The Primaries Show Much Close Voting

LANDSLIDE FOR SOME; CLOSE
SHAVES FOR OTHERS

Democrats Cast Only 1,000 Votes
in County

The Primaries in Holland and Ottawa County and in the state of Michigan were unusual in a great many ways. Candidate for governor, Fitzgerald, swept the state by over 200,000, captured Ottawa County by a comfortable majority; however, they carried the city. Congressman Carl Mapes won by a deluge of ballots in Holland, Ottawa County, as well as in Kent. The closest race in Ottawa County was between Gilbert Vande Water, Dr. John K. Winters of Holland, and Dr. W. B. Bloemendahl of Grand Haven. On early returns it showed that Mr. Gilbert Vande Water, candidate for coronor, lost the county by 63 votes; however, a report phoned in from Park Township gave the figures at 180. The official returns for Park Township shows, however, that this figure should be 140, cutting down the lead of Mr. Winters 40 votes, thus giving Vande Water a plurality. In the entire county the votes stood as follows: Bloemendahl, 4,996; Vande Water, 4,036; and Winters, 4,008; giving Vande Water a majority over Winters of 33 votes. These incorrect returns were phoned in not by the Park Township election board, but by someone who was getting the returns. The election inspectors had the vote correct at 140 and not 180.

Another close race was for the office of coronor. The combat narrowed down finally to two very close races, namely, Elbert Parsons, City Attorney, and Attorney Raymond Smith. It will be noticed from the tabulated statement that after all the results from cities and rural districts were compiled, Mr. Parsons won in the Primaries by the narrow margin of 86 votes.

There was a total vote cast in the Primaries of 3,876. Less than 500 of those were Democratic votes, the balance being the Republican vote in this city. The results of the city election are found below. While the complete tabulation of the entire county for the Republican candidates are found on the first page of section 2, a similar table covering the Democratic balloting will be found on page 4, section 1. These figures are subject to slight change when the canvass of the voters is taken today, Friday.

The successful candidates on the Republican ticket are the following: For Governor: Frank D. Fitzgerald; Congress: Carl Mapes; State Senator: Judge Vander Werp; State Representative: Nelson Miles; Prosecuting Attorney: Elbert Parsons; Sheriff: Frank Van Etta; County Clerk: William Wilds; County Treasurer: Fred Den Herder; Registrar of Deeds: Frank Bottje; Circuit Court Commissioners: Dan Pagelsen and Thomas Mahan; Drain Commissioners: Fred Van Wieren; Coroners: Gilbert Vande Water and Dr. Bloemendahl; Surveyor: Carl Bowen.

The successful candidates on the Democratic ticket are the following: Governor: Frank Murphy; Congress: James H. Hallwood; State Senator: Earnest Broekman; State Representative: Fred Kamfer; Prosecuting Attorney: Louis J. Stemphy; Sheriff: Frank Wierda; County Clerk: John Vanderburg; County Treasurer: Nicholas Spruiet; Registrar of Deeds: John L. Volkers; Circuit Court Commissioners: William J. Duga, Charles Misner; Drain Commissioners: Albert Teunis; Coroners: Nelson H. Clark, Stuart L. De Witt.

CORONER VANDE WATER

The latest corrected returns show that Gilbert Vande Water, who was declared defeated Wednesday, is today nominated in the Republican Primaries by 33 votes.

THE LIBRARY-MUSEUM BOARD THANKS THE VOTERS

Despite the defeat of the \$85,000 proposal for a joint Library and Museum to be built on the old hospital property, the men and women chiefly interested constituting the Library-Museum Board, wish to thank the voters for taking such a live interest in the fact that their decision at the polls was counter to the desires of those who took such a deep interest in its passage. They feel, however, that the cause is not entirely lost, that the campaign has made the citizens of Holland conscious that better library facilities are imperative and that further education will bear out the fact that a better place to safeguard our Dutch lore through a museum is also very important.

The committee appreciates the efforts of all those who helped in this educational campaign and to the voters in general for their kind consideration of this proposal. This Library-Museum Board is composed of Mayor Henry Geerlings, Mrs. George Van Duren, Mr. Albert Hoeksema, Mr. Wm. Arendshorst, Mr. George Thinholt, Dr. Wynand Wichers, Mr. C. Vander Meulen, Dr. A. Leenhouts, Miss Dora Schermer of the Library Board, and Mr. Willard Winters.

In an interview with Mr. Wichers said, "We believe that a great deal of interest was created which will lead to a better understanding of the opportunities and essential value of Library-Museum service to every citizen of our community, and we trust that Federal aid for construction of a suitable building will be available in the future."

CONGRESSMAN CARL MAPES WINS BY NEARLY 25,000 VOTES

The latest returns, according to a phone call from Congressman Carl Mapes, is as follows: Mapes received 21,367 votes in Kent County. His opponent Jacobson, 2,912. In Ottawa County, Mapes received 7,627 votes and Jacobson, 1,605, giving Mapes a majority in the District of 24,577 votes.

It is still doubtful who will oppose Mr. Mapes on the Democratic ticket. Johnson, the cigar maker, and Hallwood, the preacher, are only about 50 votes apart, and there have been constant changes in results. One hour Hallwood is ahead by a few votes, and then Johnson seems to be in the lead by a nose. However, Caslow, the runner-up, is out of the race, and will be either Hallwood or Johnson.

HOLLAND TOWNSHIP IS THE BANNER PRECINCT

Holland township drew a larger vote by 53 ballots for the Republican ticket than did Zeeland city in Tuesday's primary election. This is according to the vote for the office of governor, which was taken as an average. The township also registered the largest vote of any precinct in the county. The Democrats cast a maximum of 104 ballots. The result of the Republican election in Holland township is as follows:

	Governor—Fitzgerald, 388; Toy, 282; Fitch, 16.
Governor—Fitzgerald, 388; Toy, 282; Fitch, 16.

YOUNG LAD RECOVERING FROM INJURIES

Ronald Klamt, seven years of age, son of Mr. and Mrs. Clarence Klamt, who was struck and injured by an automobile last June 8, was released from the Zeeland hospital, Sunday, where he had received treatment the past fourteen weeks.

He was taken to the home of Mrs. Lewis Marcus near Holland where he will receive care and treatment as well as private tutoring in grade school subjects.

Although he has greatly improved and has been released from the casts that supported his fractured member, he is still unable to be about very much and is unable to attend school. However, hopes are entertained for his complete recovery.

A luncheon was held Wednesday afternoon in the home of Mrs. Phillips Brooks on West 11th St. for members of the Hope church aid society division headed by Mrs. Peter Van Doremel, Jr., and Mrs. Brooks. Covers were laid for 15.

A discussion of business occupied the afternoon. Hostesses with Mrs. Brooks were Mrs. C. A. French, Mrs. P. A. Butler, and Mrs. J. C. Ridenour.

Traveler From Europe Is On The Way Home

STEAMERS ARE FILLED; HARD
TO GET RESERVATIONS

Winnefred Buma, for many years of the Holland Gas Company, whose letters we have enjoyed in the News while on her trip to Europe, is on the way home, that is, if she can get steamer accommodations. Getting reservations, it would appear, is difficult, due largely because of one man, namely, Hitler. Anyway, the letter below from Miss Buma is interesting, and follows:

Woudsend, Friesland, Netherlands, August 25, 1938.

Mr. Ben Mulder, Holland City News, Holland, Michigan.

Dear Mr. Mulder:—Just received my copy of the News of August 11th for which I again thank you very kindly. The previous number had the article of Mr. E. P. Stephan's appointment as head of the Holland Chamber of Commerce. I mailed him a card of congratulations at once.

I expect to leave here on the steamer Statendam either September 10th or 30th, the steamer between those dates being entirely full. Hope business conditions may be so improved that upon my return I may be able to find a position again. I sprained an ankle on July 20th, which laid me up for nearly three weeks; therefore I have stayed on a bit longer by my relative.

We had two very hot weeks here during the first part of August, but it is much cooler now. Hope to call on you upon my return to the States.

Mr. P. Ver Plank and Dr. Brouwer called on Miss Agnes Brouwer, my hostess also, but I was not home just then.

Mr. Mulder, if you send the next two weekly numbers to address below, and then stop, as I will be on my return trip and I will write when back home.

The trip through Switzerland was just grand—a great, fine country in which an American and Hollander feels at home. I was glad to be through Germany. Too tense an atmosphere. Once more many thanks for the Holland City News which kept me posted on so many happenings.

Good luck and blessing be yours, Winnefred Buma, c/o De Boer, Oud Diemerlaan 74, Diemen, Netherlands, Europe.

GIVING PROPERTY AWAY

Ottawa Beach, Mich. Sept. 12, 1938

Mr. Editor:—If I could have my way about a taxing system for this state every man could own his own home free of taxation, liens, levies or risk of foreclosure for the support of a gang of needless politicians.

I have hundreds of back lots in my additions on the north side upon which I have paid taxes for thirty years up to six years ago.

In order to start a demand and get the streets opened up, I propose to give every other lot to some deserving person who can start making a home for himself. Will furnish deed and abstract to twenty-five to start with. Application can be made to John Eilander, Treasurer of Holland Township at his house, 13 Line Road; half a One lot only for each person owning no other property.

Sheriff Polls Hugh Majority On G.O.P. Ticket

(Grand Haven Tribune)

Sheriff Frank Van Etta, Holland, emerged from the four-way race for the nomination for sheriff on the Republican ticket with a tremendous majority over all three opponents rolling up a total vote of 5,932 in 31 precincts. His splendid vote came from every precinct in the county with the exception of Grand Haven township where he lost by four votes and in Robinson township where he lost five. In the other four precincts, the closest run was for coronor.

Ben Rosema, former county sheriff, who two years ago lost the nomination by 99 votes, trailed Van Etta with 2,065 votes in 31 precincts making Van Etta's victory nearly a three to one. Van Etta even carried Rosema's township of Spring Lake.

In Grand Haven Van Etta polled 1,120 votes to Rosema's 535. Spring Lake township, Rosema's home township, gave Van Etta 251 which was 39 more than Rosema received.

William Boeve, former deputy sheriff, polled a total of 1,201 votes in the county; and Marvin Den Herder, also a former deputy, received 711.

On the Democratic ticket Frank Wierda, Holland, won the nomination with 788 votes to George Caball's 463 with 27 precincts reported.

Frank Van Etta two years ago polled a total of 2,171 to Rosema's 2,072. He has served one term as sheriff having been elected to the office at the general election.

William Wilds with no opposition on the Republican ticket polled 7,265 votes in 28 precincts. John Vanderberg, Grand Haven candidate on the Democratic ticket with no opposition, polled 1,144 votes in 27 precincts.

BEAVERDAM FARMER IS HURT

SIXTY YEARS AGO TODAY

The German population of Grand Haven has organized a separate lodge of all German Odd Fellows, numbering 317. Note:—Ganging up already as early as 1878, it would seem.

The worst thing about a mosquito is its long sallowy as to where and when it had better settle down and bite. Note:—Sixty years later it is debatable whether the sting of the "skeet" is more annoying than the stink of the fly spray.

On Saturday afternoon, late, a fire alarm was sounded by the steam tug "Twilight" and every eye was turned toward Black Lake at once. It was soon ascertained that Van Dyke and Co.'s sawmill was on fire on the north side. The distance from the city made it extremely doubtful that we could get there in time to do any good, whereas we could see the windward side of the mill enveloped in flames, before leaving the city with the hand engines from Eagle Hose Co. No. 1 and Columbia Hose Co. No. 2. However, our firemen pressed teams of horses in their service and left at a gallop for the scene of action.

A rowboat lying at Harrington's dock at the foot of Fifth St. also took over a lot of men to assist—in time to do so; and the brave millhands and owners reinforced by Mr. George Metz and his band brigade and after a heroic struggle of 15 minutes completely subdued the flames and put out the fire. It was a hard fight, well fought and our firemen arrived just too late to render assistance.

Van Dyke's sawmill was located on the site of the old Vaca-tap, now a storehouse for the H. J. Heinz 57 varieties. The Van Dykes in the early days were the most prominent family in the present Beechwood district. They were a fine class of citizens harking back to pioneer and Civil war days. Most of them settling on the "north side." George Metz then owned a tannery on the site of the present Armour Leather Co. plant. The leather works were evident from the south side marked by a tall brick stack that stood as a sentry on the shores of the bay. Mr. Metz many years later sold the tannery to the Cappon Leather Co. and owners of Holland's largest manufacturing plant. Its south side plant and bark industry covering nearly two city blocks. The old site had played an important part in council meetings recently when "Casey" Kalkman repeatedly demands it be submitted to a vote, he seeking to have Holland own and utilize it for municipal purposes. Anyway, the Metz tannery became the C. and B. north side leather plant. Some 24 years ago it was acquired by the Armour Leather Co. The south side plant was dismantled and the north side plant greatly enlarged. We have described the old fire hand engine before. These were our first and only method of fire fighting.

Holland is at present a missionary center, representatives from all parts of the mission field are here on furloughs, which occurs every seven or eight years. The number includes Rev. and Mrs. John Bannix and Rev. W. F. Farrer of India; Rev. and Mrs. Harry P. Bost and Rev. John A. Otte and family of China; Rev. H. V. Peeke and family and Rev. and Mrs. O. A. Oltmans and family of Japan; Rev. and Mrs. W. Hazenbush of Africa, and Rev. James E. Moordyk of Arabia. All are graduates of Hope college except Mr. Farrer.

FIFTY YEARS AGO TODAY

Mr. and Mrs. J. Essenbagers were made happy by the arrival of a baby boy last Wednesday, Aug. 29. Mr. Essenbagers is Pensink Bros' chief baker. Note:—Some of Mr. Essenbagers' sons still live in Holland. This Hollandish baker was the first to introduce "cream puffs" in Holland. Pensink Bros. were located on the site of the present DuSaar Photo Shop on East Eighth St. The brothers were John and Gerrit. The latter became a rural carrier later and is still living, spry as they make them, at 80 and over.

Married—Last Tuesday afternoon by Rev. E. Vander Vries, pastor of Central ave. Christian Reformed church, at the residence of the bride's parents, Mr. and Mrs. B. Kuidener, Cedar st., near Main, their daughter, Mrs. Anna J. Kruidener, to Mr. Henry Van Woerkem of Grand Haven. The Holland City News staff, with whom they are well acquainted, wish them a happy and prosperous future. Note:—The couple still live in Grand Haven, have reared a fine family of sons and daughters and have just commemorated their golden wedding. Cedar and Main sts. are now College and Eighth sts.

Gerrit Van Schelven, editor of the News, purchased the residence of J. Vander Ven, corner Thirteenth and River sts. Note:—The home is still occupied by the Van Schelven family.

Mr. Henry Geerlings of Holland and a graduate of Hope college, left last Wednesday for Chicago, where he will enter McCormick Theological seminary of the Presbyterian church. Note:—Yes, our own mayor for several terms graduated as a minister, his one and only charge being at Decatur, Michigan. He preferred to be a banker and has been that for 48 years. He also is, and has been secretary of the Board of Education for 40 years. Today his religious articles and Sunday school lessons appear in all the local and religious publications.

Forty Years Ago Today

Last week the school bell on the Central school building on Tenth st., which was cracked some years ago, was replaced by a new one. Holland is rather unfortunate with its church and school bells. Just as present the bell on Third Reformed church makes a doleful appeal for renewal. Note:—It was renewed with the loud resounding bell it now has.

Old Dobbin Still With Us

Those who think old Dobbin has passed out of the picture might pause for a moment to consider the results of the World Horse Traders Convention held recently on the farm of President George Kame, near Almond, N. Y., where David Harms from New York, Pennsylvania and even more distant points gathered for a four-day swapfest. More than 5,000 cars brought 9,000 persons to the convention, and upwards of 2,000 deals were made.

While it is true that there is a steady decline in the number of horses in the country, because of mechanical advancement, it is hardly probable that anyone alive today will see the time when horses are sufficiently scarce to draw more than a passing glance.

In 1925 there were 16,401,000 horses in the United States. In 1930 this had shrunk to 13,511,000. In 1935 the United States Census Bureau count disclosed a total of 11,868,000.

It is interesting that Michigan, with all its prominence as the center of the automotive industry, and its universal adoption of this mode of transportation and haulage on the farm as well as in cities, still ranked thirteenth among the states in the possession of horses in the census canvass of 1935, with 377,000 to its credit.

Unbelievable as such figures may seem in connection with the ever-present motor car, that is considerably better than one horse for every four of Michigan's boasted 1,239,461 automobiles in the same enumeration.

Green for "Go Ahead"

(Chicago American)

Speaking at a Labor Day mass meeting, President William Green of the American Federation of Labor made some thoughtful observations that merit the consideration of every American worker and employer.

Discussing unemployment, Mr. Green said:

"... Unemployment can be mastered only through the creation of work opportunities in private industry. We have learned through experimentation that government spending for relief purposes and in public construction affords only temporary relief. It does not provide a real remedy.

"An obligation rests upon all of us to establish industrial equilibrium to provide for the absorption of the unemployed in private industry."

The labor leader contracted the causes of unemployment—in 1932 a financial crisis; in 1938 fear. He declared the national problem today was the removal of a bad psychology.

Pointing out that funds, raw materials and skilled workers all are available, Mr. Green declared that progress would result when industry and labor were able to work out mutual problems TOGETHER. He declared for the highest possible degree of freedom in management and operation of industry by private ownership; for wages as high as industry can afford; and that collective bargaining should be recognized as a benefit to both workers and industry.

All agreements, he proposed, should cover a fixed period so that definite eras of industrial peace could be established and the nation's economic life would not be disrupted by outbreaks in key plants.

Fully recognizing that strife is costly both to industry and wage-earners, the labor leader urged both sides to settle disputes by conciliation and compromise, for their own good and that of the nation. His forward-looking views deserve the thoughtful consideration of every American eager to speed the return of national prosperity.

Relatives were notified here of the death of Mrs. C. Breen of Glendale, Cal., former resident of Holland.

Herbert Chapman, of Holland, will continue work at Michigan State College in the 1938-39 school year, which opens September 20, as holder of an alumni scholarship.

The scholarship, one of which is awarded a freshman student from each senatorial district each year, may be renewed because of high scholarship maintained by the recipients. The scholarships are equivalent to \$90 in college fees.

Chapman attended Michigan State College last year on an alumni scholarship and will begin his sophomore year this fall.

School opened last Tuesday with about the usual number of Pennville high school students, except the kindergarten enrollment of 23, comparing with 12 last year. More tables, chairs and equipment will be bought. An increase is shown in the interests of home economics, almost double the amount over last year taking the course. Twins are registered in the senior class, William and William Bushee, children of Mr. and Mrs. Archie Bushee, and in the kindergarten, Lois Ann and Mary Lou, daughters of Mr. and Mrs. Lawrence Bale.

Senator and Mrs. Ernest C. Brooks and family have returned to their home on State St., after having occupied a cottage at Macatawa Park this summer.

NEW CHAIRMAN OPENS FIRST MEETING OF EXCHANGE

Attorney Vernon Ten Cate appeared for the first time as president of the Holland Exchange club at the first regular fall meeting held Monday noon at the Warm Friend tavern.

Lyle Broughton of Jackson, new state Exchange club president, was the guest of honor and spoke briefly. He was presented with a pair of wooden shoes by Mr. Ten Cate on behalf of the local club.

Mr. Broughton complimented the Holland club for its work for child health through its Goodfellows foundation.

The main address was given by the Rev. P. E. Hinkamp who recently attended the national four-day Exchange club convention at Salt Lake City, Utah. Accompanied by Mrs. Hinkamp, he made a trip of 4,356 miles to this convention and back, passing through 12 states and visiting several state capitols. The Salt Lake City club of 150 members was the host and was assisted by a club of 50 members at Ogden, Utah.

The club delegate told of the excellent location of the host city and of the many entertainment features on the convention program. The keynote of all the addresses, he said, was "Americanism" and the greater need and appreciation of the privileges "we still have as American citizens."

Rev. Hinkamp told of the impressive service held each year in memory of the club members who have died during the past year. The name of Thaddeus Taft, former head of the Rose Cloak Store, Holland, of the local club was included in this roll of deceased members.

Mr. Ernest V. Hartman of the Exchange education committee took charge and formally welcomed two new members, Ben F. Harris and J. D. Senevey, who joined during the summer. Copies of the Exchange covenant were presented together with the coat lapel buttons.

The annual report of the treasurer, Alex Van Zanten, was distributed in printed form and the auditing committee, with Ben Staal as chairman submitted its report of approval. The club membership remains at the maximum of 100.

NOT SO MANY STUDENTS IN PUBLIC SCHOOLS

Enrollment in Holland's public school system is slightly less than last year when schools here opened, according to Sept. E. E. Fell of the public school system. Entering of late students will likely bring the number of students to equal that of last year, if not surpass it, school authorities believe.

In the three systems, 3,788 students are enrolled, with 2,976 in the public schools; 720 in the local Christian school system, and 92 in the Catholic school system. In the public schools, there is a decrease of 22 students; in the Christian schools a decrease of 21, according to the Supt. John Swets; and in the parochial system, 13 less than last year, according to Father John Westdorf.

MISSIONARY SOCIETY ATTENDED BY 60 WOMEN

Bosch were chairmen of the luncheon committee. They were assisted in arrangements by the Mesdames N. Bosch, E. C. Brooks, W. C. Kools, M. C. Lindeman and D. Biemelt.

FDIC Is Endeavoring to Find Risk of Hiking \$5,000 Limit

Chairman Leo T. Crowley disclosed Monday that the federal deposit insurance corporation at Washington, D. C., was studying the possibility of insuring bank deposits above the present \$5,000 limit.

Monday's mails carried to 13,719 insured banks of the country, including the two Holland banks, a questionnaire asking a breakdown of their deposit accounts below \$5,000, between \$5,000 and \$10,000, between \$10,000 and \$25,000 and more than \$25,000. Crowley, recalling that Chairman Steagall, Democrat of Alabama, of the house banking committee advocated the increase, said the FDIC wanted to find out how much extra risk would be involved.

Crowley declined to commit the corporation in advance of the survey, but he expressed belief that if the additional risk were found very small, there would be little or no objection to increased insurance.

95 Per Cent Covered

Previous estimates have shown that 95 per cent of the nation's deposits are covered by the \$5,000 limit insurance now provided, but no recent studies have been made and deposits since have grown to the near-record total of about \$47,500,000,000.

The talk of the higher insurance, Crowley explained, is not because of any weakness in the banks. He said they were in "excellent" condition. Despite the business recession, he said, only 38 banks suspended in the first half of 1938; 5 of those had not been able to get insurance. Both Holland banks are among the thousands of "excellent" ones and both do business under the federal law insuring depositors each up to \$5,000.

Five applications for building permits, totaling \$565, were filed with City Clerk Oscar Peterson. The applications follow: J. H. Van Blais, 228 Washington Ave.; asbestos siding to home, \$200; Jacob Zuidema, 95 West 15th St., repairing and altering interior, \$100; U. R. Stevenson, 311 River Ave., new asphalt roof and rebuild chimney, \$140; Frank Eby, 54 West 12th St., re-roof porch with asphalt roofing, \$25; Mrs. A. Last, 21 East 20th St., re-roof home with asphalt roofing, \$100.

E. E. Fell, superintendent of public schools, is confined to his bed today with illness. He has somewhat improved.

PORCELAIN INSULATOR BELIEVED CRACKED BY BOYS' GUNS; RAIN ADDS TO TROUBLE

A short circuit in the 66-voltage loop, that serves the industrial plants in Grand Haven with light and power from the municipal plant was caused this morning when several porcelain insulators near the Kiddie Kover plant, that had been damaged, broke down under the rainstorm.

Power and light was shut off from the local industries from 15 minutes to about an hour. The line was sectionalized and repairs were made. The greatest loss of time occurred at the Oldberg Manufacturing plant, Peerless Novelty Co. and Story & Clark Piano Co.

J. B. Sims, superintendent, stated that the insulators had apparently been shot at and cracked and under the stress of the storm had broken off completely which caused the breakdown on the line. Some boys were seen shooting in the vicinity several days ago and it is believed that the insulators were damaged at that time.

Lights in some sections of the city flickered and some electric clocks were stopped. The repairs were made by the linemen within an hour and after 15 minutes the majority of the plants were in operation.

Judge Fred T. Miles last week attended the annual convention of the Michigan Association of Circuit Judges at Lansing.

Max Cummer, 21, 8 East 12th St., was sentenced to 90 days in the county jail by Justice John Gallien when he pleaded guilty to a drunk charge, after the car he was driving "ran wild" at the city, Friday, and collided into a tree in the yard of John Y. Huisenga. His driver's license was revoked. Two other occupants, Lester Simmons, 184 West 17th St., and Julius Newman, 291 West 19th St., pleaded guilty on similar charges. Simmons paid a fine and costs of \$14.55, and Neuman must serve 10 days in the county jail, and was assessed a fine and costs of \$10. Deputy Sheriff William Van Etta investigated the accident.

Death came suddenly Friday evening for Mrs. Jean Teusink, 30, Chicago, wife of Gerald Teusink, formerly of Holland. Teusink is the son of John Teusink, 553 State St. Survivors are the husband; her mother, Mrs. Thomas Kennedy, and her brother, Kenneth Kennedy, all of Chicago. Funeral services were held from Buena Memorial Presbyterian church, Chicago, with burial in Overisel cemetery.

NEW RAYON CORD TIRE GAINS STRENGTH AS TIRE-HEAT INCREASES

The ever-increasing demands of a safety-conscious motoring public have resulted in the development of an entirely new type of passenger car tire, which is constructed of rayon cord and is expected to relegate blowout dangers to an absolute minimum. Ever since the invention of the pneumatic tire, cotton, in cord or fabric form, has been the basic material used in the construction of the tire carcass. The change-over to rayon cord (100% cotton base) makes possible the building of a tire with a higher safety factor and a resistance to blowouts beyond anything ever achieved before. Mr. Harry Weiskamp, manager of the local Montgomery Ward Store, East 8th St., where this new rayon cord tire is now in display, has this to say about the use of rayon in tire-building: "Rayon's principle advantage over cotton is its ability to withstand heat, the greatest enemy of tire mileage. For example: consider a cotton cord containing normal atmospheric moisture that has a tensile breaking strength of 20 lbs. When this cord dries out its strength drops to approximately 16 lbs. Rayon is exactly the opposite, when dry its strength is 23% greater than when it contains moisture. Now the real significance of this is lost unless you remember that when a tire is in service it heats up. The tougher the service, the more it heats, and naturally the heat dries up the moisture in the cord, causing it to get weaker if it is cotton, stronger if it's rayon. Nothing could be more fundamental or logical than that."

HIGH BAROMETER MARK MEANS GOOD FISHING

"Watch the barometer and take the guesswork out of fishing." That is the advice of Brainard C. Snider, veteran newspaper editor and amateur sportsman of Lincoln, Ill. He says that barometer readings on 115 days last year established the fact that 94 times out of 100, fish bite best under high atmospheric pressure and least under low pressure.

PAYS FINE ON DRIVING WITHOUT LICENSE

The report received at Zeeland last week stating the truck driven by Michael Nevison of Holland was operating under an expired license was an error. The truck belonged to John Van Dam, distributor of beverages, and was not operating without license. It carried the necessary license.

Earnest Brooks Victor Over Muskegon Man

MUSKEGON LEADER IN CIO TOPS DEMOCRATIC FLOOR LEADER, LOSES IN OTTAWA

(Muskegon Chronicle)

State Sen. Earnest C. Brooks, Holland Democrat, was nominated as a candidate for re-election in an unexpectedly close contest Tuesday's primary election. He defeated Arnold B. Coxhill, of Muskegon county, a CIO leader, by about 500 votes by virtue of a vote of nearly five to one in Ottawa county. Coxhill received nearly 300 more votes than Sen. Brooks in Muskegon county.

The CIO leader was ahead until early yesterday when Holland returns were received and Sen. Brooks overcame the margin and forged ahead as additional Ottawa county precinct returns were reported. Total vote for the 75 precincts of the Muskegon-Ottawa district was: Brooks, 2,692, and Coxhill, 2,111.

Opposing Sen. Brooks for election in November will be John Vanderwerp, of Muskegon, former state senator, probate and circuit judge, who defeated Hunter Herring, Ottawa county supervisor and Leon D. Nobes, of Muskegon. Mr. Vanderwerp, also of Muskegon, won handily, polling 9,269 votes to 3,775 for Herring and 2,158 for Nobes. Both counties gave him large majorities.

In Muskegon county he received 4,164 and in Ottawa, 5,105. Herring received 3,063 in Ottawa, and 712 in Muskegon. Nobes was given 1,573 votes in Muskegon county and 585 in Ottawa.

Coxhill received 1,866 votes in Muskegon county to 1,574 for Sen. Brooks. In Ottawa, Sen. Brooks polled 1,118 to 245 for Coxhill. The result in Muskegon county came as a surprise to political observers who remembered the decisive defeat given Coxhill last spring when he sought to be elected Muskegon township supervisor, but was downed by Ralph C. Todd who outdrew him four to one.

Sen. Brooks sponsored much of the administration's legislation at the last regular session of the state legislature and was floor leader at the special session last month, taking the place of Sen. William Palmer, of Flint, who resigned. If Sen. Brooks is re-elected he is expected to become the administration's leader at the next session.

IN LAKE MACATAWA

After a very quiet summer season, fishing on Lake Macatawa is improving. Night catches of white and speckled bass from the houseboats have been exceptional. Silver catfish also are being caught at night. Perch fishing outside the piers is very good.

The first case to come up will be **Swan A. Miller vs the Macatawa Resort Company**. Another case of importance is one of **John W. Miller vs the Macatawa Resort Company**, charged with rape.

V.F.W. News

Our next regular meeting will be on Thursday, Sept. 22 at 7:45 p. m. Everybody out. Ladies Auxiliary meets same evening in G.A.R. room in the city hall.

Now that we are back on our regular schedule, let's "All" turn out and do bigger and better than ever.

Our Adjutant was missing at the last meeting. Probably getting the Greyhound schedule straightened out for next Fourth of July.

Even our old pal, Dixie Hyma, was at our Fun Party last Friday which shows that our Fun Parties really are fun.

Maurice Huyser is still confined in the Soldiers' Home hospital. Don't forget to drop a card.

It's about time we were rounding up our old members, meaning every member bring a member. Remember our old slogan—if you were in the A.E.F. you belong in the V.F.W.

Comrade Hardenburg is confined in the Hines Hospital, Hines, Illinois. Remember, it is your duty to send a card.

Still waiting for our Fennville Comrades to report at our meetings.

Pete Siemsa has no excuse. So he better show up before somebody goes after him.

Comrade Tiesenga is pretty busy with his golf lately. We might have a golf champion in our fold.

Remember our Fun Party on Friday evening at 8 p. m. Public invited. If you can't come, send a friend.

Comrade Kolmar gave us a very good report on our National Convention. According to reports and clippings, it was one of the biggest and best (including the parade) of all organizations, barring none.

Our winter session is now setting in, so we might expect some of our comrades to start a bigger and better misplaced eyebrow contest (or what they would like to call a mustache.)

Reports from Zeeland high school football training field indicate that Coach Leon Kleis has a hard task before him this year. Forty candidates have appeared thus far but, according to the coach, he has as yet found no huskies capable of filling the shoes of Winston and Nierel, lost by graduation. Kleis has sent out call for more freshmen and sophomore candidates since only 11 freshmen and four sophomores have appeared. The problem for this year is the line which does not promise weight. In the backfield a veteran quartet is available in Van Eden, Van Kley, Schrottenboer and Nieboer, all veterans of last year. A second string backfield is made up at present of Bortje, Gebben and Warren Baar. The punting this year will undoubtedly be done by Schrottenboer and Dooner Van Kley, while the passing may be entrusted to Schrottenboer, Van Eden and Gebben. Gebben is a southpaw. Looman and Vander Meulen are possibilities for center, while others who look good are Kraai at tackle, Don Van Dragt at guard or tackle, Bos, guard or tackle, Rich Baar, Ten Have and Dooner Van Kley at ends. A freshman-sophomore game is to be played some time this year while the varsity reserves will meet Holland.

D. A. Heath of Saugatuck has purchased the Walts corner store on Butler St. in that village, from the Walts estate.

A total of \$8,975.50 of employment compensation insurance has been paid out of the Holland office, Jack Barendse, local manager, stated Wednesday.

State primary monies for the year are being distributed by Nicholas Spruiell, of Holland, county treasurer, to cities and school districts in Ottawa county. The total is \$186,688.08.

The enrolment of Saugatuck school is 207 pupils.

Mrs. Grace Pels, formerly principal of Holland Christian grade school, is guest at the home of her brother, the Rev. L. Van Laar, pastor of Prospect Park Christian Reformed church. Mrs. Pels will take post-graduate work at Ann Arbor. She is a missionary teacher in China. For the past few months Mrs. Pels has been touring the continent, prior to her coming here for an extensive stay.

Among those from this vicinity attending the youth rally at Moody Bible Institute last week-end was Miss Cornelia Haan, rural route No. 5.

Meryl Wolfgang, four-year-old son of Mr. and Mrs. Herman Wolfgang who reside three miles east of Glenn, Allegan County, was fatally burned Tuesday when he was playing with gasoline and matches near the barn. He had found a can of gasoline and was pouring it into a bottle when it ignited. His clothes caught fire and his sister ran to the house for water which she threw on him. He was taken to South Haven hospital and died between 9 and 10 p. m. The funeral will be held Friday.

ALLEGAN FAIR

OPENS SEPTEMBER 29

Final preparations for handling the thousands of visitors expected to attend the eighty-sixth annual Allegan County fair, September 29 to 30, were announced this week by E. W. DeLano, president of the fair association. Beginning with the grand opening day festivities dedicating the new 4-H club building one week from last Tuesday, the five big days and nights of this annual event will furnish complete entertainment for each and every visitor.

Lawrence O'Neill, director of the bureau of agricultural industry of the State Department of Agriculture, will be the principal speaker at the dedicatory program September 29, Mr. DeLano stated. In addition, the arshall 4-H club orchestra, noted as the finest organization of its kind in the state, will share honors with the Consolidated high school band of Allegan county in furnishing musical entertainment for the gala occasion. Hermann Priebe, conductor of the Allegan high school band, will have charge of the county organization.

Every school child in Allegan county and surrounding counties will gain free admission to the fair grounds on that day to participate in the annual Children's day hilarity. The big attraction for them will be the bicycle races and pony races on the track in front of the grandstand. All kids who expect to enter should get in contact with Leon Kolwood at the Handy Electric Mills before the day of the races. Every entrant in the bicycle races will receive a merchandise prize, while cash prizes will be offered in the pony races.

Special rates for children will prevail at all concessions on Tuesday, while grandstand admission will be only 10 cents for them on that day, to see the complete routine of free acts.

AMERICAN LEGION NEWS

The next regular meeting of the Post will be held on Wednesday, September 28th, same place, same time.

Our new Commander, Tony Deger, held his first meeting on the 14th.

The regular meeting of the American Legion Auxiliary will be held Monday evening at 6:15 for a pot-luck. Bring one dish for the table and your own dishes. There will be a regular business meeting, reports of the convention, election of officers, and a memorial service.

The new billiard table and pool table have been set up and the boys kept the balls warm the entire evening. Heavy screens are at the windows, just to keep the balls in our own room.

The delegation from Holland to the National Convention at Los Angeles have left town. The Joldersma's went by auto last Saturday, and the Van Tongeren's by rail on Thursday.

Sometime during the coming week you will receive your appointment to act on the lunch and entertainment committee. Be ready to do your stuff on the date set for you.

As a result of some discussion at the last meeting, the Club rooms are due for a cleaning, washing, dusting and mopping to get the place ready for a busy season. Some minor changes in arrangement might take place.

The Boy Scout cabin is also due for a going-over, new chimney, windows, etc. The Scouts will also have the pool table that we used last year.

The membership campaign will get under way very soon; and you will be solicited for your dues most any day. When this time comes, be prepared; it wouldn't be a bad idea to leave your three bucks at home or with one of the Legionnaires so you can be counted among the first to sign up.

And bear in mind that the meetings will again be held on the 2nd and 4th Wednesdays of each month and that the members may use the club rooms any time, except when the Auxiliary have their meetings.

Richard Swigardt of St. Louis, Mo., Michigan field representative for the American Red Cross, has arrived in Holland for a series of conferences with Mrs. Mabel Vandenberg, executive secretary of the Ottawa County Red Cross chapter, in connection with the annual roll call. Mrs. Vandenberg stated that the roll call will open Nov. 11 and continue through Thanksgiving in Ottawa county. Marinus De Fouw, Phil Vicari and Abe Stephan, secretary-manager of the Holland Chamber of Commerce, went to Muskegon last night, attending the annual banquet meeting of the Greater Muskegon Association of Commerce, W. J. Cameron of the Ford Motor company of Detroit, will be the principal speaker.

SUNDAY DINNER Suggestions

By CORA ANTHONY
Director of the A&P Kitchen

NIGHTS under a blanket are a great restorer of heat-dulled appetites. With September foods to call on and September appetites to enjoy them, more and more substantial foods are desired by the average family. Meats, poultry and butter are appreciably cheaper than last year at this time. Eggs are considerably higher, fruits and vegetables average about the same.

Cool weather fosters the growth of salad greens, the cabbage family, spinach and of peas, slows the production of sweet corn and tomatoes, but all will be found available at low to moderate prices.

Here are menus made up of seasonable foods.

Low Cost Dinner
Beef and Kidney Pie with Biscuit Crust
Mashed Potatoes Green Beans
Bread and Butter
Spicy Bread Custard with Raisins
Tea or Coffee Milk

Medium Cost Dinner
Braised Beef Potatoes
Creole Eggplant Cole Slaw
Bread and Butter
Spanish Cream with Sliced Peaches
Tea or Coffee Milk

Very Special Dinner
Roast Duck Stuffed with Celery and Onions
Sweet Potato and Apple Scallop
Green Peas
Tomato Salad
Bread and Butter
Lemon Sponge Pie
Coffee MILK

He Who Thinks
Like a Fish Is
Good Fisher; But—HOLLAND FISHERMEN MIGHT
BENEFIT BY THIS ARTICLE
AND PRACTICE FISH
THINKING

What the state department of conservation needs is somebody who can think like a fish. With Holland's nearly 1,000 members of the Fish and Game club one might be found with that qualification.

If such a person could be found he would have a full time job answering inquiries the department receives concerning the idiosyncrasies of the fishes that baffle even the best of fishermen. Why do fish bite one hour and not the next? Why do they take bait at a depth of say five feet but at the same time ignore the same bait at a depth of six feet? Why do they only stare with apparent utter boredom at the minnow on the hook one day and on the next day in the same spot rush at it voraciously? Why is it that one fisherman gets all the bites while an equally expert fisherman, sitting in the same boat and using the same bait, same amount of line and identical gear, gets none?

Unfortunately the department boasts nobody with the tastes and prejudices of a fish. Therefore, reasons for what is broadly called fisherman's luck can only be speculated upon.

However, there is one plausible, though not yet provable, explanation of why fishing generally seems to fall off during hot weather. All species of fish have certain water temperature preferences. If a hot spell of weather warms the water to gradually increasing depths, those fish which prefer lower temperatures will naturally go deeper. Equally true is the fact that low temperatures make some species of fish sluggish. So it might be said for some species the fish go down as the temperature goes up while for others the fish go up as the temperature goes down. That would seem a reasonable explanation of why the same kind of fish may be found in the upper layers of the water this week and in the lower layers next week. All the fisherman has to do, then, is find the layer of water which the kind of fish he wants is circulating in on the day he is fishing. Simple, isn't it?

Of course, there are other factors, one of the most important of which is food. Successive crops of fish food are growing in the water as successive farm crops grow on land. Trout, for instance, tend to feed near the surface of the water when the May flies are out. Then another kind of food crop may come along and they may stay below. Such changes undoubtedly have an effect upon what kind of bait fish will be interested in at different times. All the fisherman has to do, therefore, is determine what kind of bait is the nearest like the kind of natural food the fish are feeding on at the time. That's simple, too.

One thing which can be said with certainty is that many reports of certain "lakes" or certain "spots" being "fished out" are unfounded. Fishermen frequently despair when a favorite place which has always been good for a satisfactory catch has over a long period begins to yield less and less. "Fished out," is their conclusion. But the fish that once inhabited that place may merely have moved out, due to changes in vegetation, bottom conditions, water temperature, pollution or some other factor which made the area a less suitable environment. The thing to do is find out where they have moved to. That's equally simple.

Obviously, catching fish is altogether quite simple, provided one can think like a fish and think where a fish would like to go, and then go there, too.

The job, however, has not yet been filled.

Jonathan—Courageous Friend-ship—I Samuel 20:4-17.

Henry Geertlings

Jonathan was the son of a king. David was a son of the subject of the king. Nevertheless, a friendship sprang up between them that was as beautiful as it was sincere. It was as enriching as it was great. It was as lasting as it was deep. David distinguished himself in the eyes of Jonathan when he slew the great, blustering and fear-inspiring giant. Jonathan recognized the bravery in David's deed and that caught his own soul, for he, too, was a brave man. This famous friendship thus had a good beginning. When two people discover in each other a kindredness of quality they are drawn to each other. Like attracts like. But there was more in the two men than bravery. Jonathan's friendship was disinterested; that is to say, there was nothing selfish in it. He was heir to the throne and he knew the prospects of David with the passing of Saul, but this made no difference. A smaller man than Jonathan would have been jealous and uneasy and suspicious and would have been glad to get David out of the way as soon as possible. But the fact of the matter is, he did everything to preserve the life of David and to promote his interests. This is extraordinary conduct. It is a unique attitude. It gives us the measure of Jonathan and of his beautiful and high-minded friendship.

David, on the other hand, was great in soul also. He loved Jonathan not selfishly, but for love's sake and its own enriching values. They were two men unusually drawn to each other by reason of the purity of their souls, the strength of their minds, the

warmth of their hearts, the clarity of their spiritual vision, the mutually sympathetic understanding of their natures and the oneness of their untainted purpose in life. Jonathan wanted David to succeed. David had no thought of depriving Jonathan of anything that belonged to him. He was no usurper. He was the anointed of the Lord. Jonathan was no hinderer of divine plans. He was the friend of God and of God's man. David was a man of destiny. Jonathan was the man who was willing to help him on the way to his divinely appointed goal. So they understood each other. Each wanted the other to be first. Each had a love that would die for the beloved. Things of the world were secondary to things of the heart. Their hearts dominated them and guided them on through the tumultuous every-day of their experience. It was really the friendship of these two men that saved David for his great place in the after-days of the kingdom.

Of course God always has a way of securing the arrival of His appointed ones at their goals, but it is still true that David might not have been David the great had it not been for Jonathan the brave,

the faithful, and the true. It is possible that we give too little place to this friendship of Jonathan and David in our thinking in the development of the kingdom. We are liable to consider the friendship of these two men just as a beautiful friendship, just as the epoch of two great souls. This friendship is beautiful and pure and the kind of which we see far too little, but still it was a golden bridge over which David crossed successfully to the throne of Israel. A friend saved a friend for the throne of which otherwise he might have been robbed.

There are lessons here for us to learn. Friendship asks that there be something of likeness between friends. Of course, no two people are just alike in every respect. That is one of the glories of our individuality, but at the same time there must be some common ground upon which two souls may meet. There must be a mutuality of understanding. There must be some like qualities in order to attract. One soul must be able to see in the other soul and still love in spite of what it sees.

Then there must be the ability of each to appreciate the other. Stupidity could hardly be tied up

Rattlesnake
Bites Seldom
Prove Fatal"SKIN FULL" OF WHISKEY IS
POOR REMEDY—BETTER
METHODS PRESCRIBED
BY EXPERTS

The writer remembers back a half century when several folks were bitten by rattlesnakes, especially among the blackberry pickers. Wild blackberry bushes grew in profusion everywhere around Holland, especially on the borders of woods or in clearings. These bushes created fine cover for wild life and the rattlesnake then seemed to select them as a hiding place and pickers at first were unaware of their presence until bitten. Anyway snake bites were not infrequent and often the "whiskey cure" was used and the patient got well after a forced drunk. The writer does not remember a single death in this vicinity of snake bites, nor do the files of the News chronicle such death. The reason is obvious as will be seen further in this story.

A story on the effect of snake bites on humans and the remedies used to prevent the poison from doing too much damage to the heart makes interesting reading.

The snake perhaps is the most feared, loathed and least understood of all our wild life. This judgment is undeserved and unfair, for study and fair treatment show that the majority of reptiles are beneficial and harmless.

The arch villain of North American reptiles is the rattlesnake, ranging over a great area and having many species. During a residence of over 30 years near the Pennsylvania "jungle" I have seen and studied hundreds of cases of rattlesnake bites and a few words on the subject should prove of interest to sportsmen.

It is amusing to hear some of the home remedies and nostrums suggested and often used for a snake bite. One neighborhood authority recommends a poultice of onions and snuff on the wound, another claims that pure mud is a sure cure while many believe that whiskey in large quantities will cure the patient every time. One writer of western stories claimed that the Indians and plainsmen, when bitten by a snake, would pour a small heap of gunpowder on the wound and touch it off, thereby cauterizing and ridding the bite of venom. While the first mentioned methods cannot do much additional harm, the cauterizing of a bite is doing the worst thing possible—sealing the poison in.

Give Stimulant

When a snake strikes it injects venom into the wound. This venom is carried to the heart by the venous blood. At once a tourniquet must be applied between the wound and the heart and next, short, deep incisions with a sharp instrument should be made to promote free bleeding from the bite. Sucking the wound aids free bleeding. A stimulant should then be given to speed up the circulation and a physician called or the patient moved where medical aid can be had.

The after effect of large quantities of alcoholic liquors more than counteracts the stimulating action. Little Venom

The amount of venom from a timber rattler is greatly overestimated. Based on years of observation, it seems that a healthy, robust adult will in most cases recover from a timber rattlesnake bite with no treatment whatever. The snake might not be full grown or had made a glancing or shallow wound. It requires several hours for a reptile to reabsorb its poison sacs and the snake might have used some venom just prior to striking a person. A deep bite from a full-grown snake is the remote exception rather than the rule.

Since over 90 per cent of the snake bites I have seen were on the lower parts of the arms and legs, the wearing of a pair of high top shoes or leather leggings and a little care where the hands are placed will give nearly a 100 per cent snake insurance. Rattlesnakes can bite through heavy shoes or leggings never have existed. If a snake does bite you, keep cool and you will live.

Streamlined Train Service NOW SPANS COUNTRY

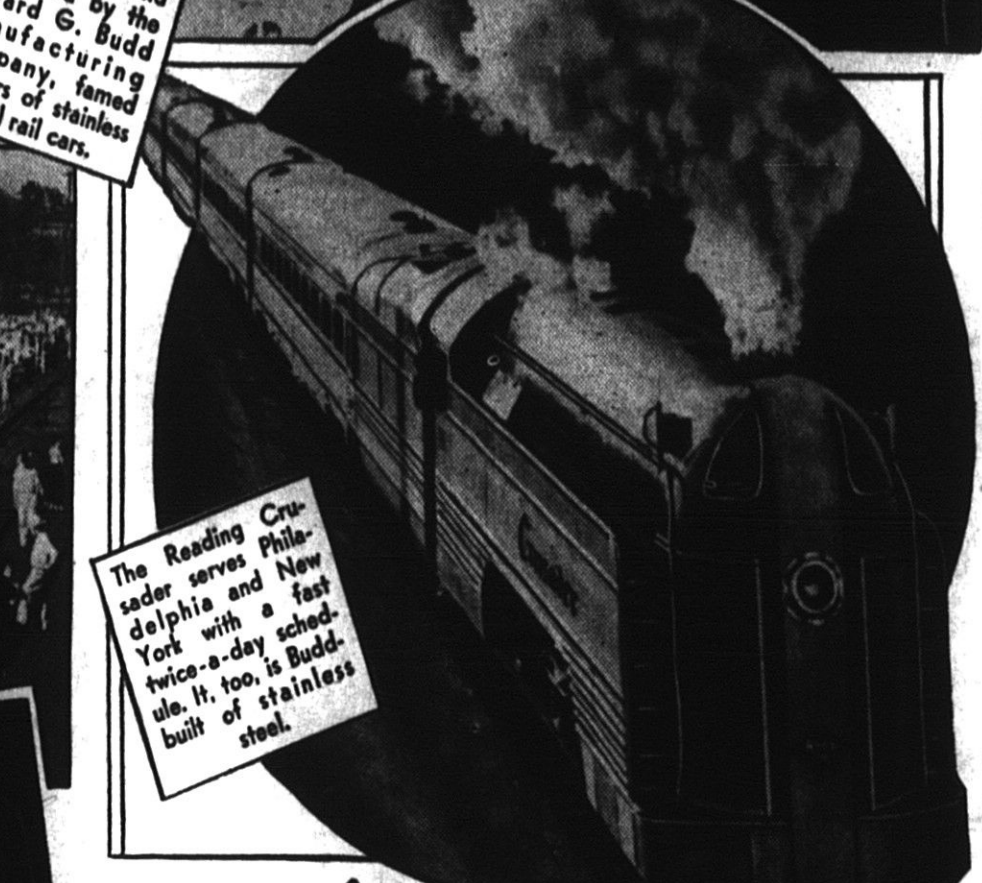

Travelers now may ride from New York to the Pacific Coast by streamlined train. This new Broadway Limited, fleet leader of the Pennsylvania, cuts the New York-Chicago schedule to 16 hours.

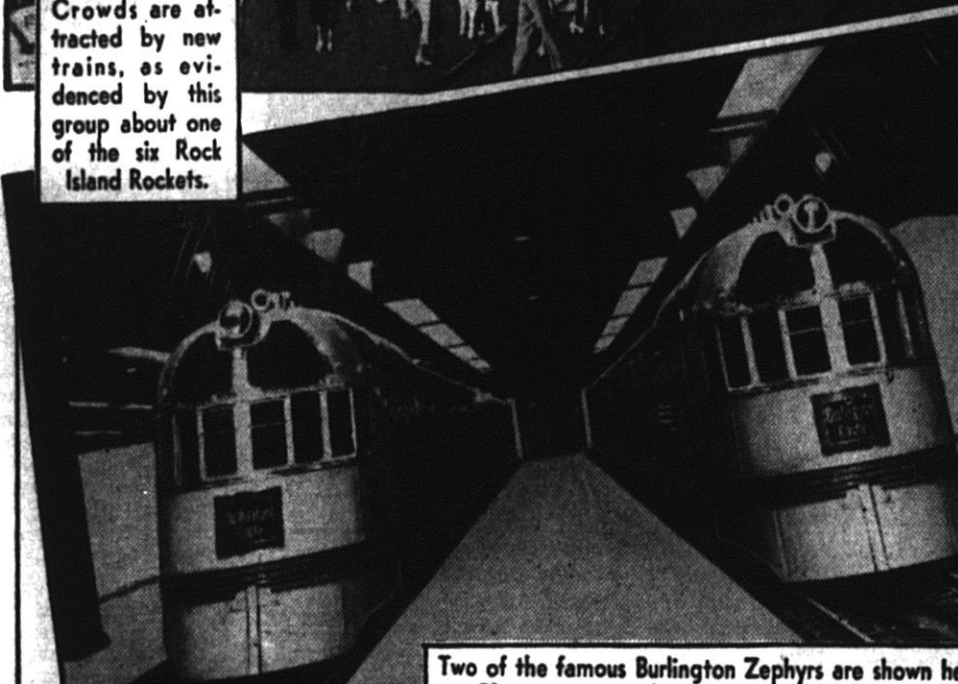

Luxurious new diner for the Pennsylvania, constructed by the Edward G. Budd Company, famed steel rail cars.

Crowds are attracted by new trains, as evidenced by this group about one of the six Rock Island Rockets.

The Reading Crusader serves Philadelphia and New York with a fast twice-a-day schedule. It, too, is Budd-built of stainless steel.

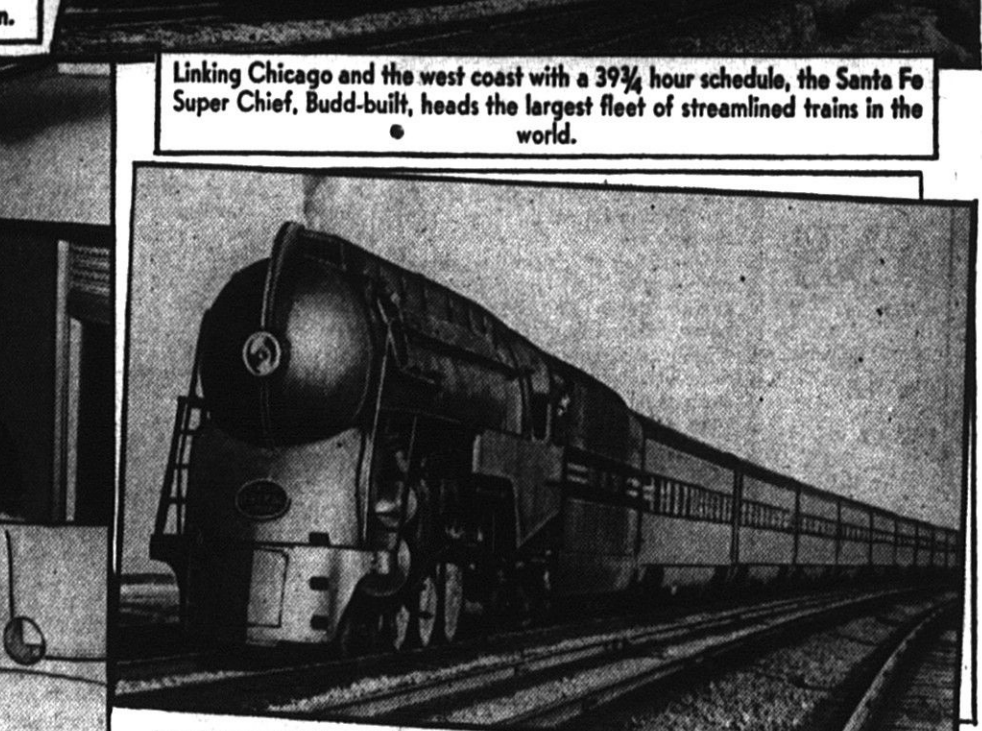

Two of the famous Burlington Zephyrs are shown here in Chicago's Union Station, ready for a speedy run.

Linking Chicago and the west coast with a 39 1/4 hour schedule, the Santa Fe Super Chief, Budd-built, heads the largest fleet of streamlined trains in the world.

Competent and attractive hostesses aid travelers to enjoy their journey on streamliners. Here is a spacious, comfortable chair car on one of these modern trains.

Paralleling the New York-Chicago service of the Pennsylvania, the New York Central adds this new Twentieth Century Limited. In trial runs this train hit 105 miles an hour.
