The mechanics are at work now in remodeling the front of the old building. The boiler for the heating apparatus and the til arrived this week.

Wm. Brusse & Co. have fallen in with the new plan of advertising, by "attractions." The one they are running this week and next is a cage of monkeys, placed in one of the show windows. It is one of a series of seven teat are being forwarded systematically over the country, from one house to another. The next attraction is said to be a live curiosity.

Married, in this city, at the residence of the bride's father, on Cedar street, on Tuesday evening, Sept. 20, by Rev. J. Van Houte, Charles M. Wilder, of Chicago, Ill., and Miss Anna Van Ry, of this city. The wedded couple left on the evening train for Chicago, from whence they will continue their wedding trip south. Their future home will be 1108 Deversey street, Chicago.

As the new arrangements near Waverly near completion, matters at this station are being adjusted accordingly. The engines are taking water from their new supply and the stand pipes near the Holland depot have been taken up. Several side tracks west of Land street have been taken up; also the diamond near the passenger depot, and the telegraph poles from Macatawa Junction to the office here.

We have been requested to again call the attention of the public to the recent change in the Fair regulations. Heretofore the time for making entries extended to Wednesday noon. Hereafter, commencing with this year, the entry books will close on Tuesday evening. The object in view is to make Wednesday more of a regular day for visiting, same as Thursday. Also, to enable the secretary to have his books for the judges all completed on Tuesday evening, ready for the judges to commence their viewing on Wednesday morning. Also to increase the gate receipts, on Wednesday. Parties can make their entries with the secretary at any time, in person or by mail, from now until Tuesday evening, and they have until Wednesday at 9:00 o'clock a. m., to bring the articles on the grounds.

G. J. VAN DUREN, P. M.

A state meeting of the county commissioners of schools was held at Lansing this week, to be followed by a meeting of state institute workers, called by Superintendent of Public Instruction Fitch. Commissioner Lillie of this county was present and took part in the discussions.

The Holland Republican club has appointed G. Van Schelven, G. J. Diekema and Geo. E. Kollen to represent them at the Fifth Annual Convention of the Michigan League of Republican Clubs to be held at Grand Rapids on next Tuesday forenoon—the same date of the Republican state convention.

In recognition of the many years' faithful services so cheerfully rendered by Miss Reka Boone—now Mrs. Soulen—as the organist of Hope church, the membership of that congregation are taking steps to present her with a handsome wedding cadeau, to be forwarded to her at her new home in Portland, Oregon.

Tuesday morning, after G. J. Diekema had awoke from his slumbers—which appear to have been extraordinary sound—he realized that during the night his friends the enemy had been making inroads upon his anticipations and ambition. As reported by him—and this is no campaign story—some unscrupulous partisan has misconstructed and misapplied the idea of reciprocity, the net result of which to Mr. Diekema was that upon a summary inventory, negligently taken, he found his assets reduced during the night by from thirty to thirty-five dollars, *ad valorem*. The particulars of the case are that at some hour after retiring the house had been entered through one of the kitchen windows,—it being the only one through which an entrance could have been obtained. From the burned matches on the floor the thief or thieves must have first taken a survey down stairs, and from thence proceeded up stairs to the family bed room. Mr. D.'s clothes were relieved of his pocketbook and Mrs. D.'s purse was also missing, the two containing over thirty dollars in money. Upon search it was found that nothing else had been taken, not even the watch which was in the vest on the same chair. No clue to the burglars, thus far, and no suspicion upon the nearest neighbors.

Remember the sale at E. J. Harrington's, October 1st.

The Republicans of Zeeland have organized a Republican Club.

Hope church pulpit will be supplied next Sunday by Rev. J. W. Beardslee, D. D.

The six-months old child of Mr. and Mrs. P. Verschure of Zeeland, died Tuesday.

The Grand Rapids fairs were well patronized, and the attendance from here was also fair.

P. Elenbaas, of the Zeeland planing mill, monkeyed with a saw last week and lost the tips of three fingers.

Services will be conducted next Sunday in the Ninth street Holl. C. R. church, by Prof. G. Hemkes, of Grand Rapids.

Peaches are brought into the city daily. They bring good prices. Although "de quality am small, de flavor am delicious."

The infant child of Jacob Schepers died at Zeeland, at the home of its aunt, Mrs. Henry Schepers, and was buried at Pilgrim Home cemetery, Tuesday, by the side of its mother.

The directors of the Coopersville and Berlin fairs are at loggerheads as to which one of their respective boards is responsible for the fact that both fairs are being held on the same days this year.

The Misses De Vries & Co. are daily in receipt of new millinery goods for their fall trade. Their establishment is among the leading millineries in the city, and the prices are reasonable. See new advertisement.

For a beautiful display of furniture, offered at reasonable prices, step in at the emporium of A. C. Rinck & Co., Eighth street. Parties visiting Holland during fair week will find it to their advantage to examine their goods and prices.

The accumulation of stock at the livery and sale stables of Ed. J. Harrington, Jr., has compelled him to dispose of the surplus at auction. Elsewhere in this issue is a full announcement of what will be offered at public vendue on Saturday, Oct. 1.

Any contribution of temperance tracts or papers suitable for distribution at the Fair, or money to purchase the same, will be thankfully received by the Woman's Christian Temperance Union, at their rooms in Kanter's block, on Friday afternoon next.

Married in this city, Monday, by Rev. Dr. N. M. Steffens, S. De Bruine of Chicago and Miss J. J. Compagne, just arrived from the Netherlands. The groom was a former resident of this city, and assistant editor of *De Hope*. The new couple have left for their home in Chicago.

The attorneys of Charles Wright, the murderer of F. Thurber, have just decided to take his case to the United States supreme court. He is worth nearly a hundred thousand dollars. His case has been through the Michigan courts, and the legal expenses have been great.

At the Republican caucus held Wednesday evening, the following delegates were elected to the county convention: Dr. F. J. Schouten, J. Kruijenga, R. Cook, G. J. Van Duren, R. N. DeMerell, S. E. Crandall, F. Van Ry, B. D. Keppel, P. H. McBride, G. Van Schelven, Henry Geerlings, Carl Van Raaite, John Pessink, Dr. O. E. Yates, C. L. King, G. Van Landegend and R. A. Van der Hil.

The revoking of the licenses of the captains and mates of the stmr. Kalamazoo and Pilgrim is creating quite a consternation among masters of lake steamers. It is the first attempt on the part of the government to enforce, strictly, the rules of navigation requiring steamers to run slowly during foggy weather. Steamers have run at full speed through dense fogs, trusting to luck to go through. So general was this that the masters of sailing crafts in fogs sought to go out of the track of steamers as soon as possible. When the Pilgrim and Kalamazoo crossed each other's course, it is accepted in the evidence that the boats were going as fast as their engines would drive them. The Pilgrim had not sounded her fog signal for six minutes before the collision. The Kalamazoo blew her fog whistle regularly. The action of the steamboat inspectors, unless revoked, will make it impossible for the deposed captains ever to run another vessel, and, while rather severe, it is considered by some vesselmen to be a deserved penalty. They will doubtless be re-instated at the end of the season. It is intimated that Capt. Cummings of the stmr. Pilgrim will take an appeal to the supervising inspector.

Do not forget the sale at E. J. Harrington's, October 1st.

The variety of stoves at E. Van der Veen's is immense. Call in and see them.

Ground has been broken for a new two-story brick building, 80 feet deep, on Eighth street, east of Jones' store, for Mr. N. D. Ward of Flint.

Messrs. Veneklasen Bro's, of the Zeeland Brick Co., are seriously contemplating starting another yard not far from their present location.

Hon. Charles E. Belknap, present Congressman for this district was re-nominated by acclamation at the Republican congressional convention held at Grand Rapids, Friday.

H. Thompson has sold his place on Twelfth street to K. Schaddelee. It is the intention of the latter to move off the present building, and erect him a nice residence there.

At the Democratic congressional convention of this district held at Grand Rapids Thursday, the People's candidate, Geo. F. Richardson of Hudsonville, was nominated by acclamation.

B. L. Scott has disposed of his one-half interest in the Phoenix planing mill to his partner G. J. Schuurman. The firm of Scott & Schuurman however will not be dissolved until about Jan. 15, 1893.

Cards are out announcing the marriage of John Rankans of Coopersville, to Miss Lizzie A., daughter of Rev. and Mrs. J. H. Karsten, Alto, Wis., on Wednesday evening, Sept. 23, 1892, at the Ref. church. Reception at the parsonage after ceremony.

Hannibal Hart, the man nominated yesterday by the democrats of this the 20th judicial district, was a volunteer in the union army and carries the marks of a rebel shell. This cannot be said of his opponent who never entered the service.—Ottawa County Times.

Say, neighbor, try that on the head of your ticket.

The Democrats of this judicial district met in convention in this city, Thursday, and nominated the People's candidate, Hannibal Hart, for judge by acclamation. A judicial committee was appointed, consisting of M. G. Manting of Holland, E. D. Blair of Grand Haven, and R. L. Newnham of Allegan.

Here are three facts that cannot be successfully disputed, and the Democratic freetraders will not attempt to dispute them: The ratio of American wages is steadily increasing; the cost of living is decreasing and never was lower than at the present time; the general prosperity of the country is greater than it was twenty years ago.

News Depot of M. Van Putten.

I have bought the News Business lately carried on by M. G. Manting, and for the present will continue to carry on the same at the old stand of the Ottawa County Times, on Eighth street.

A STATESMAN'S VIEW

OF WHAT THE MCKINLEY LAW HAS
DONE FOR US.

New Markets Opened, Prices Advanced,
Business Quickened—The Farmer, the
Manufacturer and the Workman Bene-
fited.

[Special Correspondence.]

Under direction of the Secretary of the
Treasury Foster, the chief of the bu-
reau of statistics compiled some initi-
atory statistics of the department
about the effects of the McKinley law
upon the trade of the country and the
remarkable growth under it.

"It is a wonderful showing," said Mr.
Foster reflectively, as he leaned back in
his office chair and looked again at the
totals and comparisons which Mr. Brock
had laid before him. "I wonder what
the tariff reformers can say to this. It
is worth more than volumes of asser-
tions based on theories. It shows that
the last congress, when it revised the
tariff, did its work intelligently."

"What years are taken for purposes
of comparison?" asked the correspond-
ent.

"The fiscal years ended June 30, 1890,
and June 30, 1892. During the entire
year ended June 30, 1890, the tariff of
1893 was in operation, and during the
entire year ended June 30, 1892, the
tariff of 1890 was operative."

"Can you give me a summary of the
results of the comparison?"

"Yes, here it is:

REVENUE INCREASED.

"First—The revenue has been in-
creased \$51,367,650.
"Second—There has been an increase
in the total value of our foreign com-
merce of \$210,540,510, as compared with
1890, and an increase of \$400,337,334
over the annual average of the ten years
prior to 1891.

INCREASED EXPORTS.

"Third—In 1892 the exports for the
first time in our history exceeded a bil-
lion dollars, being \$1,030,278,030, which
was \$173,449,346 more than in 1890, and
\$265,142,533 in excess of the average an-
nual value of exports for ten years prior
to 1891.

"Fourth—The increase in exports of
cotton over 1890 was \$7,492,449, and \$36,
772,912 over the annual average for ten
years prior to 1891.
"Fifth—The exports of breadstuffs of
1892 exceeded the value of the same ex-
ports in 1890 by the sum of \$144,437,190,
and exceeded the average annual value
for the ten years prior to 1891 by the
sum of \$131,206,234.

"Sixth—The value of the exports of
provisions in 1892 exceeded the value of
like exports in 1890 \$4,097,653, and the
average annual value for the ten years
prior to 1891 by the sum of \$27,703,432.

"Seventh—The exports of cattle, sheep
and hogs in 1892 exceeded the value of
like imports during 1890 by the sum of
\$3,211,031, and exceeded the average an-
nual value of the same exports for the
ten years prior to 1891 by the sum of
\$20,233,071.

GOOD FOR THE FARMERS.

"Eighth—The combined value of ex-
ports of cotton, breadstuffs, provisions,
cattle, sheep and hogs, all classed as
agricultural products, of 1892 exceeded
these exports of 1890 by the sum of \$159,
233,333, and exceeded the average an-
nual value of the ten years mentioned
by the sum of \$215,965,639.

"Ninth—The exports of all other
products in 1892 exceeded those of 1890
by the sum of \$11,190,860, and exceeded
the average annual value of such ex-
ports for the ten years prior to 1891 by
the sum of \$49,420,063.

"Tenth—The exports of manufactures
in 1892 were \$2,384,357 in excess of light
exports in 1890 and \$39,906,294 in excess
of the annual average value of the ten
years prior to 1891.

BALANCE OF TRADE FAVORABLE.

"Eleventh—The value of our imports
in 1892 exceeded the value of the same
in 1890 by the sum of \$38,091,164 and
the average annual value of the ten
years prior to 1891 by the sum of \$135,
215,063.

"Twelfth—The value of free imports
in 1892 exceeded the value of like im-
ports in 1890 by the sum of \$192,332,143,
and there was a decrease of dutiable im-
ports amounting to \$154,240,979.

INCREASED FREE LIST.

"Thirteenth—The value of the free
imports and also the percentage of the
same in 1892 were the largest in the his-
tory of our commerce, so that trade is
freer than ever before, and largely of
such articles as are not produced in this
country and which enter into the daily
consumption of the people.

REDUCED TAXES.

"Fourteenth—The duty collected per
capita of the population in 1892 was \$2.07,
which was less than for any year since
1868 and 95½ cents less than the annual
average for the ten years mentioned.

"Fifteenth—There was a decrease in
the imports of the manufactures of wool
of \$21,016,553, of \$13,255,613 in imports
of manufactures of iron and steel; in
manufactures of silk of \$7,513,480; in
manufactures of flax and hemp, etc.,
\$2,186,092; in manufactures of cotton,
\$1,594,380; in tobacco, \$1,176,411—a total
decrease of \$46,692,454, thus giving in-
creased employment to persons engaged
in these manufactures in this country
and retaining many millions of dollars
at home.

THE FARMERS' INCREASED HOME MARKETS.

"Sixteenth—By virtue of the new tar-
iff the importations of horses, sheep, cat-
tle, barley, oats, oatmeal, rye, eggs,
vegetables, hops, flaxseed and tobacco
during the year 1892 were \$20,041,405
less than in 1890, and that much more
home market was given to our farmers.
"Seventeenth—The value of our ex-

ports of domestic and foreign merchan-
dise exceeded the value of the imports
in 1892 by the large sum of \$302,576,457.
"Eighteenth—The reciprocity of the
new tariff act has opened new foreign
markets, and our exports to the coun-
tries with which reciprocity relations
have been established have increased by
the sum of \$10,286,881.

"Nineteenth—Established industries
have been stimulated and new indus-
tries started, which are giving employ-
ment to hundreds of thousands of men,
so that great prosperity exists in all
lines of trade, while in nearly every
other country there is more or less de-
pression.

"Twentieth—There has been a steady
decline in prices of the necessities of
life, as compared with prices prior to
the adoption of the tariff act of 1890.

"Twenty-first—There has been an ad-
vance in wages.

"Twenty-second—The prices of farm
products have increased since the pas-
sage of the tariff act of 1890 by 13.67 per
cent."

A DEMOCRATIC VIEW.

THE MCKINLEY TARIFF HELPS THE
WORKINGMEN.

The Democratic Labor Commissioner of
New York Commends the McKinley
Tariff—It Has Added Millions to the
Earnings of Laborers.

The most important incident of the
campaign thus far has probably been
the report of the Democratic commis-
sioner of labor in New York, Hon.
Charles F. Peck. This report, prepared
by a Democrat, is recognized by Repub-
licans and Democrats as the most strik-
ing indorsement that could have been
given the McKinley law.

Mr. Peck, who is a Democrat, was ap-
pointed to the office of commissioner of
labor statistics by President Cleveland,
and has held the position (as a Democrat)
ever since. In his report he takes up
the question of wages and manufac-
tures since the enactment of the McKin-
ley law, comparing the first year under
the McKinley law (1891) with the last
year under the old law. Of course his
figures relate only to the industries of
his own state of New York, but they
are very interesting and important in
their bearing.

The report shows that there was a net
increase in wages of \$6,877,935.09 in the
year 1891, as compared with the amount
paid in 1890 and a net increase of pro-
duction of \$31,315,190.68 in the year 1891
over that of 1890. Of the sixty-seven
industries covered 77 per cent. of them
show an increase either of the wages or
product, or both.

Commissioner Peck gave as a reason
for selecting the tariff as the subject for
his ninth annual report that it especially
affected the working classes. He had
found that the statements of the Demo-
cratic speakers were not borne out by
facts. Governor Campbell had said that
not a single workingman's wages had
been raised as the result of the McKin-
ley act. "My reports show that there
were just 285,000 men whose salaries
were raised as the result of this law,"
asserted the commissioner. Mr. Peck
added that he was free to admit that his
report was not in harmony with the
platform adopted at Chicago in so far
as it related to the subject of the tariff.
However, his report was as he had
found the condition of affairs.

The summary prepared by Commis-
sioner Peck says in opening:

In pursuance of law the undersigned
has completed the work attendant upon
the issuing of the ninth annual report of
the bureau of statistics of labor, and
herewith gives a brief summary of the
contents of the same. Its completion
has been necessarily delayed by reason
of the unusual amount and important
character of the work undertaken. Of
all the varied subjects investigated and
reported upon during the bureau's nine
years of existence none has borne a
closer relationship to the welfare of the
wage earners of the state or furnished
the public in general with statistical
data so valuable to a comprehensive un-
derstanding of the practical workings of
the one great economic question of the
present day than the tariff. Tariff,
whether levied "for revenue only" or
for "revenue and the incidental protec-
tion of American manufacturers and
American labor," is certainly a question
of such vast import as to enlist the most
thorough and dispassionate investiga-
tion at the hands of the American peo-
ple. And while the present report has
under the law been confined to the state
of New York, its results can but be
taken as indicative of the conditions ex-
isting in every section of our country
where manufacturing and industrial
pursuits are followed.

Every pension measure except one which
has ever passed this house has been passed
by Republican votes, and would not have
passed if there had been none but Demo-
crats in congress.—Hon. W. D. Owen in
House of Representatives Aug. 8, 1890.

Sickles and Cockran on the Soldier Vote.
It is well occasionally to recall that
dramatic scene in the Chicago conven-
tion when Bourke Cockran, in the midst
of his fervid speech, declared that at
least 25,000 Union veterans in New
York state would not support Cleveland,
and gray haired General Sickles rose in
his seat and waving his crutch shouted,
"Never! Never!"—Meriden Republican.

The people of the United States have
sold to their foreign neighbors in the first
year under the McKinley law over \$300,
000,000 more in value than they have
bought abroad. There is no other nation
with such a record. Until adequate pro-
tection came this country never made
such a record.

Down in our part of the country we fire
off shotguns and revolvers on election
morning to let the colored voters know
we are going to have a fair election.—
Congressman Allen, of Mississippi.

Official reports from the treasury de-
partment present some hard nuts for
free traders to crack in regard to the
tin plate industry. Special Agent Ayer
has just made public another report. In
it he brings down the tin plate industry
to June 30, 1892, and a wonderful show-
ing it is. During the first quarter of
the year only five persons were engaged
in the business, in the second quarter
eleven firms were engaged, in the third
quarter twenty were engaged, and at
the close of the fourth quarter twenty-
six concerns were making tin plate,
with a probability of at least eight new
names to be added to the list by the
close of the present quarter.

In the same way the product is rapidly
increasing and the amount for the year
will not be far short of 20,000,000 pounds.
Less than 1,000,000 pounds of tin and
terne plates were made in the first quar-
ter of the last fiscal year, and more than
8,000,000 pounds in the last quarter.
This is a showing that should make the
tin plate liar hang his head for shame.

The appropriations by the first session
of the Fifty-second (Democratic) congress
were \$44,000,000 greater than those of
the first session of the Fifty-first (Re-
publican) congress.

Notice of Drain Letting.

NOTICE IS HEREBY GIVEN, that we,
Gerrit J. Hesselink and Hiram J.
Chambers, County Drain Commissioners of
the Counties of Ottawa and Kent,
State of Michigan, will, on the 27th
day of September, A. D., 1892, at the
residence of Adolph Rasch, in said
Township of Wright, at ten o'clock in
the forenoon of that day, proceed to re-
ceive bids for the cleaning out of a cer-
tain drain known and designated as
"Wright and Alpine Drain," located
and established in the said Counties
of Ottawa and Kent, and described
as follows, to-wit:

tom to be three feet with an outward
slope of 45°.

Said job will be let by sections. The
section at the outlet of the drain will
be let first, and the remaining sections
in their order up stream, in ac-
cordance with the diagram now on file
with the other papers pertaining to
said drain. In the office of the county
drain commissioner, to which reference
may be had by all parties interested,
and bids will be made and received ac-
cordingly. Contracts will be made
with the lowest responsible bidder giv-
ing adequate security for the perfor-
mance of the work, in a sum then and
there to be fixed by me, reserving to
myself the right to reject any and all
bids. The date for the completion of
such contract, and the terms of pay-
ment therefor, shall be announced at
the time and place of letting.

NOTICE IS FURTHER HEREBY GIV-
EN, That at the time and place of
said letting, or at such other time and
place thereafter to which we, the
Drain Commissioners aforesaid, may
adjourn the same, the assessment for
benefits and the lands comprised with-
in the "Wright and Alpine Drain Special
Assessment District," will be sub-
ject to review.

OPENLY DEFY THE LAW

CHINESE RESIDENTS WILL REFUSE TO REGISTER.

A Proclamation of Warning Issued at San Francisco—Sprouted Wheat Causes Trouble to Farmers—Train Wrecked by a Powder Explosion.

Refuse to Register.

The Chinese Six Companies from all appearances intend to remain firm and are determined that no Chinese shall register, be photographed, or obey the provisions of the Geary bill in any way. The first proclamation issued by the Six Companies appeared on the dead walls in Chinatown, says a San Francisco dispatch, only a week ago. There was no mistaking the tenor of it. Every Chinaman who wished to obey the law was informed that if he did so he would have the Six Companies against him. This means the most complete boycott known, and no Chinaman would dare refuse the order. This original proclamation was followed by another, which was conspicuously posted in Chinatown and also mailed to all parts of the country. It declares the Geary bill to be an unjust law and urges all Chinese to disobey it. It ends by saying: "Again we warn you not to obey this law." An appeal to the Emperor of China has also been made.

ODD FELLOWS ELECT OFFICERS.

Sovereign Grand Lodge Nearly Completes the Business of the Session.

The Sovereign Grand Lodge of Odd Fellows in session at Portland elected officers for the ensuing year with the following result: Grand Sir, C. F. Campbell, London, Ontario; Deputy Grand Sir, J. W. Stebbins, Rochester, New York; Grand Secretary, Theodore A. Ross, Columbus, Ohio; Grand Treasurer, Isaac A. Shepard, Philadelphia, Pa. The Grand Sir's annual report shows a net increase in active lodge membership from Jan. 1, 1891, to Jan. 1, 1892, of 48,907. This is the largest increase made in a single year in the history of the order. The total lodge membership is now 721,144, and including the Sisters of Rebekah lodges, 802,861. Expenditures for relief during 1891 were \$3,176,332. The aggregate revenue of lodges and encampments was \$7,720,242, an increase of \$183,000 over the previous year. The number of cantons of Patriarchs Militant is 648; the number of chevrons, 23,000. The business of the session is practically completed.

EVIDENCE AGAINST PECK.

New York Labor Bureau Before the Grand Jury at Albany.

All of the employees of the Labor Commissioner's Bureau were summoned to appear before the Grand Jury at Albany, in view of the beginning of criminal proceedings against Charles F. Peck on the charge of destroying public documents. Affidavits were also presented by E. Ellery Anderson and other members of the commission appointed by the Democratic committee to investigate Mr. Peck's report. The employees were examined as to the sending out of blanks to manufacturers, the reception of them and the present whereabouts of the originals. On behalf of the prosecution evidence was presented to show that Mr. Peck had destroyed at least a portion of the returns. To prove this there was presented in evidence the half-destroyed remains of a large number of blanks printed on paper of a bluish tint and containing the written names and addresses of manufacturers in the State. The charred remains also showed that they were issued under the seal of the Labor Bureau and that the questions asked were answered.

FOUND AN ANCIENT CANNON.

Probable Remains of Wrecks of French War Vessels Discovered Near Biloxi.

While dredging for oysters on what is known as the Rockpile' at Biloxi Bay, on the coast of Mississippi Sound, Eugene Tibber brought up a small iron cannon of antique design and evidently part of the armament of a naval vessel. It has been a tradition along the coast that a fleet of French war vessels bound for Biloxi was caught in a hurricane near the mouth of Biloxi Bay and that several of them were sunk. This was during the dominion of the French in Louisiana at the beginning of the eighteenth century. Young Tibber communicated the news of his find to his father and his friends, and the result was the organization of a party to undertake a search of the locality. The wreck lies in twelve feet of water.

SPROUTED WHEAT TROUBLES.

Farmers in North Dakota Suffering Greatly from the Evil.

What to do with sprouted wheat is a question that is bothering a good many farmers in North Dakota this fall, especially in the James River Valley. There is more or less of this grain in nearly every field in that vicinity, and the same difficulty is reported from other portions of the State. The damage was not noticed to any great extent until after the continuous rains of last week, which thoroughly soaked the shocks. The early cut fields are reported as being in the worst shape on account of the time the bundles have had to settle and the shocks to get thoroughly matted together.

Gotham's School-Boy Parade.

In the school parade of the Columbian celebration at New York 25,000 school boys will pass in review before President Harrison.

Burned to Death.

The house of Mr. Craven, at Ashbourne, Pa., was burned by the upsetting of a coal oil lamp, and his two children and a servant girl burned to death.

Cannon for Delegate.

—Frank J. Cannon, son of ex-delegate and President Cannon, of the Mormon Church, was nominated at Salt Lake, Utah, by the Republican Territorial convention for delegate to Congress.

Train Wrecked by an Explosion.

As a freight train was running between New Hartford and Winsted on the New England division of the Philadelphia & Reading Road, a car filled with powder exploded with terrific force, injuring two brakemen and piling up twelve other cars in a wreck.

Accident Near Saluda.

A traction engine trailing a thrashing machine while crossing a bridge near Saluda, Ind., went through the structure, fastening the engine, Melville Jones, under the wreck in the fall. One of Jones' legs was pinned under the engine.

TO TAKE NO RISKS.

Every Effort Will Be Made to Keep Cholera Out of the World's Fair City.

If Chicago is going to have the cholera bacilli they are coming in here by very underhand means, for the Health Department is drawing a net around the city, close meshed and specially adapted for the capture of the ring-tailed comma bacillus, otherwise the cholera germ, says a dispatch. Municipal and State authorities have met to keep out the dread destroyer, and the very ample character of their precautions is calculated at all events to prevent any unnecessary alarm on the part of the people of this city. A scare of course arose when the cases from New York were heard of here, but even though they are sporadic it does not follow that the wave, if such it be, is bound westward, and if medical authorities know anything about the eccentricities of the cholera germ it is not coming here. A conference was held, participated in by Health Commissioner Ware, Dr. F. W. Reilly, Secretary of the State Board of Health; Gen. Jos. Torrence, and Comptroller May, at which a dispatch was received from Detroit asking if Chicago would join with sixteen other cities in an attempt to effectually stop immigrants from infected districts coming into the country, and for that purpose petition the President to stop all immigrants from entering the country for ninety days. The Mayor replied that Chicago would join in the petition, not for ninety days, but until all danger of a cholera epidemic is passed.

BATTLED WITH SMUGGLERS.

Texas Cowboys Fight with Mexican Cattle Thieves—Five Men Killed.

A ranchman living near Presidio, Texas, brings news to San Antonio of a sensational conflict between cowboys and a band of Mexican smugglers, which occurred the other night fifteen miles north of Presidio. An organized gang of desperate outlaws have been making war on the stockmen for some time, and owing to the poor protection afforded them the losses of cattle have been heavy. The smugglers are led by Solio Mendoza and their plan of operations has been to make a raid upon some ranch on this side of the border at night and drive the cattle across the river into Mexico, where they would be driven into the mountains and later on find their way into Mexican markets. The other night Mendoza and his comrades reached the ranch of Michael Lendover, twenty miles north of Presidio. They started to drive off about 500 head of cattle. A Mexican herder gave the alarm and twenty-five cowboys started in pursuit. A running fight with Winchester was kept up for half an hour, during which Charles Thomas, superintendent of the ranch, and Juan Palacios, a cowboy, were killed, while the smugglers lost three men. The surviving smugglers retreated across the river and are hiding in the mountains.

FOUR MEN KILLED.

A Train Dispatcher's Error Causes a Fatal Wreck on the Northwestern.

Four men were killed and two injured by a collision on the Chicago & Northwestern railroad, near Marshalltown, Iowa. In addition fifteen freight cars were smashed, two locomotives broken into bits, and a score of sheep killed. The wreck was caused by the colliding of a freight and an accommodation train. Following are the names of the dead: Jack Ashton, engineer of the freight; W. T. Carlen, stockman of Powell, Mich.; Thomas Howes, engineer of the accommodation train; Linebaugh, fireman of the freight train. The collision, it is said, was due to the carelessness of the dispatcher at Belle Plaine. Freight No. 21 was late and had orders to meet No. 14 at La Moille, the first station west. No. 14 had clearance to proceed to Marshalltown. After No. 21 pulled out of that city her right of way was recalled, but it was too late. The two trains met on a sharp curve, a large hill preventing the engineers seeing their danger until there was not time even to reverse the engines. Many of the trainmen jumped, but both the engineers and fireman Linebaugh were killed. Conrad Tusing, fireman of No. 14, was hurt thirty feet through a barbed-wire fence. Train Dispatcher Titus' wife was on the accommodation train, but was not injured.

IRRIGATION IN THE WEST.

An Immense Area of Arid Land Has Been Brought Under Cultivation.

The Census Bureau has issued a bulletin upon the general subject of irrigation in the Western States. It is shown that of the 124,508 farms enumerated in the arid region in June, 1890, 52,585, or 42.13 per cent., contained land on which crops were raised in 1889 by the artificial application of water, the entire area of land irrigated being 3,614,415 acres, 20.72 per cent. of the total area of the 52,584 irrigated farms, 4.66 per cent. of the total area of the whole number of farms enumerated, and about one-half of 1 per cent. of the total land area of the arid region.

NIPPED BY JACK FROST.

Iowa and Nebraska Visited, but No Great Harm Is Done.

Reports received by the Iowa weather service from various parts of the State show that frost Wednesday night was very general throughout the State. The greatest damage was done on the Missouri slope. Corn is but little affected, except on the lowlands along creeks and rivers, and there not seriously. In many parts of the State the frost was just heavy enough to help corn ripen well. Frost was general throughout the southeast section of Nebraska. The growth of corn will be retarded. Vegetables suffered but little.

May Have Gone Down.

The docks of the North Atlantic Steamship Company in Boston are crowded with anxious friends and relatives of persons on board the steamship Carroll, of that line, which is seventy-two hours overdue and from which nothing has been heard. The Carroll left Halifax, between which and Boston she plied, with 100 passengers and a crew of forty. From the fact that she is an old and not particularly seaworthy ship fears are entertained that she has gone down with all on board, as incoming vessels give no report of her.

Baron Fava in Disfavor.

According to a dispatch Baron Fava will no longer represent Italy at Washington. The reason given for his recall is the hostile position he recently took against the Italian Consul General at New York in connection with the difference of opinion existing in the Italian colony there.

Richard Mansfield Weds.

Richard Mansfield, the well-known theatrical star, who is now playing the part of Rev. Arthur Dimmesdale in Joseph Hatton's dramatization of Hawthorne's romance, "The Scarlet Letter," at Daly's Theater, New York, was quietly married to Miss Beatrice Cameron, his leading lady.

No Yellow Fever in Mobile.

In reply to telegraphic inquiry at Mobile, Ala., the health officer and Mayor have answered that there is no yellow fever there and that this summer has been the healthiest in the history of the city.

OCEAN HORROR FEARED

SCORES OF LIVES ARE PROBABLY LOST.

Cut His Throat with a Razor.

State Senator Samuel P. Sparks, the author of the Sparks election law now governing elections in Missouri, committed suicide at his home in Warrensburg, Mo., by cutting his throat with a razor. For several weeks Senator Sparks has seemed to labor under a terrible depression. Two months ago an attack of erysipelas cost him an eye, and financial and political reverses, combined with physical ills, tended to dishearten him. He was a prominent candidate for the Democratic nomination for Attorney General of the State, was Chairman of the Judiciary Committee, and one of the most prominent men in Missouri.

AMERICAN ROGUE IN JAPAN.

A Pious Fugitive Commits Bigamy and Embezzlement and Flees.

Advices from Kobe, Japan, give full details of the divorce granted to an American missionary, Cora Lafferty Harvey, from Conrad Harvey, whom she married two years ago. The ground was bigamy. Harvey having a wife in Iowa. The proceedings show that Harvey fled to Japan four years ago, having embezzled \$3,000 in Iowa. His record did not follow him, and he made a good acquaintance. He was very devout, and through his piety he deeply impressed a rich Belgian merchant, Mr. Dernen, of Kobe, who made him manager of his business. When Dernen returned to Europe he left a liberal deposit to Harvey's credit in the bank. Soon after that Harvey married Miss Cora Lafferty, an American missionary, who was an orphan. He set up a fine establishment, but soon abandoned his wife and left with Dernen's money. It is thought he returned to America. Investigation showed he married Della Pierce at Yale, Guthrie County, Iowa, in March, 1885, and that he abandoned her three years later. Harvey came originally from New York and was sent out as a street waiter to a Western farm.

TRADE NOT HURT BY CHOLERA.

Business Goes On Without Regard to the Pestilence—Dun's Review.

R. G. Dun & Co.'s weekly review of trade says:

Cholera has landed, and the business of New York goes on exactly as if it had not. The selling of stocks has been quite heavy, and the decline in prices has averaged about 2 1/2 per cent. for all the active list. Money is in ample supply, and the demand from the interior is less than usual at this season, but large amounts are held out of the loan market by people who are looking for exceptional opportunities to buy cheaply. Money has been steady at 4 per cent., while foreign exchange has fallen so far that exports of gold are unprofitable. The Treasury has added \$1,500,000 gold and \$600,000 silver to its stock, while putting out \$400,000 additional paper. Here, as in all parts of the country, the supply of money is ample for legitimate needs, and the shrinkage of speculation is helpful as regards the possibility of monetary pressure later. The business failures occurring throughout the country during the last seven days number 182, as compared with totals of 179 last week. For the corresponding week of last year the figures were 230.

VISIBLE SUPPLY OF WHEAT.

Large Increase in the Available Stocks in the United States and Canada.

The available stocks of wheat in the United States and Canada, east of the Rocky Mountains, as reported to Bradstreet's, last week, were, on Sept. 10, 47,261,677 bushels, as against 25,723,668 bushels during the corresponding week of 1891. In the first total the Northwestern interior elevator stocks are omitted, information being refused by the Northern Pacific, North Dakota, and Vancouver Elevator Companies for the reason, as said: "To gratify farmers, who think the publication depresses prices." West of the Rockies the total stocks were 5,857,000 bushels. Exports of wheat (and of flour as wheat) from New York, Boston, Philadelphia, Baltimore, Newport News, New Orleans, Galveston, San Francisco, Portland, Oregon, Portland, Maine, Tacoma, and Seattle, as reported by mail and wire to Bradstreet's, were 3,381,541 bushels.

KNOWINGLY SPREAD THE PEST.

Hamburg Officials Charged with Falsely- ing in Bills of Health.

The London Pall Mall Gazette published a fac-simile of a clean bill of health granted on Aug. 23 to a British vessel lying at Hamburg. This vessel was detained until Aug. 27 taking on board some extra cargo. During the interval between the date of her clean bill of health and Aug. 27 two of her crew were attacked with cholera, and one of them died. Thus the owners of the vessel were left to discover that cholera was in port by its actual appearance among the crew. Hamburg correspondence of Aug. 23 announced that there had been 128 cases of cholera in the city. The Gazette asks: "Did the Hamburg authorities allow clean bills of health to be given, knowing that cholera was present in the city?"

WILL CLOSE ALL CANADA.

Exclusion of Persons from the United States in Serious Contemplation.

Quebec special: The Quebec members of the Central Board of Health of this province have left for Montreal, where an important meeting will be held for the purpose, it is said, of proclaiming a Canadian quarantine against the United States. At present Montreal is not quarantined against New York, although there, as elsewhere, great precautions are taken in the matter of inspection, both of immigrants and travelers from the States. The officials at Ottawa have declared against passing immigrants ticketed to United States points from Europe.

Denounces the Governor.

Intense indignation is expressed at Memphis over the pardoning of convicts sent up from that city. The clemency of the Governor is attributed to a revengeful feeling because citizens of Memphis burned him in effigy after he commuted the sentence of H. Clay King.

Fire in New York.

George Meyer's carriage factory, in the rear of 225 and 227 East 58th street, New York, was destroyed by fire. The flames extended to Charles Fie's furniture factory, 225 and 224 East 57th street, and the Furniture factory of F. Vogel & Co., both of which were more or less damaged.

Indians Receive \$200,000 Indemnity.

Acting Secretary Chandler has ordered the payment of \$200,000 authorized by Congress as an indemnity to the Sioux Indians for 5,000 ponies taken by the Government some years ago during one of the Indian outbreaks in the Northwest.

ONE-THIRD ARE FOREIGNERS.

Census Figures Regarding Ohio, Indiana, Illinois, Michigan, Wisconsin and Minnesota.

Some interesting figures are given in a census bulletin just issued showing the distribution of population by color, sex and general nativity for the States of Ohio, Indiana, Illinois, Michigan, Wisconsin and Minnesota. The number of native and foreign born and colored residents in the six States in 1890 was as follows:

STATES.	Total.	Native.	Foreign.	Colored.
Ohio.....	3,672,316	3,313,025	359,290	87,511
Indiana.....	2,192,404	2,044,199	148,205	45,660
Illinois.....	3,926,351	2,984,004	942,347	87,679
Michigan.....	2,033,880	1,850,009	183,870	21,000
Wisconsin.....	1,665,801	1,477,481	188,320	8,477
Minnesota.....	1,501,426	824,470	676,956	6,997

Over 42 per cent. of the aliens in Wisconsin, over 35 per cent. of those in Ohio, and over 34 per cent. of those in Minnesota are returned as not speaking the English language. In Minnesota 55 per cent. of the males of voting age are foreign born. In Wisconsin 52 per cent., while in Indiana but 12 per cent. are foreign born. For the six States as a whole 33 per cent. of the males of voting age are foreign born. There are nearly 25,000 colored voters in Ohio, 13,000 in Indiana, 18,000 in Illinois, and 6,000 in Michigan, but comparatively few in Wisconsin and Minnesota.

MRS. HARRISON VERY ILL.

Physicians Issue a Bulletin Showing Her Condition to Be Critical.

Doctors F. E. Gardner of Washington, F. E. Doughty of New York, and E. T. Trudeau of Saranac had a consultation at the President's cottage, at Long Lake, in regard to the case of Mrs. Harrison, and at its close issued the following statement of her condition: "Primary disease—pulmonary tuberculosis of the right side associated with nervous prostration. Recent complication—sub-acute pleurisy, with rapid effusion of water in the right chest, necessitating two tapplings, with some relief. Present condition critical on account of a tendency to reproduction of fluid. Removal to Washington at present impossible. Prognostication as to immediate future uncertain." The President's family get no encouragement from the bulletins, and such of them as have shown themselves make no effort to conceal their alarm at the situation. The physicians advise them to hope for the best, but offer no real encouragement. They admit that they are uncertain as to the result, and have, so it is said, quietly intimated to the President the strong probability of a fatal result.

Five Die in Gotham.

The New York Health Board has admitted officially that Asiatic cholera has made its appearance in that city. While the board has been issuing daily bulletins declaring there was not a single case in New York it has had genuine cases under surveillance and has been investigating deaths which it now admits were beyond doubt caused by Asiatic cholera. The first death occurred eight days ago. There have been three since, which, with the first, are proven by biological examination to have been caused by Asiatic cholera. Bacteriologists Higgs and Dunham are now making a microscopical search for the deadly germ in a fifth case, in which the diagnosis will probably also be confirmed.

Yellow Jack Reported.

A report was received at Washington from the Marine Hospital in New Orleans announcing the arrival in that port of the ship May with four cases worse than cholera—yellow fever. The vessel was ordered to quarantine.

Republicans Lose 9,000.

Returns of the recent election in Vermont have now been received from the entire State. Fuller (Rep.), for Governor, 39,190; Smalley (Dem.), 19,529; Allen (Pro.), 1,650. Fuller's plurality 19,664 and majority 18,014.

Dalton Gang Captured.

Grant Dalton, Bob Dalton, Amy Dalton, Sam Wing, and "Three-Fingered Jack," all of the famous Dalton gang that has perpetrated so many train robberies in the Indian Territory, have been captured at Deming, N. M.

Struck a Rock.

At New York the ferryboat South Brooklyn struck a rock on her way over from Thirty-ninth street, and sank after reaching her slip at the foot of Whitehall street. All the passengers and crew were landed in safety.

Blunt's Sentence Commuted.

Bud Blunt, the desperado who was to have been hanged at Painesville, Mo., has had his sentence commuted by Governor Francis, and he will spend the remainder of his life in the penitentiary at Jefferson City.

French Wheat Crop.

An official report shows the wheat crop of France amounts to 104,264,421 hectoliters, and that 4,970,911 hectoliters were sown.

WENT MAD IN A NIGHT.

SUDDEN INSANITY OF PRINCE RADZIWIILL.

A Noble German, Adjutant of the Emperor's Military Household, Terrorizes Occupants of a Russian Hotel—Frick's Assault Sentenced—The Carol is Safe.

A Royal Lunatic.

The Berliner Tageblatt announces in a dispatch from Lodz, Russia, that Prince Adam Radziwill, Adjutant General of the Emperor's military household, head of one of the oldest and noblest families of Germany, and one of the Czar's few German favorites, became violently insane Sunday morning, and hunted with firearms everybody who approached him. Early last week, the Tageblatt says, the Prince and General von Werder were invited to join the Czar's hunting party at Spala. They arrived with their body servants and took apartments at the Grand Hotel. During the evening the prince seemed to be in his usual health and spirits, and retired shortly after midnight. The prince's apartments were on the floor above General von Werder's. Shortly after daybreak Sunday morning the whole house was aroused by shots and shouting. The guests who ran from their rooms saw the prince, with a fowling-piece in his hand and two revolvers in his belt, firing right and left at everybody in sight. Two servants already lay in their blood at the head of the grand stairway. The occupants of the hotel were stampeded, and fled to the street calling for help. The maniac was captured and disarmed.

BERGMAN SENTENCED.

Frick's Assault Sent to the Penitentiary for Twenty-two Years.

Alexander Bergman, the anarchist, who tried to kill H. C. Frick, was placed on trial in the Pittsburgh Criminal Court, Judge McClung presiding. It was not generally known that the case would be called, and there were very few people in the room. Bergman looked well, notwithstanding his confinement, and was as cool as any one present. He pleaded not guilty to the six charges of felonious assault and battery, entering a building with felonious intent, and carrying concealed weapons. He had no counsel, and preferred to conduct his own case. A jury was obtained without trouble, and the case was opened by District Attorney Burleigh. Bergman was found guilty and sentenced to twenty-one years in the penitentiary and one year in the workhouse.

ODD FELLOWS IN LINE.

Parade of the Sovereign Grand Lodge in Portland—Welcomed to the City.

The grand representatives of the Sovereign Grand Lodge of Odd Fellows assembled in the Marquand Theater, in Portland, where they were formally welcomed to Portland and the State of Oregon by Mayor Mason and Governor Penneyer. J. J. Walton welcomed the representatives in behalf of the Grand Lodge and Grand encampment of Oregon. Hon. Charles M. Busbee, Grand Sir, then made a fitting response. At the conclusion of the exercises at the theater the representatives marched to Arion Hall, where the sixty-eighth annual session of the order was formally opened by the Grand Sir. The session was immediately adjourned to allow the representatives to participate in the parade which then took place.

THE CARROLL IS SAFE.

Towed Into Boothbay Harbor, Me., by a Fishing Schooner.

The steamer Carroll from Halifax, reported overdue at Boston, with sixty cabin passengers, was towed into Boothbay Harbor with her machinery disabled. The fishing schooner Maggie E. McKenzie, Capt. Andrew McKenzie, fell in with the disabled steamer seventy miles southeast of Seguin, and laid by her all night, it being too rough to render assistance. In the morning the steamer was boarded and supplied with provisions, and then taken in tow by the McKenzie. The latter vessel is the largest sailing schooner afloat, and one of the fastest sailers. Captain Brown of the Carroll says much credit is due to both the captain and crew of the McKenzie.

SECRETARY ELKINS ILL.

Taken Sick on a Train and Compelled to Return to His Home.

Secretary of War Elkins, who delivered a speech to the Republicans of Davis, Va., the other night, was taken ill on his way from the city early next morning, and was compelled to leave the train at Harrison and return to his home at Elkins. His private secretary says that no announcement has yet been made cancelling Mr. Elkins' engagements to speak, and that the political work of the Secretary in West Virginia depended entirely upon his health.

Declares He's a Democrat.

Senator David B. Hill reiterated the other evening, in the presence of 4,000 Democrats at the Academy of Music, Brooklyn, his famous declaration, made in the same place in 1895: "I am a Democrat." It was dramatically done, and aroused great enthusiasm. There was a great outpouring of Democrats. The Academy of Music could not accommodate the crowd that tried to get into it. At seven o'clock the doors of the big theater were opened. Every seat was occupied three minutes later, and in five minutes from the time the doors were opened every bit of space in the building was taken. Several hundred ladies were in the theater.

Our Agricultural Resources.

If there is one thing that adds to the commercial stability of a place, it is the diversity of its resources, agricultural as well as manufacturing. A ride through the territory north of us will at once convince the careful observer that there is ample opportunity for promoting our agricultural resources, by a development of the low lands in that locality.

Our attention was called the other day to a mention of the peppermint farm of Judge Severins, near Fennville, where he has a thousand acres in peppermint beds. This farm a few years ago was an extended swamp, which the Judge redeemed by digging over ten miles of drains.

The G. R. Democrat in a recent issue gave a description of another peppermint farm, owned by Mr. Hogmire, near Bangor, in Van Buren county. This farm also was an useless tract of swamp land, the draining of which involved a large expense.

Mr. H. began the mint culture with five acres, which for three years returned a crop worth \$93 an acre. He has now about fifty acres in mint, which although injured somewhat by water, will produce somewhere between \$4,000 and \$5,000 worth of oil. The ground is fitted the same as for corn. The roots used for planting are those that have been set the year before, and as there are many roots to one plant, some being five or six feet in length, it takes but little ground to raise roots sufficient for an acre. These roots being bulky are placed in a sack and carried over the shoulder in planting. The crop is then cultivated through the season like corn.

The yield for the first year will be about one half a crop. The next two years the mint will have covered the ground and will need no cultivation. After three years it is thought best to replant. The roots for the planting of an acre, if purchased, cost about \$3 an acre. The crop about the middle of August will equal that of a heavy crop of clover, and will be fit for distilling, which can be continued until frost comes. It is cut with a mower and allowed to wilt. The oil is in the leaves, so it must not become dry enough to allow them to drop off. It is then drawn to the still. This consists of a boiler to generate steam, two tanks with tight covers and large enough to hold half a load each—one is filled while the other is being emptied.

After the tank is filled steam is let in at the bottom and passes up through the mint and enters into a long pipe, which runs backward and forward on a rack, each turn being about eighteen inches below the other. Cold water is constantly dropping on this pipe and thus condenses the steam and the oil and the water run out at the lower end of the pipe and are thus separated. It takes about twenty minutes to extract all of the oil. The steamed mint is then taken out and spread so as to dry when it makes a hay much relished by stock. Mr. Hogmire claims that it is equal to good clover hay and that its worth is sufficient to pay all the expense of distilling the oil.

New Railroad Projects.

Wm. Dallin of Chicago, Vice President and general manager of the Atlantic and Pacific Construction company, while in Detroit one day this week, gave an interesting account of an air line railroad to be built between New York and San Francisco, which will be a shortening of the distance of over 800 miles and a proportionate saving of time. In an interview he had the following to say on the subject:

"Ever since October last I have been at work perfecting the plans of the company. Preliminary surveys have been made and charters secured in Illinois, Ohio and Pennsylvania, in addition to the work already done in Indiana. We are now engaged in surveying the route through New Jersey. The work of grading for the roadbed and laying rails will commence in 1893, and the entire road will be completed and in operation in the year 1900. The cost of the division from New York to Chicago will be \$100,000,000, and of the San Francisco end \$600,000,000. This includes everything. We will be thorough in our work in the various States, and will secure a right of way extending twenty miles on each side of the road. When we come to a river we will bridge it, and if we cannot go over a mountain we will bore through it, no matter how long it may be.

Our main line will run within a few miles of Chicago and within fourteen miles of Cleveland. Instead of turning out to take in these cities we will build spur tracks to connect them with the main line. The same policy will be followed with the other cities and towns our line may skirt. The cities will come to us. We calculate our road will pay for itself inside of six years. We will look for all the through

and local business between New York and San Francisco. And we will get it beyond doubt when the road is completed. I figure that a dividend of 5 per cent a year, or \$15,000,000, will be declared.

We will establish a \$2,000,000 plant at Benton Harbor, Mich., and there we will build engines, freight and passenger cars, make rails, and, in fact, everything used in the construction and operation of the road."

The road will be built with English capital.

From the G. R. Herald: A report was circulated Tuesday that the C. & W. M. is extending its road from New Buffalo to Hammond, where it will connect with the Illinois Central, giving the road a through line to Chicago. J. K. V. Agnew, general superintendent of the road was seen by a reporter for the Herald and said, when questioned, that he knew nothing whatever of the extension of the road, and that in the absence of Mr. Heald, who is east on a business trip, nobody was here who could either deny or affirm the report. He said, however, that there were no men at work on such an extension, but what the road would do in the future, he did not know.

Common Council.

Holland, Mich., Sept. 30th, 1892. The Common Council met in regular session and was called to order by the Mayor.

Present: Mayor Harrington, Aldermen Ter Veen, Schom, De Spelder, Dalman, Den Uyl, Habermann and Schmid, and the Clerk.

Reading of minutes was suspended.

PETITIONS AND ACCOUNTS.

To the Honorable the Mayor and the Common Council of the City of Holland.

We the undersigned citizens of the city of Holland and vicinity, in making said petition on that part of Eleventh street, in the city of Holland, situated between Fish and Land streets, respectfully request and petition your honorable body to grade said part of Eleventh street according to the plans and profile thereof on file in the office of the clerk of the city of Holland, or in accordance with plans and profile that may be hereafter adopted for the grade of said part of said street, and that after the grade is made a strip through the center and the whole length of said part of said street, twenty-four feet wide be graded to the average thickness of nine inches. And that all of the expense of said grading, graveling and all other work done on said part of said street, and that the improvement be paid by special assessment on the lots and premises abutting on said part of said street, and that the same be raised by special assessment divided into five equal annual payments, and bonds be issued for all the first payment payable February 1st of each year until paid. And your petitioners will ever pray.

Signed:—E. P. Becker, G. J. Schuurman, M. S. Van O'Linda, Luke Logers and John Beuwkes.

REPORTS OF STANDING COMMITTEES.

To the Honorable the Common Council of the City of Holland.

GENTLEMEN:—Your committee on streets and bridges, to whom was referred the petition asking for the grading, graveling and otherwise improving Sixth street in the city of Holland, beg leave to report that they have carefully examined the petition and the profiles made by the city surveyor and that they find that when Sixth street is improved, the whole length thereof ought to be improved; that the whole length of the street can be improved for much less money than it would take to improve said street at different times by sections.

Your committee further report that many of the lots and lands abutting upon said street are assessed upon the assessment roll of the city at a very low rate, and are practically worthless, that under the provisions of the charter, allowing only 25 per cent of the present value, a new assessment to be levied upon any lot for one improvement, the city would be compelled to pay a large amount of money out of the general fund for the improvement of the street.

Your committee would further state that in order to make the improvement of Sixth street a success that the north end of Fish street must be improved at the same time, and your committee find that no provisions were made in the last year's appropriation bill for the improvement of Fish street, and therefore it will be impossible to improve any part of Fish street this year. Taking these facts into consideration your committee ask your honorable body to make provision in the appropriation bill for the next fiscal year for the improvement of Fish street so that both Sixth and Fish streets be improved next year, and that the petition for the improvement be tabled for the present.—Adopted.

The committee on poor reported, presenting the semi-monthly report of the director of the poor and said committee, recommending \$19.50 for the support of the poor for the three weeks ending October 5th, 1892, and having rendered temporary aid to the amount of \$7.50.—Approved.

COMMUNICATIONS FROM CITY OFFICERS.

The Board of Education of the Public Schools of the city of Holland reported the amount of money necessary to be raised by taxation, for all purposes for the ensuing year to be \$10,345.00.—Filed.

MOTIONS AND RESOLUTIONS.

On motion of Ald. Habermann the committee on ways and means were requested to make estimates of all expenditures which will be required to be made from the several funds of the city during the next fiscal year as provided by section 10 of title XXI of the City Charter and report the same to the Common Council. Council adjourned to Tuesday, September 27th, 1892, at 7:30 o'clock p. m.

Geo. H. Sipp, City Clerk.

Pills.
To begin with, they're
the smallest, and the
easiest to take.
They're tiny,
sugar-coated anti-
acid granules,
scarcely larger
than mustard
seeds. Every child
is ready for them.
Then, after they're taken, instead of
disturbing and shocking the system, they set
to work, easy and natural way. They're
no chance for any reaction afterward. Their
help lasts. Constipation, indigestion, Bilious
Attacks, Sick or Bilious Headaches, and all
derangements of the liver, stomach, and
bowels are promptly relieved and permanently
cured.
They're put up in glass vials, which keep
them always fresh and reliable, unlike the
ordinary pills in wooden or pasteboard
boxes.
And they're the cheapest pills you can buy,
for they're guaranteed to give satisfaction,
or your money is returned. You pay only

BURIED IN THE SAND.

A FATAL WRECK ON THE ILLINOIS CENTRAL.

Engine on a Fast Suburban Express
Dashes Into the Embankment at Wood-
lawn, Ill., Killing Two Persons—Many
Slightly Injured.

Killed Two Outright.

Woodlawn Park, Ill., was the scene of
a terrible accident on the Illinois Cen-
tral Railroad, in which two men were
killed, one seriously injured, and a score
more or less severely cut and bruised.
The following is a list of the victims:

The killed: John Finn, engineer of
the train; 40 years old; home, Riverdale;
leaves a widow. James Corea, Italian
laborer.

Injured: Thomas Leahy, 21 years
old, of 4309 Langley avenue; severe
scalp wounds and crushed leg; taken to
St. Luke's Hospital. Frank Ritz, ped-
dler, of Kensington; slightly bruised
about the body. Charles Direch, Pull-
man. Joseph Direch, Pullman. Mrs.
Direch, of 39 Fulton street, Pullman;
slightly injured. Miss Helen Aiken, 6
Arcade row, Pullman; several bruises
on face and head. C. T. Thomas, col-
ored porter, 221 3d avenue; leg bruised.
G. Omsted, Valparaiso; thigh bruised.

A large number of persons received
slight injuries from broken glass and
flying parcels, which were not reported
to the police.

The Harvey fast express left Chicago
at 10:40 with four suburban coaches
loaded with passengers. The street

IN THE SAND-BANK.

guards at Woodlawn Park were rung
down as usual a few moments after 11
o'clock. The train dashed up at the
rate of forty miles an hour, the en-
gineer gayly waved his hand to an ac-
quaintance, and a moment later the
train left the track near 63d street,
bumped along on the ties for about two
hundred feet, and plunged headlong
into a sandbank, the engine almost
burying itself, snorting and steaming,
in the loose earth. Men shouted, won-
dered, and for a moment everything
was in the wildest confusion. The
cries for help from the victims brought
the bystanders to their senses, and they
rushed to the rescue.

The engine was almost covered with
sand. It had plunged so far into the
embankment that a track on top was
bent and torn from its place. The
smoker had been telescoped by the
tender, and over half of it was ground
into kindling wood and lay scattered for
many rods on either side. The other
three coaches did not leave the track.

James Corea, the Italian laborer, was
working on the embankment when the
accident occurred and was unable to
escape. He still breathed when taken
from under the engine, but died twenty
minutes later. His body was horribly
scorched and both arms were broken near
the shoulders.

Thomas Leahy was found wedged be-
tween the platform of the smoker and
the tender, where he had to be cut out.
The exact cause of the accident is
not known, but it is thought that the
crossing, owing to recent heavy rains,
was soft and springy, causing the rails
to spread under the heavy, rapidly mov-
ing train.

KILLED BY TRAIN ROBBERS.

Four Men Fall Under Deadly Fire from
Evans and Sontag's Guns.

Evans and Sontag, the train robbers,
were overtaken at Samson Flat, near
Fresno, Cal., and a deadly exchange of
shots took place. A posse consisting of
United States Deputy Marshal McGinnis,
"Dick" Wilson, L. Olsen, Constable
Warren Hill, George Witty, two
Apache scouts and one or two others
had tracked the robbers from Dunlap
to Samson Flat in a mountain fastness.
The posse was coming down the trail by
Young's place, and when opposite the
house a door was violently thrown open
and Evans and Sontag appeared on the
sill. Before the officers could recover
from their surprise the two robbers
opened a deadly fire with shotguns, and
then with Winchester. The posse was
so demoralized by the sudden attack
that they could make no effective re-
sistance.

Four men fell under the deadly fire of
the robbers. Three were mortally
wounded—United States Deputy Mar-
shal McGinnis, "Dick" Wilson and L.
Olsen. George Witty, who was so
badly wounded in his encounter with
the robbers at Visalia, was shot through
the neck, though it is not believed he is
mortally wounded. The horse ridden by
Constable Warren Hill was shot from
under him, and two other members of
the posse were slightly wounded. The
Apache scouts escaped unhurt.

It could not be found out whether the
robbers were wounded, but it is likely
they were not very badly wounded if at
all. They immediately escaped without
any interference and went up farther in
the mountains.

The dead men and George Witty are
in Young's house, where Witty is re-
ceiving the best of care. The whole
country in the neighborhood of the en-
counter is aroused, and it is said no fur-
ther attempt to take the robbers alive
will be made. They will be shot on
sight if discovered.

MADE A SMALL FORTUNE.

HOW TWO SCHOOL TEACHERS DID IT.

Two Hundred Dollars Grows to Twelve
Thousand Within a Year.
[Marion, Indiana, Chronicle.]

There are two sisters teaching in the
Marion public schools who have reason
to thank the rapid development of one
of Chicago's manufacturing suburbs for a
small fortune which has grown from a
very tiny seed planted less than a
year ago. To a representative of the
Chronicle these young ladies told the
story of their remarkable investment as
follows:

"At the close of our school work a
year ago we found that we had saved
about \$100 each, for which we had no
immediate use. We were spending our
vacation in Chicago, and stepped into
the Chamber of Commerce Building to
see Jay Driggs & Co., whom we had
long known. They were just then
founding the new town of Griffith,
whose fuel oil pipe lines and four great
railroads, including a complete belt
line encircling Chicago, gave great
promise of making this a factory
center."

"We were inclined to make an invest-
ment in the new town and consented to
join them in the purchase of a five-acre
block which they wished to subdivide
with some other tracts and put im-
mediately on the market. Our \$200 suf-
ficed to make the cash payment for one-
third interest in this five acres and we
expected to meet the deferred payments
from our wages the following year."

"After making this investment we
went further on our vacation trip, and
what was our surprise a few weeks
later to receive word that the five acres
had been bought, subdivided, and com-
pletely sold out. Three parties had
taken the entire block at a profit of al-
most \$6,000, one-third of which we
learned was at our disposal."

"So far we had not even seen Griffith,
but this remarkably quick turn of af-
fairs gave us a great interest in the new
town, and we went immediately to look
it over. We found, nine miles south-
east of Chicago limits, a remarkable
railroad junction, but little more than
that. There were perhaps a dozen
houses scattered about in the oak
groves and occupied by railroad em-
ployees. There were no stores, no streets,
no sidewalks, no nothing—except a
bright future. The surveyors were just
putting down the lot stakes. We found
our block in the very center of the town
plat, with frontage on what promised to
be the best business street. The lots
had been sold out at the ridiculously
low average of \$130 each."

"We remarked that we would rather
buy than sell at these figures. This
quick sale, even at a low price, had
given us the capital with which to buy.
We immediately selected Block 11 in
the Original Town of Griffith, and
bought it with the profits we had
just made. We left Griffith, saying:
'Well, we shall see what a year will
bring forth in this promising place.'"

"We have just now returned from
Griffith after a year's absence. We
found four factories completed and
many more negotiating to come.
Houses are going up on every hand,
and streets which had not been cut out
when we were there a year ago, are
now lined with prosperous stores. Our
block, if sold at present prices, would
realize about \$12,000, but we would not
take \$25,000 for it. If it were similarly
located in Marion, it would bring \$50,000."

"We have seen Marion grow up from
a country town into a flourishing young
city, by the location of factories, and
Marion has but three railroads and has
not the great city of Chicago to tie to."

"We confidently expect within the
next five years to see Griffith a great
and flourishing city, and that will be
time enough to realize on our beau-
tiful block of lots. Since we bought our
relatives have made further purchases
and have made money, too. We cer-
tainly believe that Griffith lots bought
at present prices and on the very easy
terms at which they can be had will
prove a quickly paying investment."

Quacks Caught in Their Own Trap.

Mrs. Carlisle, of London, recently
noticed an advertisement of an alleged
cure for influenza, and, seeing that the
advertiser promised to pay \$500 to any
one who was attacked by influenza after
using this remedy, she bought some of
the medicine and tried it. Soon after-
ward she was attacked with influenza,
and promptly demanded \$500 of the ad-
vertiser. The latter refused to pay,
whereupon Mrs. Carlisle made a com-
plaint before the Court of the Queen's
Bench, with the result that the ad-
vertiser was ordered to pay the \$500 and
the entire cost of the proceedings.

Phantoms.

The hopes of cure held out in the adver-
tisements of numberless remedies are mere phan-
toms, without the slightest shadow of reality
about them. On the other hand, no statement
has ever been made in behalf of Hostetter's
Stomach Bitters that is not susceptible of
ample substantiation. Care has ever been
taken in laying its claims before the public to
circumscribe those claims within the bounds of
truth. Allegations outside of these form no
blot on the record of this sterling, time-
honored remedy, proven by the most respect-
able evidence to be a remedy for and preven-
tive of malarial disease, rheumatism, kidney
trouble, chronic indigestion and biliousness.
It is an infallible tonic, promotes conva-
lescence and mitigates the infirmities of age.
Taken before retiring at night it is a promoter
of sleep.

The Mischief that Rumor Does.

"The manner in which reports about
anything become exaggerated as they
travel from mouth to mouth on the
shoulders of babbling rumor was con-
spicuously exemplified in my town ten
years ago," said O. J. Elgin, of Akron,
O., at the Lindell. "About 9 o'clock one
morning a runaway horse dashed
through the plate-glass window of one
of the biggest banks of the city. The
incident, of course, caused considerable
excitement for a moment, and as the
news of it spread through town some
nervous and excitable individual con-
nected the words 'run' and 'bank' in an
ominous way. This idiot soon was con-
vinced that there was a run on the bank,
and he so told all the shop people in his
neighborhood. That was enough. Noth-
ing more was needed. By 12 o'clock
that day there were hundreds of money-
mad and frenzied men and women
around that bank scrambling to with-
draw their deposits. The broken plate-
glass window only served to increase
their excitement, and all attempts by
the bank officials to explain the situation
were howled down. By the closing hour
in the afternoon thousands of dollars
had been drained from the vaults of the
bank, and but for other banks coming to
the assistance of the unfortunate institu-
tion that night by distributing cir-
culars around the city telling depositors
that they (the other banks) would cash
all checks, properly certified, on the
bank with the broken plate-glass win-
dow, the run would have continued the
next day and resulted in 'busting' the
bank, for there is no institution that can
withstand a run without warning."—St.
Louis Globe-Democrat.

Queer Things About Razors.

The finest grades of razors are so
delicate that the famous Damascus
blades cannot equal them in texture. It
is not generally known that the grain of
a Swedish razor is so sensitive that the
general direction is changed after a
short service. When you buy a fine ra-
zor, the grain runs from the upper end
of the outer point in a diagonal direc-
tion toward the handle. Constant strap-
pling will twist the steel until the grain
appears to be straight up and down.
Subsequent use will drag the grain out-
ward from the edge, so that, after
steady use for several months, the fiber
of the steel occupies a position exactly
the reverse of that which it did on the
day of the purchase.

The process also affects the temper of
the blade, and when the grain sets from
the lower and outer point toward the
back you have a razor which cannot be
kept in condition even by the most con-
scientious barber. But here's another
curious freak that will take place in the
same tool: Leave the razor alone for a
month or two, and when you take it up
you will find that the grain has assumed
its first position. The operation can be
repeated until the steel is worn through
to the back.—National Barber.

Ice Water in Europe.

If the Americans have accomplished
nothing else by their invasion of Europe,
they have at least introduced ice water
in many of the hotels. And now the
American is not regarded as an idiot
and treated with derision when he wants
a pitcher of water to cool his stomach
withal when he goes to bed, and even in
the most benighted lands the American
idea that water is sometimes good to
quench the thirst of men as well as
horses makes way.

OUR NEIGHBORS.

Grand Haven.

The Grand Rapids Common Council and City officials made an excursion to this city on the stmr. Valley City, last week. The object was to impress the council with the necessity of improving the river and to make a beginning therewith.

A large number of young men bound for Hope College were passengers on the Goodrich steamer Wednesday morning. Most of them were from the Holland settlements in Nebraska Iowa and Illinois. They left on the 9 o'clock train for Holland.—Tribune.

The steamer A. B. Taylor has resumed her regular route.

About 40 or 50 members of the Coopersville Odd Fellows Lodge visited with Lodge No. 46 I. O. O. F. of this city Wednesday evening. They took a late supper at the City Hotel.

Dr. Bates, the former well-known Spring Lake physician, has located here.

Truman has completed the crib for the south pier. It is 100 feet long, 38 deep 35 wide, and contains 300,000 feet of timber, 1,150 cords of stone, twenty tons of drift and screw bolts, and has for a fastening in the bottom seventy-seven piles cut off thirty-one feet below the surface of the water, and twelve protection piles at the outer end.

The celery output from this port is getting to be simply enormous.

Capt. Kirby's fish nets off Sheboygan, Wis., are being tampered with, and it is thought it is being done by fishermen from the Wisconsin shore.

The school census just taken shows a school population of 1909. An increase over last year of 200.

Steps should be taken to have the air-gun nuisance abolished. It is not only a nuisance but a danger. Yesterday a lady living on Columbus street received a shot in the forehead, from the careless handling of one of these guns in the hands of a boy who was wildly shooting at sparrows.

A private Democratic conference was held in the Cutler House Tuesday, D. O. Watson and others in attendance.

Fennville.

That Fennville is to have a creamery is now an established fact. A meeting of the stockholders was held last week and a permanent organization effected. A plant will be erected on a corner lot just south of main street, and work on the same is expected to begin at once. A cheese factory may also be added.

Arthur Goodrich and Mr. Van Hest took in the sights and some of the

fruit of the "belt" Sunday. They are both engaged in the C. & W. M. freight office at Holland.—Herald.

About 16 car loads of peaches have been sent from here every night this week. Many ship from here now who live nearer the lake, on account of the lower rate by rail and the bad work the boats have been making in reaching Chicago on time. Prices have been very good, many receiving as high as \$3 a bushel and even better for fine warranted fruit.

The plant formally operated in the publication of the Fennville Dispatch has been stored in Mr. Abbott's barn and Mr. Holmes has gone to Chicago.

Saugatuck.

The Holland steamer Macatawa will act as an aid to the propeller Weston as long as the rush of peaches continues, after which she will be stripped and rebuilt at Bird & Roger's shipyard.—Record.

The C. & W. M. is getting a big peach business this week on account of the storm that blockades our harbor. It may be conjectured how anxious they will be to see our harbor improved.

When the steamer A. B. Taylor first struck the bar Wednesday morning, Mrs. E. C. Dunbar (who was on board) one of the owners of the boat showed courage and coolness which is very seldom seen under such circumstances. Mrs. Dunbar instead of becoming excited as most women would, took it all sensibly and simply remarked "well here we are and we might as well take it cool." Then she went to her knitting work as composed as ever. The crew state that she helped in many ways during the emergency.
