The ladies aid society of Hope church will meet next Wednesday afternoon, September 18, at 3 o'clock at the residence of Mrs. Dr. Godfrey.

Attorney Gelmer Kuiper, of Grand Rapids, formerly of this city, has been elected president of the Knickerbocker society of Grand Rapids.

All of the churches of Holland held special prayer services last Sunday for the recovery of President McKinley and from most of the pulpits bulletins were read announcing the state of the President's health.

W. H. Beach returned Monday from the Pan American exposition. He was near the door of the temple of music outside of the building when President McKinley was shot and was a witness to the exciting scenes following the tragedy.

List of advertised letters at the Holland postoffice for the week ending September 13: Bradley O. Blackman, Jine Boles, Billie Cambell, Dr. Jas. S. Cluff, Mrs. T. W. Kingsley, Miss Gertrude Lyden, Miss Selma Piettig, H. Timpkins, E. B. Wood.

At a special election held in Allegan Wednesday the proposition to bond the city for \$15,000 for a new pumping house and machinery for the water works system was carried by the following vote: Yes, 242; nays, 67.

Lee Chapman, who was in a hospital at South Carolina, suffering with typhoid fever for two months, was in the city this week calling on old friends. He is still thin and weak but is recovering slowly from the effects of sickness and expects to resume work in the south in a couple of weeks.

Geo. W. Babcock, the well known fruit grower on the Saugatuck road, was in the city Wednesday. Geo. is happy, and he has reason to be for he has had a very successful season. He sold his yield of peaches before they were picked for a good round sum and his troubles are all gone as all he has to do is look after the picking.

The Young People's Society of the First Reformed church elected the following officers for the ensuing year, at their meeting last Tuesday night: President, John B. Steketee; vice president, Minnie Wilterdink; secretary, Carrie Karsten; treasurer, Albert Raak.

A gang of men are working on the Eighth street sewer between Central ave. and River street under the supervision of C. T. Bartlett, Jr., and in spite of the rainy weather of the first of the week they have made considerable progress. Though the contractor is offering very good wages he finds it difficult to obtain a sufficient number of men to do the work.

The Herald received a pleasant call from Wm. O. Van Eyck, city clerk of Holland, and A. Michmershuizen, who had been driving through this country on a sight seeing trip. The latter gentleman at one time was in business in Holland, the firm being Michmershuizen & Van Zwailuwn. berg and, though one store was big enough for the business, it took three stores to hold the sign.—Fennville Herald.

G. H. Tribune.—R. W. Duncan has sold the westerly twenty feet of his vacant Washington street property to J. C. Post, of Holland for two thousand dollars cash. Mr. Post has made the purchase for one of the two new state banks about to be organized here and arrangements are being made for the speedy erection of the bank building. This is the first instance of any vacant property in this city having been sold as high as one hundred dollars a foot since the panic of eighteen hundred and seventy three.

The officials of the G. R. H. & L. M. Rapid Railway are confident that the single track between Holland and Grand Rapids will be ready for the operation of cars Oct. 1 and plans are being made for a demonstration on the opening day. Fifteen new cars will be placed on the Grand Rapids-Holland branch when it is in complete running order. Five of the new cars will be 50 feet and the other 10 cars 46 feet in length. Two immense rotary snow plows have been ordered to keep the tracks clear in winter.

Rev. C. C. A. L. John conducted services in the Reformed church of South Haven last Sunday.

The total enrollment in the city schools for the first week of September was 1700, an increase of 63 over the first week last year.

The Grand Haven school census shows that there are 1668 children of school age in that city, 16 less than last year.

The steamer Puritan is now running between Holland and Chicago in connection with the Soo City. She did not arrive in Holland from Buffalo until Sunday night as she was held in Chicago by the heavy weather Saturday night.

The Eastern Star Lodge has elected the following officers: W. M., Mrs. Butterfield; W. P., Mrs. A. Huntley; A. M., Mrs. E. R. Allen; C., Mrs. B. Hopkins; A. C., Miss Martha Blom; Secretary, Miss M. Elferdink; Treasurer, Mrs. L. C. Bradford.

The Holland high school now has an athletic association and will put a foot ball team in the field this season. A series between the local high school and the Holland students would take well.—G. H. Tribune.

Another bank besides the one J. C. Post is interested in has been organized in Grand Haven. It is called the Grand Haven State Savings Bank and will be doing business in temporary quarters in a few days.

A man in the employ of the city of Grand Haven made derogatory remarks about President McKinley and was promptly ousted from his position by Mayor O'Brien and President Harbeck of the board of public works.

The practice of selling excursion tickets for half fare rates after 8 o'clock in the evening has been discontinued by the G. R. H. & L. M. railway and hereafter full rate will be charged.

Senator Burrows will address the Allegan County Soldiers and Sailors association which will be held on the fair grounds at Allegan September 18, 19 and 20. The address will be given on the second day of the reunion, Thursday, September 19.

The High School students have organized an athletic association and elected officers as follows: President, Leonard Fliehman; vice president, Clarence Kremers; secretary, Robert Van Houte; treasurer, Phila Ederlee; reporter, Gertrude Sprletama; manager foot ball team, M. E. Dick; Captain, Ray Mabbe.

Lieut. Edward Andres, of the 30th United States Vol. Inf., returned Tuesday from the Philippines to his home in Grand Haven. His regiment returned to the United States some time ago but he remained on duty in Colonel Gardener's command. He may return to the Philippines to engage in business.

John Van der Jagt, living north of Macatawa Bay near the Van Dyke school, was arrested by Deputy Marshal Bos yesterday on the charge of beating his wife. He was arraigned before Justice McBride and being found guilty of the offense was sentenced to 90 days in the Detroit house of correction. Marshal Kamferbeek will take him there today.

The Rt. Rev. George D. Gillispie, bishop of the diocese of Western Michigan, conducted services in Grace Episcopal church Sunday morning and evening. His subject for the evening discourse was "Morality in Youth." It was an able presentation of the causes leading to immorality and the effects as shown by the record of juvenile crime in the state institutions, and contained many suggestions for the early training of the young. Bishop Gillispie is a member of the state board of corrections and charities and in his official capacity has made an exhaustive study of criminal conditions. His sermon was the most exhaustive and interesting discussion of the causes of crime and remedies for the evil ever heard in this city.

President McKinley's Condition Critical.

A change for the worse has taken place in the condition of the President and his life is in grave danger. The change occurred last night and was a decided surprise to the physicians in attendance. The president was stricken with heart failure and became unconscious.

The latest despatches state his condition has slightly improved but that little hope can be offered. A telegram from Hon. G. J. Diekema to Postmaster Van Schelven says that the inside news is very discouraging.

BUFFALO—The following was issued by the President's physicians at 2:30 p. m.: The President has more than held his own since morning. His condition justifies expectations of further improvement. He is better than yesterday at this time. Pulse 123, temperature 99.4.

The Holland Military company will meet next Tuesday evening at 7:30 in the Wilms building on River street. Business of importance will be transacted and all members are requested to attend. By order of captain.

At a meeting of the library board Wednesday a set of the International Encyclopedia was purchased of Dodd, Mead & Co. for use in the city library.

If the plans formed by N. E. Van Dam, who has been appointed by President Kollen to improve Hope college campus, are carried out, one of the best athletic fields in the state will be the result. Already great changes have been made on the base ball diamond. Many loads of sand and clay have been deposited there and leveled and the diamond is in excellent shape. The foot ball field has been improved and is ready for the fall games. A jumping course will be constructed and as soon as the conditions are favorable Mr. Van Dam intends to have a half mile running track made around the gridiron. Before another year are passed it is not unlikely that a grand stand will be built on the south terrace so that a good view of the base ball diamond and gridiron may be obtained.

Frank E. Doesburg, mail carrier, took an important part in the deliberations of the Letter Carrier's convention at Chataanooga as the following from the Chataanooga News will show: "There are some first class politicians attending the Letter Carriers' convention among the delegates of that body. A few of them know a thing or two, as was illustrated this morning by the result of the election of national officers for the state of Michigan. Heretofore all of the national officers have been held by delegates from the larger cities; but this morning this almost invariable rule was changed by the election of George Butterfield, of Bay City, as national state vice president. This was accomplished by the shrewd political work of Frank E. Doesburg, of Holland, Mich., and C. F. Wilson, of West Bay City. Both of those gentlemen are among the smoothest politicians attending the convention, and feel very proud of what they have accomplished. The carriers of the second class cities of Michigan are waking up and getting their share of the favors that are being thrown around."

The fast speed of the Puritan was a source of delight to the ninety passengers who went to Buffalo and the eighty-five who returned. Upwards of a hundred fast steamers and barges were passed and not once was the Benton Harbor steamer shown the heels of another boat. It was the hope of the passengers that the Puritan might have a brush with the City of Erie, the champion of the lakes, and such would have been the case but from the fact that the loading of the Puritan at Buffalo, by canal methods, took five times as long as necessary. The result was that the Erie left Buffalo two hours in advance of the Puritan. "How fast can you run this boat?" asked a passenger who had heard people talk of a race. "Better than twenty miles an hour," replied the captain. "Then how can you race a boat that made 25 miles an hour in a hundred mile race," persisted the passenger. "The miles in Lake Erie are shorter than those we have on lake Michigan," replied the captain. "They measure the lake Erie miles by dogs and before doing the measuring cut the tail off the dog."—Benton Harbor News.

ANARCHY'S HEAD.

Displays Itself in a Cowardly Attack on Nation's Chief Executive.

President McKinley Shot Twice by Leon Czolgosz at Buffalo Exposition.

The Wounds Are of a Very Serious Character, But Victim Makes Gallant Fight for Life.

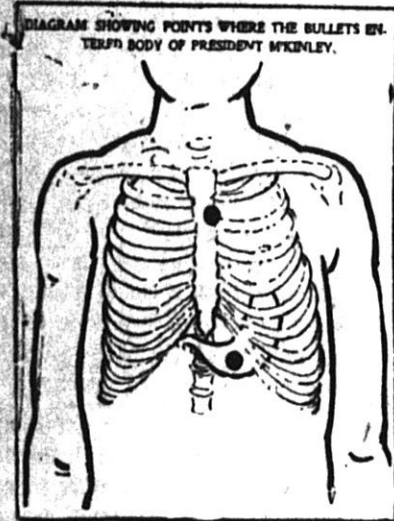

His Staff of Eminent Physicians and Surgeons Quite Confident of His Recovery.

Assailant Says He Was Inspired to His Crime by Words of Emma Goldman—Arrest of Woman.

Buffalo, N. Y., Sept. 7.—While President McKinley was receiving in the Temple of Music Friday afternoon he was approached by a man with a dark mustache and with one hand covered with a handkerchief. As the man extended his hand to the president, apparently with the intention of shaking hands with him, he fired a shot which entered the president's right breast, lodging against the breast bone. Another shot was fired at once, which entered the president's abdomen. The assailant was immediately arrested and was thrown to the ground and quick as flash 27 men were upon him. When rescued he was covered with blood from a gash in his face. Cries of lynching were heard in every direction, but the police managed to get the man out of the grounds and locked him up in a station house a short distance from the grounds. Later he was removed to the police headquarters.

The Wounds Described. Secretary Cortelyou gave out the following statement:

"The president was shot about four o'clock, one bullet struck him on the upper portion of the breastbone, glancing and not penetrating; the second bullet penetrated the abdomen five inches below the left nipple and 1 1/2 inches to the left of the median line. The abdomen was opened through the line of the bullet wound. It was found that the bullet had penetrated the stomach. The opening in the front wall of the stomach was carefully closed with silk sutures, after which a search was

made for a hole in the back wall of the stomach. This was found and also closed in the same way. The further course of the bullet could not be discovered, although careful search was made. The abdominal wound was closed without drainage. No injury to the intestines or other abdominal organ was discovered. The patient stood the operation well; pulse of good quality, rate of 120, condition at the conclusion of operation gratifying. The result cannot be foretold. His condition at present justifies hope of recovery."

The Assassin. Late Friday night the police learned that instead of Fred Nieman, the real name of the would-be assassin is Leon Czolgosz. He was born in Detroit, and came here from Cleveland. He is about 28 years old, stands five feet nine inches high, weighs 160 pounds, has dark brown hair, blue eyes, smooth face, regular features, with prominent nose.

Makes a Confession. Leon Czolgosz, the accused and self-confessed assassin, has signed a confession covering six pages of foolscap, which state that he is an anarchist, and that he became an enthusiastic member of that body through the influence of Emma Goldman, whose writings he had read and whose lectures he had listened to. He denies having any confederate, and says he decided on the act three days ago, and bought the revolver with which the act was committed in Buffalo.

Exposed to Danger. The president, though well guarded by United States secret service detectives, was fully exposed to such an attack as occurred. He stood at the edge of the raised dais upon which stands the great pipe organ at the east side of the magnificent structure. Throngs of people crowded in at the various entrances to gaze upon their executive, perchance to clasp his hand.

The Assassin Approaches. It was shortly after four p. m., when one of the throng which surrounded the presidential party, a medium-sized man of ordinary appearance and plainly dressed in black, approached as if to greet the president. Both Secretary Cortelyou and President Milburn noticed that the man's hand was swathed in a bandage or handkerchief. Reports of bystanders differ as to which hand he worked his way amid the stream of people up to the edge of the dais

and at the same time to give assurance that those with the president intend that the people shall have the facts.

The following bulletin was issued by the president's physicians at four p. m.:

"The president since the last bulletin has slept quietly, four hours altogether since

THE HOSPITAL WHERE PRESIDENT WAS TAKEN.

nine o'clock. His condition is satisfactory to all the physicians present. Pulse, 120; temperature, 101; respiration, 23. "P. M. RIXEY, "M. D. MANN, "ROSWELL PARK, "HERMAN MYNTER, "EUGENE WADSWORTH, "CHARLES M'BURNEY."

The same physicians united in signing the following bulletin, issued at nine p. m.:

"The president is resting comfortably and there is no special change since last bulletin. Pulse, 120; temperature, 101.6; respiration, 20."

Messages of Sympathy.

The messages of sympathy from all over the United States and all over the world, in fact, have fairly overwhelmed Secretary Cortelyou. Two more white house stenographers have been sent for, and upon their arrival, perhaps to-day, some of the more important messages will be made public. Almost every government in the world has been heard from, most of the crowned heads of Europe sending personal messages. Among the latter are King Edward VII., Emperor William, the kings of Portugal, Italy and Sweden and the sultan of Turkey. President Loubet, of the republic of France, has also cabled his sympathy direct. One of the most touching messages thus far received was from Mme. Labori, the wife of Maitre Labori, who defended Dreyfus in his famous trial at Rennes.

EVERY SIGN HOPEFUL. Although Not Out of Danger, the Chances for Recovery Increase.

Milburn House, Buffalo, N. Y., Sept. 10.—"God's contribution to the American people will be the sparing of the president's life." As the evening shadows were falling Monday night John G. Milburn, president of the Pan-American exposition, reverently uttered these words as he stood before the house in which the nation's patient was fighting so bravely with death. And all who have been at the Milburn residence reflect the view that the battle will be won and the prayers of the world will be answered. Since Sunday night not an unfavorable symptom has appeared. Every hour has been a victory. Faith in the outcome grows stronger and stronger, and hope mounts higher and higher until in the minds of some the danger of all future complications is brushed aside, and hope has become conviction.

The president himself has been cheerful, and has expressed confidence in his recovery. Monday he asked for a morning paper, but this, of course, had to be denied him. It is with some difficulty that he can be restrained from talking, and Col. Myron T. Herick, of Cleveland, is quoted as authority for the statement that he has spoken at intervals of several things he proposes to do in the future. Monday morning he asked to be allowed to change his position, and when per-

TYPE OF PISTOL AND BULLET USED BY CZOLGOSZ.

mission was given, before the attendants could move him, he changed to the position he desired to assume without difficulty or pain. This speaks much for his general strength and spirits. Mrs. McKinley saw him again Monday for a brief visit, and Secretary Cortelyou was admitted for the first time. No one else was allowed to see him, although he inquired several times who were below stairs.

HAD NO ACCOMPLICE.

President's Assassin Insists He Was Alone in His Crime.

Buffalo, N. Y., Sept. 10.—Czolgosz had made no additional admissions to the police officials and nothing that they have learned from him has aided toward a solution of the criminal side of the case. He still insists that he alone conceived, planned and carried out the crime and that he alone must answer for it. He admits that he attended meetings at which Emma Goldman spoke and where he and his fellow anarchists discussed their propaganda of murder, but steadfastly denies that any of them had a part in his plan. His talks with them were fairly general, he says, and he did not divulge to them any feature of his scheme to come here and kill the president. His statement on that feature made on Saturday created the impression that he acknowledged a general talk with his associates on this particular crime, but he now says there was no justification for that impression.

ON THE ROAD TO HEALTH.

President McKinley's Physicians Quite Confident of Recovery.

Milburn House, Buffalo, Sept. 11.—The following bulletin was issued by the president's physicians at 10:30 p. m.:

"The condition of the president is unchanged in all important particulars. His

until he was within two feet of the president.

Fires the Shot.

President McKinley smiled, bowed and extended his hand in that spirit of geniality the American people so well know, when suddenly the sharp crack of a revolver rang out loud and clear above the hum of voices, the shuffling of myriad feet and vibrating waves of applause that ever and anon swept here and there over the assemblage.

There was an instant of almost complete silence. The president stood stock still, a look of hesitancy, almost of bewilderment on his face. Then he retreated a step, while a pallor began to steal over his features. The multitude, only partially aware that something serious had happened, paused in surprise while necks were craned and all eyes turned as one to the rostrum where a great tragedy was being enacted.

Captured.

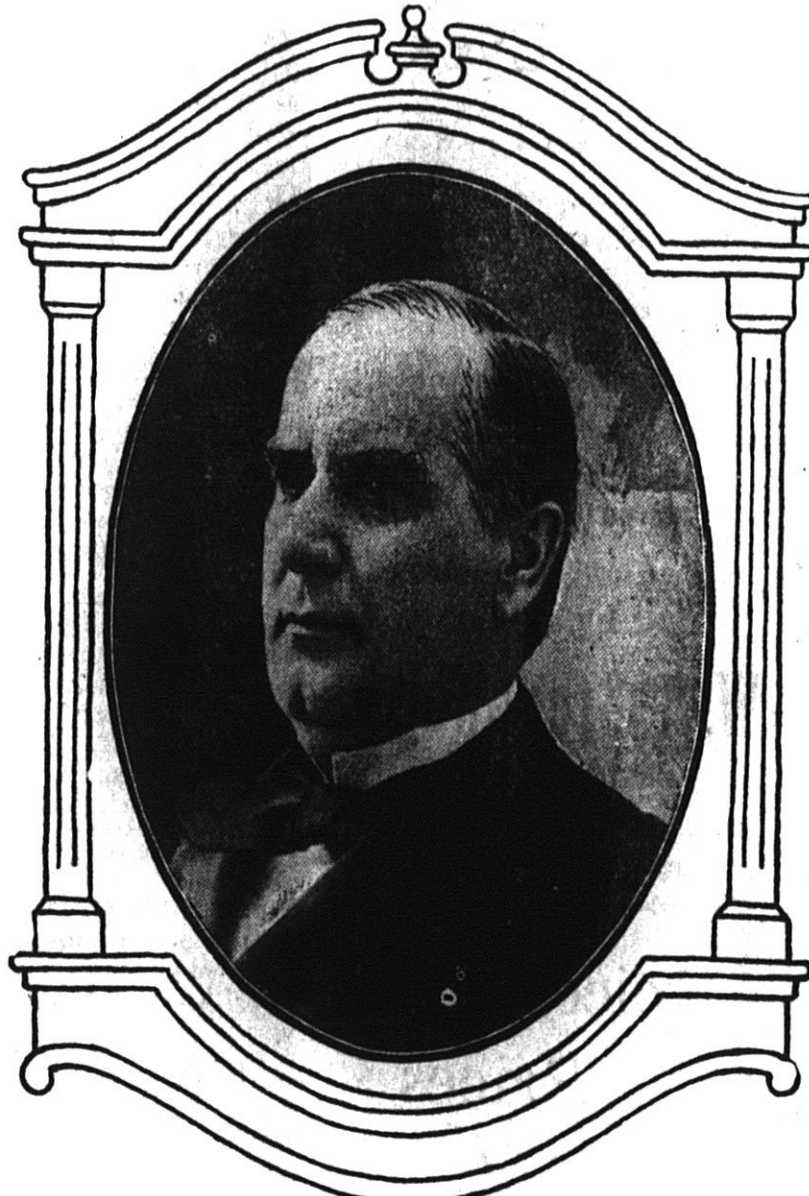

Then came a commotion. With the leap of a tiger three men threw them-

bloody and helpless beneath the blows of the guard.

The president raised his right hand, red with his own blood, and placed it on the shoulder of his secretary. "Let no one hurt him," he gasped, and sank back in the chair, while the guards carried Czolgosz out of his sight.

Taken to the Hospital.

The president's assailant in the meantime had been hustled to the rear of the building by exposition guards, where he was held while the building was cleared, and later he was turned over to Superintendent Bull of the Buffalo police department, who took the prisoner to No. 15 police station and afterwards to police headquarters. As soon as the crowd in the Temple of Music had been dispersed sufficiently the president was removed in the automobile ambulance and taken to the exposition hospital, where an examination was made. The best medical skill was summoned, and within a brief period several of Buffalo's best

selves forward, as with one impulse, and sprang toward the would-be assassin. Two of them were United States secret service men who were on the lookout and whose duty it was to guard against just such a calamity as had here befallen the president and the nation. The third was a bystander, a negro who had only an instant previously grasped in his dusky palm the hand of the president. As one man they hurled themselves upon the president's assailant. In a twinkling he was borne to the ground, his weapon was wrested from his grasp and strong arms pinioned him down.

Coolness of the President.

But of the multitude which witnessed or bore a part in the scene of turmoil and turbulence there was but one mind which seemed to retain its equilibrium, one hand which remained steady, one eye which gazed with unflinching calmness and one voice which retained its even tenor and faltered not at the most critical juncture. They were the mind and hand and the eye and the voice of President McKinley.

After the first shock of the assassin's shot he retreated a step; then, as the detectives leaped upon his assailant, he turned, walked steadily to a chair

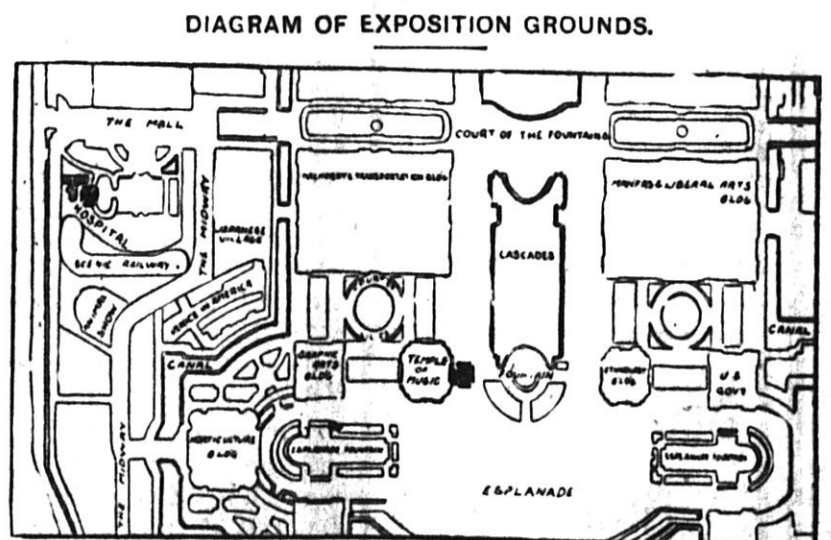

known practitioners were at the patient's side.

The Wounds Examined.

The president retained the full exercise of his faculties until placed on the operating table and subjected to an anesthetic. Upon the first examination it was ascertained that one bullet had taken effect in the right breast just below the nipple, causing a comparatively harmless wound. The other took effect in the abdomen, about four inches below the left nipple, four inches to the left of the navel and about on a level with it. Upon arrival at the exposition hospital the second bullet was probed for. The walls of the abdomen were opened, but the ball was not located.

Mrs. McKinley Bears Up Well.

When the news of the crime was telephoned to the home of President Milburn, where Mrs. McKinley was resting, immediate steps were taken to spare her the shock of a premature statement of the occurrence before the true condition of the president should be ascertained. Guards were stationed, and no one was permitted to approach the house. When it was decided to remove the president from the exposition hos-

and seated himself, at the same time removing his hat and bowing his head in his hands.

Urged All to Be Calm.

In an instant Secretary Cortelyou and President Milburn were at his side. His waistcoat was hurriedly opened, the president meanwhile admonishing those about him to remain calm and telling them not to be alarmed.

"But you are wounded," cried his secretary; "let me examine."

"No, I think not," answered the president. "I am not badly hurt, I assure you."

Nevertheless his outer garments were hastily loosened, and when a trickling stream of crimson was seen to wind its way down his breast, spreading its telltale stain over the white surface of the linen, their worst fears were confirmed.

Asks Mercy for Assassin.

Moved by a paroxysm he writhed to the left and then his eyes fell on the prostrate form of the would-be assassin, Czolgosz, lying on the floor

pital to the Milburn residence the news was broken to Mrs. McKinley as gently as might be by the members of the Milburn family. She bore the shock remarkably well, and displayed the utmost fortitude. She said that if it was possible to bring her husband to her she wanted it done. Dr. Rixey assured her that the president could be brought with safety from the exposition grounds.

STEADILY IMPROVES.

Satisfactory Progress Made in President's Condition.

Buffalo, N. Y., Sept. 9.—Private Secretary Cortelyou Sunday night gave out the following statement:

"The public will be kept fully advised of the actual condition of the president. Each bulletin is carefully and conservatively prepared and is an authoritative statement of the most important features of the case at the hour it is issued. The people are entitled to the facts and shall have them."

"GEORGE B. CORTELYOU,"

"Secretary to the President."

This statement is intended to put at rest any idea that the official bulletins underestimate the conditions,

LAXAKOLA

The Great Tonic Laxative

WATCH the children carefully. Their health, perhaps their lives, depend on keeping their bowels regular. Many parents make a mistake by giving their little children the old-fashioned, violent purgatives which are racking and griping, and are therefore not only unpleasant, but dangerous.

Laxakola does not gripe nor irritate. It is a pure, gentle and painless liquid laxative. It is not only a sure laxative, but it contains valuable tonic properties which not only act upon the bowels, but tone up the entire system and purify the blood. A few drops can be given with safety to very young babies, and will often relieve colic by expelling the wind and gas that cause it. Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, as LAXAKOLA neutralizes the acidity of the bowels and carries out the cause of the fermentation. It will aid digestion, relieve restlessness, assist nature, and induce sleep. For constipation, simple fever, coated tongue, or any infantile troubles arising from a disordered condition of the stomach it is invaluable. At druggists, 25c. and 50c., or send for free sample to LAXAKOLA CO., 132 Nassau Street, New York, or 356 Dearborn Street, Chicago.

WEAKNESS OF MEN AND WOMEN

Could we read the hearts of every man we meet, what a load of sorrow and despair would be disclosed. Indiscretions and Blood Diseases have caused more physical and mental wrecks than all other causes combined. They strike at the foundation of manhood; they sap the vital forces; they undermine the system, and not only do they often disrupt the family circle, but they may even extend their poisonous fangs into the next generation. If you have been a victim of early sinful habits, remember the seed is sown, and sooner or later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. Our New Method Treatment will positively cure you and you need never fear any return of the disease. We will give you a guarantee bond to that effect. We would warn you sincerely against the promiscuous use of mercury, which does not cure blood poison but simply suppresses the symptoms.

WE CURE OR NO PAY.

Don't Let your Life be Drained Away, which weakens the intellect as well as the body. There is no room in this world for mental, physical or sexual dwarfs. Our New Method Treatment will Stop all Unnatural Losses, Purify the Blood, Strengthen the Nerves, Restore Vitality, and make a man of you. If you are in trouble, call and consult us. Consultation is Free. We treat and cure Drains, Blood Diseases, Varicose, Stricture, Unnatural Discharges, Gleet, Kidney and Bladder Diseases. No cutting or operations. No detention from business. Everything confidential. Consultation Free. Books Free. Question Blank Free for Home Treatment.

temperature is 100.6; pulse, 114; respiration, 24. When the operation was done on Friday last it was noted that the bullet had carried with it a short distance beneath the skin a fragment of the president's coat. This foreign material was, of course, removed, but a slight irritation of the tissues was produced, the evidence of which has appeared only to-night. It has been necessary on account of this slight disturbance to remove a few of the stitches and partially open the skin wound. This incident cannot give rise to other complications, but it is communicated to the public, as the surgeons in attendance wish to make their bulletins entirely frank. In consequence of this separation of the edges of the surface wound the healing of the same will be somewhat delayed. The president is now well enough to begin to take nourishment by the mouth in the form of pure beef juice.

Causes Uneasiness.

It was 11:20 when the physicians emerged from the house. They had been in consultation an hour and 50 minutes. The length of the consultation had created some uneasiness, and this was somewhat increased when it was learned that Dr. McBurney, who had intended to leave for Stockbridge, Conn., at 11:20 had missed his train and had decided to remain over until to-night. But the doctor himself did all he could to dispel the idea that the change in his plans portended anything serious. In fact, he took occasion to announce as an additional evidence of the improvement of the patient that it had been decided to begin to give the president nourishment through the mouth at once instead of waiting until today, as had been intended. Beef extract had been preferred, Dr. McBurney announced, and it was being administered as the physicians left. The other physicians who listened to Dr. McBurney's statement assented to it, and then all entered an automobile and were whisked away. Im-

where she had been for several days, the woman was taken into custody by Detective Herts, from the office of Chief O'Neill, and Capt. Herman Schuetler. She told the chief that she was "having a little fun at the expense of the police department." She had intended Tuesday to give herself up to the police. An emphatic denial met the suggestion that the assassin was spurred to his deed by her utterances.

"I don't believe it," she cried, earnestly. "I don't believe he ever said it. I have read the accounts, but I don't believe they are true. I never urged

mediately afterward a storm which had been gathering broke, and for a few minutes the rain came down in torrents.

Out of Danger.

Buffalo, N. Y., Sept. 11.—The corps of eminent surgeons and physicians in attendance upon the wounded president Tuesday committed themselves without reservation to the opinion that their patient was out of danger, and that only the possibility of complications threatened his life. They did not give assurance of his recovery collectively over their signatures in the official bulletin, but they went a long way toward it individually and separately during the day. Each of them, with the exception of Dr. Rixey, who did not leave the Milburn residence, placed himself squarely on record, not privately to the friends of the president, but publicly through the agency of the press, that the danger point had passed, and that the president would survive the attempt upon his life.

Ball Will Not Be Extracted.

The little piece of lead in the muscles of the back is giving the physicians no concern whatever. Unless it should prove troublesome to the president later on, he will probably carry this grim souvenir of the anarchist with him to the end of his days. The doctors say that once encysted, it can do no harm. The X-ray machine is ready for instant use, however, and if there is the slightest inflammation or pain in the vicinity of the bullet, an operation will be performed.

CAUGHT IN CHICAGO.

Arrest of Emma Goldman, Whose Words Inspired Czolgosz.

Chicago, Sept. 10.—Nine men charged with entering into a conspiracy to kill the president of the United States were held without bail in the court of Justice Prindiville at the Harrison street police station Monday. They have a further hearing before Justice Prindiville September 19. Three women, against whom the same accusation is made by the city prosecutor, were also held for further hearing but were given the opportunity of release on \$3,000 bond.

Chicago, Sept. 11.—Emma Goldman, whose anarchistic lectures are said to have stirred Leon Czolgosz to shoot President McKinley, was arrested at 303 Sheffield avenue at 11 o'clock Tuesday. In the home of Charles G. Norris

GAGE'S PROMPT ACTION.

Secretary Will Release \$25,000,000 Treasury Surplus as Asked by New York Brokers.

Washington, Sept. 11.—The following announcement was made Tuesday at the treasury department:

"The secretary of the treasury hereby gives notice that he will receive and consider proposals for the sale to the government, on account of the sinking fund, of United States three per cent. bonds, loan of 1906-1918; four per cent. bonds, funded loan of 1907; four per cent. bonds, loan of 1925, and five per cent. bonds, loan of 1901, to an amount not exceeding \$20,000,000. Proposals should be submitted to the secretary by letter or telegraph not later than Thursday, the 12th inst.; any bonds accepted to be promptly delivered at the United States subtreasury in New York or to the treasury department at Washington.

"The right to reject any or all proposals is expressly reserved."

LYMAN J. GAGE,
"Secretary."

The secretary also has directed that internal revenue receipts be deposited with national bank depositaries up to the par value of all bonds deposited including the two per cent. bonds. This will release about \$5,000,000.

Commenting upon the offer made in his circular, Secretary Gage said that the active movement of crops had begun throughout the country, and he did not desire that the treasury should absorb millions of dollars that might be in trade channels. The subtreasuries in the west and south have been calling heavily for currency to move the crops, and the amount sent so far is in excess of any year in the history of the treasury. The placing of additional money with the national bank depositaries will divert about \$5,000,000 from treasury vaults and put it into circulation. At the same time the purchase of \$20,000,000 in bonds would be a decided relief.

Something About Bread.

Bread is the food of civilization, wherever learning and intelligence spread bread goes hand in hand with them. Where you find one you find the other. While a few quacks have arisen occasionally to decry bread, the brains and learning of the medical world have ridiculed their claims. America, it is true, is a land of dyspeptics; but that is not caused by the use of bread. It is due to the fact that we take our food and drinks extremely hot or extremely cold, and bolt our meals without properly chewing and masticating them. Germany and some of the other European countries where it is laimed, dyspepsia is unknown, are bread eating nations. They are careful, however, not to take their food or drinks too hot or too cold, and to properly masticate their food. The London Lancet, which stands at the head of medical journals of the world, claims that bread and biscuits no matter if hot are thoroughly digestible and healthy if properly chewed and masticated; but declares that the trouble with the hot food is that it is so easily swallowed that people do not usually so thoroughly masticate it as they do cold, dry bread. In this connection it is not amiss to state that the "Walsh-DeRoo" brand of flour "Sunlight," "Daisy," and "Hyperion" make the best bread, biscuits and pastry.

Nation Prays that President May Live

The news received today from the bedside of President McKinley is very grave and discouraging. A change has taken place and his life hangs in the balance. The feeling of intense gratitude that prevailed when the news that his life would be spared was flashed even to the most distant parts of the union gave way to a feeling of suspense and sorrow this morning and the voice of the nation has been hushed by the news that death may result from the assassin's bullets.

Why this feeling of sorrow and suspense?

Mainly because of the personality of the man who has been a victim to repulsive anarchy, secondarily because anarchy in striking him has struck a blow at the government.

Gentle, kind and considerate like the martyred Lincoln; brilliant, lovable and gracious like the beloved Garfield, President McKinley is one of the grandest men that ever made for himself a name in American history. Broad in statesmanship, chivalrous and charitable in private life; loving, tender and true in domestic life, he is the noblest man of the day and hour; and it is appalling to think that the embodiment of all these virtues should suffer at the hands of a moral pervert like Leon Czolgosz.

The first impulse of the majority of the American people on hearing of the dastardly crime was to visit summary vengeance upon the hopeless head of the assassin. Many counseled violence, saying that no punishment was too severe for Czolgosz. On sober second thought this feeling gave way to the idea, deep rooted in American life and thought, that the law should take its course and that punishment should be dealt through the proper channels. This is as it should be. It is as President McKinley would have it. He would like to show the nations of the earth that even in the face of the greatest provocation the people have respect for the law, have confidence in their institutions, in their government, and that the nation of which he is the acknowledged head is a nation of law and order.

Vigorous steps should be taken to guard against catastrophes of this kind in the future. No punishment is too severe for those who make it a point to plot against governments and the heads of governments, and stringent laws should be passed restraining such people.

In the meantime the hearts of the people heavy laden with grief, go out to the suffering President and to his devoted wife, and the prayers of all are raised in their behalf. That the President's life may be spared to a nation that loves him is the earnest supplication of all.

Ordination at Hope Church

The exercises at the ordination of John J. Banninga at Hope church on Wednesday afternoon and evening were of more than ordinary interest. Mr. Banninga graduated in April last from our Western Theological Seminary and during his years of study in Hope college and the seminary, has been very active in church work and a leader among the young people of the Christian Endeavor society.

In the afternoon the classis of Michigan met for his examination. The different minister of Classis conducted this examination which covers all the work of his seminary course. In the evening the public services of his ordination were very impressive. The Rev. Thomas W. Jones, of Bedminster, N. J., former pastor of Hope church, made the opening prayer. Prof. J. W. Beardslee of the Seminary preached the sermon from Acts 22:21, in which he spoke of Paul as the first foreign missionary and emphasized the qualities needed in a successful missionary today. This was followed by the reading of the formula for the ordination of a missionary in which is included the solemn act of the laying on of the hands of the ministers present. Special interest gathered about this part of the service from the fact that this was the first time this formula was used, it having just been sent down to the classis by the general synod for adop-

tion to be used on such occasions. During the service Mr. Banninga signed the declaration made by all ministers of the Reformed church when they enter the ministry. This was followed by an address by Rev. Dr. Hitchcock, one of the secretaries of the American Board of Foreign Missions under whose direction Mr. Banninga will labor. The service was concluded by the pronouncing of the benediction by the newly ordained missionary.

Mr. Banninga will sail in October for his field of labor in Madras, South India. On account of the lack of means, the Foreign Board of the Reformed church could not at present send him. He will therefore go under appointment of the American Board, which has always been closely identified with our own. A few days ago he was married to Miss Mary Damson, one of the best known and most highly esteemed young ladies of Holland. Both will carry with them the best wishes of our people, with many earnest prayers that they may be spared to do a great work among the people to whom they go.

Robbed a Passenger

Charles Henrich, an employee on Pere Marquette No. 3, was arraigned before Justice Van Duren Monday on the charge of stealing jewelry to the value of \$525 and \$50 in cash from Mr. Roberts, a passenger.

Mr. Roberts has a cottage at Macatawa and came over from Milwaukee Friday night. When he arrived at his cottage he missed his pocket book and jewelry and immediately returned to the boat and a search was instituted. Pere Marquette railway detective Johnson arrived from Grand Rapids on the noon train Saturday and after an investigation placed Henrich under arrest. Henrich admitted that he had taken the watch and the pocket book containing fifty dollars and a pearl stick pin valued at \$500. He said that he took the articles to the toilet room and that while examining them the stick pin and watch slipped through his fingers into the waste pipe and from there into the water and that he then threw the pocket book away, fearing detection.

The Pere Marquette company sent for a professional diver from Milwaukee and he spent considerable time searching for the articles but could find nothing. The bottom was too muddy and soft, so soft that one of his leaded shoes was pulled off and lost.

Henrich admitted the theft but his story regarding the disappearance of the booty is discredited. He was sent to the county jail pending examination which will take place next Wednesday.

Wednesday \$75 of the stolen booty was found aboard the steamer where it had been secreted by Henrich. This is evidence that the story of the loss through the waste pipe is untrue and that he led the officers on a wild goose chase when he told them enough to send for a professional diver. He was so anxious to have them believe his story that he obtained leave to go to the Beach Monday to dive for the jewelry. He did so to his sorrow. The water was about twenty five feet deep and on one of his trips to the bottom the pressure was so great that his eardrum was broken.

Death of Professor Thomas Armstrong

Great surprise was occasioned yesterday morning when the death of Prof. Thomas Armstrong was announced. Until Tuesday he was apparently in the best of health and had arranged to play with Breyman's orchestra at a reception Wednesday afternoon. He was too ill to do so and remained at his home with the family of N. Askins, Fifteenth street, with whom he and his wife were staying. His condition grew rapidly worse and he passed away early yesterday morning. Death was due to apoplexy of the brain.

Prof. Armstrong was 38 years of age and was well known in musical circles in Holland and the surrounding cities. He lived in Allegan, Benton Harbor and Otsego a great part of the time and was identified with bands and orchestras in those cities. Last year he came to Holland and took the management of the West Michigan band. He retained this position until this spring when he went to Otsego. He returned to Holland a couple of weeks ago and opened a shop on River street intending to live here in the future. He leaves a wife and three sons. The funeral will be held Saturday afternoon at the home of his sister, Mrs. N. Askins. His mother and sister from Muskegon are here to attend the funeral.

Wheels Found

Three wheels found on Eighth street by Night Police J. C. Brown. Parties who have lost a wheel can see Mr. Brown on the street in the evening.

Don't delay a minute. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

ADDITIONAL LOCAL.

J. W. Adams, who has been attending to business in Chicago the past month has returned to his home on Macatawa Bay.

Henry Sluyter, who has had a charge in Thule, S. D., the past summer, will take up his studies in the New Brunswick seminary this fall.

The contract for the safe and vault for J. C. Post's new bank in Grand Haven has been awarded to the National Safe and Lock Co. for \$2000. The firm was represented by A. H. Caldwell, of Belding.

There will be a special meeting of the Aid society of the M. E. church, at the home of Mrs. Nixon, 130 East Fourteenth street, Tuesday next at 2:30 p. m. A full attendance is desired as there is important business to transact. By order of president, Mrs. Elferdink.

One of the correspondents of the Walsh-De Roo Milling company, Holland, Mich., writes them of his experience with Dawson's Golden Chaff wheat in Western Michigan, as follows: "In answer to yours of the 4th would say that nearly all the white wheat grown here is Dawson's Golden Chaff; it is a fair yielder. This season it is yielding from 12 to 30 bushels per acre. Some claim that it stands the winter well and that the fly does not injure it as much as other varieties. We shipped the first seed here four years ago, sowed 12 acres which gave a yield of 32 bushels per acre of nice clean wheat. Quite a number bought seed from us and are still growing it."

The Pere Marquette company will continue their line of summer boats between Milwaukee and Ottawa Beach until nearly the close of September. The business on this run during the past season has been very satisfactory to the company and without doubt it will be continued another year. There has been some talk that the Pere Marquette company will place a line of boats to run between Chicago and Ottawa Beach next season but it is not believed at the present time that the venture will be undertaken, the reason being that the company has not boats of sufficient speed and capacity to engage in the Chicago excursion business. At the present time the Graham & Morton company is enjoying a lucrative business, out of Ottawa Beach but it is absolutely at the sufferance of the Pere Marquette people, who control the terminal facilities at that point and can at almost any moment enjoy a monopoly of the through traffic.—Ludington Record.

"Holland ought to have a new opera house." How often is this remark heard. But generally the people that say it are the ones who are slow to extend their patronage to anything in the theatrical line. They should awake to a realization that no steps will be taken to build a new opera house until the people of Holland show by their patronage that they would extend financial support by attending good plays. If they do as they did last Saturday night it will be many days before a new place of amusement will be built. "The Minister's Son," one of the best pastoral plays on the road, was produced; but the critics who are always promising great things when a new opera house is built were conspicuously absent. As long as they persist in this course the city will be content with the old structure. But just the moment that they show by their patronage that the city will support a good opera house men must be found to invest their money in the enterprise.

Common Council

Tuesday night's meeting of the common council was largely devoted to the passage of resolutions authorizing special assessments for street improvements and sewer extension.

The following communication was presented by the park board:

"At a meeting of the Board of Park Trustees of the city of Holland held Sept. 4, 1901, the plan and diagram for improving Centennial park and plan for laying water pipes in said park, herewith presented were adopted and ordered transmitted to the common council for approval." This report was approved and the board of park trustees instructed to proceed with the work.

A resolution was passed recommending that Gutman, Carpenter & Telling be given permission to connect temporarily with the Harrison avenue truck sewer until such time as the city shall order a lateral sewer on West Sixteenth street.

A resolution was passed providing that a six inch water main be laid on Van Raalte avenue from Fourteenth street to Sixteenth street at an approximate expense of \$450.00.

The matter of ascertaining levels of Holland and Lake Michigan Railway Co.'s bridge at the intersection of Seventh and Land streets was referred to the city surveyor.

Opening of Hope College

The fall term will open on Sept. 18, at 9 a. m. Those who wish to be admitted on certificate or examination to the preparatory department will meet the Faculty on Tuesday, Sept. 17, at 9 a. m. in Graves Hall. Those who wish to enter the College are expected to meet the Faculty at the same time, and present their diplomas, or submit to an examination.

Those who desire to take a full classical course will please bear in mind that the study of Latin is begun in the lowest class, the "D" year, in the preparatory department, and Greek in the "B" class, which is the third year. Other courses, which require only Latin, or no ancient languages at all, can now be taken.

Hope college offers a liberal education equal to that of other colleges, at a very moderate expense. We trust that it is not necessary to state that it is always the aim of this institution to surround its students with wholesome and Christian influences.

We shall be pleased to send catalogue and circular to any who desire further information, or, if convenient, we shall be glad to have a personal conference with such.

G. J. KOLLEN,
President.

Rooms and Board Wanted by Hope College Students

Those who have rooms to let or who wish to take boarders, will please inform Prof. Henry Boers, 124 West 12th street, stating whether rooms are furnished and giving location and terms. There are young ladies who desire rooms and board. And there are young men who wish to do chores, in part payment of board or room rent and any who desire such services can readily be accommodated.

Astounded The Editor.

Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from Dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For Indigestion, Loss of Appetite, Stomach and Liver troubles it's a positive, guaranteed cure. Only 50 cents at Heber Walsh.

Society and x x Personal.

One of the most delightful social events of the season took place Wednesday afternoon when Mrs. M. J. Cook entertained a large number of guests at her home on East Tenth street. Mrs. Cook was assisted by Mrs. H. W. Hardie and Mrs. D. G. Cook. Elaborate refreshments were served by Mrs. J. P. Oggel, Mrs. F. C. Hall, Mrs. H. W. Hardie and Mrs. Luecomb. The Misses Mamie Lokker, Vera Kleinheksel and Maud Van Drezer presided at the punch bowl. The rooms were prettily decorated with palms, ferns and cut flowers and crowded with handsomely gowned women formed a beautiful picture. During the reception, music was furnished by Brayman's orchestra.

The HOLLAND CITY NEWS \$1.00 per year.

Wildwood, Mich.

I have been very busy since I came up with my threshers, unloading from cars and hauling to destination. I sold one rig 10 miles south east of Cheboygan and the plain rig I started out threshing with here, and did so much better work than the farmers have been in the habit of having done, that I sold it at a good round figure yesterday and the parties take charge in the morning, so now I am out of the threshing business for the first time in 25 years except a clover huller, which I have ordered shipped up here. There is no clover machine here, and there is a lot of clover to hull here this fall.

We expect Charles Ogden and family to come up here again on the 10th to settle permanently.

Bay View which joins Petoskey on the north is the largest summer resort in Michigan and the streets in Petoskey are always crowded with strangers in the summer months, and Charlevoix, is another great resort, which is only a few miles from there. There are other resorts on Plover Lake, Burt Lake and Meuliet Lake, which is a chain of Lakes between Petoskey and Cheboygan.

Wages are good and hands are scarce. There are plenty of trout in the streams here, yesterday was the last day for trout angling this season. I think we might furnish a few cars of potatoes at a reasonable price say 75 or 80 cents per bushel to some of our drought stricken brethren farther south.

A deer came into the school yard last week.

HEAT STOPS WATCHES.

A Dealer Reports That High Temperature Brings Epidemic of Broken Mainsprings.

"This weather is hot enough to stop a clock," growled the fat man, as he got in range with the electric fan, says the Philadelphia Record. "It is, and it does," replied the jewelry store salesman, who was his vis-a-vis at lunch. "It stops watches, too."

"I haven't worn my watch for a week, so you can't prove it by me," said the fat man. "When I discard my vest I discard my watch. It's lying in my bureau drawer, and it hasn't been going for a week."

"I don't mean that," said the jewelry store clerk. "I honestly mean that excessively hot weather such as this stops watches that are kept wound up and are supposed to be in good running order. During the last three days at least 50 people have brought their watches into our store because they have stopped. In nearly every instance it was found that the mainspring was broken. The head of our watch department told me this morning that it was always so when the temperature got up around the hundred mark and stayed there for several days. Only he said he had never known so many instances of it as at the present time."

Jack Tar Is Averse to Bathtubs.

The days of the old forecandle, hung away in the dark hold under the forward mast, are gone forever, no matter what flag the vessel may carry. The forecandle on new steel ships is in a deckhouse, well forward. On American ships it is ventilated like the skipper's cabin in the stern of the ship, has a skylight and apparatus for heating. The men used to eat with their plates on their knees; now they have a mess table with racks to hold the dishes in place in rough weather. Tanks on top of the house supply running water, and the reason modern forecandles do not have bathtubs is that the sailors would rather take their baths on deck by throwing cold water over one another.

IMPROVEMENT IS STEADY

Best Bulletins Say That Condition of Stricken President Is Entirely Satisfactory.

VERY COMFORTABLE NIGHT PASSED.

Physicians Unite in Stating Opening of Wound No Ground for Fear—Report Says Assassins Confesses Admitting Conspiracy and Implicating Others.

Buffalo, N. Y., Sept. 11.—President McKinley continues to show the most unmistakable evidences of improvement and recovery, and the uneasiness caused by Tuesday night's dressing of the abdominal wound has given way to more pronounced confidence than has existed at any time since the shooting. The incident of Tuesday night never had any significance to the doctors, and such as it did given rise to in the lay mind was quickly dispelled when the physicians arrived Wednesday morning. Their o'clock bulletin pronounced the president in excellent condition and made known that he had slept well and had experienced decided benefits from the dressing of the outer wound.

But the doctors did not confine themselves to the brief official bulletin. They were ready to frankly and fully discuss the case in all its bearings. This gave a body of authoritative information on the circumstances of the president's condition, all showing a most highly satisfactory condition. As to the reopening of the abdominal incision, this was dismissed as part of the treatment necessary to the progress of such wounds. As to the inner wounds, where the bullet penetrated the walls of the stomach, there was the most gratifying progress, as the stomach was now carrying on normal digestive processes. The beef juice, which was fed by the mouth for the first time Tuesday night, had been assimilated without the slightest indication that the wounds in the stomach retarded the processes of the nature.

The president himself showed many signs of improvement. He was so cheerful that one of the doctors remarked that they would let him smoke a cigar before long. He had shown not the slightest depression from the dressing of the wound Tuesday night. Mrs. McKinley had her usual brief morning visit with him.

The situation was so bright that all of those about the president and the many who came to inquire as to the president's condition were cheered with confidence akin to absolute certainty that the president was now on the high road to recovery. There continued to be talk of his early removal to Washington, although the doctors were not willing to place any such movement within two or three weeks, and some of them held that the climate here was much more conducive to his progress than that of the national capital.

Passes a Comfortable Night.

"The president has passed a very comfortable night," said the six o'clock morning bulletin of Drs. Rixey and Wasdin, the two physicians who remained at the president's bedside throughout the night. A few minutes later, Dr. Rixey, the president's regular physician, was seen by a press representative. He displayed no evidence of anxiety and was emphatic in his characterization of the sensationally alarming reports put in circulation in the early hours of the morning as a result of the bulletin issued a few minutes before midnight, but dated 10:30 p. m. Dr. Rixey was asked about these reports, and he replied earnestly and without any hesitation whatever:

"Those statements are not true. The president is not in a serious condition and there is no alarm felt over him. The facts are just as stated in the regular bulletins of the physicians, who are anxious that the public shall be fully acquainted with the truth."

The scare caused by even the faintest indication of trouble in connection with the president's wound, coming on the heels of steady and continued improvement, was only natural under the circumstances. But there is absolutely no reason to doubt the frankness of the official statement of the physician that the opening of a few stitches of the wound "cannot give rise to other complications." And Dr. Rixey was emphatic in his insistence of the complete truth of the statement. The opening of the wound was in no sense an operation. It was more in the nature of a redressing of the wound, an antiseptic dressing to allay the slight irritation that had appeared.

The following bulletin was issued by the president's physicians at nine a. m.:

"The president rested comfortably during the night. Decided benefit has followed the dressing of the wound made Tuesday night. His stomach tolerates the beef juice well and it is taken with great satisfaction. His condition this morning is excellent. Pulse, 116; temperature, 100.2 (Signed) "P. M. RIXEY, "M. D. MANN, "ROSWELL PARK, "HERMAN MYNTER, "EUGENE WADIN, "CHARLES M'BURNEY, "GEORGE B. CORTELYOU, "Secretary to the President."

A Later Bulletin.

Buffalo, N. Y., Sept. 11.—The following bulletin was issued by the president's physicians at 3:30 p. m.:

"The president continued to gain and the

wound is becoming more healthy. The nourishment taken into the stomach is being gradually increased. Pulse, 120; temperature, 100.2.

(Signed) "P. M. RIXEY, "M. D. MANN, "ROSWELL PARK, "HERMAN MYNTER, "EUGENE WADIN, "CHARLES M'BURNEY, "GEORGE B. CORTELYOU, "Secretary to the President."

Visited by Mrs. McKinley.

Mrs. McKinley saw the president in the morning. When the doctors arrived at the house for the consultation they passed her sitting in the upper corridor of the residence at work on her knitting. She was in good spirits, and after the visit of the doctors they gave their assent to her entering the sick room again. She remained only a minute, as the physicians are avoiding any sapping of the president's strength by prolonged visits even by those nearest to him.

Secretaries Hay, Wilson and Hitchcock arrived at the residence at 10:30, and 20 minutes later Gen. Charles H. Grosvenor, Judge A. S. Thompson, an old personal friend of the president who only reached the city Wednesday morning, and Frank Baird, of this city, were ushered in. At 11 o'clock Postmaster General Smith entered the house.

At 1:30 Gov. Yates of Illinois and State Senator Templeton, chairman of the exposition commission of Illinois, called to pay their respects and advise with Secretary Cortelyou as to the propriety of proceeding with the arrangements for Illinois day at the exposition, which was set for next Monday.

Cabinet Meeting Held.

An informal cabinet conference was held Wednesday in the Glenn residence, which adjoins the house in which President McKinley lies. The conference continued for about an hour, and closed shortly before one o'clock. The condition of affairs arising out of the conflict between Colombia and Venezuela was gone over quite fully, but there was no determination beyond that of carrying forward the policy already inaugurated by the state department. Mr. Hay's colleagues feel disposed to leave this and kindred issues largely to his decision. Several other public questions were gone over, but it was stated that final determinations were not reached and that they were not of a highly important character. The cabinet officials shared in their expressions of satisfaction over the president's condition and it was said some of them might leave the city very soon, although no definite plans for departure were announced.

ASSASSIN CONFESSES.

Czolgosz Admits That Shooting Was the Result of a Conspiracy.

New York, Sept. 11.—A special to the Herald from Buffalo says: Leon F. Czolgosz has confessed to the police that his attempt upon the life of President McKinley was the result of a conspiracy in which many besides himself had a part. So far as can be learned, Czolgosz has refused to mention any name except that of Emma Goldman, but papers are in existence which, if they can be discovered, will lay bare the entire conspiracy, and will result in wholesale arrests, followed by prosecutions.

Although Emma Goldman has been arrested in Chicago, it is probable that she will be brought to Buffalo for trial. The center of the conspiracy is here. Buffalo is filled literally to overflowing with agents of the secret service. A search is being made of every sewer that underlies the city, for it is known that in one of them is a package of papers containing the details of the conspiracy and the names of those concerned with Czolgosz in the plot, together with an outline of its ramifications.

In his confession Czolgosz told of his attempt to destroy the written evidences of the conspiracy. He has said that time did not permit him to burn the papers as he had desired.

Before leaving his room in Nowak's hotel, he gathered together all of his papers, taking them from his pockets, from his valise and from the drawers of his table. All were bound together in one package, which he concealed beneath his coat.

Searching for Important Papers.

Czolgosz says that he made a circuitous and aimless trip about the city, and that at some point, which he cannot now describe, he came upon an open sewer. Into this sewer he cast his papers.

Inch by inch the sewers of this city are being searched, and, if such a thing is possible, those papers will be recovered.

On authoritative information it can be said that during the last ten weeks Emma Goldman has visited six anarchist organizations. She has been in Buffalo three times since July 12, having left the city the last time four days before the attempted assassination.

Emma Goldman, Czolgosz and Abraham Isaak and Mary Isaak were in consultation in Chicago on two occasions. Mary Isaak accompanied Emma Goldman to Buffalo the last time the arch-leader of the anarchists was here.

Arrested on Serious Charge.

Camden, N. J., Sept. 11.—Edelbert Stone was arrested in this city Tuesday night on the charge of aiding and abetting in the attempted assassination of President McKinley.

Oil for the Children.

Give them oil—cod-liver oil.

It's curious to see the result.

Give it to the peevish, fretful child, and he laughs. Give it to the pale, anæmic child, and his face becomes rosy and full of health. Take a flat-chested child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.

This is not a new scheme.

It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.

DON'T BE DUPED

There have been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered under various names at a low price.

By dealers, agents, etc., and in a few instances as a premium for subscriptions to papers. Announcements of these comparatively

reprints are very misleading. They are advertised to be the substantial equivalent of a higher-priced book, while they are all

A Helping Hand

IS GLADLY EXTENDED BY A HOLLAND CITIZEN

There are many enthusiastic citizens in Holland prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mr. J. Van Pilon, farmer near Ebenezer, says: "I had more or less trouble for years from my kidneys and whenever I worked hard or caught a cold it always affected me and caused a heavy aching pain through the small of my back. It was very painful to stoop or to lift anything and at times the aching was so persistent that I could scarcely get about my work. I used different medicines and wore plasters but they did me no good. As I had seen Doan's Kidney Pills highly recommended for such troubles, I went to J. O. Doeburg's drug store in Holland and got a box. I used them but a short time when I felt better and continuing the treatment I was soon cured."

For sale by all Dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no substitute.

Lake and Marine

Fifty-six seamen were rescued by the life saving crews on Lake Huron Saturday night and Sunday morning according to reports received by the life saving service at Washington. The gale was a terror and the pall of smoke that hung over the water made it impossible for the seamen to tell whether their boats were driving. Lured on by light of craft already ashore, the steersmen of other boats did their best to land their steamers on the sand, the leaping that the lights indicated a harbor. It was one of the most remarkable wrecks in years. So far as known no loss of life ensued, but the losses on vessels which stranded will probably aggregate \$200,000.

The first of the dispatches came from Port Huron and said that the schooner Pau y, with a crew of 12; the schooner Amaranth, with a crew of 7; the Paige, with a crew of 10; and the Sarnia, with a crew of 8, stranded about three miles south of Port Huron life saving station and that all the seamen were rescued by the life saving service.

The Lake View beach life savers had been notified when the Pau y struck and they were upon the scene as soon as human strength could take them there. The surf boat was mounted on wheels and run 2-1/2 miles over the sand road and then plunged into the raging sea.

Eight brave men were they, those men from the Lakeview station. Ten times they risked their lives in order that others might live. Ten times they faced the storm and when there snatched from the hand of death—32 men; three women and three children.

The work of rescue lasted from 8:30 Saturday night until 2:30 Sunday morning.

OUR NEIGHBORS.

West Olive

After a three weeks vacation the correspondent has begun to write again.

We are busy cutting a very good corn crop.

Miss E. Jay Cox, of Rockford Illinois, delivered one of the best and most interesting lectures here Thursday night on Africa, that we ever heard. She served as missionary in that dark continent for six years, and it was an honor for this place to hear her describe that country, for the first time in Michigan. She also an eloquent lady in every particular.

Jacob Kamphuis and son Claus, were in Holland Saturday on business.

Theo. Schilling and family removed back to Milwaukee Friday, where they will spend the winter.

An exchange says: It's a fowl trick for nature to make a pigeon toed, duck legged man chicken hearted.

Perry Hazelton and young Abe Boyer arrived from Grand Haven Friday on a visit. Mr. Hazelton, who is an architect, lost his balloon last week which burned, but he escaped.

Cal McKinley was in Grand Haven Friday, and to be sure on business, as he says that he is just coming money from his business here.

H. H. Ingersoll and Miss Laura Brink were married last month in Greenville. This may be old news but very interesting just the same.

C. M. Shears made Holland a call last week.

The shooting of President McKinley last Friday, is the chief comment among us this week. Some of us are mad enough to hang pollocks.

Miss Minnie Shears and Leslie have gone to Chicago where they are working. West Olive's good looks will soon be out of sight if the prettiest girls continue to cast their smiles across the lake.

School began Monday with Miss Van Dyke as teacher.

Mrs. Sarah Terry, of Holland, is visiting her daughter Rachael Kelly this week.

A carload of telegraph poles arrived Monday and a gang of men are busy standing them up at present.

Ben Van Raalte was here Friday.

Arlie Stewart formerly of this place was granted a divorce from his wife, Lillie Stewart during the August term of the circuit court.

A. R. Wabbe, of Port Sheldon, removed Saturday on the farm of Wm. Miles about two miles west from here.

H. Goodman threshed 76 bushels of rye from 6 acres this year. If any farmer did better let us hear from him.

L. Hoeve, of Holland, sold quite a number of Bibles around here last week but some people claim they have not got time to read a Bible.

Last year West Olive had a strawberry, peach and grape social, besides several box socials, but at present they are all scarce.

Allegan County

At a meeting of the vice presidents of the County Institute society it was decided to hold one-day institutes in 15 towns next winter, the series to close with a roundup or state institute at Allegan in February. The society will ask the board of supervisors next month for an appropriation of \$200 to carry on the work.

FOR FIVE DAYS ONLY

September 8 to 12, inclusive, tickets to the Pan American exposition at Buffalo will be sold via the Pere Marquette Railroad from Holland at the following low rate. Limit 15 days, round trip, \$9.75. Limit 20 days \$11.20. Limit October 8th, \$13.15. All limits include date of sale.

Mothers write us that they have solved the problem of keeping their children well. Give them Rocky Mountain Tea each week. A blessing to mother and child. Haan Bros.

Don't delay a minute. Cholera infantum, dysentery, diarrhoea come suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

How About Your Heart

Feel your pulse a few minutes. Is it regular? Are you short of breath, after slight exertion as going up stairs, sweeping, walking, etc? Do you have pain in left breast, side or between shoulder blades, choking sensations, fainting or smothering spells, inability to lie on left side? If you have any of these symptoms you certainly have a weak heart, and should immediately take

Dr. Miles' Heart Cure

Mr. F. H. Oaks of Jamestown, N. Y., whose genial face appears above, says: "Excessive use of tobacco seriously affected my heart. I suffered severe pains about the heart, and in the left shoulder and side; while the palpitation would awaken me from my sleep. I began taking Dr. Miles' Heart Cure and soon found permanent relief."

Sold by all Druggists, Dr. Miles Medical Co., Elkhart, Ind.

Study of Soils.

The investigations on agricultural soils which are being conducted in this country are probably unsurpassed in quality and extent by those of any country, unless it be Russia, where a very systematic and extensive line of investigations, including a survey and classification of the soils of the whole country, has been in progress for a number of years, says the Popular Science Monthly. The work in this country has been carried on mainly by a number of the agricultural experiment stations and the divisions of soils of the national department of agriculture. The report of the field operations of the division of soils for 1899, by Prof. Milton Whitney and a number of his assistants, lately issued, is a report of progress in surveying the soils of the United States. During the year areas aggregating about 720,000 acres were studied in the field and mapped.

Granite Block Weighing 1,400 Tons.

The largest block of granite ever quarried is being used in the construction of the Bench Head lighthouse, England. It comes from Cornwall, weighs 1,400 tons and is 68 feet long, 20 feet wide and 14 feet deep.

France's Horseless Wheels.

About a million bicycles and 6,000 motor cars are in use in France. The latter number represents an increase of 41 per cent. in a year.

Great Sport at the Fair

The committee on sports and amusements for the South Ottawa and West Allegan fair to be held in Holland Oct. 1, 2, 3 and 4 held a meeting at the office of the secretary, L. T. Kanter, last Tuesday night and made elaborate arrangements for sporting events during the fair.

The main attractions will be balloon ascensions on Wednesday, Thursday, and Friday. The ascensions will be sensational as the ascendant will be shot from a cannon while in midair before making the parachute drop.

A special effort will be made to make Wednesday an interesting day. Besides the regular program a base ball game will be played between Holland and one of the best clubs in this vicinity. This will undoubtedly attract a large army of base ball fans on that day. A trick bicycle rider will give exhibitions and a program of athletic sports will be carried out.

Never has the fair association made more extensive arrangements for amusements and those who attend will be well paid for their time and trouble.

Sporting News

Allegan defeated Otsego last Friday by a score of 8 to 5. Rathbun pitched for Allegan.

The Zealand base ball team exhibited their "rabbit blood" this week by mending word Thursday that they had disbanded and would not be here today for the game that had been advertised.—Fennville Herald.

There has been a great deal of wind and newspaper talk wasted over the merits of the Twin City and Fennville ball clubs. The Twin City has defeated the Fennvilles twice this season and are perfectly willing to give them a chance to win back their lost laurels. As two games have been played in Fennville the next one must come to Douglas or Saugatuck, and our neighbors can name their own date for the game. Now either play or keep still.—Douglas Record.

Big Rapids defeated Greenville at Grand Rapids Sunday by a score of 4 to 0. Both teams had loaded batteries. Owen, of the Detroit American League club being in the box for Big Rapids and Lundblom, the Manistee wonder for Greenville.

Landrum, who played second base for Holland the first of the season was in the city this week.

Grand Haven won its third game from Fennville on the Fennville diamond Saturday by a score of 11 to 3. Gilbert, the Kalamazoo pitcher started to pitch for Fennville but he was knocked out of the box in the first inning and was replaced by Nelson who held the visitors down to a few scattered hits. Van der Veen pitched for Grand Haven.

Grand Haven and Holland will meet for the fourth time this season this afternoon on the Holland grounds. Grand Haven has won two games, Holland one, and the home team will try to make it two and two. Zealand, Muskegon and Grand Haven are represented in the visiting club.

The Holland club was defeated in Grand Haven Tuesday by a score of 3 to 2. It was a fast game and was characterized by the brilliant fielding of the Holland boys and the steady work of the pitchers of both nines. At the end of the third inning the score was two and two and remained that way until the last half of the ninth inning. Then with two men on bases and two men out Van der Laan dropped an easy fly allowing Grand Haven to bring in the winning run. Batteries—Grand Haven, O'Connell and Kruger. Holland, Ver Stay and Schouten. Umpire, Van der Veen.

IN THE KAISER'S COUNTRY.

Things Which You Must Not Do If You Are a Resident of His Domain.

There are many things you must not do if you live under Emperor William. Following are some of the restrictions in Berlin, enumerated in the late G. W. Steeven's book just published, entitled "Glimpses of Three Nations."

"You must not hang beds or clothes out of windows so that they can be seen from the street. You must not feed horses in streets where there is not room for two vehicles to pass, and in others only with the consent of the occupier opposite whose piece of pavement you are; you must watch the horse, and undo the traces while he is eating, and when he is done the occupier must clear up the spilt chaff. If you accidentally break a bottle or jug in the street you must carefully gather up the pieces and take them away. If you stand on the pavement you must leave room for other people to pass. After this it is rather an anticlimax to learn that you must not discharge firearms in the street, nor shoot with crossbows and blowpipes.

"If children make a noise in the street their parents can be punished, and 'rambling about in droves' is forbidden after dark. Dogs that annoy people by barking are forbidden, especially after ten; if you take your dog out then the nearest policeman bears down on you and wakes the streets with yells of 'That dog—must—not bark!'"

Golf the Conqueror of Nations.

According to the Scottish American golf is gradually taking firm hold on the European continent. It is ten years or more since golf links were established at Cairo and there most of the British officials, including Lord Cromer, Sir Edgar Vincent, the late Sir Gerald Porter and others were to be found at one time or another. Until recently there were no links in Vienna, but the emperor has now granted a tract of land near the Prater and a club is being organized by the members of the British embassy.

Gambling in Life Insurance.

They gamble in life insurance in England, and anyone who cares to pay the rate may take out insurance payable to them in case of the death of King Edward. The rate charged for a life policy on his majesty is ten per cent., while an accident policy costs 30 per cent. a year.

File Off Alligator's Teeth.

A remarkable operation was performed by a dozen keepers on a 13-foot alligator which is kept in the Bronx zoo at New York. The alligator, which is a powerful animal, showed signs of fierceness for some time. He wound up one morning by killing an eight-foot companion in the same tank. Then it was decided that the big one's teeth should be cut. A rope with a sling was lowered over his head and drawn taut; the tail was similarly treated. Each one of the legs was next secured in a like manner. By patience and repeated trials a lasso was got into the ponderous jaw. The alligator gave a bite and the rope parted like thread. Then a wire rope was secured. This was finally got into place.

Sticks were pried between the jaws to keep them from clashing together. Thus held, the reptile lay helpless and the work of sawing off some of the longest and most dangerous teeth was soon accomplished.

Find New Varieties of Fish.

President David Starr Jordan has returned to Stanford university from his trip to the Hawaiian islands, where he has been for the past two months conducting a thorough and detailed study of the fisheries and fishes of the islands under the direction of the United States fish commission.

About 240 species of fish have thus far been collected and classified, 50 of which are new to science. A complete report of the laws and customs of the islanders relative to fishing is being made by J. N. Cobb, the statistician of the party. This information, together with the results of the scientific work by Dr. Jordan, will be embodied in an extensive report to the government.

MIND AND THE WEATHER.

Effect the Reading of a Book Has Upon the Physical Frame of a Person.

Everyone knows that the imagination has a great effect upon the body and at times some ludicrous experiences are met with. During the prevailing torrid spell a man and his wife sat together on a shady veranda reading. The man read an African story which dwelt upon the suffering entailed upon the inhabitants of this land by the heat. Hot sands and the blazing sun were often mentioned and the scant costume of the natives was given due mention.

The woman by a strange chance was reading of an arctic expedition. She had not picked out this literature purposely because of the contrast to present conditions it offered. She had just come across it in the bookcase at the summer resort and opening it at random was soon among the icebergs and almost lost in snow.

"Isn't it warm?" asked the explorer in Africa presently, tugging at his collar.

"Why, no," replied the lady from an ice floe; "it seems to me very pleasant—even cool."

The man grunted disbelief and then he took off his coat. Later he retired to his own room and removed his collar and necktie and panted still for breath and finally flung away his tale of the tropics and was soon in the leafy Adirondacks with "The Aristocrats."

And the feminine member of this duo insists still that the day was a cool day and not at all oppressive.

NEEDED HIS STRENGTH.

Sandow, Once Beseet by Footpads in Paris, Laid Them Out in Short Order.

Sandow, the strong man, has seldom had occasion to display his muscularity except to gratify his audiences, but once it stood him in good stead among the bullies who have at times sought to run things to suit themselves on the Bois de Boulogne in Paris. Their mode of action is to have one of the gang follow the proposed victim. At a given signal several others approach, close in on him, rob him, sometimes seriously injuring him. An additional 300 police now ride about the Bois on bicycles and keep a sharp lookout. But despite this extra vigilance the outrages continue.

One day Sandow, walking in a rather remote avenue of the Bois, suddenly realized that he was being followed. He grasped the situation, and apparently took no notice. As he had expected, a signal called two or three fellows from the shrubbery. As they first approached Sandow stooped down as if to tie his bootlace, grasped the robber by the ankle and used him as a sort of cat-o'-nine-tails, lashing his astonished confreres, first one and then the other, before they had a chance even to think of escaping, staying in the ribs of one, smashing the arm of another, and leaving the whole gang maimed and strewn upon the ground. Then Sandow leisurely went on and remarked to the next policeman he met:

"You'll find two or three men up there, more dead than alive. You'd better go and look at them."

GREAT BEAUTIES.

Many Handsome Faces Are Found Among the Women of Cashmere, India.

Many of the women of India, and especially those of Cashmere, are beautiful. In a typical Hindu beauty the skin is just dark enough to give a rich, soft appearance to the complexion, says a London journal. The features are regular, the eyes mild and black and shaded by long silken lashes, the hands and feet are small and well formed, the demeanor is modest, the manner is gentle, the voice low and sweet. There are fine-looking women among the middle class Hindus, as well as among the upper ten, and even among the lower class the faces are often very pleasing. Many a Hindu woman who has, perhaps, little pretensions to beauty of face, has, nevertheless, the step and carriage of a princess, and if one is not too fastidious about perfection of eyes and mouth and nose her figure as she walks down the street with her load on her head is truly a beautiful sight.
