## SANDY OTTAWA AREAS WILL BE BOUGHT BY U.S.

Seven-Township District  
to Be Continued Under  
Federal Plan

Appraisals to Be Started  
Soon; Muskegon Also  
in Project

East Lansing, September 4—State soil conservation headquarters yesterday said a sand dune purchase program in Muskegon and Ottawa counties had been approved by federal officials.

Active dunes will be stabilized and reforestation projects will be started on all the land under the Bankhead-Jones tenant act. The work will be in cooperation with local conservation district offices.

Present plans called for the purchase of 21,860 acres in the West Ottawa district over a three to five-year period with the first purchases being made as soon as a staff can be assigned. Speed of the purchase program would depend on congressional appropriations.

In the North Muskegon district 3,860 acres of dune land would be purchased and in the South Muskegon district 9,400 acres would be bought.

"Appraisers from the Milwaukee regional office of the soil conservation service will be assigned to the three projects soon," J. S. Cutler, regional conservator for the department of agriculture said.

Grand Haven, Sept. 4 (Special)—R. E. Briola, district conservationist of the West Ottawa soil conservation district said that the federal plans for purchase of sub-marginal, or so-called sand dune land, in Ottawa county would mean a continuation of the present reforestation in the seven township district at no expense to the farmers.

Under the new setup, the federal government will pay for the trees and labor in rehabilitating sandy areas of Spring Lake, Grand Haven, Port Sheldon, Park, Crocker, Robinson and Olive townships. In the past, farmers provided the trees and did much of the work.

The government will buy the land directly from the owners and the conservation office here will be in charge of the new project which is sponsored by the directors of the West Ottawa district.

The 21,360 acres proposed for acquisition in Ottawa county by the federal government under the soil conservation project consists of 405 tracts of which 234 are unoccupied, directors of the West Ottawa soil conservation district revealed today.

Of the 171 occupied tracts, it is planned to purchase only the sand dune lands of 153 sections so that owners may retain enough acreage for their residences and farms.

The remaining 18 occupied tracts will be purchased in their entirety and it will be necessary for the families involved to find new locations. Local and state officials of the farm security administration have indicated their willingness to do everything within their authority to help relocate those families who may need assistance.

Improvement work under the project, announced in Lansing yesterday as receiving federal approval, will be confined to reforestation and stabilization of the sands to prevent shifting.

The seven townships—Spring Lake, Grand Haven, Port Sheldon, Park, Crocker, Robinson and Olive—in the west Ottawa district comprise 135,000 acres. The 21,360 acreages of this area are to be purchased over a three to five-year period with funds made available to the department of agriculture under provisions of the Bankhead-Jones farm tenant act.

The project will be correlated with the present program of the soil conservation district.

A survey of the project area in 1938 indicated that in the sand dune areas of the proposed project only about 3 per cent of the land was used for crop production, 47 per cent of the farm units were idle and unoccupied and 27 per cent of the units though occupied were not being farmed. About 50 per cent of the idle and unoccupied units had no buildings.

Farm income for the operated units in the sand dune areas accounted for only 20 per cent of the total income of the operating families, and the net farm income per farm was minus \$24. From these figures, the directors said, it can be seen that occupancy of farms in the sand dune areas is almost exclusively for mere subsistence.

## LUBBERS GETS ZEELAND POST

G. R. Man Chosen Head of  
Schools; Coach Kleis  
Will Resign

Zeeland, Sept. 4—The Zeeland board of education Tuesday employed a new superintendent of public schools, accepted the resignation of its director of athletics and employed three new teachers to fill existing vacancies.

The school trustees voted to offer a contract to Melvin Lubbers, superintendent of Fairview schools at Grand Rapids, to become superintendent of the Zeeland public schools to succeed Malcolm B. Rogers who recently resigned to continue his studies at the University of Michigan this fall.

Adrian Van Koeveing, board president, said the board has not been advised whether Mr. Lubbers will accept the contract but it is expected that he will as he was one of the numerous applicants for the job.

Mr. Lubbers has been associated with the Fairview schools for the past 12 years. Mr. Rogers' resignation becomes effective Sept. 15.

The resignation of Leon H. Kleis as director of athletics at Zeeland high school, effective immediately, was accepted by the trustees. However, Mr. Kleis will continue as football coach until the board selects his successor.

Mr. Van Koeveing said the school board will attempt to obtain Mr. Kleis' successor at an early date in order that he may be relieved of his duties to enable him to enter private business.

Mr. Kleis plans to accept a position as contact man for the Mead-Johnson Co. which operates a plant in Zeeland and has its main plant at Evansville, Ind.

Mr. Kleis conducted the first workout of the season for the football squad Tuesday afternoon. About 20 boys answered his call for football players. It is expected others will report for the team after school opens Monday.

Mr. Kleis, who also is golf professional at the Holland Country club has been associated with the Zeeland schools for the past six years.

Ray Lokers, a former Zeeland resident who has been teaching school at Mackinaw City, was one of three teachers who were employed by the board Tuesday night.

Western Theological seminary is offering citizens of Holland and vicinity an opportunity to hear one of America's greatest preachers and lecturers in the person of Dr. Clarence Macartney, pastor of First Presbyterian church of Pittsburgh.

His schedule of sermons in Holland follows: Tuesday, Sept. 23, at 8 p.m. in Third Reformed church; Wednesday, Sept. 24 at 10:30 a.m. in Seminary chapel; Thursday, Sept. 25, at 8 p.m. in Hope Memorial chapel where a union service of all churches will be held.

Dr. Macartney, the youngest

Dr. Clarence Macartney

man ever to serve as moderator of the Presbyterian general assembly, was elected to that high office after being nominated by the late William Jennings Bryan. He led a victorious fight against the spread of modernism in the Presbyterian church.

While a student at the University of Wisconsin, he distinguished himself in oratory and debating. His pulpit delivery is always characterized by a certain sublimity.

Dr. Macartney is a frequent lecturer at Princeton, Columbia and other leading seminaries and colleges in America. Twenty-four books, dealing with historical and theological subjects, have been published by Dr. Macartney and reveal him to be an authority in many fields.

An admirer of Dr. Macartney says, "Many from the local vicinity and from afar should hear this prince of pulpits, this distinguished champion of the faith in these present days when fundamental beliefs are slurred, ignored or even denied."

After two years of effort, Dr. Jacob Vander Meulen, president of Western Theological seminary, succeeded in obtaining Dr. Macartney as lecturer on the John S. Bussing foundation which brings prominent speakers here at no local expense.

## Battle Over Use of GAR Room Is Officially Ended

Patriotic Groups Regain  
Site as Draft Board  
Moves Out

The battle over the G.A.R. room is officially ended.

Common council Wednesday night granted local patriotic organizations use of their former headquarters in the city hall and filed a communication from the Holland draft board which explained it vacated the room to end the controversy with the patriotic groups.

At the Aug. 6 and Aug. 20 council meetings considerable debate arose when the patriotic organizations pressed their efforts to expel the draft board from the room. Following the Aug. 20 meeting, the selective service board, in a surprise move, vacated the G.A.R. room and moved into quarters on the second floor of the Temple building on 10th St., between Central and River Aves.

As the result of this action, council's committee on public buildings and property, through its chairman, Ald. Herman Mooi, recommended Wednesday that "the veterans organizations and its auxiliaries be permitted to use the G.A.R. room for their meetings in accordance with regulations to be approved by council."

"Your committee is of the opinion that these organizations should be permitted to use this room at

## G. H. Man Is Killed When Trailer Unit Jackknifes

Charles Rycenga Crushed  
to Death in Muskegon  
County Mishap

Grand Haven, Sept. 4 (Special)

Charles Rycenga, 48, 718 Griffin St., was crushed to death about 2 p.m. Wednesday when a truck and trailer unit "jackknifed" and overturned on Bolt highway in Muskegon county, nine miles east of Getty Ave., Muskegon.

Rycenga was riding in the truck with Fred W. Bruhn, 35, 1230 Woodlawn Ave., Grand Haven, who was driving the vehicle. Bruhn escaped injuries. Rycenga was the 21st victim of motor traffic accidents in Muskegon county this year.

Just ahead of the truck was a car driven by Herbert Gilmore, 64, route 4, Hilton park road.

Officers said both car and truck were headed west on M-46. When the car was swung left for a turn onto the Hilton road, the truck, according to the officers, failed to slow sufficiently and the heavy vehicle skidded 165 feet, then rolled over. The ditching caused the trailer to telescope the car, trapping Rycenga.

Rycenga's body was taken to the Speldt funeral home here. Dr. Robert A. Risk, Sr., coroner, acted in the case. Deputies Axel Pederson and Edward Lynn investigated.

The two men were en route from White Cloud to Grand Haven with 13 cords of wood on the trailer.

Rycenga was born in Ferrysburg May 13, 1893, and had lived in the vicinity of Grand Haven all his life. For the past seven years, he had conducted a draying and wood business here.

He first learned a machinist's trade at the Challenge Machinery Co. where he later became a foreman. Later, he was associated with his brother, Peter, in the oil business.

The victim was a member of Second Christian Reformed church of Grand Haven.

Survivors are the widow, Mrs. Sena Rycenga; two sons, Louis, in the U.S. army at Camp Livingston, La., and Charles, Jr., of Grand Haven; two daughters, Mrs. Roy Correll of Grand Haven

and Miss Betty, at home; four brothers, Peter, former Ottawa county register of deeds, Thomas and Edward, former Ottawa county undersheriff, all of Grand Haven and John of Detroit; one sister, Mrs. Martha Hoekstra of Grand Haven. A brother, Lee, was killed during World war I while fighting overseas.

Private funeral services will be held from the home on Saturday at 2 p.m. with public rites at 2:30 p.m. from Second Christian Reformed church, with the Rev. R. J. Karsen officiating. Burial will be in Lake Forest cemetery.

Several recommendations, concerning fire insurance which is carried by the city of Holland on all its buildings, were approved Wednesday night by common council upon recommendation of its committee on public buildings and properties.

The committee, through its chairman, Ald. Herman Mooi, reported that a complete survey had recently been made by the General Insurance Co. of America in cooperation with the Holland Insurance agency.

One of the recommendations of the committee was that the city continue to carry insurance with the different insurance companies rather than to place it all under one head and receive bids, as was suggested in the survey.

"We feel that this is the proper thing to do in view of the fact that these insurance men are all taxpayers and contribute toward this expense," the report read.

The survey, the report stated, pointed out that by placing all insurance under one head, the city would save some money. Before any action was taken, the committee met with the ways and means committee, the city attorney and city clerk.

The committee also recommended that the plan of 80 per cent or 90 per cent co-insurance on all its buildings, as proposed in the survey, be withheld, "in view of the favorable experience that the city of Holland has enjoyed during the past several years." More insurance could be carried under the co-insurance plan but the premiums would be greater than is paid at present, the committee reported.

"We wish to report further that many valuable suggestions have been made which, if carried out, would lower our insurance rate. We recommend that these suggestions be followed and that the city clerk be instructed to notify the various departments to comply with these suggestions," the report read.

The committee expressed its thanks to the two firms for making this survey. Motion to adopt the report was made by Mooi, and was seconded by Ald. Albert V. Faasen.

## FOUR INJURED IN CAR CRASH

Auto Badly Damaged As  
It Runs Into Tree on  
Park Road

Four persons were injured about 11:55 p.m. Monday when the automobile in which they were riding ran off the Park road, about one fourth mile west of the Central park store and crashed into a tree.

The injured are Charles Croull, 19, arm injury; Mark Atwood, 32, both of Oak Park, Ill.; Miss Jane Brady, 23, of Saugatuck, daughter of L. R. Brady, Saugatuck bank cashier and Mrs. Brady, head injury; and Miss Dorothy Lively, 20, St. Louis, Mo., possible fractured jaw.

All were confined in Holland hospital. Improvement in their conditions was reported. Atwood and Miss Brady are engaged to be married Oct. 21.

Croull was driving west in the car owned by Atwood. A deputy sheriff who investigated said the car left the pavement on the north side, traveling about 125 feet before "skinning" a telephone pole which the right front of the car struck the tree. The car was badly damaged.

An accident Saturday at 12:45 p.m. on the Pine Creek road, two and one-half miles north of Holland involved cars driven by Neal Verhoeks, 48, 10 South Griffin St., Grand Haven, and Gerrit John Wiegierink, 53, route 4, Holland.

The sheriff's department was informed that Verhoeks was southbound and Wiegierink, who was driving north, made a left turn into his yard.

Ellen Lardner, 42, Niles, was given a traffic summons by the sheriff's department for improper driving following an accident at 6:30 a.m. Tuesday on the S-curve, north of West Olive. Her car was in an accident with one driven by William H. Wendt of Chicago who was driving south.

The investigating officer reported that the woman, northbound toward Muskegon, drove to the wrong side of the highway. She suffered minor injuries.

Cent Increase Is Ordered  
After Cost on Farms  
Is Boosted

Compromise on Price Paid  
to Producers Reached  
by Committees

A compromise agreement between the local milk producers and dairymen has increased the price of milk in Holland from 10 to 11 cents a quart.

The increase caused some consumers to obtain raw milk from rural sources and prompted Ben Speet, chairman of the Holland and Zeeland Milk Dealers association, to warn that such milk may cause future ailments far more costly than the cent more for the pasteurized, milk delivered by dairymen.

An agreement on the recent demands of the Holland Milk Producers, Inc., for \$2.35 per hundred-weight for milk testing 3.8 per cent butterfat, was reached Saturday night at a conference of committees representing the producers and dairymen.

The dealers at a meeting Friday night unanimously agreed to offer the producers a price of \$2.35 for 4 per cent rather than 3.8 per cent milk.

This proposal was submitted by the dairymen's committee to the producers' committee and after prolonged discussion a compromise of \$2.35 for 3.9 milk, net on the farm, was reached.

Under the new retail schedule, Mr. Speet said, the producers realize 1/2 cent a quart increase and the dealers realize the remaining 1/4 cent.

Under the increased rates, a pint of milk will cost 5 1/2 cents under the ticket system and 6 cents "cash in the bottle."

Coffee cream will advance from 10 to 11 cents per half pint, from 20 to 22 cents per pint and from 36 to 44 cents per quart.

Whipping cream will advance from 16 to 20 cents per half pint, from 30 to 35 cents per pint and from 50 to 65 cents per quart.

These prices, Mr. Speet explained, are delivered prices and are not as steep as they might seem at first glance. He pointed out that 100 pounds of 4 per cent milk will produce four quarts of whipping cream and eight quarts of coffee cream. Under a sliding scale agreement, 4 per cent milk will cost the dairymen \$2.39 per hundred.

The producers based their demand for increased prices on greater feed costs and other added expenses and on a desire for uniform rates. Previous prices to producers ranged from \$1.88 to \$2.20 per hundredweight.

Mr. Speet, who said he had been busy the past two weeks as chairman of his association in an attempt to keep the price of milk down, also pointed out that the dairymen face increased expenses. Prices of bottles, caps, washing powder, labor and the like have risen, he stated. Dairymen, he added, absorb the sales tax which also will be greater under the new retail prices. He asserted that their profit margin will be smaller despite the price increase.

## AGED BOOKS SENT FROM GUATEMALA

The property of her father, the late John J. de Jongh, a number of books and pamphlets, printed in the Dutch language, were received Tuesday by S. H. Houtman, general Tulip Town manager, from Mrs. E. A. Osborne of Guatemala City, Guatemala.

Because of their historical nature, this donation will be turned over to The Netherlands museum, Mr. Houtman said. Notations on the books and pamphlets show that they were published in 1825, 1832, 1854, 1857, 1858, 1864, 1866, 1867, 1868, 1869, 1870 and others since 1900.

After reading in a leading magazine about Holland and its Tulip Time festival Mrs. Osborne wrote Mr. Houtman to inquire if he would like to have the books. She wrote that her father was consul general from Holland in Guatemala 25 years. He went there as a young engineer to build railroads in Central America.

Because he was an engineer, most of the books pertain to engineering. Mr. de Jongh died in El Salvador at the age of 88.

Upon receiving Mr. Houtman's acceptance of her offer Mrs. Osborne made immediate arrangements to ship the books to this country.

A challenging growth program was outlined by members of the Ottawa-Allegan Boy scout council's executive board at a special meeting in the Warm Friend tavern Friday night.

H. F. Johnson, wax company president of Racine, Wis., who is a member of the region 7 executive committee, participated in the meeting to gather facts regarding membership and personnel problems in the council.

The executive committee of the council was directed to draw up a detailed program of action which will include special meetings of all council committees to develop ways of adding new personnel and boosting the scout membership through organization of additional units this fall as well as through increased recruiting efforts. The committee will meet Sept. 9 to complete this work.

The goal of the local district in the new "booster" campaign will be to add 85 Boy scouts and 24 Cub scouts to its list before the end of the year. Scout Executive M. P. Russell said. This will mean the formation of three new troops or ships and two new cub packs.

## TELLS CLUB OF PRESS LIBERTY

Floyd J. Miller, president and general manager of the Daily Tribune at Royal Oak who toured Europe just before the start of the present conflict, addressed the Holland Rotary club last Thursday at its last meeting of the season at the Macatawa Bay Yacht club on "Freedom of the Press."

"Lots of freedoms which used to be in text books are gone from some parts of the earth," he stated, "and we're wondering how long we're going to have them here."

"Freedom of the press is the freedom of the reader to become a writer or a printer," he emphasized, adding that "there is no extraordinary power possessed by the newspapers or magazines by virtue of their job."

It is difficult to comprehend that freedom of the press hasn't always persisted in the history of our country, he stated, adding that there has always been a steady effort "to whittle down your rights."

"Freedom of the press has been important in making it possible for democracy to function."

Mr. Miller, who has made an extensive study of his subject, stated that censorship controls newspapers everywhere except in the United States, Great Britain and Canada. Even before the war, he said, 306 million people lived under a press controlled by totalitarian governments.

"One of the astonishing and interesting aftermaths of the war," he stated, "will be trying to make over and humanize young Germans and Italians under 30 who do not know what has been going on during their lifetime."

## "Letting out the seams" for a growing Detroit

WITH defense plants springing up, more people at work and business booming, Detroit rapidly is outgrowing its telephone facilities in certain central offices.

The number of telephones served by five central offices in north Detroit, for example, is increasing three times as fast as the average of recent years.

To relieve that pressure, Michigan Bell is rushing completion of a new central office building—Twinbrook—and installation of equipment at a cost of more than \$1,450,000.

Western Electric's huge manufacturing and installation facilities make possible the swift expansion of telephone service in Michigan, and help us speed the \$11,000,000 program required to meet telephone demands of camps and defense projects alone. To meet all the increased telephone needs throughout the state, we are spending more than \$26,000,000 this year!

The telephone has a little part in almost every National Defense effort. And a little part in every effort adds up to pretty big figures.

## PORTRAIT OF AMERICA

What has been happening at the  
University of Chicago is a fairly  
accurate picture of the state of  
opinion in the nation as a whole.  
For months President Hutchins  
has been raising his voice in pro-  
test against American interven-  
tion, so much so that he has come  
to be known as one of the chief  
non-interventionists. But mem-  
bers of the faculty, asserting their  
democratic right as American citi-  
zens to think for themselves,  
have been conducting a poll of the  
faculty, urging them to support  
a demand to President Roosevelt  
for immediate intervention.

That is as it should be. No fac-  
ulty of any university or college  
in the land—if Americanism means  
anything—should feel coerced into  
agreement on the international  
question with the head of the in-  
stitution or the board of trustees  
or anybody else in charge. If edu-  
cated men and women, whose job  
it is to educate others, don't have  
the right to make up their own  
minds, then the whole system of  
education is a farce.

Yet that was exactly what was  
attempted many months ago at  
Columbia University. President  
Nicholas Murray Butler announ-  
ced to his faculty that those who  
did not agree with him and the  
others in charge that it is Amer-  
ica's duty to crush Hitlerism had  
better get out. That was so vic-  
ious a procedure that the demo-  
cratic method at the University  
of Chicago puts it to shame.

And meanwhile that difference  
of opinion between some faculty  
members and President Hutchins  
is a reflection of a difference of  
opinion that exists throughout the  
nation. If ever a president had a  
disunited nation on his hands in  
the presence of a major govern-  
mental drift, it is President Roose-  
velt. No polls are needed to prove  
to any citizens with any sense  
that there is a sharp and decisive  
cleavage on the question of inter-  
vention. There may be difference  
of opinion about percentages, but  
no one can doubt that so large a  
proportion of the American peo-  
ple are passionately against going  
in, even when all discounts have  
been made, that the administra-  
tion and congress would be suc-  
cidentally foolish to cast the die for  
war.

That is no guarantee that they  
won't do so; many things have  
been done that did not have any-  
thing like united support from the  
American people. But short of  
adopting dictatorship methods it  
will be next to impossible, even if  
war is decided on, to win the sup-  
port of a large part of the people.  
Single institutions, even single  
families, are sharply divided; and  
that cleavage is going to carry  
through into any war that may be  
decided on by the government. Un-  
til a more united nation backs the  
war advocates it would be suicide  
to make the plunge.

## THE CHURCH INVITES YOU

The Christian religion was  
founded by men of the laboring  
class. Jesus was a carpenter and  
Paul was a journeyman tent-mak-  
er. At least four of the twelve  
apostles were called from the task  
of catching fish. On the other  
hand, Jesus left the bench and be-  
came a teacher. Paul was undoubt-  
edly a man of means and lived on  
his income most of his time. The  
first evangelist was called from a  
government position. The early  
church included both slaves and  
masters within its membership.  
There is no class spirit in the  
New Testament. The church of  
today cannot indulge in partisan-  
ship without deserting the practice  
of its founders who labored, not to  
serve any group, but to save all  
men and to bring all sorts and  
conditions of people under the rule  
of God and into a brotherhood  
where all distinctions were lost in  
love. The church fosters such a  
spirit of brotherhood.

Why not accept the invitation  
and go to church next Sunday?

A Message to Persecuted Churches  
Revelation 2:1-11

By Henry Geerlings

The setting amid which Revela-  
tion was written repays study. It  
was the end of the first Christian  
century, probably in the reign of  
Domitian. Some of the Roman em-  
perors had persecuted Christians.  
Some had shown more tolerance.  
The chief danger now to Chris-  
tianity lay in the blasphemous  
claims of the Emperor Domitian.

Oriental monarchs frequently  
claimed to have divine rank. When  
Julius Caesar became an autocrat,  
he began to use language concern-  
ing his own position which he bor-  
rowed from that of the Eastern  
kings. His immediate successors  
were content to speak only of the  
dead emperors as gods but, later,  
some of the emperors began to  
make such claims to divinity for  
themselves. Educated Romans and  
Greeks never regarded such claims  
seriously but among the lower or-  
ders in Rome, slaves and freedmen,  
and in the Asiatic parts of the em-  
pire, it was different. There was  
considerable willingness to wor-  
ship not only the dead but the living  
emperors. In Asia Minor, the  
cult of the Emperor became the  
prevailing religion. It was the Em-  
peror Domitian who first began  
to insist that his claim to divinity  
should be enforced. Even in Rome,  
he had his own cousin executed  
and his niece banished because, as  
Christians, they refused to worship  
him. In Asia Minor, the position  
of Christians became much more  
dangerous. The confession of the  
name of Christ meant refusal to  
accept the claims of the Emperor  
or so almost certain death.

Revelation is a prophecy of  
things to come to pass. It is called  
the apocalyptic, which means ap-  
ocalypse, the unveiling, the last of  
the group to die was banished to  
the Isle of Patmos, a rocky isle  
about twenty miles from the coast  
of Asia. This was in the southern  
part of the Greek archipelago.  
John was living in his old age in  
Ephesus. He had been banished  
for the word of God and the testi-  
mony of Christ. The Romans sent  
those who had fallen under their  
displeasure into banishment. Here  
John finds himself. On the Lord's  
Day, kept in commemoration of  
the resurrection of Christ, the  
first day of the week, John was in  
the Spirit, and to him came this  
prophecy, this vision, unfolding,  
setting forth things that were to  
be.

A blessing is pronounced upon  
those who read, hear and keep the  
words of this prophecy; then it is  
to be understood. It was given in  
signs, and signs signify something.  
It is not a sealed book, for the  
seals were broken by the only one  
who had the right to break the  
seals—the Lamb of God himself.  
Hearing a voice, John turned to  
see the speaker, and he saw a vi-  
sion of surpassing glory. There  
were seven golden lamps, and  
among them walked one like unto  
the Son of God. He was arrayed  
in a kingly robe. His head and hair  
were dazzling whiteness, and his  
countenance was like the uncloud-  
ed sun. There was every manifes-  
tation of glory. It was a revela-  
tion of heavenly splendor.

The first chapter reveals that  
the message came from the Lord  
and was made directly to the seven  
churches of Asia, written to seven  
servants, known as angels of those  
churches. They may have been  
preachers, evangelists, elders, or  
any other active servants. The vi-  
sion of Christ walking among the  
seven golden candlesticks and hold-  
ing seven stars gives him the pre-  
minence and reveals that he is  
always with his people and is in  
the midst of the church.

There were more than seven  
churches, but these seven probably  
are selected as representative of  
all the churches. The seven types  
to be found here are here repre-  
sented, and the admonition given  
to these churches would be appli-  
cable to all churches. The study  
of these churches presents about  
all the conditions that can obtain  
in the churches of the world. It  
is well for each individual to study  
the conditions of these seven  
churches. It would be well to make  
a chart and see if the church of  
which we are members falls into  
any of these errors. The way to  
clean up a church is for the indi-  
vidual to begin with himself. What  
a candlestick any church can be  
which is willing to pay the price.  
The church will be exactly what  
its people are, for it is composed  
of the people. They are the called  
out of the world. The trouble is,  
too many are still in the world,  
have worldly ways and accede to  
the things of the world preferably  
to the things of the Spirit.

This revelation came, fortunatel-  
ly, at a very needed hour. The  
apostles except John had all passed  
away. Persecution was rife. The  
people needed to have Christ re-  
vealed. In all of His glory Christ  
appeared upon John. Upon re-  
ceiving this message from Patmos  
the people went forward with faith  
and hope, knowing that they were  
not worshipping a dead Christ,  
but a living, regnant one.

Woodshed Is Destroyed  
in Early Morning Fire

Fire, discovered at 3:45 a.m. Sat-  
urday, destroyed a woodshed at  
the rear of the Harry Gifford  
home, located just east of the  
Smith Agricultural Chemical Co.  
plant, two miles north and east  
of Holland.

Cause of the fire was not de-  
termined. Holland firemen were  
called there and prevented the  
flames from spreading to the  
nearby home.

## SEVEN HOLLAND SCHOOL POLICE GRANTED RAISE

### Five-Cent Per Hour Boost Voted by Police and Fire Board

Seven school traffic officers were given a five-cent per hour increase in salary Tuesday by the board of police and fire commissioners which advanced their salaries from 45 cents to 50 cents per hour.

As they work four hours each day and five days per week, their pay will be increased \$1 per week from \$9 to \$10. The officers submitted a petition to the board, requesting the increase in salary. They pointed out that their present wage schedule does not conform with other schedules.

On motion of Commissioner Fred Kamferbeek and seconded by Commissioner James Bort, the five-cent increase was granted. Commissioner William Deur reported that the cost of red lights to be placed on cars of volunteer firemen will be \$1.75, including the switch, and that fire truck drivers will install the lights.

Commissioner Deur also requested City Clerk Oscar Peterson to write the Seagraves Co. at Columbus, O., inquiring when the city's new pumper truck will be delivered.

Police Chief Jacob Van Hoff reported briefly on his attendance at the 44th convention of the International Association of Chiefs of Police at Buffalo, N. Y. He expressed belief that he had learned many details in police work and that the convention had been "very interesting and instructive."

Chairman John Donnelly asked Van Hoff if he felt his attendance at an FBI school would be beneficial to the police department and to the citizens of Holland. Van Hoff replied in the affirmative.

Discussions were held on the matter of issuing courtesy tickets to out-of-city car owners who park overnight.

## John Van Anrooy, Former Official in Ottawa, Observes 84th Birthday

Grand Haven, Sept. 4 — John Van Anrooy for 25 years a public office holder in Ottawa county, observed his 84th birthday anniversary Friday.

In honor of the occasion, his daughter, Miss Cornelia Van Anrooy, held open house at their home on Lake Ave. to receive friends and relatives of her father.

His political career is distinguished by the fact he never held office until after he was 50 years old. He retired nine years ago as the city assessor, which office he held for 15 years, during which time he was a member of the board of supervisors, and chairman for two successive terms.

His advent into political circles came by the insistence of his fellow employees at the former Cappon Bertsch Leather Co. of Holland where he worked for over 20 years, that he run for supervisor. He secured the nomination by three votes. Opposed by a strong Democratic candidate, he won the election by 275 votes.

After serving on the board for four years he was elected register of deeds in 1910 and held that office for six years. He lived here during the time and has remained here since. He served as city assessor for 15 years.

He was born on a farm in Allegan county just over the line from Ottawa. He attended the rural

schools and used to recall seeing soldiers leaving for the Civil war who were recruited at the little country school.

He attended Hope college for three years and then went to Orange City, Ia. to teach school. It was there he met the girl who became Mrs. Van Anrooy and who died, July 29, 1926.

He returned to Holland in 1881 and then joined the colony of Hollanders who settled in the northern part of the state at a place called Lucas. He frequently tells of this trip which was made by horse and wagon and which took four days to accomplish. Later in life he made the trip by automobile in a few hours.

On the board of supervisors he was always an important member, his knowledge of real estate placed him on such committees as equalization, finance and he was always a steady influence at trying sessions.

Born of a father who came to this country with the Van Raalte expedition that founded Holland, he is proud of his Dutch ancestry and in stature and demeanor strongly resembles the burghmaster type of the land of his forebears.

His usual robust health has been disturbed during the last year following a heart attack so that he is not seen so frequently as before.

## CLAIM ON TAX LANDS UPHELD

### Rule in Ottawa Case May Cloud Many of Titles Over Michigan

Lansing, September 4 — A \$750 mortgage claim carried to the state supreme court may result in clouding title to hundreds of pieces of re-purchased tax delinquent property, members of the state land board staff feared today.

The court ruled Tuesday that when Jacob and Johana Nieboer repurchased real estate in Olive township, Ottawa county, from a third party who originally had bought it at a state scavenger sale, a mortgage against the property was reinstated.

Circuit Judge Fred T. Miles' ruling reinstating the mortgage claim of Ben and Alyda Jacobson was upheld in an opinion written by Justice Emerson R. Boyles and concurred in by five of his colleagues. Justice Edward M. Sharp wrote a dissenting opinion holding that when the land reverted to the state the title was clear and that Jacobson's recourse was by suit on the note.

Judge Boyles wrote that the Nieboers "cannot take advantage of their own default and breach of express covenants in their mortgage." The land board has been informing purchasers that when they bought tax-reverted land from the state they obtained it without incumbrance.

Board officials were unable to estimate immediately how many other repurchase contracts would be affected. One predicted that some who had repurchased land from the state might stop payments when they learned that their property was still partly incumbered. If that happened the land would be back on the state's hands.

Persons other than former owners who bought tax-reverted land would not be affected by the opinion.

## MAN'S BODY IS FOUND HANGING

Grand Haven, Sept. 4 (Special) —The body of Elmer Devenport, 72, who lived a mile east of Conklin, was found by his wife, Bonnie, Sunday about 9 a.m. hanging by a rope which was tied to a pole that had been placed across some timbers in the barn of their farm home.

Mr. Devenport had done his usual morning chores and when he did not return to the house at the accustomed time his wife searched for him and found the body.

Coroner W. B. Bloemendal of Ottawa county, who went to the home with Sheriff William Boeve, rendered a verdict of death caused by strangulation.

Mr. Devenport had submitted to an operation at Ann Arbor in November of 1940 and it is thought he was despondent over ill health. He was born Sept. 8, 1868, and is survived by the wife; one daughter, Mrs. Edwin P. Zimmer of Conklin; and a son, Everett E. Devenport of Flint.

Two St. Bernard dogs went on a "rampage" Monday night at the home of G. J. Bosch, route 1, Holland, and killed 57 fowls, according to a report made today by the sheriff's department.

The officer said the two dogs, the property of Henry De Ridder, route 1, Holland, were caught Tuesday and have been impounded. It is possible that the owner may pay for the damage done by his dogs, otherwise they will be killed, the officer reported.

## FARM CONTEST BOOKS ISSUED

The report booklet for enrollees in the 1941 west Michigan Farm-to-Prospers contest is now in the hands of county agricultural agents ready for distribution.

The 1941 booklet, it is felt, is much improved over that of last year. Much more space is provided for pictures depicting improvements made. The story of progress can be told more in narrative form, rather than by dry statistics.

Whereas an important feature of last year's booklet provided for a dollars and cents record of progress made, this year a plan has been worked out through cooperation with the farm management department of Michigan State college for measuring the farm business based on productive days work per acre. The plan is applied to the crop program and to the livestock program. It was felt many contestants hesitated to reveal the status of their farm businesses in dollars and cents.

The productive days work per acre is designed to reveal progress made in the business, yet enable the contestant to keep his financial standing confidential if he so desires. However, the contestant is strongly urged to keep accounts and two questions asked in the booklet are, "Do you keep a system of business records, including inventories at the beginning and close of each year?" and "Do you keep cost accounting records on any portion of your farm enterprise?"

The contestant also is admonished to "remember that this is your report and that you are making it out for your own benefit. The more carefully you study these various devices for measuring your farm business and the more completely you fill out this report the more value it will be to you."

The booklets are to be filled out and turned in to the contestant's county agricultural agent's office by the end of November. Judging will be done during December, preparatory to the big second annual roundup in January, at which all contestants who turn in booklets will be guests at an all-day dinner and entertainment sponsored by the West Michigan Farm-to-Prospers Contest association. Mason, Muskegon, Newaygo, Oceana and Ottawa counties are included.

## APPEAL IN HOLLAND CRASH SUIT IS FILED

Grand Haven, Sept. 4 (Special)—An appeal from a judgment rendered in Holland's municipal court last Aug. 26, in the case of the Massachusetts Fire & Marine Insurance Co., assignee of the Rev. John Dubbeldeman of Holland vs. Martin Ten Brink of near East Saugatuck, was filed in circuit court Tuesday by Ten Brink.

When the case was heard a judgment of \$210.18, plus \$10.35 costs, was rendered in favor of the plaintiff against Ten Brink.

The case is the result of an accident which occurred Dec. 15, 1940 at 9:15 p.m. about five and a half miles south of Hamilton, on M-40 between Allegan and Hamilton. Dubbeldeman alleged he was northbound and due to the icy condition of the highway skidded, turned completely around and came to a stop off the east side of the highway facing south with the left side of his car against a snowbank and that while in that position a vehicle operated by Ten Brink approached from the south and skidded head-on into the Dubbeldeman vehicle, causing damage of \$210.18.

An estimated one million persons were employed by the allied beer and ale industries in the U.S. in 1940.

## ALLEGAN FAIR ACTS ALIGNED

Allegan, Sept. 4 — Allegan county's 89th annual fair will open Monday, Sept. 15, with Thrill day, when Jimmie Lynch and his Death Dodgers will ride through a two-hour circus of death, both in the afternoon and evening.

According to E. W. DeLano, president and secretary of the fair association, the tremendous popularity of the Death Dodgers last year is responsible for their return. Three used cars will be demolished on Allegan's race track in the one-day stand of these thrill acts.

Besides the Cavalcade, there will be many free acts that will play between acts of the musical revue and between afternoon horse races.

From the agricultural standpoint, the 1941 Allegan County Fair will surpass its past records—more 4-H exhibits are expected than ever before, Granges, clubs and individuals are outdoing themselves in providing exhibits, and more interest has been shown in team pulling contests than ever before. ## Junior Red Cross Work for Holland Is Outlined

### Book Exchange to Bolster Funds Is Opened in City Schools

When Holland schools opened this week, the Junior Red Cross book exchange was again in operation to aid students in the sale and purchase of second hand textbooks.

If a student desires to sell a book, he or she leaves it at the exchange. When the book is sold, the exchange returns the money to the seller, keeping 10 per cent which is placed in the Junior Red Cross convention fund.

Each year sufficient money is made to send at least two representatives to the national Junior Red Cross convention. The book exchange is being operated this year by Miss Doris Marcus, high school senior, and Miss Betty Boeve, high school junior, both of whom have already represented the local chapter at the national convention.

Ten sophomores will be elected each year by the sophomore class to act as high school representatives in the local organization. They will help in the book exchange and also conduct the city Junior Red Cross council meetings.

The book exchange is open for a week at the beginning of each semester.

On Friday of this week, Miss Beth Marcus, local Junior Red Cross chairman, will attend the Ottawa county rural teachers' institute at Beechwood school. There will be an exhibit of all the articles used by the schools of this county during the past year.

Envelopes containing roll call material consisting of buttons, enrollment blanks and other suggestions for Junior Red Cross activities. Miss Marcus will speak to the teachers at the institute in the afternoon at which time she will explain the new roll call plans which will coincide with the senior roll call Nov. 13-30.

Schools may send their enrollment fee (50 cents per elementary classroom, \$1 per 100 students in the high school) to the junior chairman before that date but no money will be sent to the national organizations for enrollment and subscription to the junior publications before the roll call dates.

Each school will be asked to participate in at least one local, national and international activity such as making nut cups, tray favors, menu covers for the Veterans' hospital or filling Christmas boxes. The Christmas boxes which were recently received from Japan will be distributed to those schools who participated in the project last year.

New projects for this year will be production for the army and navy hospital. The local Junior Red Cross plans to participate in the program by making bedside bags, housewives, property boys, ice bag covers, hot water bag covers, etc. It is hoped that this may be worked into the program of the home economic classes in Holland, Zeeland, Grand Haven and other schools wishing to undertake the project.

The local Junior Red Cross council with four representatives from each school in the city public and parochial systems, will hold its first meeting Sept. 20 and on the third Sunday of each month thereafter. Officers will be elected, plans discussed and possibly a first aid course will be offered to the juniors.

The Grand Haven council will hold its meeting Oct. 1 and on the first Saturday of each month thereafter. Miss Marcus conducts the meeting and program similar to those of the Holland council are carried out.

Plans also are being made to form and promote a Junior Red Cross city council in Zeeland this year under sponsorship of Miss Aletta Hoek of Zeeland high school and Miss Hazel Kaslander, a delegate to the national convention last year.

This program likely will start about Oct. 15. The goal for the county is a council in each city and village and one representative from each rural school to form a county-wide council. It is hoped that this may be obtained with the aid of the Junior Red Cross advisory board consisting of Miss Jenne Kaufman, county health teacher, Miss Vince Shell of Grand Haven high school and Miss Carolyn Hawes, supervisor of elementary schools in Holland.

Need Roads to PLANE PLANT Washington, Sept. 4 (Special)—Highway Commissioner G. Donald Kennedy of Michigan warned the war department Tuesday that the Ford bomber plant, near Ypsilanti, would be isolated from an adequate flow of labor and materials unless access roads, involving an initial expenditure of \$880,000, were built before Jan. 1.

Additional roads for a July 1 completion add \$400,000; for other essential roads, \$3,966,000. The total cost is put at \$5,266,000. These estimates are included on a schedule of road requirements submitted by Charles E. Sorenson, vice-president of the Ford Motor Co.

Federal financing of the undertaking was temporarily blocked by the presidential veto of the federal highway bill, Kennedy explained to Assistant Secretary of War for Air Robert A. Lovett. A substitute bill eliminating some of the "objectionable defects" in the original bill is before the roads committee of both the senate and house.

Meanwhile, good weather may not continue and permit construction of facilities to transport the men from the 30-mile industrial area to the new plant. No parking space exists for the automobiles of the expected 155,000 employees.

Gov. Murray D. Van Wagoner in a message to Lovett called the matter of access roads "critical for fast and safe entrance and exit of large quantities of workers and materials." His plan was seconded by Lt. Col. Harold Furlong, defense administrator.

The proposed plan includes an Ypsilanti south belt swinging off from US-112 (Tyler road) just before the intersection with Devonshire road. The new south belt would cross US-17 (Ecorse road). The south belt would have two lanes—one for through traffic to Detroit and the other for direct plant traffic.

Lovett assured Kennedy that every means of federal financing would be investigated.

## Awards Given Victors of Macatawa Yacht Races

### Competition on Week-End Climaxes Schedule of Local Club

Summer activities at the Macatawa Bay Yacht club ended over the Labor Day week-end with a full schedule of racing events, presentation of awards and trophies to the winners and a "ducking" party in Lake Macatawa for various persons.

Races were held Saturday and Sunday in each division, the points scored in these events being added to the season's totals to determine the various winners. Hard luck hit the entries in Sunday's Crescent race as all but one were disqualified either because the boats rounded the buoys the wrong way or were overturned by the strong wind. Brud Martindale won Sunday's Crescent race.

The Labor day program featured the Landwehr trophy race for all divisions in which the winner of each class will have his name engraved on the trophy. This race was held on Lake Macatawa for the different divisions.

Winners in this event follow: Crescent, Brud Martindale; National One design, Seymour Padnos; Lawley 110, Frank Fulke; 22 square meter, Herk Van Tongeren; Universal handicap, O. W. Lowry.

The season's winners in the different divisions were determined by 20 races throughout the season. The races in most classes were exceptionally close. In the Crescent class there was only a difference of five points in the first three places.

Only three points separated the first and second place winners in the 22 square meter class. In the National One design, Chuck Martindale proved to be the most consistent winner and carried off high honors.

Ten boats, sailed by youngsters between eight and 14 years old, were centered in the Crescent division. These youngsters turned out each week for Saturday and Sunday races and considerable competition took place among the 10 boats and their skippers.

Presentation of trophies and prizes to the season's winners and winners of special events was made by Retiring Commodore O. W. Lowry in the clubhouse following the finish of the Landwehr trophy race. They follow:

22 Square Meter Memorial day race—Herk Van Tongeren, first; Venetian Night parade on July

4—Vic Watkins, first; Jake Hobeck, second; Charlie Sligh, third. Speedboat race on July 4—Vic Watkins, first; Charlie Sligh, second.

Sail vs Power race on July 4—Power division, Charlie Sligh, first; A. W. Tahaney, second; sailing division, Bob and Jack Hobeck, first; Bob Sligh, second.

Crescent race on July 4—Frank Fulke, Jr., first. Crescent Red and Blue series—Brud Martindale, first in both series; Charlie Sligh, second in the red series; Peter Van Domelen III, second in the blue series.

Crescent class—Brud Martindale, first; Charlie Sligh, second; Peter Van Domelen III, third; Judd Bradford, fourth.

National One design — Chuck Martindale, first (he also won first in the red and blue series). Seymour Padnos, second; James Brooks, third.

Lawley 110 — James White, the club's sailing school instructor, first; Frank Fulke, second.

22 Square meter—Edgar Orr first; his daughter, Miss Mary Jane Orr, accepting the trophies for her father; Herk Van Tongeren, second; Charles Walker, third, Miss Walker, accepting the trophy.

Hobeck trophy — (winners in each class for the season have their name inscribed on it). Crescent, Brud Martindale; National One design, Chuck Martindale; Lawley 110, James White; 22 square meter, Edgar Orr; Universal handicap, Edgar Landwehr.

22 Square meter Red and Blue series—Edgar Orr, first in blue series; Herk Van Tongeren, second in the red series.

Donated by Edgar P. Landwehr, chairman of the racing committee, personal awards were made in each division for the outstanding sportsmanship during the past season. The winners follow: Crescent, Lew Withey, Jr.; National One design, Louis Brooks; Lawley 110, Frank Fulke; 22 square meter, all members of the Walker family.

Mr. Lowry announced that all those entered in the Crescent, National One design and Lawley 110 division who did not otherwise win prizes or trophies will be presented with a burgee of the yacht club. They are as follows: Crescents, Sam Young, Bob Sligh, Ann Lowry, Lew Withey, Jr.; National One design, Louis Brooks and Lew Withey, Sr.; Lawley 110, Bob Brace and Bob Evans.

In winning the 22 square meter division, Mr. Orr gained permanent possession of the yacht club trophy and the Kenneth Campbell trophy, having won in two previous years.

Having sailed his first race Monday and finishing in last place, Mr. Hobeck was presented with a surprise gift which turned out to be an onion. Anticipating such an event, Mr. Hobeck at first tried to convince the audience it was a five-dollar bill.

Retiring Commodore Lowry described the season's events as "a very successful one."

cribed the 1941 season as being the most outstanding in the club's history and one of the best sailing seasons.

"The Macatawa Bay Yacht club is a sailing club and it is up to you members to keep it that way. The club is for sailors and its prime activity is racing sail boats," he said, adding jokingly that there may come a time when "we can find something that power boats are good for."

He paid tribute to the racing committee, composed of Mr. Landwehr, chairman, Peter Van Domelen, Jr., Floyd Harrett, Henry Van Steenwyk, O. S. Cross and C. Martindale; and also to the trophy committee of which Phillips Brooks is chairman, "for the fine work they have done for the 1941 season."

With the presentation of trophies and prizes completed, first victim of the "ducking party" was Mr. Landwehr. Next came Retiring Commodore Lowry but this was a "big job" and Bob Den Uyl and Maltby Warner also fell into the lake. Other victims were Charlie Sligh, James White, Brud Martindale and Perry Trytten, club steward and swimming instructor.

The racing committee expressed its appreciation for the fine cooperation received from the club members, especially from owners of power boats who followed the sail boat races each week-end. They proved exceptionally helpful due to the reduced staff at the Holland coast guard station.

### SUNDAY DINNER Suggestions

It's back to school this week for the juveniles—and back to the fall routine of menus for Mother. Mother's menu-planning for the fall can be approached with zest if she takes advantage of the choice offerings in the markets.

New vegetables and fruits both this week add spice to meals. Greenings offer possibilities in pies, canning and sauce. Tokay grapes are starting, and the huckleberry supply is still ample. Northwestern prunes, excellent for preserving, are in, and peaches are still plentiful.

New sweet potatoes are here, and mushrooms are starting to arrive. Brussels sprouts are another new arrival. Meat prices show upward trends again, but there are still plenty of excellent buys in beef, lamb and veal for the budget-wise. Good buys are chuck steak, pot roast, loins and legs of lamb, and plate and navel beef. Ducks and small chickens are also priced right.

Fish is slightly scarce, but good buys can be found in porgies, hounders, halibut, mackerel and croakers.
