The home is what you make it

Fix things about the interior in an attractive manner, have the symbols of comfort at every turn, make the home an attractive spot for every member of the family; a place at which the compliments of pride may be passed by your friends, and there's the ideal domestic life. The furnishing of the home is not all, to be sure, but it's very much. We make it our business to care for the interior of the home.

We have just received a new line of draperies. They are new and up-to-date. A few dollars spent in draperies put that finishing touch to the home. Give us the pleasure to show them to you.

CITY AND VICINITY.

There is talk in Grand Haven of building an automobile factory there.

Residents of Hamilton say that hunters from Holland are fast depopulating the rabbit colony.

Lewis W. Moore has been appointed postmaster at Dennison to succeed M. C. Golden, who was murdered some months ago.

Henry Grevengeod, charged with non support, pleaded guilty in Justice Wachs' court and was allowed to go home on his own recognizance to appear in thirty days for sentence.

Arthur Hilliards, the defendant in the recent barber's itch case, who was sentenced to pay damages and costs amounting to \$20 in Justice Miles' court, has appealed his case to the circuit court.

Mr. and Mrs. Henry Winter, who have spent most of the past six months with her parents at Saugatuck, have returned to Holland and are occupying their newly purchased home at 136 West 11th street.

Mrs. H. D. Post has received a card from M. Everett Dick, written September 22, when within 18 days of Cape Town, South Africa. He wrote that he was feeling well; that the steamer passed through a cyclone September 9, losing 200 tons of coal. Mr. Dick was formerly science teacher in the high school.

The regular October teachers' examination was held at Grand Haven last week and there was a very small attendance. There has been an attempt on the part of the board to prepare all teachers before the October examination and the small number of applicants is due to this fact, principally. Those who wrote were: Gertrude Heck, Zeeland; Georgianna Alford, Berlin; F. R. D. 2; Verona Elizabeth Clark, Spring Lake; Edyth L. Lull, Coopersville.

Some of the buyers, who had contracted for apples by the barrel, refused to take stock after the fruit had been frosted, claiming that it was not fit to go into cold storage. Other buyers are now buying up this same frosted stock, paying as high as \$1.75 per barrel for it, and are making good money on it. Some fruit was so badly frozen that the juice is dripping out of the apples as they hang on the trees. Such stock can only be used for cider.—Fennville Herald.

The tax rate in Holland this year is \$1.57 per \$100, which is four cents under last year's rate. The sum of \$89,023.92 must be raised by Holland in taxes and this amount is apportioned as follows:

City	\$48,010.00
County	8,008.13
State	10,845.12
School	22,000.00
Rejected tax	18.59
County poor	142.08
Total	\$89,023.92

The valuation of Holland has been fixed at \$5,675,320. The decrease in the rate over last year is due to a decrease in the state and county tax.

A mammoth new boat house will be built by the Macatawa park association before next season. The building will be 112 feet long and have a capacity for 66 boats. A large number of steel row boats will be purchased for the livery at the park. These boats will be sheltered in the new building instead of in slips and by the new arrangement patrons can step into a boat and be lowered on a skidway into the water. Albert Tanner has renewed his lease of the livery. The numerous boat houses which dot the shore will be removed and alterations on the bay front will be made. The association has donated to the United States a strip of land 50 feet wide and 200 feet long on the Ottawa Beach side of the harbor adjoining the north pier for the purpose of making a wider channel at the inner end of the piers.

A daughter was born to Mr. and Mrs. W. Laepple at their home in Zeeland, Sunday, October 15. They formerly lived in Holland.

Robert De Bruyn, formerly of Zeeland, intends to start a bakery in this city. He moved his family here this week.

For the convenience of the Hope College students who live in Zeeland, the Interurban runs a students special from Zeeland which arrives here at 8 o'clock.

Benjamin Brouwer has bought of Henry J. Wickering a lot on West Sixteenth street upon which he will build a modern residence.

Lieutenant Ballinger, inspector of life saving stations, paid his regular inspection trip to the Holland station last Friday and found everything in good condition.

Circuit court will convene November 5, but Judge Padgham will adjourn the sessions for one week on account of election. The jurors have been so notified and they will not be present at the opening of court.

Tuesday morning Judge Padgham sentenced Fred Sessions, of Fennville, convicted of manslaughter for the killing of his brother in law, Manley Bushee, to Jackson prison for a term of not less than seven years nor to exceed 15.

Mrs. Chas. Seales, of Saugatuck, died at the U. B. A. hospital in Grand Rapids Monday. She was 33 years old and is survived by a husband. The remains were sent to Saugatuck for burial.

Miss Emma Kantelehn, daughter of Mr. and Mrs. Fred Kantelehn, of Muskegon, formerly of this city, died last Saturday morning at the family home in Muskegon at the age of sixteen years. Typhoid fever was the cause of death and one of the sad features in connection is the fact that the same disease four weeks ago caused the death of her brother Otto. Besides the parents two sisters survive. The funeral services were held Monday, the body being brought to this city for burial.

John Sporbeck of Nunica has the honor of being the first purchaser of a deer license in Ottawa County this fall. Mr. Sporbeck is a man sixty years of age but every fall finds him in the north woods engaged in his favorite pastime, hunting big game. He is a hunter of prowess too, and likes nothing better than life in the open. Others who have taken out licenses are: Hial Wilson, Spring Lake; William Warner, Spring Lake; A. Griswold, Nunica.

The G. R. H. & C. Interurban railway will change the present waiting room in Saugatuck as their new headquarters are being made ready in the building which they recently purchased from Mrs. Leeland. This building has been moved about twenty feet back from Butler street, and the same distance from Cuiver street to allow for a wide platform which is to be built on both side and end. There are some rails on the ground and it is understood that a longer curve will be made in the track of the loop.

Gov. Warner received a telegram last week at Cadillac to the effect that Democratic friends of Mr. Kimmerle had searched the books at Lansing for statements of the expense account of the governor and not finding anything or any account upon that matter regarded it as a suspicious circumstance and were hopeful of uncovering some concealed graft. Friday morning, for the first time and in a public manner, Chairman Diekema, in the meeting at Lake City, touched upon this subject and it is condensed in the story of the school boy who, longing for a bite of a tempting apple his companion was enjoying, asked if he might have the core, was answered, "thar ain't goin' to be no core." Gov. Warner has never charged up to the state any expenses whatever. He has made visits to all state institutions to look after their welfare and keep in touch with the situation. He has also traveled on other state business for which he was entitled to his expenses, but he has always paid the bills out of his own pocket. Of this conduct Gov. Warner has not boasted, but has modestly kept silent, but now that the Democrats want information about the matter they have it.

Marshal Kamferbeek returned from Kalamazoo Tuesday morning bringing with him Z. E. Sanford and L. C. Davis, charged with stealing clothing from M. Weller. They pleaded not guilty in Justice Van Duren's court and their trial was set for October 31.

John Ridder, postmaster at Olive Center, who recently forwarded his resignation to Washington, has been advised of its acceptance, the department stating that it would discontinue the office if a successor could not be found.

The Holland Furniture company which let the contract a month ago to F. N. Yonkman for an addition to the plant, has been unable to start work. In order to extend the automatic sprinkling system more pipes must be laid before the addition is built, and although the pipe has been shipped from Virginia it has not arrived.

Jacob G. Riemersma, a pioneer resident of Ottawa county, died last Monday evening at ten o'clock at his home on the Zeeland road. Deceased had been ill but two weeks. A wife and five children survive him, Mrs. L. Brink, Mrs. Peter Timmer and Mrs. Harry Vander Ploeg, of this city, Gerrit, living at home and Rev. G. Riemersma, now in Iowa. The funeral will be held this afternoon at 2 o'clock from the house, Rev. R. L. Haan officiating.

James L. Fairbanks was instantly killed while picking apples in his orchard in Fillmore township last Thursday forenoon. He was standing in a wagon. The horses became frightened and he fell backwards to the ground. Death resulted from concussion of the brain. He leaves a wife and four children, Alva, of this city, Mrs. Anna Loing of Georgetown, Isaac of Grand Rapids, and Oscar, who is attending the Michigan Agricultural college. He was 64 years of age. The funeral services were held at the home Monday forenoon, Rev. A. T. Luther officiating. The members of A. C. V. R. Post, G. A. R., of which Mr. Fairbanks was a member, attended the funeral in a body.

The students of the Wisconsin Memorial Academy gave a reception at the Academy halls on Tuesday evening in honor of the Rev. J. J. Van Zanten of Beaverdam, Mich., who spent a few days among friends in the village this week. An address of welcome was given by Prof. G. Hospers followed by a few songs by school after which Rev. Van Zanten delivered an interesting and instructive speech which was greatly appreciated by all present. After the program the evening was spent in a social manner and ice cream and cake was served. The students and their parents who had arranged this reception showed their gratitude to the Rev. Van Zanten who was formerly their pastor and is also the founder of the Academy, as he has worked hard and perseveringly to have a high school established in our village. The Reverend gentleman has not visited this village since he left his charge here several years ago.—Cedar Grove, Wis., Correspondent to Sheboygan Herald.

Fine Lecture on Medical Subject.

In his lecture last evening at Winants Chapel, Dr. J. M. McCormick, lecturer for the American Medical Association, brought home truths and conditions bearing upon the care of health that were convincing and impressive. His lecture was probably the most valuable ever delivered in Holland.

He told how to avoid the indiscretions that led to disease, and pointed out the evils incident to the use of some patent medicines. Speaking of tuberculosis, he argued that inasmuch as it is a contagious disease a fight to prevent its spread should be waged along sensible and effective lines.

The lecture covered the whole range of medical research as it relates to the prevention of disease and was delivered in a manner that caught the fancy of the audience. Dr. McCormick is able, eloquent and entertaining. Prof. John M. Vander Meulen presided.

After the lecture, a discussion of points brought up by members of the audience occupied over a half hour and it was after ten o'clock when the meeting was closed.

Zeeland.

C. De Jonge who sold two of his houses on McKinley street, during the past week has seven more houses on the same street for sale.

The new school building of Zeeland, School District No. 5, was opened a few weeks ago with Wm. Huyser as teacher. He has, however, obtained an appointment on a rural mail route and Mr. Boone, who lives a few miles northeast from here, has taken his place as teacher in the new school.

Last week a gentleman from Chicago was in Zeeland and through the surrounding country looking up prospects for a cold storage establishment in this community. Although he came to no definite conclusion, he admitted that some point in Zeeland along the railroad was the most desirable location, and that if his project materialized, he would build in Zeeland.

The members of the Holland Citizens Band will give a banquet Monday evening, October 20.

The associate members of the organization and other friends will be invited and a fine time is expected.

Hon. G. J. Diekema will act as toastmaster and a program of speeches, recitations, band concert, and orchestra music will be carried out.

It will be the banner event of the band.

Hidden Dangers.

Nature Gives Timely Warnings That No Holland Citizen Can Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill smelling urine, full of sediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy or sharp and acute, tell you of sick kidneys and warn you of the coming of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Holland proof:

John Lockhart, of 28th street, near Central avenue, says: "I had a constant aching in my loins and kidneys so that at times I could hardly keep around. I could not rest comfortably in any position and after a restless night would get up feeling as tired as when I went to bed. The kidney secretions became irregular, frequent and unnatural. I used different remedies but did not receive any benefit. Seeing Doan's Kidney Pills advertised I procured a box at J. O. Doesburg's drug store and tried them. They did me so much good that I got another box and then another. They cured me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States. Remember the name Doan's and take no other.

If you haven't the time to exercise regularly, Doan's Regulators will prevent constipation. They induce a mild, easy, healthful action of the bowels without griping. Ask your druggist for them. 25c.

C. E. Bird is planning to get some squirrels for the school yard. In a good many cities and villages squirrels have nests in the trees and they are protected by heavy fines for molesting them. The city of Alpena has just purchased 200 which will be turned loose in the city where they will be able to get a living by eating nuts and by the donations of friendly human beings.

Roger Reed is using the earth he is taking from Doc Heath's basement to good advantage by filling in his dock with it. Some time ago he finished making a good dock by driving piles all around his water front then a lot of rubbish or whatever he could get was filled in which made a good foundation for the sand which comes later. The old ice house which was located east of Hotel Butler will be removed and the low place where it stood will be filled up and the whole property leveled off. The coal shed which Mr. Reed used near his former office has been moved west of his livery barn and will be used as an addition to that building and the building now used by the interurban road for a waiting room will be moved to a place just east of Hotel Butler where another story will be added to it and some porches put around it to make a summer hotel. A pavilion will also be built on the water's edge at the end of Butler street next season.

The telephone central will be moved to John Schaberg's building as soon as the busy season is over.

Mrs. Ida Brown has the foundation laid for a summer cottage on her lot near her residence. Her barn will be moved to this location and be rebuilt.

An Open Letter.

To the People of Holland.

To Whom It May Concern: Of late there has been a good deal of discussion in Holland in regard to advertised medicines and their value—the papers are full of them.

We want to say to every man, woman and child in Holland that we believe the most valuable preparation of cod liver oil—the best tonic reconstructer, health restorer and strength creator—we have ever sold in our store is Vinol. Vinol is not a patent medicine, it contains no injurious drugs, but it actually does contain all of the medicinal, curative, elements taken from fresh cod's livers, without a drop of the useless oil to upset the stomach and retard its work, and tonic iron added.

Vinol is recognized throughout the world as the greatest strength creator for old people, weak, sickly women and children, nursing mothers, and after a severe sickness. Vinol cures hacking coughs, chronic colds, bronchitis, and all throat and lung troubles. We ask the people of Holland to try Vinol on our offer to return money if it fails. Con DePree & Co., Druggists.

Note.—While we are sole agents for Vinol in Holland, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

Stops earache in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours—Dr. Thomas' Electric Oil, monarch over pain.

Most disfiguring skin eruptions, scrofula, pimples, rashes, etc., are due to impure blood. Burdock Blood Bitters is a cleansing blood tonic. Makes you clear-eyed, clear-brained, clear-skinned.

Itching piles provoke profanity, but profanity won't cure them. Doan's Ointment cures itching, bleeding or protruding piles after years of suffering. At any drug store.

TAKES VALISE FULL OF BONDS

Railroad Man Locked Up for Error in Taking Handbag.

Cleveland, O., Oct. 22.—George C. Bell, a wealthy citizen of Chagrin Falls, O., near here, lost a valise containing \$48,000 worth of negotiable bonds while coming into this city on a suburban car late Saturday night.

Another valise almost like his was left in its place by a stranger who sat close to Bell.

Bell did not discover his loss until he got off the car, and he then made a report of the affair to the police. After working on the case all day the police Sunday night arrested Leslie O'Dell, a railroad fireman in a nearby suburb and found the bonds in his possession.

O'Dell said the thing was all a mistake, that he did not know that he had taken anybody's property and that he had not even opened the valise. He was greatly surprised when shown the fortune which he had in his possession. All the bonds were intact. O'Dell was, however, locked up, charged with grand larceny, being unable to obtain bail.

MOOSE FOR NEW ZEALAND.

Canada Will Send a Herd to the Antipodes.

An interesting attempt is to be made to acclimatize the moose in New Zealand, and steps are being taken in the dominion to collect a herd of both sexes for shipment to the antipodes.

The moose is a magnificent animal, but, like all beasts of its size, certain to become extinguished at the hands of man in any country where it is not protected.

To say that the bull moose has the heart of a lion would be but to compliment the lion. If the lion had the heart of a bull moose he would be a terrible thing indeed.

But often the courage of the moose assists in his destruction, and his strength is of no use to him against modern rifles. Both in Canada and in the American states, where the noble animal is still to be found, measures more or less adequate have been taken for its preservation; but if its range can be extended, the danger of extinction will be by so much reduced. Science, as well as New Zealand, will be interested in the experiment.—Country Life.

Questions Worth Answering.

Col. Sanger's bloodhounds, when they found three-year-old Raymond Dowd in Nine-mile swamp, near Sangerville, Otsego county, gathered around the boy and licked his face. The child wandered away last Friday when his father was picking hops. An all-night search by 300 men was fruitless. Lanterns were carried and fires built to attract the lad's attention, but he gave no sign. Saturday morning the four bloodhounds arrived. After smelling of a jacket belonging to the lost boy they began searching for his tracks and soon found them. Following a circuitous course, estimated to be ten miles long, they came upon the child lying at the foot of a tree, exhausted from hunger and exposure. There was a tremendous demonstration when one of the horsemen took the boy home perched on the pommel of a saddle, and the dogs came in for their share of the ovation.

Famous St. Bernard Dogs.

Motor cars have been adopted by the monks of St. Bernard, which innovation has caused some people to wonder if the dogs of that famous hospice will be replaced in the life-saving business by automobiles. St. Bernard dogs, whose ancestors are believed to be a Danish bulldog and the shepherd's dog of the Alps, were threatened with extinction in 1812, when, contrary to the rules, the mother dogs were sent out to the dreaded pass. None returned from the terrors of the winter storm and the monks had to seek a new race, which, although not of the ancient strain, was found to be no less intelligent than its blue-blooded cousins. The new dog with its Newfoundland blood very soon became extremely popular.

Flattering the Judge.

Uncle Solon Chase, of Chase's Mills, Me., famous throughout the country as the expounder of the "them steers" doctrine, is as famous locally for his rough-and-ready appearance. He is what some would call plain. On one occasion his friend, Judge Foster, of Portland, who never loses a chance to banter Uncle Solon, met him at the local grange, and said: "Uncle they tell me that you and I look almost exactly alike when we are before the public." Uncle Solon touched the judge in a friendly way and said: "Don't you believe them, Judge; don't you believe them. They are only trying to flatter you."

City Gudgeons Are Easy.

There are certain confidence games so grossly crude that all the victim may expect is a laugh. There is no sympathy for him and he deserves what he gets, which is a lesson in experience. But the representative from the back counties who buys a gold brick, who bets that he can open a lock, who wagers his money upon the location of a nimble pea under a shell compared with the city bred gudgeon, who reads the personal of a "widow" and is moved thereby to "loosen up" is a monument of wisdom, dignity and astuteness.—Philadelphia Public Ledger.

Only Too Well Satisfied.

The husband who is always growling over everything from his meals to his laundry looked up from his paper and remarked sulkily:

"Madam, I see where a Chicago man went from home, remained 30 years and then returned and gave his wife \$5,000. If you don't do better you may find me doing the same trick some day."

The patient little wife looked up from her sewing and replied sweetly: "All right, James, but if you will only remain away the 30 years you needn't trouble yourself about the \$5,000." And after that he stopped growling.

Thankful for Doughnuts.

A Sunday school teacher in Dover, Mass., was teaching a Thanksgiving lesson. She requested her class to tell her what they were thankful for, and said she would write each answer on the blackboard. All were ready to respond, and curious were the answers.

The board was nearly filled, when the little fellow suddenly raised his hand and, upon being asked for what he thanked God, replied: "Oh, I thank God for doughnuts!"

Large Crowd at Republican Rally.

Speakers Score Strong Points.

The tent secured for the Republican Rally held last Tuesday night on the corner of River and Eleventh street was not large enough to accommodate all who wished to attend and scores went away disappointed. Not only was the tent crowded but on the south and the east sides the canvas was raised to give those on the outside an opportunity to hear and see the orators and a large number stood for two hours. It was as great a republican rally ever held in Holland.

The meeting was opened by N. J. Whelan who introduced Senator Huntley Russell, famed as Western Michigan's most gifted singer of "The Sword of Bunker Hill." So well pleased was the audience with the song that the senator had to respond to an encore.

Hon. G. J. Diekema was then introduced as the first speaker and as chairman of the meeting. He made a strong address in which he paid a glowing eulogy to the Governor, who was the second speaker.

Congressman Hamilton closed with one of the strongest, most eloquent and most convincing campaign speeches ever heard in Holland.

Gov. Warner said in part: "Since the day of my inauguration, it has been my aim to deal justly, honestly and faithfully with the questions which have come before me in my official capacity. I feel and believe that through the assistance which has been so loyally accorded me by all the other state officials and by the people of the state generally, regardless of party (and it has been impressed upon me as the months have been passing and I have been going about the state meeting people and counseling and discussing with them the public events of the past two years), that the people seem to be well satisfied with what has been accomplished.

"Probably never before have the people been more thoroughly interested in what the public officials were doing. The people may differ regarding state policies. We shall, without a doubt, always be divided into great political parties, but it is a good sign, it is an indication we may all welcome, regardless of party, when the administration of the different departments of the state government has the general respect and confidence of the people. Not the careless confidence but the watchful confidence; not the confidence that is founded upon ignorance of what is going on in state affairs, but the confidence that is based upon knowing what is being done in our state. And whether I

serve my state as governor for two years or for four, for one term or for two, the thought that I will always esteem and cherish most after I and those who have associated with me have been given a trial, and have finished our terms, is that we have had the confidence, not of any class nor of any locality, not alone of those who supported us in the campaign of two years ago, but of all the people of this great state.

"The Republican party has nothing to fear in this state from the fair-minded democratic voter or the independent voter this fall. I do not fear him. I welcome him, and I believe he will be our friend in this campaign.

"In the lines of direct state activity and in the directions towards which the interest and care of the state extend, I believe there has been greater effort made than ever before to render to the people the best service possible. Michigan educational institutions, always a source of pride because of their high standing and advancement, are splendidly maintaining their prestige and value. The institutions provided for the care of helpless children and of the boys and girls who need protection, are doing a service of which something should be known to be fully appreciated. It is the recorded opinion of national authorities that our asylums stand almost in a class by themselves in their standard of excellence. All the state departments are seeking to do and are doing practical and valuable work. I do not believe any other state in the Union is realizing so much real value from state effort and state expenditure as is being realized at the present time in Michigan.

Some of the figures submitted by the Governor follows:

The total of State tax paid by counties in 1895 was \$3,013,000.

The total of State tax paid by counties in 1906 will be \$3,383,785, an increase of 12½ per cent.

Primary school money to be returned to counties in 1906—

(a) Including only 1906 taxes collected \$4,324,077, an increase of 400 per cent.

(b) Including back taxes collected \$8,158,964, an increase of 800 per cent.

State taxes apportioned in 1895, 1905 and 1906, with the rate:

Year	Tax	Rate
1895	\$3,013,919.53	\$3.16 per \$1,000
1905	\$3,869,724.67	\$2.45 per \$1,000
1906	\$3,383,785.29	\$2.11 per \$1,000

These rates are the average on all the property of the State as actually assessed in the several counties for the three years named.

The meeting at Holland was the culmination of the campaign trip from Grand Rapids to Saugatuck and back to Holland on the Governor Warner Interurban special. This trip was easily the event of the campaign in Ottawa county. Stops were made at Jenison, Jamestown, Forest Grove, Vriesland, Zeeland and Saugatuck and speeches were made by Gov. Warner, Congressman E. L. Hamilton, Hon. G. J. Diekema, Hon. Luke Lagers, Attorney C. Vander Meulen, Representative N. J. Whelan, Hon. A. Lahuis, Attorney Corie C. Coburn and A. J. Ward.

The gathering at Zeeland was the banner one as nearly the entire population turned out.

Those who were on the special for most of the day were Governor Warner, State Chairman Diekema, Judge Kirby of Grand Haven, Chairman of the Ottawa county committee, Frank J. Cook of Grand Rapids, chairman of the Kent county committee; Luke Lagers of Holland, candidate for senator in the Ottawa-Muskegon district; N. J. Whelan of Holland and Albert Lahuis of Zeeland, candidates for the legislature in Ottawa county; Postmaster Van Schelven of Holland, Robert Johnson, postmaster at Blendon; Hon. D. B. K. Van Raalte, Benjamin Van Raalte, Sr., Jacob Lokker, John Rutgers, Henry Luide, Henry Geerlings, William H. Beach, John Zwemer, Albert Hidding, John Kramer, C. Vandermeulen, Austin Harrington, A. J. Ward, of Holland; Sheriff Woodbury, Revenue collector W. I. Lillie, Corie Coburn, J. J. Rutgers, Jacob Glerum, Fred McEachron and Walter H. Clark of Grand Haven; Colin P. Campbell of Grand Rapids and Cornelius Andre of Jamestown.

The Holland Citizens Band furnished music and its productions were received with great favor all along the line. Coming back from Saugatuck the veteran Dar Huff of Ventura kept the crowd enthusiastic

with his life accompanied on the snare and bass drums by the players of the band.

Charles A. Floyd was in charge of the Interurban and—"nuff said." Everybody knows that everything was all right.

Supervisors Visit Poor Farm. Adjourned.

The board of supervisors put in a very fine day of it at the county poor farm and all of them were very well pleased over the condition of things there. Superintendent Cook has kept the farm up in excellent shape and takes good care of the inmates. In nearly every case the board found the county charges satisfied with Mr. Cook's administration and no one had any complaints to make.

Those who are strong enough, help around the farm and some of the women work indoors. There are many who are not able to work at all, but they are cared for just the same.

All of the buildings are in good shape with the exception of the barn.

One of the most pleasant features of the entire day was the dinner which was served at Superintendent Cook's farm.

On the way back the caravan drove around to Colon C. Lillie's farm and saw the model dairy farm operated under modern conditions. They saw the machine milkers in operation and were shown courteously over the whole place.

They appropriated \$6,000 for the purpose of building a new barn and making other improvements at the county poor farm.

The committee on finance asked for \$34,580 to be divided among the various funds as follows: General fund, \$18,000; poor, \$6,000; insane, \$2,300; soldiers' relief, \$300; salary fund, \$7,980.

The county officers will receive the following salaries: County clerk, \$1000; treasurer, \$1200; prosecuting attorney, \$1000; probate judge, \$2000; register of probate, \$600; commissioner of schools, \$1200; janitor, \$680.

The normal class appropriation of \$150 was granted and the board accepted an invitation to visit the class while in session. A bill for \$50 for services from W. I. Lillie was referred to the judge for approval and the rejected bills of Game Warden Hanson of Holland were referred to C. K. Hoyt for his O. K.

In the taxes and apportionment report, \$49,401.98, Grand Haven's share was apportioned as follows: State, \$4426.72; county, \$3268.44; county poor, \$388.88; town, \$3,360; rejected, \$18. The pay roll was approved just before the adjournment.

Hope College.

A Program social will be given to-night by the Y. W. C. A. in Van Raalte Hall. Among the different numbers on the program is the reading by Mrs. G. Kollen. Tickets for admission are 15 cents apiece. The girls have always come forward with a cause worthy of support and beyond doubt it is but meet to be loyal to them when they give this their first entertainment of the college year.

Now that the new gym is here and the colder weather has set in, considerable attention is given to basketball. As many as three different teams have been organized and each in turn get their practice, in order that from these the best may be selected to form the team which will represent Hope when the visiting teams come here to contest for victory. With such splendid facilities along the athletic line Hope's team ought to win every game.

Several of the students will take charge of the meeting at the City Mission next Sunday evening.

Next Wednesday evening a great missionary convention will be held in the new Carnegie Hall. Three illustrious speakers are on the program each of whom it will be a rare privilege to hear. They are Revs. S. M. Zwemer, Scudder and H. N. Cobb of New York City.

A cement walk is being laid from the front of the new gymnasium westward as far as the terrace. From this point gravel walks will be constructed to connect with Tenth and Twelfth streets.

The Adelpic society met at the home of Dr. and Mrs. N. M. Steffens. P. Meengs read an article having as heading "The Heidelberg Catechism."

The seminary will be represented next Sunday by the following at places designated, J. B. Steketee, Grandville; G. J. Pennings, South Bend, Ind.; J. G. Brouwer, North Holland; M. J. Duven, Zeeland (1st); J. Van Zomeren, Bethel, Grand Rapids.

PRESIDENT ROOSEVELT'S OPINION OF CONGRESS.

Read this statement of President Roosevelt regarding the work of congress:

"In the session that has just closed the congress has done more substantial work for good than any congress has done at any session since I became familiar with public affairs. The legislation has been along the lines of real constructive statesmanship of the most practical and efficient type, and bill after bill has been enacted into law which was of an importance so great that it is fair to say that the enactment of any one of them alone would have made the session memorable; such, for instance, as the railroad rate bill, the meat inspection measure, the pure food bill, the bill for free alcohol in the arts, the consular reform bill, Panama canal legislation, the joint statehood bill, and the naturalization bill.

"I certainly have no disposition to blink at what there is of evil in our social, industrial or political life of today, but it seems to me that the men of genuine patriotism who genuinely wish well to their country have the right to feel a profound satisfaction in the entire course of this congress. I would not be afraid to compare its record with that of any previous congress in our history, not alone for the wisdom, but for the disinterested high-mindedness which has controlled its action. It is noteworthy that not a single measure which the closest scrutiny could warrant us in calling of doubtful propriety has been enacted; and, on the other hand, no influence of any kind has availed to prevent the enactment of the laws most vitally necessary to the nation at this time."

Remember that this was a Republican congress, and then ask yourself if the Republican party is not a good one to support on November 6.

Will Pay Every Cent.

Relative to the bankruptcy proceedings instituted against him by Diekema & Kollen on petition of the Erie Trust company of Pennsylvania, George W. Straight said that an answer to the same had been prepared and would probably be filed today.

He says he has committed no act of bankruptcy and is not insolvent and as soon as a hearing is had in the matter he expects the same will be dismissed.

He says further that the majority of his creditors are local; that his indebtedness to his local creditors is nominal, not exceeding \$200, and that every penny of it will be paid as soon as the pending proceedings will permit.

REPTILE TO BE DREADED.

South American Snake Whose Bite is Quickly Fatal.

It is more than 20 years since the deadly South American snake known as bushmaster, of which a specimen has just reached the Zoological gardens at London, was last exhibited by the society.

For obvious reasons it is difficult to obtain exact measurements of a live serpent, but the newcomer appears to be about nine feet long. It is evidently partial to moisture, for it has taken possession of a stoneware pan filled with damp moss, which had been placed in the cage for its benefit. The ground color of its skin is yellowish, and its markings are in the form of dark triangular patches.

The scheme of coloration is bold and renders the creature very conspicuous. This combination of black and yellow is usually present in poisonous reptiles and may thus be taken as a signal of danger. Not only does its large size render the surucucu—to give it its Brazilian name—a most dangerous reptile; its poison fangs are enormous and its bite is quickly fatal. Fortunately for its neighbors this deadly monster is nowhere common.

Where De Quincey Went to Church.

St. Peter's church, Manchester, England, which is shortly to be pulled down, is the church which De Quincey attended as a lad and to which there are some entertaining references in "The Confessions of an Opium Eater."

The first rector was De Quincey's tutor, and he possessed apparently a stock of 330 sermons which the pupil confessed became to him "a real instrument of improvement." He only heard half of them, because he attended only the morning services; but he says "Those same 330—2 sermons (lasting only through 16 minutes each) for me became a perfect palaestra of intellectual gymnastics, far better suited to my childish weakness than could have been the sermons of Isaac Barrow or Jeremy Taylor." De Quincey gives his impressions of the opening of the church, which took place when he was in his tenth year. That is now 111 years ago.

First Use of Ice Cream.

Though the ancient Greeks and Romans used ice for table purposes to get through the hot months of summer, they knew nothing of "ices." These were introduced into France from Italy about 1660 and were known at first as "fromages glaces." Iced cheeses, although they were made of strawberries and apricots, and contained not a drop of cream. From 1762 the use of "glaces" in the plural was sanctioned by the French academy, but not before 1825 did "une glace" force its way into recognized acceptance. "Ices" are referred to from time to time in the eighteenth century in English people's letters from abroad. "Iced creams," however were known as early as 1689, and by the middle of the eighteenth century "ice cream" figured in cookery books.

Divorce-Law Suggestion.

A clergyman was railing against divorce.

"We ought to have the divorce law that was enforced in ancient Greece," he said. "If that old Greek clause was tacked to every separation, I am persuaded that divorces would fall off 60 or 70 per cent."

"This law was that, when a man got a divorce he could not, under any circumstances, marry another woman younger than his ex-wife."

"An innocent law. A brief law. Not much to look at. But how many, many divorce suits would be nipped in the bud if all husbands knew that, after the separation, they could not marry younger women than the wives they had cast off."

High Prices in Japan.

This is a time of high prices in Japan. The cost of everything has advanced enormously. The rates of five or ten years ago are recalled with regret. Rents and wages have advanced proportionately. Dwelling houses that could be obtained for 45 or 50 yen (\$22.50 or \$25) a few years ago now cost 90 or 100 yen, and the wages of domestic servants are approximately double what they were formerly. Taxes have been enormously increased—the income tax is 250 per cent. higher now than it was before the Russo-Japanese war—and the tobacco monopoly has exactly doubled the cost of even the most ordinary cigarette.

Sailor Knew His Business.

Capt. Moriarty, of the British navy, who has just died in England at the age of 91, had a great deal to do with the early attempts to establish telegraphic communication between England and America. When the first cable parted in midocean he proved his value, instantly taking the ship's bearings. So confident was he of the accuracy of these bearings that when, some time later, the vessel returned to the same point he declared that the ship was "over the spot." This proved to be correct, for almost simultaneously one of the Great Eastern's officers shouted: "We've hooked it!"

Explaining It.

"This talk about millions of dollars for the Panama canal gets me," remarked St. Slocum. "That's a power of money for just a canal." "Mebbe," suggested Rube Robbins, "they're going to have the towpath asphalted. That runs into a heap of money."

Tooth Troubles.

Cause—Prevention—Cure

A Tooth Talk Worth Remembering.

The food left on and between the teeth, decomposing, form an acid. The acid cuts the enamel and roughens it. Once roughened, the food can hardly be cleaned from the tooth and decay sets in rapidly.

Sweets, sour, hot and cold now hurt the tooth until the nerve dies. Even now, with the nerve dead, the trouble is not over. Take a slight cold your tooth aches, jaw gets sore, face swells, puss forms and finally works to the surface and a "gum boil" results.

To prevent all this suffering consult us frequently—at least twice a year—**consultation and advice is free.**

Let us talk the matter over; a little filling may save you much pain and annoyance. Perhaps some teeth may require treatment. Whatever you need we will help you; giving you the best possible service—the least possible pain.

The most sensitive teeth are easily treated by our method. An exposed nerve (that which all people dread most) is dried up or killed, without pain, in twenty-four hours.

It seems too good to be true, but we are doing just what we claim. Our patients place great reliance in us and we warrant their confidence. We always give good honest work. In every department of our profession we keep up-to-date, studying every appliance that is made to help us do good work, studying all the latest methods for lessening pain and saving teeth. Such faith have we in our work that we make this standing offer:

Used for all kinds of building, they are perfectly frost proof, owing to the double hollows, as shown in cut. At every Fair where this cement block has been exhibited it has carried off the premium for durability and looks.

Mr. Chris. De Jonge is the exclusive manufacturer of this new patent block in this vicinity, and now has his plant at the east city limits, on the Interurban railroad.

He also manufactures Silo Blocks, and has on hand machinery for making Sewer Pipe, which will be placed on the market in a few days. The sewer pipe is far superior to the clay pipe now being used in this city and the cost is the same. Address all communications to

SUFFER HORRORS IN GREAT STORM

HOUSEBOAT WITH 150 ABOARD
TURNS OVER THREE TIMES
DURING BLOW.

Each Revolution of Ship Forces Men
to Let Go Their Holds and Sink
into the Sea, Where They Are Un-
able to Fight for Their Lives.

Key West, Fla., Oct. 22.—Survivors
from one of the houseboats of the
Florida East Coast railway extension
along the keys tell a harrowing tale
of death and destruction caused by
the storm of Thursday.

W. P. Dusenberry, civil engineer in
charge of the work on Long Key,
who miraculously escaped death, ar-
rived here on the Russian steamer
Jennie, among other survivors res-
cued. He says houseboat No. 4, on
which were 150 men, was struck by
the storm at five o'clock Thursday
morning, and was driven out into the
gulf through Sawks channel. At six
o'clock the houseboat began to break
up, and as the great waves hit her,
men, singly and in bunches of two
and three, were washed into the sea
and drowned. Some were below for
protection, but when the top of the
boat was carried away the waves
rushed in and the boat soon went to
pieces, 30 or 40 of the men being
crushed to death in the collapse, the
others grabbing timbers to save them
from drowning. Engineer Dusenberry
was in the hold, but succeeded in
getting a log and floated until Fri-
day night.

Boat Turns Turtle.
On one piece of timber 16 men were
clinging, and nine were hanging to
another. The sides of the houseboat
was crowded with men. It turned
over three times, each time reducing
the number.

The Russian steamer Jennie sighted
the wreckage and succeeded in
rescuing the 49 men who were
brought here. Three other steamers
with searchlights were picking up
men dead and alive when the Jennie
left the scene.

There was another houseboat with
a hundred and fifty men on board at
Long Key, which Mr. Dusenberry
thinks was also swept to sea.

There were in all ten boats at
Long Key, mortar mixers, dredges
and other boats engaged in the work.
The survivors were furnished food
and clothing from the East Coast
railway commissary here, and were
given medical attention.

The extension work of the railway
along the keys was not damaged.

Steamer Loses Rudder.
New York, Oct. 22.—The Southern
Pacific company's steamer El Valle
arrived Sunday in tow of the com-
pany's steamer Elorado. The El
Valle left Galveston for New York,
September 24. She lost her rudder
during the hurricane which damaged
the southern coast, and was picked
up by the Norwegian steamer Gotsard
and towed into Port Eads on October
1. The Elorado took the disabled
El Valle in tow and brought her
safely to an anchorage off Seabright.

Heavy weather was experienced dur-
ing the entire voyage from Port Eads.
Tugs will be sent to tow the El Valle
to her dock in this city.

Tobacco Crop Damage.
Havana, Oct. 22.—Reports issued
by the government show that the
damages sustained by the crops from
the recent cyclone are not as great as
has been supposed.

SALVADOR DEATH LIST LARGE

Inhabitants of Town Killed by Sul-
phur Water from Volcano.

San Salvador, Oct. 22.—Telegraphic
communications with interior points
has been restored and news of the dis-
aster wrought by the terrific storm
which has swept over the country is
being received.

Over 100 persons have been drowned
in Cotepeque.

A vast quantity of sulphur water
was thrown out of the Chulo volcano
and inundated the town of Panchin-
alco, killing most of the inhabitants.
From other points also reports of
terrible devastation are coming in.

Pimlento and other towns are re-
ported to have been swept away by
the floods.

The schooner Azelene, with a num-
ber of passengers on board, has been
lost between Corinto, Nicaragua and
Amalapa, Honduras. Everybody on
board was drowned.

CUBAN INSANE ARE MISTREATED

Nearly 1,700 Persons Crowded Into
Buildings Intended for 400.

Havana, Oct. 22.—Gov. Magoon vi-
sited the national insane asylum Sun-
day afternoon and discovered a de-
plorable state of affairs there.

One thousand six hundred and sixty
persons of both sexes are crowded
into filthy and dilapidated buildings
with a capacity for 400 persons only.

Congress made an appropriation to
enlarge the asylum, but the money
was never expended.

The conditions to-day are very little
better than under Spanish control.

Gov. Magoon will take steps to erect
additional buildings and remedy the
abuses.

Ex-Mayor of St. Paul Dead.

St. Paul, Minn., Oct. 23.—William
Lee, aged 84 years, former mayor and
postmaster of St. Paul, died at St.
Joseph hospital. He had been in ill
health for some time.

APPLE HARVEST.

How to Handle the Crop in an Easy
and Economical Way.

All baskets should be of the half
bushel type, round bottomed, with a
swinging handle, and should be pro-
vided with a strong iron hook that can
be hung upon a limb or on the ladder,
allowing the picker to have both hands
free.

Stepladders are not usually desirable
in apple picking, because that portion
of a tree covered by a stepladder can
be equally well picked from a ladder,
adder, and an experienced picker pre-
fers not to move his ladder more than
necessary and also desires to cover
just as much surface on the tree as is
possible with one moving.

Apples should never be handled but
twice, once from the tree and again
from the sorting table. When the sort-
ing and packing are done in the field
the picker may deposit his apples di-
rect upon the table; otherwise they
should be placed in boxes, crates or
barrels and be removed at once to the
packing house, at which place they
will be cooler, and sorted at some later
time.

The advantages of a good storage
building are twofold, especially in
commercial orchards. When picking
time arrives every effort should be
made to harvest the crop at the earliest
possible moment, and if the grading
and packing were done in the orchard
at the same time it would call for an
extra number of hands, and in these
days, when scarcity of labor and high
prices for the same are such factors in
crop production, it is by far better
economy to concentrate all efforts to-
ward harvesting the crop before at-
tempting to prepare it for market.

Again, if packing is attempted at the
same time with picking, the manager's
attention will be divided between the
two operations, with the probability
that neither will receive the care it
should have, and still again, unless
fruit is to be immediately placed in a
chemical cold storage, it is far better
for it to be stored in a building which
can be thrown open at night, when the
air is clear and crisp, as it will be at
that season of the year, and have the
storage closed tightly in the daytime.
Many dealers today give decided pre-
ference to fruit which has been stored
in a well ventilated storehouse. They
claim that it will keep practically as
well up to March or April and that
there is much less danger from scald
when taken out of storage.

Shiftest packing really accounts for
more than one-half of all the unsatis-
factory returns from fruit, and to rem-
edy this trouble it calls for the united
efforts of growers and dealers. They
should realize that their interests are
mutual and not antagonistic; that what-
ever tends to build up the apple in-
dustry affects one as well as the other.
Our eastern fruit is, as a rule, better
than the western and, being grown
near the consumer, ought to command
a superior price, and yet it is a fact,
because of the better sorting and pack-
ing, it drives the home fruit from the
markets. Upon the best brand of fruit
a trademark is often important—some-
times pictorial design or even the name
of the farm or orchard where the fruit
is grown—Cyrus Miller in American
Cultivator.

Cotton Seed.

That like produces like is a law of
plant life to be observed in all details.
From your best field of cotton select
the best portion and in this choice di-
vision mark the most vigorous and pro-
ductive plants showing short joints
and fruit limbs near the bottom. The
entire plant should be an exceptional
fruit producer. Seed should be selected
from these marked cotton stalks, but
the top bolls and the bolls on the ends
of the limbs should not go into the lot
for seed; they tend to make the cotton
later. The bolls selected for seed
should be picked by special field hands,
sent in advance of the regular pickers.
This seed cotton must be stored in a
dry place and watched to avoid mix-
ing.

Special care must be taken at the
gin that the gin and floor are free from
all other cotton seed before ginning.
Store this seed in a dry place.

Where greater length of staple is de-
sired select for seed such bolls only as
show the longest staple. By careful
selection most any desired qualities or
characteristics can ultimately be se-
cured, says a writer in Farm and
Ranch.

Raising Cabbages.

Seed may be sown between Oct. 1
and 15. It may be sown later, but as
the plants are subjected to severely
cold weather in December it is im-
portant that they should be large enough
at that time to withstand hard frosts.
When the thermometer falls below 24
degrees they are likely to be killed. To
secure the necessary hardness and
low stocky growth the seed should be
sown thinly on rather light unmanured
soil. Instead of making a sowing in
the open air after Nov. 1 the careful
gardener will provide against loss by
frost by sowing under glass in cold
frames about Nov. 15.—Oemler.

Call Out the Flock.

The young fowls are now almost
fully developed, and we can easily se-
parate the good from the bad. Go over
the flock now and send all those that
are not up to the standard requirement
to the butcher. Do not cull too close,
as some few may outgrow apparent de-
fects, and if not they also may be sent
later on.

Often half grown fowls show off col-
ored feathers, but after the molt they
discard the feathers, and the new suit
shows no defects.

Cull gradually, but do not keep any
which are not fully up to the standard
requirements.—Home and Farm.

The meeting will be called at 7:45 and everyone is invited to attend.

Deputy State Game Warden Hoyt is getting after the beet sugar factories at several points in the state for running up against the state game and fish department. At several points, a great amount of dead fish have been found in the rivers and the matter was referred to the state and fish department and investigation began at once. It was at first supposed that some one had violated the regulations and was killing fish. A little research, however, proved that some of the sugar factories were dumping their refuse into the river. This contained elements of lime, which acted upon the fish with fatal results. The department has taken steps toward preventing the destruction of any more fish.

Jacob VanDyke has sold his house and lot on West Thirteenth street to Jacob Westmas.

In the government test for purity and sweetness, the Holland Sugar Company's sugar stood at the top. Let us be loyal to the home industry. Ours is one of the few factories not owned by the trust. Ask your grocer for it and take no other.

The Grand Rapids & Chicago interurban railroad appealed to Railroad Commissioner Atwood, Tuesday to make the Pere Marquette cease delaying their cars on account of switch engines on the Pere Marquette. The commissioner has taken the matter under advisement and a decision is expected soon. The interurban people complain of delays at Grand Rapids, Grandville and Zeeland, particularly at the last two named points.

Citizens Band Banquet.

All arrangements have been made for the Citizens Band banquet to be held in Odd Fellows Hall next Monday evening. At its last meeting the band decided to cordially invite the citizens of Holland to bring their lady friends with them to the banquet if they desire. The hour is set for 8 o'clock.

In case Hon. G. J. Diekema is not able to serve as toastmaster, Attorney Geo. E. Kollen will act in that capacity. Among those responding to toasts will be found Geo. P. Hummer Supt. of Schools W. T. Bishop, Prof. J. M. Vandermeulen Henry Geerlings, and Representative Nick Whelan. Damson's orchestra will assist the band in providing music. Canquet tickets can be obtained from H. J. Luidens, Meyer's music house or Palace Restaurant at 50 cents.

Rush Pier Work.

Bennett & Schnorbach of Muskegon who are the contractors for the new pier work at Holland harbor, have been pushing the work as fast as possible but little more can be accomplished this fall on account of the uncertainty of the weather. About 600 feet of the 750 feet new north pier is completed, although no work has yet been started on the south pier. In the new work 2,500,000 feet of timbers and 7,000 cords of stone will be used.

The harbor will be constructed on the same plan as the one built at Sturgeon Bay. At the mouth of the harbor the piers will be 300 feet apart and then instead of extending straight toward the land they slant so that when they are from 500 to 600 feet from the shore they will be 740 feet apart. The piers are built to a height of six feet above the water level and as the landward ends of the new piers are about 300 feet from the seaward ends of the old ones a slight breakwater two feet above the water line is built to connect the ends. The contract price for the new work is \$190,000 and A. E. Everett is the government's representative in charge.

Caught With The Cash.

Mayor Geo. E. Ellis of Grand Rapids figured in the role of sleuth yesterday. One of his secretaries in the brokerage business at Grand Rapids, named Gould, eloped with \$400 of Mr. Ellis's money and the aggressive mayor got busy. His detective instinct told him that the eloper had come to Holland and he followed him here and found him and a pal spending the money like drunken sailors in a local saloon.

The mayor captured the eloper and took him back to Grand Rapids.

Mr. R. A. Gouwens of Illinois will occupy the new store at 124 Eighth St. with a choice line of Specialties in Clothing Dry Goods. The new enterprise is the fourth business started up in that block in thirty day's time. Mr. Gouwens will run his business on the plan of "Live and Let Live" and "Your money back if not satisfied." Store will open on Tuesday Oct. 30. Give him a call. His advertisement will appear next week. Watch for bills.

Next Tuesday the Associate members will entertain the active members belonging to the Women's Literary Club.

Oh, the memory of Ye Olden Times! How one's heart is warmed at the sight of the scenes familiar in the days of childhood! Buy the photo postcards of old scenes of Holland and vicinity at Vander Ploeg's and you'll feel a thrill of satisfaction as you contemplate the growth of your city.

Congressman

Wm. Alden Smith

Will Close Campaign in Holland the Night Before Election.

Hon. G. J. Diekema sent a telegram from Detroit to-day stating that Congressman Wm. Alden Smith would close the campaign in Holland Monday evening, Nov. 5.

The Congressman will speak in Olive Center in the afternoon.

Doty's Trip South Stopped By Arrest.

G. Lloyd Doty's trip down the Mississippi in a gasoline launch has been officially declared off by General Passenger and Ticket Agent Charles A. Floyd of the Holland interurban, with the assistance of the Kent county sheriff's force and Chicago detectives. Doty, who was formerly ticket agent for the Holland interurban at Grand Rapids, is now in the custody of Deputy Sheriff Johns, who has a warrant charging the man with the embezzlement of \$65 from the interurban company.

Doty had started on the pleasure trip in the launch with several others among whom were Will and Frank Hancock of this city. They were to pass down the drainage canal to the Mississippi and thence down the great river to the gulf. After they had left this side of Lake Michigan Mr. Floyd swore to a warrant charging the embezzlement of \$65. The case was given to Deputy Sheriff Kennedy, who worked it up and found the exact time the party expected to enter the drainage canal.

When the launch passed through the locks Doty was stopped by Chicago officers. Deputy Sheriff Johns, who had been sent to Chicago to get the young man, took him in charge yesterday afternoon and brought him back to this side to face his charge, arriving in Holland yesterday morning.

A fresh shipment of cloaks and furs just received at John Vanderhuis. A few last year's children's coats for \$1.50 each. Mr. Vanderhuis will sell 500 yards of 6 cent cream outing flannel for 4 1/2 cents a yard.
