Father of 3 Was Fishing From Dock

A 28-year-old Hamilton man, father of three children, was dead on arrival at Holland Hospital early Thursday evening, shortly after he fell into Lake Macatawa at the Kollen Park dock while fishing from the pier.

The victim was Wesley Schipper, 28, of route 2, Hamilton, Dr. William Rottschaefer pronounced him dead of accidental drowning, after attempts to revive him by a resuscitator on the way to the hospital failed.

Holland police said the accident apparently happened shortly before 5:30 p.m. when they were summoned to the park by the report that a man had fallen off the pier and drowned. Albert Timmer of route 2, Holland, and another man, also fishing from the dock, alerted police.

Timmer told officers Schipper had been fishing on the lake side of the dock, and had apparently stepped backwards across the pier and off into the water between the dock extension and the shore. The water is about ten feet deep at the spot, police said.

When police arrived, special patrolman Harvin Essenburg and Ray Reidsma of 95 West 10th St., who arrived on the scene immediately after the accident, dived in to the water at the base of the pier to try to find Schipper. But the water was too dirty and too deep to permit them to see the victim.

A lifeboat and grappling hook were then used by police to bring the body to the surface.

An ambulance which had been summoned was standing by with a resuscitator, which was applied enroute to the hospital, but to no avail.

Police said Schipper's wife reported he did not know how to swim.

Schipper attended Holland High School and was married in 1955 to the former Arlene Jaarda.

He is survived by his wife; three children, Sally Jo, Cindi Lou and Scott Alan, all at home; his parents, Mr. and Mrs. Herman Schipper of Hamilton; three sisters, Mrs. Harvey (Della) Peters of Hamilton, Mrs. William (Hazel) Stille of Holland and Miss June Schipper of Hamilton; his grandmother, Mrs. Wiebe Schipper of Holland.

Chang Tung, who edits the Chinese newspaper supplement "Sunday" as well as contributing to the science section of "World Today," is one of several foreign employees of the USIS brought to this country for orientation and training. These employees are engaged fulltime in explaining American life and democracy to their countrymen. This study tour is designed to increase their understanding of the fundamentals of the American concept, and their effectiveness in presenting the United States to their countrymen.

Chang was an assistant to Dr. J. Dyke Van Putten of Hope College when Dr. Van Putten was director of USIS in Peiping, China from 1946 to 1950. Dr. Van Putten is sponsoring his visit in the local area.

Chang, 44, was born in Peiping, is married and has two children. He received a B. A. degree in journalism from National Fudan University and for an avocation draws sketches and cartoons.

Record \$1,275,204 Budget Studied

GRAND HAVEN—The ways and means committee of the Ottawa County Board of Supervisors Tuesday submitted to the board a proposed budget for 1963 listing an all-time high total of \$1,275,204.86 or \$52,423.37 more than the 1962 total of \$1,222,780.49.

The total is based on 4.16 mills of the county's equalized valuation, the same millage levied in 1962, according to Henry Slagter, chairman of the committee.

Much of the increase is accounted for in an increased contingency fund boosted to \$86,824.63 from \$62,280.35 last year, some adjustments in salaries and general increased costs in many departments.

The October session of the board is known as "the long session" lasting some two weeks. Budget study will cover several days with final adoption some time next week.

Basic totals, 1963 figures first followed by 1962 figures, follow:

Geerlings Hits Gov. Swainson

State Senator Clyde Geerlings today lashed out at Gov. John B. Swainson who earlier said lobbyists from Henry Ford Jr. killed the state income tax bill.

Geerlings, in a letter to Swainson, wrote "You were in the Lt. Governor's office with the president of the Michigan CIO and you have the audacity to say that the Ford lobbyist outmaneuvered you."

"Why don't you name the lobbyist. I was there all night as you very well know because you weren't 10 feet from the Senate chamber with Guss Scholle, directing your forces to get your income tax passed."

"Not one lobbyist talked to me all night. Of that I can assure you — and let me inform you of one more thing, before you continue your assertions, why don't you check with those Senators who changed their vote to defeat the state-wide income tax."

"I think you will find that they heard from their constituents, not from lobbyists."

Supervisors Embroided in Annexations

GRAND HAVEN — Members of the Ottawa County Board of Supervisors representing rural districts won their first skirmish in the board's deliberations on six petitions from various parts of the county on incorporation and annexation requests Wednesday. The board adjourned until Friday at 1:30.

Six requests have come before the board, two on incorporation and four on annexation. On Wednesday two were thrown out and one was approved.

The meeting started by the appearance of Prosecutor J. W. Bussard, who made a ruling on the validity of the petitions for annexation of 11 acres of land on Robbins Road in Grand Haven township to Grand Haven city.

Supervisor Clarence Reenders on Tuesday challenged the proposal. He claimed that the 11 acres cited in the petitions are split in two parcels. According to a recent Supreme Court ruling, he said, the entire township may vote on annexation of one of the parcels as there are no voters living on the parcel. Only two qualified voters live on the other.

Bussard was called back to the supervisors room the second time and after questioning said that Reenders may be right. It is up to the board, he said, to determine the legality of the petitions. If the board feels they are illegal, he advised, the case should be tested in court.

City Clerk J. Nyhof Poel of Grand Haven asked that the matter be tabled until City Attorney Howard Fant of Grand Haven could be present. Fant was pleading a case in Circuit Court Wednesday and did not attend the board meeting.

A motion to table the question lost, 16 to 12, and a roll call showed that the board then declared the petitions invalid, 17 to 11. The rural members of the board won the election in both cases, over the city members.

After a motion by Reenders, the board voted to authorize the prosecutor to seek a ruling on the legality of the Robbins Road petitions in Circuit Court.

After throwing out the Robbins Road petitions and tabling the Holiday Hills annexation petitions from Spring Lake township, and the Van Meer city petitions and the Ferrysburg city petitions, earlier in the session, the board finally approved a fifth request.

This request came from petitioners in Zeeland township who seek to annex a small area known as Southeast Heights to Zeeland city. Annexation of the area lost in an election last January. The board set April 1 as the date for the new election.

The sixth and last set of petitions to be presented at this session was also thrown out. These petitions came from a small area in Holland township, the "West End district," where residents seek to annex to Zeeland city. Thirty days had not elapsed since the petitions were filed Sept. 17, so the petitions cannot be acted upon until Oct. 17.

The board approved a request from Drain Commissioner Roscoe De Vries to transfer the Montello Park drain from the county office to Holland city, as the entire drain now lies in the city. The drain is partially underground and partially open and needs repair.

The board did not meet today, to give committees an opportunity to meet. On Friday Dr. Ralph Ten Have of the health department will make his report.

The board late Wednesday went into a "committee-of-the-whole," with Vice Chairman Henry Slagter of Lamont serving as chairman. The board took up the long 1963 budget, item by item, and approved about half the budget. This study will continue Friday.

The total budget, as proposed by the ways and means committee, is \$1,275,204.86, which will necessitate the spreading of 4.16 mills on the county valuation for general operating expenses. The biggest item is salaries, \$327,410, an increase of \$14,000 over the 1962 salary budget. General increases in salaries, according to the county's step system, is the cause for the increase.

Building Progresses At Schools

Several building and grounds committee reports were submitted to the Board of Education at its monthly meeting Monday night in the high school library.

The board granted permission to Civil Defense to use the basement and all common areas of classroom units of the high school for fallout shelters in the event of enemy attack, such usage to contemplate the storage of shelter equipment and stock consisting of food, and medical and radiological supplies occupying approximately a 52 cubic foot area. The school will be one of 25 to 30 designated CD areas in the city.

Reports on progress in new construction at Lakeside School which recently annexed to the Holland district indicated the steel roof deck was completed as of Sept. 28. To avoid unnecessary interruption of the school and fencing off the playground, excavation for the septic tank drain field will be delayed until teachers' institute in mid-October. Aluminum window sash has been installed. Painting and decorating will begin about Nov. 1 and floor coverings will follow.

The Lakeside construction financial reports listed original contracts and purchase orders of \$202,311, additional costs of labor and materials of \$1,302.50 and architectural and consultant fees of \$11,900 for a grand total of \$216,513.50. An estimate of items still to be purchased amounts to \$17,660 which makes a final estimated cost of \$235,814.83. From the Lakeside bond issue after payment of the first coupon due was the amount of \$236,779.66.

Also approved was a committee recommendation to spend approximately \$500 for installing two dry wells in the area of the high school auditorium with necessary drains connecting them to the campus drain system already installed. It is believed the dry wells will alleviate the drainage problems around the auditorium, particularly if certain planting areas can be so arranged as to provide open soil for rapid runoff of roof drainage.

Also authorized were complete curb and gutter on Van Raalte Ave. between 24th and 27th Sts. and on 24th St. from Van Raalte Ave. to the campus parking lot at an estimated cost of \$240, plus a low curb to line the edge of the east parking lot on Van Raalte Ave. across from the auditorium and to mark off areas between the lot, the driveway and the sidewalk at an estimated cost of \$500.

A progress report on alterations to junior high buildings indicated work in both buildings moving along well and generally on schedule.

In the East Building, three partitions have been removed to make larger rooms. Cloak room partitions have been removed to enlarge three other rooms and sinks and work room facilities have been added to the library and art room. All floors have been sanded and sealed. Walls and ceilings have been painted, and a food service consisting of vending machines has been installed. Folding tables and chairs to accommodate about 140 students were purchased.

The girls' gym has been completely renovated with a lowered ceiling, new lighting, improved wall surface and painting. The floor was treated again to insure termite control. The printing shop also has been renovated.

In the West Building, double swinging classroom doors have been replaced by new corridor-opening doors equipped with new hardware. All classroom floors have been sanded and sealed. New linoleum has been installed on second and third floors and in cloak rooms.

Hollow metal fire wall enclosures are being erected around each stairway. Entrance to the fire escapes has been changed from the classroom to a newly designed and constructed corridor. The platform of the fire escape has been extended to provide for greater safety. Wire glass has been installed in all windows next to fire escapes.

The Farm House has been razed, basement filled and gravel base constructed to provide a most adequate bicycle parking area. Work has begun to install wall openings for doors on the second floor of the annex building to provide for office facilities.

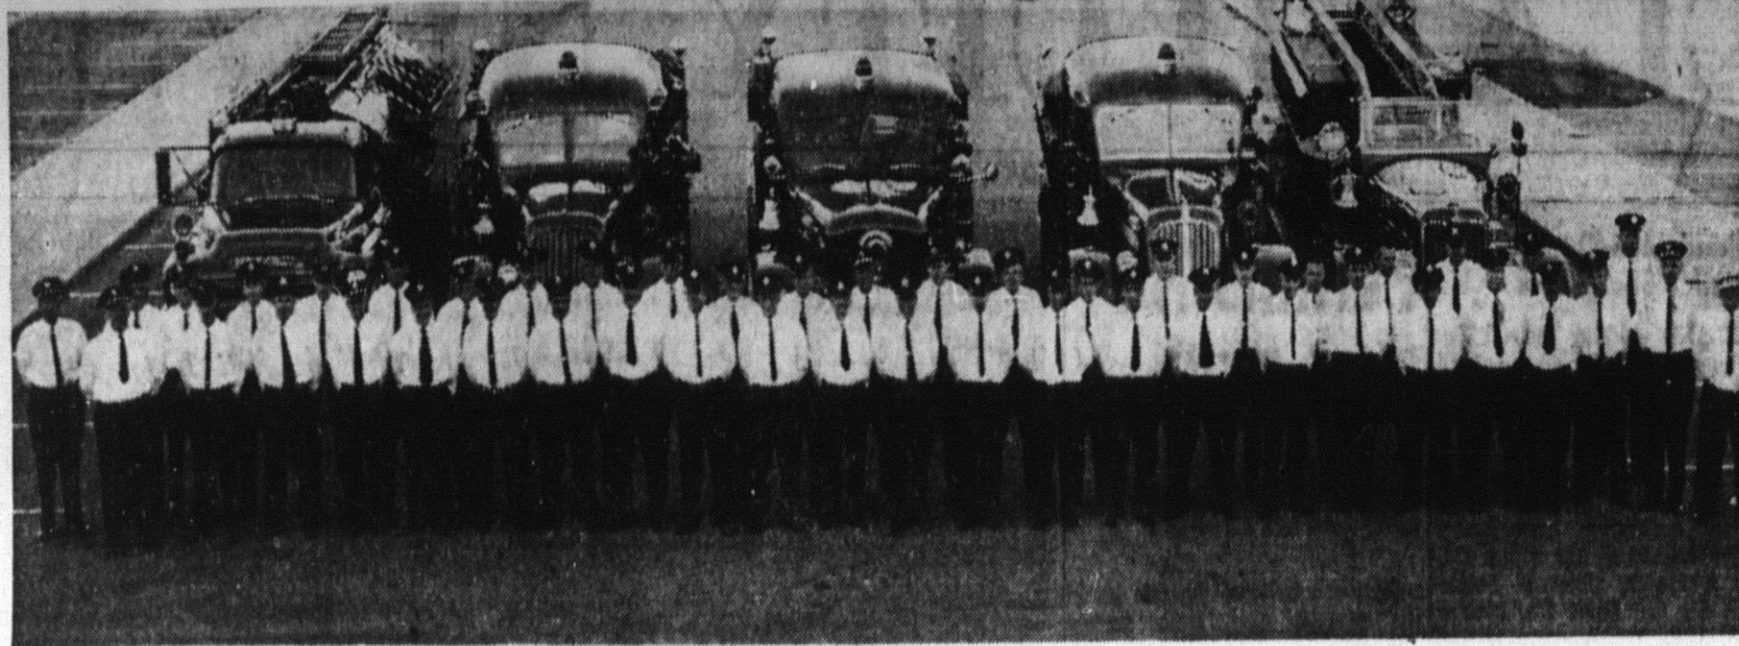

Kammeraad and Stroop, local architects, will complete architectural plans and specifications for gymnasium alterations in the West Building with bids to be taken in April and construction to begin immediately after school is out in June.

Vice President Harvey Vuter, presiding in the absence of the president, commented that a good share of the remodeling and renovation in junior high buildings was prompted by orders from the state fire marshal.

HHS Among Significant New Schools in America

Holland's new senior high school is the subject of a booklet entitled "Profiles of Significant Schools."

put out by the Educational Facilities Laboratories, Inc., of New York City.

In addition to the story of the new highly flexible school program, the booklet contains several highly artistic photographs by Baltazar Korab, top Detroit photographer previously retained in Eero Saarinen architectural work. Korab was on campus for three days early in February when several inches of snow covered the ground. Later James J. Morisau, editorial assistant for the New York firm, spent several days in Holland compiling material.

Educational Facilities Laboratories, Inc., was established by the Ford Foundation early in 1953 with the mission to help American schools and colleges with their physical problems by encouraging research, experimentation, and the dissemination of knowledge regarding educational facilities.

National Fire Prevention Observed During This Week

National Fire Prevention Week started Monday and continues through Oct. 13.

Holland fire officials called on citizens to continue to "make every week Fire Prevention Week" and pointed to the extremely favorable rating given Holland by the Fire Insurance Rating Department of the Michigan Inspection Bureau.

Firemen said that Holland has been given a fifth class rating. It is one of the few cities in the state which has a fire department partially manned by volunteers which is given this favorable rating.

The rating is based on the quality and availability of the public water supply, fire department alarm system, police, building laws, fire prevention program, and on the presence or absence of specific structural hazards.

Officials reported that the fire department consists of 19 full time employees and 32 volunteers. It covers 14 square miles and has two 1,000 gallon pumper, one 750 gallon tanker, and aerial ladder truck and one 2,500 gallon tanker.

The department answered 168 alarms during 1961 and the fire loss was estimated at \$46,810. They also made 1,797 inspections and issued 83 warnings on a total operating budget of \$192,328.

Place mats made up under the sponsorship of The People's State Bank and showing the Holland Fire Department in a photograph will be placed in area restaurants during the week.

Zeeland Drops 33-13 Game To Rockford

ROCKFORD—Scoring twice in the fourth quarter Zeeland's football team averted a shutout as Rockford romped to a 33-13 win here Friday night in a non-league game.

Chuck Schuitema scored on a two-yard run early in the fourth period after the Chix had recovered a fumble. The final Zeeland touchdown came on a 65-yard pass play from Bill Van Eden to Jim Elenbaas. Steve Overweg converted.

Rockford scored three times in the first quarter. The first tally came on a 70-yard pass play from Al West to Steve Fisher. Don Cook converted.

Cook smashed one yard for the second score but the extra point failed. Fisher returned a punt 65 yards later in the period for the third touchdown. The point was no good and the winners led 19-0 at the quarter.

In the second quarter, Cook rushed 11 yards for another touchdown and Mike Hoekstra converted. West scored on a three-yard smash and Hoekstra converted to end Rockford's scoring.

The setback was Zeeland's third in four starts. The Chix gained 96 yards rushing and completed 11 of 19 passes for 130 yards. Rockford gained 204 yards rushing and hit five of nine passes for 125 yards.

West Ottawa Records Win

West Ottawa's cross country team scored a very impressive victory, 23-28, over Hudsonville Unitarian in a meet held at West Ottawa Friday afternoon.

Ernie Ver Hage finished first in a time of 10:32 for the Crusaders. Tom Rozema was fourth. Duane Overbeek led most of the race but finished second in a time of 10:48. Overbeek was followed six seconds later by Bruce Johns. Marty Sosa, Panther captain, finished strong to capture fifth place.

Bill Tazelaar, a real sophomore surprise, finished in sixth place and Rodger Borman finished the best he has all year to grab seventh place.

Other strong finishers for West Ottawa were Tom Fairbanks, Tom Vitzthum, Claire Vanden Bosch, Dan Wehmeyer and David Rotman.

The Panthers travel to Johnson Park next Tuesday to complete their Grand Valley dual-meet season against Grand Rapids Godwin Heights.

Klompens dancing for the 1963 Tulip Time festival was assured here Monday night with an offer of the Holland Junior Chamber of Commerce to the Board of Education to pay expenses connected with training the girls.

Roger MacLeod, vice president, and Paul Van Kolken, secretary of the Jaycees, explained that the organization had voted to pay the \$300 usually associated with klompens dancing instruction in the school budget. This had been cancelled through the austerity program.

Through an oversight, the Jaycees had overlooked the \$100 usually paid the home economics department in supervising costumes, but the spokesman felt the Jaycees would give further consideration to this point. To keep the "gift" on a business-like basis, the Jaycees drafted a contract which was turned over to the schools committee to study with Jaycee officers.

Another indication of public aid in the current austerity program was manifested in the successful Athletic Boosters program which has yielded more than \$4,000 to assure fall, winter and spring sports in the high school.

Richard De Witt, chairman of the booster program, explained aspects of the campaign and emphasized the boost in morale that resulted in working together, plus some help from a winning team. He said the program received tremendous support from all over the city, resulting in a fine school spirit which he hoped would continue. He felt selection of a "star of the week" would promote further interest in the sports program, but said he had received some opposition to the plan.

On recommendation of Supt. Walter Scott, the board approved a study and an assembling of needs of public schools on all levels for funds from the National Defense Education Act which has earmarked \$1,953,417 to Michigan for equipment and/or minor remodeling for science, mathematics and foreign languages. Nov. 1 is the deadline for filing the application in this last year of a five-year series 1958-63. Funds received must be on a near matching basis for purchases to be made by June 30, 1964. Several science teachers outlined their programs and needs for the future. This program will be worked out with the finance committee.

Supt. Scott described the plight of several school systems in Ottawa county caused by operation problems in association with the 15-mill limitation. Home rule cities, Scott said, share this 15 mills between school and county, and other districts share the 15 mills with schools, townships and counties.

Scott objected to certain county practices in which fines, fees, etc., are not entered in the annual budgets as revenues as well as the fact that no gross receipts are listed. He also protested the fact that during the year certain monies in excess of county needs are transferred into a building fund. He said the county legally has a right to do so, but he questioned the fairness of reducing the school operating millage by doing so.

He said the schools' only recourse would be to have superintendents of districts in the county all file objections and particularly insist that capital outlay issues such as new jails and detention homes should be voted upon by the people, the same as people must vote new school buildings.

Scott also announced that Nov. 21 is the date set for a team visit to Holland in connection with North Central accreditation.

Junior High Principal Earl Borlace said by reducing some classes and making other adjustments, study halls are now in progress all hours of the day in the Junior high schools with teacher supervision, effective Oct. 8. Previously study halls just before and after lunch and before the close of school in the afternoon had been dismissed and junior high leaders felt this was not in the best interests of schooling for those of junior high age.

A request for consideration on the school's transportation policy as it might affect Federal School was referred to the schools' committee.

Vice President Harvey Butler, who presided in the absence of President Bernard Arendshorst, called attention to the fine booklet, "Profiles of Significant Schools," a study of Holland's new high school

Sen. Geerlings Denies Charge By Lesinski

LANSING — Sen. Clyde E. Geerlings, R-Holland, said today a Democratic candidate is misrepresenting the Senator's sentiments about the Republican gubernatorial candidate.

Lt. Gov. T. John Lesinski told a Benton Harbor audience Thursday night that Geerlings has indicated he "has no use for (George) Romney."

"The lieutenant governor's statement is the silliest thing I have heard in my 12 years in the Senate and the lieutenant governor knows it," Geerlings said.

"I have 12 billboards donated to my campaign in Ottawa and Muskegon counties and these carry the name of George Romney in good sized letters, indicating that I am doing my best to elect him," the senator said.

"I have had several pleasant interviews with Mr. Romney," said Geerlings. "In one of them he made the statement, 'Geerlings, you and I are not as far apart as many people seem to think.'"

"Neither Mr. Romney nor I believe that we will always think alike," Geerlings said. "To me that is a healthy situation but that is entirely different from the lieutenant governor's indication that I have no use for Mr. Romney. I highly respect him and the job he is doing."

Fresh Water Is Michigan's Top Resource, Club Told

The world has just as much water as it ever had, but the problems of a growing population result in plenty of complications, Dale Granger, hydraulic engineer for the Michigan Water Resources Commission, told the Holland Garden Club at a meeting Thursday afternoon in the Woman's Literary Club.

Confining his comments chiefly to Michigan, Granger described

the Great Lakes area as the largest and greatest fresh water resource in the world, adding that no community in Michigan is more than 85 miles from a Great Lake water supply. Yet, many communities have water problems in Michigan, not because water is not available but because of distribution problems and high costs of installing transmission lines and treatment plants.

These distribution problems, he said, are caused mainly by man's increasing use of water. Per capita use of water used to be 100 gallons a day per person covering personal and industrial needs, but now it has increased to 200 gallons, and in the case of Chicago 230 gallons. This increase is accounted for mainly in modern appliances and modern industrial processes.

Michigan has an average rainfall of 31 or 32 inches a year. This statistic becomes significant when one realizes that one inch of rain on one acre of ground amounts to 1,000,000 gallons of water. Of the total precipitation, 10 or 11 inches go into runoff into streams and lakes and eventually into the ocean. Another 20 to 21 inches go into the evaporative process, much of it through plant life and back up into the clouds. Very little seeps into the ground water table which is tapped for well supplies, and considerably less goes into the deep water table.

Granger said Michigan's rains come mainly from the warm air masses from the Gulf of Mexico meeting cold fronts from Canada. Because of Michigan's great water resources, he predicted a reverse of the great migration to the Southwest in another 20 years because of the growing need for fresh water supplies.

He said Detroit River, the main source of water for 52 per cent of Michigan's population in three southeastern counties, has enough water to supply the daily needs of every man, woman and child in the United States. The Detroit river drains water from the three largest of the Great Lakes.

On the whole, Granger said industry is doing a good job of protecting water supplies, but of growing complications there is still much to be done and he commended the club for its move last spring in attempts to improve Lake Macatawa and the Black River basin. A brief preliminary report of the watershed survey conducted by Paul Lucas and Richard Brand was presented, and will be correlated later with information of the Water Resources Commission.

Granger said detergents do an excellent job of cleaning but since the basic petroleum derivative does not react to normal treatment, detergents have caused no end of trouble in certain areas served by ground wells. "Finding a head on a glass of tap water similar to that in a mug of beer can be a shattering experience," he said.

He said the soap industry is spending millions in research, both in sewage treatment methods and in new detergents. He said a new soft detergent amenable to conventional treatment has been developed but as yet cannot be produced economically.

While a great share of impurities in fresh water come from mismanagement of water on the soil in rural areas, Granger pointed to the constant need of controlling industrial wastes, proper sewage treatment and wastes from pleasure craft. In general, the law reads that no one can discharge waste into a stream that would render water unfit for persons downstream or injure fish or water life.

Mrs. Joseph Lang presided and Mrs. Frank Fleischer introduced the speaker. Junior Garden Club activities for the year will get under way with a conservation meeting Oct. 15 at 3:45 p.m. in Herrick Public Library. Mrs. Carl Harrington and Mrs. R. B. Champion poured at the tea following the meeting.

Also present were Sam Stephenson and Roger Stroh of the Holland Department for Environmental Health and Dr. Ralph Ten Have, director of the Ottawa County Health Department.

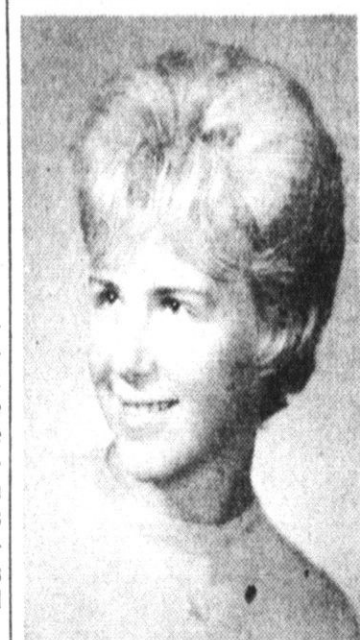

The first electric street railway in the United States was opened in Baltimore, Md., on Sept. 1, 1883.

FALL COLORS

One does not have to go many miles from this area to find nature in all its glory. The beautiful crimson, gold and amber foliage can be found on many of the streets and side roads all around the two counties.

Many people take advantage of the short distance and spend a few minutes of their time viewing the countryside while going to and from work. There are many places in our great state of Michigan, this time of the year, that cannot be surpassed for fall color.

Some people are busy with their fall work and this could be a drawback in finding the time to drive around the area to enjoy nature's autumn glory before it withers.

There are many small tasks to perform such as washing the windows after the screens have been taken down. Before storm windows are installed they should be checked for the necessary repairs.

Many people have already started work on the leaf raking, the tulip bulb planting and the transplanting of plants that must be moved indoors. The city will be working on their leaf removal so when you are raking your leaves be sure and place them at the curb so they can be handled by the city leaf loaders and trucks.

Children should be reminded that it is very dangerous to play in the streets in the piles of leaves. Safety first is a good thing to remember.

The weather man has predicted some mild weather for the week so this is a good time to try and work in the viewing of the fall colors. We suggest that you take a trip around the area and see for yourself.

Sunday School Lesson

Sunday, October 14
God
Acts 17:22-29; Psalm 145:8-13
By C. P. Dame

Last year, on Layman's Sunday, Astronaut John Glenn preached a sermon in Arlington, Va., on the subject "Why I Know There is a God." Soviet Cosmonaut Gherman Titov recently said, "I don't believe in God."

Communism is atheistic. It is tragic that so many millions of people live under the rule of atheists. The world needs millions of people who have a firm belief in God and show it in their lives.

1. The Bible teaches that God is our Creator. The Bible does not give any arguments for the existence of God—it takes this for granted. Paul preached in a number of ancient cities. On his second missionary journey Paul came to Athens in Greece.

This city was once great but its fame had faded when Paul came there. As he walked about the city he was stirred by the many idols he saw there. Paul talked to people about the gospel. He got an invitation to speak at Mars' hill and accepted it.

His audience was composed of Epicureans and Stoics. The former taught that pleasure was the sole end of life. By pleasure they did not mean the sensual type. The Stoics were followers of Zeno who believed that God created the world and that all things were fixed by fate and that men should be masters of their passions and affections. Paul always considered his audience.

Paul preached about God. His approach was diplomatic: "Ye men of Athens, I perceive that in all things ye are too superstitious—very religious—as the new version puts it and then he told them about the altar with the inscription, 'to an unknown god' on it.

Then he told them about God the Creator, the Ruler, Preserver and man's Benefactor, upon whom man is dependent. He had a great subject and made an address we still like to read.

II. Paul's God reveals Himself in two ways—through nature and the Bible. After telling his hearers that they are, as their poets said, God's offspring he said to them that they had too low an idea of God and of themselves. They made images of God and misrepresented Him.

Man must know God aright before he can worship Him as He ought to be worshipped. Paul tried to portray God so that they would know, worship, and serve Him aright. At the close of his address Paul spoke of the judgment day, of Christ, whom God raised from the dead and urged them to repent. Some mocked, some postponed and several believed.

III. God is man's Benefactor. The second part of the lesson is from Psalm 145. The psalmist says that God is "gracious and full of compassion: slow to anger and of great mercy." "We who have the New Testament know this even better than the Psalmist because we have the story of Jesus Christ who has revealed God to us in a clearer fashion.

Creation praises God. It is most pleasing to God when His people speak of His glory and talk of His power and tell of His kingdom.

In these days the worldly people talk about the marvelous achievements of man but God is not in their minds and their lips mention Him not. In times when millions do not believe in God and may slight Him, let us who know Him talk far more about Him, and the joy of serving Him.

All Sports Dinner May Be Staged

Members of the Inter-Service Club Council are studying the possibilities of an all-school, all-event sports banquet to be held sometime in the spring, but prior to Tulip Time (May 15-18).

The project would be sponsored by the Inter-Club Council and plans would be made to secure a "top" speaker for the event.

Council members will meet Tuesday noon, Nov. 6 in the Captain's Room of the Hotel Warm Friend to further discuss the proposal.

Persons interested in such a project, especially as to a speaker, may contact George Hillis, Inter-Club president, prior to the Nov. 6 meeting.

The project would include athletic teams from Hope College and Holland, Holland Christian and West Ottawa high schools. It would include all sports but may be limited to senior athletes.

Ed Lindgren initiated discussion on the project at the October meeting of the group last week. Hillis regarded the event as "a real community effort for all of the service clubs and something that everyone can be a part of and take part in."

One suggestion for financing such a project, Hillis reported, was that each man attending would buy two tickets so that he could have a youth as a guest.

Each member of the Inter-Club Council was asked to present the idea before his own club for discussion and to enlist the support of the respective club.

Hudsonville Chalks Up Fourth Straight Win

BYRON CENTER—Hudsonville's football team crushed Byron Center, 35-0 here Friday night for its fourth straight win and third in OK League action.

The Eagles, featuring a strong balanced attack, scored the first three times they had the ball. After Byron Center punted, Hudsonville took the ball with eight minutes left in the first quarter and quarterback Bob Nyenhuis climaxed a 40-yard drive with a two-yard sneak. The extra point try failed.

Three minutes later the Eagles scored again as Keith Abel ran 32 yards to cap a 50-yard drive. Nyenhuis passed to Jim Walman for the extra point and Hudsonville led 13-0 at the quarter.

In the first minute of the second period, Nyenhuis fired a 10 yard pass to Larry Waite for the third tally. Nyenhuis passed to Walma for the extra point and the Eagles led, 20-0 at the half.

Carl De Cator opened the second half with a sparkling 75-yard kickoff return. He was hit at mid-field, spun around and continued the rest of the way. He was aided by good blocking on the run. The extra point failed.

Nyenhuis scored again with 5:14 left in the third quarter on a sneak and then converted. Russ Van Zoeren tackled a Byron Center ballcarrier in the end zone for a safety in the fourth quarter.

Coach Dave Kemper lauded the defensive work of the Eagles. They allowed Byron Center only three first downs in the first half and didn't permit Byron to penetrate beyond the Hudsonville 25-yard line.

Only one time did the losers get to the Eagles' 25 as most of the play was at mid-field. Kemper also was pleased with the offense and the work of his reserves.

Reserves filtered the line up throughout the game and Kemper used a total of 33 players. The Eagles host Wyoming next Friday night in an OK League game.

Dutch Nip Bucs, 20-19 In LMAC Play

A fighting Holland High football team hung on here Friday night to take a 20-19 victory over Grand Haven in the Riverview Park fog before 5,300 fans for its second LMAC win and its third decision in four starts this season.

It marked the first time Holland has defeated Grand Haven since 1955 and the big pair of wooden shoes, symbolic of the game, will be returned to Holland. It was Grand Haven's first loss this season.

The victory puts the Dutch in third place in the LMAC with a 2-1 mark. It was Holland's third straight win and it again proved a thriller as the Dutch had to fight off a determined Grand Haven fourth quarter rally. The entire second half was played in heavy fog.

For the third straight time the encounter has been decided in the closing seconds. Against Niles and Muskegon Heights, the Dutch scored late touchdowns to win while against the Bucs they had to preserve what they already had, a 20-19 lead.

And Grand Haven made it tough as they drove to the Holland 15 from their own 20 in the final four minutes. The Bucs threw and end zone pass on the last play of the game that was knocked down by Vern Plagenhoef.

Grand Haven scored first when Larry Prelesnik knifed one yard to climax a seven-play 53-yard drive after Holland's Tom Essenburg fumbled the initial kickoff return on the Dutch 47. Prelesnik converted with 8:32 gone.

Then Holland took over and the Dutch put their passing game into action. Holland drove 66 yards and a 30-yard pass from Jim De Neff to Darrell Schuurman provided the touchdown with three minutes left in the period. Schuurman converted, a Plagenhoef to De Neff pass for 15 yards was another key play in the drive.

With 8:11 left in the second quarter, Plagenhoef found De Neff in the secondary and the big junior halfback got away from two Grand Haven tacklers and scored. The play covered 46 yards. Schuurman converted and Holland led, 14-7 at half.

Holland opened the third quarter with its final touchdown a five-yard off tackle smash by De Neff. The tally was set up when Tom Deputy intercepted a pass on the Bucs 35 and returned to the 29. De Neff followed with 15 and then De Neff ran home. Rich Wheeler blocked Schuurman's kick.

Grand Haven drove 63 yards for its second score and Prelesnik cracked the final two yards with 4:19 left in the third period. A fumble prevented the extra point try.

Jim Wennstrom recovered a Holland fumble on the Grand Haven 45 and four plays later Wheeler rolled out for 31 yards to score Prelesnik's kick failed.

Holland took the kickoff on its own 27 and drove to the Grand Haven 20 but were stopped. The Bucs took over with 4:18 remaining and with four runs and three complete passes were on the Holland 35 with 11 seconds left.

A pass interference penalty put the Bucs on the 15 with three seconds left. Plagenhoef then knocked down the pass as time ran out.

The Dutch gained 143 yards passing, 116 in the first half while 87 of the rushing yards were picked up in the first half. Grand Haven made all of its passing yardage in the second half and 11 of its rushing yards.

Holland plays at Traverse City next week in an LMAC game. Grand Haven now has a 2-1-1 record and is 0-1-1 in the LMAC.

Zeeland Bank Installs New Machines

ZEELAND — Automation, which has come to signify the highest degree of efficiency in modern industry and business, is the new bookkeeper at main offices of the First Michigan Bank and Trust Co. of Zeeland.

The name is Post-Tronic, a new electronic system of bookkeeping. It consists of three compact office machines that can do more work between 8 a.m. and noon than several girls used to do in a full banking day — and without mistakes.

Veneberg, Leon Bekius, Cathy Bartels, Randy Brady, Dwight Vander Zwaag, Vaughn Stegenga, Mary Ann Glen, Vernon and Barbara Boers, Florence Kuite assisted Mrs. Boers with the entertainment and refreshments.

Every day the machines process some 4,000 checks written by the bank's checking account customers of Zeeland, Hamilton and Alendale offices. There bank has three types of checking accounts, commercial, Easy Check and the new First-O-Matic announced this week. Bookkeeping on all of them is done by the new equipment, according to Vice President Robert J. Den Herder.

Starting with a special adding machine, checks deposited the previous day are sorted into groups and entered. The operator lists the account number and amount of the check on punched tape which is then fed into an electronic reader. The reader scans the tape, learns who wrote the checks and how much, and passes this to the bookkeeping machine.

The bookkeeping machine flips through the armload of ledger sheets which have been inserted into it, picks out the right ones as directed by the reader, prints the amount of the check, subtracts it from the total on deposit and prints the balance.

Vern Plagenhoef ... 'player of week'

Plagenhoef Is Honored

Vern Plagenhoef, Holland High junior quarterback, today was named "player of the week" as he received the unanimous vote of the coaches and judges, Big Dutch Booster Club officials announced.

Plagenhoef was honored for his part in Holland 20-19 victory over Grand Haven last Friday in River-view Park.

Boosters Club judges said "Picking one star from a galaxy is not easy but, in the final analysis, the intelligent field generalship which Plagenhoef displayed throughout the game has to be recognized as a key factor in producing the points necessary to win and his alert defensive play in knocking down two potential touchdown passes in the closing seconds confirm his selection as player of the week."

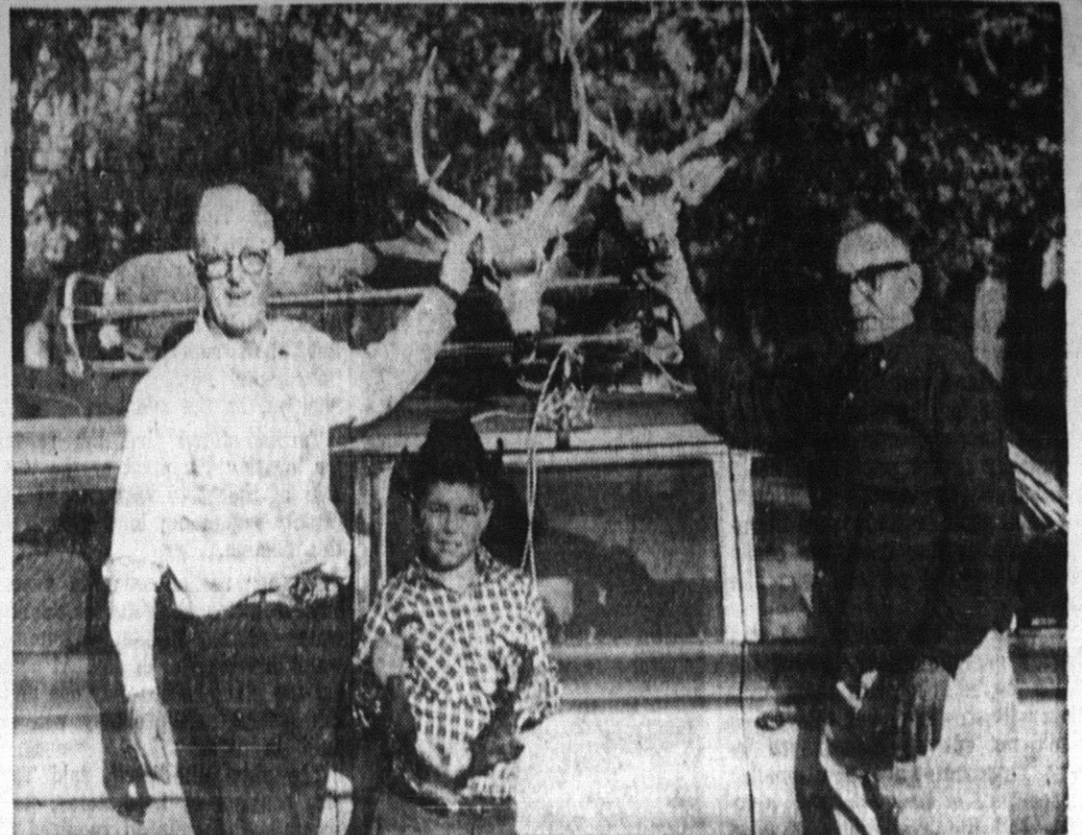

The Boosters pointed out in making the decision that heavy emphasis was placed on the "fine play of the entire team which produced and protected the important margin of victory in a game that was hard fought from the opening kickoff to the final second."

"Aggressive line play of Dick Sawicki, Dan Hill, Steve Bronson and Tom Pelon were particularly evident in analyzing the films of the game and equal credit should go to (Art) Gonzales for able replacement for the injured Jim Hosta.

"Backs Tom Depuydt, Jim De Neff and Tom Essenburg contributed much to the performance with their stellar play on both offense and defense," the Boosters said.

The Boosters thanked persons attending the game for their "enthusiasm and support which is an essential part of the winning margin in any athletic event." "Your loyal support is an important ingredient in this already well-launched program to establish Holland as a power to be reckoned with in LMAC athletics," Boosters Club officials said.

Advance of U.S. Paperbacks Great Boon to Literature

The advance of the American paperback the last decade is the greatest boon to literature of all time, according to a noted Dutch literary critic who is visiting Holland, Mich., and lecturing in Hope College.

Dr. Adriaan van der Veen, literary editor for the Nieuwe Rotterdamse Courant, said the rise in popularity of the paperback book, particularly in reprints of old classics and good contemporary literature, makes fine literature easily available to all persons who like books.

Like American critics, he was hardly complimentary toward the early paperbacks with their lurid cover illustrations, but this phase while not entirely discouraged today represents a much smaller percentage of the paperback market, and the availability of good literature at low prices more than balances this drawback.

Any novel which has three printings almost automatically goes into paperback and usually sells for more copies in paperback than in hard covers. The visitor said most American novels call for an initial printing of 3,000 to 5,000 copies, much the same as a Dutch novel. But the first paperback issue is usually 20,000 and if there is a real demand, the printing goes into the hundreds of thousands.

In more recent years, research by printing companies has resulted in better covers and better bindings.

Publishing books in America is somewhat different from the Netherlands where the publishing game follows a more leisurely pace. Dr. van der Veen said. The market for Dutch books covers the Netherlands and approximately half of Belgium or some 17,000,000 persons. Dutch books usually are on the market two or three years before they hit paperbacks. But in America, books of any merit at all are widely reviewed and hit the market with a splash. An American book is never put into paperback while it is on the best seller list, but contracts for paperbacks often are signed far in advance.

The Netherlands has few contemporary writers whose names are familiar to American readers. Perhaps the name of Jan de Hartog, author of "The Fourposter," is most familiar to American literary critics. Hendrik Willem van Loon is claimed both by the Netherlands and the United States. Another Dutch author, Willem Frederik Hermans, has a translation of one of his books in English under the title, "The Dark Room of Damocles." Dr. van der Veen also has a novel, "The Intruder," translated into English and has another new novel which soon will come out in America, the title of which has not been determined. "The Intruder" actually is written against an American background, the story of a New Yorker who marries a Dutch girl of Jewish descent.

Dr. van der Veen also mentioned Hans Herman's new book on William Randolph Hearst which has been published in Dutch. Dr. Hermans, currently living in Curaçao, Netherlands Antilles, has visited Holland, Mich., on many occasions and after he consulted Paul de Kruif, distinguished American author who makes his permanent home on Lake Michigan a few miles south of Holland.

While lecturing on Dutch literature in various colleges and universities, Dr. van der Veen is doing research for a literary supplement on American literature to appear in the Rotterdam newspaper.

His lecture tour, arranged by the Netherlands Information Service, took him to Wayne State University, the Women's Club of Grand Rapids and Hope College last week. On Sunday he was in Ann Arbor to deliver two talks on European literature at the University of Michigan and then left for Northwestern University and the west coast.

The literary critic is accompanied by his wife, the former Jeanette

\$15,000 Fire Hits Grand Haven Plant

GRAND HAVEN—Fire of undetermined origin at National Products Co., 725 Taylor Ave., at 6:15 a.m. today resulted in some \$15,000 damage, mostly smoke and water damage, according to Fire Chief Henry Hoebeke.

Fireman found the paint spray room completely ablaze. Since there was no door between this room and the main shop, smoke enveloped the entire place and water covered the floor area.

Employees had left the plant at 1:15 a.m. today. The building is owned by N. A. Eggert of Spring Lake.

William Turpin Addresses Club At Noon Meeting

Harvey Tinholt was in charge of the program of the Holland Noon Optimists on Monday in Cumerford's Restaurant. He introduced William Turpin, Assistant plant superintendent of the Consumers Power Co. at Port Sheldon, as the speaker.

Turpin stated that the reason for locating the plant on the west side of the state was due to the rapidly expanding load growth in this section.

Another reason was the necessity of the availability of cooling water as 172 million gallons of water are used each day. At present the plant houses only one unit, the second unit probably will be built in 1966.

The plant site itself, said Turpin, consists of 1,300 acres, with six miles of railroad required to haul the 2,000 tons, or about 40 carloads, of bituminous coal used daily.

Other facts given by Turpin were that the stack, which really consists of two stacks, one inside the other and not touching, is 400 feet high. The walls and foundation required 38,000 cubic yards of concrete.

Instead of using rivets in the construction he stated that 190,000 high tensile bolts were required in the building of the plant.

A question and answer period followed Turpin's talk.

President Al Dyk asked George Hillis to report on an inter-club meeting which was held with the idea of the possibility of all service clubs uniting in sponsoring an all-out athletic event in the future. After discussion it was decided to look further into the possibilities.

Editorial Sparks Column

Ed Brolin of Holland, a Rockford, Ill., native and ardent tennis enthusiast, sent W. A. Butler's editorial in the S. Sentinel "A Plug for Tennis" to Barney Thompson of the Rockford Register-Republic and Thompson responded in his column.

Writing the column under the title Column Left, Thompson included portions of the editorial in his column. Thompson and Brolin are longtime friends and their mutual interest centered around tennis.

Thompson wrote that Brolin was an "ardent tennis fan and player. His height made him quick and impressive on the court." "Column Left" liked tennis and played it earnestly, but he was no competitor for Ed Brolin either in speed, reach or skill."

Brolin sent the editorial to Thompson since it reminded him of one Thompson had written "a dozen or so years ago." Brolin noted in the letter to Thompson that he was playing tennis along with his three youngsters, Bob, L. Colleen, 10 and Betsy, 7.

The editorial said in part "Those who play tennis often enough to keep in trim can play the game into the 30's, the 60's and even higher. Even those who are not very good at tennis can get a lot of enjoyment out of it, decade after decade."

GRAND HAVEN—Mrs. Signe I. Hayward, 42, route 4, Holland, who was returned from Cicero, Ill., after jumping bond in Ottawa Circuit Court, pleaded guilty Monday before Judge Raymond L. Smith. She is charged with violating the state narcotics laws.

Mrs. Hayward was arrested by state police last July and was released on bond following an examination in Municipal Court. She failed to appear on two occasions and recently sheriff's officers and state police returned her to the county jail.

Officials had appealed to her to return to Holland to her husband, Ernest, 51, who was critically ill at Holland hospital. He died Sept. 7 three weeks before Mrs. Hayward was returned to Grand Haven. She will be sentenced following an investigation by the probation officers.

Wilfred D. Harwood, 50, and Ronald Benkert, 40, both of Muskegon Heights, had morals charges reduced to disorderly conduct, and were placed on probation for two years. Each must pay \$100 costs. Arthur Tennant, 47, and Paul Arnold, 37, both of Green Bay, Wis., pleaded guilty to simple larceny, and were sentenced to serve 30 days in jail. They already had served that period.

729 Register As City Voters

Long lines formed at the city clerk's office in City Hall Monday for the deadline for registering for the Nov. 6 election.

When the 8 p.m. deadline had passed, City Clerk D. W. Schipper counted 293 newly registered voters for Monday alone, and a total of 729 since the August primaries. This puts the city's total registered vote at 12,584.

Holland Township Clerk Maurice Vander Haar also had a busy day and registered 171 new voters on Monday, making the total since August 275.

Zeeland city registered 46 new voters Monday and 101 since August.

Zeeland Township registered 30 on Monday and 50 since the August primaries.

Laketown Township registered 51 since last August.

City Clerk Schipper said Holland's registered vote is at a record high, but expected the figure would be reduced somewhat by Nov. 6. Removal of deceased voting records is done constantly. Schipper expects notices from other clerks in Michigan on persons who have moved, thereby reducing the total further. Total registered vote for the presidential election in 1960 was 12,412 or 172 less than the current total.
