In spite of the new law passed at the last session of the legislature fixing the open season for duck shooting at Oct. 1 instead of September 1 a number of Holland sportsmen were on the marsh early last Monday morning and hunting continued up to Wednesday night. They give as their reason that the new law, as it did not go into effect until 90 days after the legislature adjourned, did not become operative until Thursday September 5. Therefore under the old law they had the privilege of shooting until yesterday when the new law applied. According to this law they will have to wait until October 1 to resume their sport. The open season for ducks, geese, and all wild waterfowl is from October 1 to November 30, from one-half hour before sunrise to one-half hour after sunset each day.

## McKinley Shot

BY AN ASSASIN.

CONDITION SERIOUS.

### The Assassin in Custody.

A dispatch was received from Buffalo at 4 o'clock stating that President McKinley was shot twice in the stomach while in the music hall at Buffalo this afternoon. He was removed to a hospital for treatment and the doctors do not know whether or not he will live. His condition is serious.

The shooting was the work of an assassin. A stranger walked up to McKinley and while he shook hands with his right hand shot the president with a revolver he carried in his left hand. The assassin is in custody.

The miscreant is a young Polish anarchist. The President requested that the assassin be gently dealt with by the officers.

An elaborate and gorgeous scenic production of the Minister's son, with W. B. Patton as "Simon Ray," will be the offering at the Lyceum opera house tomorrow night. While this is strictly a high class attraction in every sense of the word and not of the blood curdling melodrama order that so frequently appear at popular priced houses, it is one of those quaint odd plays that appeals to the masses, a play for the people.

"The Minister's Son" which will be given at the Lyceum opera house tomorrow night is a simple story of simple people, and is said to contain unusual naturalness in the development of the plot, bright, quaint comedy, and a blending of pathos and mirth which gives it more than ordinary elements of interest.

Editor S. A. Brown, of Bennettsville S. C., was once immensely surprised. "Through long suffering from dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bilem which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For indigestion, loss of appetite, stomach and liver troubles it's a positive, guaranteed cure. ## Something About Bread.

Bread is the food of civilization, wherever learning and intelligence spread bread goes hand-in-hand with them. Where you find one you find the other. While a few quacks have arisen occasionally to decry bread, the brains and learning of the medical world have ridiculed their claims. America, it is true, is a land of dyspeptics; but that is not caused by the use of bread. It is due to the fact that we take our food and drinks extremely hot or extremely cold, and bolt our meals without properly chewing and masticating them. Germany and some of the other European countries where it is laimed, dyspepsia is unknown, are bread eating nations. They are careful, however, not to take their food or drinks too hot or too cold, and to properly masticate their food. The London Lancet, which stands at the head of medical journals of the world, claims that bread and biscuits no matter if hot are thoroughly digestible and healthy if properly chewed and masticated; but declares that the trouble with the hot food is that it is so easily swallowed that people do not usually so thoroughly masticate it as they do cold, dry bread. In this connection it is not amiss to state that the "Walsh-DeRoo" brand of flour "Sunlight" "Daisy," and "Hyperion" make the best bread, biscuits and pastry.

## CROP CONDITIONS.

Reported Generally Favorable Although Excessive Rains Do Damage in Sections.

Washington, Sept. 4.—The weather bureau's general summary of crop conditions is as follows:

While the weather conditions of the week ending September 2, 1901, have been generally favorable in a majority of districts, heavy rains (in some places excessive) have injured crops and retarded work in portions of the south Atlantic and gulf states, and dry, hot weather has been unfavorable in the Missouri and upper Mississippi valleys and on the North Pacific coast. Extreme heat and drought in localities of Oklahoma and Texas have also been very detrimental to crops. Cool weather has retarded the maturing and drying of fruit in California, and light frosts occurred in Nevada.

Late corn continues to show improvement, although it was injured by drought and heat in portions of Kansas; has suffered further decline in Missouri and needs rain in Nebraska. In Iowa corn is maturing rapidly, and the cutting of early planted is general in all sections of this state, and Missouri, and the more northerly sections, and is progressing rapidly in Kansas. Further improvement in late corn is reported from the Ohio valley, but it has suffered injury by floods on lowlands in Tennessee. Reports indicate that the bulk of the late corn will be safe from injury from frost by September 15 to 20, but that some very late fields will require until October 1 to fully mature the crop.

Spring wheat thrashing continues with generally satisfactory yields, except in North Dakota, where they are light and of poor quality, the berry being shrunken and bleached.

Very favorable reports concerning tobacco are received from all sections except Maryland, where it is not curing satisfactorily, and Virginia, where the yield is variable. Cutting is general, and the bulk of the crop is in shed in Wisconsin.

The condition of apple still continues unpromising in nearly all sections. Some improvement is reported from Kansas, and fair to good crops are indicated in portions of Arkansas, Illinois, Indiana and West Virginia; elsewhere, apples are scarce and generally of poor quality.

Soil conditions are favorable for plowing and seeding, which are in progress and usually well advanced in all districts, except in Missouri, Nebraska and Oklahoma, where the work has been retarded by drought, and in portions of Virginia, where it was interfered with by wet weather.

### APPEAL FOR AID.

Thousands Said to Be Starving in Southern Texas—Drought Causes the Distress.

Dallas, Tex., Sept. 3.—Widespread starvation and terrible distress have followed in the wake of the drought in Zapata and several adjoining counties in southern Texas. It is estimated that about 50,000 persons will be dependent for their very lives on the outside world for food and other assistance. After enduring their misery for weeks in the vain hope that they would be able to better their condition the people of Zapata county have at last appealed for assistance, and a generous response is being made by the citizens here, at San Antonio, Galveston and Austin. So far the governor has not issued a call for out of state aid, but if conditions continue to grow worse he may be requested to do so.

The object of the corporation is to do a general brokerage and grain business. George H. Phillips, late corn king, stated some time ago that he would again enter the grain business after his failure.

#### Shaw for President.

Chicago, Aug. 31.—Senator Jonathan P. Dolliver, of Iowa, announces in this city the candidacy of Gov. Leslie M. Shaw for the republican presidential nomination in 1904. The announcement explains the repeated refusal of Gov. Shaw to allow his name to be presented for renomination to the governorship of Iowa.

#### Stables Burned.

FANNY DICKINSON, Probate Clerk.

At some time, if not habitually, you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, backache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or some of the other symptoms and disorders which tell the story of bad bowels and an impaired digestive system. Laxakola will cure you. It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membranes of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels will move regularly, your liver and kidneys will cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers who have been seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, find Laxakola an ideal medicine for children. Children like its taste and ask for it. It keeps their bowels regular without any pain or griping, and acts as a general tonic at the same time. It will assist nature, aid digestion, relieve restlessness, clear the coated tongue, reduce fever, cause refreshing, restful sleep and make them well, happy and hearty.

Laxakola, the great laxative tonic, is not only most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c. and 50c., or send for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

Besides the members of the household and the executive forces the party included Misses Mary and Ida Barber, Mrs. McKinley's nieces. London, Sept. 4.—The going to and fro of certain persons between London and Cape Town is to be stopped by the government.

The Pall Mall Gazette says the mails of other suspected persons have been examined and that important correspondence has been seized.

A dispatch from Cape Town says: The forces of Col. Scobell and Doran have driven Gen. Botha into the Mortimer district. Nearly all of Gen. Botha's horses are in an exhausted condition and fully one-quarter of his commando is dismounted.

Gen. Botha, unfortunately for the British, captured 30 remounts.

The Boer invaders are threatening Zuurbrak pass, Cape Colony, which commands Swellendam. The place is well defended, however, and it is not likely that the Boers will attempt to enter the town.

**Trades Paper in Pittsburg Attacks  
the President of Steel Work-  
ers' Association.**

### DEMANDS THAT LEADER BE IMPEACHED.

**Pittsburg, Pa., Aug. 31.—A sensa-  
tion was created Friday afternoon by  
a leading editorial in the Labor World  
bitterly attacking President Shaffer,  
of the Amalgamated association, and  
demanding his impeachment. The  
paper is the organ of the Interna-  
tional Tin Workers' Protective asso-  
ciation and the mouthpiece of the  
Pittsburg district of the Mine Work-  
ers' union and the Pattern-Makers'  
association. The article is written in  
a very bitter tone, and demands the  
impeachment of Shaffer because it is  
charged he compelled the steel work-  
ers to violate contracts; because he  
expelled the Chicago men and re-  
voked their charter without constitu-  
tional hearing, and because the whole  
strike is unconstitutional and has  
brought ruin and wreck to men who  
have made the Amalgamated associa-  
tion. The editorial gives 24 reasons  
why President Shaffer should be im-  
peached.**

### Is Not Satisfied.

Milwaukee, Sept. 2.—Charges that the national officers of the Amalgamated Association of Iron, Steel and Tin Workers had misrepresented the attitude of the United States Steel corporation toward organized labor in order to get the members of the association out on strike were made by former Vice President J. D. Hickey at the meeting of the Bay View lodge Sunday. In a cool, unimpassioned manner Mr. Hickey gave the members of the lodge the result of his recent trip to Pittsburg, where he went for the purpose of investigating the situation in regard to the steel strike, and the situation as summed up by Mr. Hickey was that the strike appears to be lost, and it may take years to repair the damage to the association which has already been done. Mr. Hickey's report was listened to by all the men with respectful attention.

### End Not in Sight.

Pittsburg, Pa., Sept. 3.—The strike began its third month Monday with few indications of early peace. It has settled down to a question of endurance, with both sides making claims of advantages gained. President Burns is working on his peace project and is hopeful that his efforts will yet be successful. He expects to hear from President Schwab soon in reference to the new plan said to have been submitted to him on Saturday.

### More Men Secured.

Pittsburg, Pa., Sept. 4.—Developments in the steel strike show decided gains for the manufacturers. The accession of 32 skilled men to the Star plant, the increased production at the Painter and the Lindsay and McCutcheon mills, the defection from the strikers' ranks of 75 machinists and pipe cutters at the Continental tube works and 50 at the Pennsylvania tube works, the importation of 12 men to the Monessen steel hoop mill and the installation of three mills on night turn at the Clark mill all point to an early resumption all along the line as viewed by the steel officials.

### Roosevelt Speaks.

Minneapolis, Minn., Sept. 3.—Vice President Roosevelt opened the Minnesota state fair at Hamline with an address and a review of troops in company with Gen. Miles, the exercises closing with a banquet in the evening. In his address he declared that the state and nation must possess the right to supervise and control great industrial combinations. He also declared in favor of the strict enforcement of the Monroe doctrine.

Binger Hermann, commissioner of the general land office, has completed his annual report, which shows that during the year 15,662,796 acres of the public domain were disposed of and that the receipts of the office were \$4,972,160. The receipts exceeded those of last year by \$592,402 and the land disposals by 2,108,908 acres.

### Puritan Will Return to Holland & Chicago Route

President Graham, of the Graham & Morton Transportation Co., has decided to return the steamer Puritan to the Holland & Chicago route. The fall traffic is far in excess of all expectations and the steamer McVea is not able to take care of its share of the passenger trade. No difficulty will be experienced, however, when the Puritan resumes operations as the Puritan and the Soo City by making alternate trips will be able to handle all the business.

F. Zalsman received the following communication in regard to the change Wednesday:

"The steamer Puritan is expected to arrive in Chicago from Buffalo next Saturday morning and will take the night run from Chicago to Holland next Saturday night, instead of the steamer McVea, the latter steamer being taken off the run at that time. The Puritan will be placed back on the run opposite nights with the Soo City on the Holland division."

President Graham was loath to take the Puritan off the Chicago-Buffalo route as it was very successful; but the excellent business on the Holland-Chicago route demanded the best of service and he reluctantly made the change. He is greatly pleased with the performance of the boat on the run to Buffalo which was made in 63 hours and 20 minutes an average of 18 miles per hour.

According to the new time card the steamer Puritan will furnish daily service between here and Chicago. A steamer will leave Holland every evening at 8 o'clock and Ottawa Beach at 11:05. Returning, boat leaves Chicago at 8 o'clock.

A pretty maid, demure and sweet, Paused upon the busy street: The reason why—I am not surprised "The Minister's Son" was advertised.

### Circuit Court

Patrick Farrell, the Ottawa Beach hotel bell boy, a handsome looking young fellow of 17 years, who recently stole a sum of money from a guest of that hotel, was sent to Ionia for a term of 18 months. The judge remarked in sentencing him that it was hard to inflict sentence upon so attractive an appearing a young man, and said he hoped the punishment would make of him a better boy.

Geo. Thompson, the colored man, in jail for the theft of a coat and other goods in Holland, pleaded guilty to grand larceny, and goes to Jackson for three years.

The only other business were several divorce cases. Decrees were granted in Geo. B. Loveland vs. Rosa Belle Loveland, Ish Jousma vs. Grietje Jousma, Fenningan Penscher vs. G. J. Penscher and in Stewart vs. Stewart, a Holland divorce proceeding.

Court took an adjournment until September 23, when the balance of this term's chancery proceedings will come up.

### First Electric Car From Holland to Grand Rapids

The last rail of the single track of the electric road between here and Grand Rapids was laid Saturday and the first trip over the line was made on that day.

The trip was made by Ben S. Hanchett, jr., vice president of the company, Supt. M. J. Kinch, Superintendent of construction John Campbell, Aid. Joseph Shinkman and Frank Webster, claim agent of the Grand Rapids Railway company. The party started from Holland accompanied by W. J. Scott of this city at 3 o'clock and made a quick run to Zeeland, where they were joined by Marshal Jacob Van der Bosch, Hans Fisher and Mr. Veneklassen, who went through to Grand Rapids. Although the ties and rails are laid along the entire line the track between Zeeland and Jamestown is not ballasted and the roadbed was rough in many places. The company has about 500 men now employed, and work of ballasting will be pushed as rapidly as possible. Superintendent Campbell says he thinks this work can be done at the rate of a mile a day, and that a through single track will be completed within the next two weeks. The electric current was furnished by the power house at Holland for about fifteen miles of the distance. The trolley wire is not completed the entire length of the road and when the car reached the point where the trolley could not be used a work-engine was brought into requisition to haul it to Jennison. The trip was slow over the unballasted track on account of the crooked sections of the rails, but the journey was made without accident of any kind. The car kept to the rails along the entire line, and the officials were highly pleased with the success of the trip.

It is confidently believed by those who have the work in charge that the line will be ready to do a regular passenger business by Oct. 1 or 15. The power house at Jennison is nearly completed, and it is expected it will be equipped for business within the next two weeks.

The system when completed will consist of a double track from Grand Rapids to Holland and a large force of men is grading and laying ties and rails for the second track, which is completed perhaps two-thirds of the distance. Work will be rushed on this part of the contract and it will probably be completed before snow flies.

The car equipments for the road will be 10 interurban coaches 46 feet long, equipped with 200-horse power motors and McGann storage air brakes. In addition to these coaches there will be 10 other large open and closed cars besides the line of freight cars.

The company was required to operate cars between Zeeland and Grand Rapids Saturday or pay a forfeit of \$1,000 to Zeeland township.

## ADDITIONAL LOCAL.

Virginia Park Hotel will close October 1.

A church social will be held at the home of Prof. and Mrs. J. T. Bergen this evening.

Pokagon Inn, Saugatuck's largest resort hotel, burned to the ground early Thursday morning. The loss is \$4,000; insurance, \$3,000. The hotel closed Saturday and its only occupants were Watchman Cutmore and his wife, who occupied a lower room. The fire started in an upper floor and is believed to have been of incendiary origin. The hotel was owned by George Perryman who was planning to enlarge it next season.

J. C. Post of this city, associated with several well known business men of Grand Haven among them being Peter Brusse, register of deeds, has completed arrangements for the establishment of a state bank in Grand Haven. A lot between the Outler House and Baar's drug store has been purchased of R. W. Duncan, and W. K. Johnson, the Chicago architect, is drawing plans for a two story brick building to be used for banking purposes. This building will be completed in sixty days.

Charles M. Keller, clerk of Virginia Park hotel, died at the West Side hospital in Chicago Thursday of pneumonia. Mr. Keller was a great favorite with the guests at the park and his death is deplored by a large circle of friends. He is said to have been worth a half of million dollars at the time of his death, and worked at the desk at the request of the proprietor, P. T. McCarthy, merely to pass the time away while staying at the hotel for his health.

Tennis courts and golf links are going to be a feature at Ottawa Beach by another year. There is plenty of room for them directly near the hotel and within a score of feet of the waters of Black Lake, a delightful place, of even ground and with plenty of room. These sports will be of interest, not only to players, but to the guests of the hotel from the porches. About the hotel some changes are going to be made, too, before the house will reopen for another season. It is understood that in a way the Ottawa was taken by J. Boyd Pantlind as an experiment, but that it has proved a great success so that the house will probably run full more days than any other hotel in the north and that Mr. Pantlind will take the management again for another season. Without question the resort has progressed under the management at the hotel and it is safe to assume that it will become the more popular with another year. It is learned that the Graham-Morton steamboat line and the Pere Marquette boat lines to Chicago and Milwaukee will make wharfage improvements at the Beach and at Macatawa Park next season, just to what extent is not yet determined.—G. R. Press.

Tapestry Brussels at 47½ cents a yard and velvets at 75 cents a yard is what Jas. A. Brouwer is offering this week, to popularize his fall opening of his carpet and drapering departments. He shows some of these bargains in his windows, and they are attractive goods at attractive prices. Read his adv. on another page.

The fire department was called out this forenoon to extinguish a bonfire near the Ottawa Furniture factory.

Burglars broke into Molenaar & De Goed's store on Eighth street last night. They first started to drill a hole in the safe but finding it unlocked opened it and smashed the inside to get at the cash drawers. All they got for their trouble was one dollar in pennies. William Bourton, who lives near by, saw some suspicious characters in the vicinity of the store about midnight and it is expected the deed was committed at that time.

Go and see the beautiful new French Flannels for waists at John Van der Sluis. Only one pattern of a kind. 15 cents and 18 cent dimities will be closed out for 7 cents a yard.

BOY WANTED—To learn printers trade. Inquire at Holland City News office.

A piano belonging to A. Meyer was burned in the Pokagon Inn fire Wednesday night. It was valued at \$300. No insurance.

A. I. Kramer reports heavy sales in fall and winter shirt waists and walking skirts. This is doubtless due to the fact that he is offering exceptionally good material for very low prices. It will pay you to call and look over his stock.

## Opening of Hope College

The fall term will open on Sept. 18, at 9 a. m. Those who wish to be admitted on certificate or examination to the preparatory department will meet the Faculty on Tuesday, Sept. 17, at 8 a. m. in Graves Hall. Those who wish to enter the College are expected to meet the Faculty at the same time, and present their diplomas, or submit to an examination.

Those who desire to take a full classical course will please bear in mind that the study of Latin is begun in the lowest class, the "D" year, in the preparatory department, and Greek in the "B" class, which is the third year. Other courses, which require only Latin, or no ancient languages at all, can now be taken.

Hope college offers a liberal education equal to that of other colleges, at a very moderate expense. We trust that it is not necessary to state that it is always the aim of this institution to surround its students with wholesome and Christian influences.

We shall be pleased to send catalogue and circular to any who desire further information, or, if convenient, we shall be glad to have a personal conference with such.

G. J. KOLLEN,

President.

There are young ladies who desire rooms and board. And there are young men who wish to do chores, in part payment of board or room rent and any who desire such services can readily be accommodated.

### Astounded The Editor.

Editor S. A. Brown, of Bennettsville S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50 cents at Heber Walsh.

### Vanden Burg—Vaupell

A very pretty wedding took place last night at the home of Mr. and Mrs. Ed. Vaupell, 57 East 13th street, when their daughter, Miss Antoinette Marie Vaupell, was united in marriage to Rev. Lodewikus Van den Burg, by Rev. J. T. Bergen in the presence of a large number of friends and relatives.

At eight o'clock the bridal party attended by the Misses Ethelyn Vaupell and Charlotte Boer, flower girls, entered the front parlor under an arch of green and white to the music of the wedding march played by Miss Janette Boer. The parlor was prettily decorated with green palms, white ribbons and ferns. It opened into the drawing room gorgeously trimmed in yellow. The whole was brilliantly illuminated and formed a pretty picture, especially during the ceremony. The bride looked charming in a gown of white silk mull over white silk-trimmed with satin applique. She carried a large bouquet and was attended by Miss Abby Van den Burg, sister of the groom, who was becomingly attired in pink silk mull and carried pink carnations. Herman Vaupell, brother of the bride, was best man. Dr. A. C. Van Raalte Gilmore was master of ceremonies, Miss Marie Jonker presided at the punch bowl and Miss Ethelyn Vaupell was ring bearer.

After the ceremony elaborate refreshments were served by the Misses May and Janette Boer, Allie Wheeler, Kate and Bessie Pfantziel, Rose Davidson, Addie Bell and Edith Kimpton and Messrs. Fred Beeukes, John DePree, Van Sickle and Almon Godfrey.

#### Cause of the Wreck.

The wreck was caused by the breaking in two of a freight train on the steep grade of a Rocky Mountain foothill. The rear end of the freight tore loose from the head end, dashed backward down the mountain and crashed into the rear end of a passenger train, which was just pulling out of the station at Nyack. The car attached to the rear end of the passenger was the private coach of Superintendent Downs. He and his son, Kirk, and their cook, Henry Blair, were instantly killed. The car just ahead contained 46 Scandinavian laborers enroute from Duluth, Minn., to Jennings, Mont. They were killed wholesale. Only 13 were taken from the debris alive.

Fire immediately following the collision quickly destroyed the private car, cremating the bodies of those within.

Twenty-eight laborers cremated. The flames were quickly communicated to the car ahead, or rather to what remained of it, and the bodies of 28 of the unfortunate laborers also were cremated. The third from the rear also was burned, but those within managed to escape when the collision occurred. The fire continued to spread through the mass of debris caused by the destruction of the dozen or more freight cars, and their consignments of valuable freight.

Finally, the passenger train was cut in two between the third and fourth cars from the rear, and the balance was drawn to a safe distance from the fire.

### THE MONEY IS UP.

Parties to the International Yacht Wager Place \$400,000 in the Hands of the Stakeholder.

Pittsburg, Pa., Sept. 4.—The great international yacht bet of \$400,000 between an English syndicate, represented by Walter J. Kingsley, of London, and a group of patriotic Pittsburgers, represented by William I. Mustin, was finally arranged Tuesday afternoon. The entire sum was deposited in the hands of the stakeholder, Mr. Kingsley turning over \$150,000 in British bank notes and Mr. Mustin giving a certified check for \$250,000. What is said to be the greatest bet in history was thus successfully consummated.

## BOERS BLOW UP A TRAIN.

Lieut. Col. Vandaleur, of Irish Guards, Killed—Other Casualties Unknown.

London, Sept. 2.—A dispatch from Lord Kitchener, dated Pretoria, Saturday, says:

"A train was blown up Saturday between Waterval and Hamans Kraal by 250 Boers, who at once fired on the train, setting it on fire. Lieut. Col. Vandaleur, of the Irish guards, a most promising officer, was killed. The other casualties have not yet been reported."

Since the above was received Lord Kitchener has reported to the war office that nine persons were killed and 17 others wounded in the blowing up and derailling of the train which the Boers destroyed between Waterval and Hamans Kraal.

London, Sept. 2.—The official report of the war office on the casualties in South Africa is an appalling document, even to those who have favored the continuation of the conflict. The total casualties number more than 100,000. The report reads: Officially admitted 71,383 In hospitals in South Africa, government figures 14,000 In rest centers 6,000 Colonial invalids 6,000 Civilian deaths 2,000 Casualties since August 1 1,800

Total 100,183 In addition, the Boers have captured and released about 12,000 British prisoners.

London, Sept. 4.—"DeWet has issued a proclamation," says a dispatch to the Daily Mail from Cape Town, "that he will shoot all British troops found in Orange River Colony after September 15."

## A SCENE OF DESTRUCTION.

Cloudburst Causes a Great Flood and Damage to Property in Cleveland, O.

### RAGING TORRENT FILLS THE STREETS.

Appalling Overflow Caused by a Terrible Rain That Turned Into a Deluge—No Lives Lost, But Many Narrowly Escape Death—Life-Savers to the Rescue.

Cleveland, O., Sept. 2.—With the breaking of dawn Sunday morning the citizens of Cleveland awoke to look upon a scene of unparalleled devastation and destruction caused by a raging flood. While the entire city was more or less affected, the great volume of raging water vented its anger over miles of the eastern portion of the city and caused an amount of damage approximated at \$1,000,000. The appalling overflow was caused by a terrific rain that commenced to fall shortly after two o'clock, turned into a perfect cloudburst between the hours of three and five, and then continued with great force until nearly ten o'clock. The storm, according to the weather officials, was the heaviest that ever swept over Cleveland since the establishment of the government bureau in this city over 40 years ago.

#### No Loss of Life.

That no lives were lost is nothing short of a miracle, as the stories of thrilling escapes from the water on several of the principal resident streets of the city are told. The surging waters spread over an area in the east end nearly eight miles long and 1½ miles wide. This extended from Woodland Hills avenue to East Cleveland and back to East Madison avenue. Great volumes of water poured over from Doan and Giddings brooks down Quincy street, swamped Vienna street, rushed over Cedar avenue, back over on East Prospect street, rushed like a mill race down Lincoln avenue to Euclid avenue, and then on to Glen Park place, where houses were undermined as though built of straw, and almost incredible damage done to streets and property.

#### Rescued by Life-Savers.

The torrent surged with awful force for hours in Deering street from Fairmount to the boulevard, and over a dozen families were penned in like rats in a trap with water five and six feet deep surrounding their homes. At this point the life saving crew worked valiantly, and, assisted by squads of firemen and policemen, finally succeeded in landing the terror-stricken people in places of safety. The fear was greatly enhanced by the momentary expectation that the great Shaker Heights dam would break loose and belch forth terrible destruction.

#### Damage to Parks and Boulevard.

The great flood boiled over the banks of Doan brook all along the boulevard and caused damage that it will take months to repair. Great jagged holes are torn in the beautiful driveway, and the look of ruin stretches in every direction. Gordon and Wade parks, on the East side, and Brookside park, on the South side, where the water also did great damage as it leaped over the banks of Big creek, are damaged to an amount figured at \$100,000. Through Glenville the overflow was terribly destructive. Many houses are swamped, culverts torn out and several streets turned into seething quagmires. The loss in the village is also estimated at \$100,000.

### TRAIN HELD UP.

Robbed by Five Men Near Texarkana, Ark.—Much Cash Thought to Have Been Stolen.

Texarkana, Ark., Sept. 4.—A large amount of money was secured by robbers who last night held up the Cotton Belt passenger train that left here at 9:25 p. m. Tuesday. The robbery was committed by five masked men at Eylan, four miles south of here. The exact amount of the booty is withheld by the railroad and express officers, but it is known that a large shipment of money was made on this train.

#### A Surplus.

Washington, Sept. 3.—The government receipts from all sources in August were \$45,394,125 and the expenditures \$39,451,497, leaving a surplus for the month of \$9,942,628, as against a deficit for the month of August, 1900, of \$811,443.

#### Death List Grows.

Philadelphia, Aug. 31.—It is now reasonably certain that at least 25 persons perished as a result of the explosion of one of the boilers of the steamer City of Trenton on the Delaware river above this city on Wednesday afternoon.

#### The Public Debt.

Washington, Sept. 4.—The monthly statement of the public debt shows that at the close of business August 31, 1901, the debt less cash in the treasury amounted to \$1,030,349,866, a decrease for the month of \$5,460,597.

#### Fatally Injured.

Muscataine, Ia., Sept. 4.—By the explosion of a boiler in the mill of the Musser Lumber company Robert Carter, D. L. Duglar and John Duglar were fatally injured.

#### Thirty-Nine Drowned.

London, Sept. 3.—A dispatch says that the steamer Northmore, bound from Batoum for Bombay, foundered near Athens and 39 of the crew were drowned.

Persons have been known to gain a pound a day by taking an ounce of SCOTT'S EMULSION. It is strange, but it often happens.

Sporting News

The great national game is getting strenuous in Allegan according to the following from the Allegan Gazette: "The Paw Paw base ball nine came to Allegan yesterday with the intention of winning a game from the local club in any possible way, and brought an umpire who knew what was expected of him. The result was one of the "dirtiest" games of ball ever played by a visiting nine. The umpire's decisions were so rank that even Geo. W. Cady got angry, and the Paw Paw boys were obliged to form in line and escort the fellow across the bridge for fear he would be thrown into the river. If he got out of town last night without the odor of stale eggs on his clothing he should consider himself fortunate. The score stood 10 to 7."

Zeeland defeated the Blue Labels Saturday in a 13-inning game by a score of 10 to 9.

The Twin City club shut out the Blue Labels at Douglas Saturday.

A North Missouri editor, who first studied baseball rules while a Sunday school boy, entered into the following antiquities of the national game: "The devil was the first coacher. Eve stole first. Adam stole second. When Isaac met Rebecca at the well she was walking with a pitcher. Samson struck out a good many when he beat the Philistines. Moses made his first run when he slew the Egyptians. Cain made a base hit when he killed Abel. Abraham made a sacrifice. The prodigal son made a home run. David was a long distance thrower and Moses shut out the Egyptians at the Red Sea."

Zeeland defeated Grand Haven Monday by a score of 4 to 2. It was a pitcher's battle, Karsten, of Zeeland, striking out 15 men and allowing Grand Haven but two hits.

Arrangements have been made for two games between Grand Haven and Holland. The first will be played in Grand Haven next Tuesday. The second at Holland next Friday afternoon. Each club has a game to its credit and the strife for honors will be fierce. Both teams will play their own battery, no players being imported for the occasion.

The cigar makers made the printer's look like that part of the printers outst known as the hellbox last Wednesday afternoon when they defeated them by a score of 25 to 6. Lon De Loof was in the box for the cigar makers and his revenge was sweet. He remembered how the printers hit the ball in the preceding game and was on his metal to such an extent that he made them fan the air until it was blue. The printers lost the game in the first two innings when their pitcher got wild and let in 17 runs. Another pitcher was put in and he kept the score down to a reasonable figure for the remainder of the game. Both clubs have won a game and the "rubber" will be a scorcher unless it is played on the ice next winter.

The Zeelands are undoubtedly playing good ball. Wednesday at Zeeland they held Allegan down to two runs until the tenth inning when the tie was played off and Allegan won by a score of 3 to 2.

The Ottawa Furniture factory club has a good claim on the factory championship. It defeated a club from the Holland Furniture factory Labor day by a score of 19 to 7. The game was a good one, fast plays being made by both nines. The West Michigan boys are after the Ottawa's scalp and a game will be played soon.

The fat men have challenged the lean men, the police officials have challenged the city officials, the Eighth street business men have challenged River street business men, the letter carriers have challenged the printers and some interesting games will very likely be arranged.

Fennville Won the "Rubber"

Fennville won the third game of the series with Holland last Monday afternoon before a crowd of 700 people in this city. It was a good game and kept the spectators in a fever of excitement until the last man was out.

"Tards" Ver Schure expected a defeat and refused to pitch for Fennville. The visitors were not dismayed by this unlooked for action and put "Nelly" Nelson in the box. He was at his best and the Holland boys found it difficult to land on his tantalizing curves. When they did a stonewall infield with iron towers between second and third stopped the ball and spoiled their chances for making runs. However, by timely hits and daring base running they made four runs while the visitors made seven. Jimmy Ver Stay was in the box for Holland. Fennville's seven left handed batters caused him all kinds of trouble and he was hit pretty freely. Though the infield behind him was a little off at times the outfield was perfect. Japping, the glue man, pulled down three long flies and made a sensational throw home. Kremers made three fine catches and Bennie Van den Berg made the most brilliant catch of the year.

The Fennville fans were elated over their victory. They are good sports and can give Holland pointers on rooting.

A Fast Game.

Holland 16-White Lake 6.

The celebrated White Lake team, composed of players from Montague and White Hall, undoubtedly one of the fastest amateur nines in northern Michigan, came to Holland Thursday and was vanquished by the Holland club by a score of 16 to 6.

The White Lakers are a fast, scrappy lot of players and it looked like a walkaway for them in the first inning. They batted Ver Stay hard and made 4 runs. Then Holland settled down to business and tied the score in the third inning. From the third to the end they played all round the White Lakers and by hard hitting piled the score up to 16 while the visitors made 6.

The visitors are a plucky aggregation. They chartered the steamer Cayuga to take them here; but it ran on a sand bar. The crowd of excursionists forsook them and the boys had to come alone on the Eleanor.

But they were not without friends. Capt. Len Robinson was here and aided by a number of ex-Montaguites rooted for the visitors.

The features of the game was a home run by Killian and the fine batting of the Holland players.

PUMPING OUT A SCOW.

It is the Easiest Problem the River Man Has—Just Pull the Plug Out and Haul.

"Nobody who knows anything about boats worries over a few feet of water in a scow if the water isn't too deep," said a river man to a New York Sun reporter. "Getting it out is the easiest job in the world."

"Scows, as everybody knows, are flat bottomed, and up forward in the bottom of every one is a plug as big around as a man's two fists. Dozens of empty scows fill up with water and lie at the piers with only the deck afloat every year. It doesn't hurt them. The owner just lets them lie so till they're wanted. Then he sends a tugboat alongside and she hitches on. A man goes aboard the scow and pulls out the plug."

"Does the scow sink? Nary a foot. As the tug starts her up you see she lifts the old scow up some, and the result is that the water in the scow pours out through the plug hole. It's hard pulling at first, but the faster the tug hauls the higher goes the scow bow and the quicker the water goes out, till the scow's almost dry. After a spin of a mile or so the plug can be replaced and the little water that remains in her pumped out by hand."

"Simple? I should think so. Easiest thing in the world. That's why scows are so useful. You needn't be so extra particular about caking 'em so long as your cargo won't be hurt by water; and age and submersion seem to improve them."

A REFUGE FOR ROGUES.

Perfect Paradise for Men Who Have Committed Crimes of Every Description.

There is one corner of Central America that is at present a perfect paradise for men who have committed any crime. It is a place where the outcasts of the world's society rule the land of their adoption, and where the officials of the government protect all thieves that come to them and make it dangerous for any detective to molest them, says the London Express.

This is the republic of Honduras, one of the least advanced of the states of South or Central America. Honduras indeed is a curious mixture of jungle and gigantic forest, of cocoa and of rubber trees, of bugs, vampires, snakes and crocodiles—of all manner of things that creep and crawl and sting and bite; a region where life in the daytime is a mockery and at night one feels as though sleeping in red pepper.

Here, in every hamlet and city, are to be found men from different lands, mostly outlaws from their own country. Chicago, Boston, New York and Philadelphia all furnish their quota. England, France, Italy and even far-away Russia have their share. They make no attempt at concealment, bear the names they were born to, bear and go along about their own business as if the laws of their own country had not made them outcasts.

THE IRELAND OF TO-DAY.

More Prosperous Than Formerly, But Its Main Lack Is in the Manufacturing Line.

Rt. Hon. James Bryce, a careful observer, and Mr. Seumas MacManus, the Irish writer, agree that Ireland to-day is enjoying comparative prosperity. The people are living better, their food is of a higher grade, the bank deposits have decreased, the farm rents are lower, and the returns from work are larger. The main reason why it does not take its place as one of the rich countries of the world is its lack of manufacturing. It exists mainly on its agriculture and its fisheries, says the Philadelphia Saturday Evening Post.

Ireland contains 32,337 square miles, not including the 196 little islands which add 246 square miles to the total. It is not quite so large as Indiana, and is a little larger than South Carolina. The Philippine islands are four times the size of all Ireland. Less than five years ago a commission appointed by parliament reported that there had been placed upon Ireland a taxation burden which it was unable to bear, and that something should be done. Thus came the new land act, which was a mitigation, but not a reform, of the evils.
