Zeeland The Host

They came from all points of the compass yesterday to take part in Zeeland's Old Settlers celebration and all were given a hearty greeting. In honor of the event the city was elaborately decorated and the welcome sign was hanging out on every side.

CORRESPONDENCE

Zeeland.

Thursday, August 22, a missionary conference will be held in the Second Reformed church. Rev. S. M. Zwemer will preside and several missionaries and missionary agents are expected to be in attendance.

Rev. Jas. E. Moerdyke, of Bahrien, Arabia, now on his way home for a well deserved furlough, sailed from Rotterdam, Netherlands, last Saturday, August 10. He had spent a number of days in France and England and the Netherlands. He expected in Zeeland about Aug. 22.

The public drills of the Zeeland fire department are perhaps not as thrilling to the spectators now as in former years, when the big steamer drawn by the powerful team of horses of L. Bos and driven by their owner, with a roar and a rush thundered down Main street, leaving in its wake a long streamer of black smoke and flying sparks, while the urchins on the street gaped in open mouthed wonder and felt the cold chills run down their backs, or dashed down the road to see the "injun." But what the department lacks in the way of "brass buttons and dress parade," it makes up in efficiency. Monday night the company was called out to special drill and a remarkably fast run was made from the station to the corner of Central avenue and Huron. This is a distance of two ordinary city blocks and to reach it requires two turns. From the time the hose cart left the station until the firemen were playing a full force stream on the square, occupied exactly one minute. In 60 seconds a run of two blocks had been made, two lengths of hose strung out and coupled, joined to the hydrant, nozzle attached, water turned on, and an imaginary blaze extinguished several times over. All of the members of the company, however, were not so efficient when it came to coupling, and the hundreds of spectators that lined the walks had the opportunity to see what a "good soaking" looks like.—Zeeland Record.

George Meyer has purchased the outfit and stock in trade of Mrs. Hills & Son who have for some time conducted a restaurant and confectionery store in the building opposite the new bank block.

To celebrate the fourteenth wedding anniversary of the marriage of Mr. and Mrs. Leidecker a party of about 25 accompanied them to Shriver's grove where a picnic dinner was enjoyed by all.

P. H. Hancock is now engaged in rebuilding a forty-foot yacht in Holland which was partly burned last winter.

Mr. Lamoreaux of New Richmond says he has always tried to avoid traveling men who call themselves doctors but a few days ago a man came to him representing himself as being associated with Dr. Walker of Saugatuck. Mr. Lamoreaux was told to call at Dr. Walker's office in Saugatuck where he could be treated by this traveling doctor who would be in Saugatuck at Dr. Walker's office ready to do business. The quack got \$5 from Mr. Lamoreaux paid in advance which he promised to refund should he fail to effect a cure. No such man is known in Saugatuck.

DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Holland Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, its time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in Holland. Follow the advice of a Holland citizen and be cured yourself.

Mrs. Sadie Swank, of 149 River street, Holland, Mich., says: "Mr. Swank has used Doan's Kidney Pills with very best results. He slipped a short while ago and sprained his back very badly, and as a result has suffered a great deal from kidney trouble. His kidneys were very weak and he suffered from accompanying symptoms of kidney complaint. He went to a physician and took his medicine but received very little relief. A neighbor who knew of his suffering advised him to try Doan's Kidney Pills and upon his advice he procured a box. After using them a short time the trouble gradually began to disappear and he continued taking them carefully and as a result received a positive cure. We are glad to endorse Doan's Kidney Pills as a kidney remedy that acts quickly and which cures permanently."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole Agents for the United States.

FOR ONE LONELY VOTER.

Remarkable Election Held in a District in France.

A curious election took place at Les Sables, in the department of the Var, recently, when a single elector drew up the whole list of candidates and was the only one to vote. He naturally voted for his whole list, himself included. The commune contains about 500 inhabitants. Some time ago the municipal council resigned. Elections were held on November 25 last, when only four men came to vote. There was to be a second election last Sunday. The whole day passed and not a solitary voter appeared. A quarter of an hour before the legal limit of time elapsed a benevolent citizen at last appeared, drew up a list of ten candidates, including himself, and voted. A quarter of an hour later the election was declared legally valid, and the other nine candidates were duly notified of their election. They have since declined in a body to be elected by a single vote. The good natured citizen, therefore, who alone voted now constitutes by himself the town council of Les Sables. What is stranger still is that he may invoke a precedent. In fact, on a previous occasion, another citizen was also the sole voter at an election, and voted for himself, remaining legally in office for ten years. This would indicate that political activity is at a low ebb in the Var, and yet the French prime minister, M. Clemenceau, is senator for that department. Perhaps his energy makes up for the negligence of the rest.

SHERIDAN VERY MUCH ALIVE.

Good Joke Brought Off in the Days of the Regency.

The First Gentleman in Europe dictated to Sheridan a letter making fun of the grotesque appearance of a crony of the Prince's, Maj. Hanger, at a ball given in celebration of the Queen's birthday. The Major, on receipt of a letter, hastened to show it to the Prince, who insisted that only a duel a la mort could wipe out the insult. On examining the handwriting the Prince said he had no doubt at all it was Sheridan's, and the author of "The School for Scandal" was accordingly challenged. The duel was of such vindictive deadliness that it was not till three shots on either side had been interchanged, and till Sheridan fell, that the honor of the Major was satisfied. "Killed, by G—!" exclaimed Capt. Morris, in a voice of horror, and he and his principal, the Major, fled the field. Unspeakable was the relief of the remorseful Major when Sheridan turned up that night at the Prince's dinner table. "How—how—how is this?" he stammered. "I thought I had killed you!" "No, my good fellow," replied Sheridan. "I wasn't good enough to go to the world above; nor as yet quite bad enough to go to that below; therefore, I deferred my departure. But, I say, Hanger, didn't I die well?" It was then explained to the mystified Major how he had been hoaxed by the Prince, who had arranged that the pistols should be charged only with powder.

PICTURE OF CONEY ISLAND.

Penned by a Soulfull "Geezer" Who Collided with an "Argosy" of Hen Fruit.

There is a solemn hush, and all hearts await the setting off of the next piece of fireworks, relates a New York Herald writer. I am filled with a vague unrest as the first ball—one of a velvet texture—pops into the air from a Roman candle. It is of a rich sapphire hue. I give an involuntary shudder, for I am ill at ease and completely undone. In another moment a red ball, more beautiful by far than the garden's brightest rose, darts on the parabolic, and before it is quite crumbled into thinnest air a cold chill creeps over me and I instinctively button my coat. Then another ball of that lovely tone of green which reaches its highest point of perfection in a erme de menthe projects itself into the starry vistas of the perfect summer night, and I suddenly sidestep with the subtle quickness of a snake and crouch ready to spring at a moment's notice. While in this attitude and before I am aware, I notice myself silhouetted against a background of Tyrian purple light, and I duck as from a thunder bolt, until the ball which cast it has dissolved. Alas, I wring my hands and beat my breast and murmur dolefully, if not soulfully: "Woe is me." And when a large white ball, more beautiful than a full blown lily, darts into the air with fairy witchery and suddenly bursts and sends forth myriads of smaller balls of all colors in a wild, picturesque cluster, I jump behind a Rose of Sharon bush and dream painfully of that never to be forgotten night last spring when, as Hamlet out in Oshkosh, I was compelled to face an argosy of soft balled Easter eggs and so doing was caused to look most painfully like a human tulip bed in full blossom as I fled to wrap the drapery of the night about me.

PEOPLE MUST RULE DECLARES ROOSEVELT

IN PROVINCETOWN SPEECH, HE SHOWS NECESSITY OF CHECKING CRIMINAL TRUSTS.

NEEDED LEGISLATION IS CLEARLY SET FORTH

The President Makes It Plain That the Government Plans to Punish Only the Guilty—Innocent Corporations Need Have No Fear.

Provincetown, Mass., Aug. 21.—President Roosevelt delivered an address here Tuesday at the celebration in commemoration of the first landing of the pilgrims on the American continent. After he had paid a lofty tribute to the forefathers, Mr. Roosevelt turned to the question of checking corporation abuses and made it evident that there is to be no counter march in the government's attempt to punish wrongdoers, no matter what their personal and financial station in life.

There was reiteration in the chief executive's address, however, of the determination of the authorities that no legitimate business interests are to suffer and that the only ones who have cause to fear are the breakers of the law.

Innocent Will Not Suffer.

In its main points, while firm in the purposes expressed on other occasions, the president's speech was reassuring to those who have feared that in the general scheme of Mr. Roosevelt's policies the innocent might be involved with the guilty.

Mr. Roosevelt gave his direct sanction to a national incorporation law for concerns doing an interstate business, saying that it is his belief that such corporations can be controlled by the federal government under the interstate commerce clause, and, if necessary, under the post roads clause of the constitution.

An earnest word was spoken for legislation which will conserve the rights and interests of wage-earners employed by corporations engaged in interstate commerce. Mr. Roosevelt said that if the law enacted last winter limiting the hours of work of railway employees was not strong enough it must be strengthened.

For Strong Employers' Liability Law.

Declaration was made that a more far-reaching and thorough-going employers' liability law must be passed. The president said: "It is monstrous that a man or a woman who is crippled in an industry, even as the result of taking what are the necessary risks of the occupation, should be required to bear the whole burden of the loss. By making the employer liable the loss will be distributed ultimately among all the beneficiaries of the business."

Touching the matter of receiverships for trusts that are guilty of wrongdoing Mr. Roosevelt said that the desire "to do something effective," and that "moreover, when we thus take action against the wealth which works iniquity we are acting in the interest of every man of property who acts decently and fairly by his fellows, and we are strengthening the hands of those who propose fearlessly to defend property against all unjust attacks."

Disaster in Socialistic Panacea.

Concerning individualism and socialism the president said: "It will be highly disastrous if we permit ourselves to be misled by the pleas of those who see in an unrestricted individualism the all-sufficient panacea for social evils; but it will be even more disastrous to adopt the opposite panacea of any socialistic system which would destroy all individualism, which would root out the fiber of our whole citizenship."

An echo of his recent "undesirable citizen" pronouncement is to be found in this passage from Mr. Roosevelt's speech: "There is unfortunately a certain number of our fellow countrymen who seem to accept the view that unless a man can be proved guilty of some particular crime he shall be counted a good citizen, no matter how infamous the life he has led, no matter how pernicious his doctrines or his practices. This is the view announced from time to time with clamorous insistence, now by a group of predatory capitalists, now by a group of sinister anarchistic leaders and agitators."

Supervise Railways Like Banks.

In touching upon the railroads the president declared: "The national government should exercise over them a supervision and control similar to that which is now exercised over national banks. We can do this only by proceeding farther along the line marked out by recent national legislation."

Concerning the matter of national control as it might conflict with the rights of the states Mr. Roosevelt said:

"It seems to me that such questions as national sovereignty and states' rights need be treated not empirically or academically, but from the standpoint of the interests of the people as a whole. National sovereignty is to be upheld in so far as it means the sovereignty of the people used for the real and ultimate good of the people; and states' rights are to be upheld in so far as they mean the people's rights. Especially is this true in dealing with the relations of the people as a whole to the great cor-

porations which are the distinguishing feature of modern business conditions."

Mr. Roosevelt said a word concerning what might be accomplished in time in the way of making easier the path of useful combinations, but he said flatly that the day could not come before there was far more thorough control by the national government. On this matter his words were:

"Ultimately, and I hope with reasonable speed, the national government must pass laws which, while increasing the supervisory and regulatory power of the government, also permit such useful combinations as are made with absolute openness and as the representatives of the government may previously approve. But it will be possible to permit such combinations save as the second stage in a course of proceedings of which the first stage, must be the exercise of a far more complete control by the national government."

Pilgrims' Landing Is Marked.

The laying of the corner stone of the Cape Cod pilgrim monument in the presence of President Roosevelt, Gov. Guild and other distinguished guests completes the foundation of one of the most imposing structures along the Atlantic coast, commemorating the first landing within a few feet of its base, of the pilgrim fathers.

Re-embarks on Mayflower.

After the banquet the president held a reception to the fishermen in Odd Fellows Hall. He was then driven to the dock and re-embarked aboard the Mayflower at 3:45 p. m.

REPORTS ASSAULT ON FLAG.

Alleged Effort of Police Chief to Haul Down Emblem.

Washington, Aug. 21.—A brief communication touching the recent incident at Logansport, Ind., when Chief of Police Graham endeavored to compel the removal of an American flag flying from a window of a room, rented for marine corps recruiting purposes, has been received here from Lieut. Claybourne McCauley. Lieut. McCauley is in charge of recruiting work in the state of Indiana. Corporal Murtaugh was in charge of the office at Logansport, and he vigorously resisted the efforts of the chief of police to have the national emblem taken down. Lieut. McCauley incloses in his communication a large number of newspaper clippings giving graphic accounts of the incident, but he makes no extended comment on it, ascribing it to the ignorance of the police official who tried to interfere with the flying of the flag. No action is necessary in the matter by the officers here.

TAFT TALKS AT COLUMBUS.

Makes "Political Confession of Faith" Is for Tariff Revision.

Columbus, O., Aug. 21.—William secretary of war, made what he was pleased to term his "political confession of faith" at Memorial hall Monday night. Mr. Taft made no formal announcement of his presidential candidacy, but he was introduced by Gov. Harris as the next president of the United States, which was the signal for a prolonged outburst of applause.

Special interest was manifested in Secretary Taft's utterances on the tariff. He reiterated his previous declarations in favor of revision and declared that it would be both unwise and unsafe for the Republican party to fail to pledge itself to revise the Dingley bill as soon after the next presidential election as possible.

Mr. Taft also declared in favor of imprisonment of individuals for violations of the anti-trust law and for the giving or accepting of rebates.

The machine was destroyed by fire after falling 20 feet over an embankment. Charles Young, who was driving the car, has disappeared.

The party left Lancaster for Townsend's Inlet. They lost their way and were retracing the route through Pleasantville when, it is said, the chauffeur fell asleep and the machine jumped the embankment. CONNOR'S RAILWAY HIT.

Wisconsin Commission Scores Practices of Lieutenant Governor's Road.

Madison, Wis., Aug. 17.—That the practices of the Marathon County Railroad company owned by Lieut. Gov. W. D. Connor, are "unlawful, inequitable and socially and economically parasitic" is the conclusion of a decision handed down by the railroad commission Friday on a complaint lodged against the road by Nicholas Strever.

The commission found that in some cases passengers were carried free over this road and, in many cases, less than carload lots of lumber did not have to pay freight. It was also disclosed that the company did not publish a tariff schedule as is required by law.

Bridgeport, Conn., Aug. 19.—Fire swept the amusement grounds at Steeplechase Island Sunday, causing \$60,000 damage and creating something of a panic upon the 20,000 visitors. No one was seriously injured. Six structures were burned, including the grandstand and the bleachers on the base ball diamond, where 8,000 persons had gathered for the Chicago-Bridgeport game. The greater part of the loss falls upon George Tillyou, proprietor of the amusement grounds, whose Steeplechase park at Coney Island was burned a few weeks ago.

Says Bryan Won't Do,

Governor Johnson says William J. Bryan will not do as the great and peerless one in the trying times of the next presidential campaign. Johnson says he has too many isms. That's it. Bryan, bright and eloquent and talented though he may be, is too much of a rainbow chaser. He lacks balance. What we need is a man, progressive as well as bright, sound of judgment as well as eloquent, broad in statesmanship as well as talented. Bryan only comes within half of filling the bill. And that's the reason that even those in his own fold shake their heads and say no more Bryan for us. But how will Bryan feel about it? Has he enough use for his party's judgment to abide by the decision of the sound ones? Ober nit.

Boat Races on Macatawa Bay.

In the presence of hundreds of spectators, the Grand Rapids Boat and Canoe club carried off most of the honors of the regatta or dual meet here Saturday with the Chicago Rowing club. Accompanied by the Newsboys band the Grand Rapids contingent came down early in great numbers on special cars. Chicago partisans were well represented in the gathering and rivalry between the two clubs was intense.

The first event, the double shells, was won by Chicago and the seventh and last also went to them, the tilting contest. All others went to Grand Rapids. The Chicago contestants used altogether a short choppy stroke, against a longer, more even one used by the Grand Rapids boys. The latter seemed the more effective, and the victories of the Boat and canoe club men proved most popular.

Trouble arose in the four paddle canoe race from the fact that although the Chicago crews had agreed to use 16 foot canoes they brought, instead, 18 foot ones. This was compromised by their lending one of these to one of the Grand Rapids crews which proved to be the winning one.

Following is a summary of the contests:

First event, double shell, one mile two laps—Won by Chicago; Carroll, stroke; Dunn, bow. Time, 6:45. McQuewan, stroke, and Conlon, bow, was the losing team for Grand Rapids.

Second event, single shell, one mile, two laps—Godwin, Grand Rapids, won from Francis, Chicago. Time, 6:45. Thompson, of Chicago who was considered a formidable entry, failed to start.

Third event, two paddle canoe race, quarter mile—Won by Conlon and McIntyre, Grand Rapids from two Chicago crews. Time 2:17.

Fourth event, single shell, for Grand Rapids entries only—Won by Randall; Curtis, second. Dewey, third. Time for the mile, 7:04. Each of the three contestants had already won three club races.

Fifth event, four paddle canoe race, quarter mile—Won by Grand Rapids crew, in 18-foot canoe. C. Dewey, H. Dewey, Eastman and Calmer comprised the winning crew. Time, 1:51. This was contested by three Grand Rapids crews and one Chicago crew, the other two Grand Rapids crews using 16-foot canoes.

Sixth event, four oared shell, one mile, two laps—Won by Grand Rapids. Time, 5:56. The winning crew was Frank Dewey, Raiguel, Conlon, D. Dewey and McConlon, bow.

Seventh event, the tilting contest—Won by Chicago.

Members of the Boat and Canoe club are highly elated over their fine showing, and were the recipients of hearty congratulations from members of the defeated crews.

Holland Fair "Bee," All Invited.

It has certainly become a custom to hold an improvement "bee" at the Holland Fair grounds each year, and this year will be no exception as the board of directors have decided upon Monday, Aug. 26, as the date. All who wish to see the fair prosper and who are willing to contribute their services are cordially invited to report at the fair grounds at 8 o'clock in the morning. If you cannot come in the morning come in the afternoon, you will be welcome at any time. If you cannot come the officials would appreciate the presence of a substitute or would be glad to receive donations in the line of refreshments, as dinner and lunch will be served free to all who attend the "bee." A ticket office and reception hall will be built at the main entrance.

Crowning Misfortune.

There is no greater misfortune than not to be able to bear misfortune.—Latin.

What you Saw in this Paper 35 Years ago To-day.

Hon. John Roost has been awarded the job of improving for the United States harbors at Holland and Saugatuck.

The contract for building the Third Reformed Church has been let to Messrs Van Ark & Toren who are to have it raised and enclosed this season.

Master Mechanic John R. Kleijn of this city, has received the contract of building the new residence of Ex-Mayor Cappon, which is sufficient guarantee that the work will be well done.

Several new buildings are being erected on the north side, near Van Dyke & Co.'s mill, and other improvements indicate a progressive spirit which we should emulate. Shade trees are being planted, streets are being planted, streets are being laid out, and they evidently mean business on that side of the lake.

A topic of quite general conversation of late, is the beautiful (?) condition of River street. An old settler informs us that the sand has never been dryer or deeper than at present, and no efforts made to make it better, and predicts that none will be made to improve it so long as it is possible to navigate it. Our friends to the north of us can still get into the city by leaving their loads at the bridge and drive in light; but how long they will be able to do so, however, depends somewhat upon the ability for opposing public improvements.

We learn that the Board of Education of this city have secured the services of Prof G. W. Chrouh, A. M., of Grand Junction, as Superintendent of our Public Schools; also the services of his wife as assistant, at a salary of \$1,200 per year. They are both old teachers, and come to us with the highest recommendations. Schools will commence the first Monday in September next.

We learn from the New York Herald that Cornelius Gardiner, formerly a student at Hope College, graduated from the Military Academy at West Point as Second Lieutenant, and has been assigned to duty with the 19th U. S. Infantry.

Public meetings are to be held in Graafschap, Overisel, and Zeeland next week to secure subscribers to the capital stock for the Holland Iron Company. These localities have been visited and the new enterprise meets much encouragement at those points.

WHAT YOU SAW 30 YEARS AGO.

The Classes of Holland will meet in this city on the fifth day of September next. Rev. C. Vander Veen will preach the sermon.

The Saugatuck Commercial says: "Our enterprising Holland grocer C. Hoogerheide has closed his store and is moving to Holland on account of lack of trade."

Gee's Brass Band is practising again.

Mr. James C. Palmer, of Brooklyn, Conn., keeps down his potato bugs by the aid of two wing-clipped crows.

Ex-Mayor Van Landegend's new building begins to acquire a finished appearance, and will be an ornament to the city when completed.

Rev. E. Heeren, who left here in the spring of 1872, as a missionary to the East Indies, is in such poor health that he has concluded to come back to Holland.

The following are the arrivals and clearances from Saturday to Saturday.

Pursuant to call a meeting was held of the Elders of the classee of Holland, Grand River and Wisconsin, in the Ref. Church at the village of Zeeland, on Tuesday last, for the ostensible purpose of expressing their opinion about the suspension of the Theological Department of Hope College. Our inability of being present in person disables us to give a verbatim report, but our informant assures us that everything passed off quiet and in good spirit and no sharp resolutions were adopted.

A ride through the township of Zeeland to Vriesland and part of Jamestown, revealed a county truly charming. In several places you could hear the hum of the threshing machine, and at many more places the diligent farmer was plowing again. Everywhere you can see the material progress, and from every hill-top one can look for miles over cultivated fields, where twenty-five years ago a dense forest was the only thing to be seen. A brief halt at Drenthe, some refreshments at Mr. Frank Boonstra, who by the way does a nice little business, running a country store, a short visit to Mr. J. Everhard, who is doing a hardware

business, both of whom were former residents of this city, and we turned our way homeward, winding our way through the most cultivated farming region we have. Everybody seemed pleased with the crops; it is true, corn needed rain, but on the clay soil it looked well, as also the late potatoes. On the sandy soil the drouth will be more seriously felt as to the late crops. Since our visit, however, we have had copious rains.

Bathing cosets for ladies are the latest Parisian invention. They are made of a sort of lattice work, which permits the water to have free access to the body, while preserving the shape.

Dr. D. M. Gee has purchased a very fine lot on Ninth street, immediately west of the First Ref. Church, and intends to build on it.

Mr. E. J. Harrington, Jr., has taken a contract for "getting out" a few thousand cords of stove bolts for Fixter's Stave Factory. This week the first vessel load was delivered. P. De Feyter is Mr. Harrington's able lieutenant, and there is no doubt but what "Pete" will see that the contract is filled, and the factory furnished with enough bolts to keep that institution running all the fall and coming winter.

The new mill will be completed this week, the building has been painted a light drab color and looks very nicely. Last Thursday afternoon a car bearing the engine and fly wheel arrived and the millwrights are expected to commence work next week. It is safe to say that in two months the mill will be in running order, and will be known as the Standard Roller Mill, a very good name. It has been a noticeable fact, in the building of the mill, that the city of Holland has some citizens of energy and push, and we have no doubt but what the management of the Standard Roller Mill, will be an example to the business portion of this community.

At the Quarterly Conference held last Sunday at the Methodist E. Church of this city, the following persons were chosen as trustees of their Church property for one year: Ezra E. Annis, Millard S. On Tuesday afternoon the Committee enjoyed a ride on Macatawa Bay and were very emphatic in their praises of the beautiful scenery which abounds around the Bay. Dep. Co. Treasurer Van Schelven and Supervisor Schadele escorted the Committee on their rambles around this city.

We call the attention of our merchants to the fact that we have two or three columns of room for advertisements, and that while our locals chronicles the growth and prosperity of Holland the advertisements of the news should reflect the truth of our statements. We have repeatedly refused "ads" from business houses in Grand Rapids under various pleas but shall be obliged, unless the space is taken by home merchants, to allow our columns to be used for the purpose of increasing the trade of Grand Rapids business houses among our citizens. Do the merchants of Holland City want us to do that?

Handbills are out announcing the opening of the new furniture store of J. DeGraaf, on River street, one door north of H. Meyers & Son.

Sentence Day in Court.

Friday was an unlucky day for a number of convicted prisoners in the Ottawa circuit court. It was sentence day and Judge Padgham meted out the punishment which he deemed due the different prisoners brought before him.

Robert Graves, the colored young man, was the first to appear for sentence. He was originally charged with attempted criminal assault upon a Mrs. Alvira Ragland, a St. Louis negress who is working at Highland park in the family of D. A. Marks. The jury, yesterday, however, brought in a verdict of simple assault and battery. Judge Padgham sentenced Mr. Graves to sixty days in the county jail.

Charles Dykema, charged with setting a fire in the rear of John Boyink's saloon, was the second to appear before the court for sentence. Mr. Dykema pleaded guilty to the charge. When brought before the judge Friday morning he was asked if he had anything to say why sentence should not be passed upon him. Charlie told the judge that he would like to have a talk with him in private. The two went to the judge's room in the court house and after some minutes, talk returned to the court room. Judge Padgham told the young man that the crime of which he had entered a plea of guilty was a serious one before the law, and the fact that the law had placed a maximum penalty of a term of fifteen years with a fine of \$1,000 in addition showed how serious the law considered it. The judge then sentenced Mr. Dykema to the penitentiary at Jackson for a term of not less than fifteen years.

Joseph Riley, a Grd. Haven youth, was the next to be brought before the judge. Joe last Saturday broke into a dwelling at Nunica and stole a valuable watch. He pleaded guilty to the offense. Judge Padgham gave the young man a long and earnest talk this morning. Joe begged the judge to give him just one more chance. The judge in reply told him that some months before he had been before him charged with theft, and that time he had been lenient with him and had let him off on suspended sentence. He reminded Joe that he had promised to be good in the future, and furthermore told Joe that his uncle at that time had offered him a good job in his stable if he would only be honest and trustworthy. The judge told the youth that he did not care to sentence so that his twenty-first birthday would be spent behind the bars, and then sentenced him to Ionian prison for a term of not less than one year and nine months nor more than five years.

Jennie Lawrence and Guy Burton were told to appear in circuit court the first day of the November term.

Sentence was also deferred in the case against Charles Lyons, charged with assault.

Circuit Court

Circuit convened Monday afternoon, the case called the Harrison Granite Company vs. George A. Stephens et al. This case is brought here from Muskegon. It is an action to recover extra cost on the construction of a Mausoleum built by the Harrison Granite company. The plaintiffs are represented by Smith, Baldwin and Alexander and C. C. Coburn. The defendants are represented by Messrs. Hoyt, Erwin and VanderWerp. George Simpson well known here is one of the witnesses for the Granite company.

Graves Not Guilty.

Robert Graves, charged with attempted criminal assault upon Mrs. Alberta Raglan, a negress, employed in the family of D. A. Marks at Highland Park was found not guilty in circuit court. George A. Farr represented Graves and Prosecuting Attorney Coburn looked after the interests of the people.

The jury consisted of the following from the regular panel: Gerrit Brink, Georgetown; Ralph Burrell, Tallmadge; Henry Bouwens, Zeeland; Harry Chapman, Holland township; J. D. DePree, Zeeland; Thomas Carter, Wright; John A. Gilbert, Chester; George A. Klemk, Grand Haven township; Martin Martine, Blendon; John Sheridan, Allegedale; Wm. D. Wells, Wright; August Zimmerman, Grand Haven city.

The complainant in the case, Mrs. Raglan, told a very straight story.

Bob Graves went on the stand in his own behalf and he made a very good witness. He said that he had accompanied the woman home that night and admitted making improper propositions to her but denied strenuously that he had used force upon the woman. The story Bob told seemed to make an impression upon the jury.

Postmaster Fred A. Huty and S. L. Munroe testified to the good character of the colored young man.

THE WATCH CAME BACK.

Luck of a Man Who Met a Pickpocket in Park Row.

"Having his watch stolen from him and offered for sale back to him in an hour was what happened to a friend of mine the other day when crowds gathered at the newspaper bulletin boards waiting for news of the Thaw jury," said a citizen to a New York Sun reporter. "It happened this way: 'An old friend of mine was stand-ing among others waiting for news of the Thaw jury when suddenly he felt a twitch at his watch pocket and his watch was gone. Not being sure of his ground he kept his loss to himself and walked away from the crowd. 'After transacting a little business in the neighborhood he turned toward home. Remembering that he needed a drink he stepped into a saloon. 'He was in the midst of his story, telling the sympathetic bartender of his experience, with his back to the door, when a voice back of him broke into the conversation, ordered a drink and asked the drink mixer if he had any use for a watch, mentioning the fact that there was one to be had cheap. 'The bartender, having my friend in mind, asked to see the watch and turned it over to my friend, who im-mediately recognized it as his. Turn-ing around he inquired how much he asked for the timepiece. The thief recognized his late victim and made a bolt for the door, taking good care to leave the watch behind. 'Now being of a peaceful disposi-tion my friend let the matter go at that. Can you beat it?'"

ALMOST TOO HONEST.

Methodist Preacher Sends Back Part of Damage Money He Did Not Use.

"Yes," said the railway claims agent, "we come across queer things sometimes. The queerest thing in my experience was the case of a Methodist minister. How honest those Meth-odists are—the most honest of all sects."

"This man was hurt in a rear-end collision, and we gave him \$5,000 damages. At the end of a year we got a letter from him that ran something like this:

"My salary is \$2,000, and the ac-cident caused me to lose it for a twelvemonth. My medical expenses were \$750. My board at a mountain sanatorium for six months was \$850. Other expenses due to this accident were, in round numbers, \$1,000. Total, \$4,600. You gave me \$5,000. Now I am back in the pulpit again, as well and strong as ever, and I have \$400 of your money on my hands. Not being entitled to that sum, I do what any other Methodist minister would do in my place—I return the money to you as per check enclosed."

"How was that for honesty?" said the claims agent. "The Methodists are a wonderful lot. We sent the \$400 back to this honest minister, and he gave it to charity in our name."

Gas Franchise.

Aldermen Stephan, Prakken and Van Oort composing the committee of the council appointed by Mayor Van Putten to confer with the Holland City Gas company relative to changes in the franchise of the company went to GrandRapi last Thursday and were in conference with Secretary, Brewer and Attorney Thornton in evening. At this time the representatives of the com-pany placed before the aldermen their desired changes and discussed at length the reasons for these changes. The representatives of the city refused to commit themselves to anything leaving all the talking to be done by the representatives of the company. This week another conference will be held in Holland and the people in-terested will be invited to attend. At that time the city's representatives may be a bit more active in the talk line than they were that night.

The changes asked by the company are interesting in view of the fact that the franchise was granted at a time when Holland had a great amount of municipal ownership sentiment and that even the stringent regulations laid down in the franchise did not meet with the approval of many who insisted the city should own the plant. The changes asked by the company follow briefly:

In section 8 the present franchise provides that the company must provide free of charge to the property owners service pipes to the inside of the building at a point nearest the street and that long as persons pay for 500 cubic feet of gas a month the meters cannot be removed.

The company wants this section changed to provide that it shall extend service pipes to a point of 60 feet inside the property lines and that any further extension of the pipe must be paid for at cost by the property owner. That company shall not be required to provide a meter or service pipe except when the consumer shall sign an agreement to use gas. The clause relating to the inability of the company to remove meters is omitted.

Section 9 is the one the company is particularly anxious to have altered and is the section which is most likely to become the issue of the struggle.

This section provides for the sliding scale. The maximum charge for gas shall be \$1.00 per 1,000 cubic feet subject to a discount of 5 per cent if the oil is paid on or before the 15th of the month. When the total consumption amounts to 25,000,000 cubic feet annually the discount shall be ten per cent. When the consumption amounts to 50,000,000 cubic feet a year the discount shall be 20 per cent and when the consumption amounts to 100,000,000 cubic feet the discount shall be 25 per cent thus making the ultimate rate for gas in Holland 75 cents per thousand.

This section further provides that in case the company at any time reduces the rate of gas to any consumer that rate must immediately go into force all over the city and remain so for a period of five years after which if the company desires it may again raise the rates to those provided in the first paragraph of this section.

This is the section to which particu-lar exception is taken. The company's proposal covering it, cuts out the sliding scale and all of that portion of the section providing for the five year low rate upon the cut to one consumer. The company proposes that the maximum rate shall be \$1.00 subject to a 5 per cent discount when bills are paid on or before the 15th of the month and that a maximum charge of 50 cents per thousand shall be made to each consumer if the bill does not amount to that much.

In lieu of these changes in this section the company proposes to pay to the city a franchise fee to be mutually agreed upon by the parties.

Section 10 is the present franchise provides for data of rendering of bills and places restrictions upon the com-pany relative to taking out of meters. It provides that the gas may be cut off if the bill remains unpaid for ten days after it is due but that no meter shall be removed without a 30 days written notice and then a 24 hour notice before the removal is actually performed and only between the hours of 8 a. m. and 2 p. m.

All of this the company desires to strike from the franchise.

In this same section the quality of gas is specified and the company would change this. The present franchise provides that illuminating gas must be of 18 candle power and containing not less than 650 British Thermal units.

The company would make the quality of gas 16 candle power to contain not less than 600 British Thermal units at a pressure of 14.7 tenths pounds per square inch and a temperature of 60 degrees Fahrenheit. Gas not to ex-ceed 20 grains of ammonia per hundred cubic feet, no sulphur and hydrogen and to have a pressure of not less than 11 nor more than 5 inches measured in a water gauge.

Section eleven of the franchise which provides for the inspection and testing of meters the company desires omitted and placed in a separate ordinance.

Section 12 the company then prop-oses to make section 11 of the new ordinance.

In the section providing for the con-struction of the plant and the laying of the mains which was necessary in the original grant these provisions are stricken out as they have already been complied with.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ in the body. Guaranteed by Walsh Drug Co. Druggists, 50c.

"Everybody Should Know."

says C. G. Hays, a prominent business man of Bluff, Mo., that Bucken's Arnica Salve is the quickest and surest healing salve ever applied to a sore, burn or wound, or to a case of piles. I've used it and now what I'm talking about." Guaranteed by Walsh Drug Co. Druggists, 25c.

Heartless Flirt.

Snobbishness in France.

A correspondent of the London Westminster Gazette says: "There are in France some 45,000 persons who use titles of nobility, of whom only 435 families have any moral right to them."

SEES NO LOGICAL REASON FOR WORRY

LESLIE M. SHAW TALKS ON FINANCIAL AND INDUSTRIAL CONDITIONS.

Sources of the People's Wealth Safe—Former Secretary of Treasury, However, Intimates That a Period of Depression Is at Hand.

New York, Aug. 19.—Leslie M. Shaw, former secretary of the treasury, authorized the following interview on the present financial and industrial conditions Sunday:

"Our farms produce more than \$6,500,000,000 per annum, and the prospect is good for an average crop. Our mines yield more than \$1,500,000,000 and our forests more than \$1,000,000,000, and neither of these sources of wealth has been exhausted. The output of our factories, in other than food products, is \$12,000,000,000, and no fires have been extinguished. The railways earn more than \$2,000,000,000 and they are all in successful operation. The pay rolls of our factories and railways aggregate approximately \$3,500,000,000, and the scale of wages has not been reduced.

"In other words, the real sources of the people's wealth have not yet been affected, and the ability of industrial concerns to pay dividends is not measured by the market price of their stocks. Logical reasons for serious conditions are therefore wanting. Psychological reasons are never wanting. The Expected Will Happen.

"If I judge correctly, the people will have exactly what they expect. If those who have money in the banks withdraw it and lock it up; if the banks refuse to grant accommodations, and if the consuming public decline to place orders, then we will very soon witness the effects. Let these who think that times of disaster follow each other at regular intervals bear in mind that this country never yet experienced a period of severe depression that was not traceable to financial or economic agitation or legislation, and usually to both.

"In 1893 the redemption of greenbacks in silver instead of gold was openly advocated; the party in power was under promise to remove the protective tariff from industries, and the free coinage of silver at the ratio of 16 to 1 was championed by prominent members of both parties. The country might have survived any one of these sources of alarm, but it could not survive all three.

Going Too Fast a Gait.

"At this time no one questions our financial system and the tariff will not be touched for at least 18 months.

"Some check in the speed at which we are going is most desirable, and the checking process has probably begun. It will require a fair measure of confidence and courage to prevent undue retardment in our industries. Capital cannot be forced into activity, but it can be forced out of activity. I have never seen the time when universal sanity was more essential to our well being."

VENEZUELA IS INVADED.

Force from British Guiana Crosses Boundary and Seizes Balata.

Georgetown, British Guiana, Aug. 19.—Much excitement has been caused here by the invasion of Venezuelan territory by Capt. Calder in the command of a small frontier force from British Guiana, and his seizure of a quantity of balata (the gum of the bullet-tree, used for insulating wires, etc.) which it is alleged had been collected on British territory.

Capt. Calder's force went down the Barima river and crossed the boundary into Venezuelan territory, where Capt. Calder, at the point of a revolver, demanded that the Venezuelan commissioner surrender to him 4,000 pounds of balata. The commissioner gave up the gum. He has made a protest, however, to President Castro and the British consul here against the seizure of the balata and the invasion of Venezuelan territory. Fears are entertained of retaliation at headquarters. There has been much trouble over the balata trade for some time and the British officials have made strong attempts to prevent illicit trading in the gum.

He had a national reputation as a forestry expert. Prof. Bogue was 42 years old and before coming here was professor of botany in Oklahoma university. He leaves a widow and adopted daughter.

PRESIDENT SMALL ISSUES A BULLETIN URGING ADOPTION OF THIS COURSE.

Leased-Wire Men Out—Operators Strike in Six Chicago Brokerage Houses—American Federation of Labor Peace Committee.

Chicago, Aug. 20.—The governments of the United States and Canada were urged to take over the control of the telegraph lines of the Western Union and Postal companies by President Small of the commercial telegraphers in a bulletin issued Monday.

Mr. Small also started a campaign for a congressional investigation into the conduct of the companies.

Coincidentally with the sending out of this bulletin the action of Saturday in determining to call out the cable operators was countermanded by secret instructions which were sent out to these operators, telling them not to join the strike. President Small wishes to avoid possible international complications.

Leased-Wire Men Out.

The leased-wire telegraph operators were called out on strike at 1 p. m. Monday in the following brokers' offices, following refusal of the firms to sign the proposed union agreement: Sidney C. Federation Peace Committee.

Washington, Aug. 20.—President Samuel Gompers of the American Federation of Labor reported to the executive council of the Federation that he, John Mitchell, of Indianapolis, and Daniel J. Keefe, of Detroit, had been entrusted by union labor with an attempt to bring about "an honorable adjustment of the telegraphers' strike at an opportune time."

Mr. Gompers was asked when he thought that time would arrive and replied that he could not say; that it might be "in an hour, a week, or a month, or perhaps not at all."

Both Sides Confident.

Chicago, Aug. 19.—Strikers and employers both were claiming victory Sunday—the tenth day of the tieup of the commercial telegraph lines of the country.

The unionists, after preparing to "shut off" the continent from communication by cable with the rest of the world, starting with Havana, declared the tieup in the west and south was complete.

President Sylvester J. Small, of the International Commercial Telegraphers' union, said that everything pointed to "a short, decisive fight with all the honors with the strikers."

At the same time he continued his preparations for a struggle that would last at least two months. He addressed the Chicago Federation of Labor Sunday afternoon, making his first appeal for funds to the organized labor of the country.

The Western Union Telegraph company asserted that in the western district, comprising all the country from the western Pennsylvania line to Salt Lake City and from Canada to the gulf—considerably more than half the United States—it had gained 167 operators and lost only seven since President Small issued his general strike order.

Stone Calls for a Conference.

One interesting development was the action of Melville E. Stone, general manager of the Associated Press, in calling on 20 of the striking operators in the eastern circuit of the "A. P." for a conference in New York to discuss differences.

This is not regarded as precisely a peace move, for the striking operators of the south and west circuits, including Chicago, wired to their brethren

of the east protesting against their meeting Mr. Stone, unless all the "A. P." strikers are to be represented.

It is feared by the strikers that the eastern men are lukewarm as to the strike and that Mr. Stone will endeavor to bring them over to returning to work with the others still out.

Latest Developments.

The latest important developments in the strike are:

Twelve operators at Havana struck, the first of the 100 operators stationed at San Francisco, Banskfield, B. C.; Galveston, Key West, New York city, Halifax, Canso, Nova Scotia; Hearts Content, Nova Scotia; Tampa and St. Johns, Newfoundland.

At Morris & Co.'s Chicago plant six men walked out when the company refused to sign the scale for a minimum wage of \$30 a week. Swift & Co. and Schwarzschild & Sulzberger have union contracts.

Women telegraphers sent a memorial to Miss Helen Gould, setting forth their grievances.

Slow to Respond to Order.

Chicago, Aug. 17.—President S. J. Small's order for a general strike of commercial telegraphers, issued early Friday morning, did not seem to meet with the response the union officials had expected. In Chicago the additions to the strikers' forces were few, and in New York the order had little apparent effect on the situation.

Friday afternoon the operators employed by the Chicago brokerage firm of Hulburd, Warren & Chandler struck, and word was received that the wire men of three of the biggest brokerage houses in St. Louis had walked out.

Why Brokers' Men Are Slow.

The delay of the Chicago operators in brokers' offices was explained by the men themselves, several of whom were interviewed while at their work, by saying that the brokers who had not already signed the union agreement were expected to before night. Word came from New York that all of the principal brokers there had "signed up." In Chicago the firm of Finley, Barrel & Co. was added to the list of those that have signed the new agreement demanded by the operators. The operators of that firm are said to have threatened to strike when they first reported for work Friday, but the trouble was averted.

At the offices of the Standard Oil company it was said the leased wire men were all working as usual. The manager in charge of the telegraph department declined to say whether there was a union contract.

There was not much surprise among the strikers that the order had little effect at the stockyards, for the union leaders admit that the men in the plants, except those that struck at the plants of Armour & Co., are not well organized.

May Arbitrate Later.

A conference between Small and President Samuel Gompers of the American Federation of Labor resulted in a renewal of the arbitration talk that grew unpopular with the Chicago strikers earlier this week. President Small said he would accept the offices of the general board of arbitration of the federation.

Clash in the Pottery Trade.

New York, Aug. 20.—A meeting of vast importance to the pottery trade was held in the Hotel Astor here, when the manufacturers met the operators and discussed the demands of the employees for an increase in wages. The men demanded increases in wages ranging from 10 to 20 per cent. and other concessions, which, the manufacturers had said could not be granted. The situation is said to be critical.

Bloodhounds Run Down Tramp.

Youngstown, O., Aug. 20.—A tramp who attacked Alma Whitehead, the 14-year-old daughter of Rev. J. M. Whitehead of Turnersville, Pa., Saturday night, was run down by bloodhounds from Warren, O., and captured in a swamp near Wick, Ashtabula county. He was taken to the Meadville (Pa.) jail.

BIG SUIT STARTED AGAINST UNIONISM

J. W. VAN CLEAVE SEEKS TO ENJOIN USE OF THE BOYCOTT AND "UNFAIR" LIST.

Considered Test Case—Gompers, Mitchell and Many Other Labor Leaders Are Defendants in Action Begun at Washington.

Washington, Aug. 20.—A significant legal action was begun in the supreme court of the District of Columbia Monday by James W. Van Cleave, president of the National Association of Manufacturers, to enjoin Samuel Gompers, John Mitchell and other officers of the American Federation of Labor, and several of its subsidiary organizations, from using the boycott and so-called "unfair list."

Mr. Van Cleave institutes the suit in his individual capacity as head of a large manufacturing company in St. Louis, whose products are alleged to have been declared unfair by labor unions, but the significance of the action lies in its being a test case where in Mr. Van Cleave, as head of the Manufacturers' association, seeks to permanently enjoin organized labor from using the "unfair" or the "we don't patronize" lists in its fight against firms and individuals. The papers were filed here in order that personal service might be immediately obtained against a large number of the labor leaders named in the complaint who are in Washington in attendance upon a general conference.

Defendants in the Case.

The bill asks for a permanent injunction against Samuel Gompers and Frank Morrison, of Washington; John V. Lennon, of Bloomington, Ill.; James Duncan, of Quincy, Mass.; John Mitchell, of Indianapolis; James O'Connell, of Washington; Max Morris, of Denver; James A. Hayes, of Philadelphia; Daniel J. Keefe, of Detroit; William D. Huber, of Indianapolis; Joseph F. Valentine, of Cincinnati, all of the American Federation of Labor; also R. L. Thixton, C. O. Buckingham, H. C. Poppe, A. J. Cooper, and E. L. Hickman, as individuals and as officers of the Electrotypes Molders and Finishers' union No. 17 and members of the International Stereotypers' and Electrotypers' union. The complainant is the Bucks Stove & Range company, of St. Louis.

The plaintiff asks that the defendants be enjoined on nine special points, first alleging a conspiracy unlawfully to injure its business.

Uses Power to Destroy Business.

The complainant then goes on to state that the American Federation of Labor has repeatedly declared boycotts against the business and products of the customers of numerous individuals and concerns and has actively prosecuted them by using its combined power for that purpose to wage destructive attacks upon any person or business "under its ban," and that this power is now being directed maliciously against the business of the plaintiff.

The sweeping nature of this action is indicated by a partial list of national and international unions and state federations that will be directly affected if the injunction is granted, which includes 173 names of organizations.

Tom, the Wanderer.

Tom N. Robinson, the Holland high school graduate who is making a record walk across the state in the interests of the Detroit state fair, is up against a pretty hard game, but in spite of drawbacks he is well within the schedule as the "News" goes to press and in spite of odds bids fair to succeed.

He made Grand Rapids strictly on time, covering 32 miles the first day out, and reported at the interurban depot a little the worse for wear but full of ginger. Caledonia was easy money the next day, and then came Hasting Charlotte and intervening towns.

Bad roads, rain and murky weather impeded the progress of Tom the Wanderer; before Lansing was reached and he straggled into the capital city 6 miles to the bad on his schedule. He broke in a new pair of shoes and got a bum heel for his pains, but a liberal supply of footase has relieved somewhat. Six miles before he reached Lansing night overtook him and he knocked at the door of Mrs. Stieffle, a widow with six children. She thought he was a tramp and at first refused to admit him, but when he found he was the state fair wanderer she bade him a cordial welcome and he was given a warm supper and the best feather bed in the house. The small children looked Tom over very carefully wishing to have his picture well in memory in the hope that they might win the pony and cart offered to the first child that identifies him on Children's day at the state fair.

This has been the wanderer's experience all along. The children coax the grown people to take snap shots of him so that they might be able to recognize him at the proper time. A fusillade of cameras has been Tom's experience sure enough.

All along the road the candidate for entrance to the U. of M. has been the recipient of good treatment. The rural route carries offer him many a lift in the hope that they might capture the \$50 offered to the person who catches him riding; the farmers offer him meals; the girls give him smiles; the officers offer him protection, and so it goes. All treat him well but the dogs, and Tom's smile will win them in the end.

The worst of the journey is to come but if grit counts Tom will win his way to the precincts of the U. of M.

Sudden Death of Edward A. Van DerVeen.

Tuesday morning the community was shocked by news of the sudden death of Edward A. Van derVeen, proprietor of the Boston restaurant on Eighth street. Mr. Van der Veen intended to go to Grand Rapids and was in the back part of the restaurant when the car started. He ran to catch it but failed and as he stepped upon the sidewalk to return he was attacked by a severe hemorrhage of the lungs. He entered his place and Dr. D. G. Cook was called. He failed to rally under treatment and death came in a few moments. For a number of years Mr. Vander Veen suffered from weak lungs and he has taken trips to Colorado and Texas for his health. Of late he seemed to be getting along quite well and great surprise was expressed at his sudden death. He was a son of E. Vander Veen, one of the early pioneers of this locality, and the family has received the sincere sympathy of all.

Besides his wife and one child Mr. VanderVeen is survived by his father, four brothers, Jacob and E. D. of Grand Rapids, E. A. of Detroit; and John A. Vander Veen of this city; and three sisters, Mrs. J. J. Van Zanten, of Beaverdam; Miss Cornelia Vander Veen, and Mrs. Will Boyd of Holland.

The funeral services will be held Friday afternoon at the family residence, 23 East Ninth street. Dr. G. H. Dubbink and Prof. John M. Vander Meulen will officiate.
