, Mr. Champlin advises certain parties assuming to be the Board of Trustees of a School District in which none of them have resided since the year 1857, that they are still entitled to the control and management of the affairs of the district.

Local News.

Threshing has commenced, and farmers tell us that the wheat crop will be more than an average hereabouts. Other crops are looking well.

Street Commissioner Wiersema has been cleaning up Eighth street since the gutters were laid, which shows the street to be more of an improvement than those who opposed would have acknowledged when the work was first agitated. Now that the work is completed, all join in chanting its real convenience.

It will be seen from the published proceedings of the citizens Association that the prospect of a blast furnace in this city was never more flattering than at present. Subscription are being taken freely, the organization is fully perfected and it is expected that work will commence at an early date. Hope College has very generously donated the use of six acres of land on Black Lake below Central Wharf for a site; the clouds which have so long been hanging over us, are disappearing, daylight is dawning, the good times coming is near. Hurrah!

Correspondence of the Holland City News.

Nobler hands of patriots the world never saw. Their devotedness to principle, their unrequited toil. Charmed circles, faithful guardians of the law. "Unselfish Holland heroes, defenders of her soil." Would entitle them to foremost ranks in every tribe and nation. Was it not for base ingratitude and thoughts of "high taxation?" We admire them still in silence, and look mournful at our wallet. We'll think of them in starlight hours, and also at the ballot. In pledge and mighty speech, we own their power among the people. Resembling in dexterity, the cock upon a stepple. In fine-spun argument, too, we're bound to own their skill. For when completely vanquished, they've a gift to argue still. M.

Grand Haven Correspondence.

MR. EDITOR:—Our young city is progressing in substantial improvements, although business remains unremunerative.

Ed. Killian, the well-known proprietor of the Milwaukee House, is getting along finely with his three-story brick block, on the corner opposite the Rice House. That old corner, well known as the long time residence of the original proprietor of Grand Haven, will, next to the Cutler House, be occupied by the finest hotel in the city.

Arrangements are nearly completed for the construction of another brick block, on the Odd Fellow's lot, at the corner of Washington and Second streets 50x80 feet, three stories high. The upper story will be occupied by the Order for a hall and reception room, etc. It is to be completed by the first of May.

The Congregational Society are erecting a commodious church edifice, at the corner of Washington and Sixth streets, apparently of brick, but that solid material is only skin deep, in fact. They intend to complete it this season. The grading of the Trotting Park Course is nearly completed, and will soon be covered with gravel four inches deep, which material will form one of the finest road beds imaginable, being smooth and elastic, as has been proved by applying the material to a portion of the public road near the Park.

The Cutler House and Magnetic Spring Bath House opposite, are well patronized by strangers seeking health, and enjoying the bracing lake breezes so common to our shore. Had we a paved public street like yours, we could offer to summer sojourners a very pleasant retreat. We live in hope of something akin thereto hereafter.

In passing over the railroad connecting our city with yours, the subject of the future of those swampy lands bordering the road on either side was considered. How solitary they appear. How destitute of anything to supply the wants of man, unless man wants mosquitoes and ague. And yet it has been proved here that these apparently worse than useless lands are among the best and most productive in our State; only requiring the removal of their pent up waters, caused by vegetable accumulations and old beaver dykes. Scientifically constructed dykes at a cost of from 1 to 3 dollars per acre, will render them very valuable, and cover their unsightlyness with the richest farms in the country. Who will thoroughly begin the work? Here the only examples we have of thorough drainage applied to similar swamps, prove them eminently productive, not only of garden vegetables and grass, but also of corn, oats and other small grains.

Conductor Fifield is building a fine residence on Eighth street, near the railroad, which will be ready for occupancy in about three weeks.

—Little Corporal.

De in Rome as Romans Do.

BY PROF. J. D. BUTLER.

LINCOLN, Nebraska, 1873.

Some add, Do in Turkey, as turkeys

do, even if you have to gobble. The

meaning of this maxim is that national

customs, though they look absurd to

foreigners, have a hidden wisdom

which often makes them worthy to be

followed.

DR. E. WOODRUFF,
BOTANIC PHYSICIAN,
38 CANAL STREET.

[UP STAIRS.]
WHO has for the past twelve years been located in Opera Block, has now, since being burned out, removed his stock to 38 Canal Street, where he continues to cure every description of ACUTE, CHRONIC and PRIVATE DISEASE, on the most reasonable terms. He manufactures all his remedies from the raw material, hence, known to be PURELY VEGETABLE. He uses NO MINERALS or POISONS. Having prescribed for over eighteen thousand patients within the past ten years, WITHOUT LOSING ONE OF THEM, where he was the only doctor called. He guarantees reasonable satisfaction in the treatment of every disease which afflicts humanity.
He keeps constantly on hand over 300 kinds of the most choice Roots, Bark and Herbs, and over 100 kinds of his own manufacture of medicines. He is to be found at his office at all hours—day or night.
Among the leading articles of medicine manufactured by him are his LIVER PILLS, Cough Syrup, and FEMALE RESTORATIVE, all of which give universal satisfaction. Call and counsel with a doctor who will promise you nothing but what he will faithfully perform, and will correctly locate your disease and give you a correct diagnosis of your case without asking you scarcely a question. Liver complaints treated for fifty cents per week, and other diseases in proportion. Council at the office FREE.

That our original charter contains
no provisions relative to schools in this
city of Holland.

And that the subject of the Public
Schools, or school Districts is not
embraced in the general title.

"A bill to amend an act entitled,
act to revise the charter of the city
Holland," being amendatory of an
act entitled "An act to incorporate the
city of Holland."

He alludes to article XIII, of
constitution as supporting his propo-
sition of the independence of our system
of education.

Let us examine article XIII, and see
how far it does warrant the assertion
as regards our common schools. Article
XIII simply says, "that the Legislature
shall provide for and establish a system
of primary schools" etc., and that
each school shall be maintained in each
school district under a certain penalty
which is set forth. These are the only
allusions to Primary Schools in
article XIII of the constitution.

What support do they give to the
assertion that "the system exists inde-
pendent of local municipal corporation as
is clearly illustrated by the former
charter of the city of Holland?"

We venture to assert, that our pri-
mary school system does not exist inde-
pendent of, but subject to municipal
control, and that school districts are
in fact an agency or branch of, at
subject to, the municipality in which
they exist.

VINEGAR BITTERS
FREE FROM
D. WALKER'S CALIFORNIA
VINEGAR BITTERS

Vinegar Bitters are not a vile
Drink, made of Poor Rum, Whisky, Pro-
prietors and Refuse Liquors, doctored, spiced
and sweetened to please the taste, called
"Tonics," "Appetizers," "Restorers," etc.,
that lead the tippler on to drunkenness and
ruin, but are a Great Medicine, made from
the native roots and herbs of California,
free from all Alcoholic Stimulants. They are
the Great Blood Purifier and a Life-giving
Principle, a Perfect Renovator and Inven-
tor of the System, carrying off all poisonous
matter, and restoring the blood to a healthy
condition, enriching it, refreshing and in-
vigorating both mind and body. They are
easy of administration, prompt in their ac-
tion, certain in their results, safe and reli-
able in all forms of disease.

No Person can take these Bit-
ters according to directions, and remain
long unwell, provided their lungs are not
destroyed by mineral poison or other means,
and the vital organs wasted beyond the
point of repair.

Dyspepsia or Indigestion, Head-
ache, Pain in the Stomach, Congestive Tight-
ness of the Chest, Dizziness, Sour Eructa-
tions of the Stomach, Bad Taste in the
Mouth, Bilious Attacks, Palpitation of the
Heart, Inflammation of the Lungs, Pain in
the region of the Kidneys, and a hundred
other painful symptoms, are the offspring
of Dyspepsia. In these complaints it has
no equal, and one bottle will prove a better
guarantee of its merits than a lengthy
verbal statement.

For Female Complaints, in young
or old, married or single, at the dawn of
womanhood, or the turn of life, these Tonic
Bitters display so decided an influence that
a marked improvement is soon perceptible.

For Inflammation and (chronic)
Rheumatism, Gout, Gravel, Liver Trou-
ble, Indigestion, Bilious, Remittent and In-
termittent Fevers, Diseases of the Blood, Liver,
Kidneys and Bladder, these Bitters have
been most successful. Such Diseases are
caused by Vitiated Blood, which is generally
produced by derangement of the Digestive
Organs.

For Skin Diseases, Eruptions, Tet-
ter, Salt Rheum, Bores, Spots, Pimples,
Pustules, Boils, Carbuncles, Ringworms,
Scald-Head, Sore Eyes, Erysipelas, Itch,
Scour, Discolorations of the Skin, Humors
and Diseases of the Skin, of whatever name
or nature, are speedily dug up and dis-
cuss out of the system in a short time by the
use of these Bitters. One bottle in such cases
will convince the most incredulous of their
curative effects.

Cleanse the Vitiated Blood when-
ever you find it impurities-bursting through
the skin in Pimples, Eruptions, or Sores;
cleanse it when you find it obstructed and
singling in the veins; cleanse it when it is
foul; your feelings will tell you when.
Keep the blood pure, and the health of the
system will follow.

Pin-Tape and other Worms.
Lurking in the system of so many thousands,
are often the cause of Eruptions, or Sores.
Says a distinguished physiologist: "There is
scarcely an individual on the face of the
earth whose body is exempt from the pre-
sence of worms. It is not upon the healthy
elements of the body that worms exist, but
upon the diseased humors and slimy deposi-
tals that breed these living monsters of dis-
ease. No system of medicine, no purgative,
no anthelmintics, will free the system from
worms like these Bitters.

Mechanical Diseases.—Persons en-
gaged in Paints and Minerals, such as
Plumbers, Typsetters, Gold-beaters and
Miners, as they advance in life, are subject
to paralysis of the blood vessels, to guard
against this, take a dose of WALKER'S VINEGAR BIT-
TERS twice a week.

Bilious, Remittent and Inter-
mittent Fevers, which are so prevalent
in the valleys of our great rivers through-
out the United States, especially those of the
Mississippi, Ohio, Missouri, Illinois, Tennes-
see, Cumberland, Arkansas, Red, Colorado,
Brazos, Rio Grande, Pearl, Alabama, Mobile,
Savannah, Roanoke, James, and many
others, with their tributaries, through-
out our entire country during the Summer
and Autumn, and remarkably so during sea-
sons of unusual heat and dryness, are in-
variably accompanied by attacks of de-
rangement of the stomach and liver, and
other abdominal viscera. In their treat-
ment, a purgative, exerting a powerful in-
fluence upon these various organs, is essen-
tially necessary. There is no cathartic for
the purpose equal to Dr. J. WALKER'S VINE-
GAR BITTERS, as they will speedily remove
the dark-colored bile matter with which
the bowels are loaded, at the same time
stimulating the secretions of the liver, and
generally restoring the healthy functions of
the digestive organs.

Scrofula, or King's Evil, White
Swelling, Ulcers, Erysipelas, Swelled Neck,
Gout, Scrofulous Inflammations, Indolent
Abscesses, Mercurial Affections, Old
Sores, Eruptions of the Skin, Sore Eyes,
etc., etc. In these, as in all other constitu-
tional Diseases, WALKER'S VINEGAR BIT-
TERS have shown their great curative pow-
ers in the most obstinate and intractable
cases.

Dr. Walker's California Vine-
gar Bitters act on all these cases in a
similar manner. By purifying the Blood
they remove the cause, and by resolving
away the effects of the inflammation (the
tubercular deposits) the affected parts re-
ceive health, and a permanent cure is
effected.

The Aperient and mild Laxative
properties of Dr. WALKER'S VINEGAR BIT-
TERS are the best safe-guard in cases of erup-
tions and malignant fevers. Their balsamic,
healing, and soothing properties protect the
humors of the fauces. Their Sedative prop-
erties allay pain in the nervous system,
stomach and bowels, either from inflamma-
tion, wind, colic, cramps, etc.

Directions.—Take of the Bitters on
going to bed at night from a half to one and
one-half wine-glassful. Eat good nourishing
food, such as beef-steak, mutton chop, veni-
son, roast beef, and vegetables, and take
out-door exercises. They are composed of
purely vegetable ingredients, and contain
no opium.
