Accident Occurs Sunday Morning West of Allendale

Michigan Counts Up
17 Accidental Deaths;
Drownings Claim Four

GRAND HAVEN (Special) — Two persons were killed and five others injured in a head-on collision of two cars at 1:45 a.m. Sunday on M-50 about 2 1/2 miles west of Allendale.

They were the 13th and 14th traffic deaths in Ottawa County so far this year.

The dead are Albert Yonkers, Jr., 24, of 307 Ann St., Grand Rapids, who died of a skull fracture enroute to Butterworth Hospital, and Susan H. Little, 21 of 108 Maple St., Vicksburg, Mich., who was riding in the front seat with Yonkers.

Both cars were demolished in the crash.

Gerald Bernard Lundeen, 17, of 612 Ave Rd. Muskegon, driver of a '46 model which was said to be on the wrong side of the road, was in serious condition Monday at Butterworth Hospital. At first he was believed only slightly injured with a cut on his throat and face laceration, but he collapsed enroute to the hospital and underwent emergency surgery Sunday afternoon for a ruptured spleen and a punctured liver.

Others injured, all of whom were riding in the back seat of Yonkers' car are:

Sonja Kingsley, 21, of 5840 Ridge, Chicago, Ill., employed in Grand Rapids, lacerations of the face, fractured left shoulder and possible fractures of right and left arms.

Miss Karn Hagstrum, 22, of 941 Pine Crest, Grand Rapids, head lacerations, fractured right leg and possible skull fracture.

Marion Cohn, 19, of 238 Carroll, Grand Rapids, shock.

Charles Robert Evenson, Jr., 23, of 2760 Littlefield, Grand Rapids, left arm fracture and lacerations of right knee.

Cohn and Evenson were taken to St. Mary's Hospital and the others to Butterworth. Four ambulances responded from Grand Haven, Coopersville, Allendale and Grandville. Two wreckers also were called.

There was no explanation why Lundeen was on the wrong side of the road, and no indication that his car had a blowout. Deputies James Brooke and Bernard Gryzen investigated the accident.

The Ottawa County accident boosted the Michigan weekend accident toll to 17 including 13 in traffic and four drownings. One drowning was at Grand Haven.

James Cury, 19, Oxford, drowned in Barr Lake when his sailboat capsized.

Two other teenagers drowned while swimming. Jerry McIntyre, 16, Lincoln Park, failed to make it to shore in Oxford Lake and Patricia Ott, 14, Grand Rapids, drowned in Lake Michigan off Grand Haven.

Picnic Scheduled For Zeeland Loop

ZEELAND (Special)—A gala picnic for players, managers and sponsors of the Zeeland Junior Softball League is scheduled for Lawrence St. City Park 6:30 p.m. Monday.

Honored guests will be members of the Lokers-Allen squad that copped the league title in a double elimination tournament. The squad is managed by Max De Jonge, who also won the most valuable player award for his team in the playoffs.

Ron Volkens of Bon Ton-De Pree copped the award for his team.

Five teams competed this season, including Nies-Gambles, managed by Dex Keller, Pikaart-De Bruyn with Lee Vanden Bosch and Jason Shoemaker, and State Bank-Van Eenennaam, headed by Harvey Combs.

Cal Burns was in charge of the runnerup Bon Ton-De Pree squad. Each team played eight games.

Hotdogs and pop will be on the menu for the picnic, followed by games. Pete Woltuis, John Bosch and Larry Veldheer head the committee in charge of the event.

Released on Bond

GRAND HAVEN (Special) — Ricardo (Richard) G. Ybanez, 24, San Antonio, Tex., who will be arraigned Aug. 31 in Circuit Court on a negligent homicide charge, was released on \$250 bond Tuesday. The bond, originally set at \$500, was reduced upon motion by Ybanez, attorney. The charge resulted from a fatal accident Aug. 14 at the junction of US-31 and M-50 in which Atlano Solis Saucedo, 42, Santiago, Mexico, a passenger in the Ybanez car, was killed.

Charles Stewart of Fort Wayne, Ind., driver of the other car, received a punctured lung, broken collarbone and head injuries.

Heights Endorses Plan

MUSKEGON HEIGHTS — The Greater Muskegon Chamber of Commerce program calling for establishment of a port commission here with a full-time director received the unqualified support of the Muskegon Heights City Council Monday night.

A. W. SHERER, JR.

Speaker Urges Calm Approach To World Crisis

"I would much prefer tension to war."

With these simple words A. W. Sherer, Jr., young State Department foreign service employee stated the case for a limited optimism despite the current world crisis.

Speaking before a regular meeting of Holland Rotary Club at Castle Park, Sherer, resorting with his parents at the Park, outlined problems facing American foreign policy in eastern Europe.

Sherer used normal diplomatic methods as a contrast to working in Soviet dominated satellites to illustrate happenings in those iron curtain countries.

"In most missions, we feel free to collaborate with officials of that nation in drawing up reports on economic progress or things of that nature," he said.

"But in the satellites these things are total secrets," he pointed out. Foreign service workers can't talk to ordinary persons, and "members of the secret police are constantly on watch."

Drawing upon experience from a Rumanian tour and term on the Balkan area desk in Washington, Sherer expressed a personal opinion that people in the satellites are "praying that the United States will liberate them."

But, using a description of the political and economic organization of these nations, Sherer was quick to emphasize that "it is all but impossible for them to revolt by themselves."

"These people would welcome a World War as a chance to be liberated," said Sherer.

As a long range goal of American foreign policy Sherer urged continuation of a powerful military force. Emphasizing that he didn't believe in reliance on these factors alone, he made clear that "Russia won't start any war she doesn't believe she can win."

"Thus, if we relax our efforts, I would expect war," he said.

The problem is to deal with Russian efforts and methods. "We are rapidly learning 'Cold War' techniques," he added.

Sherer urged that another factor in American policy be the United Nations. "Russia isn't being deterred by the United Nations," he said, "but as an idealist I can only believe in supporting such an organization and aiding its development for the future."

Most of Sherer's short talk was guided by questions from Rotarians, although he spent a short time explaining the organization and duties of the foreign service.

Sherer, currently preparing himself for a Czechoslovakian assignment, is a Yale University and Harvard Law School graduate as well as Air Force veteran. He entered the foreign service in 1946.

R. C. Bosch introduced the speaker and Larry Wade presided.

Deputies Arrest Breakin Suspects Following Tip

GRAND HAVEN (Special) — The alertness of a Hudsonville youth led police to the arrest of two Grand Rapids teenagers early this morning as burglary suspects.

Ottawa County Deputies today said Donald Harley, 18, and Dennis Engleman, 17, both of Grand Rapids have admitted burglarizing Ron's Flower Shop in Zeeland and the Celery Center Cafe on Chicago Dr., in Hudsonville.

The cafe breakin led to the youths' arrest. Darrell Meinema of Hudsonville, parked nearby, saw two persons entering the cafe through a back door at about 1:45 a.m. today.

He noted the make, model, color and license number of the car and called the sheriff's department. A radio broadcast was relayed to all police cars in Ottawa and Kent counties.

Roadblocks were immediately set up at the outskirts of Holland, Zeeland, Grandville and Grand Rapids. A short while later the car was spotted by Grand Rapids police.

Police gave chase and arrested the two youths on Palace St. in Grand Rapids a few blocks from where Harley lived. The two were turned over to Ottawa County deputies who took them to the county jail.

Deputies said a few dollars in change was taken from the cafe and approximately \$7 in bills and three dollars in change from the flower shop.

Deputies praised Meinema for his alertness and excellent description of the car which led them to a quick arrest of the burglary suspects.

Fire Destroys Allendale Barn

GRAND HAVEN (Special) — Fire of undetermined origin totally destroyed a barn with all its contents belonging to Glenn Ten Brink in Allendale Township Wednesday night.

The fire was first noticed at 9:30 p.m. Allendale and Olive-Blendon Township fire departments responded but it was not until 11:30 p.m. that the fire was under control.

Meanwhile, traffic was tied up and firemen were hampered in getting water to the barn which housed 50 tons of baled hay, 150 hens, four hogs, 150 bushels of oats and 125 bushels of rye. No estimate of loss was given.

Sheriff's deputies directed traffic. Laws provide penalties for offenders who block traffic during a fire.

Transfer Students Urged to Enroll Early

Students transferring from other high schools to Holland High School are urged to contact senior high school officials before the opening day of school so that they may be assigned to classes. In most cases, records must be obtained from other schools before students can be assigned here, and delays in enrollment can be overcome by early registration.

The senior high school office is open daily from 8:30 a.m. to 5 p.m. to accommodate new students.

This early registration applies only to those students who are not now enrolled with the Holland public schools and will be entering the senior high school this fall.

Civil Defense Emergency Staff Named for County

Adjacent Communities
Would Send Persons
To Ottawa in Attack

Although Ottawa County has not been cited as a target area in case of war, civilians from adjacent communities are expected to be evacuated here and county social workers and social agencies are taking an active part in preparing and organizing civil defense forces to feed, house, clothe, give financial aid, personal counsel, help evacuate and reunite persons who need such services.

The task of appointing persons to act as deputy and assistant directors in the major positions has been completed. Mrs. Marguerite Hadden, county director of Civil Defense Emergency Welfare, announced today.

Mrs. Hadden, who also is the county supervisor of the Bureau of Social Aid, will be assisted by James Van Volkenberg as deputy director. Van Volkenberg knows county resources through his many years with the Welfare Department.

Registration and information, an important service of the emergency welfare program, will be in charge of Willard Wichers, head of the Netherlands Information service. Immediately after an attack, a registration and information organization must be ready to handle inquiries, locate and reunite families.

The assistant director in charge of mass care, which includes shelter, clothing and feeding, is Mrs. Katherine Van Duren, executive secretary of Ottawa County Red Cross chapter. She has appointed Miss Maxine Boone, local dietitian, as her assistant in charge of mass feeding. The other two assistants for clothing and shelter, will be appointed later.

Mrs. Carol Van Putten has been appointed the assistant director of personal services which include special problems in caring for separated families, children and orphans, the aged, infirm, blind and crippled.

With these appointments, the Civil Defense Emergency Welfare in Ottawa County is following the pattern consistent with federal and state recommendations in the interest of uniformity, efficiency, and standardization, Mrs. Hadden said.

Two Trucks Jackknife In Three-Vehicle Crash

GRAND HAVEN (Special) — Two trucks and a car were involved in an accident on US-16 in Coopersville at 5:05 p.m. Wednesday during a heavy rain.

Robert L. Lester, 25, of Willow Wood, Ohio, driving a semi applied his brakes when a car ahead stopped suddenly. The semi jackknifed and struck an oncoming car driven by Adrian Edling, 57, route 2, West Olive. Another truck following Lester, driven by Willis C. Swift, 24, Lansing, also jackknifed.

Edling received a possible fracture of the left leg and was taken to the office of a Coopersville physician.

Lester's truck and Edling's car were considerably damaged.

State police charged Lester with excessive speed and failure to have his car under control. He paid \$10 fine and \$2 costs in Justice Frederick J. Workman's court.

Mrs. William Venhuizen, president of Junior Welfare League, entertained her board members at a luncheon Tuesday afternoon in the Centennial Room, Warm Friend Tavern.

The board outlined projects and goals for the coming season. Junior League will begin regular activities on Oct. 5.

Members of the board are Mrs. Julius Karsten, Mrs. Gerard Cook, Mrs. Seth Kalkman, Mrs. Lincoln Sennett, Mrs. Paul Winchester, Mrs. Ed. Brolin, Mrs. Egbert Boer, Mrs. Robert Vanderham, Mrs. Lester Deridder, Mrs. Carl C. Van Raalte, Mrs. Junior Karsten and Mrs. Don Lievense.

MRS. CONNIE NELSON, on crutches at right, and Mrs. Loretta De Weerd look at Connie's wheel chair which she doesn't use quite so much since she learned to walk with crutches after three months at Warm Springs. Go Mrs. Nelson, who came to Holland a little over a year ago from the Detroit area, has been a wheel chair patient since she was stricken five years ago. She is one of the leading volunteers in Saturday's forthcoming Mothers March for emergency polio funds. Mrs. De Weerd is Mothers March chairman. (Sentinel photo)

Connie, Now on Crutches, Is Polio's Most Enthusiastic Volunteer Worker

Holland's most enthusiastic polio worker these days is Mrs. Connie Nelson of Waukegon, who has just returned from spending three months at Warm Springs, Ga.

The energetic Connie Nelson has good cause for rejoicing. Now she can stand and walk with crutches for the first time since she was stricken five years ago. She can even drive a car with special controls.

It was her second visit to the National Foundation at Warm Springs. She underwent surgery on back muscles and spent many weeks in a cast. Now she can manage to get out of her wheel chair onto crutches.

Of course, it's a complicated maneuver. First she locks the wheels of her chair, lifts the foot stands, twists her shoulders to move her body, locks her leg braces (nine pounds on each leg) and gradually works her way up.

It took a long time to master that maneuver. And one of the first things she plans to do is to make a batch of cookies "standing up" for her doctor at Warm Springs.

Allegan Residents Plan Anniversary Celebration

ALLEGAN (Special) — Mr. and Mrs. Chancey (Jack) Jones, lifelong residents of Allegan county, will observe their 50th wedding anniversary at an open house here at 128 Grove St., Sunday.

Friends will be received from 2 to 7 p.m.

The couple was married Aug. 28, 1904, in the Methodist parsonage, Allegan. Mrs. Jones is the daughter of the late Oral Myers, Cheshire township pioneer. Mr. Jones is the son of the late Elmer Jones, also of Cheshire.

They have two daughters, Mrs. Grace England, Union Lake, and Mrs. Crystal Whitemyer, Round Lake, Ill. A son, Donn, lives in Allegan. There are seven grandchildren and five great-grandchildren.

Art Club Exhibiting Work At Saugatuck Village Hall

SAUGATUCK (Special) — The second annual exhibit of the Saugatuck-Douglas Art Club opened Sunday at Saugatuck Village Hall. Forty paintings by local artists and two showcases of ceramics are on display.

The exhibit will remain open to the public each afternoon from 2 to 5 p.m. until after Labor Day.

A public reception is planned by the club Sunday afternoon.

Parents who have not yet registered their children for Junior High School for the first semester are asked to do so next Monday, Tuesday or Wednesday mornings between the hours of 8:30 and 11:30. Several parents registered children for Junior High before the close of the 1953-54 school year.

Connie can't say enough for the polio program, and wheel chair or crutches, she's the busiest polio volunteer in Waukegon area. Besides serving as a lieutenant for the Mothers March Saturday night, she is also working on plans for a polio dance sponsored jointly by Saturday night by the Newcomers Club and the Elks in Elks hall. All proceeds will go to polio.

Connie's ability to dance in her wheel chair has received wide acclaim.

It costs a lot to care for a patient at Warm Springs. Average cost per patient is \$20 a day (\$60 a day for iron lung patients) and Connie figures the program invested some \$2,400 in "her health" during the last stay, plus \$5,000 earlier when she was stricken in the Detroit area. The family moved to Waukegon a little over a year ago. She said two cases which Ottawa sent to Warm Springs this year involved an expenditure of \$7,133.

The Mothers March which will be conducted in Holland city and Holland Park Townships Saturday at 6:30 p.m. is the only project actively promoted for the emergency fund campaign, and local leaders hope it will pass the goal of \$3,295.50 set for the three units in this area.

Leaders hope to follow the porch light theme as much as possible, but since porch lights are scarcely visible at that time of day in summer, the 400 volunteers will call at virtually all homes, armed with emergency march canisters. The city's curfew will announce the drive locally at 6:30 p.m. and township fire departments also will blow sirens to signal the march.

Mrs. Loretta De Weerd is Mothers March chairman, assisted by Mrs. Andrew Dalman and Mrs. Myron Van Oort as co-captains.

Because many mothers who ordinarily help on such drive are currently on vacation, several men of the Kiwanis, Optimists and Junior Chamber of Commerce also will participate. Captains will bring contributions later to the De Weerd home at 147 East Ninth St., where a designated group will aid in counting the money and making records.

Pipeline Estimate Greatly Reduced

GRAND RAPIDS — A Chicago engineering firm estimates that the cost of building a water pipeline from Lake Michigan to supply communities along M-21 in Ottawa and Kent counties would cost between eight and nine million dollars.

Originally it was believed the proposed project would cost as much as \$15 million.

Louis Vos, Wyoming Township supervisor, said that L. R. Howson, an official of the Alvord, Burdick and Howson Engineering Company, made the estimate.

Howson told Vos that a similar 35-mile pipeline has been laid at Green Bay, Wis., at a cost of about seven million dollars.

"Howson said our physical setup—topography, distance and other factors—is about the same as that encountered in the Green Bay project, which his firm recently completed," Vos said.

Meetings have been held during the last year between officials of East Grand Rapids, Paris, Walker and Wyoming Townships, Grandville, Hudsonville, Zeeland and Holland to discuss the proposed pipeline.

Paul T. Spielman, Wyoming Township engineer, said he believes the proposed pipeline is feasible and that the best location would be along M-21.

The Ladies Aid of Prospect Park Christian Reformed Church is asked to meet at 1:45 p.m. Friday in the basement of Bethany Church to attend in a body the funeral of Mrs. Arie Diepenhorst.

Club Donates Profits — The Muskegon Exchange Club at its Monday meeting approved a committee report allocating \$4,500 profits of the Better Living Show to 12 organizations. The club will retain \$920.75 to be used for its own charities during the year.

Holland Christian Trustees Discuss Several Problems

Junior High School
Will Occupy Entire
Old School Building

Considerable discussion and eventual adoption of the proposed budget for the school year 1954-55 occupied a great part of the monthly meeting of the Holland Christian school board of trustees Tuesday night. The finance committee of the board presented the budget for the board's consideration.

Following the adoption by the school board, the budget must now be approved by the school society at its annual meeting on Sept. 27.

Supt. Bert P. Bos then presented his monthly report regarding various school matters. He announced that both the new additions to the high school and South Side grade school will be ready when schools open on Sept. 9. The high school addition consists of eight rooms, including a modern choir room for the use of the vocal music department. The instrumental music department is located in the first unit of the high school completed last September. Six rooms are included in the South Side addition. Five of the six new rooms of the addition will house grades one through three, Bos said.

The superintendent also reported that he expects well over 1,800 pupils in the school system this season, necessitating almost complete use of all facilities even with the 14 new rooms available this year. For the first time this year, the junior high school will occupy the old high school building on Michigan Ave. and State St. The entire high school will now be moved into the new unit with the exception of three rooms, used by science and math departments.

Although further details regarding opening of schools in September will be released later, the superintendent announced that Principal Raymond Howlerda of the high school and junior high will be available for consultation in the high school office from 7 to 9 p.m. on Aug. 30, 31 and Sept. 2.

Bos, who was recently elected secretary of the National Union of Christian Schools board at its convention in Rochester, N. Y., also reported on the convention, making committee reports available to the board members.

He also reported at length on the Christian school administrative conference held at Calvin College. The theme of the conference was "Bible teaching in Christian schools." Hero Bratt of the high school Bible department and Edward Vermaat, principal of the South Side grade school were on the conference program as was Howlerda.

Ottawa Farm News

Richard Machiele, County Agricultural Agent, A quickie method of building soil fertility used in the northern part of Michigan may be of interest to some Ottawa County farmers.

Rye is sown in the fall and plowed down in the spring before it heads. Buckwheat is then sown and plowed down before it becomes woody. This means two green manure crops plowed down each year. Extension workers in the northern counties find this builds the soil faster.

Hogs need enough protein in order to obtain good gains. Pasture alone will not provide enough proteins especially at this time of the year when grass is more mature.

Hogs up to 100 pounds need at least 14 per cent protein. For those above 100 pounds, protein can gradually be cut to 10 per cent of the ration.

Be careful with alfalfa in September. During September alfalfa stores plant food in the roots to carry it through the winter. By cutting the top off alfalfa you are destroying the food factory and the roots will have a hard time getting through the winter.

I know that the third cutting looks attractive as a hay crop but don't take a chance with your 1955 hay crop by cutting.

By the way, winter barley seeded about Aug. 20 will make some excellent fall pasture and still give you a grain crop.

Now is the time to renovate that old blue grass pasture and reseed to a good legume pasture such as alfalfa-brome-ladino. Work up the pasture with a field cultivator and seed with eight pounds alfalfa, three pounds Brome and one pound of Ladino. Using 300 to 400 pounds of the 0-20-20 at seeding time will pay dividends. Don't throw your seed away, however, by seeding alfalfa on an acid soil.

The county agent has been busy making time and fertilizer recommendations on soil samples collected by the local ASC office. We have had almost 1,000 samples during the last month. If you want your soil tested and are too busy to collect them, contact your local A.S.C. office in the postoffice building, Grand Haven or contact Harold Kragt of Holland or John Loew of Coopersville.

Did you know that home grown fence posts, either hard or soft wood can be treated with Pentachloro and be made to last as long as cedar posts. This material is readily available.

I have had some inquiry as to the source of fernate recommended in control of Anthracnose in raspberries. This material should be available at most places stocking spray materials as this is also

used to control disease in apple orchards.

The cost to control brush and small trees in fields or ditch banks is reasonable by spraying with a chemical called 2-4-5-T. Cost runs about three to five dollars an acre depending on density of brush. Write for folder F 182 "How to control undesirable Trees and Shrubs with chemicals" available at the county agents office.

Get that lawn grass seed in the ground now. Don't worry about the dry weather, the seed will stay dormant until it rains. Many lawn growers hesitate to put in their expensive lawn seed without moisture. But after it does rain, if the seed is not in the ground, you force you can work the soil anyway.

Humbert Twirls 2-Hit Shutout; Chindell Triples

FENNVILLE (Special) — Holland's Flying Dutchmen demonstrated that the Fennville Merchants' squad must sharpen up if they want to compete in Southwestern Michigan Baseball League action as the locals piled up a 15-0 exhibition shutout Thursday night.

The Dutchmen unleashed one of the sharpest hitting attacks they have put together all season as they racked up a total of 19 safeties, including Jack Chindell's triple in the sixth inning.

Chindell's blow came after the Dutch had already tallied five runs in the fifth stanza. Leading by one run, Bill Sandahl, Ron Fortney, Bob Van Dyke, Al Dykema and Chindell opened a scoring parade by pounding out singles.

The singles, combined with two walks, accounted for the five runs.

Dykema, Ron Boeve and pitcher Lou Humbert slapped out singles in the sixth that, coupled with Chindell's triple, chalked up five more runs.

Humbert continued to shackle Merchant hitters as things quieted down for a short time in the seventh and eighth frames. But in the ninth Holland exploded for three more runs on singles by Humbert, Bob Van Dyke and Boeve.

Fennville's hits were really scattered. Morse, the second man up, singled while Barnes, late in the ninth, also got a one-bagger.

Ten Merchant batters struck out. Hitting honors for the Dutchmen go to Chindell, as well as Dykema who had a double and two singles in three hits. Humbert aided his own cause with three singles in four trips.

Earlier this season Holland won a 7-0 contest.

"It was pretty hectic and the cars streamed in like a continuous marathon, but we all had fun."

So said Russ Bouws of his two busy days early this week when he turned back the clock 20 years and sold hamburgers for a dime. What a response! Officers were called in to direct traffic. Even then, he figured he was able to take care of only about 25 per cent of the people who actually wanted to eat at his place Monday and Tuesday.

Monday was the heaviest day. Lots of cars that couldn't find parking space at Russ' went to other drive-ins in the area, and all such places reported land office business. In fact, most of them called Russ to thank him for his promotion and some of them even sent flowers.

Russ said he served 13,092 sandwiches and 335 gallons of ice cream during the two days. He was unable to keep track of the five-cent coffee.

Since the place caters to a lot of transient travelers who regularly stop there, the two-day celebration roused a lot of questions. Lots of regular patrons stopped at Yokums (up the road a piece) and asked what was the trouble. Others who stopped Wednesday and Thursday asked if there had been a funeral. There were so many flowers!

Russ figures the whole promotion cost him the price of a new car. "But shucks, it happens only once in 20 years and it's worth it," he said.

There's an unsung hero somewhere around Holland these days, and there's a couple of grateful parents who would like to know who he is.

Last Tuesday, five-year-old Judy Voss went to Kollen park with another little girl, and accidentally fell into Lake Macatawa. She was rescued by a young Huck Finn who was fishing on the dock there. Judy was pretty badly frightened and rushed home soaking wet to mama.

The parents, Mr. and Mrs. John Voss, 247 West 16th St., would like to know the name of the young benefactor so that they can thank him.

Sandy Meek, manager at WHTC, was drinking coffee with Bill Gargano in a local eatery a few days ago when a chap paying his check turned around and said, "Aren't you Sandy McNabb?"

"First name is right. I'm Sandy Meek," the local man answered. Then it developed that the transient visitor who now lives in South Haven was one of eight high school boys who manned switchboards in Chicago back in 1927 when Sandy was with Harry Sosnik on a big radio request program.

The stranger asked Sandy if he still sang. "Nope, not for years, don't have time," Sandy answered.

Last Tulip Time Mrs. J. Louis Jipping of South Bend, Ind., visited Holland and bought a novelty scarf at the Wooden Shoe place here. When she got home, she found she had two scarfs.

A few days ago on a vacation trip, the Jippings routed their way specially through Holland and stopped at Van Tongeren's place to pay for the extra scarf.

How about a recipe today. It's for a Yorkshire Christmas Pie, taken from an old recipe printed in a London cookbook in 1774.

First make a good standing crust, let the wall and bottom be very thick, bone a turkey, a goose, a fowl, a partridge and a pigeon. Season them all well, take half an ounce of mace, half an ounce of nutmegs, a quarter of an ounce of cloves, and half an ounce of black pepper, all beat fine together, two large spoonfuls of salt, and then mix them together.

Open the fowls all down the back, and bone them; first the pigeon, then the partridge, cover them; then the fowl, then the goose, and then the turkey, which must be large; season them all well first, and lay them in the crust, so as it will look only like a whole turkey.

Then have a hare ready caud, and wiped with a clean cloth. Cut it to pieces; that is joint it; season it, and lay it as close as you can on one side; on the other side woodcocks, moor game and what sort of wild fowl you can get. Season them well, and lay them close; put at least four pounds of butter into the pie, then lay on your lid which must be a very thick one, and let it be well baked. It must have a very hot oven, and will take at least four hours.

Two sessions were slated in the Science Building, attracting coaches throughout the western part of the state.

It is the fourth consecutive year that the pre season conference has been held at Hope, attracting mainly Hope grads who are in the coaching field.

And practically all of them got their football savvy from Vanderbush, and are coming back for a "refresher course."

But the students' too charge of the classes, with Dick Higgs of St. Joseph playing a key role in the morning discussions. Higgs, formerly of Allegan, took over the St. Joe role this season.

Vanderbush, just went up from a back injury, and assistant coach Ken Weller talked briefly about the Hope college offense at the morning session.

Following a group lunch, a general discussion was scheduled for the afternoon.

Participating coaches included Higgs, Rip Collins of Grand Rapids, Ottawa who will report on the Oklahoma University clinic, Abe Moerland of Grand Rapids, and assistant coach Ken Weller of the local college.

Allegan Expects Record Number Of Fair Exhibits

Premiums and Ribbons Will Be Awarded in All 13 Divisions

The agricultural exhibits always play a big and important part of Allegan County Fair, promises to be even larger this year, according to early indications. Exhibits in the 4-H and FFA departments of the fair are increasing each year.

Because directors of the fair are particularly interested in keeping the Allegan County Fair a real agricultural fair, they continually are making improvements and seeking ways and means to extend this part of the fair.

During the past decade many new buildings have been added to the grounds for agricultural display and each year a score of giant tents are erected to house the overflow.

Cash premiums and ribbons will be awarded in all of the 13 divisions except the mechanical department which features all types of farm machines and agricultural implements. Exhibitors are entitled to book orders to be delivered following the fair.

In all classes where no competition is available, only such prizes will be given as the quality of the exhibit warrants. The exhibits must be left in the display halls for the full week of the fair and may not be taken away before 7 p.m. Saturday.

All livestock must meet with the State of Michigan health requirements to exhibit at the fair Sept. 13 through 19.

All divisions except home economics, plants and flowers, home extensions, and youth, are open to residents of Allegan county and five adjoining counties. The other four are limited to the county of Allegan.

Entries of cattle, sheep, and swine must have been on the farm of exhibitor at least four months before the opening of the fair. All clothing and household textiles must have been completed in the last year, and unfinished, worn or soiled goods will not receive premiums.

The Hamilton Poultry Farms Inc., will present a traveling cup to the best pen of poultry, any breed. The trophy may be kept after winning it three times. Grand champion ribbons will be given in the poultry division to the best male, best female, and best pen.

All eggs for judging must be free from dirt and stain and unwashed. The judging is based on uniformity of size, shape and color in each dozen entered.

Artistic display and number of products will be considered in the judging of the pomology section. The best collection of grain, fruits and vegetables from an individual farm will be given a cup. Prizes will amount to \$15, \$10, and \$5 for the three top places.

In the plants and flowers division one group of premiums will be awarded only to amateurs, while others will be given to the winning exhibits, compiled by garden clubs in the county.

Arrangements, potted plants, and plants and flowers will be judged separately.

Extension groups of Allegan county will unite to make a county exhibit of projects studied during the past year. The premium money will be paid to the treasurer of the Home Extension Council.

Special awards will be given to individuals or teams that give demonstrations of practices learned in the year.

The youth division is open only to Allegan county girls and boys who are enrolled in Future Farmers of America, Future Homemakers of America, and 4-H Clubs. The exhibits must be either made or grown during the past year.

Premiums will be awarded on a group basis of A, B, and C.

County Agricultural Agent

The annual meeting of the Ottawa No. 2 DHIA shows some outstanding accomplishments. Average production for the past year is outstanding with 10,896 pounds of milk produced per cow and 424.5 pounds of butterfat. This makes the No. 2 association one of highest in the state.

High cows in the association are: two-year-old Holstein owned by Gerrit Buth with 15,225 pounds of milk and 625 pounds of butterfat; Holstein owned by Ed Cribley with 16,831 pounds of milk and 614 pounds of butterfat; three-year-olds—Holstein owned by Gerrit Buth with 17,785 pounds of milk and 657.5 pounds of butterfat; Holstein owned by Hecksel Bros. with 16,262 pounds of milk and 618.5 pounds of butterfat; four-year-olds Holstein owned by Gerrit Buth with 19,300 pounds of milk and 707 pounds of butterfat; Holstein owned by Gerrit Buth with 19,469 pounds of milk and 684 pounds of butterfat. Mature cow—Holstein owned by Gerrit Buth with 20,955 pounds of milk and 785 pounds of butterfat; Holstein owned by Gerrit Buth with 19,785 pounds of milk and 725 pounds of butterfat.

All the herds in the association had an average of over more than 300 pounds of butterfat. The top herds are:

1. Gerrit J. Buth—Holstein, 15,039 pounds of milk, 558 pounds of butterfat.

2. Edward Cribley—Holstein, 12,881 milk, 520.6 butterfat.

3. Hecksel Bros—Holstein, 13,451 milk, 500.9 butterfat.

4. Harold Jenison & Sons—Guernsey, 9,788 milk, 477.6 butterfat.

5. John Ter Horst—Guernsey, 12,266 milk, 466 butterfat.

6. Harold Busman—Guernsey, 12,095 milk, 464.0 butterfat.

7. James Busman—mixed, 11,783 milk, 463.1 butterfat.

8. Marvin Luben—Holstein, 12,558 milk, 449.1 butterfat.

9. Arthur Lucas—Holstein, 12,550 milk, 442.9 butterfat.

10. Willard & Buth—Holstein, 11,837 milk, 435.2 butterfat.

Harry Sutton, tester for the Ottawa No. 2 association reports that in the past six years he has served as tester the average milk increase is 1,728 pounds per cow and an increase of 76.5 pounds butterfat increase per cow.

Another pertinent fact in the DHIA program is that the number of days of pasture per farm increased from 140 days in 1947 to 174 days in 1953. That is an increase of 27 days in the last six years. We hope we can continue to increase the pasture days in the future because good pasture is one of the most profitable crops that can be grown on our farms.

One way to stretch the number of days of pasture is to use rye as late fall and early spring pasture. Rye used as a cover crop can serve as good pasture and still leave something to plow down as green manure.

The fly-free date for wheat planting in Ottawa County is Sept. 19. The Hessian fly problem is on the increase in Michigan. You are taking a chance if you plant your wheat earlier than the fly free date. Farmers having Hessian fly trouble may find it advisable to plant their wheat later than the fly free date.

EXTENDING THE

TWO-TERM LIMIT

State Representative Wade Van
Valkenburg is calling for a consti-
tutional amendment limiting Michi-
gan governors to two consecutive
terms. The race of Governor Wil-
liams for a fourth term is of course
the spark that set off the Van Val-
kenburg explosion.

There is excellent logic for such
an amendment, and as in the case
of the amendment limiting presi-
dents to two terms, there is some-
thing to be said against it. Voters
may have a hard time to decide if
the question actually is placed on
the ballot.

The most compelling argument
against such a limitation for the
presidency will hardly apply to the
state. Those who oppose the move
on the national level pointed out
with considerable reason that the
country might find itself in a posi-
tion of supreme danger at a
moment when a ne wand inexper-
ienced executive might add to the
jeopardy.

That could hardly happen in the
case of the state. State issues alone
could not very well spell danger
to Michigan or to any other single
state. It is not easy to imagine
circumstances under which it
would be hazardous for a new gov-
ernor to take over.

The arguments advanced for the
limitation of the presidential ten-
ure of office apply on the whole to
the state as well. The main argu-
ment is that an administration just
naturally freezes the personnel
that administers it into a political
machine. Office holders get the
feeling that they own the govern-
ment instead of being employees of
the people.

There are always a fair number
of office holders, both in the Re-
publican and in the Democratic par-
ties, who are working for their
own good rather than for the good
of the people. This results in var-
ious abuses that may be legal but
that are not by any means even
that. After a time crooks or semi-
crooks get so well entrenched that
the vast majority of honest men,
again in either party, are more or
less helpless. A change of admin-
istration at stated intervals is
wholesome in the very nature of
things.

But in initiating the movement
at this time the Republicans are
vulnerable to the charge that they
are attacking a person instead of
advocating a principle. They would
have been in a much stronger posi-
tion if they had started their cam-
paign when they were safely in
possession of the governor's office.

Growth Through Christian
Service
Galatians 6:1, 2; James 1:22, 26,
27, 2:14-17; 1 John 3:16
By Henry Geerlings
There is a disposition to let
our feelings rule us. The things
we eat are usually the things we
like, even though some of them
may not be the best for us. If
we feel sleepy in the mornings,
we decide that we can let some-
thing else go for the day. Or from
the other side of the picture, we
be so engrossed in what we
are doing that we actually
spend too much time and energy
in what we are doing, and may
finally ruin our health, all be-
cause we feel like doing it. And
feeling seems to play a large
part in the religious life in many
a person.

It is a most unusual man who
goes about in a cheerful manner
to do promptly and earnestly that
which he knows to be his duty.
Many people go to church only
when they feel like it. They pray
only when circumstances force
them. We ought to check up on
this matter, and if we find that
we are feeling listless toward God,
then we ought to start a revival
of religious fervor.

Sir Edward Peary, the Arctic
explorer, while on his way to the
pole, calculated that he was
traveling toward his objective at
the rate of about ten miles a day,
but he found that he was sliding
on an ice floe which was drift-
ing toward the equator at the
rate of about twelve miles a day.
So, while going in one direction
at the speed of ten miles a
day he was losing out in the race
by going backward twelve miles
a day.

The Christian who gets no thrill
of joy out of his service to Christ
is in all probability doing what
Peary did while on the ice floe.
He is simply losing ground all the
time. If we dare to stand with
Christ and say, "I serve," then
we must know the joy of doing
the will of God even as Christ
knew it. God wants more than
mere service. He wants a happy,
enthusiastic service. Unless our
service is of that kind we are
misleading ourselves.

In certain cities of the United
States the police force is made up
of men who have passed success-
fully every test, one of which is
that each candidate must be at
least five feet eight inches tall.
We have read of a young man
who wanted to get on one such
police force, and he passed all of
the tests save one. He just missed
being tall enough for the force.
He turned out to be five feet
seven and one half inches tall. If
he cannot stand with Christ and
say and mean it, "I serve," then
we have fallen short of the divine
standard. God is concerned with
moral stature and the measure
of moral greatness is in the will-
ingness to serve at all costs.

A story is told of Dr. Carey,
the pioneer missionary in India.
He used to go about from village
to village, preaching, for he great-
ly loved to tell the story of re-
demption to be found in Christ.
One day a friend stopped him and
said, "Mr. Carey, I want to talk
to you very seriously. By your
going about preaching as you do,
you are neglecting your business.
If you only attended to your
business more, you would be all
right and would soon get on and
prosper, but as it is you are
simply neglecting your business."
"Neglecting my business," said
Carey. "My business is to extend
the kingdom of God. I only cobb-
le shoes to pay expenses."

We are urged to do the Word.
Of course the doing of the Word
means living according to the
Scriptures and this requires an
acquaintance with them. Before
we can do the Word we must
read it and become thoroughly
informed about its teachings. No
Christian can be strong without a
knowledge of the Bible.

But knowing the Word is one
thing, the doing of it is quite
another. James likens some
Christians to those who look in
a mirror and see exactly what
impression upon them. They be-
come aware of their features and
realize that they lack in beauty
and symmetry. At the first mo-
ment they feel that something must
be done about it, but then they
move on and soon forget about
their shortcomings. When we
know what God asks of us we
should do it as speedily as possi-
ble.

Pharaoh's butler knew his duty
but forgot to do it, and as a
result Joseph remained two years
longer in prison. Dorcas, on the
other hand, was full of good
works and also deeds. We are to
be doers of the word.

Library Adventures

By Arnold Mulder

Mike Connolly, the writer of the
column "The Hollywood Report-
er," asked Cecil B. DeMille why
he made so many Biblical pictures.
"Why," chuckled DeMille, "let
2,000 years of publicity go to
waste?"

In that shrewd question we hear
the voice of a man whose Dutch
ancestors were brought up on the
Bible, who himself from childhood
days was exposed to a literature
that is the richest storehouse of
ideas over several millenniums.
Mike Connolly was referring of
course to such pictures as "The
Ten Commandments" and "The
King of Kings," to name but two.

Western literature has of course
been powerfully influenced by the
Bible. The very greatest works of
literary art have their roots deep
in Bible lore, but it is also true
that large masses of trivial and
meretricious literature are rooted
in the same mold. The same soil
that produces flowers invariably
grows weeds as well.

Cecil DeMille's question sug-
gests that a movie story based on
Bible chronicle just naturally pro-
fits from the free advertising that
has been given to such stories over
the generations. There isn't enough
money in the world to pay for that
advertising, and DeMille was
shrewdly right in recognizing the
fact.

Any work of art can appeal to a
wide "recognition interest" is al-
most sure to succeed, even if it is
trivial, as most of the Biblical
movies are. As a single example in
another literary medium, consider
the "recognition" value of such a
novel as Lew Wallace's "Ben-
Hur."

As a novelist Lew Wallace could
confidently depend on instant re-
cognition of even relatively ob-
scure allusions to Bible stories,
and all the more familiar ones
even the most unlettered readers
knew almost as well as he did. It
was not necessary to explain the
Three Wise Men, or the Flight into
Egypt, or the Slaughter of the
Innocents; capital letters were
identification enough for the most
unsophisticated readers.

That's perhaps the main reason
why "Ben-Hur," a mediocre melo-
drama, was the second most popu-
lar nineteenth century Ameri-
can novel.

When the Lew Wallace readers
opened "Ben-Hur," they were on
familiar ground. No matter how
long-winded their author might be,
as for instance in the story of the
Three Wise Men, in which he uses
up 30,000 words before the novel
as a novel opens, they never lost
their way.

Their author's scholarship was
often ponderous and some of it
was even spurious. But for the
"recognition" interest of the novel,
readers would have deserted him
before he had finished a dozen
pages. But millions of readers
probably got the same pleasure of
recognition out of it that a child
wins from an oft-repeated tale.

At every turn even the relatively
illiterate knew what was coming,
their interest snared by the often-
repeated recognition that they

Girl Drowned as
Surfboard Upsets
At Grand Haven

GRAND HAVEN (Special) —
A 14-year-old Grand Rapids girl
was drowned at 5:15 p.m. Sunday
when the surfboard on which she
and a 13-year-old companion were
riding upset in Lake Michigan at
North Shore Park.

Patricia Ott, daughter of Mr.
and Mrs. Charles Ott of 717 Har-
lan St., Grand Rapids, died of
suffocation through drowning, ac-
cording to Coroner Joseph E.
Kammeraad.

Her companion, Faith Ann
Hicks, 13, Grand Rapids, survived
the ordeal. The two girls were
riding a rented surfboard about
275 feet from shore when the
younger girl became aware they
were getting out too far. She
mentioned this to Patricia who
was operating the paddle, and in
turning the board around, it up-
set and both girls were thrown
into the water.

Faith was able to swim, but
Pat was no swimmer. In panic,
Pat grabbed the other girl and
both went under several times.
Finally, Faith got hold of the
board and screamed. Several per-
sons immediately went to her
rescue but it was not until she got
ashore that she was able to tell
them the other girl was still out
there.

Patricia's body was recovered
soon by Walter Novakowski of
Grand Rapids but resuscitation
efforts of state police, city police,
Coast Guardsmen and Coroner
Van Zantwijk who had a resusci-
tator proved futile.

Patricia had gone to the park
with Mr. and Mrs. Elmer Hicks
and their daughter for an outing.
The group had eaten lunch about
1 1/2 hours before the girls had gone
into the water. Patricia was an
only child.

The body was taken to Van
Zantwijk Funeral Home and later
removed to Alt Mortuary in
Grand Rapids.

Tragedy Averted
In Family Rescue

Tragedy was averted late Sun-
day afternoon by the quick think-
ing of two brothers and a neigh-
borhood friend who rescued five
members of a family after their
boat overturned in Lake Maca-
taw about midway between
Waukazoo Inn and Central Park.
Don Brookstra, 20, and his
brother, Bill, 16, summer residents
at Central Park, were just tying
up their boat after a swim when
their father, C.L. Brookstra, saw
the boat with its outboard motor
overturn.

The Brookstra brothers and
Johnny De Graff went to the
family's rescue, helped three
members from the water and then
dived underneath the boat to re-
scue two of the three children. Im-
mediately, other boats from the
vicinity were on hand to aid in
the rescue.

The boat overturned when it
hit a wave, witnesses said. The
rescued group was tentatively
identified as the Locke family.
The Brookstra family which has
been in their cottage all season

Deputies Arrest
Two After Riot

Two youths were arrested fol-
lowing a riot Saturday night that
took six squad cars loaded with
Ottawa County deputies and
other officers to break up.

Deputies said more than 20 per-
sons were engaged in the "knock-
down and drag out fight" on a
blueberry farm approximately
nine miles north of Holland near
US-31.

The riot was put in when some-
of the men involved started bring-
ing loaded guns and knives into
the fight. Despite the weapons
only a few were injured and those
received minor cuts and bruises.

Deputies said the feud between
the men, all from Florida and
southern states, had been sim-
mering states Thursday before it
came to a boil Saturday night
shortly after 7 p.m.

A 16-year-old was taken to the
county jail to "cool off" after
deputies disarmed him as he brand-
ished a machete and threatened to
"cut someone's head off."

Twenty-year-old Marvel Bell,
who listed a Florida address, was
also arrested and charged with
having beer in his car. In addition

League Leaders Nip Vandenberg By 2-1 Margin

A one run margin—but they won. That was Hulst Bros. again in City Softball League action Friday night as the regular season first place winners chalked up a narrow win over Vandenberg Buick 2-1.

And it was Laverne Zoerhoff's homer in the third inning that made the difference. Zoerhoff slapped out the round tripper with Bob Kraker on base. Kraker had been safe on an infield error.

Vandenberg, meanwhile, was slapping out three hits—but could only tally in the fourth inning when singles by Justin Vander Zwaag and Ron Fortney coupled with an infield error for one run.

Bob Fortney held the vaunted Hulst attack to two hits, only to lose. Larry Knoper was tagged for three and won.

It was Hulst Bros. 24th win of the season against 2 losses.

In the second game the Vets posted a 9-4 win over Bareman's Service.

Both squads exploded with some heavy hitting, VFW with a homer and two triples and Bareman's with a home run.

For VFW it was Al Kraai, hurling a five hit game and slapping out a home run. John Wolters had two triples and a single in four trips to the plate.

Ted Schreur grabbed Bareman batting honors, with a home run and single in three tries.

Third game in a heavy evening of play was a real slugfest as Barber Fords put 13 hits together for a 19-4 win over Moose.

Moose had a two-run lead in the third inning after Walt Hudzik doubled and Chuck Stevens homered. By the time they got another run, on Hudzik's homer in the fifth and doubles by Jason De Vries and Fred Handweg in the sixth, they were far behind.

In the interim Fords had tallied five runs in the fourth on singles by Wes Timmer, Howie Van Voorst, Norm Boeve, a double by Gord Barnes and Vern Fuder's triple.

Fords settled for one run in the fifth on Norm Boeve's double with one man on base. But in the sixth a six-hit barrage accounted for 13 runs that put the game on ice. Getting singles were Rog Beekman and Chet Pierman while Norm Boeve and Don Sundin had doubles and Al Pierman and Sundin cracked out triples.

Hudzik was on the mound for the losers giving up 13 hits. Boeve was tagged for six in losing.

OF COURSE, THEY'RE not so splashy as our tulips, but many of the petunia and marigold plantings in Holland's famous tulip lanes are truly beautiful this time of year. This picture of petunia plantings taken on 26th St. near Lawndale Ct. shows three children of Mr. and Mrs. Melvin Shards at left. Vic, 6 (seated), Bob, 2, and Dave, 5. At right is Kathy Burke, 7, daughter of Mr. and Mrs. Walter S. Burke.

Let's Plant Beauty . . . Petunias and Marigolds Put Color in Tulip Lanes

Petunias and dwarf marigolds, bringing color back to the tulip lanes make our city bloom again and add charm to the property of those who have co-operated in this project. On 26th St. especially do we get a good idea of what might be accomplished by a whole hearted effort of all those who live along the lanes to make their streets outstanding in summer beauty.

The James Klomparsen, 83 East 26th, have a thrifty border of marigolds with the same flower used near the house. The blocks from there to Central Ave. have a good show of color. The home at 27 East 26th St. has used blue ageratum; attractively, repeating the flower in the border of their foundation planting.

A solid ribbon of red petunias makes a good effect along the south side of the street between Elm and Pine. This suggests what might be achieved if all the neighbors in a block might be able to agree on one color for the block. Handsome begonias in a planter box and a flower border repeat the color to distinguish the home of Marvin Albers, 68 West 26th. A hedge fronted by a flower border adds to the picture at the M. J. Tinkholt home, 44 West 26th which the petunias call attention to.

In the block west of Maple Ave. we find many pictures enhanced and completed by the petunia border in the foreground. Mrs. William De Boer has a good petunia border. The Rev. J. M. Hogenboom, 172 West 26th, has an interesting arrangement of shrubbery, a window box of begonias, two tree roses, and geraniums, unified by a bit of low white fencing.

An excellent flower border at the back of home at 182 West 26th is complemented by geraniums in front of the house, porch boxes, and a pink petunia curb planting. Residents at 205 West 26th have used dark ruffled petunias in the curb to complete the picture created by the flowers in the border of their foundation planting and in front of their terrace.

It was interesting to note at 212 West 17th St. how the owners have made their place seem larger by planting zinnias along one curb of their corner lot and tall marigolds along the other. This extends the effect of their shrubbery and flower garden attractively.

John Van Dyke, 30 East 22nd, shares his garden with everyone. There is constant bloom in the well kept border around his home on a corner lot, accented now by a luxuriant curb planting of petunias. And Gus L. De Vries, 500 Michigan Ave., contributes to the co-operative planting on his corner lot with a neat border of marigolds.

The effort of all is appreciated, —also of those who planted but, because of drought and sprinkling restrictions, were not able to see their dreams of a pretty border materialize. Marigolds seem to have tolerated dryness better than petunias, as Park Supt. Dick Smallenberg probably realized they would when he used them for all the city planting in the lanes. We can hope that the rains when they come will bring vigor to the petunias. Portulaca thwarted the drought at the corner of 11th and Van Raalte.

Let's study the results of this year's first serious effort at replanting the tulip lanes and take what has been good in them for building on next year. Surely a tour of the lanes now will convince one that those who co-operated helped themselves just as much as they helped the city.

Kids Carnival Nets \$20 for Polio Drive

Four resourceful youngsters on East 20th St., earned \$20 for polio this week by attracting a crowd of neighborhood kids to a carnival Tuesday.

David Prince, whose sister is a polio victim, Ron Ricketts, Billy Meyer and Hubby Harrington, "ran the show" at the Meyer home, 46 East 20th St., with music, movies, game booths with prizes and a real carnival atmosphere. Their total profits at the end of the day were \$19.55, but one of the mothers kicked in enough to make it an even \$20.

The whole thing was such a success that they plan to repeat the carnival—on maybe an even bigger scale, Thursday or Friday. The boys know that every bit helps the polio drive, but that \$20 is a mere "drop in the bucket." David's sister, 41-year old Jacqueline Prince, has been a polio victim for some time and still is a patient at Mary Free Bed Guild. If it weren't for the polio foundation, her parents, Mr. and Mrs. Bill Prince, 40 East 20th St., would have had to pay a bill of \$3,500 to date.

Three Injured in Pair of Accidents

Accidents Tuesday sent three local persons to Holland Hospital but all were released after treatment.

Betty Watson, 24, of 100 East 30th St., received right arm injuries when a car in which she was a passenger and one driven by Gilbert Vande Water, 67, of 29 East Ninth St. collided.

The crash occurred at 4:32 p.m. at the intersection of 10th St. and Central Ave. The 1950 model Vande Water auto was traveling north on Central while the other car, driven by Willard R. Watson, 49, of 100 East 30th St., was going east on 10th St.

Damage to both cars was estimated at \$150. Police are continuing their investigation.

Traffic was tied up for a short time and two persons were injured at 7:22 p.m. when cars driven by Don Mokma, 17, of route 2, and John Kolan, 40, of 101 East 18th St., collided at the intersection of 17th St. and River Ave.

Kolan was headed north on River Ave., attempting a left hand turn at the time, police said.

Mrs. Janet Kolan, and Jacqueline Kolan, 12, were treated for minor injuries.

Damage to the 1947 model Mokma auto was estimated at \$700 and the 1940 model Kolan car was a total loss.

Leaders Scatter 16 Hits in Fancy Season's Finale

Hulst Broth. put on a real finale, complete with fireworks, to their 1954 City Softball League regular schedule by knocking out a 15-4 win over Moose Tuesday.

The fireworks consisted of 16 hits, including four homers, that sprayed the outfield of Van Tongeren Field.

Bob Vork slammed out two homers and a triple as master of ceremonies for the fireworks. Bud Hulst and Lavern Zoerhoff both had a homer, plus a single. Others joining in the act included Ed Klinge with a triple and two singles in five trips and Kaz Kalman with two safeties in four attempts.

Moose was limited to a pair of runs in both the opening and seventh innings. Key to the first frame was Fred Handweg's double while Red Hulst' double in the seventh was a big factor in that rally.

Larry Knoper and Al Bosch worked the game for Hulst with Knoper taking the win. Red Hulst lost the 16 hitter for Moose.

League runnerup Main Auto had more of a workout in winning their contest but homers by Jerry Prince and Jascn Ebels were enough in the 4-0 win over Vandenberg Buick.

Prince's homer came in the first stanza after Jun Maatman had singled. Ebels' blasted the four-bagger in the fifth with none on. Final Auto run came in the seventh after Ebels had walked later scoring on an outfield error when Gene Gort singled.

Vandenberg batters weren't getting hold of Ebels' offerings from the mounds as Gord Verink had two singles—the only hits his club got.

Ebels thus had the two-hit win, and Bob Fortney was charged with a seven hit loss.

Unless playoff of a tie must be called for hursday, tonight's play ends regular season competition in City League. VFW and Main Auto are meeting in the kickoff of the round-robin tournament at 7 p.m.

Youth Escapes Injury In Car-Truck Accident

An 18-year-old Iowa youth escaped without a scratch when his car rolled over after striking a panel truck on US-31 five miles north of Holland at 9:30 a.m. Monday.

Ottawa County deputies said Ward De Joung, 18, Glenwood, Iowa, was driving south when he came up behind a panel truck operated by Theodore Mayfield, 44, Flint.

De Joung tried to stop, went into a skid, and struck the rear of Mayfield's truck with the rear of his car, police said. The impact knocked the car off the road where it rolled over, coming to a rest on its top.

Damage was estimated at \$450 to the car and at \$200 to the '51 model truck, according to deputies who issued De Joung a ticket for failure to keep an assured clear distance ahead.

No. 9 in a series of RARE CREATURES:

THE ENDLESS EASE

he likes hard work . . . as long as he doesn't have to do any!

The ENDLESS EASE is an advertising man who likes an ad program that "runs itself" — no matter what direction it runs in.

He won't climb a sales peak . . . rather flow down hill.

He won't make a quick move . . . rather take a slow loss.

Fortunately he's a rare creature — almost extinct in today's tough market.

Most ad men today are probing deep. They're carefully weighing one market against the other — for product sales possibilities . . . for competitive opportunities. And they're finding sales plums they never knew existed.

And they're concentrating their advertising locally in the markets that show the most promise.

Naturally they're turning to newspapers to cover those markets fast and fully. Because just about all the people in each market read the newspaper every day.

Retailers know this, too. That's why they feature so strongly the products of manufacturers who advertise in the local newspaper.

It's a partnership that moves merchandise in volume — and in a hurry! That's why national advertisers upped their investment in newspapers 14.3% last year!

All business is local . . . and so are all newspapers!

Aman Park Case Remains 'Local'

GRAND HAVEN (Special) — Circuit Judge Raymond L. Smith in an opinion Wednesday denied motions to dissolve the temporary injunction issued about two weeks ago in which Ottawa County enjoined Grand Rapids city and Kent County from maintaining prisoners at a so-called work camp in Aman Park which is located in Tallmadge Township in Ottawa County.

The action retained jurisdiction in the case in Ottawa County, contrary to objections from Grand Rapids and Kent County leaders who contend such jurisdiction should lie in Kent County. Judge Smith ruled that the case is "local in nature."

Smith prepared his opinion after both Kent County Prosecutor Stuart Hoffius and Grand Rapids City Attorney Samuel Himelstein made motions at a hearing Tuesday in Grand Haven that the case be dismissed.

The case was brought by Ottawa Prosecutor James Bussard after the Kent municipalities ignored requests to remove prisoners from Ottawa County. Judge Smith's action has also dismissed Kent Sheriff Arnold O. Pigorah as a defendant in the case.

Summer Weather Returns For Waning Vacation

Summer vacationers, regretfully eyeing the close of the vacation season less than two weeks off, were grateful, at least for returning warm weather and water temperatures that don't freeze the feet.

Lake Michigan was 72 today and the air at Holland State Park was a warm but pleasant 80.

Activity at resorts is reaching that frenzied pitch, with everyone "cramming" to enjoy all the things possible in the waning vacation days.

Maple Shade Resort
Vacationers at Maple Shade Resort, Port Sheldon, are taking full advantage of the warm weather by devoting most of their time to swimming and beach activities.

Several fishing parties were featured again this week and picnics and hamburger frites are popular.

Newly-arrived guests include Mr. and Mrs. Kermit Cress and John, Mr. and Mrs. James Wright, Carol, Robbin and Nancy of Troy, Ohio; Mr. and Mrs. Mervel J. Bratt, David, Douglas and Barbara of Cincinnati; Mr. and Mrs. Marvin Vis, Sharon and Joan of Evergreen Park, and Mr. and Mrs. George Hoekstra, Billy and George, of Chicago.

Castle Park
Resorters at Castle Park are preparing their "grease paint" and costumes for the evening of fun Friday, when a gigantic Country Fair will take place. Some weekly events have been cancelled this week to allow all the Parkers plenty of time to prepare for the big occasion.

The schedule to be followed is: 2 p.m., make-up booth opens; 4:30 p.m., Circus parade and pet show; 7:30 p.m., Midway opens.

Some pretty clever booths are planned for the Midway. Children will pick treats from a Christmas tree and receive prizes from a Christmas fairy, Faye Brown. Doris Wanzenberg will preside at a "Peanut Bag" and Wilma Nix will impersonate a mermaid to assist youngsters at the fish pond.

Grinnell Burke will be seen as a balloon clown and Pat Steketee will be collecting "guesses" on her bean jar. Peck Kunkel will run off the snake races and Jane Pease will be in charge of a squirt gun-candle game. A penny cauldron will be closely watched by Karen Herschbach and Jane Peirce and Gilby Peirce and Peggy Car plan "something with noisy tin cans."

A variety of other games and fun are planned for a gala evening. Castle Park Championship Horseshoe Tournament is in full swing. Last year's singles champ, Harrison L. Goodspeed, was taken out of this year's running last week when he was defeated by Jack Hibbard.

Dry Petitions To Be Filed Soon In Ottawa County

There was assurance Tuesday that the "dry issue" will be on the November ballot in Ottawa County.

Petitions, circulated by the Ottawa Christian League consisting of some 700 churchmen, will be filed soon with County Clerk Anna Van

Horsen, according to Abe Sybesma of Holland, league treasurer who said 6,677 signatures of qualified voters in the county are necessary to put the proposal on the ballot.

Petitions are being collected and checked. From preliminary surveys, the response has been good in Holland and throughout the county and there seemed to be a more than adequate number. Petitions must be filed 60 days or more before the Nov. 2 election.

If Ottawa County voters approve the proposal, Ottawa will become the state's first dry county. Three years ago the League sponsored a proposal to ban sale of alcoholic beverages on Sunday and it was approved by a big margin.

One of the strong backers of the campaign is the Rev. Jack Van Dyken, pastor of the Forest Grove Reformed Church and president of the Ottawa Christian League.

"We have no doubt that this proposal will be adopted by the voters. We understand that some people will be spending a lot of money in an effort to defeat this proposal, but we are not worried because money can't buy votes on a moral issue like this," he said.

Officers besides Rev. Van Dyken and Sybesma are Jack Van Hoven of Hudsonville, secretary, and Howard Vande Bunte of Forest Grove, vice president. District leaders are Gerrit Boss of Hudsonville, Roy Dillinger of Grand Haven, Harry Houtman of Holland and Frank De Jong of Zeeland.

Sybesma said he understood Hillsdale County also was working to have the "dry issue" on the ballot in November. Although Michigan has no dry counties, he said one-third of the counties throughout the country are dry.

Council Approves Ordinance for New Pipeline to Lake

Program Also Provides Increases in Rates; Completion Jan. 1, 1957

City Council unanimously adopted an ordinance providing for enlarging and improving the city's water system involving a pipeline to Lake Michigan on an adjourned meeting Monday night.

The ordinance provides for a \$2,700,000 issue of revenue bonds which will be self liquidating. This amount covers the greater share of the cost of the \$3,000,000 project, and the balance of \$298,000 will be obtained from available cash in the water fund of the Board of Public Works. The revenue bond issue will cover 30 years, but based on estimates of engineers the indebtedness probably will be paid, for in 21 or 22 years.

The ordinance which calls for the largest bond issue ever floated for Holland city also provides for a substantial increase in rates. For instance the \$2.40 minimum for three months for residential users inside the city will be boosted to \$4.80. But since most households use more water than the minimum, the cost of greater use will bring corresponding decrease in rates in residential as well as industrial use.

Water users outside the city will pay 50 per cent more than the city rate, according to the ordinance. All rates will be published in Council proceedings later this week in The Sentinel. In issuing water statements under the new rates, the Board of Public Works will follow the established 10 per cent discount for prompt payment.

The water project provides for a 42-inch concrete or steel intake pipe 4,500 feet into Lake Michigan where water is more than 45 feet deep. It further provides for a low service pumping station on the shore of Lake Michigan and a filtration plant with a guaranteed capacity of 14,000,000 gallons a day which can be enlarged to produce 20,000,000 or more gallons a day. The intake pipe is large enough to pump 30,000,000 gallons a day.

The filtration plant will have a 1,000,000-gallon clearwell and high service pumping facilities. A 36-inch transmission line will be laid from the treatment plant to River Ave. in Holland, and a 30-inch transmission line will be laid from the treatment plant in the vicinity of Tunnel Park to River Ave. in Holland, and a 30-inch transmission line will be laid along River Ave. to the intersection leading into the distribution system. There also will be some improvements to make a satisfactory distributing system.

Supt. George Rendleman said he estimated the average family will pay about \$30 a year more in water bills when the new system is put into operation. But he added the quality of the new water will be such that no water softeners will be necessary, and there will be a considerable saving in the use of soaps.

It was pointed out that the water program is not a general obligation program of the city which would require a vote by the people. In a revenue bond program, revenue received makes the bonds self liquidating.

Bonds will be dated Oct. 1. Bids will be received up to 7:30 p.m. Oct. 13. The ordinance lists a completion date of Jan. 1, 1957, but it was expected that the project would be completed before that.

Black and Veatch, engineering firm of Kansas City, Mo., are currently making detailed plans and specifications for the project. Several survey crews have been at work on the proposed route from Tunnel Park to Holland.

All councilmen were present at the 13-hour meeting except LaVerne Rudolph and Anthony Nienhuis. Mayor Harry Harrington presided.

Holland Guards Called Out for Traffic Patrol

Holland's National Guard Co. D has been requested to furnish 14 men to assist police in traffic control during the forthcoming Labor Day holiday.

The request came on the heels of an earlier order by Gov. G. Mennen Williams that he planned to call units of the National Guard to help police curb traffic fatalities.

The request to the Holland company came from 126th Infantry Regimental headquarters Monday. Tentative plans call for 12 of the men to be assigned to the Grand Haven State Police post and two to the Allegan County Sheriff's department.

Sheriff Jerry Vanderbeek in Grand Haven today said he has forwarded a request to Lansing for four men. Vanderbeek said three of the guards would be assigned to the southern half of the country and one to the northern portion.

State Police officials said one guardsman would be placed in a cruiser with a regular trooper. The same would hold for counties where a man would work in conjunction with a deputy.

At highly congested intersections the guards would be assigned to traffic control releasing police for accident investigation and other work.

Officials said the guards would work regular shifts starting Sept. 6 or 7 depending on the volume

of traffic. The men would receive their base pay per day plus a food allowance and if necessary money for housing.

By using one guardsman in each State Police car it will double the number of state cars for patrol duty. State troopers normally use two men per car during patrol duty after 6 p.m.

Nice Weather Attracts Large Racing Fleet

Warm weather and cool breezes made weekend racing on Lake Macatawa a real pleasure-win, lose or draw. Apparently it was so nice that some contestants had difficulty keeping their mind on the racing, as here were no repeat winners on both days.

Results in order of finish were: Saturday — 110's, Dale and Don Van Liere, Peter Sears, Jim Boyd, Clark Field; Lightnings, Jane Boyd, Rick Linn, Paul Harms, Buzz Boersma, Caryl Curtis Ewart; Nippers, (protested).

Sunday — 110's, Bill Jesiek, Peter Sears, Jim Boyd, Clarke Field, John Aves; Lightnings, Buzz Boersma, Paul Harms, Jane Boyd, Caryl Curtis Ewart, Sally Copeland, True McDonald, Rick Linn (disqualified); Nippers, John Beeman, Fred Bissell, Ed and Tom Marsilje, Joe Good, Kenny Hamm, Moore, Nancy Barkwell, Tim Walker, Verdier, Tom Baker, Cavanaugh, Bradford.

North End, Vets Win Softball Tilts

Gra-Bell, riding the crest of a one game winning streak, tripped again Monday night in City Softball League action as they failed to field a team and lost a 7-0 forfeit to the Vets.

But fans saw enough good softball at Van Tongeren Field in the first contest to make up for the one game deficit. Battling right down to the wire North End edged past Fords 5-4.

Bats were swinging in the first three innings, and then suddenly were tamed.

North End scored in the opening stanza on walks to Chick Zych, Case Velderman and Ray Klomprens' single.

Fords knotted the score in the bottom half of the same frame on singles by Wes Timmer and Gord Barense, and Al Pierrma's double. The contest continued to see-saw in the second when North End chalked up another run on Don Van Ingen's double. After Fords went scoreless in the second, North End tallied again in the third on a walk to Dell Koop and singles by Ed Stille and Klomprens.

Fords started out the third inning in great shape and it appeared they would catch up. But two runs, on Chet Pierrma's single and an infield error, weren't enough and scoring came to a screeching halt.
