Grand Rapids Press: "A movement is on foot to organize a Holland Society in Grand Rapids, modeled after those in Chicago and New York city. Among those speaking the Holland language in this city, who are graduates of the University of Michigan, it has been the custom by occasional reunions to keep alive the bond of friendship and good fellowship founded by the Knickerbocker Club of Ann Arbor. For a long time it has been felt that the sphere of these gatherings and its membership should be enlarged. It has been a cause of regret that when prominent men from Europe would visit their brethren in the Western continent they have frequently passed by Grand Rapids and been entertained in Chicago or further Western cities because of a lack of united efforts for their entertainment here. A paper is being circulated for the purpose of obtaining an expression as to the possible membership and sphere of such a society. Among the first names upon this list are John Otte, Gelmer Kuiper, Rev. John Vander Erve, Dr. M. Veen, boer, John A. Verkerke, Dr. George H. Baert, George Roelofs, Dr. Reuben Maurits and James J. Danhoff. The fact that word has been received here of the expected visit of noted people from Amsterdam this fall has given an impetus to these efforts which make it an assured success. A meeting for the purpose of perfecting plans will be held on the evening of Aug. 31."

RESORT NOTES.

The season at the various Holland resorts during the month of August is now at its height. Among others the yacht races and the Park Assembly just closed contributed their due share in rendering it so. Hotel parties are also one of the stated features with an occasional old-fashioned hop to please the summer girls and boys.

The increase of Grand Rapids people and families is especially noticeable in the number of cottagers. The facilities for them getting at any and all the resorts and returning, are all that can be desired.

The bathing for the past week has been superb. The people at Macatawa park are lovers of this pastime in a greater degree than those at the Beach. This, perhaps, can be accounted for by the fact that the people at the park live right down on the beach, and therefore are near the water all the time.

The "Chicago House," at Harrington's Landing, with Herbert Harrington as landlord, is doing a good business, considering that this is the first season since opening.

St. Louis avenue in Macatawa Park is named so by reason of the large number of families from that city that have cottages there. Their number is twelve.

The regular afternoon service in the Macatawa Auditorium and the song and gospel service on the beach in the evening, continue to be well attended, and are a decided attraction of that resort, even to residents of the city.

Rev. T. W. Mullenberg of Grand Haven and family are occupying their cottage at Central Park.

Landlord Stearns of the Hotel Ottawa says there is a very large number of Chicago people stopping there, many of whom have gone to eastern resorts in former years.

The Beach is visited occasionally by the director's car of the C. & W. M., the general officers of the road being among the stated guests of that popular hostelry.

Rev. J. H. Garrison, D. D., of St. Louis, by reason of his ability, his venerable appearance, social qualities and interest in the intellectual enjoyment of the Park population ranks as the bishop of the diocese of Macatawa.

Colby's casino at Ottawa Beach, for neatness and system and dispatch of business is not to be surpassed at any resort.

Dick Van der Veen's cottage at Isabella Park, west of Central Park, looms up as one of the conspicuous figures on the bay.

Evanston Park, is the name of the tract of woods, on the east shore of Pine Creek bay, and Mrs. Mary E. Smith has the distinction of having built the first cottage on that elegant plateau.

The lawn at Ottawa Beach is one of the finest stretches of unbroken green in Western Michigan.

The furniture stores in Holland are among those that derive first benefits from the building up of the resorts. The line of goods bought are more with a view to comfort than to elegance.

The life saving station under the charge of Capt. Chas. Morton and his gentlemanly crew, is to the casual observer a veritable part of the Macatawa resorts. The building are nestled so closely at the foot of old Baldhead, and the premises are kept so neat and tidy and have been adorned so tastefully with fest wreaths that it is hard to draw a partition line between the station and the resort grounds, unless it is because the former excels. The surfmen who are married, of whom there are three, have their cottages closely centered along the foot of the hill. The growth of the cotton-wood trees set out by Capt. Morton eight years ago is really marvellous, considering the nature of the soil.

DEWEY SAYS IT IS SO.

Dispatch from the Admiral Tells of Manila's Fall After a Sharp Bombardment.

NOT A SHIP OR A MAN WAS INJURED.

The Army Was Not So Fortunate, However—Eight of Our Soldiers Said to Have Been Killed—Seven Thousand Prisoners Taken and 12,000 Rifles.

Washington, Aug. 17.—The government received the first direct official information Wednesday of the surrender of Manila after a combined land and sea bombardment last Saturday. It came in dispatches from Admiral Dewey, brought from Manila to Hong-Kong on the dispatch boat Zafiro. The admiral sent two dispatches, the first one briefly reciting the essential facts, as follows:

"Manila, Aug. 13.—Secretary of Navy, Washington. Manila surrendered today to the American land and naval forces, after a combined attack. A division of the squadron shelled the forts and intrenchments at Malate, on the south side of the city, driving back the enemy, our army advancing from that side at the same time. The city surrendered about five o'clock, the American flag being hoisted by Lieut. Brumby. About 7,000 prisoners were taken. The squadron had no casualties; none of the vessels were injured.

"On August 7 Gen. Merritt and I formally demanded the surrender of the city, which allies; none of the vessels were injured. (Signed) "DEWEY."

Lieut. Brumby is Admiral Dewey's flag lieutenant. The second dispatch from the admiral had not been deciphered up to noon. They were received early in the day, and after the first one had been translated Acting Secretary Allen carried it over to the white house and laid it before the president. While it bore out the news already brought by press dispatches, yet it established the additional point that some 7,000 prisoners of war were now held by the American commanders, and that no casualties in the navy or damage to ships had occurred.

Now that the surrender is officially reported, it can be stated that Manila is being held by virtue of the military occupation and surrender, and not by virtue of the protocol. The difference is said to amount to little in practical results, yet such as it is all officials agree that the occupation is the result of the combined military and naval operations. According to Admiral Dewey's dispatch, the surrender occurred about five p. m. last Saturday. The peace protocol was signed at 4:23 p. m. on Friday. It is said that the difference in time between Manila and Washington is such that the surrender, reckoned on Washington time, would be about 12 hours ahead of the time at Manila, or about five o'clock Saturday morning. In point of actual time, therefore, the signing of the peace protocol preceded the actual surrender of Manila by a few hours. But it is a well established rule of military law, accepted the world over, that a peace armistice, or cessation of hostilities, does not become binding upon commanding officers until they receive actual notice of it.

Under this rule, Admiral Dewey and Gen. Merritt would be bound by the armistice only from the time the notice of it reached them at Manila. This could not have occurred on Saturday, prior to the bombardment, as the cable was not working, and no dispatch boat could have gotten through with the notice before Monday or Tuesday. In short, it is agreed in all official quarters that the forcible taking of Manila was entirely regular and that the city and bay is now held on the basis of this military enforced taking rather than on the basis of the mutual arrangement between the two countries. This may become material when the question arises as to the future of the Philippines, for it is likely to proceed from the American standpoint that Manila was taken by force of arms, and is so occupied.

There has been no time to consider what will be done with the 7,000 Spanish prisoners taken, but the fact that an amicable understanding has been reached with Spain as to the occupation of Manila will probably operate to lighten the condition of these prisoners.

Eight Americans Killed.

New York, Aug. 17.—A dispatch to the World from Manila, August 13, via Hong-Kong, says: Manila was captured on Saturday, August 13, by the combined land and naval forces of the United States. At nine o'clock in the morning Admiral Dewey's fleet opened fire on Malate fort and the Spanish trenches, and continued two hours. There was no response on the fleet, but a heavy fire on the troops rushing along the line was made. After the formal surrender the Spanish flag was replaced by the American flag. We captured 7,000 prisoners, 12,000 rifles and unlimited ammunition. Gen. Merritt has assumed command, restoring the civil laws. Eight Americans were killed and 50 wounded. The Spanish loss was much greater. The ships were not struck. The blockade has been raised and the shops are reopening. The people are pleased.

Dewey Salutes American Flag.

New York, Aug. 17.—A special dispatch from Manila, August 13, via Hong-Kong, to the New York Journal says: Five American soldiers were killed and about 45 wounded in the capture of Manila this afternoon. The stars and stripes were raised over the city at 5:40 o'clock in the afternoon. In the bay Admiral Dewey's fleet thundered a national salute. The combined naval and land forces were employed in the capture of the Spanish stronghold of the Philippines.

At nine o'clock in the morning the signal to begin firing was set on Admiral Dewey's flagship.

Not Fighting by Land Forces.

The authorities in the city and the consuls of foreign powers had previously been notified of the intended bombardment. For two hours great shells were thrown into the city.

After the bombardment the troops moved forward to attack the Spaniards in the trenches. There had been no reply to Dewey's bombardment, but the land forces met with a hot reception.

But the onward rush of the Americans could not be stayed. With a loss of five killed and over two score wounded, they drove back the Spaniards and captured the trenches.

In a short time the white flag was hoisted by the dons and 7,000 soldiers, 12,000 rifles and a great quantity of ammunition were surrendered.

The Spanish loss has not yet been ascertained. It is probably several times as large as that of the American forces.

The Spanish forces numbered about 3,000 men, but they were well entrenched. Nearly 10,000 Americans were engaged in the assault, and their loss under the circumstances is considered small. The Colorado troops were the first to storm the trenches, and every man was a hero.

When the white flag went up, Capt. Gen. Augusti jumped into a launch from the German cruiser Kaiserin Augusta. The cruiser then left with him on board for Hong-Kong.

The Filipinos are glad that the struggle is over. The shops are again open, the blockade has been raised and things will soon be just as they were before Admiral Dewey came to destroy Spanish rule here.

Insurgents Threaten Trouble.

San Francisco, Aug. 17.—Advices from Manila of August 14, via Hong-Kong, say: Our troops met with much resistance in the attack on Manila, eight being killed and thirty-four wounded. The insurgents, who are shut out of the city, threaten to cause trouble. Malate only was bombarded. All the ships escaped injury. Rear Admiral Dewey has raised the blockade, the shops have reopened, and there is a great feeling of relief among the people of the city.

It is stated that after the surrender of Manila, Aguinaldo's followers turned upon the Americans and attacked them, but they were easily defeated after a brief conflict.

The United States monitor Monadnock, Capt. Whiting, which left San Francisco about six weeks ago, has reached Manila safely.

Wanted to Enter City.

New York, Aug. 17.—A dispatch to the Herald from Hong-Kong says: It is rumored here that the United States troops at Manila have had trouble with the rebel forces under Gen. Aguinaldo. According to one account the insurgents, upon whom various restrictions had been placed by Maj. Gen. Merritt, mutinied at not being permitted to have any share in the surrender of the city.

It is reported that they attacked the Americans in the trenches.

The officers of the German warship, Kaiserin Augusta, are under instructions to give no information about the bombardment, but it is freely stated that there was a great loss of life on both sides.

There are a great number of steamers here preparing to leave for Manila with provisions.

Fled After Surrender.

Madrid, Aug. 17.—It is now asserted that Gen. Augusti left Manila after the surrender.

The government has received his report giving details as to the surrender, but is not yet ready to publish it.

It is asserted that Gen. Augusti on August 7 refused all propositions to surrender.

Augusti Offered to Surrender.

New York, Aug. 17.—A dispatch to the World from Hong-Kong says: Augusti claims that he offered to surrender himself personally to Admiral Dewey ten days ago. Dewey refused to accept his surrender unless he surrendered the city at the same time. He told Augusti that if he had a good chance to run away he had no objections. Augusti requested the Germans to carry him to Hong-Kong. If the Augusti story is true it makes it all the more mysterious why the German consul denied to Consul General Wildman all knowledge that Augusti was in Hong-Kong. He also denied that the Kaiserin Augusta brought him. The Philippine junta is delighted with the news, and delegation after delegation is crowding the American consulate tendering allegiance.

London, Aug. 17.—The Pall Mall Gazette comments Wednesday afternoon on the "extraordinary action of the Germans in assisting the flight of Gen. Augusti from Manila."

In terms similar to those used by the Times Wednesday morning, it sharply criticizes the proceeding, drawing attention to its similarity to the German action during the British bombardment of Zanzibar when the usurping sultan sought refuge at the German consulate.

The Pall Mall Gazette says: "This Manila incident is uncommonly high a flagrant breach of neutrality and is certain to be regarded as an international discourtesy, if nothing worse."

Big Electric Plant Started.

Canon City, Col., Aug. 17.—At noon Wednesday the Canon City-Cripple Creek Power and Electric company's immense plant in this city, which is designed to furnish power and lights for the mines and mills of the whole Cripple Creek district, about 40 miles distant, was put in motion, Gov. Alva Adams pulling the lever in the presence of a large number of capitalists and mining men.

THE GIFTED

Portrait Artist

OF GRAND RAPIDS.

Is making several of her superb Water Color Portraits to replace some of those cheap colored ghost pictures (made by cheap refuse colors that soon fade out and wither up the features till the subject looks like an old Egyptian mummy), put up by those migrating cheap John's in their "dead give away schemes," with an eye opener on the end of the scheme. In the past we have put up a large number of her healthy looking portraits in the place of sickly and even dead looking pictures, to the great delight of the customers who say: "There, that is worth a hundred of those sick pictures." Good work and straight business methods will win every time.

The only adverse incident on Thurs-
day was the breaking down of the dy-

tunately, it occurred at a late hour,
when but few persons were discom-
moded.

At the shooting match on River

The excursion by the Soo City to
South Haven on Tuesday was the lead-

not half room enough to accommodate

mission only 10 cents.

A Successful Day.

That much must be said for the first
Annual Farmers' and Businessmen's
Harvest Picnic held in Holland on
Thursday.

Everything combined to make it so
—nice weather, rich harvest, fair pri-
ces, large crowds, and a mutual desire
for just such a day "off."

It was intended as a day for every-
body, a communal day. The farmer
came to town, not to trade, but to
have a picnic. The merchants had in-
vited him, not to make anything out
of him, for they locked their stores
and joined in with the procession.

It would be hard to correctly esti-
mate the crowds, but fifteen thousand
is not excessive. About one half of
them must have enjoyed a part of the
day at the resorts, judging from the
pyramids of sandwiches that vanished
during the noon hour at Jensen Park.
And what a day it was for the trolley
line—Humphrey, and Cochran, and
Kinch, smiled from ear to ear, carry-
ing kodaks all day.

The profuse decorations, not elegant
or laborious, but still appropriate,
could not help but impress the visitor
that to-day, within our gates he was
welcome. The committees and the
men in charge also succeeded by their
bearing and the way they managed
things, to impress this fact upon all
the people.

Of course, there was a program of
the day, substantially as published,
and yet there was nothing formal
about it—toboggan slide, fire alarm
and hose test, bicycle race, excursions
on the bay, greased pig, balloon ascen-
sion (at least an attempt at one), all
sorts of races and contests, band con-
certs, winding up with fire works after
sunset.

Each one took in just what suited
him and there was enough to go round
and last all day. There was no real
culminating feature in the program
around which the general expectation
centered, unless it was the balloon
ascension—which was a failure, as
they often are.

The general participation in the day
and the all around satisfaction it gave
imply that there is a demand for just
such a free and easy holiday, a day
"off."

LETTERS FROM THE FRONT.

Fernandina Fla., Aug. 15.
DEAR FRIEND: * * Not a day but
what the vision of the many pleasant
hours spent in Holland passes before
my mind.

I would like to have you here a
while, so you could more readily re-
alize the little comforts and the great
discomforts of a soldiers' genuine
camp life. However, there are many
pleasant features connected with it,
and more than this, I would not miss
the experience for anything. But take
it as a whole, and it is not the life
that a man of any ambition would
like to lead, except in time of war,
and if we are not going to see any ser-
vice, the sooner we get back to our
homes and our business the better it
will suit me.

We are a very much disappointed
lot of men, to think that we were al-
most the first regiment in the field—
and, if I must say it, as fine a troop
and as well equipped as any that
started out—that we should be left
behind and others, that are conceded
to be inferior in every respect, should
be among the first to get into action.
In our trip to Tampa we passed

FAIR PLAY IN THE THEATER.

How a Little Woman Silenced a Vol-
uble Neighbor Who Tried to
Annoy Her.

It was only a by-play at the theater
the other evening, but it was enter-
taining to a limited portion of the au-
dience, says the Detroit Free Press.

Behind the little lady with a dimin-
utive hat that had its chief beauty in
its daintiness, sat a member of the
sex with Amazonian proportions and
voluble tongue. In a brief intermis-
sion of chattering to those about her
she happened to look down and spy
the pretty headgear which was a clear
foot below her range of vision with
the stage. But it was a tempting op-
portunity.

"Will you kindly remove your hat?"
asked the one in the rear, as she
leaned forward and spoke in a noisy
whisper.

"Certainly," answered the one in
front, as she made rather a vicious
plunge for the anchoring pin. "I will
'kindly' take off my hat. Will you
kindly stop your talking and permit
us to hear this play?"

For full five minutes there was un-
broken silence. But it was a greater
self-restraint than the large woman
could endure and her annoying whis-
perings again began. Suddenly the one
in front stuck the little hat upon the
very summit of her head and pinned
it there. It seemed to have grown
taller and of greater circumference
and looked just like a defiant chal-
lenge worked into artistic millinery.

The large woman was too mad to
talk and there was suppressed titter-
ing while those around beamed on the
little woman and were sore tempted
to give her a hand by way of applause.

KEEPING PRISONERS.

The Novel Way in Which the Germans
Prevented Their Captives from
Running Away.

"It has been suggested that when
Santiago falls we shall have from 10,
000 to 20,000 Spanish prisoners to look
after," said a well-known German citi-
zen to the New York Tribune, before
the surrender.

"Of course, the question of what to
do with them is sure to arise, and with
further campaigning necessary it will
probably develop into a serious propo-
sition.

"It recalls to my mind an incident of
the German revolution of 1848. We
were short of men and had a large
number of prisoners to look after.
That did not worry us as long as we
were not moving, but one day we had
to make a forced march. The country
through which we were to pass was
hostile, and extreme watchfulness was
necessary. We had few enough men
as it was, and we knew that those
prisoners were ready to make a dead
run at the first opening.

"Finally a young officer made a bril-
liant suggestion and it was promptly
carried out. We ripped the suspender
buttons from the prisoners' trousers,
took away their belts and knew we had
them. Their hands were busy after
that, and fast running was out of the
question. We made the march safely,
and I do not believe that even Yankee
ingenuity could have invented a sim-
pler solution."

A QUEER HABIT.

It Is Contracted by a Cleveland Man
While Trying to Learn
the Typewriter.

A Cleveland man has set about learn-
ing the use of the typewriter, reports
the Plain Dealer. Up to the present
time he has had somebody to do his
typewriting for him, but now he wants
to know how to run it all by himself.
He admits that he isn't an apt scholar.
It comes slowly. The letters are hard
to find, and the spacing is so easily
forgotten. But there is one thing that
amuses him. He is learning to spell,
and learning in the same way he did
when a tow-headed boy in the early
'60s. Of course he could spell when he
tackled the typewriter, but not in the
same way. Now he distinctly enu-
merates each letter, and does it, too,
with the greatest care. It is a funny
thing, but he finds himself spelling
out the words in the newspaper, and
his wife says he spells them in his
sleep.

The other day the minister met him
and asked him how he was.

"V-e-r-y w-e-l-l," he gravely spelled
out, and when the pastor looked
amazed he realized what he had done
and hastily explained the cause of the
peculiarity. And the minister pro-
fessed to be greatly interested and
wanted to know all about it, and the
speller is now greatly worried for fear
the parson will write a special paper
on it for some magazine.

When the minister finally left him
he shook hands and said: "Good-by."
"G-o-o-d," began the speller, and
then recollected himself and hastily
added "by."

He hopes in time to wear out this
peculiarity, and when he increases his
speed on the typewriter he no doubt
will.

NOT AFRAID OF FIRE.

A Philadelphia Retriever That Went
After Firecrackers Without
a Sign of Fear.

Among the enthusiastic patriots up-
town the other day was a man who
owns a handsome spaniel and one es-
pecially good at retrieving. This man,
reports the Philadelphia Record, be-
gan his celebration by throwing a pack
of small firecrackers into the street
and before the first one had a chance
to explode the dog rushed out and
grabbed the bunch and was making
toward his master as fast as he could.
Before the innocent dog reached his
destination, however, an explosion
took place, and one after another the
little rolls of powder went popping
at a great rate. Of course the spaniel
dropped them, but he remained in the
middle of the pack, jumping at the
ones that blew up into the air until
the entire pack had gone off. Then,
after picking up one or two of the ex-
ploded crackers, he returned to his
master and landed them at his feet.
The man petted the dog awhile and
then looked to see if he had been in-
jured, and found that his beautiful
coat of curly brown hair had been so
much singed that it would be neces-
sary to have it clipped. The dog was
always held high as a retriever in the
estimation of his owner and those who
knew him, but his stock has risen 100
per cent. now and no amount of money
could buy him.

CELESTIALS EAT BURDOCK.

Many of the Chinese and Japanese
Cultivate the Plant for Home
Consumption.

What is even regarded as a vile weed
can, with a little stretch of imagina-
tion be turned into an ornamental
plant or delicious vegetable, says Mee-
han's Monthly. This is especially the
case with the common burdock, lappa,
major. Schoolboys all know it from
gathering the burrs and compressing
them into a ball, they being held to-
gether by the curved points of the
floral involucre. This is all they know
about it. It is difficult to see anything
more to be despised in the burdock
leaf than in the leaf of the rhubarb. It
appears that it is largely used in China
for food. But it is stated that, if the
stalks be cut down before the flowers
expand and then be boiled, the taste is
relished equally with asparagus. The
leaves, when young, are boiled and
eaten as we eat spinach. In Japan it
is in universal use. Thousands of acres
are devoted to its culture. But in this
case the root is the object. It requires
deep soil to get the roots to the best
advantage. The common name in
China is gobbo—a name, however,
which need not replace our common
one of burdock.

CAN'T BE EXPLAINED.

A Naval Commander Says There Is
No Telling Why Sailors Will De-
sert in Time of Peace.

"I never knew a sailor worth keep-
ing," declared an old naval com-
mander, "that would desert in time of
war. But in times of peace, when
everything appears to be going along
as though it were greased, desertions
will begin from no apparent cause and
will suddenly become epidemic. Away
they'll go, and it's two to one that in
a little while they will be hunting
around to see if they can't get back
into the service without having to suf-
fer punishment. I used to put in a
good deal of time trying to find an ex-
planation of the thing, and finally pre-
sented it to one of my superior offi-
cers.

"Drop it, young man," was his la-
conic advice. "You can't tell why they
do it and you can't stop them. If you
must worry, let it be about something
where you may have a chance to ac-
complish good. I'll tell you right now,
if you were to sail a ship for Heaven
and were obliged to touch at hell for
coal half the crew would desert."

Calumet Baking Powder

has turned the tables on high price baking powders. The
directions on High Price cans are the same as on Calumet
cans, viz.: a teaspoonfuls to a quart of flour, but they say
that one can of High Price will go three times as far as
any other. Can any claim be more ridiculous? The
frantic cry of adulteration, danger and poison made by the
high price baking powder people is a blind to intimidate
the public and induce them to pay fancy prices for their
goods—also to divert attention from this defect in
their own goods.

Calumet Baking Powder is safe. Food baked
with Calumet is absolutely free from Rochelle Salts,
Alum, Lime, Ammonia or any injurious substance.

Monopoly must yield to moderation—
Impurity must improve or go under.

RESIGNATIONS REJECTED.

Spanish Government Refuses to Re-lieve Governors of Cuba, Puerto Rico and Philippines.

CORTES WILL MEET SEPTEMBER 15.

Gen. Blanco Will Remain in Charge During Evacuation of Spanish Soldiers—Gen. Pando Going to Havana—Declares He and Blanco Were Opposed to Peace.

Madrid, Aug. 17.—The government has decided to reject the resignations of the governors-general of Cuba, Puerto Rico and the Philippines. The cortes, it is asserted, will reassemble on September 15.

Madrid, Aug. 17.—El Tiempo, the organ of Senor Silvela, leader of the dissident conservatives, continues its demand for a convocation of the cortes, alleging that while the cortes could not change the terms of the protocol, it may be able to influence the course of the negotiations regarding the Philippine islands.

The word "control" in article III. of the protocol, is translated by El Tiempo as signifying "intervention similar to Great Britain's occupation of Egypt."

New York, Aug. 17.—A dispatch to the Herald from Havana says: Capt. Gen. Blanco made it evident that the government will not allow him to resign until matters in Cuba have been settled. He made public this circular, which he has sent to the military commanders, and which shows that he remains in charge of the events preceding the evacuation:

"The secretary of war tells me the proto-

LOCOMOTIVE EXPLODES.

Disaster Occurs in Round-house at Prescott, Ariz.—Two Men Fatally Hurt.

Prescott, Ariz., Aug. 17.—A terrific explosion occurred at the round-house of the Santa Fe, Prescott & Phoenix railroad, resulting in the fatal injury of two men and the wounding of two or three others.

Machinists were at work on engine No. 2 in the round-house when the boiler exploded with tremendous force. Joseph Brown was on top of the engine adjusting the pop valve when the explosion occurred, and was badly crushed about the head, dying in a few minutes. E. M. Seamans had his left arm blown off, and he was badly bruised and cut about the head. He cannot live. Charles Chambers was also quite seriously injured. The round-house is a complete wreck.

Another engine on an adjoining track was also badly wrecked. The fire box and boiler of the engine, weighing from four to five tons, were blown 1,200 feet, striking the end of the Bashford-Burmeister company's warehouse opposite the Catholic church, knocking the end off it. An air pump, weighing over 200 pounds, was blown three blocks, lighting near the post office. The town for three blocks is strewn with wreckage of pipes and pieces of warped and twisted steel.

Convalescent Men Will All Be Taken Away from Key West to Escape Danger of Yellow Fever—Paymasters at Santiago Ordered to Puerto Rico.

Washington, Aug. 17.—Gen. Wheeler was at the war department Wednesday and had an interview with the secretary. Gen. Wheeler received orders to assume command at Camp Wikoff until the arrival of Gen. Shafter. Gen. Wheeler was told by the secretary of war to purchase everything that was necessary for the comfort of the men and to spare nothing that would alleviate the sick and wounded. Gen. Wheeler left Wednesday night for New York and thence to Montauk Point.

Washington, Aug. 17.—The surgeon general's office has decided to take all the well and convalescent men away from Key West so that they will not be in danger from the outbreak of yellow fever at that point.

To Proceed to Puerto Rico.

Washington, Aug. 17.—Orders were issued Wednesday directing that the paymasters who have been at Santiago with \$1,800,000 shall proceed at once to Puerto Rico to pay the troops. Gen. Miles did not want these paymasters and the money to be sent to Puerto Rico from Santiago for fear that they might bring yellow fever. The surgeon

WHY THEY RESIGNED.

Light Thrown on the Action of the Massachusetts Officers.

Boston, Aug. 17.—The recent troubles in the Sixth Massachusetts infantry, United States volunteers, which led to the resignation of Col. Woodward and several other officers, were told to some extent in a letter received from the Journal's correspondent from Ponce, under date of August 3. In an interview, Col. Woodward says in regard to matters leading up to the resignation:

"The specific charges made by Gen. Garretson, commander of our brigade, led to the straggling on march between Guanica and here. When the march began they were very tired, and I did not have the heart to be severe with those who were exhausted."
"Gen. Henry said that the volunteers suffered from too much good feeling of this kind; that I had been among the men in my regiment too long and that discipline suffered greatly. He said they shot me in the regulars when they fell out. I replied emphatically that perhaps that was his custom, but it was not mine. I said I had no desire to court-martial the stragglers. The general said I must. I said I would resign first, and he said my resignation would be accepted. Lieut. Col. Clifton said the same. Maj. Taylor said so, too. We were ordered before the board and we resigned."

THE EVIDENCE OF OUR SENSES—WHAT HOLLAND PEOPLE SAY IS PRETTY GOOD PROOF FOR HOLLAND.

When we see it ourselves. When our own ears hear it. When our neighbors tell it. Our friends indorse it. No better evidence can be had. It's not what people say in Maine. Or distant mutterings from California. No deceiving echoes here. Holland people talk of Holland people. Public opinion published for the public good. There is no proof like home proof. Home testimony at the back of every box of Doan's Kidney Pills. Can you believe your neighbors? Read this statement made by a citizen:

Mrs. M. Shonaker, of 256 west 15th street, says: "During the past five or six years I was troubled a great deal with my kidneys. Latterly it was much more severe and I suffered from constant, heavy aching pains across the small of my back so that I could not rest comfortably at night in any position and during the day I felt tired and languid. The kidneys secretions became badly affected, irregular, too frequently, scanty and were attended by a good deal of pain besides depositing a heavy sediment. I suffered also from headache and spells of dizziness so that I either had to sit down or hold onto something to keep from falling. I used a great many different remedies but without obtaining any benefit. Friends advised me to use Doan's Kidney Pills and I got a box from J. O. Doesburg's drug store and used them. They helped me from the very start. They are by far the best remedy I ever tried and I have no hesitation in recommending them to anyone."

WEEKLY WAR HISTORY.
Complete Record of Events Told in a Few Lines Covering All Important News.

THURSDAY, AUGUST 11.
A system of tariff rates for Cuban ports in possession of the United States has been formulated by the war department. An order was issued at Washington creating the military department of Santiago, Maj. Gen. Henry W. Lawton to be in command. Secretary Long has recommended to the president that Commodores Schley and Sampson be promoted to the rank of rear admiral. A protocol covering the peace terms of the United States has been agreed upon by M. Cambon, representing Spain, and President McKinley, and it has been telegraphed to Madrid. A desperate fight occurred at Cape San Juan, 80 Spaniards attacking the light-house defended by American marines. The enemy was repulsed with 200 killed. The Americans did not lose a man.

FRIDAY, AUGUST 12.
Gen. Henry W. Lawton has been appointed military governor of the province of Santiago. Gen. Miles, Shafter and Merritt and Admirals Sampson and Dewey were notified of the progress of peace negotiations. Brig. Gen. Ezra P. Ewers, United States volunteer, has been appointed governor of the city of Guantanamo by Gen. Shafter. Every precaution is being taken by both the war and treasury departments to prevent the introduction of yellow fever into the United States. Gen. Schwan's command captured Mayaguez, Puerto Rico, after a sharp skirmish in which two American and many Spanish soldiers were killed. Spain's cabinet formally approved President McKinley's peace protocol and a cablegram was sent to M. Cambon authorizing him to sign in behalf of Spain.

SATURDAY, AUGUST 13.
Admiral Sampson has been ordered to proceed with his largest warships to Tompkinsville, N. Y., at once. The monitors were ordered to remain at Puerto Rico. Commodore Remy and the blockading squadron at Havana were ordered to Key West. The formal act of signing the peace protocol was performed in Washington on the 12th. Secretary of State Day's name was affixed in behalf of the United States and that of M. Cambon, French ambassador, for Spain. President McKinley issued a proclamation suspending hostilities and orders were cable to the military and naval commanders. The peace commissioners will meet in Paris not later than October 1.

SUNDAY, AUG. 14.
President McKinley states Secretary Day is the only member of the peace commission yet decided upon. Plans are being arranged for the feeding of the Cuban army and of the reconcentrados until such time as they will be able to help themselves. Spain's government has telegraphed to the governors general of Puerto Rico and the Philippines instructing them as to carrying out the terms of the protocol. Advice from Hong-Kong states that Consul-General Wildman, immediately upon receipt of the news of peace developments, chartered a fast steamer to carry the tidings to Gen. Merritt and Admiral Dewey at Manila. The troops at Montauk Point are to be strictly isolated. No visitors will be admitted to the camp. The utmost vigilance will be used to guard against the spread of fever. Engineers from Fort Sheridan will lay out the military camp at Montauk Point.

MONDAY, AUG. 15.
Only 5,000 of Gen. Shafter's troops remain at Santiago. Red Cross agents who returned to New York report that the camp at Chickamauga is a veritable pest hole and fever incubator. Gens. Blanco and Macias have officially acknowledged receipt of the orders from Madrid for suspension of hostilities and state that the instructions are being obeyed. The American blockading squadron guarding Havana harbor was fired upon from Morro castle, and the flagship San Francisco was damaged by a shell. Theodore Roosevelt and his rough riders reached New York from Santiago Sunday night. Three other transports brought the Sixth and Thirteenth Infantry and the Seventy-first New York volunteers. Advice from Washington state it has been determined to retain the volunteer army in service for several months and to increase the peace standing of the regular army to probably 100,000 men. The bombardment of Manzanillo, Cuba, was in progress when the Spaniards received news of the signing of the peace protocol. A flag of truce was raised and word was sent to the fleet. The battle ceased at once. Fifteen or more Spaniards were killed and considerable property was destroyed after the protocol was signed and while the orders to cease hostilities were being conveyed to the army and navy commanders.

TUESDAY, AUGUST 16.
Gen. Wheeler and Col. Roosevelt on Monday disembarked with their men from the Miami at Camp Wikoff, Montauk Point. Gen. Blanco has resigned his office as governor of Cuba, wishing to avoid his humiliating duties in connection with the evacuation. It is unofficially announced that Maj. Gen. Fitzhugh Lee will not serve on the Cuban military commission, preferring to retain command of his army corps. On Saturday morning the American forces under Gen. Schwan defeated 1,500 Spaniards in Puerto Rico. News of the signing of the protocol was not received until after the battle. A special dispatch says there is a general feeling of relief in Havana that the war is over. On the faces of many in the throngs there were unmistakable marks of the privations they have undergone as the result of the blockade. Consul Wildman at Hong-Kong cabled the state department that Admiral Dewey had bombarded Manila last Saturday and the city surrendered unconditionally. Gov. Gen. Augusti escaped capture by fleeing from the city on a German warship, which took him to Hong-Kong. He left his second in command to bear the humiliation of the surrender.

WEDNESDAY, AUGUST 17.
President McKinley has decided to reduce the army immediately and at least 40,000 men will be mustered out. Gen. Augusti is reported to have stated in Hong-Kong that Admiral Dewey advised him to make his escape from Manila if he had an opportunity. The Spanish cabinet has decided to order Gen. Blanco and all other Spanish commanders in the Antilles to fill their respective posts until the evacuation is completed. The Eighth Illinois regiment has been complimented with immediate service as guards in Santiago in place of the Second regiment of immunes, which has been found to be lacking in discipline. The gunboat Mangrove bombarded Cienfuegos Monday, the commander not having heard of the signing of peace. After a Spanish gunboat had been damaged word was brought from the town under a flag of truce that the war was over. Advice from Puerto Rico were that the Spanish soldiers are putting American sympathizers to the machete, 90 having been killed in one village for raising the American flag. The United States troops have been appealed to, but are powerless to interfere. The president has appointed the following commissioners to adjust the evacuation of Cuba and Puerto Rico: For Cuba, Maj. Gen. James F. Wade, Rear Admiral William T. Sampson, Maj. Gen. Matthew C. Butler; for Puerto Rico, Maj. Gen. John R. Brooke, Rear Admiral Winfield S. Schley, Brig. Gen. William W. Gordon.

Cures a Prominent Attorney.

MR. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wore an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, **DR. MILES MEDICAL CO., Elkhart, Ind.**

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort.

A woman's hair is her glory. Like her complexion, much of its beauty depends upon her general health. Nine times in ten a woman's general health is dependent upon her local health in a womanly way. It is an impossibility for a woman to be pretty or attractive who suffers from general ill-health. The skin, the teeth, the eyes, the hair and the carriage will tell the story when a woman is ailing. It is impossible for a woman to be in good general health when some local trouble is continually nagging at her nerves and disarranging the natural functions of every organ of the body. Dr. Pierce's Favorite Prescription is the best of all medicines for women who suffer from local weakness and disease peculiar to their sex. It acts directly on the delicate and important organs concerned. It makes them strong, healthy, vigorous and elastic. It allays inflammation, heals ulceration, soothes pain, tones and builds up the nerves and banishes the usual disorders of the expectant months. It makes baby's advent easy and almost painless. It enables every organ of the body to perform its natural functions without unnatural interference from a pain-tortured nervous system. It corrects all irregularities. A woman who is made well in this way will recover her natural beauty of form and feature and her natural amiability of character and temper. Thousands of women have testified to its merits. An honest dealer will not urge a substitute for a little extra profit.

Mrs. Rachel Clark, of Houlton, St. Croix Co., Wis., writes: "I am in good health since I have taken Dr. Pierce's Favorite Prescription. I gave birth to a 12 1/2 pound boy last June. He is six months old now and weighs 30 pounds."

How to preserve health and beauty are told in Dr. Pierce's Common Sense Medical Adviser. It is free. For a paper-covered copy send at once-cent stamps, to cover mailing only; cloth binding, 37 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

SERIOUSLY INJURED.
A Fearful Accident Befalls a Pioneer Farmer—Thrown from a Load of Hay with Great Force—Entire Body Paralyzed—The Best Medical Aid Possible Used in His Behalf.

From the Tribune, Charlotte, Mich.

One of the pioneer farmers of Benton township, Mich., is Elvath Munger. Despite the many privations and difficulties which a pioneer contends with, Mr. Munger has succeeded. He has also served as clerk of his township, and is known as a careful, conscientious and honorable citizen. His busy life has not been all sunshine, however, and in speaking to our reporter of his struggles in earlier days, he said: "One Monday in March, 1890, I was drawing hay to a neighbor's, when I was thrown from my wagon with great force to the ground, striking a front wheel in my descent. I struck on both hands with such force as to almost paralyze my whole body. The injury was most severe to my chest, shoulders, back and arms, although my face was badly cut. It seemed as though the great weight of my fall drove my arms back and injured both them and my backbone. "A prominent Potterville physician was called and on the Friday night following I was able to be taken home. The next day I sent for a Grand Lodge physician who blathered me for weeks. I became some better, but the main trouble with my body and arms remained as bad as ever. During the year following this treatment I was not benefited and began to think life to me was not worth living. I feared that my nervous system was completely shattered and that paralysis would follow. "In reading an article in the Montreal Family Herald and Star concerning Dr. Williams' Pink Pills for Pale People, about a year or a year and a half after I was injured, I noticed that people similarly afflicted were claiming to be cured. I at once ordered that remedy through my Potterville druggist, Mr. M. J. Palmer. I think this was the first sold in these parts. "Inside of ten days after taking the first dose I became satisfied that I had found the remedy to fit my case. I kept gaining; the pills acted as a tonic, regulated my bowels, liver and stomach, gave me a good appetite,

lessened the pains in my body and arms and cured a scrofulous condition that I had inherited from my father. "I now consider myself as good for work as almost any man of my years, and I feel that I owe all I enjoy of life and health to Dr. Williams' Pink Pills for Pale People. I have no trouble with my arms whatever, and have not had for a number of years. "I am of the opinion that with pure blood one will have but little, if any sickness, and this medicine will secure that condition. I keep these pills on hand for my family medicine and have not had a doctor since I began their use. "I am in excellent physical condition and do my farm work without other help than an occasional day's work, and this result has been secured in spite of the fact that I was a complete physical wreck. I cannot speak in high enough praise of this remedy. I have often recommended it to my friends with utmost confidence and shall be glad to answer any inquiries from those who are afflicted, if stamp for the reply is enclosed. My postoffice is Potterville, Mich. "ELVATH MUNGER." Subscribed and sworn to before me, this 21st day of April, A. D. 1898.

GEORGE A. PERRY, Notary Public.

"I fully concur in the statement above made by Mr. Elvath Munger, who is one of our excellent citizens and who would be the very last man to make an overdrawn statement. The cure in his case was marvelous and resulted in a great many sales of Dr. Williams' Pink Pills for Pale People. "M. J. PALMER, Druggist, Potterville." All the elements necessary to give new life and richness to the blood and restore shattered nerves are contained in Dr. Williams' Pink Pills for Pale People. They are sold in boxes (never in loose form by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or directly by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.
