THE MANAGEMENT OF APOLLO THEATER

Wishes To Announce

TO THE THEATER GOING PUBLIC OF HOLLAND THAT IT HAS ARRANGED FOR A COMPLETE CHANGE OF THE FILM SERVICE.

For some time past the pictures shown at "APOLLO" daily—except occasional "Feature" or "Special" pictures—have been furnished by the same producer—patrons have been seeing the same Leads, Stars, and Photoplay characters week in and week out - and frequently the same picture repeated.

BEGINNING MONDAY, SEPTEMBER 11th "APOLLO" will present to its patrons motion pictures produced by the Acknowledged Greatest Maker of Motion Pictures in the World (Excepting a Serial Picture Now Showing at a Movie Show Here) The productions of this greatest of producers have never been shown in Holland, they will not be pictures one to two years old - but pictures of the highest type of artistic photography and not longer than sixty to ninety days old.

"APOLLO" is going to risk the additional expense involved for its new and up-to-date service believing the Holland public will appreciate and support an effort to give it a Motion Picture Theater equal to the best of the larger cities.

"APOLLO" enjoys the patronage of a fine class of patrons. It is the Theater of Courtesy and refinement - distinctive in its environments and productions.

The New Program Begins MONDAY, SEPT. 11th, on a New Screen.

GETZ HAS AN ANIMAL THAT KILLED A MAN

HAS CONVERTED A DESERT INTO A GREAT GARDEN SPOT.

Lakewood Farm Has Several New Exhibits to Show the Fair Patrons This Year.

There are many men who can and there are many men who would, but the man who can and does is not so easily found. When found he is generally found at the top. There are many men who do good by giving of their wealth for charity but there are few big men who think of the little things in life and step down to feel and touch the life about them and spread good will and happiness with their own hand. There are a few big men, who have not become so deeply interested in one line of work that they cannot talk or do anything but their own work, who concentrate their efforts in many channels and so a large number of people profit by their great ability and knowledge. Holland has a man of the big, noble type who is accomplishing much to make people happy and to make the world better. That man is George F. Getz of Holland and Chicago.

The people of this city coming in contact with Mr. Getz know little or realize little of what he is doing. They should know more. He first made himself a leading figure in Chicago's business and social world. Then he turned his attention to other channels.

He came to Michigan and picked out a barren space of land, little more than a desert waste at Alpena Beach, on which to build a country home. Caring not for how much money he put into the farm but caring much for what he got out of it he converted many acres of waste land into one of the finest farms to be found in the state. On about four acres of land, including greenhouses, he grows some of the finest vegetables, flowers and plants to be found. In his fields he grows choice fruits. Besides this he has a very large quack farm and considerable thoroughbred cattle and horses. The word thoroughbred might have been left out. Everything on his farm is thoroughbred. He would have nothing else.

When his farm was well stocked he directed his attention to strange and valuable species of birds and animals with the result that he now has a fine menagerie and a kennel of dogs that makes the animal lover swell with envy.

But building up one of the best farms and country homes in the state from all points of view was not all that Mr. Getz was doing here. He immediately took an interest in Holland, situated so near his farm, and in the things Holland was doing. He became an honorary member of the Chamber of Commerce and he has always stood ready to do all in his power for anything that would benefit this city. It has been often that his great influence has been felt in pushing progressive movements here and even in the little things he has done worlds of good. He took an interest in good roads and boosted. He has been boosting ever since he came here.

But of all the propositions he has got behind and backed with brains and money his support given the Holland Fair has been the greatest. He co-operated with the Fair officials, became a director himself and has been the leading figure of the past four fairs. Each fair has been greater than the preceding one and his advice and active assistance has been one of the greatest causes for this.

Mr. Getz led the building activities of the fair by erecting, at his own expense, a building in which to make an exhibit of his things from the Lakewood farm. To this building at Fair time each year he literally moves his whole farm. At least he moves a little of everything, making a display that has never before been seen at a fair or in any other place.

DANGEROUS TO SNEAK INTO FAIR

OFFICERS WILL ARREST ALL CAUGHT; JITNEY BUSS DRIVER SHOULD WATCH SPEEDOMETER

Every year large crowds of small boys and many young men and even some old men try to sneak into the Fair grounds so as to save the price of admission. Last year the officers on guard at the fence got tired of kicking people out so they started making arrests. All persons caught trying to sneak in were not only kicked out but were given an automobile ride to a local Justice of the Peace.

This year the same order will prevail. The boy scouts will be on hand to guard the fence in their usual efficient manner and there will be several county officers to help them out. Anyone getting caught will be arrested.

Speeding of jitney buss men has about been killed by the number of arrests made in other years. However taxi cab drivers should control their greed and travel within the limit, or they might lose all of their profit in police costs.

The Holland City News is issued early this week to enable its employees to attend the Holland fair.

TWO LOCAL LADS JOIN CANADIAN ARMY

DAN KRUIDENIER AND HENRY BOEVE EXPECT TO SEE FIGHTING IN THE TRENCHES

Hold Rank of Corporal and Will Soon Be Commissioned; Spending Two Weeks' Furlough in Holland

Two well known Holland boys, Dan Kruidenier, son of the Rev. Mr. Kruidenier, missionary in Japan, and Henry Boeve, son of Mr. and Mrs. G. H. Boeve, living south of this city, have joined the Canadian army and they expect to be sent to England about the middle of next month and later to "some place in France" to take part in the big British drive. These lads are now visiting their many friends and relatives in Holland, having been given a two weeks' furlough with full salary and all expenses paid.

Kruidenier and Boeve graduated from the Y. M. C. A. college in Springfield, Mass., last June, after completing a course in physical education. They went to Canada, last May and enlisted in the new army being formed for active service in Europe. They were given positions as physical directors in camp and they have been doing this work since their enlistment. Shortly after enlistment they, themselves, were given training in the handling of a machine and in bayonet fighting. After a thorough course in this work they were promoted to corporals, which titles they now hold.

After completing their own courses of training they were given the work of training machine gun crews and instruct men in the fine art of bayoneting, all the while keeping up with their work in camp as physical directors.

At one time both boys were sent out recruiting and while doing this work they visited every part of Canada. "Recruiting is easy among British Canadians," said one of the lads, "but the French-Canadians are not so responsive."

Uncle Sam's boys at the border may be getting some stiff drilling to put them in shape for possible war but they cannot be getting any worse than these Canadians according to one of the boys. The men in camp are drilled constantly and given the hardest kind of physical work to put them in condition to stand hard campaigning. As an instance both boys were with a platoon of men who took the march route of 450 miles with full equipment, traveling between fifteen and twenty-five miles a day, according to the kind of country they passed through.

Their camp is at Valcartier, near Quebec and there are about 30,000 officers and men in the contingent. When this army is sent to England next month the local lads have been promised to be promoted to commissioned officers. They expect to remain in England for drill and preparation about four or five months before being sent to the trenches. To their friends' many protests against going the lads reply, "We have decided to go and that is all there is to it." They must be back in camp by Sept. 21.

While at the Y. M. C. A. college both lads made good records in athletics. They both played on the football team which ranks with some of the big eastern eleven and Mr. Boeve won fame on the wrestling team.

Both lads are well known in this city having lived here most of their lives. Mr. Kruidenier attended Hope College in this city for several years and he is well known socially as a singer of note. Mr. Boeve is a graduate of the Holland High school and he also spent a couple of years at Hope College.

IMPROVED FILM SERVICE STARTED

MANAGER KIRKPATRICK OF THE APOLLO GIVES HIGHER CLASS OF PICTURES NOW

Yesterday at the Apollo a new service in films began, the Universal, that will give to Holland a higher class of pictures than have before been sent here. A great improvement now will be the time service. Instead of watching a film of flickers about two years old, the patrons of this place will be shown a smooth reel from sixty to ninety days old.

Of course this means a greater expense to Manager Kirkpatrick but he wishes to give the movie fans the best possible and is sure that they will show their appreciation. This experiment in a higher class of pictures requires endorsement for success. The move on the part of "Kirk" is to be commended.

LOCAL FIRM CHANGES HANDS.

Austin Harrington Buys Consumers' Fuel Company.

An important business deal was consummated yesterday when the Consumers' Fuel Company which has been conducted by Nicholas Schmidt was sold to Austin Harrington. Mr. Schmidt has decided to retire from business.

This is but another step in the advancement of the Harrington Coal Yards at First Avenue and Eighth St. which were established by Mr. Harrington about 25 years ago, and thru their many patrons Holland can boast of one of the largest coal yards in Western Michigan. The Consumers yard will be dismantled and closed, the Harrington Yards being well equipped to take care of all orders including the sale of West Michigan wood.

LARGEST STRING OF HORSES EVER RACED HERE

NEW BARN FILLED, OLD STALLS FILLED AND STILL NO ROOM.

Forty-Five Starters Have Been Secured by John Schouten, of the Speed Committee.

Never has Holland in its fair or race meets had a string of race horses such as it has for the fair this week. Forty-five thoroughbreds fill the new barn, the old stalls and some improvised accommodations for the overflow of horseflesh.

Even in the "hey days" of racing, when Holland had quite a reputation as a racing town, did the turf kings assemble as they did this year, not even in the days of Turk, Montague Boy, Maggie B. Roy, and Stockyard Billy, did the ponies assemble as they do today.

Horses from Kentucky, Crown Point, Ind., Chicago, Hebron, Ind., Mason, Grand Rapids, Hartford Hopkins, Coloma, Grandville, Coopersville, Charlotte, Benton Harbor, Howell, Caledonia, Allegan, Muskegon and Holland, are here to try conclusions for the \$2700 in purses and the \$100 cup presented by Mr. Williamson of Belvidere farm.

No doubt several records will be made on Holland's half mile track and possibly the track record of 2:10 will be broken, provided the weather remains as it is today.

It would be unfair if the proper person, who is largely responsible for the success of the horse race end of the fair, were not given credit. John H. Schouten has for months bent his every energy to secure horses for this meet. He has been scouting around the country going to nearly every part of the states of Michigan, Indiana and Illinois to add another horse to the list already secured. And, let it be known, that horse men as a rule are strange animals to deal with and it takes diplomacy and knowledge of the racing game and the ability to talk horse to them that will make them come across. John Schouten has shown all these attributes and a glance at the racing stables shows that he used them to good advantage.

FIFTH WARDERS HOLD BIG GAS MEETING

WILL PETITION COUNCIL FOR EXTENSION OF MAIN TO SOUTH PART OF CITY.

At the meeting of the citizens of the Fifth ward, held last night in the Maple Grove school house for the purpose of discussing the possibility of obtaining gas in that part of the city an organization of some 52 members was affected which will strive to obtain gas in their residences.

The meeting was called to order by Prof. A. Raap, Dick Boter was elected chairman and Dick W. Jellema secretary.

It was explained to the meeting that not the number of subscribers to be obtained in the south end of the city that is keeping the Holland Gas Co. from making extensions. The main reason given by the company for not supplying this part of the city with gas is that the price of gas in the city is too low.

The reason for the defeat of the question put to the vote of the people four years ago was said to be because of misleading agitation at that time and because of misunderstanding of the printed ballot.

It seemed to be the sentiment of the gathering last night that most of the people of the Fifth and Sixth wards want gas. They now wish to work out some way of getting it. A motion was unanimously carried to the effect that the council be petitioned for gas for both in the Fifth and Sixth wards.

A committee consisting of D. Van Oort, D. W. Jellema and John Prakken of the Fifth ward was appointed to canvas and circulate a petition to be presented to the council. This committee will be supplemented by a committee of three from the Fifth ward.

Talks were given by Arend Visscher and Prof. A. Raap made remarks in regards to the organization of a 5th Ward Improvement association.

Wm. Poppe in an enthusiastic talk recommended that all the people keep in touch with affairs by reading the local papers.

The question was asked whether or not the extension of gas would necessitate a change in the franchise with the gas company. Mayor Vandersluis when called on said that he believed that the council and the gas company could come to a favorable agreement.

The meeting ended in the organization of the Fifth Ward Improvement association with a charter membership of 35 members. Dick Boter was elected Chairman and Dick W. Jellema elected secretary and treasurer by unanimous vote. Mayor Vandersluis was elected as an honorary member. The following are the charter members of the association: Jacob Verhey, B. Rozendaal, Rev. Van Peursem, H. Bosch, E. S. Holkeboer, Ben Timmer, Joe Rietsma, P. Fredericksen, A. Raap, A. Van Vulpener, Van Faassen, J. W. Visscher, N. Jonker, John Prakken, A. Visscher, D. Van Oort, H. Vaveman, John Bosien, A. Timmer, John Etterle, G. W. Kooyers, C. Sas, J. Van Oss, A. Klomparens, H. DeFouw, D. W. Jellema, H. Luidens, D. Boter, A. Koning, A. Karsten, J. H. Bennink, Wm. Poppe, R. H. Ruper, B. Van Vulpener, J. Bartels.

TWO BOYS ARE STRUCK BY AUTOMOBILES

KENNETH BUTTLES, 16, SERIOUSLY INJURED WHEN BICYCLE COLLIDES WITH JITNEY

Carl Meyers, 5, Suffers Broken Arm and Minor Bruises When Run Down; Police Warn Drivers

Two automobile accidents happened yesterday one of which may have a fatal ending. Both incidents involved jitney buss drivers and although the drivers, so far, are in no ways held to blame, Chief of Police Van Ry will give warning to all jitney and taxi drivers to observe extra caution during fair week.

Kenneth Buttles, aged 16 years, son of Mr. and Mrs. A. J. Buttles, living just past Fairbanks avenue in East Eighth street, was perhaps fatally injured when struck by a jitney buss driven by Harm Arns, of Zeeland, while riding a bicycle on the Zeeland road about a mile east of this city. The accident happened about eight o'clock.

Buttles was coming from Zeeland on his bicycle and the jitney was bound for Zeeland from Holland after doing passenger service to the fairgrounds in this city. The bicycle collided with the right front headlight of the automobile and Buttles was thrown against the machine, then rolling unconscious into the road. He sustained several minor body bruises but was badly injured about the head.

The lad was taken to Dr. R. H. Nichols in this city where he was attended to. He was later removed to his home. This morning he had not regained his mental faculties and was unable to tell anything about the accident. He does not yet realize that he has been hurt. However he has recovered consciousness and although suffering from concussion of the brain he has a good chance for recovery.

Mr. Arns claims that Buttles was riding on the wrong side of the road and that he did not see the bicycle until right on top of it. Then it was too late to turn out.

No other witness of the accident could be found and the other side of the story cannot be obtained until Mr. Buttles recovers.

Yesterday afternoon three young boys climbed onto the rear of a Citizens' Transfer company wagon on the corner of 16th Street and Central for a ride. A few minutes later when the driver, Fred Bell, turned out for a Jitney buss, driven by A. J. Hastings, which was coming up behind him, he looked back and saw Carl Meyer, 5 year old son of Mr. and Mrs. Paul Meyer, 401 Central Avenue, run back of his rig squarely in front of the automobile. The lad was run over by the machine. He suffered a broken arm and several minor bruises. His condition is not serious. He was attended by Dr. Tuttle.

ART HALL A BIG DRAWING CARD

MERCHANTS SPEND CONSIDERABLE TIME AND MONEY TO MAKE DISPLAY FOR PUBLIC

The Art Hall at the Fair grounds will be one of the principal places of attraction this year and it will be a thing worth seeing. The progressive merchants of this city who have space in the hall are spending considerable time and money to make a good showing with their goods.

All the booths have been elegantly and artistically decorated and each booth has something new and interesting for the visitor. Many merchants have something in their booths to draw attention and such things as a typical Dutch windmill in action, scientific electrical apparatus, battleship with formidable bristling cannon and several other interesting devices will be seen in the various booths.

Today the merchants were busily engaged in getting their wares from their store to the fairgrounds and arranging their exhibitions. Some of the booths were completed as early as Monday night but most merchants waited until today for the finishing touches. By tomorrow morning all the booths will be ready for public inspection and the large crowds which will attend Holland day, tomorrow, are advised to stroll through the art hall.

REV. G. KOOIKER GOES TO COLORADO CHARGE

Without intimation to any one in his congregation that he was considering a call, Rev. Garrit Kooiker, pastor of Bethel Reformed church, Grand Rapids announced to his congregation Sunday that he had accepted the call extended to him by the Congregational church of Fruita, Col. Last winter Mr. Kooiker suffered a severe attack of pleurisy from which he never fully recovered and which makes it imperative that he seek a milder climate before winter. He expects to preach his farewell sermon on Sunday, Sept. 24.

Mr. Kooiker came to Bethel six years ago when the church was in a struggling condition, without suitable church building and without a parsonage. Since then a church building has been erected and a parsonage purchased, and the congregation so increased that it now numbers 73 families. Rev. Kooiker is president of the Men's Union of the Creston churches.

GETZ AT FAIR WITH BOTH FEET

LAKEWOOD FARM MEN HAVE BEEN LUGGING EXHIBITS SINCE THURSDAY.

Old Friend, George Getz is at the fair grounds with both feet and both trucks.

Since last week Thursday the most conspicuous vehicles between Holland and the fair grounds were those marked "Lakewood Farm". Since that time it has been a constant racing with the beautiful fruit, gorgeous plants and flowers, tropical palms, ring-tailed monkeys, cinnamon bears, etc., etc.

All of Lakewood farm, that is not nailed down has been transported for a week's outing at the Holland fair. And, what is more, a great many features the fair patrons have never dreamed of, have been added to this colossal exhibit.

Mr. Getz has again built another addition to the already spacious Getz hall in order to make room for the overflow that will be placed upon exhibition this year.

Don't miss the Lakewood Farm display this year as it never has been up to such a high standard as the display this week.

What will be placed on exhibit by the Holland Fair Santa Claus would fill a newspaper. Always bear in mind that the proceeds from all this planning, all this lugging, all this arranging by an army of men, go not to George Getz, but to the Holland Fair Association. The worry and work belong to Mr. Getz, but the money taken in at the door belongs to the Fair.

ELFERDINK, PIONEER TANNER HERE, IS DEAD

FACTORY DESTROYED BY FIRE OF '71; EMPLOYED WITH CAP-PON & BERTSCH

Saturday night at 7:45 occurred the death of John Elferdink, Sr., one of Holland's pioneers, at the age of 81. He is survived by his widow, four sons, four daughters, a brother and sister. The funeral will be held this afternoon at 2 o'clock at the home, 100 West Tenth street, Rev. Esveld of the M. E. church officiating.

John Elferdink was born April 2nd, 1835, in the province of Gelderland, the Netherlands, coming to the United States in 1854, landing at Albany, N. Y. A year later he came to this city and started in the tanning business in which he was engaged till 1911. When his tannery on West Tenth street was destroyed by the fire of '71 he entered the employ of the Cappon & Bertsch company. Fifty-seven years ago he married Eliza Smith of Allegan.

Eight children, George Elferdink, Mrs. H. Zwemer, Mrs. G. Anderson, and Mrs. J. Hume of this city; John Elferdink, jr., and Gerrit of Grand Rapids; Daniel of Detroit and Mrs. R. J. Harding of St. Thomas, Ont. Canada. Mrs. S. Sprietsma, a sister and William Elferdink, a brother, also survive.

FUNERAL OF PIONEER WAS HELD YESTERDAY

John Vrieling of Overisel Died At Age of 81 Years; Leaves Widow and Seven Children.

John Vrieling of Overisel died Thursday at the age of 81 years. He is survived by a widow and seven children, Mrs. A. Voorhorst of Overisel, Mrs. G. H. Boers of this city, Mrs. B. Visser and Mrs. J. Oele of Grand Rapids, and John Jr., George and Helen at home besides eight grandchildren and three sisters, Mrs. H. Van Dyke, Mrs. Wm. Koivis, and Mrs. Wm. Hoebeke all of Grand Rapids.

Mr. and Mrs. Vrieling were united in marriage by the late Rev. G. J. Nykerk in the Overisel church, 55 years ago on the 16th of last June, together with Mr. and Mrs. H. Kollen of this city, and for 45 years lived on adjoining farms in Overisel when the latter moved to Holland.

The funeral services of Mr. Vrieling were held yesterday in the Reformed church at Overisel from which he was a faithful member from its earliest days.

Rode 26 Miles on Engine Tender and Fell O; Unconscious of It All

Arraigned before a justice in Hotland for being intoxicated when the last thing he remembered was taking a sociable drink in Grand Rapids the night before was the experience of H. O. Johnson Monday morning. Johnson is a sign painter, and not long ago spent three weeks in the city plying his trade. That may explain his tendency to travel this way in his unconscious moments.

Sunday night Johnson took a few drinks, he admits, but he can't explain what followed. He wandered down to the Union depot in the Furniture City, boarded the tender of the Holland train and sailed up. When the train arrived here he tried to detain from his position and fell off. The conductor called and officer and Johnson was taken in tow.

After a night sobering up in the local lockup he tried to tell his story to the justice but couldn't remember how he got here. He had to be told what had happened. He was then given ten days to puzzle over the unforeseen consequences of looking upon the wine while it is red and looking so long.

RACERS FROM BLUE GRASS STATE WEDNESDAY

THOROUGHBREDS FROM KENTUCKY TO RACE FOR BELVIDERE CUP.

What promises to be possibly the most exciting trotting race ever held at the Fair grounds, will be the one pulled off Wednesday, Holland Day, for Williamson's Belvidere cup, which cost the donor an even hundred dollar bill.

What is more, there are two wealthy men from abroad who have placed two Kentucky thoroughbreds in this race. They are leaving nothing undone to beat one another in this contest, as far as training their horses is concerned. Both gentlemen are race horse men and both wish to win that cup from their friend Mr. Williamson.

It is expected that the Holland track record of 2:10 1/4 will be lowered Wednesday.

Mr. Williamson, who owns Belvidere farm on the Saugatuck interurban, like Mr. Getz and Mr. Goulds has taken a great interest in our local fair. He has also secured several fast racing horses which will be added to the large string already received for the race meet to be pulled off during the fair this week.

Now he presents the beautiful cup for which there is going to be some keen rivalry and will bring about some races that will long be remembered in Holland's racing circles after Wednesday.

The horses in this 2:15 class that have been entered in this race are the following: besides the Bluegrass thoroughbreds, it is expected that the following horses will also be in this race: Sterling Hall, owned by Frank Talbot, Chas. Taylor of Grand Rapids. This horse has mark 2:12 1/4. Full brother to the Harvester with a record of 2:01.

Mojove, 2:20 1/2, Charles Jackson, Chicago, Ill.

Elthel Custer, 2:23 1/4 owned by Ed Porter, Grand Rapids.

Miss Sandy 2:21 1/4, owned by Mrs. N. Washburn, Crownpoint, Ind.

Riverside Baron, 2:22 1/4, owned by B. W. Jones Muskegon, Mich.

Captain Harry 2:19 1/4, owned by Cornelius Crawford of Grand Rapids.

Michigan Director, 2:21 1/4, owned by H. J. Cady, Mason, Mich.

Eleera Ethridge, 2:23 1/4 owned by Dr. R. A. Morris, Hartford.

Twenty-three horses are entered at the fair eligible for this race. How many will actually be entered is hard to tell but that a large bunch will start for the cup when the bell rings, can reasonably be expected.

PUPILS JUNIOR HIGH EARN \$2295.71

THIS IS THE TOTAL RECEIPT FROM SUMMER JOBS OF ALL PUPILS.

One of the interesting things about the opening of school last week was the answer to a question asked by Miss Minnie K. Smith, principal of Junior High. Miss Smith gave an inspiring talk in which she referred to the many and varied activities in which the pupils had been engaged during the summer vacation. She asked each pupil to write on a slip of paper the work in which he or she had been engaged during the summer together with the amount of money earned. When these were collected and the amounts totaled, it was found that the pupils of the Junior High had received for work during the summer just \$2295.71. The individual amounts ranged all the way from \$1.22 to \$72. There were many \$5, \$10, \$15 and numerous other amounts both larger and smaller.

This is quite a surprising sum, especially when we remember that very few of the pupils of the Junior High are old enough to work in factories.

Some of the ways of earning money were housework, farming, caring for lawns, cleaning autos, selling papers, caring for children, caring for sick, telegraph messengers, caddy, factory work, office work, picking fruit, crocheting, working in green house, working in store, keeping chickens, selling vegetables, running errands, doing odd jobs, etc. Many others did work for which they received no money compensation.

After the results of this inquiry were known, several people were asked to guess how much the pupils of the Junior High had earned during the summer. No one guessed over \$300. How much would you have guessed?

POLICE BREAK UP SEPT. MORN PARTY

SMALL BOYS LED TO POLICE HEADQUARTERS ON INDECENT EXPOSURE.

The Waverly stone quarry affords one of the best swimming holes in the state and many local people take advantage of its natural facilities. Because this swimming hole is located in the center of a field and there are no houses near by many boys have neglected to wear a bathing suit preferring a September morn attire.

Last Saturday complaint was made by people who objected to the extreme nudeness of the boys and Motor Cop Peter Bontekoe was sent to the scene. He surprised the boys in their bath and spread gloom over the camp by ordering them to don their clothes and come along.

Several small boys crawled out of the water, nervously put on their clothes, and followed the officer to police headquarters.

Chief of Police Van Ry lectured them at great length, making several references to the indecent exposure law, but he finally let the boys go on their promises to always wear bathing suits in the future.

LOCAL SCOUTS TO SHOW SKILL AT MEET

GRAND RAPIDS TO BE JOINED BY THREE PATROLS.

Scoutmaster Van Putten to Have Charge of 24 Scouts Entering; Meeting Tonight

The Boy Scouts of Holland are out again to secure more honors in the West Michigan Boy Scout Conclave to be held at Grand Rapids on September 16, 17 and 18. Three patrols, twenty-four scouts, will make the trip to Grand Rapids on Saturday and Monday to enter the contests of brawn, skill and training. Scoutmaster J. J. Van Putten, Jr., will be in charge of the local scouts.

A meeting was held last night in the high school for all the scouts, at seven o'clock, as a very important assembly. The twenty-four to go to Grand Rapids were chosen, the squad to be in charge of the check room at the Holland Fair to be picked out and drilling to be started at once by the first mentioned in preparation for the Grand Rapids exhibition.

Saturday morning, September 16, at 11 the first trip will be made. The scouts will return at night and make the same journey on Monday. Their expenses will be paid out of the commission from tickets now on sale at Haan's, Lage's and Fisher's drug stores for the Grand Rapids Fair of that same week. A hundred tickets for the West Michigan Fair, with street car tickets attached for Grand Rapids, are in the care of the local scouts and are being sold through these stores. A commission given to the Holland boys thru the sale of these tickets is expected to pay for the trips to the conclave. People of Holland expecting to attend the Grand Rapids Fair may help the scouts by buying their tickets here and at the same time saving car fare in the city as the coupon is free.

The Grand Rapids interurban transportation will be free to them as a courtesy of the company. The Grand Rapids fair tickets are selling quite rapidly and they are in no fear of not being able to cover their expenses from the commission.

The contests at the Conclave are varied and have many valuable prizes attached. In the troop events first place will count ten points, second 5, and third 3 points. In individual events first place will be 5, second 3 and third 1. Every point made by an individual will also be scored for the troop. The prizes for troops of the highest number of points will be: first, Boy Scout Statuette; second, Parade Size troop flag not lettered; third, Troop Flag (not lettered).

The individual prizes for high points are: first, Scout Blanket; second, Pack-sack with Blanket Roll; third, Mess Kit; fourth, Set Semaphore flags; fifth, sixth and seventh the same; eighth, ninth and tenth, Boy Scout of American monograms.

The local patrols taking part in this conclave will enter most of the events and make a strong bid for the prizes. Some of Holland's scouts have become very proficient, due to their own interest and the pushing Scoutmaster behind them, and if several prizes aren't taken home it will be because other patrols have better scouts, the same being doubted here.

Lightning fired the barn of A. Bodfish in Allegan county. The building, hay and a new automobile were burned. The barn on the Bell farm also was struck and burned together with the stock of hay and grain and farm implements.

Are You Looking Old?

Old age comes quick enough without inviting it. Some look old at forty. That is because they neglect the liver and bowels. Keep your bowels regular and your liver healthy and you will not only feel younger but look younger. When troubled with constipation or biliousness take Chamberlain's Tablets. JUDGE CROSS FINDS AGAINST KNOOI- HUIZEN

**HOLLAND FURNITURE CO. SUED
FOR \$40,000; GETS VERDICT FOR
APPROXIMATELY \$9,720 IN-
CLUDING INTEREST**

**Judge Cross' Verdict Complete in This
Issue; Shepard and King Notes
Not Allowed By The
Judge.**

The first whirl of the Holland Furniture Company-Knooihuizen case has been completed and Judge Cross finds that the company is entitled to approximately \$9,720, including the interest on a great many of the items allowed.

Practically every item was allowed for which claim was made except the items called in the testimony C. L. King paper, amount to \$20,260.75; also the Shepard notes, so called, for \$10,019.05 were not allowed. The Shepard mentioned in connection with these notes, it will be remembered was designer and salesman for the factory several years ago. He also built the beautiful Dutch place on Michigan avenue.

The judge in his findings gives his reason for disallowing some of the items and allowing others as the case may be.

Some of the items under the head of expense accounts could not be substantiated by the attorneys of the Holland Furniture Co., because data could not be found and was not available as evidence in these particular items as the testimony shows.

The attorneys on this big case are George E. Kollen of the firm of Diekema, Kollen & Ten Cate for Dr. Knooihuizen and Charles McBride and Attorney Wilkes of Allegan, for the Holland Furniture Co.

The verdict of Judge Cross is very minute and he goes over the case step by step, giving his decision on each transaction separately. The full import of the judge's verdict follows:

STATE OF MICHIGAN

The Circuit Court for the County of Ottawa, in Chancery.
The Holland Furniture Company,
a corporation,

Plaintiff.

vs.

Albert Knooihuizen,
Defendant.

The bill of complaint was filed in this cause for an accounting. Issue was joined and proofs taken in open court.

The plaintiff is a corporation engaged in the manufacture of furniture at the City of Holland, Michigan. One Jacob G. Van Putten was manager of the company until his death on January 9th, 1909. Upon the death of Mr. Van Putten the defendant, Albert Knooihuizen, was selected as manager and continued in this position until October 1914.

Practically the entire business of the company was directed and conducted by the manager. The company was a large borrower and during the business administration of Mr. Van Putten became engaged in kiting notes with various persons and firms for the purpose of enlarging its credit.

Sometime after the death of Mr. Van Putten some of the directors had an audit made of his books, and later an audit was made of the books as kept by the defendant.

It was discovered that the books had not been properly kept, that they contained many fictitious entries to cover up losses by the failure of the persons and firms engaged in kiting notes with the plaintiff through its manager, and this suit was brought to require the defendant to explain the entries in the books and the business transactions of the plaintiff as conducted by the defendant, and to compel him to pay for any sums found due the plaintiff.

Fruit Growers State Bank Note

September 18th, 1908, a note for \$2500.00 signed by Jacob G. Van Putten and Albert Knooihuizen was given to the Fruit Growers State bank of Saugatuck, Michigan. March 17, 1909, this note with interest, was paid by the defendant, Albert Knooihuizen, out of the funds of the Holland Furniture Company, in the sum of \$2575.00. This note was not signed by the Holland Furniture Company nor any officer as such officer, but was given and signed by Jacob G. Van Putten and Albert Knooihuizen individually. The note not being a company obligation and having been paid by Albert Knooihuizen from the funds of the plaintiff, defendant should account to the plaintiff for said sum of \$2575 with interest at the rate of five per cent per annum from March 17th, 1909 to date.

Private Accounts of Jacob G. Van Putten.

After the death of Jacob G. Van Putten, Albert Knooihuizen, as manager of The Holland Furniture Company, without any authority, used the funds of the company to pay some of the personal accounts of Jacob G. Van Putten. Albert Knooihuizen is liable to the company for this appropriation of funds of the company. The items are as follows:

Jan. 16th, 1909, cash to Citizens Telephone Co.	\$ 3.75
Jan. 16th, 1909, cash to C. Ver Schure	40.80
Jan. 18th, 1909, cash to Gas Company	3.61
Jan. 18th, 1909, cash	50.00
Jan. 23rd, 1909, cash to R. M. Dupree	2.20
Jan. 23rd, 1909, cash	35.51
Jan. 29th, 1909, cash to insurance	7.00
Feb. 4th, 1909, cash to West-veer	12.92
Feb. 10th, 1909, cash to Gas Company	2.57

Making a total of.....\$ 158.36

Also at the time of the death of Jacob G. Van Putten, his personal account showed a debit balance of \$79.53, which he owed the company. To close this account and the account of personal debts of Jacob

G. Van Putten paid by Albert Knooihuizen after the death of Mr. Van Putten, as above itemized, Albert Knooihuizen had the account of Mr. Van Putten credited with a salary item for the month of February of \$209 and the expense account the sum of \$28.94. Albert Knooihuizen had no authority to charge off these accounts of Mr. Van Putten, and he is liable to the company for the amount thereof, together with interest at five per cent on the sum of \$237.94, from the date of the payments thereof to date.

Mr. Van Putten's account had been credited with his salary for the month of January 1909, and so far as the record shows, he has entered upon his duties as manager for that month and was entitled to his salary for the month.

Manufacturers Building Lease.

Albert Knooihuizen, as manager of the plaintiff, rented for the company certain floor space in the Manufacturers' Building at Grand Rapids, to exhibit furniture for the purpose of making sales of the products of plaintiff. It was the custom of the company twice each year to send samples of its products to Grand Rapids to be exhibited in the space so rented by the defendant. During this time the hotel facilities at Grand Rapids became inadequate to accommodate the buyers, so a plan was perfected whereby stock should be sold to the manufacturers of furniture and others, for the purpose of constructing a new hotel. Defendant was solicited to subscribe for some of the stock and finally, in the name of the plaintiff company, agreed to take \$2,000 of the stock. When this was brought to the attention of the Board of Directors of the plaintiff company they refused to rectify defendant's subscription for the hotel stock and after some discussion the defendant personally assumed liability for the stock.

Sometime prior to this transaction the Luce Redmond Company surrendered their lease to floor space adjoining the space occupied by the plaintiff in the Manufacturers' Building. The defendant procured a lease in the name of the plaintiff for this space, to be used by the plaintiff in connection with the space already leased and occupied by the plaintiff.

When the Board of Directors of the Plaintiff company refused to ratify the act of the defendant in subscribing for the stock for the new hotel, the defendant while manager of the plaintiff company, caused the lease which he had procured for the additional space in the Manufacturers' Building, to be surrendered, and procured a new lease in the Defendant's name individually for this same space. Defendant then sublet a portion of this space to the other parties and received in rents therefor the sum of \$1,400, which sum he kept and did not turn to the plaintiff. However, he continued to pay for the entire space out of the funds of the company. Defendant will be required to pay to the plaintiff said sum of \$1,400, thus unlawfully retained by him, together with interest at the rate of 5% from the date of the payment of the rent by the defendant to the defendant, as follows: April 23rd, 1913, \$275; July 15th, 1913, \$187.50; Oct. 3rd, 1913, \$187.50; March 20th, 1914, \$187.50; May 20th, 1914, \$187.50; Aug. 8th, 1914, \$187.50; Oct. 8th, 1914, \$187.50.

M. Tromp Account.

The testimony shows that the defendant sold to M. Tromp merchandise belonging to the plaintiff, in the sum of \$217.18, and received pay for the same but did not account upon the books of the company for the same. For this amount and interest at 5% from May 11th, 1914 on \$157.08, and interest from August 21st, 1914 on \$60. The defendant should account to the plaintiff.

The same condition is true in regard to the merchandise sold to E. H. Bradwell, in the sum of \$19.88, and for which with interest from Sept. 18th, 1911, the defendant should account to the plaintiff.

N. Charles Knooihuizen Account.

In 1914 the books of the company showed a valid charge of \$215 against N. Charles Knooihuizen, a brother of the defendant. Without requiring payment of this account the defendant charged off the books of the company. For this sum of \$215, defendant will be required to account to the plaintiff together with interest at 5% from Oct. 7th, 1914.

Albert Knooihuizen Personal Account.

The audit of the books show three items of cash paid by the company for the personal account of Albert Knooihuizen, and through inadvertence charged to the expense account of the company. The defendant will be required to account to the plaintiff for this sum of \$47.40 with interest at 5% on the sum of \$36 from Nov. 13th, 1911, on the sum of \$11.40 from Dec. 31st, 1912, to date.

Mrs. R. Knooihuizen Loan.

The company had borrowed money from Mrs. R. Knooihuizen, Sr., and payments were made from time to time in excess of interest charges due upon the loan. Interest for the full year was credited to Mrs. Knooihuizen and in this manner the company was required to pay interest in the sum of \$158.06 on this loan in excess of the rate called for by the note. The defendant will be required to pay this amount to the plaintiff with interest from October 7, 1914.

Labor Performed for Relatives of the Defendant by the Men Employed and Paid by the Company

The defendant had men who were working for the Holland Furniture company, perform certain labor upon the house belonging to his brother, N. C. Knooihuizen, and upon the house belonging to his mother, Mrs. Knooihuizen, and the men were paid for this labor from the funds of the Holland Furniture Company.

The defendant will be required to pay to the plaintiff for the funds so disbursed as follows:

Painting house of Mrs. R. Knooihuizen, \$65.50.
Painting the house of N. C. Knooihuizen, \$39.00; calimining, \$37.50; mantle \$25; machine work on trim of rooms down stairs, \$113; finishing din-

ing room \$51; labor finishing living room and hall \$55; finishing floors, \$17; painting garage, \$15.50, making a total of \$348 for labor upon N. C. Knooihuizen house. Defendant will also be required to pay interest on these sums from Jan. 1st, 1914 to date at 5%.

Albert Knooihuizen New House

During the year 1913, while defendant was manager of the plaintiff company, he constructed a new residence, and required the men employed by the plaintiff to perform work upon the same, and caused the men to be paid for such labor out of the funds of the company. Defendant kept no account of the labor thus performed and for the money thus appropriated he will be required to account for the following items: Outside painting on his house \$102; painting attic \$32; work on inside finish \$515; millwork on material used in house \$282; together with interest at 5%.

The defendant also had certain furniture manufactured at the plant of the plaintiff without paying for the same. For the furniture so taken the defendant will be required to account as follows: mahogany bed room suite, \$100; white enamel bed room suite \$75; library table \$18.80; book case \$60; serving table \$40; walnut mantle \$60; mahogany mantle \$51; buffet \$130; bed room suite for his sister \$25. Defendant will be required to account for these sums together with interest at 5% from Jan. 1st, 1914 to date.

Shepard Notes

So far as the testimony shows the A. L. Shepard notes originated in the kiting of notes between Mr. Shepard and the plaintiff company, during the management of Mr. Van Putten. They were legal obligations in the hands of innocent purchasers before the defendant became manager of the company. These notes were not entered on the books of the company and to pay these notes and keep the books of the company in balance, the defendant sold sample furniture, which had been sent to Grand Rapids for exhibition purposes, and did not enter the sales on the books of the company, but used the proceeds from these sales to pay some of the Shepard notes. Mr. Shepard became insolvent and unable to pay the notes.

The notes being legal obligations of the company at the time the defendant became manager, the payment of the same from the funds of the company, created no liability in favor of the plaintiff as against the defendant.

C. L. King & Co. Notes

During the time Jacob G. Van Putten was manager of the Holland Furniture Company, he exchanged notes with C. L. King & Co. At the time the defendant became manager these notes were outstanding valid obligations against the plaintiff, being in the hands of innocent purchasers. When the notes became due, C. L. King & Co., were unable to pay the same and they were renewed from time to time by the defendant as manager of the plaintiff company.

An audit of the books of the plaintiff was made for the time the company was under the management of Mr. Van Putten and a copy of the audit as delivered to the executors of the Van Putten Estate. In this audit a claim was made against the estate for the amount of money paid and which the plaintiff would be required to pay to cancel the C. L. King notes. After some negotiations a settlement was made by the executors of the estate and the plaintiff and a receipt in full settlement was given.

The claim plaintiff had because of these notes being issued was satisfied in the settlement with the executors of the estate of Mr. Van Putten.

When the notes in question were issued and placed in the hands of innocent purchasers, they became valid obligations against the plaintiff, and Jacob Van Putten was liable to the plaintiff for the amount thereof at the time the notes were so negotiated.

Albert Knooihuizen Expense Account.

There is no testimony to show that the items of personal expense charged by the defendant were excessive in amount. The fact that itemized accounts cannot now be shown is not a sufficient ground to require the defendant to refund money charged as paid for personal expenses while on business trips for the company.

A decree may be prepared for signature in accordance with these findings. Plaintiff will recover costs.

Dated Sept. 6th, 1916.

Circuit Judge.

PADNOS STORE MOVING INTO HARDIE BUILDING

**REMODELLING GOING ON -
ENTER THIS WEEK WITH NEW
STOCK.**

As soon as the carpenters and decorators have finished their work, the Harry Padnos store will be moved from the present location on River Avenue to the former Hardie store in the De Merell building. This move is the result of great growth in their trade. The present location has been found to be too small for the large stock required by the number of patrons.

The remodeling being done in the Hardie store is expected to be finished the first part of this week and by Saturday the Harry Padnos store, Otto J. Cohan proprietor, will be firmly established. New equipment and stock will be added and the clothing store will be among the most up-to-date in the city.

Isaac Marsilje in a Reminiscent Mood Lived in Holland Fifty-four Years

I. Marsilje celebrated Friday the anniversary of his coming to Holland.

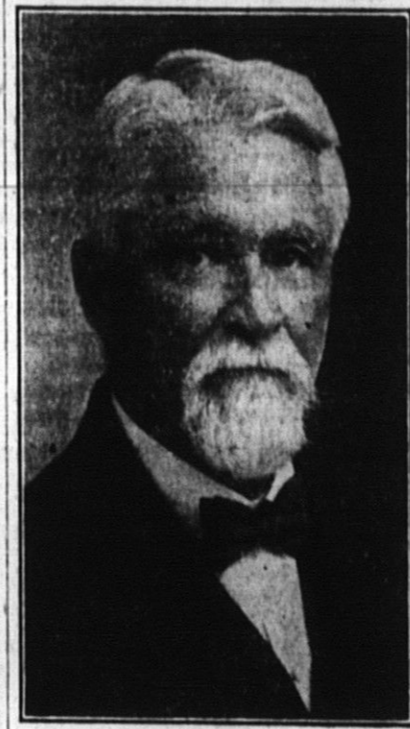

It was fifty-four years ago Friday that Mr. Marsilje, with his parents, rode into the colony with an ox team over the corduroy Roads from Kalamazoo. It took two days to make the trip with a stop-over at Allegan during the night,

for it must be remembered that Holland had no railroads, interurbans and steam boat lines 54 years ago.

Mr. Marsilje, in talking of the matter, became quite reminiscent stating that he came to this country in 1850 and he was three and one-half years old. He made the trip in a sailing vessel that reached here in twenty-one days from the Netherlands, which was a remarkable feat and a record never before attained by a sailing craft up to that time, but the weather was beautiful and the wind was fair all the way.

In those days sailing trips consumed from six to eight weeks, the ships running time practically being controlled by the wind and weather.

When the Marsiljes arrived in the New York Harbor they were ushered on a canal boat and slowly this conveyance brought them to Rochester, N. Y. It took twelve days to make the trip said Mr. Marsilje, almost as long as the ocean voyage, only a little more calm.

Isaac Marsilje

The trip today can be made by rail in a few hours.

The Marsiljes lived in Rochester four years when they moved to the celery city in Michigan, where after an eight years sojourn they came to Holland with the ox team above mentioned.

When Mr. Marsilje was 21 years old he was elected to the office of Justice of the Peace in Holland township, and held that office twenty-four years. He was also township clerk for sixteen years, and was elected to the state legislature in 1895-97.

He was the first cashier in the First State Bank and is today the secretary of that prosperous institution. For 39 years he has served as a member of a school board and today is the president of the Board of Education of the city of Holland.

NEW CEMENT ROAD IS OPENED

Saturday the new stretch of cement road on the main road between Holland and Zeeland was opened to the public. This cement road is three-quarters of a mile long and is twelve feet wide. The work was done by Contractor J. C. Schaap of this city.

This new stretch of good road is located near New Groningen. It has been under construction nearly all summer and autoists have been obliged to make a detour.

The road is similar to the cement road on the Alpena Beach highway.

P. M. BUILDING BRIDGE AT COST OF \$8,500 OPENED SATURDAY

TO REPLACE LARGE STRUCTURE OVER RABBIT RIVER AT HAMILTON

The Pere Marquette railroad has begun the construction of a new bridge over Rabbit River at Hamilton. The bridge will be forty feet high, figuring from the rails to the surface of the water, and approximately 400 feet long. The total cost of the new bridge is estimated at \$8,500.

The work will be done under the direction of A. McNabb, this city, supervisor of bridges and buildings for the Pere Marquette. Work was commenced a short time ago and already all the timber work has been laid and work of putting in the spiling will be started soon. The bridge will be constructed of creosoted pile brick.

It is expected that the bridge will be completed in about three or four months depending very much on whether or not work is held up by lack of materials. It is hoped that trains will be run over it before the end of this year.

The present bridge will be replaced by the new one without any delay to the road traffic.

The bridge at Hamilton has often aroused comment because of its height. It is one of the highest bridges in this part of the state. The spiles to be used in its construction will be 55 feet long.

Mr. Kenneth Ellis of Chicago has arranged for the appearance in Holland of Mr. Richard Klan and Mr. Vasilleos Kanellos at the Woman's Literary club.

Mr. Kean is a well known tragedian of the old school of Shakespeare, and Mr. Kanellos, who is from Athens, Greece, is the only Greek dancer touring the world.

It is owing to these two artists spending the summer at the "Recreat" on the shore at Douglas, that their appearance in Holland is made possible. It is here the committee of the club met Mr. Kean and asked him to give a recital, which he willingly consented to do.

It is hoped that the public will appreciate the coming of these artists and will turn out in great numbers to witness this rare performance which is at the same time of educational value especially to college and high school students.

Mr. Kean will present scenes from the following plays: Shakespeare; "Hamlet," "Richard III," "Cardinal Wolsey," "Richard III," "Shylock," "Merchant of Venice," "Marc Anthony," "Julius Caesar," and a number of characters from the works of Charles Dickens—all characters will be presented in costume.

Mr. Kanellos will appear in the following classic dances: "The Pyrrhic Dance," "Sacred dance of Orestes," "The Anthetaria Dance," and by special request will give a classic dance to the music of the famous "Blue Danube Waltz," of Richard Strauss, as danced by him at the Artists' club in Munich, Germany. Tickets for sale at Model Drug store and Vaupell & Ahlworth.

HIGHLAND PARK HAS A NEW TERROR

NOW HAS A WILD CAT AT LARGE INSTEAD OF A BIG BLACK BEAR.

Poor old Highland Park! It hasn't been so long ago that rumors of a big black bear of dimensions all the way up to elephantine degrees, had the residents in a siege of terror for weeks and weeks. Then it will be remembered that there were different and divers things in black, phantoms among the shadows of the trees out there. They had everything from kleptomaniacs to bathing suit scandals. Monster snakes have been seen in the jungles from the cottages. Wolf and great huge tracks of other wild animals have been seen in the sand. And now comes another addition to their menagerie.

Honest Injun, cross their hearts to die, they have seen a sure enough live wild cat, almost as big as a dog and bob-tailed at that. Two lady residents of the lake village were gazing out into the melancholic autumn of the woods a few mornings ago, when suddenly they saw the animal slinking away with a kiuled squirrel in its mouth. He was at least as large as a dog, they say, altho no special brand of canine was specified. So that's the latest big news stuff out at the park—this wildcat musiness.

But the main point of springing this in headlines is to tip off a few of the folks against taking the unblazed trails in and around those inviting nooks. Determined to catch this wildcat, a number of residents have placed big game traps in all the preferred territory.

Moral:—Don't be taken for a wildcat.—Grand Haven Tribune.

FAIR VISITOR WANTS ASSURANCE OF SAFETY

IS AFRAID TO COME TO HOLLAND BECAUSE OF THE SPEED COP; REASSURED.

The sending out of post cards by the Holland Fair association to residents of other cities and farmers of the vicinity inviting them to the Fair with their autos, the card admitting their car and driver to the grounds, was not expected to bring any answers other than the presence of the addressees this week. But one of the recipients of a card believes in preparedness, evidently, as today Secretary Arendshorst received the following from Grand Rapids: Holland Fair Ass'n Holland, Michigan,

Gentlemen:—We are just in receipt of the enclosed card and thank you for the invitation contained therein.

In the event of our accepting your invitation, will you guarantee that an over-zealous motorcycle officer will not make arrests if we should happen to come down and go at the rate of 16 miles an hour on the main street.

Considering a recent unpleasant experience that we made in your city, we were almost tempted to believe that your cordial invitation might really be a feeder for Sheriff Dykhuus' treasury in disguise."

He was answered that he will be welcomed with open hands and if anything happens to him while inside the city that the association will take charge of it as he will be their guest. He'll come.

NURSE TO INSPECT HOLLAND SCHOOLS

Miss Blanche Post, Ottawa county nurse, has begun her inspections of the county schools, with the opening of the school year. Miss Post's first visit was to the rural schools in Robinsia township, where she made her customary examination of the children enrolled. During the pleasant fall weather she will make a complete tour of the county. She wants to see every child in the schools. In the winter months she expects to be kept busy in the schools of Holland and Grand Haven.

During the first year of her term as county nurse Miss Post has done a great amount of very excellent work in the county. She has discovered a number of cases of various troubles among children, which when corrected in time saved them serious difficulty in after years. Through her activities the Grand Haven board of public welfare has made arrangement for dental attention to children whose parents are not financially able to pay for the service. Many children are also wearing glasses whose troubles would have gone undiscovered had not the nurse discovered it.

HIGH ATHLETES ON WAY TO HANOVER

HUNTLEY, RISTO AND PAULUS TO ATTEND ALMA MATER OF PRIN. DREW.

Last night three high school graduates of the class of '16 left the city to attend school at Hanover, Indiana. They are Justice Huntley, Leslie Risto well known in school activities here. Huntley is the husky member of last year's backfield on the eleven, making the remembered gains as fullback.

Risto was the doughty center, and Paulus, besides being last year's mayor of the school, played end and half. Basketball opened a field where all three of them shone, too. Hanover is getting an athletic trio.

The school they are to attend is the alma mater of Principal C. E. Drew of the high school. If all the graduates of Hanover succeeded in sending three such recruits they would be dutiful sons of their school. Friends here are confident that they will be known before long as noted products of Holland High.

Mrs. Risto, mother of one of the boys Sunday evening entertained the three and Principal Drew at a chicken supper at her home, 82 West Sixteenth Street.

HISTORICAL ARTICLES AT STATE CAPITOL

ONE MAP DRAWN AT TIME OF THE REVOLUTIONARY WAR.

Among the innumerable articles of historical interest and value in the museum of the State Pioneer society in the capitol building is a war map drawn on thick paper with black, red and green ink, shows the strategical moves made in the battle of Gloucester, Mass., between the Americans and the French against the British.

The map was evidently drawn during the progress of the battle for it shows the path taken by American and the French soldiers in an assault against a red cot redoubt, which was captured after a fierce struggle, according to data on the map.

The drawing which is faded so as to make it indistinct, shows the Americans and French drawn up in a semi-circle before the British troops, who were huddled up in a bend of a river. The lettering on the map is very curious being the old style stilted letters originally used. Another exhibit in one of the cases is a queer shaped jug used in olden days by traders to carry whiskey to the Indians. Firewater is painted in red letters on the outside of the jug, although this label looks like a latter day addition. A collection of lanterns and lamps is another interesting unit of the museum. The lanterns date back to the old Paul Revere lantern and up through the lighting apparatus of the succeeding century and a half including the old bear's grease lamps, and the gorgeous affairs of gilt and glass, popular the latter half of the last century.

Among the collection of books is a history over 100 years old, showing a map of the Great Lakes. Lake Michigan is considered narrower than on present maps, while Lake Superior, arches far up into Canada, much farther than in reality. The collection of old pewter in the museum is considered to be very good in view of the fact that old pewter is rare, most of the "real thing," being melted up by the pioneers, for bullets in time of need. The Pioneer society has a large case filled with this rare and interesting ware.

PAMPHLETS GIVE HINTS TO HOUSEKEEPERS

CAN BE SECURED FREE FROM CHIEF OF POLICE VAN RY AT CITY HALL

Here Are a Few of the "Don't's" Given and a Few Suggestions On How To Save Money.

Chief of Police Van Ry has sent the State Dairy and Food Department a request for a good supply of copies of a pamphlet entitled, "Hints to Housekeepers" by Burr B. Lincoln, deputy commissioner in charge of weights and measures and these pamphlets will be given free to anyone calling for them at police headquarters in the city hall. The book contains valuable information for the housekeeper, which will save her considerable money.

Every housekeeper is advised to be very sure of getting correct weight when ordering from a store and illustrations are given showing just what the housekeeper loses. For instance: should you be short weighed an ounce on a pound of butter at 40 cents a pound, you are short changed 25c.

Here are a few don'ts to remember. Don't let the dealer weigh his hand. Don't let the dealer weigh paper with the meat. Don't let him weigh a heavy wooden dish with butter or lard. Don't let him grab an article off the scales before the indicator has come to a halt. Don't let the dealer send you an itemized account without stating the weights. Don't let the butcher keep the trimmings of the meat. Don't let your milk dealer deliver you bottles of milk that are not filled.

Housekeepers are also advised to keep a scale in the house and weigh all purchases themselves.

Housekeepers should insist on buying fruits and berries by the quart and not by the box or basket. Also keep measures of your own to see that you are getting your money's worth.

Here are the differences in dry measures: Heaped bushel means a box, basket or crate, containing 2688 cubic inches. Stricken bushel means a basket containing 2150.42 cubic inches.

Difference, 537½ inches that the stricken bushel contains less than the heaped.

Apples, potatoes and other vegetables are sold by heaped measure.

Peaches, plums and other fruits are sold by stricken bushel.

Don't let a dealer sell you potatoes or other vegetables in a stricken bushel. He is short-changing you about 1-5 bu., which at \$1 a bushel, means 20 cents. Don't let the dealer sell you 12 pounds for a peck of potatoes. A peck weighs 15 pounds.

Don't let him sell you potatoes by the basket. Insist on buying by the bushel.

There are many other valuable hints in this pamphlet, which it would pay the housekeeper to bear in mind.

LOCAL GIRL IS MARRIED

Mr. Wm. Hodgkins and Miss Maude Ver Howe were married at the bride's parents, Mr. Jacob Ver Howe on Michigan Avenue. The ceremony was performed by the Rev. S. Vander Werf, field Secretary of the Board of Domestic Missions and former pastor of the First Reformed church of this city. Only the nearest relatives were present. A sumptuous wedding dinner was served.

Mr. and Mrs. Hodgkins have left for Detroit where they intend to make their home. Mr. Hodgkins has secured a position with the Ford company in that city.

DORNBOS WINNER BY PLURALITY OF 89

REPORT OF BOARD OF CANVASSERS OFFICIALLY DECLARES HOLLAND MAN WINNER

Although no doubt has been felt as to who was winner in the race for the Republican nomination for Sheriff in this county after all election returns were in, the report of the board of canvassers giving the exact count is of interest. Cornelius Dornbos of this city is now officially proclaimed winner over Delbert Fortney of Grand Haven, his nearest competitor, by a plurality of 89 votes. Although this is not a large figure it is large enough to discourage any hope for a recount and considering the number of candidates in the race it is a good safe lead. The official count for the entire county in this race is as follows: Dornbos, 2087; Fortney, 1998; Salisbury, 1498; Byjema, 420; Zuidewind, 340.

Mr. Dornbos is very grateful to the people of Ottawa county for their support and he wishes to thank all the voters who remembered him at the polls. He is especially pleased with the handsome plurality given him in Holland and support of people of his own city. "I will do all I can to give the people of the county an efficient, clean administration of the sheriff's departmental affairs and I hope to maintain the record as an officer I have won in my past work as deputy sheriff and game warden, if elected in November," said Mr. Dornbos.

AUTO TOURISTS WRITE FROM COLORADO

FOREST GROVE MAN GOES 1442 MILES ON THAT AMOUNT OF GASOLINE

ceived from Mr. and Mrs. Vernon Hooper, of Forest Grove, who left for Colorado in August by automobile, and will especially interest autoists and possibly our other readers.

We left Grand Rapids on the 7th of August, making the entire trip to Longmont, Colorado, a distance of 1442 miles, in an Overland touring car. We used 129 gallons of gasoline en route, at a total cost of \$26.90; the highest price paid for gasoline being 26c per gallon. We had just one puncture and no engine trouble at all. How is that for the Overland? We had no trouble in finding the best and shortest route as we followed the Lincoln Highway, which is all marked by the red, white and blue signs; and the Auto Club Association furnished all the necessary information.

We found the roads in good condition, those in Indiana and Illinois being nearly all concrete, while those in Iowa were good but quite killy, and those in Nebraska were nearly all level, but quite rough in the western part, but the roads are being continually improved, as in time the people intend to have all improved roads; it is estimated that already 800 miles of the 3,900 are improved.

We met with many tourists enroute, traveling toward the mountains, "seeing America first," camping and picnicing on the way, and all reported a good time.

We overtook one party, Mr. and Mrs. Robert Hunter, who are walking from Atlantic City, New Jersey, to San Francisco, a distance of 3,317 miles. They draw a miniature prairie-schooner drawn by man power, in which they carry their sleeping, and cooking outfit; they average twenty miles a day, with "Foxy," a little Fox terrier, their only companion on their long journey. The young couple are promised a home if they will walk to get it. Both of them seemed to be in the best of health and their advice is, "Walk for your health." They also follow the Lincoln Highway, which is good to follow.

We had two rainy spells while on our way, but the roads dry in a few hours, and are soon smooth again with so much travel. We enjoyed the trip, however, and advise others to spend their vacations in the same way if possible.

Lucas De Weerd Again in the Limelight Tired of Walking He Will Ride

Lucas De Weerd, well known as "McKinley," noted for his famous walking feats is tired of walking and, according to his own version, he is going to join the high monkey monks who ride. Yesterday he purchased a motorcycle which he claims will run. However he was not running it when first discovered.

Yesterday Chief of Police Van Ry say Lucas pushing a motorcycle down the street. "What now," said the Chief, "Where did you get that?" "I bought it," Lucas answered very proudly, "and even though I am 83 years old I am going to learn to ride it and in a few days you will see me riding through the city just like the rest of the 'swells'."

Lucas further confided that he was tired of walking, that he felt just as young as he did at the age of twenty and that he was going to get some enjoyment out of life.

Lucas has won considerable notoriety in this city in many ways and he seems to like it. Once he started to walk to San Francisco and he got his picture in many state papers. He got as far as the Piano factory when he ended the trip. Just a short time ago he announced that he was going to walk from Holland to Chicago. This trip carried him about the same distance the San Francisco trip did but anyway he got his picture in the papers again. Now his walking stunt has exploded and he has hit upon a new idea. He is going to ride, that is, if the engine in his new motorcycle will run and the pesky thing is not too balky.

It will be one of the happiest moments of Lucas' life if he can ride down Main street, while Alderman Prins and the rest of the city pro committee are spectators from the sidewalk.

POLES WITH BRILLIANT LIGHTS FORM HUGE CROSS OVER MAIN GROUNDS

Cattle Exhibit Most Expensive Ever Shown in Western Michigan; Park our Car.

If the success of the coming Holland fair depends on its exhibits alone, counting out the many extra attractions that have never been seen at the fair here, it is a certainty that the promoters of this year's event have won it already.

The cattle exhibits are among the highest both in attraction and the price it took to be able to show them. The Monterey Breeding Club is to have 15 head of Belgian horses that make the lover of horseflesh look twice. Of this expensive fifteen, most of whom tip the scale over at two tons, the prettiest team weighs 3910 pounds. Their white manes and tails make them the handsomest horses ever seen in this part of the state.

This same club will have a herd of Angus cows that are of the purest breeding and are specimens of the kind beauty seldom equalled. These two exhibits, the horses and the cows, are so expensive that the Holland fair is putting one over on the Western Michigan fair at Grand Rapids in getting them. The Western Michigan wanted to book them but the cost was too high. This fact can be appreciated only when the animals are seen.

Pedigreed swine will form an all class exhibit this year. In fact, the fair officials are trying their best to make this year's fair the best ever offered to the people of two counties who will patronize it, and they are most certainly succeeding.

The public auction is to be a new thing. Every morning of the three big days, from 10 to 12, Mr. H. Lugers, auctioneer, of this city, will have charge of the sale that will have for its offerings anything the public may want to put up. Some mean creature intimated that this was a chance for Ford owners.

The concessions have taken up every available space of ground. The midway is simply crowded and all side streets have their full number of booths and different attractions. Even outside of the grounds, near the entrance, the enterprising concessionists have taken space for attractions.

The Boy Scouts will have charge of a check room near the entrance. This new place will be a great convenience to the patrons of the fair. Also near the gate will be found a large tent rest room. Autos will be watched by the Boy Scouts and owners traveling about the grounds may feel that their cars are safe.

An important exhibit has been booked in the Southern Railway company of Washington, D. C. They will show southern grasses, grain, fruits and vegetables that will prove very interesting and educational. As Education is spelled with a big "E" in the mid is of all progressive fair promoters as it is the main characteristic of a fair, many such bookings have been made.

Merchants have been spending their evenings and a great part of the nights at their prospective booths in the Art Hall and are almost ready to show the passersby what they have in their places of business and to offer attractive souvenirs.

For the Night Fair strings of telephone poles with a sharp arc light on each have been put up in the shape of a cross, taking in the whole ground proper and meeting in the center of the midway. The Art Hall has been entirely rewired and lights are plentiful. The Night Fair will be a matter of bright lights.

The races will be better this year than ever before. Purses amounting to \$27,000 are to be given, with fast horseflesh competing. The booking of these famous racers has been the result of hard work on the part of Speed Secretary John Schouten. A fine new barn has just been completed on the east end of the grounds for the racers. The track is in the pink of condition so far, and weather being at all favorable, Holland will see the fastest races ever staged here.

Across the track from the grand stand a platform 24x30 feet has been built, 6 feet above the ground, to be used by the twisting Japanese acrobats and the Blackstone Colored Quartette. Space near the fence around the track on either side of the judge's stand will be sold for the benefit of autoists. Reserved places may be secured for the cars and from these places autoists may watch the fun seated, among the soft leather cushions.

Arie Prins, Superintendent of Cattle, has made these bookings thru a great deal of effort and expense. A herd of Fremont and registered Hereford cattle will be among those seen that have never been exhibited in this part of the state before.

SENIORS OF HIGH HAVE ORGANIZED

VANDERWOUDE PRESIDENT; MISS DU SAAR, JOKE ED. OF BOOMERANG.

The Senior class of high school is already organized. John Vander Woude, defeated last year for the office of mayor of the school, was elected as president of the class of '17. James Klompars was made vice-president and Miss Katherine Vander Veen secretary and treasurer. The class patron has not yet been decided.

The Junior class Thursday ordered their class pins and rings from Auld & Company thru the Severson Jewelry store of this city. They are expected in about two weeks.

Miss Beulah Du Saar was appointed as Joke Editor of the Boomerang at the council meeting held Thursday evening. A tennis manager will be appointed in the near future to take charge of the new court and the playing of matches.

TEAM FEELS LOSS OF BABE WOLDRING

ZEELAND TO HOLD BOOSTERS DAY SATURDAY FOR BENEFIT OF INDEPENDENTS

Zeeland's chances for making a good showing in the baseball tournament at the West Michigan Fair to be held at Grand Rapids have been diminished by the loss of Babe Woltring, who will be out of the game.

This week Saturday will be Boosters' day at Zeeland for the Zeeland Independents. The proceeds of the game will be used to finance the team while playing in the Fair tournament. The fifty dollar forfeit has been placed and the team is preparing for the event. A preliminary game will be played Saturday night between the Zeeland and some fast Junior team. It is expected that a very large attendance will be at the game next Saturday.

MAGAZINE HAS ARTICLE BY LOCAL WRITER

"THE INDEPENDENT" OF NEW YORK CITY TELLS THE STORY OF MICHIGAN'S HEALTH CAMPAIGN.

"The Independent" magazine of New York city this week prints an article bearing the title, "Michigan A State of Health," written by Arnold Mulder of this city. This article was written in the course of Mr. Mulder's work as publicity agent of the State Board of Health and it briefly describes this state's tuberculosis survey.

There is a great deal of interest in Michigan's survey outside of the state and Mr. Mulder has succeeded in interesting several magazines and at least two chautauqua circuits in this state's health campaign. "The Independent", in which the article is reprinted below appears this week, is one of the important American weeklies, its amalgamation with Harper's Weekly recently giving it a circulation of considerably over a hundred thousand. The article on the Michigan health situation follows:

"To give every person in the state who is physically run down an opportunity to come to a free clinic for an examination—that is the plan of the Michigan State Board of Health in a somewhat unique tuberculosis survey. A year ago the legislature appropriated \$100,000 for this purpose and during the past eight months a small company of health workers, consisting of several physicians, twelve nurses, a speaker, a housing survey expert and a newspaper man, has been at work in eighteen of the eighty-three counties of the state, arousing the people to the necessity of undergoing examination, holding examinations in centrally located places, visiting the homes of all persons diagnosed as tuberculosis, giving lectures in schools, churches, before city councils, boards of supervisors, chambers of commerce, conducting surveys of housing conditions in the cities, contributing material about the campaign and the disease to the newspapers.

"During these first eight months of the two-year survey nearly 8,000 persons have presented themselves for examination, a little more than 40 per cent of whom were found affected with tuberculosis. Figuring five to a family, the nurses have reached some 16,000 persons who are affected with tuberculosis or have been directly exposed to it with information on how to take care of themselves. Some six hundred addresses on public health have been printed in the newspapers of the state about the survey and the disease. Careful record has been made, photographically and statistically, of the housing conditions in many of the principal cities in the state.

"The survey is conducted county by county and on May 31, 1917, when the present survey closes every county will have been visited. But the State Board of Health aims to make this survey but a preliminary to a still more extensive campaign. It aims to arouse the people of the state during these first two years to the necessity of making a fight against tuberculosis on a scale as large as the problem involved. The plan is to establish in each county a full-time health department, the business of which will be to prevent the disease, to establish well organized health departments in each city, to organize open air schools in all cities, to create in each county a system of free weekly clinics by local physicians, an adequate corps of visiting nurses in each county and city, to have at least one tuberculosis sanatorium built for every 100,000 of the population, to encourage the manufacturers of the state to make their industries safe and to take such other steps for the elimination and prevention of the disease as may suggest themselves.

"An ambitious program; but the result of the work of the past eight months makes Michigan believe that it can be carried out during the next decade. Michigan today has the second lowest tuberculosis death rate in the registered area of the United States. She is ambitious to have the lowest death rate from this disease not only; she is laudably anxious to lead the nation in all public healthwork."

POLICE CHIEF STARTS HOBO CLEANUP

MANY ARE AGAIN CAMPED IN WAVERLY JUNGLES AND ALONG BLACK RIVER

Farmers Complain That Hoboes Forage Food from the Nearby Fields; Are a General Nuisance

Although the hobo camp in the Waverly jungles is outside the Holland city limits and is a matter for the sheriff's department to look after, Chief of Police Van Ry has accepted the responsibility of giving the place a thorough cleaning. Yesterday afternoon he went through the jungles just east of the Pere Marquette railroad tracks along the Black river and ordered all the hoboes there to "beat it" for other parts of the country. Warning was given that any found around there later will be arrested and given jail sentences.

The police chief not only went thru the jungles but scoured the banks for a considerable distance routing out the "Weary Willies" engaged in the peaceful occupation of loafing.

For the past few weeks Waverly and naturally Holland has been flooded with hoboes. They have caused some trouble in the city by becoming drunk and disorderly but the farmers around Waverly have suffered the most.

The hoboes have got their meals by foraging in the fields around Waverly. Several farmers have complained to the police that the hoboes are stealing considerable sweet corn, potatoes and considerable garden truck daily. One man reported that five of these men raided his farm Tuesday and again Wednesday morning.

Every year the police have been troubled with the hobo question at Waverly and generally some serious trouble is needed to bring any aid to the farmer from the county officers. This year Chief of Police Van Ry will undertake the job. Altho at Waverly he is out of his jurisdiction on a common citizen is allowed to arrest disorderly performed church denomination who have become deranged in mind. Sons and so he is prepared to carry out his threat of arrests.

COMPLETE CEMENT WALK TO CEMETERY

EXPECT TO GO FURTHER NEXT SUMMER, MAKING CEMENT ENTRANCE.

The Park and Cemetery Board has just completed the continuation of the cement sidewalk past the Fairgrounds on East 16th street to the old entrance of Pilgrim's Home cemetery, a stretch of about 400 feet. This addition involved the cutting out of part of the hedge fence between the west line of the cemetery and the entrance.

A further addition to the walk will be put in by the Board as soon as the financial condition permits it. It is expected that this will be done next summer, lengthening it out to the entrance to the cemetery, between the old one and the railroad track. With the walk reaching this point a cement entrance with pillars will be made.

Spanish Shell Bent His Rifle Barrel in a Letter "S"

When the Spanish war broke out 15 years ago, Don Stark, killed in an auto accident at Sandusky, was a barber in Ann Arbor. He enlisted in the Thirty-third Michigan and in the fighting before Santiago on July 1, 1898, had one arm shot off by a fragment of a burst Spanish shell almost at the beginning of the fighting, being the first Michigan man wounded.

The terrific destructive power of the shell can be inferred from the fact that fragments of it bent the steel barrel of his rifle into a nearly perfect letter "S". Within 15 minutes after he was hit and while a surgeon was working on his shattered arm, Stark, then a lad of about 20, remarked within the hearing of the writer:

"This is tough luck. Here I'd been counting for a whole day's sport winging Spaniards and now one of my own wings is gone. But say, fellows, we'll lick them just the same."

With an arm gone Stark could no longer pursue his trade of barber, so he went to work in a billiard room at Ann Arbor and in time became an expert player. He was known and well liked by hundreds of students with whom he played billiards. Since the loss of his arm he had been drawing a pension of \$36 a month.

POTATO CROP WILL BE FAIRLY GOOD

MUCH DEPENDS ON WEATHER CONDITIONS, SAYS COUNTY FARM EXPERT.

If the potato crop of this region is not damaged by frost or late blight, it will show up fairly good, altho it will fall considerable short of the mark of last year.

This is the report brought back by County Agriculturist Smith, who accompanied Wednesday a party of 22 shippers, dealers, growers and representatives of the government and agricultural colleges on a study tour through the eastern Kent county and into the district around Greenville and Belding.

"The crop is going to be late this season," said Smith. "Late planting and drought is responsible for this. For this reason frost may enter into the equation as an important factor. We saw no evidence of the blight and it was agreed that the crop is in fairly good condition, with much depending on weather conditions during the next four weeks."

The Rev. and Mrs. P. Moerdyke and Mrs. Bray have moved to 358 Maple Avenue.

TRAIN IN THE DITCH AT MONA LAKE

PERE MARQUETTE PASSENGER TRAIN LEAVES RAILS; NO ONE INJURED.

The Pere Marquette passenger train due here from the north at about noon Saturday, went into the ditch, this side of Mona Lake station. Only meagre details of the wreck were received in this city but it was learned that no one was injured seriously in the mix-up.

Various stories of the accident came to Grand Haven later in the day thru passengers who were on the train, and who came to this city via other routes. The entire train crew and about 150 passengers miraculously escaped injury and death.

According to the stories received here after the wreck, the train was running slowly near the Mona Lake station when the engine, baggage car and the smoker went off the rails and slid into the ditch. The cars were badly smashed up, but the 150 passengers on the train succeeded in getting out of the cars with but very little panic or excitement.

The track was blocked by the accident and the train was cancelled for that day. The northbound train passing through here at shortly after one was sent out as usual.

HELME ISSUES BULLETIN ON PEACH CROP.

STATE DAIRY AND FOOD COMMISSIONER TELLS HOW TO CUT HIGH COST OF LIVING.

James W. Helme, State Dairy and Food Commissioner, issued the following to Michigan people:

This is a bulletin on Michigan peaches—the horticultural kind. Michigan grows the finest peaches in the union, the quality is extra good this year. The bulk will be marketed between Sept. 10th and 13th. Don't buy southern peaches that have little flavor on account of being picked green for long shipment. Foodstuffs are high this year. Our antiquated methods of distribution make the cost still higher. From producer to consumer has been an ideal dream never yet successfully accomplished. And yet it can be. Two things are necessary.

First, Organization of the growers and standardization of the pack so the consumer may know just what he is buying without seeing the product.

Second, Organization of consumers so they can buy direct from the grower in car lots of 400 bushels thus saving transportation charges and their own distribution.

The first has now been successfully accomplished and fine peaches can be bought of the grower in ice cars true to grade at very reasonable prices. Now it's up to the consumer to get busy and organize his end instead of growling at the high cost of living.

CONSIDER EXTENSION OF LAKE SHORE ROAD

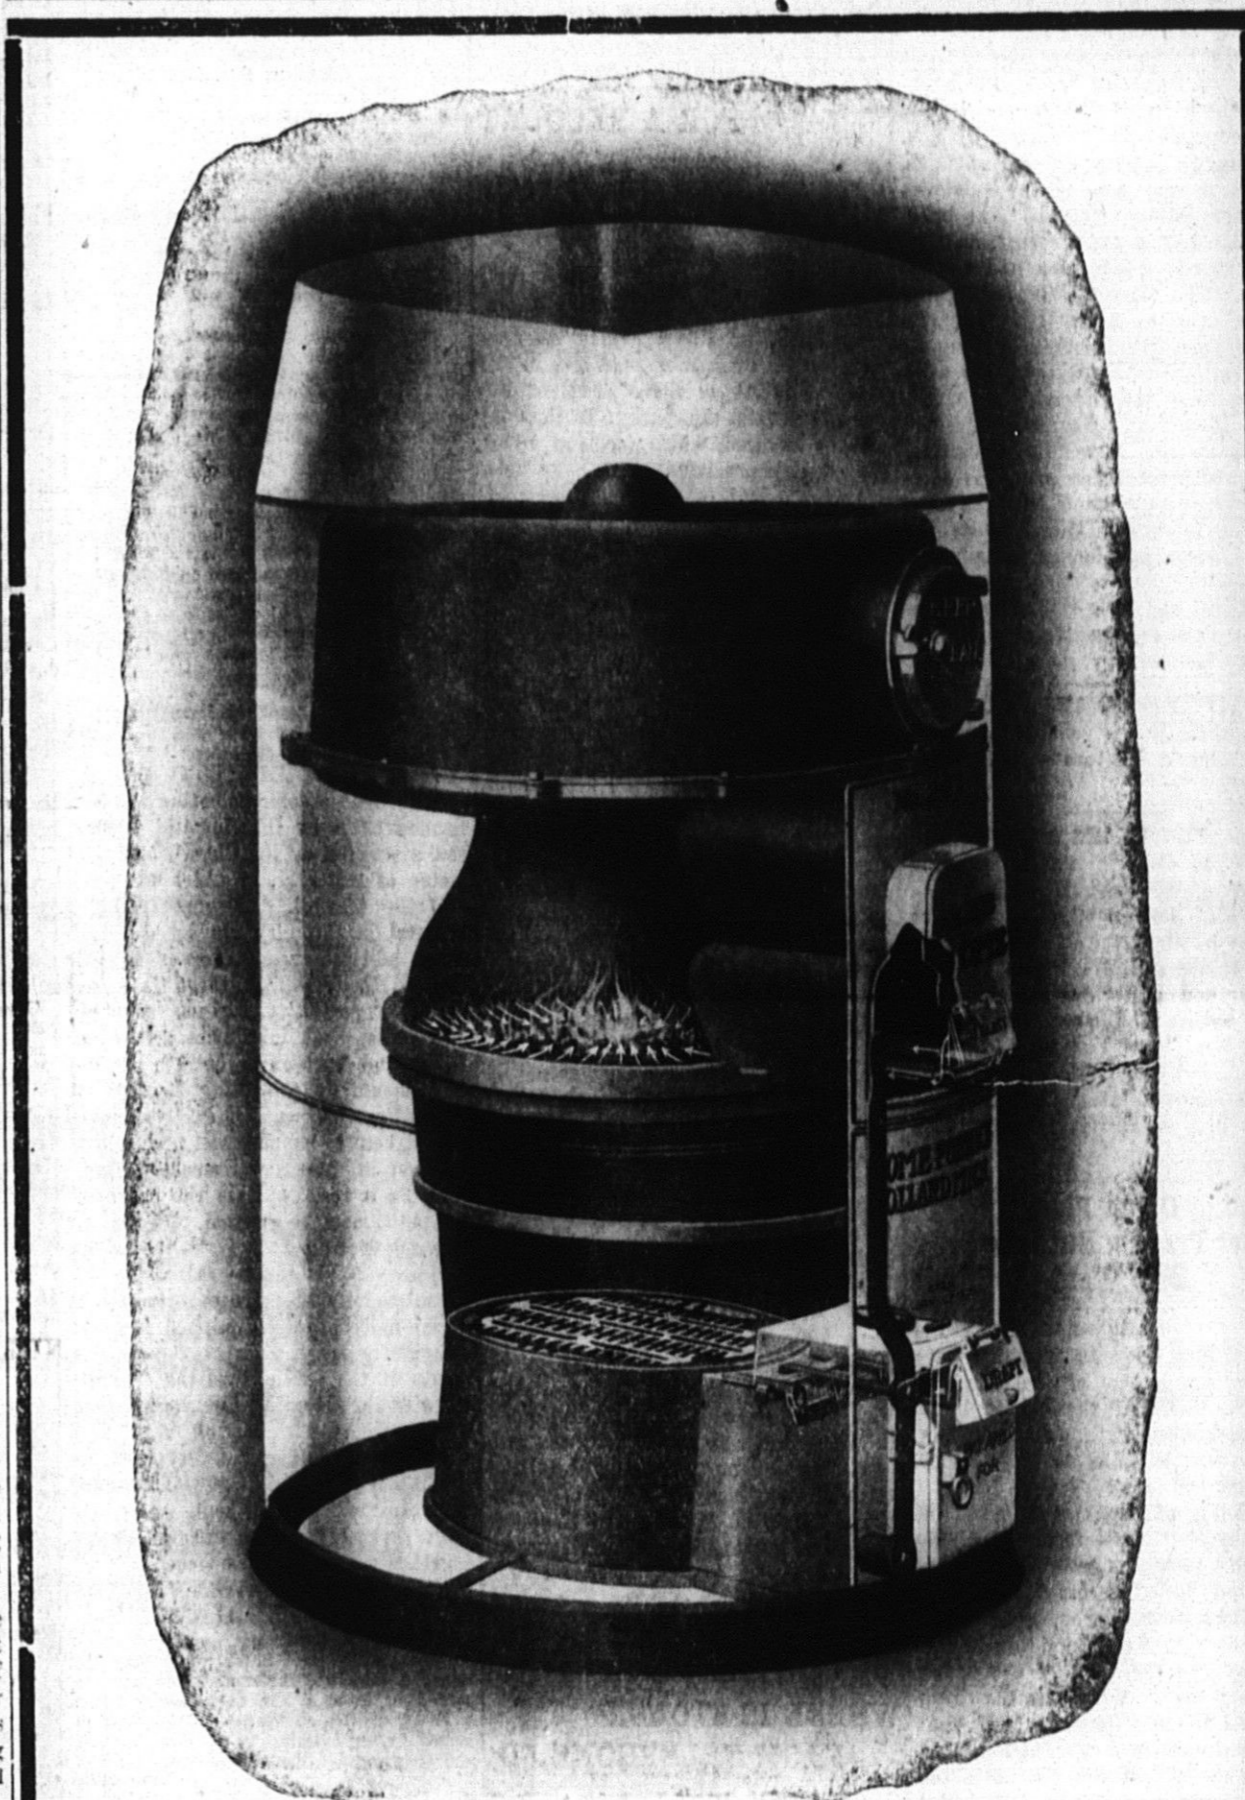

Grand Haven, Sept. 12.—About forty persons attended the meeting held Friday afternoon in the library auditorium when Frank Rogers state highway commissioner, spoke on the object of extending the lake shore road out of this city to meet the Alpena highway leading to the Getz farm. Mr. Rogers showed that the road could be built for \$1,200 a mile and the state would pay \$200 reward money for each mile. The distance from this city to the Alpena road is eighteen miles. He said the way to raise the money was by assessment and subscription. The residents on the lake shore have formed an association which has done much toward the improvement of the road.—Grand Rapids Press.

Monday night lightning struck the Pritchard farm house in Allegan county and here are a few of the things it did to the place: All the window lights were knocked out of the front windows, set the parlor curtains on fire, tore off the siding on lower part of front of house, siding off upstairs, knocked off plaster by the bushel from the dining room, the telephone was smashed to pieces and hurled across the room, a large mirror was broken, glass broke in book case, tore off the siding in several places on the back of the house, the young man's wheel on the front porch had the seat torn off, both rims split and tires burned off. The bolt then went through the porch floor into the cellar, and although Mr. W. J. Dunklee and his family of seven were all in the house, four upstairs and three down, not one but the little daughter Laura, aged 11 years, was injured. She was simply buried in glass and her right leg received several cuts.

The loss is estimated at several hundred dollars.

LOCAL CONTRACTORS
TO BUILD \$5000 BARN

BOOMERS & SMEENGE DOING CONSIDERABLE WORK AT BELVIDERE FARM; HOME FINISHED

Local contractors Boomers & Smeenge are making extensive improvements on the beautiful Belvidere farm, on the Saugatuck Interurban line, owned by Mr. Williamson of Chicago. These contractors have just completed a fine new residence for the caretaker and last Wednesday night they were awarded the contract for building a \$5,000 barn. The barn will be built on strictly modern principles and will contain all the latest improvements. The cattle and horses will have cement stables, with individual automatic drinking fountains and the latest kind of feed bins. The barn will be built with a gambrel roof. When completed the total cost will be about \$6,000. The Holland men guaranteed to complete the job in 60 days.

A short time ago Mr. Williamson purchased a large piece of property on the opposite side of the car tracks from his splendid home and grounds. On this property the caretaker's home is located and the new barn will also be built there. All the cattle and horses will be kept on that side of the track in the future. The present barn, located on the same side of the track as the Williamson residence, will be removed as soon as the new barn is completed. James Price, formerly of this city is the architect for the new barn.

The Misses Josie and Jennie Hanson acted as flower girls, the one being dressed in pale blue and carrying cream carnations, while the other wore a cream dress and carried pink carnations. Miss Bessie George played the wedding march. A wedding breakfast was served immediately after the ceremony. The happy couple took the noon train for Litchfield, Mich., where the groom holds a position as principal in the school.

Ex-Mayor and Mrs. E. J. Harrington celebrated the 44th anniversary of their marriage last Sunday.

Monday night lightning struck the Pritchard farm house in Allegan county and here are a few of the things it did to the place: All the window lights were knocked out of the front windows, set the parlor curtains on fire, tore off the siding on lower part of front of house, siding off upstairs, knocked off plaster by the bushel from the dining room, the telephone was smashed to pieces and hurled across the room, a large mirror was broken, glass broke in book case, tore off the siding in several places on the back of the house, the young man's wheel on the front porch had the seat torn off, both rims split and tires burned off. The bolt then went through the porch floor into the cellar, and although Mr. W. J. Dunklee and his family of seven were all in the house, four upstairs and three down, not one but the little daughter Laura, aged 11 years, was injured. She was simply buried in glass and her right leg received several cuts.

The loss is estimated at several hundred dollars.

GAS TO RESORTS IS
DELAYED BY STRIKE

THREATENED RAILROAD TIE-UP SENDS RESORTERS HOME; NO SIGNATURES.

When the agitation caused by the threatened railroad strike cleaned out the resorts in such a rush, it did something to the movement just started to get gas piped out to the resorts by next spring. A committee was appointed at the meeting of the resorts to canvass the different parks and get signatures to the contract.

All went well for a couple of days till the stampede started. Then even the committee packed up and rushed to the several cities where they are found in the winter. Now the company is forced to do considerable correspondence. But it is being done this way and the signed contracts are coming in.

It is rather doubtful if enough can be secured in this way to begin the work of laying the main as soon as was planned, but every effort will be used to do so.

Just the Thing for Diarrhoea

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Buford, N. D. "It became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.

Official
COMMON COUNCIL

The Common Council met in regular session and was called to order by the Mayor. Present: Mayor Vandersluijs, Alds. Prins, Verschure, Brieve, Drinkwater, Kammeraad, Lawrence, Brink, Postma, Dobben, Vander Hill, Wiersma and the clerk.

The minutes of the last two meetings were read and approved.

Petitions and Accounts

The Clerk presented Constable Bond of Wm. Dalman, principal, with D. G. Cook and G. Beckman, sureties.

Bond approved and license granted.

J. Van Zeevang petitioned to come under the Compulsory sewer ordinance and presented agreement waiving service of notice and everything else necessary to come under the said ordinance, and have his premises connected with a sanitary sewer.

Action deferred, until the next regular meeting of the council.

H. Bontekoe and others petitioned for the construction of a sidewalk on the north side of 18th street, between Maple and First Aves. Referred to the Committee on Sidewalks.

The Clerk presented communication from F. W. Alstetter, Major, Corps of Engineers, First State Bank, orders.

The Committee on Ways and Means presented the following resolution:

"RESOLUTION"

"Whereas a communication has been handed to us by the Hospital Committee, appointed by the Chamber of Commerce of this city, in which the needs and the feasibility of constructing a hospital in this city are set out quite fully, and whereas we, as a Common Council, believe that there is a real

hospital. Our city is growing, new labor-employing institutions are locating here, and the population most in need of hospital services are on the increase, and the community owes a duty to those who may become unfortunate by sickness or accident.

2. After we came to this conclusion, we began to consider the ways and means of constructing and operating such a hospital, and at the suggestion of some of the physicians and leading citizens, we believe a hospital can be built sufficiently large enough to take care of the present and immediate needs and for some years to come, and that it can be maintained properly and in good shape in the following way:

The City of Holland owns a lot directly west of the City Hall, which it puts to little or no use. This, in our opinion, would be an ideal place for a hospital, on a quiet street, near enough to the street car line to afford easy access to it, and right near a beautiful park. If the City would lease this lot to the Hospital Association, hereafter formed, for a term of years without any rental charge, and would heat this hospital from the City Hall boilers and would furnish the hospital with janitor services, heat, light, and water without charge, we believe a hospital could take care of all its charity patients, and still be self-supporting, or at least nearly so. The plans in detail have been worked out quite carefully, and the cost to the city would be nominal, whereas the benefit to the community would be hard to estimate. A nice brick building could be put up on this lot which would not be objectionable architecturally, and would not reflect upon the street or on the city hall. Unless the city can see its way clear to do this, it hardly seems within the possibilities that a hospital can be built by public subscription and thereafter maintained. The burden would be too large to carry, and we therefore petition your Honorable Body in behalf of the Community for this concession, and if it is granted, we will undertake to solicit funds for this institution. If its leading manufacturers and public-spirited citizens feel that the city is willing to do something towards the maintenance of the hospital, the subscriptions would come very much easier. We respectfully solicit your cooperation, and the granting of this request.

Hospital Committee,

NICODemus BOSCH,
Chairman.

A. LEENHOUTS,
HENRY WINTER,
HENRY GEERLINGS,
GEORGE E. KOLLEN.

The committee also attached a resolution upon which the Common Council could pass favorably if they liked the plans. A copy of the resolution follows:—

Resolution

Whereas a communication has been handed to us by the Hospital Committee, appointed by the Chamber of Commerce of this city, in which the needs and the feasibility of constructing a hospital in this city are set out quite fully, and whereas we, as a Common Council, believe that there is a real need and necessity for the establishment of such an institution within our midst, and whereas we believe that the city should do something towards encouraging this worthy enterprise and should help to support and maintain it, at least in some small measure, therefore, be it resolved that the prayer of the petition be granted, and that we as a Common Council, agree that if the necessary funds can be raised by public subscription for the construction of an up-to-date, well-equipped hospital, sufficiently large to meet the requirements of the public, that the city will lease to the Hospital Association, hereafter formed, the lot of West Eleventh street lying west of the City Hall, for a nominal rental of \$1 per annum, and that they furnish heat, water, and light to such hospital without charge, together with janitor services.

The communication submitted to the Council by the hospital committee was read by the city clerk. Alderman Wiersma then moved that the matter be referred to the committee on Ways and Means. He was supported by Drinkwater.

Referred to the Committee on Ways and Means to report on same to the Council at a special meeting to be called by said committee.

Ald. Postma was here excused from further attendance.

The Special Committee to whom was referred the matter of procuring private property for the purpose of laying out and opening certain streets, reported as follows:—To the Honorable, the Mayor and the Common Council of the City of Holland:—

Gentlemen:—We, your special committee to whom was referred the matter of acquiring the private property of Cornelius Van Den Ende and Lauriena Van Den Ende, husband and wife, for the purpose of laying out and opening Twenty-first street between Maple Avenue (if extended) and First Avenue, and Maple Avenue between Twentieth and Twenty-first street, which property is described as follows: Those certain pieces or parcels of land situated in the City of Holland, County of Ottawa, State of Michigan, and described as follows, to-wit: Beginning at a point Thirteen Hundred Twenty (1320) feet south and Five Hundred Seventy and 75-100 (537 75-100) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended) Three Hundred Thirty (330) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

Also beginning at a point Sixteen Hundred Fifty (1650) feet south and Thirty-three (33) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended), thence East Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

to purchase said property from the said owners, at a reasonable figure, and find that it is impossible to reach an agreement with the said owners, and whereas, it is a necessary public improvement in the City of Holland for the use and benefit of the public to lay out and open for streets, sewers, drains, ditches, and for other lawful and necessary public uses said described parcels of land.

WE, THEREFORE, RECOMMEND to your honorable body, that said parcels of land be taken and appropriated by the City of Holland to lay out and open for streets, sewers, drains, ditches, and for other lawful and necessary public uses.

Respectfully submitted,
F. J. CONGLETON,
F. A. BRIEVE,
BEN WIERSEMA.

On motion of Ald. Congleton,
The report was adopted, all voting aye.

On motion of Ald. Congleton,
Resolved, that the Mayor appoint a committee of three to take up the matter of procuring private property for laying out and opening streets, and described as that part of 18th street, if extended due west from Cleveland to Ottawa Avenues and that part of Cleveland Avenue if extended due south from 16th to 18th street, and to report same to the Council at its next regular meeting.

Carried, all voting aye.
On motion of Ald. Congleton,
Resolved, that the Mayor appoint a committee of three to take up the matter of procuring private property for laying out and opening streets, and described as that part of 18th street, if extended due west from Cleveland to Ottawa Avenues and that part of Cleveland Avenue if extended due south from 16th to 18th street, and to report same to the Council at its next regular meeting.

Carried.
The Mayor appointed as such committee, Aldermen Lawrence, Wiersma and Brievé. The Committee on Public Buildings and Property reported having received several bids for coal for the City Hall, and that the bid of Austin Harrington at \$3.84 per ton for Pocahontas mine run, is the lowest bid received, and recommended that the contract be awarded to Austin Harrington as per his bid. Adopted.

On motion of Ald. Lawrence,
The matter of Compulsory connections of sewers to certain property on Central Avenue between 5th and 6th streets, was referred to the Special committee on Compulsory sewer connections.

The Committee on Streets and Crosswalks reported having placed an order for 15,000 gallons of asphalt, and requested the council to approve of such action.
Adopted.

On motion of Ald. Drinkwater,
Whereas, it is the sentiment of the Common Council of the City of Holland, that the safety of our citizens and the traveling public demands the removal of the trees on the property belonging to George A. Poole, which obstructs the view on the highway in Holland Township between this city and Macaw Park at the turn known as "Dead Man's Curve," therefore,

RESOLVED, that the Clerk be directed to respectfully request the said George A. Poole to remove said trees.
Adopted.

Adopted.
RICHARD OVERWEG,
City Clerk

WHEREAS, to lay out and open the above described parcels of land for streets, sewers, drains, ditches and for other lawful and necessary public uses, it becomes necessary to appropriate said described private property for said public uses and purposes.
IT IS HEREBY RESOLVED AND DECLARED, by the Common Council of the City of Holland that it is a necessary public improvement in the City of Holland for the use and benefit of the public to lay out and open for streets, sewers, drains, ditches and for other lawful and necessary public uses, those certain pieces or parcels of land situated in the City of Holland, County of Ottawa, State of Michigan, and described as follows:—Beginning at a point Thirteen Hundred Twenty (1320) feet South, and Five Hundred Seventy and 75-100 (537 75-100) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended) Three Hundred Thirty (330) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

Also beginning at a point Sixteen Hundred Fifty (1650) feet South and Thirty-three (33) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended), thence East Sixty-six (66) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

IT IS HEREBY RESOLVED AND DECLARED, by the Common Council of the City of Holland that they, the said Common Council, deem it necessary to take and appropriate said above described private property belonging to Cornelius Van Den Ende and Lauriena Van Den Ende, husband and wife, for said public improvement, viz.: to lay out and open for streets, sewers, drains and ditches, and for other lawful and necessary public uses, and that said public improvement in the City of Holland is for the use and benefit of the public.

Carried, all voting aye.

On motion of Ald. Congleton,
WHEREAS, the Common Council of the City of Holland by resolution has declared it to be a necessary public improvement in the City of Holland for the use and benefit of the public to lay out and open for streets, sewers, drains, ditches and for other lawful and necessary public uses, those certain pieces or parcels of land, situated in the City of Holland, County of Ottawa and State of Michigan, and described as follows: Beginning at a point Thirteen Hundred Twenty (1320) feet South and Five Hundred Seventy and 75-100 (537 75-100) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended) Three Hundred Thirty (330) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

Also, beginning at a point Sixteen Hundred Fifty (1650) feet south and Thirty-three (33) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended), thence East Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

WHEREAS, the Common Council of the City of Holland has declared that said public improvement in the City of Holland is for the use and benefit of the public, and

WHEREAS, the said described lands and premises are the private property of Cornelius Van Den Ende and Lauriena Van Den Ende, husband and wife, and

WHEREAS, a bona-fide effort has been made by the Common Council of the City

of Holland to purchase said described lands and premises from the said Cornelius Van Den Ende and Lauriena Van Den Ende, husband and wife, for said public uses, purposes and improvements, and it is impossible for the said Common Council of the City of Holland to agree with the said owners as to the purchase price thereof, and

WHEREAS, the Common Council of the City of Holland has declared and resolved that they deem it necessary to take said above described private property belonging to Cornelius Van Den Ende and Lauriena Van Den Ende, husband and wife, for said public improvement, viz.: to lay out and open for streets, sewer, drains, ditches and for other lawful and necessary public uses, therefore

RESOLVED, that the City Attorney of the City of Holland be and he is hereby directed to institute the necessary proceedings in such case made and provided by the Charter of the City of Holland, and title Twenty-six (26) thereof, in behalf of the City of Holland before Thomas N. Robinson, a Justice of the Peace, of the City of Holland, County of Ottawa and State of Michigan, to carry out the object of said resolution in regard to taking the said described private property of the said Cornelius Van Den Ende and Lauriena Van Den Ende, husband and wife, for the City of Holland for said public use.

Carried all voting aye.

City Clerk

WHEREAS, to lay out and open the above described parcels of land for streets, sewers, drains, ditches and for other lawful and necessary public uses, it becomes necessary to appropriate said described private property for said public uses and purposes.

IT IS HEREBY RESOLVED AND DECLARED, by the Common Council of the City of Holland that it is a necessary public improvement in the City of Holland for the use and benefit of the public to lay out and open for streets, sewers, drains, ditches and for other lawful and necessary public uses, those certain pieces or parcels of land situated in the City of Holland, County of Ottawa, State of Michigan, and described as follows:—Beginning at a point Thirteen Hundred Twenty (1320) feet South, and Five Hundred Seventy and 75-100 (537 75-100) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended) Three Hundred Thirty (330) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

Also beginning at a point Sixteen Hundred Fifty (1650) feet South and Thirty-three (33) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended), thence East Sixty-six (66) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

IT IS HEREBY RESOLVED AND DECLARED, by the Common Council of the City of Holland that they, the said Common Council, deem it necessary to take and appropriate said above described private property belonging to Cornelius Van Den Ende and Lauriena Van Den Ende, husband and wife, for said public improvement, viz.: to lay out and open for streets, sewers, drains and ditches, and for other lawful and necessary public uses, and that said public improvement in the City of Holland is for the use and benefit of the public.

Carried, all voting aye.

On motion of Ald. Congleton,
WHEREAS, the Common Council of the City of Holland by resolution has declared it to be a necessary public improvement in the City of Holland for the use and benefit of the public to lay out and open for streets, sewers, drains, ditches and for other lawful and necessary public uses, those certain pieces or parcels of land, situated in the City of Holland, County of Ottawa and State of Michigan, and described as follows: Beginning at a point Thirteen Hundred Twenty (1320) feet South and Five Hundred Seventy and 75-100 (537 75-100) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended) Three Hundred Thirty (330) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

Also, beginning at a point Sixteen Hundred Fifty (1650) feet south and Thirty-three (33) feet East of the Northwest corner of Section Thirty-two (32) in Town Five (5) North, Range Fifteen (15) West—Running thence South along the West line of Maple Avenue (if extended), thence East Sixty-six (66) feet to the center line of Twenty-first street, thence East Sixty-six (66) feet, thence North Three Hundred Thirty (330) feet along the East line of Maple Avenue (if extended), thence West Sixty-six (66) feet to the place of beginning; it being hereby intended to describe a parcel of land Sixty-Six (66) feet in width East and West, and Three Hundred Thirty (330) feet in length between the center lines of Twentieth and Twenty-first streets.

W. C. T. U. MEETING A BIRTHDAY PARTY

THREE MEMBERS PRESENT SUD- DENLY DISCOVER THAT CELE- BRATION IS MUTUAL.

The first September meeting of the W. C. T. U. was a large gathering at the home of Mrs. Henry Veldman. Rev. Veldman opened with prayer.

Roll call "Our Mothers" emphasized the inspiration that a christian mother is to her children. Reports from the "Flower Girls" showed that each teacher in the city schools received a welcome bouquet, about a hundred in all.

Arrangements are being made for a space at the Fair to demonstrate the work of the Union. As it was discovered that Sept. 8 was the birthday of three of the members present, the latter part of the meeting was made a birthday party. Two cakes trimmed with flowers and candles were set in the center of the room. They were cut and eaten with offerings of congratulations.

MORTGAGE SALE

WHEREAS, default has been made in the payment of the money secured by a mortgage, dated the 18th day of July A. D.,

1913, executed by Mortimer A. Booy and Katherine L. Booy, jointly and severally as husband and wife, of the City of Holland, County of Ottawa and State of Michigan, to Blanche A. Landon of Kansas City, Missouri, which said mortgage was recorded in the office of the Register of Deeds of the County of Ottawa, in Liber 108 of mortgages on page 623, at 2:50 o'clock P. M. of said day.

AND WHEREAS, the amount claimed to be due on said mortgage at the date of this notice, is the sum of Seventeen Hundred Ninety One and 20-100 (\$1791.20) dollars of principal and interest, and the further sum of Thirty-five (\$35.00) dollars as an attorney fee stipulated for in said mortgage, which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof, whereby the power of sale contained in said mortgage has become operative.

NOW THEREFORE, notice is hereby given, that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described, at public auction, to the highest bidder, at the North front door of the Court House in the City of Grand Haven in said County of Ottawa, on the twenty-fifth day of September, A. D. 1916 at 2:30 o'clock in the afternoon of that day; which said premises are described in said mortgage as follows, to-wit:

All that certain piece or parcel of land lying and situated in the Township of Olive, County of Ottawa, State of Michigan, viz:—The Northwest quarter of the Southwest quarter of Section Five (5) in Township Six, North of Range Fifteen West excepting therefrom as are used as a cemetery, in the Southwest corner thereof, 39 acres more or less.

Plaintiffs,

vs.—
HERBERT VAN BALGOOYEN,
if living, or if dead, his unknown heirs or devisees,
Defendants.

In this case it appearing that plaintiffs have not been able to locate and determine whether the said Herbert Van Balgooyen is living or dead, and if dead, who his heirs or devisees are, or their place of residence, therefore, on motion of Diekema, Kollen & Ten Cate, attorneys for plaintiffs, it is ordered that the defendant, Herbert Van Balgooyen, if living, or if dead, his unknown heirs or devisees, enter their several appearances in this cause on or before three months from the date of this order and that within twenty days the plaintiffs cause this order to be published in the Holland City News, said publication to be continued once in each week for six weeks in succession. The sole and only purpose of this suit is to clear the record title and remove a cloud which is against the record title to the following parcel of land:

All that part of the west fractional half of Section Twenty-eight (28) Township six (6), north of Range fifteen (15) west, which is bounded on the north by a line fifty-one (51) chains, and seventy (70) links, south var. five (5) degrees, six (6) minutes east from the north line of said section; bounded on the south by the south line of said section; bounded on east by the north and south quarter line of said section, and bounded on the west by Lake Michigan, and containing thirty-three and ninety hundredths (33.90) acres of land, more or less.

MUST PROVIDE SHELTER FOR OVERFLOW

ENTRIES AT FAIR FAR EXCEED LAST YEAR; MAY HAVE TO PUT UP TENT.

"Better Than Ever" No Idle Boast as Proven by Figures; Great Attractions.

The boasting of the promoters of the Holland Fair each year that the approaching event will be the best fair ever staged in the city is almost generally taken with a knowing smile and "a grain of salt." The public as a rule are prone to say that this is another attempt to make it look good to the prospective patrons and thus inveigle them into paying the 35 cents admission.

But the figures, the actual fact, don't lie. If any person thinks he or she will be saving 35 cents if a visit to the Holland Fair this year is omitted, that person is sadly mistaken. The 35 cents will still be in that pocketbook, of course, but more than twice that much in educational and amusement benefit will be lost. That is not economy.

To prove that the boast of "a better than ever" Fair is not an idle one, these facts are given for comparison. The Fair entries can be made till noon today, thus giving an added number and making these figures incomplete with the advantage on the doubter's side, still it is convincing. The total of all entries will be close to 2000 this year, if not more, allowing for a great number just before closing time. Last year the number was 1847, that amount being 300 more than in 1914, the previous year. So the Fair really is growing.

Sixty-four non-race horses were listed last night with a large number still to come this morning. The number is expected to be increased by a score or more if room can be found for them. This is proving to be quite an obstacle. Undoubtedly more room will have to be made next year. Just now, with the entries still open, every available stall and shelter is occupied. It is thought that a large tent will have to be secured to provide a shelter for the overflow of fine specimens secured at a great cost.

The midway attractions are of a class never before equalled because of the expense. Mr. F. E. Pilbeam, manager of the entire midway court, is offering the finest lineup of shows and riding devices such as the Ferris Wheel and Merry-Go-Round ever brought into the city. Among them is one of the greatest wrestlers, nationally known as Conductor, who will meet all comers. Some of Holland's skilled wrestlers are planning on meeting him.

Among the fine artistic signs of beauty and much color are found those that read in the vein of "Winnie, the Fat Girl, walks, talks and two-steps. Just as sociable as any thin one and the jolliest fat girl ever born to live." The barker will be pouring the attributes of the aforesaid Winnie into your ear as you peruse the wonderful title and accompanying illustration on the canvass, and if you fail to pass inside to see and hear the marvel of the age, it is for one of two reasons,—lack of funds or presence of unappreciative wife.

(Continued from Page One)

People are well acquainted with the building activity that followed this, from the new Art Hall to the new race barn just completed.

Mr. Getz's wonderful exhibit at the Holland Fair has aroused the interest of not only the people of this community but of the outside world. Numerous county fairs, and state fairs have attempted to have Mr. Getz exhibit in their cities and they have offered him remuneration. But to all he has turned a deaf ear.

He is doing the work for Holland and because he believes in the Fair and wishes to see it prosper, but principally because he likes to see people enjoy themselves. The expense of hauling his farm produce, animals, etc., from his farm to the Fair grounds can be realized to a small extent when people think of the cost of draying service over city streets. The proceeds from the meager price of admission goes to the fair.

A thing seen often becomes common unless you like it real well. The Getz exhibit will never become common in Holland, because it is like nature itself, one can look through his building for hours and always find something of fresh interest. Who ever tires looking upon the caprices of a spirited dog, the quick impatient movements of a wild animal, the clever stunts of a monkey, the fine lines and proud bearing of a thoroughbred horse, thoroughbred cattle, strange species of animals with their flavor of another world, the nervous fluttering of beautiful birds, the grace of a swan, the bright colors of a parrot or peacock, the loveliness of beautiful flowers and the deliciousness of prize fruit? All this is to be seen in the marvelous Getz exhibit and that is why the people stand in line to get their ticket each year with more eagerness than in the year previous.

One small animal will draw attention this year because of the name it has won for itself. This is "Jack, the Man Killer," a species of Reeses monkey. Mr. Getz secured Jack from a show. Although Jack is quite small and innocent looking in his cage, while with the show about two years ago he won his freedom and demonstrated his ability as a fighter by attacking and killing a man.

The entire exhibit this year will surpass any of previous years as all the things shown last year will be shown again and several new attractions have been added.

The entire exhibit in the main part of the building running in order from the right side of the entrance around the building will include the following (Descriptive adjectives will be omitted for the most part. It is enough to say that the things are from Lakewood farm): "Macaw," a South American parrot chained to a stand in the open; a pair of thoroughbred German police dogs; Long armed baboon and baby; Airdale and pups; Rheens monkey; A badger; coop of Pekin ducks, Lemus monkeys; Racoons; Black Orphingtons; Ring-tailed monkeys; Odorless skunks (fact); Coyote from the western plains; Japanese red-faced ape, a rare species, there being very few in this county; Minnesota red foxes; white turkeys ("if we can catch them," said Mr. Getz); Ring-tail and Java monkeys Japanese sun-bear; Asiatic bear; Rocky Mountain goats; "Lala," Shetland pony; "Tony-mite," born in South America, now nine years old, weight 127 pounds, height 25 inches, smallest stallion in the world; various species of guinea pigs; two camels from the Sahara desert, "Saba" and "Hamid" both registered thoroughbreds (Their Arab tenders are as interesting as the camels themselves); Homer pigeons; "Darveech" and "Fatima," donkeys imported from Jerusalem; two splendid specimens of Arab stallions, "Gazil" and "Masoud"; "Gentof," a full-blooded registered Guernsey bull, one of the most valuable in the country; Exmoor sheep, imported from England; "Dick" combination cob-horse; chickens, white leghorns, Rhode Island Reds, White Wyandottes, and light Brahms; White Kings, pigeons; Kinjou or Honey bees; Coati-munda or Ant-eater and babies; various breeds of rabbits; Ocelot, a member of the Leopard family; White Opossum; White Rats; Prairie Dogs; "Major," "Parker," "Jack, the Man Killer," "Fred and "Judy", all Reeses monkeys in separate cages; Beaver and two Baldheaded or golden eagles.

In the enclosure just inside the door are 24 different breeds of dogs, all thoroughbreds and prize winners. Just between the dogs in a large wire enclosure is a beautiful collection of the following kinds of birds: fancy pigeons, various peacocks, one pure white, which was imported from Germany; cockin bantams, white Pekin ducks, Emden geese, mallard ducks; muscovy ducks both white and colored; pheasants, silver and golden reeves and Chinese wring-necks.

In an especially large room adjoining the main building is a gorgeous collection of plants, flowers and vegetables, interspersed with South American Parrots, Parakeeters or love-birds, Bohemian canary birds, Florida alligators, fan-tailed gold fish and common turtles. This part of the exhibit is in charge of the English gardener at Lakewood farm, Mr. J. R. Clark.

The exhibit includes a fine collection of vegetables showing onions weighing two pounds each and other things on a smaller scale, a gorgeous collection of foliage plants, choice water melons and musk melons, large Coleus plants, peculiar "sensitive plants" which droop their limbs when touched, fancy leafed Caliburns of Brazil with leaves bearing grotesque designs, egg plants, various kinds of ferns, all kinds of fruit and beautiful cut owers. In fact this exhibit has nearly everything pertaining to horticulture that is worth having.

This is not meant to be a description of Mr. Getz's exhibit. It is merely to give an idea of what is to be seen. To describe the various things in detail would take many columns. No animal or nature-lover can afford to "pass up," the Getz building at the Holland fair.

A Good Hint

What is that, when taken from you,

you'll pay to get it back; when you get it back, you'll give it away.

To the Voters of the First Legislative District

I wish to show my appreciation for the fine vote given me at the recent primary election.

If re-elected in November I will do the best I can to represent the interests of the entire district.
