Watch Work

If your watch stops on cold nights, or "runs wild," it is a sure sign that the oil is run out or too thick. You should lose no time in having it properly cleaned and re-oiled. It will wear out more in one month when dirty than in a year if in proper condition. We warrant every job we do. Don't forget this.

CITY AND VICINITY.

Citizens Telephone company line-men are reconstructing the Zeeland-Hamilton line.

Miss Edna Allen has taken a position in the Bell Telephone company's office in place of Miss Harriet Huntley, resigned.

The Fourteenth Street Christian Reformed church has filed articles of association with the secretary of state under the name Holland Christian Reformed church.

Governor A. T. Bliss has sent his congressional library to Alma college as a gift. It contains 400 volumes of the record from the beginning up to 1899, from which time the college library was already complete.

Robinson township farmers have got together and raised \$2,000 with which they will put in a grist mill. As it has been farmers of that locality have had to drive 15 or 20 miles heretofore to the nearest grist mill.

At the national convention of Letter Carriers held at Denver, Col., Frank E. Doesburg of this city was elected vice president for Michigan of the national association in place of George W. Butterfield of Bay City.

The farmers in the hardwood sections of the upper peninsula who furnish thousands of cords of wood to the market every winter are taking advantage of the high price of coal, and are boosting the price of their own wares up a few notches.

Young men of this city who are ambitious to serve their country in the ranks of war now have an opportunity to enlist in the regular army as George H. Mee of the cavalry service has opened a recruiting station at the St. Charles hotel and will receive enlistments. The term of service is three years.

The Three Rivers Herald report the catching by a couple of gentlemen of that city of a pound and a half bass inside of which was found a bird, feathers and all. The Herald further says, however: "As to the authenticity of the story, we will state that the same gentlemen last year shot seven times at a coon, but when it flew away it proved to be an owl."

Alderman Ellen introduced a resolution at the last meeting of the Grand Rapids common council calling upon the Grand Rapids, Holland & Lake Michigan interurban company to find some other place to load and unload than at the corner of Market and Monroe streets. The committee on streets will investigate but it will be strange if a change is made for the business men of Grand Rapids are so anxious to get Holland people there that they will fight against having anything done to inconvenience them.

The Macatawa Bay Yacht Club has decided to move the club house from its present site west of Jennison Park to the shoal spot near the winged pier and east of Albert Tanner's boat livery. This change will mean an increase in popularity and a consequent increase in membership as the new site is easily accessible to Macatawa Park and Ottawa Beach and will prove a desirable rendezvous for yachtsmen and all those interested in yachting. Means have been provided to raise the debt on the boathouse and it is expected that the club will start business in its new quarters free from financial entanglements.

The trial of George E. Nichols, the Ionia attorney, upon a charge of subornation of perjury, will take place in the circuit court at Grand Haven. This change of venue was announced in the superior court at Grand Rapids Monday by Judge Newnam. The charge against Nichols is that he attempted to bribe Frederick H. Garman, one of the important witnesses against Lant K. Salisbury. It is alleged that he sent a bundle containing \$1,250 to Garman's room in the Livingston, the messenger being William Leonard. Nichols was at that time one of Salisbury's attorneys. In assigning the cause to Ottawa county the judge said that he understands that the jury in that court will be returned next Monday and that Judge Padgham will be ready to go ahead with the case immediately. He ordered the respondent to appear at Grand Haven September 15.

Rev. J. W. Beardslee conducted services in the Reformed churches at Alto and Waupun, Wis., last Sunday.

Abel Postma has taken the contract for the erection of a new house on West Seventeenth street near Central Avenue for Oscar Van den Berg.

Rev. Prof. Henry Dosker, D. D., conducted services in the Fourth Reformed church of Grand Rapids last Sunday.

B. Van Raalte, Sr., has received a cablegram announcing the safe arrival of his daughter, Miss Julia Van Raalte, at Hong Kong where she was married to Prof. O. S. Reimold, Sept. 11.

List of advertised letters at the Holland postoffice for the week ending Sept. 12: R. W. Coddington, Mrs. Sprague Collins, Harry Fitch, C. Huizinga, Maak Tasout, Mike Williams.

Most everyone knows that pickles and milk do not go well together, but Farmer Bowler, of Kent County, forgot it. He fed his cows some cucumber pickles, and his family are going without cream in the coffee for breakfast until some more cows are purchased.

Berrien county farmers will next year follow the example of southern peach growers and ship a large portion of their peach crop to England, where fancy prices are obtained for the best fruit. The fruit destined for foreign sale has to be of exceptionally fine quality and packed with the great care used by California fruit shippers, but the returns are said to pay for the extra labor many times over.

John Turner, son of Phineas Turnery of Trowbridge township Allegan county, fell from a hay-stack Monday afternoon and was seriously injured by a tine of a fork running into his abdomen. He was attempting to climb a stack of hay on a wire ladder and had a pitchfork in one hand when a strand of wire gave way and he fell to the ground. He was impaled on the fork and one time went nearly through his body. He may live.

The four-year-old son of Mr. and Mrs. William Barlow of Olive Center, was brought to the office of Dr. Mastenbroek in this city last Friday afternoon suffering injuries received by falling into a pan of boiling water. The boy's legs were badly scalded, the skin hanging in strips from the flesh in some places. Dr. Mastenbroek dressed the injuries and relieved greatly the suffering of the child. The accident happened while Mrs. Barlow was scrubbing.

Will Van Anrooy with a force of nine men and his pile driving outfit left Wednesday for the north. He has taken the contract for driving the piles for the bridges and culverts on the Traverse City, Leland and Manistique railroad, an extension of the G. R. and I. It will take about 24 months to complete the contract and there is a likelihood that he will be given additional work enough to keep his crew busy five months in all. The work up north will be done with the land driver. In the meantime the other driver will be in operation on Black Lake and at Douglas and Mr. Van Anrooy will divide his time between the two crews.

Two resorters who were taken from the bottom of an upturned boat by the life saving crew one day last week learned something regarding the rules of the service. So pleased were they with the help extended by Capt. Jensen and his surfmen that they tendered the crew a sum of money. They were surprised when told that the life savers could not accept pay for service rendered in saving life or property, excepting the salary of \$65 per month given them by the government. But the resorters were bound to express their gratitude some way and said that no power on earth could keep them from treating the surfmen to cigars. And now the life savers are smoking.

Telephone users in Zeeland had an exciting experience Monday due to the cross circuiting of a telephone cable of the Citizens' Telephone company with one of the interurban feed wires. The felling of a tree snapped the phone wire and it dropped across the wire carrying the high current of the interurban line. The attendant in the exchange received a severe shock through touching one of the switches while the heavy current was on and many of the telephones in the village were put out of commission. Manager Orr of this city immediately put a force of men to work and soon had the greater portion of the phones in running order. Some of them had to be sent to Grand Rapids for repairs.

Born to Mr. and Mrs. Fritz Jonk man, Tuesday—a son.

"A Breezy Time" at the Lyceum Opera House Friday evening, September 19.

Holland met with two reverses this week. The fastest horse in the state and the fastest ball team were both beaten.

J. A. Vander Veen has been granted the contract for wiring the new three-story addition to the H. J. Heinz pickle factory.

Rev. G. Hooksema will conduct services in the Ninth street Christian Reformed church next Sunday morning and afternoon.

The regular meeting of Hope church Aid society will be held Wednesday afternoon, Sept. 17 at the home of Mrs. Dr. Kremers, East 12th street. A large attendance is desired.

Graham & Morton have deserted the towing field in Chicago and will take no part in any towing wars. The line's tug Andy, in use at Chicago for three months during the strike, was sent to St. Joseph and will be kept for use on the east shore of Lake Michigan.

About 60 members of the Chicago Automobile club will come over on the steamer Soo City tonight. They will have a dozen machines with them and will go from here to Grand Rapids where they will be entertained by the Grand Rapids automobilists who will leave that city Saturday morning early to meet them.

The steamer Puritan had to go into the dry dock at Chicago this week to be equipped with a new wheel in place of the old one which had one of the buckets broken off by churning up a log near the Ottawa Beach dock last week. The side wheel steamer City of Chicago took the Puritan's run while the change of wheels was being made.

M. Paine, of Napoleon, North Dakota, is in the city, the guest of his daughter, Miss Maud Paine, who is staying at the home of Mr. and Mrs. James Doyle. Mr. Paine is a newspaper man of considerable experience and will on his return to his home next week begin the publication of a weekly paper which he will name the Logan County Voice. He bought a complete printing outfit in St. Paul, Minn., and has shipped it west.

Allegan may get a shoe factory. T. R. Blanchard of Sturgis, formerly of Boston is trying to form a stock company to manufacture shoes. The plan is to get \$10,000 worth of stock subscribed besides the \$10,000 plant. Blanchard proposes to furnish as his part of the project, aside from his experience and knowledge of the business, an equipment of machinery and lasts sufficient to start the factory in good running order. He knows of such an equipment that has been operated for six months which cost \$9,000, but he thinks can be purchased for \$5,000, and he could move it to Allegan if the plan is carried out or would buy entirely new machinery if that is not satisfactory.

McKinley, the fast trotter that swept the state this season to the great joy of his owner, H. Boone, Sr., cannot stand the weather. The choppy waves of Lake Michigan are too much for him. He was shipped to Milwaukee on the Pere Marquette steamer to take part in the big races. The steamer ran foul of stormy weather and shook the horse up considerably. While on the boat he had to be assisted to his feet four times. This took the edge off his training and for two days before the race he could scarcely eat. He entered the race however, but was in no condition to run and his owner had to be content with fourth money. Had the horse been in condition he would have won in a walk as the time in each heat was around the 2:16 point.

Francis Lorraine and Edward Snyder, the Grand Rapids crooks who entered the home of James P. Armstrong of this city and who were captured with their valuable plunder an hour later have decided to plead guilty. Before coming to this decision the young men had a talk with Sheriff Dykhus. The men asked the sheriff if they should plead guilty whether or not they could expect leniency at the hands of Judge Padgham. Mr. Dykhus told the men that he could promise them nothing. However, it is always the rule when a criminal pleads guilty, thus saving the county much expense, to make his sentence lighter, and Lorraine and Snyder will undoubtedly benefit thereby. An adjourned term of circuit court will be held here next week and they will undoubtedly appear for sentence at that time.—G. H. Tribune.

DAY, Sept. 18th.

NEIGHBORING TOWNS.

Filmore.

Last week's items:

The rain of last Wednesday noon was very welcome to the crops.

The Sugar beets have suffered very much during the dry hot days.

Mr. and Mrs. Henry Beltman, of Holland, visited with his brother last week.

Mrs. J. J. Van den Beldt and Mr. and Mrs. Geo. DeWitt attended the Mission picnic at Grand Rapids last Monday.

Mrs. Jim De Vries and Miss Lena Spiker of Zeeland, visited with Mrs. Henry Boeve, Jr.

Miss Gordon the trained nurse from Ann Arbor, who attended Mrs. Arle Prins returned home last week. Mrs. Prins is improving nicely.

Zutphen.

The Rev. J. B. Hoekstra of East Saugatuck has declined the call from the Chr. Ref. church at this place.

The consistory has made a new trio as follows: Revs. G. D. Dejong from Grand Haven, R. L. Haan Muskegon, L. Veltkamp, Lamont, all of Michigan. Election will take place Sept. 15th, 1902.

On the sick list Mr. and Mrs. H. Hienstra and Mrs. H. Bosch.

School commenced Monday with A. H. Bosch as Principal and Mrs. Martha Van Bronckhorst, Assistant.

Last week our creamery was on fire but through the heroic efforts of Creamery hands and neighbors fire was soon extinguished with butter milk.

Denver, Colorado.

Holland City News, Friends and Old Neighbors: As I have a little time before we start up I will write you a few lines. I have had a good day of it for I was well pleased to see Frank Doesburg. He came to the building and we went out together, then he went in the parade which was good and no happier lot of fellows could be found. He will see some sights out here. We had three large parades today. One took one hour to pass.

Last week I was surprised to see Roley Chatman, formerly of Ventura, now from Chicago. He was here for a little while. I found him a good place to stay so he is all O. K.

Mr. Rogers, of Holland called on me yesterday. He is getting along well, so is Fred Nash who is herding sheep and intends staying on a ranch all winter.

Denver is pretty lively now. We have fine weather, dry and cold nights. As for ourselves we are well and wife and children are doing fine. Well I must put lights on building. Oh yes we are drilling a well going down 700 feet 58 feet of solid rock. Hope all are doing well this summer at home. Any one coming out here call and see me at McPherson Building.

I was pleased to have Frank Doesburg tell me that everyone was glad to read the Denver items in the News and wanted me to keep on writing. I will do so.

As Ever,
Chris Cook.

HE KILLED HIMSELF.

Bartholin, the Murderer of Two Women in Chicago, Takes His Own Life in Iowa.

Riceville, Ia., Sept. 8.—William Bartholin is dead. The body of the suicide found in the lonely flax field near Lowther has been positively identified as that of the murderer of his mother, Mrs. Anna Bartholin, and his sweetheart, Miss Minnie Mitchell, in Chicago last summer. The confession found in a pocket of the suicide's coat exonerated Thompson, Claffy and Counselman has been identified as the writing of Bartholin. The mysterious case, which began with the murder of the aged mother on July 8, and was augmented by the finding of the body of Minnie Mitchell on August 7, has culminated in the Riceville cemetery, where several hundred persons gathered to see the body exhumed. In the clothing of the suicide was found a written confession of his crime.

BREAKS ALL RECORDS.

More Gold in United States Treasury Than Ever Before in History of the Country.

Washington, Sept. 9.—The sum of gold now in the United States treasury exceeds that of any previous time in the history of the country and with one possible exception, it exceeds that of any country at any time in the history of the world. The single reported exception is that of Russia about eight years ago, when that country was preparing to resume gold payments. At that time Russia is said to have had in its treasury \$598,000,000 in gold. Last Saturday the vaults of the United States treasury contained \$573,936,194, an increase since July 1, 1901, of \$79,087,897. This stock of gold is now being added to at the rate of \$300,000 to \$300,000 a day, with no immediate prospect of a cessation in the rate of deposits.

MAY END THE STRIKE.

Morgan Assents to a Plan to End the Trouble Suggested by the Governor of Pennsylvania.

Philadelphia, Sept. 10.—J. Pierpont Morgan, heading earnest representations made by Gov. Stone, has assented to a plan which, it is believed, will end the anthracite coal strike. It needs, of course, the consent of the leaders of the strike. Gov. Stone will present it to John Mitchell.

In brief, the plan is that the men shall return to work without a signed agreement; that the operators shall then by concessions seek to adjust the differences; that if a settlement is not reached within a stated time the whole matter shall be referred to an arbitrator; that the men will await his decision and that if they deem it unjust they may renew the strike.

GEN. MILES' PLANS.

He Expects to Sail for the Philippines from San Francisco September 30.

Washington, Sept. 10.—Gen. Miles will leave this city on Thursday for the Philippines, but will stop at Chicago, and possibly at other important points on the way to Portland, Ore., from which city he will proceed leisurely down the coast of California, in order to inspect the recent extensive improvements in the coast defense system on the Pacific. His movements will be timed so as to enable him to take passage for Manila on the transport Thomas, scheduled to leave San Francisco about the 30th instant. Mrs. Miles, Col. M. P. Maus, aid de camp, and Mrs. Maus, and a stenographer and a messenger from the army headquarters will accompany him.

Jealous Wife Slain.

Bloomington, Ill., Sept. 10.—A sensational tragedy took place in the residence district of the city, near the corner of Market and Prairie streets, about nine o'clock Tuesday night. Daisy Carlton, a very pretty girl of 20 years, shot and instantly killed Mrs. Joseph Leslie, following an attack on the former with a horsewhip by the murdered woman. The shooting was the sequel to the jealousy aroused in Mrs. Leslie's breast by the alleged attentions paid to Miss Carlton by her husband.

Wants to Go to Congress.

Cincinnati, Sept. 9.—The Times-Star announces that Murat Halstead, the veteran editor and author, is a candidate for the republican nomination for congress in the Second Ohio district, represented in the last three congresses by Hon. Jacob H. Bromwell. There are several other contenders for the nomination.

Blew His Head Off.

Ottumwa, Ia., Sept. 9.—Believing he was threatened with insanity Nelson Rasmus, a farmer, 30 years old, residing two miles south of Mt. Union, repaired to a cornfield with a shotgun, placed the muzzle to his forehead, pulled the trigger with his toe and blew his head off.

Ohio Editor Dead.

Youngstown, O., Sept. 10.—A special to the Telegram from Alliance says: Wallace H. Phelps, editor of the Alliance Review, died Tuesday morning after a short illness from typhoid pneumonia. He was 49 years of age and leaves a widow and three children.

Cancer Killed Him.

New York, Sept. 8.—William N. Boach, who was United States senator from North Dakota from 1893 to 1899, died in this city from cancer, aged 63 years.

Sent to Prison.

Topeka, Sept. 10.—James Kaye was sentenced to serve 27 years in the state penitentiary for the murder of his wife. Kaye pleaded guilty.

Probate Order.

STATE OF MICHIGAN, ss.
COUNTY OF OTTAWA.

At a session of the Probate Court for the County of Ottawa, holden at the Probate Office, in the City of Grand Haven, in said county, on Tuesday, the 19th day of August in the year one thousand nine hundred and two.

Present, EDWARD P. KIRBY, Judge of Probate.

In the matter of the estate of Lambert H. Jonker, deceased.

On reading and filing the petition duly verified of Frederick Jonker, son of said deceased, praying for the probate of an instrument in writing filed in this court, purporting to be the last will and testament of said Lambert H. Jonker, deceased, and that the administration of said estate may be granted to himself, Frederick Jonker, or some other suitable person.

Thereupon it is ordered, That Monday, the Fifteenth day of September next,

at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office in the City of Grand Haven, in said county, and show cause, if any there be, why the prayer of the petitioner should not be granted: And it is further ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition, and the hearing thereof by causing a copy of this order to be published in the HOLLAND CITY NEWS, a newspaper printed and circulated in said county of Ottawa, for three successive weeks previous to said day of hearing.

MONT PELEE KILLS AGAIN

Two Thousand More Persons Lose Their Lives on the Island of Martinique.

MOLTEN ROCK FALLS OVER WIDE AREA.

Survivors of Earlier Eruptions Die with the Rescuers — People Are Panic-Stricken and Are Fleeing from the Island, Which Seems Doomed to Destruction.

Castries, St. Lucia, E. W. I., Sept. 5.—Mont Pelee has hurled another infernal flood over the island of Martinique and this time the deluge of fire has killed 2,000 persons. The volcano's latest death-dealing eruption came Wednesday night while Martinique's officials were risking their lives in an effort to save the survivors who remained in the northern part of the island after the fatal outburst of August 30, that killed over 1,000 persons.

Mail Steamer Brings News. Details of the disaster are not obtainable yet. The ship that brought the news to this port is the royal mail steamer Yare. She sailed from Martinique before full reports could be secured. But she brought enough information to awaken the residents of

NOTED AUTHOR DEAD.

Edward Eggleston, Who Wrote "Hoosier Schoolmaster" and Other Books, Passes Away.

Indianapolis, Ind., Sept. 4.—A special to the News from Madison, Ind., says that Edward Eggleston, author of "The Hoosier Schoolmaster," died Tuesday night at Lake George, N. Y. Edward Eggleston was born in Vevey, Ind., December 10, 1837. His early education was received in the country

and village schools of that neighborhood and in a boys' school in Amelia county, Va. He became a Methodist minister in 1857, traveling the circuit in southeastern Indiana and later in Minnesota. Work on the religious press occupied him from 1866 to 1872.

ALL BUT SIX ARRESTED.

Thirteen Members of Alleged Combine of St. Louis House of Delegates Held for Trial.

HUNT FOR THE OTHERS BEING KEPT UP.

Friends of Five of the Men Will Seek to Effect Their Release by Habeas Corpus Proceedings — Delegate Faulkner's Offer to Turn State's Evidence Is Declined.

St. Louis, Sept. 10.—All but six of the 19 members of the alleged combine of the house of delegates, who are under indictment on various counts, charging bribery and perjury in connection with the passage of measures granting valuable franchises to public corporations, are or have been under arrest.

Those who are still at large are: Delegate Charles F. Kelly and former Delegates Emile Hartman, Louis Decker, John A. Sheridan, all resting under two charges of bribery and one of perjury; former Delegate Julius Lehmann, charged on two counts with bribery, and already under sentence of two years in the penitentiary for perjury, and former Delegate Adolph Madera, charged on two counts with bribery and one of perjury. The last named is supposed to have been located in Colorado, but the authorities will not say where. It is currently reported that a member of the local detective force has been sent to that state to bring Madera to St. Louis.

Former Delegate William M. Tamblin, who was arrested Tuesday in Cleveland, is expected to reach here soon in the custody of an officer from that city.

To Seek Release by Habeas Corpus.

The friends of Messrs. Hannigan, Schnettler, Gutke, Helms and Schumacher, who were remanded to jail Tuesday because of their inability to furnish bonds to the amount of \$45,000 each, are making strenuous efforts to secure their release. If sufficient surety cannot be secured it is stated that the matter will be taken to the supreme court, which body will be asked for writs of habeas corpus. The grounds on which these writs will be asked are not known.

Attorneys John A. Gernez and Chester H. Krum have been retained to appear before the supreme court and secure the writs of habeas, if possible. Gernez has gone to Jefferson City and Krum to Springfield, Mo., to lay the matter before Judge Sherwood.

Faulkner's Proffer Declined.

Delegate Faulkner's proffer to turn state's evidence and make a clean breast of all the operations of the house combine came too late and has been declined by Circuit Attorney Folk. In addition to being under indictment on two charges of bribery, Faulkner stands convicted of perjury in connection with the Suburban deal.

Murrell Makes Confession.

Edward E. Murrell, speaker of the house in the days of the lighting and Suburban bills, was released from custody Wednesday after his bond for \$15,000 had been signed by Emil G. Wolchek, a contractor. Only one charge, that of bribery, it is now stated, rests against Mr. Murrell. He has made a confession to Circuit Attorney Folk and will be a state's witness.

"I have made a full statement to Mr. Folk," said the former speaker as he left the Four Courts building, "but I am not at liberty to say anything for publication."

Combine of Candy Makers.

New York, Sept. 10.—A combination of candy manufacturers just incorporated in New Jersey under the name of the National Candy company, with a capital of \$9,000,000, will, according to the Journal of Commerce, embrace 18 western candy houses, having an annual output, as claimed by the promoters, of nearly 100,000,000 pounds of confectionery, mostly of the cheaper grades. The corporation comprises concerns at Cincinnati, Chicago, St. Louis, Buffalo, Detroit, Indianapolis, Louisville, Minneapolis, Grand Rapids and one or two other western cities.

To Command Asiatic Squadron.

Washington, Sept. 10.—It was announced at the navy department Wednesday that Rear Admiral Frederic Rodgers will turn over the command of the Asiatic station to Rear Admiral Robley D. Evans at Yokohama, Japan, about October 29, and that Admiral Rodgers then will sail for the United States aboard his flagship, the New York, coming across the Pacific to San Francisco instead of through the Suez.

Bids Opened.

Washington, Sept. 10.—Bids were opened in the office of the secretary of the navy Wednesday for the supply of steel material to be used in the construction of the battleship Connecticut at the New York navy yard. The amount of material advertised comprised about 7,466 tons of ship plates, nickel steel plates, steel castings and hull rivets.

Elected Supreme President.

Albany, N. Y., Sept. 10.—The Catholic Relief and Beneficiary association, in session here, elected as supreme president Thomas H. O'Neill, of Auburn, N. Y.

Nominated for Governor.

Concord, N. H., Sept. 10.—Henry F. Hollis, of Concord, was nominated for governor by the democratic convention here Wednesday.

this island to the terrors of Mont Pelee even now, after the once populous city of St. Pierre has become only a burial ground for 30,000 men and women whose lives were snuffed out in an instant last May.

People Flee from Island.

About the volcano's crater are now only heaps of lava-covered ruins. The survivors of the villages there are scattered in the country. The Yare reports that great numbers of persons are fleeing from Martinique. The people are convinced that the whole island is destined to destruction. They are panic-stricken on every hand, although some of those of Fort de France think Mont Pelee's wrath cannot be visited on them because of the distance away and the nature of the intervening country.

St. Vincent Volcano Active.

While the residents of St. Lucia offer open homes to the fugitives from Martinique, they fear for the citizens of St. Vincent. La Soufriere, the big volcano on that island, belched out great quantities of fire and stones and lava at 12 o'clock Wednesday night. Tremendous reports, far louder than the mightiest cannon, startled the people on the farthest parts of the island. The surface of the earth was upheaved in places and the whole land trembled. So far as known no lives were lost.

The Island Doomed.

Point-a-Pitre, Guadaloupe, E. W. I., Sept. 5.—It is generally believed that the island of Martinique is doomed to total destruction, and the fear is that when the catastrophe come Guadaloupe will be visited by an all-destructive tidal wave. Business is absolutely at a standstill. Few shops are open, and if it were not for the efforts of a few more valiant souls hundreds would starve to death here because of their fear of a more terrible death.

Oppose Franchise Clause.

Columbus, O., Sept. 10.—It has developed that Senators Hanna and Foraker will seek to have the franchise clause in the Nash code entirely eliminated, leaving the present laws stand as they are, but that they will endeavor to have a curative clause inserted which will protect the interests of the Cincinnati Traction company, which are involved in the recent decision of the superior court, of Cincinnati.

Sargent Resigns.

Chattanooga, Tenn., Sept. 10.—The convention of the Brotherhood of Locomotive Firemen received and accepted the resignation of Grand Master F. P. Sargent, who has been appointed commissioner general of immigration.

In 1874 he became pastor of the Church of Christian Endeavor, Brooklyn, N. Y., retiring from the ministry in 1879 and devoting himself to literature exclusively. His most widely known books are "The Hoosier Schoolmaster," "The Hoosier Schoolboy," "The End of the World," "The Mystery of Metropolisville," "The Graysons," "The Faith Doctor," and "The Transit of Civilization from England to America."

Post Offices Robbed.

Washington, Sept. 10.—The post office department has received dispatches announcing that the post offices at Fisher, Ill., and Freetown, Ind., were robbed Monday night. All the stamps and money orders in the Fisher office were stolen. At Freetown the safe was blown open and all the stamps, some cash and probably two packages were stolen.

The Public Debt.

Washington, Sept. 4.—The monthly statement of the public debt shows that at the close of business August 30, 1902, the debt, less cash in the treasury, amounted to \$968,091,321, a decrease for the month of \$5,818,646. This decrease is principally accounted for by a corresponding increase in the cash on hand.

The Maine Election.

Portland, Me., Sept. 10.—John F. Hill, republican, was reelected governor by a plurality of 30,000. The entire republican ticket was successful, besides four congressmen—the entire state delegation. The legislature will, as usual, be strongly republican.

The Cuban Loan.

Havana, Sept. 10.—The house of representatives has passed the senate loan bill by a vote of 48 to 2. The president is authorized to raise a loan of \$35,000,000, to be issued at 90 at five percent maximum interest. The loan is redeemable in 40 years.

Union Veterans' Union.

Washington, Sept. 9.—A general order has been issued from the headquarters of the Union Veteran union calling the seventeenth national encampment of the union in this city October 9, 10 and 11 next.

Coming to America.

London, Sept. 9.—Gen. Botha's secretary, Mr. Bredonier, said that the Boer generals expect their tour of the United States to occupy six months.

Opening of Hope College.

Fall term begins on Wednesday, September 17th at 9 a. m.
All who wish to be admitted, either to the College or to the Preparatory department, on certificate or diploma, will please present these papers on Tuesday, the day preceding, at 9 a. m. in Graves Hall.

Any who wish to be examined for admission to any class will meet the faculty at the same time, and if they have any report cards, or other papers indicating what studies they have pursued, it would be well to bring them.

G. J. KOLLEN,
President.

Board and Rooms Wanted.

Please state location of room, furnished or unfurnished, and rent. Some of these students are looking for room and board in some private family. If only table board can be furnished, state price.

Returned to His Fish Pond.

Grover Cleveland was called to New York from his private fish pond to sound the slogan of victory for Democrats. He came, he talked, he departed. He declared, "Democrats ought to be fed upon something better than the 'bunks of defeat,' and he solemnly inquired, 'Is it too much to ask that proven errors be abandoned and that we be delivered from a body of death and relieved from the burden of issues which have been killed by the decrees of the American people?'" He made an attack on a "system of Tariff taxation whose robbing exactions are far beyond the needs of economical and legitimate government expenditures; which purchases support by appeals to sordidness and greed; which by it continually corrupt the public conscience."

Beyond this and the declaration that "Tilden was elected in 1876 against an opposing force brazen and desperate enough to take from us by downright robbery what the voters of the land gave to us," he said nothing worthy of note. He did not refer to "expansion," "imperialism," "consent of the governed," "trusts" and like "issues" formulated by Democrats in other States, nor did he refer to the stealing of New York from Blaine in 1884. Contented with dealing ponderous blows at Bryan's "crown of thorns and cross of gold," Mr. Cleveland returned to his fish pond.—Seattle "Post Intelligencer."

An Important Question.

How would a Democratic House affect business? Would not the threat of free-trade or of a drastic revision of the tariff, involved in a Democratic triumph, become a disturbing factor the moment the result was known? Fears seized the men of commerce the day after Cleveland's election in 1892 and prices immediately

began to fall, panic and business reverses following quickly after. Do the people desire a repetition of those days? Do they wish to endanger the widespread prosperity that now prevails? As the campaign goes on that will daily become more and more clearly the real issue.—Brooklyn "Standard Union."

Installation Services and Inaugural Sermon.

Besides the laying of the corner stone of their new church, the congregation that will worship in the Fourteenth Street Christian Reformed church have witnessed two other notable events—one the installation of the pastor, Rev. D. R. Drukker, the other the delivery of his inaugural sermon.

The installation ceremonies were performed last Friday night at the Ninth Street Christian Reformed church in the presence of a large congregation. Rev. Mr. Van Tieleen of Crisp read the scripture lesson and gave an instructive and interesting address, and the ceremony of installation was performed by Rev. Van Vessum.

Sunday night at the Ninth Street church Rev. Drukker delivered his inaugural sermon to an audience that filled every available seat and crowded the aisles. It is estimated that over 1,000 people were present, many members of the other churches being in the congregation.

Rev. Drukker's remarks were of a helpful nature and his advice to his new flock contained many sound suggestions. He pointed out the way that they were to follow and encouraged them to persevere in the their work for the advancement of the principles of the Christian Reformed faith.

The new pastor surely starts his work here under most favorable auspices and the encouraging signs of the present is a guarantee of the success that will attend him in the future.

Astrologer Meyer Foretells.

Gustave Meyer, the astrologer who foretold the assassination of President McKinley, last Saturday came out with another forecast. As the events foretold are related to occur within six weeks those inclined to curiosity may like to see how squarely the astrologer strikes the point. Here is the forecast:

"On erecting a figure or chart of the heavens, for our autumn quarter, I find that the stars indicate and impart the fact to me that some great harm is imminent to our president and to the government, especially so during Sept. 15-27 and Sept. 30 and Oct. 1, 8, 9, 14, 15 and 16; and it would be well for President Roosevelt to guard himself from harm or danger throughout the autumn months, owing to the fact that the evil planet Saturn is posted in the tenth mansion of the heavens, or in mid-heaven, which shows almost similar evil to President Roosevelt as that which I predicted for President McKinley during 1901.

However, the indications are not as serious as could be otherwise, owing to the fact that the fortunate planet Jupiter is pointed in mid-heaven, or in the same mansion with the evil planet Saturn; and this will modify the evil to a certain extent; or, in other words, I should judge that our president will have a "very close call." And the evil which has but recently occurred to him only goes to follow that, "coming events cast their shadows before." However, I trust that nothing very serious shall befall our president. But if my advice is seriously heeded, much harm to him and our government can be averted.

I further find that the stars indicate the fact that great mortality and also great troubles to our naval vessels and troubled change or demise in President Roosevelt's cabinet are indicated to occur during Sept. 8-12, 16-20, 23, 26-28.

The greatest evil is indicated during Sept. 10-11, 19, 23, 26-28, and during Oct. 1 and 14, 16, and during this period it will be well for our president and government to use the greatest of precaution, as "forewarned is forearmed."

Much trouble is indicated to the postoffice department and railroads in and around Washington, New York, Pennsylvania, Massachusetts, Illinois and New Jersey during Sept. 9-12, 15-18, 26-28.

And during this month, it will be well for prison and asylum authorities to guard against some great calamities, escapes or epidemics during Sept. 15-17 and 25-28.

Our government should also guard against foreign complications during the autumn quarter.

President Roosevelt should travel anywhere but South.

Trusting that my advice will be seriously heeded, and that much harm can be averted, I remain,

Gustave Meyer."

Woman's Club will Study America.

The Woman's Literary Club will resume its literary work October 7. Meetings will be held at the home of Mrs. M. E. King, 133 West Eleventh street. "America" will be studied and the program for the season indicates that the research into the history of our country will be very thorough. Chairmen of the different divisions of study have been appointed as follows:

History—Mrs. C. A. Stevenson and Mrs. C. J. Dregman.

Art and Literature—Mrs. R. N. De Marrell.

Science, education and miscellaneous—Mrs. C. M. McLean and Mrs. G. J. Van Dures.

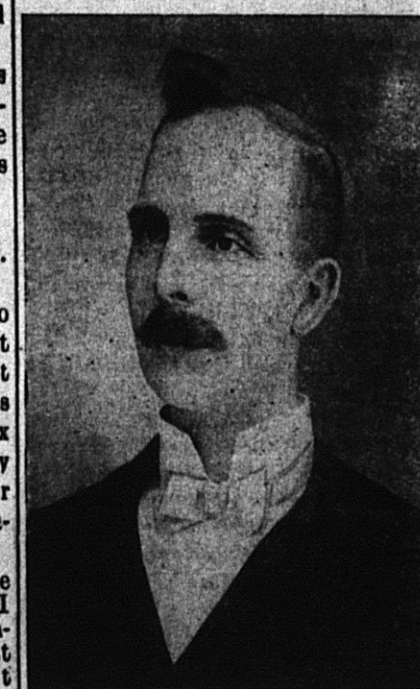

Following are the officers of the club:

President—Mrs. George E. Kellen.
Vice president—Mrs. C. A. Stevenson.
Recording Secretary—Mrs. W. J. Garrod.
Corresponding secretary—Mrs. J. C. Post.
Treasurer—Mrs. C. M. McLean.
The critics for the year are Mesdames J. C. Post, G. W. Browning, L. M. Thurber, and C. A. Stevenson. Mesdames R. N. DeMerrell and O. J. Dregman are the librarians.

Rev. Adam Clarke Will be Given New Charge.

Rev. Adam Clarke for the last six years pastor of the M. E. church of this city will soon take up his duties in a new field. He will sever his connection with the local church at the close of this year's work which comes on next Sunday and on that date will deliver his last sermon to his present charge. The annual conference will be held next week and Rev. Clarke will attend it with the understanding that he be sent to another charge.

The announcement that Rev. Clarke would discontinue his pastoral work in this city was received with expressions of great regret for he has done good work for the advancement of the religious interests of this city. From a small church with a seating capacity of less than 300 he has seen a change made to a handsome brick church costing \$11,000, and he has seen the congregation increase in membership from 135 to 321. All this has been done in spite of the fact that in Feb-

ruary 1901 fire destroyed a handsome church and funds had to be raised for the erection of the present edifice.

Rev. Clarke will leave for the conference next Tuesday.

The report of I. H. Fairbanks, secretary shows that at the fourth quarterly conference of the M. E. church held Sept. 5 the following officers and committees were elected for the coming year:

"Stewards for Holland charge—C. D. Stillman, I. H. Fairbanks, J. A. Mabbs, W. C. Belcher, J. A. Kooyers, W. A. Holley, M. Looyengood, Peter Knutson, Nels Hanson, Fred Wright, John Elferdink; for Ventura charge—Hattie Gunn, Cora Crofoot.

Recording steward—L. H. Fairbanks. District steward—J. A. Mabbs.

Trustees for Holland charge—J. A. Mabbs, John Nies, I. H. Fairbanks, W. A. Holley, C. L. Stillman, John Baldwin, Joseph Warnock, Austin Harrington, I. H. Garvelink; for Ventura charge—R. Smith, Fred Gunn, Earl Johnson, Orris Buchanan, George Smith.

Committees were elected as follows: Missions—Mrs. Sarah McClain, Mrs. Ella Holley, Hattie Nixon. Church extension—Fred Wright, Mrs. Agnes St. Clair.

Sunday School—I. H. Fairbanks, W. A. Holley, Jennie Grimes; at Ventura, Hattie Gunn.

Tracts—May Tubbs, Mrs. Fortis, Hattie Gunn.

Temperance—Joseph Warnock, Peter Damstra, Fred Wright.

Education—Aleta Fairbanks, W. C. Belcher.

Freedmen's Aid and southern education—Mary E. Mabbs, Elgin Burke, Mrs. W. H. Ashwin.

Church records—J. A. Kooyers, W. A. Holley.

Parsonage and furniture—J. A. Mabbs, Mrs. Johanna Nies.

Church music—W. A. Holley, J. A. Mabbs, I. H. Fairbanks, Irwin Adams.

Estimating pastor's salary—C. L. Stillman, W. A. Holley, Joseph Warnock; Ventura, Fred Gunn."

The Western Theological Seminary.

Will begin its regular fall session on Friday, Sept. 19 at 10 o'clock. Those desiring to enter the Junior class will be received on Thursday, the 18th at 10 A. M. Each applicant must present a College diploma and a certificate of church membership. All students are expected to be present at the opening on Friday morning.

J. W. BEARDSLEE, Pres.

Opening of New Christian School.

The new christian school on Central Avenue, built by those who desire to have their children receive religious instruction in connection with their school work, was opened last Tuesday with over 175 pupils in attendance. Prof. A. Stegink, a graduate of Hope College, will be in charge of the new school but he is at present in Patterson, N. J., and will not arrive here until October when he will assume control and give instruction in the higher branches. The other teachers are Miss Jansen of Zeeland, lately employed in the largest Dutch school in Grand Rapids, who will give instruction in the English branches; Miss Christine Holkeboer of this city, lately employed in the Grand Rapids schools, a capable and experienced teacher; Miss A. Verdenius, who is well versed in Dutch, German and French and who will give instruction in the Holland language.

The school was opened Monday afternoon for the inspection of visitors and a great many took advantage of the opportunity. They were shown through the rooms by E. S. Holkeboer one of the school committee, and expressed their approval of the school and its surroundings. The four large recitation rooms on the upper floor are well fitted up and are commodious and comfortable. In the basement besides the two furnace rooms there is a room that will be at the disposal of children who may wish to use it for lunching purposes during the noon hour.

The Big Fair Is On.

The big fair is on. A very large crowd was on the ground yesterday and the attendance to-day promised to be good. All of the side shows are doing a thriving business and there is joy for all who attend. The free shows opposite the grandstand are fine and attract by far the largest crowds.

The exhibits this year exceed by over 200 those of last year and for a time it looked as if space could not be obtained for the displays.

The women's department is filled with fancy work and presents a very attractive appearance.

The live stock exceed in numbers that of any previous year.

Conspicuous among the exhibits is the poultry show and the excellence of it is largely due to the members of the Holland Poultry and Pet Stock association who have taken great interest in it and have many birds on exhibition. This section looks like the annual poultry show although it is not on as large a scale as the one which will be held in this city this fall.

The flower display is one of the best ever seen in this section and elicits many expressions of approval from the spectators.

The races yesterday resulted as follows: 2:30 pace—purse \$150—Lady Bess, 1st; Oak Leaf, second; Lulu Klondyke 3rd; G. R., 4th. Best time, 2:29½.

2:40 trot—purse \$100—Honey C. 1st; Valley Lass, 2nd; Alwood, 3rd; Ashleyown, 4th. Best time, 2:35½.

The races will be interesting this afternoon. There are six entries in the running race.

If you want to laugh see "A Breezy Time" at the Lyceum Opera House Friday evening, September 19.

The fire department was called out Wednesday evening by fire in Van Drezer's restaurant. The blaze was small and was extinguished by employees before the arrival of the firemen.

It is likely that the Macatawa Bay Yacht club will meet with some opposition in its plans to move the club house to the site near the government piers. It appears that the consent of the property owners fronting the proposed site must be secured and this consent may not be forthcoming owing to a disinclination on the part of the property owners to having their view of Macatawa Bay shut off. The officials of the Yacht Club are now negotiating with the property owners.

Hon. G. J. Diekema, chairman of the republican state central committee, has received word that Senator Beveridge of Indiana, the leading orator of the United States senate will make an address in Grand Rapids on the evening of September 25 in connection with the state convention to nominate a candidate for justice of the supreme court. Senator Beveridge will speak at the Auditorium in the evening and will address one of the largest and most representative gatherings of republicans ever assembled in Michigan.

The Holland Sugar factory is all ready for the campaign of 1902-1903 and will soon begin operations. Some improvements have been added to the equipment and the machinery has been overhauled and is in excellent shape. It is likely that the factory will start up in about two weeks but the exact day cannot be named now. Reports to C. M. McLean, the manager, and F. C. Hall, the secretary, from sugar beet centers indicate a fairly good crop and consequently a busy and prosperous season. H. W. Hinz, the superintendent, is taking a short vacation and has been out of the city the greater part of the week.

A dispatch from Muskegon has the following regarding Rev. M. H. A. Van der Valk: "There is little doubt but that the Emanuel Presbyterian church will eventually be admitted to the Dutch Reformed denomination. The Emanuel church is the one of which Rev. M. H. A. Vander Valk was formally pastor and officers and many members of the congregation are eager to have it taken into the fold of the Dutch Reformed. The Holland residents of Muskegon belonging to the latter are generally favorably disposed to the step. Rev. Vander Valk is still in Muskegon waiting for his case to be taken up by the Grand Rapids Presbytery. He is keeping in the background. He attended the special session of the presbytery at Grand Rapids recently."

The Hon. Charles W. Garfield of Grand Rapids after returning from a trip to Allegan county where he gathered information regarding the fruit crops and condition of orchards generally had the following to say regarding "little peach": "That curious disease known as 'little peach' threatens to wipe out the peach orchards of Allegan county, unless energetic measures are promptly taken to stop the spread of the disease. I am informed that the disease has gained an alarming headway among the peach trees. It struck me that the fruit growers of this section cannot be too vigilant in watching their orchards and promptly eradicating all suspicious trees from their orchards. It is difficult to account for the spread of this singular disease of the peach or what causes it. It runs through orchards rapidly and is certain death to the affected trees. I am reminded that the 'yellows' also first gained a foothold among the Allegan orchards."

There will be a breezy time at the Lyceum Opera House in this city, Friday evening, Sept. 19, when the play "A Breezy Time" will be produced by a strong company. This company has appeared here before and has given the best of satisfaction.

C. De Roo, son of Mayor DeRoo, was one of the best attractions at the fair yesterday. With Ray Hadden as a subject he gave an exhibition in hypnotism and spiritualism and the excellence of his oratory drew the largest crowd of the day to his temporary stand. He initiated the professors of hypnotism to perfection and touched upon questions of the day in an entertaining style. So impressed were John J. Rutgers, candidate for register of deeds, and A. B. Bosman, president of the fair association, with his oratorical accomplishments that they advanced him a salary for his work.

It doesn't take long. James A. Brouwer in his advertisement this week says that he can furnish your house in from two to ten hours with the very best of furniture, the latest and daintiest carpets and rugs and the newest draperies. And there is no doubt that he can do just as he says. He has been in business in Holland a long time and has done just as his advertisements represented from the first day until now, as hundreds who have saved money by purchasing of him will testify. To make your home delightful at small expense read Mr. Brouwer's advertisement.

Doubtful Rumors

AND STILL SCORES OF HOLLAND PEOPLE
ACCEPT THEM AS FACTS.

The published statement of some stranger residing in a far away place may be true enough, but it is generally accepted as a doubtful rumor. How can it be verified? The testimony which follows is convincing proof because it comes from a resident of Holland.

Mrs. F. Andree, of 243 West Twelfth street, says: "For a year or more I had a constant aching pain through my loins in the side and also a soreness of the stomach. I could hardly stoop to lift anything without suffering severely. I did not rest comfortably at night and became so lame and sore from lying in one position that in the morning I arose feeling tired and unrefreshed. I was bothered a great deal with headache, spells of dizziness and the kidney secretions became affected, were irregular, too frequent and unnatural. I doctored a great deal and took many kinds of medicines, but without getting better. I believe I would still be suffering if I had not heard about Doan's Kidney Pills and procured them from J. O. Doesburg's drug store. I felt better after taking a few doses and continued their use until cured."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no substitute.

FARM GARDEN

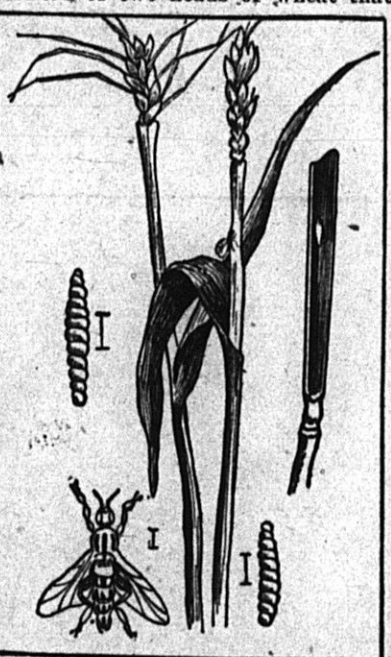

WHEAT STEM MAGGOT.

A Worm That Cuts the Stalk—Found
in Spring and Winter Wheat.

The wheat stem maggot, or, as it is sometimes called, the wheat bulb worm, has proved to be rather a serious pest in some localities, and we apprehend that some precaution must be taken or it will greatly increase, says the Iowa Homestead. Its presence may be easily detected in a crop. When the maggot form of the insect enters the stalk, it cuts off the stem just above the upper joint, with the result that the head takes on a ripened appearance while the crop is yet green.

It seems to be more plentiful where both winter and spring wheat are grown in the same locality. In this case the mature insects with wings deposit their eggs upon the young plants of winter wheat. When these hatch, the larvae feed upon the central part of the plants on their course downward. They remain during the winter in the surface of the ground and appear in the spring in the adult form. These in turn lay their eggs upon spring wheat plants and cause the destruction of such plants as they feed upon. However, the devastation of the first brood in the spring is seldom noticed. It is the second brood of flies whose progeny brings about the work of destroying the wheat beds. It is claimed that even a third brood makes its appearance and again deposits its eggs upon young wheat. It is our opinion that grasses will furnish the necessary breeding ground just as well as winter wheat.

The accompanying illustration shows portions of two heads of wheat that

THE WHEAT STEM MAGGOT.

have been affected by this insect as well as the pupa and larva form and mature condition of the insect. These are magnified, and conception of the real size may be obtained by the little character placed beside each figure, which indicates their exact length.

The available remedies for this insect are preventive rather than curative. Wheat should not be grown continuously on the same soil, and indeed long rotation should be introduced in which there are a variety of crops. We have known many persons who were troubled with this pest to burn their stubble, thinking in this way that they brought about the destruction of large numbers. Fortunately there is a fungous disease that attacks this maggot and fly, so that there is some likelihood of its rapid increase being prevented.

An Ideal Animal of the Beef Type.

The first point observed in an ideal animal of beef type is his form. This will approximate the rectangular. It will show a body that is compact, symmetrical, broad, deep and close to the ground. Legs are only of use to carry the animal around. He is "straight in his lines"—that is, the lines from the top of the shoulder to the tail head and from the brisket back to the purse are as nearly parallel as possible, as are also those from the center of the shoulders to the center of the thighs, no deviation from the horizontal being allowed the top line. This will give the form a rectangular appearance.

Budding and Top Grafting.

Among northern nurserymen and fruit growers budding is commonly practiced in July and August. Orchardists are taking up this system of propagation and using it in place of or in connection with top grafting. If the buds fail to live, the branches can be grafted the following spring. The operation is more easily and quickly done than grafting.

Dried Grass For Winter Grazing.

In portions of Montana, Wyoming and western South Dakota it is customary to fence large areas of land on the general mesa or prairie in order to protect the range until winter sets in. No hay is cut in these fenced fields. The grass simply dries up in the fall and the cattle graze on it during the winter.

Get After the Borers.

In August we get after the borers in the orchard. We find them by the wood dust around the stem of the tree. We go after them with a sharp knife and a small wire. If we do not get the job done in August, we do it in September, says Farm Journal.

To Hasten the Lima Beans.

Lima beans may be hastened a little by pinching the runners after the top of pole is reached, at the same time remembering that it is at the top of pole the most and best beans are got later on.

A SOLAR WAX EXTRACTOR.

Avoid the Dangers of the Kitchen
Stove and Trust to Old Sol.

Every person who has one or more colonies of bees will have use for a wax extractor of some kind. There is more or less danger connected with rendering wax on the kitchen stove, so, why not let Old Sol do it for us without risk or expense, suggests F. G. Herman in American Agriculturist.

Make a box 12 by 18 inches and 6 or 8 inches in depth, with a glass cover to fit tight

EXTRACTING BEESWAX
BY SUN HEAT.

all around. Have two legs on the back end fastened with a screw so as to raise or lower the extractor in order to receive the direct rays of the sun. Bore a row of small holes in the bottom at the front end to let the honey drip through

into the bowl. Take a sheet of tin and bend into a semicircle and place into the box, the top edges of the tin to rest on two strips of wood about one inch from the top of the box and the middle of the tin not to go lower than two-thirds of the way down. Fasten to the tin a piece of wire netting for a strainer. The tin should not be nailed into the box, as it must be occasionally removed to be cleaned of the refuse which will accumulate.

If one has chunk honey which he wishes to separate from the comb, this is a novel way. Just fill the extractor and it will gradually melt, the wax will remain in the box under the tin and the honey will run through into the bowl. For increased heat, put on the south side of building. The illustration shows the manner of construction.

The tin which forms the bottom of the solar wax extractor should be about two-thirds the length of the box. Make small holes one-fourth inch apart in the bottom end and sew the wire sieve fast to it with a piece of soft, fine wire; the lower end of the sieve will rest against the box. As the wax passes through the sieve it congeals immediately and will remain in the box while the honey will run through the small holes into a vessel under the extractor.

PAINTING THE SILO.

What Various People Say About It.
Gas or Coal Tar Used.

Rural New Yorker has interviewed some of the best authorities on the subject of the wisdom of painting the silo.

C. S. Plumb of Indiana paints the interior of silos with gas tar.

L. A. Clinton of New York thinks that painting or treating the silo may do more harm than good. "In our silo a part of the staves have been treated with coal tar and part left without treatment. There are no signs of decay in either case, and the silage keeps equally well." He thinks painting or treating does more to satisfy the fancy than anything else.

R. Scoville of New York has kept yellow cypress stave silos well painted for three years, and they show no signs of decay. Until last year he used a heavy wood filler on the inside, putting on one coat every summer. Last year he coated the inside of two of the silos with coal tar, which was put on hot. In a few days the tar was quite hard and took a rather glossy surface, to which silage does not hold to any extent.

W. P. Brooks of Massachusetts is of the opinion that there cannot be any good argument advanced against painting the outside of framed silos, but in the case of stave silos there is possibly a question as to the expediency of painting, as the staves will inevitably swell and shrink with varying moisture to such an extent that the paint cannot be expected to keep the seams closed. The best inside covering he has seen is a coat of coal tar, which was first set on fire and allowed to blaze until when extinguished and tested it was found to harden quickly.

The Water Cure For Crop Borer.

The water cure is thus commended by the Farm Journal for fowls suffering from the condition known as crop borer: "To administer the water cure hold the bird firmly between the knees, open the beak with one hand and, as an attendant pours a steady stream of lukewarm water down the throat, with the other hand gently knead the crop until it is soft. When the crop can hold no more, turn the bird head down and press the crop and force the contents out. A little practice will enable a person to succeed in most cases without injuring the patients."

News and Notes.

The cabbage acreage is large and the crop prospect promising.

Many new silos have been put up this season, and small ones especially, for summer feeding, seem to find favor.

A good deal of apple disease due to the effect of cold, wet weather, aggravated by spraying and injury from some of the common insecticides used, is reported from western New York.

Ricemeal is one of the newest feeds that are interesting the dairy farmers.

Orange Judd Farmer's reports indicate a bean crop considerably short of last year.

Rainy weather during harvesting has greatly lessened the fair promise of the hay crop.

The flax acreage is every year increasing in the northwest.

Where soil is badly infested with witch grass it is advisable to use the hoe if the horse cultivator is inadequate in destroying it.

PROPOSED GRAVELING OF SEVENTEENTH STREET SPECIAL STREET ASSESSMENT DISTRICT.

Clerk's Office, Holland, Mich., Sept. 10, 1902.

NOTICE IS HEREBY GIVEN, That the common council of the city of Holland has caused to be made and deposited with the city clerk, for examination, the profile, diagram and estimates of cost of the proposed graveling of

Seventeenth Street,

between Land street and Ottawa avenue, in the city of Holland, pursuant to grade and profile adopted by the common council in connection with the proposed improvement,

that a road bed twenty-four feet wide through the center and the whole length of said part of said Seventeenth street be covered with gravel of the kind used on Fifteenth street, to an average thickness of nine inches, so spread that when finished it will be twelve inches thick in the center and six inches thick on the sides; that the whole of the cost and expense of said work and improvement be defrayed by special assessment upon the lots and lands or parts of lots and lands, abutting on said part of said Seventeenth street; provided, however, that the cost of improving street intersections on said part of said Seventeenth street be assessed against the city of Holland and paid from the general fund of the city; that the lands, lots and premises upon which said special assessment shall be levied shall include all the private lots, lands and premises abutting on said part of said street in the city of Holland; also the street intersections whereof which lots, lands and premises are herein set forth, to be designated and declared to constitute a special assessment district for the purpose of special assessment, to defray the cost and expense of

graveling of said part of said Seventeenth street, in the manner hereinafter set forth, said district to be known and designated as the "Seventeenth street special street assessment district N" in the city of Holland.

That said improvement was determined upon by the common council of the city of Holland Sept. 9th, 1902; that on Tuesday, September 23rd, 1902, at 7:30 o'clock p. m., the common council will meet at their rooms to consider any objections that may be made to said assessment district, and to the improvement, estimate, plans and profile.

The Leading Specialists of America. 25 Years in Detroit. Bank Security.

Nine out of every ten men have been guilty of transgression against nature in their youth. Nature never excuses, no matter how young, thoughtless or ignorant they may be. The punishment and suffering corresponds with the crime. The only escape from this ruinous results is proper scientific treatment to counteract its effects.

The DRAINS, either by nightly losses, or secret through the urine, must be stopped—the NERVES must be built up and invigorated, the blood must be purified, the SEXUAL ORGANS must be vitalized and developed, the BRAIN must be nourished. Our New Method Treatment provides all these requirements. Under its influence the brain becomes active; the blood purified so that all pimples, blotches and ulcers disappear; the nerves become strong as steel, so that nervousness, bashfulness and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and sexual systems are invigorated; all drains cease—no more vital waste from the system. The various organs become natural and manly. We invite all the afflicted to call and consult us confidentially and free of charge. Cures Guaranteed or no PAY. AFTER USING

DE WET TO HIS MEN.

The Famous Boer General's Remarks to His Soldiers After the Surrender.

An Englishman who was present when De Wet addressed the men and women in a concentration camp after the signing of peace, sends a summary of his remarks, says the Manchester Guardian. The speech was a remarkable and strong mixture, displaying at once De Wet's natural charm and his determination grimly to abide by the promise he had given. "Knowing," he writes, "the Dutch as well as I do, I could see De Wet still had injured feelings, although he gave them (the men and women) a proper talking to. He said, 'Of course you will all like to ask me the question: "Have we lost?" In a word I must say "Yes." Our flag is fallen. It is dead and buried, never to rise again, and we are now under a new government whom we have to serve, not as well as we served our own, but a great deal better. Hunger, he went on, "compelled me to give in, but I stood till the rifle was taken out of my hand. I could point my finger to a good many cowards here who were going to shoot the English in this way and that way, but who never fired a shot and simply surrendered. I, indeed, thought more of you would remain loyal, as some of us did and were true to the last. But as it is, if ever I hear of anything wrong among you (that is disloyal to the new government), I, Christian De Wet, will be the first to arrest you and have you well punished."—Manchester Guardian.

LICENSES FOR CATS.

Authorities of Berlin, Germany impose Restrictions on the Feline Tribe.

It has recently been discovered that there are about 30,000 cats in Berlin, and, full of their knowledge, the German Society for the Protection of Animals, has conceived a thoroughly Teutonic idea, says a Berlin correspondent of the Chicago Inter Ocean. According to its carefully conceived plan, the town council of the city is to take the matter in hand, and to issue licenses for cats, just as they do for dogs.

Cats are only to perambulate the city when wearing their authorized little badges, hanging, locket-like, from their throats. There is nothing in principle to be said against the issue of the licenses, but what puzzles reasonable people is the list of penalties that these ingenious people have drawn up. The owner of a cat is to be fined if the latter "be found wandering in the public gardens of the city; or if the birth of a kitten, or litter of kittens, be not punctually reported to the authorities; or, if a citizen's pet is discovered prowling about the streets without its distinctive official badge, etc." This word "etc." sticks in one's throat, after the enumeration of the previous offenses.

DAMAGED BY SEA WATER.

Street Rails Succumb Rapidly to Corrosion in the Tropics Near the Sea.

Mr. Bricks, one of the engineers in charge of the railroads owned by the French government, recently read a paper in which he said that sea water, particularly in tropical countries, has a very destructive influence on steel rails. A few weeks ago the same observation was made by Mr. Delprat, the engineer in charge of the Dutch railroad in Sumatra.

This gentleman says that the short railroad at Port Emma, on the coast of Sumatra, which has been in operation for ten years, and which occupies a position only a little above mean high tide, has been greatly damaged by sea water, the rails having been largely eaten away by rust. The rails on one of the shorter branches of this road, which runs over a breakwater, have been diminished in weight by about two and a half pounds for every three and a half feet of the length of the rails. He says that every year these rails are losing about four per cent. of the weight of new rails. The width of the rail surface has been diminished about one inch.

OLD-FASHIONED SURF BATH.

How Long Island Farmers Used to Go Bathing in Their Big Wagons.

It is not so many years ago when surf bathing of a very primitive kind prevailed at the eastern end of Long Island and, for aught I know, at other points, says a writer in Outing.

Every Saturday morning or afternoon as the tide willed, throughout the summer, big farm wagons trundled down to the beach and were swung around abreast of the line of breakers. Old fish houses served the purpose of modern bathing pavilions, and the sea costumes were those of last year's village street. A long rope was drawn from under the seats and hitched to the wheel, and then some sturdy ex-whaler or life crew man, in red flannel shirt and old trousers tied at the ankles, slipped his wrist through the loop at the end of this primitive life line, and, wading out, kept it as taut as circumstances permitted, while the women and children hung to it and revelled and wallowed and shrieked, rejoicing in their "Saturday tub."

Library Muzzles. Some of the students in Paris, when perusing ancient books in the national library, protect themselves with muzzles. This is done to prevent the inhalation of dangerous microbes, said to infest old volumes.

NAMES AMONG NEGROES.

How So Many Odd and Classical Appellations Came to Be Borne by Them.

There is a good reason for the curious proper names even now in use amongst negroes, says an article on the American negro, in Leslie's Monthly. Their native African names were scarcely ever used, owing to both difficulty in pronunciation as well as inability on the part of the blacks to give them when demanded. The hundreds it was necessary to name on the arrival of a cargo caused the days of the week, months, numbers, animals, gods and goddesses, heroes, demi-gods, Biblical characters, Shakespearean names and the shorter English and French Christian names of the day to be used over and over again. In every district were dozens of sable workers answering to such names as Tuesday, Friday, July, November, Primus (in use to this day), Sixteen (rare even then), Doe, Hart, Rabbit, Fox (in use now), Jupiter, Pallas, Hector, Venus, Diana (now "Di"), Perseus, Hercules, Aaron, Moses, Pharaoh, Romulus, Remus, Hamlet, Othello, Caesar (a favorite), Jonas, Rose, Priscilla, John, Jack, Lizzy, Beth and others. Variations were had by prefixing "Young" or "Old" to the name given. The American negroes acquired their surnames rather summarily immediately after the emancipation.

WISE HINDOO STAR GAZER.

Astrologers Who Prophesied the Illness and Recovery of King Edward, of England.

Some remarkable horoscopes of the health of Edward VII., prepared by famous Hindoo astrologers, were published November 4 last in the Hindoo, a native newspaper. These horoscopes were recently reprinted in the same paper and have been hailed with immense relief by the king's loyal subjects in India. These horoscopes are certainly most remarkable, when we remember they were published eight months ago, though we may smile at the cure suggested in the second:

A Tanjore astrologer predicted: "Our beloved emperor will be soon enthroned (Pattabhi-shekam) and will brilliantly reign over his kingdom for a period of not less than 15 years to come. Some sickness would trouble him, but his majesty's life is secure for many years to come." A Dindigul astrologer stated: "The position of the planets shows that between June 21 and 28, 1902, the king-emperor will suffer of boils like carbuncles throughout the body and the conjunction also indicates danger. As a panacea for this evil the emperor is recommended to make gifts of black bulls, as it would give considerable relief and sustenance to him."

TITLE WAS SOON PROVEN.

Uncle Sam Buys Back Land from Man to Whom It Was Sold by Government in 1840.

"You may go back home and prepare the papers for the transfer of your land to the government, making sure you have the deed set forth every transfer of the property, and when this is completed you can obtain the \$7,500 which has been accepted as the government price for your site for a postoffice."

"Well, if that's all you want, I can fix that up real quick. Just say that the property is transferred to the United States from John McCusick to whom the land was deeded by the United States in the year 1840."

This is the conversation which took place in the treasury department of the United States Saturday morning between Supervising Architect Taylor and John McCusick, of Stillwater, Minn., at the consummation of the bargain in which the government secured the title to a postoffice site in Stillwater.

McCusick bought the land from the government at \$1.25 per acre in 1840. He has held it ever since, and now he is selling 135x150 feet of it back to the government for the sum of \$7,500.

FORGOT HE HELD A POLICY.

A Burned-Out Boston Clothing Merchant Who Overlooked a Risk of \$4,000.

A Boston clothing house was destroyed by fire recently and in connection with the adjustment of the losses the representative of one of the insurance companies interested discovered that the insured had a policy for \$4,000 which had been overlooked. Upon making representations to the firm the proprietor denied that he had any such policy, and it was only on the production of the books of the Queen, showing when the premium had been paid, that he was convinced that he was entitled to the sum involved. Even then he declared that the insurance concern had made a mistake, but if it insisted that he was entitled to it he would consent to take the money. The occurrence was so exceptional that special interest has been taken in the case, with the result that the firm's credit will probably be materially strengthened among insurance men.

Lost Indian City Located. The site of the lost Indian city, Mascooutens, which was reported as having 200,000 inhabitants in 1675, has been determined by the labors of Thomas Clithero, of Portage, Wis., now extended over many years. It was the largest city in all Indian history, so far as United States territory is concerned, and the descriptions of the Jesuits in the course of the seventeenth century, closing with Marquette and Joliet in 1673, are said to have been verified.

Ionian Wins. Holland Wins.

Ionian took the first one, Holland took the second—an even break. The first game was played Friday afternoon and was chiefly remarkable for loose playing on both sides and looser umpiring by a young man named Bloom who was behind the pitcher for Ionian.

Karsten was in the box for Holland and had an off day, being found for hits at opportune times by the visitors. His support was conspicuous by its absence and these two conditions made it easy for Ionian to score 10. Holland found Cy Alberts often enough to score 8. Ball and Root were not in the game and their absence was noticeable from the team-work standpoint. Hale, the Allegan boy who has been with Boston and Baltimore this season, relieved Karsten in the eighth and kept the score from passing the ten mark.

Saturday's game was a decided contrast to the game of the preceding day. It was one of the prettiest contests seen on the grounds this season. Hale and Rathburn were the opposing pitchers and both did very good work, Hale, however, getting the best of the argument. He has a drop that he uses to good effect and every time he tried it on the Ionians they tied themselves into knots trying to land on it. His fine pitching and the good support accorded him were too much for the visitors and they had to be content with a 2 to 0 shut out. One of Holland's scores was due to a home run by Ball who wanted to show the fans that his vacation at Three Rivers had a good effect. Childs of Chicago umpired and his judgement was so good that even Thomas, the young man who disputed the decision last time, admitted that no flaws could be found in it.

Greenville Won. Ionian Won. Holland Lost.

For the first time the Holland team met with disaster away from home. Tuesday it went against a Buckner (ornado in Greenville and when the clouds rolled by the remnants of the Holland team found that defeat had annihilated them by a score of 9 to 3.

The defeat was due to one of these slumps that sometime overtake a ball team. It happened to strike Holland away from home hence the trouble. Ball was batted freely and his teammates handed out errors freely, and the only thing strange about the whole affair is that Greenville did not score 19 instead of nine. They would have done so had it not been for the proverbial Holland pluck. True to their determination never to show the white feather the boys fought doggedly until the end and kept the Greenville within bounds.

It was worse in Ionian. The slump was still slumping and when the boys reached the bottom of the toboggan they were buried under Ionian by a score of 14 to 7. Hale was easy for the Ionians and they batted him at will until the sixth when he was relieved by Karsten who allowed but three runs. Hale's poor showing was excusable to a certain extent as weak support was accorded him and hard luck hovered in the Holland camp.

No wonder state officials chose Ionian as the location for the state Reformatory. They could not find a more suitable location. The social atmosphere is congenial to an institution of that kind and even though its occupants do not on account of the prison walls have an opportunity to mingle with their benighted fellow townsmen they need not lament but consider themselves fortunate to be protected by bars and guards from those who dwell outside the precincts of the prison. Yes, it is a suitable location for there is more rowdism to the square inch in Ionian than in any city in Michigan.

This was demonstrated yesterday when grand larceny was committed on the Holland team. A game was stolen from them in the most barefaced manner. Ball was in the box. The boys back of him were playing perfect ball and it was one, two, three out for the Ionians until the seventh inning. Then it was nothing for Ionian and four for Holland. Risley of Ionian was umpire and his decisions were as fair as could be and that was too fair for the Ionians. They saw no chance of winning in a fair deal and laid plans to get rid of the umpire by a disgraceful system of pestering and abuse. Risley stood their bullying until it was no longer gentlemanly to endure and then he quit the field in disgust. This was just what the representatives of the Reformatory city wanted and they gave Rathbun the indicator.

Then the aspect of the game changed. So did the crowd. Nearly all acted like hoodlums in an endeavor to give Holland the worst of the deal.

Finally, while Ball was backing up Van der Hill at the home plate on a ball thrown from the infield one of Ionian's would-be sluggers kicked him on the wrist. A disturbance ensued and the crowd swept around the home plate and penned Tony until three men crossed the plate. This showed the Holland boys that they were up against it, but they played the remainder of the game pluckily, though forced to submit to abuse, rowdism and robbery enough to put the lock-step men to shame. The game, after a carnival of cowardice on the part of Ionian's slum element, resulted in a score of 9 to 4 in favor of Ionian. The prison city team would have been shut out if a square deal prevailed.

There are a few respectable people in Ionian and they and about thirty traveling men who witnessed the game are loud in condemnation of the disgraceful robbery.
