Annexation Discussed by School Board

Representatives of Nearby Boards and Committees Present

About 30 visitors, many of them members of school boards and citizens annexation committees in the area, were present at the monthly meeting of the Board of Education Monday night in E. E. Fell Junior High School. Among the visitors were several members of the public school faculty.

Considerable time was spent in discussing annexation questions which will appear on the Nov. 4 ballot. Two school districts are seeking political annexation, the Van Raalte district east of Holland and the Lakeview district west of Holland. The Lakeview district carries two separate issues, one for the section in Ottawa county and the other for the section in Allegan county. Holland city voters will vote on three issues, the Van Raalte annexation, the Lakeview (Ottawa) annexation and the Lakeview (Allegan) annexation.

In connection with annexation topics, James E. Kieintveld, co-chairman of the Lakeview Area Citizens Committee, read a letter he received a few days ago from Wilfred F. Clapp, assistant superintendent for administrative services of the Michigan Department of Public Instruction at Lansing.

Clapp's letter followed much the same trend of previous letters he had written to A. F. Schwartz and George Bishop of the Maplewood district last May and Dr. Burt Thorn's letter last Sept. 16 to Kieintveld and to William Oonk of the Van Raalte district.

Dr. Clapp's four points follow: 1. This office believes that the best possible school district organization which could offer the best educational program in grades kindergarten through 12 is a union of the school districts now being served by the Holland High School into one district, including the Holland district.

2. Due to certain developments, the attainment of this objective is not reasonably possible at this time especially in regard to that part of Holland community area lying in Allegan county. Consequently, this office did approve a merger of certain districts in Allegan county for high school purposes.

3. This office believes that there should be no more than three school districts in the Holland Community area operating 12 grade programs; namely, the Holland school district, a district to the north of Holland, and the new consolidation to the south of Holland.

4. This office believes that the educational interests of those districts lying along the south edge of the lake in Ottawa county will be best served by a merger with the school district of the city of Holland rather than by union with the Hamilton consolidation or any other scheme.

Kieintveld also had submitted a series of five questions which had come up in the Lakeview area concerning hot lunch programs, bus transportation, procedures on school annexation, reassurance that Holland will accept ninth grade students even if districts are not annexed to the school district by September, 1959, and aid in solving classroom shortage at Lakeview in case political annexation is effected.

To these questions, Supt. Walter W. Scott and other board members reiterated plans and policies which had been a part of previous annexation programs. The board promised cooperation wherever possible on the hot lunch program, on transportation and again outlined procedures for school annexation in case political annexation is effected. Supt. Scott said state funds for transportation are available only for students living more than a mile from an elementary school and for students living more than 1 1/2 miles from secondary schools. He said the Holland board certainly would recommend that the transportation program be extended to the extent necessary and feasible. Holland district itself operates no transportation system other than the one for physically handicapped children.

Scott also outlined procedures on school annexation but he said the board has not defined what "a reasonable time" is between political annexation and school district annexation. He said there are some factors for consideration in the Montello Park district because part of the district lies in Park township and will be a part of the Nov. 4 issue for Lakeview district.

Close cooperation was promised Lakeview district in solving classroom shortages expected in September, 1960, provided annexation carries. Scott felt district annexation would be accomplished by that time. In case districts do not annex to the Holland district there could be a delay in planning necessary expansions, he said.

There also was a discussion on school district debt, and the school board reiterated general policies that each district annexing to the Holland district would assume its own debt. Holland's bonded indebtedness is expected to be retired in another year, but there was emphasis on the necessity for more classrooms and a general expansion program.

Each instrument was made as the band played the appropriate selection.

As a climax, the band played "Rock Around the Clock" and displayed an "H" formation as they played "Go Holland High," school song.

Council Closes Block On Harrison

Several Opinions Are Expressed at Public Hearing

Following a 40-minute public hearing on the closing of Harrison Ave. between 12th and 13th Sts., City Council Wednesday night voted unanimously to close the block.

Several of the 40 persons in the audience expressed opinions on the closing of the block which is regarded as only a part of a total picture which may involve a new truck route in that part of the city, and the persons voicing objections spoke more from the viewpoint of opposing a new truck route—or expressway as some persisted in calling it—than closing the block on Harrison Ave. abutting the Crampton Co.

In the original request to close the one block on Harrison Ave., Crampton Co. offered to deed to the city certain property it owns between 11th and 12th Sts. for use in developing a truck route. This right of way will be available one year from the date the city requests it for such a route.

Herman Pleasant, president of Crampton's, said Crampton started out as a small concern in 1941 with 12 to 15 employees. Today it has 581 employees and operates subsidiaries at Scott's, Inc., and Conrad, Inc., and has an annual payroll of \$2.4 million. He said the company has options on property west of Harrison Ave. for expansion and requested that the street be closed to allow proper expansion.

Henry Strabbing, West 11th St., described himself as a small businessman, one who doesn't employ hundreds of persons, but he felt it was a serious matter to close any street in Holland. He also objected to a truck route along the C and O tracks near Kollen park and felt such an arrangement would spoil the park.

Vander Kolk, West 11th St., agreed with Strabbing. He spoke of his personal war record and his return home to live in Holland. He said Crampton always expands with a special dispensation of some sort. He questioned procedures of this closing and felt there was not sufficient publicity or notice. Mayor Robert Visscher explained that Vander Kolk was probably thinking of hearings called by the appeal board in which case all residents within a certain area are notified. This is not true of a council hearing of this type.

Marion Shackson, 311 West 12th St., felt that it would be a big mistake to close Harrison Ave., particularly in view of heavy traffic out of Kollen park on occasion. She felt any available property adjoining Kollen park should be used for park development and asked why Crampton could not expand on Scott's or Conrad's property.

C. Reidsma, former Crampton employee, felt that Crampton was very important to the city of Holland, and if the factory should leave the city because of its inability to expand, Holland would lose one of its best paying plants.

In a return appearance, Vander Kolk said if Crampton were to deed a right of way to the city it should deed all its property between 11th and 12th to allow for additional parking for Kollen park. Strabbing returned to say he felt the public hearing was more of a hearing on expressways than on closing a street and if Crampton wanted to expand he knew 80 acres which was available.

Marvin C. Lindeman, chairman of the economic development committee of the Chamber of Commerce, said industrial expansion is vitally important in any city and Holland welcomes all types of industry which is consistent with the character of the community. "How we treat our present industries is generally a good gauge in attracting new industry. If we don't look after our present industries, it is doubtful whether new industries would view Holland as having a desirable industrial climate." He added that it is doubtful that Crampton would consider buying 80 acres in Holland when it already owns 26 acres in Grand Rapids.

Ralph J. Oldenburger, 309 West 11th St., felt that a truck route along the railroad right of way would be a hazard to the 17 small children who live in the half block on 11th St. as well as interfering with the new band shell at Kollen Park.

Without opposition of any kind, Council quickly skipped through a public hearing on construction of a water main in West 20th St. from Diekema Ave. to Graafschap Rd. It adopted a resolution ordering the Board of Public Works to proceed with construction and the city assessor to prepare a special assessment roll.

Miss Rose Burns, daughter of Mr. and Mrs. William Burns, 173 East 16th St., and Miss Mary Lee Witterkind, daughter of Mr. and Mrs. Chester Witterkind, 332 East Fifth St. are attending Muskegon School of Business. Both are pursuing the Executive Secretarial Course.

City Council Enthusiastically Accepts Gift of Library

City Council's special library committee which has been working with the Library Board on plans for Holland's new library presented a report to Council Wednesday night, expressing heartfelt appreciation to the donor, the Herrick Foundation of Tecumseh, Mich.

It also presented the gift document which had been held until the names of the donors, Mr. and Mrs. Ray Herrick, were announced publicly. This document will be placed in the official files in the city clerk's office.

The report recognized the generosity of the Herrick foundation by naming the new \$325,000 library the Herrick Public Library. It reviewed the enthusiastic reception at the Oct. 2 meeting when Ray Herrick unveiled sketches of the proposed library. These sketches were on display at the council meeting.

Councilman Henry Steffens expressed his personal gratitude at being a member of City Council at a time when such a wonderful gift is announced, and felt all Councilmen shared this enthusiasm.

Mayor Robert Visscher asked Librarian Hazel Hayes if she had any comment, and she replied, "I'm so grateful, words just can't express it. This is something that could happen to a person like me only once in a life time!"

The mayor replied, "We owe an awful lot to you, Mrs. Hayes." Councilman Raymond Holwerda was happy over the "thrill in a lifetime" expression, but he hoped other persons in earshot (proceedings were broadcast) would not be discouraged in trying to duplicate such a happy occurrence.

Voice vote on accepting the report was enthusiastically unanimous.

In other business, a letter from the consistory of Prospect Park Christian Reformed Church complimented Holland fire department on the efficient way it handled the fire at the church Oct. 1. The letter stated that Chief Dick Brandt and his men took all precautions to prevent water and other damage and yet got the fire under control in short order. The communication was accepted and the city clerk was instructed to send a copy to the fire department.

A request from Holland Community Chest for permission to attach a temporary banner to the front of the John Good building at 23 West Eighth St. from Oct. 6 to Nov. 6 was granted.

A letter from the Holland township board together with a petition protesting smoke and odor nuisance from the city dump was referred to the city manager for report. The letter stated that a committee has been appointed to study a similar complaint against the township dump.

Requests for two-hour parking signs on both sides of West 11th St. between Washington and Van Raalte Aves. were referred to the city manager for report.

Petitions requesting paving on 27th St. from Van Raalte to Harrison Ave. were referred to the city manager.

Council again tabled a recommendation of the city manager to exercise the option with Laura Steggeda on East Ninth St. and the purchase of the Van Ark property nearby.

Oaths of office were filed for Bernard R. Shashagay, member of the traffic and safety commission, and Frank Harbin, member of the panel of space heating engineers.

The city clerk read a letter from the American Municipal Association extending an invitation to attend the 35th annual American Municipal Congress in Boston Nov. 30 to Dec. 3.

An application for a permit to apply porcelain on the exterior of a gas station at Fifth and River was referred to the city manager for report. Texas Co. is the owner and the permit is sought by Wolverine Tile Co. of Grand Rapids.

Council accepted an invitation from the Homecoming committee of Hope College to attend the 1958 homecoming coronation in River-view park tonight.

By a vote of 5 to 4, Council rejected a request from the Board of Public Works to purchase the Kramer property at 62 West 11th St. The BPW was contemplating expanding its meter department which might require an additional building west of the City Hall garage, in which case the new site might provide additional parking space. Opposed to the purchase were Councilmen Henry Steffens, John Van Eerden, Robert Kow, Raymond Holwerda and William Heeringa.

Council approved a BPW license agreement form prepared by the city attorney for use for occupancy of the old Consumers Power Co. right of way by abutting property owners.

Quarterly financial reports and the appropriation and disbursement report as prepared by the city auditor were presented.

City Auditor John Fonger issued a report stating that \$10,000 in City of Holland water revenue bonds are available for purchase with a net yield of 3.90 per cent. Council authorized the city auditor to purchase these bonds as investments of the cemetery perpetual care fund at a cost of \$8,428.44 and accrued interest of \$80.97.

A report also was prepared by Fonger and Paul De Vries as a summary of the 12th annual report

Advise City Early Today Of Appeal

Leo Hoffman Appeals Motion on Dismissal To Supreme Court

The Maplewood annexation case has been appealed to Michigan Supreme Court, City Attorney James E. Townsend was informed today.

Townsend, who has been representing the city of Holland in litigation in Allegan Circuit Court, was notified of the appeal today by Leo Hoffman and Frederick D. McDonald, law partners in Allegan.

Hoffman has been representing 71 plaintiffs living in Maplewood area which was annexed to Holland in a June 3 election, contending that the annexation action was unconstitutional in view of the vast areas of agricultural land included in the district.

The notice sent to Townsend today informed him that a claim of appeal has been filed along with a title of the document in Allegan Circuit Court. After the record is settled in this court and briefs are filed, the entire record is forwarded to the Supreme Court. Townsend said several months might elapse before the case is actually heard by the Supreme Court, adding there would be an opportunity for oral argument before the high court.

Townsend said the appeal is just on the dismissal granted by Circuit Court Judge Tom Robinson of Benton Harbor in September. Hoffman had filed suit on behalf of the 71 plaintiffs restraining Holland city from exercising control or jurisdiction over the Maplewood area which lies in Fillmore township and in Allegan county.

Townsend countered with a motion to dismiss and a 32-minute hearing was held Aug. 22 in Allegan Circuit Court. The following month Robinson ruled in favor of Townsend's motion to dismiss. It is this ruling that Hoffman is appealing to Supreme Court.

Should the Supreme Court rule in favor of Hoffman, the original case as filed by the 71 Maplewood residents will be heard in Allegan Circuit Court. Townsend explained.

The new documents did not list all 71 plaintiffs. Only the names of John and Margaret Schurman, et al. were mentioned.

Townsend said he probably will consolidate previous briefs and bring them up to date to be filed with the Supreme Court.

Thieves Again Hit Station

Thieves late Tuesday night or early Wednesday again broke into the Wooden Shoe Service Station, at the corner of East 16th St. and the US-31 bypass, making away with about \$12 in change from the unlocked cash register, an undetermined amount of money from the candy machine which they ripped open and half a book of green stamps.

Owner John DeGraff said it is the 14th time the station has been burglarized since he opened for business there three and a half years ago.

Holland detectives said the thieves entered by breaking a window on the south side of the building and left through one of the large garage doors.

The candy machine had been ripped open to get at the cash box inside. Detectives noted that the thieves knew just where to cut in to get the cash, and said tools from the station, a screw driver and a large pliers, had been used to tear open the metal.

DeGraff said he closed up the station about 8:10 p.m. Tuesday and opened up this morning just before 8 a.m. He said he immediately saw that the candy machine had been swung around, with the back toward the windows facing US-31, in an apparent attempt to hide the men as they worked.

Dutch Score First; 4th Straight Loss

Holland High's football team put on its best offensive display of the season here Friday night but fell to Grand Haven, 13-6 before 4,000 chilled fans at Riverview Park.

The Dutch scored a touchdown with 5:32 left in the first quarter and for the first time this season held the lead. But although they did conclude the first half with the ball on the Grand Haven five-yard-line, they were not able to score again.

Holland gained a total of 282 yards, more than the total for the three previous games, while Grand Haven picked up 211 yards, all on the ground.

The teams both had about the same amount of speed and each unit turned in some nice running.

The Dutch Homecoming crowd was quickly aroused by Holland's start. After taking a Grand Haven punt on the Buc 40, the Dutch offense went into gear and in nine plays was home. Fullback Scott Brower took a pitch from quarterback Rog Burma and swept right end for four yards and the TD.

The pass from center was low and halfback Bruce Van Dyke was forced to run and failed.

Grand Haven came steaming back and put on an 80-yard, 12-play drive which was climaxed with halfback Bob Cleveland's slash off tackle from 10 yards out with 10 seconds left in the first quarter. Joe Wiggers blocked the kick.

Three plays following the kickoff, Brouwer fumbled and Grand Haven recovered on the Buc 46. Second string quarterback Tom Parker led the way with his rollouts which netted 40 yards in three carries, including the final nine yards for the touchdown with 5:07 remaining in the half. Bob Van Opynen kicked the extra point.

Then came Holland's final drive which featured a left halfback reverse worked successfully twice in the final minute for 34 yards. Van Dyke, playing his first game at halfback, went for 16 yards to the Buc 24 and then Rich Wolman worked it for 18 down to the Buc six where time ran out.

In the second half, Grand Haven advanced to the Holland 22 in the fourth quarter but lost the ball when Harley Hill recovered a fumble while the Dutch penetrated to the Grand Haven 39 early in the third quarter and lost the ball on Van Dyke's fumble.

Burma completed a pass to end Ron Dorgelo who lateraled to halfback Bob Teall for 15 yards to the Grand Haven 40 for the deepest fourth quarter advancement.

Brouwer was the backfield workhorse with 49 yards in 18 carries. He was hurt by a two runs which lost 35 yards in the second half while Van Dyke, who looked good in his new position, gained the same yardage in seven carries. Burma completed five of nine passes for 65 yards while the Bucs didn't try an aerial.

The loss was Holland's fourth straight while Grand Haven has a 3-1 record. The Bucs keep possession of the Wooden Shoes, symbol of the winner of the game.

Holland plays Grand Rapids Ottawa Hills at South Field next Friday night and Grand Haven takes on Buchanan.

LAWTON (Special) — Fennville High's football team nipped Law-ton 7-6 here Friday night to take over undisputed first place in the Al-Van League.

The Blackhawks now have a 3-0 league mark while Gobles is 2-0 and Lawton is 2-1.

Fennville scored its touchdown in the first quarter on a two-yard quarterback sneak by Denny Morse. The touchdown was set up by a blocked kick on the Lawton nine.

Tom Gooding ran four yards and Dan Hammer cracked for three prior to Morse's sneak. Lyle Earl kicked the extra point which turned out to be the winning margin.

Lawton scored in the fourth quar-ter. After recovering a Fennville fumble on the Blackhawk 19, a 15-yard penalty put the ball on the four-yard-line where quarterback Bill Marks went over. Lawton failed in its point attempt when a run by Bill Wickett was stopped short.

Fennville had a few other chances to score but penalties and fumbles stopped drives. Coach Sam Morehead said. He was par-ticularly pleased with the work of his defensive line, especially in blocking the first quarter kick. He praised the work of Earl, Bill Balckburn, Ray Modrak, John Damaskas and Mike Phelps on the line and Morse and Hammer in the backfield, both ways. Of-fensively the game was a duel between Morse and Marks and Ham-mer and Wickett.

The Blackhawks play Lawrence next Friday night in the Fennville homecoming game. Although Lawrence is in the Al-Van League, this game will not count in the conference. The conference tilt will be played later in the season be-tween the two schools.

Hudsonville Edges Zeeland

HUDSONVILLE (Special) — Pass interceptions paid off for the Hudsonville football team here Fri-day night as the Eagles defeated Zeeland, 13-6 before 1,500 Home-coming fans.

It was the first victory for Coach Dave Kemper's crew in four starts while it was Zeeland's third loss in four games. The game for-merly was a Kenewa League con-test, but since the Eagles joined the OK League this year, the game was non-league.

Late in the first quarter Ken Visser, Hudsonville halfback, inter-cepted a pass at midfield and re-turned it to the Zeeland 45. Fol-lowing several ground plays the Eagles moved to the Zeeland one where quarterback Jim Schuck cracked over. His kick was wide.

This completed the first half scoring and the Eagles led 6-0. Hudsonville's Visser intercepted his second pass near the Zeeland 35 in the third quarter and a few plays later Schuck again sneaked from the one for the score.

Schuck threw to end Dave Bol-huis for the extra point.

Zeeland recovered a Hudsonville fumble midway in the fourth quar-ter on the Eagles' 30 and using a varied attack moved to the Hud-sonville five where halfback Cliff Van Haar cracked over right tackle for the tally. Ron Plasman was stopped trying to run the extra points.

Zeeland threatened late in the second quarter and the half ended with the Chix on the Hudsonville eight-yard line. Schuck did a good job of running the club while Rip Raterink and Visser were the lead-ing ball carriers. Ter Haar was the Chix best runner while Bob Schrotenboer led in tackles.

Allegan Tax Rate Jumps

ALLEGAN (Special) — An Al-legan resident's total tax bill has zoomed from \$31 per \$1,000 of assessed valuation to approximat-ely \$32.50 per thousand in the past six years, according to a report made public today by City Man-ager P. H. Beauvais.

The increase — paced by school operating needs which rose from \$7 per thousand in 1953 to nearly \$17 per thousand this year — also can be attributed to extra voted millage, for such items as the new outdoo house sinking fund, new grade schools and the new high school.

The county itself has been most successful in holding the tax line, according to the report. Its 1953 tax rate was \$7 per thousand. This year it is levying 7 1/4 mills.

From 1953 to 1958, the city tax rate went from 11 mills to four-teen.

The 1 1/2 mill court house sinking fund tax went on the rolls in 1955. The 6-mill grade school levy was already on in 1953 while the new high school levy, which has varied from five to 6 1/2 mills, also started in 1955.

The school operating tax went from 7 mills in 1953, to 7 1/4 in '54; 9 1/4 in '55; 11 in '56; 14 1/4 in '57 and 16 1/4 this year.

School and county taxes are in-cluded in the so-called winter tax while the city collects its levy in the summer.

MONEY HAS ITS LIMITATIONS

Almost unnoticed in the welter
of political and economic asser-
tions in an election year was a
pronouncement by Federal Judge
Harold R. Medina on the limita-
tions of the policy of buying the
"uncommitted" nations to support
us in the battle against Commu-
nism. Said Judge Medina:

"All history gives the lie to the
theory that everything is done for
money. In fact, no big thing ever
has been accomplished without a
spiritual force."

Medina is the judge who pre-
sided in the famous case of the
Communists that lasted the greater
part of a year, in New York; he
is in no sense a man who ad-
vocates being "soft" on such peo-
ple.

His assertion that "all history
gives the lie" to the theory that
money is "almighty" immediately
suggests many instances in Ameri-
ca's own history. Money is ex-
tremely handy and it may often be
used as an accessory to accom-
plish the "big things" the judge
refers to. It can do this legiti-
mately and honorably, as for in-
stance in the case of our own
Marshall Plan. But even such a
use of money depends ultimately
for success on the "spiritual force"
Judge Medina talks about.

As to instances in our own his-
tory that "give the lie to the theory
that everything is done for
money," George Washington inevi-
tably comes to mind. Washington
was a Virginia aristocrat before
the Revolution. He was wealthy,
as wealth went in those days. It
would have been all to his ad-
vantage to play along with the
government of George III in Eng-
land. He could have had almost
any preferment from the British
government, at least after he had
saved from utter destruction the
army of General Braddock in 1755.
He elected to devote himself to a
life of toil, with the chance of
death at the end of a rope if the
Revolution failed. A clear case of
Judge Medina's "spiritual force."

There are many other instances
of the same thing in our history,
as there are in the history of other
peoples. A "spiritual force" can
of course be vicious as well as
benevolent. From the point of view
of "free peoples," Communism is
such a "spiritual force"; the same
thing is sometimes said by declar-
ing that Communism is a "religion."
All history also shows that
there are vicious religions as well
as benevolent ones.

A vicious "spiritual force" can-
not be defeated by money alone;
it calls for a stronger "spiritual
force" that is founded on consid-
eration for the welfare of all men.
The Sermon on the Mount
sounds obsolete to those who rest
their reliance on money alone; ac-
tually it has the might that Judge
Medina is talking about.

The Baptism of Jesus
Luke 3:15-22
By C. P. Dame
(Based on copyrighted outlines
produced by the Division of Chris-
tian Education, National Council of
the Churches of Christ in the
U.S.A. and used by permission.)
A lesson that tells us something
about John the Baptist and about
Jesus is bound to be interesting
and informative. John and Jesus
both made enemies and disciples
and both of them died an unnatu-
ral death. John prepared the way
for the coming of Jesus.

I. Great preaching arouses inter-
est. For four hundred years no
prophet had been seen or heard in
Palestine. John the Baptist stands
in the tradition of the Old Testa-
ment prophets. The people in
John's day saw and heard a real
prophet of God. John preached and
baptized. The subject of his preach-
ing was repentance. John created
much discussion. Luke tells us
that "the people were in expecta-
tion, and all men mused in their
hearts of John, whether he were
the Christ or not." The people
were looking for the coming of the
Messiah. The preaching of John
kindled this feeling that he would
soon come.

John tried to direct the thoughts
of people to him who was to
come. He said that he was not
worthy to do a slave's menial task
for the Messiah. Both the person
and the ministry of Jesus were
far greater than that of John —
this he made clear. John baptized
with water, but Jesus, the coming
One, would baptize with the Holy
Spirit and with fire and minister
to an inner need. John could not
change hearts but Jesus would.
John foretold the sterner aspect of
the ministry of Jesus; he said that
he would purge the threshing floor,
put the wheat in the garner and
burn the chaff.

The preaching of John drew
great crowds and caused much
comment. He not only denounced
the sins of the common people but
he did not hesitate to reprove Her-
od the king because he had mar-
ried his brother's wife who had
left her husband in order to marry
Herod. Herod put John in prison
and later on killed him at the re-
quest of a dancing girl who had
been prompted by her mother, Her-
od's wife, to ask for the head of the
Baptist. It grieved Herod to do this
for he had regard for John.

II. Jesus identified himself with
sinners by his baptism. Jesus also
came to the Jordan river to be
baptized of John. Those whom
John baptized had confessed their
sins—his was a baptism unto re-
pentance, a sign of sorrow for sin
and a firm intention to do better
in the future. Jesus had no sins
to confess. In submitting to bap-
tism, Jesus honored the preaching,
the ministry and the preparatory
work of John. Why did Jesus want
to be baptized? His baptism could
not be a baptism unto repentance.
In being baptized Jesus linked him-
self to sinful mankind for whom
he had come to this world. His
baptism was a act of dedication
to his Messianic ministry. When he
was baptized he stood where sin-
ners stood and right amongst
them. He here began to be "num-
bered with the transgressors."

God responded to the dedicatory
act of Jesus by the coming of the
Holy Spirit upon him and by
speaking from heaven saying,
"Thou art my beloved Son; in thee
am I well pleased." Jesus received
the endowment of the Holy Spirit
by which he was prepared for his
ministry. If Jesus needed the em-
powerment and the guidance of the
Holy Spirit how much the greater
is our need of him whom we over-
look too much. Take note of the
fact that before Jesus performed
miracles, preached, called disci-
ples, or ministered he received the
power of the Holy Spirit.

During the Lord's ministry God
publicly spoke to him three times
—at his baptism, on the mount of
transfiguration and when the
Greeks came to Jesus. God con-
fessed him as his Son. The historic
Christian Church has always pro-
claimed the deity of Jesus. At the
Lord's baptism he was anointed of
God by the Holy Spirit to be our
Prophet, Priest and King.

ceeded a medium blue knit dress
with white accessories. Her cor-
sage was of pink gladioli.

Dutch Score Three Times In 1st Half

KALAMAZOO (Special) — Hope College's football team moved to a first place tie with Hillsdale in the MIAA race following its 27-0 win over Kalamazoo College before 1,700 Homecoming fans here Saturday.

The Dutch and the Dales each have 2-0 MIAA records. Hillsdale, seeking its fifth straight championship, stopped Albion, 20-13 Saturday. Hope has a 4-0 overall mark.

Hope struck early against the Hornets and built up a 20-0 half-time lead in shutting out the Hornets for the second straight year. It was one of Hope's most decisive wins in Kalamazoo in the long series between the two teams.

Three minutes after the start of the game, Hope had its first touchdown. Soph end Mike Blough recovered a Kalamazoo punt attempt.

Hope	2	0	59	12
Hillsdale	2	0	64	13

on the Hornet one after Kalamazoo's Bill Liggett kicked teammate Doug Perry in the seat of the pants trying to get the kick away. Perry backed into the ball. The ball scooted from the 10 to the one. Two plays later halfback Duane Voskuil knifed off tackle for the score. Bill Huijbregtse converted.

Midway in the second quarter, halfback Pete Watt returned a Kalamazoo punt from his own 37 to the Hornet 46 and the second successful drive was started. Earlier in the period, the Dutch had been stopped on the Hornet 15.

Quarterback Paul Mack hit Watt with a six-yard fourth down pass for the TD with 8:10 remaining. Huijbregtse's kick was wide. Aiding in the drive were two runs totaling 22 yards by Saranac freshman fullback Steve Slagh.

Pass defense men Jim Mohr intercepted the first of five Hope interceptions in the game to set up the third touchdown. He snagged the ball on the Hornet 47 and returned it to the Kalamazoo 41. Twelve plays later, aided by a 15-yard pass from Mack to end Ron Bronson, Watt scored his second touchdown of the game with a one-yard plunge off tackle with 1:35 left. Huijbregtse converted.

The Dutch failed to score in the third quarter but did have a drive which moved from midfield to the Hornet 11 late in the period. Early in the fourth quarter, Huijbregtse grabbed a Hornet pass on the Kalamazoo 45 and plowed down to the 28. Six plays later, including a 16-yard pass from Mack to Watt, fullback Ron Bekius crashed off tackle from the four to score. Huijbregtse converted with 9:10 left.

Bekius' touchdown was his fourth in two MIAA games and keeps him ahead in the scoring derby. He has 24 points.

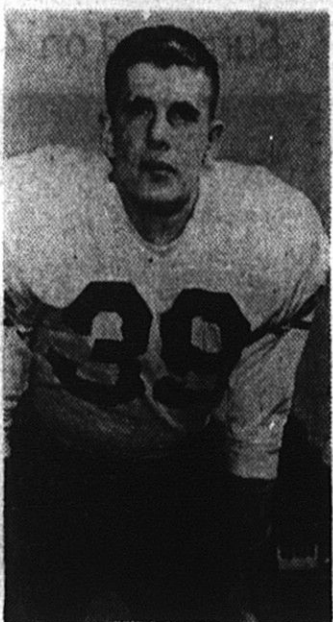

In the closing minutes, Jack Faber intercepted a Hornet pass and ran from the Kalamazoo 34 to the 16 and two plays later Hope's Jim Fox had his pass intercepted by Lou Vild. But on the next play, Fox snagged a Kalamazoo pass on the 44 and returned to the Hornet 22. Two concluding line plays closed the game with the ball on the Kalamazoo 16.

The Hornets penetrated Hope territory only three times in the game. A completed pass with less than a minute remaining in the first half put the Hornets on the Hope 36 but on the next play, Huijbregtse grabbed the Hornet aerial.

In the first couple minutes of the third quarter, Kalamazoo took the kickoff and moved to the Hope 49. A penalty pushed them back but they were able to get to the Hope 48 three plays later and then an offside moved them to the Hope 42.

The fact that the Hornets didn't get inside the Hope 35 and the five intercepted passes speaks well for the Hope defensive units. Particularly pleasing in the contest was the work of the freshmen. Zeeland's Dave Den Ouden looked strong as a corner defender backing up the line.

Coach Russ De Vette again emptied his bench and used 41 players. Regular guard Tom Miller sat out the game because of an ankle injury and center Gene Van Don-

Hope doubled the yards gained by Kalamazoo in the contest, 242 to 120. Most of Hope's strength came in its rushing game where the Dutch picked up 199 yards.

The Dutch entertain Adrian College in MIAA action here Saturday in the annual Homecoming game at 2 p.m. at Riverview Park.

French Industrial Executives Visit Local Die Casting Firms

A group of 10 French industrial executives Monday visited two firms in Holland as part of a month-long, nation-wide tour to inspect current American industrial practices.

Accompanied by two guide-interpreters, the group arrived at 9:30 a.m. at the Crampton Manufacturing Co., 338 West 12th St., where they spent an hour and a half touring the plant.

The group then visited the Scott's Inc. plant at 611 Ottawa Ave., a division of Crampton's, before having lunch at the Centennial Room of the Warm Friend Tavern.

Crampton's manufactures zinc die castings for automotive parts and hardware, plumbing and refrigerator fixtures and other things, while Scott's does polishing and buffing.

The visitors, executives in the French zinc and aluminum die casting field, were thus able to follow the progressive steps of casting, machining, polishing and buffing in getting a first-hand look at modern American manufacturing methods.

After lunch the group left by bus to visit the Grand Rapids Brass Co., another division of Crampton Manufacturing. The three plants are the only ones in Michigan the men will tour this trip. Similar trips to the United States were made by French industrial leaders in 1947 and 1952.

Herman E. Pleasant, president of Crampton's and Grand Rapids Brass, and Frank Schwarz, head industrial engineer for the firms, served as hosts and guides for the group.

Schwarz said the men are traveling entirely at their own expense, without any subsidy from the government. The visit is typical of the new climate of mutual information

Women of the community will bring yard goods and yarn to the meeting, which will be sent to displaced persons overseas for use in "helping themselves."

Mrs. Gerrit Vanderborgh, membership chairman, reported that women of Rose Park Reformed Church and the Presbyterian Church, are new members of the Council. Membership now totals approximately 1,600 women. Mrs. Schaap announced the date of the annual meeting to be Monday, Dec. 1. Riemersma on a part-time basis as was done last year to assist in matters of the follow-up study, the North Central Talented and Gifted Children's project, the Science Seminar, and to render such service as he may while a successor is being selected to succeed Marcus.

Announcement was made that the senior class no longer will operate its magazine sales campaign, a program launched in the depression years to finance the year book and other activities. To make up for this lack of revenue, the officers and sponsors of the senior class recommend a \$12 fee for a senior activity ticket which includes: Boomerang, \$4; Herald, \$1.50; Senior play, \$0.50; welfare, \$0.50; caps and gowns, \$4; senior day, \$1.50; total, \$12.

Hendrick Smith, senior class president, outlined the program and pointed out that the \$12 fee is only \$6 more than what seniors paid last year in addition to their efforts in meeting the \$40 quota in magazine sales.

Senior class sponsors, Ed Damsen, E. D. Hanson and Robert Chard, spoke briefly on the proposed program. Wendell Miles, chairman of the schools committee which worked with the sponsors on the new program, expressed the board's appreciation for the excellent work done by the sponsors and other teachers in connection with the senior class and graduation.

The schools committee also is studying the matter of naming two study committees, one to revise policies, rules and regulations of the Board of Education and the other to survey and rewrite where necessary the personnel policy for the public schools of the city. The committee has decided to name five lay citizens (four from old city and one from newly annexed area), four teachers, one Board of Education members, one school administrator and one school custodian to each committee. No appointments have been made as yet.

The committee also is considering possibilities of maintaining a longer school year and the administration is investigating the length of the school year in recognized good schools such as Evanston township, Midland, Cleveland, Madison, Wis., Glencoe, etc. Holland schools used to run until the middle of June and often until June 20.

Many larger cities now have longer school terms which may work a hardship on local graduates as they compete in college with students from such schools. Michigan laws require a minimum of 180 school days, but allows such days as teachers' institute to be counted as school days. The committee concludes that there are too few days in actual school classes.

Supt. Scott announced the gift of a tachistoscope from Dr. and Mrs. W. G. Winter in memory of their daughter, Lynn. This instrument which is used in developing reading was selected because of the help Lynn received at the Beard School in Orange, N. J., in the improvement of her reading. The gift is given in the hope that the same aid may be locally available for other students. For the present, the instrument will be used first in the high school.

Scott also announced that the administration has cooperated in drawing up resolutions for the annexation of the Apple Ave. school district to the Holland district. As soon as the Apple Ave. board adopts the resolution and it is approved by the Superintendent of Public Instruction, the Apple Ave. board may call a special election to vote on school district annexation. No election is necessary in the Holland school district since the bonded indebtedness of each district is not merged. If the Lakeview election is successful Nov. 4, both Montello Park and Lakeview districts are urged to start school annexation proceedings immediately.

Scott also announced that Administrative Assistant Edward Donivan is preparing a comprehensive report of all real estate property purchased by the Holland school district the last seven or eight years. Donivan also will survey the annual census and school enrollments along Harrington, Lakeview, Montello Park, Apple Ave. and Federal schools.

The superintendent's report included a report of the Professional Problems committee on the matter

GRAND HAVEN (Special) — A proposed budget for Ottawa county for 1959 calling for an outlay of \$950,999.99 was submitted to the Board of Supervisors Tuesday afternoon by Henry C. Slaughter, chairman of the ways and means committee.

The total county budget is \$210,182.50 more than the 1958 budget of \$740,817.49. In addition, a figure of \$184,353.48 is earmarked for a special improvement fund, compared with \$133,088.74 in 1958.

No action was taken Tuesday on the budget. Supervisors will have an opportunity to study the budget before it passes on the various items.

One of the larger increases in allocations was for county roads and county parks, listing \$60,000 for parks and \$40,000 for roads for a total of \$100,000. Last year's budget allowed only \$15,000 for parks and none for roads. Another high boost is in the field of social welfare.

Increases in salaries for county employees amount to approximately \$8,000 for a total of \$232,551 compared with \$224,757 for the current year.

Weather Balloon Seen Over Holland

Many Holland residents spotted a white object in the sky over the city Tuesday and the U.S. Weather Bureau at Grand Rapids reported the object was a weather balloon.

The bureau estimated that the balloon was between 35,000 and 50,000 feet in the air, in the north skies. Because of the clear weather Tuesday, it was easily visible. It is moving slowly because the winds at that altitude are light, the bureau reported.

This weather balloon is one of hundreds released daily throughout the United States but the Grand Rapids bureau did not know where or when this particular balloon was released.

Man Is Ticketed In Bypass Crash

Albert T. Wagner, 73, of Grand Rapids, received a ticket from Holland police for interfering with through traffic as the result of a two-car crash Tuesday at 11:33 a.m. at the intersection of the U.S. 31 bypass and 32nd St.

Holland police said Wagner, headed east on 32nd St., pulled out into the path of a car driven by Mrs. Elizabeth D. Van Havenberg, 76, of Chicago, who was going southwest on the bypass.

Miss Josephine Dirschmidt, 78, of Chicago, a passenger in Mrs. Van Havenberg's car, received a bump on the head, police said.

Supervisors Appoint Several To Various Posts in County

GRAND HAVEN (Special) — The Ottawa County Board of Supervisors made several appointments at its meeting Tuesday afternoon.

L. W. Lamb of Holland was reappointed to the Ottawa County Road Commission for a six-year term. Other members are Neal Van Leeuwen of Spring Lake and Richard Ossewaarde of Allendale. No other nominees were considered. Lamb has been serving as chairman of the commission. His salary was boosted from \$800 to \$1,200.

Peter G. Damstra of Holland, Hilmer C. Dickman of Zeeland and James Scott of Coopersville were reappointed to the canvassing board.

Hans Suzenaar of Holland was reappointed director for Civil Defense with Dale Bowman of Holland as assistant director. Directors in the four zones in the county are Fred Bertsch, Jr., Holland; Jack Eaton, Hudsonville; Henry Hoebeke, Grand Haven, and Martin Riemsma, Coopersville.

Suzenaar also was designated as custodian to purchase federal surplus property for the county and arrangements for storage of a 200-bed field hospital has been made with Holland city to keep the equipment in Civic Center.

This included such items as cots, x-ray machines, generators, operating tables, bedding and the like, at no cost to the county. This equipment can be used only in case of emergencies after other hospitals are filled and medical associations feel it is needed.

Roy H. Lowing of Hudsonville, chairman of the special committee studying the county building program, reported the committee had met with representatives of

three architectural firms, Arthur C. Yost of Holland, Kammeraad and Strop of Holland and Vander Meiden and Koteles of Grand Haven. The latter firm built the county branch building north of Holland.

Lowing asked that the board assist the committee in selecting a firm to supervise the construction of a new jail in 1959.

Hank Stafseth, engineer-manager of the road commission, submitted four subjects. The board approved a resolution authorizing the commission to negotiate with the forest supervisor for certain acreage in Park, Port Shelton, Spring Lake and Olive townships for use of recreation. A resolution from the North Ottawa Rod and Gun Club of Grand Haven urging acquisition of these available lands for recreational purposes was read.

Stafseth also informed the board that 2,109 elm trees on county roads have Dutch Elm Disease. This is out of a total of 11,534 trees. He said it would cost the county \$250,000 to remove these trees but he also felt that the disease would run its course and eventually all trees would be gone. He did not feel a spraying program would be practical.

In the third matter, the board adopted a resolution authorizing repairs and reconstruction of Eastmanville bridge. Permission to erect a fixed span has been granted by the Corps of Engineers. The last time the swing bridge was used was when M-50 was built and a pile driver was transported.

Last time involved approval of \$22,500 expenditure for improving 26 acres of land north of Hudsonville donated by Mr. and Mrs. T. W. Hager of Grand Rapids. It was the first time the donor's name was divulged publicly.

Balloon After Cosmic Data

The huge, clear plastic balloon which hovered over Holland for several hours Tuesday was believed to have been a research balloon sent aloft by the University of Minnesota.

The University of Minnesota said it released a balloon containing cosmic ray measuring equipment Tuesday in connection with an International Geophysical Year project.

Many local persons called the Holland police and the Sentinel office when they first saw the balloon high up in a clear sky about 10:30 a.m.

The Grand Rapids Weather Bureau said the balloon was floating between 35,000 and 45,000 feet when over Holland. Reports to date indicated it apparently drifted southeast about 50 miles to the Battle Creek area, where there were a number of persons who reported sighting the balloon.

Newsmen said it finally "ducked behind a cloud and we didn't see it anymore."

R. L. Hoedema, a science teacher in Zeeland, said he studied the balloon through his telescope and had his class also observe it. He said the balloon was made of polyethylene plastic and had just one seam.
