Appraisal Plan In Ottawa County Being Discussed

Grand Haven, Oct. 21 (Special)—The Board of Supervisors was to continue discussion on a county-wide appraisal plan today, after adjourning the discussion Wednesday to visit the county infirmary at Eastmanville.

The county-wide appraisal suggestion came from Mayor Martin Boon of Grand Haven who said all property in the county should be appraised on the same basis so that guesswork would be eliminated.

Chairman Gerritt Bottema suggested Boon prepare a resolution to be referred to a committee and then have the subject brought out in open session, provided Grand Haven city desires such a move.

Supervisor Dick Nieuwma of Park township opposed the appraisal plan. John T. Ter Avest of Coopersville said if the county is dissatisfied with the figures, the county can appeal to the State Tax commission by whose decision the board would have to abide.

John Gallen of Holland referred to a similar appraisal made in Holland city and said the appraisal had paid dividends. He said Holland spent about \$26,000 on this program and would recommend such a plan for the county even though Holland would not benefit from the expenditure. Mayor Bernard De Pree of Holland referred to the industrial appraisal in 1937 and the subsequent residential appraisal. He said even though Holland feels it has no stake in the matter, it would support the county-wide appraisal.

Henry Slaughter said he was glad Holland is pleased with the arrangement, but he would hate to see a person come into the county who is trained in assessing machinery and have his assess land. "We are trying to do as good a job as possible and don't want anyone to come in and undermine what I have established and done."

George Swart, Grand Haven city assessor, said the appraisals depend on the judgement of the assessor and under the old plan there is an opportunity for criticism. Under the new system, he said the guesswork is eliminated. He congratulated Holland city on its progressive stand and said he felt Holland had paved the way for similar work in the county.

In other business, the following banks were named as depositors of county funds: Peoples State Bank and First National Bank in Holland; Zeeland State Bank, Peoples Savings bank and Grand Haven State Bank in Grand Haven; Spring Lake State Bank, Coopersville State Bank and Community State Bank at Hudsonville; Peoples Savings bank in Grand Haven was named depository for the checking account.

The county treasurer's bond was set at \$30,000, the same as last year.

The speaker was introduced by George Steketee, who is co-chairman of the project with Dr. Walter Hoeksema.

By special permission Mr. Brigham was permitted to film wild life in the Hayden valley at Yellowstone, and his pictures, taken at close range, include bear, deer, buffalo and a large herd of elk.

Holland Man Is Fined In Grand Haven Court

Grand Haven, Oct. 21 (Special)—John Bosch, 36, of 20 East 34th St., Holland, paid \$20 fine and \$4.05 costs in Justice Peter Verduin's court Wednesday afternoon upon his plea of guilty to a charge of failure to stop within the assured clear distance ahead. Bosch was arrested by city police after the car he was driving, owned by the Cook Surplus store of Holland, at 1:10 p.m. Wednesday, allegedly struck a car driven by Peter Pauwe, 42, of Spring Lake.

Both cars were traveling south on North Seventh St. when the Pauwe car stopped in the line of traffic close to the centerline on the four-lane highway, to make a left turn, and was struck in the rear by the Bosch car.

State Veterans Will Get Refund On GI Insurance

Rebate Will Amount to
25 to 40 Per Cent
Of Premiums Paid In

From the Washington Bureau

Washington, Oct. 14 (Special)—Nearly 580,000 World War II veterans in Michigan who took out GI insurance policies will share in the two billion dollar dividend melon the Veterans Administration is planning to cut.

The dividends probably can't be paid before next summer, for VA has to audit about 20 million insurance policies once held by men and women in the armed forces. Only six million vets have kept their policies going, according to VA estimates.

But even if you let your policy lapse, a dividend may come your way next summer. If you kept the policy for at least three months, you'll be eligible for dividends.

Just now, the Veterans Administration doesn't care to guess how large dividends will be. Many factors are involved, such as your age when you took out the policy, how long you have paid premiums, and how large the policy was. You will probably get between 25 per cent and 40 per cent of the premiums paid. This should average out to about \$100 per veteran, though many checks will be much smaller than this.

The reason for the dividend is the government charges too much for insurance, because premiums are figured on an outmoded 1889 mortality table. But that's the table the law says Uncle Sam must use. Even so, government officials say GI insurance is cheaper than that sold by private companies.

Another reason for the dividend is the government pays three per cent interest on premiums, a higher rate than on United States savings bonds.

United States can sell insurance cheaper, pay higher interest, and still over charge the customer, because benefits traceable to war service don't come from the insurance fund. They are provided by Congressional appropriations. The bill footed by the taxpayer for all insurance administrative costs is now about \$40 million a year.

Though over 20 million policies were once in force, they were held by about 16 million GIs. This discrepancy arose because some members of the armed forces had more than one policy.

Dutch Farm Expert Visits Michigan

Land is more productive in the Netherlands than in the United States because farms are much smaller and the soil is heavily fertilized. H. J. Kretschmar, agricultural attaché at the Netherlands embassy in Washington, said during a brief visit in Holland Friday.

The Dutch agricultural expert stopped in Holland on a return trip to Washington from Wisconsin where he studied the dairyming industry. While here he visited the Hamilton Co-op and was impressed by the scope of work done there. He also visited two or three Dutch farmers here.

Kretschmar was born in the Netherlands, attended agricultural school in Wageningen and worked 15 years on the Zuider zee project. He came to the United States in 1946, and at present is traveling this country studying agricultural methods.

He said the yield per acre in the Netherlands must necessarily be greater because of the lack of farm land in the heavily populated country. The Netherlands is about one-fourth the size of Michigan, yet has four times as many inhabitants. The Dutch figure 2½ acres of pasture will support a cow, whereas it takes five acres in Wisconsin, about eight in Michigan and more in the western states. Pasture is supplemented by feed concentrates in the Netherlands. All cows are Holsteins and produce an average of 7,700 pounds of milk annually.

A great amount of manual labor is used in the Netherlands, and labor hands are paid according to wage ceilings. Ceilings also are put on price of products.

The Netherlands is experiencing difficulty at present because of an unfavorable exchange. The United States is the only country which can provide the feed concentrates, but because products in the Netherlands are mostly perishable, they must be sold to England or Belgium, and the exchange of pounds sterling and Belgian francs to U. S. money is very poor. The Netherlands needs American dollars to re-establish trade, the attaché said.

Arnold feels that the demand for Christmas tree stock will be greater than ever. Buyers have already come to the county in quest of such stock. The Scotch Pine is in great demand. The last large harvest will occur this year until new plantings grow out. It was impossible to secure Scotch seed for several years due to the war. However, such seed became available again in 1948 so within a few years large cuttings of Christmas tree stock can again be made.

Holland Man Finally Gets His Pheasant

Ray Wilkinson of 52 West 27th St., found out today that there's more than one way to get a pheasant.

He went out hunting this morning in the Drenthe area. After a futile two-hour hunt through the fields and marshes, Wilkinson was unable to scare up a bird. He returned home without a pheasant.

While engaged in a 'phone conversation soon after returning home, he heard a loud crash. Sure enough, a "big" pheasant had crashed into the house and broken his neck. The Wilkinsons will eat pheasant.

**Harrington PTA Hears
Of Foreign Education**
A large audience of parents and teachers at Harrington school were charmed with two speakers from England and France Tuesday night when Mrs. Henry Engelsman and Mrs. Wendell Miles spoke to them about the school systems in their respective countries.

Mrs. Miles whose home was in Alsace-Lorraine said the main problem of the French now is getting back to their own tongue after being under German domination during the war and being forced to learn German. There is no co-education in France and the children have compulsory schooling from six to 13 years old.

An interlude of quartet singing was furnished by Vernon Avery, Harold Dorn, Lester Cook and John Ter Vree.

According to Mrs. Engelsman, the English have compulsory education from five to 14 years and no regular college education, as we know it in this country. Only brilliant students go to Oxford, Cambridge and London university for medicine, law and the ministry. So many schools were destroyed during the war that a terrible shortage of schools exists today. The teacher exchange is proving to be very helpful, Mrs. Engelsman said.

Mrs. I. H. Marsijle, vice president, presided at the meeting. Dr. James Cook was appointed to get information on school safety signs.

Fred Weiss, member of the school board explained the two proposals that will benefit the schools in the Nov. 2 election.

Mrs. Lee Hessler served refreshments following the program, assisted by the Mesdames Chet Lokker, Lester Knoll, Jim Vande Vusse and Donald Hamlin.

Mr. and Mrs. Carl Harrington, Mr. and Mrs. Charles Duhamel and Mrs. Emily Harper were in charge of program arrangements.

Tree Plantings Show Progress In Ottawa Area

Supply of Seedlings
Sharply Reduced by
Extra Heavy Demand

Directors of the West Ottawa Soil Conservation district urge tree growers of the district to place no orders for trees this fall. Because of the current shortage of seedling trees, the directors decided to wait until spring before releasing any of the stock.

Olin Clay, farm planner, says that there will be about one-half million trees available next spring. This is far below the needed amount, Clay says the future supply of stock will meet demands, but this means 1950 and after. Frank Garbrecht, manager of the district nursery, declares the nursery is in fine condition with over three million little seedlings which can be released in 1950. Other nurseries have stepped up seedlings so within a few years there will be a tremendous planting program carried on in many counties of the state.

L. R. Arnold, county agricultural agent, is pleased over the planting of farm seed beds. Arnold urged this year ago. This section will result in supplying an additional half million seedlings in this county.

Arnold feels that the demand for Christmas tree stock will be greater than ever. Buyers have already come to the county in quest of such stock. The Scotch Pine is in great demand. The last large harvest will occur this year until new plantings grow out. It was impossible to secure Scotch seed for several years due to the war. Mayor Bernard De Pree

Asks Generous Gifts for Chest

Mayor Bernard De Pree today urged 100 per cent participation in the annual Community Chest campaign which opens Monday.

The mayor, in urging generous gifts, pointed out that all 11 agencies sharing in the 1948 campaign for \$26,550 are worthy of community support.

"Throughout the years, Community Chest has developed systematic methods of determining and supplying needs of the less fortunate, and the person making a contribution knows he is supporting causes which have passed high qualifying standards for public assistance," the mayor said.

"It is heartening that Holland people have always responded nobly when legitimate appeals are made. The Community Chest has always gone over the top, and we don't want it to fall short this year."

Mayor De Pree also heads the national gifts division in which he has sent appeals to concerns operating branches in Holland.

Meanwhile, Campaign Chairman Peter Kromann said the industrial canvass, held a week in advance to avoid conflict with the home canvass, is progressing satisfactorily. He said many employees are taking advantage of the new withholding plan whereby correspondingly small monthly contributions are taken from the paychecks.

The clerk reported that pursuant to instructions he had advertised the proposed ordinance for vacating 20th St. from State to Michigan and presented affidavit of publication. He also read a letter from the city engineer recommending payment of the 15 per cent retained on 20th St. paving contract in the amount of \$239.26 upon sworn statement that all bills for labor and material on this contract have been paid. Such authorization was given.

A communication from Chester Hill requesting a street light on 22nd St. between Van Raalte and Washington Aves. was referred to the public lighting committee.

A petition signed by 19 property owners requesting paving on East 11th St. between Lincoln and Columbia Aves. was referred to the Street committee and city engineer.

Claims and accounts totaled \$19,445.46. Other claims are hospital board, \$14,416.73; library board, \$352.96; park and cemetery board, \$2,409.25; Board of Public Works, \$55,525.77; hospital building fund, \$1,075.63. The city treasurer reported BPW collections of \$68,445.46 and regular collections of \$23,290.87.

Routine Matters Occupy Council At Regular Meet

Aldermen Informed That
Paving Bonds Okayed;
Slight Revisions Made

Routine business occupied Common Council in a 50-minute session Wednesday night.

City Clerk Clarence Greengood announced that bonds covering the 11 paving projects in Holland have been approved, according to a letter from the Michigan Municipal Finance commission, and council adopted a resolution authorizing certain minor changes in specified clauses.

The clerk was authorized to proceed with advertising for bids on the bonds, such bids to be advertised in The Holland Sentinel and Michigan Investor. He next was given authority to send notices to property owners giving them until Nov. 10 to pay in full. Greengood also said costs on some projects had run less than anticipated and was given authority to amend rolls at cost figures.

Ald. Melvin Van Tatenhove questioned rate increases of the Bell Telephone Co. citing resolutions Holland had framed in protest. City Attorney Peter S. Boter explained the entire rate order is subject to court review.

The oath of office from Orin S. Cross as associate municipal judge together with a letter expressing appreciation for the honor was ordered filed. Cross, whose appointment is effective until the February election in 1949, assured council he would co-operate at all times to promote and protect the best interests of the citizens of Holland and help maintain the fine reputation of "our fair city."

Council granted permission to Chapter 14, Disabled American Veterans, to sell forget-me-nots Saturday, Nov. 6.

Mayor Bernard De Pree and the Ways and Means committee took under advisement publication of a letter prepared by the clerk on how the city benefits under the present tax diversion amendment.

Oct. 26 was set as a temporary date for council to meet with a Lansing attorney to discuss charter revision.

The clerk reported that pursuant to instructions he had advertised the proposed ordinance for vacating 20th St. from State to Michigan and presented affidavit of publication. He also read a letter from the city engineer recommending payment of the 15 per cent retained on 20th St. paving contract in the amount of \$239.26 upon sworn statement that all bills for labor and material on this contract have been paid. Holland-Zeeland Tolls Abolished; City Bills Jump

Schedules Approved By State Commission To Increase Earnings

The Michigan public service commission has approved a new schedule of rates for the Michigan Bell Telephone company in compliance with an order of Oct. 6 increasing the company's revenues by \$8,217,000 a year.

Effective at 12:01 a.m. Saturday, the rate increase, which, after taxes, will mean \$3,094,540 to the company, was applied to each of the company's 242 exchanges and virtually every type of Michigan Bell service. The rate increase is the first to the company in 22 years.

The effective date of the order and rate schedule also marked the introduction of extended-area service between Holland and Zeeland as the first two communities in the company's territory to obtain the service.

The order and rate schedule authorized relatively higher increases in some exchanges, including Holland, to correct inequities, Andrew G. Sall, local manager, said. He pointed out that a commission order of 1942, while dissolving such inequities in exchanges where charges were above the levels fixed in the rate schedule at that time, made no increases in exchanges where rates were below such levels. "Rates in Holland have been on the low side for years when compared with other exchanges of like telephone development and calling opportunities," he said.

Monthly residence rates for local exchange service here will be increased as follows:

Residence service — Individual line, now \$2, to \$3.25 under the new rates; 2-party, now \$1.75, to \$2.75; four-party, now \$1.50, to \$2.25; and rural, now \$1.75, to \$2.25 under new rates.

Business service — Private branch exchange, now \$3.60, to \$9 under new rates; individual line, now \$3, to \$6; two-party, now \$2.50, to \$5; and rural, now \$2.50, to \$3.75 under new rates.

Rates for residence extension telephones are increased from 50 cents to 75 cents monthly and for business telephone, from \$1 to \$1.25.

Beginning at 12:01 a.m. Saturday, Holland telephone users were able to make unlimited calls to Zeeland without paying toll charge.

It marked the first application of extended-area service since its approval by the Michigan public service commission earlier in the year. Sall said that its introduction elsewhere in the company's territory will vary from one to 15 months from now, depending on how soon facilities become available.

The new plan extends the calling area of telephone users here beyond the 9,600 telephones in the Holland exchange to include the more than 1,500 telephones in the Zeeland exchange as well. Extension of the calling area will not involve any higher local service rates for Holland customers. Higher rates just authorized by the commission are not due to the introduction of extended-area service, Sall emphasized.

Long distance revenues on calls to Michigan points are increased six per cent with the following changes. Reduction in the initial calling period before overtime charges from five minutes to four minutes for distances of 10 to 15 miles and to three minutes for distances over 15 and up to 30 miles. Increase in overtime charges from the present 1/3 of the initial period rate. Increase of five cents on night and Sunday calls for distances of 48 to 112 miles. The rates became effective at 12:01 a.m. October 20.

The commission said its order, which becomes effective more than a year after the Michigan Bell filed its application for an increase, will provide a return of six per cent on the adjusted investment. Commissioner Schuyler L. Marshall, however, said that continued inflation might force a drop in that return.

"Frankly, he said, 'We expect Michigan Bell back in a short time.'"

Rev. Yff Gives Challenge At Christian School PTA

"Foundations of the Superstructure for Christian Education," was the theme of a challenge delivered by Rev. Thomas Yff to parents gathered at the Christian High gym for the first PTA meeting of the year, Thursday night.

Urging the parents to make the most of their Christian duty regarding education, Yff said, "Our children are not charges of the state, but are entrusted unto us by God to build their lives on a sure foundation—the Word of God." He also said, "Ours is also the privilege and great responsibility, inasmuch as we are builders and co-laborers in the kingdom of God."

During the course of his address, the speaker listed three "foundation stones" which should be used in the superstructure for Christian education. These three are: God's sovereignty; the recognition of man as he really is—a child of God; and all instruction should be based on God's self-revelation.

In contrast, he evaluated progressive education and the "developmental view of life."

Supt. Bert P. Bos spoke briefly and introduced new teachers to the association. Bos also offered a motion, which was later unanimously adopted to send a letter of congratulation to James Hietbrink, who has entered his 41st year of teaching. The secretary and treasurer's reports were read.

President John Van Dyke presided.

Milking Plan Change May Cause Mastitis

Information assembled by the American Veterinary Medical association indicates that staphylococci (gangrene-type) mastitis may break out suddenly in a herd following any deviation in the milking routine. For example, if the milking machine goes out of order, or if a new person milks the cows, cases of the disease may appear almost immediately.

On the other hand, the staphylococci germ may be harbored by cows indefinitely without causing trouble if good milking practices are observed.

Fall-Planted Bulbs Ideal For Spring Flowers

For early-spring flowers and masses of bright color, fall-planted bulbs are hard to beat.

Their natural appearance makes them ideal for farm gardens, says a farm magazine. From now until the ground freezes is the best time to put them in.

The common favorites, such as hyacinths, daffodils and tulips, may be left in the ground for several years, and need only water and cultivation. When they stop blooming, it is time to dig them up and move them to a new location. If you prefer, however, you may dig your bulbs each year to make room for late flowers.

Hyacinths may be planted any time from September on in sandy, or any good, well-drained soil. Daffodils may be planted from early fall until the middle of October. They will grow in almost any soil, preferring a deep, well-drained loam. Tulips can be planted in late October and as far into November as the ground remains workable. These gay favorites like lots of sunshine and good, well-drained soil.

The Camp Fire office will be closed this week Thursday and Friday to allow Mrs. Timmer and Mrs. Wildman to attend the Leaders' Fall Institute to be held in Battle Creek on those days.

Michigan Studies Policies on Deer

Wisconsin deer hunters will have a short season this fall in which to get their buck, similar to the season that was in force in 1947.

A report was made by Bartlett and Davenport of the Michigan game division on the deer situation there following a trip through northern Wisconsin with a seven-man deer committee of the Wisconsin conservation congress.

The report of the committee was presented to the county chapters of the state congress of May. Thirty-three counties voted to reject the report, 37 voted to accept it and on vote was tied. The Wisconsin conservation commission on July 6 approved a nine-day season on any one deer in Wisconsin for the fall of 1948. Much pressure brought on the governor of Wisconsin by the dissenting counties caused him to return the regulation to the commission to insert a safety clause and shorten the season.

The department recommended the commission to shorten the season to five days and that it be made illegal to shoot spike antlered bucks.

Century Club is Given Outlook for America

"Let America keep alive the agencies of peace, because we'll never win another war," Dr. W. W. Whitehouse, president of Albion college, told members of the Century club Monday night in a forceful address entitled "America—An Inventory and an Outlook." Both sides will lose if war comes again, he said.

The meeting was held in the home of Dr. and Mrs. William Winter on State St.

Taking what he termed a "realistic approach," Dr. Whitehouse developed a point of view on the outlook for the future.

The outlook for America is good, he said. "If we can educate for clearer thinking, if we can create good leadership and create the mood to respect good leadership, if we can achieve a moral plan of action and the discipline of moral integrity, and finally, if the American people can maintain world order."

"Now is the time for America to declare that war is not inevitable, and keep democracy strong and vital. Let us be helpful to the smaller nations. America can lead the way to harness atomic power for use of a higher standard of living in the nations of the world," the speaker said.

Dr. J. Harvey Kleinheksel, club president, introduced the speaker.

Following the address, Stanley De Pree of Zeeland presented several vocal solos, accompanied by Mrs. De Pree. He sang "Tavern Song," "If I Could Tell You," "Firestone," and "Bondage." Test. College Speaker Interviewed Hitler

Dr. Kenneth Walker, writer, physician and world traveler addressed Hope college students at an assembly this morning. His subject, "Live Together or Live Not," was developed in a personal narrative of his war experiences since 1937.

In that year he was in Shanghai, China, when the Japanese first bombed the city. He later went to Germany under an assumed name and had three personal interviews with Hitler. After seeing the effects of Hitlerism on the German people and discussing his reactions too freely, Dr. Walker was imprisoned for 90 days in a jail for political enemies. He described the torturous treatment by sadistic young German guards. The speaker related that he was unsuccessful in trying to tell the United States about Germany's war machine. He was soon branded a liar and warmonger and blacklisted as a trouble maker because of his speeches.

In returning to his home in Hawaii, he viewed Japanese fortifications on Kwajalein, and was met with the same jeers of "liar" and "warmonger" when he tried to warn his Hawaiian friends.

Not until the blitzkriegs in England were Dr. Walker's statements confirmed. He was then accepted as a prominent speaker and worked with the U. S. Treasury department in bond selling campaigns.

Dr. Walker described the attack on Pearl Harbor which occurred two days after his return to Hawaii. Pearl Harbor could be seen from his home, he said.

The blame for Pearl Harbor, Dr. Walker said, should be placed on all Americans who are indifferent to affairs across the sea. Our materialistic world has become too small for us to live in without being concerned about world affairs, he said.

In his solution to the present situation Dr. Walker said, "In America, because we are in the saddle of power, we must realize that we have gone as far as we should in our material pursuits. We have produced a world in which we are not spiritually equipped to live. We now face a new frontier of human relations. We must explore these frontier areas and propagate to people how to live together."

Big Reds Trample Over Dutchmen By 40-7 Score

Holland Scores Early But Muskegon Eleven Dominates Offensive

Muskegon didn't forget last football season.

The Big Reds unveiled an offensive machine that trampled Holland high school by a lopsided 40-7 score at Muskegon Friday night. Holland scored first but Muskegon came back on the kickoff after the local score to dominate play for the remaining three quarters.

Late in the opening quarter, Dave Kempker intercepted one of Stan Yonker's passes on Muskegon's 48 and ran the ball back to the Red's 37. Five plays later Appledorn heaved a pass to Tom Hildebrand for a touchdown. The final play was good for 16 yards. Kempker's extra point boot sent the upstarts and Holland was in the lead.

Muskegon took the kickoff on their own 15 and ran it back to the Red 34-yard line. With Clair Rederstorff, John Babbitt and Don Le Mieux carrying the ball, the Reds rang up four first downs and brought the ball to Holland's 10-yard line.

Two plays later, Rederstorff slashed off tackle from the one-yard line to score. The kick was wide and Holland had a one point lead. However, after the kickoff, Muskegon held Holland for four downs and Frank Wlodarczyk's punt was blocked. Muskegon recovered the ball on Holland's 16.

Seven plays later Le Mieux went around end from the seven to score standing up. The pass for extra point was good, from Babcock to Paul Dekker. The half ended with Holland on their own 17-yard line.

Rederstorff grabbed the opening kickoff of the second half on his own 15 and after fumbling the ball for a brief second, followed his interference toward the sidelines and broke into the clear. He outran the two remaining Holland backs and scored on an 85-yard run. The run for extra point was foiled and the score stood Muskegon 19, Holland 7.

From that point on it was just a matter of how high the score would go for the Reds as they stopped Holland's offense and rattled the Dutch defense to score three more touchdowns.

Rederstorff scored the next marker on an end run from Holland's one-yard line after the Reds recovered a Holland fumble on the Dutch 44-yard line.

John Bronsema climaxed a 42-yard drive late in the fourth quarter when he bulldozed his way through center to score from the four-yard line for the next marker. The extra point was good and Muskegon was ahead 33-7.

Early in the final period, the Reds took a Holland punt on their own 34 and piled up three first downs to bring the ball to Holland's 16. From there Jerry Anderson faded to his right and heaved a pass back to his left. The ball was caught by Dick McLaughlin who was standing alone in the end zone. The extra point try was good.

Holland's defense was repeatedly pushed back by the powerful Red backs. However, Bob Adams, Howard Van Voorst and Dave Kempker saved several would-be long gains.

Social Progress Group Hears Talk on Divorce

Achieving a happy marriage is a more difficult task than it was 100 years ago, and consequently more marriages end in divorce courts, Cornelius vander Meulen told the Social Progress club Tuesday night as the club started its 38th season of winter meetings.

"In approaching the divorce problem it should be recognized that after all, divorce is merely a result. It is an attempt to remedy a real malady. The real trouble is the great and increasing number of unsuccessful and unhappy marriages. As a matter of fact, people have in reality divorced themselves before they come to the court and the court merely legalizes the dissolution of the relationship," he said.

Vander Meulen, a former practicing attorney and now Holland City Municipal Judge, said that more than 600,000 divorces are granted each year and that the problem is becoming increasingly grave.

Married couples must devote intelligence, understanding, salesmanship and plain hard work to make their marriages work, Vander Meulen said.

Vander Meulen also surveyed the confusion that exists in marriage laws of various states and suggested a more uniform statutory approach to divorce.

He suggested a number of avenues through which the causes of divorce could be lessened, including court appointment of qualified counselors, correcting the romantic glamour surrounding marriage, and abandonment of the theory of guilt and punishment in divorce proceedings.

The church, schools and other character building institutions have, in a measure, failed in the preparation of youth for marriage, he said.

The meeting was held at the home of Marvin Lindeman with President Richard C. Oudersluis conducting the session. The Rev. Marion de Velder served as "master" critic.

Other officers are William Statler, first vice president; Charles

E. Drew, second vice president; and Randall C. Bosch, secretary-treasurer.

Mrs. Lindeman served a two course luncheon during the evening.

County Republican leaders gathered in the Temple building for a luncheon Thursday honoring U.S. Senator Homer Ferguson, who delivered a talk on Communism in the United States. Left to right are Bruce M. Raymond of Holland, co-chairman of

Ferguson Says Reds Menace World Peace

"Communism is not a herring, but a monster. We know it and we've got to get rid of it," U.S. Senator Homer Ferguson told a group of Ottawa county Republican leaders at a luncheon Thursday in the Temple building.

"You can do more to have peace on earth by getting Communists out of the government than by building ships, maintaining armies or getting ready for war. A war with Russia will not be a Holy War," he said.

The Michigan senator, who has conducted several federal hearings on Communism, related startling facts on Communism in this country. He said Communism appears under 123 subversive fronts. He told how Russian Agent Elizabeth Bentley arranged with agents in 37 federal departments for "top secret" data and how the reports became so staggering she installed a microfilm machine so that she could carry data to New York.

He wondered how Oscar Ewing of the Federal Security agency could censor speeches of Dr. John Studebaker, head of the office of education, and Dr. Robert Hutchins, president of Chicago university, both of whom were to speak on infiltration of Communism into American schools.

"As for war with Russia, I don't believe we will have a war immediately, but even as I say that I would call major news agencies to ask whether war had already been declared," Ferguson said.

He complimented Jerry Ford, Republican nominee for 5th district Representative, and urged a get-out-the-vote campaign to insure the most fundamental right and privilege and liberty in America.

Henry Wierenga of Grand Haven, chairman of the county Republican committee, presided and introduced Jerry Ford, State Senator William C. Vandenberg, Rep. Henry Geerlings, Probate Judge Cora Vande Water, Treasurer Fred Den Heider, and Coroner Gil Vande Water. Senator Ferguson was introduced by Bruce M. Raymond of Holland county co-chairman.

A VICTORY WE

CAN AFFORD

In his recent political address
on the bi-partisan nature of Amer-
ica's foreign policy, Senator
Vandenberg threw out one hint
that deserves non-partisan em-
phasis. Referring to the various
threats to peace, he suggested al-
most as an aside that no nation
can afford the victory that would
follow a possible war.

That may sound like a paradox,
but the realistic senator from
Michigan certainly meant it liter-
ally. Even if America should
win the most smashing victory of
all time, this country would still
lose the war it would win. And
that would be true of every other
nation, Russia or any other world
power. That sobering thought
should make war advocates think
twice.

Even in victory, in a possible
future war, we would lose a sub-
stantial part of the liberties we
now enjoy. This is so inevitable
that it can almost be demon-
strated mathematically. We have
of course lost a good many of the
liberties we took for granted be-
fore the second World War; vic-
tory in that conflict has proved
costly. But the cost is as nothing
compared with the price of any
conceivable future victory.

We would come out of any future
major war a bankrupt nation.
As a result of our latest victory
we are saddled with a burden of
debt that no one now living will
ever see cleared off the slate.
Even though the camel's back is
not breaking under that burden,
every citizen is finding life hard-
er than he would have found it
without the load. It is not think-
able that a third major war would
leave the victor solvent any more
than it would leave the defeated
in a condition to continue life
where it was left off when the
war started.

That is only the money cost and
does not take into consideration
the human cost in life. But the
mere money side of the situation
is basis for the certainty that
there is no longer such a thing
as victory for any nation in a
major war. Sherman said that
war is hell, but he lived in the
nineteenth century and he hardly
understood what he was saying.
In those days victory was still
sweet and it was often profitable
for the victor. Today Sherman
would have amended his state-
ment to read, "Victory is hell,"
and he might have added that it
is hell from which there can never
be an escape for the victor.

History in the Old Testament
1 Kings 4:21-11:13
By Henry Geerlings

It is impossible to introduce
Solomon with any degree of satis-
faction without going back to his
father, David. David was one of
the great men of all time. His
reign was a blessing to the na-
tion. He took the throne at the
conclusion of the sorry reign of
Saul. Among other things he suc-
ceeded in bringing unity into the
nation's life. He succeeded in ex-
tending the boundaries of the na-
tion. He triumphed over all his
foes within and without, thus
bringing peace and prosperity to
the land. He made Jerusalem the
center of worship. He wrote
psalms and introduced large
choirs and he gathered huge treas-
ures for the erection of the tem-
ple under the reign of his son.

Having ruled in the land for 40
years his life and labors came
to a close. The finest testimony
that could be borne to him is to
be found in the fact that the na-
tion never forgot him. Even be-
fore his eyes were closed in death
his son Adonijah, aided by Joab
and Abiathar, attempted to seize
the throne. The plot was checked,
and David being advised of the
matter announced that Solomon
was to be his successor.

God appeared to him in a
dream. The important question is
not how God appeared to him.
The fact that He did appear is of
moment. If there is one thing that
is repeated over and over in the
Bible, both in the Old Testament
and New, it is that God does man-
ifest Himself to men. It is for no
one to say that such appearance
is always the same. What we are
to note is the actuality of it. Man
cannot by searching find out God.
The movement is from His side.

Solomon was asked what he
would like God to give him. He
was aware of the basic truth that
his father had kept company with
God. Yes, he had his sins too, but
he knew God and the great
sweep of his life was in harmony
with the will of God.

Solomon went even deeper than
that. He had no trouble tracing
the great loving kindness of God
to David, and centering the suc-
cess of David in that loving kind-
ness. David's achievements with-
out God would have been failures.
But then as Solomon saw the
matter his father responded to
the love of God, for said Solomon,
he walked before thee in truth
and in righteousness and in up-
rightness of heart with thee. Last
of all he believed that his own
being on the throne was a part of
that plan of that loving kindness.

Not every life that begins well
ends well. Solomon's did not. And
not every life that ends well was
begun well. But it may be said
that these are the exceptions.
In the majority of cases it can be
said that a life that begins well
ends well. Nothing of an adverse
nature can be advanced against
the focussing of our attention on
the proper training of the child-
ren. Other things being equal,
the strength of the church 25
years from now will be in propor-
tion to the success we achieve in
turning the thoughts of childhood
toward Christ. The old idea of
letting the children grow up with-
out being influenced toward Chris-
tian choices and having them
make their own decisions as to
whether they shall be Christians
or not, is not only suicidal, but is
also contrary to the plain
teaching of the Bible. They will
have plenty of decisions to make
when they arrive at young man-
hood and womanhood without our
pushing on them full responsi-
bility for choices we should help
them to arrive at.

The Lord asked Solomon what
he most desired. He is saying that
to all of us. Suppose he had asked
for riches or pleasures or a long
life or something else on that level,
would God have given it to him?
You can answer that question
quite as well as I can. Is it not
true that the thing we ask God
earnestly for is also what we set
our hearts on and labor dili-
gently to acquire? If we get it
should we say that God gave it to
us? Maybe it was something He
did not want us to have. Maybe
we missed entirely what He really
desired us to possess above all
other things. We know this. We
cannot achieve virtuous manhood
and womanhood, a worthy Chris-
tian experience, a life of fellow-
ship with the best that the world
holds without Him. We cannot
travel with Him, interpret His
will, and lead others to love and
serve Him unless He helps us.
These things He will grant us if
we ask Him.

It is not strange that commun-
ion with God bends our will to
His will. No small part of the
blessing that prayer is expected
to bring into our lives is its re-
flex influence on the person who
is praying. If he were not to
grant us anything we would be
benefited in the act.

School Board Explains Stand On Proposals

Trustees Recommend Negative Vote on Two, Positive Vote on Five

Reasons why the Board of Education recommends a "yes" vote on proposal No. 2 and "no" on proposal No. 5 were fully explained today as copies of a resolution authorized last week were released.

In urging a "no" vote on proposal No. 2, designed to repeal the sales tax "redistribution" amendment, the board said:

1. Your board feels that the passage of this proposal would imperil the support of the school program in Holland because definite benefits resulting from such a change would be returned to the hazards of political considerations in the distribution of sales tax; a sure benefit would be exchanged for the uncertainties of legislative enactment to provide such benefits.

2. Passage of repeal would impose a burden on local real estate taxation. Your board feels that real property is already maintaining its share of tax, that the schools should have and are, under the benefits of sales tax diversion, obtaining benefits of indirect taxation methods, which is a proper method of school support.

3. That the loss of this source of tax revenue would result in such

English Platform Actor Performs at Hope College

Hedley Hepworth, popular English platform actor, performed this morning before a large Hope college audience at Memorial chapel.

In a dramatic portrayal of "the immortal characters of Dickens," Hepworth cleverly changed wigs, coats and hats to become such characters as Sidney Carton, Micawber and Uriah Heep. Favorite of the audience was the actor's realistic portrayal of the "Christmas Carol" Scrooge.

Timothy Harrison, student council president, introduced the actor. He also introduced to the student body the eight girls, two from each class, who are nominees for homecoming queen next Saturday.

License Bureau Issue Defeated By Supervisors

Holland Mayor Asks Opinion on Subject By Attorney General

Grand Haven, Oct. 20 (Special)—Ottawa county, will continue to house the state license bureau, at least for now.

By a vote of 18 to 10, county supervisors Monday afternoon turned down a resolution presented last week by Supervisor John Galien of Holland calling for the Grand Haven license bureau to operate outside of the county building.

Voting "no" were Supervisors Justin Zylstra of Allendale; John Hassold of Chester; Ervin Hecksel of Crookery; Charles Lowing of Georgetown; Clarence Reenders of Grand Haven; Dick Nieuwman of Jamestown; Dick Nieuwman of Park; John Ter Avest of Polkton; Case Szopinski of Robinson; Gerrit Bottema of Spring Lake; Henry Slaughter of Tallmadge; Lester W. Martin of Wright; Martin Boon, George Swart, Phil Rosbach and Charles Misner, all of Grand Haven city; Nicholas Frankena and Nick Cook of Zeeland city.

Voting "yes" were Supervisors Louis Volink of Blenden, John H. Helder of Holland township, Albert H. Stegenga of Olive, Henry De Ridder of Port Sheldon, Maynard Mohr of Zeeland, and Mayor Bernard De Pree, William Koop, John Galien, Simon De Boer, and Peter S. Boter, all of Holland city.

The vote followed a third day of discussion on the issue which is believed to be the most controversial in several sessions. Galien stated repeatedly that the resolution was not a personal matter, but he felt the matter of the license bureau inside the court house should be discussed openly because there had been considerable criticism for several years.

Galien also criticized accounts in a Grand Rapids newspaper in which allusions were made to the issue as being part of a feud between the north and the south. "This is an insult to the integrity of this board and there is no member here who would stoop to such hill-billy practices in order to gain his point. I admire and respect every member of this board," Galien said.

The correspondent for the paper explained that her accounts were phoned in, and she had talked with an unfamiliar reporter at the time, one who probably was a little over-anxious to play up the story. She said she was surprised herself at the "feud" play in the account.

After the vote, Mayor Bernard De Pree of Holland said he believed the matter was of sufficient importance to have an opinion from the attorney general, and the issue was referred to the prosecuting attorney to obtain such an opinion on the legality of operating other businesses inside a court house.

A second resolution introduced by Galien last week relative to special additional compensation for any employee for performing services in connection with the operation of the county government, was passed, 15 to 13, last Thursday as was reported in Friday's Sentinel.

Hope College Eleven Prepares For Grand Rapids JC Contest

With Hope and Adrian tied for third place in MIAA standings, the Dutch were getting ready for their non-conference game against Grand Rapids Junior college Thursday night at South field in the Furniture city.

Meanwhile, co-leaders of the MIAA, Kalamazoo and Alma, are buckling down to practice "this week" for their all-important game Saturday at Alma.

The Hornets eked out a 14-13 victory over Adrian last Saturday and Alma nipped Albion 13-7.

Kalamazoo had to come from behind in their game after trailing the Bulldogs by two touchdowns. It was the breaks that decided the Alma-Albion tussle at Albion Saturday. An intercepted pass on Albion's 17-yard line in the third quarter set up the winning score.

At Hope college, Coach Al Vandebush gave his regular gridders only light warm up drills Monday and turned his attention to the reserves for heavy work. The regulars put on their uniforms for a team picture, and that's about all.

Vandebush said he would confine drills to light passing and running this week. He was pleased with the local's improved running game against the Dales last Saturday. Several times, Ted Barrett, Claus Holtrop and other backs broke away for sizeable gains.

Bluebirds Enjoy Annual Hobo Hike

Sticks bearing lunches tied in gaily-colored kerchiefs were slung over the shoulders of nearly 200 girls and leaders Monday afternoon, as the Bluebirds of the city celebrated the coming of fall with their annual hobo hike. The girls hiked from the Camp Fire office to Beechwood school.

At their destination, the girls took over the Beechwood gymnasium, where each group had a part in the program. Mrs. Albert Timmer, local executive, presided as mistress of ceremonies, and Mrs. Robert Wildman, new office secretary, was in charge of the music.

The Friendly Blue Birds of Mrs. Andries Steketee started the program with their two-part rendition of the songs, "Counting Sheep," and "Gratitude." Linda Raven was director. Mrs. Peters and Mrs. De Cook had their Fairy Bluebirds in Halloween attire as they gave a Halloween poem. The Cheerful Blue Birds under Mrs. Loran Wenzel surprised everyone with their own original group song, and the Bubbling, Bonnie Blue Birds under the direction of Mrs. Clarence Becker and Mrs. Ray Smith pantomimed the song, "Santa Claus is Coming to Town," and later led the group in singing this song.

The new Bluebird girls of Federal school, led by Lillian Vanden Tak and Mrs. Terpstra, sang "When You Drove Your Buick." Mrs. John Harthorne's Sunbeam Bluebirds followed with their pantomimes of familiar nursery rhymes, for the other children to guess, and the Jolly and Singing Bluebirds under Mrs. Vernon Johnson, Mrs. Maddermom, and Mrs. Jonker also put on a charade.

Lincoln school's Bluebirds were next on the program, with the Gay-time Bluebirds of Mrs. William Plum, Jr., singing "The Squirrel's Secret," and the Sunshine Bluebirds of Mrs. L. W. Lamb, Jr., putting on a quiz program. These Bluebirds dramatized the word "Halloween" with a hollow wienie, and gave a jar of mustard to Jo Lee Hurlbut for her correct answer.

Songs were sung by the Merry Bluebirds of Mrs. Mahon and Mrs. Bernard Donnelly, and the new Bluebird group of Mrs. John Moeller and Mrs. Ten Have. A trio of Ruth Ann Reus, Laura Phillips, and June Moeller, also sang "The Yellow Rose of Texas."

Another highlight of the program was the skit given by the Joyful Bluebirds of Mrs. Arthur Van Raalte. Complete with hair bows, mustaches, and bow ties, they put on "The Lady Who Couldn't Pay the Rent." The Chirping Bluebirds of Harrington school played a game for the other girls, as they sang "Oats and Beans and Barley Grow." The program was ended as the Happy Bluebirds of Mrs. Arthur Yost sang "My Uncle Frank."

Mrs. Wildman led the group in songs closing with "The Bluebird Song," before the girls settled down to their lunches and the hot chocolate served by Mrs. Harold Luth, chairman of the extension committee, and Mrs. Hans Knutson. At 7 p.m., the girls were greeted by parents who met them at the school and took them back into the city.

Hope, Hurricanes Are Grid Winners

Canes Score Marker In Final Minutes For Third Victory

Scoring a touchdown in the dying seconds of the game, the Holland Hurricanes defeated a stubborn Ann Arbor Bulldog eleven, 13-6 at Riverview Park Saturday night. It was Holland's third win in the MIFL with one loss and one tie.

With less than three minutes left in the game, and the score tied 6-6, a hard charging Hurricane line blocked big Jim Gacken's punt on the Ann Arbor 30-yard line. The ball rolled to the Ann Arbor 14-yard line, where Cane Eng Don Hulst fell on the ball. J. Colegrove, on the first play, raced off tackle to the nine-yard line. Rudy Belik smashed through center, making a first down on the four-yard line. Colegrove and Bob Harrington each picked up a yard, before the locals were penalized five yards for taking too much time. Then on the third down, Ron Klampit tossed a pass to Ted Bos in the end zone for the score. Vern Vandewater's kick was good, making the score 13-6. The game ended seconds after Holland kicked off.

The locals had been fighting an uphill battle all the way, with Ann Arbor scoring the first touchdown early in the second quarter. The scoring drive was set up when Gilbertson of the Bulldogs intercepted Colegrove's pass on the Dutch 25-yard marker. After Ken Reade was held for no gain on the first play from scrimmage, Louis Boone raced 15 yards around end to the Holland 10-yard stripe. Dick Hendrian picked up three yards off tackle, before Joe Rodriguez flipped a basketball pass to Reade who took the ball to the two-yard marker. Rodriguez then sneaked over from his quarterback spot for the score. Bill Bush's conversion attempt was no good, making the count, 6-0.

After Ann Arbor halted two Hurricane drives within their own 20-yard stripe in the third period, Holland finally knotted the count on the first play of the fourth quarter. Nine plays after the locals had taken over on their own 39-yard marker, they moved into the end zone with Colegrove going over from his six yard line. Rudy Belik started the touchdown march by racing nine yards to the Holland 48. After Colegrove took the ball across the middle stripe, Bob Wyngarden raced 12 yards to the Ann Arbor 35. Colegrove, running hard on the next play, streaked over his own guard to the 15 yard line, for a 17 yard gain. After Wyngarden gained nothing, Colegrove again broke loose to the six yard line. The quarter ended with this play. On the opening play of the final period, Colegrove climaxed his brilliant running, by racing in to the end zone for the tying score. Vandewater's kick was wide, and the score was tied.

The final period was played on even terms, until the locals made their own "break," by blocking the punt which set up the winning TD.

Holland continued to show improvement, displaying a hard running attack. Colegrove's running highlighted the Holland offense. The local line also came in for its share of honors, holding the invaders to little yardage by rushing. Evidence of the hard-charging Holland forward wall was given with the game only a minute old when it forced an Ann Arbor fumble on the Holland two-yard line. Ann Arbor had advanced to this point, by recovering a local fumble, and a 17-yard pass.

Next Saturday night, the locals will play host to the Highland Park Bears. The first contest between the two squads ended in a 19-19 tie.

Official Rules On Mishap Case

Ottawa county Prosecutor Howard Fant ruled Wednesday that because of "insufficient facts," no warrant will be issued in the accident Oct. 8, in which Douglas Brian Kirk, 3, of 48 West 19th St., was injured.

Fant issued the statement after investigating the facts with Holland police officers and his assistant, Wendell Miles.

The youth was struck by a car near the alley at the rear of a store on the corner of 19th St. and Michigan Ave.

He is the son of Mr. and Mrs. A. J. Kirk. X-rays were taken at Holland hospital and the boy was taken home after it was determined that he had no serious injuries.

Holland police officers questioned a woman who was driving a maroon car near the scene of the accident and three witnesses. This testimony was turned over to the prosecutor.

The prosecutor said there was insufficient evidence to support a case in court. He said a hit-run case must involve a person who "knowingly" leaves the scene of a personal injury accident.

It was reported that at the questioning, the woman admitted being in the vicinity but she denied knowledge of an accident.

Holland Hurricanes Will Attempt To Hold Third Place in Standings

Holland's Hurricanes will try to hold their grip on third place in the MIFL standings Saturday night when they entertain the Highland Park eleven at River-view park.

By virtue of the Grand Rapids All-Star 14-0 defeat of league leading Jackson last week-end, the Canes were upped to within one point of the co-leading teams, Jackson and Grand Rapids are tied for top spot.

It's going to be a tough road to hold against Highland Park. The Canes had to come from behind in the final minutes of their opening game to earn a tie with the Detroit eleven. Since that time, Highland Park has polished their offense and defense. They lost a close 5-0 game to Grand Rapids and were edged by Jackson 27-18.

The Highland Park team boasts such backfield standouts as Charles Banchui and Ernest Smith. They also have End Oliver Owens, who couldn't miss a pass in the earlier Canes-Highland Park game.

Local grid fans can look for a high scoring game when these two eleven clash Saturday night. It was against Highland Park that Holland scored the most points they ever have in any one game this season.

As in the last few weeks, Coaches Curley Wiegink and

Jay Van Hoven are putting the emphasis on offensive play. They know the stingy Hurricane defensive line will have a tough road to hold back the Bear offense.

This will be the last hurdle for the Canes before their second meeting with the Jackson All-Stars next week-end. If the Canes can get past this game they will have a clear shot at the title next week.

Jason De Vries is being readied to call defensive signals for the Canes and will be instructed to stop the Highland Park passers before they can get the ball away. At the same time, the Hurricane defensive backs will have to surround Owens and prevent any repeat of his pass catching exhibition.

The salary of the county health officer listed at \$4,750 represents half of the regular \$8,500 salary, plus \$500 for supervisory work which is paid to Dr. Edna Schrick and Dr. Ralph Ten Have who are supervising the work in Dr. C. Dale Barrett's six months' absence while attending University of Michigan.

Regarding the \$6,000 salary earmarked for the sheriff, an increase of \$1,000 over last year, it was explained the new sheriff invests in and operates two cars. The sheriff's salary in 1930 was \$5,000, it was pointed out. The committee felt the new figure would be a fair salary in view of the investments involved.

A report from Soldiers and Sailors relief dated Sept. 30, 1948, showed a balance Sept. 30, 1947, of \$2,860.17; expenditures for relief and administration, \$442.68, leaving a balance Sept. 30, 1948, of \$2,417.49. The commission made 23 burial investigations and asked for an appropriation of \$2,000 for the coming year.

Peter P. Vanden Bosch, newly elected member of the Ottawa County Road commission, expressed his appreciation for the appointment. Vanden Bosch, who succeeds John H. Van Noord of Jamestown, will be paid a salary of \$800 instead of the usual \$600 paid road commission members. Since the salary of an incumbent cannot be changed during a term, the board felt a new man should not suffer because salaries for the other two members were fixed.

Chairman Gerrit Bottema appointed Mayor Nicholas Frankena and Nick Cook of Zeeland and Henry Slaughter of Tallmadge township to a committee to arrange for a meeting of fifth district supervisors in Zeeland Jan. 5.

The Agricultural committee recommended a \$300 allocation for 4-H work at Berlin fair, \$200 for Hudsonville fair and \$150 for the annual 4-H achievement day. Wilmarth of Grand Rapids, District Deputy Audrey Giestrum of Muskegon Heights, and District Deputy Laura Limbach of Grand Haven, by five Royal Neighbor Juveniles led by their juvenile director, Mrs. Juanita Kimber. Officers elected for the convention were Neighbor Lyons Davidson of Grand Rapids, vice orator; Neighbor De Wald of Whitehall, recorder; Neighbor Haverkate of Muskegon, chancellor; Neighbor Hansen of Muskegon Heights, inner sentinel; Neighbor Kleis of Holland, outer sentinel; Neighbor Dore of Holland, past orator.

The afternoon session began at 1:30 p.m. with a call to order by the convention officers. The seating of officers, presentation of the flag and the formal opening was conducted by the Lady Star camp 1875 of Grand Rapids. Initiation was by the Victory Camp 5519 of Grand Haven and the password drill was led by the Purity camp 3571, Holland. The Oak Leaf camp No. 3354 of Muskegon Heights con-

ducted the ballot march and the Shanahan camp No. 339 of Grand Rapids led the retiring march. New officers were installed by Fern Leaf camp No. 217, Muskegon.

Brief talks were made by Mrs. Jessie L. Mitchell, supreme manager; Mrs. Daisy Heath, state supervisor, and by the district deputies.

Entertainment was furnished by the Holland Juveniles dressed in drum majorette costumes and Dutch costumes and wooden shoes. Mistress of ceremonies was Mrs. Kimber and musician was Reatha De Boer.

In the evening, the Juvenile camp was chartered. The meeting opened with the presentation of the flag by Dolores Kay, who was appointed Patriotism. He will give talks, show movies, distribute literature and give posters to interested groups in the area. These will include PTA's service clubs and school assemblies. His work in the area is made possible through the yearly purchase of Christmas seals by Ottawa citizens.

Truitt has first-hand knowledge of tuberculosis and the damage it causes. Since 1942, he spent more than two years in Michigan sanatoriums looking the "bug." A chest x-ray during the draft in 1942 revealed the disease. Before hospitalization, Truitt was a rising radio personality in Detroit.

Board Approves Increases for Court Positions

Grand Haven, Oct. 21 (Special)—The Board of Supervisors approved a \$500 increase for the circuit judge and \$200 for the circuit court reporter in discussing the budget Tuesday.

The original recommendation for \$1,500 for the judge with Allegan board giving like consideration was pared to \$500 by the Ways and Means committee. Recommendations were made in both counties in an effort to boost the circuit judge's salary to \$10,000, which all attorneys said would be comparable to salaries of judges in circuits of similar population. A salary of \$7,000 is paid by the state. Any increase would be borne by the counties involved.

The salary of the court stenographer is set by law at \$3,600. This amount is pro-rated between counties in the circuit according to cases. Last year, Allegan paid roughly \$1,900 and Ottawa \$1,700. The approved \$200 will be in addition to Ottawa's share of the \$3,600, which unlike the judge's salary is paid by counties.

The board also approved hiring an assistant sanitarian at a salary of \$3,000 with \$900 for travel expense. Supervisor Charles Misner, who advocated the new assistant, said the work is a dire necessity since the sanitary engineer cannot do all the necessary checking and follow-up work. Henry Slaughter who said he was "converted" to the idea which he previously opposed pointed to the fact that Holland township alone has 6,000 persons who would probably be building or maintaining cess pools and wells.

The salary of the county health officer listed at \$4,750 represents half of the regular \$8,500 salary, plus \$500 for supervisory work which is paid to Dr. Edna Schrick and Dr. Ralph Ten Have who are supervising the work in Dr. C. Miss Joyce Taylor, daughter of Mrs. Lillian Taylor, became the bride of George J. Brinks, son of Mr. and Mrs. Herman Brinks in a double ring ceremony at the First Reformed church in Zeeland Friday at 7:30 p.m.

Traditional music was played by E. Lievense who also accompanied Miss Eleanor Klunje, the soloist, who sang "Because," "O Promise Me" and "Together, Along Life's Pathway."

The bride, given in marriage by her grandfather, wore a gown of Chantilly lace over heavy bridal satin with low scalloped neckline, cape sleeves and long lace mitts. Her headress was bonnet shaped with tiny rows of lace forming a heart design with tiny seed pearls across the top and a fingertip veil of imported illusion extending from it. She carried a white Bible with an orchid.

The maid of honor, Miss Elaine De Neff, wore a pink gown fashioned with a sweetheart neckline and chiffon skirt over silk.

Zone Board Kills Appeal to Build Amusement Park

Park township's appeal board has refused permission to build an amusement park in the area.

The meeting of the appeal board of Park township was held at the Township Hall at Central Park last evening for the purpose of hearing objections to three applications for construction varying from the terms of the Park township zoning ordinance. About 60 persons were present.

An application by Nelson Morris of Holland for a reclassification of Lots 11-17 inclusive of DeFeyters subdivision, which is located near Chippewa resort interest and protest from the surrounding property owners. Representatives of Trinity Reformed church and the Harderwyk Christian Reformed church protested the possibility of the Sunday opening of a children's amusement park which Morris proposed to build on the site. The neighbors protested the nature of the business as disturbing to the quiet of the neighborhood. The appeal board, which consists of William Winstrom, chairman, Carl Harrington and Lloyd Van Lente determined that the reclassification from agricultural zone to commercial zone should be denied.

Two applications for permits to construct cottages at Macatawa park were heard by the board under notices of variance, because the lots have less area than required by ordinance. The board determined that these permits should be allowed so as to prevent unnecessary hardship and inconvenience under the terms of the state law giving the board such power in these cases. These applications were made by Mrs. Joseph Mullens and Mrs. George Ducker, both of whom will construct new cottages.

At the same meeting the permanent township zoning board heard objections to the application for amendment of the ordinance to make Lot 38 of Elmgrove Park subdivision a commercial lot. It is now zoned residential. A petition was presented and representatives of property owners protested the proposed change. The zoning board determined that the rezoning was not desirable.

Health Lecturer Speaks From First-Hand Info

Mel Truitt, 28-year-old field health lecturer for the Michigan Tuberculosis association, arrived in Holland today for a health education service engagement in Ottawa county.

He will give talks, show movies, distribute literature and give posters to interested groups in the area. These will include PTA's service clubs and school assemblies. His work in the area is made possible through the yearly purchase of Christmas seals by Ottawa citizens.

Truitt has first-hand knowledge of tuberculosis and the damage it causes. Since 1942, he spent more than two years in Michigan sanatoriums looking the "bug." A chest x-ray during the draft in 1942 revealed the disease. Before hospitalization, Truitt was a rising radio personality in Detroit.

Profits in Poultry Industry Go to the Early Birds

Poultry Income Is Increased From Early Hatch

Getting More Eggs During Summer Is Profitable, Plan Shows

Increasing numbers of Upper Peninsula poultrymen are turning to early hatched pullets as a means of increasing their poultry income by getting more eggs during the high-price summer months.

J. G. Wells, Jr., superintendent of the Michigan State college experiment station at Chatham, credits the poultry management plan devised by J. M. Moore, MSC extension poultryman, with the increase in U. P. poultry income. The two men recognized that the demand for eggs reaches its height during the July and August tourist season. In order to solve the problem of getting more eggs at that time, they set out to hatch baby chicks early enough so they would get into production when eggs were needed.

At Chatham, approximately 75 per cent of all the pullets raised are hatched in January and 25 per cent are hatched in March. With this practice, they obtain full production from the yearling flock and a profitable number of eggs from the early hatched pullets.

Records last year showed that the January hatched pullets gave a production of 88 eggs per bird in the high priced season (July and December), while the March hatched pullets gave only 44 eggs per bird.

January brooding, Moore points out, is best done in a stationary brooder house that will accommodate 400 chicks. This number best suits economical operation. When the chicks are well feathered out in April, they can be put out in the summer shelters and carried through until they are put back in the laying house in June or July.

Moore urges farmers who are interested in early hatched chicks to get in touch with their county agricultural agent who can furnish more complete details on the technique.

Quick Marketing Of Eggs Essential

How important is the careful handling and quick marketing of eggs from the country assembler to the consumer?

Henry Larzelere, Michigan State college extension and research specialist in agricultural economics, says a survey he made in Michigan this spring and summer shows it is very important.

One study showed that from a gathering point, 100 miles from the Detroit market, that seven per cent of the eggs dropped one grade each day for each day held. That would mean that an egg could drop from the top grade to the bottom in a week's time.

Larzelere left East Lansing recently on a leave of absence to work with the U. S. Department of Agriculture in Washington, D. C. He will prepare the report of a study made by the regional egg marketing committee in 14 midwestern states. His special assignment will require about three months away from his MSC duties.

Scouting Is Financed By Community Chest

A boy's ceaseless energy and search for adventure often lead him to difficulty. Most educators realize that a boy's "nothing-to-do" time has the power to make, or break, his character.

Designed to aid and supplement the home, the church, and the school, the Boy Scouts of America through its healthful outdoor activity offers the community a fine character-building program that boys like. Scouting is one of the 11 agencies represented in this year's Community Chest campaign for \$266,550.

Scouting is not restricted to any race, creed or class. Its program is available to rich and poor alike, in city or on farm, and to every religious faith under their own leadership.

The activities of scouting not only provide fun and knowledge, but they prepare boys to meet emergencies. Many times in case of floods, fires, and disasters scouts have not only showed their willingness to serve, but have showed a knowledge and skill that have made them invaluable to authorities.

Scouting offers three programs for boys. Cub scouting is the program for boys nine through 11, scouting for the 12 to 15 and senior scouting for the young man over 15.

The aim of all phases of the program is the same, physical fitness, character development and citizenship training.

Staffed by over 100 volunteer leaders and committeemen, the local units of Scouting serve nearly 400 boys.

The Council owns and operates three developed camps and two undeveloped camping areas that provide opportunity for year-around camping. A total of 275 Scouts attended Camp Ottawa, the summer training camp. While there, 24 qualified as life savers, eight as Scout life guards. Nineteen boys learned to swim.

An intense program of first aid and emergency service will be carried on in the Scout troops this winter.

The Ottawa-Allegan Council provides two trained professional men who serve Holland and all other communities in Ottawa, and Allegan counties.

Woman Is Treated After Cars Collide

Mrs. Gertie Wolters of Grand Rapids, was given first aid at the Holland police station Saturday afternoon for hand cuts after the car in which she was riding was involved in a crash at the crossing of 17th St. and College Ave.

The car was driven by her husband, William Wolters, also of Grand Rapids, and the other car was driven by Edna M. Davis of Saugatuck. Edna Davis was given a summons for failing to yield the right of way.

Delle Van Wier of 37 East 22nd St. was listed as a witness.

Scouts Are Ushers

A group of 24 Holland area Boy Scouts representing the Ottawa-Allegan council ushered at the Michigan-Northwestern game at Ann Arbor Saturday. The scouts were from troop seven of Third Reformed church; senior outfit 10 of the Methodist church; troop 16, sponsored by the parent's committee of the First and Second Christian Reformed churches of Grand Haven and troop 24 sponsored by St. Margaret's church at Otsego.

Allegan Extension Groups to Meet

Local leaders of the Allegan county Home Extension groups will have an opportunity to study the selection and use of color in the home at one of three meetings arranged this week, by Mary E. Bullis, home extension agent.

Leaders will meet Tuesday at the Gfswold auditorium in Allegan; Wednesday at the Wayland school and Thursday at the American Legion hall in Saugatuck.

Jessie Marion, specialist in home furnishing, will present the lesson at the first two meetings. Colors and color styles change constantly, says Miss Marion, so the homemaker is continually searching for the right color for rooms and furnishings.

Recent surveys reveal the fact that people are tired of tan and beige. In their places we find a variety of cool greens, blue greens and fresh yellow greens.

With study and a plan even an amateur can come out with colorful rooms neither too bold or too dull.

Women's groups interested in learning about the subject of color, are asked, by Miss Bullis, to send two representatives to one of the meetings.

Tipsy Driver Gets Fine, Jail Term

To Appear Here

Hedley Hepworth

Hedley Hepworth, celebrated English actor of the platform, will appear before the Woman's Literary club tomorrow at 2:30 p.m. and also before Hope college students at 11:10 a.m. Now on his fifth transcontinental tour, Hepworth will present a program from his inexhaustible store of characters based on the works of Charles Dickens.

Considered one of Britain's foremost authorities on Dickens, he has performed on platforms all over the United States, throughout the British Isles and in many Canadian theaters. So clever are his disguises, he was of great aid to the British Secret Service during the war. Shifted from one coastal town to another, Hepworth impersonated a British stevedore and turned up valuable information regarding leaks in shipping information.

A master at rapid changes in costume and make-up, Hepworth's programs are real adventures in living, literature and have been making a tremendous hit throughout the United States.

The program at the college, entitled "The Immortal Characters of Dickens," is open to the public. At the Woman's club the actor will present "A Melange of Humorous and Dramatic Sketches." All sketches will be presented in costume.

The hospital committee will meet in the Woman's club room for sewing at 10 a.m. Lunch will be served at noon by the Mesdames Stanley Elderfield, Peter Notter, E. E. Fell and N. Dykhuizen.

Volleys From Ambush

HERE'S ANOTHER highlight on that memorable football game back in 1920 when Holland high defeated Grand Rapids Central at Ramona park 21-6.

Those swanky white sweaters the 1920 team wore in the picture reproduced by The Sentinel last Tuesday were a gift of the Holland businessmen in appreciation of the big victory.

The victory was one of the high points of the year. Townsfolk were as excited as school students.

As for Cubby Drew, the man who started the plunge into history, no wonder he remembered so well!

It now develops he practically coached that team back in 1920. Cubby was waiting to go to Washington with Carl Mapes and had little or nothing to do. Coach Harold Sweeney was brand new at the school with very little experience.

So Cubby pitched in and taught the boys what he knew of the game. And he coached them so well they won the big Central game, a feat which was not duplicated until last week when Holland won, 19 to 7.

Deputy Sheriff Ed Brouwer waxed whimsical on the eve of the hunting season, and informed The Sentinel he had interviewed the pheasants.

Ed said the pheasants appreciated The Sentinel's efforts in reminding hunters to observe caution in shooting. The pheasants figure they'll have a better chance to survive in that case.

Brouwer asked The Sentinel to publish the incident since he planned to take the edition to the field for the pheasants.

Hunters may obtain licenses at almost any hardware store or sporting center, but if they want to hunt ducks they have to consult Uncle Sam.

And because persons usually procrastinate, this probably explains why every other person at the stamp window at the post office on the opening day of the hunting season asked for a \$1 migratory bird stamp.

Morris Tardiff has a good sense of humor. And he's smart too.

He was able to figure out without difficulty an error in The Sentinel crediting him with the birth of a daughter, completely ignoring Mrs. Tardiff. It was a matter of a misplaced line.

Tardiff said, though, that the name of his new daughter is Marcia Ann, not Karen as was listed in the error. It so happens that his boat's name is Karen, and he figured a brand new daughter, the first at that, deserved a name all her own.

The Sentinel hit the Decatur Republican this week. The Decatur paper reprinted a story concerning Henry Goerlings' visit there during the town's Centennial Celebration some weeks ago. Goerlings, now state representative of Ottawa county, lived for a year in Decatur 53 years ago as pastor of the Presbyterian church. The only person who recognized him was Arba N. Moulton, long-time editor-publisher of the Republican.

Holland joins Benton Harbor in mourning the loss of "Captain Jiggs," veteran mascot of the Benton Harbor fire department who died Saturday night after answering his last alarm.

"Captain Jiggs" was laid to rest in a vault casket on fire station property. The spot, covered with flowers at final rites Wednesday, will be marked with a little monument in memory of the bull terrier mascot. "Captain Jiggs" is estimated to have attended 3,000 fires during the eight years with the department. He habitually slept in a truck, preferably the ladder apparatus. On runs, he balanced himself like an acrobat, his staccato barks joining with the sirens. He knew his place and never got in the way.

Returning from a fire Sunday night, "Captain Jiggs" suddenly collapsed. Firemen fought two hours to revive the mascot with a resuscitator, but in vain.

All day Monday and Tuesday, Benton Harbor folk paid last respects to "Captain Jiggs" as he lay in state in the dog's casket beside gleaming firetrucks.

Left to mourn "Captain Jiggs" is one son, Spike, four months old. Spike has been solemnly charged by the department to carry on where "Captain Jiggs" left off.
