### YOU MEN FROM 18 TO 46 YEARS, ATTENTION!

HERE ARE MATTERS THAT ARE IMPORTANT TO KNOW; REGISTRATION DAY SEPT. 12

Register on Thursday of Next Week from 7 A. M. to 9 P. M. at Your Polling Booth

Men who come under the draft age according to the new man power bill just passed by congress and signed by the president should remember the following important rules:

You must register if you are 18 and you must register if you are 45. You must register if you have passed your 18th birthday and if you have not passed your 46th birthday—not your 45th as some suppose. Those who registered last year or in one of the two registrations this year must NOT register again. But all others between the 18th birthday and the 46th birthday must register. This is as plain as language can make it and it would seem that no one can misunderstand.

The date of registration is Thursday, September 12, and the time to register is between the hours of 7 a. m. in the morning and 9 p. m. in the evening.

The place where you register is at the regular voting booth where you cast your ballot on election day, namely in the ward in which you live or if you live in a township then at the place where a regular election is held and where the citizens of the township cast their ballot. Below is the entire list of the places where registration boards will meet on Thursday, September 12. This covers every city and township in the Second District of Ottawa county:

**Holland City**  
1st Ward—Engine House No. 2.  
2nd Ward—Dulyea & Vander Bie Block, River avenue.  
3rd Ward—City Hall—Assessor's office.  
4th Ward—Voting Booth on First Avenue.  
5th Ward—Voting Booth on Central Avenue.  
6th Ward—Van Baalte Ave. School.  
Park Township—Voting Booth at Ottawa Beach.  
Holland Township—Town House, Zeeland road.  
Olive Township—Attention Here!—All registrants in Olive Precinct No. 2 shall register at the regular voting place in Olive Twp. Precinct No. 1, at the same place where the registrants of Olive No. 1 register. There is only one place to register in the two precincts and that is in Olive No. 1.  
Zeeland City, Zeeland Township, Jamestown, Georgetown and Blendon registrants will register on Thursday, September 12, at the regular polling places in their respective townships.  
Remember, the time in both township and cities is from 7 a. m. to 9 p. m. Don't mix this up with election time for this is different.

### FAIR HAVE ONE BIG ATTRACTION WORTH SEEING

IT IS A WATCH 200 YEARS OLD AND HAS BEEN STOLEN THREE TIMES

An Old Lady Brings a Find to Exhibit at the Holland Fair

The young lady assistant in Secretary Arendshorst's office was at her wits end to understand the wants of an old lady who had entered the office and apparently wanted to enter something for the fair, but the language of old grandma was beyond understanding as far as the assistant secretary's knowledge of a Dutch province language goes.

Ed Brouwer, who chanced to be in the office at the same time happened to know "Groningers" and acted as the interpreter between the old lady Mrs. Dick Hardenberg, Route 3, Zeeland and the assistant secretary.

Mrs. Hardenberg had three exhibits to enter. All are of a most unique nature and it is doubtful if ever so peculiar an exhibit has been shown at the Holland fair before.

The first exhibit was that of a watch which is 200 years old and has been handed down from generation to generation as a family heirloom. The watch is of an odd design and strikes every quarter of an hour.

The timepiece has been stolen three times during its 200 years of time-keeping and the last time that thieves purloined it they had taken the watch apart and Mrs. Hardenberg, who was then living in the Netherlands assisted two Dutch detectives in not only locating the thieves but in aiding to find the different parts of the watch which had been secreted about a room where the robbers had hidden. The timepiece was put together again and is running as fine as ever at the Holland fair.

A second exhibit that the old lady has on display is a waist collar made of pearls tinted in gold, which is also an unusual piece of neckwear.

A third exhibit is that of a strip of imitation embroidery. This peculiar exhibit is not cloth but made of colored stucco and is carved in the form of embroidery by a clever artist using a knife. The plaster paris production looks all the while like a piece of fine chiffon ready to be cut by a seamstress. The three exhibits to be seen in the art hall are worth the price of admission alone and will no doubt attract lovers of antiquated relics.

### BITTEN BY A RATTLE SNAKE

MOTHER'S PRESENCE OF MIND SAVES THE BOY

Bert Westenbroek who lives with his parents four miles north of the city, was attacked by a rattle-snake while he was going thru some underbrush near his home. At first Westenbroek could not imagine what had bitten him, but when he made the clearing and was able to investigate he found that a snake had its fangs fastened in the fleshy part of his leg and would not let go until jerked loose.

The young man was soon convulsed in pain and the presence of mind of his mother no doubt saved his life.

She secured a stout stick and quickly tied the injured limb as tightly as it was possible to do so, thus shutting off the flow of blood from the poison part of the leg to the heart.

The limb was soon swollen up to nearly twice its normal size and a doctor from Holland was summoned.

Dr. Yonker responded and treated the man for the snake bite. Westenbroek is resting easily today and it is not expected that any serious results will follow his unexpected experience in the woods.

### ATTACKS SIXTEEN-YEAR-OLD GIRL

SEES THE MAIDEN IN A BERRY PATCH

Horace Moore, aged 19 years, of Leighton township, Allegan county, was arraigned in Justice Brady's court and charged with assault to rape, his victim being Matilda Joldersma, aged sixteen years. The girl was picking berries when she was accosted, and her cries attracted her brother and a neighbor who rushed to her aid. It is said that Moore had thrown her to the ground and had torn her clothing. When he heard the men approaching he is said to have gotten up and started to run but was caught, brought to Allegan, and placed under arrest. He waived examination and was bound over for trial in the October term of court, giving a bond in the sum of \$1,200 for appearance. Young Moore was sent to the Industrial school in 1915 for similar conduct, and he is said to be the horror of mothers of little girls in that neighborhood.

### WOMAN LOSES HEAD WHILE DRIVING AUTO

BRINGS SERIOUS RESULTS AND NEARLY COSTING MAN'S LIFE

Damages Are At Least \$200 All Told. It Is Estimated

Mrs. Harry Plaggenmarmers from the rural districts of Holland and Mrs. Ed Plaggenmarmers drove east on Eighth street at a moderate rate of speed last night when she attempted to dodge a bicycle, it is said, but instead, ran into the foreman of the Holland City News, Mr. Robert Evans, who was crossing the street at that time carrying several columns of advertising type comprising live ads. that had to be run in the News of to-day.

Mr. Evans was thrown upon the radiator of the Plaggenmarmers car but had the presence of mind to keep his type on an even keel, knowing that the piling of it would mean a great loss and a delay in getting the paper out early this week because of the fair.

Mrs. Ed Plaggenmarmers however seeing the man on the radiator, got hysterical and began to scream, in fact her screaming could be heard several blocks.

Instead of stopping immediately the driver lost control of the wheel, ran several rods and into the car of B. A. Mulder that was parked in front of the News office.

Mr. Evans was pinned between the Plaggenmarmers and Mulder car and of course the type then went into pie upon the street.

Evans was taken up to the Holland City News office and Dr. Nichols was summoned, who says that altho Mr. Evans was severely bruised he does not think there will be any serious results.

The Mulder car has two fenders broken and the running board was torn loose. The Plaggenmarmers car has a set of springs broken and an axle bent.

Mr. Evans was taken to his home on the North Side and will be laid up several days. Employees of the Sentinel and the News were busy most of the night resetting a large number of advertisements that had been dumped into the street.

It is estimated that the damages all told will reach at least \$200.00.

### AUTO ACCIDENT ON WEST 12TH STREET

At 7 o'clock this morning Harry Wittier and Miss Jessie Wittier and Miss Rosetta Milloy were going east on 12th street in the Leonard car going to Grand Rapids.

A car going west struck the Leonard refrigerator car full on, and wrecked it badly. The other car was driven by an employee of the Dunn Mfg. Co.

The Wittiers' live in the Bider home on the Park road.

The occupants of the car were thoroughly shaken up but not seriously injured.

### HAS A MINIATURE FAIR OF HIS OWN

Mr. M. Bohl, proprietor of the Highland Park Villa orchard of the North Side, is making a display of his own this week while the fair is on. It is a sort of miniature fair in the show window of the Vaupell Drug store. The exhibit of greatest interest is a sprig of snow apples. This sprig contains five full grown apples, some blossoms and some little apples that have just developed from other blossoms. There is also a sprig of seven Flemish Beauty pears weighing three pounds. Other varieties of apples on display are the Snows, Talman Sweets, Twenty Ounce, Fallawater, Wealthy, Thompkins Kings and Russets.

Edson Fairbanks has returned to the Fairview farm after spending a few days at Lake Michigan Park.

Wm. J. Olive has just returned from New York City where he has been attending a convention of the National Insurance Underwriters Association.

This paper is in receipt of complimentary tickets for the Berlin fair sent by the secretary of the association. This is the 63rd annual event and takes place Sept. 24, 25, 26 and 27.

Ed Brouwer who for ten years has had charge of the scoring cards at the race track at the Holland fair is again in charge this year. His duties also are to number both the horses and drivers when they enter a race.

Word has come from the county hotel over which Cornelius Doornbos is the landlord, that the two Harry's lodged there have painted a sign during their leisure moments and have stuck it over room 13. It says "This room reserved for Johnny."

Twelve Holland and out-of-town boys held a house party at Macatawa the past week. A midnight supper was given Wednesday in honor of Jay Stewart Blackton of Toledo. All the boys reported a good time tho the season was quite over. The boys from out of the city are Harold McIntyre and Philip Danley of Davenport, Ia., and Jay Stewart Blackton of Toledo. The young men from the city were Harold Slagh, Dan Zwemer, Ben Muller, Willard Bloemendahl, George Luudens, Henry Luudens, Rudolph Brink and Bert Slagh. The chaperons were missing owing to the war.

## BELLOU WOOD BATTLE HERO TO BE HERE

Sergeant Gerrit De Haan, formerly of Holland now of Zeeland, who is home on sick leave to recover from a wound caused by a machine gun bullet which pierced his lung, will be at the Holland fair on "Patriotic Day," next Wednesday to take part in the exercises. He will appear in the War Board booth to explain the big eight by ten war map of the western front. He has been there and will be able to give first hand information about the campaign.

De Haan declares himself pained and highly indignant about what he terms the disloyalty of some people he has encountered since returning home. After facing death in a hundred forms on the western front he declared that it made his blood boil to encounter some people at home who are not wholeheartedly with the Allies. Such people are admittedly few but the returned soldier was surprised to find any, and the chances are that he will direct a few hot shots at such people next Wednesday.

De Haan passed through the battle at Chateau Thierry and he will tell of his experiences there. He received his wound in Bellou Wood when he was making a bayonet charge to clean out a machine gun nest of the Huns. The bullet pierced his lung and came within an inch of hitting his spinal column. In securing De Haan for the fair the committee in charge of the "Patriotic Day" celebration has made a real find. The wounded soldier will be not only an attraction to thousands eager for first-hand news from the Western Front but he will be an inspiration as well.

## Comes Up Smiling After Hun Shell Takes Away His Leg

Though his leg was shot off by the Hun and his arm was put out of commission for several months and though he received other hurts almost too numerous to mention, Ernest Vanden Bosch, came up smiling. In a letter to Prof. Dimment he speaks with perfect good humor of his experiences. The letter is such a fine expression of the kind of stuff American boys at the front are made of and Mr. Vanden Bosch has so many friends in Holland who will be interested in news from him that it is herewith reprinted:

August 19, 1918

Dear Professor Dimment:—  
I heard some time ago that you had been elected the new president of Old Hope, and it certainly warmed my heart. I have good news to write you this time, though I must write under difficulties. In a few months I expect to be home again taking up my studies as soon as I may. You see the Boche dropped a shell under me—about a yard away, it was, and now I have a stump leg and an arm that will require about two months to heal. One or two lesser holes in the right thigh completed the bill and now am thinking I got off lucky. The leg, my left, was amputated just above the knee joint and the doctor seems to like it very much. I judge by the pain of dressings, since that's all I have to go by, and have decided that the nerves are much healthier than ever before.

Well, good-bye. Love to my Alma Mater.

Sincerely,  
Ernest Vanden Bosch.

## Letter from France

Aug. 1, 1918

Dear Friend:—  
Just a short letter even tho you write long ones, but I've been so busy that my mail has piled up so that it is way over by head; but I am slowly crawling out. I have received several letters from you and they were sure were appreciated but I'm so busy trying to give Fritz some of his own medicine that I have not had time to write before. We have been on the line a good share of the time during the last two months on a honest to goodness active front. Probably you have read about what we have been doing so that there is not much use of trying to tell you about it, only that I was there during the thickest of it. Marsh got back from the hospital a day or two ago and is looking fine. Stubby is O. K. but Deacon was wounded, not seriously; I suppose you have heard about Bill, which is mighty tough, but at that we have to learn to expect those things. Well, I've got to quit now, but if we get a real rest I'll write a good long letter next time. Give all the folks my best.

Yours,

COBBY,

## ZEELAND HONORS ITS SOLDIER DEAD

Memorial services were held in the 1st Ref. church, Zeeland Thursday evening in honor of Corporal Gilbert Karsten. Rev. Harmelink, Rev. Hoffman and Rev. Geerlings were the speakers. The Sunday school class of the Second Reformed church of which Corp. Karsten was a member, sang two songs. Miss Van Zee also sang a solo.

Saturday evening services were held for John Lankheet in the First Christian Reformed church, Rev. M. Van Venem addressed the audience

## WAR COMMITTEE IS APPOINTED IN ZEELAND

At the meeting of the common council of Zeeland following the suggestion of the Zeeland Mayor, the aldermen appointed a committee of three members for the period of the war to act as a permanent memorial committee. These men, P. T. Moordyk, Jas. C. De Pree and John N. Haan, will be asked to serve in that capacity and it is anticipated that they will gladly accept this responsibility.

Suggestions had been received by the council from time to time that several matters of an unofficial character be brought to pass, such as arrangements for public receptions in honor of soldier boys, the securing of a city service flag, a memorial in honor of those who lost their lives in defense of their country, etc.

Since the weather of Wednesday would not permit of holding the reception in honor of Sergeant G. DeHaan this was postponed until next Wednesday at the public park at 7:30 p. m.

The Council has delivered the suggestions which it has received to the committee which will give them due consideration. The committee is not brot into existence to in any way interfere with the work of any of the official bodies, but to take up work which does not necessarily come under their supervision. One of the things the new body will be confronted with first will be the erection of a temporary monument for the Zeeland boys who have fallen in France. This plan is being agitated in Zeeland and the chances are that such a monument will be erected.

## ALLEGAN COUNTY SEVEN WEEKS WITHOUT RAIN

No one in Allegan is able to recall to mind a severer drouth than that which was ended by several hours of rain on Tuesday. But one shower sufficient to lay the dust had fallen since late May. That fell early in July, so there had been at least seven rainless weeks. The damage to all crops maturing at this season has been excessive. There had been a few showers a few miles away from Allegan, but the drought was prevalent in most parts of Allegan county and Van Buren. Corn and potatoes suffer red most, while pastures became brown and dry to such extent that dairymen had to resort to such feeding as they practice in winter. The early potato crop is not more than 40 per cent of the average and the late crop will be greatly decimated. The will facilitate fall seeding and ended a prolonged season of extreme heat—the hottest summer we have experienced in many years.—Allegan Gazette.

## ASK ZEELAND TO TAKE PART IN PATRIOTIC DAY

Zeeland is to be invited to unite with Holland next Wednesday to make "Patriotic Day" at the Holland fair a big success. The fact that Wednesday will be "Holland Day" will be forgotten this year and only the name "Patriotic Day" will be retained. Bit local business men wish to have the people of the neighboring city share in the celebration and it will be that city's day as much as it will be Holland's day.

To that end a formal invitation to the people of Zeeland has been sent by the local committee in charge of the celebration to Mayor Van Dyke of Zeeland who will be expected to transmit the message to the people of his city. All Zeeland automobile owners are asked to assemble on the corner of Eleventh street and River avenue in this city some time before one o'clock next Wednesday noon so that they may help make the parade a long one.

A plan has been made whereby congestion at the gates at the fairgrounds will be avoided. As previously announced autos will be allowed to pass into the grounds free of charge. But if the occupants should buy their tickets for themselves at the gate it would take all afternoon for the procession to pass thru the gate. To avoid this tickets will be sold in the city and all who take part in the parade will be expected to secure the pasteboards before the parade starts. Then a badge will be pinned on them so that the gate keepers can immediately see who has paid and who hasn't, without stopping the procession.

The tickets may be secured from Jake Lokker, from Benj. Brower at the First State Bank and from Secretary Arendshorst at 7 East 8th St.

## STRETCH OF ZEELAND ROAD IS OPENED

The cement road between Zeeland and Holland has been completed from Scholten's bridge to the Vander Haar corner. At that corner persons coming from the Zeeland side can turn south to the Sixteenth street road. This will be a great convenience for people of that section who wish to visit the Holland fair next week. It will give them a better road to the fair and it is expected that a great many people will take advantage of it.

The mile between the Vander Haar Corner and Fairbanks avenue in Holland still remains closed but work on this stretch is also progressing satisfactorily. By fall the Holland-Zeeland road will be one of the best in the state.

## ZEELAND MAN WANTS TO FIGHT

Barstow Underhill of Zeeland, with the Canadian army in England, is not satisfied with his position as clerk in the quartermaster's corps, feeling that as such he is not doing his real bit. He has tried several times to enter the infantry, but was rejected repeatedly, not being able to tip the scales at the necessary number of pounds required for a man of his stature. Sgt. Underhill was a six-footer when he entered the service, since then he has added two inches to his height and several units in avoirdupois.

He expects to join the fighting ranks in France in the near future.

## PARENTS ARE HELD IN THE ALLEGAN COUNTY JAIL

Frank De Beck of Allegan, aged about 30 years and his niece, Miss Hazel Brandt, aged 21, are held in jail pending a serious charge. It is alleged that the Brandt girl went to Grand Rapids some time ago and gave birth to a child it is said. The baby was brought to Allegan by a woman some time after the Brandt girl returned here. A baby was found in Grand river, Grand Rapids, recently, and officers came to Allegan to see if it was Miss Brandt's baby and not finding it a search was made by certain officers, to find out what had become of the illegitimate child. Their search was rewarded as the body of a baby was found buried in a garden on Arbor street, so the story goes. It is that the child was killed by chloroform. Very little has so far been admitted by the girl, though the officers have considerable evidence they are not disclosing at present.

## BEAVERDAM MERCHANT IS BADLY INJURED

### WAGON PASSES OVER HIS BODY DURING RUNAWAY ACCIDENT

Mr. C. Boertje, storekeeper, at Beaverdam, met with a serious accident on the Main street of Zeeland. The team of horses which he was driving became frightened and ran away. Mr. Boertje fell from the wagon and the wagon passed over his body. He received a compound fracture of the leg and a scalp wound three inches long. He is about sixty years old. A year ago his son met with a similar accident with this same team. The son died from the injuries which he received.

## TWENTY-TWO NATIONALITIES WERE AT ONE MEETING

At an evening service at Camp Custer out of a congregation of about 200 there were one or more of each of the following nationalities: Poles, French, Bulgarians, Italians, Finns, Albanians, Russians, Swedes, Armenians, Danes, Norwegians, Hollanders, Irish, Jews, English, Belgians, Scotch, Americans, Greeks, American Indians, Austrians, Lithuanians, and Serbians; twenty-two nationalities altogether.

Theodore Lemmon, route 7, left Friday for Syracuse, N. Y., where he will be in limited service.

Lieutenant Bernie Mulder is in the city visiting friends. Mr. Mulder has just finished a course in the Officers' Training School in Camp Taylor, Ky., receiving his commission as second lieutenant in the Field Artillery. He will leave Thursday for Camp Jackson, Columbia, S. C., to begin work there.

Miss Katherine Mc Bride returned from Owosso here she has been visiting for a month. Miss Esther Lyon returned with her to make a visit in this city.

## PATRIOTIC DAY AT THE FAIR ON WEDNESDAY

Wednesday of next week has been decided upon as "Patriotic Day" at the Holland Fair. It will be a Holland day as well and all Holland will be expected to come out and show its patriotism. The formal exercises will be at a mammoth parade in which automobiles and floats will take part.

All the automobiles in Holland are hereby commandeered for the patriotic parade. All auto owners are expected to assemble on the corner of 11th-st and River-av. before 1 o'clock at noon. The parade is to begin promptly at one. Arrangements have been made with the fair association to let all automobiles enter the fair grounds free of charge. The occupants will have to pay the usual entrance fees for themselves but their machines will not be taxed.

A feature of the fair this year will be a large map of the Western Front, eight by ten feet in size. Notter; Van Ark & Winter have given their booth for this purpose. On this map will be shown from day to day the changes made in the battle line, the villages and cities captured and the advance made by the Allies in their drive toward Berlin. A man in khaki will be on hand to explain the map to the people.

On "Patriotic Day" moreover there will be a "community sing" at the fair. Words of the songs will be printed on sheets and distributed to the people so that all can join in. An attempt will be made to secure Herman Brouwer of Camp Custer to direct the "sing."

Arrangements will also be made to secure a speaker for that day. Who will deliver the address has not yet been decided, but the committee in charge is now trying to secure a man who will be a real attraction.

The United States Military Band will furnish music all day Wednesday on the fair grounds. This band will also lead the big parade.

## DECIDE ON PLAN TO VOLUNTEER SUBSCRIPTIONS

The volunteer plan of making Liberty Loan subscriptions is to be tried out in Holland during the next Liberty Loan that is soon to open. No subscriptions will be solicited until every person in the city has had full opportunity to make his subscription voluntarily. This action was decided upon Tuesday evening at a meeting of the War Board.

Everybody by this time knows what a libertyloan is, what it is needed for—how much he should give. The publicity on the first three loans has fully educated the public on these matters so that the average person should be ready to volunteer his subscription, thus saving the trouble of soliciting it.

The first three days of the drive will be "Volunteer Days" in Holland. On those days subscriptions can be made at the three banks or at Liberty Loan headquarters which will again be over the Lokker-Rutgers store. The banks will be requested to remain open until 9 o'clock at night on those three days to give everybody an opportunity to subscribe.

Volunteering subscriptions will be made a point of honor in the next loan. It will be expected that the true patriot will turn in his subscription without being asked for it. It is possible that some special badge may be given to show who has been a volunteer in the loan.

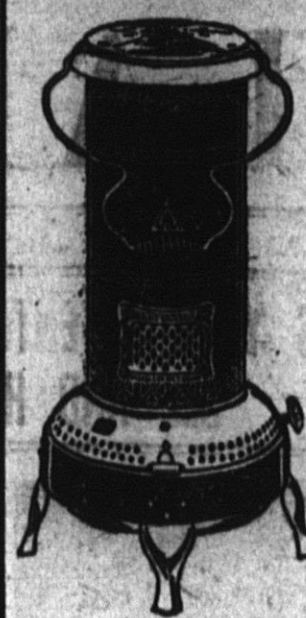

It was also decided Tuesday night to hold no canvass in the factories. There will be only a house-to-house canvass, which will do away with overlapping of work and with confusion as to who has subscribed and who has not.

A. L. Cappon has again been appointed to be in charge of headquarters during the campaign, and a special committee has been appointed to affect the necessary organization for the campaign. This committee is composed of T. N. Robinson, J. Lokker, D. Boter, E. P. Davis and A. L. Cappon.

Mrs. Henry Ortman of Saugatuck, has received a letter from her son Simon, who is in a hospital in France recovering from a bullet wound in the shoulder. He speaks highly of the care given to the injured by the Red Cross nurses, who at the time he wrote were on duty day and night. This is the second time Simon has been wounded, having previously lost two fingers.

Fennville has its first gold star. Sergeant Rex Marks, son of Mrs. Rose Marks is reported as killed on August 2. He enlisted a year ago and is the first boy from Fennville to die for the colors.

Mrs. C. Vander Heuvel gave a party Tuesday night in honor of William Bakker, the shoe repair man at Spruijma's Shoe store, on his 75th birthday anniversary. Among the out of town guests were Mrs. Fred Gaze and daughter from Chicago Heights.

## "PERFECTION" SMOKELESS OIL HEATERS

For cool mornings and evenings during early fall. You do not need sufficient heat to make a fire worth while, yet need some heat during the early morning and evenings.

The "PERFECTION" Smokeless and odorless oil heater answers this need, as it will heat a room quickly, and positively will not smoke or smell.

It is light and easily carried from room to room, can be lighted or extinguished in a minute, is perfectly safe, and the cost of operation is small as one gallon of oil will burn ten hours.

## Positively Prevents Punctures

NOW, please don't say, "Oh, just another one of those tire-fillers," and let it go at that! ESSENKAY is a tire-filler, but not the kind you probably have in mind. It is nothing like the ones that have been tried and found wanting, but is a wonderful discovery that has at last solved the problem of a real substitute for air.

## Cuts Your Tire Cost in Half

ESSENKAY not only positively prevents punctures and "blowouts," (there is no air to puncture or "blowout"), but also doubles life of your casings and saves half your tire cost. First cost of ESSENKAY is your last cost, as it lasts for many years and is transferrable from one set of casings to another indefinitely.

Investigate ESSENKAY Today!

## Letter from Gerrit Veurink

Camp Hill, Va., Aug. 6.

Editor:—

Have read the paper almost as long as I have been in this camp, and I certainly enjoy reading the news from the home town and vicinity and I thank you for it.

Have been in camp four and a half months now, and have enjoyed it very much so far.

I arrived at this camp on April 21 and was promoted to veterinary farrier.

They have four hospitals here, hospitals No. 1 and 2 have charge of all the bad cases while the other two have the minor cases. I work in hospital 1. Each hospital has one doctor and four farriers. Our doctor has charge of all operating cases, so you see I'm getting a great experience. At first it looked pretty hard to me, as it takes a lot of nerve to handle and doctor all kinds of cases, but now I just as soon handle the knife as anything else. We certainly have a lot of operations. Besides we have one Veterinary Specialty table here from Holland, which brings back sweet memories every time I look at it.

They have approximately 10,000 horses and mules here of which about 500 sick ones are in the four hospitals so you see we have a lot of work to do. We were to have gone across three weeks ago, but are still here, and do not know when we will go now.

Olaf Sundin and myself are the only fellows from Holland who are stationed here. Sundin is doing carpenter work.

Our company is located on the James river, and is a very nice place. I'd almost say the nicest place in Camp Hill. Almost every night we enjoy a swim in the cool old James river.

The weather is very much different here from what I have been used to in Michigan. It was 100° in the shade today, several men had to quit their duty. Tonight's papers stated that two hundred soldiers were overcome by the heat on the way marching to the boat to go across, so you can imagine that it has been pretty warm. The boys are all planning to move their bunks outside and sleep in the open air, but doubt whether the mosquitoes will let us sleep there. We have rented a large self-player piano with mandolin attachment and we have a lot of music to enjoy.

This certainly is a large embarkation port, and if I were to tell you all about the different transports coming in and going out, it would cover a whole paper. I hope to write more about it later on, providing I am still here, but we are all very anxious to go across and help the boys over there, so that we may be able to enjoy peace once more. With best wishes to anyone who should read this.

Yours truly,

## LETTER FROM FRANCE

July 16, 1918

Dear Folks—

When I last wrote you, I was in quiet a different place than now. I wrote you, I think, of my being moved from camp to another place and last Friday I was moved again.

At 5 a. m. they woke me up and after breakfast an old French truck took us to the depot where we boarded a train. After riding for six hours we arrived all tired out at our destination.

I've now been here four days and it's very nice here. This is a large city and quite nice too. The hospital is a large one and handles a very large number of men—English and American. As at the other place, we are treated very nicely and the food and everything else is just as nice as can be.

Before leaving the last hospital I had another new experience. The last evening I was there two of us went over to the Aviation field and we had a chance to go up. Did I go? I should smile! It was a fine ride and I enjoyed it.

One thing we have here is a fine Y. M. C. A. We have movies every night and can buy most anything we want. It seems good to have a Y again. Sunday I went to services and the songs were good. All old favorites. That was the first chance I have had to go to an English service as long as I've been in France.

I have received my pictures which I had taken in Washington and I'll send them as soon as I have a chance. I haven't had a chance as yet but they're coming some day. I'm glad

they came in good shape after their long journey.

I had hopes when I came here of meeting some one I knew but I've had no such luck. This is a large place and I've met a lot of fellows from Michigan, but none that I knew. I met one fellow from Allegan and he knew the people whom I know there. We talked about Allegan and Holland for a couple of hours. He's been in Holland lots of times.

To many of us it seems as the war'll be going back soon. Every train coming thru carries German prisoners and at every station one can find American soldiers. Why, it seems as tho there are more American soldiers here than French and English together. I wonder whether the German people still think there are no Americans here yet? They certainly are fools. Sunday was a great day in France and it was celebrated fifty by everyone. I suppose you read all about it in the papers. I have not yet received mail here, but it takes some time to forward it. I expect so soon, tho.

Bill Appenaall.

## Letter from Soldier

P. Howard, Md., Aug. 26, 1918

Dear Folks:—

This is a new kind of letter for me and it is the suggestion of our Commanding officer, Col. A. M. Mason who wishes to help to keep us in touch with home. By the way our K. O. is always planning something for the men. Just an ordinary back private fares fine at this Post for our officers don't drive us around like dumb animals. But they do try to whip us into line as good soldiers which doesn't keep them from thinking of our personal comforts.

This is a beautiful place to be at this season—some summer resort, believe me, for we have the finest bathing beaches in this part of the country and we can take our choice of either the Bay or the river. Green lawns, shade trees galore. If a fellow didn't have drills, K. P. and such duties he could have a peach of a time at Ft. Howard, even at that it's a mighty fine life.

A glimpse of our military life might be interesting. The rude awakening comes at 5:50 and the boys tumble out. It doesn't take long to prepare for action for when the bugler blows reveille at 6:15 we are all present or accounted for. The first activity is morning exercises—some call it torture, but it builds muscle and works up a healthy appetite for breakfast.

One of the finest sights in the fort is to see the companies pass in review on parade grounds at 8:30 in the morning. This is followed by a little double time to the tune of "Pop Goes the Weasel" after which there is a half hour or so of battalion drill.

At 9 we fall in for artillery drill which is perhaps our most interesting work. The various companies are assigned to their particular batteries and each company conducts its own drill. We have a mine company, antiaircraft battery, trench mortar batteries, the straight gun batteries differing in size of the gun from the 3-in. to the 12. The artillery drill takes up the remainder of the morning and dinner time is always welcome. The men double time back to the quarters in order to be present at mail call which is the most enjoyable feature of the day if you happen to be lucky. Sad if you're unlucky.

The afternoon from 1 to 3 is spent in signalling, guard duty and hikes. The remainder of the day we are free and we surely appreciate the kindness of the officers who grant us the privileges that we have. Tatop comes at 9; call to quarters at 10:45 and at 11 the day comes to a close with taps.

Of course you all hear of the wonderful work being done by the Y. M. C. A. in the army. At present they have temporary quarters while they are waiting for their new building to be erected. This will have reading and writing rooms and a place for movies and the many other entertainments which the "Y" affords the soldier boys.

In addition to the "Y" there is another agency which supplies the men with any kind of reading matter they want. If a fellow wants a book, he simply tells Chaplain Carpenter or his assistant Bill Card and the book is placed in the Post library. The library has just been moved to its new home and there we can spend our spare time in reading and writing. The Chaplain has his office at the same place and this week he has been busy handing out sweaters, socks and comfort kits, which were supplied by the Red Cross.

On Thursday night the band from

Camp Holabird gave us a fine concert and also gave us inspiration to work hard for our own band and orchestra which we are organizing. We expect instruments in a few days and all of us will do our bit to help the leader make a first class band at Ft. Howard. Music is a great inspiration and you know how it pumps the pep into a fellow.

The War Dept. has under construction a number of buildings here, barracks for the soldiers and warehouses for food and supplies.

Just because we are in the army is no reason why we can't "Save food and win the war," Ft. Howard proudly boasts of a war garden of 5 acres, ploughed and cultivated by the soldiers. We have string beans, radishes, onions, cabbage, lettuce, cucumbers, tomatoes, and beets—all of which we have for mess at some time or other.

Hello, there's mess call now—got go. We have to be on time for self-defense, you know. So long from your loving son and brother.

Pvt. Chas. Marsh,  
Ft. Howard, Md.

1st Anti-Aircraft,

Battery of Baltimore.

P. S.—Besides the string beans we have baked beans, lima beans and kidney beans—mostly baked beans.

## Letter from Ralph G. Korteling

Dear Editor—

From the patriotic red, white and blue hat cords which I wore when last I saw you I have changed to the dignified black and gold, "a gentleman by Act of Congress." My duties as Artillery Officer, carried me to the depressing heat of Camp Johnson, S. Carolina. There I met my old room-mate at Van Vleet, Peter Cooper, who is stationed at the Boss Hospital. Like all my fellow men in the service, I was glad to leave Camp Jackson. My order to Fort Sill gave me a week's time to get there which was more than enough so I hit the trail round Chicago and visited the folks. That was six weeks ago, more than half way course, at Sill being over. It is said that no one is a real artillery officer unless he has been to Fort Sill. It is the Mecca of U. S. Artillery officers. I spent but two weeks at the school of five and am now in the Air Service Flying school taking the Observers' course. Passing by all the minor incidents of my Oklahoma experiences let me give you my best impression of it from the air.

That the heavens were not my natural element I found out the first day I went up. My first flight was a reconnaissance flight to Lawton, Oklahoma, with instructions to sketch the R. J. R. R. station and take six pictures from 4,000 feet. It was around noon and the air was full of pockets. Every little while we would hit an air-pocket and drop ten feet or more. The back of the boniest horse looked attractive to me on that maiden trip. On the second day I went up twice and on the second trip I was unable to contain myself, leaving my lunch in the cockpit which I later found was not the conventional place to put it.

But let me hasten to tell you of the most marvelous flight I ever hope to have at Fort Sill. One Saturday morning I was scheduled for a cross-country trip to Wabter, a town on the Texas border. At 6:20 I reported on the field but it was raining too heavily. What could a soldier do in such a case—bunk fatigue. And that is where the sergeant found us when he came to tell us that our ships were waiting on the "dead line" a line from which ships start. With eager hands and happy thots of a long ride I put on my helmet and goggles. I found my pilot and ship waiting and explained where I wanted to go. We decided upon the best route to take and when the mechanic had tested the motor Lieut. Martin and I climbed in. Lieut. Martin was the pilot and sat in the front seat. We fastened our life belts and turned the nose of the ship toward the wind. Like a goose on a run we spread our wings and took to the air. After circling round the field to get altitude we headed south. Nothing exceptional happened on our problem except that we hit a rain that stung like hail and that we came near going too far into Texas. I signaled the pilot to turn back which he did and shut off the motor to ask if I was thru with my problem and wanted to climb the clouds. Of course I said yes and away we went. Believe me, Jules Vernon has nothing on that trip. It seemed rather long before we hit the second layer of clouds but in reality it was not so long. The pilot aimed to climb over the clouds rather than pierce them. At 9000 it was cold but

the unusual beauty of the scenery was surely worth getting cold for. Mountains upon mountains of rolling, fleecy silvery clouds. I felt like an intruder in this kingdom of glistening splendor. We could see the sun most of the time up there while on the ground it was nothing but a shadow and rain. Once the pilot blew into his hand to indicate that it was cold as if I was rubbing my hands for nothing. Still we rose nearer and nearer the sun; at 11,000 the pilot signaled to me the altitude. I looked down and smiled, wondering how I was ever going to set foot on earth again. By stretching my head I could see the pilot's altimeter. Gradually we wended nose up, the finger of the altimeter pointed to 4, 5, 6,000 feet but climbing was becoming more difficult because these training planes are not built for such lofty flights. From 11,800 we zoomed and zoomed and Martin turned to me and said "I cannot go higher." What a sensation to be the only human being in sight so far from old Mother Earth. Robinson Crusoe would never have found "Friday" in this lonely place. But it isn't the altitude that impressed me so much as the glory of this cloud country. Only an artist can convey the beauty of that scene.

It was getting time for us to go down. The pilot reached back to give me a gum ball to chew and swallow on the way down for going from high altitudes to the earth often hurts the ears. He shut off the engine and round and round in a spiral we circled. At times the pilot tried his motor to see that it could pick up again. Three clouds we went through and came out into warmer atmosphere. At 4,000 I noticed the pilot pumping and I knew his pressure tank had faded. So we landed with a "dead stick" but as gently as a feather. Thus ended the story of a truly enviable trip. A motorcycle sidecar rushed to where we stopped and soon the engine was working and up to the hangars we taxied. Three cheers and honor to the U. S. aviator. They are game sports and I am glad to know them.

With greetings to the Holland folks.

Yours fraternally,

## LETTER FROM FRANCE

Dear Bro. and family—

Just received yours of June 26th written at Lansing; was surely glad to hear from you; our mail is a little late very often; but we usually get it; better late than never you know.

Glad to hear of Lacy and Hadden getting where they are; it surely is fine; I only wish that I had done the same thing; the more I am around the aeroplanes the more I want to be a pilot and get up there and pick some of the Huns out of the pale blue. The suckers have been coming over our camp lately on moonlight nights and dropping their eggs—luck would have it no eggs have as yet fallen on us. There was a stray one that fell just outside our camp last week which made a lot of noise. Of course we were in our dugouts but the worst part of it is, we have to get out of bed when the alarm is given. That's what makes us sore for we like the sleep, and sometimes they are over here for a few hours.

Well, I've been over the German line; I went over in bombing plane with an American lieutenant from our field, a real good fellow and a wonderful pilot. He has several Boches to his credit and has over 30 holes in his machine where the bullets have went through. He patches them up, then with a pin puts a little cross on the patch. We dropped four eggs on a munition dump which blew up. There were eighteen machines in all and the Boche were pretty thick, so we turned back, but not until we turned our trick. When we landed we had a hole in one wing. That was close enough for me. I guess here after I'll go flying inside the lines, but I'm glad to have done it. It surely looks wonderful, so much firing, from about 20,000 feet high. I only wish I was a pilot, so I could do a lot of damage to the Huns.

It is a nice night so must close and hit the hay early. Must get as much sleep as possible before the Boche come to visit us.

Hope this finds you all well.

## Letter from England

Dear Friend:—

It seems so strange that I have not written to you for so long but I dare say it is more strange to you that you have not received any letters. I have a great deal to tell you but I am afraid I can't now. We are in a camp again and feel very much at home. And say, if I'm not born under a lucky star, I don't know who is. Just think Ben is not more than two blocks away from me. I found out this morning and was down to see him a couple of time. Seems queer that we are together in this ancient land. We have seen quite a bit of it and surely are impressed by its beauty.

One of the things that struck my eye first when landing was a sign "H. J. Heinz—57 Varieties". I smiled to think that I was still in a civilized land where they eat pickles. Last year at his time I was taking in these varieties. The next thing was a flivver another smile.

From the boat dock we rode in real classy coaches. The cars are small and instead of each car being one room there are different apartments with two seats facing each and will hold about eight people. Some class all right.

Well, this is another day. I don't know how much of my experiences I can tell but hope the censor doesn't cut out too much.

We came through a very hilly country and went through some tunnels or subways. Of course it was dark in them but when we came out it was a feast to look at the green fields enclosed with stone fences. Everything looks so green here and not a foot of ground is wasted. Talk about war gardens. There are a few in Holland but very few by what there are here. Then the homes are so different from America's. In cities they are most like tenement houses but more beautiful and cleanly kept. There are lots of flowers in the gardens among the vegetables.

The people too are quaint and old-fashioned, tho they are very nice, as much as I've seen of them.

Young men who are not soldiers are very rare. I talked to several different English soldiers who have been at the front. They talk about it as if it were a great game almost as we would talk about foot ball. They surely are in good spirits and have lots of faith in winning. Of course we are, as soon as U. S. gets a little better prepared. The closer I get the more anxious I am to get in it.

As long letters are torn up I'll have to close. We all feel thankful that we arrived safely across the sea. Hoping you are well, and trusting that God will care for us, I am,

Clarence.

Grand Haven, Aug. 26, 1918

Dear Editor—

As so many of Daniel's friends have asked about him, will you kindly give the following extracts of his last letter a place in the paper. He enlisted in Muskegon where we moved to from Holland two years ago, May 1, 1917, and has been in France since Aug. 1917. He is driving a Dodge touring car for the field inspectors and has seen a great deal of France.—Mrs. Fred Ve.

July 14, 1918.

It is time I was writing another letter home so here it goes. Last week I had a very pleasant trip of nearly 250 miles. I left at 3:30 a. m. in the morning. The truck got lost and we had a very nice lunch for me, and I ate part of it for breakfast at about 7 a. m. I wish you could have been here with me to help me eat it, but more so, to enjoy the magnificent scenery. The road at this point rises to the very apex of the mountain; on both sides are deep valleys, hundreds of feet deep and as green as a meadow in May. Interspersed with the patches under cultivation are white winding roads that seem to spring up everywhere. On the opposite hillside may be seen villages seemingly perched on a wall. This is a duplicate of many beautiful places along the way. The view of the deep valleys and the road with the sweetest cherries I ever saw. This is a veritable Eden, and it is difficult to imagine this paradise in the midst of a devastating war yet one has to go only about thirty miles to see the damage, ruin and havoc.

July 19, 1918

Dear Folks—Just another line to let you know I am well. The weather is very hot, and we get very little rain, consequently the roads are very dusty. While I am writing this, I can look out of the window and see a German airplane overhead. The anti-aircraft guns have been booming at a great rate all morning, and are shooting at this one now. We see battles with the machine guns between Boche and French aviators nearly every day. It certainly is very interesting. It gets very common here though; one day when we were at our posts, we heard a scream such as I had never heard before. Then I knew the Boche's were sending over a few souvenirs again. Then we heard a loud explosion, followed by others. Believe me it is no pleasant experience to hear those shells come screaming overhead to wonder where they will land when they burst. They throw pieces of steel and iron around for a radius of a hundred yards or more, and they sure do tear up the ground some. Some holes look large enough to bury a house. Another day we saw shells burst in a field some distance away. I got the field places to get a better view as I had seen a man and woman plowing the field near there. Then I saw a shell burst near them. I noticed the man unhit the horse put his wife on its back, lashed the animal with a whip which sent him home in a hurry, the was not slow in following. During a heavy bombardment it is not safe to run, because a man standing makes a fine target for flying shrapnel. The safest place is to be lying flat on the ground or in a ditch. We must be careful about gas. Many of the shells are filled with gas and of the two, I prefer the high explosive. During a thing we always put our gas masks on and take cover. I received a letter from Harold Geo's mother today, but have not seen him for a long time. Your loving son,  
DANIEL M. VO.

August 1, 1918

Dear parents—Here goes my weekly letter. I received the Press and Leader you sent and read every word in them. Reading matter is scarce here. Please send some magazines once in awhile. It is a year ago since I left the states. It is a glorious opportunity to participate in this struggle and I would not have missed it for a great deal, but I assure you that the day of peace, the only peace, with the entire defeat of the Germans cannot come too soon to suit me. Remember me to all my friends as I am too busy to write to everybody.

HANNA NOSED  
OUT SLASH FOR  
TREASURER

The Ottawa county board of county canvassers Thursday completed the official canvass of the vote cast in Ottawa at the primary election August 27. The official figures now compiled, however, will make no changes in the early forecast made as the returns were compiled on election night. The county gave Osborn the lead in the U. S. Senatorship fight, but the Soo man's lead was unavailing here, with the rest of the state going against him.

William M. Connelly for state senator shows a nice lead over his opponent Peter Looby of Muskegon in Ottawa county and J. H. Den Herder's vote for county treasurer on the Republican ticket leave no doubt of his place on the ballot as the party nominee. Unopposed county officers received the full party vote.

Ottawa went for Frensdorf for governor against Baily and gave Henry Ford a big lead over Helme for the United States senatorship honors of the party. W. J. Hanna nosed out Bert Slagh for the nomination as County Treasurer, the vote being 164 for Slagh and 194 for Hanna, a difference of 30 votes.

Nine votes were cast by Prohibition voters and two by the Socialist Labor party in the county. The Socialist party cast but 38 votes in the entire county.

The vote follows—

Dr. and Mrs. John G. Winter of the Greek department of the U. of M. who have been spending several weeks at Macatawa, returned to Ann Arbor by interurban Friday.

Denominational workers soon will be barred from Camp Custer, according to Willard P. Vander Laan, who was in Holland Thursday. Vander Laan represents the Reformed church in the camp.

Mrs. J. D. Kanter is expected to return from Port Colborne, Canada, today. On Aug. 1st, her youngest sister Gertrude McNeal was taken by death and on Sep. 1st her oldest brother Robert McNeal died suddenly of heart failure at a home named city.

A temporary injunction was granted by Judge C. W. Sessions on the resort property in Ganges township. The order restrained the county board from taking gravel from the beach to improve the West Michigan Pike.

Rev. Leonard Trap expects to arrive in Zeeland Monday on business. Rev. Trap is awaiting his appointment from headquarters at Washington as regular army chaplain. He will be assigned to some southern camp and later to overseas service.

Rev. Anthony Karreman was installed Thursday evening as pastor of the Second Reformed church of Muskegon. Mr. Karreman is the son-in-law of Mrs. L. Mulder of this city. He has been serving for a number of years as pastor of a Reformed church in Paterson, N. J. Dr. J. E. Kuizenga of the Western Theological Seminary preached the installation sermon.

Rev. J. L. Heeres of Reeman, Mich., Rev. E. J. Tuuk of Holland, and Rev. D. R. Drukker of Kalamazoo form a trio from which the Third Christian Reformed church of Zeeland will elect a pastor. A congregational meeting will be held Monday evening, September 9 for that purpose.

The congregational prayer meeting in Trinity church Thursday evening was conducted by Rev. Clarence P. Dame of Grand Rapids, whom the congregation has extended a call. After the meeting the congregation was given an opportunity to meet Mr. Dame in a social way. The former pastor of the church, Rev. J. Van Peursem of Kalamazoo was also present.

Supt. Milo Ben of the waterworks and Aldermen Nash, Turner and Fairfield went to Holland last week to investigate pumps used there for the city waterworks, to gain information relating to the purchase of such machinery for Allegan. Holland is in the same predicament as Allegan. She must buy new pumping machinery.—Allegan Gazette.

Anthony Lysenga, Jr., son of Mr. and Mrs. Anthony Lysenga, sr., was injured at the Bush & Lane Piano factory Saturday while he was operating the elevator. With his foot extending over the edge of the elevator, a deep gash was torn in the foot. The boy was hurried to Holland hospital where Dr. Nichols operated on the foot. It was feared at first that the ankle was broken, but this proved not to be so and no serious results are anticipated.

Lighting destroyed the barn and contents a few nights ago during an electric storm on the farm of Herman Ensing, three-quarters of a mile north of Zutphen church. His entire crop of hay and grain (unthreshed) was lost in the flames. All the stock was saved except one horse four years old. An auto owned by George Veldman was saved but after rescuing the machine it was too late to save the horse. Mr. Ensing drew the sum of \$2000 insurance.

## HERE ARE SOME SOIL IMPROVERS

The raising of the seed of hairy vetch has been developing into a considerable industry in recent years on the sandy soils of Northern and Western Michigan. In former years nearly all of the hairy vetch seed used in this country was imported from Germany and Russia where the plant occurs as a weed in the fields of wheat and rye. By the use of an ingenious machine of Russian design the Germans separated the vetch seed from the grain and shipped it to this country at a very profitable figure. This however is probably lost to Germany for all time as this country and particularly Michigan now raises enough seed to fill all of our demands.

Hairy vetch has long been used in Michigan as a hay and soil improving crop, its greatest usefulness being as a cover crop in orchards. Some seed is saved from these crops when the stand is especially good or is not needed for hay or green manure. The bulk of the vetch seed is raised especially for that purpose in connection with rye. In the districts where rye is largely grown the vetch has proved to be a very profitable side line or by product often netting as much as the rye itself without entailing any additional trouble or expense. Especially profitable is the combination of vetch and Rye. In the heavier soils where wheat is grown successful vetch is considered a weed for the seed is rather difficult to separate from wheat and is really a nuisance.

In growing vetch for seed it is quite important to sow at the right time and in the right amount. Early sowing is almost essential, August 15 to 15 to 15 being the most satisfactory period. Severe winter killing frequently results from planting too late. Many farmers seed the vetch and rye broadcast in corn at the last cultivation while others use a one-row drill or wait until the corn is off and drill for rye. Successful growers are practically

unanimous as to the proper quantity of seed to sow. A mixture of 15-20 pounds in four peaks of rye gives a stand maintaining the maximum amount of vetch that can be harvested satisfactorily with a binder. By increasing the amount of vetch seed a slightly heavier yield is obtained but the crop is apt to lodge badly that it must often be cut with a mower and is difficult to thresh. The extra cost of handling the heavier crop more than makes up for the slight increase in yield when sown as above a yield of 1½ to two bushels per acre is considered satisfactory.

Contrary to popular opinion vetch will not make a dependable growth on light sandy soil. Some very good crops are secured on loose blow sand but in general the crop must be grown for several years on such soil before it becomes reliable. On soils of reasonable fertility a good stand can readily be secured by observing the common rules as to inoculation, lime and drainage that apply on all leguminous crops.

F. B. Van Ry, son of Chief of Police Frank Van Ry of this city, is a final overseas examination held last week at Ft. Leavenworth, was pronounced the finest physical specimen that had ever been examined at that place in years, according to a letter received here.

## ACCEPTS CHAIR AT UNIVERSITY OF PITTSBURG

Hope College will lose a prominent member of its faculty through the resignation of Dr. William B. Pietenpol as head of the department of physics. Dr. Pietenpol will leave Holland Tuesday for Pittsburg, Pa., to become professor of physics in the University of Pittsburg. The change will be a big advancement for the local man, and altho the offer came late in the summer, Mr. Pietenpol decided to accept it in view of the fact that it was a chance such as does not come very often. There are seven men in the department of physics in the University of Pittsburg and a professorship in such an institution is usually not obtained until a man has served several years and has won the place through the slow process of advancement caused by his superiors dropping out.

The University of Pittsburg is one of the important institutions of the country. During the year it has an enrollment of 4,000 and its total enrollment, including summer school, is about 6,000.

Mr. Pietenpol has been spending a part of his vacation this summer in Chicago where he was working for the Western Electric Company. The past month he and Mrs. Pietenpol spent in Boulder and Denver, Colorado, and it was while there that he received by wire the splendid offer from the Pittsburg institution.

Mr. and Mrs. Pietenpol came to Holland two years ago and they have made a large circle of friends here. Mr. Pietenpol received his A. B. degree from Central College, Pella, Ia. Later he attended the University of Wisconsin where he received his Master's degree and later the Ph. D. degree.

## GEO. A. POOLE DIED SATURDAY MORNING

Saturday morning at 8:30 George A. Poole, president of the Poole Printing Company with plants in Chicago and Holland, died at his country home on the Macatawa Park road after a brief illness. Mr. Poole was 75 years old and had made his home here for a number of years. His beautiful suburban home on the Park road was one of the finest structures in this section. Mr. Poole was well known in Holland his business connections bringing him into contact with many people here.

## PROCLAMATION

Governor Sleeper in his formal proclamation in regard to Registration Day requested that Thursday September 12 be set aside as a public holiday, dedicated to the great task of registering the manpower of the state for war service.

It is probably rather late to issue a supplementary proclamation for Holland in accordance with the suggestion of the governor, but I assumed that the governor's proclamation would be taken to cover the ground. In view of the fact however that some people seem to be in doubt as to whether or not Thursday is to be observed as a holiday in Holland, I hereby formally request the people of Holland to observe the day in accordance with the letter and the spirit of the governor's request.

Nicodemus Bosch, Mayor.

## MUST CLEAN UP \$500.00 NEXT SATURDAY SURE

The coming Saturday a very important game will be played at Holland's new athletic park. It is important in more ways than one that Holland patronize this game.

In the first place it will decide the championship of the Western Michigan leagues and, as we understand it, Holland must win this game Saturday in order to win the championship this season.

In the second place Holland will meet the Linderman team of Muskegon, considered the strongest independent team in the state, barring the Holland team.

In the third place, two of Holland's business men, namely George Lage and Bert Vander Pool have gone good for the two new grandstands built on the grounds, that the Holland baseball fans have enjoyed so far this season. These buildings are not yet paid for and it is the duty of the Holland fans to make good the balance of the indebtedness otherwise these men will have to go down in their pockets to pay a debt contracted in the interest of base ball in Holland. This in itself is a commendable act and it would be eminently unfair to allow these men to foot this bill when a large number of citizens can make light work of it by paying their share to meet the obligation.

There was some \$200 in money on hand when the season opened this summer and since that time the debts contracted amount to something like \$500, leaving a deficit of about \$300. This amount can hardly be called a deficit however, as several improvements have been made on the grounds that are permanent fixtures. The two grandstands were very necessary and these will not have to be built again. After the \$300 has been paid Holland will have an athletic park that is complete in every way and the league can start next season's schedule with a clean slate.

Considering what these two men have done, the president of the league E. P. Stephan puts the following proposition up to the Holland fans. The admission to Saturday's game will be 50 cents and the admission to the grandstand will be 25 cents more. This is not going to be the regular price in the future, understand, out this is the price that is going to be charged for this benefit game in order to raise the money for this debt.

No better way could be offered that would equalize the responsibility more and spread the debt over the greatest number of individuals. Several fans have already purchased blocks of tickets, the printers have donated the printing for the game and also the advertising in the local papers that is calling attention of the citizens to the big benefit game.

Don't think that this is a hold-up for it is simply your share of an obligation that benefits Holland and its young men who can find here wholesome, health-giving amusement. Holland is amusement poor. Let us start to improve this condition by beginning at the very foundation of an attraction that improves the bodies and minds of young men besides giving both young and old a recreation out of doors that spells dollars in pocket and not dollars in the doctors' pockets.

Be a good sport and come across Saturday by attending the best game of the season and have the satisfaction that your money has helped to give Holland its recreation park. You are simply paying on something that belongs to you and in which you have stock that gives big dividends in satisfaction, health and recreation, for yourselves and for your boys.

One big attraction Saturday that will interest the fans is the fact that Gus Barrand will be slab artist for Holland and that Umpire Ross of the Central league will referee the game. These two men are popular among the Holland base ball fans and their coming will no doubt draw many additional lovers of the sport Saturday.

Let Saturday's crowd be a record breaker. The Holland players are donating their services, the officers are spending much time and money with no returns outside of the fact that they love the great American game.

Be a sport come across Saturday. FOR SALE—Belgian hare rabbits; \$1 a pair. Call after 6 p. m. at 490 Pine Avenue.

## WAS SHOT AT BY FRIEND AND FOE AT THE FRONT

The following letter from Sgt. John Bremer, "Somewhere in France," is perhaps as thrilling a bit of narrative telling personal experiences as has yet come out of France. Sgt. Bremer enlisted soon after the war was declared. He overcame many obstacles in order to get a chance to go to the front. For some years he had been an employee at the Bush & Lane Piano factory and his employers Monday spoke with the deepest respect of him, declaring that the record he has made at the front is the logical result of the manly qualities that characterized him while still at home.

Sgt. Bremer has many friends in Holland who will be glad to have news from him, but his letter to his family is thrilling enough to be of great interest to the general public:

Somewhere in France, Aug. 11, 1918

My Dear Folks:

This is the first chance I have had to write in a long while so I hope you are not worried by my silence. I am well and feeling fine. We have been in the greatest battle that Yankee troops ever took part in and at present are out for a short breathing spell. I thought that we were seeing war in the Alsace sector but what we have been thru in the last ten days has been hell. Why it is worse than war, it is slaughter. Our division has done some wonderful work in this battle and we were highly complimented. The French are wild over the "Golden 32nd" as they call us. Paris wants to see us. Of course some had to pay the supreme cost for our victories, but that is war. Some of my very dearest friends are no more, but that makes us all the more determined to kill as many of the enemy as we can. I am not allowed to tell you who were killed and wounded but watch the papers and you may know some of them. But believe me for every one of our men who were killed we killed about five Huns. I had about the most thrilling experience and narrowest escape of any man in our company. They all thought I was killed. Why our captain had me down on his back as "killed in action." Well we went "over the top" one morning at 3 o'clock. There was a woods ahead of us which was full of German machine guns and snipers which we had to clean out. We went over in a perfect line. After the fight a German officer whom we captured said that it was the best attack with the most perfect order he had ever seen. First we had to go over some open ground before we came to the woods. Well before we came up to the woods four Huns came out to us with their hands over their heads crying "Kammerad! Kammerad!" We captured them. Well, we went on through the woods and talk about machine gun and shell fire! Why all hell broke loose. We cleaned the woods of all Huns and were on our way back to our lines when the Boche came through our flank with about fifty machine guns. Well, all we could do was to fight our way thru them or surrender. But, Yanks are not in the habit of surrendering. So we fought. We got out of the woods; started for our lines. When we got in the open they opened up on us with machine guns from four directions. Again some of my men went down. It was terrible. I laid down on the ground and hugged it, then I started to crawl on my stomach towards our lines. The bullets were cutting the grass all around me. Then I got up and ran a short way but the bullets were raining all around me. I came to a shell hole and dropped in it. One of my men who was shot in the ankle came crawling by me so I had to help him. Well, I was in the hole when the Huns came up to us. The Huns seen us drop in that hole so they kept us covered with machine gun fire from four directions. A little later the big shells began dropping all around us and they dropped twice that day. We were covered twice by dirt which the shells threw up, so near they came to us. Well, every little while I would stick my head over the top to see if they were coming at us. They would see my helmet every time and cut loose with their machine guns at me, so I took my helmet off and took my O. D. handkerchief and put that over my head. There was green cover around my shell hole and my handkerchief was a dark green one so I was in with a good camouflage. Then I could watch them without being seen. Well we got in that hole about 9 o'clock A. M. Along in the afternoon I happened to look over the top again and there were two Huns coming directly for us and three from another direction. All I had to do was my pistol, my wounded pal didn't have a thing. I had 12 shots left. I watched them some time and made up my mind right there that I would not leave my pal, but wait until they came very close to us then to kill as many as I could before they got us. They walked up to us a ways and began picking up guns and things from our dead. When they were loaded down they returned to their lines. Well I felt greatly relieved but my hopes were short lived. They came out again and this time they came within about fifty feet of us before they were loaded and returned to their lines. About that time one of our own machine gunners had seen us and must have taken us for Germans on account of that green handkerchief on my head. They started firing on us. Well I thought it was about all over but the slow music. The Huns came out on their third trip and this time they would have came up to us but again Madame Fortune smiled on us. The Yank machine gunner who was firing on us saw the Huns this time and turned his fire on them. They ran as fast as they could go to their own lines and didn't come out again. Well that machine gunner whom I called about everything—I could think of for firing on us really saved our lives. Along in the afternoon my pal's foot started to pain very much, so I had to bandage it. I couldn't sit up to do it without being hit by "Frits" so I had to do it while lying on my back. I cut his shoe off his foot and bandaged it with a first aid dressing which we all carry. Then he felt better. We laid there until about 10:30 o'clock and at night we crawled back to our lines. We laid there for 12 1/2 hours in the hot sun without a drop of water and had nothing to eat for two days. My pal's lips were black with thirst and I was hardly able to talk when we came to our lines. The first thing I did was to find water and believe that was the best water I ever tasted. The officer took me to his company and gave me a big feed. I had not slept any for three days so you see I was about all in.

The next morning our captain sent me to the rear for a few days, then I was alright again in a short time. Oh, yes, I went into the fight as an acting Sergeant and was promoted to a Sergeant a few days ago. I was third in command of our platoon when we went over the top and before the fight was over I was in full command. I am very thankful that the Lord has spared me and am sure that He has heard my prayers.

Things look pretty bright now, for an early ending of this war. Well, Frits on the run—Austria has quit I hear. Well, when I come home I will tell you a lot more. Please don't worry about me my dear ones. If I should be called upon to pay the supreme price I think you'll be facing the Huns and with a smile on my face knowing that I have done my duty to the best of my ability for home and country. The most glorious death a man can die is fighting for the most glorious country in the world and that is "Our Country, the good old U.S.A." In and out of danger I always think of loved ones at home.

With love for all and a million kisses for the dearest little Mother in the World. I remain lovingly, your son and brother, SGT. JOHN BREMER.

P. S.—Give my regards to all my friends.

## HOLLAND BOY DIED LIKE HERO, SAYS FRIEND

That Willard G. Leenhouts died like a hero is the story sent to Dr. and Mrs. A. Leenhouts by Corporal Marshall Irving, an old friend of the young man and who went into the service at the same time. Corporal Irving's letter follows:

Somewhere in France, Aug. 14, 1918.

My Dear Dr. Leenhouts—

Yesterday I received several letters which have been astray in France for some time; and also your most inspiring and encouraging letter of May 12.

I am very glad to hear that our mothers have kept in close communication. We boys have tried our best, but of course it is much harder for us, as we are constantly moving.

Now, Dr. Leenhouts, you may want to know some of the particulars about dear Bill, and believe I am the one to tell you all.

As I understand it, Bill was relieved from driving the ambulance, owing to the fact that the marines were not to drive their own ambulance anymore. And while he was waiting for the motorcycle job, which is a very dangerous position, he took his place in the front line, and he went through Chateau Thierry drive all o. k. and fought mighty fine. His comrades that I have met from his company claim that Bill never flinched at anything. And I know that that was Bill, as he had his mind set, and you know what that means.

Then we moved from Chateau Thierry to Soissons and made another drive there. And there, everyone that went into the fray was a born hero, if I say it myself. At even at that Bill was o. k. until one day they asked for volunteers to get food rations for the men in the front line. Now when a party goes back after rations, as the conditions were there, we all know that the chances are one out of 50 he returns. But undaunted, Bill volunteered for the job, and as he was leaving the galley, a high explosive landed right in front of him.

Now Dr. Leenhouts, I am very sad at heart that Bill is gone, but I cannot express myself with this pen, but as a man you realize that that is war, and you know that you and I would willingly give our lives for such a cause as dear Bill did. He died a hero, and everyone is proud of him.

Hoping that some day we will all meet up above where all can be explained more clearly, and that this will find you all o. k. Give my best wishes to your dear family. I remain yours sincerely, Corporal Marshall L. Irving, 74th Co. 6th Reg. U. S. M. C. A. E. F., France.

## ASKS PUBLIC TO HELP AVOID ACCIDENTS

C. J. Lokker, manager of the Holland Crystal Creamery, Monday gave a warning to parents sending children to the creamery for cream that there is always some danger to very little tots who are frequently sent along with the older children. The Crystal Creamery does not cater to that kind of trade but serves the public purely as an accommodation. The place is not equipped for services of that kind. Patrons have to enter at a door where farmers' horses are constantly passing and little tots might get hurt.

Mr. Lokker asks the public, in sending for cream, not to send more than one person, so as to avoid unnecessary congestion in the crowded place and to avoid trouble. The company is anxious to accommodate the public to the fullest extent but it wants to safeguard the public as well.

## FOOD BOOTH TO BE A MECCA AT THE HOLLAND FAIR

The food demonstrations at the Holland fair this week will be one of the unique attractions. It will be in the Agricultural and Home Economics building. For the first time in the history of the fair this kind of wartime conservation work will be hitched up to the work of showing off the county's agricultural products. The women of Ottawa and Allegan counties will have an opportunity to show what they have been doing in the line of canning fruits and vegetables. Mothers will be able to bring their babies to this building to have them measured and weighed. Women will be given literature and recipes as to the best method of canning and baking on wartime lines. And a number of other activities to be carried on there will make that building one of the most interesting of the fair.

Miss Grace M. Hitchcock, Ottawa County Home Demonstration Agent, will be on hand all week to meet the women of the county. Mrs. W. H. Loutit is chairman of the County War Preparedness Board for Women. Mrs. Oscar Nystrom, vice chairman of the same board, will also be in charge part of the week. Other war workers will be on hand to give their services and

volunteer workers are asked for.

All women in Holland and in the country are asked to bring samples of their canned goods to this department. Those in charge are especially anxious to have samples of canned goods done up by the coldpack method, but that is not the only kind wanted. Those women who have been successful in canning without sugar are requested to bring samples.

Miss Elizabeth L. Parker, president of the State Nurses' Association, will be present to give talks on diet for children and to hand out recipes for wheatless articles. The "Children's Year" movement will be hitched up to the fair and mothers are asked to bring their babies to have them weighed and measured there. Miss Ruth Walsh and Miss Dorothy Dol will be present in "Hoover Costumes" to hand out a good-sized auto load full of recipes and helpful literature furnished by Washington.

## POLICE ENTER STORE BUILDING OVER AWNING

A quantity of liquor was found on the second floor of the Vander Veen lock by the Holland police Monday morning. The place has been suspected for some time by Chief Van Ry and officers gained an entrance to the second floor by walking along the awning edge and thus entered the room in which the liquor was stored.

Mr. J. A. Vander Veen, the custodian of the building, when questioned, states that he room is rented by a Mr. Saunders. The police are now looking for that man and it is said that a charge may be brought against him of storing liquor in quantities larger than is allowed by the new local option law.

Tenants next door were surprised at the discovery as they say that at no time had they heard any carousing going on in the room in which the liquor was discovered.

The search warrant was issued by Justice Van Scholven and signed upon the affidavit of Chief Van Ry.

The theological department of Calvin college now has 42 students. Twenty of these have just entered the department ten are in the second year, while 12 are taking the studies of the third and final year, expecting to graduate next June and become candidates for the ministry.

## BELOVED TEACHER PASSES AWAY

Mrs. Helena F. Van Duren, died at her residence 707 Colt avenue, Grand Rapids early Thursday morning after an illness of only a few hours.

Mrs. Van Duren has for nineteen years been a faithful and successful teacher in the manual training department of the Grand Rapids schools. She was greatly beloved by her pupils and will be missed by the thousands of young people with whom she has been associated in her work. Previous to her work in Grand Rapids, she taught in the Holland and Muskegon schools, making a record of thirty years of service in school work. She leaves four children, Theodore and Louise of Grand Rapids, Helene of Chicago, and Charles, who is with the 126th Inf. in France.

Mrs. Van Duren was formerly Helena Pfanzagl of this city, and six sisters and a brother survive her.

## JUDGE VANDER WERF SUBMITS TO OPERATION

## LOCAL MAN HEADS MISSION IN GRAND HAVEN

Grand Haven is to have a rescue mission. It will be opened soon in the former Orpheum Theater on lower Washington St. and will be conducted by men experienced in mission work.

Edward Dykhuis, one of the employees of the Kellar Pneumatic Tool Co. is one of the projectors. Mr. Dykhuis is an earnest young man, who has had experience in the City Mission at Holland. He is a brother-in-law of ex-Sheriff Hans Dykhuis and resides on Leggett-st. Mr. Dykhuis believes that there is a field in Grand Haven for a mission and is willing to give the project a thorough trial. He believes that much good can be done there in mission work.

Associated with Mr. Dykhuis in the enterprise are William D. Modders who has long been interested in evangelistic and mission work in Holland and is at present connected with the City Mission here.

Henry Modders of Cadillac is also to be at Grand Haven. This Mr. Modders is an ordained minister and is very prominent in state evangelistic and mission work.

It is planned to have the first mission meeting on Saturday night, Sept. 14 and a fitting program will be prepared for the occasion.

Mr. Dykhuis said last evening, "We are only working men but we believe that we have a message not only for the working class but for all who are interested in evangelistic work and religious movements of the kind."

## ACCEPTS CALL TO GRAND RAPIDS CHURCH

Rev. John A. Van Dyke of Lodi, N. J., has accepted a call recently extended to him by the congregation of the 9th Ref. church, G. R., and will take up his work here Oct. 1. He succeeded the Rev. John VanWestenberg, now pastor of the Reformed church at Fremont.

Rev. Van Dyke is a native of North Holland and a graduate of Hope college.

Rev. Jacob G. Brouwer of Grandville will announce this week his decision regarding a call extended to him by the Seventh Reformed church, whose pastor, Rev. A. W. De Jonge, now is head of Franklin-st. Christian Reformed church.

The Reformed church of South Holland, Ill., has called Rev. H. Frieling, pastor of Fourth Reformed church in Grand Rapids. The South Holland church has a membership of nearly twice that of Mr. Frieling's present church.

## TEACHERS OF HOLLAND SCHOOLS ENTERTAINED

The teachers of the Public schools were given a most enthusiastic welcome by the officers and teachers of the Sunday school of the Third Reformed church on Friday evening. The reception was tendered in the chapel and about seventy-five people were present. W. H. Van der Ven, president.

Patriotic and stirring music was rendered by the Central Avenue church orchestra and the exercises opened with singing "The Star Spangled Banner." A piano duet in which two pianos were used, was rendered by Mrs. William C. Eby and Miss Ruth Reidsma, a piano solo was given by Miss Nella Meyer and a selection was rendered by a ladies' double quartet.

Talks were made by Rev. Martin Filipe, ex-Mayor John Vandersluis and Henry Geerlings, secretary of the Board of Education. A social time followed and a slice of watermelon was served for refreshments.

## ALLEGAN MAN WOULD NOT SHAKE HANDS WITH BOARD

The following item from the Allegan Gazette shows there are still some Kaiser-lovers left:

Allegan Gazette.—It has always been the custom of the members of the county draft board to pass along the line of men bound for Camp Custer and shake hands with them. They did this with those who went there last Monday. When they came to Albert Schroeder he declined to shake hands saying, "I prefer not to shake hands with you." To this neither Mr. Stikkel nor Mr. McOmber answered anything in particular, but Sheriff Hillman told the truth when he said, "Albert, you may be thankful that you were not sent to Ft. Leavenworth," (the federal prison where many slackers like him have been sent.) Schroeder is the fellow who disappeared from Allegan some months ago to avoid the draft, and was recently arrested upon his return. It doubtless was fear of Fort Leavenworth that caused him to express willingness to enter the army. His sister, Mrs. Laura G. Reynolds, who made herself prominent last spring in connection with the Blood Bros. strike and the city election, as a representative of the I. W. W., began a tirade against the officers, but her father with more discretion, pulled her away and induced her to desist. It is well he did, else she would by this time, probably be in a fair way to pay a penalty for manifest disloyalty.

## ENROLLMENT IN SCHOOLS LARGE THIS YEAR

That the war is not interfering with education in Holland is shown by the enrollment of pupils in the various buildings. For several years past the enrollment has gradually increased and this year is no exception to the rule. The work of getting the pupils assigned to their respective buildings and classes has been completed and the schools are running as smoothly as they are in the habit of doing in the middle of the term, although the work has but just started.

The total number of pupils enrolled so far is 2243. This is quite a few more than were enrolled the first day last year. In the high school alone there was an increase of 22, and all along the line the number was greater than last year this time.

The pupils are distributed as follows: Washington school, 303; Van Raalte, 289; Longfellow, 308; Lincoln, 303; Froebel, 305; Auxiliary Department, 9; Junior High, 348; High School, 378.

Neither is Holland hampered by the war in the matter of teachers, as in the case with some schools in other sections. All the positions were satisfactorily filled some time before school opened and all the teachers were at their posts Tuesday morning.

Supt. Fell declared that he believed this would be one of the most successful of school years, judging from the way a beginning has been made. The war has emphasized the necessity of popular education rather than interfered with it and both pupils and instructors are beginning the year with the determination to make the year count.

## DISPLAY OF PHOTOGRAPHS OF BOYS AT THE FRONT

DeVries & Dornbos today are displaying in the show window of their store on East 8th street the photographs of about a hundred young men who have gone from Holland to fight for America. They are also displaying three gold stars for the three boys from here who have died for America, one on the field of battle and two in camp.

These pictures will be displayed all next week and on Wednesday, "Patriotic Day" they will be taken and displayed in the DeVries & Dornbos booth at the fair.

If there are any families in Holland who have sons at the front, photos of whom are not represented in the display, the members of this firm would be glad to receive pictures from them and post them with the others.

## AT LAST GETS CHANCE TO GO ACROSS

Corporal Elmer Poppe, formerly of the Sentinel and who enlisted as soon as the war broke out, in a letter to his parents in this city says that he will at last get a chance to go to France. Young Poppe has been trying for this ever since he arrived in Camp but his superior officers constantly told him he was too valuable where he was to be transferred to France. But in his last letter he says he is quite certain of going very soon.

Corporal Poppe has been at Camp Eustis, Virginia for some time.

## GETS A FLOOD OF LETTERS FROM HOLLAND

Mayor Bosch just now is going thru an interesting experience in the form of a flood of letters from the Netherlands in which the people of that little neutral nation reply to his Fourth of July cable transmitted to the Dutch people there through the Chicago Tribune. The first reply, which came a few days ago, was published Tuesday. But since then letters have been coming from all sections of the Netherlands—from Amsterdam, Rotterdam, Zaandijk and other towns and still more are arriving. The tone of most of the letters is one of intense sympathy for the cause of the Allies. So far there has been only one exception to this. This was in the form of a postcard in which the writer bitterly accused the United States of being selfish in its war aims. But all the other letters are so decided in their sympathy with our cause that this one dissenting voice is lost sight of among the rest. The letters received so far give the impression that the people of the Netherlands are heart and soul with the Allies in their fight.

Perhaps the most interesting letter in the lot was written in English. It is from Gerald Walch, Amsterdam, secretary of the Holland Section of the League of Neutral Nations. It is reproduced here to give an idea of the general tone of the letters coming from the Netherlands to Mayor Bosch:

Amsterdam, 17 July, 1918.

Mr. Nicodemus Bosch, Mayor of Holland, Michigan, U. S. A. Sir.—The Netherlands Section of the League of Neutral Nations having, with intense and lively satisfaction, read the message sent to this country in the name of the large community of Hollanders in the United States by the mayor of Holland in the State of Michigan, rejoice in the thought that their countrymen or ex-countrymen, who have found a home in the great and Free Republic on the other side of the Atlantic, have shown the same fervent and deep passion for liberty which has always been a characteristic of our nation.

Whilst bitterly deploring the fact that Holland, on account of its geographical situation, has been unable to take an active part in this gigantic and unprecedented struggle against modern barbarism, as revealed by the despicable methods in warfare and diplomacy adopted by those who have plunged Europe in fathomless misery and despair, the Netherlands Section of the League of Neutral Nations find some consolation—albeit a meagre one—in being able to speak freely and without reserve. And if they now do speak in this manner, it is with feelings of profound humility for Providence who hath in its inscrutable wisdom spared their country during four years of war, altho surrounded by a thousand dangers on all sides, and within actual hearing of the explosions of the guns. It is also with feelings of profound admiration for those who fight the good fight and of veneration for the heroes who sacrifice their lives for the great and noble cause of mankind.

And if this great contest should end, as they hope it will end, and as undoubtedly it ought to end, in a modern "Renaissance," in a "better world to live in," protected by itself against whatever evil instincts may remain as latent dangers to the peace of the world, by the united efforts of all civilized nations, none excepted—the Netherlands Section of the League of Nations are strongly convinced that Holland, thus miraculously spared, can never repay the debt which, like other neutrals, it will owe to those who gave their lives for this immense effort for the betterment of human existence on our planet. They are convinced that their government will ever be on the alert to assuage suffering wherever possible, and to take as active a part as they may in the constitution of that League of Nations which it is the aim of the President of the United States of North America to establish with the help and cooperation of the other associated governments.

I beg to remain, Sir, your obedient servant,

WALCH, Sec'y of the Netherlands Section of the League of Neutral Nations.

## OTTAWA SUPERVISORS MAKE VISIT TO ROADS IN DETROIT VICINITY

To inspect the roads in the neighborhood of Detroit and throughout Wayne county, members of the Ottawa county board of supervisors made a trip to Detroit this week, as guests of the Ottawa County Road Commission. The supervisors were given a good view of the roads, besides having an opportunity to study the construction work somewhat. The road work in Ottawa has now reached one of its important stages, and in many sections permanent roads are being built as fast as possible, to meet the increased motor traffic.

Mr. and Mrs. Pearlina Skinner of Hastings spent Thursday in this city. Mrs. Skinner is a sister of Corporal Gilbert Karsten.

## ZEELAND MAN APPOINTED FOR WAR SERVICE

Prof. Herbert Keppel of Zeeland, a member of the faculty of the University of Florida has received a government appointment from the National War Work Committee which will require him to make a survey of the teaching of mathematics in the naval stations of the southeast. Mr. Keppel received a telegram Tuesday asking him to report in New York Friday to Prof. E. H. Wilkins, who is at the head of the committee.

Mr. Keppel has accepted the appointment and has accepted Prof. Wilkins. It does not mean that he will have to give up his work at the University of Florida except temporarily. The University has given him leave of absence for as long a time as is needed to do this work. His headquarters will probably be in Atlanta, Georgia. The country has been divided into five districts, of which the southeastern states form one, and Mr. Keppel will have charge of that district.

Mr. Keppel has been at the Florida University for a number of years occupying the chair of Mathematics. During the past year or more he has taken a very active part in war work in the southeast. Together with a score of more of other members of the faculty of that school he has been making war addresses in various places. This work of the faculty members has given the university considerable of a reputation for patriotic work in that section of the country and the appointment of the Zeeland man is partly in recognition of this service as well as of his recognized standing in the field of mathematics.

## BAN RAISED ON ONE SLAUGHTER HOUSE

Health Officer Godfrey Wednesday released the slaughter house of F. J. Hietje from the ban placed upon it and about a dozen other similar institutions in this vicinity a week or two ago by Deputy State Inspector Remus. The local health officer made a thorough inspection and found everything in excellent condition. The place had been thoroughly renovated and put into good condition in every respect.

This is the first one of the slaughter houses recently placed under ban to be released. Others are expected to follow suit soon.

Hy Pots of Detroit is visiting with friends in Ottawa county and he comes especially to see his old newspaper friends. Old Hy was the founder of the old Grand Haven Courier-Journal several years ago and later founded the Zeeland Expositor, the first paper established in Zeeland. After that he left the county doing newspaper work. Mrs. Potts is also a lecturer and has a rare droll humor that is hard to beat. He was a great friend of the late Lieut. Nye in his day, who was the punster peer of American punsters.

## BROTHERS ASSIGNED TO SAME CAMP

Last Sunday morning 2nd Lieutenant Peter N. Prins of this city arrived home from Camp Taylor, Ky., where he finished a course in the Officers' Training school receiving the commission of Second Lieutenant. Lieut. Prins enlisted a year ago last April in the cavalry and has until recently, when he entered the O. T. S., been engaged in border service in Texas. He will be assigned to Camp Jackson, S. C., the same camp to which his brother, 2nd Lieut. Teunis Prins was assigned about two weeks ago. The brothers certainly have reason to feel elated over this streak of good luck, that has befallen them. It was their good fortune to be together while in training at the officers' school, and now after having received their commissions, they are assigned to the same camp again.

## COMMON COUNCIL

Holland, Mich., Sept. 4, 1918. The Common Council met in regular session and was called to order by the Mayor. Present: Mayor Bosch, Alds. Blue, Brieve, Smeenge, Congdon, DeVries, Lawrence, Brink, Dykstra, Dobben and the Clerk. The minutes of the last two meetings were read and approved.

**Petitions and Accounts**  
The clerk presented bond of Rufus Cramer constable of the Fourth Ward, with L. D. Bouwman and Lane Kemerling, sureties. Approved.

## WE MUST MAKE STILL FURTHER SACRIFICES

E. P. Stephan, manager of the Holland Furniture Company, has just returned from a trip to Washington and New York and Philadelphia in the interest of the factory.

In an interview he says that in Holland we do not know what war is. Says Mr. Stephan: "The war preparedness going on in the east is gigantic. No matter what city you strike there is war activity everywhere. Everything is thrown aside, socially, politically and business that has nothing in common with war is not thought of. War essentials are the only things that count. Everything else must suffer so that war preparations may not be hindered. Talk about sacrifices, we don't know what it is in Holland. In the eastern cities everything is parceled out, and that very sparingly."

"I have heard so much about the holdups at Washington. This is all 'bunk.' While everything is high, it is no higher in price than in Chicago, New York, Detroit, or even Grand Rapids. Good hotel accommodations can be had in Washington as reasonable as any of the other larger cities in the United States."

"Those who think that this war is over have another guess a coming. Uncle Sam is just getting started, and the big snowball of preparedness is just beginning to roll and assuming some proportions."

"But now that the government has a good start the rate of preparedness will assume enormous proportions quickly."

"I believe our sacrifices have just begun, and we must be prepared to make greater ones as the conflict progresses. I believe the fighting over in France, although the victory is glorious, has just begun and are only skirmishes compared to what is to follow."

"Non-essential manufacturing plants with millions involved carry little weight with the heads of the government. If a manufacturer makes a complaint, the government says, 'We know you have a great deal involved, but even if you lost all, you would not be sacrificing as much as any one of our boys are sacrificing in France.' No argument can be brought against such reasoning, and the manufacturer with the complaint is done."

"The government officials look upon the country as a whole, and do not take into consideration the sacrifice of any one citizen any one business institution, or any one city, for after all they reason, what are these compared to the freedom of a nation and the lives of its soldiers?"

"There is only one predominating spirit in the East, and that is to win a war of victory in the truest sense of the word. Not a war of power, not a war of annexation, not war for riches, but a war for freedom of the world. There is no peace talk, but a grim determination to win, no matter at what sacrifice and these are made with a spirit of willingness without haggling, and with a smile."

## PLANS MADE FOR SEMINARY OPENING

The regular work of the Western Theological Seminary will be resumed on Friday morning, September 20, at 8 A. M., when all the students are expected to be present to have the work for the first semester of the year assigned.

Regular recitations will follow on Saturday in accordance with the adopted schedule.

The assignment of rooms to the members of the Junior class and to others who come for the first time will be made on Thursday, Sept. 19th.

The Chapel exercises Friday morning will be conducted by Professor E. D. Dimment, President-elect of Hope College.

Visitors are cordially welcome. Mayor Bosch Monday celebrated his birthday anniversary. However like a woman who has passed 25, His Honor is very reticent as to figures and his friends were left to make their own guesses.

## AFTER THURSDAY INSTRUCTORS WILL GET HEALTH NOTICE

Dr. B. B. Godfrey of the Holland Board of Health is a very busy man these days enforcing health measures that appear in the Holland rule book. Thursday he will send out to all the instructors of Holland the following notice which is self-explanatory:

**Contagious Diseases**  
Rule No. 19—No teacher, principal, professor, or superintendent, of any day school, college, or Sunday School shall knowingly permit any child, pupil or student, with any communicable disease, or any child or person residing in a house where there is a case of scarlet fever, diphtheria, smallpox, measles, epidemic cerebro-spinal meningitis, infantile paralysis, or tuberculosis, to attend school, class, or service, under his or her charge, until such time as the Health Officer certifies to such teacher, principal, professor, or superintendent, that the said child or person may attend without danger of communicating

## CHANGES MADE IN TRAINING SCHOOL PLAN

President E. D. Dimment and Prof. J. B. Nykerk have returned from Fort Sheridan, Ill., where they attended a conference of college representatives and war department representatives in regard to the Students' Army Training Corps. The plan has been considerably changed since it was first announced by the War Department. Perhaps the most important change is that members of the corps will be placed on furlough status and will receive pay of thirty dollars per month, together with subsistence, quarters and free tuition.

This will mean that probably great changes will be made at Hope college. President Dimment said that barracks may have to be built here to accommodate students from outside who may wish to take advantage of this opportunity. Also the society will be encouraged by the college as far as necessary to provide quarters for members of the corps.

By the terms of the new plan the government has practically taken over the colleges of the country and will conduct them in the interest of winning the war. It will be up to the boy of 18 or over either to go to school or go to camp. If he goes to school he will have chance to make his education count. If he elects not to go to school he can be called to camp as a private whenever his number falls due.

President Dimment laid stress on the fact that the corps is not for the purpose of escaping military service. It is merely the government's way of giving the young men in the service special training to fit them for special duty, and they may be called into active service at any time the government sees fit.

Details of the plan are given in the following communication received by President Dimment:

"Entrance into the Students' Army Training Corps will be by voluntary induction and draft and not by enlistment. Induction must take place after registration and a date for such induction will be fixed probably toward the end of September. Men thus inducted will be placed on furlough status until their order numbers are reached. Thereafter, those who have proved to be of proper material for officers in the line or staff departments will be continued in training on Private's pay and with subsistence and quarters until qualified to enter a central Officers' Training Camp."

"Those who do not qualify for commissioned officer training will be sent either to a non-commissioned officers' training camp or to a depot brigade or in case of men showing special technical or mechanical ability continued in such course of technical training and later assigned to duty with troops. Arrangements will be made for transfer from Department brigades to Students' Army Training Corps of men whose ratings at the cantonment indicate that they are of officer material, but not yet ready to enter central officers' training camp. Similar arrangements will be made for enlarging the opportunities for further training to those in the National Army Training Attachments who show special promise."

"To facilitate this, activities of the National Army Training Detachment will be merged with those of the Students' Army Training Corps. A limited number of schools will be selected to specialize on particular types of training and as the needs of the service demand, properly qualified men will be transferred from the unspecialized units of the Students' Army Training Corps or at cantonments to these specialized schools. This plan should enable the War department to maintain a reservoir of officer material under training from which it will be possible to meet requisitions for the several branches of the service for specified numbers of men of specified qualifications at specified times."

"Special provision will be made as heretofore to maintain a sufficient supply of technical experts such as doctors, chemists and engineers."

## GEERLINGS IS ELECTED FOR THE THIRD TIME

To Henry Geerlings of this city an unusual honor has come in that he has been elected president of the State Sunday School Convention for the third time in three successive years. This honor is unusual because of the fact that it has broken all precedents of the state association in choosing presidents. Up to last year it was a kind of unwritten law at the annual conventions to change presidents each year. But last year at the convention in Detroit the association elected Mr. Geerlings for the second time. And so satisfactory has the administration of the Holland man been that Thursday in Cadillac the state association made him president for a third year in succession.

## LOCAL NEWS

Says the Gibson correspondent:—Miss Alice McAllister entertained in her home Thursday afternoon, Misses Nella Meyer, Vera Keppel, Kathryn Vander Veen, Helen Congleton, Mira Manting, and Henrietta Van Putten of Holland and Miss Ruth Bauhaan of Gibson were present. Six of the party visited Saugatuck by trolley in the evening.

Theodore Lemmon of Holland Route left Saturday for Syracuse, N. Y. for limited service. Others from this vicinity to go were Benj Harry Bushea, Fennville, Wm. S. Steanburg, Fennville and Obbie Van Dam, Hamilton.

Miss Susie House of Owosso, Michigan, is the guest of Mr. and Mrs. R. Tromp, West Sixth street for a week. The Huns who are planning to dig themselves in for the winter forgot that the Yanks have trained with snow shovels for years.

#### HOLLAND DENTISTS MAY NOT PULL TEETH FOR SLACKERS

Information is given by the department of justice at Washington that many would-be slackers throughout the country are making application to the dentists to extract teeth, thereby rendering the men eligible to physical disqualification. Dentists have been warned against permitting themselves to become parties to such practices as the law provides serious penalty for persons convicted of conspiring to aid others to avoid the draft.

Holland dentists are a patriotic lot and prefer to pull the noses of the slackers rather than their teeth.

#### HOW ABOUT A "WIN THE WAR CARNIVAL" HERE

#### DANCING ON THE PAVEMENT WILL BE ONE OF THE FEATURES IN ALLEGAN

Holland has done nearly everything in the war work line that is daring, but the "Win the War" carnival has not yet been tried. Here is what Fennville has done and what Allegan is going to do:—

Allegan Gazette—The ladies of the city are making preparations for a "win the war" carnival to be given on the courthouse square Thursday, Oct. 10. There will be attractions and refreshments of all good sorts during the day and in the evening there is to be dancing on the pavement on Chestnut-st. between Trowbridge and Hubbard-sts. A similar carnival was recently held in Fennville and about \$500 was realized for war work. This entertainment is being promoted by local persons and money netted by the enterprise will be kept here for use in the county war work.

#### AN INTERESTING LETTER FROM FRANCE Aug. 18, 1918

Dear Ones— Well I am now in France and had quite a trip and saw a lot of things I never expected to see, but we had a nice trip and enjoyed it—only it got rather tiresome to travel so much.

We are not at our permanent camp yet and we are now sleeping in tents, as we have been every since we left Camp Custer, but I expect we will soon get a building to sleep in as it will be too cold to stay out of doors.

The weather is about the same as in Michigan, only the nights get colder.

They are thrashing here now and the other day we pitched in and helped the farmers where we are staying. They use the old horse power outfit and it takes about three days to do what we do in one-half day.

The women and boys do most all the work. They live here the same as we did about fifty years ago. The house and barn is all in one, only it is made of stone instead of frame. They use a lot of oxen yet, although they have horses. The only thing that bothers us is that we can't talk to the people.

I talked with some Belgians the other day—they talk Dutch about the same as we do and I can get along with them alright.

There is a lot of things I would like to write about but you see we can't write about everything we want to so you see it is pretty hard to write a letter.

I will have to close now, hoping this will find you all well.

#### SUGAR WILL COST 10 CENTS PER POUND

#### EQUALIZATION BOARD'S ACTION IN RAISING REFINERY PRICE HITS CONSUMER

Further Advances Are Anticipated During Ensuing Year to Promote Production.

Sugar will be at least 10c a pound to consumers after the slim stocks in the hands of the wholesalers and retailers are exhausted, the increase being a natural consequence of the equalization board's action at Washington Saturday in fixing the price of cane sugar for refiners at nine cents. The present retail price is nine cents. The price for refiners had been seven and three-quarters cents since last winter.

It is anticipated the food administrator will announce the new retail price immediately and it is likely Holland householders will be paying more within a few days.

The equalization board established the new price for refiners on the basis already agreed upon at the behest of the price-fixing committee of the United

States Sugar Manufacturers' association the beet sugar producers' organization. The previous price for beet sugar producers was seven and one-half cents.

This action was taken on the representation of the committee, of which H. A. Douglas, of Detroit, is a member that only by nine-cent price this year and a still higher price next year, could the farmers of the country be induced to raise enough beets to insure capacity production and forestall a shortage.

Cane sugar mills in Cuba, Porto Rico, Hawaii and Louisiana, it was pointed out, are already running to capacity and material to construct new ones is unavailable. There are no ships to handle the Java production.

On the other hand, the 91 beet sugar mills in the United States have a production of 20,000,000 or more bags a season, whereas their actual production this year will not exceed 14,000,000 bags. It is to stimulate beet raising to the end that the mills next year may be able to turn out this additional 6,000,000 bags—600,000,000 pounds—that the increase as granted. The producers take it as an indication it will be followed with still another advance in 1919.

While wholesalers and retailers are compelled under the ruling to unload stocks on hand at the old price, refiners who hold old crop stocks are required to sell them to the equalization board at the former price and then to repurchase them at the new price. This is aimed to prevent profiteering by refiners, jobbers, wholesalers or retailers.

Producers who sign the government agreement will sell through the sugar distributing committee of the food administration. Other producers may sell on their own account provided they agree to dispose of all pulp at prices satisfactory to the food administration.

The new refiner price went into effect at 7 o'clock Monday morning.

It was also made known Saturday that the government has agreed with the Cuban growers on the price for raw sugar of \$5.50 per hundredweight f. o. b., an increase of 90 cents over last year, when Canadian refiners by reason of paying a higher price, were enabled to flood the Dominion with sugar while Michigan and other sections this side of the boundary were suffering from an acute shortage.

#### ARMY CHAPLAIN GETS A PURSE FROM CONGREGATION

#### REV. J. W. VAN ZANTEN IS GIVEN FAREWELL AT METUCHEN, NEW YORK

The Christian Intelligencer this week has the following about Rev. J. W. Van Zanten of Metuchen, N. Y., formerly of Holland, who has left his church to become an army chaplain:

"To the many churches which have been called upon recently to contribute their pastors to the greater work of the world war has now been added the Reformed church of Metuchen, N. J. On Thursday night, August 29, the congregation tendered a farewell reception to the Rev. J. W. Van Zanten, who, after a five weeks' period of training at Camp Zachary Taylor, near Louisville, Ky., has been commissioned as chaplain with the rank of first lieutenant, and is under orders to report at Camp Humphreys, Va., on September 5. In the course of the evening the Rev. N. I. M. Bogert, in behalf of the church and congregation, presented Lieutenant Van Zanten with a purse of \$250 with which to defray the expenses of his equipment, as a very inadequate expression of their appreciation of his patriotic action. In the resignation of the Rev. Van Zanten, which takes effect Sept. 5, the church at Metuchen will suffer a loss which it will be difficult to repair."
