#### GRAND RAPIDS MEN HAVE LEAS- ED KNICKERBOCKER

Young Men Are Hustlers.

The Knickerbocker theater of this city has been leased for the season 1914-15 by Harold W. Long of Grand Rapids, who has been recently connected with Powers' Theater of that city. Mr. Long will open the theater with a Labor day matinee, having booked the Husted Players, a stock company, for an indefinite engagement. The policy of the theater this season will be to give good plays with capable actors to produce them at a price which will make it possible for everyone to attend each new play. The bills will be changed twice a week, on Monday and Tuesday nights, with Wednesday and Saturday matinees. The Husted players have engaged a special artist to paint entirely new scenery for each play, and will be under the direction of Charles Husted, who is widely known as a stage director of ability and who is always identified with realistic and artistic productions. Mr. Husted was recently connected with the Mary Servoss Co., which was so well liked in Grand Rapids.

The seat sale opens on Thursday Sept. 3, at nine o'clock and the prices will be 10, 20 and 30 cents.

#### CELEBRATE FORTY-FIFTH AN- NIVERSARY

Friends Gather Last Night at Home

of Mr. and Mrs. G. Van  
Schelven

Forty of the friends and neighbors of G. Van Schelven gathered at his home last evening to congratulate him and Mrs. Van Schelven on the 45th anniversary of their marriage. It was a complete surprise for Mr. Van Schelven. He had been to the postoffice and on his return he found his home occupied by the friends and neighbors.

The evening was most pleasantly spent in recalling old time scenes. Dainty refreshments were served by a committee of the guests. Hon. G. J. Diekema acted as toastmaster and the following responded to short toasts, conveying to Mr. and Mrs. Van Schelven the congratulations of the assembled guests, Dr. Henry E. Dosker, Dr. G. J. Kollen, Dr. Ame Vennema, Mrs. E. C. Oggel and Dr. James F. Zwemer.

The guests presented Mr. and Mrs. Van Schelven with a portable electric lamp as a token of the esteem in which they hold the youthful old couple.

#### "WHY I AM A REPUBLICAN"

Hon. G. J. Diekema is now on the Chautauqua platform having spoken Monday at Sycamore Ill. He was booked for one of the numbers on the regular course. "Diek" spoke on the subject "Why I am a republican" and no doubt he told the tall Sycamore's the reason more emphatic than Roosevelt could have done.

#### MANY POCKET BOOKS BEING LOST IN HOLLAND

But No One Guesses The Right One

In last weeks "News" S. C. Verburg of the De Pree Hardware Co., of this city advertised in a five line want ad that he had found a pocket book that contained a sum of money and ask the owner to call and prove his property and if the description was found correct it would be handed over to the proper person.

Shortly after the "News" appeared people began to arrive at the De Pree Hardware store claiming that they had lost a pocket-book. All kinds of descriptions were given all denomination of money were mentioned. Pocket books with chains and pocket books without, also some with leather straps were among those described but none tallied with the pocket-book found.

There are two things that stand out conclusively the one is the fact that if these people were honest, that Holland folks are very careless with their money. This is shown from the fact that more than a dozen different pocket-books were described as being lost within the last few days. The second fact is self evident that advertising in the "HOLLAND CITY NEWS" pays when a five line local brings so large a response.

#### MANY RESULTS OF IRREGULAR- ITY IN PRIMARY VOTE WITH DISBARMENT OF SCORES OF BALLOTS OVER THE COUNTY.

The first trial of the new primary election law in Holland and county was received and disposed of Tuesday in an unusually small representative vote. Excepting a few scattered instances of close competition for the county offices, the heads of the ticket were nominated without great notice able competition. Until the time for the election many voters did not know who headed the ballot in the state.

Factories did not close Tuesday on account of the duding that the polls remain open until 8 p. m. in the city. This gave every citizen in the city a chance to cast his ballot, but the number of voters who are responsible for naming the entire roster of candidates is thought to be the smallest of any previous election.

Every precinct reports numbers of ballots disbarred. The main reason for this was ignorance resulting from a lack of interest in the election. The greater portion of spoiled ballots were those upon which the voter had seemingly made an effort to vote straight party ticket by crossing the large circle. However, instructions for voters were scattered far and wide and posted upon every side long before the election. The number of ballots spoiled over the entire state is expected to reveal many a dark horse.

There is a feeling of general dissatisfaction with the primary election law over the entire county.

#### SNAKE EMBRACES ANKLE STINGS AND DISAPPEARS

Henry Boon, of Ferrysburg, Remembers Incident When Ankle Swells to Twice Natural Size Hours Later

#### KILLS SIX FOOT BLACK SNAKE

When Henry Boon, of Ferrysburg was returning to his work at the Fountain Specialty Works in Grand Haven at noon Monday he followed the path through the tall grass along the river as usual. Suddenly a large snake darted out of the matted grass wound its body around his leg, sank its fangs into his ankle and darted away again.

But still the serenity of Boon's stroll back to his labors was not greatly shaken and not until his ankle had swollen to nearly twice its natural size two hours later did he remember that he had been snake bitten. Boon then went to a physician and had the two tiny wounds cauterized. The physician assured him that the bite was not necessarily dangerous.

Later in the day fishermen killed a black snake over six feet in length near the place where Boon's ankle was embraced.

The congregation numbers over 400 families and is the second largest in the Christian Reformed denomination. Some fifty families were visited each week and these visits were of an hour's duration.

## HOLLAND TOWN

As predicted before the election farmers Tuesday did not come out to the polls in great numbers, at least in this part of the state. In Holland township for instance only about a third of the farmers thought it worth while to come to the polls. The normal vote in that township is something over five hundred, while the total vote cast for all the candidates was only 176. There was very little for the farmers to come out for. Many have to drive several miles to get to the polls, and there were not enough contests to interest most of them. In most of the other rural districts too in Ottawa county the vote was very light.

Holland township stood well by Fred T. Miles for prosecuting attorney. He received 113 votes as over against Louis H. Osterhaus 34. Holland township also stood well by their own candidate for register of deeds. They gave Jacob Van Dyke 104 votes and John Van Anrooy only 37.

## FILMORE

The local health department has been conducting an investigation into a case of typhoid fever in Filmore township. The case was not under the jurisdiction of the Holland department, but the fact that a milk dealer delivering milk in this city received its supply from the same caused the local department to look into it. It was found that the milk supply was perfectly safeguarded, the case of typhoid being in a different home than the one occupied by the milk dealer. Health Officer Godfrey gave full instruction and took all the necessary precautions, so that he stated there was no possible danger from the milk. The Filmore township health officer is also watching the case.

There are present three cases of typhoid fever in Holland. All are in the mild form and some of them are rapidly recovering. Health Officer Godfrey believes that all the local cases were brought in from the outside.

## Good Reason For His Enthusiasm

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured sound and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, it is natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy. It never fails. Sold by All Dealers.—Adv.

## SAUGATUCK

Frank M. Shires, twenty-one years old, lost his life while canoeing on the Kalamazoo river at Saugatuck Saturday when the canoe capsized and he and his friend in the craft were thrown into the water. Young Shires could swim and his friend could not, yet the friend was saved and young Shires lost his life. It is believed that if he had struck right out for shore he would have saved his life, but he made an attempt to save his friend who could not swim. However the burden in the water was too heavy for him and his efforts so exhausted him that he went down while others on shore were in the act of rescuing the man who could not swim.

It seems that in the excitement of rescue work no attention was paid to Shires who was supposed to be able to take care of himself and he went down. The work of finding his body was begun immediately. But it was some time before the body was recovered by the use of grappling hooks.

Young Shires' home is in Michigan City. He came to Saugatuck with the Knights Templars, having worked his way here on the boat.

The body was taken to Michigan City last night and burial will take place at that place.

All the children of Allegan county under sixteen years of age will be given a free ride on the steamship "United States," the vessel that is on the Saugatuck-Chicago run this summer. The invitation has been extended by the Indiana Transportation company. The free trip will be made on Lake Michigan Sunday, August 30. The vessel will leave the Douglas dock at 1:30 in the afternoon and the Saugatuck dock at 2:30 o'clock. The return will be made at 4 o'clock. No tickets will be required. This announcement is issued by Charles E. Bird, passenger agent of the company at Saugatuck.

## HUDSONVILLE

Hudsonville, Mich., Aug. 25.—The rope was tied around the calf's neck and the other end was securely fastened around Anthony Ditaler's waist. Anthony don't think that it is a healthy or even safe way to lead a healthy calf. Anthony was carrying two baskets of eggs to the store and wishing to take the calf to pasture at the same time used the dangerous expedient of tying himself fast with the rope. Everything went well for nearly five minutes, for the calf was used to the leash; but a neighbor's dog looked upon the arrangement as unusual and proceeded to investigate. In fact, he accompanied his investigations with several unearthly growls and snarls, to which the calf immediately took umbrage. Anthony summoned his very choicest and gentlest tones in trying to persuade the calf that the dog was not dangerous, but the calf would not be convinced. When the dog jumped for the calf's nose the calf jumped for the side of the road in such haste as to tumble Anthony into a heap and the eggs into the path in front of him. At this the calf proceeded to take a good sized piece of Anthony's clothing as he passed by. Anthony says that considerable skin went with the clothing and he presumes that the dog has it yet.

The calf chose the side of the road for his race course, and right thru the space that Anthony had lately cleared of brush. The sharp, ugly stubs were sticking up in a manner that made rug stuff of Anthony's outer garments and not a few of them took toll of Anthony's tender skin. The dog barked and the calf bawled, but Anthony could not stop them in their mad career. At last the calf turned into a neighbor's barnyard and the turn was so short that Anthony was brought up against the gate post and there he got a death grip on something that nearly jerked the calf's head off.

Anthony's neighbor heard the confusion and hastened to the scene, and succeeded in releasing Anthony from his perilous position; but when the rope was untied it was found that Anthony had fainted. The neighbor got him into a buggy and took him home where medical aid was summoned. A careful invoice of injuries Anthony has sustained revealed a nose that was dangerously near the right ear and the bones thereof badly smashed. The right eye—Anthony's, not the calf's—was swollen shut. Several pieces of skin were missing and from 5 or 6 places had to have the surgeon's needle before they could be held in anything like continuity. Anthony's clothing was immediately relegated to the rag bag and Anthony himself put to bed.

## HEAD OF DEPARTMENT OF EDUCATION, PROF. L. EDISON OF HOPE COLLEGE LEAVES FACULTY

Accepts Position With The Preferred Life Insurance Company Of Grand Rapids

The resignation of Prof. Lambert Eldson as head of the department of education of Hope College came as a surprise to the college authorities. Prof. Eldson sent in his resignation to Hon. G. J. Diekema, secretary of the Hope College council. The former professor has accepted a fine position with the Preferred Life Insurance company of Grand Rapids. Prof. Eldson will continue to reside in Holland. A large part of his time will however be put in, in the office of the company in Grand Rapids.

Prof. Eldson has been a member of the Hope College faculty for two years, coming here from Chicago where he was taking postgraduate work at the University of Chicago. He has been interested in insurance work for some time and while at the Chicago university he took work in that line. He is a native of the state of Kansas and was engaged in public school work for some time before going to Chicago.

Prof. and Mrs. Eldson have made many friends during their brief residence in Holland, and although Mr. Eldson will be away from the city much of the time the family expect to make this city their permanent home.

## BENEFIT SHOW FOR SHAW WILL BE GIVEN SEPTEMBER 11

Injured nearly a year ago in an interurban accident, Motorman Shaw both of whose legs were broken in that accident is still confined to his home and is still suffering from that smash-up. The accident happened early in September last year and during all that time Shaw has been laid up. He has submitted to more than one operation, but another operation has become necessary. The flesh has not grown properly over the bone of the leg that was amputated and this has caused excruciating pain sometimes. The operation has been necessary for some time past, but the funds have been lacking to pay for it. Shaw is receiving \$7.50 as compensation under the workman's compensation act, but that amount is not sufficient to save anything out of for the operation.

Learning of these facts the Modern Woodmen and the Royal Neighbors have come to the rescue. These organizations will make an attempt to provide the necessary funds to give Motorman Shaw an opportunity to have the operation properly performed. And these organizations will give the general public an opportunity to help in this work. To do this they have made arrangements for a public entertainment as a benefit for Shaw. The entertainment will be put on on the evening of September 11, and preparations for it are now in progress. The program is under the direct supervision of John Van Vyven, better known by his stage name of "Dugan," and he will put on some of the best talent in the city in a performance that is promised as something distinctly different from anything ever given in this city.

Tickets for the entertainment will soon be placed on sale. These tickets will not have a fixed price but each purchaser will be given an opportunity to pay for them whatever he sees fit to give. He will get his money's worth and at the same time will be helping in a work of local benevolence.

Mrs. Florence Babbet of Ypsilanti was in the city Monday seeing a number of people here for the purpose of interesting them in curios that she has been collecting during a life time of that kind of work. Mrs. Babbet is an interesting woman in many ways. She has spent most of her life in collecting curious things and her collection is one of the best in the country.

During the past nine years she has made a business of selling curios besides collecting them for her own private collection. During that period of time she has sold about sixty thousand dollars worth of rare articles, including quilts, brooches, pins, rings, etc. She has added to the collection in the state museum at Lansing as well as to the Art Institute in Chicago.

Mrs. Babbet expects to come to Holland and she will be at the Holland fair this fall to exhibit some of her collection.

**FACTORY SENDING MOST PEOPLE TO FAIR EMPLOYEES**

**WILL GO IN FREE**

**INSTITUTION BEST REPRESENTED AT FAIR TO GET MONEY BACK**

**Same Plan to Be Followed In Regard To the School Pupils**

The factory in Holland employing more than 75 men which is best represented on Wednesday, Holland day at the Holland fair in proportion to the total number employed is going to get its money refunded at the close of the day. There are ten factories in Holland each of which employ more than 75 men, some of them as many as four hundred and fifty. Many of these institutions will enter the contest and each will try to outdo the other in attendance. The factory that wins will return the money paid for tickets and the employees will consequently see the big show for nothing.

A similar plan was decided upon Friday night by the fair board in regard to the local schools. The room or grade that is best represented in proportion of pupils enrolled will also have the money refunded and the children of that room or grade will go in free of charge.

In case of the factories different kinds of tickets will be issued by the fair for each factory so that at night it will be known which institution was best represented. But in the case of the schools the pupils of the different rooms will have to come in bodies. The directors would like to have the different factories appoint committees who will canvas the men to see which institutions will enter the contest.

The directors plan to make Wednesday the big day of the fair this year. The stores, factories and the schools will close and the program of the day will be better than that of any other day. There will be running races, ladies running races, girls bare back races, fancy riding stunts, novelty races, a cavalcade parade in the afternoon around the race track in which Mr. Getz's animals will appear including elephants, camels, bears, monkeys, etc., as well as the finest blooded stock and horses entered at the fair.

The program will further include drills by the Boy Scouts and a number of athletic events under the direction of Principal Gilbert and Secretary Moody.

**WORK OF PUTTING CENTRAL AVENUE IN SHAPE IS BEGUN**

Work has been begun on the repairing of the paving of Central avenue. Monday the machinery was brought to the city to begin the job. Because of the many places to be repaired it is expected that the work will take some time.

Holland has had more trouble with the Central avenue paving than with any other paving in the city. It was put in by Contractor Van der Veen of Grand Rapids. That was in the days before Holland went into the paving business on its own hook. Soon after the job was finished it was found to be unsatisfactory and at one time the city repaired some of the bad spots, charging the expense up against the contractor.

Repeatedly the council has taken the matter up with a view of having the paving put into proper shape. Some time ago City engineer Nabers reported that it would not be advisable for the council to order the repair work done at the city's expense, charging the cost against the contractor for the reason that practically a new paving was required because of the poor condition of the street.

The contractor and his bondsmen were thereupon notified to put the avenue in shape, which they promised to do. The beginning was postponed so long however that at a recent meeting the council ordered the city attorney to start immediate suit against Van der Veen or his bondsmen. This action of the aldermen brought results and the actual work of repair has now begun.

**AT HOPE COLLEGE**

Numerous Improvements Have Been Made on the Campus; Fall Terms Opens Sept. 15.

The fall term of Hope College opens Wednesday, September 16. The enrollment of new students and examination for admission take place on Tuesday, the 15th at 9 a. m. in Graves Hall.

The prospect of a large enrollment is excellent. A goodly number have already declared their purpose of attending either the Preparatory department or College, while many more have made inquiry and will soon come to a decision.

Van Vleck hall, the dormitory for young men, has undergone important improvements; the outside wood work has been painted; a cement walk has been laid along the north and east sides of the building to Carnegie Gymnasium; the plumbing has been thoroughly overhauled; the electric lighting system has been so changed as to conform to the rules of the insurance underwriters; and the decorators have touched up the whole interior. A former student of more than a quarter of a century ago, inspecting the place, remarked that the old home looked more inviting and was more comfortable than ever before.

The new head of the department of Modern Languages is Professor Edward Elias. He was born in Germany where he studied German and French, later going to France for the further study of the latter language. Coming to this country he graduated from the Kansas State Normal school received his A. B. degree from Harvard University and his A. M. degree from Chicago university. He has had 15 years of successful experience in Modern Language teaching, seven in the Kansas State Normal college and eight in Purdue University.

The chair of Bible and Philosophy which Prof. J. E. Kuizenga leaves for a year of post-graduate study, will be filled by Rev. George Boone McCreary, an ordained minister of the United Presbyterian church. Dr. McCreary graduated from Muskingum college in 1895, from Allegheny Theological Seminary in 1898, studied at the University of Chicago in 1901, and received his Ph.D. degree in 1913. He has been professor in the Epworth University, Okla., Cooper College, Sterling, Kan., for the past six years, occupying the chair of Bible and Philosophy. Mr. Ralph D. Kyle Educational secretary of the United Presbyterian church says of Dr. McCreary: "I know him to be a thorough, hard-working student with a forward look. His work is regarded. He understands the professorship of teaching and is successful. Teaching with Prof. McCreary is more than a profession—it is a calling. He can be counted on to emphasize the things of the Spirit."

Other new instructors who will appear on the faculty when school opens this fall are John Tillemas, a member of the class of 1914, who will serve as instructor in Latin and English, and Miss Alta J. Lich of Big Rapids, who has been engaged as instructor in the department of English. Mr. Tillemas during his course of study at Hope has shown himself a scholar of marked ability. Miss Lich has had a brilliant career as high school teacher and she comes highly recommended.

**JAY ALDRICH RELEASED FROM IONIA PRISON**

Jay Aldrich of this city, who was sent up to Ionia Reformatory about four years ago when he was found guilty in circuit court on the charge of having burglarized one of the Holland stores, has been released. Aldrich has been granted a parole by Governor Ferris.

During his stay in Ionia Aldrich has turned a new leaf. The prison authorities speak very well of him and it is because of his good record that he was granted the parole on recommendation of the state board. He will come back to Holland and begin his life here anew as a good citizen.

**September 8 Will Mark the Last of Day Trip on Holland-Chicago Line**

Double daily service on the Holland-Chicago line will terminate Tuesday; Sept. 8. When the steamers Puritan and City of Grand Rapids will alternate on the daily schedule. Later the Puritan will be operated on a daily schedule, making round trips every day.

**HAD TO HAVE ANOTHER ALLEGAN ATTORNEY**

**CHARLES WILKES WILL REPRESENT COUNCIL IN VAN DUREN CASE.**

Court Methods Will Be Followed As Far as Possible At the Hearing.

Attorney Charles Wilkes of Allegan has been engaged on behalf of the common council to represent that body at the hearing of Arthur Van Duren, which hearing will probably be held in about a week. Mr. Wilkes is one of the best known attorneys in Western Michigan. The members of the council who went to see him about the case declare he was engaged because they believe he is a square man in every respect who will be fair in his treatment of the case. They declare that they went over the ground with the attorney and told him that all they wanted was to get at the truth of the matter no more and no less. They told him they wanted nothing more or less than a square deal for all concerned.

There is an impression that the council was supposed to engage a local attorney to represent them in the case. This is however a mistaken idea. After the motion had been passed that an attorney was to be engaged for the council the suggestion was made that he should be a local man, but that suggestion was not incorporated in the motion, hence was not binding on the committee that had charge of engaging the attorney. They believed that an outside man would serve better the purpose. Att. Fred T. Miles will probably assist him in the case, since the committee hearing was held before him.

There seems to be another mistaken notion, namely that the attorney who has been engaged will represent the license committee. This the members of the license committee deny emphatically. According to them the attorney represents the council as representative of the people of Holland. The license committee has merely acted as a representative of the council and has made certain investigations. Technically it is not they who are conducting the prosecution, but the council as a body.

While there are a number of points of resemblance between the hearing and a regular law case there are also a number of points of dissimilarity. However regular court procedure will be followed as much as possible.

**U. S. CAVALRY CAMP AT FAIR GROUNDS**

Troop D, Fifth U. S. Cavalry, arrived in Holland late Friday noon and went into camp for the night at the fair grounds. The troopers in command of Captain Taylor, are on their way back to the home barracks from Ludington, where they have been encamped all summer.

The cavalry hiked the entire distance from Fort Sheridan, Chicago to Ludington, early in the summer, and they are now covering the entire distance back home over the same route.

**Douglas Laborer Is Supposed to Have Eaten Too Many Plums**

Felippo Tanburre, an Italian aged about 27 years, died suddenly at the home of Charles Brant, near Douglas Friday from indigestion believed to have resulted from eating too many plums. Tanburre had been employed on Brant's farm since July and little is known about him. He had no ears, as these were chewed from his head by hogs when a child.

**Candidate Leonard Trap Has Busy Time Ahead of Him.**

**GRANGER DAY ANNOUNCED AT GREATER MICHIGAN FAIR**

Master Granger Ketchum and Executive Committee Have Selected Thursday September 3rd—Plan to Attend in Body—Big Automobile Parade of Grangers.

There is no question that the attendance at the Greater Michigan Fair, to be held in Grand Rapids September 2, 3, 4, 5, 6 and 7 will be greater than any Fair yet given, exceeding by far the 100,000 figure reached last year. The reasons for this are manifold. In the first place, the management of the Fair has succeeded in elevating its tone, objectionable features having been eliminated. Exhibits of practical value to the farmers and the householder will take the place of frivolous and unimportant displays.

provided in which will be cots and chairs so that the ladies and children can be taken care of comfortably when in need of rest. An address of welcome will be delivered to the Grangers by Joseph H. Brewer, president of the Greater Michigan Fair, and a reply thereto will be made by Mr. J. C. Ketchum, Master of the State Grange.

It is gratifying to the management to feel that the farmers are thus co-operating with it and showing their appreciation of the efforts made in their behalf. It shows that it is realized that Grand Rapids is the me-

Realizing this to be the case, the Grangers of the State of Michigan, with the co-operation of J. C. Ketchum, Master Granger, and the approval of the Executive Committee, have decided upon attending in a body on Grangers' Day, Thursday, September 3rd. It is probable that a Granger Automobile Parade will be arranged, in which there will be more than 1,000 automobiles owned by Western Michigan farmers, members of the Grange. A commodious tent has been

tropolis of the greater portion of this great state and that the prosperity of the state is the prosperity of the city, and vice versa. The excellence of the products of the soil and the factory shown at the Grand Rapids Fair will cause the news to be carried to the far ends of the earth through the channel of the newspapers and Western Michigan will be placed upon the map of the United States as it should be, as the garden spot of the country.

This gives Miles a total vote of 464 in the city of Holland while only 215 were cast for his opponent Osterhaus.

According to this morning's returns, Osborn will win with a plurality of about 12,000. This is the result in the State:

There is no mistake about it that the republicans of the city of Holland are strong for Chas. S. Osborn for Governor. Mr. Osborn received a very large vote in this city as compared with his four opponents. There was only one ward in the city that did not give Osborn a plurality. That was the second, in which Osborn ran two votes behind Ellis. In the first Osborn received 64, in the second 14, in the third 76, in the fourth 64, and in the fifth 101, making a total vote in Holland for Osborn of 319.

Hon. George E. Ellis of Grand Rapids ran second, so far as the city of Holland is concerned, which is rather surprising. The Grand Rapids "Deacon" received a total of 156 votes. Martindale ran third with 104 votes and Groesbeck ran a very bad fourth in Holland, getting a total vote in Holland of only 22.

That Osborn should run strong in Holland is not very surprising, he having made a good impression the times he appeared here. Groesbeck spoke in Holland only once, at the time of the Merchant's banquet last winter, but it seems he made a poor impression on the Holland people, since only 22 in this city could be induced to vote for him.

## CITY WILL NOT GO INTO PLUMBING BUSINESS

By a vote of six to three the common council Friday night decided to drop the proposition of having the city go into the plumbing business. The vote came in the nature of a report of the Ways and Means committee to whom the plumbing proposition had been referred. Speaking for the Ways and Means committee, Ald. Prins, chairman of that committee, said that the Ways and Means committee had gone into the matter very carefully and that they had come to the conclusion that the best course would be to drop the proposal. His motion was that no further action be taken by the council in the matter and this prevailed by a six to three vote. Aldermen King, Drinkwater and Vander Hill voting against the motion.

When asked for the reason why the Ways and Means Committee made that report Ald. Prins said that the committee had consulted four or five attorneys and that all had given the opinion that the proposed municipal plumbing system was illegal. For that reason, he said, it was unwise to go into the matter further. Ald. Congleton, another member of the committee, backed up the statement of Mr. Prins in regard to legality.

City Attorney Van Duren made a statement on behalf of Mayor Bosch who was absent in Chicago. The mayor had asked the city attorney to request the aldermen to postpone action on the matter until such time as he could present a further message on the subject. Some of the aldermen said however that the proposal would be up against the consideration of illegality two weeks from now just as much as now, and that in the meanwhile the plumbing business in Holland was being hurt. For that reason an immediate vote was urged, and finally taken.

Speaking on behalf of some of the plumbers of Holland, George Van Landegend thanked the council and said they had done what they should have done at the start. He said the plumbing business in Holland had been seriously hurt by the agitation caused by the action of the council, and he declared he thought it was up to the aldermen to help the plumbers out of the hole into which the action of the council had put them. He said the plumbers did not like the reputation of conducting their business unfairly and they did not like to be looked upon as robbers. And yet that was what had resulted from the action of the council, he said.

Mr. Van Landegend asked that the council appoint a committee and that this committee investigate the plumbing business in Holland. Speaking for those who were present at the meeting Mr. Van Landegend said they were ready to let a committee that was fair and unbiased go thru their books with a view of learning the real facts about the plumbing business in Holland. He declared that such a course of action was due the plumbers and that the council should find out if the charges were reasonable or not and should then make the result of the investigation public.

There were several expressions from the aldermen on this point, some favoring it and a few not favoring it. Mr. Van Landegend again was given the floor and he became more emphatic than before. He said the plumbers demanded some such action from the aldermen and that it was due them in view of the former action of the council.

A motion was finally passed referring the investigation to the Ways and Means committee.

## TWO HOLLAND ROADS BEING IMPROVED

Will Be Completed This Summer  
Two roads that are direct outlets for Holland are being improved by the Ottawa county road commission. One is the road that leads to Grand Haven and the other is the so called North Holland road. The contract was let Wednesday for two miles on the Grand Haven road, beginning near the Pine Creek school and going north. Contracts have also been let for four miles on the other road, two miles south of North Holland leading into Holland township and two miles north into Olive township. The work of hauling gravel on the road in Olive township has begun. All this road will be completed this summer.

## THE "CHAUTAUQUA" IS FORTY YEARS OLD

The present summer marks the fortieth anniversary of that most distinctively American institution, the Chautauqua. In this connection it is of interest that the past twelve months have witnessed the greatest development of the Chautauqua movement in all its history.

There are 800 more Chautauqua in the United States this summer than there were in 1913, increasing the grand total to about 2,930. More than 2,200 of this number are held in tents. In fact, the most important and far-reaching innovation that has come to this movement was the introduction, about seven years ago, of the traveling tent or "circuit" Chautauqua, which someone has styled "the last word in popular education."

This new factor had its inception in the west, first invading Minnesota, Missouri and Iowa, then spreading into Nebraska, Kansas and Colorado. In the middle west the traveling-tent Chautauqua made its debut in Indiana, Illinois, Ohio, Pennsylvania, and Michigan, and later in the south in Georgia, Alabama, Tennessee, Kentucky, Oklahoma, and Texas. This season in New York, the state in which the Chautauqua idea originated, there will be at least 25 circuit Chautauquas.

This year the Chautauqua season began a month earlier than usual. Having opened in cities on the southern seaboard in late April, it will close simultaneously in Pennsylvania, Ohio, Michigan, and parts of the west in September. This close will be just in time for the annual social and business gathering of the international organization of lecturers, musicians, and all others interested in our American forum as represented in the Lyceum and Chautauqua. The gathering will be held at the birthplace of the Chautauqua movement.

## BIRDS IN THE BIBLE

There are more than forty species of birds spoken of in the Bible. We recall the frequent references to doves, several kinds of them being mentioned. David was hunted as "a partridge in the mountains;" he was "like a pelican in the wilderness," so forlorn did he feel. Again, "I am as a sparrow alone on a housetop;" "As for the stork, the fir tree is her home." Who will not recall the words "wings of the morning," "wings of a dove," "wings of the wind," "wings of the Almighty?"

## WAR EFFECTS CLAM SHELLS

## River Profit Less

The clam shell fishermen along the Kalamazoo river have ceased operations because shells at present are worth nothing. Last week the buyers who came here showed telegrams from eastern firms, telling them not to buy any more shells. The European war put the market in such condition that there is no demand. A few weeks ago the shells were selling for \$30 per ton and there are many tons lying along the river banks at present. The shells from the Kalamazoo are all exported to Germany for use in making jewelry specialties.

## WANT ALL WATER USERS TO PAY THE SAME

## PETITION CIRCULATED FOR THE AMENDMENT TO CITY CHARTER

Asked That Large Consumers of Water Pay Same Rate as Small Ones

Petitions were being circulated today asking for an amendment to the city charter to abolish the system of charging for water that is now in use. The petition asks that the large manufacturer who uses perhaps a thousand times as much water as the single householder shall pay as much for his water per gallon as the small consumer and shall not be given a better rate because of the fact that he does use a great deal of water. A number of the petitions are being circulated and many signatures have already been secured. The petition reads as follows:

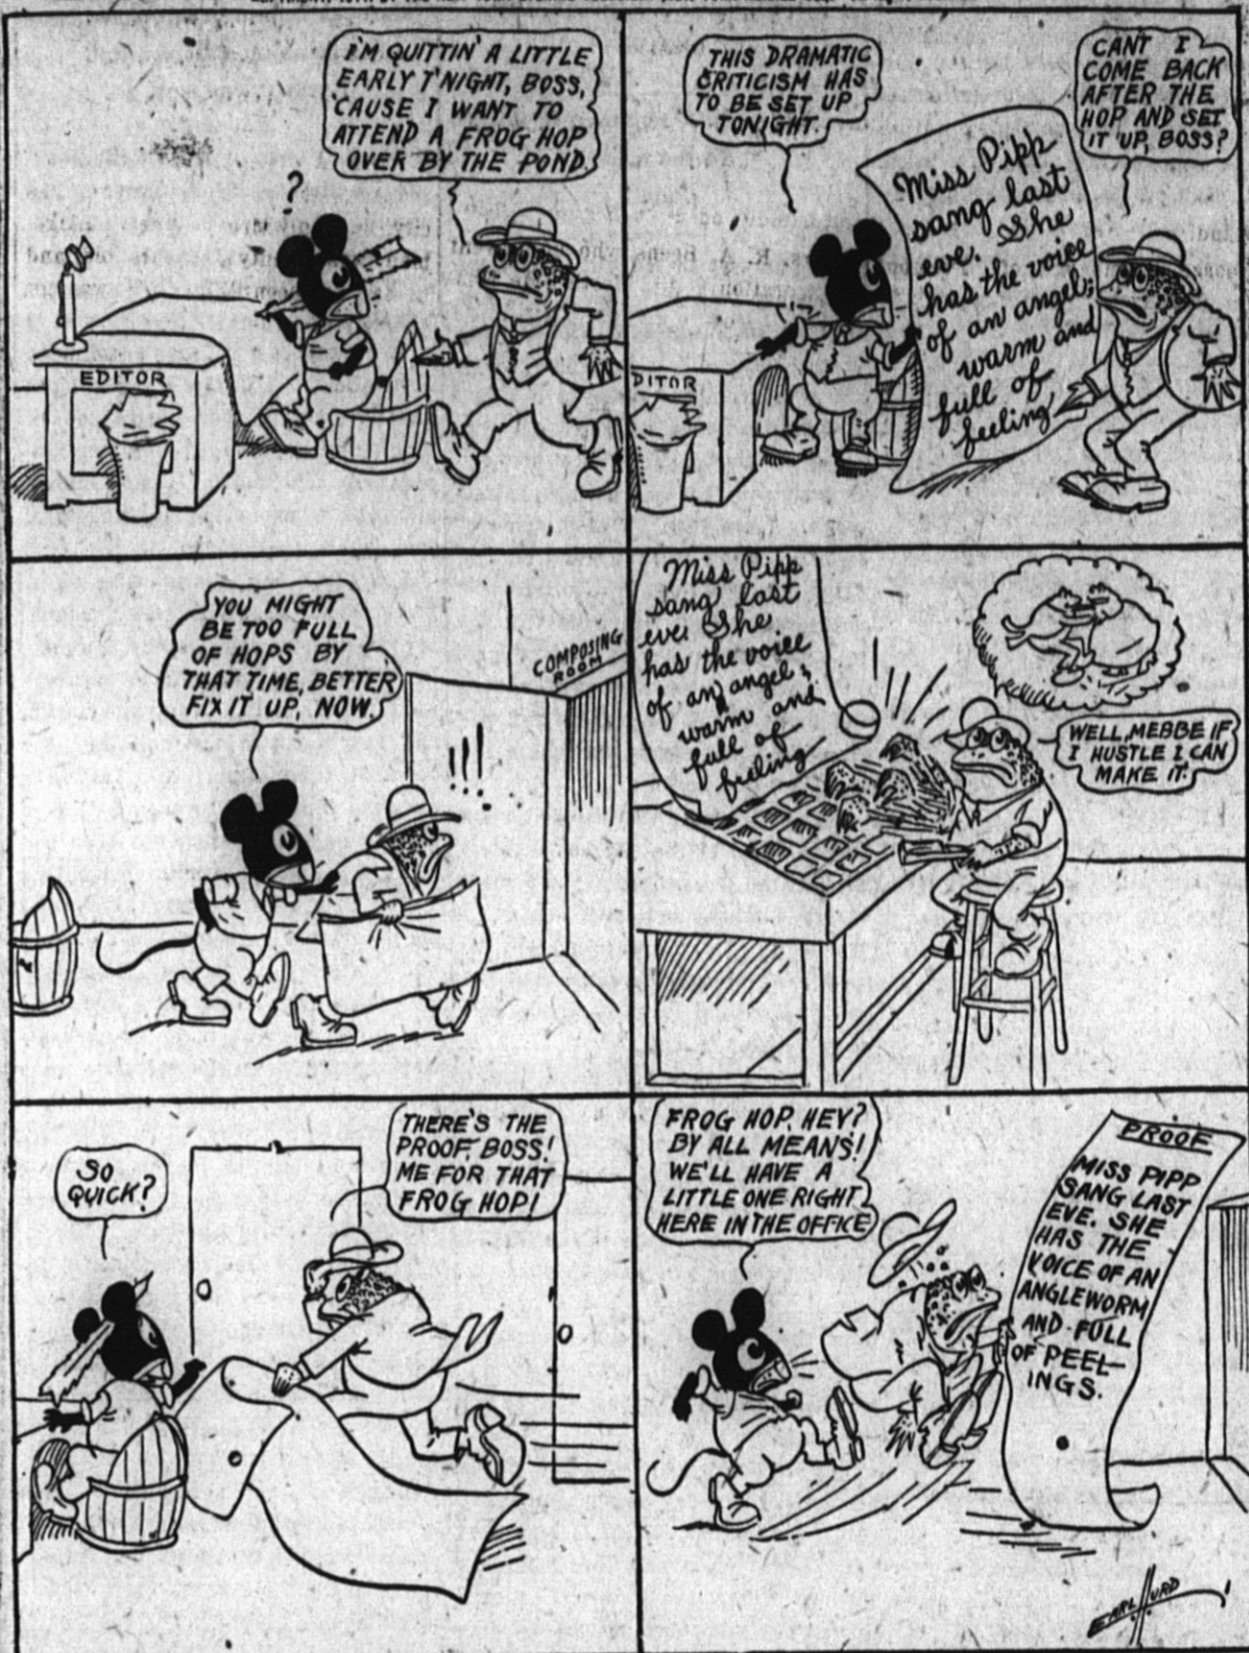

To the Honorable the Mayor and the Common Council of the City of Holland:—

Gentlemen:—  
We, the undersigned, electors of the city of Holland, hereby petition your honorable body to submit to a vote of the electors of the City of Holland, at the general election to be held on Tuesday, November 3rd, A. D. 1914, an amendment to the City Charter, to be known and designated as section 8-A, of Title XIII of said City Charter, said section to read as follows, to-wit:—

Section 8-A Water rates shall be fixed upon a unit of one thousand (1,000) gallons or one hundred (100) cubic feet of water passing through the meter of each consumer as the Board of Public Works shall determine, and as shall be approved by the Common Council, and such rate per unit shall be the same to each and every consumer. No reductions shall be made or rebates given, or discounts allowed, unless such reduction, rebate, or discount shall apply to each consumer equally per unit.

## HOLLAND FURNACE A HOUSE WARMER SAYS GRAND RAPIDS HERALD

It Is A Furnace Constructed Upon Scientific Principles A Fuel Economizer

Grand Rapids Herald—There are furnaces, some are coal eaters and some coal heaters. The former are an expensive equipment of a house and add to the high cost of living.

A furnace of quality must be economical in fuel and possess great heating properties, any other kind is a coal eater and not a heater.

The diffused air furnace is the best type, for it gives more heat units to the amount of fuel consumed than any other. The Holland furnace is of this type. There are three sound, fundamental reasons why the Holland furnace will give out more heat than any other furnace made at a minimum cost for fuel. The heat which is diffused throughout the house is the air which surrounds the generating, or heating plant. It is an easily-understood fact that the longer the heat is retained within the jacket—that is, the fire heat, the more easily and economically it will warm that air which passes over the castings, and the more abundant will be the supply of warmed air. For this reason the Holland Furnace company devised and patented the exclusive "Holland Patented Radiator."

The second reason is made possible by the internal construction of the Holland—the heart and soul of the furnace—the fire-pot, which has the funnel-shaped slots. These supply the fire with super-heated air from all sides—it means that the fuel is consumed from the sides and top—that the heat is nearest the radiating surface—where it does the greatest good.

The third reason is that this make of furnace will burn anything that is combustible—and it will extract and utilize every available unit of heat.

The popularity of this furnace is shown by the fact that over 200 were installed in Grand Rapids last year and R. M. De Bruyn, the agent says this year the number will far exceed last season's record.

## FINAL PROGRAM OF MOTHERS COUNCIL OF SEASON HELD

Meetings So Successful That They Will Be Repeated Next Year.

A large gathering at Mrs. H. J. Veltman's home closed the summer season of the Mothers' Council Friday afternoon. Mrs. Benjamin Du Mez conducted the devotional exercises. "My Mother's Voice" sung by Miss Ada Geerlings was most appropriate.

All listened with deep interest while Mrs. J. W. Beardslee drew a picture of the "Ideal Mother" and the smiles and nods of approval showed that the strong, sensible being whom she presented, was not a creature of fancy but the real mother whom all know.

A "Scherzo" on the piano played by Miss Nella Meyers pleasantly varied the program. Mrs. Blekking was in charge of the Question box and this was, as always, a most interest-

Prompt action is the great secret of treating horses. Minutes mean dollars. Of course proper treatment is always necessary. # WHAT YOU SAW IN THIS PAPER THIRTY FIVE YEARS AGO

A nine year old son of Mr. E. Van der Veen died on Wednesday last of diphtheria.

We hear no more of that pleasure resort near the harbor. Now is the time to prepare for the following season. It can be made to yield a handsome profit, on the necessary investment. Who is going to lead off in this enterprise.

Mr. A. Bosma, whose fruit farm is near the harbor, expects to have about thirty ton of grapes for sale this fall. Who can beat this?

Grant will enter the field immediately on his return to America, not as a rival of Sherman and Blaine for the presidential nomination, but as a competitor with De Lesseps for the honor of construction and controlling the isthmus canal. Admiral Ammen, who is a warm advocate of the Nicaragua profit, is said to be in possession of advice from general Grant announcing his readiness to accept the presidency of the Nicaragua company, and declaring positively that he will not be a candidate for the presidency of the United States or any other political office. With his name, the projectors expect to conjure money enough from the pockets of capitalists to give the enterprise a start.

## THIRTY YEARS AGO

Last Thursday afternoon a farmer named Gerrit Van Vorst, living a few miles east of this city, came to town with his family, and while here a negro tramp broke into his house and stole \$12 in money and about \$16 worth of jewelry. Van Vorst discovered his loss at about 5 o'clock, and immediately notified Marshal Vaupell, who telegraphed a description of the jewelry to the Sheriff, who managed to capture the criminal at Grand Haven with the stolen property on his person. Mr. colored gentleman was taken before Justice Post yesterday morning and pleaded guilty to the charge of grand larceny and was bound over for trial in the Circuit Court in bonds of \$250.

Besides the many other attractions at the fair this year, Eugene Fairbanks will do a rope walking act on Wednesday and Thursday, September 18 and 19.

An alarm of fire, on Wednesday, aroused the community as the wind was blowing a gale at that time. It was found to be from J. Van Dyke's saw mill, which was on fire. By prompt work of the men at the mill the fire was put out without much damage having been done.

## TWENTY YEARS AGO

Of the old stove mill, at the head of Black Lake, nothing remains now but the smoke stack and the boiler. The Holland Stave and Lumber Co., the firm that operated the mill last, have disposed of the remainder of their stock of staves and heading to J. & A. Van Putten, who will use it largely in the manufacture of apple barrels.

# ALLEGAN AND GRAND HAVEN BAND WILL COME TO THE HOLLAND FAIR TO PLAY

During fair week there will be a band concert on the streets of Holland every evening, if the plans of the fair officials pan out. W. H. Orr and E. P. Stephan were in Allegan Thursday to interest the people of that city in Holland's fair and to make arrangements for the appearance of the Allegan band here. This band is one of the best in this part of the state and it has been scheduled for Holland, having also agreed to give a concert in the evening. Similar arrangements will be made with the Grand Haven band and other bands to be engaged. The concerts will not be in the park but on the corners of the downtown streets.

Arrangements were made Thursday for an excursion train from Allegan to Holland on Friday of fair week. A special train will leave Allegan at 9 in the morning, stopping at all intermediate points. It will leave Holland at 9 in the evening, again stopping at all stations. Those who wish to return earlier can do so on the regular train leaving here about 6.

## Harm De Vries Returns From Trip To the Netherlands

Harm De Vries of this city, who has been spending nearly three months in the Netherlands, returned to Holland Thursday. Mr. De Vries enjoyed a delightful visit to the place of his birth, and altho the war rather upset matters in the Netherlands he did not shorten his trip on account of it. He had some rather exciting experiences however in coming back to this country and there was considerable difficulty in securing passage.

## EXPERIENCED THEATRE MEN CANVASS HOLLAND TO SEE IF PLAY HOUSE PAYS

If Conditions Are Favorable They Will Bring Stock Talent to Holland.

It is possible that arrangements may be made soon for the reopening of the Knickerbocker theatre. Tuesday two theatre men of many years experience along that line were in the city to look over the play house and to learn what the prospects are in Holland for a fair patronage of the theater in case it is conducted along the right lines. The plans are still in an embryonic state and they may not result in anything but if proper arrangements can be made the Knickerbocker will be open two nights a week when high class stock companies will put on the more recent successes.

It is believed by the theater men who visited Holland Thursday that the house can be filled two nights a week with the class of play they hope to bring to this city. They expressed themselves as highly pleased with the theater itself. They said it was one of the best appointed theaters they had seen in similar towns of the state.

Last spring a legal representative of the Michigan Trust company of Grand Rapids, the company that has the leasing of the building, canvassed some local people with a view of forming a local stock company here and turning over the play house to that concern. Up to the present that plan has not yet been worked out and it is possible that this plan may be abandoned. But even if the theater men who were here yesterday do not take hold of it, it is likely that some one else will as there has been considerable inquiry about the theatrical situation in Holland. It is very likely that the Knickerbocker will be open the coming winter.

## HOPE COLLEGE TO TAKE A PART IN STATE ATHLETICS.

A new era in athletics will dawn at Hope college with the opening of the institution in September, which is destined to bring Hope's athletics on a level with the best colleges in the state.

Since the recent action of the college council, by which Hope is permitted to become officially affiliated with the Michigan Intercollegiate athletic association plans have been laid for a full schedule in all the departments of athletics with the exception of football, which the council disallows.

Basketball, which has been the major sport at Hope for years, will be fought out on a higher plane and Hope will take its chances with the best institutions in the middle west and the state for championship honors. Track work and baseball will also receive greater consideration.

# TELLS BELGIAN VICE COUNSEL HOW TO DEFEAT THE GERMANS.

Henry B. Van Slembrouck, vice-counsel for Belgium at Detroit received a letter Tuesday morning from A. S. Cramer of Coopersville, Mich., containing suggestions for the use of the Belgian army. The letter reads:

"If your army would run a few thousands gallons of low-grade gasoline into the rivers the Germans are crossing at a distance above their crossing place, and then fire it, it would make a river of fire which in turn would burn their bridges and stop them. This has occurred accidentally in the oil fields of this country, and it has burned everything along the streams for miles. Or it could be piped to throw jets of it into the air at a distance from the fort, and the vapor would catch fire from the firing of the runs and give the enemy a hot reception in case of an assault.

"Phosphorus dissolved in bisulphide of carbon produces a liquid that will take fire as soon as it evaporates, usually from 50 to 60 seconds. Bottles of this dropped from aeroplanes, would start unquenchable fires, for every drop of the liquid that falls on anything will burn. Many such bottles could be carried on every flight, and much damage could be done by them in an enemy's country. Harvest fields and towns could easily be fired in this way."

Vice Consul Van Slembrouck will submit the suggestions to the government.

## COMMON COUNCIL (Official)

Holland, Mich., Aug. 19 1914. The Common Council met in regular session and was called to order by the Mayor.

Present: Mayor Bosch, Aids Prins Slagh, King, Drinkwater, Congleton Kammeraad, Harrington, Vander Ven, Vander Hill, Steketee, and the Clerk.

The minutes of the last three meetings were read and approved.

Petitions and Accounts  
The Board of Education reported that at a meeting of the said Board held August 10th, 1914, the following resolution were adopted:

Whereas, the Board of Education is interested not only in the mental

development of the young men and women in this city, but fully as much in their morals and building up of strong, clean character, and, Whereas, it is generally recognized that the moving picture theatres play a great part in the education of the children and the youth, by reason of the fact that they are so generally attended by the young, who being on an impressionable age, are greatly influenced by the pictures placed on the canvas 'night after night.

And whereas, it has been claimed that these pictures are not always of the highest and the best character but are frequently suggestive, and at times picture acts of the criminal as desirable and ideal, and thus tend to create in the minds of the immature a false conception of life and its ideals, and whereas we believe it is within the power of the Common Council to regulate and supervise the character of the slides to be used and displayed and whereas, we believe there are plenty of good men and women of high ideals, and noble principles who would be willing, without compensation to undertake the work of passing on the character of any slides proposed to be shown, if a committee of such men and women were designated and authorized by the Common Council to undertake this work.

Therefore, Resolved that we request the common council of this city to take such steps as they may think proper to have all slides proposed to be shown in our Moving Picture Theatres examined and approved before the same are shown to the public.

Ald. Vander Ven moved, that the report be accepted, and the Committee on Ordinances instructed to draft an ordinance pertaining to the matter.

Ald. Harrington moved, as a substitute motion, that the matter be referred to the Committee on Ways and Means.

The Board of Public Works reported as follows:

Holland Mich., Aug. 18, 1914. To the Honorable the Mayor and Common Council of the City of Holland, Gentlemen:

Some time since a communication was received by this Board, from the Common Council, with a message from the Mayor, relative to having the Board of Public Works go into the business of private plumbing, in certain cases and under certain conditions. We have considered this matter very carefully, feeling that as far as possible we desire to co-operate with the Council in obtaining the best results for the City, in the management of the affairs of the Board of Public Works.

However, after a careful study of the City Charter, we are unable to see where it becomes the duty of the Board of Public Works to enter into the business as contemplated by the Mayor's message, and the action of the Council. The Charter seems to impose upon the Board only duties in which public work is concerned, as is very clear from reading section 3, of Title XIII of the City Charter and nowhere does there seem to be any authority for granting any additional authority upon the Board of Public Works.

We feel that the nature of our Board and its duties as prescribed by Charter makes it, just as its title imports, a Board of Public Works, and that placing anything further upon the Board is without authority.

Again, under Act No. 222 of the State of Michigan, of the year 1901, it would seem that the legislature intended, for cities of 15,000 population or over, to place the control of plumbing and plumbers under the jurisdiction of the Board of Health. And while we do not wish to seem to be in any way dictating to the Council, we would however, suggest that under the view as taken by the legislature in that law, that it might be wise for our city, which will soon come under the provisions of that law, by reason of growth, to adopt the provisions contained in the law, or to refer the matter of plumbing to the Board of Health.

The matter of plumbing and sewer connections is a question in which the Board of Health is so vitally concerned, and in which the Board of Public Works has no interest, except as a part of the general public that it would seem to us, and we offer the suggestion that the matter should be referred to that Board where it properly belongs.

We trust that the council will see this matter as we do, and not place any work or burden upon the Board of Public Works which does not concern it, under the Charter, and where some other Board is in better position to take care of the matter. Boards should not encroach upon the functions belonging to one another, and the Council should not ask it of any of the Boards.

We therefore, respectfully refer the matter of plumbing and sewer connections back to the Common Council.

Respectfully submitted, Board of Public Works, E. P. Stephan Pres.

Referred to the Mayor and the Committee on Ways and Means.

#### Select Committees

On motion of Ald. Vander Ven, Whereas, we, your license committee, were on the 15th day of July A. D. 1914, instructed by the Common Council to investigate the adjustment to be made by one Emos Stone, a licensed saloon keeper of this city, with reference to the change in location of his saloon, from the "Kulte" building so-called to the "Miller" building, so-called.

That after such investigation, we, your committee, brought in certain charges against Arthur Van Duren, city attorney, relative to the part that he took in the settlement of this matter, and,

Whereas, the Common Council did on the 31st day of July A. D. 1914, instruct us, your committee, to make investigation relative to the said charges against Mr. Arthur Van Duren, the City Attorney, in this matter; we, your committee there upon set the 4th day of August A. D. 1914, for a hearing on said charges and gave Mr. Van Duren, due and timely notice to appear before us, your committee and to bring his witnesses before us, on said date at the City Hall, and show cause why this Common Council should not take such action as they might deem proper against him, on account of his doings in said transaction, and:—

Whereas, the said Mr. Arthur Van Duren was present at said meeting with your committee, and all witnesses for and against him were then present, and after receiving all the testimony in the matter and giving Mr. Arthur Van Duren opportunity to question all witnesses, and, we, your committee brought before this Common Council, on the 5th day of August A. D. 1914, a complete report embodying all the facts that were shown on said hearing, the said Arthur Van Duren being present at said Council meeting and hearing the same, and

Whereas, we, your committee, were then requested by the Common Council, to make a recommendation upon their findings in said matter, and we, your committee thereupon recommended that Mr. Arthur Van Duren, be requested to resign his position as City Attorney. That Mr. Arthur Van Duren was present upon the bring in of said recommendation that after full discussion of the matter in his presence, the motion to that effect was tabled for one week.

That after the expiration of said work, and on-to-wit the 12th day of August A. D. 1914, the said Arthur Van Duren being present before the Common Council, was given further opportunity to make a defense and clear himself of said charges, and,

Whereas, Mr. Van Duren then stated that he had nothing to say on the matter at that time, and the Common Council did then pass a resolution requesting the said Mr. Arthur Van Duren to resign his position as City Attorney;

Therefore, be it resolved that the said Arthur Van Duren be given an opportunity at this time to bring in any evidence that he may have to clear himself of said charges.

Ald. Vander Ven moved, that the report of the Committee be adopted.

Geo. E. Kollen, having been given permission by the Council, presented the following:

On the first Monday in May last, Arthur Van Duren was appointed by your honorable body to the office of City Attorney of the City of Holland.

Sec. 7. of Title 4 of the City Charter provides that all officers appointed by Mayor or Council shall hold their respective offices until the first Monday of May next after such appointment.

It must be therefore admitted that Mr. Van Duren has been elected to the position of City Attorney and that his term of office does not expire until the first Monday of May next.

The engaging of him by the city constitutes a contract, as your honorable body has admitted in the case of the City Engineer, who desired to lay down the duties of his office and your honorable body refused to release him, claiming he was held until next May. If the officer is held so also is the party engaging his services.

Sec. 16 of Chapt. 6, provides for the removal of a person appointed

to office by the council. The general statutes of this state interpreted by the Supreme Court hold that officers cannot be removed without cause, and almost entirely reject the policy of removal at will, and in order to remove, it is necessary to file charges against the appointed officer and give him an opportunity to defend himself after such charges have been filed.

Mr. Van Duren, and we in his behalf, not only desire and court a full and fair investigation of anything that he, Mr. Van Duren, may have done, but demand an opportunity to be heard in his defense. It must be patent to you all that a man cannot be tried by proxy and be convicted on a report and the say-so of some committee who has made some investigation. At the time this committee claimed to have made investigation, no charges had been filed against Mr. Van Duren. He did not know he was called upon to meet and did not therefore present his evidence. It will be admitted by this committee that Mr. Van Duren assisted them in every way within his power as far as he was able at that time to get at the truth of anything that they claimed to have against him. He has a number of witnesses and considerable evidence that he desires to reproduce at the time a hearing is granted him.

After a full investigation, we have no hesitancy in saying that we believe Mr. Van Duren has done nothing wrong in his official capacity as City Attorney, and that there is no cause for his removal. As stated above, if you will inform him or us in what respect or in what manner he has violated his oath of office or in what respect he has been derelict in his duties as City Attorney or what fault you are finding with him and give him an opportunity to present his evidence and defend himself, we will be pleased to meet the issue. No member of this Council ought to condemn or convict a man without giving him a hearing and an opportunity to defend himself and to explain any charge which may be made against him. We are not begging for mercy or sympathy; only justice and a fair trial on the merits. You certainly ought not to be grudge or deny him this.

## STOCK GROWERS OF STATE ENCOURAGED TO EXHIBIT AT FAIR

Stock Exhibit at Greater Michigan Fair

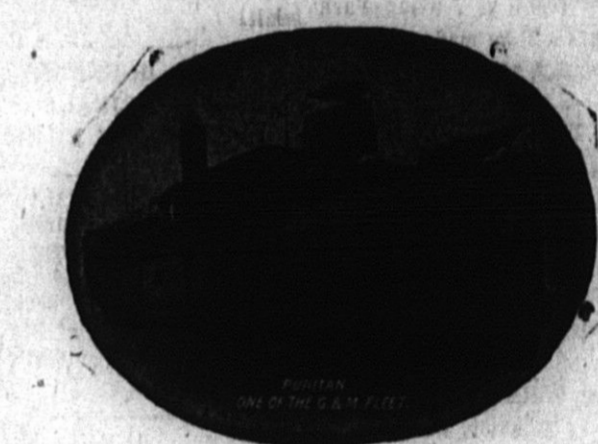

While the management of the Greater Michigan Fair have not put up the bars against cattle bred outside of the state, it is not encouraging exhibitors by breeders who make a profession of preparing cattle for fairs and winning prizes. Therefore, special inducements have been made for the breeders of Michigan cattle to show at the fair because it is known that as far as quality goes Michigan can produce and is producing as good strain of stock as any other state in the union, and it is to the Michigan breeders the Fair management desires to award the prizes and it is to the world the Fair management desires to show what can be produced in Michigan. In other words, it is a Greater Michigan Fair for Greater Michigan farmers and everything that is possible is being done for the protection of the interests and for the comfort of those farmers of Michigan who will become interested and attend the Fair.

The same applies to Michigan horses. There are breeders of horses in Michigan whose stables contain as fine specimens of horse flesh as can be found anywhere in the United States and it is these gentlemen who will show in the ring at the Greater Michigan Fair.

# OTTAWA COUNTY FARMER IS FA- TALLY INJURED WHILE THRESHING

HUDSONVILLE, Mich., Aug. 27.—Edward F. Nadel who lives across the river from this place was probably fatally injured while feeding a threshing machine on a neighbor's farm. When the work was finished, some one threw a pitchfork into the machine. Pieces of the fork flew in all directions and the cylinder of the thresher was stripped of teeth which were hurled as if they had been shot from a gun. One tooth struck Nadel in the shoulder and another lodged in his head making him unconscious. He was taken to his home where medical attention was administered. His skull, which had been fractured, was traphined. No hope is held out for his recovery.

## JURY AWARDS WOMAN \$850 IN SEDUCTION CASE

One of Most Sensational Cases Coming Into Ottawa Court; Both Parties From Hudsonville

Replete with the most flagrant details the sensational abduction case of Mrs. Sophia Engling vs. Peter Koekeek, was aired in circuit court Friday and ended with a finding of the jury for the plaintiff to the extent of \$850.

The principals of the case were residents of Hudsonville at the time of the alleged seduction and breach of promise. Alleging that after improper relations had existed between the two for many months, the promise of marriage was made by Koekeek. It is presumed that upon this point the jury returned the verdict favoring the plaintiff.

Court adjourned today until Wednesday afternoon.

This Dougherty is the man who has successfully made many flights in the big centers of the country and it was with difficulty that the Park management was able to secure him for these two days.

His aeroplane will be found on the shore in front of Jenison Park and his flights will be made at 10:30 A. M. and 3:30 P. M. on both days.

### HISTORICAL RELICS

Mr. G. Van Schelven has an interesting historical item which he supplements with the additional information that one of his distant relatives told his grandfather that after the Dutch West India Company bought Manhattan for \$25 from the

Indians, they engaged in a friendly game of "centen-smakken" and won back the money in a short time. The island is now worth at least Forty four hundred millions of dollars.

"Some time ago, while engaged in examining the public archives at the Hague, Gen. James Wilson met with a letter addressed to the States General of the United Netherlands by P. Schagen, dated Amsterdam, Nov. 7, 1626, announcing the purchase of the island of Manhattan, upon which the city of New York is now located, by the Dutch West India Company for the sum of \$24. Two days later he found the original deed, which had lain unknown for 263 years among the papers of an ancient Dutch family Gen. Wilson hopes to be able to purchase the deed. The discovery was made in the course of researches concerning Mrs. Wilson's Bayard ancestors, who came to America in 1647 with the last of the Dutch governors, Peter Stuyvesant.

"The Hague Museum has recently acquired the tongue of Jan de Witt and the great toe of his brother, Cornelius De Witt, two statesmen who were torn to pieces by an enraged people in 1672. M. Cockhuyt of Leyden, who presented them to the museum, vouches for their genuineness, as they have both been in our family since 1672."

## HOLLAND COMPANIES TO DOUB- BLE CAPACITY

### Raise Capital Stock \$50,000

The Thompson Manufacturing company, manufacturers of modern mission library furniture, has taken steps to double the capacity of its plant by increasing its capital stock from \$50,000 to \$100,000. The Holland Furniture company is planning to double the capacity of its plant with the addition of a large new building before winter. Let the good work continue. Holland is looking up.

## JOHNNY LAVEN STARS IN AMERICAN LEAGUE

Hope College Boy is Batting .288 And Fielding Fine For the Browns

### IS UNDER FORMER COACH

Johnny Lavan, the Hope College boy who shared in the world's series divy last year as a member of the Philadelphia Athletics and who was returned to the St. Louis club this year through agreement made when he was loaned to the Athletics last season, is one of the stars of the American league his fielding featuring almost every game played by the Browns.

Last week Lavan jumped from thirtieth to fifteenth place among the batters of the American league, his latest percentage being .288. He is third among the St. Louis players in

batting, the two Walkers leading with .297 and .290 respectively. Lavan has taken part in thirty-six games and in those is but forty-two points behind Home Run Baker the famous slugger of the Athletics. He leads such well known sluggers as Veatch, Burns and High of the De-

troit Tigers the mighty Lajoie of the Naps. In Saturday's doubleheader in Philadelphia two hits were made off Bender's delivery in four times at bat, and one off Shaykey in the same number of turns at the plate.

Laven's league play started as a

member of the Holland and Muskegon clubs of the Michigan State league, playing in that circuit for two seasons, after which he played two seasons with the University of Michigan baseball team. It was while playing with the college team that his work first attracted the attention of Manager Branch Rickey of the St. Louis Browns, then coach of the University of Michigan team. His father is a local manufacturer of cigars. Laven is the only Grand Rapids product now playing major league baseball.
