NUMBER FORTY-ONE

A Declaration of the principles and motives behind the campaign to make

Michigan "Dry" by STATEWIDE PROHIBITION

This is *your* battle—and *not* the campaign of any small group of men!

It is the struggle of the whole state of Michigan to overcome the influence of the saloon and attain better living conditions for every man, woman and child within its borders!

It is a campaign to oust the saloon from Michigan FOREVER and thus remove one of the worst temptations from the paths of the young manhood, the fatherhood, and yes, even the motherhood of this great and noble state!

It is a campaign against the so-called "home rule" amendments—that deceptive joker drafted in the interest of the brewers and backed by every saloon in the state, because they know it will permit the continuation of the liquor traffic!

It is a campaign to reduce crime by removing one of its chief causes. Warden Simpson says that 75 per cent of the prisoners in Jackson prison attribute their downfall directly to drink!

It is a campaign to promote cleaner and more efficient city, county and state administration by removing the influence of the saloon!

It is a campaign to save the boys and girls of the state from the terrible heritage of drink. Out of 809 boys in the Lansing Industrial School recently investigated by the state commission, 422 of the fathers and 57 of the mothers of these boys drank!

It is a campaign by which the state shall remove the saloon and thus extend a helping hand to the men who are trying to cure themselves of the drink habit. Thousands of men take the "drink cure" every year.

It is a campaign to further protect the lives of our loved ones by making the city safer from crime and accidents by REMOVING THE SALOON!

It is a campaign to prevent the breaking up of homes DUE TO THE SALOON and thus save innocent wives and children from poverty and sorrow!

If you believe in the principals and motives behind this campaign, will YOU help to kill the saloon by voting "YES" for PROHIBITION and "NO" on the home rule amendment.

Will YOU help win this fight against the Saloon

by giving the campaign your moral and financial support, or BOTH? You can express your willingness by filling in and mailing either one or BOTH of the following coupons:

Ottawa County Dry Campaign Committee,
Mr. A. La Huie,
Zeeland, Mich.

Gentlemen: I am heartily in favor of the fight for prohibition and against the saloon, and promise to vote "YES" on Prohibition and "NO" on the so-called "home rule" amendment.

Ottawa County Dry Campaign Committee,

Gentlemen: I hereby promise to vote "YES" on Prohibition and "NO" on "home rule" and to help carry on the fight against the saloon by contributing..... (any amount acceptable) to the campaign fund, payable on or before Nov. 1st, 1916.

A PIANO AND \$1000 GIVEN TO WESTERN THEOLOGICAL SEMINARY

MONEY INTENDED TO HELP BUILD DIVINITY HALL.

Prof. Beardslee Leaves To Attend the One Hundred and Fiftieth Anniversary of Rutgers College

Thru efforts of Professor Zwemer, a beautiful piano has been donated to the Western Theological Seminary to be used in the Chapel. The instrument is one of the best makes on the market, and perfect as to tone and action. The donor's name is not made public, but is however one of the closest friends of the Seminary and ardent supporter of the church. One thousand dollars was also contributed by this same individual for the building of Divinity Hall. The student body recognizes and appreciates the work Dr. Zwemer is accomplishing for them. During the summer new pulpit furniture has also been secured for the Seminary chapel.

Prof. J. W. Beardslee has left for the East to attend the 150th Anniversary of Rutgers College. Very elaborate arrangements have been made by the alumni of the old college of the Reformed church in the East to celebrate the occasion. Eminent men are on the program for addresses. It has been reported that President Woodrow Wilson will be present at the festivities to add dignity to the anniversary program. Professor J. W. Beardslee, Sr. is one of the old graduates of the institution.

Prof. Kuizenga delivered an address on the Sunday School in Kalamazoo Wednesday night. The progressive churches are being aroused to the fact that a systematic and efficacious institution for religious education is imperative. It is significant to note that the movement is universally becoming prevalent to give the Sunday school due recognition as a prominent factor in the religious program and for that reason must be scientifically organized.

P. M. TO HOLD

TRAIN AN HOUR

CROWD OF FOOTBALL FANS TO BE INCREASED BY NEW PLAN

Enthusiasm over the coming Grand Haven game to be staged on the county seat gridiron Saturday is growing at the local high school and about the city. According to the statements made by the odds and odds of boosters of the game here, the Pere Marquette will have to muster every old coach still on wheels to cart the load of raving, blood-thirsty maniacs to the northern town.

The P. M. is going to accommodate the crowd, too. Whereas the train was scheduled to leave at 12:05, and whereas the displeasure and eke disappointment of the Holland population was vented upon the road at this announcement, therefore the road wisely resolved to hold the aforesaid train in leash till the crowd will be ready, namely 1 o'clock. This extra hour will mean an army of traveling fans just about twice the size.

EVERY VOTER MUST REGISTER TO VOTE THIS YEAR

REGISTRATION DAY IN HOLLAND WILL BE ON OCTOBER 28

Voters Can Re-Register To and Including November 6 With City Clerk Overweg.

Without a doubt the election this fall on November 7 will bring to the polls more voters than at any time before in the history of Michigan. There are several reasons for this.

The Republican party being re-organized and re-united are bending every energy to pile up the old time republican majority for Candidate Hughes.

The Democrats are by no means asleep on the job and are doing everything in their power to give President Wilson a handsome vote if not a majority in the former rock-ribbed Republican state. They will also try to elect their candidate for governor, Mr. Sweet to take up the work where the present Democratic governor, Mr. Ferris, left off. Mr. Sweet is a formidable candidate, and it is not the first time that he has won victories in the state of Michigan.

The voters of Michigan have two other great questions to decide. The one is "Shall Michigan have State-wide Prohibition?" On this side are arrayed every preacher, church worker and opposer of the liquor traffic. These men and this question will bring out thousands of voters who otherwise seldom enter a polling place.

On the other hand the liquor element is trying to put over a Home Rule Law to counter act, and possibly defeat the Prohibition amendment put up by the so-called "drys."

That this element will work night and day until the polls close goes without saying and it can be relied upon that every voter, favorable to their cause, in the state of Michigan will have voted at five o'clock the night of November 7.

With all these forces working and all these momentous questions at stake, including the election of a president it can be readily imagined that the vote in Michigan is going to be large, in fact the largest ever cast.

However in order to vote, registration day must not be lost sight of. In all cities the size of Holland, Zeeland and Grand Haven a re-registration takes place every eight years according to law. It matters not if the voter has been registered before or has even registered for the last regular election, he must re-register at the different polling places on October 28.

The polling places for Holland are as follows:

First Ward—Second Story of Engine House No. 2, 106 East 8th street.
Second Ward—No. 147 River Avenue.

Third Ward—Basement Floor, City Hall, Cor. River Avenue and 11th St.
Fourth Ward—Polling Place, 301 First avenue.

Fifth Ward—Corner Central avenue and State street.

Sixth Ward—Basement Floor, Van Raalte Avenue School House, on Van Raalte Avenue between 19th and 20th street.

But should you fail to re-register on October 28 at the above named polling places you still have a chance to register at the City Clerk's office with Richard Overweg every day thereafter to and including Nov. 6, which is the day before election.

Remember too, that you cannot register on election day, Nov. 7, unless you can prove that by cause of sickness or absence from the city, you were unable to register on these registration days.

Now as to Township registration. The voters already registered do not need to re-register as this only applies to cities. However if you have moved into a township since the last election you must register with the township clerk on the second Saturday next preceding the general election when the township board will be in session from 9 in the forenoon until 5 o'clock in the afternoon.

DREYS ARE ORGANIZED IN GRAND HAVEN.

The dreds are organizing in a fight against "Home Rule." Mr. E. O. Gildart of Albion, Mich., has been appointed to take charge of the Dry Campaign in Ottawa county. He is now busy organizing the forces in Grand Haven, and vicinity. Mr. Gildart's main task will be to complete the organization in the county and cities.

The main thing that the dreds are trying to do is to defeat "Home Rule." The great task of the dreds is to explain to the voter how to vote and unless this is done many persons will vote for "Home Rule" unknowingly.

Mr. Gildart praised Mrs. Champion and Rev. Veldman for the great work they were doing for the dry cause in Holland. Only recently Rev. Veldman went out with a petition which was signed by practically all the ministers of all the denominations. This goes to show the churches are behind the movement. Victory lies in making the voter vote intelligently, says Mr. Gildart.—G. H. Tribune.

DR. KNOOIHUIZEN CASE APPEALED TO SUPREME COURT

HOLLAND FURNITURE COMPANY NOT SATISFIED WITH JUDGE CROSS' DECISION

May Prove To Be a Very Costly and Long-Drawn Out Litigation

The case of the Holland Furniture Co. vs. Dr. Knooihuizen in which the Holland Furniture Co. sues the doctor for an accounting, is apparently not satisfied with the decision of Judge Cross, in which the Judge gave the Furniture Co. a verdict including interest of not quite \$10,000.

The amount asked for was more than \$40,000 claimed by the Company to be due them from Dr. A. Knooihuizen. A great many of the claims were allowed by Judge Cross in his decision.

However the Holland Furniture Co. has filed a copy for an appeal through its attorney, C. H. McBride, of Holland and Mr. Wilkes of Allegan, and no doubt the case will go the limit in the higher courts.

Jacob Bos, and son John and daughter Violet, together with the two youngest children will leave this month for Los Angeles, Calif. The Bos family arrived here only a few months ago with the purpose of making their home at Zeeland permanently. The unexpected death of Mrs. Jacob Bos, however, left Mr. Bos with two small children and so he concluded to return to California where the children will be placed with relatives. The Bos family were former residents of Zeeland and Mr. Bos was a former business man, it being seven years ago that they left for California. Hard times prevailed in the West and they came to Zeeland to improve their condition. The family resumed housekeeping here, occupying the second floor of the residence of William Meyers and Mr. Bos secured his former business stand on Main St. and engaged in blacksmithing, general repairing, etc. Then the death of Mrs. Bos altered circumstances and the family will now return to California.

A valuable horse was lost in addition to a large amount of hay and grain and also farm implements. It is supposed that the barn was ignited by a pipe which was left in the building. The loss is heavy.

DRIVE 1024 MILES WITHOUT PUNCTURE

Mr. and Mrs. R. S. Schuyler and family left their home in Rochester, N. Y., for Michigan to visit her sister, Mrs. John Mannes of Holland.

It was a trip of 512 miles and they used 25 gallons of gasoline. They made it in two and one-half days without traveling any at night.

Part of the way the road was very sandy but they got through without difficulty. They have had their Dodge two years and have gone over 8,000 miles and have had very little trouble with it. Neither on the way here nor on the way home did they have punctures or mishaps of any kind.

SPOONING BRINGS AUTO ACCIDENT

Two young couples from Borculo were too busily engaged in spooning, it is alleged, to pay much attention to the steering wheel of their Maxwell. They were coming down the Zeeland road with one of the young ladies at the wheel. One of the young men was busily engaging the attentions of the young lady at the helm and they did not see the large Buick car of John Dykema, of the Model Laundry, driven by Mrs. Dykema. Mrs. Dykema was entertaining a party of guests by driving them to the Homecoming in Zeeland.

The love-makers did not notice their danger until the two cars were too near together. Then four hands began to steer the machine in zig-zag fashion with a result that one of the fenders of the Dykema car was smashed and a wheel knocked off, a bent axle a split running-board, and broken fenders was the inventory of the Cupid's car injuries.

The accident happened about three o'clock Friday afternoon near the New Groningen school. Most of the damage sustained by the Maxwell was in running in the ditch at the side of the road after giving the Dykema car a glancing blow. The broken car is still at the road side waiting to be hauled away.

FAMOUS INVALID EXPIRES; WAS FED THRU HOLE IN TOOTH

Fennville, Oct. 11—Florence I. Dutcher, aged 52, one America's most famous invalids was buried at Fennville Saturday. Many persons attended the funeral. Altho for years blind, paralyzed and almost deaf, able to take only liquid nourishment thru a broken front tooth, as her jaws had set, this woman gave generously to national Y. W. C. A. work, founded about the Florence I. Dutcher library at Toledo, O., and gave this village a beautiful drinking fountain. She also donated large sums to private charity work.

R. B. CHAMPION GIVES HIGH SCHOOL DUMMIES TO STUDY WITH.

Mr. Sirrine's department of science has received several helpful gifts from Mr. Champion. He presented them with two different types of electric meters. This will be of especial aid in teaching meter reading. He also gave a water meter to use this year. The case is open in such a way that the inner sections are displayed and when water is run through the meter, a clear idea can easily be obtained.

Besides this he has presented them with a case of electric bulbs, showing the different stages in process of manufacture of electric lights.

This set displays the Tungsten electric lights. The department certainly appreciate Mr. Champion's kindness as it will make the work very much clearer and more interesting.

The Senior class gave a delightful program during chapel this morning.

How Catarrh is Contracted.

Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.—Adv.

FOUR PRETTY HOLLAND MAIDS CROSS OCEAN TO JOIN LOVERS

Muskegon, Oct. 12—A quartet of blushing maids, who will become four blushing brides before another summer rolls around, have arrived in Muskegon from The Netherlands to meet the young men to whom they have plighted their troth—years ago across the waters before the young men came here with their parents, to make their fortunes in the new world.

The four girls are Miss Clara Bystra of Leeuwarden, who will wed Lambert H. Rystra; Miss Coda Rypstra, of Sneek, who will marry Bartele Rypstra; Miss Syke Schouten, of Breda, who will wed Cornelius Teuling, of Muskegon Heights, and Miss Ditje Van Delzen, of Nieuwendyk, who will become the bride of Henry Van Andel.

The girls left The Netherlands Saturday, Sept. 16, nothing daunted by the fact that war was on in Europe and many vessels are going to the bottom as the result of submarine warfare, on the Holland-American line steamer, New Amsterdam. The ship was forced to put into English ports for examination, and left that country Sept. 22, reaching New York Oct. 1. The trip, therefore, required just a week more time than before the war began. The passage price is 30 per cent higher than prior to the war, the young women of the party assert.

"We had no trouble on the sea with English warships," the girls said today. "We were forced to stay in two British ports for a time, but experienced no difficulty. The only discomforts we suffered were due to two days of storm en route. There was a large passenger list and travel between Europe and America seems just as brisk as though there was no war."

The quartet of young women were met by the men who expect to become their husbands at Grand Rapids, and accompanied them to this city. Altho all of them are from different towns, they became acquainted by correspondence before the trip was ever planned, the result of the young men knowing each other in this city.

FIRST MEETING OF SOCIAL PROGRESS CLUB A SUCCESS

The Social Progress club opened the year's work Monday evening with a meeting at the home of Dr. A. Leenhouts, the new president of the organization. With almost a full membership present the initial meeting of the year was a very successful one. Dr. A. T. Godfrey read a paper on the subject, "Life Extension." He described in a comprehensive way the various movements that are on foot today for the prevention of disease and the prolongation of the average span of life, noting some eighteen or nineteen different and distinct movements to this end. But the greater part of the paper was given over to a description of the work of the life extension organization of New York City, a national association that has for its distinct purpose the promotion of all movement that will tend to prolong life, such as periodic medical research work and so on.

Fifteen meetings of the club are scheduled for the year with the following speakers and their subjects: "Our National Defense," Henry Winter; "The School Survey," Supt. E. E. Fell; "A Flight of the Imagination," Wm. E. Vander Hart; "Commercial Paper as a Medium of Finance," Wm. Westveer; "The Philistine in Society," Prof. Wynand Wichers; "After the War—What?" R. H. Gilbert; "A Square Deal for Disabled Children," R. B. Champion; "Traditions, Customs, Precedents," Att. F. T. Miles; "Faith Versus Research," Dr. F. N. Patterson; "The Democratic High School," Prin. C. E. Drew; "The Eight Hour Day," N. Bosch; "Medical Social Progress," Dr. A. Leenhouts; "Corporations," Att. T. N. Robinson; "Man and His Religion," the Rev. J. Van Peursem; "Publicity," Arnold Mulder.

DYE WORKS TO START WORK NEXT MONDAY

GIGANTIC PLANS OF HOLLAND'S
GREATEST INDUSTRY UNFOLD-
ED BY MANAGER FRANKEN

The Holland Aniline Company, Frans Franken, manager, will start active operations next week Monday, using about a third of one of the buildings, near the plant's power house, and turning out 15,000 pounds of Bismarck Brown each day.

A gas plant of their own; a pumping station that will provide over a million gallons of water each day for their own use, more than the entire city of Holland consumes; a private electric plant for light and power; the installation of the most modern and largest castings for nitrotrators and reducers in the whole world; the present work of having three 10,000-gallon acid tanks put in; a wonderful business opportunity for both skilled and unskilled laborers in large numbers at once—that was the information given out by Frans Franken and his head machinist, Emil W. Bitter of Chicago, Sunday night just before taking the boat for Chicago on a flying business trip, to return tomorrow for further supervision of the activities here.

During this week Holland will experience an inroad made by a crew of chemists from Chicago, trained there for the dye manufacturing, and another squad of laborers necessary to carry on the first of operations that will begin next Monday. Many more are wanted and need only apply at the factory office on the north side of the bay to secure a job with unlimited possibilities.

In two or three weeks the whole first building will be used. Then in another week the other building will be occupied by the workmen. It is planned to erect a third large building in line with the present two before the end of the winter.

When the rest of the first building is put into the swing of manufacturing, methyl violet will be produced at the rate of 600 pounds a day. Then about a week later the second building will be started on the production of methylene blue, making 400 pounds of the dye daily. The two latter colors are needed by the paper mills, as a combination of the two is used in whitening paper. The present exorbitant price of the dyes, due to shortage, is the cause of the yellowish tint in the print paper used over the country now.

The Holland Aniline Company will make its own gas, of which it consumes an enormous amount daily, as the proposition of piping a main from the Holland plant proved impractical. A large, private electric plant is to be used and a pumping station that will operate a score of wells for their phenomenal water consumption is necessary. Already 14 wells are dug, about 30 feet deep and 50 feet apart. The million gallons of water used daily exceeds Holland's average demand by a couple of thousand. This large amount will be used for washing and will be drained off after usage.

The power plant will develop 1,000 horse power in steam and 300 horse power in electricity. The largest sized nitrotrator and reducer in the world will be installed, much more modern and improved than is used in Europe for the manufacturing of dyes. The castings, in one huge piece, are so difficult to make that the Chicago foundry selected to produce them spoiled five before they made one that satisfied the testers. Several of these are coming in on the Pere Marquette this week to be made part of the plant.

One of the three 10,000-gallon acid tanks, to contain benzol, will be placed underground, and the other two, containing mixed acid and spent acid, will be above ground.

Speaking slowly and with precision, weighing carefully each statement to avoid false assertions, Frans Franken told of the great need and opening for ambitious young men. "We are right now in need of electricians and carpenters especially, for permanent positions. Steamfitters and millwrights are also in demand. Intelligent, handy men have a wonderful chance. I prefer to use as much home talent and labor as possible."

By the way, the maidens of Holland also have a wonderful opportunity. Nine out of ten of the skilled chemists coming here from Chicago are unmarried, ambitious young men. They were not engaged by the Holland Aniline Company as single men. It is entirely a happy coincidence.

The second story of the factory office building is being put up now and will be completed in three weeks. It is a block 90x40 feet. Boomers & Smeenge, the contractors in charge of the building of the entire plant, were complimented by Mr. Franken on the excellent work they are doing and are proving entirely satisfactory in their services.

An amusing story was told by Manager Frans Franken of the Holland Aniline Company in discussing the shortage of dyes. While seated in his Chicago office one day recently an agent of the Allies came to him to buy his products because of inability to secure them in Europe.

The color he most needed was Bismarck Brown. But to introduce anything with a German name attached into England would be almost suicide. So he bravely broached the subject of altering the name of the product to something more pleasing to the English ear.

Franken was taken back with astonishment at his "brass". To change the universal name of a universally used dye would be impossible. Each dye, as Bismarck brown, Victoria red, Methylene blue, and so on, are recognized over the world by those designations.

Giving his would-be corrector the "Double O" Franken smiled. "My dear friend," he replied with his German-accented English, "If the Kaiser wanted to change Victoria red, I wouldn't do it."

Coupling the accent with the tone in which "Kaiser" was spoken, the slave of Allies deemed it sufficient. When the door closed behind him, Manager Franken held in his hand an order for a large amount of "Bismarck Brown."

NIGHT SCHOOL TO START NOVEMBER 1

WILL CONTINUE FOR THREE
MONTHS; SCHOOL FOR MEN
AND WOMEN.

The Board of Education, at its meeting Monday evening have decided to start the night school on November 1, for the free education of foreigners.

This course of instruction will last for three months and is open to women as well as men. The instructors will possibly be the same as those engaged last year.

The meetings will take place in the high school building.

NIGHT COMMERCIAL COURSE STARTS SOON

All those wishing to avail themselves of a commercial course embracing book keeping, short-hand, type-writing and penmanship at a night school inaugurated by the Board of Education, can avail themselves with this opportunity next Monday evening and three nights each week thereafter. This educational course can be obtained at the cost of approximately \$2 a month. Those applying should present themselves at room 308 or 309 in the High school at 7:30 o'clock.

A course in domestic art will also be instituted embracing millinery and sewing. This course will cost about \$1.50 a month, and the room designated is 106 in the High school.

Remember there is no pretension of making money by virtue of the small charge made, as the fee barely covers the expense of the teaching force who give their services at a remarkably low rate.

SEND RESOLUTIONS TO COUNTY BOARD OF SUPERVISORS

Since it has been rumored that the Board of Supervisors of Ottawa County had some idea of abolishing the office of County Nurse, several organizations and public schools have registered a protest against the abolition of this highly important and most necessary office. The present nurse, Miss Post, has been able and efficient and for this and various other reasons, given briefly in the resolution, the Board of Education of the City of Holland joins the others in these protestations to the County Board.

COUNCIL GIVES STREET TO FURNACE COMPANY

At an adjourned meeting of the Common Council Friday night it was declared the unanimous decision of that body that the Holland Furnace Company be permitted to use a part of 21st street in building their new foundry.

This removes all doubt of the city's realization of an industrial increase that will mean more than a new, strange factory. The foundry will almost double the capacity and output of the plant and will mean about a hundred new men employed.

As soon as the action of the council was made known to Manager A. H. Landwehr Friday night, he awarded the contract to M. Oudemool, a contractor living at 51 West 15th street, this city.

HOLLAND BOY PRIZED BY ANILINE COMPANY

Cornelius Tiesenga of this city, a high school graduate and also a graduate of the U. of M. is now engaged in the dye industry with Frans Franken of the Holland Aniline Company, thru his demonstrated ability as a chemist.

Tiesenga applied to Mr. Franken for a position when about to take up some post-graduate work at Ann Arbor. He was told to try his ability at making dyes. When he returned he again interviewed Manager Franken. He was told to send a sample of his work to the Chicago factory.

The result was a long distance call for Mr. Tiesenga and the urgent demand that he journey to Chicago at once and take up the work. Evidently the test was satisfactory. He will soon be engaged in the Holland plant when operations start.

BUT FOUR TEAMS TO PLAY, WITH EMPLOYEES OF ANY FACTORY ELIGIBLE.

All the factory boys of the city are able to enter the new Factory Indoor League. This decision puts the winter sport within the reach of all would-be players among the factory boys only.

Four factories have entered with their names. They are Limberts, De Pree Chemical, Holland Shoes and Holland Furnace. These teams must not however, be entirely made up of their own employees. An employee of another factory will be tried out at his desire for a place on one of these teams.

A register is being held open at the Van Tongeren Cigar store for this purpose. To enter the eligible field of indoor baseball candidates, a factory employee outside of the four named as members of the league need only to enter his name at Van Tongeren's. He will be assigned to a try out.

The officials are doing this instead of having six poorer teams. They now will have four strong squads with fast games for each meet. Several known stars in the sport will be seen in the lineups this winter.

The first practice will be held Wednesday night in the high school gymnasium and will be a regular feature every Wednesday night. The first game will be played the night before Thanksgiving with a double-header on the program. The Furnace team will meet the De Pree delegation and the Shoes will battle with the Limberts. The admission to both games will be 15 cents, as will be the case during the whole winter. Season tickets are being sold for a dollar.

The schedule takes in dates from Nov. 29 to March 7, including thirty evenings of play. The matches will be staged in the high school.

INSTALL TELEPHONE SYSTEM AT SCHOOL

PRINCIPAL DREW AND JANITOR
STEKETEE TO GOSSIP OVER
PRIVATE WIRE.

A telephone system between Principal Drew's office and Janitor-in-Chief Steketee's sanctum sanctorum, to be installed by the seniors' physics class, is the result of deep thinking on the part of the aforesaid principal of Holland's high school.

Two phones with the necessary connecting links have already been ordered and are expected daily. Upon their arrival Professor A. Sirrine of the physics department will muster his class of seniors and set them at work for practical demonstrations of what they have been studying. Pliers and tweezers, hammers and bit-and-brace will be wielded until—well, witness Principal Drew in the act of asking Janitor Steketee if the fishing is any good.

Then he won't have to waste the time of the pupils running after him for excuses, by running down two flights of stairs and around seventeen corners to the boiler room, Monsieur Steketee's kingdom. Even C. E. Drew's "pep" is limited.

Mr. and Mrs. A. Van Anrooy and daughter, Ruth of Holland, were Coopersville visitors last week Friday.—Coopersville Observer.

KUIZENGA RESURRECTED BY THE INTELLIGENCER

SAYS THAT THE NEWLY MADE
PROFESSOR KNOWS THEIR
OPINION OF HIM AT LEAST

The Christian Intelligencer by mistake took Prof. John Kuizenga as dead in a recent issue. It makes the following explanation in its issue of Oct. 4:

"By a most unfortunate confusion of names we attributed the poem on 'Faith,' written by Prof. John E. Kuizenga, and printed in our last issue, to another member of the Hope College faculty, Professor J. H. Kleinhessel, who passed away early last summer. This confusion led to the mis-statements of the editorial note preceding the poem, and we are very glad to correct them and to apologize for the shock which must have come to many of Dr. Kuizenga's friends when they read the false announcement. Prof. Kuizenga is very much alive, is well, and was installed on October 4 as professor of practical theology in the Western Seminary. There is only one grain of comfort for the editor whose confusion of the names of these two brethren led to his unfortunate mistake: Professor Kuizenga now knows our opinion and that of a host of his friends as to his character and his services to the cause of Christian education, and will be more encouraged to press on toward the prize of his high calling, Christ Jesus."

The local work is not to be neglected. During the election of officers notes from the Ministers' Conference at Grand Rapids were given.

—NEW APPARATUS TO BE INSTALLED.

The first meeting of athletic work of the City "Y" was held Thursday evening in the high school gymnasium with Secretary Fred Steinger leading. Class exercises and basketball was the program of the evening.

Fully fifty young men took part in the gymnasium work Thursday night. "Y" enthusiasm is growing and the success of this year's work is to be unlimited. New apparatus for the gym is being purchased, including horses, dumb bells and Indian clubs. Other paraphernalia will be secured as the need arises.

Prospects for a strong quintet representing the "Y" on the basketball floor this winter are especially good. Several old timers are back in the "Y" and some of the recruits are experienced men. Games will again be arranged with outside teams. Young men of the city interested in athletics are urged to come to the meetings every Monday and Thursday night.

A Country Editor and Home Rule

☞ The country newspaper editor plays a greater part in the affairs of his community than does his brother of the metropolitan journal.

☞ He lives close to his public and knows their inmost thoughts. Through the mirror of his paper he reflects those thoughts, his public's stand on vital issues.

☞ As their special attorney and champion he is continually called upon to fight the good fight for this improvement or against that danger. He is always boosting the home town and working tirelessly for its betterment. His opinion carries weight.

☞ Read what such a champion and "home town booster," BERT MORAN of the AU GRES ENTERPRISE, Arenac county, thinks of the Home Rule smaller option system.

(In a letter to the Michigan Home Rule League.)

"I note that the newspapers are discussing your Home Rule project. I have taken considerable interest in it, and am frank to say it appeals to me.

"For example. Au Gres is a pretty little city, and we who live here have made it what it is. No other place has helped us—and we don't need their assistance. We believe we can take care of our town—keep it law-abiding and make bad citizens better—or get rid of them. If the state will leave us alone on the liquor question we will come out all right.

"At the last election a majority of Arenac county voters said we did not want county option and we defeated it. We came out flat-footed against the farce we were forced to undergo for two years. Our town individually had nothing to say on the subject. We might get a majority against county option, but the rest of the county might overwhelm us with votes for it.

"There are some great things to be accomplished by your Home Rule proposition. Every voter in the state should get acquainted with the possibilities to be derived from Home Rule."

An unsolicited testimonial from a thinking, reflecting editor, who leads the thought of his community and works tirelessly for its betterment.

☞ Bert Moran, as an editor, as a citizen, understands Home Rule.

☞ His analysis of it is accurate and keen. He sees where Home Rule would benefit Au Gres, solve Au Gres' liquor problem. Au Gres citizens know what county option is. Bert Moran calls it "The farce we were forced to undergo for two years."

☞ Au Gres citizens themselves have made their town "what it is." So with Home Rule they could settle their own problem, "without help from outside."

☞ Au Gres' problem is different from that of any other section of Arenac county. But WITHOUT Home Rule Au Gres citizens have no voice in its solution. The rural districts do that for them. "The other places interfere" on a purely local question.

☞ "The other places" have not helped to make Au Gres "what it is."

☞ So also they should have no voice in its affairs.

☞ There are many Au Gres instances in the state. "The other places" decide their liquor problems. They must abide by the "interference" from outside.

☞ They have not Home Rule. Nor have real representative government, true rule.

☞ To paraphrase Bert Moran: "With Home Rule the state at large will leave them alone on the liquor question and they will come out all right."

☞ And Bert Moran again: "Every voter in the state should get acquainted with the possibilities to be derived from Home Rule."

☞ Write for literature.

Deputy State Game Warden Frank Salisbury is about to begin a campaign against duck hunters who violate the law by shooting ducks too early in the morning and too late at night. Hunters may save themselves a great deal of trouble in fines and court fees by getting a copy of the game laws and reading the section referring to duck hunting. The warden will issue no further warning.

Few in this vicinity are aware of the fact that the game laws allow a township to decide as to whether rabbit hunting with a ferret will be permitted. A petition signed by twenty voters of a township is the initial step and the proposition is submitted at annual town meeting and if carried the use of the ferret is permitted in that township. We might add that anyone hunting with a ferret is a poor sport, to say the least.

The theme of the essay was mainly that the church had to be aroused to its power to educate and convince the world of a new internationality and universal brotherhood. The war does not prove that christianity is a failure, but that the continuance of national bloodshed and horror extends to the church a challenge for a greater program to convince humanity of the higher truths of christianity.

Opening Up Headquarters

HERE ARE THE AMENDMENTS

"Two amendments instead of one must be voted on Nov. 7 in Michigan. The first amendment to the state Constitution was proposed by the Michigan Dry Campaign Committee and provides for statewide prohibition of the liquor traffic. On this every dry voter should vote YES. The amendment follows:

"Amend article sixteen of the constitution by adding a new section thereto to stand as section eleven.

"ARTICLE XVI, Section 11. The manufacture, sale, keeping for sale, giving away, bartering or furnishing of any vinous, malt, brewed, fermented, spirituous or intoxicating liquors, except for medicinal, mechanical, chemical, scientific or sacramental purposes shall be after April 30, 1918, prohibited in the state forever: The Legislature shall by law provide regulations for the sale of such liquors for medicinal, mechanical, chemical, scientific and sacramental purposes."

The second amendment is proposed by the Michigan Home Rule league under the deceptive title of "Home Rule." This amendment is absolutely and entirely in the interests of the saloons. It is in no sense a dry measure.

The wet so-called "Home Rule" amendment is calculated to do three things: 1, throw confusion into the campaign; 2, defeat the statewide dry amendment; 3, destroy the present county local option system. If the dry amendment fails and the second or wet amendment carries, the map of Michigan will be as black as it was in 1890 before Van Buren county went dry.

All drys should vote NO on this amendment:

"Section 30. Every incorporated city, every incorporated village and every organized township (meaning thereby a part of a township outside the limits of an incorporated city or village, located partly or wholly therein) shall have the right to determine by a majority vote of the electors thereof whether or not there shall be prohibited therein the manufacture and sale of malt, brewed, fermented, vinous, distilled or intoxicating liquors.

"Appropriate legislation shall be enacted to enforce and make effective the provisions of this section, and until such legislation is enacted existing local option and regulatory laws on this subject shall continue in force, but no existing law inconsistent with the provisions of this section shall continue in force after January 1, 1919."

PARK SUPT. DANGEROUSLY HURT BY FALLING TREE.

RECEIVES TWO BROKEN RIBS AND INJURED BACK.

Supt. of Parks, John A. Kooyers of this city, was dangerously injured while chopping down a large tree in the woods of C. P. Zwemer at New Richmond.

John was in the woods with Mr. Zwemer with the intention of cutting some logs for the purpose of erecting a barn on his farm at Pearle, Mich.

In some unforeseen way the tree fell in the opposite direction from which it was expected to fall, and instead of running to safety he first ran for his coat and hat that he had laid down on the ground. In so doing he was partially in the path of the down coming tree and was struck by a heavy limb which knocked him to the ground. When he was picked up he could hardly breathe, however he was taken to the farm home of Mr. Garret of New Richmond and Dr. Riegerink was hastily called.

After a thorough examination it was found that two ribs were broken on the left side and his back and legs were considerably bruised. The doctor is also watching for internal injuries which may develop.

Mrs. Kooyers was hastily summoned from Pearle and is now nursing him. The son and daughter from this city were also hastily called to his bedside.

Mr. Kooyers was moved to the city this morning, however it will be some time before he can again assume the duties of Superintendent of Parks.

When the building is completed it will contain glass booths in which the pianos and Victrolas can be tried out and new records can be purchased and listened to without disturbance to the rest of the customers in other parts of the store.

In the basement an up-to-date steam heating plant will be installed that will do service for the entire building on all floors.

A place in the basement will also be utilized for repairing sewing machines and musical instruments.

The excavation and concrete work for the building is being done by Henry Oosting, while Sam Habing is doing the brick work, and Abel Postma has been awarded the contract for doing the carpenter work.

POWERS' THEATER, GRAND RAPIDS MICHIGAN "EXPERIENCE."

The New York "Experience" organization with the cast of 82 players is announced and the regular advance sale of seats opened Monday morning, Oct. 9.

The local management announces that this is probably the largest theatrical attraction that has been seen in this vicinity in many years. The critics call "Experience" the most wonderful play in America. The play comes to Grand Rapids for the first time, after nine months in New York, seven months in Chicago and five months in Boston. The engagement will be of unusual importance, as most of the famous New York organization will be seen. "Experience" is given in 10 magnificent scenes. It tells the story of temptations confronting the Youth when he goes out in the world to make a name for himself. The adventures are such as might happen to almost any young man in search of fame and fortune and include his meeting with Pleasure on the "Street of Vacillation" and becoming so enamored with Pleasure's charm that Youth refused to receive Opportunity's message. Then is shown Youth's plunge into the gay and festive night life of the Golden Cabaret on the Primrose Path, where he wastes his time and money with Passion, Intoxication, Beauty, Frivolity, Excitement, Temptation, Fashion, Slander, Deceit and others.

In the golden cabaret scene on the Primrose Path of Pleasure, there is a complete light opera chorus, and in this scene, showing the gay life of a great city, all the modern dances are given and the very newest songs are sung. The young ladies in the golden cabaret have all been chosen because they represent distinct types of beauty.

Then is shown Youth's reckless gambling in "Corridors of Chance," a realistic gambling scene, with roulette wheel going and all modern gambling devices shown in full operation. Youth's various adventures follow until at last he is saved from Crime by the never-dying miracle of mother's love.

The Forward Movement Club met Friday night at the home of Mr. and Mrs. J. E. Erickson, 51 East Eighteenth street. Mr. Erickson favored the club with the reading of an excellent paper on "Is the eight hour law passed by congress a benefit to the laboring class". A very lively discussion followed the reading of the paper, every member present taking part. About half of the members present declared themselves in favor of the Adamson bill, notwithstanding the fact that many improvements could be made and which are bound to come in the near future and that this is the beginning, which will ultimately lead to a universal eight-hour day.

The subject was rather roughly handled by those opposed to the passing of this law, claiming that it was nothing but class legislation, and congress had no right to establish a law for some of the train men while nothing was done for those that needed it the most, and that if any of the railroads saw fit to take it to the Supreme Court that the law would be declared unconstitutional.

The next meeting will be held Oct. 20 at the home of Mr. H. Robberts, W. 16th street. Mr. Robberts will favor the club with a paper on "Is it legal for the city to furnish a bonus to new industries."

Refreshments were served by Mrs. Erickson and Mrs. Oosting.

Congressman Mapes, of the Fifth District, was a Coopersville visitor on Tuesday and made this office a pleasant call.—Coopersville Observer.

**Let Holland Keep Up It's
Reputation As A Good Host**

It has always been said that the citizens of Holland are royal entertainers. This city has gained that reputation thru the fact that any big doings involving the entertainment of guests have turned out successfully, all exigencies have readily been met, and the verdict of the visitors has always been that the host was a real host indeed. The General Chairman of the State Sunday School convention committee, Mr. William Van der Ven, and the others comprising this committee do not wish to "fall down" on this occasion and therefore he addresses the following communication to the citizens of Holland.

CITIZENS OF HOLLAND:—

In about five weeks the delegates from all parts of the State will pour into our city by the hundreds to attend the Annual State Sunday School Convention. This will be the greatest convention ever held in our city and more than Sixteen hundred visitors will have to be cared for.

As general chairman of the local committee, I wish to urge every citizen to assist us in entertaining these delegates. We all feel proud of our city and want to keep the good reputation we have established as entertainers, and in order to do this, some real hard work will have to be done and the co-operation of every resident is needed. The various committees of the S. S. convention are all busy at work. The committee on entertainment has already started their campaign.

Every home will be visited in the near future and you will be asked to open your doors and give lodging to our visitors. Do not turn them away without pledging your support, for every available room will be needed on this occasion. Another great task will be the serving of meals for this large delegation and every church and society is urged to join in and help feed the multitudes. This is the greatest and most worthy cause that you have ever been asked to assist in, and we have great confidence that our true and loyal citizens will all join hands and show our friends that they can't beat the Dutch.

WILLIAM VAN DER VEN,
General Chairman.

**BOY NINE YEARS OLD
RAISED RECORD CORN**

Agricultural Agent Hagerman has a prize ear of corn on exhibition in his office. The corn is eleven inches long and about three inches in diameter.

The remarkable feature is that it was raised by Harold Bethke who is only nine years old. The boy is a member of one of the clubs organized by the county agent and it is very likely that he conceived the idea of raising corn at the club.

Mr. Hagerman also has a picture of the boy as he stands in his little corn field. The corn is almost three times as tall as the boy.

This splendid specimen of corn goes to show that it is possible to raise good corn in this vicinity.

**DO YOU WANT TO
SERVE MEALS?**

All those wishing to serve meals to the guests that visit Holland during the State Sunday School convention to be held in this city, November 15, 16, and 17, please send in your names to Dr. J. J. Mersen of this city.

The price for these meals as advertised through the state is 35 cents for dinners and 25 cents for suppers. Those sending in their names as willing to serve meals for that price will do so immediately. The guests will be sent to the places in the order as the names are received. The first name sent in will receive the first guests and so on down the list. Hurry and send in your names, not alone for the money there might be in it, but as a duty that our citizens owe the guests that come here in a meritorious cause.

FLORAL SHOP RE-OPENED.

Henry Ebelink, of Central Park Offers Fine Stock; New Saleslady.

The Floral Shop at 238 River Avenue has re-opened for the winter after a discontinuance of business during the summer months. A fine line of cut flower-baskets is being made a specialty. Pretty hanging baskets are also offered for sale.

Miss Dena Ika of this city is the new saleslady in charge of the Floral shop. She will be ready to show the stock to former patrons and is anxious to help with suggestions.

**HOLLAND TEACHERS
CLUB ORGANIZED**

The Holland teachers club met, organized, and formed plans for the coming winter.

It is the intention to invite learned speakers to talk to the club at their monthly meetings. It is also the plan to arrange several social events to take place during the coming winter.

The official staff is composed of Henrietta Poelakker, president, Supt. E. E. Fell, first vice-president, and chairman of the Educational Committee. Mrs. Mabel Smith, second vice-president and chairman of the Welfare Committee; Miss Frances Bosch, third vice-president and chairman of the social committee. Miss Anna Boot will be the secretary and Miss Susie Parks will be treasurer of the organization.

**SUPERIOR BUY PLANT
OF CONSUMERS ICE CO.**

The Superior Ice Co., making artificial ice, Thursday purchased the Consumers Ice Co., from C. F. Damson, the proprietor.

It is the intention not alone of the Superior Co., to fill both Consumers' Ice houses with natural ice, to be used for cooling purposes, but the company will also enlarge their plant so that 25 tons of artificial ice can be produced daily instead of 16 tons as is now the case.

A large store house will also be built this winter at the foot of Eighth street and the plant will be running daily during the winter, storing up one thousand cords of artificial ice to be used in the summer. Five more men will be employed and two new three-ton motor trucks will also be purchased and will be added to the delivery brigade.

It is the intention to deliver for domestic use nothing but the pure artificial ice to the list of customers of both companies. The natural ice will only be used for wholesale purposes, such as butcher shops, ice cream factories, etc., where the ice is used only for cooling.

The officers of the Superior Co. are: A. J. Fairbanks, president and manager and Bert Naberhuis, Secretary and treasurer.

GALLANT YOUTH HURT.

Ford "Kicks" and Breaks Dailey's Hand; Does Gallantry Pay? Yes

Leonard Dailey of West 13th street suffered a broken hand when a Ford crank "kicked". Three bones were broken and one knuckle crushed.

Dailey saw a young lady vainly trying to start the Ford motor. Gallantly he stepped forward and took a few turns himself. The last one did it, but it laid up Dailey. He was then doubly glad that the young lady had not started the motor. That's gallantry enough for one day.

Andrew Timmer narrowly escaped a serious accident while cutting corn. The horses started as Timmer was standing in front of one of the knives of the machine and the blade cut a deep gash in one of his legs.

Total cost of baking one barrel of Lily White Flour into bread.....\$17.16

This formula will produce 4,980 ounces or 383 13-ounce loaves of delicious home-made bread.

You pay 6c each for a 13-ounce loaf of baker's bread, consequently 383 loaves of the boughten article would cost you \$22.98, or \$5.82 more.

These 383 loaves homemade bread contain 29 quarts or 7 1/4 gallons of sweet milk worth at 8c a quart, \$2.32. Most baker's bread contains water.

By planning to bake your bread when the gas oven is being used for pastry baking you will save \$1.60 in gas, or at least divide the cost between bread and pastry.

People using wood or coal in cook-stove really have no extra heating expense. The cost of milk and potatoes to the farmer or dairyman is much less than shown above.

Homemade bread is better quality, better flavor, more healthful, more wholesome, more nutritious, especially when baked from

"The Flour the Best Cooks Use"

Homemade bread does not dry out as quickly, does not become stale so soon, lasts longer, goes further.

Then, too, there is the satisfaction of hearing the folks express their delight over the goodness of everything baked.

And you know just what has gone into your bread and pastries.

You know they are all pure, clean, wholesome and healthful, because you made them yourself in your own kitchen, or at least superintended the work.

The average family of five consumes five barrels of flour per year, or one barrel per year per member, according to Government statistics.

You save \$5.82 plus \$2.32, plus \$1.60, a total of \$9.74 on every barrel of Lily White flour baked at home added quality and nourishment considered, or

COMMON COUNCIL

(Official)

Holland, Mich., Oct. 4, 1916.

The Common Council met in regular session and in the absence of the mayor, was called to order by President Pro tem Kammeraad.

Present—Pro tem Kammeraad, Aids. Prins, Ver Schure, Brieve, Congleton, Lawrence, Postma, Dobben, Vander Hill, Wiesma and the Clerk.

The minutes of the last meeting were read and approved.

Petitions and Accounts
A. Peters petitioned for permission to construct an elevator with trap door in the sidewalk, on the Central Avenue side of the old First State Bank Building, same to be protected with gates when open.

Referred to Committee on Sidewalks, and the City Engineer.

G. Middlekamp petitioned for license to engage in the business of Junk Dealer, and presented bond as required with L. Goldman and H. P. Kleis, sureties.

Bond and sureties approved, and license granted.

The Clerk presented communication from George A. Poole in answer to resolution passed by the Council, relative to the removal of trees for the safety of automobiles on the park road.

To the Honorable, the Mayor and Common Council of the City of Holland

I acknowledge the receipt of a communication from the City Clerk of the city of Holland, dated August 31st, 1916 enclosing a copy of a resolution passed by the Common Council of the City of Holland with reference to the removal of trees on my property adjacent to the highway in Holland Township, and between the city of Holland and Macatawa Park.

I regret exceedingly the tragic accident which happened recently, resulting in the death of the young daughter of Mr. and Mrs. Jacob Bultman. As has been stated in the local press, this is the second accident which has occurred at the same point in the highway; and I wish to call to the attention of your honorable body the fact that neither one of these accidents were caused either immediately or remotely by the presence of the trees which evidently are referred to in the resolution. Neither one of these accidents was the result of a collision between automobiles or other vehicles, but both were caused by the collision of an automobile with a telephone pole (in each case, the same pole) situated entirely outside of the roadway and on the side of the highway opposite the trees in question. Neither one of these accidents could possibly have been prevented by the cutting of the trees because the trees could not in either case have obscured the view of the telephone pole.

As far as I know, no accident has ever happened on that part of the highway which would have been prevented by the removal of the trees. There always will be accidents at such a curve in a highway if drivers do not go slowly and use care. This curve is no different from hundreds of other curves in public highways all over the state, and I cannot see that any useful purpose would be served by cutting the trees.

Some time ago I suggested to the authorities that proper signs be placed at each end of the curve. As nothing was done in the matter, I provided, at my own expense, suitable signs warning drivers to go slowly. If there is anything further that I ought reasonably to do, or that I could do, to prevent accidents, I should be very glad to do it, but such an end I am sure, would not be brought about by removing the trees.

I remain,

Most respectfully yours,

George A. Poole.

Filed.

Joe Aardema petitioned to come under the compulsory sewer ordinance and present agreement waiving service of notice and everything else necessary to come under said ordinance, and to connect his premises with the sanitary sewer.

Accepted and granted.

The clerk presented the following communication from the Holland Furnace Co.: Since the street project into our land, and we, at present, desire to build across part of this street a 40-inch water main, and the City Council allow us to close this street, or to use it in any way that we may find necessary, where the said street projects into our property, and where we own lots on both sides.

This matter means the abandoning of two hundred feet of street, which is of no possible use to any one but ourselves. We expect to put on a foundry addition 60x230 feet, which will mean an increase of just 50 per cent in our productive power, and a proportionate increase in the number of men we will employ, etc.

As the contractors are now figuring on the new addition and bids are to be turned in on Thursday evening, October 5th, we hope that you can give us immediate attention on this proposition.

On motion of Ald. Postma.

Resolved, that the Council deems it advisable to vacate, discontinue and abolish the East Two Hundred (200) feet of Twenty-First Street, of Prospect Park Addition, and that the Council hereby appoints Wednesday, the First day of November, 1916, at 7:30 o'clock P. M., as the time when they will meet in the Council rooms to hear objections thereto.

Said resolution did not prevail by yeas and nays as follows:

Yeas—Aids. Congleton, Lawrence, Postma, Vander Hill, Wiesma, Kammeraad, 6.

Nays—Aids. Prins, Verschure, Brieve, Drinkwater, Dobben, 5.

The Street Cleaners employed by the city, petitioned for a raise of 25c per day.

Referred to the Committee on Streets and Crosswalks and the City Engineer with power to act.

"The President Says"

Extracts from letters and lectures of President Woodrow Wilson and former President, William Howard Taft.

(Printed as an answer to an editorial in Detroit Times, Sept. 26, 1916.)

President Wilson

Extract from Letter of Woodrow Wilson, then Governor of the State of New Jersey, to Rev. Thomas B. Shannon, Newark, New Jersey, dated May 1, 1911:

"I am in favor of local option, I am a thorough believer in local self-government, and believe every self-governing community which constitutes a social unit should have the right to control the matter of regulation, or the withholding of license."

When questioned about this statement, Mr. Wilson, then President of the United States, stated in a letter to Col. W. B. Haldeman, of the Louisville Times, Louisville, Ky., dated May 14th, 1915:

"My so-called Shannon letter precisely defines my position with regard to the liquor issue."

Ex-President William Howard Taft

The following is extracted from a work of Hon. William Howard Taft, "Four Aspects of Civic Duty," published by Scribners, being four lectures delivered at Yale University on the "Responsibilities of Citizenship":

"Nothing is more foolish, nothing more utterly at variance with sound policy than to enact a law which, by reason of conditions surrounding the community, is incapable of enforcement. Such instances are sometimes presented by sumptuary laws, by which the sale of intoxicating liquors is prohibited under penalties in localities WHERE THE PUBLIC SENTIMENT OF THE IMMEDIATE COMMUNITY DOES NOT AND WILL NOT SUSTAIN THE ENFORCEMENT OF THE LAW. In such cases the legislation usually is the result of agitation by people in the country districts who are determined to make their fellow citizens in the city better. * * * The constant violation or neglect of any law leads to a demoralization of all laws."

The Michigan Home Rule League was taken to task by the Detroit Times for using a caption, "The President Says"—

When it was used, it referred to the president of the Michigan Home Rule League.

We print these extracts from letters and lecture of President Wilson and former President Taft to show the Detroit Times and other state papers that, did we try to misrepresent in the advertisement they mention, we could not do so, because national chieftains have scored harder against Prohibition than did the president of the Michigan Home Rule League.

Send for the pamphlet—"What Big Men Say and Think of Prohibition."
