TAX REFORM EXPLAINED — Gov. George Romney of Michigan explained his tax reform program to more than 300 residents of Ottawa and Allegan counties Wednesday afternoon in auditorium of Holland High School. Man in dark suit standing at right is John Van Dam, local beer wholesaler, who plumped for further reduction in beer taxes.

Essence of the governor's message was tax reform without tax increase with emphasis on jobs and justice. It was one of five meetings he conducted on taxes Wednesday in Michigan. (Sentinel photo)

Romney Pushes His Tax Plan

"Tax reform without tax increase" was the crux of Gov. George Romney's message to Ottawa and Allegan residents Wednesday afternoon in Holland High School. More than 300 persons attended.

It was the third of five visits which Gov. Romney paid Michigan cities Wednesday on his swing throughout the state explaining his tax reform program to the people. He had started in the morning at St. Joseph, then visited Benton Harbor, Holland, Muskegon and Grand Rapids. On Monday, he had traveled 915 miles, starting with a meeting with assessors in Grand Rapids, then flying to the upper peninsula to Houghton and Escanaba and then back to Petoskey. It was estimated he talked to between 1,800 and 2,000 people that day.

His tax message to local residents was much like his presentations all over the state. He listed proposed reductions, new revenues, and changes in the tax setup which he claims will be more equitable for low income families and small businesses.

Again and again, the governor emphasized that jobs and justice are the two goals of his reform program—a program which recognizes the heavy tax burden on older citizens, on families of low income and on struggling young businesses. He explained the program recognizes the legitimate needs of local government, and the pressing requirements of schools.

Coupled with the tax reform program is a strong program to cut costs of state government and stretch the tax dollars as far as possible. The governor pointed out that the state's economy is booming and finances are in reasonably good order, making the climate for reform ideal. With the aid of a large chart he explained the reduction of \$306,000,000 and new revenues for the same amount.

Reductions list: property tax deferral for older citizens, \$6,000,000; exempt food from sales tax, \$91,000,000; exempt drugs from sales tax, \$1,000,000; repeal business activities tax, \$78,000,000; exempt new business from corporation franchise tax, \$500,000; 20 per cent across-the-board cut in school property taxes, \$30,000,000; relief for Michigan breweries, \$1,500,000; repeal of intangibles tax, \$35,000,000; total, \$306,000,000.

New revenues: 2 per cent personal income tax, \$216,000,000; 3½ per cent corporate income tax, \$81,000,000; 5½ per cent financial institutions tax, \$9,000,000; total, \$306,000,000.

During the question period, Albert Schaafsma, treasurer of the Holland Board of Education, made the following statement: "This is a tax proposal which the Board of Education feels it can support. We would emphasize that this program does not do anything for the public schools in the matter of its needs for educational funds. What it does do is to place a greater responsibility upon this community to support its own educational program and this community is aided in the provisions Mr. Romney presents."

The governor expressed appreciation for this statement.

Earlier the governor had explained that the 20 per cent across-the-board cut in school property taxes would amount to some \$510,000 in Allegan County and \$1,900,000 in Ottawa County. He believed citizens living in school districts would be more likely to approve special taxes.

He also had pointed to other disadvantages for school districts in that county allocations boards

tend to cut down operating millage after special votes had been passed.

John Van Dam, local beer wholesaler, argued with the governor over relief for Michigan breweries, stating the amount listed would benefit only three such organizations in Michigan. The governor admitted the tax on beer was out of line (\$6.60 a barrel in Michigan vs. \$2.50 in Ohio) and didn't blame Van Dam for the way he felt, but added he didn't know of any tax completely equitable.

City Manager Herb Holt asked whether the reduction of sales tax in food and drugs would reduce the tax return to cities, and the governor said the cities would lose no revenue by this change, that the difference would be made up through the general fund.

Mrs. William Westrate Jr., who last year promoted petitions opposing a statewide income tax, asked how long the proposed 2 per cent income tax would be in effect before it would be raised. From her question, it was apparent Mrs. Westrate did not object to the income tax.

The governor, explaining that a flat rate income tax is quite different from the graduated federal income tax, could not promise any thing beyond the 1964-65 year, but said, "One way to keep taxes down is to keep spending down" and he was committed to reductions on state levels.

Barbara Sherwood of Grand Haven asked about county assessments, and Gov. Romney explained his plans for more equitable assessments over the entire state, suggesting a tax equalization board for each county.

Although there was no definite question on tax deferrals for the elderly, the governor explained this section of his tax reform program which has brought forth more controversy than any other subject in his visits about the state. He proposes deferrals for persons over 65, owning homes, and earning less than \$2,000 a year, rather than exemptions because it is not his intent to pass on benefits to heirs. He said consideration on this level rapidly multiplies, that raising income from \$2,000 to \$2,500 would boost the proposed \$8,000,000 budget item to \$14,000,000.

A standing ovation with prolonged applause greeted the governor at the close of the meeting which lasted an hour and 10 minutes.

Gov. Romney conducted the meeting without benefit of introduction. But he took pleasure in introducing some guests present, particularly Sen. Fred Hilbert of Wayland and Rep. James Farnsworth of Allegan. Traveling with the governor were Richard Van Deusen, his tax consultant, and Richard Millman, former Sentinel reporter, now the governor's press secretary.

Truck Route Explained To Council

In one of the shortest meetings in several months, City Council Wednesday night disposed of its business in a brief 30-minute session.

A letter from Mrs. Henry Labotz, 260 Van Raalte Ave., protesting the proposed truck route across the entrance of Kollen Park, brought forth a brief summary from City Manager Herb Holt on plans for the truck route.

Mrs. Labotz' letter referred to gifts of property by both Mrs. George E. Kollen and by former Mayor Harry Harrington, for park uses.

Holt explained that the truck route would follow the railroad spur which originally was the boundary of Kollen Park. The area between the track and Van Raalte Ave. was developed in recent years. The area north of the 10th St. entrance was a gift of Harrington and the area south of 10th St. was purchased from Harrington for \$3,500.

Holt explained further that the gift parcel north of 10th St. contained the right of way for Lake St. or Water St. which never had been vacated, and it is roughly through this right of way that the truck route would go.

Old plats of Holland show Lake St. or Water St. as a border street along what was then the shoreline of Black Lake from the north city limit along to the south limit which was then 16th St. All of Lake St. north of Eighth St. was vacated at one time or another, some of the plats showing the street was vacated in 1912.

In the late 1930's a considerable part of Lake Macatawa was filled in for the James De Young light plant, and Pine Ave. north of Eighth St. was built over what formerly was marsh or lake. The original Lake St. was east of Pine Ave. at most points.

Two parts of Lake St. are in use today, the section that curves from West Eighth St. to West Ninth St. and continues onto Van Raalte Ave., and again at the exit of Kollen Park on 12th St. as it curves southwesterly to Cleveland Ave.

Plans call eventually for the perimeter truck route to encircle the city, the westerly border following parts of the old Lake St. route.

The link near Kollen park is not expected to be completed for a year or more. Holt explained that when the city closed Harrison Ave., Crampton Manufacturing Co. promised to deed property north of 12th St. for a truck route when needed. The agreement carried a year's notice, and Council notified the company four or six weeks ago that the property was needed. Improvements on the 16th St. end of the route are expected to be made first.

In other business, no objections were registered at a public hearing to rezone properties on 32nd St. east of Michigan Ave. from residential to neighborhood commercial, and on final reading Council passed the ordinance. This involves 200 feet of what is known as the Peter De Kraker property and 176 feet across the road belonging to Prescott Paris. Paris asked what he would be permitted to use the property for and the city manager read that section of the ordinance which allow such commercial activity as retail stores, barbershops, etc.

Council set Oct. 16 as date for public hearing on an application

from General Electric for a variance from requirements of the fire district ordinance to permit erection of a steel storage building at 570 East 16th St.

Moving permits were granted to Bill Mokma to move two cabins from 178 West 35th St., a garage from 430 West 21st St., and a barn from 971 College Ave., all to outside the city.

Harvey Keen was granted the contract for installing 2,730 square feet of sidewalk for \$813. He was the lowest of six bidders.

Council approved the new Kenwood Heights plat on 32nd St. at the east city limits as developed by John Keuning.

Copies of the post audit as prepared by Dwight D. Ferris for the fiscal period ended June 30, 1963, were distributed. It was recommended that the report be received for study and that a summary be published in the Sentinel.

The city manager submitted an easement for the relocation of a portion of the Wildwood drain. The easement will be recorded with the county register of deeds.

A claim against the city from Dan Howard, 381 North Division Ave., was referred to the insurance carrier and city attorney.

Council okayed the transfer of retirement credits for Mrs. Donna J. Fenning, now employed as a secretary in City Hall, from Charlotte to Holland. Both cities are members of the Michigan Municipal Employees Retirement System and Mrs. Fenning was an employee in Charlotte for nine years. Fees for the transfer are to be paid by the employee.

Council approved final payment of \$29,360.61 on the 1963 street improvement contract with West Shore Construction Co.

A city manager's report listed construction costs of 43 sanitary sewer stubs constructed in advance of the 1963 paving program and council moved to charge the expense against property owners as special assessments unless costs are paid by Oct. 15, 1964.

On motion of Councilman John Van Eerden, Council appointed Lawrence A. Wade to the Tulip Time board to fill the vacancy caused by George Lumsden who has moved to Detroit.

A suggestion from Councilman Morris Peerbolt to study traffic at Ninth St. and Central Ave. was referred to the Traffic and Safety Commission.

City Manager Holt will be out of the city for five days starting Oct. 11 to attend a national conference and he has designated City Clerk D. W. Schipper to serve as acting city manager in his absence.

All Councilmen were present. Mayor Nelson Bosman presided and Councilman Peerbolt gave the invocation.

GRAND HAVEN—A recount of the votes cast in the Sept. 24 special annexation election in Holland township was set today by the Ottawa county canvassing board for Oct. 8 at 9:30 a.m. in Holland Township Hall, following the filing of a petition with County Clerk Harris Niemusma.

Ella M. Zone, Holland township resident, had filed a petition for a recount earlier. In the petition she claims "that the petitioner is informed that there was error or fraud, or both, committed at the election by the inspectors of Precinct No. 3, both in their conduct of said election and in their canvass and returns of votes cast, that the canvassed results inside that part of the precinct which was proposed for annexation was 77 'yes' to 86 'no'."

Holland Wallops Niles, 33-6; East Stops West Ottawa, 15-0

Dutch Roll To Second Win of Season

NILES — Executing football to perfection, Holland High's football team slammed Niles, 33-6 for its second win in three starts this season before 3,000 fans here Friday night in the Niles Stadium.

The Dutch did everything right as they blocked, tackled, passed and ran to the most one-sided victory in the eight-year history of the series that ended with Friday's game. Holland won last year, 32-20. The Dutch and Vikings aren't scheduled next year.

Besides displaying offensive versatility and defensive pursuit, the Dutch even threw in a specialty in the closing seconds and had a lineman, tackle Rich Coleman ramble 48 yards to score.

Coleman's touchdown, which came with 55 seconds remaining when he picked off a Niles pass in the Viking backfield, elapsed a night in which Holland had spent the entire game in the Niles backfield.

The Vikings never got rolling as the Dutch completely contained their attack and at the same time pushed through the Niles defenses for four other touchdowns.

Niles ruined the shutout in the last eight seconds when a 20-yard pass from Ron Brondyke to Mike Brown was deflected off the hands of a Holland defender in the end zone.

Coach Jim Jebb summed it up with "we were extremely pleased with our play both ways." "We were especially pleased with our second string which showed as much desire as our first group," Jebb said.

Jebb felt Holland adjusted to Niles' passing game and kept the Vikings off balance. Also when Jebb made defensive adjustments, the Dutch responded and carried out the task. Jebb and his aide, Tom Carey, used the entire team in the game.

The stout defense started at the game's outset. Paul Wassenaar, who made several stops behind the line, slammed the Niles ball-carrier for a 13-yard loss on the third scrimmage play.

Holland kept this defensive action up throughout the first half and the Vikings ended with a minus 13 yards rushing. They completed one pass in four tries for 27 yards, their only first half first down.

The Dutch struck twice in the first quarter. After Wassenaar's tackle, Niles punted and Holland took over on the Viking 44.

In nine plays they were home with Vern Plagenhoef quarterback sneaking the final four yards with 6:16 left. After an exchange of downs, Paul Lubbers fell on a loose ball on the Vikings 25-yard line.

Jim De Neff cracked tackle on the first play, cut to the side and behind good blocking, raced the 25 yards with 1:14 left in the period. Both of Darrel Schuurman's extra point tries failed.

But the 65' end, who turned in a strong all-around game, picked up two points for the Dutch with 4:17 left in the second period when he dumped quarterback Bill Kennedy in the Niles end zone for a safety.

Niles got another taste of Schuurman, only on offense this time, as he caught a 29-yard pass play from De Neff for Holland's third touchdown with 27 seconds left in the half. His extra point attempt was blocked.

Wassenaar had again set up the situation when he pounded Kennedy for a nine-yard loss, forcing the Vikings to kick from their own 36. After the return of the punt, De Neff hit Schuurman with a 25-yard aerial two plays before the touchdown.

Strong defensive work by Don Heeringa, Tom Shashaguy, Dan Hill and Rich Sawicky stopped Niles on the Dutch 26 early in the third quarter.

Walt Van Oosterhout ripped 14 quick yards and this was followed by three running plays to midfield. Holland orbited again as De Neff completed a 28-yard pass to Schuurman to the 22.

Six plays later, on the first play of the fourth quarter, Plagenhoef hit Schuurman for the six-yard touchdown. Plagenhoef failed to run the extra point.

Niles was stopped at the Dutch 26 in the fourth period and Mike Coney recovered a fumble to squelch other drive thoughts. In the second quarter, Niles had moved to the Dutch 24 but a Coney tackle gave Holland the ball on its 32.

Holland's reserve attack featured a 23-yard aerial from Dick Steggeda to Barry Prins but a pass interception wiped out the drive. Coleman's interception followed. Perry Cornelissen landed Dorie Blair of Niles on the Holland 32 after Blair returned the last kickoff from his eight-yard line. Niles' touchdown came four plays later with eight seconds left.

The Dutch gained 148 of its 183 rushing yards in the first half. Holland made 79 of its 133 total passing yards in the second half. The Dutch completed six passes, four by De Neff, in 10 tries. Schuurman punted twice for 80 yards. Holland made eight of its first downs in the first half.

Holland returns to LMAC play next Friday at Grand Haven. The

Bucs whipped Grand Rapids Union Friday night, 33-13.

De Pree Co. First to Win 'E' Award

Employees of the De Pree Co. became the first group to qualify for the coveted "E" award for outstanding citizenship in the 1963 Greater Holland United Fund-Red Cross drive, it was announced today by Paul W. McIlwain, chairman of the industrial division of the campaign.

The report submitted by William Baker, production manager of the company and a member of the industrial division committee, indicated that pledges averaged \$15.42 per employee and that the firm matched the total amount pledged by employees.

McIlwain pointed out that this is the fifth year that his group has qualified for the "E" Award. Significant also is the fact that this year's average employee gift of \$15.42 represents an increase of \$1.68 over last year's average of \$13.74, McIlwain stated.

Henry S. Maentz, Jr., drive chairman, said that this is the type of public acceptance required to meet this year's goal of \$104,440 which represents an increase of 6.32 per cent over last year's \$98,229 requirements.

Campaign supplies have been distributed to all firms in the industrial division and solicitation in this section of the drive is scheduled to start Monday, one week prior to the official opening date of the campaign Oct. 7, McIlwain said.

Ottawa Beach Rd. To Be Widened

GRAND HAVEN — John Yerington Concrete Co. of Benton Harbor Thursday was awarded a contract by the Ottawa County Road Commission for widening Ottawa Beach Rd. in Park Township near Holland State Park.

Engineer Manager H.E. Stafsteth of the Road Commission said traffic volume is very heavy in this area and because of the narrow pavement, shoulder maintenance costs have been exceptionally high.

The following agricultural outlook comes from John Ferris, agricultural economist at Michigan State University: Dairy — Milk cows in Michigan during June were down 2 per cent over a year ago. Cow numbers across the nation were down to 16.6 millions, a 2.8 per cent decrease — the largest decline since June, 1959. Large-scale reductions in the North Atlantic states were blamed on poor pastures and low forage supplies. This decrease in cow numbers is expected to continue during the next year mainly because of slowly rising costs coupled with fairly constant milk prices. Another reason is a strong cull cow market.

SECOND STORY MAN — An agile barefoot thief walked along the sills of two second story windows at the rear of the DuSaar Photo and Gift Shop, 10 East Eighth St. before breaking into a window (center), entering the store and stealing \$158 in cash and a camera worth \$160 early Friday morning. The dotted line traces the path the thief took from the roof of the adjoining Kresge building. Police said the thief left the same way. (Sentinel photo)

Barefoot Thief Robs Local Store

A barefoot second story burglar robbed the DuSaar Photo and Gift Shop, 10 East Eighth St. of \$158 in cash and a camera valued at \$160 early Friday.

The money was taken from a cash register on the main floor. The thief cleaned out the register of all bills and silver except for the pennies and nickels.

Several buildings along the burglar climbed up the steps in the rear of the Williams Jewelry Store to the roof. He then walked across the roof of Alexander's, jumped down to a small overhang then across the roof of the Shoe Box and Kresge.

He stepped onto the sill of a barred second floor window at Du Saar, then stepped across to another sill which was not barred. Using a rock to smash a small hole in the window near the lock, the thief raised the window and climbed in.

Holland police said the thief apparently left the same way carrying the cash and a camera. An unlocked safe was ransacked but no money was in the safe.

Footprints of a barefoot man could be seen on the floors throughout the store. Police said the thief walked through water on the roof of the adjoining Kresge building. The water is used as part of the air conditioning system of the store.

film "A Story Of Finland," least known of the Scandinavian countries. He will be here on Dec. 11.

Robinson's film includes Helsinki, the capital city, with its modern living, a visit to Greenland's ice cap, the midnight sun of the Arctic Circle and the annual reindeer roundup in Lapland.

On Jan. 22, globe-trotting adventurer Russ Potter will present his latest film "India — Land of the Spectacular." This is the first comprehensive coverage of India since its independence in 1947.

Potter will take his audience on a tour of such intriguing cities as Delhi, Calcutta, Madras, Bombay and many others, each with its own fantasy of color — and historic charm. An interview with the Dalai Lama of Tibet, breakfast with

tional parks include Isle Royal, Everglades, Carlsbad, Caverns Mesa Verde, Yellowstone, Virgin Islands, Mt. Rainier and many others.

One of the outstanding films of the series is "Bible Lands," which will be presented by Dr. Charles Forbes Taylor on March 16.

"Bible Lands" is a most unique presentation, representing a lifetime of work, covering the extremely interesting and important lands from Bethlehem to Armageddon. Many years of study and planning have gone into the filming and narration of this monumental film achievement.

The concluding film of the current series will be shown on April 8 by Dr. Gerald Hooper. Title of his outstanding color film is "Yugoslavia — Gem of the Balkans."

The Hoopers were allowed to travel through this Communist country unrestricted and were able to make a film of great interest to American audiences.

UNITED FUND

We here in the area are now
working on the United Fund cam-
paign that has been set by the
members of the organization at
\$104,440, to cover the agencies
which are a part of the program.
The amount this year is increased
6.32 per cent over last year by
additional services needed due to
the growth in our area.

The concept of a single drive to
cover many agencies has been in
force for many years and we
think it is a good plan.

Many people in the area are
glad to give their time to help
the program along.

If you are one of the workers
try to make your job light for
the rest of the people by going
out and making your calls prompt-
ly, then if there are any call
backs, arrange to follow up these
calls as promptly as possible. We
are sure if everyone helps both
with the collecting and the giving
that we will be able to make
our goal at an early date.

We salute all the people who are
helping.

Sunday School

Lesson

Christian Harmony

I Corinthians 1:10-13; I Corin-
thians 3:5-11.

By C.P. Dame

During the third and last quarter
of this year we will study lessons
from I Corinthians and II Corin-
thians and Galatians. Through the
study of portions from these epistles
we shall learn more about the
first century churches and their
problems.

In this lesson Paul appeals for
harmony. The Christian Church of
today needs more harmony.

I. The party spirit hurls church-
es. While Paul was preaching in
Ephesus he heard about the church
in Corinth.

In Acts 18:1-17 Luke tells us how
Paul founded a church in wicked,
wealthy Corinth, a city that was
notorious for its evils and immor-
ality. The Corinthian Church was
worldly. It was a problem church.
If Paul had been inclined to seces-
sions, he would have started one
in the Corinthian Church. Paul op-
posed secessions and schisms.
"Now I beseech you brethren, by
the name of our Lord Jesus Christ,
that ye all speak the same thing."

In order to do that agreement is
necessary.

Paul urges the church to avoid
disputes and divisions. Some people
foment dissensions. It is better to
be united in mind and will.

There were four factions in the
Corinthian Church — mark well,
four. Each faction had its favorite
preacher. Some like Paul, others
favored Apollos, another group
thought much of Peter and the
fourth group said they belonged
to Christ.

Note that the preachers were
not to blame. Paul rebukes all
four factions. The party spirit was
wrong according to Paul. It is still
contrary to Christ — a truth some
agitators and church dividers over-
look. What trivial matters some-
times lead to church divisions!

II. Christian workers serve with
the Lord. Paul says that the
Christians in Corinth were "babes
in Christ" and carnal, because they
quarreled about their favorite
preachers who were all servants
of the Lord, through whose preach-
ing they had become believers.

In a garden, one man may plant
the seed, another one may water it,
but God makes it grow. In the
realm of Christian work one pastor
plants and another waters but God
gives the increase. The workers
belong in one class, God in another.

All the workers belong to God
and they all work for him building
the church which also belongs to
God. First century Christians had
wrong ideas, just as twentieth
century church members have.

God's workers are not all alike.
Paul felt that he was called to
organize new churches. After he
had done the foundation work then
others followed and did the build-
ing. In his work Paul stressed
the person and ministry and at-
taining work of Christ — that was
foundational.

And this must be foundational
today if the church wishes to be
true to its mission.

Portrayal on Motherhood
Thrills Literary Club

"Motherhood has many faces
and children have either reflected
or resisted these attitudes, some
attaining greatness because of it
and others in spite of it," Miss
Muriel Wolfson told members of
the Woman's Literary club at their
opening meeting Tuesday after-
noon in the clubhouse.

Reflecting the popularity of her
first visit before the club in 1959,
Miss Wolfson followed the same
format in her new program, "Mo-
thers of the Great," adding in-
terest with costumes and props,
much like her earlier appearance
on the life of Helen Keller.

She chose two sympathetic mo-
thers and two far less understand-
ing for her Tuesday's program,
giving costumed episodes in the
lives of the mothers of Thomas
Alva Edison, Florence Nightingale,
Sarah Bernhardt and the mother
of the famed Comptons, the four
children who shared 44 degrees

from 13 colleges and universities.

The episode of Nancy Edison was
taken from the period when young
Tom was six years old, the
youngest of a family of five with
other children all grown. In apron
and dustcap, Miss Wolfson portray-
ed the understanding Nancy
Edison attempting to reason with
her six-year-old son who had just
set the barn afire to see what
would happen, and to run inter-
ference between an irate father
and a son described as being stu-
pid and added. It was the father's
threat to whip Tom in front of
his classmates at school that led
Nancy Edison to the decision she
would teach Tom herself at home.

The episode of the mother of
Florence Nightingale was cast in
1820 at a time Florence at 17 an-
nounced her decision to become a
nurse, a thought horrifying to a
wealthy English mother concerned
with social ambitions. Even after
fame as the Lady With the Lamp
in the Crimean War, her mother
summed up her daughter's
achievements as "Florence never
married, you know, and she never
was presented at court."

The face of hostility was present-
ed in an episode of the mother of
Sarah Bernhardt in an 1864 setting
when Sarah as a 20-year-old actress
was regarded as pretty but rather
ineffective. It was the mother's
gloating particularly in regard to
Sarah's young son that gave Sarah
the will to become great and to
show her son the love she never
received from her mother. Even
after Sarah's talents were acclaim-
ed, the mother said, "Sarah's too
eccentric, she will never be re-
membered."

Perhaps the most understanding
of all portrayals was the episode
of the mother of the Comptons, a
74-year-old woman interviewed 33
years ago on the occasion she was
to be presented with an honorary
degree as an outstanding mother.
Between interviews, greeting peo-
ple and minding the soup on the
stove, this no-nonsense woman
told interviewers she raised her
children by the Bible and by com-
mon sense — and common sense
covers a lot of ground. "Teach
them how to work, and follow their
natural bent," she said of her
children who have been acclaimed
for many, many achievements.

Mrs. Kenneth Kooker, new pres-
ident, presided at the first meeting
and called attention to the fact
the club was beginning its 65th
year but was far from retiring.
She paid tribute to four members
who have passed on during the
past year — Helen Pelgrim, Lida
Rogers, Mrs. R.C. Bosch and Mrs.
Joseph Bosha. Mrs. Russell
Vande Bunte led the club in read-
ing the club collect.

Mrs. Tom De Pree, chairman
of the current affairs group, called
attention to the special meet-
ing in Holland High School audi-
torium today with Gov. George
Romney explaining his tax reform
program.

Crusaders
Score Win
In 4th Period

Hope College's football team,
appearing surprisingly stronger
than anticipated, battled Wheaton
College on even terms here Satur-
day night before losing, 19-15, in
the rain before 200 fans in River-
view Park.

After absorbing two decisive
pastings in as many tries this sea-
son, the Flying Dutchmen were
not expected to be much of a
match for the strong Crusaders
who twice previously had blanked
Hope.

But the improved Flying Dutch-
men displayed diversification and
determination, twice holding the
lead, before losing in the final
period. It was Hope's third
straight loss and Wheaton's second
win.

Wheaton scored the winning
touchdown with 10:49 left in the
game. Albie Harris cracked four
yards off to climax a 14-play
74-yard drive. Tom Jarman kicked
the extra point.

Hope took the kickoff on its own
30 and in nine plays had marched
to the Crusaders 24. Chuck Veur-
ink, Hope's leading rusher with 117
yards on 17 carries, swept the
end to the 24 on second down fol-
lowing a five-yard pass from Har-
lan Hyink to Bill Hultgren.

Veurink's run was five inches
short of a first down and on the
next play Hope was penalized five
yards for illegal procedure.

Hyink completed a pass to fresh-
man Chuck Langeland for three
yards but failed to connect on
fourth down and Wheaton took
over. The Crusaders played ball
control the rest of the game.

Wheaton got the ball with 5:09
left and punched out consistent
short yardage on the ground. They
succeeded in moving the ball to
the Hope 15 where the game ended.

The Flying Dutchmen scored
first, its initial touchdown off the
Crusaders in three years, with the
second period 41 seconds old.
Veurink ran three yards around
end to score and Steven Wessling
kicked the extra point.

Jim Bekkering had set the tally
up when he returned a Wheaton
punt from the Hope 46 to the
Crusaders 24. Seven running plays
produced the touchdown including
a key fourth-down five-yard gain
to the Wheaton nine by Tom De
Kuiper.

The touchdn came the second
time Hope had the ball. After
Wheaton took the kickoff and then
punted to the Hope 14, Veurink
knifed the guard and scooted to
the Wheaton 35 where he was
brought down from behind by Son-
ny Kee.

Hope drove to the 12 but failed
on fourth down and the Crusaders
took over. The Dutchmen held
and Wheaton punted to Bekkering.

Midway in the second quarter
Bob Bates intercepted a Hope pass
on the Hope 43. It took the win-
ners seven plays to score with
quarterback Larry Sims sneaking
the final two yards. Jarman fum-
bled the extra point try.

Wheaton went ahead for the
first time with 1:36 left in the
half on a 12-yard end run by
Harris. It culminated a 62-yard
nine-play drive. Sims failed on the
extra point.

After two punt exchanges in the
third quarter, Hope got its second
scoring drive rolling. Taking over
on its own 20, the Flying Dutchmen
connected on two long passes from
Hyink to Hultgren, interspersed
with three tackle smashes, to cover
the 80 yards.

Hultgren's touchdown grab covered
26 yards with 5:24 left. He
caught the ball on the three after
sneaking behind the defense. His
earlier reception had been for 37
yards and put Hope on the Whea-
ton 38. Hyink threw to Joe Kusak
for the two points after the touch-
down to give Hope the 15-12 lead.

Coach Russ De Vette was pleased
with Hope's offense and felt the
team "blocked well and the backs
run real well." De Kuiper suffer-
ed a slight shoulder separation
making a tackle in the second
quarter and his loss was felt, De
Vette, said, especially for his
blocking.

De Vette said the defense needs
work this week as evidenced by
Wheaton's 329 rushing yards. Har-
ris gained 173 of the yards in 27
tries while Kee had 13 in 58.

OUTDOOR CEREMONIES — The James H. Campbell generating plant of the Consumers Power Co. was dedicated at outdoor ceremonies Wednesday. At the speakers' stand is A.H. Aymond of Jackson, chairman of the board and chief executive officer of Consumers Power. Main speaker was Dr.

Harlan Hatcher, president of the University of Michigan. Public tours are slated Thursday, Friday, Saturday and Sunday from 1 to 6 p.m. (Sentinel photo)

Dedicate Plant At Port Sheldon

In an outdoor ceremony under sunny skies, the multi-million dollar James H. Campbell plant of the Consumers Power Co. was dedicated Wednesday at Port Sheldon, climaxing yearsof planning and construction of a plant with a generating capacity of 265,000 kilowatts.

Its flag pole dwarfed by the plant's 400-foot red and white stack, the ceremony was staged on a grassy landscaped area just west of the main building, with the huge plant serving as a colorful backdrop. Close to 300 were present.

Tours of the plant followed the dedication and will continue for the public Thursday, Friday Saturday and Sunday from 1 to 6 p.m.

As main speaker, Dr. Harlan Hatcher, president of the University of Michigan, said the new plant is a milestone in the advancement of America and of the state of Michigan, marking an inspiring growth of the region.

He turned back the clock 125 years when Port Sheldon was slated to become a great city nurtured by some \$2,000,000 by eastern financiers. But after several years of heavy expenditures and improper planning, the dream was swept away in 1837—the year which also saw the coronation of Queen Victoria, Michigan's admission as a state to the union, the year the University of Michigan was reconstituted at Ann Arbor, and the year Ralph Waldo Emerson delivered his great Phi Beta Kappa address on "The American Scholar."

Achievements such as the James H. Campbell plant in 1963 are but the continuous and uninterrupted course of reeducation of many generations, he said.

Dr. Hatcher expressed concern over economic conditions in many foreign countries he has visited, maintaining that a good economy is the prerequisite of education anywhere. He pointed to a plant being developed in Siberia, far larger than the Campbell plant, which will bring power to former isolated areas and set the pattern for a new civilization in that part of the world.

"In America we have been dedicating some of our best minds to learn more and more secrets of the universe and to transfer such knowledge to 'benefit mankind,'" he said.

Dan E. Karn, director and consultant for Consumers Power, introduced James H. Campbell, president of Consumers Power for whom the plant is named, paying tribute to his great abilities and describing him as a man who meets life's challenges boldly and eagerly.

Mrs. Campbell unveiled a plaque and a portrait of her husband which will hang in the lobby of the main plant.

In responding, Campbell said the new plant bespeaks the fruits of many skills and talents on the part of many people. "This company is only what its own people make it," he said in expressing a personal pride and a sense of satisfaction in helping in an enterprise dedicated to all people in a useful way and a peaceful pursuit.

A. H. Aymond, chairman of the board of Consumers Power, presided and the Rev. Frederick Wynn, pastor of Westminister Presbyterian Church of Grand Rapids gave the invocation. The Alma College Kiltie Band under the direction of Dr. Edward L. Kottick provided music. The color guard of the U.S. Naval Reserve Training Cen-

ter of Grand Rapids took charge of the flag raising. Among the guests were representatives of some of the largest power industries in the country as well as top educators, political leaders and representatives on the county and township level.

Visitors to the plant's open house the next four days will find their way easily through the maze of equipment on different levels. Large yellow footprints lead the way and large posters explain various operations. Also on hand will be plant personnel wearing hard hats and "ask me" buttons for additional information.

Man Retires After 45 Years With Express

Walter Vander Haar, of 213 Waverly Rd., is retiring today after 45 years with the Railway Express.

Vander Haar, long active in church, civic and political circles, started as a driver in 1918 with what was then known as the American Railway Express. The office was located on Eighth St. in downtown Holland with the Borr Shoe Shop on the second floor. In 1920 the operation moved to the depot and some years later when a new depot was built, the express company occupied its own building just north of the building which houses the waiting room. In 1929, the name was changed to Railway Express Agency.

In 1923 Vander Haar became

cashier and acting agent for the local operation and later became relief agent for the Western Michigan division. In 1941 he was transferred to the Grand Rapids office as a disbursement clerk, working in that post for five years.

On April 1, 1946, he was appointed chief clerk to the general agent in the Grand Rapids office, the position from which he is now retiring.

Twenty-two years of commuting to Grand Rapids has been a pleasure and not a bore for Vander Haar. For only one week did he travel alone. All the rest of the time he shared car pools and enjoyed what he termed stimulating conversation with many different people. "Besides, the changing seasons in Michigan are always inspiring," he added.

He added that those days of icy roads or poor driving conditions are far fewer than the non-commuter believes.

As for retirement, he looks forward to doing many things he was unable to do before.

The plot centers around a pretty girl of 22, the present Duchess Gioriana, sovereign of a microscopic country in the Alps founded centuries ago by a roving band of English bowmen.

Gloriana's unique solution to the near bankruptcy of her country is to declare war on the United States. Her study of recent history suggested the surest way to wealth was to lose a war with the U. S. because of the reaction to pour aid, relief and rehabilitation on the vanquished.

The "declaration" is considered a prank by the U. S. State Department and Gloriana decides to invade. Events following the invasion enlighten and entertain the audiences of young and old.

That's when the accident happened. Mrs. Westervelt got behind the steering wheel and started around the park. Instead of putting her foot on the brake pedal, it landed on the gas pedal, and the car shot out across a 150-foot stretch of

sand, knocking over a guard post, two picnic stoves and four picnic tables, before the car hit a tree and stopped. What's left of the picnic tables is shown in the picture above. Sgt. Andaste and Milwaukee Sank In Lake Michigan During '29

Longtime Holland residents acquainted with the history of Lake Michigan disasters will recall the storm of 1929 and the sinking of two ships, Andaste, a gravel carrier from Grand Haven and the car ferry, Milwaukee.

The Andaste was carrying stone on its last trip from the Construction Aggregates Corp., at Grand Haven to East Chicago when the storm hit and 25 men were lost. She visited Holland many times carrying gravel.

The Milwaukee sank with the loss of 32 men and only 21 bodies were recovered. Her captain was Robert (Bad Weather) McKay whose home port was Grand Haven.

A semi whaleback, the Andaste went down off Grand Haven on Sept. 10, 1929. There was no warning of a storm and it was reported caused by warm air uniting with a cold wave from the west, leaving snow and cold weather in its wake.

The Andaste tragedy was the first of several ships sinking in Lake Michigan in 1929. Early in 1930 action was taken by Muskegon and Grand Haven city officials and district congressmen worked to secure the cutter Eskie at Grand Haven in 1932 for safety and patrol duty.

Fear for the Andaste's safety after the storm hit between Grand Haven and Holland was not general until Sept. 13 when the first wreckage came ashore at the Getz Farm.

The first body came ashore Sept. 14 and during the next three days 14 bodies were found on the beach. The other 11 bodies were believed trapped in the hull of the ship. Although never found, the hull is believed to be six miles out in Lake Michigan from the Getz Farm. Among the bodies never recovered was that of Capt. A.L. Anderson.

The Andaste met a fate similar to her sister ship, the Clifton, which sank in a 1924 Lake Huron storm.

The Milwaukee was a Grand Truck car ferry and made Grand Haven its home port. Recently the hull was found by fisherman off Racine, Wis., in an upright position in 133 feet of water.

The sinking occurred Oct. 22, 1929. A note, appearing to be hurriedly written, was found later by the Coast Guard at South Haven.

Dated Milwaukee, Oct. 22, 1929 at 8:30 p.m., the note said "The ship is taking on water fast. We have turned around and heading for Milwaukee. Pumps are working but sea gate is bent and can't keep the water out. Flicker is flooded. Seas are tremendous. Things look bad. Crew roll is about the same as on last pay day," signed A.R. Sadon, purser.

Information on the sinking of the two ships was obtained by Holland High School junior David Hoedema, son of Mr. and Mrs. Arthur Hoedema of 94 West 17th St. and given to The Sentinel.

Holland Furnace Soon to Elect New President

Russell M. Cook, president of the Thatcher Furnace Co., Garwood, N. J., will become president of Holland Furnace Co. following the acquisition of the New Jersey firm by Holland.

Cook will succeed Henry M. Hafer. However Hafer remains in the top management of Holland and is still one of the five members of the board of directors as well as treasurer.

Hafer said the acquisition merely means that Holland will bring to its dealers a complete line.

"Holland has not had wet heat before and Thatcher is well known for its boilers and air conditioning, which will now be made available to the Holland dealers under the Holland label.

"The Thatcher team which has been working for the 110-year-old Thatcher Furnace Co. will bring its experience, know-how and counsel to the Holland personnel.

"Russell Cook, who has been in the heating equipment business for more than 37 years, as was his father before him, will guide both Holland and Thatcher components of the company.

"Neither Holland nor Thatcher personnel will be affected," Hafer said. "The two components will operate separately, but will be joined together at the executive level.

"No Holland stock was involved in the transaction," Hafer said. "It is a transaction agreeable to both Thatcher and Holland. There will be a Holland line and a Thatcher line, both more complete.

"Thatcher's statements over the years show that they are a conservative well-managed company and indications are that this union will result in increased production and more profits," Hafer said.

Although financial details of the acquisition were not revealed it was reported approximately \$2.8 million was involved.

Family Service and Michigan Children's Aid Society is a member agency of United Fund. However, it welcomes bequests, memorial gifts and special donations such as the Assistants society gift to serve the community more effectively.

In keeping with Children's Aid Week this week, the new state office headquarters for the Michigan Children's Aid Society at Farmington will be dedicated Sunday. The Michigan's Children's Aid Society, founded in 1891, annually provides care for nearly 2,000 dependent and neglected children, regardless of race, creed or color. Adoptive services, foster home care, help for unwed mothers and their children, and care for teenage girls are provided by more than 140 staff members and countless volunteers throughout the state. No parking signs have been placed on one

side of Ninth St. between Lincoln Ave. and Garretson Ave. because of the increased traffic. Four Juveniles Admit Breakins

Four boys—ages 12, 13 and 14—told Ottawa County sheriff officers Monday they were connected with seven breakins at four places this summer. The total amount of goods taken, excluding antiques, was valued at over \$500.

The four, alone or together, just seemed to scoop up everything which was unattached, according to Detective John Hemple. A miscellaneous list of household articles ranged from buttons and thread, playing cards and poker chips to a lawn mower and a radio.

The connection of the four boys with the thefts was traced through a report of a woman in the Ottawa Beach area who said she found some of the articles strewn around the wooded area behind her house. She also recalled having seen two of the boys in the area.

The boys admitted the thefts when they were contacted, and were referred to juvenile court.

Deputies, upon searching the wooded area, found some of the articles. Most of it was not recovered because the boys had either hidden it or had consumed it. The boys had no use for most of the goods, such as the thread and poker chips. But the lawn mower motor was made over into a motor for a go-cart.

Most of the articles was taken from private cottages and homes. Only one business establishment, the Carefree Golf Course on Ottawa Beach Rd., was entered.

The breakins included the first April 24 at the home of Mrs. Alleen Fisher at 380 168th Ave. The boys returned there again May 14 and June 17, raiding her home for antiques. No value was placed on the antique buttons, radios, record player and oil lamps which were taken.
