Fennville, J. H. Nibbelluk & Son's trotter, won the free-for-all trot at the Allegan meet last Friday, going his best mile in 2:19 on a heavy track.

Samuel Holcomb has taken a position in the car record department of the offices of the Chicago & Northwestern railroad at Chicago.

Mr. Sagers of Graafschap has been appointed by the board of the Wisconsin Memorial academy of Cedar Grove, Wis., as third instructor. Mr. Sagers is a graduate of Hope college and has taught school the past three years.

Rev. J. Van Houte, who has accepted a call to the church in Boyden, Iowa, delivered a sermon in the First Reformed church of this city Wednesday evening previous to his departure to the city of his new charge. Rev. Van Houte was pastor of the First Reformed church until two years ago when he accepted the pastorate of a Grand Rapids church.

On account of the weather and other reverses the farmers of this vicinity have not met with the usual success in the raising of cucumbers for the H. J. Heinz Co. this year and in order that all of the loss may not be borne by the farmers the company has advanced the price on cucumbers from 50 to 60 cents. The granting of this increased price is an illustration of the fairness and generosity shown by the H. J. Heinz Co. since coming here and will win them friends.

Rev. K. VanGoor, of Patterson, N. J. formerly pastor of the Ninth street Christian Reformed church, was in the city visiting friends this week. Sunday afternoon he conducted services in the Ninth street church and Sunday evening he preached in the Fourteenth street Christian Reformed Church and on both occasions large congregations were present. Rev. VanGoor is remarkably successful in Patterson and so large has been the increase in membership in his congregation that a new church will be built.

Within three weeks the Walsh-De Roo Milling and Cereal company will start manufacturing the new cereal food and experts in the manufacturing of these food declare that the Holland factory is one of the best in the country. This means that it will be successful. John Martin, of the Illinois Cereal company, the firm that has contracted to take-half the output of the Walsh-DeRoo plant, was the guest of Mayor DeRoo the first of the week and after a careful inspection of the factory declared that but one of the Battle Creek factories could approach it. And Battle Creek is the birth place of health foods.

Dr. George Baker, for a number of years a member of the medical firm of Drs. Baker & Betts, and lately of the firm of Baker and Imus, left Wednesday for Fort Sill, Oklahoma, with his wife, where he will labor as missionary to the Comanche Indians under the auspices of the mission board of the Reformed church. Dr. Baker has given up the practice of medicine and will devote his time to religious work. He has just completed a course in the Moody Institute of Chicago and his present assignment to Oklahoma is for six months. He will assist Rev. Frank W. Wright and his first work of importance will be at a large camp meeting to be held the first two weeks in September.

The ninety-five purchasers of the lots in McBride's addition, sold by B. L. Scott and John H. Raven were at DeGrandwet hall Saturday afternoon for the allotment. In trembling anticipation they awaited the result of the allotment and it was too bad that all could not draw a house as well as a lot. Those lucky enough to draw houses were Bert Michmershuizen, Fritz Jonkman, Arle Boven, and Miss Alice Foster. Though all did not draw a house there was no expression of dissatisfaction as all felt that the lots were worth the price paid. Some were offered a considerable advance on \$150 for their lots, but refused while a few others during this week sold for an advance of from \$25 to \$50. To Mat Van Dyke belongs the honor of granting the first contract for the building of a house. Peter Riemers will begin to build in a short time and several others are having plans prepared.

The annual picnic of the Pere Marquette Ry. employees living at Muskegon will be held at Ottawa Beach tomorrow.

John Brinks has been granted the contract for the building of a house for Attorney G. W. Kooyers on Twenty-third street and College avenue.

The steamers Soo City and Argo will make the regular week end excursion Saturday night. Fair for the round trip \$1.50. Berths extra at regular rates.

The eight-months-old child of Henry Bos, South College avenue, died suddenly, Tuesday. The funeral services were held yesterday afternoon from the home, Rev. H. Van Hoogen officiating.

One need not go into the country these days to hear the sound of the threshing engine. Fourth ward farms a mile and more within the city limits, are entertaining and keeping busy a threshing crew, and some good rye and wheat crops are being harvested this week. Like a whiff of hay in a city street are reminded that the barrier separating city and country is not such a very great one after all.—G. H. Tribune.

The Holland interurban road, which started out last year with a single car on its freight run, now has four daily runs and is crowded with business. H. D. Gilmore, general passenger and freight agent, says that the company is probably hauling as much package freight from Chicago into Grand Rapids as any one of the steam roads. No attempt is made as yet to do a earlot business, but Mr. Gilmore says that the company will have to add to its equipment soon and that larger warehouse facilities will be necessary.—G. R. Herald.

The death of Mrs. Jacob Meinema occurred last Monday afternoon at her home on Fairbanks avenue at the age of 72 years. Mrs. Meinema was born in Vriesland, the Netherlands, and came to this country with her family seven years ago. She first lived in Zeeland and came to Holland to live five years ago. She is survived by her husband and two sons, John, of Holland and Jacob of Noordeloos. The funeral services were held Wednesday afternoon, Rev. J. P. DeJong of Zeeland officiating.

Local Union, No. 886, Painters, Paper Hangers and Decorators, held the semi-annual election last Friday evening electing the following officers: President—Frank L. Robinson. Vice president—George McCormick. Rec. Secy.—C. Hoogenstyn. Financial Secy.—Isaac Ryzenga. Warden—Edward DeKraker. Conductor—Martin Dekker. Preceptor—B. Purchis. Trustees—John Visser, John Westhoek, C. E. Yeskes. The union now has 23 members.

Charles Floyd, passenger agent of the G. R. H. & L. M. electric railway, and Attorney G. J. Diekema were in Grand Rapids Monday, in attendance upon the coroners inquest held to investigate the death of Miss Martha Doornbos, who was fatally injured on the night of August 15 by being struck by an interurban car. Edward Newhouse, who was walking with Miss Doornbos when the accident occurred, testified that they were on the company's right of way and stepped from one track to another just in time to be struck by a car. It will be remembered that the car that struck the couple was north bound but was using the track for south bound cars. Many seemed to think that the interurban company had no right to run north bound cars on the south bound track, but Mr. Diekema satisfied the jury that there is no law requiring an interurban company to run its cars upon any particular track as long as it is on its own right of way, and the jury exonerated the company from all blame.

Service upon the South Haven Shore line is closed, the steamer Glenn having made its last trip between Benton Harbor and Macatawa Park Monday morning. The rather abrupt termination of the Shore Line is made necessary by the largely increased fruit interests at South Haven and vicinity. The Glenn has gone upon the Glenn Pier-Chicago run and will make daily trips until the close of the season.

Mrs. Alice Barlow has returned from a weeks visit to Kenosha, Wis., where she has been visiting friends. In an interview with a representative of the News she said that she wishes to let the people of Holland know that she did not elope with a married man as reported, and that she thinks the people underestimated her character in thinking her guilty of such an act. She says she has always worked hard for herself and her three children and thought a weeks rest would do her good, and that she did not think she had to let anyone know where she was going as she had left no debts and went and came back on her own money.

The death of Mrs. C. A. Davis of Cuyahoga Falls, Ohio, occurred at the home of her sister Mrs. A. E. Lothrop, 61 West Twelfth street, this city, Tuesday, after a months' illness at the age of 45 years. Mrs. Davis was the wife of C. A. Davis, publisher of the Cuyahoga Falls Reporter. With her two sons she was visiting here and two weeks ago her condition became so serious that in response to a telegram her husband came to her bedside. She began to show such decided improvement then that her husband returned to Ohio and no one but her two sons and Mr. and Mrs. Lothrop was with her when she died. Mr. Davis came Wednesday and took the body to Cuyahoga Falls for burial.

Considerable pressure has been brought upon the officials of the South Ottawa and West Allegan Fair association this week to have them allow gambling devices at the fair to be held in Holland September 29 and 30 and October 1 and 2, but the generous offers of those who would like to get the privilege will not be heeded. The articles of association positively forbid gambling and even if they did not no gambling would be allowed as the fair officials are opposed to it to a man. Anticipating that, on account of the excellent racing program, there will be a larger crowd on the grounds than ever before, men interested in gambling devices have offered as high as five hundred dollars for the privilege, but the officials turned down all propositions. They stand for clean, honest sport and will furnish an abundance of that.

The correspondent wishes to say again that he is not a personal enemy of saloon-keepers and drunkards, but he opposes strong drink for three reasons. First, the Bible condemns its use, second, it is a great cause of crime, accidents etc., and third to a certain extent it causes disease. Reason is common sense of the human mind and anyone who doubts the above, let us here from him at once.

From Geo. H. Souter.

Editor, Holland City News: Well, Mr. Editor as I told you before I left Holland that I would drop you an item or so in regard to our trip towards the sunset, I take up my stub to give you a few of the main points of interest connected with the journey of our party, consisting of M. and Mr. John Nies and myself and wife. We left Holland at noon Aug. 1st on the p. m. flyer reaching Chicago at 5 p. m. At ten the same evening we left Chicago over the Rock Island via Omaha for Colorado Springs where we arrived on Monday morning at 8:30 and where we at once engaged a team and surry and started for the garden of the gods where we enjoyed the forenoon passing through and among the many wonderful and picturesque scenes around Glen Eyrie the house of Gen. Palmer and passed through the gateway to the garden, saw the Balcony and Steamboat rocks, the Irish washerwoman and a host of other beautiful and inspiring sights that will not be soon forgotten by any of the party. About noon we arrived at the interesting village of Manitou at the foot of Pikes Peak, where we partook of the waters from the great soda and iron springs. After a hasty but satisfying lunch we made our way to the log road station from which at 1:30 p. m. we embarked for the top of Pikes Peak where we arrived without accident within an hour and a half and where I must admit I did not feel very sure of my footing for a few minutes, but it soon passed off and I made the further ascent of 73 feet to top of tower where I looked through a telescope down at the garden of the gods and saw Mt. Massine, streked with snow 95 miles away, the city of Cripple Creek 14 miles and the Spanish Peaks 130 miles to the southward. The city of Colorado Springs was hidden from us by clouds that lay between us and the valley, but I must hasten or this letter will be too long.

On coming down from the tower I found the air had been much too light for Mr. Nies and Mrs. Souter, but they soon felt better after we started to descend. We passed a very comfortable night at Hotel Alamo and after spending most of the forenoon at the Cheyenne Parks we again started on our journey over the Colorado Midland where soon after leaving Leadville we climbed a little higher, and at Ivanhoe near Hagermans Pass we reached an elevation of 10,944 feet above sea level. And then began the race down the mountain, where we dropped about 8000 feet in 18 miles, but on to California.

In due time we reached Salt Lake City 5 hours late. We stayed over night at Salt Lake and took in a few of the main points of interest leaving next day at 9:50 via Ogden over the Southern Pacific for Sacramento. We crossed the great American desert the same afternoon and at a place called Kelton we saw the little square granite monument or post that marks the spot where the golden spike was driven when the Union and Central Pacific roads were united and the rails were spliced binding the east and west together with bands of steel. The country from Ogden, Utah to Colfax, California across the state of Nevada is almost entirely composed of desert and mountain, a barren waste and that mostly for lack of water. We arrived at Sacramento at noon next day and at once took street car for state capitol where Mrs. Nies and your correspondent took the elevator to the dome and got a fine birds eye view of the city and immediate surrounding country. (Continued next week)

Nature's Restorative

MALTA PURA GIVES MARVELOUS RESULTS IN EVERY CASE, THOUSANDS OF TESTIMONIALS RECEIVED NOTE WHAT THEY SAY.

It is impossible to publish in the columns of this paper testimonials which will give even the faintest conception of the popular favor which is bestowed on Malta Pura everywhere. Not only do the people who try it speak its praises, but physicians, not a few but in every city welcome it and prescribe it as nature's tonic and a valuable adjunct to the practice of medicine. One lady writes from Los Angeles, California: "I was discouraged. My energy seemed entirely gone. When I awakened in the morning I felt tired, and I had no ambition to work or take any interest in life. My husband heard of Malta Pura, purchased a bottle and this year I am so ambitious I keep everything on the stir. I certainly feel like a new person."

Another testimonial comes from a young man who had lung trouble in St. Johns, New Brunswick. "Physicians had given me no encouragement except possible relief by change of climate. My brother who was in Boston, heard of Malta Pura and bought a bottle. I felt better almost from the first dose. I have taken fifteen bottles within the past year, but I have gained 30 pounds in weight and am as healthy as a horse. My lungs seem to be all right." Another comes from a working girl in Providence, Rhode Island. "Overwork broke my nervous system and I was a wreck. I gave up and was ready to die. I began taking Malta Pura and today I am well and strong." A physician in Battle Creek says: "I have prescribed Malta Pura in numerous cases of pulmonary trouble, nervous debility, and when a general tonic is required and the results are extremely satisfactory." We never publish names but keep the original letters on file in our office. We will furnish names of those endorsing Malta Pura to any person writing us. Malta Pura is for sale by all leading druggists at a special price of \$1.00 per bottle. Manufactured by Battle Creek Health Beverage Co. Lt.—Battle Creek, Mich.

AMERICAN BOAT TWICE A WINNER

Takes First and Second Races in
Contest for the Cup.

Leads the Shamrock Over the Line in
the First by 7 Minutes and 8 Sec-
onds and Again in 1 Minute and
19 Seconds—Both Races Were Well
Conducted.

New York, Aug. 24.—In a splendid 12
to 15-knot breeze, over a windward and
leeward course of 30 miles, the gallant
sloop Reliance Saturday beat Shamrock
III. in commanding style by exactly
nine minutes actual time, or seven min-
utes and three seconds after deducting
the one minute and 57 seconds which the
defender concedes to Sir Thomas Lip-
ton's third challenger on account of her
larger sailing plan as at present meas-
ured.

A Royal Fight.

It was a royal water fight for the
ancient trophy, which carries with it
the yachting supremacy of the world,
and by a strange coincidence, the first
victory in the cup series of 1903 occurred
on the fifty-second anniversary of the
day on which the old schooner America
captured it in her famous race around

SCENES OF HORROR.

Turks in Bulgaria Murder Men,
Women and Children and
Burn the Villages.

Sofia, Bulgaria, Aug. 25.—The Turks
are reported to have massacred all the
women and children in 22 villages of
the districts of Florina and Monastir,
and to have afterwards burned the vil-
lages. They are also alleged to have
killed a number of prisoners.

The streets of Krushevo are strewn
with dead and the survivors are afraid
to bury the bodies, fearing to incur the
suspicions of the Turks.

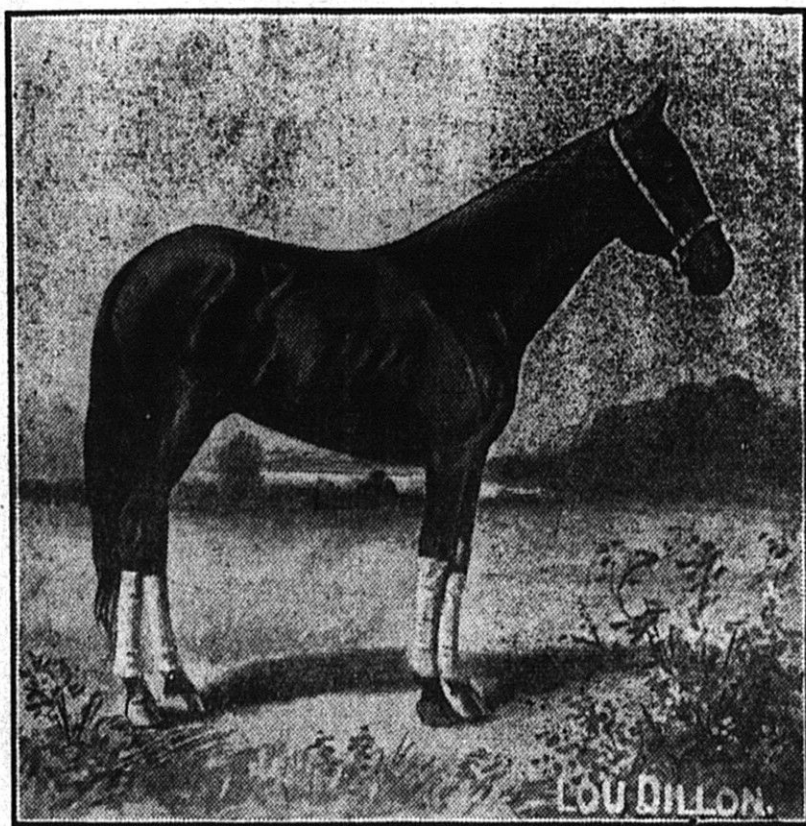

Reports from Monastir give horri-
fying details of the massacres and atroci-
ties. At the village of Armenko the
Turks destroyed 150 houses out of a
total of 157 and massacred every man,
woman and child. The women were
subjected to the most terrible atrocities
by the soldiers. At Monastir 15 of the
principal merchants of the town were
killed and their heads exhibited on
poles. The churches were demolished,
the houses sacked and the town is now
in a heap of ashes.

seconds in the thrash to windward and

Shamrock III. is to be remeasured
with anchor and chain on board, but
with lead ballast taken out, which may
shorten her water line and increase her
time allowance to more than two min-
utes.

SECOND RACE.

Reliance Again Shows Her Superior-
ity Over Shamrock III.

New York, Aug. 25.—In a glorious
breeze, over a triangular course, ten
miles to a leg, the fleet-footed cup-
defender Reliance again showed her heels
yesterday to Sir Thomas Lipton's chal-
lenger, taking the second race of the cup
series of 1903 by the narrow margin of
one minute and 19 seconds. It was as
pretty and as hard a fought contest as
has ever been sailed off Sandy Hook, and
had the wind not fallen during the last
ten minutes, the record for the course,
three hours, 72 minutes and 15 seconds,
made by Columbia two years ago in her
memorable race against Shamrock II.,
would have been broken. At it was, Re-
liance sailed the 30 miles within two min-
utes and 39 seconds of the record, which
speaks wonders for her speed in the
wind that was blowing.

Negroes Driven from Town.

Danville, Ill., Aug. 25.—Negroes
caused excitement in Danville Monday
night and two men had to run out of
town for attempting to rescue a negro
who had nearly bitten a policeman's
thumb off while resisting arrest. The
policeman finally dragged the biting
woman to the calaboose. The woman's
husband followed the policeman with a
club. A crowd chased the husband out
of the town and returned to find that
the woman's son was trying to release
his mother. The son was chased into
the country.

of the accident, and owing to the noise
of the band, the car's approach was un-
noticed by him. Mr. Saru was 64 years
old.

by his persistent fight for good govern-

Other addresses were made and con-
gratulatory telegrams passed be-
tween Gen. John B. Gordon, commander
in chief of the United Confederate Veter-
ans, and Commander Black.

Fire in Philadelphia.

Philadelphia, Aug. 26.—Kolb's bakery,
occupying about a half block in the
southern section of the city, was de-
stroyed by fire Wednesday. The loss is
estimated at \$150,000. Ten small dwell-
ings in the rear of the bakery were
badly damaged. Twelve of the bakery
employees were in the building when the
fire started and all narrowly escaped
with their lives.

Mill Forced to Close.

Colorado Springs, Col., Aug. 26.—The
Telluride mill at Colorado City was
forced to close down Tuesday afternoon
at five o'clock by the walking out of the
150 union men employed there. Deputy

have pickets stationed at the approaches
to the mill to keep men from going to
work.

ered.

Suicide While Despondent.

Bloomington, Ill., Aug. 26.—Alice
Sample, of this city, killed herself Tues-
day morning by firing two bullets into
her breast. Despondency over love af-
fairs is responsible. She became prom-
inent here two years ago in connection
with the murder of Mrs. David Leslie
by Miss Daisy Carlton, being an inti-
mate friend of the Carlton girl, and was
with her when Mrs. Leslie was killed.

Sent to Prison.

formerly of Kentucky, was convicted
yesterday in the circuit court of assault

years. This is the first conviction and

have been subject more or less all my
life to attacks of kidney pains and
backache. If I caught cold or strained
myself from doing any unusually
heavy work I was sure to be laid up
for a time. The attacks come on at
intervals and were very severe, so
that it was almost impossible for me
to bend over and in a stooped position
I could scarcely straighten again. I
tried a great many different
remedies and wore plasters but could
get nothing to remove the trouble un-
til I saw Doan's Kidney Pills highly
recommended and went to J. O. Does-
burg's drug store in Holland and pro-
cured them. My back was hurting me
severely at the time but it re-
quired only a few days treatment to
relieve me and in a short time
the aches and pains were entirely re-
moved."

Demand for Shore Line.

Spasmodic efforts have been made from year to year to establish a shore line to take care of the freight and passenger business on the west shore, particularly of the traffic between Benton Harbor, Ludington and intervening ports. That marine men realize that there is an opening for a good line and are interested in its establishment the numberless columns about lines and rumors of lines that have appeared in the papers the last few years are proofs. Trials have been made on a small scale but failure has been the result every time.

But the latest trial of a shore line, made by the steamer Glenn, has approached so close to success that the next trial may prove a triumph. The Glenn was on the route but two weeks and a couple of days. It started in with less than ten days preliminary notice and advertising. Yet in spite of the shortness of time, both of service and of advertising, the Glenn hugged success so close that there was some hesitancy in deciding to discontinue the service and put the steamer on the fruit line route between Glenn Pier and Chicago. Nothing but the absolute certainty of a good thing in the fruit business and the absolute necessity of caring for the large fruit shipments from Glenn induced the management to make the change.

There is a demand for a shore line, and if it is run in the right manner it will be successful. W. H. Squier, manager of the Michigan Shore Line, is the first man who has gone about the business in the right way and if he sticks to his promise to resume service with the Glenn next year early in the season such success may meet his efforts that the line may become a fixture.

Capt. Barr, Naturalized Citizen.

It beats all what good fellows many of the naturalized American citizens are. They come from England, Ireland, Germany, France, Netherlands, Italy and Egypt, barring one exception—the son of China—they try to outdo the native born American in devotion to the constitution, and they do not stop to question whether the constitution follows the flag or the flag follows the constitution. They run our threshing machines and our political machines, they police our city, man our navy, manage our army, and marry our girls, run our railroads and run our cities. They do everything under the sun that we do and make us pant with exhaustion in our efforts to keep them from going one better.

But seldom do they come over here and win our victories for us against their native land. Capt. Charles Barr, skipper of the Reliance, however, has done this. He first saw the light of day on the bonny hills of Scotland, and was a subject of the queen until a realization of the opportunities for advancement offered here impelled him to come to America. He was not here long before he learned to love ardently his generous Uncle Sam and decided to take out naturalization papers. Now he is helping his adopted country win the highest yachting honors and nothing will please him more than to outdo his former countrymen.

That shows how big Uncle Sam's corner of the earth really is. It is big enough to erase the line separating the native and the naturalized citizen and to give both an equal chance—excepting in one case—a naturalized citizen can never become president of the United States because the constitution says nay.

Wonder if that clause in the constitution will ever be changed?

Only A Tramp.

He was only a tramp. A railroad train on the Northern Pacific bound from Portland to Olympia loaded with excursionists going to the Elks clambake jumped from the spreading rails and plunged down the embankment carrying its human freight to a horrible death. Demolished cars, battered iron trucks, twisted iron, huddled in a heap at the bottom of the

embankment, making the situation of the bruised people wedged therein perilous in the extreme. Where the engine lay was the worst spot, for hissing steam and scalding sheets of water added to the horror. Here lay the fireman. Willing men and heroic woman went to the assistance of those who were lying helpless amid the splintered wood and twisted iron. But who will go farther? Who will venture through the blinding, blistering steam and the seething water?

He was only a tramp. But he answered the question with his life. Undaunted by the terrible agents of death, with set jaw and unflinching eye, he labored desperately to save the fireman—and death came in violent form while he labored.

Only a tramp. But truly he was a noble man at heart. Probably circumstances made him follow the life of a wanderer. Probably he was not of strong enough moral fiber and would have been found wanting in the battle of life no matter what circumstances surrounded his life. But when the supreme moment came, when the occasion demanded of man a godlike action, the latent good within him spurred him to high endeavor and he forgot everything but the innate nobility that might have lain dormant until the grave claimed him if the right occasion had not arisen.

Only a tramp. But his courageous action showed that from even the most humble the world may expect nobility, and that there is good even in lowest walks of life.

Rev. John M. Vander Meulen Accepts Chair in Hope.

Rev. John M. Van der Meulen has accepted the call of the Hope College council to the chair of Psychology and Pedagogy issued last June.

This is indeed the best of news and will be hailed with delight by every friend of the Reformed faith, for Rev. Vander Meulen is one of the most brilliant men in the fold of that church. Not only is he fitted by special training and instruction to teach these branches, but he is an orator of exceptional ability and though comparatively young, being about 33 years of age, he has had education and experiences that does not fall to the lot of the average man. He was graduated from Hope College in 1901 and soon thereafter was called to the position of instructor at the Classical academy in Orange City, Iowa, where he stayed two years and then took a theological course at Princeton, completing his education at the McCormick seminary in Chicago. His first charge was a large Reformed church in Kalamazoo and his eloquence and ability attracted people in such numbers that his congregations were the largest of any other in that city. From Kalamazoo he was called to the First Reformed church in Grand Rapids and had the same success. Two years ago he took up missionary work in Oklahoma and his work there has attracted attention wherever there are followers of the Reformed faith. Mr. Vander Meulen has also had experience upon the lecture platform and if he cared to follow that profession could get assignments from the best lecture bureaus in the country.

War Time Recollections.

The following lines were handed to the News a few days ago by A. H. Stillson, a veteran of the Rebellion. Mr. Stillson received the verses from his mother while he was at the front, during one of the most active periods of the war. They were clipped from a newspaper and have been carefully treasured by the recipient for nearly thirty years. They are entitled:

MY HEART IS IN THE ARMY

His country's call to arms he heard,
The young, the noble-hearted,
He took his grand sire's treasured sword
And to the war departed,
One kiss, one fond embrace he gave,
Let naught, he said, alarm thee;
My heart went with my soldier brave,
My heart is in the army.
I would not have him linger here
In idleness inglorious;
I gave him parting words of cheer,
And bade him be victorious,
O could I fly to him unseen,
I'd fear not aught could harm me;
I'd be where long my heart has been,
Be with him in the army.
I know his fearless spirit well,
I know his love of glory;
His daring deeds, his comrades tell,
In many battles gory.
Ah! how can then my heart be gay,
Or scenes of pleasure charm me?
Ah! no my heart is far away,
My heart is in the army.
Forebodings dark my spirit fill
To drive each feeling cheerful,
And visions rise before me still
Of battles fierce and fearful.
I sing no more—I only pray
For him there may no harm be,
Who with my heart is far away—
A soldier in the army.

Mr. Stillson is the oldest son of a veteran in the United States and was a member Burnside's stone wall regiment, 17th Michigan Volunteer Infantry, during the civil war. His

age is 75 years. For nearly 65 years he has lived in Saugatuck and vicinity and knew Holland before any person living now in Holland ever saw the city. Mr. Stillson was here last Saturday with his wife, who is 73 years of age, the guest of John Zwemer. The aged couple were on their way to the Grand Rapids Soldiers home where they will live in the future.

Many Labor Unions Will Come.

There is not the slightest doubt that labor unions within a radius of 50 miles of Holland are aware that there is going to be a real live celebration at the Jenison Electric Park under the auspices of the Labor unions of this city Labor day, for the union men of Holland have spread the news far and wide.

Monday night a committee from the unions, accompanied by Charles Floyd, passenger agent of the Interurban railway, appeared before the meeting of the Grand Rapids Trades council and presented a formal invitation to come to Jenison. But that was not all. They told glowingly of the elaborate program that was to be carried out, dwelling with particular emphasis upon the moonlight excursion to be given by the elegant steamer Puritan of the Graham & Morton line. The Trades Council of the big city on Grand River showed its appreciation of Holland's hospitality by appointing a committee of five to represent the council at the park on the great day. Then the unions in their individual capacity informed Mr. Floyd and the committee that the unions would, after the Grand Rapids parade, come to Jenison in a body, accompanied by their wives and sweethearts. That means that every union man in Grand Rapids that can get away will come to Jenison Park after the parade.

President Graham has placed at the disposal of the local committee the steamer Puritan for a moonlight excursion on the night of Labor day and one of the Grand Rapids unions has chartered the boat and intends to dispose of enough tickets in Grand Rapids to pay for the steamer and make a good profit.

A committee consisting of Olaf J. Hansen and William Norlin went to Benton Harbor Sunday to invite the union men of that city. They received flattering assurances of a Benton Harbor and St. Joseph crowd and tonight Mr. Hansen will appear before the Trades Council of these cities to make arrangements for the transportation to Holland and return. The program is the most complete ever offered for a celebration in this vicinity. Besides the aquatic and athletic sports, the regular attraction features of the Electric Park, such as the Figure 8, the Cave-of-Winds, the House-of-troubles, the Merry-go-round and the dancing pavilion will be going full blast. The big card of the forenoon will be the speech of Julius Menke, the orator of the day; but even that will not dim the luster of the ball game. This game will be for blood and a \$5 purse—and for honor. Already the friends of the opposing clubs are divided into hostile camps and the rooting promises to be something terrible.

The days sport will begin in Holland with a grand street parade of the horrors led by the band at sharp eight o'clock in the morning. Then after a short band concert on the corner of Eighth and River streets, the crowd will start for the park.

Pete Smith's Fish Story

As expected, the fishermen of Holland proved equal to the occasion, and answers to the deft in the News last week asking for a fish story to rival the Allegan and the California stories which were mentioned in the News last week have been coming to the News office thick and fast. From them the News take one sent in by Pete Smith, the well known catcher of big fish, who vouches for the truth of the facts here set forth. Here is his story:

One beautiful day last June a noted angler—that is, noted for his truth and veracity, living not a thousand miles from this city, started from Waverly bridge on a fishing trip. He began trolling, and being alone in the boat he had no other way of holding the line than between his teeth and that was an easy way of telling when he would get a strike. He rowed about a half mile when he had an awful strike which pulled the line between two of his teeth. The pulling of the fish and the line sawing between his teeth made the man helpless. At the end of the line there was a knot, and the man not being able to let go, the fish pulled him in the river. Down the river the man and the big monster went. He says he went so fast through the water that he could not tell the big beach trees from bushes along the river. The only thing that saved his life was a sharp bend in the river, the fish going through the water with such force that he threw the man on the bank so violently that he was whirled around a stump four times before he stopped. The man lay helpless for 2 hours. But he finally revived and tied the line around the stump to hold the fish while he gave the alarm. It took 85 strong, ably bodied men to land the monster after they had him firmly gaffed and hooked. It lowered the river so much after they had the monster out that navigation was

stopped for a whole week until a hard rain came and flooded the river. The fish could talk three languages and claimed to be one thousand years old. It will be shipped to the worlds fair in sections, one hundred flat cars having been chartered to take it there.

Circuit Court

Judge Padgham excused the jury in the August panel last Friday and started work on the non jury calendar.

William Thieleman was fined \$19.80 for violation of the liquor law. Charles Lindgren was fined \$15.80 on the same charge.

A divorce was granted to Frances McDonald from Hugh McDonald.

Attorney David F. Hutton took three decrees for divorce Saturday morning. The complainants in each of the following cases secured a decree, viz: (1) Matilda J. Stickney vs. Willard D. Stickney. Mrs. Stickney retains the custody of her little girl Hazel P. Stickney (2) Frances M. McDonald vs. Hugh McDonald. (3) Margaretta F. Harris vs. William E. Harris.

Judge Padgham also granted a decree of divorce to Clara E. Tuttle from Louis N. Tuttle. The appeal case of Alexander McKenzie against the Pere Marquette railway was settled out of court for \$42.50. The plaintiff was awarded \$50 in justice court. Court adjourned at eleven o'clock until September 15. The case of the Vander Meer and Timmer Lumber Company against the Wardens and Vestry of Grace church, Holland, will be tried at Allegan.

Gen. Joubert and Capt. O'Donnell At Chatauqua Tonight.

Tonight Gen. Joubert and Capt. O'Donnell, the noted heroes of the Boer war who are touring this country giving lectures to raise money to assist the patriots who lost their all in the struggle for independence in the Transvaal, will lecture in the big tent at Macatawa under the auspices of the Chatauqua and without a doubt the fame and the eloquence of these distinguished men will attract an audience that will tax the capacity of the tent. They will be introduced by Hon. G. J. Diekema. General Joubert was commandant at the battles of Stormburg, Magerfontein and Modder river and as a proof of his daring carries scars showing shots through his stomach, back and knee.

Capt. O'Donnell is the dashing Irish officer of the Irish brigade. He was captured 17 times and escaped 17 times.

These men will give a two hours lecture of the thrilling incidents of the war, illustrated with views from photos taken by Boers showing the camps, Spion Kop after the battle, the field of Colenso, Modder River and 45 other pictures of engagements and incidents of the war.

Of their ability as speakers the Dundee (Scotland) Telegraph says: "The world admits the bravery and daring of the Boers—and the large audience at Kinnaird Hall voted the four Generals as good talkers as fighters."

The Chatauqua program is the best ever given in this state, including as it does such talent as Nat M. Bingham Dr. D. F. Fox, Rev. Sam P. Jones, Edward P. Elliot, Hon. Wallace Bruce, Hon. John Sobleska, Col. Geo. W. Bain, Miss Jeannette Kling, Gen. Z. Sweeney, Rev. Alex. Patterson and the Schuman Lady quartet, and the management has met with fair success, although the program deserved better patronage. However, the success has been sufficient to warrant another Chatauqua next year and plans for it will be made up on a much larger scale.

Saturday night another record breaking audience is expected as Mr. Elliot will give his monologue "David Harum." Mr. Elliot made a great hit in "Christopher, Jr." Tuesday afternoon and all are anxious to hear him again.

Gen. Joubert and Capt. O'Donnell lectured to a large audience this afternoon.

A North Michigan weekly paper wakes up its delinquent subscribers in this lively fashion: "It is said that a man who squeezes a dollar never squeezes his wife. A glance at our subscription book leads us to believe that many women in this section are not having their ribs cracked. Come in and settle and show that all's right at home."

A street fakir entertained last Saturday's crowd here both afternoon and evening and incidentally gathered in between \$300 and \$400 of the people's good money, in exchange for brass jewelry, silver ware made out of tin, antiquated dictionaries and other trash. The fellow paid the village \$3 for the authority to do business and now the council has voted to put the license on such deals up to \$10 a day. —Fennville Herald.

THE MIST ON THE RIVER.

When the trees right in the foreground
Stand out clear, and green, and dark,
And the moisture hangs a-tremble
On the leaf ends, and a spark
Of red fire's in each globe
Of perfumed and crystal dew;
Then the mist is on the river,
But the sun is peeping through.

Then the mist is on the river,
And you smell a sweet perfume
Wafted up from unseen valleys
Hidden by the morning's brume,
And your soul is all impatient
Till the morning clouds shall rift,
And the sun shall coax and warm them
Till the river mists shall lift.

When the mists are on the river,
Then the morn is cool and chill,
And no bird awakes the echoes,
And the thrush sits sad and still,
And the stream, an oily ribbon,
Noiseless in the ghostly light,
Seems a scarcely stirring sleeper
Neath the blankets of the night.

When the mists are on the river,
Oh, the meadow smell is sweet!
And the dew-bedecked blossoms
Scatter jewels at your feet!
And the trees hold rainbow colors
Where the morning sun breaks through,
When the mist is on the river,
And the blooms are wet with dew!

The End of a Dream

By H. S. CANFIELD.

(Copyright, 1903, by Daily Story Pub. Co.)

JANE WARE, 30 years old; school teacher in the primary grade of Aldborough; spinster and orphan; had a dream. It was a dream of purple hues, shot with gleams of gold and suffused with the glow of roses. It abode with her for many years in both waking and sleeping hours, and she loved it dearly. This dream was of Europe.

It seemed to her that if she could stand within the shadow of the old palaces of the continent, watch the dust rise from its older roads and listen to the stranger speech about her, life would have little else to offer. The dream changed its pattern. Sometimes it held the many spires of Cologne against a blue sky; sometimes it was filled with the jagged summits of Swiss mountains; sometimes the Campagna rolled away smooth and dark before her eyes; sometimes she stood upon the Coliseum's hoary walls mid the chief relics of all mighty Rome, while the trees that grew along the broken arches waved dark in the blue midnight and the stars shone through the rents of ruin. Jane Ware knew her "Manfred," which is to say that, faded and a spinster, she had much of romance lurking beneath her flat bodice.

So, with the numerous, nameless small economies which only decent spinsters know how to practice, the turning of gowns and denial of car rides and scripping of luncheons, she saved and saved. It is strange how the clippings and shavings from a salary of even \$60 a month will grow with the years, if only the saver have the fortitude of a Spartan. She began when 20 years old—when the dream of Europe was five years old—and now at 30 she found herself the owner of 2,000 cash dollars deposited to her name in the Aldborough savings bank, concrete witness to the long wearying, but splendid

"WHEN DO YOU SAIL, MISS JANE?"

fight she had fought. It was to be given to her to realize her dream, something that comes to few of us, and she was happy.

Spring came, and with each vanishing day Europe drew nearer. Aldborough is one of those towns of 5,000 people in which everybody knows and is interested in everybody's business, so the dream of Jane Ware had been common property for a decade. It caused some merriment at first, but that ceased as the patient, meek figure plodded to its daily task and once a month stole with light step into the savings bank. Now all of the Aldborough citizens were glad because she had won her battle. The old jocular, mocking inquiry: "Going to Asia this year?" was changed to: "When do you sail, Miss Jane?" to which she answered with a pleased flush and a smile that retained its plaintive girlhood sweetness: "In June, God willing."

"For the Lord's sake, Miss Jane, said John Wright, the mayor, 'don't go personally conducted, along with a herd of other humans. You buy a ticket that entitles you to go so far and be fed three times a day, and they rush you like you were sheep bound for market. Every other traveler spots your gang as soon as it heaves in sight, and they laugh at you and make remarks about your being a cattle-car crowd. You couldn't feel worse if you were a band of convicts being led about as horrible examples. I tried it once.'"

"I shan't go that way," Jane said. "I have been saving along time, Mr. Wright, and I have money enough to spend six months there. I have my leave of absence, too. Oh, think of three months in Italy!"

In May Jane Ware's traveling outfit was bought and made. It was neat,

sufficient and inexpensive. Some Har had written a book in which he said that there was no soap in Europe, and she had laid in a supply. She put in her spare hours studying foreign languages, three at a time, and she got the French, German and Italian sadly mixed. She had not less than a hundred commissions in her note book to be executed for fellow townsmen. Mostly they were of this character: "My cousin, Fabitha Smith, went to Paris ten years ago to study art. I think she is there yet, as we have not heard of her leaving. Please call on her, and tell her that we are well."

In May—on May 18, to be exact, Paul Darcy came. He was from the office of the state superintendent of public education, and his cards bore the formidable title "Third Assistant Superintendent of Public Education." He was visiting the schools of the state and collecting data with a view to reporting how bad they were. He met all of the teachers everywhere, and made various impressions upon them. Most of the women liked him; most of the men wanted to punch his head. He was a very superior person, and his drawl rubbed the males the wrong way.

Paul Darcy was 35 years old and looked 30. He was pale, soft-voiced, with exquisite enunciation and exquisite nails. His thin, straw-hued hair was beautifully parted and brushed, and he was fascinating in a ladylike way. He spent three days in Aldborough, two of the three in the room dominated by Miss Ware. He was tremendously interested in primary education, and he talked fluently of Europe. He said that he had lived for two years on the continent.

He went back to the capital, leaving behind him an interested memory. Jane Ware thought of him with an uneasy flutter of the heart. She did not know what this meant, but the poor little heart fluttered when she thought of him and when his name was spoken unexpectedly she had a slight catch of the breath.

She knew nothing of love. She had been utterly untouched by it. She was not an unhandsome woman, but she had been too busy saving for Europe to waste time upon men. She had gone little into society, because society even in a modest way requires new clothes and new clothes cost money that should be devoted to continental travel. Any one of the chits in the high school could have told her what was the matter with her before half of her symptoms were described, but she was ignorant.

Early in June Paul Darcy came back—"to pick up some neglected data." He boarded at a private house within a block of Miss Ware's small room. He saw much of her. Indeed, he saw her every afternoon as soon as she was released for the day, and every evening. He made love in a slow, beautifully enunciated way, much as he would have recited a carefully prepared address to a board of trustees, but she found no fault with it. No one had ever made love to her. It seemed altogether noble and delicious. His straw-colored hair was never disarranged; his linen was never rumpled; he uttered fine sentiments of the school of Martin Farquhar Tupper; he was to her a knight and prince. Love poured its silvery light upon him; in it he stood transfigured, a worshipful thing, a hero.

Any listener to their conversations would have noted, between naps, that he talked a great deal about himself, but this never jarred upon Jane. What finer, nobler subject could he have found? Largely, after they became engaged, his talk was about his book, for he was an author. This book was to make him famous; this book was to make him rich; this book, once it was printed and its merits understood of a few, was to run through countless editions; there was to be a constant, ever-increasing demand for this book; it was to be translated into all modern tongues, because the nations were to realize that it was the one thing needed to their development. The name of it was "The Level of Pedagogic Motion."

It presented all the science of pedagogy so succinctly, so eloquently, so masterly that the education of the races was assured. There was a conspiracy of the publishers against it. He knew it to be a conspiracy because it was not to be supposed that ten publishing firms could be so fatuous as to fail to see its merits. The conspiracy was inspired and directed by the "text-book trust;" there could be no earthly doubt of that. Therefore he intended to publish it at his own cost, a cost certain to be returned to him a thousandfold within a year. Then he and his wife (happy blushes here!) would visit Europe together, viewing and instructing its great educational institutions. He nearly approached eloquence at this juncture. The sum needed, joined to his own resources, was \$2,000, and he hoped, by careful economy and industrious essay-writing, to amass that much in a year's time. Then wealth and position would be assured.

Jane Ware leaned forward, a faint flush tinging her thin cheeks, all of a woman's beautiful devotion and self-sacrifice in her eyes:

"Dear," she said, "I have that much; it is yours."

"But your visit to Europe!" he remonstrated, in faint protest.

"I can wait, until—until we go together."

That was two years ago. She got a chilly letter the other day. The writer was going over the pages of "The Level of Pedagogic Motion." It needed considerable emendation and amplifying; he could not say just when it would be published, he was pressed for time to attend to his business correspondence.

Employment of Students.

There are always students who are nobly trying to work their way through college, by doing chores, such as taking care of horses tending furnaces, or anything else. We also know of young women who would gladly do some household work to lessen expenses.

Any of our citizens who could furnish some employment in this way, would be very helpful to these deserving young people. Please communicate with Prof. Boers.

The regular meeting of the Missionary society of the M. E. church will be held Tuesday afternoon in the church parlors. Officers will be elected and the annual reports read. Tea will be served from 5 to 8. Price 10 cents. All are invited.

The Woman's Christian Temperance union will meet at the home of Mrs. Chafe, 215 West 12th, street this evening at 7 o'clock. Mrs. W. H. Wing will render a vocal solo; Mr. Van Hasselt a violin solo. At the Spring Lake convention of the Woman's Christian Temperance Union Aug. 26 and 27, Mrs. Benjamin, state president, announced that "We are not fighting the legalized saloon. We are law abiding citizens."

It was an eye opener to some of the members present who thought they were in duty bound to work and pray to the end that all who call themselves members of the Kingdom of Christ in our homes or in church will divorce themselves from upholding a party in government which says they are wholly and unequivocally committed to the liquor policy and to get a good revenue out of the liquor traffic.

It Is a Mistaken Idea

To give too much time to the selection of a Piano; this time could better be spent in selecting a dealer. It should not be hard to size him up by the very appearance of things; for instance, if he be disposed to depreciate his competitor, its pretty strong evidence he hasn't much to offer for himself. One may well have reason to be suspicious of a dealer who promises very much more than is promised by other dealers in a like business. Select the dealer right and the good piano follows. Look up our record. Ask any of our customers how they like the Raymond. They all agree its the finest instrument they ever saw. We can suit you in price and style. \$300 to \$425.

Blind

During Attacks Of Heart Failure. Would Appear To Be Dead.

Dr. Miles' Heart Cure Relieved and Cured.

"I have no hesitation in saying that Dr. Miles' Heart Cure is all that one can wish it to be. I was troubled with heart disease for fifteen years. I have tried many different remedies but until I tried Dr. Miles' Heart Cure I could find no relief. I was subject to headaches and had tried my Pain Pills and they were so effective I thought my Heart Cure might help me. I would have attacks at times so severe that I would be stone blind for the time being. During these spells I would be to all appearances dead. I took the medicine strictly as directed and I can truthfully say that I am completely cured. I advise all that are troubled with heart disease to take Dr. Miles' Heart Cure at once. I write this and give my name to my fellow sufferers."—S. E. Fordy, Atkinson, Nebraska.

"I first felt the effects of a weak heart in the fall of 1895. I saw an advertisement in the Sioux City paper in which a man stated his symptoms which seemed to me to indicate a trouble similar to mine. I had a soreness in the chest at times, and in my shoulder, an oppressive choking sensation in my throat and suffered from weak and hungry spells. I was truly frightened at my condition and procured six bottles of Dr. Miles' Heart Cure. Since taking my first bottle I have never been bothered by any of the old disagreeable symptoms and now am well and content. My cure permanent."—Lewis Anderson, Auburn, S. D.

TOM L. JOHNSON TO HEAD TICKET

Ohio Democrats in Convention at Columbus Nominate Him for Governor.

BRIEF SYNOPSIS OF PLATFORM ADOPTED BY THE DELEGATES

No Opposition Shown and Cleveland Man Is Named by Acclamation—Nominee Wins First Round in Contest for Seating of Delegates Assuring Him of Complete Control.

Columbus, O., Aug. 26.—Tom L. Johnson was nominated for governor by acclamation by the democrats in convention here Wednesday. After the adoption of the platform much time was devoted to supplemental resolutions regarding the proposed constitutional amendments and it was finally decided to support the one for each county to have separate representation in the legislature.

John H. Clarke, of Cleveland, prospective candidate for senator, was received with a great ovation as he took the platform to present Johnson's name for the nomination for governor.

After Mr. Clarke concluded, Judge Hagin announced that Clarke county, the home of Zimmerman, had no candidate, and Johnson was nominated by acclamation amid the wildest scenes.

Johnson then made a stirring speech of acceptance on state issues in line with the platform.

Synopsis of Platform. The platform affirms the declaration on national issues of the platform of 1902, adopted at Sandusky, renewing al-

legiance to the democratic party of the nation, and again avowing devotion to the principles of the last national platform. It condemns colonialism and imperialism, denounces trusts and trust-fostering tariffs, repudiates government monopoly, together with every other legalized monopoly and legalized privilege. "Adhering to these principles of the Kansas City platform, we repeat our condemnation of all efforts to renounce or ignore them."

While the platform contains over 4,000 paragraphs only one refers to national issues. The people are asked to determine whether all state interests are to be sacrificed for the reelection of Hanna as senator.

William Jennings Bryan, by special resolution, is invited to speak in Ohio in support of these declarations of principles.

Johnson Wins Contest. Columbus, O., Aug. 26.—The preliminary meetings of the democratic state convention were favorable to Johnson as against Zimmerman for governor. The old state committee by a vote of 14 to 7 decided all contests in favor of the Johnson men. This allowed the delegates from Cleveland to vote at the district meetings later in the evening and prevented the Cincinnati delegates from voting in the same. This assures Johnson the control of all the committees and of the convention.

Crowds Attend Opening.

Although the fighting was all over Tuesday night, the auditorium and galleries were packed long before W. J. Frey, chairman of the state central committee, called the convention to order at 10:20 a. m. Wednesday.

Before the convention assembled some of the Johnson men who are opposed to Clarke offered again to support John L. Zimmerman for senatorial endorsement, but Zimmerman would not accept.

Cheers for Johnson.

Mayor Johnson was loudly cheered as he entered the hall, accompanied by his manager, Charles P. Salen and others. After reviewing the work of the past campaign and congratulating the party on the prospects of the present canvass, Mr. Frey announced the temporary organization and introduced Hon. G. M. Saltzgeber as temporary chairman, who addressed the convention. J. H. Goetz, of Wapakoneta, was then elected and introduced as permanent chairman and addressed the convention.

The majority report on credentials for seating the Johnson delegates from Hamilton, Gallia, Miami, Ross and Seneca counties was greeted with cheers.

The vote on substituting the minority report for the majority report resulted 211 ayes, 446 nays. This was the first test in the convention on a roll call between the Johnson and the Zimmerman men. The majority report on rules with provision for the endorsement of a candidate for senator was then adopted, after which the committee on resolutions reported the platform which was adopted.

BIG YACHTS NOT DAMAGED

They Escape All Injury in Storm Off Sandy Hook.

Manager, Captain and Designer of Reliance Have Long Conference—Lipton Still Hopeful.

New York, Aug. 26.—An alleged wireless report from the yacht Erin, which is equipped with the De Forest wireless system, published in a morning paper to the effect that the Shamrock III. was seriously damaged during Tuesday's storm and that there was a possibility of Sir Thomas asking for a postponement, caused considerable excitement in yachting circles. Investigation promptly proved that the statement was without foundation. The Shamrock rode out the squall without the slightest damage, although the big anchor was dropped as an additional precaution.

There was no particular evidence at Sandy Hook of the blow except the broken bowsprit of the Giralda.

C. O. Iselin, aboard the Sunbeam, the defender's tender, said that as far as he knew there was no material damage to anyone. Mr. Iselin, Capt. Barr and Designer Herreshoff, of the Reliance, had a long conference Wednesday, but Mr. Iselin refused to say anything for publication as to its character.

Herbert C. Leeds said C. D. Mower, measurer of the New York yacht club, was expected later in the day, but it was not anticipated that any change in the sailing length of the Reliance would be found. The time allowance under which the Reliance, Constitution and Columbia have sailed in the preliminary races this year was made known Wednesday. These times have been kept secret. The Reliance allowed the Constitution 1 minute and 46 seconds and the Columbia 2 minutes and 41 seconds in all races.

By these times it is figured that the Constitution won two races from the Reliance, but the Columbia failed to score. The Reliance sustained no damage whatever in the squall.

Sir Thomas Lipton refuses to give up hope. He was very much surprised to learn for the first time that the Shamrock III. was handicapped 19 seconds at the start of Wednesday's race. "That's very bad," he said, but made no other criticism.

WILL SELECT OTHERS.

Czar Urged to Immediately Name Venezuela Arbitrators—Meeting May Be Postponed.

London, Aug. 26.—In order to have as little delay as possible in the meeting of the Venezuelan tribunal it is understood that the interested powers have urged the czar to select immediately successors as arbitrators for Prof. Matzen, of Copenhagen university, and Dr. Lardy, the Swiss minister at Paris, who declined to act because their respective countries are interested parties. As all the important states of Europe save Russia have claims against Venezuela the choice of delegates is limited to small states and to the eastern countries.

It is believed in official circles here, however, that the czar will succeed in finding jurists acceptable to the interested powers.

The Hague, Aug. 26.—It is anticipated here that the refusal of Dr. Lardy and Prof. Matzen to serve as arbitrators of the claims of the allied powers for preferential treatment in the settlement with Venezuela will necessitate a postponement of the meeting of the arbitration court, which was fixed for September 1.

JUDGE PASSES SENTENCE.

Sam Parks, Business Agent of Union, Convicted of Extortion, Must Go to Jail.

New York, Aug. 26.—Sam Parks, business agent for the Housewives' and Bridgemen's union, was sentenced Wednesday to not less than two years and six months nor more than three years and six months in Sing Sing on a charge of extortion.

Parks was convicted of extortion in having taken \$200 from Josephus Plenty, a Hoboken contractor, to call off a strike. Three other indictments on similar charges are pending against him. Parks is also under conviction for assaulting a rival labor leader, but has not yet been sentenced therefor.

Severe Electrical Storm.

St. Louis, Aug. 26.—The severe electrical storm which swept over St. Louis early Wednesday resulted in heavy property damage. Fires were started in many different portions of the city by lightning. Two freight cars on the Frisco tracks filled with matches were struck and burned. Within two hours 1.92 inches of rain fell. Sewers became clogged and streets flooded. The loss from fire and water will total many thousands of dollars. No fatalities have been reported.

Fiftieth Anniversary Celebrated.

Oshkosh, Wis., Aug. 26.—Oshkosh celebrated the semi-centennial anniversary of its incorporation as a city Wednesday. The features were a military, civic and industrial parade in which a number of Menominee Indians, headed by the son and grandson of Chief Oshkosh, marched. The city was gayly decorated.

Vessels Seized.

Yokohama, Aug. 26.—The Russian authorities have seized a number of Japanese fish-buying vessels at Kamschatkan ports on the charge of illegal trading. Twenty-eight officers of the vessels have been detained and 278 members of their crews have been repatriated.

Lima, Peru, Aug. 26.—It is reported that Dr. Isaac Alzamora will form a new cabinet.

TAFT SUCCEED SECRETARY ROOT

Latter's Election Is Formally Presented to the President Accepted.

Gen. Luke E. Wright, Present Governor of the Philippines, Will Succeed Secretary Root—The Changes Will Go Into Effect About the First of January.

Oyster B. N. Y., Aug. 26.—The resignation of Secretary of War Elihu Root will go into effect about January 1, and Judge William H. Taft, the present governor of the Philippines, will succeed him as secretary of war. Gen. Luke E. Wright, present vice governor of the island, will be made governor.

The statute that these changes will be made is already authorized.

Regarding the appointment of Gen. Wright, of Manila, President Roosevelt authorized the announcement that the post had been offered to Gen. Wright, and that he had accepted it. Gen. Wright is a life-long democrat.

Wright's Resignation.

The president spoke in terms of high praise of Gen. Wright's ability and fitness for the position of governor general. He expressed a sincere regard for him, both personally and officially. Both the president and Secretary Root regard Gen. Wright as a man of proved executive ability, his vice as a member of the Philippine commission having been of a distinguished character.

Wright's Resignation.

Secretary Root, under date of August 19, presented his resignation formally to the president and it was accepted by the president with the understanding that Mr. Root would continue as secretary of war until January 1.

Upon the official announcement of Mr. Root's resignation the president authorized the publication of the correspondence with Secretary Root. Secretary Root in his letter thanks the president for his desire to retire "as soon as practicable after the establishment of the general staff of the army and the completion of my full four years of service as secretary of war."

Loyal to Administration.

After explaining his intention of remaining secretary until his successor is chosen, which he understands will be practicable about November or December, Mr. Root says:

"I find myself on the eve of sailing for England attending the sessions of the Alaska boundary tribunal quite unable to judge in many months I shall be kept away from this country."

"I shall cry with me unabated loyalty to your administration, confidence in the sound conservatism and patriotic unselfishness of your policy and enduring gratitude for the kindness and consideration with which your friendship has honored me."

President Regrets Loss.

The president, in accepting Mr. Root's resignation, says his departure from the public service will be a great loss to the people and a personal loss to the president himself. He says also that Mr. Root's four years as secretary of war have been years of unprecedented accomplishment and success. In concluding, the president thanks the secretary for the many services he has rendered the president and his official duties.

Money Banks Suspended.

Beaumont, Texas, Aug. 21.—President Oliver of the Citizens National bank, which closed its doors Wednesday, wired the banks at Frost, Groesbeck, Barn and Hubbard City, in which he is interested, not to open their doors and all of them on Thursday suspended payment for the time being. They are involved in so far as Oliver is concerned, but are not known to be otherwise in trouble. They are all represented among the banks as having overdrafts with the Citizens bank. Mr. Oliver declines to say why he ordered his banks closed.

Fusion in Nebraska.

Columbus, Neb., Aug. 26.—The democratic state convention yesterday reaffirmed the Kansas City platform. William J. Bryan was the dominating spirit of the convention. Judge John J. Sullivan was nominated for supreme judge, and the populist candidates, W. O. Jones and E. O. Weber, were endorsed for regents of the state university.

Increase in Population.

Washington, Aug. 22.—An analysis of the returns from the census of 1900 shows that the increase of population in ten years in the United States was 20.7 per cent, which is double that of Europe and greater than that of any other country except the Argentine republic.

Only Rifle Shots.

Ottawa, Ont., Aug. 22.—The report of Capt. Dunn, of the Petrel, who chased the American boat Silver Spray, which was alleged to be fishing in Canadian waters, says that the shots fired were from an ordinary rifle. There was a ten-pounder on the boat, but it was not used.

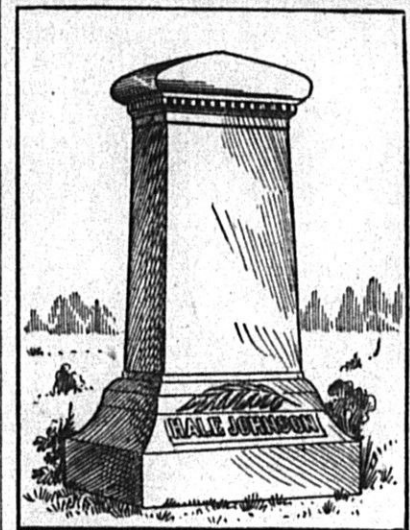

Telegraph Across Alaska.

Dawson, Alaska, Aug. 26.—The last link connecting Seattle with St. Michael's by telegraph is complete. Messages are now forwarded to Nome by mail. This marks the completion of the American government's great Alaskan land system.

MONUMENT UNVEILED.

Erected in Memory of Hale Johnson at Newton, Ill., by Prohibitionists of the Country.

Bloomington, Ill., Aug. 22.—Prohibitionists of the United States Friday unveiled at Newton, Jasper county, a magnificent monument of Barre granite to the memory of Hale Johnson, who was assassinated on election day last year. He was chairman of the prohibition state committee and national committeeman at the time, and was the vice presidential candidate on the prohibition ticket in 1896. Many states were represented. Hon. Robert H. Patton, of

DEATH OF SALISBURY.

Famous English Statesman Closes His Eventful Life at Age of 73 Years.

London, Aug. 24.—The Marquis of Salisbury, former premier of England, died at Hatfield house at 9:05 o'clock Saturday evening on the fiftieth anniversary of his first election to parliament. He was unconscious for 18 hours before he died.

Lord Salisbury was born February 13, 1830. He was second son of the second marquis of Salisbury. Known at first as Lord Robert Cecil, and after his elder brother's death, by the courtesy title of Viscount Cranborne, he succeeded his father as marquis April 12, 1866. He entered parliament in February, 1854. He held the office of secretary for India in Lord Derby's ministry from July, 1866, to March, 1867. In 1874 he entered the cabinet of Disraeli again as secretary for India. He became foreign secretary in April, 1878. He held the office of prime minister in two administrations—from June, 1885, to February, 1886, and from August, 1886, to August, 1892.

Meets All Demands.

St. Petersburg, Aug. 24.—The Russian Black Sea squadron, which was ordered to Turkish waters to support Russia's demands on the sultan growing out of the assassination of M. Rostkowski, Russian consul at Monastir, has been recalled to Sebastopol, the squadron's point of departure. The recall followed a notification from the port that the sultan had ordered all Russian demands to be complied with.

Dies for Playmate.

Sioux City, Iowa, Aug. 22.—Little four-year-old Luella Anderson, the daughter of D. M. Anderson, of Armour & Co., sacrificed her own life in saving that of her older playmate, Gladys Patten, six years old. The latter's dress was on fire when Luella patted out the flames, preventing Gladys burning to death. Luella's own garments were ignited and she died after several hours of intense agony.

Post Office Robbed.

Milwaukee, Aug. 21.—A special to the Journal from Janesville, Wis., says: The post office at Clinton, Wis., was entered by burglars Wednesday night and robbed of \$300 in cash and \$1,000 in stamps. They secured entrance with a skeleton key. The postmaster has offered a reward of \$50, in addition to the reward offered by the government, for their capture.

Congress Adjourns.

Seattle, Wash., Aug. 22.—The Trans-Mississippi congress adjourned Friday after passing resolutions favoring statehood for Oklahoma and Indian Territory combined; a territorial government for Alaska; an American merchant marine; an international fish hatchery to be established on Fraser river, and closer trade relations with Canada.

Arrive in Swarms.

Washington, Aug. 22.—Although the fiscal year ended June 30 last was the banner year of immigration in the United States, the first month of the present fiscal period broke all records in the entry of aliens through home ports. In July the number of aliens who arrived in the United States was 67,538, as against 50,782 in July of last year.

Aged Postmaster Dead.

Bloomington, Ill., Aug. 21.—Frank J. Schrieber, said to have served longer than any postmaster in the United States, died Thursday at Cruger, Woodford county, aged 77 years. Schrieber was appointed postmaster during President Buchanan's administration in 1859 and served continuously for 44 years.

Widow Hangs Herself.

Shelbyville, Ill., Aug. 22.—Mrs. Ann Garrett committed suicide by hanging herself to a rafter in a smokehouse in the rear of her dwelling at Herrick. Her husband, Henry Garrett, was killed by a falling tree a few years ago. She leaves three sons and three daughters.

VARICOCELE NERVOUS DEBILITY CURED.

If you have transgressed against the laws of nature, you must suffer. Self abuse, later excesses and private diseases have wrecked thousands of promising lives. Treat with scientific physicians and be cured. Avoid quacks. E. A. Sidney, of Toledo, says: "At the age of 14, I learned a bad habit and at 19 contracted a serious disease. I treated with a dozen doctors, who all promised to cure me. They got my money and I still had the disease. I had given up hope when a friend advised me to consult Drs. K. & K., who had cured him. Without any confidence I called on them, and Dr. Kennedy agreed to cure me or no pay. After taking the New Method Treatment for six weeks I felt like a new man. The drains ceased, wormy veins disappeared, nerves grew stronger, hair stopped falling out, urine became clear and my sexual organs vitalized. I was entirely cured by Dr. Kennedy and recommend him from the bottom of my heart."

CURIOUS CHINESE TREE

Parkman Oil for Various Uses and a Fertilizer Which Makes an Excellent Fertilizer.

About this time of the year certain provinces of China are beautiful with the white, red and speckled white and red blossoms of a curious tree that is as valuable as it is strange, says a London exchange of recent date.

It is the t'ung-tsz-shu or wu tung, the oil tree.

The oil tree furnishes an oil from its nuts, which, although it is not edible, provides material for an immense variety of uses, from that of waterproofing to building forts.

The nuts appear on the tree about a month after the flowers fall. They grow very much like figs, each fig or lobe containing two kernels or nuts. These nuts are divided into three varieties for market purposes—the yellow, the drab and the white, the latter giving the greatest quantity of oil.

The nuts are gathered in September or October and thrown in big heaps on the ground. Then grass is piled over them until they have rotted, after which it is easy to disengage the kernel from the husk.

The kernels are ground in stone mills. After grinding, the product is steamed in wooden tubs. This makes it soft and mushy and ready to squeeze.

The press with which the squeezing is done is a unique affair and has not been changed in centuries. It consists of a lot of iron hoops that are filled with the mushy ground kernels. A system of wedges is used to drive these hoops into each other, and in order to drive the wedges, great battering rams are used. They swing from the roof of the building and men pull them as far as they will go, and then let them fly at the wedges with immense force.

The oil that is squeezed out with each blow runs into a gutter and thence it is led to the proper receptacles by a series of bamboo pipes.

After the oil is out, the stuff that remains is found caked and solid from the immense pressure, and this in turn is used for fertilizers, being especially valuable for tobacco plantations.

The oil is used for a multitude of purposes. It is made into boot varnish, for it gives a beautiful gloss. For the same reason it makes a valuable furniture varnish. It also gives good light and is used to feed small furnaces for heating purposes. Umbrellas and cloths are dressed with it to make them waterproof and, mixed with soot, it makes a fine ink. This soot is obtained in an interesting way. It is produced by the burning of a peculiar grass known as the lampwick grass, because it resembles that article.

The most peculiar thing for which the t'ung or tree oil is used, however, is that of building forts and earthen trenches and walls. For this purpose it is mixed with an earth made of lime, sand and clay, and the composition forms a mixture that is almost as tough as granite.

HOW A "HAS-BEEN" LIVES.

Economical Methods of Man Who Has Fallen Into an Imperious Existence.

Seventy cents pays for a week's lodging. To eat more than twice a day is not deemed necessary, writes Owen Kildare, in Success. On Park row and the Bowery are several cellar restaurants where five cents procures a "square meal." The meals are not totally bad, and the bill of fare is quite pretentious. Pork and beans, pea soup, stew, hash and hard-boiled eggs comprise the menu, and with each item four slices of bread and a bowl of coffee are served. "Has-beens" who are out of work or who belong to the positively idle class resort to the penny soup stands, where a cup of soup, or a cup of coffee, and one slice of bread, are sold for a cent. Two meals, at five cents a day, bring the board bill up to 70 cents for the week. Subtracting this, as well as the hotel bill, from the original sum of three dollars, the "has-been" finds himself the possessor of the substantial sum of \$1.60. Free barber schools, where apprentices to the barber's trade perfect themselves, take care of a "has-been's" tonsorial effectiveness. His hair is cut and his beard shaved off for no other expense than a few occasional drops of blood or a bit of skin. His laundry work is done by himself at his lodging house. If the wardrobe needs replenishing, the old-clothes market, where sales occur daily, at Bayard and Elizabeth streets, is visited. Pieces of wearing apparel, hats, shoes and linen, not good enough to be bought by the second-hand dealers, who have first choice of the wares brought from uptown by the "old clothes" peddlers, are offered on the street corner, and are bought for a mere pittance. After a purchase, a "has-been" makes the necessary repairs, and feels a real satisfaction in his bargain.

National Museum Meteorites.
More than 300 meteorites from outer space are seen in the National museum, at Washington, their range in weight being from a few ounces to 6,000 pounds. The monster one is roughened from its surface, being melted by friction with the earth's atmosphere. One weighing 1,400 pounds is almost pure iron. Precious metals are not found in these aerial excursions, but microscopic diamonds are sometimes formed by combustion with the earth's atmosphere. They are made up from iron, nickel, sulphur, carbon, phosphorus, oxygen, calcium, magnesium, aluminum and silicon.

After the Funeral.

A Japanese Buddhist dignitary was buried a few weeks ago. The police made the following terse return of the side issues of the ceremony: "Three hundred and eleven injuries, 75 fainting, 121 thefts, 374 pickpockets captured, 1,021 articles lost. Seventy-nine people fell into creeks or ditches."

DO THEIR OWN COOKING.

There is an increasing demand for Attractive Appliances for the Kitchen.

Very attractive and handy appliances are now brought out for the amateur cook. They are of bronze, copper and silver plate, and each may be mounted on its own spirit lamp or electrical fitting, says the Chicago Inter Ocean.

"Epicureanism is on the increase, and many more people are particular as to the preparation of their food than formerly," said a household goods dealer. "Fastidious people who buy the best the markets afford in food supplies have awakened to the fact that much of their care in this regard is wasted if the cooking be unintelligently done, so we are selling more and more of these individual cooking appliances."

"Many settled people, particularly, amuse themselves by amateur cooking. The health culture propaganda has also been a stimulus to the amateur cook. Food eaten under proper conditions will obviate the need of medicines or curatives and add to physical exhilaration, good looks, etc. These theories are getting strongly impressed on the public mind, and particularly on those folks who are able to indulge themselves, to experiment in the matter and make permanent progress."

"They secure food supplies of the best grade and then seek for appliances by which they can supervise the cooking with least inconvenience, and so get the full profit of the investment. The cooking schools have tended also to make people recognize the value of delicate cookery applied to a good grade of food. Slowly but surely their maxims are being exemplified."

USE AMERICAN IDEAS.

French Crooks Copy the Tricks of Swindlers in This Country.

French swindlers, about whose methods a good deal has been written of late, are for the most part copiers of American crooks, says the New York Sun. The trick of following a woman into a store, and just as she goes to make a purchasing assuming the role of an indignant husband, taking her money away from her and getting away before she has a chance to recover from her surprise, was worked for some time in the west. It wasn't successful long here, because American women are harder-headed than their French sisters and, unlike the latter, do not assist the crooks by promptly going into hysterics or fainting when robbed.

A simple little swindle that was successful in this city for years was worked by a man and a boy. The boy would walk up the street swinging a pitcher around his head. The man standing on an opposite corner would call attention to the boy's recklessness and offer to bet \$5 or some larger amount that the boy would break the pitcher before he reached the corner. The crook rarely failed to hook a victim. Of course, just as the boy reached the corner he would break the pitcher and the crook would win the bet.

Harry Van Dusen, Guy Bradford and Henry VanZee returned today from a fishing trip to Baldwin. They caught 142 brook trout.

"McKinley won. Doc drove a great race" was the news wired from Readville, Mass., to Fred Boone after the 2:10 trot Wednesday and the message brought joy to the Holland horsemen, for all were eager to know what McKinley could do in the grand circuit and all were glad that he made good. The track was heavy, preventing the making of good time but it was a great race nevertheless. Old Roman was the favorite but never had a look in. Neither did McKinley in the first heat as he came in seventh to the consternation of the Holland contingent. But Doc touched him up in the next two heats and he won them both and the race. The best time was 2:13, the purse \$2,000.

Rev. J. T. Bergen has been extended a call by Hope church. The congregation at a meeting Wednesday night decided that Rev. Bergen be asked to assume the full pastorate. For the last four years he has filled the pulpit of the church, besides attending to his duties as professor in Hope college. The congregation wish to have him take full charge—hence the call. It is likely that Rev. Bergen will give Hope church the preference, although should he do so arrangements may be made either to have him tide over the duties of his position at the college temporarily, or to lighten his duties at the college and have him remain there permanently. This, however is all conjecture, as Mr. Bergen will not make an announcement until he has received the formal call from the consistory of the church. Rev. Bergen has had a noteworthy experience with Hope church. He has been pastor twice. First in the eighties when he was pastor for several years before he became one of the faculty of the college; second for the last four years. And now he is paid the signal honor of being extended a unanimous call. Should he accept he will be three times pastor of one church.

The figure 8, or the Roller Coaster as it is termed by those who have coasted, is in operation at Jensen Electric Park and is proving to be one of the best attractions there. It is the largest 8 of its kind in the state and a ride on it is as exhilarating as a thousand lake breezes. It is a great drawing card and will undoubtedly be worked overtime taking care of the Labor Day crowd.

The last couple of days Contractor Prange has been waiting for the rain to stop so that the sand would become dry enough to permit the laying of the pavement. It was intended that Mayor DeRoos and the members of the city council should witness the laying of the first brick and that considerably ceremony should attend it, but the rain forbade. However it is hoped that the rain will cease in time to give the sand a chance to dry so that the first brick can be laid next Monday morning. Contractor Prange says that as soon as the brick laying begins the work will progress rapidly and that by the latter part of September all of the north side of Eighth street and half of the south side will be paved.

"How would you like to be the Ice-man?" He was here yesterday from Grand Rapids with all his assistant ice-men and the brawny wrestlers of the vanishing diamonds monopolized the city. They sang with joy at the thought that they were free from Grand Rapids, even if their freedom only lasted a day, and they clinked glasses so often in honor of their freedom that they came nearly going into captivity, for Marshal Van der Haar was in evidence and the sight of his star coupled with his athletic appearance and his persuasive powers was barely sufficient to keep them in the straight and narrow path. One of them, however, came to grief. He bet five dollars with his comrades that he could break the disorderly ordinance of Holland. He did. But Deputy Marshal Brown caught him at it and hauled him before the justice court where he was assessed five dollars and costs. This showed the tourists that it was not profitable to tamper with the machinery of the law and nothing was broken after that but temperance pledges.

G. Blom the well known drayman, was severely injured Monday morning. While his team was standing in front of Al Hiddings store on the corner of Seventh and River streets, he started to jump to the sidewalk and tripped over the lines, were fastened to the dray. He fell backward striking his head on the sidewalk and hung from the lines by his knees. His weight on the lines caused the horses to back and he was in danger of being trampled to death when Mr. Hidding rushed to his aid assisted by Harry Vanden Berg, one of the life saving crew, took him from his perilous position. He was unconscious and his condition resembled death.

Mr. Hidding ran for a doctor but as none of them were in their office considerable delay was experienced in getting one. Finally Dr. Knooyhuizen was found and Mr. Blom, partially recovering consciousness, was taken to his home. His condition was serious but he is resting quite comfortably now and will recover though slowly. Dr. H. Kremers is the attending physician.

"I had a running, itching sore on my leg. Suffered tortures. Doan's Ointment took away the burning and itching instantly and quickly effected permanent cure." C. W. Lenhart, Bowling Green, O.

Holland, '6; Ionia 2.

Of course it would not seem natural if Ionia did not kick. They kicked Tuesday afternoon, but as they did not have it coming it did no good and they were defeated by Holland by a score of 6 to 2.

But Holland did not make its runs by brilliant hitting. It made them by Ionia's brilliant errors in the first two innings when six runs were gathered in. Only 3 hits were made off Paige but he let seven men go to first on balls and hit two.

Ionia made five hits and two runs and but for Shippe, who threw wild to first instead of walking to second and heading off a runner and trying for a double play, Ionia would have been minus the two runs.

Root played a fine game in left field accepting seven chances for seven put outs without a semblance of an error. Gorton made the best catch of the season. He ran up on a fly and not being able to reach it standing, slid for it and scooped it in before it touched the ground.

"Tards" Ver Schure umpired in his usual satisfactory manner. He was fair to Ionia and fair to Holland. All Holland wants is a square deal and if "Tards" umpired at Ionia during the series, there is no doubt that Holland would have won a majority of the games.

Sporting News

Grand Haven will surely be in the base ball union next year. The sports there are already laying plans for a semi-professional team.

"Kid" Luther, who pitched for the Holland club in this city recently, was married last week to Miss Verna Hanson a popular young lady of Hart.

Milwaukee Evening Wisconsin: Neal Ball, the short stop whom Owner Strobel, secured from the Michigan State league, is a most promising youngster. He is fast in covering ground, has a splendid wing and runs well. He does not appear any too strong at the bat as yet, but experience will improve in that line. It is too bad that a youngster of Ball's ability could not start out with a winning team instead of a tailender. Many a young player has been put to the bad by getting a poor start, and with a tailend club he is liable to get in the same rut with the rest of the players.

Detroit has sent its best team here, the "Detroit Wheelmen", and the Holland team will try conclusions with it this afternoon and tomorrow afternoon at 3:45. The Detroit Wheelmen is the team that has been making it interesting for Ionia of late and the locals will try and do what Ionia finds it troublesome to do.

There is considerable rivalry between the East Holland band and the new orchestra, and it is claimed that Nies has been impelled by spite and a desire to create trouble in the band to start the new organization. But the band boys are not worrying as the band is in better shape than ever before and is stronger in its present shape than when Nies was a member. Corr.
