## At Least Seven Foreign Students Will Attend Hope

At least seven foreign students will be included in the large enrollment of Hope college this year, college authorities revealed today. From the Netherlands come Jan Van Schilfgaarde of The Hague and Gerrit Van Doorn of Apeldoorn. These Dutchmen are allowed to take only \$40 out of the Netherlands and expect to earn their own way in America. Van Schilfgaarde is taking an engineering course and Van Doorn, a Dutch Marine, is going into the ministry. Sami Mukhter and Khalid Amso of Iraq are registered among the students. Mukhter arrived in this country the middle of the last school year and Amso came this summer.

Three other students of Iraq, Ahmed Sadum, Rubin Kedouri and Farid Aboody, have not arrived because their ship was delayed. Unofficial preliminary tabulations of registration at the college listed 1,010 students at 10:15 a.m. today. Most students come from Michigan. Ohio ranks second and other states, in order, are Illinois, New York, New Jersey and Wisconsin. States farthest away are Massachusetts, Washington state, California and Colorado.

## Name New Faculty Members at CHS

Dr. Bert P. Bos, superintendent of Christian schools, has announced the appointment of two part-time faculty members to be added to the present high school staff. Harold Goedts of Zeeland has been appointed director of the bands and Arthur Tuls will succeed his brother as basketball coach. Everett Kleinjans, new mathematics teacher at the high school, has been named assistant coach.

Goedts will have charge of the Junior and Senior bands and will direct other instrumental groups. Instrumental instruction for groups will be initiated at the intermediate grade level also. He received a B.E.D. degree from Calvin college in 1937 and an M.Ed. from the Chicago Teachers' college in 1940. He has done further graduate work at Michigan State college. He was director of music in the Zeeland public schools from 1942 to June, 1946. At the present time he is associated with a music shop in Grand Rapids and is affiliated with many musical organizations.

Arthur Tuls will succeed his brother, John H. Tuls, as basketball coach. John Tuls requested release from his duties as coach because of a new position in a local concern.

He is a graduate of Holland Christian high school and is presently continuing his advanced education at Hope college. Mr. Tuls served during World War II with an MP division of the air corps. After training in the United States, he served in England, France, Trinidad and Brazil.

He functioned as assistant coach of basketball last year, having charge of the reserves whose outstanding record for the season attracted widespread attention.

Mr. Kleinjans has been appointed assistant coach and will have charge of the reserves. He is a graduate of Christian High school and in June, 1943, was graduated from Hope college. He served with the Infantry overseas for 16 months and was discharged in April, 1946.

## Two Minor Fires

The fire department was called out to extinguish two minor fires, one at 3:45 p.m. Tuesday which involved a fire in the top of a cupola at the Holland Furnace Co., and the other at 1 a.m. Monday in the Sligh Furniture Co., where rags caught fire in the basement. There was little or no damage at either

## New Five-Cent Air Mail Stamp Now on Sale Here

The new five-cent air mail stamps went on sale today at Holland post office, but the air mail rate will be eight cents until Oct. 1.

The new service will represent a 37 1/2 per cent reduction in price from the old eight-cent rate, but the post office department expects that the larger volume will more than make up the reduction.

The five-cent-per-ounce rate applies to United States possessions as well as within the country. The new rate also applies to American service personnel overseas, replacing the older six-cents for a half ounce.

The new stamp will take an ounce letter to Hawaii for five cents replacing the old rate of 15 cents a half ounce. Mail for the Philippines, now independent, requires a rate of 50 cents a half ounce. The price for air mail to China and India is 70 cents a half ounce. Postmaster Harry Kramer said.

Postmaster Kramer said air mail service would have no appreciable effect on service in a radius of a few hundred miles and

## Gale Roars Through City, Damage Slight

A 45-mile gale tore through Holland Tuesday, but the damage left in its wake was minor and caused little or no general inconvenience.

The velocity was estimated by Chief Weather Observer Fred Slikkers who said Holland escaped the 60-mile winds that hit Grand Rapids and the 70-mile wind and tornado that hit Escanaba.

Two small show room windows measuring about 4 by 12 feet were blown out of the new Henry Ter Haar Motor Sales Co. at 711 Michigan Ave. which has been in operation since Aug. 1. No one was injured and the show room floor was not damaged, according to the owner who said loss was covered by insurance. The large show windows in the new building are especially braced for wind storms, he said.

The building of the new Suburban Furniture Manufacturing Co. on M-21 between Holland and Zeeland was considerably damaged in the windstorm. The white brick structure, under construction for the last month was covered by insurance. Rebuilding will start immediately.

A power pole at Cherry St. and Lavondale court was blown down and wires were strewn over the roads. Since the pole was a secondary one, there was no interruption in power. The only interruptions caused were due to burned-out transformers, the Board of Public Works said.

An old apple tree at the G. Nelson home on Fairbanks Ave. was blown down along side the house, causing no damage to the structure or to wires. The hollow tree still sported most of its autumn crop of apples and the family harvested the fruit without ladders.

Tuesday's heavy winds also blew down and cracked several flower urns in Pilgrim Home cemetery. Supt. Howard Reising urged owners to remove all urns for the year.

Branches were torn from trees all over town. A boulevard light pole was blown down in front of the Lokker-Rutgers store and the awning of the Western Union office was torn by the wind.

In Grand Rapids, a house under construction for several months went to pieces. The house was being constructed by James Rigney, a factory worker, in his spare time. Mr. and Mrs. Rigney and their five children have been living with relatives pending completion of the home.

Fair weather prevailed over the country today except for some cloudiness and showers along the Atlantic coast, according to United Press. Temperatures rose five to 15 degrees generally east of the Mississippi river and dropped over the northwestern plains eastward to New York, Pennsylvania and Virginia.

## Two Cars Badly Damaged in Crash North of Holland

Sheriff's officers Monday continued their investigation into an accident Sunday at 10:15 p.m. on the Port Sheldon beeline road in which cars driven by Gerrit Zaagman of Grand Haven, director of the Ottawa County Department of Social Welfare, and Frederick G. Andreasen of Muskegon, employed as a pharmacist in Holland, were badly damaged.

Andreasen told officers he stopped his car on the highway to change a flat tire. He said he saw and heard the approaching Zaagman car and signaled with a red flashlight before jumping off the road.

Sheriff's records show the Zaagman car skidded a considerable distance to the point of impact and then shoved th. Andreasen car several yards. The Zaagman car was damaged in the front and the Andreasen car in the rear. Both were hauled away by wreckers.

Zaagman received head injuries and was treated in Holland hospital.

Cars driven by John Ypma of Zeeland and Clarence Boeve of Holland were damaged in a side-swiping accident at 12:30 a.m. Saturday in a heavy fog on M-21 near the Fish and Game club property. Since there were no marks on the pavement, sheriff's officers have been unable to determine the point of impact.

Two minor accidents, both occurring on wet pavements at 9:10 a.m. today, were reported to city police.

The front end of a car driven by Glenn Lammers, 18, Waldo, Wis., and the right rear of a dump truck driven by Harold B. Schippers, 16, of Hamilton, were damaged in an accident at College and 16th St. Lammers was driving a car owned by Herbert J. Dirks of Hingham, Wis. The truck was owned by A. Westenbroek of Zeeland.

The other accident involved cars driven by Ervin O'Connor, 42, route 2, and Greta Keen, 24, Holland, at 17th St. and Van Raalte Ave. The O'Connor car was damaged on the right side and the other car on the left front. Miss Keen was given a ticket for failure to yield right of way in through traffic.

## America Thrills Dutch Visitor

Arriving in Holland on his first visit to America, J. Schuurmans of Leeuwarden, capital of Friesland, the Netherlands, finds America a "wonderful country." He is a cousin of Miss Helen and Richard Sjaarda, 186 West 20th St.

Proprietor of a large bakery, Mr. Schuurmans has a staff of 22 employees, and conducts a whole, sale and retail business. He specializes in Dutch rye bread, and products of his five ovens go throughout the country. His visit to America is in the interest of his business and he was unable to bring his wife and five children, who remained in the Netherlands.

Mr. Schuurmans arrived by plane at LaGuardia field, New York City, visited a cousin in New Jersey, and then went to Alberta, Canada, by train. He arrived in Holland Wednesday morning from Chicago. His return trip to the Netherlands will be by plane from New York on Oct. 6.

## Firemen Welcome Home Last of 7 Servicemen

Ray Van Voorst, 122 East 24th St., the last of seven volunteer firemen to return home with a discharge from the armed forces, was given a loud welcome and a fast ride home on the big ladder truck, when he arrived in Holland about 10:30 p.m. Wednesday.

Van Voorst entered the Marine Corps in July, 1945, just three weeks before V-J day. He left shortly after the first of the year for China, remaining there several months.

## County Agent Gives Hints on Culling Non-Producers From Laying Flocks

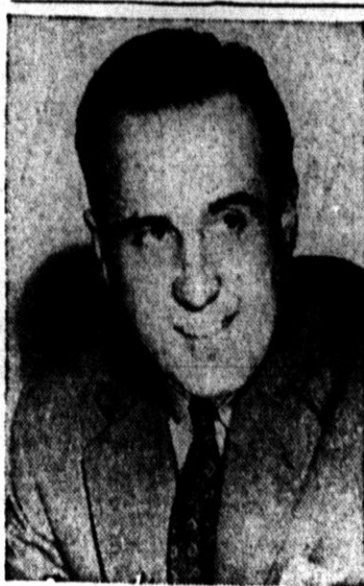

Leo R. Arnold, Ottawa county agricultural agent, advises marketing clubs and feeding pullets better. Feed is getting less plentiful and expensive, and winter is no time to keep non-producing hens, he says.

Whether your flock consists of a dozen or two hens to produce eggs for your personal use, or commercial flock, it does not pay to keep "boarders," he reports.

When new grain is harvested, it should be fed to poultry gradually to avoid upsetting of the birds. A small amount of the new grain can be mixed with other grain being fed. Watch the birds and if no digestive or other trouble shows up, gradually increase the new grain.

The county agent says many flock owners find it difficult to

## Hope Opens Play With 38-6 Win

H. J. Heinz II

Stock in the H. J. Heinz company will be offered at public sale to raise funds for business expansion. President H. J. Heinz II has reported. The company cannot completely finance expansion from earnings because of the tax structures, Heinz reported.

## Heinz Company To Offer Stock

H. J. Heinz Co., Pittsburgh, popularizers of the 57 varieties, has applied to the Securities and Exchange commission for registration of some of the company stock for public sale. H. J. Heinz, II, president, reported today.

The stock will be offered by a group of underwriters of New York. Terms of the issue have not been established, but tentative plans call for a four for one split of common stock, with sale of 200,000 shares of new common stock and 100,000 shares of \$100 par cumulative preferred.

When issued, application will be made for listing on the New York stock exchange.

"Until now," Heinz said, "it has been possible through a conservative fiscal policy to provide for expansion from earnings. During recent years, however, the government tax structure has made it increasingly difficult to retain sufficient earnings to finance entirely our expansion of factory facilities, warehouse space and inventories."

Management and control will remain in the same hands, with Heinz as president. Eleven of the 12 directors are operating officials of the company, with average length of service of 25 years.

Present company head is a grandson of the founder, who established the company in 1869 when he was 25 years old. Horst, 62, grew in a three-quarter acre patch in Sharpsburg, Pa., was the first product and the producer sold his product from door-to-door.

Principal food processing plants are located in Pittsburgh and Chambersburg, Pa.; Fremont and Bowling Green, O.; Salem, N.J.; Medina, N.Y.; Winchester, Pa.; Holland, Mich.; Matthews, Ind.; Muscatine, Iowa; Berkeley, Calif.; Isleton and Watsonville, Calif. Wholly-owned foreign subsidiaries are operated in England, Canada, Australia and Spain.

C. B. McCormick is plant manager of the local plant.

## Local Man Pays Fine on Drunk, Disorderly Count

Franklin Kolk, 31, route 3, pleaded guilty to a drunk and disorderly charge when arraigned today before Municipal Judge Raymond L. Smith and paid fine and costs of \$28.90.

Kolk was arrested by city police Wednesday night after he left the police station where he had registered a complaint about a jacket. Police said he became disorderly when they would not allow him to drive his car home. They said he previously informed them he was not driving.

## Dutchmen Outplay Ferris Institute Before Capacity Crowd

Hope college gridders cut loose Friday to turn back Ferris Institute, 38-6. A capacity crowd of 5,000 saw Coach Al Vanderbush's team come back strong after a duration recess that started in 1942.

Art Timmer, Dick Higgs and Bob Emery formed the bulwark of Hope's offense while Len Dick, Bill Draper and Don Ladewig turned in sparkling performances on defense. Bill Fowler, Ed Hayden and Don Hetherington were outstanding for the Bulldogs.

The Dutchmen began their bid early in the game when Ladewig recovered a fumble on his own 43-yard line. Hope started its first touchdown march of 1946. Drives by Timmer, Higgs, Post and finally a 6-yard plunge by Higgs scored. Higgs converted to put Hope ahead 7-0 before 8 minutes had been played.

Ferris fumbled again and Hope recovered and Timmer sprinted 20 yards to a second touchdown. Score 13-0. Late in the first quarter, the Dutch blocked a quick kick, recovered, and Emery raced 30 yards off right tackle for touchdown No. 3. Higgs passed to Yonker for the extra point.

Emery again sprinted 48 yards for the longest run of the game to score in the second quarter. The point-after-touchdown kick was blocked. Score 26-0.

Ferris Bulldogs were threatening on the Hope 1 yard line as the half ended.

Opening the second half Harvey Butler received the kick-off and ran 25 yards. He was downed by the Ferris safety man when he outran his interference. Timmer drove around left end and scored Hope's fifth touchdown on a 30 yard race. Higgs' attempt was wide. Score 32-0.

The Bulldogs' second drive of the game came when Bill Hanson, Ferris halfback, tossed a 15-yard pass to Don Hetherington to bring the ball to Hope's 8-yard line. Hetherington then swept left end to score. Hope drove to the 10-yard line where Rusty De Vette sneaked through for the final tally. Del Koops' attempt was blocked and the game ended 38-6.

Holland High left no joy in Midland Friday when they downed the Chemers 6-0 before 6,000 partisans fans. The Dutch really messed things up for the Chemers who were undefeated in last year's play.

Holland was outgained, 12 first downs to 6, in a game that saw 40 passes thrown, 10 by Holland for four completions and 30 by the Middles with 10 connecting.

Paul Camburn's gang played cautiously during the first half, feeling out their adversaries and relying on the punting of Vande Wege to keep them out of trouble. It was a pass interception in the second half by Leverette that started the Dutch on the road to success. He nabbed King's toss and ran to the 47, Hinga passed to Vander Kuy on the 31, Kuipers picked up seven through tackle, Barendse took a pass on the 17 and scored. Kuipers' kick was low.

Van Alsburg, Ter Haar, Veldheer all broke into high school play for the first time and gave Camburn a chance to smile.

The Tulips are gaining a reputation as giant-killers. Last year they defeated Traverse City in the season opener. Traverse City had previously gone two years without a defeat.

## Planners Submit Plan For State Hospitals

Bay City, Sept. 24 (UP)—The State Planning commission's recommendations for extension of Michigan hospital service were in the hands of Gov. Harry F. Kelly today.

The commission's plan, culminating two years' research, suggested further development of medical education and research centers at Ann Arbor and Detroit.

Pfc. Eugene B. Hiddinga

## Accident Victim Is Improving

Pfc. Eugene Bernard Hiddinga, 19, who was seriously injured in an airplane accident a week ago in California, is improving, according to a message received from the Red Cross field director of Letterman General hospital in San Francisco.

Hiddinga, a member of an air corps ground crew, received facial burns and a fracture of the upper right leg in the accident, his parents, Mr. and Mrs. Leo Hiddinga, of 625 Howard Ave., were informed. He has emerged from a coma and is able to talk a little. He has a 24-hour bedside attendant.

## Man Is Stabbed In Street Fight; Relative Held

Frank Williams, 33, of 510 Getty St., Muskegon, was reported "somewhat improved" Monday in Holland hospital where he was taken at 4:30 a.m. Sunday suffering from three stab wounds in the abdomen as the result of a fight on East Ninth St.

City police are holding Raymond Trevan, 23, of the same address in Muskegon, on open charges pending outcome of Williams' condition. Both are Indiana. Williams' condition was first regarded as critical by hospital authorities. By Sunday night, he had improved and his condition was regarded as "fair."

Cause of the fight was not learned by police. Trevan, who is six-feet-six, said he could not remember what happened. Williams is six feet, three inches.

Police learned Williams was formerly married to a sister of Trevan but the couple is now divorced. It was understood that the two men have been living together in Muskegon. The fight occurred near the home of a brother of Trevan on East Ninth St. near the railroad tracks.

Williams, bleeding profusely, was taken to the hospital by Trevan's relatives. The stabbing was believed done by a jackknife which had not been recovered today.

The worst wound, police said, was in the upper part of the abdomen in the front. Another severe gash was in the side. A third wound may have been received in a previous fight, they said.

## Netherlands Finances In Deplorable State

The Hague, Sept. 26 (Aneta)—Holland's finances are in a deplorable state, partially as a result of financial mismanagement in five of the last seven years, Finance Minister Pieter Liefstink told parliament in presenting his budget estimate for 1947.

Prof. Liefstink adopted a procedure traditional in Great Britain when he marched into the States General carrying a heavy brown dispatch case crammed with papers tied together with orange ribbon, bits of which he distributed to members of the upper and lower chambers.

"With the presentation of this budget," he said in explanation, "a constitutional custom has been restored which could not be lived up to in the last seven years. Of those seven years, five have shown a picture of financial mismanagement. Discussions on this budget will acquaint the Netherlands people with the deplorable state of the nation's finances. I hope, however, that these discussions will contribute to the recovery of our beloved country."

## Property Tax Increase Voted Down in Monroe

Monroe, Sept. 26—The Board of Education's proposal to increase property taxes by five mills over a five year period for school purposes, was voted down 553 to 426 Monday. A second proposal to create a building and site fund with 3.5 of the five mill raise, if granted, was also lost 543 to 281. Opposition to the proposal was voiced by the Monroe Real Estate Board.

## Hope College Aim Should Be Christ, Speaker Declares

### Dethmers Advises Search for a Life, Rather Than Living

Major consideration of Hope college students should be Jesus, His works, will and desires, Dr. Jacob J. Prins, minister of Evangelism in the Reformed church, told students at the opening address of convocation exercises at Hope memorial chapel Sept. 25. Those heeding God's admonition will receive courage and confidence, he said.

John R. Dethmers, justice of the Michigan Supreme Court, spoke on "The Challenge to College Youth," saying that the college student's objective should be to make a life, not a living. This objective, he said, is based on the philosophy of service and good will and leads to happy relationship of men and assures foundation for peace.

Christian colleges, such as Hope, must be nurtured and supported because they produce the kind of Christian leaders needed by the world, Justice Dethmers said.

Student council president, Robert Van Dis, presided at the exercises and Miss Marian Dame and William Haak led devotions.

Dr. Irwin J. Lubbers introduced the speakers and soloist, Miss Helen Cook, music department faculty member, who sang "How Beautiful Upon the Mountains," Harker, Mrs. W. Curtis Snow presided at the organ and accompanied Miss Cook at the piano.

Other college activities this week include a tea in Voorhes hall Thursday afternoon for women of the faculty and student body. Saturday night freshmen and transfer students will be received at a faculty reception. On Oct. 5 former students will be received and Oct. 12 married students and their wives or husbands will be greeted.

Monday is entry day and space reservations indicate an inpouring of the finest products of field and orchard reflecting the diversity of southwestern Michigan's contributions to the nation's larder.

Coming from the five counties to which competition is restricted, Allegan, Berrien, Cass, Kalamazoo and Van Buren, they will collectively depict the bounty of that area widely known as the Michigan fruit belt.

## Holland Beach Considered Best In Whole State

Lake Has Been Warmer But Swimmers Go in at Own Risk; No Guards

The beach at Holland state park during the 1946 season was considered the best in the state by department heads in Lansing, Park Supt. Searles Vanden Berg has been informed.

In tapering off activities for the season which officially closed earlier this month, the superin-

Searles Vanden Berg

tendent said the lake was warmed considerably but there have been no life guards since Labor day and anyone going swimming does so on his own responsibility.

John Geerds, Bill Zonnebelt and Henry Kuker are the only park officers left from the summer crew to do the fall work. Snow fences have been put up, roofs placed over dressing rooms and concession, tables, benches and stoves have been brought in to be painted and stored for the season.

Appointments for 1947 will not be definite until spring.

There were no fatalities at the park this year and few narrow escapes. Attendance passed the 800,000 mark. A total of 1,521 permits were issued for camps including tents and trailers. Of this total, 1,365 were from Michigan, 46 of Illinois, 38 of Ohio, 36 of Indiana, seven of Kentucky, six of Missouri; four each of California, Iowa and Florida; two each of New York, Connecticut, Kansas, North Carolina and Texas; and one each of Wisconsin, Louisiana, Arizona, Idaho, Colorado, New Jersey and Victoria, B.C.

Boeve, who was a spectator at the air show at which the crash occurred, charged Bouman with operating an AT-6 "within the airspace over the lands of the state of Michigan without due caution and circumspection and in a manner so as to endanger persons and property."

The complaint further charged Bouman with operating an airplane "directly over and above a crowded field with onlooking persons, that while he was stunting and flying at a great rate of speed, he flew too low over the crowd of onlookers."

## Drought Reduces Allegan Hunting

Allegan, Sept. 26—Drought has affected local production of ducks and lack of water in swamps and swales may reduce the number of hunting spots where flight ducks stop at Swan Creek wildlife experiment station, F. W. Stuewer, station manager, reports.

The station's well known Ottawa marsh is completely dry. Stuewer says, heavy rains and flooding may produce conditions favorable for duck hunting by November, however.

Fox squirrels and raccoon are plentiful, but grouse, pheasants and cottontail rabbits furnish little hunting at the station. Hunters began registering Sept. 16 for permits required for hunting small game. No permits are required of bow and arrow deer hunters who must, however, check their kills at the station before leaving the area.

Three's a Crowd when Two Are Talking

You know how distracting it is for a telephone conversation to be interrupted by a third person clicking the receiver or, in some other manner, trying to use the line when it's in use. It just isn't done by thoughtful rural line neighbors. Keeping calls short is courteous, too. And hanging up carefully frees the line for the next fellow.

Although material shortages have been holding us back, we're making progress on our 5-year \$13,500,000 program to expand and improve rural telephone service. One of our chief aims is to reduce the number of parties per line on overcrowded lines.

## Work Agreements For Departments Okayed by Council

### Regulations Outgrowth Of Strike Settlement Reached This Month

Rules and regulations for operating the Park and Cemetery departments, the Police department and the Street Department were approved by Common Council at its regular meeting Wednesday night in the city hall.

Adoption of the working agreements was the result of the dispute involving city employees which was settled earlier this month.

Regulations governing the Park and Cemetery department provide a basis of seniority, ability and length of service; probation of 90 days except for seasonal or temporary employees; a 44-hour week; vacation of one week with pay for employees of one year of service, and two weeks for three or more years; 12-day sick-leave per year, with an accumulated maximum of 60 days; time and a half over eight hours a day or over 44 hours a week, and time and a half for legal holidays; grievance procedure to clear through superior, the board and the council in the order named.

The same rules govern the street department. The police department will operate on much the same plan except on a five-day work week with every sixth day off on an average of 47 hours weekly.

Retrospective pay for the 18-week period from May 1 to Sept. 1 for city employees was included in claims and accounts for the two-week period. Back pay totaled \$4,834.98 distributed as follows: street department, \$1,378.46; fire department, \$335.32; police department, \$1,171.30; general (city hall), \$289.05; park, \$677.42; cemetery, \$963.43.

Claims and accounts totaled \$11,101.59. Other claims were hospital, \$13,901.03; library, \$481.09; park and cemetery, \$3,076.55; Board of Public Works, \$25,571.78. The city treasurer reported BPW collections of \$28,442.27; miscellaneous collections of \$11,014.48, and current taxes of \$3,175.15.

Council, however, voted down a request from the Board of Public Works to raise the superintendant \$400 a year called for further study and postponed action on a \$4 a week raise for the BPW clerk. The communication reported that the increases were in line with other wage and salary adjustments in the department.

A communication signed by Neal Houtman, secretary for the employe group which has been in dispute with the city over wages and rules and regulations governing employment in the park and cemetery departments and police department, stated that the employes at a meeting Sept. 9 had accepted terms and proposals of council as agreed upon in the mediation meeting of Sept. 6. These proposals were responsible for calling of the city strike scheduled Sept. 10.

### AN AMERICAN FAMILY

The other day, in Reno, Nev.,  
Cornelius Vanderbilt, Jr., was  
married for the fourth time in his  
47 years, wedding a Mexican hei-  
ress, who was going to the altar  
for the third time. And that epi-  
sode is a characteristic sample of  
the life of one of the most fam-  
ous—or perhaps one of the most  
notorious—families on the Ameri-  
can continent. For more than a  
century the Vanderbilt family has  
been pickled in millions, and the  
men and women produced by it  
have been nothing but just—rich.  
The Vanderbilt family first  
came into notice in the early part  
of the nineteenth century. Before  
that day the family had been so  
poor that its members could with  
difficulty get enough to eat. The  
family was Dutch, the original  
Vanderbilt having come to Amer-  
ica as an immigrant member of  
the New Netherlands community  
in the Hudson valley. For more  
than a hundred years the Vander-  
bilts (the name was spelled in a  
less aristocratic way at the time)  
lived on a Staten Island farm, and  
lived from hand to mouth, supple-  
menting the meager return from  
a meager farm by running an  
amateur ferryboat service.

About the time when Fulton in-  
vented his steamboat, young Cor-  
nelius Vanderbilt, later known as  
"Commodore" Vanderbilt, began  
to go places. He got himself a  
fleet of ferryboats, and when  
Fulton appeared upon the scene  
young Vanderbilt was canny en-  
ough to see that the age of steam  
was at the door. So he sold his  
wind-driven vessels and went deep  
into debt to get himself a number  
of steam-driven boats.  
That was the foundation of this  
Staten Island Dutchman's fortune.  
Personally he was so abysmally  
ignorant that he could just barely  
read and write. But he understood  
the ways of making money. Be-  
fore many years he counted his  
cash in millions, and then in tens  
of millions, and later in hundreds  
of millions. He was the first Amer-  
ican citizen who was known as  
a "multi-millionaire."

But millions did not bring good  
sense in other ways. Although in  
many things he turned over a  
nickel four times before letting go  
of it, in some other ways he  
was ridiculously ostentatious. He  
built himself a palatial yacht and  
took his family and retainers on a  
world cruise that cost him \$1,500  
a day. And he saw to it that  
his publicity men let the world  
know about the cost. Nor could  
he understand why the upperclass  
English and French considered  
him a vulgarian.

That was the beginning of the  
American Vanderbilt family. To  
this day there has not been too  
much change. The family is still  
rolling in wealth, and more often  
than not its antics are still those  
of ignorant vulgarians. The Cor-  
nelius Vanderbilt who at 47 has just  
married for the fourth time is the  
great-grandson of the original  
"Commodore."

## Sunday School Lesson

Jesus and the Law of Love

September 26, 1946  
Psalm 119:33-38; Matthew 5:43-48

By Henry Geerlings  
In the Bible there are two  
trains of thought regarding the  
law. The one emphasizes strict ob-  
edience to the letter of the law,  
and the other conduct above and  
beyond legal requirement. The  
former is found mainly in the Old  
Testament, and the latter mainly  
in the New.

At a time when lawlessness was  
rampant in Judah, the law book  
which Hilkiah, the high priest  
found, dusted and read contained  
a strict injunction that the writ-  
ten law be made the basis of con-  
duct. People were warned to ob-  
serve and do all the command-  
ments. In fact, before the Ten  
Commandments were given, the  
grumbling and fearful Israelites  
were cautioned to give ear to the  
commandments and the statutes.  
During the early years of the Ba-  
bylonian captivity the promise of  
God's blessings upon His people  
was predicated on their willingness  
to walk in His statutes, to keep  
His commandments and do them.

Obedience was looked upon as  
the key that unlocked the door  
to national prosperity and welfare.  
In the Old Testament, the cala-  
mitous results of sin were looked  
upon as the hand of God laid heavily  
upon His people because they  
had not listened to His voice.  
Obedience to the law was the  
moral equivalent to our expression  
"living a Christian life." The  
phrase means to us, among other  
things that one is attentive to the  
claim of God upon his life. An  
early exhortation to obedience  
was not to new moons and sab-  
baths but to cleanness of heart.  
Psalm 119 is a moving example  
of the Hebrew sense of depend-  
ence upon God, as man undertakes  
to live by God's law. The psalmist  
could not think of the law as  
merely a set of human restric-  
tions. The laws were God's sta-  
tutes, much less obeyed, except by  
His gracious help. The prayer  
voiced in the 23rd verse is more  
than an isolated psalm. It runs  
through the whole psalm like a re-  
frain, repeated again and again.  
"Teach me thy statutes." In the  
days that gave birth to this great  
psalm, men already knew that the  
best of human teachers have their  
limitations. It is God only who  
can enlighten the human mind  
with the truth that makes men  
free. When Moses descended at the  
time God called him to service,  
God gave him this assurance, "I  
will be with thy mouth, and teach  
thee what thou shalt say." Such a  
statement fits into the Old Testa-  
ment pattern. In fact, the entire  
law is presented as God's word to  
man.

The psalmist was concerned  
likewise about his human inabil-  
ity to understand the law. In Jesu-  
s' day as in ours there were those  
who could quote the law glibly,  
yet without real understanding of  
its meaning. Men marveled at  
Jesus' understanding of the Old  
Testament and of the Mosaic law.  
Little is to be gained by merely  
knowing the law. One must under-  
stand it in order to live by it.  
The psalmist desired to walk in  
the right path. The petition goes  
far beyond compliance with the  
regulation of the law. Paul could  
say honestly that as touching the  
righteousness which is in the law,  
he was blameless. But when it  
came to the higher and deeper  
reaches of the law the great apos-  
tle confessed that before his con-  
version, he was accustomed to do-  
ing the things he should not, and  
leaving undone the things he  
should have done. There are  
depths of sin in the face of which  
no man can merely decide to do  
right and let the matter drop  
there.

As we turn from the Old Testa-  
ment to the New, the emphasis  
shifts somewhat, though not so  
much in content as in degree. The  
Sermon on the Mount illustrates  
the increased acceptance of a higher  
law. The question whether the  
law of Moses ought still to be con-  
sidered binding upon life was be-  
ing vigorously debated in Jesus'  
day, as it is being debated now.  
Many thought the standards ought  
to be set aside and the Mosaic  
law either modified or dispensed  
with. Epicureans were found to be  
preaching as they do today, that  
one may safely follow instincts  
and desires. Indeed, it is thought  
harmful not to follow them. These  
preachers had nothing to say  
about the deadly effects of re-  
pression but everywhere there was  
a cry for moral liberty.

Jesus never worshipped at the  
shrine of tradition and custom. By  
His attitude of independence,  
some were led to thinking that He  
ought to renounce the law as ar-  
chaic. But He did not. The moral  
standards that had guided the  
race for centuries were to be ob-  
served in every jot and little till  
all be fulfilled. Teachers of the  
kingdom were to do and teach the  
law. After a lapse of 19 centuries  
men still hold the Ten Command-  
ments to be the true moral stan-  
dard for all men.

In quoting the popular saying  
that we should love our neighbors  
and hate our enemies, Jesus was  
probably trying to show how peo-  
ple of His day were misquoting  
the Bible. To be sure the Old Testa-  
ment called upon men to love their  
neighbors but there was no com-  
mand that they should hate their  
enemies. The attitude of hatred  
that Jews had grown to assume  
toward the Gentiles amounted  
to a binding law in their minds.  
Jesus on the other hand made  
love for one's enemies a key prin-  
ciple of His kingdom. It was to be  
more than an abstract tenet of  
faith. The rule was to control the  
words, deeds, and even the pray-  
er life of men.

by a score of 6-5.

On Monday morning between

men, supposedly farmers, tore up  
about 400 feet of double track of  
the Grand Rapids, Holland and

ed to the tracks being laid for a  
long distance near the center of  
the road, as the franchise gives  
them the right along the side of  
the highway. In the village the  
track is laid in the center of the  
street and to make an easy and  
gradual curve from the side of  
the highway in the township to the  
center of the village street, the  
curve was started about 400  
feet in the township east of the  
village. The matter has not yet  
been adjusted but officials of the  
road are expected at Zeeland to  
fix it up satisfactorily.

## Zeeland Readies Community Chest Campaign Plans

### Committees Selected To Direct Collections During October Period

The second annual drive of the Zeeland Community Chest will start Oct. 15 and continue through Oct. 19. The dates were set at a campaign committee meeting. As so appointed were six chairmen, each to be responsible for a zone. Besides a house to house canvass, chairmen were appointed to cover retail, industrial and professional solicitation.

Directors had previously approved the following appropriations: Huizenga Memorial Hospital \$2,500, Salvation Army \$500, Girl Scouts \$400, Boy Scouts \$678, USO \$300, Youth Recreation Center \$1,600, Emergency Fund \$700 and operating expenses \$322, total \$7,000. This sum is \$4,000 less than last year because of the war fund drive being discontinued.

The drive last year reached its goal in final hours of the campaign, and then only because several persons gave twice and even three times.

The executive committee feels that the experience of last year has proved a Community Chest is the only answer to the ever present solicitation problem.

## Alaskan Nurse Runs Taku Lodge In Glacier Area

Phil Rich Visits,  
Fishes, Photos, Eats  
And Enjoys Scenery

By Phil T. Rich  
TAKU LODGE, Alaska — Mary Joyce, who runs this lodge in the glacier area of wilderness of Alaska, has a cow that eats salmon and likes it; she has Eskimo sled dogs — pure white and she has Louie, Jack of all trades. Besides all this she has a location which is "simply out of this world" as the moderns say.

Mary is a well-known Alaskan now. She came here with a patient, being a registered nurse, and stayed. She has traveled to Fairbanks via dog team a thousand miles in dead winter and she loves this country.

This gal has shot bear, trapped in the winter, worked for the airlines, been with the Navy during the war and a few guests more or less she takes care of as a matter of course.

We dropped in out of a blue sky and she fixed us up with beds and meals and gave us Louie to take us around. We fished, investigated glaciers and photographed them, shot seals and in general saw the country, although it was unfortunate that they had a week of rain, three days of a real pour-down and four more of bad weather.

ABOVE ALL we wanted to photograph glaciers. So the bad weather did not help. But we kept thinking "tomorrow will be clear." But never did it clear up until the day we started to come out. Then it was cloudless and beautiful.

This spot Mary has is simply gorgeous beyond belief. It is a long channel up Taku inlet — 40 miles from Juneau. Once there you find Hole-in-the-Wall, for instance, with a waterfall that drops 450 feet—it is by far the most beautiful which I have seen in Alaska, and I've seen a lot of them to date. You can see it from the lodge.

A short distance away there are a dozen glaciers. For instance, we visited Twin glacier lake one evening. Reardon counted eight glaciers all within sight. They included the two big glaciers coming out of "Twin," the Wright, Hole-in-the-Wall and some nameless chunks of ice protruding from the mountain. One of the twins has an ice field that must be at least 3,000 or 4,000 feet high. It rises three-fourths of the way up the mountain — a great towering cake of blue ice standing up there in the hills. Besides there is the Taku and Norris and several others.

THE AREA is cut by frequent clear-water streams. We caught cut-throats and dollys until we got tired. That first day we tried for trout in Moose creek. The second catch I got a nice cutthroat on a ruby-eyed spinner. Many trout were present and sometimes four or five would follow the bait in to within four feet of where I stood on a log.

Resorting to bait we could catch many of them. We got more trout than we needed and so threw many back. But later we tried Johnson creek. After three days of rain, the water was three feet high. Reardon and I worked hard one afternoon to get one cutthroat and a dolly. We stopped off at the Forest service camp for "coffee" on the way back. Louie knew the cook. A warming relief from the storm. It rained, and rained, and rained.

But getting back to Mary. She has a nice camp, comfortable beds and all. She has entertained Fanny Hubbard and many other celebrities. In fact Fanny Hubbard stays at her camp part of the time while making glacier pictures. She has 12 or 14 buildings of various kinds, a light plant, three or four cottages and has a faculty of making you feel welcome.

MARY CAME up as a nurse with a Michigan patient in 1928 and first saw this camp in 1930. The patient's mother gave her the camp and 88 acres in 1934 after the patient had died. It was originally built by a Dr. DeVigne, author of "Pole Star" and "Days of My Years" in 1923.

For five years Mary lived in at her camp all winter — that was from '30 to '35. Then she found work elsewhere in the winter. Two years ago she trapped seven beaver in the spring and last year she got six. She says work is no problem. She can always get work in a hospital as a nurse. In 1944 she worked in communications for the Navy at Kodiak.

But she wanted to get around a bit, too. So in 1935-36 she decided to take a trip via dog team. She went to Fairbanks — 1,000 miles away. She left her place on December 22 and got there March 17. Her actual traveling time was 52 days. The rest of the time she stopped along the way to see the country. She stopped at Klunene lake and caught the flu and had to stay over at Snag four days before going on.

WHEN SHE got to Tanana she heard about the carnival at Fairbanks, so parked her dogs and flew in there. Later she came back and drove her dogs on to Fairbanks. "I wouldn't have missed it for any thing," is what she says of the trip. She had Indian guides and company most of the way.

But most of all one wonders about how Mary manages to keep so cheerful. She works all hours

and does all kinds of chores. She finds time to do everything from keeping the fire going to cleaning up the camp or running the boat for some special trip. And when they are all through she still has the dishes to do and breakfast to get in the morning. But hard work seems to agree with her and she has time to come out and pose in her parka for those wishing pictures.

Her cabins are a spacious two-story arrangement with living-room downstairs and sleeping space upstairs. "Father Hubbard's cabin" is finished in a paneled wood, has a lavatory and toilet and fireplace and is otherwise nicely appointed. The camp is better than most of those in Michigan in isolated places.

IN HER LODGE she has a dining room and large lounge with a fireplace. Around are found such trophies as a moose head, mountain goat in half-mount, three brown bears, caribou. Some of these she shot herself, although she may be too modest to tell about it.

Strange as it may seem there is a "warm lake" near the Twin glacier. We were not interested since the temperature was from 46 to 50 degrees while we were there and too cold for swimming, although she did have pictures of swimmers up in July.

Mary's cow—Mukluk—does like uncooked salmon. We saw her eat a whole paifal. She is a dehorned registered Guernsey and gives plenty of milk for the "customers." Mary brings her up by boat every year, and then takes her out in the fall.

Mary gets \$10 a day and this includes meals, bed, trips, fishing and "the whole works." Planes stop there occasionally.

Fresh berries, an be had for the picking. Huckleberries are plentiful and large—although sour and not so tasty as Michigan berries; cranberries are everywhere and a paifal can be picked in a short time—two kinds. There are salmon berries and others too if you like them—millions of quarts—mostly used by the bears.

It's a great spot — one of the most beautiful in all Alaska.

Of every 1,000 babies born in 1917, about 95 died in their first year. Today's infant mortality during the first year is about 45 per 1,000 births.

More than half the states with civil service adopted the merit systems since 1937.

Holland shares in the new service for the first time this year.

## Tale of Brotherly Love Has Showdown in Court

The two brothers didn't get along too well.

There was always some argument about some left-overs of their father's estate, and Wednesday Sept. 18 one brother removed a tool chest from the other's home.

Highly incensed, brother No. 2 left work to catch up with brother No. 1, and, according to sheriff's officers, met him on US-31 just across the Grand Haven bridge.

Words flew and so did a few fists and brother No. 1 ended up with a beautiful shiner.

They both appeared in Municipal Court Thursday and Judge Raymond L. Smith assessed fine and costs of \$13.90 against Ralph Bryner, 40, route 2, on complaint of his brother Arnold, also known as Arend.

Rev. Thatcher said church members had been working on this project for more than two years and the first lumber was brought to the church site a year ago in June. He said the foundation for the super-structure was begun last November but the actual building was started in August.

## Michigan Jaycee President Sounds Youth Challenge

### World Concepts Fade Without Progress in Science of Humanities

Failure of the field of human relations to keep pace with the advances of physical sciences was blamed in part for the problems, domestic and foreign, that beset the nation, by Paul Bagwell, who spoke Tuesday evening at the Holland Junior Chamber of Commerce's annual Banquet and Fathers' night at the Marquee.

Bagwell is president of the Michigan Junior Chamber of Commerce and professor of speech at Michigan State college.

"The change from a fundamental concept of a static world to the concept of a dynamic world will require the greatest leadership and the greatest vision the world can produce. Regeneration has failed in 22 civilizations, and there is no reason to expect that present governments founded on absolute control of individuals will succeed either."

"But because dictatorships have never succeeded is no reason to relax here in our Western civilization. Democracy must be 'sold' to each succeeding generation. That is the challenge to the Jaycees in providing civic leadership training," he said.

"With the world on the verge of its greatest accomplishment we are remiss in our obligations if we fail to produce men capable of vision in public affairs," he declared.

Don E. Kyger, regional scout executive, presented a charter to Air Scout squadron 7, sponsored by Jaycees.

Robert Kubat, William Boyce, Peter Sikkel and Henry L. Beltman received their Jaycee pins. Willis Welling presided at the banquet table, at which 125 were seated.

## Judge Miles to Relieve Busy Pontiac Schedule

Judge Fred T. Miles of the Ottawa-Allegan County Circuit court has been assigned to Pontiac for the week beginning Sept. 23 by the state presiding judge, to relieve the crowded schedule caused by the illness of Judge George B. Hartrick of that district.

Earlier this month Judge Miles made his annual visit to the State Prison of Southern Michigan to interview men whom he has sentenced in the past.

Ever since he has been on the bench, Judge Miles has adopted the unusual policy of not losing touch with offenders after he has sentenced them. He feels that the sentencing of a man is but the start of modern rehabilitative penology.

As in the past, the 50 or more men interviewed by Judge Miles have indicated appreciation for the opportunity to visit with him and discuss their problems.

## Holland Football Teams Play Here This Week-End

### Hope Tackles Albion In Conference Game; Dutch Meet Creston

Having a record of three wins and no losses the three local football eleven will attempt to keep their record clean this week. All three teams will play at Riverview park this week but the opposition will be much stronger than that of last week.

Hope college, after whipping Ferris Institute 38-6, will dive heading into the MIAA competition against Albion College on Friday night. Coach Dale Sprankle of Albion has 30 returning lettermen and is loaded with tough war veterans. Unlike Hope, Albion has played some football during the war years.

Al Vanderbush said he is very much concerned with Albion's power and will do a lot of work on Hope's defense, with special emphasis on the line. He stated he was well satisfied with the running attack but will brush up on passing this week.

Local fans will get their first look at high school football when the Holland varsity meets Grand Rapids Creston in a nonconference game on Saturday afternoon. The locals had a tough time with the Midland Chemists last week but squeezed out one touchdown to beat them, 6-0. Creston was beaten in their first game last Saturday by the Muskegon Heights aggregation, 10-0. Gil Powers, Creston coach, said however, that he was satisfied with the showing his Polar Bears put up.

Coach Paul Camburn of the local eleven will rest his hopes on the skill of Kenny Kuipers, Jack Van Dorpe and Bill Hinga to put across Holland's second win. The Dutchmen's only casualty last week was Bob Van Voorst, 135 pound lineman, who suffered a dislocated shoulder. X-Rays showed the injury was not too serious and he should be back in the line-up before long.

The Holland High Reserves will face the Little Tigers from Muskegon Heights on Friday afternoon. This will be the first contest for the Tigers. The local Yanigans beat Muskegon Heights last year 6-0, for the first time in history.

## Exchangites Hear Of Resort Trade

"Recreational travel is the world's greatest industry," William Palmer, secretary-manager of the West Michigan Tourist and Resort association, disclosed Monday noon as he addressed local Exchangites on "The Economics of Tourist and Resort Business in West Michigan."

To fortify his remarks, the speaker pointed out that the industry grew during the depression and in Michigan probably was a \$5 or \$6 billion a year business during the war years. It would now be up to \$10 billion if all restrictions were off.

All 31 counties in Western Michigan participate in the resort business and benefit by it," Palmer added. "More than 60,000,000 people travel every year," he said. "It is the most democratic business in the world."

Pointing out that, as the standard of living rises services and trades increase, the speaker predicted a bright future for the resort trade. Its use as a deterrent for delinquency was also advocated.

C. C. Wood introduced the speaker. Guests of the club were Olin Walker and Peter Van Dornen, both of Holland. Miss Florence Lazarski played two oboe solos with Miss Barbara Lampen as accompanist. Group singing was led by Everett Kisinger, club music chairman.

The club's next meeting will feature Dr. Alfred M. Poppen of Boise, Idaho, with an informative lecture on cancer. A barbershop quartet, led by Clarence Jalvina, will provide special music. Dr. Lester Kuyper of the program committee is heading program arrangements.

Peter Ver Berg, route 5, Holland, holds up his answer to black meat markets. This 20-pound plus muskie was taken in Big Bayou

on Lake Macatawa Saturday. Ver Berg hooked the 45-inch fish with a casting plug on a casting line. Marine Beckman and John Ver Berg each got an assist. Since

there was no gaff in the boat, they turned to and aided in landing the monster, who doesn't look any better dead than he did when he first rose to the bait. (Harrington photo)

## Volleyballs From Ambush

WE'VE LEARNED from unusually reliable sources that there were two quarries where barefoot swimming was practiced by Holland's youth of yesteryear. There was the "Big Quarry" and the "Little Quarry."

Our unusually reliable source claims he should know because as a boy he has been chased out of both more times than he has cuts on his bare feet.

The feature on the Waverley stone quarry has attracted attention outside Holland and a geologist has promised to supply material for an authoritative feature story on the quarries that were so much building stone in Holland's early days.

The Ambusher has made three separate trips to the site of extinct Singapore. The first time, Odelphia, his ancient automobile, fell apart and the expedition was abandoned. On the second trip the car got as far as a wire fence somebody had strung across the road with a "private—keep out—this means you" sign.

The third trip was made with Lt. Jack French in his speed boat. By this means we literally got in the back way and spent several hours going over the area. We found plenty of evidence of the old sawmill that was built on piling, apparently, and even uncovered some long forgotten sawdust piles.

In one heap of rubble we found hundreds of what appeared to be clam shells. We surmised this must have been the site of a seafoods restaurant. Also we located smoothed brick, a few pieces of cobalt-tinted glass and precious little else.

The Ambusher felt impermanence as he stood and surveyed an area where people had lived, loved, worked and likely fought and then to have vanished so completely. One felt there should be more to mark the passing of a community as lustrous as Singapore is chronicled.

"And here's a pathfinder!" So said the physician who assisted at the birth of a daughter to Mr. and Mrs. Daniel Boone of Zealand.

The days of trail blazing are far removed but if young Miss Boone wishes to follow in the steps of her fathers illustrious namesake, she may join the Girl Scouts or Camp Fire girls.

That the Biblical command, "Love thine enemies," is being carried out by Americans toward the German peoples is proved by a letter from Mrs. Barbara Heusinkveld in Germany to her brother-in-law, D. Lam, of 310 West 16th St., Holland.

Writing from Eschelbach, near Heidelberg, Germany, Mrs. Heusinkveld describes wartime suffering and her longing to return to The Netherlands. She went to Germany in 1942 because of the death of a brother-in-law and was not allowed to return to Holland. She plans to return to the Netherlands in the spring of 1947 if arrangements can be made.

She says, in part: "Beloved, you can hardly conceive the extreme need we suffered here in Germany. If it was not for the wonderful help we received from America, we had long ago died of starvation."

It was the first time Mr. Lam had heard from her since 1939.

## COMMON COUNCIL

Holland, Mich. Sept. 19, 1946 The Common Council met in regular session and in the absence of Mayor Steffens was called to order by Alderman De Pree, Mayor pro tem.

Present: Mayor pro tem De Pree, Aldermen Te Roller, Harrington, Bontekoe, Van Tatenhove, Slagh, Mooi, Galien, Prins, Meengs, Dalman, City Attorney Ten Cate and City Inspector Wiersma.

In the absence of the City Clerk City Attorney Ten Cate took minutes of the meeting.

Deviations were led by Alderman Mooi.

Minutes of last regular meeting considered read and are approved.

Clerk presented communication from the Michigan Municipal League giving Official Notice of two specific matters that will be presented to the membership at the Annual Meeting on October 10, 11 and 12 in Detroit as follows: 1. A revision of the By Laws and Articles of Incorporation relative to the purposes of the organization; and 2. A possible increase in League dues in order to maintain League services.

Accepted and Mayor Ben Steffens named as our Official Representative at the convention.

Clerk presented communication signed by Neal Houtman, secretary for the employees group who have been in dispute with the City over wages and rules and regulations governing employment in the Park and Cemetery Departments and the Police Department. The letter states that at a meeting on Monday evening, September 9, 1946, it was decided to accept the terms and proposals of the Common Council or its committees or agents as agreed upon in the mediation meeting of September 6th and previous meetings and conferences.

Accepted and filed. Clerk further presented for Council approval two separate sets of rules and regulations, one governing employment in the Park and Cemetery Departments and the other governing employment in the Police Department.

On motion of Mooi supported by Galien resolved that the Rules and Regulations be approved and resolved further that the Rules and Regulations approved for the Park and Cemetery Departments shall also apply to the Street Department.

Clerk presented a communication signed by John Dykema, who lives at 98 East 14th Street, in which he protests a recent ruling of the Appeal Board in which they granted permission for the construction of a rear stairway on the house next door. It was stated that the purpose of the stairway is to convert the upstairs into an apartment which is a violation of the Zoning Ordinance. Council's attention was called to the fact that this was an "A" residential district and under the Zoning Ordinance there must be a minimum of 5,000 square feet of lot area per family. It was further stated that on the lot in question there is less than 6,000 square feet of area. After quite some discussion on this matter, the communication was referred to the Appeal Board.

Clerk called Council's attention to the fact that quite some time ago the Appeal Board recommended an amendment to the Zoning Ordinance to restrict the size of garages and at that time this matter was referred to the Ordinance Committee. However, no action has been taken.

The recommendation was again referred to the Ordinance Committee for its consideration. Clerk presented a communication from the Michigan Committee for the Constitutional Amendment on Aviation in which it is recommended that the new proposed amendment to the Constitution that will be voted on as Proposal No. One in the Fall Election be given publicity and favorable consideration. It was brought out in the communication that this matter is being placed on the fall ballot as a result of a joint resolution of the 1946 First Extra Session of the Legislature.

The communication was accepted and filed and referred to the press for attention.

Reports of Standing Committees Committee on Ways and Means presented an agreement between the City of Holland and Mr. Harry Becker for the rental of a small piece of land in the swamp area approximately 60 feet square. The agreement provides for the payment of \$4.00 payable monthly. The agreement further provides for cancellation on six months' notice by the City.

Approved.

Committee on Claims and Accounts reported claims for the past two weeks in the amount of \$11,101.59 and recommended payment thereof.

Adopted. Chamber of Commerce Committee reported that the secretary of the Chamber of Commerce together with Mr. Sip Houtman, superintendent of mails at the Post Office, are working with the county officers in the renumbering of

buildings outside the city limits and adjacent to our borders. In this connection it was brought out that it might be advisable to consider renumbering of homes and buildings within the City as well. It was suggested that perhaps 100 numbers should be used for numbering in each different block. After quite some discussion on this matter it was moved by Harrington, supported by Meengs that his matter be referred to a special committee of three to be appointed by the Mayor.

Carried. Ordinance Committee gave the second reading on Ordinance No. 385, which is an Ordinance Relative to the Management and Control of the Public Utilities in the City of Holland.

Communications from Boards and City Officers

The claims approved by the following Boards were ordered certified to the Council for payment. Hospital Board \$13,901.03 Library Board 481.09 Park and Cemetery Board 3,076.55 Board of Public Works 25,571.78

Allowed. (Said claims on file in Clerk's and Board of Public Works' offices for public inspection.)

Board of Public Works reports the collection of \$28,442.27; City Treasurer reports the miscellaneous collection of \$11,014.48, and the current tax collection of \$3,175.15.

Accepted and Treasurer ordered charged with the amounts.

Clerk presented communication from Board of Public Works reporting that in line with other wage and salary adjustments the Superintendent was increased \$400.00 per year and the Clerk \$4.00 per week as of May 1st subject to Council approval.

It was moved by Mooi, supported by Prins, that the action of the Board be approved. This motion, however, was lost by a vote of 4 yes, to 6 no. A substitute motion was then offered by Alderman Slagh, supported by Bontekoe, that this matter be referred to the Board of Public Works Committee for further consideration.

Unfinished Business The matter was brought up relative to an application made at a previous meeting by the Veteran's Cab Company for a license to operate taxi cabs in the City. Since the License Committee to whom this matter had been referred had not met to consider this matter, the Council recessed for a few minutes to give the License Committee an opportunity to bring in a report. After this brief recess it was moved that this entire matter be referred back to the committee for further study.

Carried. Alderman Bontekoe called attention to the fact that sprinkling throughout the City has again been prohibited by the Board of Public Works according to a notice he saw in the local press and wanted to know from the Board of Public Works Committee whether this was due to shortage of water or failure of equipment. Mr. Bontekoe was assured by Alderman Mooi that the reason for this recent curtailment was due to a breakdown in one of the pumps.

The matter was also brought up relative to numerous complaints that are received in regard to the large diesel-powered trucks that travel down our main streets with exhausts open and spouting black smoke. The aldermen felt that these trucks should at least be kept off the main streets and the matter was referred to the Safety Commission for action.

Alderman Te Roller called attention to continual parking violations adjacent to the Northern Wood Products Co. on East 6th Street. This matter was referred to the Police Department for attention.

Alderman Harrington called attention to the need of modernization of front of Engine House No. 2. It was brought out in the discussion that the present doors are too narrow and wider overhead doors should be installed as soon as possible; however, before these doors can be installed certain changes are required in the front of the building. After quite some discussion it was moved that this matter be referred to the Committee on Public Buildings and property with the recommendation that they have plans and specifications made up for modernizing the front.

Carried. Adjourned.

Oscar Peterson, City Clerk.
