Pacific Vet Will Be Sponsoring Chairman Here

November Campaign Dedicated to Holland's Service Men, Women

Lt. Col. Henry A. Geerds, who returned here less than a month ago after spending 28 months in the southwest Pacific, will serve as sponsoring chairman in Holland's sixth war loan drive which opens Nov. 20. Frank M. Lieveense, city bond chairman, has announced.

The new drive will be dedicated to all service men and women of Holland, particularly those whose names appear on the service panel in Centennial park. This panel was dedicated on the eve of Armistice day in 1943 under the sponsorship of the Holland Lions club and a few weeks ago two new wings were added to accommodate the overflow. Some 1,600 names already appear on the main board.

In accepting the appointment, Col. Geerds said, "I want to do anything I can for this war and I'll be glad to help with the drive. Of course, since I am on leave of absence from the army, I may be called back any time, or my health may not permit strenuous activity, but I am glad to be of service of any kind for Holland's fighting men and women."

Col. Geerds who joined the national guard in 1914 as a private, participated in the Mexican war in 1916 and the first World war in 1918. As commander of the second battalion in the Papuan campaign in New Guinea late in 1942, he directed jungle operations and road building out of Port Moresby for two months, and on the third day of the actual advance, he was stricken with a heart attack. He later served in administrative positions.

In announcing Geerds' appointment, Lieveense said, "Holland has put over all of its drives. In the first four, all department quotas were met but in the fifth drive, while we went over the top, we fell down miserably in the E bond quota allotted to us. I regretted very much that our boys at the front had to read that this was true of Holland, especially when we have five million dollars in savings accounts in our two banks."

"In the coming drive, people need have no hesitancy in transferring their savings into war bonds because since Oct. 2 the government has arranged for bonds to be cashed at bank windows, the same as withdrawals on savings accounts. There is no charge for this service and cash may be had immediately. And E bonds pay 2.9 per cent interest compared with 1 per cent for savings."

"I am gratified that Col. Geerds will act as sponsoring chairman and particularly that he has dedicated this drive to the men of Holland at the front. For the boys at the front have never quit and will never quit until this job is done."

"Col. Geerds will make an opening statement in the near future, but I was particularly pleased at his confidence in the people of Holland and I know they will all work together to put our quota over in spite of an election year and patriotically strengthen the morale of our men at the fighting front rather than tear it down by little differences at the home front."

Local quotas for the drive to raise 14 billion dollars nationally have not been released, Lieveense said.

Van Den Berg Appeal Filed in Circuit Court

Grand Haven, Oct. 19 (Special)—An appeal from a conviction in Holland Municipal court last Sept. 13 in the criminal case against Clifford Van Den Berg of Holland, on a charge of using intoxicating liquor (beer) on 12th St., adjacent to Kollen park, in Holland city on June 3, 1944, in violation of the Holland city ordinance, has been filed in the Ottawa circuit court.

Upon his conviction Van Den Berg was sentenced to pay \$20 fine and \$11.15 costs or serve 10 days in the county jail. Van Den Berg has furnished \$100 bond for his appearance at trial in the higher court.

Many Register In Holland for November Vote

Long lines of would-be voters anxious to register or be reinstated for the presidential election Nov. 7 kept workers in the city clerk's office on the jump all day Wednesday, the deadline for registrations.

The office was especially busy after supper and in some cases the two lines extended far into the city hall corridor. City Clerk Oscar Peterson said no accurate count was made but he estimated 300 registered or were reinstated Wednesday, the peak day, compared with some 200 for Tuesday, also a busy day.

However, comparative figures today and four years ago proved a surprise with the information that on Nov. 5, 1940, a total of 8,429 registrations were on file, and that in July, 1944, after the files were weeded out, only 6,549 remained on the books. No estimate was available on the total new registration, but it was doubtful if it would rival or exceed the 1940 total when there were 849 new applications and some 350 reinstatements.

Peterson pointed out that these figures do not tell the complete story, since registrations have not been required for soldiers 21 and over who are casting their first vote in the election.

He also said the files contain many registrations of persons who have moved just outside the city and who have not notified the clerk. In a town of this size, workers are familiar with the residents and often remove registrations, but the complete result still falls short of total accuracy.

The permanent registration law adopted a few years ago has done much to remedy problems with registration, but problems persist, mainly because persons who change their residences often (especially from city to city) are generally vague about the last place and time they voted, Peterson said.

Personnel in the office expect to have the records in order and figures available within a short time.

(Record registration of voters was reported at Detroit, Flint and Owosso, native town of the GOP presidential candidate. Detroit listed 798,295 voters, more than 76,000 over the 1940 mark; Flint 73,625, some 300 over the previous mark, and at Owosso the 1944 registration was 9,552, compared with 7,221 in 1940.)

Supervisors to Lease Airport

Grand Haven, Oct. 19 (Special)—The board of supervisors Monday passed a resolution to lease Park township airport from the township and the Holland Chamber of Commerce for five years at the termination of the present three-year contract involving the county, Holland city and the township which expires April 13, 1945.

The resolution pointed out that the management and control of the airport will be continued as before under the direction of the airport committee. The motion was made by Charles A. Lowing of Georgetown township, chairman of the airport committee.

The cooperative arrangement between the county and township dates back to March 16, 1942, when the county leased the airport in connection with the national emergency. On April 13, 1944, the supervisors appropriated \$1,000 for maintenance of the airport for one year under the proviso that Holland city contribute a like sum and Park township \$500. The township paid \$500 and Holland city is contributing a fractional amount of \$1,000 each month.

Under the new arrangement, the county will make plans for perpetuation and expansion by solicitation of funds from private and governmental sources.

Maj. Smeenge on Leave From Florida Air Base

Maj. Richard Smeenge, one of the original members of company D of the 126th infantry which left Holland for training Oct. 23, 1940, is in Holland this week on leave. He is now executive officer at the army air base in Jacksonville, Fla.

Maj. Smeenge left Holland for Camp Beauregard with the 126th as a first lieutenant and, after training the boys of his outfit there and at Camp Livingston, he was left behind when the boys shoved off for New Guinea because he was over-age.

He was then transferred to the air corps, promoted to captain and sent to St. Angelo, Tex., where he was at Goodfellow field with the supply division.

From Texas he was transferred to Oklahoma City, Okla., where he was with the first service group, organized for the air corps.

He then went to Casper field, Wyoming, with a supply division which supplied many surrounding air bases with necessary equipment for the upkeep of planes.

From Wyoming the entire outfit he was with, 1,200 men were transferred to Tallahassee, Fla., where they were disbanded and Smeenge began studying at the air force school of tactics at Orlando, Fla.

For more schooling, he went to Fort Warner Robins and while there was promoted to major and made personnel officer of some 10,000 soldiers and 30,000 civilians stationed and working at the base.

He was later transferred to Jacksonville army air base and became executive officer there, the position he now holds.

Smeenge, now 41, has asked

Maj. Richard Smeenge

several times for overseas duty but each time has failed to be assigned. He believes he may yet be transferred to a foreign base. When the 126th was sent overseas and Smeenge was left behind he was particularly disturbed although he said that the reports of how the boys used the training he had given them against the Japs served as some consolation.

Commenting on the war, Smeenge said that the "progress was fine and well planned." He said he believed the advance in France had been much faster than many had anticipated.

Smeenge, who is a brother-in-law of Lt. Col. Henry Geerds of Holland, is married and the father of two sons, Charles, 12, who is at home and Donald, 22, who is with the infantry at Fort George Meade, Md. He lives in Montello Park.

Strike Called at Machine Tool on Reclassification

About 75 employees of the Western Machine Tool works walked out following a "strike vote" at 12:30 p.m. today, according to Rufus Cramer, chairman of the bargaining committee of the plant's union which is a part of AFL machinists 1418.

G. J. Bosch and R. C. Bosch, heads of the plant, both were out of the city today, and thus were not available for comment.

Cause of the dispute, Cramer said, was the company's delay in presenting a copy of a reclassification program which the workers have been working for over a year. Cramer said a specialist had completed the plans but that the company will not present the plan to the union until Dec. 1. The reclassification program, it is understood, classifies each job with its own scale of wages.

Workers will meet at 9 a.m. Friday in the IOOF hall to discuss further plans.

Miss Ruth Ann Poppen, well-known vocalist, will sing.

During the supper hour a group from the Overseas church will present the playlet, "Home, Sweet Home." Those staying for the supper hour are requested to bring their own cups and spoons, coffee to be furnished by the entertaining churches.

The evening meeting will begin at 7:15 p.m. with a 15-minute song service and music by an ensemble from the Prospect Park church. Mrs. E. J. Holthrop and Dr. Stuart Bergsma of Grand Rapids will be the evening speakers. Mrs. Holthrop, who is with her husband at Great Lakes, will talk on "A Home Front Mission." Dr. Bergsma spent a number of years as medical missionary in India and will speak of his work in that field.

Music for the evening session will be presented by the Allendale male quartet. Miss Hazel Ann Oelien will preside at the organ.

Local Sailor Sues in West On Charge Cop Beat Him

A local sailor, Benjamin L. Mersman, navy machinist mate and deafened veteran as a result of service in New Guinea has filed a \$2,500 claim against the city of Oakland, Cal., on the charge that he was beaten by an Oakland policeman, it was learned today from clippings of an Oakland newspaper sent by Warren Pomeroy of Oak Knoll hospital in Oakland to his mother, Mrs. Arthur Pomeroy, 722 Michigan Ave. Warren is a hospital corpsman at Oak Knoll.

According to Mersman, he and two other sailors, all veterans of duty in the Pacific, were celebrating their return to the states and he was seized by Oakland police on a charge of drunkenness; after he had approached several policemen and asked the direction back to the Oak Knoll hospital. He was taken to the police station.

"After waiting about 10 minutes, I got up from the chair kind of restless and started to walk around," Mersman said.

One of the policemen then gave him a hard shove, Mersman said, and hit him in the ribs, when he asked, "Is that the way you treat prisoners around here?" The blow knocked Mersman out and when he awoke he was in a bull pen

Soldier, First Missing, Now Wounded in Italy

Pfc. Robert De Ridder, who was reported missing in action July 11, has been seriously wounded in Italy, his parents, Mr. and Mrs. John De Ridder, 22 East Ninth St., were informed Monday.

The war department telegram received here stated that Pfc. De Ridder was wounded Sept. 27 and is now confined to a hospital. Further details were promised as they were learned.

Soon after word was received here last July that Pfc. De Ridder was missing in action the family received letters from him stating that he had been separated from his company for a few days but could give them no details.

Pfc. De Ridder was inducted into the army March 4, 1943, and was sent overseas in December of that year. He was trained at Camp Joseph T. Robinson, Ark., Shreveport, La., and Fort Sam Houston, Tex. He was 20 on Oct. 9.

Dancing Question Comes up Again at Recreation Meet

After outlining municipal recreational plans for nearly an hour and saying that the plans for Holland's proposed recreational center are the finest he has ever seen for a community building, C. H. Warden, recreational director of Royal Oak, unexpectedly found himself in the midst of one of Holland's hottest arguments—the school dancing question—at a special meeting Wednesday night following the regular session of common council.

Some 35 to 40 teen-age students displayed keen interest in the open session. Peggy Prins, William Wood, Bob Stoppels and others participated freely in the discussion.

Warden declined to give any advice on the issue saying it was Holland's problem and he had no knowledge of local conditions. He said, however, that while he personally was not fully in accord with certain types of recreation, such as Sunday activity, he has found consideration must be given the problems of the young people who seek out recreation. He said this condition confronted him in Royal Oak where the youth went outside for Sunday activity until he organized 12 softball teams for Sunday afternoons.

Ald. Herman Mool, while saying he was not opposed to dancing, cautioned the young people to consider the wishes and opinions of their parents who will vote on the recreational center or the youngsters might defeat their own purpose. He recalled the straw vote two years ago in which the school dancing issue was defeated.

Mrs. Jay H. Den Herder explained the sweater dances conducted periodically under sponsorship of the Horizon clubs, older Camp Fire girls, and said the over-capacity attendance would indicate that many parents are more liberal in their views at present.

Warden, formerly of Lakewood, O., said a good recreational program was not a cure-all for youth delinquency but was a preventative. If the foundation of a child's character is not laid in the home, there is not much a recreational director can do, he said.

Warden spoke of his work in Royal Oak where the community center is in a store building and is open to 75 to 150 children and young people from ages of 12 to 20 every evening, on most week-days to 10 p.m. and until midnight on Friday and Saturday. The center is for the most part operated by the youngsters. Their admission card costs 25 cents a year. They have made several improvements in the place such as redecorating which they finance by various activities for which they charge admission. It is understood that any money in their fund can be spent only on the center, Warden said.

The director advised, if possible, a center outside of school buildings where the restraint of supervision all day still lingers after hours. He also advised hiring a director with several years' experience to direct the program with the advice of a board which should have some young members.

The city recreational program should be for adults as well as youngsters, Warden emphasized, urging that plans should be directed for more family activity. In Royal Oak, he said, 9 per cent of the adult program pays for itself such as a lecture course he has arranged.

He also has arranged classes for sewing, bridge, square dancing, discussion groups and woodwork for adults. He said the recreational program there is financed by the city and the board of education.

Although he said recreational programs are not cure-alls for delinquency, he quoted records from juvenile court that 214 cases had gone through the court last year and 22 this year.

OWI Selects City For Film to Show In Netherlands

The office of war information has selected Holland and locality for a film to be used in the Netherlands after liberation. Willard C. Wichers, head of the Netherlands Information bureau here and director of the Netherlands museum, announced today.

A camera crew, headed by Carl Timin of New York city, connected with OWI, will arrive in Holland next Tuesday to make plans to shoot pictures here.

However, to facilitate and expedite film preparations and in view of the fact that this season will not allow pictures for summer water sports, Wichers requests local amateur photographers having 16 millimeter films on subjects of any local interest to submit them at his office for possible copies in the new film.

Wichers said his office is fairly well supplied with Tulip Time material but would welcome the use of almost any other subject including sports and scenery of all types. Either color or regular film is acceptable and will not be harmed. If the owner will classify the reel with such information as "200 feet on water skiing" or "50 feet on pheasant hunting" it will prove invaluable, Wichers said. Photographers are urged to get in touch with Wichers at the museum office in the city hall as soon as possible.

Advanced Cadet Nurses Training Is Started Here

Hospital Is Approved By State Association For New Program

Two senior cadet nurses of the upper peninsula who completed their training at Providence hospital, Detroit, a hospital of 300 beds, have been assigned to Holland hospital for three to six months additional training. Miss Rena Boven, superintendent of the local hospital has announced.

The cadet students, Miss Jean McNichols and Miss Geneva Brawley, come from Hubble and Engadine, respectively. They arrived here Oct. 2 and after completing their extra training will write a term paper on work in small hospitals.

Assignment of the two cadets was the result of action by the Michigan State Nurses' association which approved Holland hospital, Grand Haven Municipal hospital and three others of southwestern Michigan to receive these nurses. Two cadets also have been assigned to Grand Haven, along with four to Hillsdale and three to South Haven. Miss Boven expects four more cadets at the start of the year.

This phase of cadet nursing was arranged by the southwestern Michigan hospital council which is composed of representatives of 19 small hospitals with bed capacities from 18 to 145 including Holland, Grand Haven and Allegan. The council was organized in 1943 with Forst Ostrander, administrator of Sheldon Memorial hospital, Albion, as president; Miss Boven of Holland, vice-president; and Esther Morris, Allegan, hospital, secretary and treasurer. James L. Paak, Community hospital, Battle Creek, is president-elect.

Miss Boven said large hospitals are now using rural hospitals for nursing experience as practiced in the medical, surgical and obstetrical departments, and their coordination with the county health department, welfare agencies and other community resources by actual field work.

She said this experience of from three to six months should broaden the outlook of the student on public health services as a whole and give her an overall picture of the workings of a rural community and its problems of health.

Miss Stella Warfield, R. N., Washington, D. C., who has been engaged as coordinator for the senior cadet program, spent three days in Holland last week in an orientation program for the two cadets. Miss Warfield, who is fully qualified in the field of nursing education and public health, will assist the department heads of the various hospitals in setting up and carrying out the program for each individual institution. The W. K. Kellogg foundation has cooperated with the new council.

Asa S. Bacon, Dowagiac, who has retired after 40 years of service as superintendent of the Presbyterian hospital, and who is well known in hospitals throughout the United States, is serving the council as administrators' consultant. He said this is the first group of small hospitals in the entire country to form its own council.

Holland is listed as having 56 beds. Grand Haven has 47.

The local hospital board at a recent meeting acknowledged two gifts of hospital equipment from the Junior Chamber of Commerce auxiliary and the Junior Welfare league. The JCC affiliation which organized about a year ago presented an ultra violet unit about a month ago for use in the children's ward. The unit is used to reduce air-borne germs causing communicable diseases.

The second gift is another Hess incubator similar to the one the welfare league presented to the hospital about four years ago. The incubator has been much in demand. It also carried an oxygen therapy unit.

Shoots Red Fox South of Zeeland

John Dokter, route 3, Monday shot a red fox while hunting small game about five miles south of Zeeland. The fox which seemed to be sleeping in the weeds when first spotted circled around Dokter and his companion, Charles Vander Ven, and then headed for an open field where Dokter plugged him with a single shot from his 12-gauge.

The fox came to life again after Dokter hung it by its hind legs to a tree at his home on the Waverly road and the hunter had to club the animal over the head to kill it. There is no closed season on red fox, it was pointed out.

Both Dokter and Vander Ven got their limit on pheasant.

Cautions Hunters On Fire Hazards

Grand Haven, Oct. 19 (Special)—Hunter Hering, chairman of the West Ottawa Soil conservation district, requests the cooperation of hunters in preventing fires during the present hunting season.

Three fires were started on opening day in Robinson, Grand Haven and Port Sheldon townships. These fires were put out by the quick action of the rural fire fighting organizations before serious damage occurred. About 50 young pine trees were destroyed in one of the fires.

"Right now the ground is covered with dry leaves and withered vegetation which will catch fire quickly from a lighted match, cigarette or lighted pipe heels," Hering said. "Danger from fire will continue until we have rain or snow and all hunters should be sure that their matches and cigarettes are out before they drop them. Heel the cigarette stub into the soil, break your match. If all hunters would do this there would be fewer fires and more game."

Three Suits Face Local Contractor

Grand Haven, Oct. 19 (Special)—Three suits for damages against L. W. Lamb, route 1, Holland, were commenced in circuit court Saturday morning, each demanding a jury trial.

The suits involve an auto accident which occurred at 5:30 p.m., Nov. 8, 1943, at the intersection of Hannan road and the Willow Run Express highway in Wayne county. Those bringing suit were in a government-owned car driven west on the highway by Betty Jane Martin. The car allegedly was struck by a dump truck owned by Lamb and driven north on Hannan road, by Lester C. Place, one of Lamb's employees, in work on a road contract.

One suit is brought by Ina K. Kempainen, 20, a minor by Arthur Lumley, her next friend, in which she seeks \$15,000. Another suit, brought by Joseph E. Kirkens, 59, seeks \$25,000 and Betty Martin, 24, driver of the car, seeks a \$25,000 judgment, all claim permanent injuries were suffered when "their bodies came into violent contact with the interior of the car."

At the time of the accident the three were employed by the war department in the engineering office Romulus Air Field, Romulus, Mich.

Arrive Here After Three-Year Delay

"Holland is just too beautiful," was about all Dr. Eva Tysse McGilvray, home from India for the first time in eight years, could say Friday.

Of course, Holland did appear at its best with its beautiful autumn colors and brilliant sunshine but it probably would have looked "beautiful" on the bleakest day of winter to the missionary doctor whose furlough had been overdue for three years.

Dr. McGilvray, her husband, Rev. James C. McGilvray, and their two children, James Alasdair, 2½, and Jennifer, Eve, nine months, arrived here Wednesday night for a visit with the former's parents, Rev. and Mrs. Gerrit Tysse, 88 East 13th St.

But the trip to the United States was no regular furlough. Mr. McGilvray, secretary and superintendent of the hospital plant of the Women's Medical college at Vellore, is here to consult various missionary boards and visit large medical centers to lay foundations for an All-India Christian Medical college, a united medical center for men and women, internationally sponsored and meeting India's own university standards. Special laboratories will be included for research work in leprosy and tuberculosis.

The proposed center is the outgrowth of the medical college for women at Vellore which was founded by Dr. Ida S. Scudder in 1918, sponsored by a few denominations including the Reformed Church in America. Dr. Ida, now 74, president-emerita of the institution, is now staying in the eastern part of the United States.

It is at the request of the Christian Medical association of India that Mr. McGilvray is in America to coordinate and organize the work for the large center which will be supported by 26 missionary boards of America, Britain, Denmark, Sweden and Australia. Allowed a fortnight for a rest after a long hard trip, he will go to New York Oct. 28 to begin his work while his wife and children remain in Holland.

McGilvray will go to England next March for similar organizational work there. His family will accompany him if travel conditions allow, otherwise they will remain in Holland.

Although she had not "explored" the corners of her home city, Dr. Eva said little was changed and everything was quite as she remembered it. When informed of the current doctor shortage, she waved aside suggestions that she hang out her "shingle" in Holland, stating that her two small children will keep her busy enough. Besides, she said, her doctor's license allowed her practice only in Illinois, the state in which she received her M. D. degree in 1935 from Rush Medical college, Chicago. She also is graduate of Hope college.

The only definite plan she has is to visit some of the research departments at the University of Chicago where she engaged in research for a year before leaving for India in 1936 to teach anatomy in Vellore's Medical College for Women.

Meanwhile her young son was chattering away in English and she explained that he picked up English very fast. In India, although his parents taught him English, "Jamie" spoke mostly in the Tamil language, one of the most popular of India's 300 tongues. Both he and his baby sister were born in the hospital of which their father is superintendent.

McGilvray, native of Scotland, first visited India in 1933 with a government commission to study the extra-curricular activities of the university students. At that time he met many notables including Mohandas K. Gandhi. Following that visit he took missionary training in Great Britain and returned in 1935 to assume a position in the hospital. In the interim he made one trip to America but visited only a few spots on the east coast. This is his first real visit to America. He married Dr. Tysse in 1938.

Although she has an army of some two million men, India is not active in the present world conflict except for a few skirmishes with the Japanese, McGilvray said. There never has been any conscription and most of the men join the army because they are guaranteed food and good pay and have the promise of a gift of land after the war, he said.

Vellore figured in one bad scare in 1942 when it entertained a mass evacuation of Madras, 90 miles away, which has a population of some 800,000. Every building, school and hospital was taken over for the evacuees in Vellore which has a population of 85,000. The scare lasted about a month and then most people returned to their homes in Madras, although some still remain in Vellore. This incident, went down in history as "The Flap," just why McGilvray said he did not know.

Although gasoline was carefully rationed in India, all restrictions on sales were off for the day that everybody was leaving Madras. Rationing in India was confined mostly to gasoline, rice and sugar although food was often hard to get, the McGilvrays said. Dr. Eva said she was particularly impressed by the supplies of paper in this country—paper bags, newspapers, waxed paper, etc. Paper is so scarce in India that the envelope in which a letter is sent is often used 25 times before it is too badly worn for further use.

The family spent 37 days on the ocean on board a crowded military ship before arriving on the west coast by an undisclosed route. There, they were unable to obtain railroad reservations unless they waited 32 days, so they traveled

east under current travel difficulties—crowded trains.

There is a crying need for more medical men in India where disease is widespread, McGilvray said. There are only 40,000 doctors there, one to every 10,000 persons. The average in America is one to 1,000. There is one nurse to every 56,000 persons in India while in England there is one to every 300 persons (U. S. statistics on nurses were not readily available). As for pharmacists, there is one to every four million in India while the United States has one to every 1,100 persons. Dentists in India rate one to every 350,000 persons while America has one to every 2,200. India turns out 1,500 medical graduates a year while the United States graduates 10,000 annually. India needs 300,000 new doctors, McGilvray said.

A Show-Down

The New Dealers; the Communists; Sidney Hillman, with his Political Action Committee of the CIO (and in truth he does not represent the rank and file of the CIO, for the overwhelming majority is patriotic and industrious) have ordered the people of this District to defeat me and elect in my place someone who they think will follow their orders, be their "yes-man", a "rubber-stamp".

Inasmuch as they say they appose me because of my voting record, it follows that they would have favored and they now favor the things which I opposed. Just where does that leave them and the man who is their candidate? Logically they support the measures I opposed.

Before Pearl Harbor I opposed war, as did 90% of our people. They criticize me for that opposition. Were they in favor of war? If not, why do they condemn me for my opposition?

I opposed the boondoggling, the waste, the extravagance, and the inefficiency of the New Dealers. They condemn me for so doing. Necessarily then, my political opponents favored those things. But the overwhelming majority of the people of this District did not and I do not believe they do now.

I opposed the appointment and the retention in office of aliens of Communists, who do not believe in our form of government or its methods. Do my opponents and the candidates they would elect favor the retention in Federal jobs of the members of a party which would overthrow our Government by force; of those who would accomplish the same end by subterfuge?

I advocate every measure which will aid in winning the war as soon as it can be done with the least possible loss of life and suffering, and the return of our fighting men when this war is over. Do my political opponents and their candidate favor keeping our fighting men in Europe indefinitely to fight in any future wars in which European politicians may become involved?

I opposed the plan to haul down the Stars and Stripes, surrender our independence, hoist the flag of Union Now or some other flag, repudiate our Declaration of Independence, our Constitution. Do my political opponents now advocate the adoption of a new flag, a new form of government?

Because I insist that my country, our men — your sons, husbands and brothers—be given first consideration, my political opponents ask you to vote against me.

My position on every public question, my voting record, is open to the people. It has been consistent. They have approved it. Now, if my opponents and their candidate believe in the opposite, that is, in boondoggling, in waste, in extravagance, in inefficiency, in lawlessness and violence (and I opposed the sit-down strikes and all strikes in wartime), let them tell the people of the District that fact and no longer confine themselves to false charges about me.

Let them tell what they or their candidate, if elected, will do. Let them give some assurance that any promises they make will be kept.

It is for the people of this District to decide whether they want Sidney Hillman, with his slush fund, to choose their Representative, or whether they prefer to have a man who has confidence in our people — faith in our form of government.

Vet of Pacific Collects Foreign Cash as Hobby

Leaving about 12 different types of foreign money home as a souvenir, Pfc. Frank Falcon, 22, who was one of Merrill's marauders in Burma, left Holland last week for the redistribution center at Miami Beach, Fla., after spending a 21-day furlough with his parents, Mr. and Mrs. Victoria M. Castenada, 269 East Ninth St.

Overseas for 35 months in which he participated in four major battles, Falcon's souvenirs included money from Japan, New Caledonia, Fiji Islands, India, Egypt, Iraq, Iran, Hawaii, Russia, Algiers, Australia and China. Falcon had visited most of these places, but of all the money he took home, only the money from India, he said, (outside of the Hawaiian money) could be converted readily into U. S. cash through the established rate of exchange. Most of the currency, especially that from China, is virtually worthless.

Next to Hawaii, which Falcon described as the best place next to the United States, he liked New Caledonia. In his opinion, Burma was the roughest although Guadalcanal was "no picnic."

Requesting overseas service immediately when he enlisted in the army in Sept. 17, 1941, Falcon was sent to Schofield barracks in Hawaii for his basic training and while there witnessed the Japanese attack on Dec. 7. On KP for the first time in his life that memorable Sunday morning, Falcon said he was waiting for the gang to eat at 6:45 a.m. when they heard a commotion outside and since maneuvers were scheduled the following day, the soldiers did not recognize it as an enemy attack until sometime later.

Falcon remained in Hawaii for 16 months and then spent seven months at Guadalcanal with the army group that reinforced the marines. En route to Guadalcanal he spent Christmas of 1942 at Fiji Islands where they had turkey for dinner. After Guadalcanal he participated in the battle of New Georgia. Returning to Guadalcanal, he volunteered for a "special mission" which turned out to be Merrill's marauders and while in New Caledonia, he received his orders to proceed to India and Burma.

After spending five months in Burma in capacities ranging from a mule packer to colonel's aide in the intelligence platoon, he returned with the fighters to India for a rest. After six months there he received his furlough and returned to the United States by an undiscovered route.

During his three years overseas, Falcon suffered three attacks of malaria, the first at Guadalcanal, but to avoid the recurring illness took large quantities of quinine and everything the medics could offer. The last attack was about four months ago.

Falcon has one star on his pre-pearl harbor ribbon for the Hawaiian attack, and three stars on his Asiatic-Pacific ribbon for battles at Guadalcanal, New Georgia and Burma. He also has the Good Conduct ribbon and the Presidential citation. He wears five overseas service bars on his left cuff, one for each six months.

Falcon was born in Texas. His father who was French and his mother who was Spanish were both born in Mexico. His father formerly ran a newspaper in Texas. The Castenadas moved to Lansing in 1936 when Falcon was 10. Six years ago they moved to Zeeland and two years ago came to Holland. Falcon enlisted in the upper peninsula where he had been working.

THE SPIRIT OF DEWEY FIGHTING TO FREE OUR PEOPLE FROM BUREAUCRATIC CONTROL

An Open Letter to Oklahoma Democrats

Fellow Democrats:

In this the most serious political campaign in the history of our country it is necessary that we marshal our forces.

To win this battle for a Democratic and Free America, money is essential.

WHEREAS, we do not have Federal and State employees in our organization, and

WHEREAS, we have neither the disposition nor the desire to make political assessments on honest job-holders, and

WHEREAS, we do not have C.I.O. Political Action Committees to pour millions into our coffers—it is therefore NECESSARY that we receive donations, however small, from every man and woman who believes in the preservation of our Democratic way of life.

Your one dollar, ten dollar or hundred dollar contribution sent to Wm. T. Payne, Treasurer of Democrats for Dewey, 505 Perkins Building, Oklahoma City, will help to keep America free from foreign domination and bureaucratic dictatorship for your children and mine.

NO UTOPIA AROUND
THE CORNER

The veteran George Bernard
Shaw, now 88 years old, has bob-
bed up again with a bit of whole-
some truth that our fool world is
very much in need of. Shaw said
the other day in London—and any-
thing he says is sure to get a big
display in the newspapers—that
there is no Utopia around the
corner. No matter when or how
the war ends, no matter what
international arrangements are
made, this old world will be very
much what it was, with most of
the pre-war imperfections the
same or accentuated.

Such a statement is not pleas-
ant medicine to the Utopians. They
would like to have us believe that
if only our present enemies are de-
feated decisively everything will
be lovely. Old Mr. Shaw is on the
whole quite as enthusiastic for the
defeat of the enemy as anybody
can be. Not only is he not fascis-
t-minded, he has been a liberal So-
cialist for three quarters of a cen-
tury; and during the years just
before the war his interest in the
Russian experiment was so great
that he visited that country more
than once and wrote extensively
in support of the Russian idea.

But unlike some American
Pinks, he is too old at the game
of observing human nature to be-
lieve that any system will turn
this old world into a Utopia. To
hear the American Pinks of the
New Republic brand talk, you
would gather that if we will only
give the so-called "liberal" forces a
chance, the world will be changed
almost overnight into an earthly
paradise; everybody will be sat-
isfied; and everybody will be con-
tented; no one will try to get the
best of his neighbor.

Apparently that wise old fox,
Bernard Shaw, has been compelled
to listen too often and too long to
the English counterpart of this
brand of sentimental idealists; for
there are as many of them in
England as in America. So Shaw
hailed off with his caustic remark
of what the world will be like
after the war. Such a dash of cold
water was needed.

Most of us have not yet forget-
ten what things were like on the
cold gray morning after the first
World war, when the tumult and
the shouting of the Armistice had
died. If there should be another
Armistice day, it is doubtful if
some of us could bear to join in
the shouting. Not that we would
not be glad over the end of the
war; we would almost certainly
be thinking of the inevitable de-
flation to follow. During the Ar-
mistice in 1918 we believed even
in our hearts that everything
would be lovely. It is hard to see
how anyone with a mind can face
that way now. Bernard Shaw has
spoken for all such people.

Religion in Education—Matthew
7:1-12; Luke 6:39-45.
By Henry Geerlings

There are people who seem to
think that religion and education
should be kept apart, that they
have little or nothing in common,
that religion in particular should
not be forced upon any one, and
that education should be given the
right of way.

In the purely intellectual realm
it may be possible for us to get
along fairly well without seeking
the help and guidance of God; but
that is not true in the sphere of
religion. Here we take no step
ahead without special help from
on high. But prayer becomes us
in every realm. How often we
have besought God to send us rain
without which nature is power-
less to produce food for man and
beast. How often we are struck
with the helplessness of man on
the one hand and the helpfulness
of God on the other hand. It is
not strange that Jesus both by
teaching and example encouraged
his disciples to engage in the
practice of prayer, and that too for
the common things of life.

The title of this lesson is not
religion and education. It is not
religion as opposed to education. It
is not education without religion.
It is religion in education. The
two belong together. Religion is
not something that we pick up
without teachers and books and
classrooms. It is not something
that comes to us without exercise
on our part. It becomes ours lar-
gely through the educational process.
Parents teach it to their children.
Ministers proclaim it from the
pulpit and disseminate it in the class-
work and in the homes of their
people; and it is promoted in a
score of channels in every con-
gregation. There is more of it in
the life of the average believer than
we are in the habit of thinking.

Education in and of itself is not
enough. We cannot exalt too high-
ly our public and private schools
throughout the land. In many
secular schools the Bible is read.
It would be a fine thing if the
Bible in the work of each day
would be opened with the reading
of a Scripture lesson and prayer.
That is an impressive way of say-
ing that education can never be
wholly divorced from religion.
Every one of us must know that
when such a separation is at-
tempted something is lost both to
our religion and to our education.
The study of a subject like this
calls us back to first principles
and helps us to see anew that as
a matter of fact religion cannot
be wholly divorced from anything
that is good and true and useful.

Education alone does not prom-
ise enough and it does not guar-
antee all that it promises. It leaves
much to be desired so far as con-
duct behavior is concerned. Moral
conduct is the outgrowth of educa-
tion in religion; but education is
far more than the storing of the
mind with facts. The work of the
church is infinitely more than
that of bringing skill to the hand
and power to the intellect. This
alone can never offer us a sure
and safe guide. We need not be
told that in not a few instances
brilliant men and women have
challenged and often denied the
things we hold most precious. Still
we may well call ours a Christian
nation. The faith and life of the
church have brought us many of
our finest possessions and have
provided us one of the chief rea-
sons for the high place we hold
in the family of nations. It has
been said that Christian teaching
not only helps to insure our po-
litical security, but it is also one
of the imperatives in the preserva-
tion of our intellectual and religious
security. This fact, it would
seem, has been apparent from the
very beginning of our national
life. Unless our education system
remains predominantly Christian,
we shall lose many of the things
of which we are justly proud. The
Christian voice in this land is one
of faith and hope.

Schoolmen and religious educa-
tors alike are beginning more and
more to realize that mere educa-
tion as such is not enough. As a
consequence there is more and
more of a tendency to put some
form of religious education into
the public schools. Sometimes this
takes only the form of moral or
ethical precepts taught under the
guise of some form of sociology. In
other places there is a fully inte-
grated program of religious educa-
tion on relaxed time, with pupils
going to their own churches for
religious instruction and receiving
full school credits for that in-
struction. In still other places
there are teachers of religion
brought into the school class-
rooms and the subjects taught are
a regular part of the school cur-
riculum. Definite progress is being
made. We must encourage it and
work hard and advance it.

Fire partly destroyed a house
owned by Robert Leenhouts on
Centennial St. in Zeeland last eve-
ning. The house destroyed was not
occupied but was being remodeled
and improved and was to be oc-
cupied this week by William Ir-
vine.

The annual reception for the
students of the Western Theologi-
cal seminary was given last eve-
ning at the home of Dr. and Mrs.
E. J. Blekkink on West 13th St.
Those present were the seminary
faculty and wives, the students
and their friends and the Re-
formed church ministers of this
city. During the evening instru-
mental music was furnished by
Miss Warnshuis and vocal selec-
tions by Miss Bloemendahl.

The union growers in the vicin-
ity of Zeeland are about to har-
vest their crop. Zeeland onion
buyers have contracted to buy
about 150,000 bushels from the
growers in that vicinity. The
prices paid are about 75 cents a
bushel.

While the grape crop in Ottawa
county has been below the stand-
ard this year there are many
grapes of good quality being pack-
ed in the vineyards along Grand
river and the steamer May Gra-
ham is bringing down good loads
each evening.

Mr. and Mrs. H. Vander Werp
and Mrs. A. C. Hildebrand and
daughter, Grace, left this morn-
ing for a week's visit with relatives
in Chicago.

Beginning today the killing of
migratory birds is regulated by
federal statutes which were re-
cently passed by congress to take
the place of state laws governing
the killing of such fowls. The en-
forcement of the laws has been
placed in the hands of the bureau
of biological survey of the depart-
ment of agriculture and the game
wardens who have acted in the
past in seeing that the state laws
were enforced will also enforce
federal statutes. The new law gov-
erns the killing of all water fowls,
rail, woodcock and shore birds.
Hereafter there will be no spring
season for hunting the above birds
and the fall seasons have been
limited. Ducks, geese and brant
may be shot between Sept. 1 and
Dec. 15; rails and coots between
Sept. 1 and Nov. 30; black brant
and golden plover, jack snipe,

How much does it cost to move a pin?

On a war map of the South Pacific, the little red-white-and-blue pins march steadily westward.

Tarawa... Makin... the Marshalls... Saipan... and each move brings the pins closer to Tokyo.

Each move is mighty expensive business. The cost is high in dollars... the cost is high in men.

To plant the Stars and Stripes on Saipan cost the lives of more than 2000 American boys... plus some 12,000 wounded and missing.

Naturally, these losses cannot be summed up in dollars and cents... there is not enough money in the world to bring back 2000 dead Americans.

But in guns, ammunition, and other equipment, it is estimated that Saipan cost us many millions of dollars. Each of the many steppingstones remaining between our forces and Tokyo may cost as much or more.

Where is the money coming from?

It's coming from you, and millions of Americans like you... from the taxes you pay, and from the War Bonds you buy.

And while it may pinch a little, buying those Bonds is the smartest thing you ever did.

For the dollars you put in Bonds not only help win the war. They come back to you later—and bring more dollars with them.

In this postwar world we're going to build, they'll be the most valuable dollars anybody ever owned.

Get all you can of them—now!

Cream Will Be Thinner Here By WFA Order

Benjamin Speet, president of the Holland Milk Dealers' association, and all milk dealers of this trading locality have cut down to 19 per cent the content of butterfat in the cream they sell local consumers, following warnings from the war food administration office that prosecution would follow unless this reduction is made.

Speet, who served as spokesman for the local dealers, said dealers here had been selling cream with a butterfat content up to 21 per cent to enable Holland housewives to whip it.

Test samples of Holland cream in Grand Rapids revealed the high percentage and George Livingston, compliance officer of the Chicago field office of the WFA, sent letters to local dealers requiring strict compliance.

Speet said the normal butterfat content of single cream is 18 per cent and for double cream 26 per cent. The new regulations became effective early in the war in an attempt to conserve two billion pounds of fluid milk a year.

Rotarians Hear Lt. C. R. Laudie

Special feature at the Rotary luncheon Thursday noon was an informal talk by Lt. Charles R. Laudie, bombardier and navigator on a Britain-based B-26. Lt. Laudie, back in the States after completing 73 bombing missions in European war theater, visited Holland in the interest of the army aviation cadet program.

Among the targets of Laudie's squadron were German air fields in France, the robot bases, bridges on the Seine, gun emplacements at the base of the Cherbourg Peninsula on D-day, and fuel dumps.

In attacking robot launching platforms the flyers would wait until a base was about 90 per cent completed before going over to knock it out, thus disrupting some 75 per cent of the original bases and forcing a change to portable launching platforms. These robots Lt. Laudie termed as "terrible," describing them like fighter planes with the wings chopped off. They travel at approximately 350 miles per hour at an altitude of 2,000 to 3,000 feet.

Many casualties result from the shattered glass following the robot explosions, he continued. For several minutes after the bombs land and for some distance around windows are splintered, the glass flying through the air with dangerous speed.

Guests at the luncheon included William Baron of Zeeland and Edgar Hekman and Orle Bishop, both of Holland.

WSCS Members Enjoy Program, Museum Tour

Members of the Woman's Society for Christian Service enjoyed an unusual and educational meeting Thursday night in the Netherlands museum. The women are studying southeast Asia this year and one of the finest exhibits in the country pertaining to the islands, included in the Netherlands East Indies is on display at the local museum.

Willard Wichers, curator of the museum, cooperated with Mrs. Ray Swank, program chairman, of the Woman's society, in arranging the program which included a conquered tour of the museum and the showing of films about the people of the various islands. A concentrated presentation of the book, "West of the Date Line" by Constance N. Hallock, is being given at the Sunday evening School of Progress in the Methodist church. Through the courtesy of the museum a new set of films pertaining to this area will be shown next Sunday night.

Deviations were in charge of Mrs. Beatrice Denton. A nominating committee was appointed and includes Mrs. William C. Vandenberg, chairman, Mrs. H. C. Goodwin and Mrs. Albert Blum. Refreshments were served by Mrs. Nell Van Leeuwen's committee. Mrs. Carl Harrington, president, presided.

Dr. Raymond Speaks to Club on Tax Situation

Dr. Bruce M. Raymond, professor of history and political science at Hope college, who has been serving as a member of a state tax study commission under appointment of Gov. Harry F. Kelly, gave members of Century club meeting Monday night in the home of Dr. and Mrs. Wynand Wichers a concise and interesting explanation of the work being carried on by the commission.

"We all get excited about taxes when the time to pay them comes," Dr. Raymond said as he explained in words his laymen listeners could understand the problems of the so-called "15-mill cities," the physical needs of the state which must be served in the post-war period, the inadequacies of the present intangibles tax and the complex situation in many townships.

Dr. Raymond said that the commission is endeavoring to save the people of the state the burden of unfair taxes. Much is still before the commission, he declared, and the group is studying the possibilities of consolidation in the administration of county affairs, efficient administration to eliminate waste in labor compensation, the reduction of school districts and the abolition of unnecessary officials.

The speaker spoke of the city of Holland as well-governed with a small bonded indebtedness, a situation in which her citizen may well take satisfaction.

A charming addition to the program was provided by Miss Barbara Lampen who played a group of piano selections. Her numbers were the first movement of the Mozart "Sonata in G," a Schubert "Impromptu in B Flat," and for an encore, "Cadiz," by Albeniz.

Jay H. Den Herder presided at the meeting, in which Mr. and Mrs. Willard Wichers were elected members of the club. On the nominating committee were Vernon Ten Cate, chairman, Randall Bosch, Mrs. James Ossawaarde, Mrs. Clyde Geerlings, M. L. Hinga, E. E. Fell and Mrs. J. R. Mulder. Dr. and Mrs. G. W. Van Verst were welcomed back into the club after a year's leave of absence.

Local Youth Surrounded By Germans for 12 Hours

With the Fifth Army, Italy—

From a thick walled stone bastion, Pvt. Nelson Dykema, 171 East 17th St., Holland, Mich., and a small group of fellow infantrymen of the 88th infantry division recently stood off a 12-hour attack of battalion strength on the fifth army front in Italy.

Wandering into an unknown area late at night, Dykema's group decided to bed down until morning. At daybreak one of them investigated their position and excitedly announced that they were in "one h. l. of a spot." They were surrounded by a battalion of Germans.

With the radio, they contacted an artillery unit of their division and called for concentrations of fire around the house to keep the Germans away. The strategy worked and many casualties were inflicted on the unwary enemy.

A few of the Germans managed to crawl through the artillery fire, but they were picked off by the riflemen firing from the windows of the house. One Kraut was shot as he was about to throw a grenade through a window. The grenade exploded in his hand.

In the 12 hours that the Yanks held their fortification they repelled seven German attempts to flush them. From time to time the artillery fell close enough to

scatter pieces off the roof.

A large part of the battalion was knocked out before the dough-boys were able to rejoin their company.

Pfc. Althuis went to France on D-Day and, according to his letter, is now in France.

IN MINOR ACCIDENT

Cars driven by Mrs. Dorothy Moran, 610 South River Ave., and R. Kalk, 76 West 27th St., were involved in a minor accident at Cherry St. and Central Ave. Thursday.

Twenty-one days trapped inside the Japs' lines without fresh food, water or quinine.

That tops the 'experiences of Pfc. Willis Boeskool, in Holland on furlough, in the New Guinea battle for Port Moresby in which he participated for 5 1/2 months.

The unit of approximately 100 men, with which Boeskool was a mortar observer, or "suicide leader" as his buddies call the job, had advanced through the Japs' line on patrol only to find out shortly afterward that the road back was blocked with Japs.

"We emerged with only 33 men of the original 100," Boeskool said, "and during the 21 days there was constant enemy fire and often hand-to-hand combat. It was a case of beating off repeated enemy attacks."

"We lay in foxholes with about two or three men to a hole and had orders not to shoot until positive of a hit because of our serious shortage of ammunition," Boeskool explained.

"We were bombed about every two days by Jap planes and had little aerial support ourselves as it was in the early stages of the war and not long after the Japs had stretched their advance to cover almost all of New Guinea."

"Our best friend was the can-opener," he joked and added that the boys made sure it was kept safe.

Boeskool's 21 days without quinine left him with malaria and he remained in an Australian hospital for a year and a half before he was shipped back to the states on a rotation furlough.

Although bearing several hand scars as evidence of battle he looked in excellent health and said he plans to remain in the army after the war. He wants to be with the army of occupation. He will return to Miami, Fla., to be reassigned after his furlough ends.

Being home is "wonderful," Boeskool said, but it is a lot different here with most of the boys away in service, he added.

He was inducted into the army April, 1941, and was sent to Camp Livingston for training after which he was shipped to Australia where he was with the national guard most of the time. He is 27 years old.

He is the son of Mr. and Mrs. Herman Boeskool, 77 West Eighth St. They have another son, Raymond, who is now in France with the army.

Apparel stores, including shoe stores, increased about 11 per cent in number and about 23 per cent in sales since 1935.

DEWEY

NEW DEAL TIRED, WRANGLING

"AT THE VERY OUTSET I want to make one thing clear. This is not merely a campaign against an individual or a political party. It is not merely a campaign to to displace a tired, exhausted, quarreling and bickering administration with a fresh and vigorous administration. It is a campaign against an administration which was conceived in defeatism, which failed for eight straight years to restore our domestic economy, which has been the most wasteful, extravagant and incompetent administration in the history of the nation and worst of all, one which has lost faith in itself and in the American people."

Holland Defeats Kazoo Irish 25-14 For First Victory

St. Augustine Scores In Fourth Frame; HHS Counts in First Three

Snapping a ten-game losing streak and chalking up their first win this season, the Holland High school football team blasted out a 25-14 decision over Kalamazoo St. Augustine Friday night with a brilliant and consistently charging offense.

The Dutchmen, with Roy Zwemer doing the job of a triple threat backfield man well, racked up 25 points in the first three quarters before the out-weighted Irish finally got their offense rolling and rolled up 14 points in the final quarter.

Bob Kuipers did most of the scoring for the locals and accounted for 18 points, one touchdown on a 25-yard jaunt through the center of the line.

Red Hulst scored the other Holland touchdown on an end sweep from the Kalamazoo four-yard line. Holland's lone extra-point came on a pass from Joe Caravia to Louie Van Dyke after a third quarter touchdown.

Holland kicked off to St. A. to start the game and after the Irish had registered two first downs they were forced to punt and then the Dutch started their first touchdown drive from their own 28-yard line.

With Roy Zwemer counting 41 yards on line plays and tossing an eight-yard pass complete to Red Hulst the Dutch soon scored, with Bob Kuipers going over from the two. Zwemer's kick for extra-point was low.

They crossed the final chalk mark again in the second quarter on a series of line plays with both Kuipers and Zwemer carrying the pigskin. Kuipers scored the touchdown. Caravia tried to go over on a line play for the extra point but fumbled. The half ended with the score 12-0 for Holland.

The Dutchmen then hit hard and in quick succession in the third frame. After Frank Bagladi had returned the kick-off from his 20-yard line to the 33 a series of deceptive line plays put the Dutch within scoring range and Kuipers scrambled over from the Kazoo 25. Caravia passed to Van Dyke for the extra-point.

They scored again five plays later when on the first play after the kick-off to Kazoo, Red Hulst intercepted a pass on the Kazoo 25 and carried it back to the 14. Caravia hit around the right side for five, Bagladi ripped off three, Kuipers two and then Hulst scored from the four. Zwemer's kick for extra-point was low for the second time.

St. Augustine then gave their first sign of offensive power and crashed through the Dutch defenses for gain after gain in the last quarter. Louie McQuire went over from Holland's five for the first touchdown and later Jack Moreland on a drive through center from the Holland eight fumbled with the ball falling over the goal line and being pounced on by Dick Scheib for their second touchdown. McQuire accounted for both extra-points, once on a line smash and once on a pass play.

It was a popper Holland team that took the field last night but its fighting Irish never gave up and when Coach Malcolm Mackay sent in reserves toward the end of the contest, they capitalized on the Holland break-up of the first string with two quick touchdowns.

Outstanding for Holland were the smooth passing of Roy Zwemer and the running combination of both him and Bob Kuipers. The entire Holland line completely out-charged a smaller forward wall of St. A. and Louie Van Dyke was especially good on defense.

\$236,532 Budget Set Up for Ottawa County

Grand Haven, Oct. 19 (Special) — The Ottawa county board of supervisors Monday afternoon adopted the county's 1945 budget which calls for an expenditure of \$236,532.59, or an increase of \$12,489.23 over the 1944 budget of \$224,043.36.

The 1944 budget was \$112,433 over the 1943 budget of \$222,920.83. The 1943 budget was \$13,622.72 over the 1942 budget of \$209,298.21.

The 1945 budget car-marks \$74,530 for salaries, an increase of \$1,480 over the 1944 allocation of \$73,050. Supervisor Charles E. Misner's motion to increase the salary of the register of probate from \$2,000 to \$2,300 last as did a motion of Herman Van Tongeren to raise the salary of the court house custodian from \$1,800 to \$1,900.

Misner's second motion that the register of deeds salary be fixed at \$3,900 instead of \$3,000 so that it would conform with salaries of the county clerk and county treasurer also last. Misner opposed the adoption of the budget as finally presented.

County School Commissioner Dick H. Vande Bunte's request for an allowance of \$250 for summer work was not granted in the budget. He pointed out that for administration expenses alone, Holland city spends \$22,927 on schools. Grand Haven city a little over \$26,000 and Zeeland city \$7,090 or a total of \$56,017.

The committee on taxes and apportionments may possibly submit its report this afternoon.

The \$1,480 increase in salaries included a \$300 raise for the county clerk, \$300 for county treasurer, \$300 raise for drain commissioner, \$300 raise for sheriff, \$400 raise for register of deeds, \$50 raise for prosecutor's clerk,

\$50 raise for custodian, \$180 raise for county agent, \$300 raise for school commissioner, \$400 raise for both helping teachers. Reduction in the treasurer's staff of one clerk at \$1,500 reduces the total increase of \$2,980 to \$1,480. Nelis Noted for Fine Tulip Beds

Nelis Nurseries, which was established in 1922 and incorporated in 1937, is one of Holland's leading nurseries. They are especially noted for the fine tulips of every variety which they grow and which are on display every May at their farm on route 4.

Nelis Nurseries also handles a complete line of nursery stock, trees, flowering shrubs and evergreens of almost every description which are hardy for Michigan climate, with a capable landscape man in charge of this department.

Florists at the nurseries urge the gardeners of Holland to practice the policy of deep planting of tulips for the utmost of enjoyment and the least effort.

Advantage of this kind of planting lessens the danger of damage from frost, damage from mice and other animals living underground and enables the person to produce blooms each year without the necessity of digging up the bulbs.

When planting the bulbs, the soil should be loosened to a depth of 18 inches and the bulb should be planted 12 inches deep.

Citizenship Program Arranged by WCTU

The annual citizenship program, arranged by Mrs. Fred T. Miles, director of the Christian Citizenship department, featured the meeting of the local unit, Women's Christian Temperance union, Friday afternoon in the home of Mrs. John Van Oss. Devotional exercises in keeping with the program theme were conducted by Mrs. F. Jonkman, and Mrs. Alton Kooyers, accompanied by Mrs. Dick Van Der Meer, sang "I Heard the Voice of Jesus Say."

Mrs. Carl Dressel, president, introduced Judge Fred T. Miles who displayed copies of the new ballot

and explained the separate ballot for the election of president and vice-president so that it is no longer possible to vote the famous straight ticket and "let party candidates ride to office on the coattails of the president."

Judge Miles also explained where both candidates for the presidency stand on the question of prohibition by reading excerpts from "The Wrecking of the 18th Amendment" by Ernest Gordon and condensations of other articles.

Before introducing the four state amendments to be voted on, the speaker gave a short historic review of "how and when Michigan had become a state and how proposals of amendments must be presented."

Judge Miles spoke at length about the fourth proposal which, although concerning only Wayne county, must be voted upon by the people of the state. The group showed a lively interest in his lecture by questions which were answered by the Judge.

Mrs. W. Jacobs served as hostess during which Mrs. Minnie Meengs and Mrs. C. Van Duren presided at the urns.

There's untold satisfaction in buying something where your approval is the final reward. Printing, like other things, depends so much on the human element. More than this it is necessary to work with the best equipment to get the best results. We stand "ace-high" on every point! All we ask is a fair trial.
