## No City Election Here Next Week

Holland will not have a city election Nov. 2.

A number of other cities in Michigan will have elections, but Holland city held its biennial election last spring instead of waiting until November, according to a state law adopted last December, allowing cities to reschedule elections to November of odd-numbered years.

Most cities, including Holland, are rescheduling elections of a mayor and councilmen to the fall of odd-numbered years, but in the case of Holland, this will be effective in 1973.

The legislature, in adopting the new law, anticipated that it would schedule statewide proposals for electors at the odd-year elections. For various reasons, legislators did not act within the statutory deadlines and there are no statewide issues for public vote this year.

City Clerk D. W. Schipper said there are no scheduled elections in Holland until the annual school election next June, but a special election could be called prior to that time. It is possible the state legislature may schedule a statewide election on certain matters next spring.

Since the ratification of the Constitutional amendment granting the right to vote to those 18 to 21, the clerk's office so far has registered about 200 in this age group. It is estimated there are about 1,400 persons in the city in this category and those not already registered are urged to do so at this time and not wait until an election is scheduled.

## Jury Waived In Westrate Trial

GRAND HAVEN — The trial of Mrs. Bonnie Westrate, 37, of Holland, charged with assault with intent to commit murder in the shooting and wounding of her husband, opened in Ottawa Circuit Court Wednesday without a jury after the supply of prospective jurors was exhausted during jury selection procedures.

Defense attorney Leo Hoffman of Allegan offered to waive a jury trial in order to continue the trial as planned today and Friday before Judge Raymond L. Smith.

At 11:35 a.m. prosecutor Calvin Bosman opened the prosecution's case by presenting the people's case.

Mrs. Westrate is charged in the Sept. 24, 1970 wounding of Dr. Warren Westrate, 49, in the couple's home at 568 Central Ave.

During the jury selection attempt, Hoffman said the defense would base the case on the fact that Mrs. Westrate was temporarily insane at the time of the shooting.

He said there is no dispute over the fact that the defendant shot her husband and that she later took sleeping pills and was found in her car in a secluded wooded area.

## 2 Thieves Take Jewels, Guns, Cash

H.J. Windolfs Bound  
And Gagged; Loss Set  
At About \$30,000

Herman J. Windolph, president of Holland Die Casting & Plating Co., Inc., and his wife Mary, were bound, gagged, beaten and threatened by two intruders Sunday evening at their home at 873 South Shore Dr.

The intruders fled in Windolph's 1971 luxury car with an estimated \$30,000 in jewelry, guns and cash.

Windolph and his wife managed to free themselves and call police. They were treated at Holland Hospital and released. The intruders remained at large Monday, police said.

Police said the Windolph car was recovered near a body shop at 507 West 20th St. Some of the loot was recovered from pillow cases found in the car along with about five of the missing guns.

Police said Monday that another pillow case with jewelry inside was found beneath a dresser in the Windolph home and that four other guns were recovered within two blocks of where the car was found.

Officers said most of the missing items, including a woman's diamond ring valued at \$16,000, were recovered. The \$650 in cash was still missing.

Police said the thieves wore full pullover head masks similar to those worn by skiers and were dressed in dark clothing. One was said about 6 feet tall, the other about 5-feet-10.

Police said the pair entered the home through an open garage door and an unlocked door to a hallway leading to a family room where the Windolfs were watching television at 7:45 p.m.

"We thought at first it was some kind of joke," Windolph said today. "Then the bigger of the two hit me and I hit him back and then he clobbered me on my head and I fell down to the floor and he held me down."

What was believed a hand gun was held against the side of Windolph's head, he said. Windolph said he heard what sounded like the weapon being cocked.

The other subject forced Mrs. Windolph to the floor and her hands and feet were bound with electrical tape and cords from draperies.

Windolph's hands and feet were bound with tape. The thieves demanded to know where money and jewelry were kept and whether a safe was in the house.

"We gave the combination of the safe to them verbally," Windolph said.

The intruders went to the basement safe but were unable to open it. They returned to the Windolfs and demanded the combination again. The pair was told it was written on a paper in a purse in a bedroom. The safe was opened and Windolph said stocks and other valuable papers were cleaned out.

Rooms in the house were ransacked.

"I think at the last they decided to kill us," said Windolph.

"But I told them it would be a good idea if they got out of the house, that we were old people and that the house was being checked regularly by the police."

Windolph said the two then left in Windolph's car. Police said before the intruders left, they gagged the Windolfs, ripped out a telephone in the family room, covered the Windolfs with bed spreads and locked them in the family room.

Windolph said he freed himself and left the family room through an outside door which could be opened from the inside and went to a neighbor, Floyd Folkert, 864 Allen Rd., to call police.

Officers said at least two persons were involved in the armed robbery and that the unlocked Windolph car was found near the body shop on West 20th St. where another car was believed involved.

Police said it was not immediately determined how the intruders arrived at the Windolph home. Windolph said he did not recall hearing a car drive up before the intruders entered the family room.

## Federal Permit Sought

Richard M. De Vos, Grand Rapids, has applied to the Army Corps of Engineers in Detroit for a federal permit to construct a wood pile and timber pier in Lake Macatawa offshore 949 South Shore Dr. Interested parties entertaining objections should file written protests not later than Nov. 22.

## 'Sloppy' Burglary Nets Ring, Cash

Thugs who beat and threatened the Herman J. Windolfs during a robbery at their South Shore Dr. home Sunday night were sloppy about the robbery, said Holland police who continued their investigation Tuesday.

Officers said nearly all the loot reported missing was recovered, including a \$16,000 diamond ring and about \$170,000 worth of stocks. Missing was a \$500 ring and \$650 in cash.

Lt. Marty Hardenberg said the burglars were "sloppy" and left behind several pieces of valuable jewelry and art objects and a pillow case full of jewelry and a coin collection.

Hardenberg said it appeared the two burglars ransacked the rooms and made such a mess they forgot where they set aside items for taking. The pillow case of valuables was recovered from beneath a dresser in a bedroom.

The burglars, wearing wool head masks and gloves, entered the Windolph home at 873 South Shore Dr. Sunday at about 7:45 p.m. while the couple was in the family room.

Windolph and his wife, Mary, were bound with electrical tape, gagged and covered with bed spreads as the burglars went through the house, opened a safe and fled in Windolph's car.

The car was found parked near a body shop at 20th St. and Homestead Ave. Two pillow cases of valuables and six guns were found in the car.

Hardenberg said it appeared the burglars were surprised as they began transferring the stolen items to another car and fled the scene.

While driving along Homestead and 20th St. the burglars apparently tossed out rifles and shotguns from the moving car. At least five weapons were recovered from along the streets.

The loss had been estimated by Windolph as high as \$200,000 including the stocks. Police said the original loss in jewelry, guns and cash was \$30,000.

Hardenberg said evidence was being sent to a crime laboratory in East Lansing for examination. Other leads were being checked out.

Officers said they received an anonymous telephone call at 6:40 p.m. Sunday complaining of a suspicious car near the body shop. Police investigated but found nothing.

Today Hardenberg appealed to the caller to recontact the police station.

Police said owners of the body shop were contacted by an employee who drove past the shop while police were investigating the suspicious car complaint.

The owners went to the body shop later and reported to police at 8:53 p.m. that a car (Windolph's) was parked near the shop. Windolph called police at 8:57 p.m. after freeing himself and reported the robbery.

Police believe the arrival of the body shop owners frightened the burglars who cut short the transfer of items and fled in the other car.

Holland police Chief Charles Lindstrom Tuesday asked residents or passing motorists along South Shore Dr. near the Windolph home Sunday to contact the department if they recall hearing or seeing anything unusual prior to or during the robbery.

## Highlights Festivities At Hope

Rep. Gerald R. Ford,  
Dr. C.A. Vander Werf  
Speak at Dedication

The \$2.9 million DeWitt Student and Cultural Center was dedicated on the campus of Hope College Saturday.

U. S. Rep. Gerald Ford, Minority Leader of the House of Representatives, called upon the Hope and Holland communities to "use this Center to light a candle in the world, the candle of knowledge and understanding, so that together we will make a great light and illuminate the universe for ourselves and for all men."

Ford was the principle speaker at the dedication, which was the highlight of Hope's Homecoming weekend.

Also speaking during the program were Holland Mayor L. W. Lamb Jr., former Hope President Dr. Calvin VanderWerf, current Student Congress President Bob Scott, and Bruce Neckers, president of the student body in 1964 when the move for the center was initiated.

Hugh De Pree, chairman of Hope's board of trustees, gave welcoming remarks and introduced Rep. Ford. The Rev. Christian Walvoord, president of the Reformed Church in America, gave the invocation, and Hope Chancellor Dr. William VanderLugt led the audience in the litany of dedication. Lawrence E. Erhardt, president of Erhardt Construction Co., general contractor for the building, presented the keys to the Center to Clarence J. Handlogten, executive vice president of the College. The College Chapel Choir sang Psalm 150 and the Hope College String Ensemble played a prelude.

In a surprise presentation, senior student Floyd Essink, chairman of the social activities committee, gave a large, framed picture of the center to Henry Boersma, project coordinator for Hope College, who supervised planning and construction of the Center. Boersma served as liaison between the college and the more than 125 contractors who were involved in the construction of the Center.

The building is named for brothers Jack and R. A. DeWitt, co-founders of Big Dutchmen of Zeeland. Dr. VanderWerf gave special thanks to the DeWitts, then also extended the gratitude of the College to the many people whose contributions to the Center had gone largely unrecognized.

Rep. Ford, long a friend of the College, said the Center "makes evident to all of us the strength of the private Christian college. If we need anything in America today we need the private Christian college and college cultural centers that are Christ-oriented."

Rep. Ford recalled "the great works of art, music and literature which have been inspired by Christ and his teachings." He said the Center, specifically, and Christian private colleges, in general, provide hope that America will respond to the "severe tests to which our national character is being subjected."

Dr. VanderWerf, one of the few people involved in the Center project from its inspiration in 1964 to the completion, said he felt great appreciation at being a part of the dedication ceremonies, which he has been awaiting for many years.

Dr. VanderWerf said the Center "epitomizes what a Christian college is all about — service. Service to the students, the college community and the Holland community."

## OPEN VISITATION POLICY Grand Valley State College

has just adopted a new policy of 24-hour open visitation in their dormitories.

This means that men and women students may be together in dorm room without supervision any time of the day or night. The policy has been approved by student committees, faculty committees, and the board of governors.

The administration claims that the policy will have little effect in changing the lives of students because the new relationship between the sexes is a kind of brother-sisterly relationship. Students agree that it will change the students' lives very little, but only because this kind of thing has been going on anyway. The new policy makes legal what has in the past been illegally perpetrated.

We make no comment on the adoption of the new policy. We only ask how long the taxpayer will tolerate supporting institutions that encourage behavior any decent citizen would resent if it occurred in his own neighborhood. We may find that the patience of the taxpayer may soon run out.

## Sunday School Lesson

Sunday, Oct. 31  
God Judges Nations  
Habakkuk 1:5-13; 2:6-8  
By C.P. Dame

On this Reformation Day Sunday we will study the truth that God judges nations. It is good to consider also that God judges the Universal Christian Church, denominations and individual congregations too—we all have to deal with a judging God.

I. God is always at work. This is worth remembering when someone says, "Why doesn't God do something?" The prophet Habakkuk was puzzled and this comes out clearly in the little book which he wrote. The book is divided into three parts. In the first part the severe judgment of God is announced, in the second part there is a fivefold lament and the third part is a hymn of praise.

The prophet was concerned about the plight of his country—violence was not punished and there was a moral decline in the nation but God didn't do anything about it. We can all cite instances of wickedness succeeding and of unrighteousness making gains. Communism grew because millions were killed in the process. When God told the prophet He was planning ahead Habakkuk was more puzzled than ever.

II. God often surprises people. What God told the prophet about the coming of the Chaldeans was shocking. The Chaldeans had overcome the cruel Assyrians and they would punish Judah. But they were more wicked than Judah. Why did God plan to use the more wicked to chastise the less wicked? Things are going on now which trouble thinking, Godly people. God often does the unexpected.

III. God has character. The prophet implies that God's actions were not in harmony with His character. Note what the prophet says about God. He is eternal and self-existent and holy and differs from people and from the gods of the pagans. The prophet was very human when he revealed exultation over the plunderers who were in time also plundered. We have the same spirit when we say, "He had it coming."

Although the prophet did not get the answer he was looking for, he made the resolution to wait for the Lord. It takes grace to wait for God when you think He ought to act. He also learned the doctrine of "justification by faith" which is also taught in Romans 1:17, Galatians 3:11 and Hebrews 10:38. On Reformation Day Sunday it is fitting to teach this great doctrine more strongly than ever.

## Zeeland Chamber Hears Address on Enthusiasm

ZEELAND — Zeeland Chamber of Commerce members and their guests numbering 250 witnessed demonstrations of "The Power of Enthusiasm" as related by James E. Dornoff, a retired sales executive of Milwaukee, at their 34th annual banquet Tuesday night in Zeeland Middle School.

The speaker, who has sparked many a sales meeting, listed five ingredients that lead to that tiny difference that produces the magnetic power of attraction in human relations ... (1) think right and you'll be right, (2) set yourself some goals in thinking five, 10 or 15 years ahead, (3) act enthusiastically and you'll be enthusiastic, (4) speak distinctly and with expression, (5) keep reminding yourself what enthusiasm will do for you.

"Why are some people more successful than others, people who stand head and shoulders above the crowd, and yet are no different in background, attire or appearance? Enthusiasm is the secret ingredient of the success that makes them different. It is not education, or being an extrovert or introvert. Everybody has this power but most people don't know how to tap it," the speaker said.

"And if you haven't got it, it doesn't make much difference what else you have."

He said 10 per cent of the people think, another 10 per cent think they think, and the rest would rather die than think. "But when you think, think positively. Think what Norman Vincent Peale had in mind in his approach to the power of positive thinking. The world is not going to change; you must change it."

As for speaking distinctly and with expression, he pointed to Everett M. Dirksen who always maye everybody listen, and to Bishop Fulton Sheen who once said, "I set myself afire and people come to see me burn."

Dornoff also advised the people to listen to themselves on a tape recorded ... "it will be awful the first few times, but you will learn a lot."

"Be enthusiastic, not with the lips but through the heart, and you'll have twice the enjoyment in life. Approach your jobs with a purpose and you'll derive much more satisfaction, particularly if you go out of your way to help other people," he said.

Chamber President John F. De Vries presided and introduced guests. Framed certificates were presented to retiring board members, Gary De Haan, Phil Miller and Harvey Ten Harnsel. Vice President Simon Konig presented De Vries with a president's plaque. Henry Visser served as toastmaster and the Campus Singers of Zeeland High School provided music. The invocation was given by the Rev. Calvin Bolt of First Christian Reformed Church.

Decorations followed a Dutch motif with flags, colorful posters and greeters in Dutch costume. The menu also was in Dutch.

## Students to Teach Hamsters, Fish, Rat to Run Mazes

Students in Miss Jan Sebans' psychology class at Holland High School have added a new dimension to their learning experiences.

Currently involved with subject matter concerning various types of learning such as trial and error, classical conditioning, operant conditioning and programmed learning; the class has recently developed a small temporary experimental laboratory in which learning may actually be observed as it transpires.

The lab is located in the west basement of the Fieldhouse. The lab has been constructed to test the basic assumption that there exists a definite correlation between animal and human behavior with respect to learning.

The experimenters are "teaching" seven hamsters, three gerbels, three fish and one white rat to run mazes, discriminate between colors and shapes and to master an obstacle course. Motivation of the animals is maintained by deprivation of either food or water.

Throughout their experimentation the students are expected to keep a detailed record of each experiment including an hypothesis, the problems encountered, graphic analysis and the observed behavior. It is hoped that through this experience students will acquire a unique and more comprehensive understanding of the factors related to learning.

## Documents Signed For New Complex

**JOINT VENTURE** — Holland Mayor Pro Tem Louis Hallacy II, (seated) chairman of a committee planning a new police headquarters, and William L. Kennedy of Allendale, chairman of the Ottawa Board of Commissioners, view plans for the new police-court complex to be erected on the site of the old police station. The police building is being financed through a \$660,000 revenue bond issue and the county court building lists estimated costs at \$284,366. Construction will take about a year and a half. (Sentinel photo)

A meeting of Holland city and Ottawa county representatives Friday afternoon in City Hall set in motion a joint venture which will result in a police-court complex on the site of the present police station.

Specifically, documents signed Friday authorize the demolition of the old police-fire station on West Eighth St. plus a few houses on the enlarged site.

The Ottawa County Board of Commissioners of which William L. Kennedy of Allendale is chairman already has approved contracts for the district court building which will serve well over a third of Ottawa county. Other courts in Michigan's 58th district are located in Grand Haven and Hudsonville. The Holland court also serves that part of the city lying in Allegan county.

Holland city is awaiting arrival of the \$660,000 from its revenue bonds arranged by the Holland Building Authority before awarding the bids, but City Council Wednesday night approved the first phase of demolition.

Construction of the court building lists a total of \$284,366. Of this figure, the base bid for general construction including mechanical and electrical work totals \$245,905. Alternate plans include a basement for \$43,418 providing a tunnel to connect with the police building for convenience in bringing prisoners to court.

When bond money is received, the city is prepared to let contracts for \$559,000, with base bid for general construction, mechanical and electrical work totaling \$555,237 to Ter Horst and Rinzema. This firm also is the contractor for the court building.

An item of some \$30,000 for equipment, landscaping, etc., is not included in the \$559,000 and City Council has agreed to fund these items in next year's budget.

Mayor Pro Tem Lou Hallacy heads the special police building committee which has been working on plans since January, 1970, when the then mayor, Nelson Bosman, appointed the group.

Chairman Kennedy of the Ottawa County Board of Commissioners Friday hailed the joint venture as an historic event of intergovernmental co-

operation. He pointed to safety factors in the plans, particularly the underground tunnel between the two buildings, and other factors which will facilitate service to the people of the community.

## MSU Head Addresses Chamber of Commerce

Higher education in Michigan holds great benefits for the public as well as the students. Dr. Clifton R. Wharton Jr., president of Michigan State University, told 220 persons attending the annual meeting of the Holland Chamber of Commerce Monday night at Point West.

Speaking on "Financing Higher Education," Dr. Wharton, who came to Michigan less than two years ago, said Michigan's largest university with an enrollment of 41,649 receives the least per capita support of all 13 universities, based on department costs.

But, he spoke of the significant social benefits not only at present but in the future. He mentioned a recent visitor to the MSU campus, a Nobel Prize winner whose significant breakthrough in grain production means hundreds of millions of dollars, not only to the United States but all over the world.

He pointed to continuing aims in efficiency, the greater use of closed circuit television, the attempts to maximize the impact of the excellent teacher, and said a survey revealed that faculty members average 59 hours a week, 85 per cent of it in teaching, counseling and research. He said the MSU teacher-pupil ratio is 20-1 while other colleges are mostly 10-1.

Dr. Wharton was well aware of criticisms of higher education and the increasing reluctance in the supportive attitude. He was even more aware of financial problems, pointing to a Carnegie report that 435 colleges and universities are in financial trouble with 1,000 more heading for trouble, and the expectation that 200 to 300 may not open doors next year.

He also was well aware of the shift of the financial burden to the student and his parents, stating the student paid 21 per cent in 1960-61, 26 per cent in 1965-66 and 30 per cent in 1970-71.

As for public benefits of education, he spoke of the meaningful participation in the democratic process by college graduates, the general aim in making citizens more productive, compared with the social problems of public welfare, crime, absenteeism and poor health. A university is not a glorified high school, he said, and there is great need for a well funded multiple program involving federal funds.

Dr. Wharton said the present economic situation has caused a drop of 7 to 8 per cent in the

possible, college chancellor William Vander Lugt, former Hope College president Dr. Calvin A. Vander Werf, Holland Mayor L.W. Lamb Jr., Ford and Hugh De Pree, chairman of the college's Board of Trustees. Ford, the House Minority leader in Washington, delivered the keynote address at the dedication.

Donald L. Ihrman served as master of ceremonies. Executive Vice President Roscoe Giles presented framed certificates to retiring directors James Hallan, William Venhuizen, William De Meester, Russell Gilbert, James Vande Poel and Mark Vander Ark.

The new president, Donald Hann, spoke of priorities defined at a two-day retreat last week, emphasizing the No. 1 priority for area planning and cooperation, a departure from the usual industrial development and tourism. Hann presented a past president's plaque to Warren Willard, immediate past president.

Story of Ali Baba was one of the tales in "Arabian Nights" Entertainments.

**HOPE QUARTERBACK** — Jon Constant (14), who was credited with his best performance as a collegian Saturday by Coach Ray Smith paced the Flying Dutchmen to their eighth straight homecoming victory over Kalamazoo College at Riverview Park. Constant completed 10 of 20 passes for

122 yards and rushed for 44 yards in 13 carries. On this play Constant is about to be dropped by an unidentified Hornet while Mel Mc Williams (65) is about to lower the "boom." Pete Semeyn (63) of Hope rushes up to help.

## Hope Defeats 'K' For 8th Straight Homecoming Win

Hope College didn't let its alumni down Saturday as the Dutchmen maintained their homecoming "magic" defeating Kalamazoo College, 21-6 before 3,200 Riverview Park fans.

The Hope victory, coupled with a loss by Olivet, has tossed the MIAA race into a four-way tie for first. The Dutchmen, Adrian, Alma and Olivet all have 2-1 records.

Hope brought its season record to 3-3 by winning its eighth consecutive homecoming game. The Dutchmen also retained possession of the legendary wooden shoes that have gone to the winner of the Hope-Kalamazoo grid clash every year since 1910.

Brothers Jon and Gary Constant combined on key second half offensive plays to lead the Dutchmen to victory.

Jon Constant, Hope's starting quarterback, hit brother Gary, the starting wingback, with a scoring pass early in the fourth period. Later in the same quarter Gary fired a touchdown pass of his own on a fake field goal attempt.

The Dutchmen, despite a slow start, had their best offensive performance of the campaign gaining 434 yards — 295 on the ground — behind 24 first downs. Control football was again evident as Ray Smith's charges ran 89 offensive plays to Kalamazoo's 50.

Sophomore Greg Voss moved closer to his own Hope single season rushing record gaining 172 yards in 37 carries. He also caught three passes for 22 yards and ran for a touchdown. It took a determined second half effort on Voss' part after the 165-pound tailback had been limited to 56 yards through the first two quarters.

Voss has 931 yards after six games and with three contests remaining appears to be a cinch to better his record 1074 yards of a year ago.

Kalamazoo led 6-0 at halftime scoring on a freak play with only 24 seconds remaining until intermission. The Hornets had moved from their own 20 on six plays and were on the Hope 17 when quarterback Larry Pfaff threw a pass intended for Pete Peterson. The ball was deflected from Peterson by Hope defender Bob Lamer, but the pigskin fell into the arms of a rather surprised Kalamazoo teammate Matt Thompson, who received credit for the touchdown.

Hope had two good scoring opportunities thwarted in the first half. Mike Hinga's 34 yard field goal attempt in the last minute of the first quarter was wide to the right. Minutes later the Dutchmen were on the Kalamazoo three when Jon Constant, lost possession on a fumble.

Hope limited Kalamazoo to two first downs and 65 yards total offense in the second half as senior middle guard Ted Rycenga and sophomore tackle Ron Posthuma led an inspired defensive charge.

Coach Smith credited Jon Constant with his best performance as a collegian. The Grand Haven native made the most of the Voss threat by using the busy back as decoy while effectively employing the play-action pass and option. Constant completed 10 of 20 passes for 122 yards and rushed for 44 yards in 13 carries.

The Dutchmen took the lead to stay marching 94 yards in 13 plays with Voss scoring his fifth touchdown of the season from the two. Hinga kicked the first of three consecutive extra points.

Hope's second touchdown drive covered 36 yards in four plays after a short Kalamazoo punt. The Constant act of Jon to Gary covered 25 yards for the touchdown.

Later in the quarter Gary hit sophomore Tom O'Brien in the end zone with a 17-yard pass that resulted from a fake field goal attempt. Gary was

to hold the ball on the Kalamazoo 24 for an apparent boot by Hinga, but instead he dashed to his right and hit the awaiting O'Brien.

Sophomore Ed Sanders rushed for 56 yards in his first start for the Dutchmen.

## Boards Meet To Discuss School Aims

GRAND HAVEN — Boards of Education of Ottawa county were well represented at a joint meeting of school boards of Kent, Muskegon and Ottawa counties Wednesday at Spring Lake Holiday Inn.

James Banta, vice president of the Forest Hills Board of Education, emphasized the need for local boards to work together on common objectives and to face the problem of more and more state and federal control.

In his welcoming talk, Donald Bolling, president of the Spring Lake Board of Education, pursued the deeper philosophies of life that should always be a part of the board member's inner consciousness. He emphasized the need for an infinite amount of patience, understanding and tolerance in order to be effective board members.

Dr. Norman Weinheimer, executive director of the Michigan Association of School Boards expressed amazement at the turnout of 120, a testimony of dedication on the part of board members. Group sessions followed the planned program and there were indications that this type of meeting would become an annual affair, geared to common goals and the awareness of retaining the type of board members who can understand and evaluate the needs of their respective communities.

## West Ottawa Kelloggsville Bruises Hamilton in Loop Game

Kentwood's football team rolled over West Ottawa, 31-0 Friday night at a jam packed Homecoming crowd at West Ottawa's field. This fired up team showed the fans why they are leading the OK Red Division with a 4-0 record.

Coach Ron Weatherbee of West Ottawa remarked that this was by far the best team they have played yet and that they just "outperformed us." "They were three and four deep in all positions" replied Weatherbee, and brought 57 players in all to the game. One of Kentwood's fine assistant coaches told us that he was really proud of the way the guys performed with everyone giving it 100 per cent.

This was a big and rugged team which could block and tackle with authority. This is the team to beat in the Big Red Division, a team that had a big line with speedy backs and a great runner by the name of Simmons.

Coach Weatherbee felt his team didn't play too bad considering Kentwood's depth. This big defense of the Falcons held West Ottawa to only 30 yards rushing and 31 yards passing, lowest of any game played this year for the Panthers, but again the tremendous depth and spirit of the Falcons was in evidence.

Paul Berkompas and Ken Topp were standouts on defense for West Ottawa but the quick openers by Simmons were too much for the Panthers defense. The game was marred by many penalties called, Kentwood was guilty of 11 infractions for a total of 115 yards while West Ottawa had nine penalties for a total of 98 yards.

Kentwood scored with only two minutes gone in the first quarter as Simmons took a pass from quarterback Beel and scampered five yards into the end zone. Mullet kicked his first of four extra points. Simmons again scored in the first period making it 14-0. Kentwood scored once in the second period on a pass from Beel to Beekman to make it 21-0 at the end of the first half.

West Ottawa's band put on a fine halftime show with the queen and her court being introduced to the crowd and several clever floats shown by the various classes.

The second half was pretty much the same as the Panthers offense could not move the ball against this hard hitting Kentwood defense. Again penalties held the Falcons down but Simmons broke off tackle and with lightning speed raced by the secondary for 78 yards and a touchdown.

Again in the third period the Falcons rolled but were stopped on the 10-yard-line of the Panthers as Bill Manifold intercepted a pass.

West Ottawa's offense was again stopped but the defense held Kentwood to just three points in the final period on a field goal by Mullet. West Ottawa is now 2-3 in the OK Red Division for the year and meets Okemos next Friday at home.

KELLOGGSVILLE — The Hamilton Hawkeyes lost a crucial football game here Friday evening as they fell to Kelloggsville, 26-0.

The key man for Kelloggsville was Marty Doyle who scored three touchdowns in the first half. Early in the first quarter Doyle ran the final 13 yards giving the winners a 6-0 lead. The PAT was unsuccessful.

In the second quarter Doyle first scored on a 49-yard run and later on an eight-yard pass play. Only one PAT was good.

The third quarter was score-

less, but in the fourth Hamilton watched as Denny Pitchellis of Kelloggsville break loose and sprint the final 25 yards for the last TD of the game. The PAT failed.

The score by quarters was 6-0, 20-0, 20-0, 26-0.

Friday's game was crucial to the Hawkeyes since they lost their chance to be first in the O-K Blue division. Hamilton's overall record is now 3-3. Next week the Hawkeyes will host Comstock Park.

Officials of the Greater Holland United Fund said Friday they were "very pleased" that a situation between the National Council on Crime and Delinquency (NCCD) and the Sportsmen's Alliance of Michigan (SAM) has been resolved.

"Now we can get about the business at hand, taking care of needs of the agencies of the Holland United Fund," president Roger MacLeod and campaign chairman James L. Juries said in a joint statement.

MacLeod said the agreement between NCCD and SAM was reached Thursday in a Chicago meeting of the NCCD board and representatives of SAM. NCCD agreed to eliminate a position on legislative gun control and concentrate on research into crime and delinquency.

SAM was expected to rescind its boycott of the United Fund at a meeting reportedly scheduled Saturday, MacLeod said.

"We sincerely hope that any persons who have not contributed to date to the United Fund because of the controversy feel a strong responsibility to do so now since the issue has been resolved," MacLeod and Juries said.

The Holland campaign, with a goal of \$204,463, reported 20 per cent of its goal at a preliminary report meeting Wednesday.

In Chicago, Len Tropin, public relations director for the NCCD, said effects of the boycott forced the council's board to reconsider its previous stand which called for stringent gun control laws including registration of hand weapons.

"We're not trying to hide the fact that we are responding to blackmail," he said. "But we do feel our new position is a better one. Gun control is an area that needs to be researched before the government rushes and passes laws."

Last year the Michigan United Fund provided \$70,000 for the NCCD's \$3 million national budget, Tropin said.

## 4th Victory Of Season For Holland

PORTAGE — Holland's football team battled its way to victory here Friday evening by defeating Portage Northern 12-6 at McCamley Field.

Rain fell most of the game and caused a slippery mud puddle between the 30 yard lines.

The Dutch kept the ball on the ground, passing only two times the entire game as compared to nine attempted passes last week.

The rain-soaked fans witnessed little real action as both teams slipped and splashed around the field, failing to break through the opposing defense.

Both teams scored in the first quarter with Portage scoring first. Larry Horn of Holland fumbled and Bob Wagner picked it up and ran 60 yards untouched, giving the Huskies a 6-0 lead. The PAT failed.

With 3:30 left in the quarter the Dutch received the punt and moved the ball to the Portage 18-yard-line when Horn handed off to Randy Kuipers who went up the middle for the last 18 yards. This tied the game at 6-6. Holland's PAT pass play was incomplete.

The second quarter was scoreless as both teams failed to move the ball and were forced to punt several times. Portage used their 6'4, 192-pound sophomore John Higgs to do most of their power running but found that the Dutch defense allowed him little yardage. He was usually forced down in the mud.

During the third quarter Holland controlled the ball for most of the period but was unable to get in scoring position and settled for short runs by Randy and Craig Kuipers.

The last quarter was lucky for the Dutch. It all started when R. Kuipers kicked a long 66-yard punt. The ball landed on the Huskies' 15-yard-line and rolled to the one. Portage kept moving the ball on short runs and drives until it was on their own 22-yard line, fourth down and one yard to go. The Huskies then chose to gamble and lost when they tried to run but were piled up. Holland got the ball on the 14-yard-line and their first down attempt failed. A penalty against Portage moved the ball to the six-yard-line and gave Holland a first down. R. Kuipers then ran the ball for the deciding TD and with 4:18 left in the game. The PAT pass was knocked down.

Portage failed to get the first down thus giving Holland the opportunity to let the clock run out.

The Dutch, coached by Dave Kempker, have an overall 4-2 record and will travel to Grand Haven next Friday.

## Zeeland Stops Kenowa Hills

ZEELAND — Zeeland's football team, after getting a first quarter jolt, stormed back to defeat Kenowa Hills, 16-8 here Friday night in the annual Homecoming clash.

Coach Ken Postma reported Kenowa Hills scored first on a disputed call. With 4:51 left in the first period, Zeeland back Bruce De Jonge had the ball stolen from him by Doug Wilson of Kenowa Hills.

Jerry Van Wyke ran for the extra two points and the losers led, 8-0.

But with 4:25 left in the first half, Zeeland's Bruce De Jonge capped a 41-yard drive with a two-yard touchdown run. Bob Johnson ran the extra points and the teams were tied 8-8 at half.

Zeeland scored its winning touchdown late in the fourth quarter. De Jonge ran the final yard following a 66-yard drive. Terry Hop passed to Rick Brinks for the extra two points.

On the disputed call, Postma claimed one of the officials had blown the ball dead and another signaled a touchdown. Postma said the official admitted to him at half that the whistle had blown. Postma said De Jonge had fallen to the ground with the ball in his hands and Wilson had picked the ball off De Jonge's stomach.

Zeeland, now 4-2, travels to Grand Rapids Northview next Friday to meet Coach Gene Ven Dongen's No. 1 rated team.

## Grand Valley Students Tab Junked Cars

ALLEDALE — Approximately three junk vehicles per square mile have been tabulated this month in nine of 17 Ottawa county townships by members of two seminar classes of Grand Valley State College's new William James College.

Thus far WJC students have counted 800 junk vehicles within the townships of Allendale, Blendon, Georgetown, Grand Haven, Park, Polkton, Robinson, Tallmadge and Wright. Information gathered from the survey is being shared with township boards in the hope that some form of action can be taken toward removal.

Under the direction of WJC faculty member, John MacTavish, the on-going project has introduced students not only to an environmental problem, but also to the numerous variances within local governmental ordinances.

For example, students have found that in some townships, a letter of disclaimer of ownership from a
