Ottawa's Quota Is Set for United War Fund Drive

Seek Nearly Forty-One Thousand as Part of Total Over Country

Dr. Wynand Wichers, president of the Ottawa county division of the Michigan United War Fund campaign, announced Tuesday a quota of \$40,856 as the county's share in the state campaign to raise \$5,462,000 to finance essential services of the USO and 21 war-related agencies supported by the National War Fund which has a goal of \$115,000,000. The national fund is \$10,000,000 less than last year's goal.

Alfred C. Joldersma will serve as county treasurer and Marvin C. Lindeman will have charge of publicity. Marinus C. Steketee will direct the campaign in Holland. Rev. L. Lewis, a Grand Haven Episcopalian minister, will be director in the Grand Haven area and D. H. Vande Bunte will have charge in the townships.

Dr. Wichers pointed out that Holland and Grand Haven will follow the same procedure as last year in carrying on the war fund campaign in connection with the Community chest.

Services performed by these agencies now affect 60,000,000 in 91 countries or six continents. 58 per cent of the money raised in the October campaign will benefit American servicemen and women. The USO will receive the largest share to operate more than 3,000 clubs and units in the western hemisphere, and to send entertainment to every combat zone overseas and to army and navy hospitals where wounded veterans are convalescing.

Merchant seamen will benefit through the facilities of 100 clubs maintained in ports around the world by United Seamen's service as will War Prisoners' aid, which through neutral representatives, supplies the means for recreational, educational and spiritual activities among Americans in enemy prison camps.

Seek Owners of Destructive Dogs

Sheriff's officers today were seeking the owners of two dogs which were killed Tuesday at a farm north of Zeeland on the Borculo road after the dogs chased and killed several turkeys and chickens.

One dog had a pullet in its jaws when it was shot. The owners of the farm began to raise from 70 to 80 young turkeys early in the season and now less than half remain. A flock of chickens also has been substantially reduced. Many carcasses have been found in a large cornfield near the house.

Sheriff's officers today were continuing their investigation into a truck-train crash Wednesday at 4 p.m. about eight miles north of Holland resulting in serious injuries to Mrs. C. R. Driy, 44, the former Wilma Vanden Heuvel, 206 Pine Ave., who is confined in Holland hospital with leg and back injuries, a head injury, fractured right arm and face lacerations.

Brower emerged from the cab of the truck but Mrs. Driy was picked up about 50 feet from the accident scene, lying on the ground between the truck and the dump box. She was taken to the hospital in an ambulance. En route to Grand Rapids where she worked, she had been picked up by Brower two miles from the accident scene.

The crash occurred about a mile north of the US-31-Port Sheldon intersection, involving a south-bound Pere Marquette passenger train.

Public May View Local Recreation Center Sketches

Four Hundred Forty Thousand Estimated As Cost of Building

First sketches of Holland's proposed recreational center are now on exhibit at the Chamber of Commerce headquarters where residents may call at any time, and this week extra sketches will be available for display in the two bank buildings, the Building and Loan headquarters and possibly some other locations.

The committee is recommending that the center be built on the city property between 21st and 22nd Sts. bordering Pine Ave. Since the planning group is putting emphasis on a recreational center rather than a site for conventions, members point out that the Pine Ave. location is ideal as it adjoins the school athletic field, allows plenty of parking space and is within easy walking distance of most of the schools.

Cost of the entire postwar project is estimated at \$440,000, according to the architects. Present plans provide for a structure about 278 by 150 feet which will include a roller skating rink, showers, lounges and game rooms in the basement, large auditorium with balconies, lobby, swimming pool, game rooms, Boy and Girl scout rooms on the main floor, and space off the balcony on the second floor would provide additional rooms. The main auditorium would seat 2,929 and for basketball it will accommodate 2,570, a decided improvement over the 1,500 capacity in Holland armory.

Details for the proposed recreational center were discussed at a three-hour session of the Holland postwar planning committee last week together with Louis and Hap Kingscott, Kalamazoo architects who are drawing the plans.

Those present at the meeting were Dr. Wynand Wichers, Dr. Bruce Raymond, Elwood Johnson, Oscar Peterson, E.P. Stephan, Mr. and Mrs. Vernon D. AN AMERICAN BOSWELL
If we were not preoccupied with
the war, the chances are that
much more attention would be
given to a story that came out of
Philadelphia recently. As a matter
of fact it is surprising that the
story got any play at all, because
it deals with things that happened
more than a century and a half
ago.

Charles Grosvenor Osgood, pro-
fessor emeritus of English of
Princeton university, has made
public the existence of a series of
notebooks that contain many in-
imate facts about some of our
most revered Revolutionary fig-
ures, among them Benjamin
Franklin. The notebooks were
kept by Dr. Benjamin Rush, one
of the signers of the Declaration
of Independence and a prominent
Philadelphia physician. He was in
a position to know many of the
celebrities of the time intimately,
and he set down in his private
notebooks many facts about them
that have never appeared in the
school histories.

Those notebooks have actually
been printed—back in 1905—but
that is, they have never been pub-
lished; that is, they have never been
released to the general public; the
printed copies were for the pri-
vate information of certain favor-
able scholars. But the fact that
they have never been released
tells a good deal about their char-
acter. They almost certainly con-
tain many facts about American
and English celebrities of the time
that would mar the carefully built
up legends about the great and
the near-great. As a people we
do not like to have our legends
changed.

On the whole the English have
been far more broad-minded about
such things. Toward the end of
the eighteenth century, while Ben-
jamin Rush was taking his notes,
the English James Boswell was
taking similar notes about the
revered Dr. Samuel Johnson and
many of the English celebrities
of the Johnson circle like Sir
Joshua Reynolds and Oliver Gold-
smith. Some of those same Eng-
lish celebrities are known to be
treated in the Rush notebooks. It
was possible for Boswell to publish
his findings; if Dr. Rush had pub-
lished his own, the chances are he
would have been mobbed, even
though he was a signer of the
Declaration of Independence.

But it would seem that after
more than a century and a half
we ought to be able to read all
the facts about our great men.
Men like Franklin are so great,
and their reputations are so se-
cure, that they can stand having
all the facts revealed.

THE CHURCH INVITES YOU

Igor I. Sikorsky said, "The great
need today is moral. If we have
fine homes, fine cars and all the
marvels of scientific and indus-
trial progress, but fail in moral in-
tegrity, the inevitable result is a
most horrible and bloody mess. If,
on the other hand, men individually
and collectively can make a
stride forward spiritually and mor-
ally, then intellectual and econom-
ic progress will develop in a sane
and lasting way, and may bring
real benefit to mankind. But if
mankind will start to build a new
tower of Babel on the basis of
high achievement of modern sci-
ence, but without God, then men
will inevitably finish by devour-
ing one another."

We must take God into account
in our inner lives and in all our
programs, and we need the help
of the church to make God real.
Why not accept the invitation and
go to church next Sunday?

Saul Rejected
1 Samuel 15:10-23
By Henry Geerlings

Saul gave promise of being one
of the towering figures in the Old
Testament. By his misuse of, or
failure to use his talents, he turned
out to be one of the Old Testam-
ent tragedies. He stood head
and shoulders above any of the
people. But there are other mea-
sures of a man than those that
are outward, and it was soon dis-
covered that he was lacking some
of the essential qualities of real
greatness.

Now God did not want Israel
to have an earthly king. But Israel
wanted a king and insisted on
having one. God yielded but we
may be sure that when man gets
his own way, when it is not God's
way, something is going to hap-
pen ere long. It had been pre-
dicted by Samuel that the choice
of a king contrary to God's wish
would be attended with evil after-
math. The path of disobedience has
thorns in it. And Saul was scarcely
on the throne when the shout of
the people "Long live the king,"
was toned down to the recognition
of approaching dangers. There
were not a few who saw breakers
ahead. It was bound to be so, for
the thing was not for God. God
was not averse to Israel having a
king. That was His plan for the
nation later. He could rule as well
through a king as through a judge
or a council. But it was not the
time to select a king. God knew
the choice of a king at that time
was only another way of rejecting
Him. It was the worldly spirit,
the desire to be like other nations,
the determination to revolt
against the divine plan, that God
opposed through Samuel. It is not
so much the form of government
as the spirit within the govern-
ment that determines His friend-
liness or opposition.

He wanted Israel to take Him
for their only king. They refused.
They asked for a king they could
see, with crown and scepter and
military presence. He might have
rejected them, and have nothing to
do with them. But he didn't.
He remembered their frame. He
knew they were dust. He took
them as they were. His patience
was in evidence. He stooped to
their level to lift them to His
level. He allowed them to have
a king and cooperated with them
in realizing their highest destiny.
The same principle obtained in
Christ's life. He came down and
stood by the side of fallen man.
His career did not consist in a
succession of deadly blows aimed
at everything that did not im-
mediately measure up to His
standard. Our sole hope for the
betterment of man is for us to
find His level and so identify our-
selves with Him as much as pos-
sible. If our pace is too fast for
Him we must slacken our pace and
be patient.

Sin finds us out. Saul may have
cautioned his people not to let
Samuel know that the Lord's
command was only partially obeyed.
And when the deluded king
comforted himself with the
thought that all was well the
sheep began bleating and the oxen
began lowing. It was like pro-
claiming a secret from the house-
hold. Saul was to have obeyed the
voice of God. Instead he obeyed
the voice of the people and now
the voices of the dumb animals
testify against him. Many a man
has been rudely shocked by awak-
ening in the morning only to learn
that his dishonest schemes, which
are always practiced pussy-foot-
ing, are heralded abroad. The trag-
edy of it is that he does not give
them serious thought until they
become known. It is not their
character but their publicity that
gives him sleepless nights. Sins
have a strange way of coming out
of the dark.

It is easy to obey God with
reservation. We walk in the way
of His commandments up to a
certain point, and then we want
our own way. It was so with Saul.
He could not see that to transgress
slightly was serious. Could he not
follow his own will just a little
bit? There is a tendency among
all of us to make a bargain with
God and to promise Him any-
thing we have if we may follow
our personal inclinations at cer-
tain points. But they only serve
God acceptably who serve Him
with the whole heart, Obedience
in part is no obedience at all. It
costs us nothing. It requires no
sacrifice. It does not spring from
love.

We may believe it was no easy
thing for Samuel to tell Saul the
kingdom would be taken from him.
He had anointed Saul. No one was
more interested in the welfare of
king and people than he. But it
was an hour when he could not
play favorites. Great principles
were at stake. Double guilt rests
upon the man who fails, if he
holds the destiny of multitudes in
his hands. The movement is lar-
ger than any individual in it. It
requires courage to lay all pre-
judice aside and be guided only
by what is right.

Holland
In 1913

William Damsen appeared be-
fore the council last night and
gave an eloquent talk on two pro-
positions, one the necessity of
maintaining a band in Holland, and
the other the necessity of the city
buying a picnic grounds on the
lake front somewhere, where pic-
nics of all kinds can be held, began
a story in the Thursday, Sept. 4, is-
sue of the Holland Daily Sentinel
published in 1913. Mr. Damsen
went into the history of bands in
this city and showed that they can-
not be supported without some aid
from the city. He estimated that
\$250 a year would be sufficient
provided a room were given for
purpose of practice.

The Rev. Gerrit Tyse of New
Holland was elected president of

R. Bloemendahl of Kalamazoo was
transferred to the classis of Mich-

Zeeland preached the classical ser-
mon in the evening.

bert this fall.
Regel Van Til reported this af-
ternoon that his launch had been
stolen from his boathouse.
That Holland's milk ordinance
is to be enforced not only but that
it is to be enforced properly so
that the people of Holland can be
sure they are getting pure milk is
the determination of the city offi-
cials and of those who are inter-
ested in the milk question, accord-
ing to a story in the Saturday,
Sept. 6 issue. Yesterday W.R.
Harper secretary of the Michigan
State Live Stock Sanitary Com-
mission, of Middleville, Mich.,
was in the city to test a suspicious
cow, and he found conditions in
the vicinity of Holland that caused
the calling of a special meeting
of the council and the health board
to talk over the situation.

Next Thursday evening at 7:30
in the Third Reformed church the
Rev. Martin Flipse who recently

The Holland Furnace Co. today
shipped 50 complete furnaces by
parcel post. The shipment was
perhaps the most curious that has
ever been made through the local
postoffice. Each furnace had a
card attached to it on which the
necessary stamps were pasted and
the total number of stamps involv-
ed a considerable outlay. The com-
pany has 50 district managers and
to each of these the company sent
one of the furnaces. They were
carefully wrapped so that no in-
jury could come to them while go-
ing through the mails. The fur-
naces were not the regulation
size of course. They were little
models made of aluminum, but
they were complete furnaces in ev-
ery respect.

Where Party Lines Are Not Important

In the Good
Old Days

There was a chance last Sat-
urday evening for the driver and
horse at Engine House No. 2 to
show their mettle, according to a
story in the December 15 issue of
the Ottawa County Times pub-
lished by Mr. Manting in 1899. At
about 8:30 that evening, a slight
blaze was discovered in the Buss
Machine Works, and the alarm
sounded in from box 24 at the West
Michigan furniture factory. Hard-
ly had the whistle stopped its sig-
nals, when the doors opened and
the new horse wagon rushed out.
Pull as it might, the noble horse
was not able to run with its load,
and no wonder, for wagon, equip-
ment and firemen, together weigh
somewhere near 3,500 pounds,
enough of a load for a good team
to manage. The promptness of
the department to respond is a
cause for congratulation to the
city, but it is evident that a mis-
take was made to have but one
horse at Engine House No. 2. The
work is too much for one animal
and the council will do well to re-
medy this matter.

Two Get Jail Sentences
After 'Rooking' Red Cross

Two men, whose actions were
described by police as "unethical"
to say the least, chose a 10-day
sentence to a \$10 fine upon their
arraignment on vagrancy charges
before Municipal Judge Raymond
L. Smith yesterday.

The two, Claude Settles, 49,
Dayton, O. and Anthony Luyk,
49, Grand Rapids, were arrested
by local police Tuesday afternoon
after they "rooked" the Red Cross
into feeding them and arranging
transportation to Grand Rapids so
that the men could have hospital-
ization in the Veteran's hospital.
They tried to turn in the bus tick-
ets for cash, and the station
manager notified the Red Cross.

Settles and Luyk spent the
night in the hobbs cell block at the
local jail.

Milwaukee Firm Given Order for BPW Equipment

Extra Generator Unit To Be Placed at Third Street Power Plant

Common council at a special meeting Monday night unanimously approved a recommendation of the board of public works awarding a contract for additional equipment at the Third St. power plant to the Nordberg Manufacturing Co. of Milwaukee, Wis., for \$229,270.

The new equipment will include a 3,600 horse power, 2,500 kilowatt diesel engine-generator unit, complete with auxiliary equipment. The contract is subject to priorities to be granted by the war production board within six months. On recommendation of City Attorney Vernon D. Ten

Cate, the contract includes a provision on labor costs which may possibly reduce the total figure. Joseph H. Geerds, president of the board of public works submitted the report to council and said that the Nordberg bid is some \$2,000 less than consulting engineers estimated this summer. He said the building for the equipment which must be designed later will cost under \$100,000. Arrangements for obtaining fuel oil for the diesel engines have been cleared, he said.

The works board at a special meeting Aug. 21 opened only one bid, this from the Nordberg Co. Geerds explained that there are only three manufacturers in the country qualified to make this equipment and one was in no position to make a competitive bid and the other was behind on war contracts.

The new equipment with its 2,500 k.w. capacity is desperately needed, Geerds pointed out at the first meeting June 15 when council gave the works board permission to advertise for bids. The power plant has a reliable capacity of 7,500 k.w. The 1944 load will exceed this capacity, 7,200 k.w. being reached last January.

In answer to a question by Ald. Bernard De Pree, Supt. Abe Nauta explained that the equipment in the Fifth St. plant is not the type which can be used in the Third St. plant. As soon as priorities are cleared and the new equipment available, the board plans to advertise for bids for the equipment of the Fifth St. plant which sale should bring several thousands of dollars.

He said it was possible in the early years that some cases were not reported.

It may be used to communicate with either prisoners of war or civilian internees.

Considerable Activity Is Shown in Oil Fields Here

Considerable activity is shown this week in oil fields in the vicinity of Holland and Zeeland and parts in Allegan county.

Albert W. McKee, Muskegon oil promoter, Tuesday afternoon started drilling operations on the Gerrit Nagelkirk farm a half mile east and three-quarters of a mile south of Zeeland where he owns 1,500 acres of leases. Voorhees Drilling Co. of Grand Rapids is drilling the well and Regal Dutch Co. of Holland has a quarter interest in the project.

A large independent oil company has taken the spread of 500 acres of leases which has been pronounced a "hot spot" by several good oil men who understand the structures. McKee also helped develop the Dorr, Monterey and Diamond Springs fields in Allegan county.

Veldheer in Miami After Leave Here

Miami Beach, Fla., Aug. 31—First Lt. James Veldheer, 29, Holland, Mich., who as a B-17 and B-24 bombardier-navigator flew 50 missions during five months in the North African, European and Middle Eastern theaters, is now being processed through the army air force redistribution station No. 2 in Miami Beach where his next assignment will be determined.

Lt. Veldheer who spent several weeks in Holland with his wife, Thelma, and his father, John I., who reside at 122 East 16th St., is holder of the Air Medal with four Oak Leaf clusters. He attended Hope College high school and Hope college.

Enlisting in the AAF on Oct. 15, 1940, he was enrolled as a cadet on Jan. 27, 1942, and received his wings at Victorville, Cal.,

July 31, 1943. Beginning his combat flying on April 13, this year, with an attack on the aircraft factories at Byrd, Hungary, the lieutenant has ranged over targets in southern France, Italy, Germany, Austria and the Balkans. His 50th mission on July 2 was an attack on the rail yards at Vinokov, Yugoslavia.

Boer Preaches at Saipan Battle Front

Saipan, Marianas Island (Delayed)—A steel helmet slung over his arm, Lt. Harry R. Boer, of Holland, Mich., a navy chaplain, toured the rugged hills of Saipan during the campaign here, conducting brief divine services for battle-tired front line marines.

They took place within a few hundred yards of the front lines where other marines were pushing through crumbling Japanese resistance.

His fourth and final service in a single day was held in a tiny vale, one hill removed from the fighting. From the left came the full thud of marine mortars, tossing shells overhead into points of enemy resistance. To the right was the rattle of Jap machine guns, and the whine of sniper fire. Three

times during the 10-minute service planes droned directly overhead, causing brief interruptions. More than 60 marines attended the service, sitting on their helmets, or on the burned-out stubble of underbrush which covered the natural amphitheatre. A few marines had weapons with them.

Chaplain Boer opened with a prayer, read a short passage of scripture, and followed it with a brief sermon. The men rose to their feet for the closing prayer. Then, the service over, they returned to their jobs.

One grizzled sergeant, who has been on Saipan since the morning of D-day, moved toward the chaplain, offered him a cigarette, and expressed the feelings of all marines. "I'm sure we all feel better for that, sir."

Hungry Men Don't Win Battles!

If we expect our hard-fighting boys to bring us Victory, they can certainly expect us to help send them the food they so badly need!

TAKE a look at the military annals of the world—and you'll discover that lack of food spelled defeat for many an otherwise well-equipped army . . . Napoleon's men, after a long series of victories, were finally conquered by their own hunger.

Now, when our boys are making such strides toward Victory, let's all back them up so they won't go down in history with these famished, conquered legions.

The fate of our fighting forces and allies depends in no small measure upon those of us

who are left at home. By going into the canneries of the nation this fall to help process the crops our patriotic farmers have labored so hard to produce, you can make sure that our men get plenty of nourishing food to keep up their fighting strength.

We of H. J. Heinz Company appeal to every available citizen to help this community do its part in the national war effort by working either full- or part-time in our factory. Our boys are doing more than their share. Let's make sure that we do ours!

COMMON COUNCIL

Holland Mich., Aug. 28, 1944 The Common Council met in special session pursuant to call by the Mayor.

In the absence of Mayor Schepers, Alderman Steffens, Mayor pro tem, presided.

Present: Mayor pro tem, Steffens, Aldermen Van Hartesveldt, To Reller, Bontekoe, Slagh, De Pree, Mooi, Streu, Damson, Slighter, Meengs, Dalman, City Attorney Ten Cate and the Clerk.

The following members of the Board of Public Works were also present: Chairman Geerds, Messrs. James H. Klopman, Covell and Gebben, Superintendent Nauta and Gerrit Appledorn, Clerk.

Mayor pro tem Steffens stated that the meeting had been called upon a request by the B.P.W. to consider the awarding of a contract for a new diesel engine generator unit. Mr. Steffens then called upon Chairman Geerds for a report from the Board.

Mr. Geerds gave a brief resume of what has taken place up to this time in connection with the necessity for such a unit. It was stated that the engineering firm of Burns and McDonnell had been engaged to study the problem of additional generating capacity and as a result of such study had recommended a diesel unit as an auxiliary to the present equipment.

Mr. Geerds further reported that their board had proceeded to take bids as previously authorized by the Common Council and as a result were now recommending that the bid of the Nordberg Engineering Company be accepted as per their bid price of \$228,270.00.

Different Council members asked the Board several questions in connection with this proposition. In the discussion that followed it was brought out that there would be an additional cost for housing this unit of approximately \$100,000.00 to bring the total cost up to about \$330,000.00 as previously estimated. It was also brought out that the need for this equipment is very urgent. So far as the present stand by unit, consisting of a 5000 K.W. turbine generator, located at the old plant it was shown that this does not fit in with the equipment at the new plant. The old plant operates under a steam pressure of 250 pounds while the new plant requires a pressure of 550 pounds. It was further stated that as soon as it is determined when the new equipment will be made available, steps will be taken to dispose of the 5000 K.W. turbine now being kept in reserve for a possible emergency.

City Attorney Ten Cate reported that he has worked with the Board on the matter of drawing up the contract and has approved it from the legal angle. After some further consideration it was moved by Alderman Mooi, seconded by Damson—that the request of the Board be approved and the Mayor and Clerk authorized to sign the contract.

Carried—all voting aye.

Chairman Geerds, on behalf of the Board, thanked the Council for its cooperation and stated for information that engineers were now studying the water situation and the Board expected to have a report for Council on this matter in the near future.

Adjourned.

THANKS FOR THE LIFT, AMERICA!

All Over the World, Our Fighting Men Salute the Home-Front for "Backing the Attack" in the 5th War Loan Drive. The 5th War Loan Has Gone Over the Top!

You've attained every one of the 5th War Loan objectives—and then some! The overall goal, corporate and individual, was \$16 billion; \$20,639,000,000 was realized. The individual goal was \$6 billion; \$6,330,000,000 (preliminary) was realized. The "E" or "People's" Bond goal—the most important element in the individual quota, and the hardest one to make—was \$3 billion; \$3,036,000,000 was realized.

The American public has scored not only a resounding Victory on the home-front, but the greatest one to date!

For this inspiring demonstration of "Democracy-in-Action," our fighting men on all the far-flung battlefronts of the world give thanks for the lift. The spirit you have shown gives reassurance of

support to those on the long and bloody road to Berlin . . . and Tokyo.

Every man, woman and child in America may well thrill with pride at the success of this unprecedented drive—the greatest war-financing operation the world has ever known. This includes the millions who "dug deep" to buy extra Bonds and the untiring volunteers who helped sell them—the whole cavalcade of America galvanized into action on a spontaneous *voluntary* basis.

But just as the battle continues with ever mounting fury, so we on the home-front must *continue* to "back the attack." As General Eisenhower has said:

"Satisfactory as is the progress of this battle to date, in magnitude it is but a mere beginning to the tremendous struggles that must follow before final victory is achieved."

"To this end we need every man, every weapon, and all the courage and fortitude of our respective peoples. The Allied soldier will do his duty."

Yes—and we on the home-front will do our duty, also. Let no man think that in such heart-stirring times as these, when our boys are facing their most crucial weeks and months ahead, that the part we play in buying Bonds is trivial compared to their earth-shaking deeds and heroic challenging of death.

Far from trivial, our home-front tasks are today more important than ever.

Encouraged by the example of what a united people can do when the cause is just, let us *continue* to "back the attack—buy more than before" until the day of final victory. And let us resolve not only to *buy* bonds to the fullest extent of our powers, but to *hold* them until maturity—for a better, a safer, happier world for all.
