Nuismer Given Hero's Welcome by Firemen

Gunner's Mate 1/C Willis (Buck) Nuismer, sporting the golden eagle discharge insignia over his left pocket, was given a hero's welcome by Holland firemen upon his return to the home town today.

Nuismer, former volunteer fireman with station No. 2 who has been in the navy over 3½ years, was greeted by his old co-workers all in uniform and was borne bodily by the two stalwarts, Chief Andrew Klomparsen and Driver Teno Van De Water, from the steps of the train coach to the big ladder truck, sirens screaming all the while. The train from Grand Rapids arrived at 1:15 p. m. today.

Accompanying Nuismer was his fiancée, Miss Ruth Bolhouse of Grand Rapids, who also was put aboard the big truck and taken on a brief parade downtown. Miss Bolhouse, a sister-in-law of Van De Water, was wearing a new diamond, one she received when Buck arrived in Grand Rapids Wednesday.

The two fire trucks, decked with American flags and one truck bearing a big sign, "Welcome Home, Buck," attracted considerable attention as they whizzed with sirens going full blast to the depot. The spectacular introduction caused the noon crowd to be larger than usual.

Nuismer, who entered the navy Feb. 7, 1942, has been aboard the USS carrier Ranger nearly the entire time. This carrier was often reported sunk by the Japs.

While firemen prepared for Buck's welcome, the first alarm in many weeks sounded about 12:45 p. m. and sent the men to North

River Ave. to extinguish a blaze caused when a city gas pipe burst in the basement of the James Kalmann home, causing an explosion. The firefighters returned in time to welcome Nuismer.

Chief Klomparsen said he was hauling "Bucky" back to the fire with him to "break him in right" and the trucks took off immediately for River Ave. Mayor Elmer Schepers was on hand for the welcome.

Nuismer was one of seven volunteers serving in the armed forces. Others are Beckman, Mokma, Pothuis, Tubergen, Mel Water and Ray Van Voorst.

Ottawa Seeking State Surplus for Teacher Training

Three Mayors Appointed To Attend Convention at Lansing Oct. 9, 10, 11

Grand Haven, Oct. 11 (Special)—At the first meeting of the Ottawa county board of supervisors Monday afternoon, the board approved School Commissioner D. H. Vande Bunte's recommendation that Ottawa cooperate with Muskegon county to share in a surplus amount of county normal funds to carry on inservice training of teachers. Under the state setup, the county can receive approximately \$1,500 which may be used to help in the training of war emergency teachers as well as the regular certification of teachers.

Vande Bunte also spoke in behalf of the Michigan United war fund drive of which he has been rural chairman for the past two years. He said Mayor Edmond Wilds of Grand Haven will serve as chairman for the present drive and introduced C. F. Angell of Hastings who will be in Grand Haven this week assisting Mayor Wilds.

The three mayors in the county, Nicholas Frankena of Zeeland, Elmer Schepers of Holland and Wilds of Grand Haven were appointed as delegates to attend the annual convention of the State Association of Social Welfare and the State Association of Supervisors at Hotel Olds in Lansing Oct. 9, 10 and 11.

The Ottawa county soldiers relief committee reported a balance as of Sept. 30 of \$3,763.28. During the past year only 12 families of veterans were given aid but an increase in requests for aid is anticipated due to the large number of discharges.

The state department of agriculture's request for \$250 for apary inspection in Ottawa county was referred to the committee on agriculture. The state report showed that 74 aparies were inspected during the past year with five diseased aparies, and 571 colonies were inspected in which there were 10 diseased.

The board approved Henry C. Slaughter's motion that the county spread the full four mills for county purpose this year.

Due to the state convention in Lansing and the possibility that some supervisors may want to go hunting next Monday, the board adjourned until Tuesday, Oct. 16, at 1:30 p. m.

Four Burned in Blast on Tug 15 Miles Out in Lake

One person was seriously burned and three others received minor burns in an explosion on the Chambers Bros. fish tug about 15 miles out of Holland harbor at 10:45 p. m. Saturday.

Frank Nehls, 31, route 1, will be confined to Holland hospital for several days with second and third degree burns of the face, arms and chest. One hand was particularly badly burned.

Discharged after treatment at Holland hospital was Neil Sandy, route 1, who suffered second degree burns on his right fingers and

left forearm. Capt. Clifford Chambers and his brother, Lloyd, owners of the boat, were less seriously burned and received home treatment.

The explosion occurred when Nehls was filling the tank of the light machine and it overflowed, the gasoline spilling on a hot exhaust pipe. A rough sea caused the burning gasoline to spread rapidly, igniting Nehls' clothing and the cabin of the 32-foot tug. Sandy and the Chambers brothers were burned when they fought the fire.

With the fire extinguished and the light machine out of order, the tug limped back to port, traveling the 15 miles in an hour and a half without lights. After the tug docked, Nehls was rushed to Holland hospital for treatment, being admitted about 12:30 a. m.

The light plant was repaired today. The ceiling of the cabin will be repaired later.

The tug had been out on a regular run when the explosion occurred. The white boat is one of two operated by the Chambers family, who have been in the fish business here for four years.

Phone Workers Here Also Favor Strike Vote Call

Ninety telephone employees of Holland, Zeeland and Grand Haven, who gathered in the Tully room of the Warm Friend tavern Friday from 2 to 6 p.m. in connection with nation-wide walkout of telephone employees, cast a unanimous vote in favor of calling a telephone strike vote if conditions warrant, spokesman Kenneth Walton said Friday.

In Washington, Joseph Beirne, president of the National Federation of Telephone Workers, independent, said that a nation-wide strike vote of telephone workers "unquestionably" will be requested as the result of Friday's meetings which paralyzed telephone communications. He said reports from 40 per cent of the union's areas showed that all meetings adopted a resolution authorizing NFWT officials to request a strike vote under the war labor disputes act. This vote would be taken 30 days after the request is made.

A. G. Sall, manager of the local telephone company, said all long distance calls to Grand Rapids, Detroit, Chicago and Kalamazoo were put through from Holland during the four-hour layoff of employees with little or no delay.

He said the switchboards were manned by a few supervisors who are not affiliated with the employees' union. He said the public cooperated well with the company's previous request to place long distance calls outside of the four hours. General phoning was under normal of a usual day. Holland dial system operated as usual.

Walton said 90 persons or nearly 100 per cent of the employees at Holland, Grand Haven and Zeeland were present at the meeting. He said considerable discussion resulted and any operator who had lacked information was completely enlightened by the time the meeting adjourned. He emphasized that the protest is not against management but against an NLRB recommendation that the Kearny, N.J., union be dissolved because of company domination.

It was estimated in Washington that 200,000 telephone employees all over the country were out for the four hours. The American Telephone and Telegraph Co. said employees would not be paid for the time they were away.

"On your knee, you freshmen" and "Lower frosh, bow lower" after the inevitable donning of the green too place at the all-college mixer at 8 p.m. in the gym. With the greens came a set of rules which every frosh must follow explicitly or pay the punishment laid down by the student council.

All frosh boys must "pot" to upperclassmen with a sweeping bow and the girls with a pleasing curtsy. Freshmen must wear their greens at all times, off and on the campus, in and out of Holland. Heights' Tigers Crush Dutchmen 37-6 in Game Here

A group of speedy, hard-running backfield men, Ed Petrongelli, Dorro Grover, Everett Grandelius and Paul Hulka, ran for long gains through Holland's defense Friday night in Riverview park to give the Muskegon Heights Tigers a 37-6 victory over Holland in the first Southwestern conference game for each team.

Before well over 3,500 grid fans, the Tigers gained momentum after an exchange of punts following the kickoff. From then on they almost completely dominated play, limiting Holland's offense to two long runs, while piling up 330 yards on the ground and 65 yards in the air.

It was standing room only at the field last night as a host of Heights' fans besides hundreds of local patrons trooped into the park.

As far as Holland's line was concerned, the Heights' forward wall was not opening up big holes, but when the Tigers' gave their backs enough room to squeeze through they were off for the goal line.

Most of Muskegon's yardage was gained around Holland's ends, however, with Petrongelli and Hulka blasting all hopes of victory or even a close game for Holland. Grover was a demon on line smashes while Grandelius was as shifty a runner as has met Holland this season.

Holland's touchdown was more colorful than any of the six Muskegon Heights registered. It came midway in the third quarter. With the ball on Holland's 37 yard line Joe Caravia scooted around his own right side and cut back when two Heights players were between him and the sidelines.

Three Heights tacklers were there to meet him, but Joe put his head down and went through them. He was slowed up, but got through two more defenders using the same tactics. He got as far as Muskegon's 45 yard line where he ran into the safety man. He lateraled to quarterback Bill Hinga just before he collided with the safety man and Hinga, chased by three Heights' players, ran the remaining distance for the touchdown.

Grover went over for Muskegon Heights' first touchdown from Holland's 11 yard line following a brilliant goal line stand by the Dutch in which they had thrown back Petrongelli and Hulka and drives into the line. Holland punted out but the Tigers came right back with Grover scoring.

That was all the scoring in the first quarter but in the second frame the Heights boys peeled off much yardage. Hulka went for 48 yards around end making the score, 12-0; a little later, following a Dutch fumble, Hulka went over again and then before the half ended the score was 24-0 as Kayle De Poy scored from Holland's one yard line following a snappy Heights offensive drive.

Hulka scored again shortly after the start of the third quarter after a Holland fumble had given the Heights the ball in Holland territory. Holland then registered its only tally.

The Heights came back with a touchdown and an extra point just before the game ended. The Dutch line had thrown back two touchdowns before a third proved successful with Bob Taylor, a reserve back, going over. Grover booted the extra point.

Blackout on Curacao Is Described by Dutchman

Four years of blackout on Curacao, one of the six islands of the Dutch West Indies known as Territory of Curacao just off Venezuela, South America, were described here Friday by Johannes H.C. Hense, employee of the Dutch Shell Oil Co., who, with his wife and two children, is spending a few months at a cottage near Holland.

When word of the war in the Netherlands came to Curacao May 10, 1940, all Germans and Nazi sympathizers were rounded up and put into a concentration camp on the island of Bonaire, which, together with Curacao and Aruba, form the A-B-C or Leeward islands in the West Indies chain. Hense explained, German ships in part also were seized.

Then came many months of blackouts in varying stages and a strategic defensive program, particularly on Aruba which was one of the main outposts for protection of the Panama canal. Only once was a storage tank on Curacao shelled by gunfire from a Nazi submarine, resulting in slight damage. Another time a tanker was blown up in the Curacao harbor, Hense said. He added, however, that loss of tankers by submarine warfare in the Caribbean was terrific. This Nazi program, aimed to cut off the RAF supply of high octane gasoline produced in refineries on the islands, also extended to the eastern seaboard of the Atlantic and resulted in serious loss in the Gulf of Mexico, recent releases revealed.

British troops were the first to occupy the Indies, then came the Americans in 1942, and still later came Puerto Rican natives to replace the American doughboys, Hense said.

The Hense family arrived in the United States Aug. 22 and came to Holland on Labor day. They plan to return to Curacao in November. Meantime their 16-year-old son, Hans, who has completed his high school training, is attending Hope college in an effort to acquaint himself with the English language. The other child, Joke, is 7. The Henses heard only this week from their daughter, 20, who has been with relatives in the Netherlands since 1939.

The daughter went to the Netherlands at the age of 14 a half year before war was declared. Her parents had planned to follow her shortly. She survived the occupation in good shape, she wrote her parents, and received permission only a short time ago from the government to go to Curacao, a reunion which members of the family are eagerly anticipating.

Hense, an accountant with the oil company, expects to retire in two years after more than 25 years in the tropics. He spent 16 years on Borneo in the East Indies before going to Curacao nine years ago. He was born in the Netherlands not far from the Hague.

The territory of Curacao consists of two sets of islands, the Windward and the Leeward islands. Saba, St. Martin and St. Eustatius form the Windward chain and Aruba, Bonaire and Curacao the Leeward island.

The six small islands cover only 365 square miles and have a population of 120,000. The separate island of Curacao is the main island and has a population of 60,000. Willemstad is the capital and has a population of 50,000.

Nearly all inhabitants of the Windward islands are white while the population on the Leeward islands is mixed. Besides Dutch the latter islands have Jews of Portuguese descent, Negroes, Chinese, Arabs and British Indians.

Since 1940 medical care for employees has been compulsory in all British factories.

THE LAW'S DELAY

In a famous school recitation that is spouted by most boys and girls at one time or another the phrase, "the law's delay," is cited as one of the important evils of life. Since V-E day a good many people have been feeling in their hearts that the delay of justice in the prosecution and punishment of war criminals has been out of all reason. "The law's delay," they think, is as great an evil in this instance as the poet said it was.

That feeling is very human. The crimes that were committed by military sadists quite naturally have made millions feel that they would like to see immediate vengeance meted out to the criminals. It is always like that after any crime. The first desire always is to have the criminal punished immediately.

But in civil cases we have learned that that is by no means always wise. Unless the law's delay results in the public's forgetting the crime, forgetting to remain angry and determined to exact punishment, it is rather wholesome than otherwise. When punishment finally comes, it is genuinely punishment, not blind vengeance.

The same thing is true of the war crimes cases. If the victors had immediately lined up scores of thousands of accused persons and shot or hanged them, the world's wild desire for vengeance would have been sated. But those executions would have left a very bad taste in the world's mouth. Presently the very people calling for vengeance would have developed doubts, and inevitably some innocent persons would have suffered with the guilty.

There can be no harm in going at the punishment of the war criminals in a calm and orderly way. Delay will be all to the good, provided the mills of justice keep on grinding and provided the people of the world do not lose interest. There seems little chance that they will forget.

When finally the war criminals are hanged or shot or executed in some other way, justice will be truly satisfied. The months of delay will have made the punishment impersonal. The decent people of the earth will not be slaking their mere thirst for blood; they will have had time to cool down and to look at those criminals the way any decent member of society looks at one who has committed a murder. It would seem that in the case of the punishment of war criminals the law's delay is all to the good—to the good of the people whose business it is to administer justice.

The Home a School of Christian Living
Deuteronomy 6:4-9; Luke 2:51, 52
By Henry Geerlings

We are not surprised that the Bible has much to say on the home which is the basis of the entire social order. As goes the home so goes society. It is impossible to conceive of an ideal community in which the homes are without organization and unity of purpose. No matter how complex society becomes it can never do away with the home, nor lessen the importance of the family life.

The ancient lawgiver saw fit to tell us something of the nature of God, and to follow it with the recital of some of our duties toward Him. The people surrounding the Jews had many gods. They were polytheists, that were believers in and worshippers of many gods. It was not so with the Jews. In their faith they professed one God. There is no room for any more. That being the case it follows as the night the day that they worshipped Jehovah alone.

It would be far from the truth to say that the Jews were not to fear the Lord. That element was to be present in both their thought and worship of Him. Love always has in it something akin to fear. We may fear lest we transgress His law and incur His displeasure. But we are not to forget that perfect love casts out fear. All the love at our command is to move toward Him, whether it be of heart, of soul or mind.

The conception that the religion of the Jews was always and ever outward and formal is a wrong one. It was to be in the heart. It soon decays and dies unless its roots sink into the depths of our beings. Of course, generally, the Bible employs heart, mind and soul in the same sense, and therefore interchangeably. To use the one is to include the others.

There are two important points in the first part of the lesson. One of them is the formal and diligent instruction of children in the fundamentals of religious truth. That dare not be overlooked or even regarded as all-important and all-inclusive. There is also the informal and the casual and incidental aspect of the subject, and that is the talking of them when we are sitting in the house, and walking along the wayside, when we lie down and when we get up. The chance moments cannot be employed to better advantage than by chatting to our children about those deep and saving truths without which the nations will perish.

When we surround all the moments of such instruction with the atmosphere of sacredness and mystery, we are at least unconsciously removing it from the every day affairs and the routine of life, in which case we are making it harder for children to feel it is a part of one's normal existence. We have done the children an injustice and we have not dealt honestly with religious truth when we have even seemed to give the impression that the faith we cherish is too sacred for the kitchen, the field and the dusty roadside.

It was not unusual for the Jews to take such instructions literally with the result that they failed to grasp the spirit of their religion. It was a common thing for them to carry a bit of parchment on their persons, having Bible verses written on them. These were usually worn on the forehead or arm, and were known as phylacteries. In the days of our Lord these forms had almost completely crushed out the soul of genuine faith.

Just how much of these injunctions was to be carried out literally we cannot say. Certainly the literal obedience was not what the lawgiver had primarily in mind. Without question, however, the outward act would impress the law upon his mind. It has always been difficult for the religionist to keep the outward and the inward well balanced.

There are many Biblical examples of early religious training. Almost without hesitations we can call the names of Moses, Samuel, John the Baptist, Jesus, Timothy and a few others. The Bible does not offer counsel without providing illustrations of the specific truth taught. It is as true in the Scriptures as in any other literature known to man that important truths are made clear through personal examples. Of course, the human race would quickly have come upon the discovery that what we hope to find in youth and adults we must instill into the children. The possibility of translating the Scriptures into life cannot be questioned by any serious individual for that same thing is done times without number in the Bible itself.

Turning Over The Controls
A public meeting will be held at the opera house this Friday evening to consider the advisability of providing a fund to secure the location of new factories in Holland, began a story in the Dec. 14 issue of the Ottawa County Times published in 1900 by M. At one of the most representative meetings ever held by the Holland Businessmen's association arrangements were completed last night in the court room of the city hall for bringing a new Gas Engine and Pulley company, a fine growing concern, to this city, began a story in the Tuesday, March 31, issue of the Holland Daily Sentinel published in 1914. The 200 or more men present at the meeting were enthusiastic about the bringing of another industry to Holland and when the committee, composed of John Vanderluis, A.H. Landwehr, Dick Boter, Dr. J.J. Mersen and Frank Bolhuis, who have been investigating this proposition for the past few months, stated that it was necessary only to sell \$5,000 worth of stock in the concern to bring it to Holland, a man in the audience called for shares to be sold at the meeting. President Vanderluis immediately commenced the sale of stock at \$100 a share and in less than 15 minutes \$5,000 worth of stock had been sold to men at the meeting. A letter has been received by Dr. Vanderluis from his friend, the Rev. William Elliot Griffith, D.D., L.L.D. of Ithaca, N.Y., noted preacher, lecturer, historian and author of "The Mikado's Empire," and of "Brave Little Holland," and numerous other works, informing him that he had sent three boxes of Holland books for the library of Hope college. Club Women Are Given Personality Suggestions

Lucile Benz La Chapelle, speaking before approximately 300 members of the Woman's Literary club Tuesday afternoon on the subject, "You Are Better Than You Sound," told her listeners that probably the best definition for a good conversationalist is "One who is interested in what others have to offer."

Mrs. La Chapelle illustrated the importance of posture and voice and their relationship to personality and the development of the "art of conversation." Not many women can have a beautiful figure, but lovely posture is within the reach of anyone, she told the club women. Charm and good posture nearly always are synonymous, she said.

The quality of voice reveals the state of mind, explained the speaker, as she illustrated in an amusing and clever manner the eight different qualities of the human voice, and made suggestions for improvement. Self control is seated in control of the voice, and complete culture comes with complete control of voice and self, she said.

"Most of us talk too much," said Mrs. La Chapelle. "Man needs mental and spiritual stimulation usually found in the art of conversation, but only when minds meet is there really conversation."

Mrs. Randall Bosch presided at the meeting, the first of the year in the club house. A dessert meeting of the Child Study group was announced for next Tuesday at 1 p.m. in the home of Mrs. Ernest Tirrell. Civic Health committee will meet in the club house at 10:30 a.m. next Tuesday.

Army Teaching Methods Lauded by Club Speaker

A review of the good points in army methods of teaching, and suggestions on how those methods may be incorporated in public school teaching, were presented to members of the Holland Teachers' club Monday afternoon by Dr. Carl Horn of Lansing, director of guidance, State Board of Control for Vocational Education. Supt. Carroll C. Crawford introduced Dr. Horn, whose subject was "What the public schools can learn from the army method of teaching."

As one of a group which toured the country to examine army methods, Dr. Horn observed that many men and boys now see for the first time the benefits of an education. Every veteran knows that mathematics and science and all forms of vocational education have practical value, he said.

Army methods which he found of value were discovered in the time taken to know each student, resulting in ample records and in-

terviews. The army takes time to give all kinds of tests, to eliminate failures before they are made, especially in the training of radar operators and paratroopers, he explained. The army devises its own methods, the men are given orientation periods, and each course is justified to the student.

The need for training aids was emphasized, for the army uses all the senses in its educational methods. The average student learns 85 per cent through the eye, 10 per cent by ear, two per cent by touch, one and one-half per cent each by taste and smell, he said.

Above all, the student learns by doing, an old educational phrase really put to use by the army, Dr. Horn stated.

Five steps in the modern educational method pointed out by the speaker included: More preparation by the teacher; demonstration by the student; an examination; and a period of discussion on the examination.

Schools Join in Plan to Obtain Surplus Property

The board of education at its monthly meeting Monday night approved Supt. Carroll C. Crawford's recommendation that Holland enter into a plan with other schools of region 4 to obtain surplus property which the federal government will give to the schools free if it can be located and transported to the school.

The plan, as arranged by school superintendents, who met in Grand Rapids Thursday to determine which methods would be suitable, provides that each school contribute a sum of money based on student membership and inventory price of the goods, and that this money be used to hire one person to find the material and hire sufficient clerical help to facilitate the process.

This work must be done by Nov. 1 as the agency disposing of this material will cease functioning at that time. Holland's share in the program is \$127.85. Earl Babcock, superintendent of the Grand Haven schools, is chairman of the group and Walter Gummer, superintendent at Lowell, is secretary-treasurer.

Supt. Crawford also was authorized to sign agreements for transfers of surplus aeronautical property to the Holland public schools from the Reconstruction Finance corporation.

On suggestion of Trustee Margaret De Pree, the board went on record as asking the cooperation of parents in keeping children who have colds at home, also to encourage the teachers to send home those children who develop colds to avoid the spread of contagion.

Supt. Crawford added that emphasis on colds might possibly be worked out in a program by the Ottawa county board of health which might send nurses to PTA meetings and school rooms.

Trustee E. V. Hartman, reporting on the A. C. Keppel Memorial school forest, stated that Miss Lida Rogers' biology classes had spent three or four days improving the north 40 acres, assisted by representatives of the county conservation department. He said

Glenn Eaton of the county department had directed work of plowing a new roadway and also supervised the planting of 3,000 seedlings.

President Martha D. Kollen called attention to the teachers' institute of region 4 which will be held in Grand Rapids Oct. 25 and 26, to which all trustees are invited. She pointed out that Dr. Norman Vincent Peale of the Marble Collegiate church of New York city will be among the speakers, also a blind lecturer with a Seeing Eye dog, and a foreign correspondent. Principal J. J. Riemersma of the high school is president this year and Miss Beatrice Denton of Junior High school is secretary-treasurer.

The board approved the superintendent's recommendation that the bus drivers attend a one-day bus drivers' institute in connection with the MEA conference in Grand Rapids. The new school bus stop law as passed by the state legislature will be explained.

The board also approved the committee on schools' recommendation to change the annual spring vacation. The new dates are April 5 to April 16. The original dates had been two weeks earlier.

On recommendation of the committee on buildings and grounds, the board approved the appointment of Sherman De Boer as a custodian at Junior High school, and the installation of bookcases in Principal Riemersma's office. The committee also recommended that the second floor of the new vocational building now under construction be given over to classrooms for the seventh grade and the special education group which at present is housed in the East Junior High school. This recommendation was approved by the board.

Claims and accounts for the month amounted to \$30,437.42 of which \$22,857.28 was for teachers' salaries.

All trustees were present with the exception of Jay L. De Koning. Trustee Albert E. Lampen opened with prayer.

Council also advanced the next Council meeting one day so as to be able to leave on Wednesday for the Convention.

Clerk presented petition from interested property owners requesting the vacating of the alley between 20th and 21st Streets running from Van Raalte Ave. to a point approximately 110.7 feet west of Washington Avenue.

Referred to the Street Committee.

Reports of Standing Committees. Claims and Accounts Committee reported having examined claims in the sum of \$10,560.99, and recommended payment thereof.

Allowed.

Committee on Ways and Means to whom was referred at the last Council meeting together with Aldermen Harrington and Meengs the proposal from the Tulip-Time Committee to revive the Tulip Festival in 1945, reported that they had met with Mr. E. C. Brooks, Chairman of the Tulip-Time Committee, the Park Superintendent and some members of the Park Board to discuss this proposal. As a result of this meeting, the Committee was recommending that the Council appropriate an amount of not to exceed \$5,000.00 which is to cover the expense of purchasing tulip bulbs, and also to cover the cost of labor for planting and care.

Adopted.

The Committee also suggested that this 1946 Tulip-Time Festival be known as the "Peace Tulip-Time Festival."

Sidewalk Committee to whom was referred sometime ago a petition for sidewalks on the south side of West 23rd Street west from Van Raalte Avenue and abutting on Lots 65 and 70 inclusive, Scott's-Elmwood Addition, and also a petition for sidewalks on the east side of Harrison Avenue between 14th and 15th Streets, reported recommending that these walks be ordered constructed and that the City Engineer serve the necessary notices to the property owners.

Adopted.

Public Lighting Committee reported that they have made quite an extensive survey of the overhead lights and also the ornamental lights throughout the entire City and find that a considerable amount of improvement can be made in the efficiency of the present lighting system. The Committee suggests:

1. That expert engineers from Electrical companies be requested to furnish information on the latest type of street lighting.

2. That a complete survey be made by the Board of Public Works of our present street lighting throughout the City with a view of making such changes and corrections as may be desirable.

3. That wherever the present globes are heavily stained or burned that they be replaced.

4. That a more systematic and regular check be made of all street lighting.

Committee further reported that they fully realize that during

the past few years conditions have been such that it has not been possible to obtain replacements where they might have been needed.

Committee further recommended that a copy of this report be forwarded to the Board of Public Works with the recommendation that the suggestions contained herein be carried out.

Adopted.

In this same connection both Aldermen De Pree and Mooi commented on the boulevard lighting on West 8th Street. These members stated that there is a large amount of vacant property along this street and it was their opinion that it might be more advantageous to move some of these lights from West 8th Street to another location in the City where they would be of greater benefit.

Alderman Harrington reported on behalf of the Park and Cemetery Contact Committee that plans are underway for the erection of an entrance into Kollen Park at the foot of West 10th Street, and in this connection it was desirable to have some sidewalks constructed along both sides of West 10th Street west of Van Raalte Avenue where there are no walks at present.

It was the suggestion of Alderman Harrington that walks be constructed and the location of the walks and type to be put in be referred to the City Engineer and the Sidewalk Committee together with the Park Superintendent for consideration.

Adopted.

Communications from Boards and City Officers. The claims approved by the following Boards were ordered certified to the Council for payment:

Hospital Board \$ 6,757.03
Library Board 246.68
Park and Cemetery Board 3,176.17
Board of Public Works 23,670.00

Allowed. (Said claims on file in Clerks' and Board of Public Works' Offices for public inspection.)

Board of Public Works reported the collection of \$21,504.22; City Treasurer \$37,915.76 for miscellaneous items, and \$1,484.98 for summer tax collections.

Accepted and Treasurer ordered charged with the amounts.

Clerk presented report from City Inspector Wiersma giving a resume of his September activities.

Accepted and filed.

Clerk reported that John Wolters has now completed the payments on a land contract covering the purchase of a farm in Fillmore Township that was sold to him a few years ago by the City on behalf of the Holland City Hospital Board. It was also reported that the City Attorney has had the abstract brought up-to-date and a Warranty Deed prepared for the transfer of this property to Mr. Wolters and his wife Katherine. This property had been acquired by the City from the Anna R. Cooper estate in 1938.

Approved and Mayor and Clerk instructed to sign the deed on behalf of the City.

Clerk reported that this was the time set by Council for the hearing on the proposed vacating of the alley between 21st and 22nd Streets from a point approximately 90 feet west of Maple Avenue and running west to Washington Avenue. Clerk also presented af-

fidavit of publication of the vacating notice.

Clerk also presented a letter from Mrs. Fred J. McSwain objecting to the closing of the alley in the rear of their premises and also in the rear of the premises of her mother's property adjoining. These people are the owners of Lots 13, 14 and 15, Te Roller's First Addition located on 22nd Street at the west end of the block with a total frontage of 136 feet. It was ordered heretofore that the alley be vacated in the rear of Lots 3 to 9 inclusive, and Lots 16 to 22 inclusive, Te Roller's First Addition.

Alley vacated as advertised except the west 136 feet thereof.

Pursuant to the provisions of Sections 10, 11 and 12 of Title 27 of the City Charter, Clerk reported the several amounts to be assessed against particular persons and property with the next General Tax Roll as follows: Delinquent Water Bills \$55.33.

Filed in Clerk's office and date for hearing on confirmation of such Special Assessment Roll set for Wednesday, November 7, 1945 at 7:30 p.m.

Motions and Resolutions. City Attorney reported that he had contacted the Insurance Company which carries insurance on the bus of John Van Der Kolk, bus operator, and finds that this coverage is adequate and takes care of the public liability, as discussed in the Council at a previous meeting.

Clerk further presented a copy of the policy to be filed in the Clerk's Office.

City Attorney also called attention to the fact that there still seems to be some misunderstanding and uncertainty relative to the rights of Mr. Brinkman who operates a bus between Holland and the resorts as to his picking up inter-city passengers.

In discussing this matter, it was brought out that on July 3, 1945,

Council referred to the License Committee the matter of granting Mr. John Van Der Kolk a license with the provision that it do not interfere with Mr. Brinkman's bus line, and subsequently Mr. Brinkman made application for a license to operate in the City which has not been acted upon definitely. City Attorney suggested that the Council should clarify this situation and if they desire that Mr. Van Der Kolk shall have exclusive rights then the action of July 3rd taken by the Council should be rescinded.

After a brief discussion it was moved by Alderman Slag, 2nd by De Pree, that the Council rescind its action of July 3, 1945, which stated that Mr. Vander Kolk should not interfere with Mr. Brinkman in the operation of their bus lines.

It was then moved by Alderman Meengs, 2nd by Slag, that the application of Mr. Brinkman for a license to carry inter-city passengers be denied since Mr. Van Der Kolk has been given the exclusive right.

Carried.

Mr. Walter Freestone, representing Holland Chapter No. 14 of Disabled Veterans, appeared before the Council and requested permission to sell Forgemans on the streets in the City on Saturday, November 10, 1945.

Granted.

Alderman Mooi reported that in response to a suggestion made by Council at its previous meeting, Mr. Joe Geerds, Chairman of the Board of Public Works, and Mr. Herbert Bultuis, Laboratory Technician and City Chemist, were present to explain to the Council as a whole the workings of the Sewage Disposal Plant. Mayor Schepers suggested that the Council adjourn so that this could be an informal discussion.

Council adjourned.

Oscar Peterson, City Clerk.

The ships moved in off Oshima island and the Japs would have been less surprised by an earthquake. The nine destroyers running in a column at high speed swept into the mouth of the bay about midnight and picked up targets in the vicinity of Narkina Saki peninsula. It was a convoy trying to sneak off by night along the coastline.

In less than four minutes, 18 torpedoes were streaking through the water and at the same time the destroyers opened up with the five-inch guns. One Jap ship exploded and another caught fire. They tried to turn and run, but Halsey's ships reversed the course and blazed away. The Japs tried to fire back but the enemy apparently was using anti-aircraft guns.

The one-sided battle lasted less than half an hour and the convoy, consisting of three merchant ships and one escort, was left sinking. Only the escort ship was known to have escaped.

The USS Brush which led the destroyers into Tokyo bay is now en route home to participate in Admiral Halsey's Navy day victory celebration later this month. Sneller expects to be home by Thanksgiving.

Missionary Conference Attracts 600 Women

More than 600 women, representing 42 organizations in the Reformed churches of the classis of Holland, filled Third Reformed church Wednesday for the 13th annual fall conference of the Women's Missionary union. Mrs. John R. Mulder presided over the two sessions.

Miss Ruth Ransom, Woman's Board of Foreign Missions secretary, who gave two addresses, told of the new mission in the Anglo-Egyptian Sudan, which is to be adopted by the boards of foreign missions and will, by 1950, number 18 missionaries in its personnel.

The other fields supported by the boards will also need replacements in the 47 vacancies on the workers' roster, which made imperative a plea for new recruits from young people of the church.

In speaking of the \$154,000 budget for the Women's Board of Domestic Missions, Miss Ransom said that a new field opening up is that among the blind, especially the publication of braille Sunday school quarterlies and other Christian literature. She also mentioned the increased women's contributions to the War Emergency fund and various relief funds in the Netherlands and other foreign fields.

A forward look was given the work in Japan when the speaker stated that Dr. Luman Shaffer, former missionary to that country, is on the point of flying to the islands in behalf of the Christian missions project. In closing Miss Ransom said, "Pray much before you decide to do nothing about it."

Special fields brought before the conference included the mountains of Kentucky, whose needs were emphasized by Mrs. Nicholas Goosselin. Says Tokyo and Yokohama Destroyed

Lanham of Holland, former newsboy serving aboard the navy carrier Yorktown (The Fighting Lady) now at anchor in Tokyo bay, "the filthiest place I've ever seen."

"If you're wondering how badly these cities were bombed, I'll tell you. Tokyo and Yokohama are absolutely in ruins, just a few office buildings and hospitals standing here and there. The buildings that are left are all of the most modern design with up-to-date equipment. The equipment isn't all American like most people believe, but

Something to remember when you say "Welcome Home!"

Some of our boys have waited years to hear those two words.

What they've endured for the sake of hearing them is more than we like to dwell upon.

But those two words, "Welcome Home!" can become just an empty phrase if you forget, for one minute, your responsibility to the man you say them to . . . and to the several million men overseas who are still yearning to come home.

What we're talking about, of course, is your responsibility to continue buying Bonds—and holding on to the ones you already have.

Your purchase of Victory Bonds helps the man who's just come home, helps him in a very real way. For your money, in Victory Bonds, helps prevent inflation—and that, in turn, means security for him, and a better chance to get a job.

And remember this: It will cost plenty of money to

maintain and supply our forces of occupation . . . to bring home the men whose period of service so richly entitles them to return . . . and to care for the sick and wounded in our Navy and Army hospitals.

No—the job isn't over. *You didn't think it was, did you?*

Then *show* that you know it isn't over! Show it to the boys who've come home—and to those who wish they could—by buying another Bond—today!
