LITTLE DAMAGE IS REPORTED IN HOLLAND AREA

Wind Disrupts Phone Line Service in Sections of Allegan

Rising Barometer Points to Passing of Brief Gale Here

A rain and windstorm swept across Holland and vicinity today but up until noon no serious damage had been reported.

Although the wind was from the northwest, it was said by United Press to be the aftermath of the gulf coast hurricane which killed six persons in Texas yesterday.

City Engineer Jacob Zuidema reported branches from trees throughout the city had been broken off but he had not received reports of any trees being uprooted. Branches of trees in Centennial park were blown down.

The coast guard station estimated the speed of the wind at between 35 and 40 miles per hour. One sail boat in Macatawa bay broke loose from its buoy but later was towed to another buoy by the coast guardsmen.

Primary electric lines on Central Ave. between 18th and 19th St., were blown down this forenoon, disrupting service until repairs were completed.

The strong winds blew down the water container at the Fifth St. station and employees were unable to measure the rainfall.

The barometer at the coast guard station was rising at 12:30 p.m. today. The lowest reading this forenoon was 20.40 but at 12:30 the reading was 28.79, indicating the worst of the winds had passed.

Tail winds of the gulf coast hurricane swept over Michigan from the southwest to northeast today snapping trees and utility poles and causing suspension of airline service in the Detroit metropolitan area.

The Detroit weather bureau reported wind velocities ranging from 23 to 55 miles per hour in the 200-mile radius of the storm, with occasional gusts reaching 75 miles per hour.

The storm, carrying heavy rain in its center and scattered showers on fringe sections, swept into the state from the southwest early this morning and shortly after noon was centered over central Michigan, from Houghton to Lansing.

The weather bureau said the course of the storm shifted at mid-morning to the northeast and is expected to carry on over Lake Huron.

Communication services were disrupted over the path of the storm. Telephone companies reported poles down in several sections, including the Adrian-Ann Arbor area where service was rerouted through Monroe and Hillsdale.

State police reported that telephone service in the southern part of Monroe county was disrupted and that its teletype service in Wayne county was out of service.

At South Haven, the wind velocity hit 45 to 50 miles an hour and the Tri-County Telephone Co., division office reported line trouble at Decatur, Paw Paw, Gobles, Hartford, Fennville, and Saugatuck. The wind whipped up huge waves on Lake Michigan.

BULB PLANTING STARTED HERE

Van Bragt Urges Caution to Prevent Damage to Tulip Beds

John Van Bragt, park superintendent, said yesterday that tulip bulbs are now being planted along the tulip lanes for the 1942 festival, urged residents along the boulevards to use precaution in backing their cars out of driveways so as not to run over the curbs.

He also urged residents not to step on the plantings to keep the bulbs from being damaged. Pressure on the earth breaks the roots of the bulbs.

Work of planting the bulbs started Tuesday and will require four weeks to complete the job. Three park department employees have been assigned to planting the new bulbs.

The complete route of the lanes has not been decided but the plantings will work in with the route, Mr. Van Bragt said. Sugar beet dirt already has been placed in all of the tulip beds.

THROWN FROM CAR IN MISHAP; HAND IS PINNED BY TRAILER

Although her hand was pinned under the wheel of a small trailer loaded with gravel, following an automobile accident Monday at 6 p.m. at the intersection of M-21 and the Waverly road, one mile east of Holland, Mrs. Alice De Jonge, 57, 155 South Church St., Zeeland, did not suffer any serious injuries.

A group of men lifted the trailer off Mrs. De Jonge's hand after she had been thrown out of the left side of her car following the accident.

The trailer was being towed by a car driven by Gerrit Bos, 46, route 6, Holland. He was driving south on Waverly road and Mrs. De Jonge was driving east on M-21.

According to a report made to the sheriff's department, Bos stopped his car and trailer at the intersection and, seeing the approaching De Jonge car some 500 to 600 feet west of the intersection, proceeded to cross the highway.

Mrs. De Jonge's car was said to have skidded for some distance after she applied the brakes. The car left the pavement, turned right and struck the Bos car which was 35 feet south of the south edge of the concrete.

Laura Steketee, a nurse living at 282 East Ninth St., who was driving a car behind the Vos vehicle, was listed as a witness.

Improved Political, Social Setup Needed, He Tells Banker Group

Dr. Wynand Wichers, president of Hope college, in an address Tuesday night at the banquet which was part of the program of the annual fall meeting Group four, Michigan Bankers association, said that "our battle" is positively for the "redemption of some good old-fashioned American ideas" to bring about a more effective political and social organization and to deepen the roots of moral power.

The banquet was held in the parlors of Hope Reformed church. Upwards of 200 bankers and their wives from 11 counties of the district were present to hear Dr. Wichers who stressed the necessity of maintaining American freedom and democratic standards and pointed out several factors which are necessary if this country is to maintain its present status as a nation.

Speaking on "Our Battle," Dr. Wichers declared that "our battle" is not to save one system of government at the expense of another nor is it a battle to preserve such international anarchies such as imperialism.

The program was opened by Chairman Herman Schuiteman of Fremont who introduced Cornelius Vander Meulen, local attorney, who served as toastmaster.

JURORS RENDER GUILTY VERDICT

After arguments by the prosecuting attorney and defense counsel and the charge of the court last Tuesday afternoon the jury went out for supper. About 11 p.m. Tuesday, the jury asked for further instructions from the court and about an hour later rendered its verdict.

According to Louis H. Osterhaus, defense attorney, no appeal will be taken. Mrs. English was in court when the verdict was read and showed considerable emotion.

The bond of English which has been \$3,000 was continued until his appearance for sentencing. The offering of testimony was concluded at 3:50 p.m. Tuesday, and each side was allowed an hour for arguments.

English took the stand Tuesday in his own defense, claiming he had never seen the 15 year old Grand Haven girl until he was taken to the office of the Ottawa county sheriff shortly after 9 p.m. last March 15, when she accused English of being the person involved. He did admit he owned the ring described by the girl as having been worn by him the night in question. The ring was introduced as evidence.

Bonding Representative in Zeeland for Check

Zeeland, Sept. 25 — A representative of the Seaboard Bonding Co. of New York city arrived in Zeeland on Wednesday morning to make a check into the alleged shortage of the accounts of Berend H. Goozen, 234 East Central Ave., former Zeeland city treasurer.

The Seaboard company was one of two firms which furnished the treasurer's bonds.

Mayor Nicholas Frankena revealed last week that Goozen had admitted a shortage of \$12,000 in the city's accounts.

The shortage was revealed last Thursday by Mayor Nicholas Frankena after Goozen was said to have admitted it to the mayor, John Holleman and William Van Eenennaam, members of the council finance committee.

Nick Tanis who defeated Goozen for the office of city treasurer at last spring's election by five votes discovered the shortage recently after attempting for several days to strike a balance in the city's books. Goozen is said to have admitted to his successor that he had been misappropriating the funds for over a period of nine years.

Goozen served as city treasurer for 26 years, having been first elected in 1915. He is exceptionally deaf and it is necessary for those who confer with him to write notes.

He is married, is the father of two children, one son and a daughter, and is a member of Second Reformed church.

Mayor Frankena quoted Goozen as stating that he took the money to speculate in the oil market, hoping that sometime he would "get a break" and be able to pay back the money before the shortage was discovered. He later learned some of the stocks were worthless.

Goozen reportedly told the mayor and council committee that he embezzled various sums, ranging from a few dollars to several hundred dollars at one time, many instances of which he had apparently forgotten. He was said to have covered up the delinquency by not reporting cash collections and failing to enter them in the records.

When the shortage grew to a considerable sum, it was alleged he withheld entering tax collection at the time when some \$30,000 passed through his hands, simply holding that sum in the uncollected tax account.

Following his defeat, Mr. Goozen offered to continue at the treasurer's office to help Tanis over any difficulties he might have in "learning the ropes." He continued to conduct his insurance business in the treasurer's office and volunteered to look after the office affairs in Tanis' absence.

DRIVER OF HOLLAND TRUCK IS INJURED

A large tractor and trailer truck, owned by Heidema Bros., fruit and produce dealers of route 3, Holland, was involved in an accident Tuesday afternoon, west of Delphi, Ind., according to reports received here.

Driver of the truck was William H. Hall, 22, of Grand Junction, who was confined in St. Elizabeth's hospital at Lafayette, Ind., suffering of a broken collar bone, head and back injuries.

Hall was en route to Holland from Saratoga, Ind., with the empty tractor and trailer when the outfit rolled down an embankment at a bridge over Tippecanoe river west of Delphi.

As he sought to drive onto the bridge, Hall noticed a large grain truck, driven by Walter Long of Oakley, Ind., enter the bridge from the opposite end. When he applied the brakes, the trailer buckled, causing it and the tractor to roll down the embankment to the river's edge.

TO PLANT OVER MILLION TREES IN COUNTY AREA

Caution Against Fires in Ottawa Forest District Is Emphasized

Fall Work Will Continue Broad Project to Halt Land Erosion

Grand Haven, Sept. 25 (Special)—Farmers cooperating with the west Ottawa soil conservation district will plant more than 1,000,000 trees this fall which will cover about 1,000 acres in the seven townships in the district, according to R. E. Briola, district conservativist.

Those cooperators already heard from have indicated that they will plant 900,000 trees which will be secured from the district nursery located on the Frank Garbrecht farm at West Olive. These trees will consist of red, white, Scotch, Jack, western yellow pines, Norway spruce and Douglas fir and are planted to halt wind erosion and insure proper land use on areas not suited for other farm crops.

An approximate 100,000 additional trees which are growing in farmer seed beds will also be planted. This idea of farmers growing their own trees is encouraged by the district in cooperation with L. R. Arnold, county agricultural agent, who pioneered the use of tree seed beds on the farm.

The trees added to the 3,786,000 planted since work started in the district in 1939 are the beginning of a movement by the district to reforest lands abandoned because of erosion resulting from improper land use. The earlier plantings are already noticeable as one drives through the country side.

With the rapid increase in new forest plantings come increased fire hazards. The district technicians and directors suggest that thought be given to the construction of fire lanes around the plantings as one remedy. They also caution property owners, hunters and others to be careful of fire during the coming dry season.

Shrubs are being planted along the borders of old and new forests as a source of food for wildlife. Insect eating birds are a valuable asset to the farmer by helping to control insect pests.

JURY REVERSES LOCAL VERDICT

Grand Haven, Sept. 25 (Special)—After 50 minutes deliberation, an Ottawa circuit jury Wednesday afternoon brought in a verdict of no cause of action in the case of the Massachusetts Fire and Marine Insurance Co. assignee of the Rev. John Dubbeldeman of Holland against Martin Ben Brink of near East Saugatuck.

This reverses a judgment issued in Holland municipal court last Aug. 26 where the case was first tried without a jury and a judgment of \$210.18, plus \$10.35, was rendered in favor of the plaintiff. The defendant appealed the case.

The case involved an accident which occurred Dec. 15, 1940, at 9:15 p.m. about five and a half miles south of Hamilton on M-40 between Allegan and Hamilton. Dubbeldeman alleged he was northbound and due to the icy condition of the highway skidded, turned completely around and came to a stop off the east side of the highway facing south with the left side of his car against a snowbank and that while in that position a vehicle operated by Ten Brink approached from the south and skidded head-on into the Dubbeldeman vehicle, causing damage of \$210.18.

After the conclusion of testimony just before noon Wednesday, both plaintiff and defendant moved for a directed verdict. Before the court made any decision on the motions the defendant qualified his motion for a directed verdict and made it conditional that if the court was of the opinion that he was not entitled to a verdict of no cause of action he wanted the case submitted to the jury and the court held that the defendant was not entitled to a verdict of no cause of action, as a matter of law, and that the case would be submitted to the jury.

Miles.

The plaintiff claims it sold some material to the defendant company for which the defendant paid part of the purchase price and when plaintiff attempted to collect the balance the Crampton officers told them the work was not being done for the company but for certain officers of the company individually and refused to pay the balance.

The plaintiff alleges it understood it was working for the company while defendants claim the work was not being done for the company.

WARD CONTENTS DEMOCRACY NO ISSUE OF YOUTH

Head of Ferris Institute Talks to Rotary Club and Students

Dr. Merle S. Ward, president of Ferris Institute in Big Rapids, addressed both the Holland Rotary club and Holland senior high school last Thursday.

Speaking to Rotarians at the Holland Country club on democracy and its connections with youth, he said youth takes democracy for granted.

"Opportunity," he stated, "is the heart of democracy... and liberty is worth fighting for."

The American youth, he continued, does not realize the amount of blood which has been spilled for liberty. "We should teach them to love America, respect its flag and realize that no sacrifice is too great for liberty."

Turning to the present war, Dr. Ward voiced the opinion that it was another chapter in the fight between selfishness and unselfishness. "The world is now awaiting a second Waterloo," he said in predicting the outcome of the conflict.

Next week's Rotary meeting will be addressed by Mayor George Welsh of Grand Rapids.

"Vocational Guidance" was Dr. Ward's subject in his talk to the high school students on Thursday morning.

He opened his address by numerous stories of his life as a teacher. He was born in Indiana and has devoted patently all his life to education.

Dr. Ward asserted that a scarcity of jobs would exist after the war as many former unemployed persons are now needed in defense work.

Few high school students, he said, have definite plans for occupation after graduation, despite the modern stress on vocations.

Declaring that happiness is far more important than money making, he said young persons should choose a vocation they like and which is fitted to their abilities.

Explaining that a profession was on a higher standard than money making, Dr. Ward said, "Service is the real objective."

NO DEER HUNTING IN ALLEGAN THIS YEAR

Allegan, Sept. 25—The rumpus over deer hunting was quieting for the present in Allegan county today following an announcement by Dr. Carl Gower, in charge of the Swan Creek experiment station, that there will be no open season in the county in 1941.

Although the present legislature passed a law giving the conservation commission authority to hold "open seasons" for deer in Allegan county, the law will not be effective until 90 days after the legislature adjourns, which cannot possibly be this year.

Had the law become effective, the conservation commission had set two seasons on deer in this county: (1) a county-wide bow and arrow season for deer of either sex from Nov. 1 to 14 and (2) a special controlled (number of hunters limited) season for the taking of antlerless deer in a restricted area north of the Kalamazoo river from December 1 to 10. Gower stated, however, since the legislature has not adjourned at this time, neither season can be held this year, he explained.

Cement industries of the U. S. in 1940 consumed 5,559,719 tons of soft coal and 74,437 tons of anthracite.

Holland and Creston End Battle in Scoreless Tie

Ushernig in the new season for both teams, Holland and Creston battled to a scoreless tie under the arcs at Riverview park Friday night. The capacity crowd had little to cheer about as both lines battled furiously and consequently the backs failed to shake loose for any substantial gains.

Creston kicked off to Holland and on the first play from scrimmage Vern Kraal smashed through the Creston line for a 17-yard jaunt. After this brief flurry, the game developed into a punting duel between Chuck Ploegsma and Ken Rotman of Holland and Joe Noorthoek of the Polar Bears. Late in the first quarter, Creston, led by the running of Noorthoek and Schad, moved the pigskin to the Dutchmen's 23. At this point, Holland's line rose up to stop the Polar Bears but the Mackaymen were immediately placed in the hole when Ploegsma fumbled on his 33 and Creston recovered.

Gene DeWitt then stopped this threat by intercepting a pass on his own 30. Little Joe Noorthoek continued to outclass the Holland

punters and near the end of the first half placed a beautiful punt out on the Holland 3. The Dutchmen kicked back and Creston again threatened only to be stopped as Rotman speared a pass to halt the advance.

Early in the second half Ploegsma punted out on the Creston 5 and Noorthoek kicked back to his own 32. Ploegsma and Kraal ripped off a first down to the 20, but Creston stiffened and took possession of the ball. After receiving a Polar Bear punt on their own 35, Holland, aided by runs by Rotman and DeWitt, rushed down to the Creston 30 for their last threat of the evening. Creston came roaring back, only to be stopped on the Dutchmen's 38 when the alert VanZyl recovered a fumble. With a few minutes remaining, DeWitt's pass was intercepted on the 45 and Noorthoek shot a pass to Bresnahan on the Holland 15.

DeWitt brought the fleet back down on the 5. A pass fell incomplete and an end run netted a loss of 3 yards and the sound of Creston in possession of the ball on the Holland 8.

For the locals, Chuck Ploegsma carried the brunt of the running attack aided by Rotman. The line, especially VanZyl, Kraal, and Steur, did yeoman duty in stopping Creston's running attack. Creston's standout was Joe Noorthoek who ran, passed and punted exceptionally well while Van Blooyis and Lileit formed the nucleus of a great defensive forward wall.

Line-ups:
Creston: Truckle, L.E.; Courter, L.T.; VanBlooyis, L.G.; Hunsberger, C.; Liellit, R.G.; Braman, R.T.; Boonstra, R.E.; Noorthoek, C.; Q.; Bresnahan, L.H.; Stefaniak, R.H.; McGee, F.

Holland: Kraal (capt), L.E.; Steur, L.T.; Maatman, L.E.; Van Lente, C.; Van Zyl, R.G.; Groters, R.T.; Heneveld, R.E.; Rotman, Q.; DeWitt, L.H.; Ploegsma, R.H.; VandeBunte.

Officials: Referee, Miller, umpire, Kleis; head linesman, Jappinga.

They Make a Living from the Lakes

Hauling a "pound" net. Several hundred pounds of fish make an average day's catch.

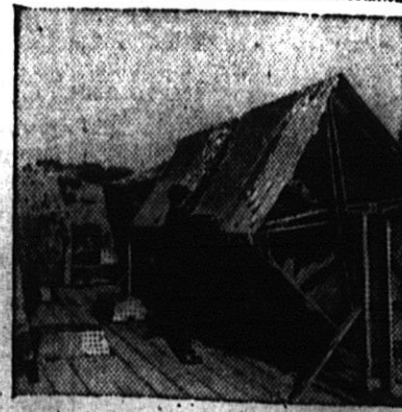

SEVERAL thousand Michigan families get their chief support from deep-water commercial fishing. The state's yearly catch is valued at nearly \$2,500,000.

Whitefish are still the prime delicacy of the Great Lakes, and command top prices, but their number has declined steadily. Today lake trout and lake herring lead whitefish in total value. Yellow pike, yellow perch and chubs also are commercially important.

Fish must be kept iced from the time they are brought in, and there can be no delay in getting them to market. Fish companies keep track of the demand by telephone, to avoid shipping to places already well supplied.

You can enjoy a supper of fresh-caught fish, straight from the Lakes, by merely calling up the nearest market!

Two Get Stiff Fines for Missing Trial in Holland

Bert Verecke, 21, route 2, Holland, and Evert Slenk, 23, route 1, Holland, learned Tuesday afternoon that it is rather expensive not to show up for trial in municipal court.

The two had been arrested last week and had pleaded not guilty. Their trials were set for Friday afternoon but they failed to report in court for trial.

RULING ON HOLLAND TAX CASE IS SOUGHT

Lansing, September 25 — Attorney General Herbert J. Ruston today had a request from Dr. Eugene M. Elliott, state superintendent of public instruction, for an opinion on the legality of the sales tax office's attempt to collect the sales tax on high school and college annuals.

According to Elliott, the printer of the Hope college and Holland high school year books declined to pay a sales tax because he had not collected it from the students and because he had made the annuals at cost.

The sales tax office held that as long as the students had an option of buying or not buying an annual the books were subject to the tax. Sales tax officials explained that in cases where every student gets a yearbook as a result of a fee contained in his tuition or registration fee, no tax is charged.

(The case involves the Steketee-Van Huis Printing Co. Louis Steketee, associated with the firm, has been in Lansing and has requested the state sales tax board for a hearing in the matter. He said the board has not yet agreed to a hearing.)

TWO DRUNKEN DRIVERS

In a recent issue of the Sentinel,
on the same page, appeared two
stories of punishment for drunk-
en driving. One of them had a
Grand Haven date line; it told how
one Warren J. White, third offense
drunken driver, had been sentenced
to serve from six months to a
year in Southern Michigan prison.
The other story came from Mt.
Clemens. A bricklayer named Cyril
Devriendt was sentenced to a 7-
year prison term because his car
killed two little girls when he
tried to operate his car while he
was under the influence of liquor.

Those two stories are somewhat
reassuring to the general public.
It seems to be no longer quite
necessary for a drunken driver to
kill someone before he is actually
put behind the bars; in Ottawa
county at least the drunken driver
as such, whether he actually
harm someone or not, is consid-
ered fit material for the peniten-
tiary.

That theory has not by any
means been adopted everywhere.
In fact, there are probably more
places where a drunken driver
like Warren J. White would get
off with a mere fine than there are
places where judges have courage
enough to send him to prison. And
even when a judge has the neces-
sary courage, many people almost
invariably make it their business
to try to get the sentence reduced
or changed into a mere fine.
Some citizens even consider it an
imposition to have the driver's
license of such a man revoked.

The result almost always, sooner
or later, is the kind of thing told
about in the Mt. Clemens story.
The drunken driver who escaped with
a mere fine goes back to his old
haunts and takes another chance.
The first experience re-
sulted in nothing worse than an in-
convenience and so he gets drunk
again before climbing behind the
wheel. And then it happens; or if
not that first time, then later. He
does not see the child that is in the
business of a careful driver to see.
Or he does not go correctly the
speed of an oncoming car. Or he
gets in any one of a dozen situa-
tions the average motorist must
deal with every day. A moment of
indiscretion, a failure of judgment—
and another innocent life has been
ruined.

It is only then that the average
court imposes the prison sentence
—when the irretrievable harm has
been done. In Ottawa county at
least the court does not seem to
wait for that; it sends drunken
drivers to prison for the crime of
drunken driving itself. A little
more of that kind of toughness
would not be amiss in other sec-
tions of the state.

THE CHURCH INVITES YOU

When Steinmetz, the wizard of
electricity, was asked what he
thought would be the greatest dis-
covery of the future, he unhesitat-
ingly replied, "In the realm of the
moral and social and spiritual." He
was right, for having turned to the
outer laws, we must now turn to
the inner.

In the realm of the moral and
the spiritual, the forces of good
will, kindness, brotherhood, friend-
ship, love operate. These forces
surpass the physical forces, in
which the philosophy of "might
makes right" abounds.

The church is the one institu-
tion that presents the satisfactory
program of these spiritual and
moral forces. Why not accept the
invitation and come to church next
Sunday?

Two Boys Questioned
About Attempted Breakin

Two minor boys, picked up by
Holland police after they had re-
ceived a report of an attempted
breakin early Sunday morning at
the Cook Cook and Feed Co., 109
River Ave., were released after
being questioned and being able
to provide alibis.

The attempted breakin was re-
ported to police about 12:40 a.m.
Sunday by the night watchman at
the De Pree Co. Two police cruis-
ers were immediately sent to the
scene and the two boys were pick-
ed up in the nearby vicinity. A
third boy reportedly got away.

The New Jerusalem
Revelation 21:1-7; 10-12; 22-24

By Henry Geerlings

Once again the author of the
Revelation seems to have a double
meaning in the colorful picture he
paints of the city of God. First, he
is thinking in terms of Rome, the
capital of the Empire, which is
causing so much suffering to the
members of the Christian church.
Rome is mistress of the world, her
power is great, and, for the time
being, it looks as though there
can be no hope for the compara-
tively few who refuse to offer in-
cense at the altar of Caesar. The
author, in his vision, however, sees
the end of that power. The time
will come when Rome will fall and
its place will be taken by the city
of God. Persecution may continue
for a while but the fall of Rome,
and all the evil it represents, is but
a matter of time.

Second, in prophetic vision, the
author looks away beyond the fall
of the power of Rome, to a divine
state of life on earth when the
church of Christ will be trium-
phantly vindicated. This picture so
magnificently painted in colors
that almost blur our vision, is
merely an ecstatic elaboration of a
world purified and redeemed,
which has been the object of Chris-
tian people's dreams and travail
since the early days of the Chris-
tian church. The hope of a redeem-
ed society has been the inspiration
of all effort for international
peace, human clearance, the allevia-
tion of human suffering, justice,
and a true brotherhood among peo-
ples of all classes and races. If the
physical phenomena of the vision
are translated into spiritual real-
ities, there is a picture of a world
fit for the redeemed.

However, the author knows only
too well that the ideal city of God
can never be completely realized
in a world in which evil seems to
be part and parcel of its essence.
There are limitations which will
probably never be overcome on this
earth. The city of God will be
realized in its complete form, only
in the hereafter where God reigns
in a sphere of perfect love.

It is barely possible that we
think of the life to come as much
different from this life than it
really is. We speak of this life as
one of joy. It certainly ought to be
that no matter how hard we have
to work. It is not right that there
will ever be much joy in life unless
we do render some service with
our hands and brain and heart.
Not every moment of life will be
one of laughter, but it may be one
of gladness that we are alive and
seem to be making something out
of life the years which God has
given us.

We are told that at God's right
hand there are pleasures forever.
I suppose the word pleasure is
used in the sense of joy and glad-
ness. There may be many dark
moments here, moments of sadness
and bitter toil and sometimes of
loss, but all of these may contrib-
ute to the larger life we are try-
ing to develop. Then again just as
this life is to be one of service, so
the life to come will be of that na-
ture also. The Bible tells us that
we shall serve Him day and night
in His temple. Unfortunately we
have come to identify service with
exhausting labor. That is not nec-
essary nor is it natural.

It would be a great mistake for
us to think of heaven as a place
where we sit around and do noth-
ing. We are not to understand it
to be a place of idleness. Our fac-
ulties will be developed and to an
unusual degree and it is natu-
ral to believe that they will be put
to some service in His kingdom.
All that has been said should leave
one clear impression which is that
the life we now live should be
made a very real and earnest one.
No person reaps what he does not
sow, and these are good years for
us to do many things that will
bring a rich reward. It is probably
true that he is best prepared for
the life to come who is filling his
present life with activity and good
cheer and hopefulness. It is here
and now that we are to get ready
to live and serve there.

Faith in life after death can be
a great incentive to proper living
here and now, if that emphasis is
properly presented. One ought to
be willing to follow God and Christ
in this present life for the eternal
fellowship with them which is held
out to the believer.

The greatest preparation for re-
ception into heaven is faith in God
and Christ. The Master has as-
sured us that there are many
mansions in the Father's house.
He has gone to prepare a place
for us. It is in this faith that the
Christian lives and works. We can-
not by good conduct win this
eternal home. We gain entrance to
it through faith alone.

HOLLAND
IN 1912

A most important event is to be
the annual banquet of the Board
of Trade next Monday evening in
Hotel Holland, began an item in
the Friday, Feb. 23 issue of the
Holland Daily Sentinel published
in 1912. Justice Stone of Lansing
and Hon. Mr. Colgrove of Hastings,
two of those who will respond to
toasts at the banquet, will arrive
in Holland Monday afternoon.

The following Grand Rapids item
was of interest in this issue. In
part it was as follows: "It was de-
cided at a meeting of the eastern
class of the Christian Reformed
church of Grand Rapids yesterday
to advise the synod, the highest
ecclesiastical body of the church,
which will meet in Roseland, a
suburb of Chicago, in June to re-
tain the present property of the
Calvin college and Theological
seminary. The present property of
the school has already been ad-
vertised for sale, and this action
which has been affirmed by sev-
eral other classes of the denomina-
tion, will practically make the
ten acre campus which was don-
ated to the church by the business
men of this city for the erection
of a new school useless. It is ex-
pected that if this action should
be conformed at the synod, the
academy will be separated from
the seminary and college. The col-
lege and seminary will then be
supported by the church, and the
present school building will be used
for that purpose. A society would
then be formed for the erection of
an academy, but according to those
interested in this movement, the
campus which has been secured
would be too large. In case these
actions should be affirmed by the
synod, the donation of the ten
acre campus would be in vain.

A very happy time was enjoyed

YOUTH CENSUS IS COMPLETED

Allegan, Sept. 25—Upon concluding a census last week, the Allegan County Youth council reported there are 7,615 youths under 24 years of age in Allegan county.

Of this number 5,017 live in rural areas, 1,285 are in school in high school districts and 1,313 are out of school. Wayne Beery, executive secretary of the youth council, reported that of the rural youth, 2,314 are in school and 2,674 are out of school while 29 are unclassified.

Of the younger youth from 14 to 19 years old who are out of school, 573 were considered employed with 431 being recorded as unemployed.

The youth council's survey of the school census revealed the following facts, Beery reports: Youth non-employment at present is largely a rural problem in the county, meaning that effort towards youth self-help must be centered in these areas. There is a higher proportion of employment among out-of-school boys than among out-of-school girls. The older the youth, the greater the employment opportunities. Urban schools have a greater youth holding power than the rural primary school.

The larger high schools have greater youth holding power than the smaller high schools with a fairly constant ratio between the size of the school and the percentage of youth of school age attending. Home ownership in rural families tends to increase the number of out-of-school youth. The proportion of youths not attending school increases with the extent of home ownership in rural areas. One out of every three younger rural youths, 14 through 19, are out of school. One out of every five youths in urban areas are out of school.

The most conspicuous place where pupils drop from school is in the rural primary school's eighth grade. Each year more than one-fourth of eighth grade population drop out of school. In the past six years this has decreased 6 per cent.

After the ninth grade the percentage of pupils dropping from school doubles progressively with each higher grade level.

There are more out of school among the rural younger group than in the corresponding group in urban areas in the county.

A county-wide job census would give youth needed information on the county to build their vocational plans. Beery concluded. Job censuses have been conducted in several areas in Michigan, he pointed out, with considerable success. In such a program the youth themselves act as enumerators. One such census was taken in Grand Haven recently.

THREE YOUTHS HELD IN STATUTORY CASE

Arraigned here Friday before Municipal Judge Raymond L. Smith on charges of statutory rape, three Holland boys waived examinations and were bound over to Ottawa circuit court.

The youths were Paul Rooks, 18, 105 West 21st St., Bernard Dykema, 17, 152 West 19th St., and John Kouw, Jr., 17, 26 East 16th St.

Bonds of \$5,000 each were set by the court but only Rooks was able to furnish bond. Dykema and Kouw were ordered held in jail.

Their appearances in circuit court were set for Monday, Sept. 29. The case involves a 16-year-old Holland girl who is being held in the detention home at Grand Rapids pending disposition of her case by Ottawa probate court.

The Holland police department and the Ottawa sheriff's department which have been working jointly on the case for the past two weeks have revealed that warrants would be issued for the arrests of two other persons.

They were Burton Poest, 18, route 1, Holland, who will be charged with furnishing beer to two minor girls, and John Tupper, about 65, 375 Columbia Ave., operator of John's Place, who will be charged with selling beer to a minor.

The police and sheriff's officers talked last week with Prosecutor Howard Fant and received his approval for the issuance of the criminal warrants against Rooks, Kouw, Dykema, Poest and Tupper.

The alleged offense occurred last Sept. 5, according to investigating officials. From stories obtained from the three boys, police learned that Poest and Kouw picked up two minor girls during the afternoon. Officers said Poest bought some beer which they drank.

That night, police said, Rooks and Kouw took out the 16-year-old girl and Rooks bought the beer. Upon returning to Holland, they turned the girl over to Dykema.

Following their arrests, all three boys signed confessions, police stated.

John Tupper, 66, 106 East 17th St., waived examination on Monday before Municipal Judge Raymond L. Smith on two charges of selling beer to minors and his case was bound over to Ottawa circuit court.

Monday, Sept. 29, was set as the time for his appearance in circuit court. He was released on his own recognizance.

Burton Poest, 18, route 1, Zeeland, charged with furnishing beer to a 15-year-old girl, pleaded guilty Monday before Municipal Judge Raymond L. Smith and was assessed a fine of \$25 and costs of \$4.15, totaling \$29.15. The charge resulted from the recent arrest of three Holland boys on a statutory charge and John Tupper, 106 East 17th St., who is facing a charge of selling beer to a minor.

COMMON COUNCIL

Holland, Mich., Sept. 17, 1941. The Common Council met in regular session and was called to order by the Mayor, Present: Mayor Geerlings, Aldermen Arendshorst, Kleis, Steffens, Ketel, Faasen, Slag, Smith, Mool, Damsen, Menken, Raymond, and the Clerk.

Devotions led by Mayor Geerlings.

Minutes read and approved.

Petitions and Accounts Clerk presented report from the Hartford Steam Boiler Inspection and Insurance Co. covering a recent inspection of the boiler at the Hospital. Report recommends the removal of scale from the interior surface and also a new fusible plug inserted.

Referred to the Hospital Board. Clerk presented application and bond of Peter Kalkman, and also J. Witteveen for license to construct cement sidewalks, etc.

Bonds approved and licenses granted.

Reports of Standing Committees. Claims and Accounts Committee reported claims in the amount of \$11,371.58 and recommended payment thereof.

Allowed.

Street Committee reported having received an option from Albert R. Voss and Gertrude Voss, his wife, to purchase a part of his property directly south of Windmill Park to be used for street purposes in connecting up Pine Ave. extended with River Ave. at this point. Mr. Zuidema, City Engineer, explained that the property which the City proposes to buy from Mr. Voss includes his garage building and has a River Avenue frontage of 53 feet and a width of approximately 133 feet in the rear of Mr. Voss's present lot. It is proposed to construct the approach from Pine Avenue to River Avenue on a curve. It was further stated that under this proposal, Mr. Voss would retain a River Avenue frontage of 80 feet with a depth of approximately 100 feet.

Mr. Lokker, city attorney, explained to the Council that after the city acquired title to the property for the light plant, there were still two pieces of property north of Madison Place that were not covered in the original stipulation and since the city had acquired a deed from Mr. Lyons to all former island property north of First St., it could claim ownership to all such property on that basis lying west and north of the old channel. Mr. Lokker further stated that in addition to the option on the property of Mr. Voss, he and Mr. Zuidema had offered Mr. Wlodarczyk a fair price for an option on a strip of ground 38 by 90 ft. in the rear of his premises which would complete the purchases necessary to make this city property an option did not include any of Mr. Wlodarczyk's present property but consisted only of marsh land extending west from his present property.

Mr. Lokker further stated that in his opinion and also that of the city engineer, Mr. Voss had offered his property to the city at a fair price and at a price that he had been offered by individuals.

On the other hand, the price asked by Mr. Wlodarczyk in their opinion was exorbitant and way beyond its worth, viz. \$3,500.00. It was the recommendation of the city attorney that a resolution be adopted to purchase the property of Mr. Voss as per the option price of \$9,000.00. Mr. Lokker recommended that the city condemn the strip in the rear of Mr. Wlodarczyk's property for street purposes.

Adopted, all present voting Aye. Committee on Public Lighting reported that the Holland township board does not want to continue paying full price for the two boulevard lights on the north end of the bridge over Black river. The board feels that the township would get more benefit from the same amount of money if used to pay for overhead lights. Committee further reported that the township board was agreeable to paying \$25.00 per year for these two lights instead of \$88.50 as at present.

It was moved by Ald. Kleis, seconded by Raymond, That their offer be accepted.

This motion was lost by a vote of 6 to 5.

On motion of Ald. Raymond, seconded by Menken,

The matter was then referred back to the committee for further consideration.

Messages from the Mayor Mayor Geerlings read a message covering his thoughts on what he had heard and learned at the recent conference in Chicago known as the Mid-West Emergency Conference on unemployment due to priorities.

The mayor stated that the sessions were very interesting and constructive. Mayor stated that the question of unemployment that might develop, especially to smaller concerns not engaged in defense work, was of great concern to all those present. He stated that although Holland was very little affected at the present time, the matter should be closely watched and everything possible should be done so that those plants who may find difficulty in securing materials be given due consideration.

The mayor suggested that much good may be accomplished if all work together in keeping in touch with the local situation and survey the needs of those not working on defense orders. The mayor suggested that the Common Council, Chamber of Commerce, labor leaders, managers of industry, merchants and local newspapers all cooperate in helping one another if this crisis comes.

Message accepted.

Communications from Boards and City Officers.

The claims approved by the following boards were certified to the Council for payment:

Hospital board, \$1,602.31; Library board, \$243.39; Park and Cemetery board, \$1,503.49; Police and Fire board, \$4,109.29; and Board of Public Works, \$13,963.08.

Approved.

Clerk presented communication signed by William Brusse stating that the office of alderman or mayor and the office of member of the board of education are incompatible. The communication further states that it is not to the best interests of good government to concentrate the powers of these two offices in one person.

It was further stated that such increase in power in one person might lead to misuse; and since it was unlawful and contrary to court decisions, should not continue.

It was further stated that it should not be necessary to do more than call this to the attention of those concerned in order to correct the condition that now exists.

Referred to attorney general for a ruling.

Council adjourned.

Oscar Peterson, City Clerk.

HOPE SMASHES IN SECOND HALF DOWN J.C., 10 TO 0

Timmer Gains Touchdown, Davis Boots Perfect Placement

After a slow first half, the Hope college eleven suddenly came to life and rammed across a touchdown and a field goal to vanquish a determined Junior college squad, 10-0, in Grand Rapids last night. The game was played under the lights of Houseman field before a good-sized crowd of 2,500 football fans, including a contingent of 200 Hope rooters.

Junior won the toss and kicked off to De Fouw who returned to the Hope 35. After two plays were stopped cold, DeFouw punted to the Junior 20. The Dutchmen's forward wall rose up to stop the Jaysees and Blackburn kicked to Timmer who was downed on the Hope's 41. De Fouw hit the center for 5 and Timmer rammed over right tackle for a first down. Three plays netted 8 yards and De Fouw punted over the goal. As the quarter ended, Junior smashed up to the 37 for a first down. Blackburn ripped off 9 yards but the attack bogged down and Junior was forced to kick. Alternate runs by De Fouw, Higgs and Timmer netted another first down for the Dutchmen, but after two incomplete passes, De Fouw laid a punt out-of-bounds on the Jaysees 12-yard line. Junior came roaring back for two first downs and then was stopped on its own 35, and after an exchange of punts the half ended in a scoreless tie.

The fierce play of the two lines stood out in the first half. The failure of the speedy Hope backs to break loose was caused by the lack of blocking on the line and the submerging of the forward wall of the Jaysees.

During the intermission, Coach Bud Hinga must have inspired his squad for they came out with determination and a lot of life.

Junior again kicked off to Timmer on the Hope 20 and Art was downed on his 37. Then on the first play—a power play off left tackle aided by brilliant blocking—Dick Higgs smashed his way for 41 yards to the Jaysee 22. DeFouw hit center for 2 and Timmer ploughed over to the right side of the Junior line to the 4. Then Timmer again smashed over right tackle to score standing up and the Or-

VALUE OF LAND TITLE IS SHOWN

"Real estate is worth no more than its title," is a common and true statement. Hence it is always advisable for a prospective buyer of real estate to know that the chain of title to the real estate about to be purchased is unbroken. There is but one way to get that information and that is from an abstract prepared by a reputable abstract office.

The Ottawa County Abstract and Title Co., located in Holland, was organized about 30 years ago by a few of the leading citizens of this city who felt the need of a local abstract office from which they could obtain quickly and easily exact descriptions of parcels of land, the recorded ownership, possible liens as well as abstracts of title on any property located in Ottawa county.

V. R. Hungerford, manager of the company, states they are frequently asked to explain just what an abstract is and why it is essential to always demand an abstract when purchasing real estate. In brief, an abstract is the orderly listing of all recorded instruments touching the property in question together with all essential facts which pertain to each recorded instrument. Such recorded instruments are deeds, mortgages, discharges, probate proceedings, court decrees, etc. This gathering together in brief form of all the recorded transactions touching a given parcel of real estate makes it possible to know if its title is good or not.

CORRECT FEED AID TO CHICKS

William Zonnebelt, manager of the Holland Cooperative Co., states that chicks grown on his feeds will develop into well developed layers that will maintain production and secure a profit to the feeder.

The feed should have the proper balance, protein, fats, carbohydrates, vitamins and minerals. All feeds sold by The Holland Cooperative Co. are built to contain these ingredients properly balanced for rapid growth and development.

It is important to obtain chicks from flocks that will have the ability to lay 200 eggs per year. To get this insist on chicks from flocks that have been served by R. O. P. males for several generations.

Complete information may be obtained at the Holland Cooperative Co.

Several Are Injured in Grand Haven Accident

Grand Haven, Sept. 25 (Special)—Several persons were taken to Municipal hospital here Saturday night as the result of an accident which occurred about 7:30 p.m. at the south approach to the large swing bridge on US-31 near Grand Haven.

Jack LeJeune, 16, of Fruitport, who attempted to pass a car driven by Louis Tibbe, 23, route 1, Holton, got over the center line of the highway and in attempting to get back on his own side of the road sideswiped the Tibbe car.

Among those injured and taken to the hospital for treatment were LeJeune, who suffered head lacerations; Helen Tibbe, who received bruises on her legs; and Ray Wiggers, who received head lacerations. The last two were passengers in the Tibbe car.

HARTFORD FAIR OPENS MONDAY

Hartford, Sept. 25—The "dollar up" of the Hartford fair grounds, in progress for weeks, is nearly completed and when the gates of the Van Buren county fair swing open Monday morning the largest and most timely fair in all of the history of the county will stand revealed.

Theme of the 1941 fair is the part that agriculture must play in the national defense program and the methods that the industry must adopt to meet the food requirements of the armed forces and the civilian population.

Space has already been set aside for more state exhibits than have ever been shown at Hartford, and most of them will have direct bearing upon Michigan's part in national defense.

Tuesday will be made an outstanding farmers' day. It will be featured by horse pulling contests for which the premiums have been doubled in cooperation with the Michigan owners of pulling teams, and the two contests Tuesday afternoon will be in the nature of championship affairs between winners at previous Michigan fairs.

Tuesday night an entirely new group will present a typical barn dance, with Chuck Acree, widely known announcer, conducting a popular quiz contest with \$100 in awards for answers from the audience.

The theme of the fair will be carried still farther in the gorgeous night spectacle "A Salute To Freedom," Edgar I. Schooley's latest New York production.

Expansion of the fair to six full days makes Monday entry day, and all exhibits must be in place Tuesday morning when judging starts. Tuesday's "first day" crowd will find affixed the blue, red, yellow and white ribbons that designate prize winning exhibits.

Teaching

Robert Verburg, 1941 graduate of Hope college, has been appointed one of 22 teaching fellows to assist in 11 departments of Massachusetts State college at Amherst, Mass. He is teaching chemistry there while doing research work for his master's degree in chemistry. He is a son of Mr. and Mrs. Martin Verburg of 105 East 14th St.

Home owners in Holland and vicinity are giving more attention than formerly, to home improvement ideas, according to J. Bagdadi, manager of the Holland Ready Roofing Co.

"A roof of colorful beauty, blending or contrasting correctly with the home's natural surroundings, sidewalks or shutters, accentuates a house's most attractive feature."

From the wide line of Flintkote mineral surfaced shingles the home owner can choose a distinctive colorful roof to suit his own taste. Pleasing plain colors and beautiful blends are available in a wide variety of colors, styles and surface textures.

"The outside appearance of a house always largely determines the impression it makes upon its owner and his friends."

Whether one owns an old home or plans to build a new one, one can economically improve its appearance with outside walls Flintkote asbestos-cement sidings. Since they are made of two imperishable materials—asbestos fibre and portland cement, these sidings cannot rot, rust or burn.

Holland Home owners are requested to ask for suggestions and free estimates on their roofing and siding problems.
