Lincoln Reminiscences.

HUMOR, KEENNESS, AND INTEGRITY OF  
A HEROIC CHARACTER.

It was the evening of July 3. The Springfield boys had invested their pocket money in a liberal supply of fire works, and retired early to be ready for the fun at dawn on the Fourth.

Clocks were a luxury in those days, which but few of the Illinois' pioneers could afford, \$40 being the usual price asked by the conscienceless clock peddlers for a common brass clock, bought at the Connecticut factory for \$4. But chickens were plenty and chattering larks were announcing the coming day was the usual signal for the early riser; and the excited boys, lying half awake, with ears alert, waited anxiously for this summons, like soldiers on the night before the battle for the morning drumbeat which should call them to action.

Lincoln was sitting outside his law office, at a late hour, with some friends chatting and telling stories and enjoying the cool evening, when the crowing of cocks having become the topic of conversation, Lincoln said: "I can set every cock in town crowing in five minutes." And putting his hands to his mouth, he uttered a shrill "Cock-a-doodle-doo." The cock over the way returned the call, and then came another, and yet another crow from neighboring roosts, till, in less than five minutes, came the answering response from every roost in the village.

The boys listened, rubbed their sleepy eyes, routed one another. "Hark! the cocks are crowing." "It's morning." "Fourth of July!" "Hurrah!" "Hurrah!" In another five minutes every boy was up, dressed, and out, and "bang," "bang," fire-crackers, torpedoes, toy pistols, and toy cannon were snapping and banging all over town, while Lincoln and his friends indulged in a hearty laugh at the boys' expense.

In the early part of August, 1858, Senator Douglas was given a grand reception on his return to Chicago after the adjournment of Congress. It was the hour of his greatest political triumph. His doctrine of "popular sovereignty" had been indorsed by Congress. He was the acknowledged leader of a great political party; his return to the Senate for another term seemed assured, and his prospects as a candidate for the Presidency were never brighter.

Military and civic organizations were out in full force to do him honor. Cannon were booming, bands playing, banners waving. I stood near the Tremont House, among the dense crowd which lined both sides of Lake street, and saw the "Little Giant," as he was popularly called, as he rode up to the hotel, standing up in his carriage, his short, stout figure, little more than four feet high, bowing obsequiously to the right and left, his appearance being greeted with the wildest demonstrations of applause.

But Lincoln was hot on his track, and the following evening came to Chicago and made the opening speech in that remarkable campaign, beginning substantially as follows:

"Fellow Citizens: You gave Senator Douglas a magnificent reception last night; such a reception as the greatest European potentate might justly be proud of. What means this grand display, these booming cannon, waving banners and wild plaudits rending the air? It means postoffices, marshals, consulates.

"I came into your city to-night unattended, and grip-sack in hand, took my solitary ride from the depot to the hotel. No booming cannon or shouting multitude greeted my arrival. Not so much as a fire company turned out to do me honor. Why? Simply because I control no public patronage, have no official gifts with which to reward my political friends. No one sees in this homely face a political cabbage garden with ripening heads for future plucking.

"But, my friends, I come to you with something grander, nobler, better than the mere spoils of office. I come as the advocate of the rights of free soil for free men; as the defender of the sacred compact which this champion of so-called popular sovereignty has dared to trample under foot, aiding and abetting those who have broken down the barriers which guarded soil forever consecrated to freedom, and under this false guise, opening wide the gates to the inroad of the blighting curse of human slavery into all our western territory; giving the slave holder the right to pollute this soil, sacred to freedom, by bringing into it his human goods and chattels."

It was my good fortune to be present as a spectator at Lincoln's nomination for the presidency in Chicago in May, 1860, and I can supplement the oft told tale with a few facts which came under my personal observation.

It will be remembered that the convention met in a temporary frame building, known as the "Wigwam," erected especially for the purpose, at the southeast corner of Lake and Market streets, which was subsequently used for mass meetings during the campaign and for war meetings and soldiers' barracks during the war. This building was afterward sold and occupied for commission stores till swept away in the great fire in 1871. When a substantial brick building was erected in its place, and not even a tablet now marks this historic spot.

William H. Seward was the leading candidate, and the special favorite of the radical anti-slavery Republicans Chase, Lincoln, Cameron, and Bates were the other candidates. Horace Greeley was present, and as Oregon had no native delegate, Greeley was chosen as its representative, and was subsequently humorously referred to by one of the speakers as "the gentleman from Oregon," much to the amusement of the audience.

Seward's friends had regarded his nomination as almost a certainty, and on the morning of the third day of the convention the New York delegation, in confident anticipation of his success, paraded the streets with a brass band and in consequence arrived late at the Wigwam, and found every seat occupied. On the previous evening I learned, to my surprise and disappointment, that Lincoln, who was regarded as one of the most conservative of the candidates, was likely to be chosen, my informant, who, like myself, was a Seward man, giving as a reason that Lincoln "could crack the longest sucker whip." I also learned from another informant, who was a Lincoln man, that the Democrats were secretly working earnestly and spending money freely to secure the nomination of Seward, whose well known radical views would make him a much easier candidate to defeat at the election than a conservative candidate like Lincoln.

The next morning I entered the Wigwam just as the nominations were being made, and found standing room in the outskirts of the densely packed crowd. The New York delegation had found seats near the presiding officer, and when their chairman Mr. Evarts rose and nominated William H. Seward the tremendous cheering which followed seemed to leave no doubt that he would be the choice of the convention. When Lincoln was nominated there came another mighty outburst of applause, second only to that which followed the nomination of Seward. The first ballot showed a large plurality for Seward, with Lincoln as the next highest, at which the Lincoln cheering perceptibly increased.

During the progress of the second ballot, as the scattering votes began to be concentrated on the two leading candidates, the supporters of each vied with each other in applause, till it was hard to tell which had the loudest yell. The result showed large gains for Lincoln, with Seward still in the lead.

During the third ballot the Lincoln vote steadily increased, and when it began to outnumber the Seward vote the enthusiasm of the Lincoln men broke forth in the wildest cheers, while that of the Seward men was evidently on the wane. Then came a lull in the storm; pencils were busy all over the house correcting tally-sheets, whispered conferences were going on among the different delegations, and it was evident that the crisis was at hand. Two hundred and thirty-three votes were necessary to a choice, and the tally-sheets showed 180 votes for Seward and 234 for Lincoln, thus giving him two and a half votes more than the required majority.

Then came a thunder burst of applause, and the boom of a cannon from the roof, the preconcerted signal announcing Lincoln's triumph to his friends throughout the city. But during it all the New York delegation, which had steadily supported Seward with unwavering confidence, sat silent as statues. When order was restored, their chairman arose and in dignified tones said: "We had hoped that our distinguished fellow citizen, William H. Seward, would have been the choice of this convention, but as you have decreed otherwise, I now move that the nomination of Abraham Lincoln be made unanimous." The motion was carried by a thundering "Aye," followed by a mighty cheer which shook the building, in which the New York delegation now heartily joined. And thus the first act in the great emancipation drama was finished.

It is not possible for the present generation to realize the intense anxiety with which the result of the presidential election of 1860 was awaited throughout the entire country, especially by the radical anti-slavery people of the North. The issue of that election was of far more momentous importance than the success of any candidate of any party. The question to be decided was whether slavery or freedom should rule this country. Whether this great and terrible wrong should be extended and perpetuated, or circumscribed and finally extirpated.

ed. For, in Lincoln's own memorable words it was not possible that the country should continue to exist, one-half slavery and one-half free. The state of New York held the balance of power, as it has often done; its vote would turn the scale for slavery or freedom, and its decision was awaited with intense anxiety.

I was living in the suburbs of Chicago on a street which terminated in a prominent country road; a lonely spot, where there were no street lamps, and few passengers after dark. It was a day or two after election, and reliable news was momentarily expected. About 8 o'clock in the evening we were started by the booming of cannon in the city. I ran down to the gate and called to the driver of a passing farm wagon: "What are those guns for?" And back through the darkness came the clear, ringing, triumphant reply: "The State of New York gives 20,000 majority for Abraham Lincoln!" I turned to my wife, who stood by my side, and said, "Lincoln is elected; slavery is doomed." And then, as we realized that the great event for which we had waited, prayed, and, for years, hoped against hope, was consummated, our feelings found vent in tears of joy. "And now," said she, "what next?" "War," said I, "one of the bloodiest the world ever saw. Remember the classic adage, 'When Greek meets Greek, then comes the tug of war, and when American meets American the result will be the same.'"

It will be remembered that the funeral train bearing Lincoln's body went by a circuitous route from Washington to Springfield, stopping in principal cities to give the people an opportunity to take a last look at their beloved President. In Chicago an immense concourse assembled for this purpose. The procession, several miles in length, met the train at the southern limit of the city and passed down Michigan avenue, and thence to the courthouse; the pupils of the public schools, carrying little flags draped with crape, occupying a prominent place. We still have the flags our children carried on this occasion.

The casket was placed on a catafalque in the corridor of the courthouse and the procession filed past it, but found it closed, much to the disappointment of every one, especially the schoolchildren; the body, after its long journey and frequent exposure, not being in condition to be seen. But notice was given that it would be shown on the following day. Meantime the embalmers restored it and the next day a procession many blocks in length was formed, at the rear of which my wife and I took our places, and moved along slowly for two hours before reaching the courthouse.

The lofty corridor was heavily draped in black, entirely covering the walls and ceiling, and casket, surrounded by a military guard of honor, composed of prominent officers, rested on a catafalque in the center; and funeral dirges from singers behind the drapery added to deep the solemnity of the mournful scene.

The face of the dead was calm, peaceful and natural; the well-known features reposing as in a restful sleep. Mothers lifted their children to see it, and some of the ladies could hardly be restrained from kissing the dead lips. As we passed my wife leaned to get a better view, and an officer, mistaking her intention, interposed as a barrier.

The evening shadows were falling as the last of the long, sad procession filed past, and the casket was closed and borne away to its resting place at Springfield.

## The Pierce Murder Trial.

Several days this week have been taken up with the trial of George Chesbro, charged with murder in the Circuit court at Grand Haven.

The court room has been packed, and in the throng were many ladies, including Mary E. Price, a coterie of the city's best known society women, who appeared on the stand, looked like a modest country girl. She is only thirteen years old and fairly good looking. The story she told says the Grand Rapids Democrat, was full of contradictions, and the impression she gave was far from favorable. She was in the house, she said, the morning of July 8 with her mother and Chesbro, while her father was in the hay-field some distance away. Her mother was mopping the kitchen floor, and the girl made some remark which aroused the old lady's anger. Mrs. Pierce procured a switch and was about to apply it when her grandson, Chesbro, interfered.

The girl saw the fight between them begin, but before matters became serious she ran to the barn, where, she says, she had a "spell" which lasted about five minutes. When the spell passed off she returned to the house, found her mother dead on the floor, the floor mopped up, her mother's face washed, and the kitchen fire started—all done in five minutes. She talked with Chesbro about what had been done, and they agreed to make it a case of suicide. She went to the hay-field where her father was working and informed him that her mother was dead. The father at first refused to believe it, but when at last he was convinced, he unhitched his horses, drove them to the barn and fed and curried them down before going to the house. The girl told her story in a quite simple manner, answering the questions in as few words as possible, and did not at any time appear confused. When caught in a contradiction or inconsistency, and such predicaments were numerous, she remarked that "she had not thought of that," and proceeded to still further entangle herself. At no stage did she appear distressed or agitated.

George Chesbro, the respondent, in his testimony said May Pierce was present all the time, that she pulled down the curtains and locked the doors. "Why didn't you say something to George when he returned from Berlin?" was asked. "Didn't feel like it," the girl replied. "Is that why you didn't see the marks on your mother?" "Yes, I saw George throw mother down and saw him raise something to strike her. Don't know where he had it. I was excited. Mother didn't swear. I didn't stay there and didn't go to the barn." The witness showed all through a "don't care" spirit, and was wonderfully bold. Here the prosecution rested the case.

George Chesbro was then put on the stand. He testified that he killed his grandmother in self-defense. That she said "It won't take but a minute to whale you, you —." That she came at him with a knife, which he took away from her; that she then attacked him with a stick of wood. He declared that Mary was in the house and that he did not mop the floor. When he went to Berlin he did not know his grandmother was dead.

The jury in the case consists of: Otto DeWitt, Conrad J. Smith, Darius H. Grow, Gerrit J. Van Duren, B. J. De Vries, John Everhard, Edward Watson, William Walters, John Van Anrooy, Henry Vanderbelt, Jacob Van Putten and Isaac Marsilje.

All the testimony in the case was in on Wednesday night and the arguments began on Thursday morning on the part of Arend Vischer for the prosecution and W. I. Lillie for the defendant. Chesbro who has heretofore displayed remarkable nerve and acted like a boy who anticipated a whipping at school broke down completely while listening to the arguments.

Judge Padgham charged the jury at considerable length and the case was turned over to them at about 4:00 o'clock in the afternoon and after deliberating until 11:00 o'clock Thursday night presented a verdict of murder in the first degree which means life imprisonment. Sentence was deferred until after the trial of Mary E. Pierce accused of being an accessory, which takes place at some future date not yet decided upon.

## At the Resorts.

Dr. H. Hodgen, one of the leading physicians of St. Louis, Mo., is a guest at the Macatawa Park hotel.

Tuesday night a dowdy party was given at the pavilion on the beach. All the participants were dressed in ancient styles and the affair created mirth. First prize was awarded to Mrs. Reiley.

Tonight the second German of the season will be given at the Macatawa Park hotel. The gentleman will return the complement on this occasion and invitations have been issued to about 75.

Chicago Theological Seminary is well represented at Macatawa this season. Prof. Samuel Ives Curtis; Prof. Hugh M. Scott; Prof. Graham Taylor and Prof. R. A. Jernberg, are all summering there.

There are at the present time 43 ministers of various denominations either occupying private cottages or boarding at the resorts.

Miss Lucia Perry of Macatawa invited her friends to participate in a straw ride on Wednesday evening. About 30 availed themselves of the invitation. Graafschap was the point visited.

There will be services in the Auditorium Sunday morning at 11:00 o'clock Rev. T. W. McLean, pastor of Trinity Church, Bay City, and Dean of the Saginaw Valley officiating.

Jake Van der Veen, the Grand Rapids hardware dealer, spent a portion of the week at Macatawa Park.

Mrs. Montgomery, nee Miss Nellie Perry of Indianapolis, is at Macatawa visiting her parents Mr. and Mrs. H. W. Perry.

Mrs. Reiley has disposed of her cottage at Macatawa Park to Mr. Skatts of Chicago, the consideration being \$1200.

The "cake walk" at the Macatawa Park Hotel on Saturday night afforded lots of amusement for the guests and others, who were onlookers. About forty corked up as representatives of the sunny South and gave good imitations of the graceful manner in which contestants for cake below the Moggan and Dixon line present themselves. The honors were carried off by Miss June and R. H. Salter, both of Chicago.

J. H. Barrett of the Grand Rapids Refrigerator Co. believes in keeping cool. He this week purchased from the Macatawa Park Association a lot on the summit of Bald Head, on which he will erect a cottage before the opening of next season. He will have a fine observatory overlooking Lake Michigan and Macatawa Bay.

Miss Frank Earl and Prof. C. R. Merrill gave a delightful entertainment in the parlors of the Hotel Ottawa Monday evening. The program consisted of songs, recitations, banjo solo's etc.

There are lots of enquiries for lots at Macatawa Park, even this late in the season. The prospects are that there will be more cottages built next season than ever before.

Mrs. W. R. Owen took a theater party of about thirty over to Chicago Tuesday night on the Soo City to witness Trilby at Hooley's. They were nearly all Chicago people friends of Mrs. Owen who have been spending the summer at Macatawa. They all returned on the same steamer Wednesday evening and report having had a huge time.

## RUN DOWN IN THE BAY.

George A. Tyler engaged as a barber at the Ottawa Beach Hotel lost his life by drowning in Black Lake on Wednesday night a few minutes after eight o'clock. The accident was unfortunate and the first sad one that has occurred to mar the pleasure of the summer at our popular resorts where thousands of people from all sections of the country have congregated. Tyler was crossing the bay it is presumed in a boat when he was struck by the ferry boat Harvey Watson. It was quite dark at the time and the boat which was painted green was not noticed by Captain Mitchell or any of his crew.

A danger call was at once given, life preservers thrown overboard and every other effort put forth to rescue the man, but on account of the darkness he could not be seen. Captain Morton was at the scene of the accident with the life saving crew promptly and after working less than an hour and a half recovered the body and took it to the Ottawa Beach dock. Strenuous efforts were resorted to resuscitate life but without avail.

Coroner Dr. O. E. Yates considered that under the circumstances it was advisable to call an inquest at the Macatawa Park Hotel yesterday morning. Among the witnesses sworn were Captain Mitchell, Clerk Burton Harrington of the Watson, J. D. Chilver, Captain Morton, Charles H. Salmon and George Nye. The latter two were in a boat near the place where the accident occurred and handed the drowning man an oar which he grasped for a moment and then let go and sank. The accident occurred near the barrel buoy just north of the main channel and about half way between the Ottawa Beach dock and the end of the north pier.

After careful deliberation the coroner's jury returned the following verdict:

State of Michigan, } s. s.  
Ottawa County, }

An inquisition taken at Macatawa Park in the township of Holland, Ottawa county, Michigan, on the fifteenth day of August A. D. 1895 before Oscar E. Yates one of the coroners of said county upon view of the body of George A. Tyler then and there lying dead, by the oaths of the jurors whose names are hereto subscribed, who being duly sworn to inquire in behalf of the people of this state, when in what manner and by

what means the said George Tyler came to his death; upon their oaths do say:

That said George A. Tyler while crossing the channel of Black Lake between Ottawa Beach and Macatawa Park in a row boat at night after dark, and with no light in his row boat was accidentally run into or collided with the ferry boat Harvey Watson which was going from Macatawa Park to Ottawa Beach at a slow rate of speed with the lights required by law lighted on said ferry boat, and that as a result of said collision said George A. Tyler was thrown into the water of Black Lake and accidentally suffocated and drowned, and that from said suffocation and drowning said George A. Tyler then and there instantly died, that prompt measures and attempts were made to rescue said George A. Tyler, but that owing to the darkness they were unsuccessful, and that said drowning was accidental and by misfortune and that no blame can be attached to any one. That said jury recommend that all row and sail boats crossing the channel or being on Black Lake after dark carry a lantern or light as required by law or keep near the shore, and that in case of accident that steamers blow continuous long blasts of the whistles instead of four short blasts on the whistles.

In witness whereof we have hereto set our hands, August 15th, 1895.

George A. Tyler was about 40 years of age and formerly run a barber shop on South Division street in Grand Rapids. He was a man of good habits but for years has suffered from heart disease. His wife died two years ago but he has a brother in Grand Rapids where the remains were taken for interment.

## Blue Rock Gun Club.

The shoot of the Blue Rock Gun Club took place on Tuesday afternoon and the usual number of birds were shot at. The score resulted as follows: D. Blom 10, C. Harmon 16, W. Thomas 14, S. Doty 5, C. J. De Roo 16, W. A. Holly 17, S. Arleth 18, P. Dulyea 19, A. G. Baumgartel 9, A. E. Ferguson 17, H. Harmon 15. Special shoots followed, Peter Dulyea again making 19; S. Doty and A. Baumgartel shot at 15 birds the former capturing 2 the latter 11. At five pairs C. J. De Roo obtained 2 birds and H. Karsten 8.

Next week the club will contest for a medal offered by J. H. Raven the jeweler. The design is a silver target pending from a gold cartridge and bar. On the face of the target is inscribed Blue Rock Club presented by J. H. Raven.

## Large and Small Pills.

There was a well attended meeting of the Grand River Valley Medical Society in this city on Tuesday. It was the annual gathering and in the future Holland will be the headquarters of the association. Dr. Milton Green read a paper on eye refraction which was well received. He was followed by Dr. Heasley of Salem Centre who gave an interesting paper on typhoid fever and its treatment which brought forth a very animated discussion in which many of the members took part.

The dr's were given the opportunity to examine patients whose diseases were complicated and other cases were reported and discussed. The officers elected to serve for the ensuing year are: President, G. Wilson Forrest of Fennville; Secretary, B. B. Godfrey of Holland; Secretary, A. H. Weston of Grandville.

It was determined at this meeting to hold a two days session either in Holland or at Macatawa Park next year, when various topics will be discussed and papers contributed.

The value of this organization to both physicians and patients can not be overestimated. There are now about 30 members in the association and chance afforded for clinics and consultation on complicated cases. The meetings of this association are becoming more and more instructive and profitable every year and a large increase to the roll of membership is expected.

## The Arson Case.

Since the News made its appearance last week there has been a complete change about in the Slag-Smith-Steffens arson case. The jury in the trial of Tiemen Slag returned a verdict of guilty as against the defendant. Through his attorneys Messrs. Dunham and Farr he gave notice of appeal to the supreme court and Judge Padgham gave him time until September 3rd to file a bill of exceptions. In the mean time he is out on bail in the sum of \$1500, his father, Tiemen Slag and A. Seif becoming his sureties.

Cornelius Steffens whose bail was last week estreated and himself confined in jail came before Judge Padgham early in the week and changed his plea of not guilty to guilty. He was remanded to jail on account of his inability to procure bail. On Friday morning he was brought up before the court and a fine of \$350 imposed. His father a reputable farmer of Beaver Dam paid the fine. Steffens was released and came to Holland at once.

Tiemen Smith the first of the trio to admit his guilt was fined \$300 and costs the whole aggregating something over \$350. He paid the amount and is now walking the streets free from all connection with the entire transaction.

## School Board Meeting.

Considerable business was transacted at a meeting of the school board on Monday night, at which all members were present excepting Keppel and Diekema. The textbook committee recommended the adoption of Burdett's Latin Grammar and Bruns Academic Physiology. Miss Lottie Bell was engaged as assistant teacher in the sub primary in the Fourth ward school at a salary of \$100.

Acting under the advice of City Attorney George E. Kullen, the board determined that they did not have the power legally of issuing \$3,300 in bonds for the proposed engine and boiler house at the Central school building without first submitting the question to a vote of the people.

On account of the illness of Mr. Keppel and his inability to look after business matters at present, Mr. John Nies was added to the building committee.

Mr. McBride introduced a resolution that a Bell telephone be placed in the superintendents office in the High school, but the proposition was defeated by a vote of four to three.

The members of the board are in favor of putting in a phone but there seems to be a difference of opinion as to which telephone shall be adopted.

## School Statistics.

In accordance with the recent laws school superintendents all over the state are presenting their annual reports. Prof. C. M. McLean in his annual report ending with June 21st presents the following figures: Total enrollment for the year 2053; number of average belonging 1261; average daily attendance 1165; percent of attendance 92; aggregate attendance in half days 451,703; aggregate absence half days 372,11; percent of tardiness 35.

The report shows that the teachers were on duty 194 days and that they were slightly tardy 72 times. During the year no pupils were suspended and corporal punishment was exercised on 60. Members of the board visited the schools 140 times and the other visitors aggregated 2168.

The census taken this spring develops that there are in this city 2129 pupils of school age and that only 16 of them are non-resident students. These figures show for themselves and demonstrate very conclusively the rapid growth of the city.

Mr. A. A. Syder, Supt. Poor Farm, Winneshek, Co., Ia., says:—Last winter Mr. Robert Leach used two boxes of De Witt's Witch Hazel Salve and cured a large running sore on his leg. Had been under care of physician for months with out obtaining relief. Sure cure for Piles.

## OUR NEIGHBORS.

### Zeeland.

The Zeeland gun club have challenged the Grand Rapids rod and gun club for a shoot-to-day. The contest will undoubtedly take place.

A marriage license was issued last week to two old people of Zeeland whose combined age amounted to 133 years.

Chris De Jonge purchased a new boiler for his peppermint distillery this week and in about three weeks expects to begin work. He was so well satisfied with his experiment last year that he put in about thirty acres this year to peppermint, and next year expect to put in 80 acres.

Mrs. J. De Feyter of Holland is visiting her mother, Mrs. Kas. Mrs. De Feyter has been an invalid for six years and this is her first visit there during that time.—Enterprise.

It has just been found out that a William Wichers a Zeeland citizen has been holding public offices for years without being admitted to citizenship. Judge Adsit of Grand Rapids naturalized him this week.

### Port Sheldon.

Mrs. Schiepek of Chicago has been here on a visit to her father and mother Mr. and Mrs. J. Anys. She returned home by boat on Tuesday night.

Mrs. Hodges and Miss Fowler of Chicago who have been visiting the Bourtons on Eighth st. Holland took a run over to see their cousin Mrs. C. B. Cook on Sunday last and returned in time to take the Sunday night boat for home.

Charles Mayo eldest son of Freeman Mayo and Miss Hattie Crow daughter of John Crow were married on Sunday the 11th. The ceremony took place at the house of the bride's parents on the Beach Tree road Grand Haven township. The ceremony was conducted by Squire Cook of Port Sheldon.

There has for the last week been another party of campers in our harbor. The leader is a well known boat builder of Spring Lake. They brought their tent and poverend round by the lake in two boats and are enjoying themselves, and report having a good time fishing. The females of the party went home by train to-day, but the rest remain here for a few days longer.

The Anys Bros. commenced their contract let to them by Mr. John Robert our highway commissioner to put up and repair the railing on both sides of the bridge dump. The township would make money if the dump was filled in to 16 ft on the top and run down each side with Lombard poplars to hold it together, while the filling is to be got. Then there would not be so many petty jobs to let upon it. And the way it is built now it gives all the chance manageable for minks, snakes and turtles to get in it and burrow out the sand from the top. If once well done it would stand a while like the Holland dump. The trees grow across it and hold it together.

### Lake Shore.

The Aussieker Bros. are running the only thresher in this vicinity so far this season, therefore they are happy, more so than some of us farmers are just at present, for we should like to have a machine come our way and put a smile on our visage.

The infant child of Mr. and Mrs. Will Reams died on Friday afternoon. They took the remains to Dunningville for interment on Saturday, beside the other twin which died whilst the family was living in Holland, last spring.

Louis Richter and wife of Salem visited his sister and brother-in-law, Chas. Ogden and wife Saturday and Sunday.

V. H. Gillet went up north on a pleasure trip, with his son-in-law, Capt. Jennings, last week.

Jacob Flleman bought some rye and farming tools at a sale here last week. I see in the News that a barn and contents were burned near Allegan, set on fire through the carelessness of some miserably engineer. Every farmer ought to see to it that the engine which he engages to do his job, has a South Bend spark arrester, and in perfect order, before he will let them enter his yard. The screen is so fine on this, that there is no danger whatever. I am personally acquainted with threshers who are doing work with coarse, and dangerous screens, and some which do not even have any at all and are liable to set any barn on fire.

John Cockran generally has a sale in the fall of the year. He had a sale this season earlier than usual.

Mrs. Clarence West of Grand Rapids is visiting her mother-in-law, at John Cockran's place.

Any of the farmers who are in need of lumber or a bill of barn timbers will do well to obtain it now, whilst Osborn & Ogden are cutting up the Ohio lot. Mr. McCann agent for this timber is here now, and ready to fill bills. The most of the lumber goes to Ohio.

Frank Merrill had the misfortune to loose one of his horses on Wednesday afternoon.

### Allegan County.

About two miles of poles for the Saugatuck and Ganges telephone line have been set and the balance are going up at once.

A new disease seems to be taking hold of the peach trees in some of the orchards of the county. Its effect seems to be a blight of the foliage and fruit and eventually ends in the death of the tree. It is thought to be a form of the yellows.

The wild rice plantations in the bayous of the Kalamazoo river are the means of calling herds of black birds to those localities, and farmers nearby claim they are unable to raise corn unless they fight the birds continually with shotguns.

During the past tree weeks 1,680 feet of tar concrete walks have been built in the village of Allegan.

The Superintendent of the Allegan schools in his annual report shows that during the past year the number of pupils enrolled was 698; daily average attendance 517; cost of education per capita, \$12.09.

## THE ONWARD MARCH

of Consumption is stopped short by Dr. Pierce's Golden Medical Discovery. If you haven't waited beyond reason, there's complete recovery and cure.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 95 per cent. are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power, over this fatal malady, all other medicines with which they are acquainted. Nasty cod-liver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain.

The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience. Address: WORLD'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

Giles Sherwood, the prominent Plainwell pioneer, whose life was despoiled of from accidental poisoning, is thought to be out of danger. He took a swallow of cyanide of potassium by mistake.

The farmers in the vicinity of Otis go have begun cutting their corn to save the stalks for fodder, as there are no ears of corn to grow by its standing longer.

The removal of the post office, from the old site at Allegan is causing not a little dissatisfaction. There is talk of sending a protest to Washington.

Gen. B. D. Pritchard of Allegan—the renowned captor of Jeff Davis—will represent the 4th Cavalry of the Chickamauga monument dedication by appointment of Governor Rich.

The annual meeting of the Allegan County Pioneer Society occurs this year, August 21st, and the executive committee are using their best efforts to make it a booming success.

The best yield of wheat yet reported in Allegan county was that of Mason Farmerlee, of Hopkins township, who from 8½ acres of grain, reaped 255 bushels.

The fruit belt is overrun with men and boys who are looking for work in fruit, and but very few find employment.

### Ottawa County.

A. M. Kishman of Lamont, Mich., aged 20 years was drowned in Grand River at Coopersville Sunday morning while bathing. It is evident he was taken with cramps as he was a good swimmer.

The Berlin mills have to run day and night most the time to keep up with their work.

The Spring Lake business men's picnic will be held at Fruitport Wednesday, Aug. 22.

The Spring Lake correspondent of the Grand Haven News says that catfish are remarkably prolific this season can almost catch them on the street.

John Thurkett of Lamont threshed a hundred and nine bushels of wheat from straw that grew on one and one-half acres of land. His other wheat went 25 bushels to the acre.

The county convention of the W. C. T. U. will be held at Allegan on Wednesday and Thursday Aug. 21 and 22.

Robert Cantrill, one of the first settlers of Allegan township, died very suddenly Tuesday Aug. 6. Cause, enlargement of the heart. He was 60 years of age.

### Grand Haven.

Since the street cars started in Grand Haven there seems to be more of a metropolitan air about the city a little vim and hustle is noted. And now they actually have a street sprinkler. Such events often have influence of this kind.

H. M. Titworth, who was drowned during the sinking of the yacht Artist July 14, has been identified in a floating body which was found at Grand Haven Saturday. A diamond stud and receipt from Coates & Stillson were the means of identification.

Jerry Boynton, the irrepressible railroad promoter, sends out another manifesto stating that his proposed route from the Ohio coal fields of Grand Haven will surely be built.

The Nassau, laden with 550 tons of anthracite coal for T. W. Kirby & Sons, came in this morning. This is the vessel who captain killed one of the sailors with a capstan bar off Detroit. The boat has been long delayed because of the arrest which followed.

Seventeen marriage licenses were issued by county clerk Turner in July, the same number as in June and the same number as were issued in July, 1892 and 1893. So far this year 147 have been issued or 17 more than last year at this time.

Mr. W. H. Wilcox, Oculist and Optician with the Chicago Eye Institute, will be at Raven's Jewelry store again for one week beginning Monday, Aug. 19. This is a rare chance for those unable to visit the city for proper treatment to call on the doctor and have your eyes examined and fitted with the New Berlin Glasses upon scientific principles. No charge for examination. Monday, Aug. 19 with John H. Raven. 30-1w

Children, especially infants are soon run down with Cholera Infantum or "Summer Complaint." Don't wait to determine, but give De Witt's Colic & Cholera Cure promptly, you can rely on it. Use no other.

LAWRENCE KRAMER.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, Address, F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.

#### Epilepsy 20 Years.

Cured by Dr. Miles' Nerveine.

A few years ago, Mr. L. W. Gallaher, was an extensive, successful expert manufacturer of lumber products. Attacked with epilepsy, he was obliged to give up his business. The attacks came upon him most inopportunely. One time falling from a carriage, at another down stairs, and often in the street. Once he fell down a shaft in the mill, his injuries nearly proving fatal. Mr. Gallaher writes from Milwaukee, Feb. 16, '95.

"There are none more miserable than epileptics. For 20 years I suffered with epileptic fits, having as high as five in one night. I tried an number of physicians, paying to one alone, a fee of \$600.00 and have done little for years but search for something to help me, and have taken all the leading remedies, but received no benefit. A year ago my son, Chas. S. Gallaher, druggist at 191 Reed St., Milwaukee, gave me Dr. Miles' Restorative Nerveine, and I tried it with gratifying results. Have had but two fits since I began taking it. I am better now in every way than I have been in 20 years."

Dr. Miles' Remedies are sold by druggists on a positive guarantee that the first bottle will benefit or price refunded. Book on the Heart and Nerves, free. Address, Dr. Miles Medical Co., Elkhart, Ind.

## WOULD YOU BELIEVE

The Statement of Some One in Holland Quicker Than Some One in Florida!

Supposing you had backache, a weak or lame back, a worn-out, listless feeling that you wanted to get rid of, and you read of some one in Florida who had been cured, would you believe it? Not these days when so many claims are made by unscrupulous persons; we think not. But if some one right here in Holland, some one you can see, can inquire about, can satisfy you that what he says is true, "that would be different," wouldn't it? Well, now, that's the kind of proof we are going to give you about a remedy for backache and all complaints of and arising from disordered kidneys.

Martin Van der Poel is a citizen of Holland. He resides at the corner of N. River and First Streets. He says:

"For a long time I have had what is commonly called 'bad back.' I do not know what caused it, the pain was right in the kidneys; it affected me by spells, sometimes I would be in bad shape for two or three days at a time, then again I have been laid up for a week or more. During spells like that, I would have to give up work. It was during one of these bad attacks I heard about Doan's Kidney Pills, and as they were highly recommended for backache, I obtained a box at Doesburg's drug store, and their action was noticeable from the first. They have relieved me of the pain and I have not had it since, although this was some time ago. I would recommend Doan's Kidney Pills to all who suffer from backache, for my experience with them has proven they will do the work."

Sold by all dealers—price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

## HE BLAZED THE WAY.

Father Marquette's Memory Honored by Michigan Citizens.

St. Ignace, Aug. 8.—The streets of this city presented a remarkable and beautiful sight Wednesday, the occasion being the demonstration to raise funds to build a suitable monument to the memory of Father Marquette, the great missionary explorer.

Father Marquette died 200 years ago when on his way to this place from establishing a mission among the Indians in the neighborhood of the present city of Chicago. His remains were brought here by the Indians and placed in the vault of the little mission church which he built here, and after the burning of the church early in the eighteenth century, when the Jesuits abandoned this field of labor, the site was forgotten and for many years the exact place was unknown. About twenty years ago Father Jackson, pastor of the church at this place, now dead, discovered the remains of the church and the bones of the missionary. He erected a modest monument to mark the site, and a movement was started to raise

THE PROPOSED MONUMENT.

funds for a monument of suitable proportions. Considerable money was raised, but the interest lagged and the movement finally died out. The exercises Wednesday were for the purpose of reviving interest and to raise money enough to warrant going ahead with the monument.

The town was profusely decorated, every business house and dwelling being covered with bunting. Memorial arches covered with evergreens and bunting and bearing appropriate inscriptions were numerous. The formal exercises were held on the heights of Sco-Bo-Go-No-Wis, overlooking the town, and were opened at 2 o'clock. Father J. A. Keul read an address on "The History of the Grave of Marquette in St. Ignace." Hon. T. A. E. Weadock, of Saginaw, and Judge William M. Springer delivered eloquent addresses, both of which were of great historical interest. Weadock spoke on "Marquette the Explorer," and Springer on "The Explorations of Father Marquette and Others on the Mississippi River." Gov. John T. Rich and others also delivered addresses. More than 15,000 persons were present during the exercises.

A new monument association was formed to which the money subscribed some years ago was turned over. A large sum was subscribed Wednesday and the monument to Father Marquette is assured. The formal exercises were followed by a grand parade in which everybody joined with bands, native Indians in the costumes of 1671, historical floats, etc. There was a fireworks display in the evening.

**Charged with Larceny.**  
**St. John's, Aug. 14.**—Samuel S. Walker, late president of the Michigan Mortgage company, will be brought to St. John's on a criminal warrant charging him with larceny. In March, 1891, Mrs. Mary J. Chilson paid Walker \$1,000 in full for the discharge of a mortgage, which Walker and his partner, White, claimed to own, but which afterward turned out to be the property of Hobart college, of Geneva, N. Y. The money was never turned over to the college.

**Held for Trial.**  
**DETROIT, Aug. 14.**—Gideon Granger, who was one of the leading witnesses before the Lexow investigation committee in New York, was arrested here on Saturday last on a charge of having passed a forged check for a small amount on a local merchant. He was arraigned in the police court Tuesday morning and pleaded guilty, and was remanded for trial in \$1,000 bail.

**A Boy Drowned.**  
**SAGINAW, Aug. 12.**—Pleasure seekers found a pole and fishing tackle on the abutment of the Flint & Pere Marquette north bridge and were led to search the river for the owner. The searchers were rewarded in three hours by finding the body of Carl Ganas, a 15-year-old boy.

**Wages Advanced.**  
**IRON MOUNTAIN, Aug. 10.**—The Pan Iron Mining company, operating East Vulcan, West Vulcan and Currie mines at Norway, have announced an increase of wages of 10 to 25 per cent. to take effect immediately. The Aragon company have also raised wages in the same ratio.

**Will Stay Out.**  
**ISHPEMING, Aug. 14.**—The conference between striking miners and mine agents did not solve the trouble. The companies offered to treat with their own employes, but would not confer with outsiders and the men resolved to remain out.

**ANN ARBOR, Aug. 10.**—About noon Friday Miss Flinn, aged 70, an old resident, dropped dead upon the street near the Michigan Central depot. It is supposed she ruptured a blood-vessel, as blood gushed from her mouth and nose.

## Dr. H. Kremers

Has moved his office and will hereafter be found above the Central Drug Store.

OFFICE HOURS: 9 to 10 A. M., 3 to 5 and 7 to 8 P. M. Sundays at home corner 12th and Market St. Telephone 31.

## ADDITIONAL LOCALS.

Will Breyman and wife are still in camp at Macatawa and they contemplate remaining until late in the season. Will comes up every day and looks after business affairs and the management of the Opera House.

Mr. Peter Ledebor a well known Holland boy, now Superintendent of the Hyde Park Electric Light Co. of Chicago, a position of much responsibility, spent Sunday and Monday in the city. His wife who accompanied him, will remain some time visiting Seba Ledebor and wife and friends in Grand Rapids.

There is no indication of hard times in Holland. The post office, banks, manufacturing establishments and merchants report a marked increase in business as compared with the same period in 1894. Men who are actually willing to work experience no difficulty in obtaining employment. New business blocks and residences are in course of construction all over the city and the contractors figure that they can be kept busy until snow flies.

## Condition of Crops.

SOME INFORMATION OF VALUE TO THE FARMERS.

Hon. Washington Gardner, Secretary of State, under date of August 9th, sends out the following facts that will be read with interest. The estimates are based on returns received by the department of state since August 1st:

Wheat is estimated to yield in the southern counties 10.33 bushels; in the central 12.14 bushels and in the northern 11.48 bushels per acre; the average for the State being 10.91 bushels per acre. One year ago the estimates were for the southern counties 15.57 bushels, for the central counties 15.05 bushels, and for the northern 15.46 bushels the average for the State being 15.47 bushels. The reports as to quality vary greatly from the same and from adjoining localities, some of the correspondents reporting the quality "good," others "average," and still others "very poor." In the State 265 report the quality "good" 373 "average" and 104 "bad."

The number of bushels of wheat reported marketed in July is 437,804 as compared with 847,972 reported marketed in July 1894, and the amount marketed in the twelve months, August-July is 11,007,004 bushels as compared with 15,146,278 bushels in the same months last year.

Oats are estimated to yield 22 bushels per acre in the southern counties, 23 in the central, and 17 in the northern, the average for the State being 21 bushels.

The average condition of corn is 79 per cent, comparison being with vitality and growth of average years, and potatoes in the State are estimated to yield 70 per cent of an average crop.

The estimated yield of hay per acre is only three-tenths of the yield in average years, and the condition of meadows and pastures is but 31 per cent of condition in average years. Clover sowed this year is nearly an entire failure, the estimates showing condition but 13 per cent of an average.

Apples promise scarcely more than one-fourth of an average crop.

The mean temperature of the State for July was 67.8 degrees, which is about 1.0 degree below the normal. It was below the normal in each of the four sections of the State. The mean of the maximum temperature was 80.6 degrees, and the mean of the minimum 64.8 degrees.

The average precipitation in the State during July was 1.28 inches, which was about one-half the normal. The average in the southern four tiers of counties was 1.62 inches as compared with the normal of 2.51 inches. The average rainfall in the central counties was about one-third, and in the northern one-fourth of the normal.

There was practically no rainfall in the lower peninsula before about the middle of the month. Three light rains have since passed over the State, the first occurring on the 15th, the second on the 19th to 21st, and the third on the 27th to 29th.

## You're an Easy Prey,

with your flesh reduced below a healthy standard, for Consumption and other Scrofulous and dangerous diseases. And it's for just this condition that Dr. Pierce's Golden Medical Discovery is especially valuable.

If you're thinner than you ought to be, whether from wasting diseases, defective nutrition, or whatever cause the "Discovery" will surely bring you up to the healthy standard. By restoring normal action of the deranged organs and functions, it arouses every natural source and means of nourishment. As a strength-restorer and builder, nothing like this medicine is known to medical science. Flitby Cod liver oil and all its disguised compounds can't compare with it. Dr. Pierce's Pellets cure constipation, indigestion, or dyspepsia, biliousness and headaches.

Every day symptom of digestive disorders—acid stomach, distress after eating, burning at pit of stomach, dull heavy feeling—Burdock Blood Bitters never fails to correct any troubles of this sort.

## Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the languid, exhausted feeling peculiar, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in Succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and if we could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at
