## CITY AND VICINITY.

Mrs. John A. Logan will spend the winter abroad.

Rev. J. Lamar of Grand Rapids has been called by the Second Ref. church at Grand Haven.

A special train on the C. & W. M. carried several hundred Petoskey excursionists through this city Tuesday, destined for Chicago.

Potatoes at St. Joseph are selling at from twelve to fifteen cents a bushel, and farmers are having difficulty in disposing of their crops even at those prices.

A dog thief is operating in Holland and vicinity. Three highly prized pug dogs have been stolen within the past two weeks. Two of them were disposed of at a dollar each and the owners had to pay to recover them.

The most attractive business sign displayed in the city, was placed in front of the store of the Stern-Goldman Co. this week. It is a home production, the work of Mr. Merrill, the sign writer, and is as good a job as any one can do.

Zeeland Expositor: "Students at Hope College are increasing in number from year to year, and it is safe to say that no other institution offers such advantage for obtaining a good education at a low expense as Hope College. 'Hope' can point with pride to her graduates occupying responsible positions all over the world."

The board of Supervisors will meet in annual session on Monday, Oct. 14. Among other things the board will be called upon to re-district the county into two legislative districts, and elect a county school examiner to succeed L. Reus; a superintendent of the county poor to succeed Wm. N. Angel, and a drain commissioner to succeed J. D. Edwards.

A poll of the membership of the next house has been made and it is asserted that a free coinage bill cannot pass the next congress. The Michigan delegation has twelve members, four of whom—Thomas, Linton, Avery and Stevenson—are known to be 'sound money' men. Aitken is a free silver man. The other seven—Corliss, Spalding, Milnes, Bishop, Smith, Crump and Snover—are new members and their position cannot be learned accurately.

Reports come from farmers of few miles south of Grand Rapids, that a strange disease has made its appearance among flocks of poultry in that section. Henry Kelly, a well-to-do farmer in that town, is said to have lost forty hens from the disease and several of his neighbors hen coops are also being depopulated. The disease is said to be contagious and the shedding of feathers is one of the symptoms. The township authorities will investigate the cause of the contagion.

The State, through its board of auditors, has made a demand upon the several ex-state officials for the excess in salaries drawn by them under the fraudulent constitutional amendments of 1891 and 1893. If payment is not made, and the board does not expect it will be, suit will be commenced to test the matter. Superintendent of Public Instruction Patten-gill long ago paid back the sum due from him. The other persons interested are ex-Attorney General Ellis, ex-Lieutenant Governor Giddings, ex-Secretary of State Jochim and ex-Treasurer Hamblitz.

Wheat 62 cents.

The stmr. Puritan has been taken off the St. Joseph and Chicago line for the season.

The U. S. treasury statement shows an increase in the public debt for September of \$1,834,687.

Rev. A. Kelzer, of Collendoorn, has declined the call extended to him by the H. C. R. church on Market street of this city.

Rev. Dr. P. De Pree and wife, of Pella, Ia., arrived here Tuesday evening on a four weeks' visit with their children and friends.

W. Trott who has resigned his position as city-electrician and superintendent, has been succeeded by F. W. Fairfield of Grand Rapids.

On the strength that the late equinoctial gales were from the south yet ever-ready local weather prognosticator is predicting a mild winter.

George De Haven on Wednesday resumed his duties as general passenger agent of the C. & W. M. and D. L. & N. railways. He was gladly welcomed back to his former position.

Jake Van Ry is still gaining in strength and has been able to sit up considerable this week. It is feared however that his mental faculties have been impaired by the bullet which entered his brain and has not yet been extracted.

Charles L. Darling, general yardmaster of the C. & W. M. and the D. L. & N. railways, was badly squeezed between the bumpers of an engine and passenger car at Grand Rapids Tuesday. His injuries are painful, but not considered dangerous.

Rev. E. Winter, D. D., professor-elect at the Western Theol. Seminary, in this city, having entered upon his new duties, preached his farewell sermon to his former charge, the Second Ref. church at Grand Rapids Sunday. His formal installation as professor will take place in the latter part of this month.

The committee having in charge the erection of a soldiers monument at Pilgrim Home cemetery have called upon all subscribers to that fund to make their remittance within the coming two weeks with the treasurer, Mr. C. Verschure, cashier Holland City State Bank.

A small yawl, in good condition, painted green and white, was picked up on the Lake Shore Sunday, two miles north of the harbor, near the residence of O. D. Bottum. An oar was also picked up near the same place, indicating that during our late storms some one or more of our mariners must have been in distress.

The ecclesiastical authorities of the two Roman Catholic churches at Lake Linden, Houghton county, have decided to discontinue their parochial schools. Hereafter 500 children that were attending the church schools will go to the American Public Schools. The existence of these parochial schools, in most all cases, is owing to the influence and exertions of the local church authorities.

Rochester Chronicle: Rev. Melius M. Steffens, pastor of the St. Ref. church, Sunday morning preached on the theme, "The Mission of the Church." The members intend soon to build a chapel, with adjoining parlors for the use of the young people, and while mainly condoning his remarks to church and municipal reform, he, at the same time, broached the subject of intended church improvements.

The platted addition in the Fifth ward, known as Boltwood & Harrington's Addition, will be vacated, an application to that effect having been made to the circuit court of this county. The present owner of said tract, Mr. Paul Steketee of Grand Rapids, is not satisfied with the manner in which the streets and lots are laid out, and upon having the present plat set aside, will re-plot it upon a more modern scale.

The great McEwen played a three nights engagement at the Lyceum Opera House this week, for the benefit of Columbia Hose Co. No. 2. In many ways the performances were very clever and some very good tests of mesmerism and mind reading were given. The Japanese juggles were acceptably well received in these acts. Unfortunately the engagement did not turn out financially in favor of the Hose Co., or receive the patronage that it merited. It was the intention of the Hose Co. to have had McEwen here Thursday night, when he no doubt would have had a large audience, but through some misunderstanding the date was closed at another place.

Shorter days, longer nights, frosty mornings.

Born to Mr. and Mrs. Wm. Harke ma—a daughter.

A. E. McCullough, a veteran of Berlin, Mich., has been granted a pension.

L. D. Visser & Son have made connections with the Holland telephone exchange.

The peach shipping season is about over and very few peaches have come into the Holland market this week.

The excursion steamer Music will shortly be taken to the dry dock, either at Grand Haven or Muskegon, for needed repairs.

"Turk," owned by Allie Van Raalte carried away the purse that was hung up in the free-for-all race at the Allegan fair last week. The amount was close to \$100.

During the remainder of the season the steamer City of Racine will be the only boat between Grand Haven and Chicago and will make tri-weekly trips.

The prop. A. B. Taylor has laid up for the season at Grand Haven. She took the place this summer of the stmr. Soo City on the line between Michigan City and Chicago.

John Balgooyen, Henry De Groot, and R. Den Herder, three of Holland's enthusiastic wheelmen, took a run to Kalamazoo on Monday on their bicycles. They report a very pleasant trip.

The Northwestern Classical Academy of Orange City, Ia., sent six bright, healthy boys to enter the Freshman class of Hope College this year. The Academy has for some years been a strong help to Hope.

Tons of sand drifted on the Chicago & West Michigan tracks near St. Joseph Sunday morning, and when the north-bound freight came along it stalled. It took gangs of shovelers several hours to clear the track.

Nearly all the cottagers at Macatawa and the other resorts on the bay have closed up and gone home for the winter. Some few however remain, either to superintend improvements on their cottages or to take advantage of the fall shooting and fishing.

The "Benton Harbor Daily Evening News," a new departure in journalism, reached our table this week. It is a bright, newsy paper, and its aim will be to keep the citizens of the twin cities informed on all news of a local character. Success to it!

The other day, in enlarging the connections of the water main leading to the works, a part of the eight-inch main was taken up and upon examination it was found to be as clean inside, and free from all vegetable and mineral matter, as on the day it was laid down. Whether this is all to be credited to the purity of the water, or in part to the force of the friction—query?

The State bank examiner has made a call upon the banks in the state to show their condition at the close of business Sept. 25, 1895. The report of one of these institutions in this city, the First State Bank, appears in this issue of the News. The facts therein set forth reflect credibly upon the bank and its management, and are a source of pride to the city.

Sentiment in behalf of the struggling people of Cuba is being strongly manifested throughout the country. A large and enthusiastic representative meeting was held in Chicago Monday evening, sympathizing with the Cubans in their efforts at independence. Petitions asking Congress to acknowledge the revolutionists' belligerent rights are being signed numerously. Those in this city desiring to so express themselves will find the opportunity to do so at the drug store of J. O. Doesburg.

The members of the Blue Rock Gun Club, who participated in the Tuesday afternoon shoot, were anxious to make some good scores, as those making the best record were to constitute the team in the contest with the Zeeland club at the fair. The outcome was as follows: C. J. De Roo, 19, P. Dalyea, 20; H. Harmon, 13, J. C. Post, 11, S. Arieth, 10, G. J. Diekema, 12, A. E. Ferguson, 17, W. Thomas, 12, C. Harmon, 14, G. Bender 17. The score shows that P. Dalyea carried off the medal and that the six selected to shoot against the Zeeland team, in accordance with average make, are A. Arieth, A. E. Ferguson, H. Harmon, C. J. De Roo, P. Dalyea and Geo. Bender. In the special shoot at 25 singles and 5 pairs De Roo in the former killed 19 and in the latter Ferguson and Arieth brought down six each.

Royal Baking Powder Co.,

Born to Mrs. and Mrs. B. Bouwman—a son.

Mrs. E. Slioter of this city is visiting her parents Mr. and Mrs. Dan Bosle at Grand Haven this week.

Geo. O. M. Poe, U. S. A., once colonel of the Second Mich. Infy., died at Detroit Wednesday morning.

A number of our ministers attended the Grand river classes of the Ref. church, which convened in Grand Rapids on Wednesday.

Duck hunters are having considerable sport these days, as the cool weather and high winds have brought in flocks of game from the big lake.

With the first rumblings of the approaching presidential election is also heard the desire that the campaign be a short one. The age is too progressive for the old-fashioned way of conducting a political canvass.

The steamer Lizzie Walsh, about which there was considerable alarm during the storm last week, reached port safely on Saturday last from Ludington. She has four more cargoes of lumber to tow, if the weather permits.

The recent heavy storms have done much damage to the north pier of Holland harbor, nearly opposite the light house where the stone were removed from the crib some time ago. Immediate repairs will be necessary or more serious damage may result before the winter is over.

The steamer Harvey Watson, which has been plying between Holland and the resorts in connection with the steamer Music and engaged in ferrying during the active part of the season, was pulled off the route on Monday. The years business has been fairly satisfactory.

The potato crop in this locality is exceptionally large this season, especially on low ground. The market is however very low, and the News learned of one load that was sold on Saturday last as low as 13 cents a bushel. Farmers had better feed potatoes to their stock than sacrifice them at such a price.

Tuesday next a Sunday-school Convention will be held in the Ninth street H. C. R. church. Delegates are expected from all the Sunday-schools of the Holl. Chr. Ref. church within the jurisdictions of the Classis of Holland. The program of exercises embodies several weighty topics that are likely to lead to earnest discussions.

In the bird shooting contest which took place at Macatawa Park Friday afternoon for the Tanner medal, there was some pretty lively shooting, both on the part of the life saving crew and the Holland experts. J. H. Smith of the crew captured the medal by a score of 21 birds out of 25. This is the first time a member of the crew has held the medal since it was put up and the boys naturally feel very happy over it. Now that the boats have stopped running there will probably be no more shooting at the park.

To whom it may concern: Please call and settle by Oct. 10th as I am going out of business.

Coopersville people have established Riverside park on Grand river, four miles south of the town, and are talking of asking for a \$25,000 government appropriation to improve Deer creek so that pleasure boats can run from the village to the park.

Nortonville, an abandoned lumbering port on Grand river, a few miles east of Spring Lake had the first sawmill in Western Michigan and the machinery came in 1836 from Toronto. Nortonville also had one of the first postoffices in this part of the state.

During the month of September twenty-four marriage licenses were issued in the county clerk's office. So far this year seventeen more have been issued than during the same period last year. Of the parties contracting marriage 104 have been from Holland, 38 from Grand Haven, 29 from Zeeland and 12 from Spring Lake.

Saturday the jail inspection board of the county consisting of Judge of probate J. V. B. Goodrich, county agent Wm. Whipple, Jr. and superintendents of the poor Wm. N. Angel, W. Diekema and Alex. Noble visited the county jail for semi-annual inspection. They found that during the half year preceding the examination 97 prisoners had been confined in the jail. Divided into their different classes the prisoners were: drunk 40, disorderly vagrants 35, assault and battery four, selling diseased meat, 1, larceny from dwelling 1, disturbing religious meeting 1, destruction of property 1, breaking into railroad cars 3, burglary 4, larceny 1, murder 2, arson 2, embezzlement 1, perjury 1. Now in jail for trial none, serving sentence 3, under 16 one, and awaiting commitment 1. The inspectors found the jail in poor shape and reported as follows: "The jail is old and unsafe for the purpose for which it is kept. It is as well kept as it can be owing to its construction. We report the recommendations made in our last report, that a new jail be built as soon as possible."

Mr. and Mrs. Geo. A. Farr have arrived home from Tennessee. Mr. Farr spent eleven days on Chickamauga battlefield. He says the battlefield has undergone no change at all since war days and that if placed on the field in the night time, he could find the many important positions on the battlefield, that he learned to know during the battle.—Tribune.

The chancery suit between the City and the Wiley Water Works Co. was argued this week before Judge Padgham, in Allegan. The litigation involves how much the city is indebted to the company for water furnished by the latter for city use in years gone by.

J. J. Danhoff, Sr., died Monday, aged 78 years. He was born in the Netherlands and settled here forty-one years ago. He leaves a wife and the following children: James J., attorney, Grand Rapids; John J. and Peter J., of this city; Mrs. Walter Mercer and Henry J., of Grand Rapids. Mr. Danhoff's death was caused indirectly by a stroke of paralysis which he suffered two years ago and the effects of which he never fully recovered. The funeral occurred Tuesday from the Second Ref. church and was conducted by Rev. J. Lamar of Grand Rapids, Rev. C. M. Steffens, of Rochester, N. Y., and Rev. P. De Bruyn of this city.

**Allegan County.**

George Starring and wife have been appointed keeper and matron of the county infirmary. They have been employed upon the premises for several years and are well acquainted with the duties. Salary \$500. The new rules adopted are to the effect that the keeper shall enforce the rules established by the superintendents for the government of the poor house; that he shall report all help employed who behave in an unseemly manner while on duty connected with the inmates; that he keep a record and report the names of all visitors and company entertained at meals; that the keeper and his wife shall not both be absent at the same time from the poor house and farm without permission from the superintendents, except in emergencies, when it would be impossible to get permission before going, when they must leave a competent person in charge; and that the keeper shall report monthly the quantity of provisions and supplies used, that the superintendents may know what the current expenses are.

Saugatuck schools have an enrollment of 170 pupils.

A scheme is on foot to kill all the fish in Doan's lake, near Bradley, with dynamite, and re-stock it with good varieties of the flney tribe.

Allegan citizens were aroused from their slumbers about midnight, Tuesday of last week by an alarm of fire. The blaze was in the second story of the old county building. The firemen responded promptly and soon had the flames under control, though not before over \$100 damage had been done. The origin of the fire is not positively known. There was a heap of rubbish in the corner of the room and some think spontaneous combustion ensued while others are inclined to believe it was incendiary.

Hundreds of bushels of apples have rotted on the ground in the fruit belt, because the farmers have been too busy with peaches to take care of them.

The new illustrated atlas of Allegan county, published by the Kase Publishing co., was delivered this week. It is a beautiful work.

Thursday of last week the Allegan school officers gave their superintendent and teachers a vacation in order to give them an opportunity to inspect the system in vogue in Grand Rapids. About 20 teachers put in the day visiting the schools there. They were well pleased with the work seen in Grand Rapids and considered the day profitably spent.

Alvin Hutchins, one of the pioneer residents of Saugatuck township, died at his late home Sept. 22. He had been in feeble health for a number of years and his death was not unexpected. He located in this county in 1844.

F. A. Makin of Benton Harbor, who is supposed to be backed by Baltimore capitalists, has nearly consummated a deal by which Allegan will be connected with Saugatuck and Holland by an electric railway. Electricity will be generated by means of a large steel dam water power, which will be located about six miles up the river from Allegan village, and the cars will be run at the rate of fifty miles an hour. The name of the proposed road will be the Holland, Saugatuck & Southeastern railroad, and the route as now surveyed will be from Holland to Saugatuck, through to the village of Otsego, Holland and Otsego, being terminal points. Allegan will be connected by a spur. Inasmuch as the proposed road penetrates the center of the great fruit belt it has every prospect of a large business from the outset. According to Mr. Makin the Lake Shore and Michigan R. R. has already given a guarantee of 135 cars of freight over this road every day. Freight from the west will be largely from Milwaukee and the Northwest. Five trains are to be run daily each way. The board of supervisors will be petitioned to grant their consent for the dam, and when this is secured the ground will be broken at once.

The Allegan fair held last week was one of the most successful in the history of the society.

**Muskegon County.**

The peppermint crop of this county, raised almost entirely in Moorland and Eggleston townships, has been harvested and distilled. The results show that the crop has yielded well, far beyond the fondest hopes the growers dared entertain. Owing to increased acreage the aggregate of the crop will exceed that of any previous year. The market has yielded better prices than last year, so that all in all the mint growers are well pleased with the season's operations. Hiram Hunter, of Moorland, who is justly entitled to be called the Peppermint King of Muskegon county by reason of his having 200 acres devoted to this crop, spoke in excellent spirits of his mint crop: "We have about half a day's work yet and then we will be done distilling the oil for this year. The crop has been a surprise for its heavy yield of oil from the straw. I never knew mint to yield so well according to the amount of straw distilled. My crop will foot up just about 3,500 pounds—about 2,700 from my 135 acres of new mint and 800 pounds from the 65 acres of the old. I sold a little at \$1.75 a pound, then some more when it dropped to \$1.70 and the rest of my crop, when the price sagged to \$1.65. Now it sells for \$1.55. Last year I got \$1.40. I estimate that the

peppermint oil produced this year in Moorland and Eggleston will bring in to those townships not less than \$40,000."—Chronicle.

The circuit court Saturday decided the special paying tax roll of 1893 against the city. Several business men refused to pay their special assessment, with a result that it was carried into the courts, and they won. It will mean a loss to the city of from \$30,000 to \$50,000. The error was made in the treasurer's return, in that he did not give a list of the delinquents, description of the property and amounts delinquent.

Mrs. H. G. Wilnot is at Holland where she will remain for two months.

Notwithstanding his adverse experience with the steam r Nyack, on the route between Milwaukee and Muskegon last season, E. G. Crosby still sees "millions in it" and he is now actively engaged in negotiations to establish a winter route between Milwaukee, Muskegon, and Holland. In connection with a committee of prominent residents of Muskegon Mr. Crosby called upon Col. Lydecker at Grand Rapids the other day with the view of having the Muskegon and Holland harbor channels deepened.—Evening Wisconsin.

**Grand Rapids.**

John H. Schouten and A. K. Moore have started a cigar store at the corner of Ottawa and Pearl streets.

The druggists of the city have taken a very decided stand against the department stores and others who sell patent medicines for less than the standard price. They will go the enemy one better by selling all such articles at about cost, and in some cases below cost, in the hope of forcing a more satisfactory condition of affairs, the druggists say they will keep it up to the bitter end. The action is taken by the members of the Pharmaceutical association.

The members of the Grand Rapids real estate exchange have been discussing a plan to fully utilize the great water power they think is within easy reach. It is proposed that the city purchase this power, build a new substantial stone dam, construct a big power house provided with turbine wheels and transmit the power into electricity. They say that the force contained in Grand river is not now utilized to a tenth part of its possibilities, and that with the aid of modern electrical and mechanical inventions power could be developed sufficient to move all the factory wheels in the city and more, and could be distributed very cheaply to all parts of the city, thus furnishing an extra inducement for manufacturers to locate here. It is suggested that the citizens be asked to vote to bond the city for a sufficient sum to buy out the owners and establish a municipal water and electrical power plant. The scheme, if practical, would of course give the city a decided boom.

### FURIOUS STORMS.

Wind, Rain and Lightning Cause Considerable Damage.

**WHITEHILL, Sept. 27.**—During an electrical storm here Wednesday night lightning struck the farm barn of William Norris, burning the barn and house. Loss, \$2,000. Nels Mikkelsen's large barn at Montague, containing four horses, grain and machinery, all valued at \$5,000, was also destroyed. At Holland heavy thunderstorms accompanied by heavy rains and wind passed over the town flooding the streets, washing out the area wall of J. Albert's basement and burning out the fuses of the electric fire alarm. The barn of Lubbert Hop, in New Holland, was struck by lightning, killing two horses.

**LAKE VIEW, Sept. 27.**—Wind blew down the Good Templars' hall in Hinton township, 3 miles northeast of here, entirely demolishing it, and some of the heaviest timber was carried 80 rods away; also the Moffett school, just finished last spring, was moved entirely from its foundation and carried several feet away and would have probably been wrecked had it not hit a large pine stump. Jay Vining's residence was lifted from its foundation, but no damage done further than a terrible shaking up of the family. The buildings were all within 80 rods of each other.

### FLOWERS IN THE FALL.

Nature Cutting Queer Pranks with Vegetation in Richland.

**RICHLAND, Sept. 28.**—Nature is cutting up queer antics since the rains set in breaking the long drought. Wild flowers that should have blossomed in May and June are now in full bloom, and apple and plum trees are bearing ripe fruit and blossoms on the same branch. Fields of beans that were planted late have the ripened pods, green beans and beans in blossom in the same hill. Garden seeds which were planted late spring and did not sprout are growing now, and farmers are having their second growth of early vegetables.

### WHEELLOCK WILL SET ASIDE.

New York Charities Lose an Important Michigan Case.

**BATTLE CREEK, Sept. 27.**—Judge Smith, of this circuit, has just filed a decision setting aside the will of Sarah Wheelock, sister of the late Moses W. Wheelock, a millionaire bachelor farmer. The will gave all of Miss Wheelock's property to the following New York societies: The American Board of Foreign Missions, the American Tract society, the Congregational Home Missionary society and the American Female Guardian society and Home for the Friendless.

### THE LAW MUST STAND.

Supreme Court Passes Upon the Anti-Fusion Act.

**LANSING, Oct. 2.**—The supreme court in the case of A. M. Todd, of Kalamazoo, against the board of election commissioners relative to the legality of the anti-fusion law, which provides that no candidate for public office shall be entitled to have his name appear more than once upon the official ballots, holds that the statute is constitutional and must stand.

### Snow in Upper Michigan.

**MICHIGAMME, Mich., Sept. 30.**—Three inches of snow fell Sunday afternoon and evening at Summit. Late crops are damaged by heavy frost. Snow is also reported as falling in small quantities at several other elevated points in the upper peninsula.

**CALUMET, Sept. 30.**—A light snow fell here Saturday night followed by several furies Sunday morning. This is the earliest fall on record in this county.

**HOWELL, Sept. 30.**—Several snow furies occurred here about noon Sunday, breaking all records. Reports from the surrounding country also indicate light snows.

### Victim of a Bicycle Dies.

**ADRIAN, Mich., Sept. 30.**—While riding his bicycle after dark at Tecumseh Thursday night, Rev. Hudson, pastor of the Baptist church, of that village, struck Miss Woodard at a crosswalk, injuring her so severely that she died Friday morning. A contusion on the young woman's head was the only mark of injury. The affair has created great sorrow in Tecumseh, both on the reverend gentleman's account and the esteem in which Miss Woodard was held.

### Lake Steamers Collide.

**SAULT STE. MARIE, Mich., Sept. 30.**—The wooden steamer Robert L. Fryer, bound up with coal, and the steamer Corsica, bound down with iron ore, were in collision at the dyke in Hay lake channel Saturday morning. The Fryer was cut through the foremast and her bow was almost entirely carried away. She lies with her decks under water. The Fryer was valued at \$95,000 and carries insurance of \$90,000. The Corsica is badly damaged.

### Won Her Suit.

**JACKSON, Sept. 27.**—Owen O'Neill, 23 years old, was sentenced from Jackson to three years and four months in prison last November for assaulting Theodore Wagner, a saloonist, with intent to kill. O'Neill was drunk at the time. A jury in the circuit court gave O'Neill's mother \$300 as damages against Wagner for selling her son liquor. The Jackson Liquor Dealers' association bore Wagner's expenses.

### One Hundred Converts Baptized.

**LANSING, Sept. 30.**—Yesterday was big Sunday at the adventist camp grounds. A large crowd was present at all services and the labors of the last three weeks found fruition in the baptism of nearly 100 converts. The river bank was lined with thousands of witnesses of the baptism.

**Incendiary Fire in Peppermint Marshes.**  
**NILES, Mich., Sept. 30.**—Incendiaries have set fire to the large peppermint marshes east of the city, and the flames have destroyed fences, haystacks and outbuildings. The loss will amount to thousands of dollars, as many tons of peppermint were destroyed.

### WHILE ABSENT.

II.

The exciting features in an ocean voyage are the departure and the arrival of the steamer. Passengers, as a rule, are not received on board until within a few hours prior to the hour of sailing, when all are in waiting to assign them state rooms and assist in handling state room baggage. Steerage passengers on the other side are not admitted until after they have passed a medical examination—not very rigid. This examination is often followed up by a vaccination en masse.

Let me mention here two steerage incidents. On the outward passage was a Russian, whom the authorities at Ellis Island, New York, had prohibited to land, he being physically unable apparently to maintain himself. The steamboat company was compelled to take him back to Europe. The poor fellow was very despondent, and on the morning of the second day out he was found missing.

The other incident occurred on the home voyage. It was the advent of a young Hungarian. Born on the Atlantic, under the Dutch flag, destined for the United States, the query arose whether our new-comer might not be made to answer the description of "the man without a country."

With reference to steerage passengers, I would add that the arrangements for their reception and detention at Ellis Island, the new "Castle Garden" at New York, are all that can be desired. Upon the arrival of the steamer at New York, or Hoboken, they are not allowed to land, but are transferred to another boat, with their baggage, and conveyed to Ellis Island. Everything there is under rules and regulations prescribed by the National Board of Emigration. A rigid examination is had by the health officers, and special attention paid to physical disabilities. All limitation as to age has been removed, provided satisfactory showing is made as to support and maintenance after they reach their destination in the States.

Among the steerage passengers on the homeward passage the majority were from southern Germany, with a large sprinkling of Hungarians, Russians and Arabs. Of Holland emigrants there were but very few. The latest reports from here and the return of several of them last year has for the present placed a decided check upon American emigration. The Dutch government requires steerage passengers from America, which as a rule are dissatisfied emigrants, to be booked through to some point in the interior of Europe. Holland does not want them as permanent residents. This regulation was adopted about two years ago, when so many of them returned. Of course, to this rule are certain exceptions.

Both trips were made with the steamers of the Netherland-American line. Later on I will have occasion to refer somewhat to the inducements it offers. In its passenger lists all nationalities are represented, Americans predominating. A large number of the latter get off at Boulogne, on the French coast, twelve hours before reaching Rotterdam. From Boulogne it is only a few hours ride to Paris, which city to all tourists, and Americans especially, presents so many attractions.

The daily contact and association with men and women, such as constitute the average group of cabin passengers on an ocean liner, is the leading if not the only diversion an ocean voyage offers, and as such it has its charms. By some instinctive process or other one will pick out his associates, and on the third day out an informal acquaintance has ripened into an intimacy, the recollections of which he will always cherish. It is remarkable how trifling incidents under such circumstances will draw persons together. Thus, for instance, I met in the chancellor of the Kansas University a Macatawa resort, and in a professor at that same institution, and in his wife, two intimate acquaintances of Prof. Dr. A. H. Hui-zinga.

One of the interesting daily incidents on board an ocean steamer is to watch the log, and note the daily reports of the distance made. The distance between New York and Rotterdam, or rather between Sandy Hook and the "Hook of Holland," is 3,425 miles. The difference in time is 5 hours and 23 minutes. Upon this basis every passenger makes his calculations and estimates the time of arrival, all of which is well enough in fair weather; a severe storm however, such as we had on the return trip when only 150 miles were made, is liable to upset these calculations.

Another feature on board an ocean steamer, each trip, is the concert, or social. The captain furnishes the refreshments and the passengers are

supposed to be sufficiently talented to do the rest. Some one with executive force and enterprise, and ability to discern the latent talent among his fellow passengers, sets himself up as master of ceremonies and arranges a program. The chief steward throws in the printing. On both trips my fellow traveler, Mrs. Hummer, contributed her share, by rendering a solo. Of course, this was after the storm had subsided.

The inspection of baggage on either side of the Atlantic, by revenue officers, is one of the inconveniences to which every tourist has to submit. In Holland these officials come aboard soon after entering the harbor of Rotterdam (the new waterway). The baggage is placed along the decks and inspected before the steamer ties to her dock, it requiring three or four hours to make that run; hence there is no delay in landing. The tariff in Holland is very light, and the list of dutiable articles is limited. A small gift of jewelry entrusted to my care however was not among the exemptions. In New York the inspection is made at the dock, where all the trunks are arranged in the large warehouse and every facility extended by the company to assist passengers in going through the ordeal. On neither side, was there reason to complain about the inspectors; they were gentlemen.

### This was Fair Year.

GOOD WEATHER. GOOD EXHIBITS.  
GOOD ATTENDANCE.

To-day (Friday) closes the Eleventh Annual and most successful fair ever held under the auspices of the South Ottawa and West Allegan Agricultural Society. Everything seemed to combine in making it a success. The weather was clear and bracing, the attendance the largest ever known, and the exhibits fully up to the standard of previous fairs held by the Society. One of the noticeable features was the large representation present from Allegan, Grand Haven, Grand Rapids, Zeeland, Kalamazoo, Muskegon and other neighboring cities and towns. They came not only to see the fair but also took advantage of the reduced rates to visit what is generally admitted to be the most thriving and progressive city of its class in the state of Michigan.

Too much credit cannot be given in this connection to the officers, directors, superintendents and others who have contributed of their time and exercised their utmost efforts toward bringing about these results. Two years ago the management felt somewhat down-spirited on account of the bad weather, lack of attendance and inability to meet the premium list, but the success of the last two fairs has put the Society on a good financial basis and given its promoters renewed courage.

Following we give the names of the officers, directors and superintendents who have so very acceptably served this year:

OFFICERS—A. G. Van Hees, President; Gerrit Rooks, Vice President; Otto Breyman, Treasurer; Allie C. Van Raalte, Marshal; Hermann Boone, Supt. of Grounds; R. N. De Merrel, Supt. of Speed; John Kerkhof, Secretary.

SUPERINTENDENTS—Cattle, G. Rooks; Horses, Martin Van Zoeren; Sheep and Swine, Harm Kragt; Poultry, Wm. D. Van Loo; Agriculture, John Op't Holt; Farm Implements, B. Riksen; Pomological Dept., G. J. Deur; Floral Dept., G. Souter; Dept. Woman's Work, Mrs. L. T. Kanter; Miscellaneous Dept., G. Van Schelven.

Tuesday the opening day was largely given to the placing of exhibits and the departments were nearly all filled by the time the entries closed in the afternoon. In some instances the display was not quite up to last year, while in others it was better. As usual the Art Hall was the centre of attraction, while the exhibits in the Agricultural and Horticultural departments were also good drawing cards. There was not as large an exhibit of poultry, although more of a variety than usual, while the show of cattle, horses, and other stock was an exceptionally good one. Those who are qualified to judge are free in saying that there has never been a finer or more meritorious exhibit of horse flesh, including road, draft, and driving horses seen upon the grounds. President Van Hees and others say it equaled if not excelled the exhibit at the state fair.

The track programme for the week was unusually interesting, the features on Wednesday afternoon being the 3-year old trotting race, farmers' double team race, boys bicycle race, and exhibits of gent's and ladies horsemanship. In the former there were three entries, Little Turk, Annie V. and Irwin Boy. Four mile heats were trotted and the prize was carried away by Anna V; time 2:34. Four farmers' teams competed in the second race: Messrs. Albers of Overisel, Thompson of Jamestown, Andrews of Jennisonville, and a pair "unknowns." Geo. Albers team won in two straight heats time 3:19. Will Bertsch carried away the bicycle prize and Miss Lena Boone John Boone were awarded the prize in ladies and gentleman's horsemanship,

they being the only one's that appeared upon the track.

Thursday was designated as Grand Army day and there were a large number of old war-scarred veterans upon the grounds. An interesting programme, including music, camp-fire talks, and an appropriate address by Mayor G. J. Diekema, was carried out.

In the afternoon there was considerable excitement over the two-year old and the 2:35 class trots, and the two-mile bicycle race. The former was unfinished, but the latter after four closely contested heats between Irwin, Little Turk, Booney, and Robert Mantell was won by the former, a Zeeland horse, in 2:30. Messrs. Hulsen, Webster and Van der Meulen were the three competitors in the 2 mile wheel race for a purse of \$20. Webster was victorious by taking two out of three heats. There was some very spirited betting on this race as the riders were all experts.

Will Blom gave a very pretty exhibition of trick and fancy bicycle riding and captured the News medal. The only other contestant was F. Arleth. Frank Pfeifer carried away the Fair association medal in three straight heats.

Although there were in the neighborhood of 8,000 people on the grounds Thursday afternoon, there were no accidents and the best of order was maintained by Marshal Van Raalte and his assistants.

Friday's attendance while not as large as Thursday's was up to the expectations of the management. It being educational day there were many school children present; 150 participated in the spelling contest and the other features of the programme will be given fuller detail next week. Holland won the medal shoot with the Zeeland team by killing 107 to their 103 birds. Following is the score: Holland, C. J. De Roo 17, C. Harmon 15, G. Bender 20, J. Ferguson 17, H. Harmon 20, A. Arleth 18, Zeeland, Van Eyck 20, B. Smits 15, J. Kraus 17, H. Karsten 14, A. Eding 17, J. Kamps 20.

The races attracted good crowds. Four horses entered in the 2:25 class Turk, Fenville, Booney and Irwin. Fenville took the first two heats with prospect of winning the third. Anna V was the favorite on the 3:00 minute class. On account of the lateness of the hour the NEWS will have to defer publication of other events of the day until next week when the premium list will be given in full.

To give the ladies of Holland a better opportunity to see the exhibit of work at the World's Fair, made on the Davis sewing machine, we have arranged with the company's representative to remain all day Saturday this week, and display their samples at our store. Do not fail to call and see the exhibit, as it is very seldom such samples are displayed in a city of our size. From here they will be shipped to Boston, Mass. Miss A. M. Murphy and Mr. A. Z. Smith will be with us to operate the machine, and teach you to do all kind of work.

## Wind, Wave and Water.

Buffeted and tossed about for nearly ten hours as the plaything of a giant, the steamer Puritan returned to Chicago Sunday afternoon, beaten into submission to the will of a north-west gale, and as angry a sea as ever churned the waters of Lake Michigan. Within three miles of the harbor at St. Joe the captain of the Puritan was forced to turn back, and return to Chicago with about forty passengers, who were ready to join in a hymn of thanksgiving as soon as they planted their feet on dry land once more. For about three hours they were as badly frightened a lot of men and women as ever took passage on a boat.

A furious northwest gale and a short, choppy sea combined to render the Puritan almost unmanageable. Heavy waves dashed with terrific force against the boat, flooding the upper decks at times, and beating through the hatches below. Before the Puritan was ten miles out of Chicago many of her passengers were begging Captain McGuigan to put back, so badly frightened had they become. As the steamer neared the east shore the terror of the passengers was increased. A mountainous wave threw its weight over the hurricane deck while the captain was changing his course in the trough of the sea. The Puritan returned without sustaining any serious injuries.

On the way from Chicago to Grand Haven, last Friday, the engineer of the prop. Atlanta discovered a fracture in her shaft at 3:30 a. m. There was a heavy sea running, and after the discovery, the crew dare not attempt to do more than keep the engines working sufficiently to hold their course. The Soo City, of the Holland-Chicago line, left Chicago about the same time, and passed the Atlanta at 1 a. m. The sea being heavy, she made Grand Haven port instead of Holland, arriving there about 5 a. m. After a time, the Atlanta not arriving, the captain of the Soo City put out to meet her, took her in tow and arrived in port at 10 a. m.

The Atlanta is a steamer of 958 tonnage, plying between Chicago and Grand Haven. Her gross tonnage is 1,200. She can carry 800 passengers and is one of the new boats of the Goodrich line. Her twin sister is the City of Racine. She left Chicago at 7:30 Thursday night for Grand Haven with a passenger list of twenty-five and a cargo of freight. The wind had been blowing all of Thursday at a forty-eight mile an hour gale, the maximum for the storm period, and the trip across the lake was a rough one. Twenty miles off the harbor of Grand Haven and at about 3:30 in the morning her main shaft was fractured and she was left in the extraordinary sea running.

Monday the disabled steamer was taken in charge by the tug Arctic, owned also by the Goodrich company, and towed to Manitowoc, where she will lay up for repairs.

The schooner Bradley of Chicago, Capt. Hurst, left Manistee lumber laden Wednesday for St. Joe. The gale struck her Thursday and she headed for the west shore. The sea running down, the Bradley made back to the east shore, where she was caught in a second gale and turned back for the west shore again. She finally reached Grand Haven harbor and made it by a scratch, losing her anchor and narrowly saving herself from going on the beach. The crew claim it was the toughest experience of their lives.

It can be at last definitely stated that the American steel barge company will build two new whalebacks the coming winter, a steamer and a barge. They will be 390 feet long, 45 feet beam and 26 feet molded depth, making them by far the largest whalebacks yet built.

The steam ferry boat Gracie Barker, at one time owned at Grand Haven, known to thousands of tourists at the Little Traverse bay resorts as the boat which piles between Harbor Springs, and Bay View, was burned to the water's edge one morning last week. The hull is in fairly good shape and the boat will be rebuilt. Loss, \$5,500, with no insurance.

In the last issue of Harpers' Weekly appears a fine cut of the revenue cutter Walter L. Gresham, which is to take the Andrew Johnson's place. The principal dimensions of the new cutter are: Length over all, 205 ft. 6 inches; length between perpendicular, 188 ft.; breadth of beam, moulded 32 ft. draught, mean, 10 ft. 9 1/2 inches; displacement, 900 tons. She will be built of steel throughout and will carry fore and aft schooner rig of steady-sailing sails.

A Grand Rapids man claims to have invented a deep water diving suit, the

usefulness of which, in these breezy times, is likely to be appreciated. Says the Herald: "F. A. Thomas, a blacksmith living on Michigan street, has constructed a sailing boat, which will be used on the Great Lakes for the purpose of locating wrecks. Mr. Thomas is now engaged in getting up a life preserver after plans of his own, and intends not only locating but raising a number of the sunken hulks that abound in the bottoms of the great lakes. The diving apparatus will be something entirely different from any diving suit already made and with it Mr. Thomas thinks a much greater depth can be reached than any one has yet succeeded in getting. The suit will weigh when completed 300 or 400 pounds and will be worked with a crane on the deck of his vessel. The diving suit has not yet been commenced, but the boat is completed and is now at Spring Lake, where it will winter. No effort will be made to accomplish the purpose of building the boat until next summer. The boat is thirty-four feet over all, decked and draws three and one-half feet of water when perfectly light. It carries 129 yards of canvas. Mr. Thomas intends closing several contracts to locate hulks as soon as spring opens up."

The Deep Water Way Convention, which has been in session in Cleveland among others adopted the following:

"Recognizing the supreme utility of deep waterways through the great lakes and thence to the sea, and reaffirming in full the platform adopted at the organizing convention held at Toronto in 1894, the international deep waterways association, in first convention assembled, declares as follows:

1. That the public welfare demands the deepest practicable channels between the several lakes and to the seaboard to enable vessels of the most economical type to pass between lake ports, or between the lakes and the seaboard, or to foreign waters, without the necessity of trans-shipment.

2. That the said requirements call for at least a depth of twenty-one feet in all channels, and the building of all permanent structures for a navigable depth of twenty-six feet or more in order that the water courses may be progressively and economically deepened to the ultimate necessities of traffic."

G. R. Herold: "How much do you think congress ought to be asked to vote for Grand river improvement?" That question, in one shape or other asked of several prominent business men yesterday, brought out statements both in favor and against the improvement of Grand river. The merchants in favor of it were greatly in the majority; but one utterly disapproved of it and refused to talk for publication, and but one more acknowledged that he was not enthusiastically in favor of it, and he also asked that he be not quoted. As for the remainder all were very much in favor of the improvement and all favored asking congress to vote enough to complete the work as laid out in the plans of Col. Ludlow of the U. S. engineering corps. One answer was: "Not to exceed ten cents," and then came an utter refusal to say a word more. The other, who is a wholesale groceryman, said that he did not think the improvement of Grand river was feasible altogether, and as for it being the means of helping his business out he thought the idea was perfectly absurd.

W. H. Kinsey, secretary of the board of trade, said that if Grand Rapids should ask for the total amount of Col. Ludlow's estimate it would not be as "nervy" as Philadelphia, which will come before congress for an appropriation of \$14,000,000 for the purpose of making a canal to New York, so that water transportation can be made in five hours less time between the two cities. Philadelphia has already twenty-six feet of water. "I am asked sometimes," said Mr. Kinsey, "with what we would load boats if they could get to Grand Rapids? With Holland City running two boats a day to Chicago and doing good business, with Ludington, Pentwater, Manistee, Saganaw and other cities, the combined population of which will not equal Grand Rapids, I do not think we would have much trouble in loading the boats. Cheboygan, on the west shore of the lake is about the same distance from Chicago that Grand Rapids is," continued Mr. Kinsey, "and is, like Grand Rapids, a furniture city, Cheboygan ships to cities in the west and south by the way of Chicago at Chicago rates. The railways at Chicago are all anxious for the business and they say to the

initial line, "You go ahead, get the business at the Chicago rate and we will pro-rata with you." If we run an independent boat we could get the same thing."

### Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in result." Trial bottle free at

# ANNUAL TAX SALE.

STATE OF MICHIGAN,  
COUNTY OF OTTAWA.

The Circuit Court for the County of Ottawa in Chancery.

In the matter of the petition of STANLEY W. TURNER, Auditor General of the State of Michigan, for and in behalf of the State of Michigan, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan as aforesaid praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the November term of this Court, to be held at the City of Grand Haven, in the County of Ottawa, State of Michigan, on the Fourth day of November, A. D. 1895, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof, acting as register in chancery, their objections thereto, on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Monday in December thereafter, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Ottawa, State of Michigan; and that the sale then and there made will be a public sale and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person offering to buy for any given tax and paying the full amount charged against said parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will buy for any of said several taxes and pay the balance thereof and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall, on the succeeding day, or before the close of the sale, be re-offered, and if, on such second offer, or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Philip Padgham, Circuit Judge, and the seal of said Circuit Court of Ottawa County, this 3rd day of September, A. D. 1895.

SEAL. PHILIP PADGHAM, Circuit Judge.  
Countersigned,  
Geo. D. Turner, Register.

## STATE OF MICHIGAN.

To the Circuit Court for the County of Ottawa in Chancery:

The petition of STANLEY W. TURNER, Auditor General of said State of Michigan, for and in behalf of said State of Michigan, respectfully shows that the list of lands hereinafter set forth and marked "Schedule A," contains a description of all lands in said County of Ottawa upon which taxes were assessed for the years mentioned therein, and which were returned as delinquent for non-payment of taxes and which taxes have not been paid; together with the total amount of such taxes, with interest computed thereon to the time fixed for sale, and collection fee as provided by law, and the cost of advertising and other expenses of sale of each of said parcels of land.

Your petitioner further shows to the Court that said lands were returned to the Auditor General under the provisions of Act 206 of the Public Acts of 1893, as delinquent for non-payment of said taxes for said years respectively; except such of the taxes set forth in said schedule as were returned to the Auditor General according to law prior to the 12th day of June, 1893, and remain unpaid.

Your petitioner further shows and avers that the taxes, interest, collection fee and cost of advertising and other expenses of sale, as set forth in said Schedule A, are a valid lien on the several parcels of land described in said schedule.

Your petitioner further shows that the said taxes on said described lands have remained unpaid for more than one year prior to the first day of May, 1895; and the said taxes not having been paid, and the same being now due and remaining unpaid, as above set forth, your petitioner prays a decree in favor of the State of Michigan against each parcel of said lands, for the payment of the several amounts of taxes, interest, collection fee, cost of advertising and other expenses of sale, as computed and extended in said schedule, against the several parcels of land contained therein, and in default of payment of the said several sums computed and extended against said lands, that each of said parcels of land may be sold for the amounts due thereon, as provided by law, to pay the lien aforesaid.

And your petitioner will ever pray, etc.

Dated August 30, 1895.  
STANLEY W. TURNER,  
Auditor General of the State of Michigan.  
For and in behalf of the State of Michigan.

### JUSTICE JACKSON'S TERM.

Next to the Shortest in the History of the  
United States Supreme Court.

Justice Jackson's service of two years on the supreme bench of the United States is one of the shortest terms in the history of the court. The only shorter term was that of Justice Harrison, who was appointed in 1789 and resigned the office in the same year to become chancellor of his native state, Maryland. Chief Justice Rutledge, the only man to be twice appointed to the supreme bench, says the New York Sun, resigned the office of associate justice in 1791, after two years of service, to become chief justice of South Carolina. He was named chief justice of the United States supreme court in 1795, and presided one term, but the nomination was rejected by the senate because it was discovered that his mind had become impaired. Associate Justice Trimble, of Kentucky, died in 1828 after two years of service. These are the only justices whose terms have been as short as that of Justice Jackson, save one of his associates, still upon the bench.

The longest terms were those of Chief Justices Marshall and Story, each of whom served thirty-four years. Five others served over thirty years, five between twenty-five and thirty, six between twenty and twenty-five, nine between fifteen and twenty, six between ten and fifteen, seventeen between five and ten, and eight less than five years. Some of those included in this summary are still upon the bench. Justice Field, appointed in 1863, is the oldest in point of service of the present bench, and his term approaches the longest in the history of the court.

### RATHER ABSENT MINDED.

The Professor Thought the Under Pie Crust Was a Little Tough.

A certain one of our scientific men—a man whom you can't help knowing if you have had much business with the Smithsonian Institution—has the reputation of being extremely absent-minded, says the Washington Star. I don't believe most of the stories they tell about him, but here is one on whose truth I am willing to stake my best bonnet. He's a married man, this scientific person, and his wife is a good housekeeper. She is an excellent cook, too, but she prefers to buy most of her pastry ready made. She bought a pie the other day, a juicy pie, a blueberry pie, in fact. All day long it lay on the pantry shelf in one of those thin pasteboard plates bakery pies always come in. Its juices gradually soaked through the lower crust—you know how blueberry pies do—and when the lady of the house—that is to say, the cook—put it on the dinner table, the pasteboard plate went with it. The scientific man's wife cut the pie, and to make the handling of it easier, cut the pasteboard plate, too. The scientific man took his slice of pie and ate it meditatively. His wife kept silence. He ate the top crust and the blueberries and the bottom crust and the pasteboard slice till he had eaten about half. Then his look of inward conten-

plation gradually changed to surprise, and then to mild distress. "My dear," he said, looking up, "isn't this under crust just a little tough?"

### SPLICED A SNAKE.

Singular Result of a Surgeon's Experiment in Grafting Reptiles.

Dr. G. A. Countryman, of Mallette, N. D., possesses a combination snake, says the Minneapolis Journal. It is half garter and half sand snake, and this peculiar composition was made possible by a surgical operation performed by a doctor. His attention was directed to snakes from observing that when a snake is killed its tail appears to live until the sun goes down, when life ceases. It is thought by many that this is owing to the nerves, but the doctor was somewhat skeptical on this point. Being a surgeon he dissected several and made some interesting discoveries. He found that in both the sand and garter snakes the spinal column extended little more than half the length of the body. Knowing that it was possible to graft flesh, this led him to chloroform them and try splicing them, making the splice, of course, below the end of the spinal column. He made four unsuccessful attempts, but succeeded in the fifth. The grafted snake he has now is apparently in good health and the joined parts are perfectly knitted together. Its body is of the sand snake and its tail is a garter snake's. The sand snake is spotted and looks exactly like a rattlesnake, while the garter snake is striped and its color is of the different shades of green and yellow. Both of these varieties of snakes are harmless and common throughout the state.

### Stories About Cats.

The cat is a much maligned animal. Because it creeps softly after its prey, it is called sly; because it is domestic in its tastes and stays at home, we say it is ungrateful, and when it resents abuse with a scratching, we maintain that it is treacherous. Yet cats have been known to die of grief when their mistress died, and in many ways they exhibit intelligent traits for which we rarely give them credit. A Maine lad tells of the remarkable sagacity of a pet cat which he owns. The feline has a great fondness for the flesh of birds, and in order to make her quest for the same successful employ a stratagem. Evidently understanding that birds like angleworms, she collects a number and buries them in the ground. She then hides near by, and when the birds alight to secure their coveted morsel she springs from her concealment and pounces upon them. Many a bird thus falls a prey to pussy's shrewdness.

### Railways on French Farms.

Light, single railroads on which large wheelbarrows run are beginning to be used on French farms. The rails are fastened to small iron cross pieces, the ends joined by fish plates, and can be easily put in place and removed. The trucks can be drawn by horses or men, and are balanced by a heavy cross bar held by the man who pushes them.

### A FAVORITE CASE.

Little Visitor—Why does your mother put such a little bit of a picture on that big easel?

Little Hostess—I don't know; but that easel cost fifty dollars, an' I guess mamma doesn't want to cover it up.—Good News.

### Very Ladylike.

First Domestic—Me new mistress is very ladylike.

Second Domestic—What do you mean by ladylike?

First Domestic—Sure, O! mane she's different from most ladies.—N. Y. Weekly.

### Same Old Tune.

O, woe to all these boarding houses! They harp the same old tunes: It is hash you get for breakfast, And at supper it is prunes. —Syracuse Post.

### ALMOST A HINT.

"He he! It 'pears, Mrs. Brown, your cats is awful 'fectionate."

Mrs. B.—Well, dey say dogs grow like dar master; I s'pose cats take after dar misses. Sense my por Jim died, dey act kinder lonesome like. Mebbe dey want anoder master. Tee, he!—N. Y. Ledger.

### On the Q. 2.

Passenger—Is there any smoking allowed?

Car Driver (with a wink)—No. There's no smoking aloud. If you smoke, it's got to be on the quiet.—N. Y. World.

### Man's Decoit.

A man will unblushingly comb his hair over a bald spot on the top of his head and yet expect a fruiter to put his smallest apples in the top layer of a box.—Tid-Bits.

### Thankful for That.

Willis—I'm glad I haven't as large a family as Hawkins has.

Wallace—Why, he only has a wife.

"Yes, I know; but she weighs two hundred pounds!"—Puck.

### Warned in Time.

Junior—So you didn't propose to her, after all?

Weed—No; and I'm not going to.

When I got to her house I found her chasing a mouse with a broom.—Puck.

There are no new developments in connection with the new manufacturing enterprises talked of for the lake front west of C. L. King & Co.'s plant. The promoters are still at work and it is expected that some definite information can be given to the public in a short time.

On Tuesday morning the steamer I. M. Weston, bound from Milwaukee to Saugatuck with coal, came into Holland harbor on account of the high sea that was running. Captain Campbell reports that fears are entertained that the barge Robert C. Went has gone down with all on board. She cleared from Chicago on Saturday.

Word has been received from Rock Springs, Wyoming, that the bones found by Prof. J. L. Wortman of Columbia College, New York, near the head of the historic Bitter creek, and pronounced by him the "missing link" were the skeleton of a pet monkey, owned by cowboys, which died about twelve years ago.

It will undoubtedly be good news to the trading public that the very successful Cloak Sale now in progress at John Vandersluis is to be continued for three days next week, Monday, Tuesday and Wednesday. This is an opportunity you will regret if you miss it. Read his ad as it is full of good news.

James Kenney, a C. & W. M. freight conductor, was killed at Mill Creek near Grand Rapids at an early hour Tuesday morning. The presumption is that he fell between two cars, as his badly mangled body was found upon the track. He was a resident of Grand Rapids and leaves a wife and two children.

Horses in the vicinity of St. Joseph are said to be afflicted with a mysterious disease, which causes them to reject food, keep up an almost continuous snorting, and kicking. Some of them have escaped from their barns and run around the yard in a circle, as if mad. Veterinary surgeons think that marsh hay is largely responsible for the malady.

It is reported from Whitehall that all that remains of the schooner Phantom, which stranded about fourteen miles north of the harbor, is her keelson and part of her frame work. While the crew were at Whitehall trying to secure a tug, some vandals boarded the vessel, stealing her rigging and chopping the ship's compass out and carrying it away. The Phantom hailed from Ludington, and was bound to Holland, loaded with lath.

Jim Brown and "Vic" Taylor have been arrested at Brinton, Isabella county, charged with having been implicated in the C. & W. M. train robbery at New Richmond. Brown is known to have associated with John Smalley, whom it is claimed shot Detective Powers and who in turn was killed by the officers while attempting to evade arrest. Engineer Zibbell, of the train which was held up, feel positive that both men under arrest can be identified as having been implicated in the crime. Sheriff Gray, of Isabella county, has been diligently at work for some weeks on the case. He believed from the start that all the members of the gang, except Smalley, lived in that county, and has several men located. Sheriff Stratton of Allegan county, who went north early in the week, brought the suspects back for examination.

The U. S. steamer General Hancock with Col. Lydecker on board reached this port Tuesday. The colonel came to overlook the work that is in progress on the harbor, under the supervision of Col. Wickham. A number of men were engaged here for work this week; and now that the necessary material is on hand the repairs to the crib and the pile sheeting will be pushed along with the utmost rapidity.

Our firemen are agitating the question of having electric indicators placed in the two engine houses, so that when an alarm of fire is sounded they can tell from which box it is sent. Under the present arrangement it is almost impossible for any one to discern just what box is sounded by the whistle at the water works. On two or three occasions lately the department has been confused by the alarm and gone considerable out of the way in reaching a fire. By the introduction of the indicators which are connected direct with the one in use at the water works they can tell just where the fire is located before leaving the engine house. The matter has been called to the attention of the council and some of the members of the department feel disappointed that a matter of such vital importance was not looked upon favorably.

With this and the next issues of the News appears a supplement containing the list of delinquent tax lands, and the date they will be offered for sale.

## Epilepsy 20 Years.

Cured by Dr. Miles' Nervine.

A few years ago, Mr. L. W. Gallaher, was an extensive, successful expert manufacturer of lumber products. Attacked with epilepsy, he was obliged to give up his business. The attacks came upon him most inopportunistly. One time falling from a carriage, at another down stairs, and often in the street. Once he fell down a shaft in the mill, his injuries nearly proving fatal. Mr. Gallaher writes from Milwaukee, Feb. 16, '95.

"There are none more miserable than epileptics. For 20 years I suffered with epileptic fits, having as high as five in one night. I tried any number of physicians, paying to one alone, a fee of \$500.00 and have done little for years but search for something to help me, and have taken all the leading remedies, but received no benefit. A year ago my son, Chas. S. Gallaher, druggist at 191 Reed St., Milwaukee, gave me Dr. Miles' Restorative Nervine, and I tried it with gratifying results. Have had but two fits since I began taking it. I am better now in every way than I have been in 20 years."

Dr. Miles' Remedies are sold by druggists on a positive guarantee that the first bottle will benefit or price refunded. Book on the Heart and Nerves, free. Address,

## The Painful Condition

Of Mrs. Henry Elferdink—Being The Experience of a Holland Lady, Interesting to All.

Our representative called at the residence of Mrs. Henry Elferdink on E. Tenth St., and the experience she has had and tells here will interest many citizens of Holland, for it adds another link to the long chain of home proof that we are publishing. Mrs. Elferdink says:

"I have been a great sufferer from kidney complaint. I do not know what caused my trouble, unless it resulted from hard work. It is about a year ago now since I first felt real bad. At that time I was stricken down suddenly with a terrible pain in the left side of the back over the hip and extending into the side. It was very severe right from the first. I hardly knew what to do with myself. I could not do anything, and just had to give up and go to bed. These attacks came in spells like that, and I would be confined to my bed for days at a time. I had that fearful bearing down feeling so hard to describe. Somehow or other I could not get help, do what I would; and when I did find any relief at all it was only of the most temporary character. One day I read something about Doan's Kidney Pills, and felt that they might help me, and seeing by a Holland newspaper that they were to be had at J. O. Doesburg's drug store, I got a box and began taking them. I have not been sorry that I gave them a trial, for their effect was quickly felt. At the present time I have used altogether four boxes; that dreadful pain in my back has been removed, and I feel better generally. I am now able to get around and do my ordinary household duties with ease. I gladly speak a good word for Doan's Kidney Pills, for they deserve it all."

## BAD FOR DEPOSITORS.

Supreme Court Decision Affecting a Defunct Kalamazoo Bank.

LANSING, Sept. 28.—The supreme court filed an opinion of the court below in the case of the First National Bank of Kalamazoo vs. George W. Stone, receiver of the Central Michigan savings bank, in which an affirmative judgment was rendered to the effect that certain papers held by the plaintiffs indorsed by Cashier Bradley and of the defunct bank were rediscout paper and that the holders could share in the assets of the bank. The amount of this paper held by various parties is about \$150,000, and the opinion will affect the depositors to that extent and destroy all hope of an immediate further dividend. The bank has already paid 50 per cent., and if the judgment had been reversed would have paid 15 per cent. more.

Injured by Frost.

DETROIT, Oct. 1.—There was a light frost throughout Michigan Sunday night. Reports regarding damage done are rather meager, but garden truck and late fruits are completely ruined and all kinds of vines have been destroyed. Places along the west shore of Lake Huron report from one-sixteenth to an eighth of an inch of ice formed Monday morning.

Pennant Given to Adrian.

LANSING, Sept. 28.—President Mumby, of the Michigan Baseball league, has declared Adrian the winner of the state league pennant, which has been in dispute, Jackson also claiming it. The percentages given by President Mumby are as follows: Adrian, .692; Jackson, .571; Kalamazoo, .437; Lansing, .333.

Strange Disease Among Horses.

ST. JOSEPH, Sept. 27.—Fifteen horses in this city have become victims of a mysterious disease which causes them to reject food, keep up a continual snorting and kick their stalls down. Some have escaped and run around the yard in a circle, as if mad. Surgeons think marsh hay is responsible.

Found Guilty.

MOUNT CLEMENS, Sept. 27.—Edward Hoag was found guilty of murder in the second degree on Thursday for killing Ernest Orom August 15 last. Both men were employed in the Egnew house and the murder was the result of a quarrel.

Caught a Wild Woman.

ALPENA, Sept. 28.—Officers captured a wild woman in the woods near here. She had been in the vicinity for several months. Her only food was berries and wild fruit, and she was reduced to a mere skeleton.

Death of Capt. Shaw.

BAY CRY, Oct. 2.—Capt. John Shaw, manager of the Eddy-Shaw fleet of steamers, died at his home here Tuesday. He was 51 years old, and had been a sailor all his life.

Fire at Lapeer.

LAPEER, Sept. 30.—Fire caused \$19,000 damage to business property. G. W. Mahon, dry goods, \$5,000, and John McCannan, \$4,000, were the heaviest losers.

## DISASTROUS TO SHIPPING.

Many Vessels Suffer During the Lake Storms.

SAULT STE. MARIE, Mich., Oct. 1.—The terrific northwest gale which has raged here for two days doing great damage to shipping continues. Reports of vessels ashore and stranded owing to the steady gale driving the water southward, and intelligence that all kinds of wreckage is coming ashore north of here are heard from various points. It is reported that two large steamers are ashore at Keweenaw point. The captain of the Schuyllkill, which arrived from Duluth Monday morning, says he could not make out who they were, but thought they were the Matoa and Masaba, belonging to the Minnesota company and valued at \$200,000 each. The steamers cleared from Two Harbors Sunday for Cleveland loaded with iron ore. The point where they are aground is said to be the most dangerous of any on the whole chain of lakes.

From Whitefish Point comes the report that a schooner is flying signals of distress. Two tugs have gone to her rescue. At Shell Drake the barges Carney and Lillie May, of the Nellie Torrent tow, are ashore and tota losses. Twenty boats are anchored between here and Ironquins Point, and above the encampment several large steamers are awaiting an abatement of the gale.

Near Manistique wreckage has been coming ashore since Friday. About 10 miles east were found pieces of a table and bed, and part of the cabin from a schooner. The wood was painted white. This is probably what is believed to be the pilot house of a steamer as originally reported. Although nothing could be found with a name upon it, it is now believed that the wreckage is from the schooner which went to pieces.

## CREW OF THE ELMA RESCUED.

Succeeded in Making a Landing on a Ledge of the Pictured Rocks.

SAULT STE. MARIE, Mich., Oct. 2.—The crew of the schooner Elma, except one man who was washed away by the sea before the vessel was abandoned, was found by lighthouse keepers in a ledge of the Pictured Rocks, 75 feet above the water, early Tuesday morning.

The steamer Birkland had the Elma, Jones and Commodore in tow when the northwest gale of Saturday came on. The tow broke up and the boats became widely separated, the Commodore running to the Soo, the Jones coming to an anchor off Whitefish and the Elma being abandoned off Pictured Rocks. After the crew of the Elma had taken to the yawlboat they seemed to face certain destruction, being dashed against the rocks, but they succeeded in making a landing on the ledge and then crawled far out of the reach of the seas. They suffered greatly from hunger and cold, and were half dead when found by the lighthouse keepers.

## STATE TAX.

A Big Increase in the Levy Over Former Years.

LANSING, Oct. 1.—Auditor General Turner has apportioned the state tax for 1895 among the several counties of the state. The total tax apportioned is \$3,013,919.53, as against \$1,689,135.89 in 1894 and \$1,931,214.69 in 1893. This year's rate is 2.23 mills on the dollar, that of 1894 being 1.4 mills and 1893 1.7. The increase is accounted for by the fact that the last legislature made up deficiencies in the appropriations of its predecessors, aggregating \$760,000. Taxes apportioned to counties in western Michigan are:

Berrien, \$48,418.88; Charlevoix, \$9,632.88; Grand Traverse, \$12,354.59; Ionia, \$30,455.09; Kent, \$134,977.72; Manistee, \$24,345.40; Muskegon, \$35,148.23; Montcalm, \$27,322.58; Newaygo, \$12,423.01; Oceana, \$12,318.81; Ottawa, \$40,392.50; St. Joseph, \$52,741.05; Van Buren, \$40,051.51.

## ANN ARBOR OPENS.

Attendance This Year Will Reach Three Thousand and Possibly More.

ANN ARBOR, Oct. 2.—The University of Michigan formally opened its doors Tuesday to the class of 1895. For the last two days the registration has amounted to a crush, and Secretary Wade estimates that the attendance will exceed 3,000.

The medical library and new engineering departments show gains, while the law school, on account of the introduction of the three years' course, will doubtless fall off in attendance.

Fire at Menominee.

MENOMINEE, Oct. 2.—Fire destroyed the grocery store of James F. Peinar, the dwelling-house of Albert Holup, the tenement-house of Rev. A. W. Bill, the barn of G. A. Blesch, several smaller barns and a large quantity of stovewood. For a time a large portion of the most costly residences in the city were threatened. Loss, \$12,000; partly covered by insurance.

Train Stalled in the Sand.

ST. JOSEPH, Sept. 30.—Tons of sand drifted on the Chicago & West Michigan tracks here Sunday morning, and when the north-bound freight came along it stalled. It took gangs of shovellers several hours to clear the track. The engine was damaged, and the excursion train bound to Laporte was delayed.

Look Out for Typhus.

LANSING, Sept. 28.—The drought is likely to cause an epidemic of typhoid fever in October, as the water in the wells is unusually low, and consequently impure. For this reason Secretary Baker, of the state board of health, advises everybody to boil water before drinking.

Big Crop of Potatoes.

CRYSTAL FALLS, Oct. 2.—The yield of potatoes in Iron county will be the largest ever known in this section of the state, and thousands of bushels will be harvested in the next few weeks.

Seeks Heavy Damages.

KALAMAZOO, Sept. 26.—Peter Van Brooke has begun a suit for \$10,000 damages against the city for injuries received by a fall on a sidewalk last July. His hip was broken.

## Probate Order.

STATE OF MICHIGAN, }  
COUNTY OF OTTAWA, } ss.

At a session of the Probate Court for the County of Ottawa, holden at the Probate Office, in the City of Grand Haven, in said county, on Wednesday the 18th day of September, in the year one thousand eight hundred and ninety-five.

Present, JOHN V. B. GOODRICH, Judge of Probate.

In the matter of the estate of Johannes Slagter, an insane and mentally incompetent person. On reading and filing the petition duly verified, of Doeke Bos, one of the next of kin of said Johannes Slagter, representing that Tannis Bos, as guardian of said Johannes Slagter, has lately died without rendering to this Court, a final account of his proceedings in said estate, and praying that he be the said Doeke Bos, as an heir at law of said Tannis Bos, guardian of said insane and mentally incompetent person, as afore said, may be allowed to render a final account to this Court, for and in behalf of the said Tannis Bos, guardian as aforesaid, and that after such account is rendered, he be the said Doeke Bos, may be appointed as guardian of said insane and mentally incompetent person; viz Johannes Slagter.

Thereupon it is ordered, That Monday, the Fourteenth day of October, next,

at ten o'clock in the forenoon, be assigned for the hearing of said petition, and that the heirs at law of said deceased, and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office in the City of Grand Haven, in said county, and show cause, if any there be, why the prayer of the petitioner should not be granted; And it is further ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition and the hearing thereof by causing a copy of this order to be published in the HOLLAND CITY NEWS, a newspaper printed and circulated in said county of Ottawa for three successive weeks previous to said day of hearing.

(A true copy, "Attest.")

JOHN V. B. GOODRICH,  
Judge of Probate.

## Proposed Improvement of First Avenue Special Street Assessment District.

CITY OF HOLLAND, MICHIGAN, }  
CLERK'S OFFICE, SEPT. 17, 1895. }

Notice is hereby given: That the Common Council of the City of Holland have caused to be made and deposited with the city clerk for public examination, profile, diagram and estimates for the proposed grading, graveling, and otherwise improving of First Avenue, between the centre of Sixteenth street and the north side of Lake street, Lake street, from First avenue, east to where said First avenue intersects Eighth street, thence on Eighth street east to the section line between sections twenty-nine and thirty, in said City of Holland, pursuant to grade and profile to be adopted by the common council in connection with this proposed improvement and to be established on the basis of intersecting all streets heretofore graded, and that in making said grade of said First avenue Lake and Eighth streets be graded the whole width of said parts of said streets.

That in making said grades all stumps be taken up and removed from said parts of said streets. That all shade trees be left as they now stand, except those found necessary to be taken up in making said grade, such trees to be taken up and reset with as little damage as possible to such trees.

That all sidewalks along said parts of said streets be taken up, and relaid after the grade work is completed 9 inches on the outer edge above grade.

That after the grade is completed a road bed 30 feet wide through the centre, and the whole length of said parts of said First avenue, Lake and Eighth streets, be covered with gravel of the kind used on Tenth street, west of Maple street, or of a quality as that used on said part of Tenth street, to an average thickness of 10 inches, so spread that when completed it will be 13½ inches thick in the centre and 6½ inches thick on the sides.

That the cost and expense of grading, graveling and otherwise improving said parts of First avenue, Lake and Eighth streets be defrayed by special assessment, upon the lots and lands lying and abutting upon said parts of said streets, and that said special assessment be made pro rata on each foot frontage of said parts of said streets, unless on account of the shape or size of any lot an assessment for a different number of feet would be more equitable.

That the lots, lands and premises upon which said special assessment shall be levied shall include lots, three four, five, six and eight in Tannery Addition.

Lots two and three in block one, lots one and twelve in block two, lots one and twelve in block three, lots two and three in block four, lots two and three in block five, lots one and twelve in block six, lots one and twelve in block seven, lots nine and ten in block eight, lots nine and ten in block eleven, lots one and twelve in block twelve, lots one and twelve in block thirteen, lots nine and ten in block fourteen, lots nine and ten in block seventeen, lots one and twelve in block eighteen, in South West Addition. Also the several street intersections where said part of First avenue crosses Lake, Bridge, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fourteenth, Fifteenth and Sixteenth streets.

And the said lands, lots and premises shall be designated and are hereby declared to constitute a special street assessment district, for the purpose of special assessment, to defray the expense of grading, graveling and otherwise improving said parts of said streets as aforesaid, said district to be known as "First Avenue Special Street Assessment District."

That said improvement was determined upon by the common council August 20th, A. D. 1895.

That on Tuesday, the 8th day of October, 1895, at 7:30 o'clock p. m. the common council will meet at their room to consider any objections to said assessment district, improvement estimates, plans and profile, that may be made.

GEO. H. SIPP, City Clerk.

ST. JOE EXCURSION LAPORTE  
Sept. 29.

You know what a delightful place St. Joe is? Not necessary to tell you of its attractions on Sunday. But perhaps you don't know about Laporte. It's another delightful place, and if you haven't been there it will pay you to go. The C. & W. M. R'y will run a low rate excursion on Sept. 29, leaving Holland at 8:30 a. m. and arriving at St. Joe at 10:45 and Laporte 12:15. Returning leave Laporte at 6:30 and St. Joe at 8 p. m. Round trip rate 75 cents to St. Joe and \$1.00 to Laporte.

## Hear the People Complain

When they come in my store  
to buy goods.

They all say why did we not come here  
first? Your prices are so much lower.

I want the people to learn this through  
the columns of the News. If you don't be-  
lieve it just come and see for yourselves.

### Taxes.

At last week's session of the com-  
mon council the annual budget, or ap-  
propriation bill, was passed, fixing the  
amounts to be raised this year for city  
purposes proper. The total foots up  
\$20,362 as against \$19,303 last year, as  
follows:

FUNDS.	1895.	1894.
General	\$ 9,417	\$ 7,104
Fire	1,450	1,650
Poor	2,000	1,800
Library	300	200
Water	3,000	1,332
Light	1,600	4,546
Parks	400	800
Sinking	2,465	1,870
Total	\$ 20,362	\$ 19,303
School	\$ 17,832	\$ 17,083
	\$ 38,194	\$ 36,386

The amounts of state and county  
tax will be fixed at the October session  
of the board of supervisors.

The state tax will be high, the  
amount apportioned to Ottawa county  
being \$40,392 as against \$22,422 last  
year. This increase is accounted for  
by the fact that the last legislature  
made up deficiencies in the appropria-  
tions of its predecessors, aggregating  
\$750,000, and also by the current ex-  
penses involved in the bi-annual ses-  
sion of that body.

The total state tax over the entire  
state is \$3,013,919, as against \$1,689,135 in  
1894, and \$1,981,214 in 1893, and covers  
the following items:

University	\$ 213,333
Soldiers Home	88,000
Normal School, Ypsilanti	83,400
State School, Coldwater	48,004
Agricultural College	13,000
Three Asylums	135,750
Criminal Insane	35,000
Feeble minded	22,000
Deaf, Blind	71,021
Blind, Lansing	25,000
Industrial for boys	75,820
" " girls	61,847
Mining School	40,000
Prison, Jackson	10,000
" " Ionia	18,000
" " Upper Peninsula	5,673
Fish Commission	32,500
Board of Health	2,000
Weather service	1,000
Militia	92,467
State Library	5,000
Chicamunga and Chittanooga	20,000
General expenses	1,500,000
Agricultural institutes	5,000
Dairy and food insp'n	9,400
Sundries	6,500
	\$3,013,919

The summary of it all is this: Our  
city and school taxes will be the same  
per cent as last year; county taxes a  
trifle lower; and state taxes much  
higher, nearly double.

From the Washington dispatches  
we learn that Assistant Secretary of  
State Edwin F. Uhl has returned  
from his trip to Europe, and resumed  
his desk in the State Department. He  
left New York on July 6, accompanied  
by Mrs. Uhl, and expected to be ab-  
sent about six weeks, but, owing to  
the difficulty in obtaining return  
transportation, they were detained  
nearly a month longer than they anti-  
cipated. However, the assistant sec-  
retary is looking in splendid health  
and shows every evidence of having  
benefited physically by his trip. He  
will remain here for about a fortnight,  
catching up with some belated mat-  
ters of the department which have  
awaited his return for action and will  
then leave for his home in Grand Rap-  
ids, where he will spend some time.  
"Yes," said the assistant secretary,  
we had a splendid time. "We received  
many unexpected but very pleasant  
attentions from our ministers and con-  
suls abroad, and from officers of other  
countries. This was our first trip to  
Europe and of course everything  
charmed us by its novelty as well as  
by the historic interest of many of the  
places that we visited. We were es-  
pecially delighted by the hospitality

of Minister Quinby and Mrs. Quinby  
at the Hague. Holland to me is one  
of the most interesting countries of  
Europe. The people are industrious,  
picturesque and interesting. Of  
course I liked London and Paris and  
thought the trip up the Rhine was  
beautiful, but our experiences gener-  
ally, while very interesting to us, was  
not different from that of most trav-  
elers in Europe."

#### REPORTS OF STANDING COMMITTEES

To the Honorable, the Mayor and the Common  
Council.

Gentlemen: We, your committee on streets  
and bridges, would respectfully recom-  
mend to your honorable body to order the con-  
struction of a sidewalk along the west side of Columbia  
avenue, between Twelfth and Thirteenth streets  
subject to an ordinance relative to sidewalks;  
a walk having already been constructed along  
Thirteenth street east and west of the railroad  
track and there being no walk along Columbia  
ave between Twelfth and Thirteenth streets.

A. HARRINGTON,  
JACOB LOKKER,  
JACOB KUIITE,  
Committee.

Adopted.

To the Honorable, the Mayor and the Common  
Council.

Gentlemen: We, your committee on streets  
and bridges, to whom was referred the petition  
of A. E. Anderson and six others, beg leave to  
report that they have carefully considered the  
said petition and would recommend that the  
prayer of the petitioners be granted and that a  
sidewalk be ordered constructed along the south  
side of Ninth street, between Pine street and the  
intersection of Ninth street with Water street,  
within sixty days, subject to an ordinance re-  
lative to sidewalks.

A. HARRINGTON,  
JACOB LOKKER,  
JACOB KUIITE,  
Committee.

Adopted.

The committee on poor reported, presenting  
the semi-monthly report of the director of the  
poor and said committee, recommending \$30.00  
for the support of the poor for the two weeks  
ending Oct. 15, 1895, and having rendered  
temporary aid to the amount of \$30.25.

Approved and warrants ordered issued on the  
city treasurer for the several amounts as re-  
commended.

To the Honorable the Mayor and the Common  
Council of the City of Holland.

Gentlemen: Your committee on street light-  
ing, to whom, from time to time, have been re-  
ferred several petitions for the placing of, addi-  
tional arc lights and who have reported of your  
honorable body that, in its judgement, it was  
better to defer action until the present fall and

then act upon the several petitions collectively  
and place such additional lights, and re-adjust  
the present lights as may seem desirable to the  
council, would now recommend that an arc light  
be placed at each of the street intersections as  
follows:

College avenue and Ninth street.  
Pine and Fifteenth streets.  
Van Raalte avenue and Fourteenth street.  
River and Seventh streets.  
State and Twenty-fourth streets.  
Michigan avenue and Twenty-fifth street or  
thereabouts.  
Also that an arc light be placed on Eighth str  
about 200 feet west from where the Allegan  
branch of the C. & W. M. crossed said Eighth str  
also that an arc light be placed on Eighth street  
about half-way between College- and Columbia  
avenues.

Your committee further recommends that the  
light now on Columbia ave and Eleventh street  
be moved to the intersection of Columbia ave  
and Twelfth street; and that the light from the  
intersection of Columbia ave and Thirteenth str  
be moved about 300 feet west of its present loca-  
tion.

All of which is respectfully submitted.  
Holland, Oct. 1st, '95.

AREND VISSCHER,  
F. J. SCHOUTEN,  
GEO. DALMAN,  
Committee.

COMMUNICATIONS FROM CITY OFFICERS.

Holland, Oct. 1st, '95.

To the Honorable the Mayor and Common Coun-  
cil of the City of Holland.

Gentlemen: The mayor and city clerk, who  
we directed to borrow \$1,300.00 to pay for two  
acres of gravel recently purchased from G. J.  
Boone and B. Riksen, beg leave to report that  
they have borrowed said amount up to Decem-  
ber 15th, 1895, at the First State Bank of Holland  
at six per cent interest, and have paid said  
\$1,300.00 to said Boone and Riksen and have re-  
ceived from them a warranty deed for said two  
acres of gravel, which said deed has been for-  
warded to the register of deeds of Ottawa county  
for record.

Respectfully yours,  
G. J. DIEKEMA, Mayor.  
GEO. H. SIPP, City Clerk.
