**HERE'S YOUR ANNEXATION MAP** — This map appears on petitions for annexing areas to the city of Holland which will be circulated Monday and Tuesday in the areas considering political annexation to the city. Territory within the present limits of

Holland is indicated by crosshatching and territory proposed for annexation to the city is indicated by diagonal lines. The numbered squares indicate sections. A detailed description of boundary lines is included in the petition.

## Annexation Petitions in Circulation Monday

A new civic group known as Citizens for a United Community is all set to circulate petitions Monday and Tuesday for annexing areas in four surrounding townships to the city of Holland.

In getting petitions signed both inside and outside the city, annexation leaders suggest that persons interested in the proposed program turn on their porches in the early evening to facilitate the work.

Clarence Jalving, chairman of the steering committee of the original annexation study committee responsible for organizing the promotion program, said persons signing the petition must be qualified electors and "freeholders" (property owners or property purchasers).

The petitions with the necessary number of signers must be submitted to Secretary of State James M. Hare who in turn sets a date for election which local leaders hope will be in mid-November. Should the vote be favorable at that time, annexation could be-

come an accomplished fact by Dec. 31, 1957, leaving a larger and a unified community to face the New Year.

Jalving pointed out that political annexation must precede any ensuing elections on school district consolidation. Although political annexation and school reorganization are integrally tied up, it is necessary to take one step at a time.

The petition requires that signers be shown the map of the annexation area and the description, which is a part of the petition.

Plans call for a full fledged promotion program as time goes on. This will involve newspaper stories, probably question and answer columns, speakers' bureaus, radio programs and a series of meetings both inside and outside the city for the dissemination of information.

Chairman Jalving has appointed the following township chairmen: Walter Vander Haar, Holland township; Henry Kleinheksel, Fillmore, and Harold Ramsey, Park

township. A chairman is yet to be named for Laketon township. There also will be captains in about 15 areas outside the city plus captains for the nine voting precincts inside the city. Willard H. Connor will serve as city chairman.

Vander Haar's captains in Holland township will be Bernie Van De Vusse, Julius Karsten, Harvey De Vree, Leonard Fought, Ray Kootstra, Russell Bouws, Otto Schaap and Clare Walker.

Kleinheksel's captains in Fillmore township will be Henry Vander Ploeg, Merle De Feyter and Mrs. Irene Van Deusen.

Ramsey's captains in north Park township will be James Hayward and Harvey De Vries.

In Laketon township and in south Park township Gerrit Vandenberg and Ralph Maass already are listed as captains. Additional captains may be named later. Each captain will appoint a crew of workers to circulate petitions.

Connor's appointments in Holland city include John Kemper, first ward; Mrs. Bruce M. Raymond, second ward; Bertel Slaght, third ward; Robert Beukema, fourth ward first precinct, and Harvey Buter, fourth ward, second precinct; George Lumsden, fifth ward first precinct, and Mrs. John A. Stryker, fifth ward, second precinct; Kenneth Zuverink, sixth ward, first precinct, and Larry Towse, sixth ward, second precinct.

Persons interested in volunteering their services in circulating petitions are asked to call their ward or area captains.

There will be a meeting of city and township chairmen and captains Saturday noon in the Warm Friend Tavern to complete organizational details and to distribute supplies to area chairmen. There will be a kickoff for all participants Monday at 5 p.m. in the Tulip Room of the Warm Friend Tavern.

In case questions arise which volunteers cannot answer readily, the city clerk's office will be open Monday and Tuesday evenings until 9 p.m. as a source of information.

## Stabbing Victim 'Good'; Deputies Seek Assailant

GRAND HAVEN (Special) — John Brouwer, 55, route 2, Holland was in fairly good condition Tuesday in Zeeland Community Hospital recovering from injuries received in a stabbing early Monday evening near Ravenna in Muskegon county.

Brouwer received a deep wound inflicted by a long knife which did not penetrate the lung. Sheriff's officers of Muskegon and Ottawa Counties are investigating.

Brouwer told officers he had attended an auction sale in Ravenna Monday night and as he was driving home he saw a man lying along side the road about a mile and a quarter from the auction. He said he stopped to aid the man and as he was turning the man over, the man stabbed him under the left shoulder blade. He said he lost consciousness and when he recovered about 10 p.m. he found he had been robbed of \$5.

The injured man said he managed to get into his car and drove to Coopersville where he tried in vain to attract someone's attention in a restaurant by "laying on the horn." Then he managed to drive home where he again "laid on the horn," this time attracting his wife and daughter who took him to Zeeland Hospital. He was on the critical list Monday night but today had shown improvement.

He described his assailant as being 30 or 35 years old, weighing 165 to 170 pounds and between five feet 10 or 11.

Brouwer lost considerable blood. Officers said the steering wheel, dashboard and front seat of the car were covered with blood. Officers also learned that Brouwer had been at the Ravenna auction as late as 6 p.m. A quantity of bananas and potatoes which he purchased at the auction remained in the car.

## Details of Study On Annexation

The idea of annexation has been buzzing around in our community mind for some time for it has long been evident that the populous spreading out of the community was creating some knotty problems affecting both the urbanites within Holland's City limits and the suburbanites of the township areas.

Simply stated, the City has the services, but no room; the Township areas have the room, but no services.

It was this basic situation that led to the formation of a Planning Commission in 1951 by the late Mayor Harrington, the purpose of which was to reconcile the two simple facts, and to bring them together in a unified plan.

That plan, as presented in 1953, included this essential concept: "The Holland Metropolitan Area is a logical single community regardless of political boundary lines. It is mutually interdependent. The central City cannot afford to have an unsound, uneconomical, poorly served outer ring of suburban development. The outer ring cannot afford to have a deteriorating problem area as its center."

Concurrent with the Planning study, our school authorities recognized the seriousness of their impending problems due to the rather frightening increase in school population which, by 1950, seemed to be coming on them by leaps and bounds. In that year the first step was taken, looking forward to the inevitable, unavoidable need for new school facilities on the Junior and Senior levels, by setting up a High School Building and Site Fund. Each sending district was to pay in \$50.00 per pupil per year, which was to be matched by another \$50.00 per high school pupil from the City. Over \$400,000.00 has been accumulated in this fund, including interest, out of which a little over one hundred thousand dollars has been used in acquiring the land for a possible high school site.

## Vander Ploeg Favored As Auditor General

Ottawa county Democrats Tuesday night adopted a resolution endorsing Jan B. Vander Ploeg of North Muskegon, former Holland resident, for Michigan auditor general in the event that the present auditor general, Frank S. Szymanski moved up to the attorney general's post.

Vander Ploeg is member-elect of the Michigan State Board of Agriculture. The committee also endorsed Ernie Sawyer of Homer for the Michigan State Board of Agriculture to succeed William Baker of Mesick. In promoting Vander Ploeg, the local Democrats felt that western Michigan should have some representative on the state administrative board, and that Vander Ploeg is well qualified for the position of auditor general.

Malcolm Ferguson of Spring Lake was appointed chairman for the Dollars for Democrats drive to be held Oct. 11 and 12 and Ralph Richmond of Holland was appointed publicity chairman for the event. By-laws for the Ottawa County Democratic Club also were approved. The meeting was held in the license bureau office in Holland.

## Christian School Trustees Receive Enrollment Facts

Various enrollment charts and the problems caused by the big influx of new students again this year highlighted the monthly report of Supt. Bert P. Bos to the Holland Christian school board of trustees, Tuesday night. The meeting was the last regular session of the present board as six new members will be elected by the school society before the October meeting.

In his report, Bos told the board that the present enrollment is 2,284 pupils as compared to 2,115 last year. The kindergarten through eighth have a 1,520 total while the high school has now climbed to a 764 mark.

Bos gave the board some figures on past enrollments and showed that in the last 10 years the total enrollment has jumped 105 per cent. The total number of pupils in 1947 was 1,110. During the last five years, Bos said, the figure has jumped 35 per cent.

The superintendent said the present enrollment exceeds by a considerable amount the projected figure given in February of 1955. He said that the present enrollment in the grades kindergarten through eighth is what school officials had anticipated for the 1958-59 school year. The high school figure, as of now, is what had been expected to be the enrollment for the 1960-61 school year. "We are already more than a year behind in providing the facilities which are educationally desirable in the light of our actual enrollment in all of our schools," Bos told the board.

Plenty of problems in all schools in the system have been raised by the enrollment surge. He reported that many grade school teachers are being forced to carry more than a desirable load and that all available rooms, including lunch and basement rooms are being utilized as classrooms.

It is the same story in the high school with each faculty member assigned practically every period of the day in either classroom or study hall. He said it would appear now as if the teacher-pupil load now is above the accrediting bureau's recommendations. All rooms, including make shift facilities such as band room and student activity rooms, are now being utilized for classes. Two chapels are in operation while various vocal ensembles will use the board room for rehearsal.

In another section of his report, Bos told the board that arrangements have been made with Holland High School to carry on driver training for Christian High students. Robert Strabbing of Christian will again teach the students, with all work being carried on after school. Christ High will use the Public Schools' training cars in after school sessions, Bos reported.

Appreciation to the retiring board members was also expressed by the superintendent. The members who are leaving are B. Altena, C. Buschouse, C. De Graaf, J. Keuning, R. Van Til and the Rev. V. Licata.

The board also decided to hold a special meeting on Sept. 23 to consider detailed plans for the two new grade schools authorized by the school society on July 22. These plans are to be submitted to the society at its annual meeting on Sept. 30.

The accident occurred on Comstock Rd., also known as Airport Rd., a short distance east of the airport. The child apparently had crossed the road to get a newspaper from the mailbox and was returning when she was struck by the truck driven by Martin Engel Van Dyke 31, of 1051 Pennoyer Ave., Grand Haven. ## Public School Enrollment Up to 3,750 This Year

A record enrollment of 3,750 children and young people in Holland's public schools was reported at a regular meeting of the Board of Education Monday night in administration headquarters. This represents an increase of 130 over last year.

Each year has shown an increase in the total enrollment since 1950 with the increase ranging from 30 to 300.

This year's breakdown follows: Washington School, 371; Van Raalte School, 294; Thomas Jefferson School, 430; Longfellow School, 395; Lincoln School, 349; Junior High, 755; Senior High, 1,156; total, 3,750.

The breakdown by grades follows: kindergarten, 292; first, 225; second, 211; third, 216; fourth, 234; fifth, 247; sixth, 162; seventh, 189; eighth, 196; ninth, 344; 10th, 456; 11th, 432; 12th, 268; special education, 70; total, 3,750.

The board also approved contracts for two more teachers. Miss Helen E. Stenson, a graduate of Western Michigan University with a master's degree from the University of Michigan, will teach typing and commercial subjects in the high school.

Miss Mary Hickman, former principal at Washington School, will teach third grade in Washington school. James A. Bennett will work parttime taking charge of visual aides in the E. E. Fell Junior High School and assist in other assignments. Clifford Marcus is the new administrative assistant in charge of secondary school practice teaching and guidance in the high school, and Dale Shearer is assistant principal in charge of discipline and attendance.

James Hallan reported that hiring the two new teachers completes the full complement of teachers for the school system with the exception of a speech correctionist. Supt. Walter W. Scott's administrative report revealed that five classrooms are in use this year in Third Reformed Church. Teachers conducting classes there are Barbara Lampen, American and World history; Verne Kupelian, U. S. history and world geography; Harriet Mulder, Latin; Edna Dyk, English and Ernest Post, geometry and American history.

Also in use for a class room and for a lunch room for two noon hours is the Bosman store on River Ave. Robert Connell and Clifford Marcus have classes in social problem there. The home economics food laboratory in the E. E. Fell Junior High School also is re-furnished.

Mrs. Frank E. Working, president of the Holland PTA Council, was present to invite the board to a dinner and workshop meeting Sept. 23.

A. W. Hertel, local insurance agent, reviewed increased values of buildings and contents in the biennial adjustment necessary in the co-insurance clause. The new calculations, the first since 1955 list a \$217,500 increase in buildings which includes an \$85,000 adjustment on the Jefferson school building. Increase in contents amounts to \$22,000. This report was referred to the buildings and grounds committee with power to act.

Supt. Scott expressed concern over the \$190 which the legislature designated as state aid per pupil for the current school year. Because of an increase school enrollments, 90,600 instead of the expected 65,000 school administrators feel that there may be difficulty in raising the \$190 per pupil and Scott and other administrative officials will go to Lansing this week to meet with committees of the governor along with the Senate and House. It appears a deficiency appropriation may be necessary before the end of the school term.

Scott also reported briefly on annexation studies and said several subcommittees are in the process of submitting final reports.

Claims for the month amounted to \$112,921.05 of which \$99,125.82 was for teachers' salaries.

All members were present with the exception of Mrs. John K. Winter. President Alvin J. Cook presided and Lester J. Kuyper gave the invocation. The meeting adjourned at 9:10 p.m.

The Ottawa County Humane Society launched its second annual membership campaign Monday in the Warm Friend Tavern with an inspirational talk by Frank D. Kleinheksel of Holland and the showing of a film, "Animals in the Service of Man," narrated by Lowell Thomas.

Kleinheksel said he was somewhat like the man who came to scoff and remained to praise. He said he had been inclined through the years to regard humane society enthusiasts as a group of do-gooders, but a trip to the county animal shelter and a study of issues involved completely changed his mind.

Joining and working or a well-operated humane society is perhaps the only way to discharge people's obligation to the dumb animals, he said. He referred to one shelter logan, "The only love that money can buy," and concluded with the famous "Eulogy of a Dog," the charge to the jury in a famous dog case. The plaintiff had sought \$200 but the jury awarded \$500.

The film showed how animals are necessary to the country's economy in the way of milk, food, wool, leather goods, transportation, to say nothing of love and affection.

Mrs. Mary Van Zanten, membership campaign chairman, announced the campaign dates Sept. 9 to 23. She said Dale Fris was heading the retail merchant solicitation, assisted by the Junior Chamber of Commerce with Harold Thornhill in charge. Oscar Vanden Dooren will head the industrial division, assisted by George Heeringa, society president.

Mrs. Helen Bates is chairman in Grand Haven and Marvin Smallegan and Mrs. Jack De Witt are co-chairmen in Zeeland. Jerry Heider presented a check for \$127 representing profits from the horse show put on by the Waukazoo Saddle and Hunt Club.

Plans also were announced for a snapshot contest for children to run through Sept. 30. The contest has two divisions, one for pre-teens and the others for teenagers through 18. Entries may be submitted to DuSaar's or Herfst's. On the back of each entry must be written the name, age, address and the membership number of the entrant. Youngsters may obtain memberships either from the person who calls at their home or from Mrs. D. J. Crawford, contest chairman, phone EX 6-5207 or Mrs. Van Zanten, EX 8-385. First prize in each division will be \$25 in cash. Second and third prizes will be \$10 and \$5 in photographic equipment.

Society President George Heeringa welcomed the group which represented the entire count this morning. Several persons who spoke alluded to the generosity of Mrs. P. T. Cheff who donated the original \$22,000 which financed the model shelter on US-31 about nine miles north of Holland.

## Holland Gridders Working On Defensive Maneuvers

Defensive stunts and variations took up most of the practice time Tuesday for the Holland High football team and Coach Bill Hinga reported "the defense is beginning to jell."

Hinga, and his aides Ernie Post and Don Pierson, planned more defensive work Wednesday. Kick-offs and punt returns will constitute today's practice.

An under-the-lights game condition scrimmage at Riverview Park Friday night at 8 p.m. will conclude the second week of drills. The scrimmage will be a full-scale practice and every candidate should get plenty of opportunity to show what he has been learning, Hinga indicated.

The Dutch will scrimmage at Allegan next Tuesday in the final heavy drill before the opener Friday, Sept. 20 at Riverview Park against Grand Rapids Creston.

Co-captain Ron Kuylers has been about the most steady at his left halfback post. His running and defensive play has stood out.

Paul Elenbaas is improving at offensive quarterback while Bob Bolks has looked good at offensive halfback and Keith Bosch has been picking up as a defensive back.

Jim Bosis has pleased with his linebacking and Bob Teal has looked improved as a corner line-backer.

The biggest backfield battle is at fullback where Ken Hill, Scott Brower and Rich Woltman are about even. Hinga was confident this trio would be fighting right up to game time for the starting nod. Brower and Woltman are sophomores and Hill a junior.

Larry Alderink is playing one of fence end along with Dale De Ridder, who plays both ways. Bill Boeve and Ron Dorgelo are working as defensive ends.

Vern Bronkema leads the tackles and will go both ways. Jim Fitch continues to improve along with Jan Nienhuis, who lacks experience. Bob Visscher, a rugged junior, has been moved to tackle to provide depth.

Co-captain Jack Scully, who worked defense primarily last year, has been converted into an offensive guard. Bob Arend, a senior, has been running with him and Bruce Van Leuwen and Job Stool, a couple of varsity reserve lettermen at fullback last year, are the best among the defensive guards.

Tom Buia and Mike Dyke are battling for center. They go both ways.

Mrs. John Spurgeon, president, presided at a brief business meeting and Mrs. Vern Schipper, vice-president, presented each member with a Faculty Vrouwen booklet, including the program for the year.

Shortages of teachers and space continues. Although 81,000 men and women will be entering the teaching profession for the first time this fall, about 135,000 more elementary and junior high teachers are needed.

Lack of classroom space will cause some of this year's 30,670,000 elementary students to be crowded into part-time schooling. School districts across the country last year completed almost 70,000 classrooms, but 159,000 more could have been used.

Several changes have been made in the traditional modes of education since the days of the little red schoolhouse. Television teaching is coming more and more into use although still classed as experimental by educators. This fall there will be more than 100 such operations. Some educators see television as a possible weapon against the teacher shortage.

More general science courses will be given in grade schools. At the high school level, for the first time in 50 years, the percentage of students studying science and higher mathematics will increase.

Foreign languages will be taught from the kindergarten level up and one school this year will even introduce a typewriting course for first-graders.

Tree of the week at the Holland Public Library this week is the Ginkgo or Maidenhair Tree. The botanical name is Ginkgo Biloba.

Geological records have proved that the Ginkgo tree has been growing on this earth for over 10 million years (from the Jurassic period on). It was at one time native to North America as evidenced by the fan-shaped leaf prints in rock.

The Ginkgo tree has been grown again in this country for two centuries and has become quite common in highway plantings. It lives 100 years, but takes the first 20 of them to "shape up." In its early years it tends to appear very open and irregular in shape.

The male or fastigiate form should be purchased since the pistillate or female trees bear plumblike fruits which have a very obnoxious odor when ripe. They don't bear until they are 20 years old. The Ginkgos are pest free and disease free, so require little maintenance.

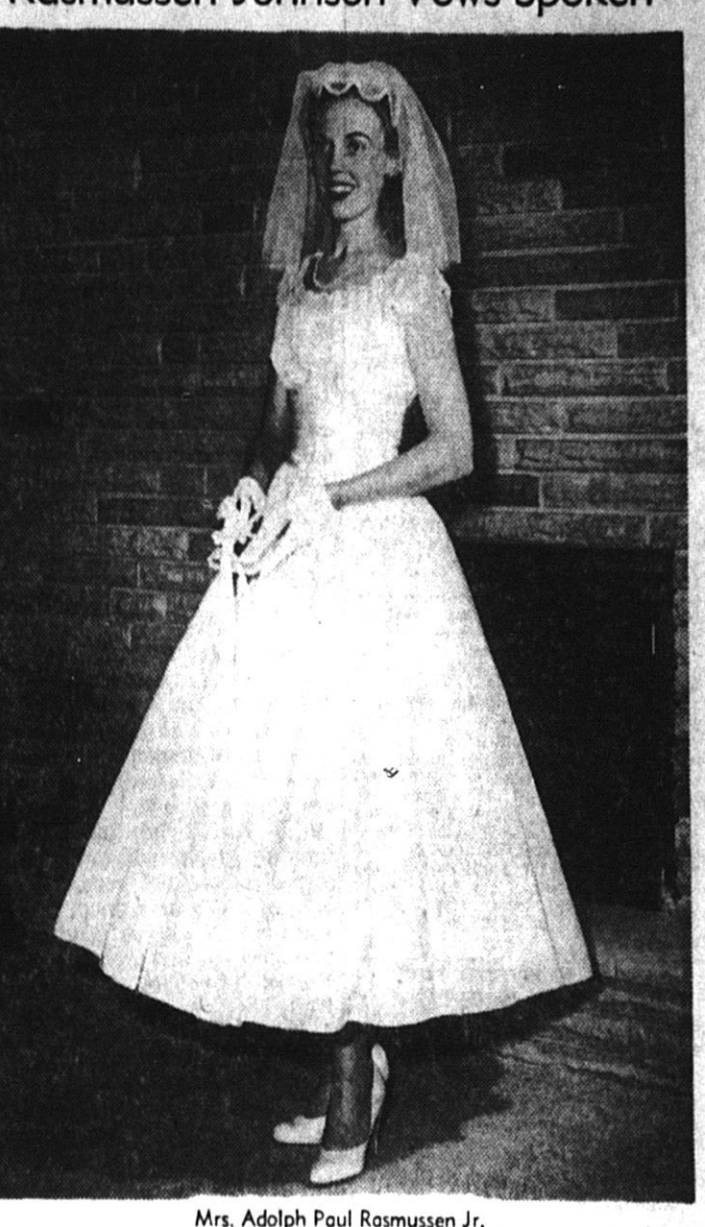

The Ginkgo trees are planted at the west half of the Cemetery on East 16th St. They are at their peak now and lovely in their fall colors of clear yellow.

## A COURSE IN BABY SITTING

And now plans have been put on  
foot to give a course on baby sit-  
ting in the public schools. And not  
in some faraway place that has  
never heard about the complaint  
that today's "Johnny can't read"  
because there isn't time to teach  
the basic subjects, but in near-by  
Grand Rapids.

The baby sitting course was an-  
nounced by Dr. Jay L. Pyman,  
assistant superintendent of schools  
of Grand Rapids. Dr. Pyman an-  
nounced that the course will be  
given to seventh graders.

Oh yes, of course, there are ex-  
cellent reasons for including this  
baby sitting course in the public  
schools. The suggestion for the  
course came from the fire depart-  
ment, we are told. There are many  
occasions, the advocates of the  
course announce, when firemen an-  
swering emergency calls, "have  
found that baby sitters were un-  
able to cope with emergency situa-  
tions."

That statement may be one hun-  
dred percent correct. But why load  
the new responsibility for a new  
social problem on the schools?  
They are already loaded to the  
brim? So many courses that  
have little relevancy to the develop-  
ment of the minds of the pupils  
have already been added and so  
some people think there is little  
time left for their proper business  
of instructing the youngsters in the  
mental disciplines that are suppos-  
ed to serve them throughout life.

Baby sitting could be one of the  
most futile courses, convenient  
though it may be for firemen and  
to parents who leave their children  
in the care of the baby sitter. Baby  
sitting is a skill that can lose its  
significance when the baby sitter  
grows up, although there are  
many adult sitters. Basic educa-  
tion should be for life, not for a  
few years of adolescence.

Meanwhile the time that is re-  
quired for such a course (and  
others even more irrelevant) is taken  
from the training period for basic  
disciplines. It is notorious that hun-  
dreds of thousands of young peo-  
ple entering high school, and later  
college are not ready. The deficiencies  
in the basic simplicities of  
learning have become the subject  
of widespread complaint.

There is only so much time for  
teaching seventh graders. If baby  
sitting is one subject, the time to  
drill them in the art of spelling  
and such other basic arts as writ-  
ing and memorizing the multiplication  
table, in our opinion will be  
shortened. Such things do not lend  
themselves to advertising the educa-  
tional system the way a course  
in baby sitting may, but they are  
important for all of that. At least  
there are many people that seem  
to think so.

Sunday School  
Lesson

September 15, 1957  
Ezekiel, Pastor of the People  
Ezekiel 1:1-3; Ezekiel 2:1-5;  
Ezekiel 34:11-16  
By C. P. Dame

(Based on copyrighted outlines  
produced by the Division of Christian  
Education, National Council of  
the Churches of Christ in the  
U. S. A. and used by permission.)  
Some men know early in life  
what they should do and others  
do not learn what their mission is  
until they have reached maturity.  
Ezekiel was called by God for a  
special mission when he had grown  
to full manhood. And he was called  
to a difficult and unresponsive  
work.

I. God still calls workers. Ezekiel  
was the son of a priest. His  
name means "God strengthens." He  
is one of the major prophets. The  
word "major" here means that  
his book is bigger than the books  
of the Minor Prophets. Ezekiel  
was an exile or to use a modern  
word a deportee.

In 597 B. C. Nebuchadnezzar cap-  
tured Jerusalem and carried some  
of the leaders and important peo-  
ple to his own capital. Ezekiel  
was one of these. During the  
first four years of his captivity  
Ezekiel did nothing of importance.  
While he was living along the  
banks of the river Chebar God  
spoke to him. This call of God he  
ever remembered. He was one of  
the called of God who knew when  
and where and why he was called.  
God called Ezekiel in a dramatic  
fashion. Ezekiel tells us about the  
vision which he had of God. The  
Jews were in captivity, far from  
the Temple and their native land.  
God however had not forgotten them  
and that is why He called  
Ezekiel to minister to them in cap-  
tivity.

II. God often tells his workers  
about their work. When Ezekiel  
saw the glory of God and heard  
his voice he fell down upon his  
face. God told him to stand on his  
feet and then he spoke to him  
and told him about his work.  
"Son of man, I send thee to the  
children of Israel, to a rebellious  
nation, that hath rebelled against  
me. . . . For they are impudent  
children and stiffhearted. I do send  
thee unto them; and thou shalt say  
unto them, Thus saith the Lord  
God." God did not give Ezekiel a  
pleasant assignment. The Bible  
tells us that God often gave dif-  
ficult tasks to his workers.

We are living in a time when  
the easy has a great appeal. God  
knows that preaching is not al-  
ways an easy job especially when  
the congregation is stubborn and  
self-seeking and pleasure-loving.  
These Jews were in Babylon be-  
cause they had sinned against God  
but they were not in the least pen-  
itent. There are congregations to-  
day which are unresponsive and  
unlovely. Their very condition and  
attitudes show that they need the  
gospel. And it should be preached  
to them with authority.

At first the congregation to which  
Ezekiel preached refused to believe  
what he taught. The prophet told  
them that a long exile awaited  
them. Some false prophets predicted  
that in a short time the people  
would be able to go back again.  
God told Ezekiel and he proclaimed  
this truth to the exiles that Jeru-  
salem would be taken and the  
Temple destroyed. The people at  
first refused to believe this but it  
happened and then they paid more  
attention to the prophet. In 586  
B. C. Nebuchadnezzar burned the  
houses and tore down the walls of  
the city and sacked the Temple.

Ezekiel lived among the people  
to whom he ministered. He learned  
to know them and their mode of  
thought and attitudes and this fit-  
ted him to preach to them. The  
prophet told them that God was  
still the God of the Israelites even  
though they were in a strange  
land. In addition he made it plain  
to them that the calamity that  
had overtaken them was due to  
their own sins and that it was a  
judgment of God upon their trans-  
gressions. Ezekiel portrayed God  
as a Shepherd seeking the lost  
and strayed. The prediction that  
the exiles would be able to re-  
turn again to their own land was  
fulfilled.

Ottawa County  
Farm News

Richard Maclele,  
County Agricultural Agent  
Now that wheat planting time is  
upon us, a good many farmers  
are considering the problem of  
planting alfalfa with the wheat. As  
every farmer recognizes there  
are a good many seeding failures  
every year, due to one thing or  
another. The chances of getting a  
good seeding by planting alfalfa  
in mid-September are rather poor.  
There are several alternatives that  
farmers might use to get a good  
seeding.

Some farmers use a rotation  
where oats follows corn with  
wheat following oats. Some fear  
too much competition between a  
good wheat crop and trying to get  
a seeding if they plant wheat and  
legumes together. One alternative  
is to plant your seeding with the  
spring rains. But if you must seed  
with wheat, how about seeding the  
legume in early spring?

Some folks prefer to get out  
as soon as the danger of frost is gone  
in the spring and broadcast on the  
wheat. Others prefer to get out  
the drill and make this the very  
first operation in the spring. A  
problem arising here is that some  
land dries out so slowly that you  
get the alfalfa planted late if you  
wait until it is dry enough to go  
on with the tractor and a drill.

The other alternative, and per-  
haps the best, is to harvest the  
wheat as usual, get the straw off,  
disk up the stubble into a good  
seedbed and seed the alfalfa then.  
This should be done next year in  
early August and, of course, you  
need a good firm seedbed of prop-  
erly fitted and fertilized soil but  
it is a good time for alfalfa  
seedings.

There is little profit in the aver-  
age dairy cow in Michigan. She  
doesn't produce enough milk to  
pay her owner decent wages and  
on top of that she adds to the  
surplus of milk.

Figuring income from 20 aver-  
age Michigan cows and comparing  
with the return of 20 average  
cows in Michigan Dairy Herd Im-  
provement Associations, the 20  
average Michigan cows would have  
brought their owner \$2,380 above  
feed costs for the year or an aver-  
age of \$129 per head. They pro-  
duced only 6,800 pounds of milk  
apiece.

The 20 average DHIA cows would  
have returned their owner \$4,460  
above feed costs, an average of  
\$223 per head. These cows would  
have produced 9,576 pounds of milk  
each.

The 20 DHIA cows would have  
produced 183,000 pounds of milk  
during the year. To bring as much  
return for a dairyman, 34 aver-  
age cows would have been needed  
and they would have produced 232-  
000 pounds of milk to do it. That  
would add 49,000 pounds of milk to  
the surplus without putting any-  
thing in the farmer's pocket for  
his hard work. Those figures are  
more convincing evidence that test-  
ing cows and record keeping in the  
dairy business pay off. Farmers  
not under the DHIA or owner-sam-  
pling testing programs have a uni-  
que opportunity to find the loafers  
in their herds through the "weigh-  
-a-day-a-month plan now offered by  
the Cooperative Extension Service.  
We have complete details of this  
plan in our office.

Common calf scours are usually  
caused from feeding the young  
animals too much milk or milk too  
high in fat. But white scours are  
caused by infections and should  
be treated by a veterinarian. This  
type of scours is severe and usu-  
ally occurs within 24 hours after  
the calf is born.

However, common scours can  
usually be corrected by feeding the  
right amount of milk or diluting  
the milk to proper fat content. We  
would recommend feeding one  
pound of milk for each 10 pounds  
of calf weight per day with a  
maximum daily feeding of 12  
pounds. If milk being fed is high  
test we suggest diluting it with  
one-third water.

Feeding young alfalfa hay can  
cause calves to have loose bowels.  
This is not necessarily scours and  
the additional food value, vitamin  
A and D particularly that the calf  
gets from good alfalfa hay is very  
important to good calf health.

We had a good turn out of farm-  
ers at the soil testing days at  
Coopersville, Hudsonville, Zeeland,  
and Holland last week. One of the  
things we noticed from the reports  
at these different locations and  
those picked up by the A.S.C. com-  
mitteemen is that a lot of soil is  
low in phosphorus and quite a few  
of our farmers are using the wrong  
analysis of fertilizer or ratio. The  
best way we can find out the need  
of the soil is to have the soil  
tested, also to find out if any lime  
is needed, which is one of the first  
essentials of the soil to get the  
right pH level or amount of lime  
one needs for the cropping pro-  
gram on his farm.

A lot of soil reports are still  
coming from the soil testing labo-  
ratory. Every season we are rushed  
to try to get the reports back to  
the farmer as soon as possible. It  
would like to drop a suggestion  
that we would take our soil sam-  
ples this fall for next year's  
planting of oats and corn, and next  
spring for wheat to be planted  
next fall. This would help your-  
self, the soil laboratory, the A.S.C.,  
the lime spreader, and your local  
fertilizer dealer.

Some of you folks may be won-  
dering what to do about your alf-  
alfa field. If it had leaf spot and  
yellowing after the second cutting,  
just leave it alone. This is what  
Martin Blackly found out last year  
or this spring. Last summer his  
field of alfalfa was only about six  
inches high, very short when it  
should have been knee-high. It was  
yellow around the edges with  
brown or black spots on the leaves  
but this spring it was knee high  
and no effects of the leaf spot.

## \$70,000 Figure Tentatively Set As Final Goal

**Wheeler Named New Campaign Director; Screen Many Requests**

Holland will stage its annual Community Chest campaign Oct. 21 through 26 to raise funds for several agencies which derive their funds from this united campaign. It was announced Friday by Bernard P. Donnelly, president of the Holland Community Chest board of directors.

Donnelly said the board held its second meeting Thursday afternoon to screen requests for the coming year. Final figures have not been adopted, but it appears that the goal this year may approach \$70,000, compared with \$66,050 last year. Requests tend to exceed \$70,000 but is expected some requests will be adjusted.

Donnelly also announced that Kenneth Wheeler, manager of the Sears store who came to Holland three years ago from Kendallville, Ind., is campaign chairman this year, and David C. Hanson, marketing manager for General Electric in Holland, will be assistant chairman.

A newly created post of executive director this year will be filled by Riemer Van Til, local insurance man and realtor, who long has been active in Community Chest Work. During the campaign, Van Til will devote full time to fund raising activities and will supervise the detail work. Donnelly said increasing needs for agencies result in an ever-increasing budget in the total program, and the necessity for some professional services has been under consideration for quite some time. He said that expenses for carrying on Community Chest campaigns in Holland have been extremely low throughout the years.

Agencies coming under Community Chest here this year are the American Red Cross, Camp Fire Girls, Muskegon Area Guidance Clinic, Visiting Nurse Association, Council of Social Agencies, Boy Scouts of America, Salvation Army, Michigan United Fund, Prestatie Huis.

Division chairmen will be appointed soon. The Single Solicitation Plan will play a prominent role in contributions through local factories and businesses. This is a year-round program in which charitable contributions are made periodically through payroll deduction.

Enrollment hit new high marks to both the public and Christian school systems in Zeeland this week, according to initial figures compiled on Wednesday afternoon. Supt. J. F. Schipper of the public school system reported that total enrollment figures from the kindergarten through the senior high school reveal a gain of 61 over last year. Principal J. E. Mulder of the Christian schools disclosed an increase of 12 pupils over a year ago. Schipper said that the elementary grades showed an enrollment increase of 31 over last year, jumping from 393 in 1956 to 424 this year. The elementary department includes kindergarten through grade 6. The public schools operate on a 6-2-4 system, meaning the elementary group includes the first six grades, the junior high the next two (grades 7 and 8) and the senior high the next four (grades 9, 10, 11, 12).

Grade 8 has 38 students, and grade 9 has 69 for a junior high total of 107. Senior high school enrollment was listed as follows: freshmen, 161; sophomores, 169; juniors, 121; seniors 122. The total senior high enrollment is 573. Last year 85 seniors were graduated from the high school. Total enrollment in all grades in the public schools is 1104, over against 1043 last year.

The Christian schools follow a slightly different pattern, dividing the classes into primary, intermediate and junior high groups. Kindergarten enrollment was set at 84. The primary department (grades 1-2-3) have an enrollment of 183 and the intermediate group (grades 4-5-6) have a total of 218. The junior high (grades 7-8-9) has a total of 145 pupils. This year's total enrollment is 630 compared to 618 a year ago.

The local Christian schools have experienced a strong growth in the last eight years, undertaking three building programs and increasing the teaching staff from 11 in 1949 to 22 today.

Mr. Faber left Wednesday by plane, to join them in Florida. They will also visit Mr. and Mrs. Lloyd Hall, former residents of Zeeland, now residing in Hopkinsville, Ky.

**RETURN FROM OVERSEAS TREK** — These two Chippewa District Boy Scouts spent the summer traveling, including Jamborees at Valley Forge, Pa. and Sutton Park, England. They also toured throughout Europe. Both were members of troop 71, made up of boys from southwestern Michigan at the International Jamboree. ## Two Boy Scouts Return After Tour of Europe

A summer spent traveling and meeting boys from throughout the world will make a couple of Boy Scouts, Fred Vande Vusse of Holland and Gary Hietje of Zeeland, the center of every conversation when they return to school this week.

Seventeen-year-old Fred and Gary, 14, returned Thursday night after being on the go since leaving here July 7. It started with the National Boy Scout Jamboree in Valley Forge, Pa., a trip which also included visits to several key Eastern cities. Next came the ship ride across the Atlantic Ocean and the International Boy Scout Jamboree in Sutton Park, England and then a tour of the European mainland.

The experiences these boys had will "last a lifetime." And they will be relating many of them to their classmates this fall. Gary will resume classes as a sophomore at Zeeland High School while Fred plans to enroll as a freshman at Hope College.

Following the National Jamboree, the two boys joined 1,700 other United States scouts at the International Jamboree where they camped for two weeks with a total of 35,000 Scouts from throughout the world.

From the first night of arrival, when the British scouts took the local boys in and hosted them with a hot lunch, until the time the boys broke camp, the Chippewa District scouts really enjoyed themselves.

Hietje reported he was able to obtain a Scottish kilt in his trading along with neckerchief slides from Luxembourg. The Netherlands, France and England and an English beret while Vande Vusse got belts from Belgium, France, Italy, England and Iran and scout hats from Switzerland, South Africa and Finland. Both lads picked up many Scout patches from throughout the world.

For their bartering materials, they used patches received at the National Jamboree, wooden shoes, which they obtained here before leaving, belts and hats of the American Scout uniform.

The boys reported anything Indian was the "hottest" among the International Scouts. Arrow heads, Indian belts or beads were especially popular for trading items.

Following the Jamboree, the two boys were members of an ar-

ranged sightseeing tour which traveled through Europe for two weeks. Prior to the trip to the mainland, they toured parts of England, including London.

Vander Vusse was shown Birmingham by J. Guider, a resident, who has been in the United States three times and wanted to return the hospitality shown him here. A Mr. Holmes, a Detroit native, took Hietje on a similar tour by motorcycle.

On the mainland, they visited Lucerne, Venice, Rome, Nice and Paris. The friendliness of the European people wherever the boys went impressed them most on the trip.

Highlighting the European tour was a party in Paris given in the embassy garden by Emory Holton, American ambassador in Paris. "We had American hot dogs and ice cream," the boys said, "and they really tasted good after all of the other kinds of food."

Vande Vusse, 17, is the son of Mr. and Mrs. Eugene Vande Vusse, 831 Bertsch Drive and Hietje is the son of Mr. and Mrs. Fred Hietje, 244 East Main, Zeeland.

## Judge Named to Special State Traffic Committee

Municipal Judge Cornelius van der Meulen of Holland has been appointed to a state committee to establish rules, regulations and a course of study governing Michigan traffic safety schools.

The appointment was made by Lynn M. Bartlett, superintendent of public instruction.

Judge van der Meulen received public recognition at the Governor's Traffic Safety Conference here last week that his plan of traffic school is serving as a pattern for the state program which becomes effective in a short time.

**Civil Suit Filed**

GRAND HAVEN (Special) — Cornelius Start of Spring Lake has filed suit in Circuit Court seeking \$5,000 from Ruby Barrett, also of Spring Lake. Start, who served as caretaker for Mrs. Barrett since Jan. 1, 1951, until about three months ago, charges he was supposed to have been paid \$50 a month for his services.

## Christian Schools Show Increase Over Last Year

Holland Christian schools showed another big increase in enrollment this year, Supt. Bert P. Bos said Saturday. In compiling the figures, Bos said that already 169 more pupils are enrolled than last year. Late enrollees could well boost this mark, it was reported.

To date the local Christian schools show a total of 2,284 pupils compared to last year's overall figure of 2,115. This represents an increase of about eight per cent, the superintendent reported.

The elementary grades show an increase of 84 pupils, junior high, six and the high school, 79. On a per centage basis the high school shows the biggest rise with about 12 per cent.

The elementary grades show an overall total of 1,240 with the junior high registering 280. The high school, meanwhile has a 764 mark. By schools, the Central Ave. grade school has 508, South Side, 467 and West Side, 265. All have increases over last year.

The biggest classes in the system are the ninth and 10th grades, both totalling 201 students. Three others are approaching the 200 mark. Complete breakdown by grades show: kindergarten, 187; first, 181; second, 199; third, 154; fourth, 187; fifth, 190; sixth, 142; seventh and eighth, 274; ninth, 201; 10th, 201; 11th, 199 and 12th, 163.

The new influx of pupils continues to cause housing problems. The grade schools are using every available classroom, with even a lunch room and basement rooms being pressed into service as a classroom.

It's also a problem situation in a badly overcrowded high school. Principal Raymond Holwerda is being forced to call in every available bit of room to carry on classes and study halls. Already two chapels are being used, one housing over 600 students in the gym, and the other taking the overflow in one of the rooms of the new building. In addition three regular classrooms have been moved into the band room. Other classes are being held in the small student activity room and overflow studies are also using the library facilities.

## Van Raalte's Home Cooking Favored

Maw and I were reading the Sentinel the other night when she pops up and says, "Paw, it says here that some restaurant's food is good, just like home cooking."

"You mean they make food just like you do?"

"Well, almost as good."

"Then I'm not going, and that's final."

Twenty minutes later we took our seats at Van Raalte's restaurant in Zeeland. Being in a grumpy mood for being vetoed, I made an innocent comment about the place being a lot cleaner than maw's kitchen. She gave me a mean look and I said it doesn't smell here either.

"Listen, paw, if you would buy me some modern kitchen equipment like they have here, I'd have time to keep it clean."

"Yes dear, but..."

"And while you're at it, why don't you get some molded plexiglass chairs like these, and indirect color lighting and paint it a pretty blue and yellow."

"That would be fine, dear, but..."

"And an air conditioner and a hi-fi that plays soft music while we eat, and a huge planter with all kinds of greenery."

"All that fuss for your old burned hamburger and potatoes?" I said. "If we got food at home like this Southern fried chicken, that would be different. Why, they have more home-made food here than we do at home — home-made bread, donuts, rolls, pies, even dressing."

"If I could cook for 300 or 400 people each night like they do here, I'd make it good too," says maw.

"Three hundred isn't anything," I said. "Bill, next door, was at a company dinner in their big parlor downstairs once, where they served 500. I hear they even have weddings down there — rehearsal, ceremony, reception, and all. They also have another room which seats 300."

A man at the next table must have heard that remark, because he leaned back and said, "I can do you one better. The company I work for had a picnic, and Van Raalte's served more than 1,500 of us at a park."

We were riding home in the jolopy when maw brought up the subject again. "When are you going to fix up the kitchen and dining room like Van Raalte's?"

"Listen, Maw," I says, "I've got a better idea. Let's just eat at Van Raalte's a few nights each week and let them pay for all that luxury."

You know, maw agreed with me for the first time that day.

## Seek Fair Revival For Holland Area

There is a strong possibility Holland may have an annual fair again, after an absence of more than 25 years, because of the interest of several area residents.

Al Looman, president of the Holland Horseman's Association, and Nick Brower, vice president of the group, head the people interested in re-creating the fair for Holland.

They have had some informal discussions with township, county and state officials as well as talks with presidents and secretary-managers of various county fairs over the state.

A meeting is scheduled for the third week in September and at this time Looman plans to have fair officials from a few county fairs here to answer questions. Interested people are invited to attend the meeting.

The specific date of the meeting will be announced later but during the interim Looman and Brower would like to get the reaction and feelings of Holland area residents toward an annual fair. Looman may be reached at ED-5-5300 and Brower, EX-4-4241.

If organized, the fair would be set up as a nonprofit corporation similar to Tulip Time Inc.

The fair would be staged at the North Shore Community Grounds on the Ottawa Beach Road across from the airport. The Park Township board has unanimously approved the step and would donate the grounds. Parking facilities would be available at the airport.

Tentative plans call for the fair to be held in mid-July next year, right at the height of the resort season.

Looman has been attending Michigan fair this summer getting ideas and suggestions and has huddled with some of the fair officials on methods of operation.

Holland residents have been attending the Allegan, Ionia and Berlin fairs each summer along with several other fairs including the mammoth Detroit Fair, where Holland's famed Klompen Dancers have performed for the past few years.

## Van Dyke Eyes Promotion In Nats' Baseball Chain

Twenty home runs and 83 runs batted-in are the statistics Bob Van Dyke hopes will prove good enough to push him up in the Washington Senators chain.

Playing this past season with Class D Fort Walton Beach Jets in the Alabama-Florida State League, Van Dyke socked 20 roundtrippers and sent 83 of his mates home with runs in compiling a .270 batting average.

Van Dyke hopes that these batting statistics plus some good defensive work at three positions will be rewarded with orders to report to the Class A Charlotte, N.C., team or the Class B Wilson, N.C., or Midland, Texas teams for spring training next March.

The former Holland High athlete, who performed a few seasons for the Holland Flying Dutchmen, opened the season with Midland and was optioned to Fort Walton Beach.

His stick work throughout the season impressed manager Neil Cobb and the Jet manager will forward a report to the Senators' front office.

Cobb was also pleased with Van Dyke's ability to fit in at any spot and used him at third base, first base and in the outfield. Van Dyke is most at home at third base and played this spot most of the season.

Van Dyke enjoyed his season and the Jets were able to compete in the league playoffs between the top four teams. Fort Walton finished fourth in the regular season.

The 20-year-old infielder found the pitching in the southern league "the toughest he has been against." Most of the players were in the late teens and early 20's.

The Jets traveled in station wagons to the various cities throughout the six-team circuit. The longest ride was 225 miles.

During the off season, Van Dyke may possibly attend a business school in Grand Rapids. He plans to keep in shape by playing independent basketball.
